Marines going to Persian Gulf

WASHINGTON (AP) - The Carter administration, in a new hands-off signal to Russia, is ordering an amphibious warfare unit, including 1,800 U.S. Marines, to sail next month to waters near the Persian Gulf.

Administration officials, who disclosed the impending move Tuesday night, stressed that it is intended as part of President Carter's measured effort to deter any Soviet designs on control of the oil-rich region.

They said it is not related in any way to the continued imprisonment of150 American hostages at the U.S. Embassy in Tehran.

This will be the first time, as far as officials can recall, that a Marine combat unit will be sent into the Indian Ocean area.

The officials, asking to remain anonymous, said a reinforced battalion from the 3rd Marine Division arrived Tuesday at the U.S. naval base

in Subic Bay, the Philippines, aboard a four-ship amphibious force. They brought with them M-60 tanks, 105mm artillery, anti-tank missiles and 18 troop-carrying h5licopters. Officials said the Marines will

carry out exercises in the Philippines for about two weeks and then enter the Indian Ocean for the long sail to the Arabian Sea, joining carrier-led U.S. naval forces that have been covering approaches to the Persian Gulf for several months.

The Marines are expected to remain at sea for an indefinite period, with no indications of any U.S. intentions to land them even in maneuvers.

The Marines boarded the four amphibious ships in Hawaii. The amphibious assault ship Okinawa, the tank-landing ship San Bernardino, the dock-landing ship Alamo and the amphibious cargo ship Mobile left San

Diego in January

The Soviet invasion of Afghanistan in late December has prompted the Carter administration to intensify military moves designed to safeguard American access to Persian Gulf oil. A step-up in the U.S. military presence in the Indian Ocean area was already under way as a result of the overthrow of the pro-American Shah. of Iran a year ago, increased instability in the region and finally, the sei-zure of the U.S. Embassy and the taking of American hostages last November.

Perceiving the Russian invasion of Afghanistan as a possible forerunner to broader ambitions, Carter last month pointedly warned that the United States would use military force if necessary to repel any Soviet attempt to gain control of the Persian Gulf and oil tanker lifelines to the United States, Western Europe and Japan.

The decision to send Marines into the Indian Ocean may also have been intended as a refutation of assertions in Congress and elsewhere that the United States lacks the ability to back up with force Carter's warnings to the Russians.

Though symbolic of American resolve, a Marine battalion represents slight military power when compared with the estimated 95,000 troops in Afghanistan and thousands more in divisions inside the Soviet Union along Iran's northern border.

But the Marines add to the already powerful U.S. naval forces of 20 ships generally in the Arabian Sea off Oman. The aircraft carriers Nimitz and Coral Sea between them could launch more than 150 warplanes, if needed.

The Soviet Union has 26 navy ships in the Indian Ocean, mainly keeping an eye on the U.S. naval squadrons.

The disclosure of the coming deployment of combat-ready Marines into the Indian Ocean comes on the heels of a tentative agreement by Oman, Somalia and Kenya to permit U.S. naval and air units some use of their port and airfield facilities. With specific details yet to be spelled out, it is unclear what kind of price the United States may have to pay in terms of military or other aid for as-yet-undefined "access" to those facilities.

Emergency medical technicians give treatment to a Midland letter carrier following a traffic accident at 4:17 p.m. Tuesday at Weatherford and Taylor streets. The accident involved a mail truck driven by Merle Keith Williamson, 30, of Stanton and an automobile driven by Janette Adona Harris, 17, of 1113 E. Chestnut. The mail truck was northbound on Weatherford, and the automobile westbound on Taylor when the collision occurred. Williamson was treated and released from Midland Memorial Hospital. IOC rejects moving Games

LAKE PLACID, N.Y. (AP) - As the XIII Winter Games open with traditional pageantry today, President Carter's call for a boycott of the Moscow Olympics is casting doubt on whether Americans will compete when the Games move to the Soviet Union this summer.

Carter's request of the U.S. Olympics Committee came Tuesday, less than an hour after the International Olympics Committee rejected his proposal that the Summer Games be moved, postponed or canceled following the Soviet occupation of Afghanistan.

The IOC did note the concerns voiced by the United States and other nations, however, and asked its Soviet members to discuss them with "the highest authorities of their government." Meanwhile, the highest court in New York state upheld an IOC rule forbidding

Taiwanese athletes from competing here as representatives of the Republic of China. Spokesmen for the delegation said they were considering an appeal to the U.S. Supreme Court.

Carter had threatened to seek a boycott of the Summer Games if Soviets t withdrawn from Afghanistan by Feb. 20, and reacted quickly

when the IOC unanimously rejected his alternate plan.

"Under the circumstances, neither the president, the Congress, nor the American people can support the sending of the United States team to Moscow said White House press secretary Jody Powell. "The President this summer.' urges the U.S. Olympic Committee to reach a prompt decision against sending teams to the Games.'

The White House declined to discuss how it would enforce a boycott if the USOC refused to go along. It could revoke passports. Carter's call also could discourage contributions needed to finance the team.

About 30 nations reportedly are prepared to join in such an effort. Meanwhile, NBC spokeswomen Simone Harris said the network, which has exclusive television rights for the Moscow Games, would be guided by the "policies and regulations of the U.S. government."

A statement read by IOC President Lord Killanin following a two-day debate by the ruling body of the Games said the IOC had an agreement with Moscow and an obligation to the young athletes of the world.

"The IOC is fully aware of, and sensitive to, the world conditions which have created the most serious challege to confront the Olympic Games," the statement said. "The very existence of the Olympic Games, the Olympic movement, and the organization of sport through the International Federations is at stake.

Killanin said the decision was unanimous and supported by the two Americans who represent the IOC in the United States.

The two Soviet members of the IOC played no part in the discussion, IOC sources said. The Soviet news agency, Tass, today reported the IOC decision briefly without comment.

The only full-fledged U.S. naval base in the vast Indian Ocean area is on the British-owned island of Diego Garcia, some 2,300 miles south of the entrance to the Persian Gulf. The Carter administration has plans to expand the U.S. base there, with British permission.

In the last year, the Carter administration has made a number of symbolic military gestures in the Indian Ocean-Persian Gulf region, including the dispatch of a dozen unarmed Air Force F-5 fighter planes briefly to Saudi Arabia and a flight by B-52 bombers from Guam over the Indian Ocean in what the administration described as a surveillance mission.

Odessa's mall opening; Midland's on schedule

By SUSAN TOTH Staff Writer

Midland Park Mall, the 100-store shopping area under construction near FM 868 and Midkiff Road is going up on schedule and should be open by early September, according to a spokesman for the developer.

Meanwhile down the road, Odessa's Permian Mall will have its grand opening later this month and some stores already are in business.

The two structures, which will be roughly the same size when complet-

ed, had ground-breaking ceremonies within days of each other last Septem-

The difference in construction times is the result of "two different developers with two different projects," according to Marty Lakatos, public relations coordinator for Melvin Simon and Associates, Inc., the Indianapolis-based firm developing Midland Park.

Permian Mall, which will be slightly larger when finished than its Midland counterpart, is being constructed by C&A Development Co. of Scottsdale, Ariz.

Both malls have four "anchor stores" - major department stores designed to draw major crowds to the other smaller stores in the centers.

Midland Park Mall should have a total of about 100 stores while the Odessa mall is designed for about 140

Dillards, Sears Roebuck and JC Penney will have large stores in both malls, but neither developer has announced the fourth anchor.

Melvin Simon's Lakatos, however, did say "an agreement will be signed with a high-fashion department store with two to three weeks" to be a part of Midland Park Mall.

While Lakatos said there is "noth-ing on paper yet," plans filed in the Midland planning office show Sakowitz, a Houston-based department

Developers of Permian Mall reportedly are negotiating with Sanger-Harris, a Dallas-based merchandizer, as their fourth anchor.

percent leased" now, according to Lakatos, and developers expect the center to have 90 percent of its ap-proximately 100 stores leased by the time it opens in late August or early September

Most of the stores currently under agreement are national tenants who have stores in other malls developed by Melvin Simon, Lakatos said.

'We've just started our local leasing program," he added.

IND CITY DOND ISSUE Council postpones its decision

By LANA CUNNINGHAM Staff Writer

Midland residents won't have to worry about city bond issues in the April general election. They'll have an extra six weeks to think about it.

Midland City Council decided to postpone any decision on a bond election during its regular session Tuesday in City Hall. But the decision came after a discussion of several items that could be included with Mayor Ernest Angelo Jr. claiming the council needed enough time to explain the issues to the public.

The city staff was directed to review the status of several items and obtain estimated costs. The council will make a decision based upon the report, and possibly call for a bond election for the middle of May.

Several of the items to be considered are those turned down by the voters last September.

On top of the list is the Service Operations Building at the city's garage area between South Street and Orchard Lane. The land on which it was built during the 1950s is an old landfill.

The landfill has since settled, causing the building's floors to drop as much as a foot and crack open. There also are cracks in the walls.

Fred Baker, director of public works, told the council the situation with the building has worsened since September. Methane gas from the landfill is escaping into the building, making the employees working there ill. And the gas could cause the building to explode, he added.

Estimated cost to have a new structure erected on solid ground elsewhere will cost about \$300,000, Baker said.

With the Central Fire Department moving from the Public Safety Building at 404 E. Texas Ave. to its new building in Crier Park, the police department is looking at taking over the empty space.

This item on the September bond issue for \$550,000 also failed. City Manager James Brown noted he hates "to let the building go to waste."

Councilman Tom Sloan pointed out the city is receiving more money for keeping federal prisoners, and some of this could help pay for the remodeling. Brown also said the land on which the police academy is located could be sold and the money used for incorporating the academy into the Public Safety Building.

A new item brought up was \$125,000 to purchase a tract for a new landfill. And a fourth item suggested was finding more foom for the Municipal

Court offices, now housed in the Public Safety Building. "If we do things other than emer-

gency deals, we would have to go with a special election to get the idea across to the people," Angelo said. City employees will find more

money in their pay checks after March 1. That's when the salary increase approved by the council becomes effective.

And the city staff will look at pay incentives for all departments. This will be intended for persons with various degrees and certifications, Angelo said.

The mayor explained the salary increases - coming less than a year after the previous 7 percent hike in July 1979 — are being awarded to bring municipal employees up to par

with comparable jobs elsewhere in the city and state.

Final step to purchase Western Clinic, 501 Andrews Highway, for the **City-County Health Department was** completed as the council approved issuing \$302,602 in Certificates of Obligation and appropriating \$123,598 for the down payment.

Chief Sanitarian Jewel Smith said some repair work, such as painting, needs to be done and he is seeking bids on the various jobs.

The health department has been located in a basement at Midland Memorial Hospital. But with MMH's remodeling program and plans to build the Allison Permian Basin Cancer Therapy Center, the agency was asked to move.

But school board may submit bonds

By DAVID CAMPBELL Staff Writer

Portions of the \$10.2 million school bond issue defeated in October were discussed again in Tuesday's school board meeting with school officials looking at the possibility of a repair and maintenance bond for the April 5 general election.

Or, Midland taxpayers can take a choice of having the repair and main-tenance bond item added to the 1980-81 school budget, which would increase school taxes.

In other actions, the school board established an early childhood center at Bunche Elementary School, announced filing dates for two school trustee positions and suggested a transfer policy. Regardless of whether or not the

public passes a bond issue to pay for repairs and maintenance for various schools, Midland taxpayers will pay for the items, one way or another.

Superintendent James H. Mailey noted that if these items are passed in a bond election, fine; if not, they (repair and maintenance work) will have to be added to the 1980-81 school

budget. "What we are doing is that we take the approach of giving the voters a choice of how they want to take their tax increase...," Trustee Joe Dominey said. "They can take their tax increase in

a big lump over a short period of time or we can advertise it through bond

in a state and a state of the state of the

indebtness over a long period of time," he said. In discussing public reaction to

such a bond election, the trustees said they believe some people will object to the bond issue because repair and maintenance work should have been a part of the budget each year.

The board estimates total cost for repairs and maintenance could be \$2 million

The trustees approved an early childhood center which will house the Head Start program, migrant 4-yearolds and six sections of kindergarten from Travis and South elementary schools, in Bunche Elementary School.

Included with the early childhood center is a \$7,000 outdoor learning center funded by the Head Start program.

Some 347 supervised pre-schoolers would be transported by bus from Title 1 schools Crockett, DeZavala, Milam, Pease, South, Travis and Washington elementary schools.

Busing schedules for these students would start at 9 a.m. instead of 8:40 a.m. Their classes would end at 1 p.m

According to the proposal, the early childhood center will make available 14 more classrooms at the Title 1 schools, except for Travis which has their three kindergarten classes at Bunche

Board members tabled until next

Iran won't give up effort to extradite, try shah

By The Associated Press

President Abolhassan Bani-Sadr said Iran will never give up its fight to get back the shah and his wealth although release of the U.S. Embassy hostages is not linked to that issue. But Foreign Minister Sadegh Ghotbzadeh and the embassy captors said the shah must be returned before the hostages are freed

Meanwhile, the state radio reported thousands of Iranians forced from their homes and least 25 killed as a result of heavy flooding in oil-rich Khuzestan province. It said relief operations were under way, and that heavy rains in the region have stopped.

Bani-Sadr told reporters in Tehran Tuesday night that if the approximately 50 American hostages, who began their 102nd day in captivity today, are released it would not mean Iran had given up its demand for the return of the ousted Shah Mohammad Reza Pahlavi, now living in Panama.

"We will be after the shah's extradition until Resurrection Day. It does ness.

not mean that we will free them (the hostages) and then he can have a good time over there," Bani-Sadr said.

"I repeat this, that the shah's extradition is a strategic question for us. We will try that as much as we can.'

The embassy captors have insisted the shah must be returned first, but Bani-Sadr said, "This is not glued together," meaning the issues are not necessarily linked.

However, Ghotbzadeh, who arrived in Athens, Greece, today, on an official visit, claimed Bani-Sadr had denied saying the two issues were no longer linked. "Our demands are legitimate and right and the shah must be extradpted," Ghotbzadeh said.

Bani-Sadr on Tuesday again criticized the young militants holding the American hostages and said they are expected to carry out the orders of the ruling Revolutionary Council he now heads, Tehran Radio reported.

The militants rebuffed him and said the hostages were none of his busi-

Carter favors random lottery if military draft resumed

WASHINGTON (AP) - President Carter has told Congress that if the military draft is resumed, he would propose a random lottery system that would induct 20-year-olds first.

Carter submitted formal recommendations for reviving the dormant Selective Service system along with a request Tuesday for \$45 million in supplemental appropriations to foot the bill.

dygereg Egggggggggggggggggegegggeggg Congress had asked for Carter's recommendations in last year's defense authorization bill. He supplied them four days after announcing he wanted to expand his plan to resume registration of young men by also registering women for the first time. In a 62-page report, the administra-

tion stressed that the president "has no intention under present circumstances" to resume the draft. Any action resuming the draft would require congressional approval. Last Friday, Carter proposed that

Midland may get more fog

Midlanders might expect to see fog again Thursday morning, according to the National Weather Service at Midland Regional Airport.

The weatherman is again predicting low cloudiness and fog for early Thursday morning. The weatherman is also predicting

a 20 percent chance of rain in Thurs-

women aged 19 and 20 register for the draft, probably this summer, with 18-year-olds to register starting Jan. 1, 1981. Carter promised to sign an execu-

tive order this week directing men of the same age to register under a similar timetable. Congressional action is needed to include women.

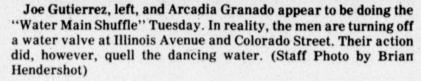

The administration proposal for how the draft would be reinstituted if needed estimated that 100,000 draftees could be processed by Selective Service 28 days after a general military mobilization. The first inductions wouldItake place within 12 days and 650,000 young people could be drafted within four months, the document said.

It also recommended that young people not be classified or granted deferments prior to a general call-up. But induction orders would include a form that draftees could use to request exemption or deferment.

The administration is not calling for reactivating local draft boards now but said Selective Service officials will work with the nation's governors over the next 18 months "to develop a process for recruiting and training members oy local boards" if the draft is resumed.

The supplemental appropriations sought by Carter would be for the 1980 and 1981 fiscal years.

Congress also must appropriate money to revitalize the Selective Service system, which Carter wants to revive as a manifestation of U.S. re-

School board may submit bond issue to vote of people

meeting a motion for a transfer policy which suggests that once a student is legally enrolled in a freshman school, he or she has established what high school the student will attend until graduation.

However, if the student moves into another high school district, the student will have the option to change high schools.

In another action, Dr. Mailey announced that two school trustee positions are open for the April 5 election. Candidates interested in running for the two positions have until 5 p.m. March 5 to file with the Midland Independent School District.

James H. Ramsoure announced he would be running for re-election to Position 1. However, Joe Dominey said he would not run for re-election to Position 2.

Absentee voting will start March 17 and continue through April 1.

Bryant Saxon, director of programs and research, reported details concerning the Texas Assessment of Basic Skills testing which will be administered Feb. 21-22.

morning, 201 1

Other items approved by the board include approval of bids for stage curtains and leveling land near Midland High School, tax collections, bills payable, the school calendar for 1980-81 school year and summer school rates and salaries.

Workers feared flammable fluid

FLINT, Mich. (AP) - A General Motors Corp. plant inspector says workers had complained about the use of flammable hydraulic fluid before a worker was burned to death in an accident last June.

"They kept saying 'Don't worry about it, the fluid has a real high flash point, the stuff won't burn,"' said William C. McKellar, a third shift inspector at the plant's Factory 12. John M. Holstine, a welder, was

burned June 19 when a hydraulic line burst and sprayed fluid which caught fire.

Probe was 'carefully monitored'

WASHINGTON (AP) - Defending the Abscam probe, FBI Director William H. Webster says it would be "absolutely foolish" for undercover agents to jeopardize such investigations by luring suspects into taking bribes against their will.

Webster said the Abscam investigation, which has implicated eight members of Congress, was "the most carefully monitored, the most carefully controlled" probe in the bureau's 56-year history.

THE DIRECTOR MADE his first detailed public defense of the operation in a half-hour television interview Tuesday with Carl Rowan, a syndicated columnist and television commenta-

Noting that undercover agents secretly videotaped the alleged bribery transactions, Webster said, "The filming of those scenes were for court purposes. It would be absolutely foolish for a special agent of the FBI to go beyond the legal provisions and jeopardize the integrity of the investigation.

"He knows it's going to be in court, and it's his obligation to make that a good case.

Some members of Congress, including several who were never touched by the investigation, contend that the undercover agents were trying to lure unwitting politicians into a bribery trap.

PERHAPS THE STRONGEST denunciation came from Rep. John Seiberling, D-Ohio, who said the continued use of undercover investigations means that "the FBI can target anyone...find anyone's weakness."

'I don't buy that argument," Webster asserted.

'We are not permitted, and would not, target anyone simply to get them. We are interested in criminality. What we are trying to do is identify the people who betray their trust, and betray the trust of the American people, by the use of their office to enhance the pocketbooks of the white-collar criminal and the organized crime member who uses them.

That mission, he continued, "is a legitimate purpose which perhaps only the FBI in the United States can do successfully.

Webster said a committee of high-level FBI and Justice Department officials monitored Abscam and other undercover probes to assure that investigators did not encroach upon individual rights.

WEBSTER WAS ASKED to respond to allegations that the bureau purposely leaked details of the investigation to the news media.

"There is no basis in fact for that assertion," Webster said. "I deplore these leaks ... I just find it very difficult to believe that anyone in the bureau participated in it."

However, he said, "I don't rule out the possibility" that FBI employees were involved in the leaks. He said the bureau is cooperating fully with a Justice Department inquiry to track down the source of the leaks.

Any FBI employee found to be responsible will be "severely disciplined," Webster said.

RICHARD BLUMENTHAL. the U.S. attorney for Connecticut, took charge of the internal probe Tuesday, declaring that he might subpoena news reporters and their notes if that action became necessary to track down the persons who disclosed information to the news media.

Attorney General Benjamin Civiletti assigned Blumenthal to the case.

"It is not our present intention to subpoena reporters or notes, but we are not foreclosing any method of investigation, including that one," Blumenthal told a news conference.

Dozens of news organizations have waged court battles in recent years fighting subpoenas demanding the identification of confidential sources. News reporters contend that they have an ethical duty to keep a promise of confidentiality.

IN OTHER developments Tuesday:

-The Soho Weekly News, a New York City newspaper reported that the prime sources of the news leaks were Neil Welch, head of the FBI's New York office, and Thomas Puccio, head of the Justice Department's organized crime strike force in Brooklyn. Welch and Puccio were not available for comment.

-The New Orleans Times-Picayune reported that Charles E. Roemer, the state commissioner of administration, accepted \$15,000 in bribes from undercover FBI agents posing as insurance executives. The newspaper quoted unnamed sources as saying the alleged incident was part of a the FBI's Brilab insurance kickback investigation.

Roemer acknowledges meeting two men at a Baton Rouge hotel. They offered a proposal they said "could save the state a million dollars a year," Roemer said, adding that he passed it on to appropriate officials. He said campaign contributions for a gubernatorial candidate were discussed, but denied they had any connection with the proposal. Roemer declined comment about the alleged bribe.

-Rep. Richard Kelly, R-Fla., one of the congressmen implicated in the Abscam case, returned to his congressional district for the first time since the allegations appeared and declared that when all the facts emerge, "I'm not going to be the one that's going to be in trouble."

-Civiletti and the State Department said the undercover agents, who posed as representatives of an Arab sheik, meant no offense to Arabs or Americans of Arab descent. Both expressed regret that Arabs felt maligned.

-The Smithsonian Institution denied any collusion with the FBI in the proposed award of a construction contract to a company that helped the bureau in the undercover probe. The contract for work on the reptile house at the National Zoo "had no relationship" to the assistance the Olympic Construction Corp. was giving the bureau, a Smithsonian official told Congress.

Youth finds part of skyjacker's loot in Oregon

PORTLAND, Ore. (AP) - An 8year-old boy has uncovered part of a ransom missing since the only unsolved hijacking in U.S. history - but officials say the whereabouts of the legendary sky pirate D.B. Cooper is still a matter of conjecture.

The three bundles of weathered \$20 bills found along the Columbia River are the first evidence uncovered since Thanksgiving eve, 1971, when Cooper bailed out of a jet over southwestern Washington with \$200,000 tied to his waist.

It was the first case of a hijacking for money.

The FBI on Tuesday identified the cash through serial numbers. Bill Baker, special agent in charge of the Portland FBI office, said the money was so decomposed it was impossible to determine how much was there, but he said it came to "several thousand dollars."

"I think we can only presume at this time that because the money was found clumped together tightly in what we believe was the manner in which it was originally packed, it lends credence to the theory that at least the money did not make it out." he said. "And from there, I would

really leave it to conjecture."

Baker said agents would now renew their search. "Of course, we will gen-erate increased interest now in trying to locate D.B. Cooper or any remains that might be in the area," he said.

Late Tuesday afternoon, agents sifted through sand at the spot where the money was found and discovered several more pieces of \$20 bills. The area has been sealed off to the public and the search was to resume today.

The money was discovered Sunday by young Brian Ingram beneath a layer of sand as his family picnicked along the Columbia, five miles northwest of Vancouver, Wash.

Harold Ingram of Vancouver, told reporters Tuesday he was preparing a fire when his son "ran up and said 'Wait a minute, Daddy.' He raked a place out in the sand and there it was.

Ingram said he didn't give any thought to spending the money. "It didn't look like I could spend it so I really didn't think about that," he

said He also said he didn't think about

the cash being part of the Cooper loot. But he called the FBI because "I

and army.

figured if anybody knew what to do it would be them."

Baker said he presumed the money washed downstream, possibly from a Columbia River tributary in the rugged southwestern Washington mountains, where Cooper is believed to have bailed out.

FBI agent Ralph Himmelsbach, due to retire in 17 days after being in charge of the Cooper investigation

since the hijacking, said he still be-lieves there is less than a 50-50 chance Cooper survived.

One theory had Cooper falling to his death in Lake Merwin on the Lewis River near Ariel, Wash. But the Lewis River enters the Columbia downstream from where the money was found.

The nine-year-old mystery began Nov. 24, 1971, when a man calling

Orient Airlines jet at Portland International Airport.

After takeoff, Cooper displayed what an attendant said looked like dynamite. Ordering the pilot to head for Seattle, Cooper demanded four parachutes and \$200,000 from the airline.

In Seattle, passengers and two of

himself Dan Cooper purchased a one-way ticket and boarded the Northwest leave the plane. The money and paraleave the plane. The money and para-chutes were loaded, the plane took off for Reno and somewhere, Cooper jumped out.

> His disappearance made him something of a folk hero — Ariel has a "D.B. Cooper Day" to mark the incident. "There is tremendous public interest in this case," Baker said. "It has become almost a fad."

neighborhood store

And we want you to see. Come get acquainted with us at San Miguel Square. We're having a Housewarming to celebrate on Thursday, February 14.

Southwestern Bell has a neighborhood store in Midland. That's right a PhoneCenter Store. A neighborhood store where you can browse for telephones the way you shop at your favorite places. You'll see all that's new in telephones. Genuine Bell phones, backed by Bell reliability. A whole store just for telephones?

No. Not just for telephones.

Our PhoneCenter Store is a complete convenience center! You'll see all the latest ideas in telephones and services. And all the styles and colors we have to choose from.

Pick up personal directories for your frequently-called numbers . . . guides to out-of-state long distance calling . . . booklets telling you how to get the most out of your phone services ... and many others.

There's no place quite like it!

So bring the whole family and join in our Housewarming festivities Thursday, February 14 from 10 a.m. to 9 p.m. at San Miguel Square. Refreshments, souvenirs and the largest collection of conversation pieces in town!

which the public cares for nitrite-preserved products and the

The injunction overturned a USDA order which was to have

regulations, saying that the change could endanger the public.

contending the new regulations had the potential for causing severe illness and hurting the safety image of pork.

The USDA, responding to studies that claim nitrites can be

turned to cancer-causing substances when cooked, had decided to permit the sale of nitrite-free products under the traditional names used for cured meat. The regulations would have required the nitrite-free meats to be labeled "uncured" and carry a warning saying the product "has no nitrite added - not preserved, must be refrigerated below 40 degrees F. at all times.

The pork-producers contended that customers would assume the product labeled as bacon, weiners or bologna was the same they had purchased in the past and would ignore the warning.

"Our concern was that consumers would treat these 'uncured' look-alike products as they had the traditional cured product and that such inadvertent mishandling would be hazardous to consumer health," said pork council President Bill Buller of Brookings, S.D.

Buller said the Des Moines-based council, "encourages the marketing and consumption of fresh meat. But we insist that its appearance and labeling not leave any doubt in the consumer's mind that it should be handled with the traditional care required of fresh meat."

Fine Jewelers Four Generations Midland

Honking the blues away

CHEYENNE, Wyo. (AP) — Disgruntled by major catastrophes and minor vexations? Cheyenne residents can vent their anger by honking their car horns loud, long and in unison on "Cheyenne Gripe Day."

Mayor Don Erickson has invited residents to blast their horns at 12:05 p.m. Wednesday "as an audible and public announcement of resistance" to an assortment of "catastrophies, crises, disasters and emergencies ranging from the worst winter since 1905 to the first tornado in Cheyenne history.

Written gripes should be sent to Erickson's office, "where all gripes received will be read and then totally and completely destroyed and buried at the city landfill."

Complaints can include unbalanced checkbooks, leaky plumbing, mean nurses, crabgrass and dandelions, wet newspapers on the roof, being put on hold by the police department, being put on hold by anyone "and any other little thing that galls one, all the way from the Ayatollah Khomeini to the wind," Erickson said.

DEATHS

J. Paul Davis Paul Davis

Services for Dr. J. Paul Davis, 64, 6110 N. Midland Drive, were to be at 1 p.m. today in St. Ann's Catholic Church with the Rev. Charles Blackburn officiating. Burial was to be at **Resthaven Memorial Park directed** by Newnie W. Ellis Funeral Home. Rosary was recited Tuesday in St. Ann's Catholic Church.

He died Monday in a Midland hospital after being ill for several weeks. Davis was born Nov. 22, 1915, in Dallas where he was reared. He was associated with American Optical Company before going to college. He was graduated from Southern College of Optometry in Memphis, Tenn., in 1949. After graduation he practiced in Waco and San Antonio before moving to Midland 14 years ago. He owned and operated the Texas State Optical office in Midland for the past 13 years.

Survivors include his wife, Ruth Davis; two sons, Joseph William Davis of Amarillo and John Paul Davis of Waco; a daughter, Mrs. John (Flora Lou) Ussery of Garland; his mother, Mrs. E.P. Davis of Dallas; a brother, Dr. John William Davis of Dallas; and seven grandchildren.

Janie F. Moreno

LAMESA - Services for Janie F. Moreno, 56, of Lamesa will be at 3 p.m. Thursday in St. Margaret Mary Catholic Church with Monsignor Jerome Vitek, pastor, officiating. **Burial will be in Lamesa Memorial**

Park directed by Branon Funeral Home Mrs. Moreno died Monday in a Lubbock hospital following a brief ill-

ness She had lived in Dawson County for 26 years and was a housewife. She

was married to Jesse Moreno Dec. 8, 1940. Survivors include her husband: six

sons, Lupe Moreno of Weatherford, Jesse Moreno of Denver City, Jimmy, Moreno of Los Angeles and Johnny Moreno, Robert Moreno and Carmen Moreno, all of Lamesa; four daugh-

Eston Barbee

BIG SPRING — Services for Eston Barbee, 76, of Big Spring were to be at 2 p.m. today in North Birdwell Lane United Methodist Church here with burial in Mount Olive Memorial Park directed by Nalley-Pickle Funeral Home.

He died Monday in a Big Spring hospital following a short illness.

Barbee was born Aug. 28, 1903, in Tyler. He moved to Howard County in 1919 from Hardeman County. He was a farmer and retired in 1973. He was married to Lois Imogene Wallace Aug. 14, 1926. She died Feb. 27, 1947. He was married to Ruby Emily Fallin Jan. 13, 1949. She died March

11, 1963. He was a member of the United Methodist Church.

Survivors include a stepson, Elton Wallace of Big Spring; a stepdaughter, Marie Ervin of Austin; two brothers, Walter Barbee of Sand Springs and Gary Barbee of Maybank; seven grandchildren and eight great-grandchildren.

Ruby H. Clemons

ODESSA — Services for Ruby Hazel Clemons, 91, mother of Hazel Gwendolyn Alexander of Midland, are pending with Scots Funeral Home in Gatesville.

Mrs. Clemons died Monday in Odessa following a short illness. She was born Jan. 10, 1889, in Coryell County. She was married to Alvie B. Clemons in 1917. He died in 1972. Mrs. Clemons moved to Odessa in 1976 from Gatesville. She was a Methodist.

Other survivors include two sons, a daughter, a sister, 14 grandchildren and 14 great-grandchildren.

Jeff W. Chenault

Services for Jeff W. Chenault, 67, of rural Stanton were Tuesday in Newnie W. Ellis Funeral Home chapel with the Rev. Elvis Barrington of Primitive Baptist Church officiating. Assisting was the Rev. Ben Howz of **Big Spring**.

Burial was in Resthaven Memorial Park.

Chenault died Saturday in a Stanton hospital after a lengthy illness. The family requests memorials be directed to the Allison Permian Basin

Cancer Therapy Treatment Center in care of Midland Memorial Hospital. Pallbearers were deacons of the Big Spring Primitive Baptist Church of Big Spring, Alton Lewis, Eugene Lewis, Wayne Allen, Grady Gaskins, Wilborn Bingham, Dan Truelove and E.J. Bingham.

Annie Perner

OZONA - Services for Annie Marie Doty Perner, 82, of Ozona were Saturday in Ozona United Methodist Church here with burial in Cedar Hills Cemetery directed by Sheppard Funeral Home.

She died Friday in an Ozona hospital

Tito's failure to improve increases fears for his life

BELGRADE, Yugoslavia (AP) — Ailing President Josip Broz Tito's failure to improve is increasing fears that Yugoslavia's 87-year-old leader won't survive the amputation of his left leg.

Tito's eight doctors issued a brief bulletin Tuesday evening saying his condition, which grew worse late last week, remained the same.

The Yugoslav leader is suffering from kidney function problems and 'occasional weaknesses of the heart," the doctors say. They said they were continuing "indispensable" treatment.

Tito's left leg was amputated Jan. 20 to prevent gangrene from a blockthe modern, well-equipped clinical center in Ljubljana, the capital of Slovenia, since Jan. 12.

Medical experts without access to details of Tito's condition said it was logical to expect that the circulation problems which forced the amputation would also have been present elsewhere in his body. Such problems, they said, could have put a strain on the heart. They said a further strain could have been caused by a diabetes-like condition from which Tito has been said to suffer.

Kidney problems are not an uncommon effect of circulation difficulties, and some kidney medications put still

age in the leg arteries. He has been at further strain on the heart, the experts said.

Some usually well-informed sources in Belgrade said they now fear Tito's life is in danger. They said the brief official reports appeared to signal the beginning of a general col-lapse of the vital organs. But some Western diplomats said accurate evaluations of Tito's health were difficult.

"It's very hard to be objective," said one diplomat who asked not to be named. "Once he's well again, you get into this psychology that everything's all right. Once he's sick again, you get into the feeling it's all bad." "Perhaps he didn't recover as well

as he seemed to do at the time," said another diplomat, but he added that many still expected the last major national leader of World War II to survive.

"I think people still have the impression he's an extremely strong man," this diplomat said.

Yugoslav officials, meanwhile, imposed a business-as-usual routine on the country. A week-long film festival continued in the capital and government officials continued trips abroad with no known change in schedules.

Belgrade newspapers carried only the brief official description of Tito's condition.

George Wilson

ANDREWS - Services for George Howard Wilson, 65, of Andrews were to be at 2 p.m. today in Wesley United Methodist Church here with the Rev. Keith Wiseman, the Rev. Hazel House and Dyrel Collins officiating.

Burial was to be in Andrews Cemetery directed by Singleton Funeral Home.

He died Monday in an Andrews hospital after an illness.

Wilson moved to Andrews from Kermit 22 years ago. He was a member of Wesley United Methodist Church. He was married to Mildred L. Wilson July 1, 1938, in Oklahoma. She died May 13, 1975. He was married to Lois W. Gilliham Aug. 25, 1977, in Andrews.

Survivors include his wife; a son, Charles Eugene Wilson of Andrews; four daughters, Georgene Dean of Springfield, Okla., Novellia Ann Hager of Alvin. Betty Faye Sullivan of Andrews and Cynthia Loretta Smith of Beaver Falls, Pa.; his mother, Dollie Wilson of Walters, Okla.; two sisters, Essie Moon and Julie Dee Osley, both of Walters, Okla.; four brothers. Joe Herman Wilson of Houston, Ira Luther Wilson of Snyder, Lon Wilson Jr. of Kermit and Troy Ollen Wilson of Fort Stockton; and 10 grandchildren.

Mrs. Montgomery

Services for Katy A. Montgomery, 78, 211 E. New York Ave., were to be at 10 a.m. today in the Newnie W. Ellis Funeral Home chapel with the Rev. Glenn Shoemake, pastor of Calvary Baptist Church, officiating. Burial was to be in Resthaven Memorial Park.

She died Monday in a Midland hospital.

Mrs. Montgomery was born Nov. 15, 1901, in Wylie. She moved to Midland with her parents, Mr. and Mrs. T.R. Shelburne, in 1913. She was graduated from Midland High School and lived in the Big Bend area from 1929 to 1948 before returning to Midland in 1948. She was a member of Calvary **Baptist Church.**

Survivors include her husband. Dick; a son, Thomas Montgomery of Midland; two daughters, Elizabeth Eaton and Eva Beth Carder, both of Midland; two brothers, Gene Shelburne Sr. and Ed Shelburne, both of Midland; two sisters, Mrs. Thurman Pylant and Mrs. Hoyt Burris, both of Midland; eight grandchildren and three great-grandchildren.

Mrs. Perner was born Dec. 24, 1897, in San Angelo. She was married to Sam S. Perner Oct. 20, 1929, in Eldorado. He died Feb. 5, 1970. She was a member of Ozona United Methodist Church.

Survivors include a daughter, Mrs. Bill (June) Sloan of Hico; two sons, Sam Perner of Ozona and Chris Perner of Friendswood; eight grandchildren and a great-grandchild.

Ralph Coe

ALPINE - Services for Ralph Coe, 64, of Marathon, brother of A.J. Coe of Midland, were Tuesday at the First United Methodist Church in Marathon. Burial was in Marathon Cemetery directed by Geeslin Funeral Home here.

Coe died Sunday morning at an Alpine hospital following an illness. He was born April 18, 1915, in Franklin County and was married to Lyda Crawford in 1938. He was a heavy equipment contractor.

Other survivors include his wife, two daughters, three sisters and four grandchildren.

John C. Custer

OKLAHOMA CITY - John C. Custer, 55, of Oklahoma City, brother of Arthur Custer of Midland, died Tuesday in an Oklahoma City hospital.

Services will be at 3 p.m. Thursday in St. Johns Episcopal Church here with burial in Rose Hill Cemetery directed by Smith-Kernke Funeral Home.

Custer was a commercial plumber and pipe fitter.

Other survivors include two daughters, his mother, two sisters and three grandchildren.

David Y. Boyd

BIG SPRING — Services for David Y. Boyd, 79, of Big Spring were to be at 4 p.m. today in the Starbuck Funeral Home chapel in Merkel. Burial was to be in Trent Cemetery in Trent. Boyd died Tuesday in Big Spring. He was born Nov. 5, 1900, at Scranton in Eastland County. Boyd was a retired farmer.

Survivors include a sister, Norma Murdock of Big Spring, and several nieces and nephews.

Lady Bird hospitalized

AUSTIN, Texas (AP) - Lady Bird Johnson was admitted to St. David's Hospital Monday night suffering from a stomach virus ailment, officials said Tuesday.

ENERGY OIL & GAS

STOCKS/CLASSIFIED/ENTERTAINMENT

Don Simasko of Anchorage, Alaska, and Denver, Colo., president of the American Association of Petroleum Landmen, visits with, from left, Rick Farris, Midland, Permian Basin Landmen's Association president; Harry Sprinkle, Fort Worth,

executive vice president of the AAPL, and Gene Wentworth, Midland, first vice president of the AAPL. Simasko was the speaker for AAPL Night Dinner Tuesday.

AAPL head describes oil industry as most over-regulated U.S. business

folly and inflation rates that are si-

By JOE SALMAN **Oil Editor**

Members of the Permian Basin Landmen's Association Tuesday night heard the president of the American Association of Petroleum Landmen describe the oil industry as the most misunderstood and most over-regulated industry in the United States today.

Don Simasko of Anchorage, Alaska, president of Simasko Production Co., said "we all work in the oil industry, an industry that gets the blame for all the economic woes of our country."

Simasko, the honor guest at the PBLAa's annual AAPL Night Dinner, said the American oil industry is held in such low esteem "because people outside our industry do not know

"We spend too much time talking to ourselves rathern than setting straight the myths and downright lies about our industry," he said. "If we are doing the bad things we are accused of, let's stop doing them. If we are not, then let's tell the world the true story." The AAPL president asked his listeners not to be complacent. "Speak up. Write. Call your elected officials they work for you. Contact the congressmen and senators whose views differ from yours and present your arguments in an attempt to change their minds.' He advised that a hand-written letter to a politician carries significantly more weight than the prepared post card or newspaper clip-out. "One of the most effective ways to communicate your ideas is a letter to the editor. Its simple. It takes only a stamp, some paper and an envelope. You write it and they put it in the paper." Simasko urged everyone who believes in the oil industry and the free enterprise system to speak out at the PTA meetings, at church groups and at social groups, "Tell your neighbors how you feel.

lently robbing us of our earnings. "Are we headed for doom? Of course not. People are aroused, and when that happens spirit returns. The

country is ready to push ahead again and push government aside." Simasko said hard work and efficiency in jobs have been lacking. "That will change in years ahead. Productivity will improve. The work force will be older, better skilled and more responsible. Our plants and factories will be modernized, updated,

automated and put in top condition. We have been sleeping, but now we are awake again. Hamon spots 13,700-foot wildcat

"Our energy problems will be solved by American technology. Many companies already are hard at work on finding new sources of energy. This will be pushed harder in coming years.

"Many companies are increasing their exploratory efforts to find reserves of oil and gas yet unfound in our country. Michael Halbouty of Houston, one of the nation's foremost authorities on oil and gas exploration, predicted there will be found in the United States again as much oil and gas as has been found in the past - if the government will just get off our backs and let us get to work.

Operators final discoveries in four West Texas counties

Bruce A. Wilbanks of Midland finaled No. 1 Abell as an upper Tubb oil discovery in Pecos County and suggested new field designation of McCarthy (Tubb).

The strike is 11 miles southeast of Imperial and 1.25 miles southeast of the Catlynn (Tubb oil) pool and the Catlynn, West (lower Clear Fork oil) pool.

Operator reported a 24-hour pumping potential of five barrels of 24.8gravity oil and 31 barrels of water. through perforations from 3,614 to 3,619 feet, which was acidized with 500 gallons.

A re-entry wildcat failure originally drilled by Kewanee Oil Co., it was abandoned in 1955 at 4,915 feet. Operator cleaned out to 4,017 feet and set 4.5-inch casing at 3,905 feet. Plugged back depth is 3,630 feet.

Location is 1,980 feet from north-

west and 660 feet from southwest lines of section 31, block 2, H&TC survey.

UPTON STRIKE

Saxon Oil Co. of Midland completed No. 1 Amacker as a Wolfcamp oil discovery 11 miles northwest of Rankin in Upton County, 3/4 mile north of Wolfcamp production in the Amacker-Tippett multipay field. It is seperated by Devonian producers.

On 24-hour test, the strike flowed 49 barrels of 41-gravity oil and no water, through an 8/64-inch choke and perforations from 9,044 to 9,081 feet.

The producing zone was acidized. with 6,000 gallons. Gas-liquid ratio is 1.224-1 Drilled to 10,241 feet, 4.5-inch casing

is set at 10,176 feet. Plugged back depth is 9,658 feet. On ground elevation of 2,761 feet,

operator picked the following tops: Dean, 8,070 feet; Wolfcamp, 8,350 feet; Strawn, 9,740 feet; and Barnett, 10.170 feet. Location is 1,320 from south and 660

from west linesof section 88, block D, CCSD&RGNG survey.

MENARD EXPLORER Morrow Resources Inc. of Odessa filed application to drill No. 4 John & Judith Callan as a 1,400-foot shallow wildcat in Menard County. three miles west of the Bar-F (Cross Cut gas) field and approximately 660 feet northeast of the firm's No. 1 Callan, active 2,400-foot wildcat being drilled tight, seven miles northeast of Menard

Drillsite is 1,113 from south and 330 from east lines of section 6, Cornelia L. Decker survey.

STONEWALL PAY REOPENED

Leo Oil Co. of Hamlin has reopened Tannehill production in the depleted Clarice (multipay Tanehill) field of Stonewall County, with the completion of the No. 1 Brigham, six miles northwest of Tuxedo

Operator reported a daily pumping potential of 15 barrels of 38-gravity oil and 25 barrels of water, through perforations from 2,610 to 2,645 feet, which was acidized with 500 gallons and fractured with 10,000 gallons.

Total depth was reached at 2,880 feet, where 4.5-inch casing was land-

The Tannehill was topped at 2,610 feet on ground elevation of 1,789 feet. Location is 365 from north and 955 from east lines of section 139, BBB&C

survey.

RUNNELS REOPENER

Trojan Oil Production & Services Inc. of Irving finaled the No. 1-D Rufus Allen as reopener of Capps oil

UPTON OILER

in Martin; field area work reported

Simasko said one of the most fearful problems facing Americans today is the "excess of government at all levels."

'We've had bigger problems to deal with in the past. A crushing depression. Two world wars. Assassinations. Civil riots. A war in Vietnam that tore us apart and almost wrecked national pride. Go back further to the 1861-65 era, when the nation was split in half - two governments each fighting the other. We survived all of these, overcame them and went on again.'

The speaker said people are becoming aware of and fed up with excessive government interference in almost every phase of their lives.

"That is why curbs on taxing and spending are so popular now. They are a reaction against excessive government at all levels, government

13,700-foot wildcat in Martin County, gas) production in Sterling County, 5/8 mile north of depleted Breedlove. South (Spraberry) production, which produces at 8,084 feet, two and oneeighth mile west of a 12,500-foot failure, seven miles west of Patricia.

Deparment of Energy says it does not intend to reimpose heating oil controls

By MIKE SHANAHAN

WASHINGTON (AP) Home heating oil prices will probably keep on rising, but the Department of Energy says it does not intend to reimoose price controls on the

Hazel Rollins, who heads the Economic Regulatory Administration, said Tuesday the major oil producers may have taken in as much as \$1 billion in unexplained profits over the last six months.

That is equal, she told a House energy subcom-

mittee, to about three cents on each gallon of heating oil, which is selling at up to \$1 per gallon in some parts of New England. "These figures seem to out of wack, so unreason-

able," said Rep. Toby Moffett, D-Conn., during a hearing marked by angry questioning of Ms-Rollins Moffett, chairman of

the subcommittee, said the Energy Department should reestablish controls to prevent the oil companies from taking advantage of increases

in price by other oil-producing nations.

He said there is every indication that consumers will continue to pay more for heating oil and that oil companies will unexplained profit margins

agency is closely monitoring the upward swing of heating oil prices. But she contended that even if controls had not been lifted in 1976, inflation, hikes in imported crude oil and other factors would have forced the

In the 40 months since unjustified profits. price ceilings were lifted, Ms. Rollins said the average unexplained indus-

continue to reap higher cent per gallon. That is not enough, she

> President Carter to reimpose controls.

James L. Feldesman, a lawyer for the Consumer Energy Council of America, sharply disagreed with Ms. Rollins figures. By winter's end, government to permit in- he said, his organizaton's creases not far from studies have shown that a full-scale investigaton those which have oc- the oil companies will

"It's a rather staggering amount," he said. F. Kevin Boland, an try profit was about one associate director of the **General Accounting Of**fice, said unexplained said, for her office to heating oil profits from Ms. Rollins said her urge Energy Secretary 1976 to 1978 were about Charles W. Duncan or two cents per gallon, compared to the first seven months of 1979

when they rose to 8.6 cents a gallon, far above the three cents suggested by Ms. Rollins.

Despite that, Boland said, the Energy Department has declined to run of oil industry pricing pocurred without controls. have taken in \$5 billion in licies.
