Baptist Student Tells Of Rhodesia

by Connie Conner
 Plainview, Texas Special—Kevin Shaw, a 24-year-old junior transfer reached Wayland Baptist College at about six o'clock one Friday night after a 48-hour bus ride

from New York. The next day, Shaw joined his new teammates to compete in the LCC indoor trackmeet, and went on to set a meet record of 9:23.7 in the two mile race.

In doing so, Shaw completely lapped national steeple chase champion John Kebiro for awhile. One newsmen speculated, "Shaw just needed to stretch his legs."

Shaw has been working as a TV service technician in his own country, South Africa, since 1975. It was that same year in which he set the U. S. junior college six-mile record in 19:05.

Shaw made arrangements to go to Texas Tech last year. He quit his job and bought tickets for the flight. Then he was informed that Tech didn't have the program for him to transfer into, so Shaw went camping. He later found out that Wayland has the occupational education major he wanted, and could transfer his credits.

Now here, with a track scholarship, Shaw said, "I hate to talk about other countries. The news service tells all the bad about a country so that's how people think it is."

"Like Rhodesia," he went on to explain. "People think it's a war-torn country, but I have friends there and the war is just a very small part of daily living. In the same way, South Africa is misrepresented by the news media. We need a news service called Good News."

"We get our idea of the United States from the movies and TV shows we see. I saw Walking Tall, part II, and when I went back home I told everyone that's how Texans talk."

When Shaw is asked about the recent riots in South Africa, he answers, "I probably know as much about the riots as you do." "People segregate themselves anyway—ours is the only country that has laws to the same effect."

Shaw lived in a suburb-like area of Pinetown. It is a white area and blacks, by law, live in a different section.

But according to Shaw, that isn't the problem. "The majority of people are contented. The black people in South Africa are richer per capita than other blacks in Africa. The government is more

democratic than the other countries which are totalitarian." "The riots," Shaw explained, "are because the black people want to be taught in their own tribal language, Zulu or whatever, rather than Afrikaans which is being taught in schools now." Afrikaans, which comes from the Dutch descendants, and English are the official languages.

"Afrikaans isn't strange to them," Shaw said. "It's their second language. Possibly it is taught to them, to indoctrinate them to the Afrikaans way of life which is conservative. They talk a lot about politics in South Africa and I'm really not interested. You get tired of it."

So Shaw dismissed politics and went on to describe his hometown. Pinetown is an industrial town the size of Plainview. The shops close at 5 o'clock weekdays and 1 p.m. on Saturdays.

"Sunday is dead day," Shaw said. "The English people don't like it so much because they'd like to do things on Sunday. Home movies are popular on Sunday. And it's a very sports-conscious country. In Pinetown they have sporting clubs and good facilities for tennis." Some of the sports Shaw described are lawnbow, squash, cricket, football which we call soccer, rugby which is like our American football, and badminton. Even skateboarding is popular there.

"Track receives the least attention," Shaw said.

Mrs. Jess Grundy was taken to High Plains Hospital in Amarillo Wednesday by her son and wife, the Bert Grundys. She had a complete check-up, according to report from Bert. She returned home Monday. Mrs. Grundy observed her 87th birthday anniversary on Monday, February 21.

Reddy's helpful tips for your HOME LAUNDRY

Wash and dry a full load, but never overload... it is essential for each item to move freely for proper cleaning and drying.

Choose the correct cycle for washing modern materials. Perhaps hot water isn't needed, and only a gentle drying temperature.

Too much detergent can clog machine and drains... always measure, don't guess! Follow the manufacturer's recommendations for your type equipment. Mixing brands of detergents can cause graying of clothes.

Many manufacturers of permanent press garments recommend machine washing and machine drying for best results. Following instructions on the garment tag can help preserve the life of your clothing and give you wrinkle-free clothes without need for ironing. A big savings!

BE STRONG

Strength is something which we usually admire. Women, with their children in danger, have been known to lift the front end of an automobile. Some men exercise their bodies until they are able to lift great weights. Yet, as admirable as physical strength is, it is not the best type of strength. For one thing, physical strength inevitably fades with age. For another, it is not the type of strength referred to in Ephesians 6:10, where we are admonished to be "strong in the Lord."

As Christians, we must always have an inner strength. Our strength must enable us to resist temptations which would degrade us. As Christians, we will refuse to do things which our friends say are "all right". Our strength must enable us to speak out for what is right even when we would be more comfortable remaining silent. Moreover, we ourselves must be sources of strength to others who are weak. Such strength does not come from physical exercise. This inner strength must come from the Lord. If we follow him, we will have all the inner strength we need to live a Christian life. We can be confident of our strength. "I can do all things through Christ which strengtheneth me."

The Bible says: "May you be strengthened with all power, according to his glorious might..." Colossians 1:11

We extend to you a special invitation to worship with us Sunday. The Sermon at both the 10:30 morning and 6:00 evening assemblies will be: "THE MANUSCRIPT OF GOD" You will find a warm welcome among friendly people.

RURAL COMMUNITIES TRYING TO SURVIVE
Texas rural communities are struggling to survive, and there is no easy answer for giving them a new lease on life, says a community resource development leader with the Texas Agricultural

Extension Service. Among the reasons for the economic downfall of many small towns are increased technology in both agriculture and in industry that has changed the economic structure, reduced population and migration to urban areas, and reduced local

resources. A big problem is that rural areas fail to realize the need for public services to attract business and industry to strengthen the economy.

Farabee Introduces Amendments To Grain Warehouse Act

Austin—State Senator Ray Farabee has introduced amendments to the Texas Grain Warehouse Act which will upgrade existing regulations to aid in protecting grain farmers from loss through grain trading and speculation.

The bill, co-sponsored by State Representative Joe Hubenak of Rosenberg, will raise bonding requirements to the level of federally licensed warehouses, require close accounting of scale tickets and make issuance of negotiable grain warehouse receipts mandatory.

"My goal is to make the deposit of grain in a state-licensed warehouse as safe as the deposit of money in a bank," Farabee said. "The hard work and savings of many farmers for one or two years is stored in grain elevators and warehouses."

"The grain business has changed so rapidly in the past 10 years that grain farmers are no longer fully protected by the current law. We must discourage those few who would speculate with the property of others," Far-

abee said. The proposal will raise minimum bond requirements for warehouse operators from \$10,000 to \$15,000, and the maximum will be upped from \$500,000 to \$750,000 with step increases based on storage capacity. The bill will establish penalties for fraud, issuing illegal receipts of scale tickets, counterfeiting documents or altering or forging a license, under charges as either Class B misdemeanors or third degree felonies.

Mr. and Mrs. Cleo Jordan of Dallas spent Thursday and Friday visiting in Turkey with her parents, Mr. and Mrs. Floyd Gilmore.

Mr. and Mrs. Jack Fields and baby, Nancy, of Claude spent the weekend visiting with her parents, Mr. and Mrs. Tom Eudy.

Mr. and Mrs. Paul Spittler of Bellbrook, Ohio are here visiting with relatives this week. Mrs. Spittler was formerly Eula May Lane. Gary Meacham, son of Mr. and Mrs. Jimmie Bell Meacham, was in Turkey for a weekend visit with relatives. He is stationed at Camp Pendleton, California.

Trying to make a marriage without love is like trying to bake a cake without sugar—it can be done, but your product does not measure up to your expectations, Mrs. Irene Miller, family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System, says.

MR. FARMER, THIS IS WHAT TEXAS FARMERS DID FOR YOU
IN 1975 - 1976:

- TURKEY FARMERS UNION**
- 1) Pressured congress and the administration to pass a better farm bill with higher price supports and target prices. Sponsored Washington Fly-ins to support improved farm bill legislation that was passed and vetoed by President Ford.
 - 2) Urged estate tax relief for farmers and ranchers in the new tax law and were successful in getting the level of exemption raised.
 - 3) Protested administration embargo of grain and publicized farmers' views relative to impact on consumer prices.
 - 4) Protested federal budget cuts that were detrimental to soil and water conservation programs, FHA financing and disaster programs.
 - 5) Supported the state Water Development Plan and urged a favorable vote in the water bond referendum.
 - 6) Spoke out on inequity in natural gas pricing and discrimination against agricultural gas users. Opposed pass-through provisions and urged state regulations of agricultural gas by utilities commission.
 - 7) Opposed destruction of the Peanut Program and were successful in killing a peanut bill that would have undermined supply management and producer income.
 - 8) Opposed target price program for rice that was passed over TFU's objections resulting in price disaster for rice growers.
 - 9) Urged administration to comply with 1973 Farm Act and publish accurate cost of production information.
