# Carter offers Iran incentives for hostages

WASHINGTON (AP) — President Carter is offering Iran billions of dollars' worth of incentives for the release of the American hostages, an issue the Iranian parliament reportedly is moving closer to resolving.
With the presidential election and

the first anniversary of the tak- DAY 353 ing of the 52 Americans both two weeks away today, Carter made this offer Monday while campaigning in Youngstown,

"If Iran should release the hostages, then I would unfreeze

their assets, which are several bil-lions of dollars...I would drop the embargo on trade with Iran and work toward a resumption of normal commerce with Iran in the future.'

The president said it is to the advantage of the United States "to have a strong Iran. It's to our advantage to have a united Iran.

Even before Carter spoke, the speaker of the 270-seat Iranian par-liament, Ayatollah Hashemi Rafsanjani, told The Associated Press in a telephone interview that a decision on the conditions for release of the hostages would be made "in the next two or three days."

He said the conditions probably would be the same as those listed by the Ayatollah Ruhollah Khomeini last month. Those include return of the late shah's wealth, cancellation of U.S. financial claims against Iran, release of Iranian funds in the United States and guarantees of non-interference in Iranian affairs.

Only a month ago Rafsanjani insisted that Iran had not dropped an earlier demand — that the United States apologize to Iran. But he made no mention of that demand Monday.

Carter last month criticized his Republican opponent, Ronald Reagan, for saying publicly that he would accept Iran's demands that the frozen assets be freed, that financial claims against Iran should be withdrawn and that the United States should pledge not to interfere in Iran's internal affairs. He said at the time that Reagan

shouldn't negotiate through the news

Reagan, campaigning in Louisville, Ky., made passing reference to the hostage situation Monday, saying only that, "I don't understand why 52 Americans have been held hostage

for almost a year now. Carter's conciliatory remarks Monday were echoed by public statements by Secretary of State Edmund S. Muskie. Both expressed concern over Iran's situation in its war with neigh

boring Iraq. "We are opposed to the dismember-ment of Iran," Muskie said in Chica-go. "We believe that the cohesion of Iran is in the interest of the stability of the region as a whole. The integrity of Iran is threatened by the Iraqi

He did note that Iraq has said it has no claims to Iranian territory.

Muskie also expressed concern about Soviet intentions in the volatile Persian Gulf region. "In light of Afghanistan, we must also be concerned about the possibility of new intervention presented by any instability in the region," Muskie said, without mentioning the Soviet Union

He said the war must be ended through settlement of disputes by peaceful means and with respect for the principles of non-interference in the internal affairs of other coun-

"If Iran and Iraq are prepared to respect both of these principles ...it should be possible to bring this needlessly prolonged conflict to an early end. It should be possible to do so in a way which does justice to the legiti-mate concerns of both sides," he

In another development Monday, Defense Secretary Harold Brown said the United States will not withhold arms shipments to Jordan, despite Iranian complaints that such shiprelease of the hostages.

'So long as others do not join actively in the war we intend to go along with our relations to them," Brown with our relations to them," Brown said, referring in part to Jordan, which is scheduled to get 100 new M-60 tanks beginning in 1983. Although Jordan has helped deliver supplies to Iraq, it has not taken any overt action in the Iraq-Iran conflict.

# Odessa police chief defends force against charges made by paper

ODESSA - Odessa police chief Jack Tomlin today charged that the majority of allegations of corruption in the Odessa Police Department in a Monday Dallas Morning News story were not "real" and were the result of uninformed patrolmen and unrest caused by the Texas Police Associ-

Tomlin began the 10 a.m. news conference by apologizing to the people of Odessa and members of the department "who are loyal, hardworking people."

"The headline of the article implied that the Odessa police department was in partnership with crime and certainly I want to assure the people here that that is not so."

Otherwise, Tomlin denied every charge in the story but one. He admitted that one jail cell was "malfunctioning" but that a purchase order and contract for its repair had been signed in September.

In the Dallas Monring News article the reporter noted, "A lock on one of the main control panels had been broken for months. That means a jail trustee, for example, could open the unlocked panel door and open a halfdozen cells in one of the blocks, allowing inmates to overtake the lone jail-

Tomlin admitted that one jail cell door was broken and that it had been for several months. It is "low priority," he said, "but it's not being used. There's no one in them.'

As for other allegations that Odessa officers are in cooperation with illegal gambling and prostitution rings, the Odessa police chief stated he "didn't know why these officers didn't go before the grand jury.'

Regarding the charges of prostitution and gambling in Odessa, Tomlin said there is some, but denied there are "classes" in prostitution and that Odessa officers would not arrest "high class" prostitutes working hotels, motels and the recent oil

"I suspect that it's not unusual that they have a call girl they could call at the hotels and motels. There's a certain amount of that that goes on, of

Leslie Acker, the Midland County attorney since 1976, has opted to cut his tenure short by two months and to allow his heir apparent, Robert Rendall, to fill out the term of his office if the Midland County Commissioners'

Court concurs. Acker, 36, today said he would be leaving public office to be a closing attorney on real estate for Lone Star Abstract Co. in Midland and to engage in a limited practice of private law. His resignation, which he submitted last week to County Judge Bill

Ahders, is effective Oct. 31. "I think I'll enjoy it," he said of abstract work. "It offers some good opportunities for me in the future. I feel I need to get over there and get

Acker, a Democrat who elected not to seek another four-year term in office, apparently will be succeeded by

26-year-old Rendall, who defeated fellow Republican Richard Moore in the primary election last May 3. Rendall is unopposed in the Nov. 4 general election.

Moore, a former prosecutor in the District Attorney's Office, has since resigned and has entered private law practice in Plainview.

"I'll go and move on and let Robert take over and let him do whatever he wants to do," Acker said.

"When I say that," he explained,
"I'm sure that it will be up to
the Commissioners' Court, but I don't know why they would want to appoint

Acker became county attorney in 1976, when he succeeded Jimmie D. Oglesby, who resigned to pursue a private law practice career in Midland. The Commissioners' Court appointed Acker to fill out the remaining year of Oglesby's term, and Acker, unopposed in the 1976 general election, was a shoo-in. In the preced-

ing four years, he had served as Oglesby's assistant. And for two years prior to that, he was an assistant attorney for the city of Midland.

"I wanted to get a little more trial practice — more variety," Acker said of his shift from the city to the coun-Acker said he valued his experience

as county attorney and as an assistant before that. "I really have enjoyed it. It's an excellent learning experience for any attorney, I think, because of the vari-

ety."

The diversity he referred to includes civil and criminal trial work in the County Court before Judge Bill Ahders and in County Court-at-Law before Judge Willie DuBose; child welfere cases; peace justice court work; child support cases, and as legal counsel to the Commissioners' Court, the Midland County Housing Finance Corp. and the Midland County Tax Appraisal District.

"Over and above all that, we constantly try to process bad checks," Acker said.

"You kind of become a jack-of-alltrades but not an expert in all of Acker noted the specialized nature of his prospective career in real es-

tate legal work. "It'll be completely different for me, but I think I'm ready for it."

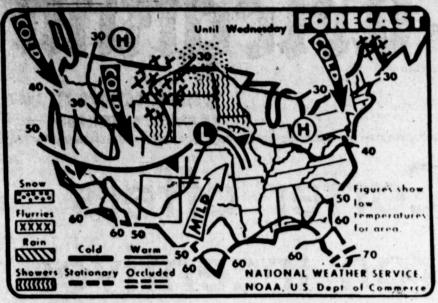

Rendall, who has been assistant to Acker since 1979, will take over the job, which will pay \$30,000 in 1981, next month upon the approval of the

Commissioners' Court. "I think the biggest change in the next four years is just trying to adapt to the increasing" workload and developments "caused by the growth of the city - not only in civil but in criminal cases," Rendall said.

LAMESA — Services for Katie Lou Ashley, 76, of Lamesa will be at 2 p.m. Wednesday in First Baptist Church here with the Rev. Dr. C.H. Murphy, pastor, officiating.

Burial will follow in Lamesa Memorial Park under direction of Branon Funeral Home.

Mrs. Ashley died Monday morning at an Idalou residence. Idalou Justice of the Peace Earl Yarbrough ruled the death was of natural causes.

The Sipe Springs native moved to Dawson County in 1922. She was married to Ira L. Ashley on Dec. 20, 1922, in Lamesa. He died in September 1967. Mrs. Ashley was a charter member of Pythian Sisters and was grand chief of Texas of the Pythian Sisters in 1952 and 1953.

She was a member of the Delphian Club and was a lifetime member of Dawson County Archeology Society. She served on the Dawson County museum board and was a member of First Baptist Church, where she was a Sunday School superintendent and choir member.

Survivors include two daughters, Margarite Hawkins of Commerce and Sue Winter of Idalou; two sisters, Cora Ramsey and Rhoda Lisenbee, both of Morton; two brothers, Joe Taylor Lisenbee of Andrews and John Elsworth Lisenbee of Seagraves; six grandchildren and three great-grand-

### E.J. Wicker

LITTLEFIELD - Services for E.J. Wicker, 67, of Littlefield, a former Midlander and executive vice-president of Midland National Bank during the 1950s, will be at 10:30 a.m. Wednesday in Crescent Park Church of Christ. Burial will be in Littlefield Memorial Park directed by Hammons Funeral Home.

Wicker died Monday in a Lubbock hospital following an illness.

A native of Killeen, he attended Abilene Christian College and later was a member of the board of directors of ACC. Wicker moved in 1958 from Midland to Littlefield where he became president of the Security State Bank. He retired from that position in 1978.

He was chairman of the board of directors of District 7 of Texas Bankers Association, a member of American Bankers Association and director of the West Texas Chamber of Commerce.

Wicker was married to Mary E. Moore in Lubbock in 1969. He was an active member of the Crescent Park congregation and was instrumental in building the current facility. Wicker was a Rotarian and a U.S. Coast Guard veteran of World War II.

Survivors include his wife; two sons, Thomas J. Wicker of Wicker and John R. Wicker of Austin; a daughter, Helen V. Reeves of Ruidoso, N.M.; and two grandchildren.

Pallbearers will be J.M. Farmer, Dr. Ralph Maurer, Mancil Hall, Bryan Williams, E. Wayne Finell and John M. Grimland.

The family suggests memorials to a favorite charity.

### South, West Texas sites out for new prison

**Austin Bureau** 

AUSTIN - Land Commissoner Bob Armstrong said Monday that sites in South and West Texas apparently have been ruled out as possible locations of a new state prison.

Armstrong, who is a member of the board charged with approval of the new prison site, said the board of the Texas Department of Corrections probably will recommend a site in

Proposed sites near Cotulla and El Paso apparently have been dropped from consideration because of local opposition, Armstrong said, adding that East Texas appears to be the only area interested in having the new

Armstrong did not know any specific East Texas sites being considered, but indicated he expects a recommendation from the prison board soon.

city of Abadan today and that Iraqi soldiers killed 38 Iranians in house-to-house fighting in the neighboring port of Khorramshahr.

THE MIDLAND REPORTER-TELEGRAM, TUES., OCTOBER 21, 1980

According to an official communique issued by the Iranian news agency Pars, residential areas of Abadan along the Shatt al-Arab estuary, "came under intense Iraqi mortar fire" late Monday and early today. Iran said its troops were "still continuing their epic resistance," but admitted the defenders needed reinforcements.

Baghdad Radio said the commander of Iraq's forces at the southern end of the 300-mile invasion front told the Iraqi News Agency his forces were tightening their control over the approaches to Abadan, while our artillery and air force continue to pound enemy positions and destroy armor and vehicles. The state of the enemy in Abadan is extremely bad, and our forces are tightening the noose."

The sector commander also reported his troops in Khorramshahr, 10 miles northwest of Abadan, "continued operations to purge al-Muhammarah (the Iraqi name for the city) and to completely eradicate pockets of resistance," the broadcast said.

# Military fringe benefit

One of the fringe benefits of the 1980 presidential election may well be a better armed, more secure United States.

There has been plenty of bad news recently regarding this nation's ability to respond to challenges and its readiness from the standpoints of both defense and aggression. The presidential campaign has focused attention on that area.

To put it bluntly, the picture painted by numerous government officials and military specialists has not been a pretty one. The all-volunteer forces concept the United States military has operated under the past several years has proven to be a disaster. Recruits generally have been too few with too little skills and, sometimes, only minimally acceptable from a capability standpoint.

Aggravating the manpower crisis for the military is the fact that competent, qualified men and women, trained at the government's expense, have been leaving military service recently because pay in the military is simply so bad.

Those aren't the only problems. The nation also has suffered something of an equipment crisis. A shortage of spare parts has resulted in problems and military experts say the nation needs more

Remedying the situation is going to take time and a vast expenditure of funds. The nation's people and leaders apparently just went to sleep for awhile and let our investment in our military machine deterioriate.

The recent surge of concern over the state of the nation's defenses and military capability is a topic that has drawn comment recently from several people including U.S. Sen. John Tower.

Writing in his weekly column "Capitol Update," Sen. Tower recently noted his belief that this concern is good because it focuses attention on a potential problem area and gives us all cause for contemplation.

"People are demanding answers to tough questions about our nation's ability to defend its interests in the world," writes Sen. Tower. "The very fact that you are asking the questions has led to a change in attitude in Washington. Defense has moved off the back burner as an issue and a priority.'

That's good. We've been nodding too long. Now we can all take a critical look at where we are militarily and take the necessary steps to make improvements that will continue to ensure our free-

# Nicaragua was betrayed by design or accident

There is a book you ought to read before you vote in November. It's called "Nicaragua Betrayed," and it was written by a former Texas newsman, Jack Cox, and Anastasio Somoza Debaye, the late president of Nica-

Cox finished the book in Paraguay and just after it was published, Somoza was killed by assassins. In a sense it is Somoza's dying testament.

Somoza flatly accuses President Jimmy Carter of betraying Nicaragua and delivering it to communism by design. There is plenty of evidence to back him up, including in the appendix several pages of taped transcripts of conversations between Somoza and U.S. officials.

You can judge for yourself what is valid and what is not. Some of the book, of course, is self-serving, but the basic facts cannot be denied. In 1977, at the insistence of the Carter Administration, military aid to Nicaragua was cut off. U.S. economic aid was cut off. The U.S. intervened to prevent the World Bank from renewing Nicaragua's loans. The U.S. intervened to prevent other nations from supplying Nicaragua with arms. In the end, the 16,000-man Nicaragua National Guard was undefeated in any major battle but without ammu-

It is strange indeed that the United States government could prevent other nations from re-supplying Somoza's forces but professed itself un-

able to stop the flow of arms to the communist forces. It is strange that the United States could call for the Nicaraguan president to leave his own country but could not ask the president of Costa Rica to close his border or stop the Sandanistas from training there.

It is strange that the United States could invoke human rights provisions of the Organization of American States to call for Somoza's overthrow, but could not invoke the OAS provisions against intervention in another nation's affairs against Cuba, Costa Rica or Panama.

I know I have written often about Nicaragua, but this is the most significant event in our hemisphere since Cuba was taken over by communists. You should look at a map and ponder the future.

The Gulf of Mexico is our soft underbelly. Nothing can go in or out of the Gulf except through the Florida Straits between Cuba and the Keys or through the Yucatan Channel between Cuba and Mexico. Most of the Middle East oil goes into the Gulf. All but a small portion of Alaskan oil goes into the Gulf via the Panama Canal and the Yucatan Channel. The Soviets have established a military base astride our sea arteries.

Panama is now run by Marxists. Nicaragua is now run by Marxists. Costa Rica is apparently intimidated by Marxists. This postage stamp little country has a Soviet embassy with about 200 people assigned to it and that should tell you something.

Marxist insurgents are now fighting in El Salvador, Honduras and Guatemala, which is adjacent to Mexico's oil fields. Castro's agents are busy all over the Caribbean.

Now, this is our backyard. Believe me, the rest of the world has taken note of the fact that we cannot or will not control events in our own back-

This acceleration of communist expansion has all taken place since the inauguration of Carter. He started working on Somoza's overthrow immediately. One of his first orders was to cancel our intelligence flights over Cuba. Since then, the Latin policy of the Carter administration has been to attack anti-communist nations and encourage communist nations.

I think this has been the work of the leftists Carter brought into government - men like Robert Pastor, who came in as the National Security Council advisor in charge of Latin America. He came from the old Linowitz Commission set up by the Rockefeller and Ford foundations. Always the excuse is human rights.

But whether the damage done to freedom has been by design or accident, the damage has been done and the people of the United States are much less secure than they were four years ago. Ponder our situation if Mexico goes communist.

You should read Somoza's book critically and not accept it as gospel, but what happened to him and to Nicaragua has a direct bearing on what will happen to us in the next four or five years. You can order the book from Western Islands, 395 Concord Ave., Belmont, Mass: 02178. Prophetically, Somoza, who was a

graduate of West Point, said in the book that he realized that by writing it, he was probably putting himself in further danger. He was surely right about that, but until the end he remained loyal to the American peo-

**WASHINGTON MERRY-GO-ROUND** 

# U.S. mercenaries trained Libyan terrorists

WASHINGTON - American cloakand-dagger operatives, skilled in the dark arts, have trained and equipped terrorist squads for Muammar Qaddafi, the dictator of Libya and promoter of world terrorism.

Dozens of victims have reportedly been hunted down and executed, probably with the cold efficiency American know-how has brought to the murder profession. One death squad was discovered in the United States and expelled from the country before it could complete its grisly

According to secret Justice Department files, the American experts have taught Qaddafi's killers how to construct sophisticated boobytraps a book, telephone, or tube of toothpaste into murder weapons.

The American ringleader, Frank Terpil, even offered to smuggle into Libya a U.S. Redeye missile, a shoulder-launched, heat-seeking weapon that can bring down an airliner in flight. There have been unconfirmed intelligence reports that an Israeli airliner, which mysteriously exploded in the skies, was shot down with such a weapon by Qaddafi's terror-

The fiery Qaddafi, a crucible of anger without focus, supports terrorist groups around the world from Ireland to Malaysia. Declares one federal investigator's report: "Libya publicly admits that it gives training, weaponry and funding to terrorist organizations throughout the world, specifically admitting support of the Palestine Liberation Organization, Irish Republican Army, Red Brigade and Japanese Red Army.

The report adds: "Also revealed in the investigation was the supplying by United States firms of sophisticated timing devices, radio control devices and sensitive surveillance and communications equipment to unauthorized representatives."

Terpil met President Carter's

Jack Anderson

brother, Billy, in Libya and apparently tried to set him up as a front for the unsavory operation. Billy Carter first admitted, then denied to Justice Department officials that Terpil had discussed a machine-gun deal with him. There's no evidence Billy was ever aware that Terpil was training terrorists for Qaddafi.

My associate, Dale Van Atta, has reviewed the classified Justice Department files, which read like a James Bond yarn. Here are just a few startling excerpts from the files: - Terpil agreed to train Libyan

agents in "espionage, sabotage and general psychological warfare" as well as "the design, manufacture, implementation and detonation of explosive devices." The undercover training was disguised as a mineclearing operation. - Terpil closed the deal in London

with Qaddafi's brother. During the negotiations, Terpil went boating on the Thames with the notorious terrorist Carlos the Jackal.

Beginning in mid-1976, the furtive Terpil, himself an ex-CIA agent, recruited a team of American clandestine operatives, paramilitary specialist, professonal killers and explosives experts trained by the CIA and U.S. special forces. By August 1976, the Americans were esconced grandly in the former winter palace of former Libyan King Idris - a luxurious hideaway that they assigned the curious code name "Swanee."

A palace room was turned into a

### workshop filled with diabolical devices. The Libyan intelligence chief liked to take trusted friends on tours of the secret room and show off the deadly wares and his American mercenaries. The visitors were most impressed with the book bomb that detonated when it was opened.

- Witnesses quoted a Libyan lieutenant as explaining that the devices "were to be used to eliminate certain people" because Qaddafi "would feel more comfortable if they were not around.

- At least one American quit the team, according to the secret files, because he "felt innocent people eventually (would) get killed with his bombs. (He) did not care about the they were for terrorist use and innocent lives would be lost." - In July 1977, the Americans deli-

vered some lethal "flashlights, attache cases, transistor radios, handheld calculators and refrigerators"all transformed into bombs - to a Libyan colonel in Tobruk. The files relate that "one of the Libyan military officers picked up one of the devices. As a result, the device along with the rest of the explosives on the truck detonated and killed three Libyan soldiers." Three American instructors were wounded.

- Veterans of the U.S. special forces taught the Libyans "American tactics and techniques," including classified methods and maneuvers developed by the United States. One of the Americans complained that some of his students "were barbarians in that they were stealing paintings (from the palace walls) and using silver tableware as darts."

- One informant slipped into the palace basement arsenal and inventoried an enormous cache of sophisticated gadgets from various American companies. "The invoices contained in the boxes listed thousands of timers at a price of millions of dollars," the report stated. Terpil sold the equipment for grossly inflated prices; one order of 100,000 timers, purchased for \$4.50 to \$6 per unit, were sold to the Libyans for up to \$250 apiece.

VAGRANT CONTRIBUTORS?: Federal Election Commission rules require that the businesses and occupations of political contributors be listed so the public will have some idea of what special-interest groups are supporting which candidates. But the National Conservative Po-

litical Action Committee (NCPAC) an ultra-conservative group that is attempting to depose such veteran liberals as Sens. George McGovern, D-S.D., Frank Church, D-Idaho and Birch Bayh, D-Ind. — appears to be going out of its way to flout the regula-NCPAC's lists of contributors are

peppered with donors who are allegedly "unemployed" or have no occupation whatsoever. But my associate Vicki Warren canvassed a random sampling of the major contributors on the lists and could find no one who was actually unemployed. Many owned their own businesses.

INSIDE REPORT:

### 'Shultz test' will reveal Nixon's influence with Reagan By ROWLAND EVANS

AND ROBERT NOVAK

WASHINGTON - One test of just how much influence Richard M. Nixon really exerts in the Reagan camp will be whether Ronald Reagan, if elected, names industrialist George Shultz as secretary of state. Nixon, surprisingly, opposes his former Cabinet strongman for the post.

Shultz, now the California-based president of the Bechtel Corp., is the clear front-runner inside the Reagan camp for the State Department post. But Nixon has passed the word to Reagan operatives that he thinks it would be a bad selection indeed.

Ironically, Nixon plucked economist Shultz from the obscurity of the University of Chicago in 1969 as his unexpected choice for secretary of labor. Shultz quickly rose to a dominating position in the Nixon administration, ending up as secretary of the treasury. Nixon's opposition to Shultz to become secretary of state is based on the belief he would be too friendly with foreign service professionals, always high on the former president's enemies list.

CIA STALL

On orders from the top, the Central Intelligence Agency (CIA) has abruptly halted a "finished intelli-gence" report on the status of Soviet anti-ballistic missile (ABM)

The hold order, issued personally by CIA director Stansfield Turner to

Evans

last until after the Nov. 4 election, caused a quiet but unsuccessful revolt in the CIA. Turner's reason: The intelligence report is expected to show Soviet gains in the field of ABM technology and in the use of anti-aircraft radar for detecting incoming ballistic missiles, which violates SALT I. Turner and the White House feared that the all-but-completed assessment would leak to the press and damage President Carter on the de-

SHACKLING BEGIN

Heavy White House pressure is being applied to Israeli Prime Minister Menachem Begin not to stage another Israeli invasion of Lebanon, but Jordan's new alliance with Iraq is making it much harder to restrain

"If Jordan gets involved militarily in the Iraq-Iran war, Israel will move," a White House aide told us. That would put President Carter in a political bind. If he lets Israel get

away with it, he will mobilize the entire Arab world against the U.S. If he forces Israel to withdraw as in the past, he will alienate the all-important Jewish vote just before the elec-

The temptation for Begin to move now is extreme. Once the election is over, Begin knows that the U.S. would react harshly and publicly to any new incursion into South Lebanon.

CARTER'S KOCHPHOBIA Even though President Carter seems to have moved ahead in New York, his operatives in the state still

regard Mayor Ed Koch of New York

City with fear and loathing. No meeting of Carter's New York campaign organization is complete without the president's men inveighing against Koch. They express loathing that the mayor's critical statements cost Carter the state's Democratic primary last spring and fear that he might yet deprive the president of the state's 41 electoral votes Nov. 4. The Carterites claim Koch has privately commented that Ronald Reagan in the Oval Office would be no

disaster for the city. A footnote: Fears of Koch aside, Carter's New York operatives consider the battle for the state all but over. They have canceled special media advertising campaigns aimed at disaffected Jewish voters on grounds the effort is no longer needed.

**JERRY BROWN'S SLUMP** Just how far Gov. Edmund G.

### Brown Jr. has slumped in California since his landslide re-election two years ago is shown by a private poll exposing him as a decided underdog in any third-term try.

If the election for governor were held today, according to the poll, Brown would be defeated by Republican Lt. Gov. Mike Curb by 17 percentage points. That's one good reason why Brown in 1982, instead of seeking an unprecedented third term in Sacramento, may oppose Republican Sen. S. I. Hayakawa instead.

Republican strategists fear that the 74-year-old eccentric Hayakawa is the one Republican Brown might be able to defeat in California. But there is no sign of dislodging Hayakawa from the Republican nomination without a bloody primary contest.

# Hearst case hearing won

SAN FRANCISCO (AP) — Patricia Hearst Shaw, who argued that attorney F. Lee Bailey was more concerned with selling a sensational story than defending her, has won a hearing in her bid to overturn a rob-

bery conviction.

The 9th U.S. Circuit Court of Appeals ruled Monday there are "serious questions" concerning whether Bailey and co-counsel Albert Johnson were "guilty of conduct unbecoming members of the bar" while representing the Hearst newspaper heiress and former kidnap victim.

"Bailey's potential conflict of interest is virtually admitted," the appellate panel said. It suggested a lower court might order Bailey, and possibly Johnson, to explain why they should not be disciplined.

Mrs. Shaw, 26, was reportedly vacationing in London and could not be reached for comment immediately. If the conviction is overturned, it would clear her record of her only convic-Bailey said he would "certainly be

Mrs. Shaw, then unmarried, was

convicted of robbing a San Francisco bank in April 1974. Prosecutors said the Symbionese Liberation Army staged the holdup after the radical group kidnapped Miss Hearst from her Berkeley, Calif., home.

In February 1979, after she served less than two years, the rest of her seven-year sentence was commuted

by President Carter. At her trial, she argued that her terrorist captors had forced her to

participate in the robbery.

Shortly after her release from prison, Miss Hearst married Bernard Shaw, a San Francisco police officer whom she met when he guarded her during the trial.

In its ruling Monday, the appellate court told the lower court to determine whether Bailey had violated Mrs. Shaw's rights by failing to seek a continuance in her trial, by not trying to move the trial from San Francisco and by having her testify.

President Carter has signed a bill granting permanent resident status to 653 members of the Spartanlike religious community who left Canada and Mexico in 1977 to purchase land in arid West Texas

The Mennonites first ran into trouble with the Immmigration and Naturalization Service because their \$2.6 million purchase did not automatically make them eligible to remain in the U.S.

The INS suspended deportation proceedings while the bill sponsored by Sen. Lloyd Bentsen, D-Texas, was pending before Congress. It was three years before the measure finally was approved. The Mennonites' land was repossessed last year.

after the group ran into financial difficulties, but many have remained in Gaines County Meanwhile, a Hispanic leader said the bill should be considered a mandate for all immigrants to be

# Bentsen 'pleased' with signing of bill

WASHINGTON, D.C. - Sentor Lloyd Bentsen on Monday said he is pleased the president signed into law his bill to allow the community of Mennonite residents near Seminole to remain permanently in this country.

The Bentsen bill had been passed by the House Oct. 2 after being passed by the Senate in 1979. The president signed it into law Sunday.

"Most of these immigrants fled to the United States from Mexico because of difficult economic conditions and the possibility that their land would be confiscated," Bentsen said.

"These individuals covered by this legislation had made extraordinary, good and fair efforts to comply with American laws. They have, in many cases, invested their life savings and have the strong support of their Seminole neighbors."

"They entered the United States in the spring of 1977 when, after numerous inquiries in this country, they came to believe that if they purchased land in the United States, they would be allowed to remain here as permenant residents.

"Only after they made major investments in land and arrived here that they discovered they might not be allow to remain.

"My bill remedies their plight by allowing them to stay in the United States as permenant residents. I am very please the president signed it into law,"

"This legislation would have absolutely no value or precedent for other than this group of unfortunate immigrants, because only these people have made such extraordinary efforts to comply with American law. This unique situation applies to no other

Last week we presented an excellent defense by the young Polish pair, Kudla-Milde. Here's another example of their expertise.

North-South were a Swedish pair of European cham; pions. They reached a slightly aggressive contract of three no truntp. That contract was made at some tables, but not against the ac-

curate defense of the Poles. West led the king of spades and continued with the queen to declarer's ace. The jack of hearts was finessed, losing to Milde's queen. He now made the farsighted play of a low diamond. Declarer won in dummy, cashed the king of hearts and led a diamond. Reading the hand perfectly. Milde rose with the ace of diamonds and then made the brilliant shift to the king of clubs! That protected against the possibility that South had started with a bare jack. Declarer won in dummy, but now he could not get off the

table without allowing West to gain the lead and reel off his remaining spade tricks. Down three!

Note that if Milde allows declarer to win the second round of diamonds, the contract can be made. Declarer cashes his heart tricks and then exits with his remaining diamond honor. East must present declarer with two club tricks, allowing declarer to score one spade, four hearts, two diamonds and two clubs.

As it was, declarer was finished when East played the club king. If South duck ed this trick, East would revert to a red suit, and declarer would be stranded

with a spade loser at the end. But at least that play would !have saved two undertricks. East's thoughtful and imaginative defense, however,

deserves the highest praise.

Your play to the first trick could decide the fate of the contract! A writer once remarked: "There's no such thing as a blind opening lead, only deaf opening leaders!" # Stock market gains

NEW YORK (AP) - Stock prices edged up in early trading today as a top official in the Carter administration voiced hopes the Federal Reserve Board will not push up interest rates.

The Dow Jones average of 30 industrial issues rose .76 to 961.60 in the first two hours of trading as advances outnumbered declines by a 7-5 margin among New York Stock Exchange issues.

Treasury Secretary G. William Miller told reporters he hoped the Fed will be flexible in responding to recent money supply increases.

"It is in everyone's interest to avoid a run-up in (interest) rates that will abort the recovery," Miller said. He noted the Fed had not acted quickly this spring, when the money supply was declining, and added, "If they hesitated to do it in one direction, why can't they hesitate another week or two in the other direction."

Among oil issues, Gulf was up % to 47% and Mobil added ½ to 81%. But Texaco was unchanged at 40% and Occi-

dental was off % to 32. Citicorp was up % to 20% after reporting higher earn-

Big Board volume totaled 22.44 million shares in the first two hours, compared to 17.09 million by the same point on Monday.

The NYSE's composite index rose .16 to 76.60. At the American Stock Exchange, the market value index was up 1.73 to 364.69.

TODAY'S ANSWER

# Millions have no insurance, study reveals

WASHINGTON (AP) - Three of every four Americans see a doctor at least once a year and one in 10 is hospitalized, but millions of people have no form of health insurance to help with the costs, says a major government survey.

Preliminary results of the survey, termed the most comprehensive ever done on personal health care and expenses in this country, were to be released today at the American Public Health Association's annual meeting in Detroit.

The entire survey, which looked at the health-care habits of 37,000 persons in 14,000 households during 1977, will take years to analyze fully.

But the National Center for Health Services Re-

search said early findings give some insight into how Americans tally up \$200 billion in health expenditures each year.

"One surprise of this study was the large number of persons who reported being uninsured — 26.6 million persons or about 12.6 percent of the civilian population," said the agency, part of the Department of Health and Human Services. There was no difference in insurance coverage

between men and women, but there was a racial Eighteen percent of whites had no coverage, com-

pared with 11.7 percent of all other races, the survey found. Medical assistance programs for low-income persons, such as Medicaid, accounted for some of

In other categories, more than 160 million persons

— 75.9 percent of the 1977 population — had at least

Whites more than other races, females more than males and persons over 65 years of age more than those younger were more likely to see a doctor. Doctors fees varied widely, but the mean figure

was \$23 per visit. Families and individuals paid 65 percent of these costs themselves and private health insurance

picked up 15 percent. Medicaid paid large proportions of doctors' fees for low-income persons and those other than whites, the survey found.
About 10.3 percent of the 1977 population, 21 million persons, had stays in hospitals that year, with the

mean length of stay being 7.6 days. "The overall mean charge for a hospital stay in 1977 was \$1,127 for those where hospital charges were known," the survey said.

# Elementary school readers to aid MS

Midland and Permian Basin elementary school students participating in this year's multiple sclerosis read-a-thon may benefit at least 200 known patients in the Permian Basin who have MS.

Students involved in the reading program are encouraged to seek sponsors who will pay money for any number of books read within a certain time.

Textbooks and comic books are exexempted from the event, according to Sharon Owens, program director of the Permian Basin Multiple Sclerosis So far, 24 schools in the 19-county Permian Basin

Although the project is designed to provide funding for the area's MSprogram, Mrs. Owens noted that one of the goals of the read-a-thon program is to encourage elementary school students to read

Mrs. Owens noted that the read-a-thon would continue through Nov. 18.

Funds from the read-a-thon contribute to MS research and provide care services for MSpatients. Students are given packets which record the number of sponsors and books read. Parents must verify by signature that a student has read a book.

Prizes in this year's read-a-thon for the most books read and money collected range from award certificates to a trophy and watch, Mrs. Owens said.

This year's read-a-thon national chairman, Gil

### THE NEWSPAPER BIBLE

### A gift is for giving

L the special abilities the Holy Spirit gives, and especially ET love be your greatest aim; nevertheless, ask also for the gift of prophecy, being able to preach the messages of God.

But if your gift is that of being able to "speak in tongues," that is, to speak in languages you haven't learned, you will be talking to God but not to others, since they won't be able to understand you. You will be speaking by the power of the Spirit but it will all be a secret.

But one who prophesies, preaching the messages of God, is helping others grow in the Lord, encouraging and comforting

So a person "speaking in tongues" helps himself grow spiritually, but one who prophesies, preaching messages from God, helps the entire church grow in holiness and happiness.

I wish you all had the gift of "speaking in tongues"-but, even more, I wish you were all able to prophesy, preaching God's messages, for that is a greater and more useful power than to speak in unknown languages-unless, of course, you can tell everyone afterwards what you were saying, so that they can get some good out of it too.

Dear friends, even if I myself should come to you talking in some language you don't understand, how would that help you? But if I speak plainly what God has revealed to me, and tell you the things I know, and what is going to happen, and the great truths of God's Word-that is what you need; that is what will help you.

Even musical instruments—the flute, for instance, or the harp—are examples of the need for speaking in plain, simple English rather than in unknown languages. For no one will recognize the tune the flute is playing unless each note is sounded clearly.

And if the army bugler doesn't play the right notes, how will the soldiers know that they are being called to battle?

In the same way, if you talk to a person in some language he doesn't understand, how will he know what you mean? You might as well be talking to an empty room.

Surrogate Parenting was established in February by Dr. Richard Levin, a Louisville infertility specialist, and Karen Zena, a former paralegal worker. Ms. Zena said the driving force behind the organization was Levin, who "has a real feeling for those couples who come here unable to have children.'

"It is a service that people need to know about," she added.

Ms. Brophy said the parents in this first case have not met the surrogate mother, but have spoken to her by

WHEN ASKED ABOUT how much contact the surrogate wanted to have with the child while he or she grows up, she replied, "I don't really think she (the surrogate) wants any further contact with the child, other than knowing it's healthy and happy."

The birth certificate will bear the names of the father and the surrogate mother. According to Ms. Brophy, the child must be legally adopted by the wife of the father.

Ms. Brophy would not divulge how much the surrogate mothers are being paid. "We ask the women to just tell us what they're interested in," she said, adding that most of the surrogate fees range from \$5,000 to

The attorney said that in many states where it is illegal to pay for a child, the wife can apply to be the baby's stepmother.

**DURING AN INITIAL three-hour** consultation between the prospective parents and Surrogate Parenting. Ms. Brophy and Levin try to point out all the things that could go wrong: the surrogate mother could change her mind, the child might not be born healthy, their contracts have not been tested as a legal precedent.

The session, she said, informs clients "how we got started, how our procedure works now, what kind of examinations we put those women

through.'

Those examinations include a fertility exam, psychiatric and psychological testing and a check of the surrogate's children to make sure they're healthy. Some couples, Ms. Brophy said, may request extra tests of the surrogate mothers, such as an IQ

The lawyer would not divulge the number of surrogate mothers engaged by the organization, but she said Surrogate Parenting is proceeding with regular inseminations.

"The thing is to keep surrogate parenting in a controlled manner," Ms. Zena said. "We want to make sure that it's still perceived that not everybody goes and does this."

### AT WIT'S END

### Adventures for adults only

By ERMA BOMBECK

If your children are like mine, they have led sheltered lives. They have never seen a chicken naked without benefit of seasoning or dressing. They have never witnessed the birth of a casserole. They have never walked in unexpectedly and viewed the massaging of bread dough.

They have regarded the kitchen as an adult community that is not open for children or pets. Their visits have been limited to throwing open the freezer/refrigerator doors and declaring, "There's nothing to eat in this house."

Now that they have their own apartments, I get a wonderful, warm, maternal feeling just knowing they are starving to death.

I cannot tell you the number of times I tried to lure them into the kitchen with teasers like, "Have you no curiosity as to how the cereal gets into the bowl?" Or, "Come. Stand by my side and together we will 'just add water." But they never took the

NEW YORK (AP) — "Our energy problems will be solved by the youngsters who today are in the high schools and grade schools of America," says Alan Smith, president of the National Energy Foundation.

Smith points with pride to the foundation's own contribution toward preparing the nation's youth to work in that area - the SEER program, a major project of NEF, an energy group organized in 1976 to raise public awareness of the sources, the efficient utilization and the conservation

SEER — Student Exposition on Energy Resources - attempts to "develop an awareness among America's school population of the energy-related changes - scientific, economic, social and political - that will affect their future," Smith says.

"The principal thrust of SEER comes through its annual involvement with thousands of secondary school students. These youngsters conceive and create mock-ups, dioramas and working models demonstrating their sophisticated and mature creative solutions to the multiple aspects of the nation's energy prob-

lems," Smith explains. Each year, the finalists' entries are displayed to the public. Winners are. announced at an annual dinner attended by leaders in industry, government and education.

Medals and cash prizes are awarded and special winners receive trips to energy installations such as coal mines, solar installations, recycling plants and offshore oil rigs.

Projects in biomass, solar, nuclear and other alternative resources have been submitted. The ideas have ranged from the use of Glauber salts to store the sun's energy, to aerodynamic pitch adjustments and other refinements for a wind turbine, generating electricity by magneto hydrodynamics, and creating energy from sewage (methane gas), Smith says.

DEAR HELOISE:

I'm new at housekeeping and want to know how to wash clothes to properly clean them, yet

not wear them out. Any helpful hints will be most welcome, and please don't use my name or everyone will know how dumb I am. -New Bride

Well, don't feel dumb, dearle, 'cause there's a lot of us who've been around awhile who could learn a few tricks of the trade.

You've got a very good question, as it's quite possible to literally wear out clothes from improper laundering, and that's expensive at today's

The Soap and Detergent Association once again comes to our rescue. They tell us that with improper laundering, over a period of time clothing will show soil buildup and general de-terioration in appear-

Under-use of detergent will accelerate the development of these problems, but proper use of detergent will minimize

The purpose of deter-gent, in the first place, is to help the water wet both fabric and soll quickly and thoroughly, tie up water hardness to permit the detergent to do its cleaning job, loos-en and remove soil from fabrics, and hold the re-moved dirt in the washing solution to prevent it from depositing on the fabric before it can be

rinsed away. Heavily soild work or play clothes require more detergent than

Washday know-how

lightly soiled garments.

HINTS FROM HELOISE

The consumer should read the package directions to get the best results from the particular product being used. Powders and liquids are different, some ore concentrated than others. Also, the harder the water, the greater the amount of detergent

needed.

Many of today's fabrics require a lower wash temperature, reduced wash time and a slow rate of washing action to preserve colors or special finishes. However, in following such instructions, you may contribute to poorer cleaning. The type or kind of soil found on these clothes may not be easily removed. It's important to use an adequate amount of detergent. In some cases more than the re-

commended amount of detergent or special pretreatment will be required.

Plus, different washing machines require different amounts of detergent. For bet results, check the instruction booklet that came with your washer.

When using bleach, follow the directions on the container. Improper bleaching can damage clothes. Same goes with hanging clothes on the outside line to dry if the sunshine is hot. Bring them in as soon as they've dried (especially colored fabrics). The hot sun can cause rotting and fading of fabrics.

One last tip toward having cleaner clothes,

and a washer in good

working condition: never

overload the washing machine. Put clothes in loosely and give plenty of room for agitation. That washer will give you a lot more years of troublefree service if you baby it

along. Hope this helps you in one area of your domes-tic domain. — Heloise

Young couples in the area, upset and worried about the fate of the pair, were reluctant to go out

Friends and relatives in Fort Atkinson, a dairyfarming town of 10,000, collected a \$3,000 reward for information on the couple's whereabouts during

weeks of searching in area woods. The families hired a private detective and even turned to a mystic in hope of finding a clue. Concerned neigbors fixed them meals, and letters and

prayers flooded in to the families. But no clues turned up until two Milwaukee squirrel hunters came upon the remains of an unclad woman Sunday in a wood near U.S. 16, some

eight miles north of Concord. The hunters alerted authorities, who uncovered a young man's body Monday in a cornfield 100 yards

Officials have said they found no connection between the couple's disappearance and that of Kathy Sjoberg, 17, who vanished from the same parking lot during a school prom party seven years ago and who

Dear Joey: As you indicate, the life expectancy for a child born in the United States today is substantially higher than it was at the turn of the century - an increase of about 26 years. By contrast, a 45-yer-old man has a life expectancy only five years higher than in 1900. The discrepancy is easily ex-

While preventive measures have been successful in reducing infant and child mortality resulting from the acute contagious diseases that previously threatened them, treatment for the major diseases affecting adults has not kept pace. However, there is some room for optimism that death rates for adults will improve in years to come.

Although the 1970 death rate for individuals between the ages of 25 and 64 years ws even higher than in 1960, the rate ws fallen insubsequent years. The decrease is attributable in large part to a decline in deaths from cardiovascular diseases, principally coronary artery disease and stroke. This trend should gain added momentum as more and more people become convinced of the importance of preventive measures such as the detection and control of high

pressure refers to the force of the blood against the walls of the arteries as the heart pumps blood to all parts of the body. In a person with high blood pressure, the heart and arteries work harder than they otherwise would. The heart is obliged to pump with greater force, and the blood in the arteries moves under greater pressure.

WASHINGTON (AP) — Ronald Reagan and President Carter have decided how, but not when and where they'll debate. A negotiator in the intricate struggle to arrange the contest predicted, however, that the impasse will be short. For their part, the two candidates at least seem ready to work out a schedule.

# Reagan defends defense stand

LOUISVILLE, Ky. (AP) — Ronald Reagan, who has maintained steadfastly that the economy is the major issue of 1980, finds himself in the campaign's final weeks defending himself against President Carter's charges that the Republican is more likely to get the nation into war.

"You know the president has decided that I'm busy starting a nuclear war, and I just want everybody to know that I absolutely refuse to do that," Reagan said in Louisville on Monday.

Reagan seemed largely on the defensive in Ohio also to Carter's charges that he would cut back on Social Security and to the shouted taunts of demonstrators protesting his opposition to the Equal Rights At a campaign rally here where two-dozen heck-

# West Bank mayors on hunger strike

JERUSALEM (AP) - Two West Bank Palestinian mayors went on a hunger strike after learning that they had lost their appeal against expulsion from the West Bank, the Israeli military government said today.

The mayors, Fahd Qawasmeh of Hebron and Mohammed Milhem of Halhoul in custody in an Israeli customs terminal on the Jordan river while their appeals are considered, were taking water only, a spokesman Their families demonstrated out-

side the official residence of Prime Minister Menachem Begin in Jerusalem demanding that he overrule the military government and let the mayors come home.

They waved placards saying "In the name of humanity, release our fathers." Police quickly dispersed the demonstration, Israel Radio said without elaboration.

The demonstration occurred hours before Begin was to meet with two other Arab mayors, Elias Freij of Bethlehem and Rashid a-Shawa of Gaza, who intend to plead for a reversal of the new order. It was handed down Monday by Brig. Gen. Binyamin Eliezer, the West Bank occupa-

Freij and a-Shawa said they were departing from a longstanding refusal by Palestinians under Israeli occupation to meet with Begin because the case had unusual humanitarian as-Qawasmeh and Milhem were ex-

pelled six months ago from the West Bank of the Jordan River in reprisal for a Palestinian ambush that killed six Jewish settlers in Hebron.

The expulsions were criticized

around the world. The U.S. government made clear it believed that if the mayors were allowed to return to their homes, Israel would advance prospects for Arab-Israeli peace.

If Begin, in his capacity as defense minister and overseer of occupation matters, does not let the mayors return, they have until Wednesday to appeal to the Israeli Supreme Court.

Meanwhile the two men are being held in a customs terminal at the Allenby Bridge, the main crossing point between Jordan and the West

In upholding the earlier deportation order, Eliezer based his decision on the recommendation of an Israeli appeals board which heard Qawasmeh and Milhem swear they disavow violence and will not disturb the peace if

they are allowed home. Israeli newspapers disagreed on

The mass-circulation Maariv implied that it did not support the expulsion in the first place but that now that Israel had done it, it had to stick by its decision.

whether the mayors should be al-

lowed to return.

Maariv warned against "a policy of zigzags," saying if Israel changed its mind now, the world would see the original expulsion order as "hasty, ill-conceived and ill-considered."

The influential Haaretz saw no threat to Israel's security in the return of Qawasmeh and Milhem.

"The military government has proved that it is not afraid of taking drastic punitive measures against Arab politicians of high public stand-ing, the paper said. "It is logical to assume that Mssrs. Qawasmeh and Milhem and their voters have learned

# S. manufacturers get tips from Japanese

DETROIT (AP) - This may be the land of Yankee ingenuity and good old American know-how, but automakers, engineers and manufacturers were getting lessons on manufacturing methods today from Japanese

Near the birthplace of the automobile assembly line, 500 manufacturing specialists from the American Production and Inventory Control Society gathered in a Ford Motor Co. auditorium for lectures by experts from Toyota Motor Co., Yamaha Motors, Waseda University and the American accounting firm of Arthur Andersen &

American companies, impressed by the stupendous growth of Japanese productivity since World War II, have turned in recent years to Japanese firms for technical help, particularly in the steel industry. "It's time we did some borrowing

and adapting of our own," said

Leighton Smith, Tokyo-based partner

of Arthur Andersen.

Industry here has noted that Japan has a loyal and cooperative workforce, an understanding government, fast depreciation, high savings, high investment and fast-growing automation, and lower labor costs in some sectors such as the auto industry, he

And the Japanese have made huge strides in shop-floor management, Smith said.

Among the topics under discussion by the Japanese industrialists were:

-Factory specialization. There are only 750 industrial "entities" in Japan with more than 1,000 employees. An entity - any industrial unit that has an administrative office - normally specializes in a single product, functional part or subassembly. A giant company like Toyota, for example, consists of many entities. By sticking to the manufacture of one product or one part, the factories don't lose time switching from one manufacturing process to another, and their assembly workers become highly adept at their particular tasks.

-Uniform factory loading. A factory produces at a pace set at the beginning of the month and not changed until the next month, unlike American auto assembly plants, which are likely to operate at different speeds throughout the month. The uniform pace avoids week-toweek uncertainty and fluctuations, although Japanese production varies

from month to month. -Constant striving for the minimum assembly lot size - 100 Yamaha motorcycles, for example - and machine set-up time, or the time to prepare a machine for another manufac-

-Vigorous preventive maintenance to avoid machine breakdowns. Japanese manufacturers strive to minimize unexpected machinery problems, which could mean substantial repair time.

-"Just in time" deliveries. Some plants get deliveries four times a day that go straight to assembly lines. The receiving company, a major assembler, for example, doesn't inspect the parts because that already has been done in a nearby supplier plant. That relieves the assembler of keeping inventory.

# Dock workers resume loading grain for Russia

NEW ORLEANS (AP) - Longshoremen in the New Orleans area, acting under court orders, have resumed loading grain on four cargo ships bound for the Soviet Union.

"We're loading only because we were ordered to," David Hauki, sec-retary of New Orleans Local 3000 of the International Longshoremen's Association, said Monday, U.S. District Judge Robert Collins

issued a 10-day restraining order on Saturday telling ILA Locals 3000 and 1497 to end their boycott of grain ships headed for the U.S.S.R.

The boycott, which began last Wednesday, marked a renewal of grain boycotts staged by longshore-

men last January. The dockworkers had refused to load grain for the Soviet Union in protest of the military intervention in Afghanistan.

But Collins said the union's boycott violated work contracts with the New Orleans Steamship Association.

Union spokesmen said the longshoremen still believe they are morally right in boycotting the grain ships even though they have a contract with the steamship association.

But the union says longshoremen will abide by the judge's order while their attorneys look into any legal steps to resume the boycott.

Ships involved in the boycott included one at the St. Charles Grain Elevator in Destrehan, two at Continental Grain elevators in Westwego and Reserve and one at the Farmers' Export Grain Elevator in Ama.

# Texas Public Employees urges pay increases

AUSTIN, Texas (AP) - Texas Public Employees Association officials say the pay raise recommended by the Legislative Budget Board would help state employees gain ground in what has been a losing battle with inflation.

The LBB-backed package includes \$880 million for a 14.3 percent raise in 1982 and an 8.7 percent jump in 1983. The LBB proposal approved Saturday also includes \$84 million for state employees' insurance coverage.

"That should help employees who serve the state to catch up some in their losing race with the inflation rate," TPEA Director Gary Hughes told a news conference. "Texas will benefit, too, of course, if its workers are properly and competitively com-

# Royals send Gale warnings to Phils' Carlton

PHILADELPHIA (AP) - Rich Gale, the tall right-hander who carries Kansas City's survival hopes into tonight's 7:20 p.m. sixth game of the World Series, approaches the assignment against Philadelphia in a

"The game's not just on my back," said Gale. "I've got 24 other guys to help out there, too. There's no question I'm going to be pumped up, but if I lose I think the sun will still come up Wednesday."

To keep this pulsating, dramatic Series spinning to a decisive seventh game, the Royals need only to overcome Steve Carlton, ace of the Phillie pitching staff. Gale shrugged off that prospect.

"I said before we're going to have to beat Carlton to win this thing," he said. "Now we're at that point. You either beat Carlton or we lose it in

For their part, the Phillies were glad to get home and have their ace, Carlton, ready to pitch with five days of rest. He started and won Game Two of the Series last Wednesday night, pitching eight innings and

allowing four runs on 10 hits.

"Even when Steve isn't sharp, he usually gets the job done," said catcher Bob Boone. "Let's just say I couldn't be happier to have him going for us in a game that could give us the World Series."

The Phillies put themselves in position to win the world championship at homeby rallying for two runs in the ninth inning Sunday to swipe Game Five back from the Royals 4-3.

Kansas City, three outs away from victory and the Series advantage, swallowed a tough loss instead. The Phillies' victory was constructed around a leadoff single by Mike Schmidt, a pinch double by Del Unser and a clutch two-out single by Manny Trillo.

Schmidt, for one, thought the sudden turn-around could be decisive for

"I felt if we went back to Philadelphia with an adantage, it would put us in good position," the slugger said. "hey have to win two in our place and it's not going to be easy.

Not with 65,000 fans rocking Veterans Stadium and that green creature

called the Phillie Phanatic flying all over the joint. It can be an intimidat-

Three players will carry five-game World Series hitting streaks into Game Six. Kansas City's Amos Otis is batting .555 with 11-for-20 and is two hits short of the World Series record of 13 shared by Bobby Richardson of the 1960 New York Yankees and Lou Brock of the 1968 St. Louis Cardinals. Teammate Hal McRae is at .450 on 9-for-20 and Philadelphia's Larry Bowa is hitting .400 with 8-for-20.

Willie Aikens of the Royals, with a pair of two-homer games, has four for the Series, one short of the record set by Reggie Jackson of the Yankees in 1977. Aikens also has eight runs batted in and is pursuing the Series record of 12, also set by Richardson in 1960.

Perhaps the most important pending statistic, however, is the one about fifth-game winners. In the 28 previous best-of-seven Series that were tied at 2-2 after four games, the fifth game winner went on to take the Series 20 times, a .714 percentage. That's the one the Phillies and their world championship-starved fans were thinking about.

Coach Bobby Collins of the undefeated Southern Mississippi football team says it's almost too much to

Making The Associated Press college football poll for the first time ever. Being 6-0. And playing the No. 1 team in the country.

"It's quite a challenge. It's something you dream about. It could only happen in America," Collins said

Texas moved into second place behind Alabama in the poll Monday while Southern Mississippi, Alabama's next opponent, made the rankings for the first time.

"We are certanly pleased that we cracked the Top Twenty and I feel our team is very deserving," Collins said. "We have accomplished another of our goals and I hope our play this week justifies this recognition.

Collins said he felt neither Southern Mississippi's schedule nor the fact that his team was an independent had hindered it in the Eagles' quest for big

"I think we've played the type schedule (in recent years) that would be in favor of our receiving national recognition, including the Southeasten Conference schools, Florida State and Tulane," he said. "And the major independents do get recognition. Just look at Notre Dame and Florida

That's the case of Texas Tech's Rufus Johnson anyway.

Johnson, a freshman from Midland High, is a walkon tight end at Texas Tech University. He is currently the second team junior varsity tight end and loving every minute of it.

"When I was in service, I played basketball," said Rufus. "But I've always been partial to football and thought I'd just give it a try. I figured it couldn't be any tougher than boot

After having to miss out on the gridiron action, he graduated high school, joined the Army, served four years and now is back on the gridiron. Rufus thinks he has been given a fair chance to show his wares and is happy to be a part of the Red

"They (the coaches) have given me a very good chance to play," said the 6-4, 205-pounder. "I'm going to try to stay with the team as long as they will have me and someday maybe I'll crack the varsity."

Of course, like all freshmen, Rufus has had to learn a lot more about the game than he tought was possible. "It's a bit different, especially blocking techniques," he explained, "Even though it is different, if you can learn to adjust mentally, then it is not quite

as difficult." Coach Craig Harris (JV head coach) thinks Rufus will continue to improve and praises his attitude. "He really gives 100 per cent, even though he has not really had that much opportunity to play. He's a coach's type player.'

"My blocking has improved, but I still need to work on it. Once I've been on the weight program for a while, I feel it will really help me."

Johnson comes from a basketballoriented family. One brother, Charles, plays at Midland College, and another, Herbert, is a senior at Midland High and a Bulldog stand-

"Yea, basketball has been pretty good to us Johnsons," says Rufus. But I'm hoping to instill a little football in the family tree."

If Rufus' first two games on the Picador schedule are an indication, the tree could blossom quickly. He has been on the special teams and has caught two passes, one a 38-yarder, the longest Picador completion this

season. "Tight end in our offense is used basically for blocking," Rufus says, "But when they call my number on a route, they usually get the ball there. I think our quarterbacks have confidence in my catching ability and I

PITTSBURGH (AP) — The Oakland Raiders punted just twice. The Pittsburgh Steelers punted just

But the scoreboard point totals jumped like the digits on a pinball machine as the Raiders beat the Steelers 45-34 in the highest scoring game in the history of Monday night

"This was just unusual. I don't know if it was playing on Monday night or what?" said Steelers cornerback Mel Blount.

"I don't know how much offense we had. I don't know if we had as much as they did. But we got the big plays,' said Raiders quarterback Jim Plunkett, who threw three touchdown passes, including two bombs to Cliff

"I don't know whether to laugh or cry," said Pittsburgh quarterback Terry Bradshaw, who threw for two touchdowns before he was finally knocked from the game for the third and final time with a pinched nerve in his shoulder and a jammed right

THE RAIDERS, the team in the National Football League with the best Monday night record (14-1-1), took the lead to stay with a 21-point second quarter that gave them a 28-24 half-time lead. They finished with the most points ever by a visitor to Three Rivers Stadium.

"It was a great victory, a heck of a game," said Raiders Coach Tom Flores.

The 79 total points were the most in the 101/2-years of Monday night games. The old high of 77 was matched in Oakland's 42-35 win over New Orleans last year and in Dallas' 42-35 victory over San Francisco in

"I'm proud of our football team because it played very, very well. Oakland just played a little bit bet-ter," Coach Chuck Noll said after Pittsburgh fell to 4-3 with its second loss in a row at home, something the Steelers hadn't done since 1971.

Pittsburgh began the game without injued All-Pros Lynn'Swan'%oHarris and John Stallworth. Then it lost linebacker Jack Lambert in the firstquarter with a knee injury.

Bradshaw said he expects to play next week at Cleveland, now tied with Houston and Pittsburgh atop the AFC Central. Lambert's status is uncer-

MEANWHILE, Oakland, 4-3, notched its fourth straight win over Pittsburgh in a rivalry that had been dormant since the Raiders won here

Pittsburgh took a 10-0 lead in the first quarter on Bradshaw's 19-yard touchdown toss to Jim Smith and an 18-yard field goal by Matt Bahr. The Raiders countered with Kenny King's 27-yard touchdown run on their next

A total of 35 points came during a second quarter that ended with Bradshaw in the training room undergoing treatment for a pinched nerve in his left shoulder.

Bradshaw hurt his shoulder on a play which resulted in a 34-yard fumble return for a touchdown by linebacker Rod Martin, giving the Raiders the lead at 21-17 with 3:05 left in the second quarter.

Bradshaw was sacked by Cedrick Hardman, jarring the ball loose. Willie Jones recovered the ball and lateraled to Martin, who ran to the end

"I didn't intentionally hurt Brad-shaw," said Hardman. "We've been friends for a long time." With Bradshaw headed to the lock-

erroom, backup quarterback Cliff Stoudt was intercepted by linebacker Ted Hendricks, who picked off an earlier Bradshaw pass.

Plunkett followed with a 45-yard bomb to Morris Bradshaw and the Raiders led 28-17.

BUT STOUDT led Pittsburgh on a 79-yard drive that ended with a 13yard strike to Jim Smith just 10 seconds before the half. Smith made the grab at the 1. He was tackled by Odis McKinney but he extended the ball with one arm across the goal.

In the third quarter, Plunkett and Branch combined on a 56-yard bomb to put the Raiders up 35-24.

Bradshaw then threw a 36-yard TD pass to Theo Bell, and Matt Bahr added a 32-yard field goal that cut the

through three periods. But Plunkett teamed with Branch again on a 34-yard scoring pass in the last period, and Chris Bahr, Matt's brother, kicked a 35-yard field goal for Oakland.

Plunkett, who took over at quarter-back after Dan Pastorini suffered a broken leg, hit 13 of 21 passes for 247

"There's no question about it. I've matured," said Plunkett. "I don't throw the ball as hard as I used to, but I feel pretty good physically.'

Bradshaw, sacked five times, hit 18 of 27 passes for 299 yards.

"We came back. We tried. We fought back. But it just wasn't enough," he said.

Later, a craggy-faced visitor to the Raiders lockerroom summed up the game for both sides.

"It was just like the old AFL," said ex-Raider George Blanda, remembering the days when teams like the New York Titans and Dallas Texans lit up the scoreboards of the American Football League.

### Prep boosters to meet tonight

Midland High's Bulldog Booster Club will meet at 7:30 p.m. today at the Memorial Stadium Fieldhouse on Cuthbert Street. Normally, the group meets at the Midland Youth Center, but tonight's meeting will afford boosters an opportunity to inspect the stadium facilities.

Movies of the Pack's victory over Abilene High and a scouting report on this Friday's game with San Angelo topsthe agenda.

The Midland Lee Rebel Booster Club will meet at 7:30 p.m. today in the Lee Youth Center to view films of the 21-21 tie with Abilene Cooper.

A scouting report will also be given by Coach Spike Dykes on Big Spring,

the Rebels' next opponent in Big Spring Friday night.

### Volleyball teams face tough tests

Midland High's girls volleyball team hosts first half champion San Angelo tonight with JV action starting at 6 and the varsity match to follow. Coach Linda Jolly's spikers are 2-1 in the second half, but need this one to stay in the race. San Angelo is 3-0 in the second half, having already beaten Abilene Cooper, with whom it shared the first half title.

Midland Lee, likewise, encounters a big chore when Coach Linda Weikel takes her 1-2 girls to Big Spring, 3-0, and one of the district powers. The Steers only loss was to San Angelo in the final game of the first half.

Midland High's girls won the Junior Varsity Tournament at Big Spring over the weekend, beating San Angelo 13-11, 2-15, 12-10 in the champi-onship game. To get to the finals, Midland defeated Odessa 15-13, 15-13, and Abilene 15-10, 15-7.

### Raiders aren't the disaster they seem In view of recent developments, Later, Baylor beat Texas Tech 10-3 and the crescendo of criticism perhaps a re-examination of the

Texas Tech football season is in order. Perhaps, just perhaps, it is not the disaster it seemed.

The hand-wringing may have Raider fans, and the Raiders, themselves, have been too harsh in their criticisms. Tech has lost three games, but in two instances, the ones for which they have been too harsh in their criticisms. been premature and it may be the the ones for which they have been assessed the most criticism and

suffered the most guilt, it may have been a case of the positive aspects being overwhelmed by the negative.
When the Raiders lost to North Carolina, 9-3, it was a game Tech

could easily have won. It was a game in which the Raiders muffed a golden opportunity to beat the Tarheels after a fourth period pass interception gave the Raiders possession at the UNC 19.

So instead of satisfaction that should have come from playing a team ranked in the top 20 to a standstill, there was despair at having let a big one get away.

reached new heights. Tech's offensive inadequacies were deplored. The let down was apparent the next time out when Texas A&M blew the Raiders out of Kyle Field, 31-0, in the first half before Tech came back to make things respectable in the second half. Victory over Baylor had become such an accepted way of life in recent

years, that most fans refused to concede that this isn't your run-of-themill Baylor team. Overlooked was the fact that the Tech defense limited Walter Abercrombie to an unseemly 19 yards rushing, the only time this year he hasn't busted out over the century mark.

With the passage of time, Tech's performance against both UNC and Baylor looked pretty doggone good. UNC is still undefeated, the obvious team-to-beat in the Atlantic Coast Conference and has climbed to No. 8 through last week's national rankings.

Baylor is 6-0 for the first time since 1947, and if anyone still suspected that the Bears weren't for real, Saturday's 46-7 win over Texas A&M should have been the convincer. Admittedly, the Tech offense hasn't been what had been hoped for,

largely, because the Raiders haven't been able to replace James Hadnot. But defensively, Tech, with the exception of A&M, has been all that could be hoped for. In fact, it wouldn't take a whole lot off offense to make it as

Class 5A of The Associated Press Schoolboy Football Poll had rocked along calmly the past two weeks with Temple, Plano and Brazoswood maintaining the top three positions.

But that was before last weekend's

### Pearson cries 'foul'

DALLAS (AP) - Dallas wide receiver Drew Pearson said Monday that television slow motion replays of Sunday's controversial ending to Philadelphia's 17-10 victory over the Cowboys show that cornerback Roynell Young was guilty of interfering with Tony Hill in the Eagle end zone.

# You can walk or jog for Chaparral athletes

Strong legs, and a few wobbly ones, will be churning around the Memorial Stadium track Nov. 15, a Saturday, in the first annual Midland College Chaparral Walk-A-Thon, Jog-A-Thon.

Cosponsored by the Midland Reporter-Telegram, the event is designed to raise funds for the Midland College athletic program and for local clubs and organizations.

The money raised in the 9 a.m. to 3 p.m. event will help underwrite ath-

letics, travel expenses and scholarships for 1980-81 at MC. Other clubs and organizations which enter walkers, runners, and joggers will receive 50 per cent of the funds they raise with no expenses incurred.

"Most of our Midland College athletes already have entered along with some coaches and several campus clubs and groups," noted Athletic Director Delnor Poss. "And there is interest from a number of local groups we have contacted. We anticipate this could be the largest runningjogging event ever held in Midland.'

A number of Midland civic and business leaders have made commitments to enter, Poss noted.

Groups and organizations wishing to participate or desiring more information should visit the MC athletic offices in the Physical Education Building or call Del Poss or Jerry Stone at 684-7851, ext. 160 or 183.

# Area powers mop

By MIKE CRUVER Sports Writer

Fans in a couple of area communites are still mopping their brows following narrow victories by the local gridiron heroes.

Stanton entered its Friday night clash with Morton undefeated in six outings and perched on top of District 5-AA. Morton, 2-3 coming off a 25-7 win over O'Donnell, wasn't suppose to pose much off a problem to the potent

Early it looked as if the Buffs would extend their unbeaten skein to seven without any trouble; quickly jumping in front 14-0. Morton, however, had other ideas. Quarterback Tom Cadenhead's PAT after James Dent-ran five yards for the TD cut the Buff lead to seven with two quarters to play.

CADENHEAD tallied in the third quarter as Morton crept to within one. Richard Parker zoomed in to block the extra point try to perserve the Buff's 14-13 lead with 11 minutes of playing time left. The Braves were still after some

at Andrews Monahans jumped on top 7-0 on a first period TD scamper by quarterback Rusty Roak. Pearcy raced 16 yards for a score and Rick Jarvis booted the PAT to tie the game, 7-7, in the second quarter.

THE LOBOS eased ahead 14-7 in the third quarter when tailback Mike Ramsey barged over from three yards out and Mike Campbell toed his second conversion. This was the first time this season the Ponies had found themselves on the short end of the score in the second half.

Andrews evened the score in the third quarter when Keith Brooks dived in from the one and Jarvis tacked on the PAT. Later in the same quarter Pearcy scored his second TD of the evening with Jarvis adding the PAT to lift the Mustangs to a 21-14 lead.

In the fourth quarter Monahans drove to the Mustang 10 before the drive was stopped saving the Mustang's undefeated record. It has to get better, it can't get any

worse. Don't say that if you are talking to the folks from Balmorhea. Two weeks ago Iraan belted the Bears 68-6. Friday night the undefeated Red Devils of Rankin came visiting and left the bewildered Bears reeling with a 75-6 setback.

McCAMEY HAD to hold off an upset minded bunch of Golden Cranes to gain a 32-12 win over Crane Friday night at McCamey.

Crane struck first by recovering a fumble in the Badger end zone. The PAT try went awry leaving the Cranes on top 6-0.

A tough Crane defense and mistakes by the Badgers kept McCamey holed up deep in it own territory much of the first half. With two minutes left and the ball on their own 10-yard line McCamey came to life. The Badgers marched 90 yards for a score with Ernest Balasquez doing the honors from nine yards out. Joe Rodriguez added the PAT putting McCamey on top 7-6 with eight seconds left

# Akers thinks Texas is thin

AUSTIN, Texas (AP) - Texas, elevated to No. 2 in college football, probably has less depth than any other second-ranked team, says Coach Fred Akers.

"We must be the thinnest No. 2 team in history," said Akers. He commented after disclosing that

two newcomers, including a freshman who has never touched the ball in a college game, apparently will start at running back against Southern Methodist on Saturday. Texas has not played since its 20-13

moved up one place in the Associated Press poll after No. 2 Southern California was tied by Oregon, 7-7. "The week off really helped us," Akers told a news conference Monday. "It came at a great time, but everybody better take advantage of

"Depth will really be a problem" in the next six weeks, he said. Texas lost leading rusher A.J.

Those are strong, fighting words, and the clerkish little skipper will have to prove them when he sends his Kansas City Royals against the Philadelphia Phillies in the World Series showdown tonight and, if necessary, Wednesday.

Frey's minions may or may not become the baseball champions of the entire world but they can take their Series swag and go home with one consolation — they have captured the hearts of the country.

THEY ARE the people's choice. First of all, they are new kids on the block, actually born only 12 years ago in this bearded old pastime which is more than 100 years old. They have

never been in a World Series before. They are, as a team, fresh, easygoing, and amenable in sharp contrast to the Phillies who, except for Tug McGraw and Pete Rose, are generally a sulking, brooding and even, at times, insulting outfit.

Their keystone — and excuse the pun — is George Brett./He has emerged indisputably as raseball's new Golden Boy, a super hero who can be mentioned in the same breath with Reggie Jackson, Bjorn Borg, Jack Nicklaus, Arnold Palmer and O.J. Simpson.

To baseball buffs, Brett is not and never has been a stranger - but rather a hitting genius, superior fielder, quick on the bases and a consistent

ON SATURDAY when he was decked by a knockdown pitch, he never said a word. But Frey did, and his manager immediately was challenged by Pete Rose, defending his pitcher, Dickie Noles.

"Rose," he said, "plays baseball as it should be played."

Brett is just one of the personalities that give the Royals a unique and

captivating touch. Willie Aikens is a big, powerfullybuilt young man with a magnetic name and a home run swing to be compared with those of Babe Ruth,

Hank Aaron and Reggie Jackson. As a kid in Seneca, S.C., he developed a stutter in his speech and became too embarrassed to go into a grocery store and ask for a loaf of bread. But when he hit two home runs in two different games last week, he found it necessary to face up to scores of cynical newsmen.

Measuring every word, he stood on the podium and gave an illuminating description of the life of Willie Aikens. The writers were mesmerized.

Amos Otis is a veteran whose active bat has made him a prime candidate for MVP honors. Willie Wilson is a streak of lightning on the bases. Frank White is a phenom at second base, gliding, running, throwing, making plays such as the Series has never seen before.

Catcher Darrell Porter is a story for the world — a man's struggle against drugs and alcohol. And there is the quaint Dan Quisenberry, with his un-orthodox submarine delivery and his subtle wit.

All of these are shepherded by the chewin' and spittin' little skipper who never played a major league game in

# MOVING REMODELING First National can help in TWO ways!

Today, the cost of purchasing a new home is forcing many people to reconsider any plans to move. First National has two ways to beat the high cost of housing.

ONE

Improve your present home! With a First National Home Improvement Loan, you can add a room or another bath, remodel the kitchen, add insulation and storm windows, install refrigerated air...a swimming pool...or new carpet or many other improvements--with payments arranged to suit your budget.

Or, if you're planning to move into a home with an existing mortgage, First National can

assist you with an equity purchase loan. By purchasing an existing equity, on many homes, you may save on the monthly payment.

For either a Home Improvement Loan or an Equity Assistance Loan, contact the First National Bank Consumer Loan Group.

A great bank to call your own.

### Moran agrees to sell Morco

HOUSTON - Moran Energy Inc. announced today it has reached an greement in principle to sell an adlitional 20.1 percent of Morco A/S to A/S Morcem for \$2.2 million, thereby reducing its ownership to 9.9 per-

In June, 1978, Moran sold 70 percent of Morco, a Norwegian oil well drillng and maintenance company, and its rights under two operating agreeents to Morcem for a total of \$3.6

"Our remaining interest will allow us to continue to share in Morco's profits," said R. J. Moran, chairman. We plan to invest the proceeds of his domestically," he added.

# Elcor sales up 51 percent

Roy E. Campbell, president of Elcor Corp., Midland, announced ales for the first quarter ended Sepber 30 increased 51 percent to 0,336,000 from \$39,861,000 last year. He said, "About \$15.3 million of the 20.5 million gain in sales was a result ineering and construction of rocess facilities for the energy, mical and mining industries, and

the rest of the gain was from the sale of roofing products."

Income before extraordinary item of \$290,000 or \$.08 per share was down from \$1,576,000 or \$.29 per share in the year-ago period primarily because approximately \$3 million of initial pre-tax operating losses from starting up two new manufacturing plants argely offset profits in most other egments of the business.
