HAMILTON FAMILIES INJURED IN AUTO ACCIDENT AT EL PASO

Mrs. Norvelle Hamilton of Quitaque and Mrs. Robert Hamilton and children of Amarillo were involved in a serious automobile accident in El Paso Saturday afternoon.

Mr. and Mrs. N. V. Hamilton drove to Tulia Thursday afternoon where they met their son, Robert and his family from Amarillo. The N. V. Hamiltons left their car in Tulia and went with their son and family to Carlsbad, N. M. that night, then Friday morning, the group went through the Caverns. They drove on to El Paso that afternoon.

Saturday afternoon the men went to the races and the women went shopping. The N. V. Hamiltons had planned to meet his cousin and wife, Mr. and Mrs. John T. Hamilton there in El Paso and as the ladies were going to pick up their husbands, Mrs. Robert Hamilton, who was driving, stopped at an intersection when an auto, reported to have been driven by Mrs. Ella Kemp, 54, of Albuquerque, N. M., ran a red light coming off the freeway. Her auto pulled into the path of a pickup truck reported to be driven by Ferrando F. Najera, 36, who swerved his vehicle to miss the other car and hit the Hamilton car in the side. The impact threw Mrs. Robert Hamilton across the seat and into Mrs. N. V. Hamilton. Mrs. Robert Hamilton's teeth struck her mother-in-law on top of her head, cutting a gash, and dislocating all of her own front teeth. The two children, riding in the back seat, were thrown together in a like manner, but were reported to be not seriously injured. Both women and the children, Carol 9, and Kris, 6, were taken to Providence Hospital for treatment of possible internal injuries, cuts and abrasions. Mrs. Kemp was reported to have been given a ticket for failure to yield right of way.

This accident took place about 4:10 p. m. The Hamilton auto was a total loss.

The Hamiltons had a short visit with his cousin at the hotel following the accident. They returned to Amarillo Sunday night. Mrs. Robert Hamilton went into a clinic near her home Monday morning for x-rays, then went into surgery at 2 p. m. for repair of the injury to her mouth, which was quite severe.

Mrs. N. V. Hamilton remained in Amarillo to help care for her daughter-in-law and the children. She had planned to return home Thursday but her husband reported that his wife called and said her daughter-in-law had not slept the night before and she would stay longer. Mr. Hamilton drove on to Amarillo to be with them.

MANY RURAL PEOPLE IN BRISCOE AND SWISHER COUNTIES BENEFITTED BY FHA LOANS

More than 108 rural people in Briscoe and Swisher Counties have new or vastly improved homes as a result of \$239,200.00 in insured loan funds advanced through the Farmers Home Administration in the past two years, Donald B. Cruce, local County Supervisor of the supervised credit agency reported today.

Approximately \$142,900 was advanced in 1967. The rural housing program was greatly expanded in 1965 when, as part of President Lyndon B. Johnson's effort to strengthen rural America, the financing of the loans was switched from federal to private sources. Practically all of the rural housing loan funds now come from private sources on an insured basis.

The construction that took place as a part of the credit program provided 71,473 man-days of employment for local carpenters, plumbers, electricians, and masons. In addition, the housing funds circulating through the county gave the local economy a \$1 million boost.

Typical of the homes built in Swisher and Briscoe Counties during the past year is the one belonging to Cecil Ledgerwood at 615 SE 3rd, Tulia; James T. Strange, Silvertown; and Deloy Myers at Quitaque.

Pantherettes Take Third At Regional Tournament

The Quitaque Pantherettes had to settle for the third place trophy at the regional tournament last weekend at Canyon as they were nosed out by Sundown 64-60 in the Saturday morning semifinal round of play. However, fans who attended the tournament know that the game between Quitaque and Sundown was actually the championship game, for those two teams were head and shoulders above all the other teams in the meet, Sundown went on to take an easy win over Follett in the final game in the tournament and the Pantherettes clobbered Jayton 88-43 in the game for third place.

The Pantherettes set a new tournament scoring record Friday night as they sailed past Happy 75-44. The old record was held jointly by Cotton Center and Claude. The Pantherettes shattered their own record Saturday night when they recorded 88 points.

In the Friday night game the Pantherettes, as usual, got off to a slow start with the Cowgirls

Mrs. Kenneth Mann accompanied a friend, Mrs. Hamilton of Childress, to Dallas on Tuesday of last week, returning home Wednesday night.

putting up 6 points before the defending regional champs could get on the scoreboard. The Happy crew built up a 10-5 lead about midway of the first period, but from there until the game was over, the girls one the scoring end of the court were simply overpowered by the Pantherettes' guards. After Happy had scored its 10th point, they were held scoreless the remainder of the first quarter as the Pantherettes went on to lead 18-10. From midway of the first quarter until a couple of minutes deep in the third quarter, Quitaque outscored Happy 40-6. The Pantherettes just coasted from that point, but still outscoring the Cowgirls 30-20 the remainder of the way.

Jackie Cheatham, playing for the first time in about a month without a nose guard, celebrated the event by bombing the baskets for 34 points, 19 of them coming in the first half. Sherry Stark fired in 20 points in that one, Barbara Chandler was next with 12 points, Carol Myers tallied 7 points and Beverly Rogers rounded out the scoring with a pair of free shots.

The Quitaque - Sundown game was a good one between two very

fine teams who were well matched. The Pantherettes scored the first three points and their supporters had hopes that perhaps this was a game in which they would not have to play catch up—not so, for in typical fashion Quitaque was behind by 12 points at the end of the first quarter—and against the second best team they had played all season, next to Springlake. In fact Sundown had beaten the storied Springlake team. However the Pantherettes were not about to bow in such a manner and they battled to a 30-30 tie with 1:38 left in the second quarter. The score was tied again at 32-32 and the Sundown team led at halftime 35-33.

The score was tied three more times during the third quarter and the Pantherettes held one - point leads briefly on two occasions. Sundown managed to hold a one-point advantage, 50-49 at the end of the third quarter.

The fourth quarter was more of the same with both teams matching each other shot for shot until the fading minutes. With a minute and 32 seconds left in the game the Roughettes were ahead by 6 points, 62-56. The Pantherettes still refused to fold and pulled to within 2 points, 60-62, but the Roughettes were stalling the ball and the Pantherettes had to foul to get the ball and the free shots were made. The Pantherettes had a chance to tie

Mr. and Mrs. Bud Bailey visited his mother, Mrs. H. J. Bailey, and his sister and family, Mr. and Mrs. H. B. Pinckard and children in Amarillo Sunday afternoon. Mr. and Mrs. Seldon Bailey of Tulsa, Okla. was also visiting there, also Mr. and Mrs. Loyd May, Van and Alvin and Jan Hutsell of Silvertown; Mr. and Mrs. H. B. Pinckard, Sr. and Mrs. Grover Grundy of Amarillo.

She also visited Mr. and Mrs. Clovis Hill and family. Mrs. Barrett and Mrs. McNabb visited Mrs. W. E. Schott of Silvertown who was a patient in the Baptist High Plains Hospital in Amarillo Saturday afternoon.

Mr. and Mrs. Jim Starkey of Loco Hills, N. M. brought Mrs. George Owens and Sissy home Thursday of last week after they had spent several days visiting there. Mrs. Owens and Sissy had spent two weeks preceding that with Mr. and Mrs. Olen Lane and Leigh Ann in Van Horn. The Starkeys spent Thursday night and part of Friday with Mrs. Owens and Sissy before returning home.

the score in the last minutes or two of play, but the ball refused to drop.

The Pantherettes were defeated by a very fine team and a team that made very few mistakes. The Pantherettes, however, gave up the ball too many times due to mistakes. Could the tow teams have played that night the Pantherettes would have won, for they were probably relaxed and all three forwards were hitting good. Sundown did not play near as well as they did against the Pantherettes, but it was not necessary.

In the Sundown game Jackie Cheatham led the way in the scoring department with 28 points; Sherry Stark made 22 points and Carol Myers canned 10 points.

In the game against Jayton, the Lady Jays were in the contest for about five minutes of the first period, but then it was just a question of how much as the Pantherettes' forwards were all hitting well and the guards were holding off the scoring on their end of the court.

Sherry Stark was popping the nets from all over the place in that one, racking up 36 points. Carol Myers, who was cold the first two games, found the range and closed out her career with a 26-point performance.

The championship Roughettes placed four players on the all-tournament selections. But, so did Quitaque, an indication of how evenly the two teams were matched. The Amarillo paper reported only three Pantherettes were selected. Lynette Taylor and Billie Cheatham at guard and Jackie Cheatham and Sherry Stark at forward.

So the Pantherettes close out a very fine season, with a record of 25 wins and only 3 losses.

What have you done lately to avoid dying of cancer?

It's news to you that there actually is something you can do about cancer? Fine. Doing that something may save your life. And what could possibly be more important than that? Your grip on life is not so fragile that you must feel intimidated to the point of paralysis by the very mention of cancer. Cancer is not necessarily a death sentence. Many cancers can be cured, but they must be detected early. Neglected, cancer will kill. Detected, there is a good chance of cure.

Each year more than ninety thousand Americans die of curable cancers. They were not detected in time—treatment that could have spared these people death came too late.

You must have a complete physical checkup at least once a year. Just tell your doctor that you want one. The examination is relatively simple and absolutely necessary.

With the knowledge that we now have about cancer, we could save one out of two people, with early detection.

With the knowledge that we need, we could save all. But we must have that knowledge.

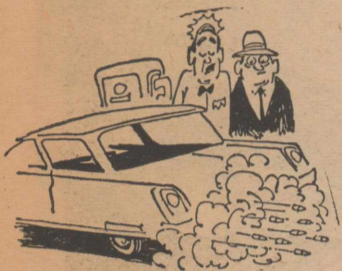

For this we need more research to bring us closer to the solution of cancer's terrible mysteries. Is it caused by a virus? Is it inherited? Is it contagious? Is it for once and for all completely curable? We will get these answers. With your help.

How do you avoid dying of cancer? You do something about it.

SOCIAL SECURITY NOTES

Recent changes in social security will enable older people and other beneficiaries who work to make more money and still draw some

or all of their social security benefits, Travis C. Briggs, manager of the Amarillo office said today. Beginning in 1968, a person who earns as much as \$1680 can still collect all of his benefits. If you

Fighting Fatness Makes Good Sense

There's no doubt about it. Many of us are too fat.

Almost everyone who is too fat would like to slim down to average size for his height and build. Many women would like to be on the skinny side.

The American Medical Association's home health book, Today's Health Guide, points out that most physicians consider obesity an important factor in personal health for three reasons:

• It is common.
• It is associated with increased sickness and death rates, notably in respect to heart, circulatory, kidney, and metabolic disorders as well as surgical and obstetrical complications.

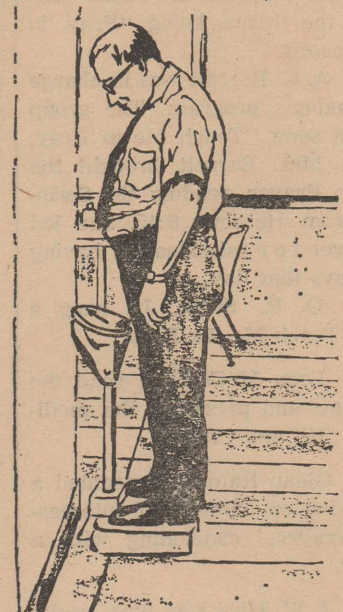

• It can be successfully treated to help control associated medical conditions.

Medical experience strongly suggests greater risks for overweight persons in respect to most of the major disorders besetting our population. The evidence for generally adverse effects from obesity seems too massive and too consistent to be ignored.

So we need to lose weight. It should be simple: just cut down on the calories. Unfortunately, it often isn't simple. Taking fewer calories than are needed seems to be within the theoretical capability of most of us. Yet results suggest that this is difficult and often not achieved. Long-term observations indicate poor success for most dieters.

One factor involved in overweight is psychological. Emotional factors are operative in all of us. Psychological factors may help cause overweight, or help to maintain it. Seldom is psychiatric consultation required. The general

practitioner, the internist, the pediatrician usually can provide suitable guidance and support as part of the weight-reduction program, the AMA book says. The

physician's aim is to prod and reinforce our will to lose weight, to help us be so determined to trim off excess pounds that we will stick to the reducing regime.

The physician may prescribe drugs at first, as a crutch to help us get started. These can reduce appetite, promote a feeling of well-being, add bulk in the stomach, eliminate excess fluids. They can, at best, afford only temporary help. They postpone the day when facts make us face, when we finally push up our minds that we must change our eating habits to keep our weight under control. 5-68

make more than \$1680, \$1 will be held from benefits for each \$2 earned over \$1680 up to \$2880. If you make over \$2880, \$1 will be deducted for each \$1 over that amount.

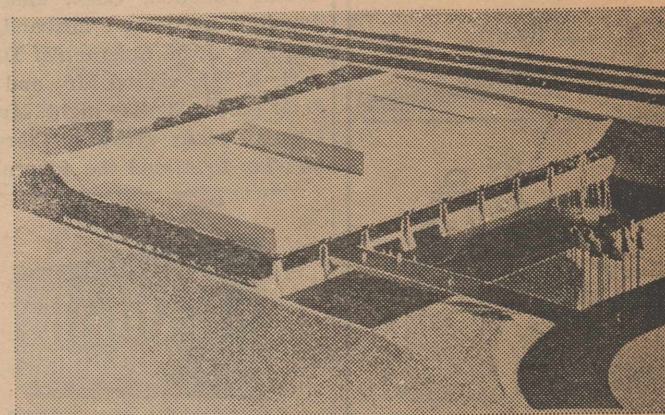

Regardless of total earnings, benefits will be paid for any month you do not earn over \$140 and are not active in self-employment.

The old law effective through 1967 limited earnings to \$1500.

Those who made over \$1500 in 1967 should file a report with social security so that necessary adjustments can be made.

Special rules, including medical considerations, apply to people who are receiving benefits because of disability.
