

WASHINGTON (AP) — President Carter removed Energy Secretary James Schlesinger today and will nominate Deputy Defense Secretary Charles W. Duncan Jr. to replace him, government officials said.

Schlesinger confirmed that Carter has accepted his resignation. Capitol Hill sources said the president told congressional leaders of his selection of Duncan to take over the Energy Department.

Schlesinger, at the Capitol to testify before a House committee, was asked about reports that he was leaving the administration.

'That is correct," the secretary said.

for

There also was speculation that Transportation Secretary Brock Adams might be ousted today. However, White House officials did not say anything about Adams when they telephoned congressional leaders on the president's behalf to talk about today's changes. Asked about Schlesinger, House Majority Leader Jim Wright of Texas

said he expected Carter to make the official announcement later in the day

Wright said it was his understanding that Schlesinger would remain in

office until the fall, while Congress is considering the president's recent energy proposals.

"It's cut and dried," one source said of the Duncan decision. Duncan refused to confirm or deny it early today, as did White House press secretary Jody Powell.

Under the shadow of Defense Secretary Harold Brown, Duncan, a multimillionaire and former Coca-Cola executive in Atlanta, has wielded more pwer than ost Cabinet scretariesas he managedthe Pentgon on a day-o-day bass.

WhiteHouse politicl aides have high regard for Duncan and have long sought a wider role for him in the administration. Some administration officials say Duncan has chafed under Brown, but Duncan's associates at the Pentagon deny this and say the two have worked together amicably.

Powell said he expected Carter to complete evaluating his Cabinet before the weekend and to turn his attention next week to his own senior staff. A high administration source said the Cabinet reshuffling would be "completed by the end of the day (today)."

On Thursday, in three announcements in 4½ hours, Powell said Carter had dumped Health, Education and Welfare Secretary Joseph A. Califano Jr. and Treasury Secretary W. Michael Blumenthal and had accepted the resignation of friend and fellow Georgian, Attorney General Griffin B. Bell

The moves drew generally critical reactions on Capitol Hill. Revealing a new Cabinet look for an election year, Powell said Carter will nominate:

-Housing and Urban Development Secretary Patricia R. Harris to succeed the controversial and outspoken Califano;

-Federal Reserve Chairman G. William Miller to succeed Blumenthal, who has had frequent clashes with White House staff members;

-Deputy Attorney General Benjamin R. Civiletti to replace Bell. Powell said successors to Miller and Mrs. Harris will be named soon. Adams may have undermined his own position Thursday afternoon with a statement that he had been asked to remain in the Cabinet but was "considering whether or not I should."

# Rains cause extensive flood damage

# Some 25 persons routed by floodwaters in Stanton

## By RICHARD MASON **Staff Writer**

Residents of Stanton - 20 miles east of Midland - today were preparing to welcome the sun's return after three days of rain which resulted in enough flooding to cause the evacuation of about 25 people from the southern part of town Nonetheless, officials said the four to seven inches of rain that fell in the city Thursday did more good than harm.

tion of seven or eight families, City Manager Mike Rhea said today. "Some of us are under water; the

rest of us are still here," Rhea said. City of Stanton crews worked with trucks Thursday to ferry families out of the low-lying area adjacent to the catch basin, referred to by Stantonites as "Lake Pauline." Some families were transported to the homes of families or friends: others to the community center so they could make arrangements for the night. Rhea said some families were reluctant to leave the area. While the catch basin originally was designed to hold runoff from very heavy rainfalls, it was still full from a six-inch rain that fell in the Stanton area early in June.

Seven inches of rainfall hits Lamesa By ED TODD **Staff Writer** 

LAMESA - Heavy rains measur-

"It was a life-saver," Martin County Sheriff Dan Saunders said today.

"I've seen more times when we were praying for water out here than condemning it. We can stand a lot of inconvenience as long as we get some water," he said.

Rains fell steadily in Stanton, Thursday between 8 a.m. and 4:30 p.m., dousing the city with about three inches in a two-hour period from 8 a.m. to 10 a.m.

By late afternoon Thursday, water runoff from across town filled the city's catch basin just south of the railroad tracks, forcing the evacua-

"We had two 100-year rains in six weeks," Rhea said.

Water Thursday almost covered Missouri-Pacific rails in the southern part of town. Train service through the area was disrupted for 10 hours

# **Burleson** quits position on hospital's board

## **By SUSAN TOTH Staff Writer**

Preliminary figures show no tax increase should be necessary to meet next year's hospital budget, but more money must be raised to complete the proposed cancer center on the hospital grounds, Midland County Hospital District directors were told Thursday.

The board also accepted the resignation of one of its members.

Dr. Michael Burleson, who has been an outspoken critic of hospital fiscal management while on the board, submitted his resignation effective Aug. 1 in a letter to board president Ed Magruder.

He said he plans to accept a position in a hospital in Eureka, Calif.

"I hope you will continue to work to help bring medical care in Midland to the level at which it should be," Burleson said in the letter.

The directors accepted the resignation "with regret" and decided to

draft a resolution commending Burleson for "support of and service to this hospital and for his significant contribution to the life of this district as a director."

Burleson was not at the meeting. Attorney Ted Kerr told board members they might have to go through a series of public hearings on their tax rate despite a preliminary indication that no increase in the current 15 cent rate would be necessary.

Under the new Truth in Taxation Law, any tax increase of 3 percent or more above a "mythical rate" determined by a complex formula must go through a series of public notices and hearings.

The "mythical rate," Kerr said, is designed to take into account increases in valuations that might raise the final tax bill in addition to increases in the tax rate itself.

That "mythical rate," he said, cannot be determined until computer

By BILL MODISETT **Staff Writer** 

Skies remained overcast over a large portion of the Permian Basin early today. But little rain was falling, as residents of Midland and area communities got a little relief from the drenching rains of Thursday.

Lamesa, Stanton and Andrews apparently were the hardest hit areas by the rains, although Big Spring and Midland received significant amounts of rainfall.

House flooding occurred at Lamesa, Stanton and Andrews, and street flooding and closings were reported in other communities.

Andrews received about five inches.

According to Andrews City Manager Len Wilson, low-water areas in that community flooded Thursday and as many as 25 houses were flooded with 10 to 12 inches of water.

Pumps were installed Thursday and workers began pumping water out of low-lying areas. Wilson said one storm pump burned out, slowing the process slightly.

He said pumps are operating 24 hours a day, dropping the water level in houses about six inches a day. The city will be okay, Wilson said, as long as it doesn't rain again.

Big Spring, which received as much as seven inches of rain in places, had some streets closed and area roads barricaded, but no evacuations were necessary, according to officials.

Varying rainfall amounts were re-

Although the National Weather Service office at Midland Regional Airport recorded only an official .96 inch, rainfall reports went as high as three

North Midland apparently received the most rainfall, with several reports placing the measurement there at

The Midland Farmers' Co-op, in the southeast portion of the city, reported 2.2 inches, while the Permian Basin Petroleum Museum in the city's south central section reported 1.1. A busi-ness in the far western part of Midland reported 1.8 inches.

The Greenwood community, located about 10 miles east of Midland, reported 5.6 inches Thursday, but Midkiff, 37 miles south-southeast of the city, recorded only .20 inch.

ly in area communities. Rankin, for example, received no rain at all Thursday

Big Lake received about an inch and Crane got about .25 inch. Garden City received about 1.5 inches in town inches

A site east of Midland recorded 1.86 inches while Odessa received about 1.08 and Monahans reported only .04 inch.

In the meantime, the temperature in Midland was setting a record, ac-

ing as much as seven inches fell here Wednesday, flooding sections of homes in Lamesa and leaving the area's agricultural fields standing in water.

The south, southwestern, western and northern parts of this city of 12,000 were drenched and partially under water.

Sulphur Draw, which until Thursday, was the Plains Fairway golf course, became a torrent and finally settled down to a rushing river and then to a creek.

It flooded much of the low-lying, tree-decked Forrest Park in south Lamesa.

"They say this used to be the Colorado River until it went dry," noted 12-year-old Lendon Duke, who was wading in the muddy, rushing flow along with twins Pete and Paul Torres, 11.

THE WATERS THEY played in rushed into Forrest Park, where, ironically, water sprinklers were wetting the already saturated grass on high grounds.

Waters flooded houses in the lower areas about Sulphur Draw.

'We've been here over 30 years, and this is the worse I've seen it yet,' said a harried Retta Welborn, 69. She lives on the banks of the draw.

"Man," she said, "just drive all over town. You better believe it (is flooded)."

Sustaining what apparently was the worse damage was the Chicago Heights addition in north Lamesa.

Jerry Don Pearce's brick house at the corner of North 22nd Place and Lynn Avenue was filled with 10 inches of water from the 10-hour rain that started falling about 3 a.m. Wednes-

"Didn't know the water was coming up until I got up at 7 to go to work, said Pearce, the city of Lamesa's tax assessor-collector.

He recalled having turned to his 12-year-old son, Eric, to say:

'You better get up, son; it looks like we're going to have to swim out of here.

By 7 a.m., the muddy waters were pouring in; by 10 a.m., they had risen to 10 inches, and by 5 p.m., the water

# Vineland plans hero's welcome for Niehous

VINELAND, N.J. (AP) — After 3½ years as a hostage of Venezuelan terrorists, businessman William F. Niehous returned to his old hometown of Vineland today for a hero's welcome of prayers, praises and speeches.

Niehous, 48, who lived here from 1960 to 1967, is to be honored at five separate events during "Bill Niehous Day" in this quiet South Jersey

About 100 friends and former neighbors of the Niehouses gathered at the First Presbyterian Church of Vineland for a morning prayer service to "give thanksgiving" for Niehous' safe return.

The worshippers "are gathered here today because we are happy for Bill and Donna and their family," said the Rev. Joseph S. Donchez, pastor of church when the Niehouses worshipped here.

The simple prayer service in the plain, gray stone church on Vineland's main business street featured a hymn entitled, "How Long Has It

Donchez said from the church's pulpit that Niehous went through a "terrible and horrifying experience" during his ordeal as a captive of Venezuelan leftists. "It's a hero's welcome," said Mayor Patrick R. Fiorilli. "He's a hell of a nice guy and everybody likes him. We all hope it will be a real happy day for him."

# Rain in Stanton more help than harm, official says

## (Continued from Page 1A)

Thursday because of flooding in the Big Spring rail yards, Missouri-Pacific trainmaster R.H. Hanfeld said today.

Service was restored at 10 p.m. Thursday, he added.

Flooding also closed several roads in Martin County, Sheriff Saunders said

Texas 137 south of Stanton was closed for several hours because of high water. Texas 176 to Andrews was closed. FM 3033 east of Stanton also was closed because of the high water.

City Manager Rhea said "four or five streets" in the city were still closed because of the rains.

U.S. Highway 80 through town also was under water, though passable, Rhea said today.

Unconfirmed reports had four

inches of rain falling throughout most of the county. However, a spokesman at the Martin County Agricultural Extension Office said Stanton Chemical and Seed Co. had reported seven inches of rainfall since midnight Wednesday.

According to Peggy Creech, secretary at the Martin County Extension Office, farmers generally were pleased with the rainfall.

"The crops were in real need of rain," she said. "A lot of the crop was real small. The farmers seem to think it did a lot of good.

Mrs. Creech said inundation destroyed portions of the crop around the county

A spokesman at Westex Telephone Cooperative said phone service to Luther and Ackerly was disrupted in isolated areas. But the phone service was restored by this morning.

# Range fire burns Arizona timber land

## By The Associated Press

A range fire north of the Grand Canyon that has charred more than 20,000 acres raged today toward valuable timber land in northwest Arizona, while wind doubled an Oregon blaze to 9,600 acres.

Late Thursday night, the lightningsparked Arizona fire was crackling through pine-covered foothills less than a mile from the Virgin Mountains and was "completely out of

control," said Les Tschohl, assistant fire management officer for the Arizona Bureau of Land Management. "We're not even attemping to estimate a time of containment.

About 75 firefighters battled the blaze with help from air tankers dropping fire retardant chemicals, and more crews were being brought in, Tschohl said. He said no injuries have been reported and no structures were damaged or endangered.

Niehous, his wife Donna, and three children have been vacationing at an undisclosed New Jersey shore location. On Tuesday night, a number of friends held a 25th wedding anniversary party for the couple at their shore hideaway.

Niehous, former head of Venezuelan operations for Owens-Illinois Inc., was kidnapped by leftist terrorists in Caracas on Feb. 27, 1976. On June 29, Venezuelan police accidentally stumbled on the bearded Niehous and his captors in the jungle while looking for cattle rustlers.

Niehous then returned to Toledo, Ohio, where his family now lives. In Vineland, Niehous was director of industrial relations at Owens-Illinois' Kimble Glass plant and was also supervisor of the plant's machine vial department.

But most Vineland residents know Niehous from his many community activities here during the 1960s.

He was president of the Vineland YMCA, secretary of the city's Civil Rights Commission and was named the "Young Man of the Year" by the Vineland Jaycees in 1964.

Niehous was also active in the First Presbyterian Church, the local United Way and the Newcomb Hospital building fund.

Many Vineland residents maintained friendly ties with the Niehous family and the continuing story of Niehous' detention in Venezuela was followed closely by newspapers and radio stations here.

In addition to a morning prayer service, local officials planned a welcoming ceremony on the steps of City Hall, lunch at the YMCA, an afternoon reception for Niehous and former co-workers at the glass plant and an evening cocktail party in Fiorilli's City Hall offices.

Looking over his damaged 1975 Ford pickup Thursday is L.A. Patterson of Fort Worth. Patterson's vehicle and another pickup collid- son's wife, Ozella, was treated for shoulder-

ed about 11 a.m. in the westbound lane of Interstate 20, east of Farm Road 1369. Patter-

injuries and released from Midland Memorial Hospital. (Staff Photo by Bruce Partain)

# No tax hike expected for hospital's budget

## (Continued from Page 1A)

analysis of the evaluations placed on county property is completed early next week

Estimated figures show that leaving the tax rate at 15 cents per \$100 valuation will just miss the 3 percent mark, and the extra hearings and notices will not be necessary, Kerr said.

If that is the case, the only public hearing on the budget will be held at the Aug. 16 board meeting, when the budget will be approved in its final form.

In other fiscal business, the directors approved a write-off of bad debts and indigent care charges of \$85,-200.50 for the month of June and authorized a transfer of \$60,000 in tax

money from the district accounts to the operating accounts of the hospital

Directors also were told they may have to raise another \$500,000 to \$800,-000 to build the proposed Allison Permian Basin Radiation Therapy Center

Midlander Helon Y. Allison has donated \$2 million for the center already, but \$1.3 million in new equipment recommended by a nationally known authority in cancer treatment equipment upped the bill.

Both private and public sources are being contacted for the extra money, board president Magruder said.

"We realize it's a considerable amount of money, but I don't see it will be a great problem to raise it," Magruder said.

# Nineteen arrested for prostitution in raids on eight massage parlors

ODESSA - Eight Odessa massage parlors were raided Thursday afternoon after a two-month prostitution investigation here, officials said.

Nineteen people had been arrested for prostitution or prostitution-related offenses early today, according to a

# **UAW** deals blow to GM strategy

OKLAHOMA CITY (AP) - The United Auto Workers organizing victory at the General Motors Corp.'s only non-union assembly plant is a severe blow to GM's alleged "Southern stategy," a UAW spokesman

election at the plant Thursday by a 2-1 margin. Of the nearly 2,300 workers eligible, 1,479 voted in favor of the UAW and 658 voted for no union repre-

UAW officers three years ago charged GM was pursuing a "Southern Strategy" by locating new plants in predominantly non-union areas of

"If there is a GM southern strategy, it has suffered a serious setback, said Larry Stevens, a UAW international representative.

The Oklahoma City plant was the only non-union plant where vehicles are assembled, although GM has other non-union parts plants.

**UAW organizer Carlton Horner said** the victory is bound to be an asset in future union efforts in this region. "Other workers will see the world won't come to an end if they vote for #the UAW," he said.

spokesman for the Odessa Police Department.

One of those arrested was a 16year-old girl, the spokesman said. The spokesman indicated there

may be more arrests coming in connection with the investigation. Ector County Attorney Mike Atkins

said Thursday the investigation was a combined effort of several law enforcement agencies. Odessa police, the Ector County At-

torney's office and special agents for the Department of Public Safety participated in the investigation, Atkins said.

While in the process of booking those arrested, a small amount of a substance believed to be marijuana was found, officials said.

One person has been charged with possession of marijuana in addition to a prostitution-related charge, an official said.

Owens died Wednesday at his home following a brief illness. He was born July 19, 1918, in

Brownwood, and was married to Zola Mae Wommack on Aug. 15, 1938 in Robert Lee. He attended schools at Lometa, Maverick and Bronte. He

# **Reactor repairs at Comanche Peak completed**

that repairs to correct a misalignment problem with one of the reactor vessels at Comanche Peak nuclear plant have been completed, according to Winston Barclay with Texas Electric Service Co.

The most recent of the periodic NRC inspection reports on Comanche Peak concerns inspections made during the last two weeks of May.

The report also makes note of two potential problems identified by Texas Utilities Generating Co. one involving pipe thicknesses and the other involving pipe hangers.

The reactor vessel problem was discovered by

## TWC approves permit

AUSTIN - The Texas Water Commission approved a permit renewal application for the city of at Midland Regional Airport.

Lowe, director of public utilities. The permits are issued only for a specific amount of time and then must be renewed.

The plant is authorized to dispose of up to one million gallons of sewage a day from the facility located adjacent to the northeast quadrant at the intersection of Interstate 20 and FM 1788 The waste is discharged into Monahans Draw, then

to Midland Draw, Johnson Draw, Mustang Draw, Beals Creek and into the Colorado River.

The Nuclear Regulatory Commission has reported TUGCO in late February and reported at that time to struction site. A program has been under way at the the NRC. Support pads for the reactor vessel at the plant's repaired or rejected.

second generating unit were found to be out of alignment with the vessel.

The support pads have since been realigned and placed in proper positions, according to Barclay. Installation of the vessel on the new support pads was completed July 5.

safety of the plant, he said. Similar problems have no defective welds among those that have passed occurred at other nuclear plants under construction, final quality assurance inspection, according to Baraccording to Barclay, serving as a spokesman for clay. TESCO.

about \$500,000. However, the actual cost was less public in the Region IV office of the NRC in Arlington than half that amount, about \$193,000, Barclay and in the public document room at the Somervell said

One of the potential problems reported to the NRC Midland's waste water treatment disposal plant concerns certain pipe supplied since May 1978 wich may not meet the American Society of Mechanical The renewal is a routine matter, according to John Engineeers' code requirements for wall thickness.

> The second involves some pipe support hangers which may not meet requirements for withstanding siesmic, or earthquake, criteria for the plant site.

TUGCO is investigating both matters to determine if problems do exist. The company will do whatever is neessary to ensure that the pipes and pipe hangers meet all safety requirements.

In the report, the NRC also reported on the progress made in improving welding at the con-

plant to reduce the number of welds that have to be

The NRC reported "a significant improvement in welding performance with a comparable significant reduction in the amount of repair work required to obtain acceptable welds."

All welds must pass strict inspection standards The misalignment problem had no bearing on the before being approved. The NRC, to date, has found

At first, it was estimated the repairs would cost The NRC inspection report will be available to the County Public Library in Glen Rose.

> Comanche Peak is jointly owned by Texas Electric Service Co., Texas Power & Light, Dallas Power & Light and the Texas Municipal Power Authority. TUGCO acts as agent for the three companies in construction of the plant.

# Yale Edward Key

Yale Edward Key, 64, 2500 Sea-board St., a pioneer in the oil business in Midland, died Thursday in a Midland hospital following injuries sustained in a fall.

Services will be at 2 p.m. Saturday in the First Baptist Church with the Rev. Dr. Daniel Vestal officiating. **Burial will be in Resthaven Memorial** Park directed by Newnie W. Ellis **Funeral Home** 

Key was born in Hot Springs, Ark., July 25, 1914. He moved to Texas at an early age and was educated in San Antonio schools and San Marcos **Teachers College.** 

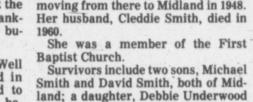

He moved to McCamey in 1936 to work in general insurance and automobile financing. He later bought the business and branched out in banking, oil well servicing and other businesses.

He owned Yale E. Key Oil Well Service Co., which he formed in McCamey in 1948. He continued to operate his business in Midland beginning in 1951, when he and his family moved here.

His company swabbed in the discovery well in the Spraberry field. He also "hydrofracted" the first job of that type in this area. At the time of his death, he was chairman of the board of the First State Bank in Crane.

He was married to Wilma Loving in San Angelo April 16, 1939. Mr. and Mrs. Key worked together until his death.

Survivors include his wife; two daughters, Catherine Key Emmert and Carol Key Dignan, both of Dallas; a sister, Marzelle Hall of Los Angeles, Calif; a brother, Jack Key of San Antonio, and six grandchildren. Pallbearers will be Ed Staggs, Val Collier, Olan Brock, Ted Loving, Wayne Negley, Don Chaney and George Eng.

# Bundy's lawyers to attack state's 'bite mark' evidence

MIAMI (AP) - Defense lawyers Omega house and a woman in a duhave found a dental expert who says Theodore R. Bundy's jagged, crooked teeth cannot be positively linked to a mark on the body of one of two sorority sisters he is accused of murder-

Bundy's lawyers planned to open their case today with Dr. Duane Devore of the University of Maryland who says that at least five other sets of teeth could have made the same marks.

Public defender Lynn Thompson said the defense planned to attack the state's "bite mark" evidence. Two prosecution dental experts have testified Bundy's teeth match a bite found on 20-year-old Lisa Levy.

Miss Levy and Margaret Bowman, 21, were clubbed in their sleep and strangled by an attacker who slipped into the Chi Omega house at Florida State University in Tallahassee, Fla., on Jan. 15, 1978. Two other residents of the Chi

it," Thompson said late Thursday after the state rested its case against the 32-year-old former Utah law student.

probably would not testify.

attempted murder and burglary.

Presiding Judge Edward D. Cowart hopes to give the case to the jury late next week

Prosecutor Dan McKeever, meanwhile, told a Salt Lake City television station it will be "difficult" to get a conviction.

McKeever said he was disappinted that testimony wasn't allowed from a Utah policeman who found a pantyhose mask in Bundy's car similar to one found in the duplex.

# 450 baby turtles airlifted to safety

GALVESTON, Texas (AP) - Government scientists rescued 450 baby turtles from a Gulf of Mexico oil spill Thursay, but culdn't fine the oil.

The scientists were in a specially equipped C-130 cargo plane, and their primary mission was mapping the oil spill resulting from a blown-out well off the coast of Mexico.

The airlift of the tiny Kemps Ridley sea turtle hatchlings was part of a joint effort by the United States and Mexico to save the endangered species from the runaway oil slick.

The oil has been gushing from the Ixtoc I, an exploratory offshore well

owned by the Mexican government, at the rate of 30,000 gallons a day since a natural gas explosion June 3. Experts from the Coast Guard and

the National Oceanic and Atmospheric Administration boarded the airplane Thursday to begin a systematic mapping of the spill.

Although the plane flew to within 13 miles of where the slick's leading edge was supposed to be, the observers said their instruments and visual observations found no sign of the oil. Officials have reported no signifi-

cant movement of the slick since aerial photographs located it about 300 miles south-southeast of Brownsville five days ago.

Marine biologists said the oil was headed for Playa el Rancha Nueva, an area of Mexico which is the traditional hatching grounds for the sea turtles, whose numbers have declined from more than a quarter million in 1947 to about 2,500 last year.

The turtles rescued Thursday with airlifted to Galveston. From there, scientists want to try to establish a new hatching grounds at Padre Island, according to Jim Woods, a biologist for the National Parks Service.

Meanwhile, scientists are on board the Coast Guard ship "Valiant" measuring the ocean currents off the coast of Tampico, hoping they can predict whether the oil slick is likely to head northward, toward the Texas coast.

They are to fly back to Corpus Christi today to compile their data, but officials said they probably wouldn't have an accurate interpretation until Tuesday.

A second research team has been working the Texas shoreline between Corpus Christi and Brownsville to identify areas which might be environmentally vulnerable should the oil reach the coast.

PDC Co. to reopen Payton field;

# Carter sends **EMB** specs

WASHINGTON (AP) - President Carter sent Congress Thursday his specifications for a new Energy Mobilization Board that would cut red tape and speed decisions on critical energy projects.

Bert Carp, a member of Carter's domestic policy staff, told reporters "specifications" were sent, rather than a draft of legislation, because similar bills already were before Congress and could be modified to match the administration's views.

The board proposed by the White House would be authorized to name "critical" energy projects and then establish schedules for federal, state and local agencies to review them and decide their fate.

If the agencies failed to meet the schedule, the board could make the decisions for them. But it could not reverse decisions made by other agencies if they meet their schedules.

Carp said the purpose of the board was to speed up decisionmaking, not to take it over. Under the White House plan,

the board could not waive existing environmental or other legal requirements for new energy projects.

But the board could waive new legal requirements adopted after construction begins on a critical energy project.

"I would be very surprised if this board is not in business by January," Carp said.

At the same White House briefing, presidential assistant Anne Wexler said work began Monday, the morning after Carter's Sunday night speech to the nation, on developing details of the energy legislative proposals to go to Congress.

# Too much environmental overkill, asserts Wallace

## **By JACK KEEVER**

AUSTIN, Texas (AP) - Railroad Commissioner Mack Wallace denounced "radical environmentalists" Thursday in asking President Carter to restrict federal environmental standards to aid in energy production

"We've had too much-bureaucratic mismanagement, and environmental overkill, and too little national leadership," Wallace told oil and gas executives.

The Railroad Commission routinely set the statewide oil allowable for August at 100 percent. Starting in April 1972, Texas has had a 100 percent allowable every month except three.

As a result of the energy shortage, Wallace said, America has never been so "dependent on monarchs

Commission Chairman John Poerner noted that crude and petroleum products imports totaled 7,907,000 barrels per day for the four-week average ending July 6. This is 300,000 barrels a day below the ceiling proposed by Carter.

Wallace used a large map to show how Alaskan crude oil must be transported 7,000 miles by tankers past Cuba and through the Panama Canal to refineries on the Gulf and Atlantic coasts because of the lack of crosscountry pipelines.

Wallace said a proposed pipeline from Long Bach, Calif., o Midland,

The two pipelines could save consumers more than \$2.5 million a day, Wallace said.

Also, he said, the construction of refineries from Maine to Virginia have been blocked by "radical environmentalists with shrill voices." Such delays, he said, are a "modern American tragedy."

"We're not out of gas because we're out of confidence; we're out of confidence because we're out of gas," said Wallace.

"The National Energy Mobilization Board is an important step in the right direction if the president and the Congress do not want to make the hard choices," he added. "A bolder and more significant proposal by the president would have called for the restriction of the National Environmental Policy Act of 1969 and the immediate lifting of price controls on all forms of domestic energy."

The executives applauded Wallace's remarks, and Poerner praised him for an "outstanding presentation.

As usual, in setting the allowable, production in the East Texas and Kelly-Snyder fields was restricted to 86 percent to avoid possible waste.

Nominations for Texas crude oil in August totaled 2,728,735 barrels a day,

a decrease of 7,452 barrels a day from July

# Armstrong makes bid to exempt revenue for fund

WASHINGTON (AP) - The windfall profits tax on domestic oil production should not apply to the revenue Texas receives for its permanent school funds, state Land Commissioner Bob Armstrong told a Senate committee Thursday.

The income Texas receives from oil and gas production on state land is placed in permanent school funds, and the interest on the body or "corpus" of the funds is used for education.

"Therefore, the application of any crude oil 'windfall' profits tax to royalties paid to states with respect to state school lands not only will reduce directly the amount of funds otherwise available to such states for their educational programs, but take away a part of the corpus that we have struggled to maintain," Armstrong said.

"These sales have never been taxed by the federal government," he added.

The House made state royalties exempt in the windfall profits tax measure it passed. The Senate Finance Committee presently is considering the proposal.

Sen. Herman Talmadge, D-Ga., asked if the federal government had the authority to tax another government in any event.

"To my knowledge, there has never been a tax levied on the sale of property belonging to a state," Armstrong replied.

He said exempting the state royalty from any windfall profits tax would affect eight-tenths of one percent of the total Texas production.

At the same hearing, industry spokesmen requested exemptions for independent producers and production from stripper wells. They warned that a higher tax will mean less exploration and lower production.

Strippers wells are those which maintain an average daily production of 10 barrels or less.

burger) field in Ward County

The firm will re-enter the depleted discovery well, Cities Service Oil Co. No. 1-B Brandenberg three miles south of Grandfalls.

The pool was opened in 1955 at total depth of 10.200 feet.

Location is 660 feet from northwest and 660 feet from southwest lines of section 4, block 32, H&TC survey.

### WILDCAT PROJECTS

Operators have announced wildcat projects in five West Texas areas.

Samedan Oil Corp. of Midland No. 1 McCutchen is to be drilled as a 4,100foot wilcat in Coke County, three miles east of Robert Lee.

It will be spudded 1,980 feet from north and west lines of section 443, block 1-A, H&TC survey.Ground elevation is 1,878 feet.

The location is 3/4 mile southof the one-well McCutchen, West (Cisco oil) pool and separated from it by a 4,035foot dry hole. The location also is two and three-eighths miles north of the two-well Wendkirk, West (Cross Cut oil) pool.

### TOM GREEN TRY

Tucker Drilling Co., Inc., of San Angelo No. 1 Pugh Park is a new 5,700-foot wildcat in Tom Green County, 3/4 mile southeast of Christoval.

The operator will attempt to reopen the Mount Susan (5350 Strawn oil) pool. The location is 3/8 mile southwest of the depleted discovery well of the field and 921 feet from north and 5,344 feet from east lines of J. Zerback survey No. 1827. Elevation is 2,189 feet.

The drillsite also is 3/4 mile north of the Mount Susan, South (5250 Strawn lime oil) pool which has one active well.

### **IRION COUNTY**

Amoco Production Co. has rescheduled its No. 1 Jane Elizabeth Charlton as a 4,700-foot wildcat in Irion County, 5.5 miles east of Mertzon.

Originally staked as a 7,000-foot test, it is 1,980 feet from north and east lines of section 14, block 3, H&TC survey and 1/2 mile west of Canyon gas production in the Brooks multi0ay field

### **RUNNELS TEST**

RIC International Ltd., Inc., of Houston announced drillsite for a 4,-900-foot wildct in Runnels County, five miles north of Norton.

It is No. 1 Bobby Mayo, 467 feet from south and 980 feet from east lines of section 3, H&GN survey, abstract 271. It is 1.5 miles southeast of the Ash (Gardner oil) pool and separated from it by a depleted Gray oil producer.

## CROCKETT PROJECT

Odessa Natural Corp. of Odessa No. 4-2X Odessa and others has been rescheduled as a wildcat in Crockett County, 24 miles west of Ozona.

Staked as a 1/2 mile east stepout to the Ingham (Devonian) field, it now will test as a wildcat at 1,500 feet. The original contract was 8,800 feet. That has been amended to 5,305 feet.

Lovcation is 990 feet from south and

elevation is 2,642 feet.

## **IRION WELL**

Meadco Properties of Midland No. 2-13 Sugg has been completed in the Taos (Canyon) oil pool of Irion County, 25 miles north of Barnhart.

One-jalf mile east of the pool discovery, it finaled for a 24-hour flowing potential of 89 barrels of oil, gravity\* not reported, through a 1/4-inch choke and perforations from 7,297 to 7,341 feet. It also made 45 barrels of water during the portential test. The gas-oil ratio is 1,757-1.

The pay was fractured with 40,000 gallons

Total depth is 8,710 feet and 4.5-inch casing is set on bottom.

## WARD OILER

Clayton W. Williams Jr. of Midland No. 1 Onal L. Scott has been completed as a pumping well in the Scott (Delaware oil) pool of Ward County, three miles south of Barstow.

It completed for a 24-hour potential of 16 barrels of 38.8-gravity oil and 15 barrels of water, through perfora-

oil ratio is 312-1.

The location is 5/8 mile northeast of a Deleware oil producer and 5,950 feet from notheast and 670 feet from northwest lines of section 34, block 33, H&TC survey.

### PECOS FIELD TESTS

Aapir of projects have beenstaked inthe Gomez area of Pecos County. Tom F. Marsh, Inc., of Midland No. 1 Gomez-Eaton Gas Unit will be dug as a 23,000-foot operation in the Gomez (Ellenburger) field, four miles northwest of Fort Stocton. The site is 1,800 feet from south and 1,650 feet from west lines of section 15, block 146, T&StL survey.

It is 7/8 mile southwest of an Ellenburger producer.

Union Oil Co. of California No. 3-1 W. C. Tyrell Unit will be drilled as an 11,800-foot test in the Gomez, Northwest (Wolfcamp) field, nine miles northwest of Fort Stockton.

It is 7/8 mile southeast of Wolfcamp gas production and 1,400 feet from south and 1,400 feet from east lines of section 2, block 115, GC&SF survey.

# raises gas allocation

## **By The Associated Press**

Mobil Oil Corp. said Thursday it was raising its gasoline supplies to 100 percent of last year's levels for the remainder of July and for all of August. Under the new allocation plan, Mobil dealers will get 87 percent of the amount of gas they got last year. The move represents a 3 percent increase in July allocations, now running at 97 percent of 1978 levels.

Industry analysts attributed the action to increasing supplies and declining demand in recent weeks, due in part to odd-even gas rationing plans in several states. Mobil said it had also obtained additional supplies of gasoline, but did not specify the source

Spot checks Thursday indicated gasoline should again be in adequate supply this weekend, but the outlook for the end of the month was less clear as some service stations had been expected to begin running short of July allocations.

Odd-even restrictions remain in effect in 10 states and the District of Columbia, and officials say there are some indications that the rationing may have a long-term effect on driving habits.

In California, the nation's most populous state and the first to institute odd-even rationing this year, freeway traffic is down about 3 percent while use of mass-transit is up from 14 to 20 percent.

"As long as people continue to cut back on their driving, everything will be cool," said Nikki Case of the California Transportation Department. "But if people starting driving like they did in the past, then we could run into some problems."

In the Washington, D.C. area, oddeven rationing began on June 21, and officials reported a surge in masstransit use and a corresponding decline in auto volume on major commuter highways.

However, as more gasoline becomes available, the trends appears to be reversing itself. Local officials report traffic is increasing and area merchants say weekend sales are returning to normal levels.

A spokesman for the Port Authority of New York and New Jersey said traffic on the six bridges and tunnels between the two states was down 7.5 percent last week from the same time a year ago. He said the figure has remained steady for about a month, since both states put odd-even rationing into effect.

While the gasoline situation has improved for New Jersey motorists, some service station operators are complaining that government regulations have cut into their profits.

A caravan of about 70 station owners parked their cars and wreckers outside the state Energy Department offices Thursday to register a protest over the federal government's 15.4-cent-a-gallon profit ceiling on gas sold in the state.

Natomas sets Coke test

Natomas North America, Inc., Mid-2,096 feet after 2,000 gallons of acid land, announced location for a project and 3,000 gallons of fracture soluin the Higgins Ranch (Canyon oil) tion pool of Coke County, 13 miles south-Gas-oil ratio is 1,200-1. west of Robert Lee. Total depth is 2,140 feet and 4.5-inch

It is No. 6 Higgins, 2,641 feet from north and 2,442 feet from east lines of section 76, block Z, El&RR survey. It is 1,500 feet west of production.

The contract depth is 6,600 feet, and ground elevation is 2,258.5 feet.

# **BUSINESS MIRROR** Anxiety often hits executives **By JOHN CUNNIFF**

late in the session of a major

reshuffling of the Carter ad-

ministration.

**AP Business Analyst** 

NEW YORK (AP) - As the person who defined "administrative anxiety," a debilitating affliction of corporate chief executives, Professor Eugene Jennings was asked this week to explain the condition in detail

"It is a terrible fear that one has lost control and cannot regain it in time to master events that are tumbling before him," he replied. "It is a loss of confidence bordering on breakdown," he said. Jennings, confidential adviser to corporate chief

executives for 22 years, and author of "The Executive in Crisis," a study of executives who broke down

in office, knows the symptoms well. Executives flay wildly at people or events they think cause their problems, he said. They blame others, both close associates and distant figures. They react impulsively and uncharacteristically to unforeseen events.

"If the executive remains in power," said Jennings, a psychologist and professor of business management at Michigan State, "his actions lead to massive changes in the personnel reporting directly to him."

"It has been my experience," he said, "that when a chief loses confidence he loses the ability to handle competent people, and the reshuffling brings in less than competent replacements."

He emphasized that "it takes a lot of confidence to have strong, competent people around you." But the chief who feels he has lost control doesn't have it, he said. He is trapped in himself.

The telltale sign of this problem, said Jennings, is that the chief always accuses others of lacking confidence. He is unaware that "it is a projection of his own feelings."

It is not uncommon for chiefs most vulnerable to this anxiety — the dreadful fear of loss of power, control and self-esteem — to centralize authority, Jennings said. "This is one thing they almost all do.'

The consequences of such actions, such as rewarding intimates whose own incompetence has helped put events beyond control, reverberates through the corporate bureaucracy. The problems become worse.

"If he centralizes power in the hands of incompe-tent people, then others below their level will be poorly managed," Jennings observed. The troubled chief executive, he said, is the last to understand this.

If such executives were capable of relying on competent people to bolster performance, the professor indicated, they might improve their lot. Bu among other hings, he said, they are unable to delegate.

They are "maze-dull," said Jennings, a pioneer in the study of the corporate power structure. They do not recognize the routes to their goals. They are not instinctive, as some executives are. "A maze-bright person understands the terrain of

power, who has it and who doesn't, and the motives of those who have it," he said. "And he knows how to assert himself diligently with such knowledge." What hope is there for the troubled chief?" Jen-

nings was asked. He replied:

Slaughter steers steady to weak, heifers weak to 50 lower. Most feedlots reported limited inquiry from buying sources. Sales for the week on 28,600 head. Sales on 900 slaughter steers and 2000 heifers. All live cattle prices based on net weights f.o.b. the feedlot after 4 percent shrink. Slaughter steers: Several pens good and mostly choice 2-3 1075-1200 b 70.00. Slaughter heifers: Good and mostly choice 2-3 800-950 b 67.00-68.00. Mixed good and choice 2-3 850-873 b 65.00-66.50. One load good, few choice 2-4 1075 ib heifer- ettes 62.00. Few loads good, few choice 2-3 750 lb 67.25.	nings was asked. He replied: "I have seen some clients get turned around by fortuitous events that gave them a breathing spell. In the absence of confidence, what is needed is a lot of good luck. I have seen it happen." Luck, and Jennings suggested, an extended time away from the job — to play, reflect, read, be counseled. Better that, he said, than to bore deeper into the problem. But, he conceded, there are some jobs in which that is impossible.

Inc. says it will defend itself "to the fullest" against a union suit charging the giant textile concern and three other companies with conspiring to thwart labor organizers in Baldwin County. The Amalgamated Clothing and Textile Workers Union this week amended a suit in U.S. District Court to add Stevens and three other companies as defendants in an action seeking an injunction against surveillance of union organizers. The original suit, filed against several Baldwin County officials earlier this year, sought \$700,000 in compensatory and punitive damages, but the amended suit increased the claim to nearly \$12

FORT WORTH, Texas (AP) — Export wheat 4.76% -4.82%. Milo 5.38-5.64. Yellow corn 3.53-3.63. Oats 2.12-2.15. HOUSTON (AP) — No. 1 wheat export ordinary 4.72% -4.76%; No. 2 yellow corn export 3.30-3.34. Prices paid FOB exevator for grain sor- ghum at Corpus Christi 4.82-4.88.	Named as defendants Wednesday were William L. Wall, manager of the Milledgeville Stevens plant; Joe M. Tate, Concord Fabrics plant manager, and Albert Gandy, Meadows' executive vice president. Union attorneys also asserted that the executives hired Dr. Charles Alston, a former Milledgeville chaplain, to screen black job applicants in an attempt to exclude those known to be consorting with the labor organizers.

# Roenicke, Flanagan give O's split with Angels

## **By The Associated Press**

Gary Roenicke drove in two runs to back Mike Flanagan's six-hit pitching as the Baltimore Orioles beat the California Angels 3-0 and split Thursday's twi-night doubleheader between the American League's division lead-

The Angels won the opener 4-3 in 11 innings with Dan Ford driving home the winning run with a single follow-

his tie-breaker after Garcia dropped a throw from pitcher Dennis Martinez on an attempted force.

In Texas, the Chicago White Sox rode Ralph Garr's pair of two-run homers to a 9-6, 5-4 twinbill sweep of the Rangers.

Boston's Larry Wolfe slugged a two-run homer in the fifth inning to break a 1-1 tie and propel the Red Sox to a 7-1 victory over Seattle. Reggie Jackson hit a two-run homer and

Brian Doyle drove in three runs to back the six-hit pitching of Luis Tiant as the New York Yankees beat Oakland 10-2.

Ben Oglivie's homer in the ninth tied it, then Sixto Lezcano's 11th-inning homer powered Milwaukee past Toronto 3-2. Lance Parrish drove in three runs and unbeaten rookie lefthander Pat Underwood won his fifth game to pace Detroit to an 8-3 victory over Minnesota.

The Cleveland Indians took advantage of Kansas City pitcher Dennis Leonard's first-inning mistakes and beat the Royals 2-1.

In Los Angeles, Steve Yeager, Joe Ferguson and Davey Lopes homered and Burt Hooton scattered six hits as the Dodgers beat Montreal 7-3 and snapped a five-game losing streak.

In Chicago, Atlanta's Jeff Bur-roughs hit a tie-breaking single in the

fifth inning and a homer in the Braves' 8-2 victory over the Cubs.

Ray Knight drove in six runs with a grand slam homer, a single and a sacrifice fly, pacing a 19-hit assault that powered Cincinnati to a 16-4 rout of St.: Louis.

John Curtis of San Francisco six-hit the Philadelphia Phillies to chalk up his second straight 1-0 victory, and Dave Winfield's 23rd homer carried San Diego past the Mets '3-1.

 An Aug. 6 trial date has been set for the damage suit Rudy Tomjanovich filed against the Los Angeles Lakers after being punched by a Laker during a Dec. 9, 1977, game. Tomjanovich will ask a jury to hold the Lakers liable because of the actions of Kermit Washington, former Laker now with San Diego. After the one-punch affair during a Lakers home game, Tomjanovich underwent surgery for nose, jaw and skull fractures and missed the remainder of the 1977-78 season ...

Central, Okla., State University has decided to drop out of the NCAA Division II and become a member of the NAIA this fall. Charles Murdock, CSU AD, said "One of the major factors in our decision to drop our dual membership in the NCAA and NAIA was the January Division II meeting in which the NCAA passed a rule requiring its membership to play 50 percent of their football and basketball games against other Division II schools, This creates a big problem for us because the people we play are NAIA people. There are no Division II schools in close proximity to us."...

# **100** letter-writers share beef(s) with this editor

## **By JULES LOH**

DANVILLE, Ill. (AP) - Well, Ron Dillman somehow pulled it off again. He threw his annual bash, a dinner

for the town's 100 angriest, most outspoken, most critical citizens, all collected in one room. Dicey. Yet not a single fist fight broke out, not even a respectable shouting match.

The event was his yearly Lettersto-the-Editor banquet.

"It never crossed my mind that anything untoward might happen," Dillman said.

"This was our 16th banquet. Every one has been a pleasant, stimulating occasion. Don't forget, these are thoughtful, concerned people."

My, yes. They are the ones who remind us to pray, feed the birds, be temperate and fly the flag on the Fourth.

But they are also the rare ones in this impersonal society who are willing to discipline their thoughts, write them down, sign their names, take the heat and be involved.

In an age of letter-writing machines and recorded phone answerers, real human beings who actually take pen in hand fall in the category of an endangered species.

Ron Dillman is the addressee. He is editor of the Commercial-News, the target of the thoughtful, concerned messages that appear daily under the heading "Your Views."

A sampling:

"Your readers may be uninformed but are not as dumb as you think." So began Dan Brown's letter. Dan was at the party.

"Where do you get off?" wrote San-dra Purdy. "How can you tell people how to live? Who do you think you are?" Ms. Purdy was at the party,

"I personally am sick and tired of reading letters in your paper written by Allen Keith Jr." wrote R. L. Win-land. Reader Winland was there. Reader Keith, prudently, was not. Obviously, Editor Dillman admires plain speaking. Those are the sort of letters, out of

about 899 his paper receives each year, that earn their authors a chance to eat beef (appropriately) with Dillman and his staff.

The idea of throwing a party for the 100 "best" letters was that of a former editorial-page editor, Bob Wright, since retired. Ron Dillman went for it in a hurry.

"We're serious about involving our-

"Every two or three months, we phone book. We invite them to a restaurant and ask them to tell us what we are doing right and what we are

"We call these meetings accountability sessions. Sometimes they get

The Letters-to-the-Editor dinner

It was fun. And with such a guest list, conversation was bound to sparkle. Dillman had a reporter stationed at every table, listening.

"You bet we listen," Dillman said. He pointed out one of his dinner

man's "unforgivable sin" of replacing "Our Boarding House" with 'Marmaduke" on the comics page contemplated."

Hoople returned.

selves with our readers, finding out what they expect of us," he said.

pick about 50 citizens at random, sometimes just take names out of the doing wrong.

downright nasty.'

was far from nasty.

guests, Arthur Wade. Reader Wade had addressed Dill-

STILTED

Gary Coleman (center), who plays pint-sized Arnold in "Diff'rent Strokes," tries for a new image -- thanks to a makeup job and stilts - as Willis (Todd Bridges) tries to make him look like a teen-ager in "The New Landlord" episode, Friday, July 20, on NBC.

When the Drummonds' building gets a new owner who doesn't want young children on the premises, the kids devise a scheme to make Arnold appear to be Willis's big brother.

to choose officers at meeting Selection of a new chairman and vice chairman will highlight the quarterly meeting of the regional

alcohol and drug abuse advisory council July 26. The 7 p.m. meeting will be in the conference room of the Permian Basin Regional Planning Commis-sion building at Midland Regional Airport. Also on tap for the meeting is an explanation of the new drug abuse prevention proposal submitted to the Texas Department of Community Affairs drug abuse

division. The public is invited to attend.
