## End Of An Era . . .

An era ends in the Quitaque schools Friday night.

It all began back in 1915 when Bert Grundy started to school in Quitaque and will end when Jerry Beth Grundy receives her diploma.

Then when school starts next fall, for the first time in 50 years, there will not be a Grundy in the Quitaque schools.

During the 50-year period, 21 children named Grundy have attended the local schools.

Mr. and Mrs. Jess Grundy had 10 children who attended the Quitaque schools and 9 of the 10 graduated here. The lone exception was Bert, who attended school here until he was

a senior, when he went to Memphis and graduated from Memphis High.

Mr. and Mrs. Ed Grundy had three children who attended the schools here and Mr. and Mrs. I. G. Grundy had two children to graduate from QHS; Mr. and Mrs. Jean Grundy had one daughter to attend the local schools but she did not graduate here; and Mr. and Mrs. Bert Grundy's daughters all attended school here and all but Sue graduated and Sue was a senior and lacked only a few weeks of graduation when she married and decided not to finish.

It just won't seem right not to have a Grundy in school.

## FIRST CUB SCOUT MEETING TO BE HELD MONDAY NIGHT

Mr. and Mrs. Gene King and children visited her mother, Mrs. Anna Mae Boulware in Amarillo over the week-end.

Mr. and Mrs. J. T. Persons drove to Alvarado on Saturday, May 8 for a visit with their daughters, Barbara Kaether and her family and Norma Jean Hewett and her family. The Hewetts had moved to Alvarado only two weeks before Saturday evening. Tad Persons and wife Nila drove over from Dallas and the entire family were together for dinner. Sunday afternoon J. T. drove to Possum Kingdom Lake below Graham for a Federal Land Bank regional meeting and hopefully, for a little fishing, but it rained all the time and he came home Tuesday afternoon. Mrs. Persons is expected to return this Thursday.

Mrs. Cora Gragson presented her piano students in recital Sunday afternoon at the First Baptist Church.

Twenty-two students participated in the recital and Mrs. Gragson reported that there was a good turnout to hear the recital.

Mrs. Letha Mae Collins took her mother, Mrs. Claude Cantrell, to Groom Monday, to see her doctor. Mrs. Cantrell has been bedfast for a month.

Mrs. Nora Ayres of Lockney visited her sister, Mrs. Chester Hawkins and husband Sunday. Chester came home from the hospital in Lubbock Friday and is feeling pretty good.

Dr. Edwin Kajihoro of Wayland Baptist College will deliver the Commencement address to the assemblage.

Prin. George Ray Colvin will present the various awards and Bruce Price, Pres. of the Board of Trustees, is scheduled to present the diplomas.

Mr. and Mrs. Finis Jennings of Lazbuddie spent Sunday night with their son, the Rev. and Mrs. Al Jennings and his family.

## FISH ARE BITING IN LOCAL LAKES

Quitaque's fishing lakes have been giving up some bragging-size catches during the past several weeks with Cottonwood Lake probably being the hottest item at the present.

Warren Payne took 4 black bass at Cottonwood which tipped the scales to a 24 pound total. Horace Hunter recently landed a 5-lb. bass out there. Salty Jones and his family have been having good luck also, at Cottonwood, catching strings weighing 15-lbs. on one occasion and a 20-lb. string another time weighing up to 4-lbs each. The O. R. Starks have been having good luck at Cottonwood also. O. R. reporting netting a crappie measuring 14 1/2 in length and weighing an exact 2-lbs.

George Hulsey reported that he also landed a 2-lb. crappie out at Lake Theo.

The new Holmes Creek Lake has also given up some good catches, even though this is the first year for it to be fished. In fact that lake is only about a year old and gives promise of being a real fishing place with a little more time.

The report came this week that an 8-lb. bass had been caught out at Burson Lake.

So, the fishing is good in these parts and will probably get better as time goes by.

The Tribune would like to have pictures and news from all fishermen and women.

## Summer Rec Program Plans About Complete

Directors of the Summer Recreation Program met in the Bank Community Room last Friday morning to make final plans for this summer's program and to take care of the Program.

Coach Gene King, who has been directing the program in the past, had notified the directors that he would be unable to do so this summer.

Mrs. Duke (Mary) Woods was elected to direct the program this summer and she accepted the responsibility.

In addition to directing the program, Mary will serve as swimming instructor. She was an assistant in that capacity last summer.

P John Monk and Joe Bedwell were elected to head the Little League Baseball Program.

James Barefield, John Bowman and Ray Payne will have charge of the Pee Wee Baseball Program.

Supt. Johnny Mason, Coach Gene King and O. R. Stark will head the tennis activities.

Coach Gene King will have charge of the basketball activities.

Director Mary Woods said that she will have two groups of swimmers: those who will go to the Silverton Pool and a class for 5 and 6 year olds who will be given their instruction at the pool in the City Park here. Mrs. Woods said that she has had a number of inquiries about a swimming class for adult women and she reports that one might possibly be arranged if enough interest is shown and arrangements can be made at the pool.

Director Woods said that the signups for tennis, baseball (all ages) and swimming will begin Saturday afternoon at 2 p. m. at the school auditorium.

Fees for the various activities are as follows: Swimmers who go to the Silverton pool, \$5.00; 5 & 6 year olds who will go to the local pool, \$3.00; tennis and baseball, \$1.00 each. Fees must be paid at the time of the signup.

As has been the case in the past, transportation to and from the pool at Silverton will have to come from volunteers and you are requested to call Mrs. Woods at 2296 if you can take a vehicle. If possible let her know at least a day ahead of time when you can go.

The Caprock Freshman Baseball League schedule begins on May 31 and Quitaque plays its first game on Tuesday, June 1, meeting Roaring Springs here at Quitaque.

The Caprock League is the new league just organized a few weeks ago with four league members: Quitaque, Roaring Springs, the Matador Panthers and Matador Rebels.

This new league is a member of a state-wide organized league with a set of rules and regulations with which every team must comply. These teams play to league, district, regional and state championships.

One rule that is called to the attention of everyone, and over which local managers have no choice is Rule 10-4 (a) from the Official Rules and Regulations: "Freshman Tight Base League teams will be permitted fifteen (15) active players on their roster for league play, but not more than six (6) players whose league age is twelve (12) years, and must have at least two (2) whose league age is ten (10) or under."

The rules state that a player whose age becomes 13 on or after August 1 will be considered as age 12 for league play.

All team rosters must be cut to 15 and official rosters must be mailed to the State Secretary not later than June 15.

This baseball season should be an interesting one for local kid players.

Fifteen new baseball suits complete with caps have been ordered for the members of the Freshman League team. The old suits will be used by the Pee Wee team.

The Lions Club has been hard at work getting the new baseball field ready for the new season. The Lions Club, although not officially sponsoring the baseball program, has spent quite a bit of money on the baseball program and is sort of underwriting the program. The Lions Club will operate a concessions stand at the baseball games with the proceeds going to the baseball program.

Insurance is being provided for the Little Leaguers this summer. It is not known yet all the details on the coverage but it is hoped that the coverage will be secured for the Pee Wees and for the drivers of vehicles and

### DETAILS OF CHANGES IN 1965 COTTON LOAN PROGRAM

The Department of Agriculture on April 22, 1965, announced changes in the 1965 Cotton Loan Program. The announcement covered broad areas of administration. There is set forth below information on how the 1964 program operated and additional information as to how the 1965 Cotton Loan Program will operate.

#### Operation of the 1964 Loan Program for Cotton:

A "Sample" was drawn from the bale of cotton and sent to a board of Cotton Examiners and classed. It usually took two or three days for the producer to receive the official classification. The loan note (form CCC Cotton A) could not be prepared until the official classification was received by the producer or his representative. It was required that warehouse receipts show that warehouse receiving charges had been paid before cotton could be placed under loan. In some instances this requirement resulted in an additional trip to the warehouse by the producer before his cotton could be placed under loan. Lien holders were required to waive liens on the crop and could be designated on the note to be reimbursed from the loan proceeds. Clerk fees for preparing loan documents were authorized. The loan note could then be signed and witnessed and the loan proceeds disbursed whether by an approved lending agency, by an Agricultural Stabilization and Conservation Service county office or by the New Orleans Commodity Office. If the loan was disbursed by an approved lending agency, such agency was financially responsible for an ineligible cotton tendered to CCC after disbursement by a lending agency or county office, loan notes and warehouse receipts were sent to the New Orleans Commodity Office. To redeem cotton from the loan required the producer to have a release of warehouse receipts form validated by his ASCS county office. This form was then mailed to the New Orleans Commodity Office by the pro-

ducer or the loan equity purchaser with a request that the warehouse receipts be mailed to a specified bank for loan repayment. After the receipts were received by the bank, it was then necessary for the bank to notify the producer or equity producer. The person redeeming the cotton then called at the bank, repaid the loan, and picked up the warehouse receipts. This procedure required several weeks from the time the release of warehouse receipts were requested until the warehouse receipts were obtained by the person redeeming the cotton.

#### Operation of the 1965 Loan Program for Cotton:

The procedure for cotton sampling, classing and note preparation will be the same as in 1964. For 1965 crop cotton it is not required that warehouse receipts be stamped showing that warehouse receiving charges have been paid. If warehouse receipts are not so stamped the loan will be reduced by the amount of the receiving charge. The custom in the warehouseman the receiving charges and the accrued storage on 1965 crop loan cotton acquired by CCC. In 1965 loan clerks will be approved at various places such as banks, warehouses, cotton gins, etc. to be of maximum service to cotton producers. An advance to the producer may be made by any firm, individual or other entity and be reimbursed from the loan proceeds. All disbursements on form A loans will be made by county offices.

If the loan is to be disbursed by a county office other than the one where the farm records are maintained for the farm on which the cotton was produced, the loan clerk and his employer, if any, will be held financially responsible for any ineligible cotton tendered to CCC for loan. The loan documents can be sent to the most convenient ASCS county office for reimbursement, thus the firms advancing funds to producers will be reimbursed promptly.

It is expected that for the most part, producers of cotton will utilize the services of their local ASCS county office or approved loan clerks at convenient locations in the county. As in prior years producers will not be required to go to the county office to get his loan disbursed. Clerk fees for preparing loan notes are author-

ized as in 1964. Loan documents, including supporting warehouse receipts and classcerds, will be maintained in county offices. This will make it possible for cotton merchants to determine from documents at the county office the identity of producers who have cotton under loan, as well as the quantity and quality of such cotton. Under this arrangement producers and loan equity purchasers will be able to redeem loan cotton quickly either at the county office or at a bank designated by the person redeeming the cotton. This should help many farmers to sell their equities at a profit and reduce the volume of cotton acquired by CCC. Loan redemptions will not require the producer or other person redeeming the cotton to personally visit the county office. Forms necessary to redeem loan cotton will be available at the office of approved loan clerks, banks, warehouse, cotton gins as well as ASCS county offices.

It is believed that under the 1965 Loan Program cotton producers will be served better than in 1964 and at reduced cost to CCC. Most county offices will be able to handle the program with present personnel and, overall, fewer employees should be required to handle the 1965 Cotton Loan Program. These changes will provide for effective program administration and will afford greater convenience to cotton producers and the industry than is provided for most other commodities. The 1965 procedure will afford county offices full opportunity to audit the documents and determine whether the cotton meets the loan eligibility requirements.

**shining example of community development**

One of the most important factors in community development comes when private businesses engage in building improvement and modernization. The new look of Ballinger is a shining example. Recently, a total of 20 stores, offices, plants and other firms have modernized with new fronts, new interiors, new lighting, and in some cases, complete new buildings. It gives Ballinger, literally, a new look . . . pleasant and inviting . . . a true **PATTERN FOR PROGRESS** in community development. **COMMUNICATIONS Your Tool for Progress**

**This coin telephone  
benefits you in TWO ways**

First of all, it becomes a "friend in need" when a quick call is necessary... puts a telephone where you are and makes it available 24 hours a day. It is profitable to communities, too, providing new income when we are permitted to locate them on public property. There is an added advantage in some states where it can lower fire insurance rates because of the availability of prompt alarms. So the next time you see a coin telephone, consider it an example of convenience in Communications — Your Tool for Progress. You are invited to call our Business Office for information about income-producing booth locations.
