Once again you have done yourselves and your school proud by winning a very fine victory in Bi-District competition. You won again over a big, tough opponent, one that some felt would be too tough for you to beat.

Your next opponent will be even tougher and you will have to play your best to win. Listed below are some of your fans who extend heartiest congratulations for another good season, along with best wishes at Canyon. They and a lot of other fans, will be there rooting for you.

TESTING PROGRAM TOSTART

By Walter W. Taylor Within the next few days our school will start a testing program, to be given to every student in school who has not previously had the test.

This program will start as soon as the material for the tests arrive. The freshman class is in the process of taking one of the tests now. The PESO program will pay the expense for these tests. A second part of this test, which will be given at a later date to some of the students, will be a reading test.

We hope that these tests will help the teacher understand each student's ability and what he has learned and therefore be better able to give him the kind of help he needs to receive a s closed. However, for the 7th full education through our school system.
