The U. S. S. Crockett—one of more than 250 carriers, battleships, cruisers and attack transports in the Navy's famed "Magic Carpet" fleet—left Okinawa, November 23, and is scheduled to arrive in Seattle, Washington, about Dec. 8.

Passengers will go directly to the separation centers nearest their homes to complete the formalities of obtaining their discharge before returning to civilian life.

### Selling Shares In Phone Company

Members of the Muleshoe Chamber of Commerce, meeting last Friday, accepted the report of its committee named the previous week to begin work on an independent telephone company and subscribed for 30 shares of stock.

It was agreed to organize a company to be known as the Muleshoe Telephone Company and to sell shares to local citizens at \$100 per share. There will be 200 shares.

An enlarged committee is now engaged in canvassing the entire town for subscriptions. Largest subscription at the meeting Friday, at which there were only a few businessmen present, was five shares. Members expressed the hope there will be as many as possible to take at least one share.

The U. S. S. Bottineau—one of more than 250 carriers, battleships, cruisers, and attack transports in the Navy's famed "Magic Carpet" fleet—left Okinawa, November 20, and is scheduled to arrive in San Pedro about December 5.

Passengers will go directly to the separation centers nearest their homes to complete the formalities of obtaining their discharge before returning to civilian life.

### Students Visit Wildlife Refuge

A group of 26 biology and farm engineering students of the Muleshoe high school made a field trip Wednesday, Dec. 5, to the Muleshoe Wildlife Refuge, located 17 miles south of town.

Mr. O'Neill, the manager of the Refuge, had previously constructed a women wader duck trap which resembled an overgrown fly trap. Several ducks had entered the trap, so the students spent the morning handling the ducks with leg bands. A picnic lunch was served, after which a tour of the refuge was made. Mr. O'Neill explained that the diet of almost all birds was composed of insects, wild grasses and seeds, such as a rare found in the birds natural habitat. The birds only become pests when they have increased to such numbers that their food supply is scarce.

Students making the trip were: Patsy Bennett, Glenn Berry, J. C. Buchanan, John Crow, Pat Elliott, Max Gardner, Eddie Joe Hall, Jack Head, Bobby Kimbrough, Wayne Kindred, Bobby McGee, Max Ragsdale, Bill Sybert, Bill Jim St. Clair, Doyle Taylor.

Mr. and Mrs. Smith have gone to Idalou where they will operate a service station.

## City Bond Election Coming Saturday

### Blondie Ray Has Bought Conoco Service Station

O. D. "Blondie" Ray, who recently was discharged from the Army after serving in the India theatre, has bought the Conoco Station from O. L. Smith and began his operation this week.

Blondie is widely known in the Muleshoe territory. He has made the acquaintance of large numbers of the people during his association with the Waggon Grocery.

He will continue to stock Conoco gasoline and oils and hopes to maintain a strictly modern service at all times, giving prompt attention to the motorist and his problems.

Mr. and Mrs. Smith have gone to Idalou where they will operate a service station.

People of Muleshoe will vote Saturday on the proposal to issue bonds in the sum of \$150,000 to provide funds for improvement and enlargement of the city's sewer and water systems, for a city auditorium, and for paving city streets.

The proposal has the backing of the Muleshoe Chamber of Commerce, composed of business men of the city.

On another page in this paper will be found an advertisement containing a statement of the city commission, outlining the argument in favor of the bonds. Of interest to every taxpayer is the statement that unless improvements are made to the city water system, Muleshoe is going to find itself seriously handicapped in its water supply.

It appears that unless an improvement in the water supply is made, property owners are going to pay a penalty on their insurance premiums. And in addition, residents are sooner or later going to have to get along on less water than they have been accustomed to using.

### Hospital News

Wayland McCarty, who underwent surgery last week, continues to improve.

Mr. and Mrs. A. J. Roberts are parents of a son, born Dec. 5.

Glenda Ruth Jenkins, daughter of Mr. and Mrs. L. A. Jenkins of Baileyboro, received emergency treatment for a broken arm last Thursday.

Several brought things they had made and several women wore feed sack dresses.

We had two visitors: Mrs. Maltby and Mrs. Brown of the Progress club.

Refreshments were served to the following: Mesdames M. A. Snyder, W. W. Williams, Partin Austin, W. L. Key, R. C. Sheegow, W. W. Couch, Maltby and Brown, and the hostess, Mrs. Cummins.

Our Christmas party will be Dec. 12 in the home of Mrs. W. W. Williams.

### Vote For The City Bonds

Voters of Muleshoe will have the opportunity Saturday, December 15, to decide the future of their city in the next few years. This newspaper believes that every proposition included in the bond election should receive the approval of the majority of its voters. If the bonds carry, Muleshoe will be able to continue its expansion and growth; if not, its future will be limited.

Muleshoe stands at the crossroads today; much depends upon the road we take. Issuance of bonds to insure a program of growth and expansion will be step upon the right road.

"There is a tide in the affairs of men, which, taken at the flood, leads to fortune."

This is your opportunity, Mr. and Mrs. Voter, to express your faith in your city. Vote for the bonds—vote for a bigger, better, happier Muleshoe.

## PUBLIC FORUM

Mr. and Mrs. Levi Jensma, of Newton, Iowa have recently renewed their subscription to the Muleshoe Journal and penned a few lines to acquaint the readers here about things in their community. Their letter follows:

Here are a few lines from our part of the country:  
Weather today is fine. We have had a great deal of damp, cloudy weather.

November 21 we had quite a snow for the first one, 2 inches, but it is nearly all gone here in town. The saying goes, the first 3 days of September rules the winter. On December 1, it rained all day; on the 2 and 3 it was very cloudy and damp.

Oats are pretty good; soybeans are good; some corn, good, a great deal did not get ripe. There are no apples, very few potatoes, some garden stuff did well, while part of it did not amount to much.

We really had a rainy season, made corn planting late and a lot of replanting.  
We always look forward each week for our Muleshoe Journal, as we enjoy it very much.  
The Jensmas

Muleshoe, had some of their children here for Sunday dinner.

Their children being, Mr. and Mrs. Austin Guesz, Ranger, Texas, Mr. and Mrs. Carl Guesz, Clovis, New Mexico, and Mr. and Mrs. Cecil Davis of Muleshoe. The Grand Children present were Miss Mary Frances Guesz, Ranger, Texas, Mr. and Mrs. Johnnie Dowdy, Miss Loretta Guesz, Miss Charlene Guesz, and Mr. Don Guesz all of Clovis, New Mexico, and Pfc Waymon Mitchell of Camp Hood, Texas. Miss Judy Carolyn Dowdy age three, a great grand daughter and Mr. and Mrs. A. L. Davis of the Fairview community, all enjoyed the big turkey that was furnished by Mr. and Mrs. Austin Guesz.

The afternoon callers were: David Wyer, Jack Obenhaus, Harlan Davis, and Jack Schuster all of Muleshoe.

Pfc Waymon Mitchell returned to duty at Camp Hood Sunday evening after a fifteen day furlough with relatives and friends. Mr. and Mrs. Austin Guesz also returned home Sunday evening where their daughter, Mary Frances resumed her studies at Ranger Junior College.

The following letter was received by Mr. and Mrs. L. T. McKillip from their son, J. E., who is serving with the Quartermaster Corps in Soke, Okinawa.

Dear Folks:  
Will answer your letter I received tonight. I am well and seeing lots of country. We left the States from Seattle, Washington, on the USAT Cape Cleare.

We arrived at Pearl Harbor after seven days at sea. We didn't get off the ship, so all I got to see was from the ship. As we went into the harbor we could see Diamond Head.

We anchored in the harbor where the ships were sunk when the Japs attacked in 1941. It was amazing to watch the traffic on the highways and the small trains they have there. As we pulled out, we could see Honolulu from a distance.

Eight days later we arrived in Eniwetok, a small island in the Marshalls. We didn't stay there long but continued our trip into Okinawa. We arrived here October 5th.

We are located at a small town called Soke, which is eighteen miles north of Nagasaki, the capital of Okinawa. Very few buildings are still standing. The capitol building itself was almost demolished by bombs.

I have been in Chocolate Drop Hill, Sawtooth Ridge and Shury Valley. All these places are where the G. I.'s had a tough time. These battlefields are just as the battle ended.

I am now working in the office of our Class 1 dump, which handles all types of food. I am operating the calculating machine figuring the number of rations to be issued to each outfit.  
Our dump is just stacked full of food. At present we issue rations to feed 150,000 men daily.

The natives over here are quite friendly and some can speak English well. The prisoners of war work under guard loading and unloading supplies. Japanese women work in the laundries. The natives here have small rice paddies but due to the war their crops aren't very good.

There aren't very many animals here. The only animals I have seen are some poor old horses pulling carts and a few chickens and goats.

We have two dogs in our company but the officers brought them over on the ship.

Well, guess this is all the news for now.  
Your son,  
J. E.

By S. A. Ribble  
A stuffed club does not hurt quite so bad when it strikes, but it may deal a knock out blow just the same. Here is one such that may knock out a lot of folks.  
Slip this out and put it where you can see it JUST BEFORE CHURCH time each Sunday, and mid-week service. It might be the means of saving your soul. Each one of these passages from the Bible constitute a knock-out club to those who are not doing what they could.

"Curs'd be he that doeth the work of the Lord negligently." Jer. 48:10 R. V. The common version says "deceitfully"—just pretending to do the work.  
"The soul that doeth ought presumptuously, reproacheth the Lord." Num. 15:30. We may not substitute our own plans and notions for those of the Lord. "Ye shall not do every man whatsoever is right in his own eyes." Deut. 12:8.

"That servant which know his Lord's will and prepared not himself, neither did according to his will shall be beaten with many stripes." Luke 12:47. Note the words "prepared not himself." The Lord expects us to PREPARE to do his will. The fact that we did not, or were not prepared, will not excuse us—we are guilty.  
"If ye were blind ye should have no sin: but now ye say WE SEE: therefore your sin remaineth." Jno. 9:41. Those who can see and know are without even an excuse for not doing what they see and know to do. Beware excuses are not reasons. They are of no protection in time of trial and trouble.  
"He that knoweth to do good and doeth it not, to him it is sin." Jas. 4:17. To serve God, obey his will is always good. To become and remain a practical Christian is unquestionably good. To give attention to the Lord's work, of whatever nature, is good, and always good.

"He that believeth on the Son hath eternal life; but he that obeyeth not the Son shall not see life, but the wrath of God abideth upon him." Revised Version, Jno. 3:36. Shall not see life: wrath of God abideth on him. Fearful condition to be found in. Believing a one will be found in. The wrath of God will permit one to escape from under the wrath of God.

"Take heed, brethren, lest there be in any of you an evil heart of unbelief in departing from the living God." Heb. 3:12. There may be evil hearts, unbelief and departing from God even among brethren of the Lord, so warns Paul. Beware, there's danger to the careless and unthinking.

NEED MORE? Yes we surely do. More classrooms, more auditorium room. More interest in such progress. Why not help us, brother? Come to our next business meeting. Come prepared to think and act about such. Why not? Need a bigger and better preacher's home. Let your business men among the brethren every try to do something about some of these things. NEED MORE? Sure we do.

Well, guess this is all the news for now.  
Your son,  
J. E.

## So the People May Know:

The improvement and extension of our Sanitary Sewer and Water System has become not a choice on our part but an absolute must, in our opinion.

Many sections of our city are still without the benefit of these modern conveniences. Citizens in those sections are clamoring for sewer and water extensions which we cannot make unless money is provided by voting bonds. We cannot make these additions out of tax funds and maintain our sinking fund balance in the way it must be maintained.

Then, too, Muleshoe must have MORE water than we are able to provide with the present pumping and storage facilities. Many residents remember last summer we were without water for short periods. This condition will be aggravated in coming years with the growth in population and especially when the canning factory, the railroad and other industries become heavy users.

We have been advised to replace our 6 inch main leading to the storage tower with an 8 inch main. Unless this and other changes are

made, Muleshoe people will pay an extra penalty on their fire insurance premiums. This is a must in the near future.

Everybody wants Muleshoe to have a city auditorium—a place where public gatherings may be held. And everybody would like to see a street paving program undertaken — these bonds will provide the money for such developments.

These things can be accomplished WITHOUT RAISING YOUR TAXES. The Sewer and Water issue, \$100,000 will be repaid out of revenues from such system. The other bonds will be repaid from tax monies, BUT—the city will never have to increase taxes or raise valuations in order to repay them. Of this you may be certain.

## Sidelights From Washington

By Congressman Geo. Mahon

I think you will be interested in an appropriation bill on which the sub-committee of which I am a member, is now holding extensive hearings. We want to complete the testimony, write the bill, and pass it through the House in January. It is to be the first appropriation bill for the year 1946. This will be a good time to set a post-war standard for economy and re-

duced government spending, and insofar as I am concerned, whenever possible I shall insist upon definite reductions in expenditures.

The first sentence in the bill will provide the money for the salary of President Truman and money for running expenses of the White House. Witnesses from the White House have already been heard.

The bill is quite an important one, as it will provide the money for the operation of 23 independent agencies of government. It will provide for a total expenditure of several billion dollars. By far the largest sum will be for the Veteran's Administration.

It is costing 3 1/2 billion dollars to run the Veteran's Administration this next year. Next year the amount required will be much larger as we propose to provide the Veteran's Administration with every necessary dollar to care for the war veterans of the nation. General Omar Bradley, head of the Veterans Administration, and his staff will appear before us next week for a detailed discussion of pending needs.

As this is being written, we have just finished a long session with Thomas H. MacDonald, who is head of the public roads administration. We will probably provide \$300,000,000 for expenditure in cooperation with the states in the road program of the nation. During the war much necessary road repair and new construction was suspended, and we are going to make possible a greatly expanded road construction program. This program will be of direct interest to the people of West Texas, in fact, the nation.

One disturbing statement made to the committee during the hearing could well be pondered by every American: "The fatalities from traffic accidents in August, 1945 were 27% above those in August, 1944; in September, 1945, fatalities were 43% above those in September, 1944."

## Picture of a Man Building a House

Why, you say, he's just putting something in his safe deposit box! That's right, he is just putting a Victory Bond away. He has bought—and held—War Bonds regularly, ever since the war started. And he's adding regularly to his bank account, too.

He is building his house, just as sure as you're born. He and his wife came in not long ago and told us how they had planned their saving. Everything was worked out in black and white. They want to be ready to build when prices are right and materials are available. They wondered if we would help them finance the completion of their house. We answered "Yes," of course. We are glad to go along with folks who plan their spending, plan their saving.

Isn't this a good formula for building a house, or buying a car or paying for a college education?

Steady bond buying, regular saving, plus a plan to spend at that future time when your dollars will buy more, adds up to future family security. Your family deserves no less.
