MULESHOE — County Seat of Bailey County — TEXAS

Thursday, June 16, 1949

Mr. Muleshoe ...

By J. M. Forbes

More from The New Agriculture: Texas' agriculture production is still only a fraction of her potential. It is possible that we could double our yields within the next 10 years, so that we would produce what we are doing now from half our acreage or produce at twice our present level from our present acreage.

Only thing he has read in 21 years for certain, maybe longer, in the newspapers was the boy's essay on the cow, an Associated Press dispatch from Chitown, which so appealed to H. D. King that he clipped and mailed it to this department and which reads as follows, to-wit:

The cow is a mammal. It has six sides—right, left, and upper and below. At the back it has a tail on which hangs a brush. With this it sends the flies away so that they do not fall into the milk.

The head is for the purpose of growing horns and so that the mouth can be somewhere. The horns are to butt with and the mouth is to moo with. Under the cow hangs the milk. It is arranged for milking. When people milk, the milk comes and there is never any end to the supply. How the cow does it I have not realized, but it makes more and more. The cow has a fine sense of smell; one can smell it far away. This is the reason for the fresh air in the country.

The man cow is called an ox. It is not a mammal. The cow does not eat much, but what it eats it eats twice, so that it gets enough. When it is hungry it moos and when it says nothing it is because its inside is full up with grass.

"This said the boy got 'A' for his effort on this essay.

When times are good, some will spend lots of money for advertising on the theory that money is coming easy, and that it will be easier to pay advertising bills.

When times get bad, other merchants figure they can't afford to advertise. We are not the last word on advertising by any manner or means but we figure both are wrong conceptions. The firm which expects to continue to serve for a long period of time can afford to buy newspaper space to tell their customers and friends what their policy is or what new line they have, or what attractive prices they are able to offer, right on down the line, good times or bad times.

He's here, folks, and this column invites you to get acquainted with Woody Green, our new football coach, who is here today to see about living quarters for his family. The new coach is a big fellow, as big as the monumental Ray Keeling, his old friend. Welcome to our city, Coach Green and family.

It was bound to happen and it has. A good newspaper reporter got hold of our old friend, Josh Blocher, who recently wrote his story up attractively, and it has been read in the papers in the far corners of our territory. It was a good story from the newspaperman's point of view, and the writer, Kathleen Henry, Clovis reporter for The Amarillo Globe-News deserves full credit and is to be congratulated upon her reportorial ability.

It broke in The News Wednesday then was put on the A. P. wire for member papers Wednesday.

VISITS IN BOKCHITA

Keith Bray is visiting for a few days with relatives at Bokchita, Okla.

Muleshoe Recreation Program Sponsored By Lions, Is Underway

The Muleshoe Recreation Program, which is sponsored by the Lion's Club, got off to a good start last Monday when over one hundred kids participated the first day. By the end of the week the total was expected to be nearer two hundred kids.

A varied program is being planned for both boys and girls. Softball teams are being organized and league play is scheduled to start next Monday. Ping pong tables have been set up in "Teen Town" and as soon as the park is dry enough it will be cleared off for croquet, horse shoes, badminton, and the softball diamonds. Tennis, volleyball, basketball and football is also available for those who wish to participate.

History Making Broadcast To Go On Air From Muleshoe 21st

History will be made in Muleshoe Tuesday, June 21, when the first territorial radio broadcast will be put on the air here. KFDA, Amarillo, will present a program of professional and local talent in salute to the Lions Club summer recreation program here.

Pat Flynn, the well known announcer, will be in personal charge of the program here.

Messages have been sent out to all communities, asking that they be represented here by one or more of their local talent. Several already have signed up to be on the program, which, with the talent to come from Amarillo will be about two hours.

In addition to the magic act, mentioned in this paper last week, Mr. Flynn has arranged other entertainment features for the pleasure of the spectators and radio listeners. Mrs. Frances Parker, Hereford, one of the best singers in Texas, will give her popular and hill billy numbers; others include the Dipsy Doodlers, with humorous skits and good singing. There will be more than 20 talented artists from Amarillo alone.

A block downtown will be roped off to accommodate local listeners. For the benefit of radio fans, another area station has been asked to pick up the KFDA broadcast, which cannot be tuned in at night here.

Officers Of Teen Town Are Elected

Officers of the newly organized Teen Town in Muleshoe were elected at the meeting held Monday night.

Chosen to be mayor was Jerry Julian. Other Teen Town officers are: Mary Jo White, clerk; Sandra Wagon, treasurer; Howard Tate, judge; and Bill Greene, chief of police.

Fifty-three teen agers have now registered to become members of "Teen Town."

Don Jackson, director of the Lions Club program here, has volunteered to help with Teen Town wherever possible, saying that Teen Town's members usually are somewhat older than the youngsters that he is guiding in outdoor recreational activities this summer. Two meetings a week are planned, at least during the summer months.

Seven 18-Year Olds Register

Eighteen year olds who registered in Bailey County in May under the Selective Service Act are:

1. Jasper Lee Pruitt, Muleshoe, Rt. 2.
2. Coy McCain, Muleshoe, Star Rt.
3. Cecil C. Mardis, Muleshoe, Rt. 2.
4. Elisha Don Seales, Baileyboro.
5. Robert Joe Myers, Farwell, Rt. 1.
6. Alvin B. Thurmond, Muleshoe, Rt. 2.
7. H. L. Cox, Muleshoe, Rt. 1.

WENT FISHING

Mr. and Mrs. Tom Berry and Allen, and Mr. and Mrs. Owen Broyles were fishing in Buffalo Lake Sunday.

Miller Rites Held Here Today

Joseph Thomas Miller, 58, pioneer farmer of the Bovina community, passed away in Friona hospital Tuesday, June 14, at 1:30 a. m.

A resident of Farmer County for 31 years, Mr. Miller was born Nov. 22, 1891, at Clyde, Texas. He is survived by his sisters: Mrs. J. E. Dunham, Salinas, Calif.; and Mrs. J. R. Crowell, Pomona, Calif.; three brothers, J. P. Miller, Farwell, F. C. Miller, Lubbock, and C. L. Miller, Farwell; and a niece, Mrs. J. B. Ginnings, Farwell.

Funeral services were conducted today, Thursday, at 2 p. m. in the Main Street Missionary Baptist Church, of Muleshoe, by Rev. M. E. Robinson, pastor. Interment was in Bovina cemetery under direction of Muleshoe Funeral Home.

VISIT IN LOUISIANA

Mr. and Mrs. Weldon McCarty, and Mr. and Mrs. Foy Futrell of Lamesa, returned Sunday from Shreveport, La., where they went after Mrs. F. H. Davis, who has been visiting her parents there.

Top picture shows the newly completed first unit of the new service station and tourist accommodation, located on Clovis highway, and under the ownership of Byrl Wingo, long time resident of this community.

Next is a shot of the new high school now under construction. Bob Gregory, the Peerless Pump man who made these photos, could have gotten a better shot of this huge building if he hadn't been too lassitudinous.

This large looking brick building is the new Masonic hall in Muleshoe. Pretty soon the Masonic bodies will begin meeting here, it is almost completed, and will be free of debt, when the first meeting is held in it. Everybody is mighty proud.

This is a picture of the American Legion Home, in Muleshoe, rapidly nearing completion under able direction of Sylvan Robinson. The hall will be available for organization meetings of all kinds, and would be a credit to any town.

This is the new building to house offices of the Muleshoe Liqueified Gas Company of Muleshoe. It is located on Clovis highway, and more about this anon.

Ruidoso Praises Our Rainbow Girls

Muleshoe Rainbow Girls and their sponsors who had a several days outing in Ruidoso, N. M., recently have received a letter from the management of the courts where they stayed, Vaughnland, that is highly complimentary to them all. The Journal is reprinting the letter below:

Dear Mrs. Wood: It was a pleasure to have the Rainbow Girls of Muleshoe as guests at our place recently. We think they are a very fine group of girls and we enjoyed their visit, as well as that of the sponsors, very much.

Their conduct was excellent while here and we noticed particularly their nice manners. Hats off to the Muleshoe Rainbow Girls!

Sincerely yours, Vaughnland By Albert Vaughn

REBEKAHS WANT RIDES FOR CHILDREN TO POOL

Muleshoe Rebekah Lodge has been asked to supervise arrangement of transportation for children of the Muleshoe Recreation Program to the swimming pool in Clovis each Tuesday and Friday. The lodge has named Mrs. Anderson as chairman of their committee and anyone who can furnish an automobile on either of these days or both is asked to telephone her at number 17. Rides for about 100 children will be needed.

Growing With Muleshoe

Presented here is current evidence that Muleshoe continues to grow, and that individuals, institutions and business concerns continue to grow with the city.

Top picture shows the newly completed first unit of the new service station and tourist accommodation, located on Clovis highway, and under the ownership of Byrl Wingo, long time resident of this community.

Next is a shot of the new high school now under construction. Bob Gregory, the Peerless Pump man who made these photos, could have gotten a better shot of this huge building if he hadn't been too lassitudinous.

This large looking brick building is the new Masonic hall in Muleshoe. Pretty soon the Masonic bodies will begin meeting here, it is almost completed, and will be free of debt, when the first meeting is held in it. Everybody is mighty proud.

This is a picture of the American Legion Home, in Muleshoe, rapidly nearing completion under able direction of Sylvan Robinson. The hall will be available for organization meetings of all kinds, and would be a credit to any town.

This is the new building to house offices of the Muleshoe Liqueified Gas Company of Muleshoe. It is located on Clovis highway, and more about this anon.

Now this is what we have been getting to. This is a picture of the crowd that weekly turns out for the Appreciation Day event. Multiply this by four more and you will have the picture when the "pot" runs up to several hundred dollars and the lucky person is entitled to as much as half of it.

Yes, friend, Muleshoe is growing!

Canadian Wheat Promises High Yield On Thomson, Haun Farms

Two specimen of growing Canadian 5-Point wheat have been brought to The Journal office this week after growers had read in last week's paper about a crop of this variety grown on the Gonsler farm, in Farmer County, near farm, in Farmer County.

First came Mrs. J. J. Haun with a bunch of the wheat. The Hauns, who reside north of Muleshoe are the first known growers of this fine, beardless, heavy producing variety in this territory.

Then came O. C. Thomson, who resides west of Muleshoe with a sample of the wheat. Mr. Thomson secured his seed from the Hauns. Last year he had six acres, which made about 25 bushels to the acre under poor climatic conditions. He planted 40 acres this year and he wouldn't sell out today for less than 50 bushels to the acre.

Mr. Thomson sold Jesse Osborn some of the seed and the latter ordered 195 pounds, all he could get, from British Columbia, to seed a small field on his farm. Joe Smith, of West Camp community also got some seed from Thomson and seeded 6 to 8 acres of Canadian 5-Point.

Arrangements have been made to keep the seed pure, have it cleaned, and Mr. Thomson expects to sell additional seed to local growers next fall. He has been assured that the baking qualities of the wheat are satisfactory, but to satisfy himself on this point he will have tests run after harvest is completed this year. Apparently this variety of wheat will ordinarily mature about one week after most other varieties usually planted here.

Mr. Thomson said soil conservation and extension workers, as well as individual growers have been visiting his farm to see the wheat growing.

The editor did not get to talk to Mrs. Haun about the condition of their wheat but the specimen she brought in appeared to promise a very high yield.

Attended Annual 4-H Club Roundup

Bailey County was well represented in the 4-H Club annual roundup at A. & M. College this week. Mrs. Marie Corrington, county home demonstration agent, was accompanied by Doris and Mrs. A. W. Copley.

J. K. Adams, county agent, accompanied Jim Prather and Robert Giles to the roundup. The county H. D. Council sponsored the trip of the 4-H club representatives.

As a sport, falconry dates back to some 2,000 years B. C., in China.

Water Is Now Available At Cemetery Announces Wilterding

Water for all purposes will now be available in the Bailey County cemetery, the pipe having been laid, Mervin Wilterding, president, reports.

Mr. Wilterding said the cemetery association thanks all those who had a part in improving the cemetery. Many workers were at the cemetery on May 26, but another work day may be necessary before things can be completed.

Recent rains have helped but weeds also thrive on moisture. Those donating to the cemetery fund since last report are: McCormick Furniture, J. Clyde Taylor, J. E. Wilhite, Half Century Club, Berry Electric Co., C. E. Layne, W. E. Davis, Albert Davis, Muleshoe Locker, Mrs. Lud Taylor, Johnson-Pool, Morris Douglas Implement Co., Millsap-Robertson Garage, Muleshoe Journal, Pool Insurance Agency, J. L. Alsop, Cox Radio & Electric, Magnolia Wholesale.

Statements are to be mailed to Elizabeth Harden, secretary and treasurer for accounts owed by the cemetery association.

Brazil produces great quantities of jacaranda or rosewood, who found the mines and worked them, who lived and loved and died in the days when fortune were made and lost and made again before the first false fronts of buildings proclaimed a town.

It is also the story of a rough young land—of bitter hardship and high courage. It is the story of the Colorado mining camps from 1878 to 1908. . . . Of the people

Path Of Storm About 1 1/2 Miles Wide In Places

Hundreds more acres of Bailey County crops were lost Tuesday to add to the already heavy crop damage when hail, accompanied by high wind and heavy rain fell swept across the northeast corner of the county from northwest to southeast. Apparently the hail covered a strip about two miles wide.

Wheat, cotton, sorghum grain, alfalfa, and vegetable crops all felt the weight of Tuesday's storm.

One of the places hit worst was Bill Millen farm, located just across the road from Y. L. schoolhouse, about 6 miles northeast of Muleshoe, where wheat that was about ready to harvest and which promised to yield 35 bushels and more was laid flat with few heads standing. Included in the wheat lost was 10 acres of experimental planting that might have yielded as high as 50 bushels. Other crops were practically wiped out.

Other men whose crops are reported to have been hard hit with damage ranging up to total were Clarence Weeks, Joe Farris, Roy Jones, Raymond and Francis Gaede, Dick Willman, Edgar Broyles and many others.

Tommy Haley, operating the H. H. Carlyle farm north of Muleshoe on Friona highway, told friends here his young cotton and feed crops were destroyed.

Cotton especially was a heavy loser in Tuesday's storm. Bare stems sticking out of the ground attested to the fury of the hail.

Some were covered up by the rain. When the Journal man visited the area Wednesday afternoon, almost 24 hours after the storm hit, water was still running from fields and rolling briskly down barrow ditches beside the new farm-to-market road that leads north from Plainview highway.

Local insurance company offices were swamped with farmers desiring to put in hail damage claims Wednesday.

A resume of the weather by R. J. Kline, local recorder, shows that Muleshoe has received 4.63 inches of rain so far in June, 17.29 for the year. Since the first of the month rain has fallen in Muleshoe as follows: June 5, .40; June 7, 1.07; June 8, 1.57; June 9, .93; June 10, .00; June 11, .00; June 12, .00; June 13, .00; June 14, .00; June 15, .00; June 16, .00; June 17, .00; June 18, .00; June 19, .00; June 20, .00; June 21, .00; June 22, .00; June 23, .00; June 24, .00; June 25, .00; June 26, .00; June 27, .00; June 28, .00; June 29, .00; June 30, .00.

Precipitation by month, June 1949, has been as follows: Jan. 2.34; Feb., .84; Mar., .15; April, 1.96; May, 7.26; June, 4.65.

George and Ed Johnson, who live in Muleshoe, lost 960 acres of wheat on their place north of Bovina in the Tuesday storm. They said it was virtually a total loss, and estimated it would have yielded at least 20 bushels to the acre, and figured their loss in a few minutes was \$30,000. They had no hail insurance.

George Johnson got in his car and followed the hail storm's path from the place where it crossed the highway east of Muleshoe to a point about at the draw north of Bovina. He said it was almost directly on their place, about a mile and a half wide without lifting in all that distance.

Some minor property damage has been reported.

Nazarene Revival Will Close Sunday

The revival at the Church of the Nazarene will continue through the coming Sunday, June 19, with Rev. H. G. Bohannon preaching. The meeting began June 7. Services are held each evening at 8 o'clock. The public has a cordial invitation to attend the services, being held in the newly completed church edifice.

Grissom Heads Portales Creamery

Kenneth Grissom, dairyman of near Muleshoe, has been elected president of the New Mexico Cooperative, Portales, N. M. Mr. Grissom is the only director from Texas, the other four residing in New Mexico.

He operates a grade A dairy, milking about thirty cows. Besides these activities Mr. Grissom, who is a graduate of Texas Tech, is coordinator of the Texas Tech, Agriculture classes in Bailey County and teaches classes here regularly.

The state flower of Massachusetts is the mayflower.

REFERENDUM ON WHEAT CONTROL SET JULY 23

The Agriculture Department has set July 23 as the tentative date for a nation-wide farmer referendum on rigid production controls for the 1950 wheat crops.

Final decision on whether controls will be proposed by Secretary Brannan awaits an estimate of this year's wheat crop, to be issued by the department's crop reporting board Friday. The purpose of controls would be to keep supplies from becoming too large and too depressing on grower prices.

If the estimate indicates a crop of more than 1,300,000,000 bushels, the secretary is expected to take formal action setting up marketing quotas on next year's crop. A month ago the crop was forecast at about 1,312,000,000 bushels. Reports indicate that it has made favorable progress in the meantime.

Quotas would have to be approved by at least two-thirds of the growers voting in the referendum.

The department has notified its field workers that the referendum will be held July 23 is marketing quotas are proclaimed by the secretary.

More than 1,500,000 wheat growers would be eligible to vote. Orders have been placed for printing of ballots and other printed materials needed in connection with the election.

In a statement last week, Mr. Brannan said wheat growers face the necessity of cutting down on production. Present prospects indicate, he said, that a crop of no more than 1,000,000,000 bushels will be needed next year to meet

domestic and foreign demands. Needs might be even less, he added, if the senate fails to ratify a proposed international wheat agreement designed to divide the world market among major wheat-exporting nations. That agreement would give this country a yearly market of 186,000,000 bushels.

A control program would seek to hold plantings for the 1950 crop to around 62,500,000 acres. Nearly 82,000,000 acres were seeded for this year's crop.

Under a quota program, each farmer would be given an acreage or planting allotment, which would be determined on the basis of past plantings. His marketing quota would be the amount of grain grown on his allotment. Sales in excess to a quota would be subject to a penalty tax equal to 50 per cent of the party price of wheat, which would be roughly 90 to 95 cents a bushel.

Should growers reject quotas, the government would support the price of wheat at only half the level which would be in effect if the quota were approved.

Quotas have been applied to wheat twice since their use was authorized by congress under the Agricultural Adjustment Act of 1933. They covered the 1941 and 1942 crops. In each referendum, quotas were approved by more than 80 per cent of the growers voting.

THE GOLDEN RULE

In all ages men have sought and found the Pearl of Great Price, the truth by which men live, and the Supreme Teachers have proclaimed it in simple words.

Mirza Ahmad Sahrab, a Persian teacher, has prepared a summary of this Golden Rule as expressed in the words of religions:

Christ: "Whatsoever ye would that men should do to you, do ye even so unto them."

Hindu: "The true rule is to do by the things of others as you do by your own."

Buddha: "One should seek for others the happiness one desires for one's self."

Parsi: "Do as you would be done by."

Confucious: "What you would not wish done to yourself, do not do to others."

Mohammed: "Let none of you treat a brother in a way he himself would dislike to be treated."

—Oriental Consistory Bulletin

CITATION BY PUBLICATION

THE STATE OF TEXAS

TO Blonnie Lee Owen Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Bailey County at the Court House thereof, in Muleshoe, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 25th day of July A. D. 1949, then and there to answer Plaintiff's Petition filed in said Court, on the 28th day of April A. D. 1949, in this cause, numbered 1596 on the docket of said court and styled

Arie Owen Plaintiff, vs. Blonnie Lee Owen Defendant.

A brief statement of the nature of this suit is as follows, to wit:

That Plaintiff and Defendant were married on the 31st day of December 1947, and continued to live together as husband and wife until on or about the 6th day of May 1948; Plaintiff alleges that on divers occasions while Plaintiff lived with Defendant, that the Defendant was guilty of excesses, cruel treatment and outrages against him, and of such a nature as to render their living together insupportable. That Defendant cursed and abused Plaintiff in the presence of friends, and on one occasion hit Plaintiff over the left eye with a large rock, which caused considerable pain and much embarrassment. Plaintiff alleging, that no children were born to said union, and that neither the Plaintiff or Defendant, or either of them, have at any time adopted any child or children; and that there is no community property owned by Plaintiff and Defendant, either real or personal.

Plaintiff prays judgment for a divorce, and for such other and further relief that he may be justly entitled to.

as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Muleshoe, Texas, this 6th day of June A. D. 1949.

Attest: M. G. Bass Clerk, District Court, Bailey County, Texas. 24-4tp.

CHRISTIAN SCIENCE SERVICES

"Is the Universe, Including Man, Evolved by Atomic Force?" is the subject of the lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, June 19.

The Golden Text is: "The earth is the Lord's, and the fulness thereof; the world, and they that dwell therein" (Psalms 24:1).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I know that, whatsoever God doeth, it shall be for ever; nothing can be put to it, nor any thing taken from it; and God doeth it, that men should fear before him" (Ecclesiastes 3:14).

The Lesson-Sermon also includes the following passage from the

MULESHOE NINE MOVES INTO FIRST PLACE

Local Nine Nips Springlake Rally With Double Play

Muleshoe climbed out on the top in the Capitol League Sunday when they defeated Springlake here while the league leaders since the opening of the season, Anton was being downed by the Sudan nine 2 to 1.

The Muleshoe lads barely did get by the surprisingly improved Springlake nine by a score of 11 to 9. In fact the Muleshoe boys started off in the hole by allowing the Springlakers to score two unearned runs in the first inning by errors made by the local boys which should have been easy putouts.

Muleshoe scored one run in the bottom of the first inning and in the first of the second they held the visitors to only one run while picking up three to go out in front by one run. In the third inning the local boys managed to bring four men across the plate with the help of the Springlake

nine who made a couple of errors, one of which a home run was scored by the pitcher, Alvin White.

This gave the local boys a five run lead which they held on to by blanking the visitors in the third and fourth innings, but the visitors also blanked the local boys in the fourth and fifth innings while they picked up two runs in the fifth, cutting down Muleshoe's lead to three runs 8 to 5. Muleshoe blanked the visitors again in the sixth inning while they picked up three more runs to take a six run lead in the bottom of the sixth.

Behind the magnificent pitching of their pitcher, the Springlake boys blanked the locals in the seventh and eighth innings and went on a batting spree themselves picking up two runs in the seventh and two runs in the eighth, closing up on Muleshoe's lead and in the top of the ninth the local boys tightened up and the first man up to bat for the visitors was thrown out at first. The next man got on base on an error and Smith, the last man up, hit a ground ball to third baseman who threw to second and in turn he threw to first, scoring a double play to end the ball game 11 to 9 in Muleshoe's favor. Alvin White hurled for the local boys and went all the way giving up 8 hits, striking out 8 men,

Slants From The Sidelines . . .

By W. E. Hill

June 22, two of the contenders for the World's Heavyweight Champion will meet and the winner of the bout will likely become the next champ. Of course he may have to win a couple of more fights before he can rightfully claim the crown, but we believe the winner of this fight will eventually become the champion.

The two men who will meet on June 22, are Jersey Joe Wolcott and Ezzard Charles, both colored.

Jersey Joe won his first three fights by KO's in the first round. He lost his last two fights to Joe Louis, one a decision and the latter by a KO in the 11th round.

Wolcott started fighting professionally in 1930 and has fought 55 professional bouts, losing only 12 of the 55 fights, 3 of which were KO's. Wolcott was born Jan. 31, 1914, Merchantville, N. J.

Ezzard Charles was born July 20, 1921, Atlanta, Ga. Charles has had 69 professional bouts since 1940 when he turned professional. Of the 69 bouts he has won 64 of which 41 were via the KO route.

Charles won his first two fights by KO's and then won two by decision and then won his next eight fights by KO's. Charles won his last two fights, the first by a KO in the 8th round over Johnny Haynes in Philadelphia and the last one by a 15 round decision over Joey Maxim.

The local baseball team finished

walked 3 men and put 3 on base by a hit pitch.

The first pitcher for the visitors pitched the first three innings. He gave up nine hits, walked one and put a man on by a hit pitched ball. He gave up 8 runs to the local team in three innings. The second pitcher for the visitors took over in the fourth inning. He registered 7 strikeouts, gave up 4 hits, and allowed the local boys only three more runs.

West Camp Wins Softball Tourney

West Camp edged the Progress softball team 5 to 4 Sunday afternoon to win the Progress tournament.

The game site was changed to West Camp after the rains last week covered the Progress field with water.

Allen Stancell was pitching for the winning team and P. A. Gross pitched for the Progress boys.

Games Sunday

Sunday afternoon the Progress softball team will meet the Lariat Luthers at 2 o'clock on the Lariat field.

On the Progress field Sunday afternoon, West Camp will meet the Muleshoe team in the first game scheduled to start at 2 o'clock and in the second game West Camp will tangle with another Progress team, the "Groundhogs."

Another game may be scheduled for the Progress field Sunday between two teams made up from the fairer sex.

ally won their ball game over Springlake last Sunday evening, but it was just by accident that they did so. In fact if the visitors had not had their one bad inning in the field, the game more than likely would have ended with the Muleshoe lads on the short end of the final score.

There was no doubt about it . . . the local boys had an off day and they were lucky that they won the ball game over the much improved Springlake nine.

However the local boys showed plenty of good ball-playing at times during the game, but at other times they floundered around like chickens in a tornado.

So far the local Legion team has not won a ball game, but they are showing lots of improvement every day and by the time their regular season opens, they will be in pretty good condition and may begin to click. Of course they are playing under a handicap as didn't get organized until after most of the other area teams were organized, and most of the boys are playing for the first time in their lives.

In the big-time baseball, the All-Star game is scheduled to be played in New York on July 12. Now if any of you local fellas are planning a vacation to the east in July you certainly wouldn't want to miss the All-Star game.

Whether you are a man of sports or not, there is a new motion picture which has just been released and will more than likely be seen in the near future on the local screen which you do not want to miss. The picture is about Monty Stratton who lost a leg in an accident, but made a comeback. The name of the picture is "The Stratton Story," starring James Stewart and June Allyson.

Peerless Deep Well Turbine Pumps With Right Angle Gear Drive

Here's a crop booster you can depend on. It's a Peerless Deep Well Turbine Pump, equipped with a Peerless Gearturbo (right angle drive) head. The Peerless Gearturbo right angle drive is the best bet yet for connecting a horizontal engine to a vertical pump shaft. The Gearturbo gives farmers and ranchers a sure means of pumping needed water where there is no electricity for power, or where auxiliary power from gasoline, natural gas, diesel engines is desirable.

RAINFALL CAN'T DO IT ALL!

Peerless deep well turbine pumps deliver water in capacities from 15 to 30,000 g.p.m. with lifts as high as 1000 feet. Gearturbo drives are available from 1 to 300 H.P. Gearturbo is interchangeable with vertical electric motor.

Curtis, Demchuck Win Mat Bouts, On Card Saturday

Last Saturday night a large crowd of fans witnessed the exciting wrestling bouts at the local high school gym in which Curtis defeated Dusette by a forfeit after Dusette was unable to return to the ring after receiving a leg injury.

Johnny Demchuck won over George Bruckman by taking the first and third falls in a hotly contested battle between the two men.

Next Saturday night Johnny Demchuck will battle Balk Estes in the first bout of the double main event. Both men are well known by the local wrestling fans and know that they can expect to see plenty of action when these two men meet in the ring.

In the second main event attraction, George Bruckman will be pitted against George Curtis. Both of these men are likewise known to the local wrestling fans and plenty of action is to be expected when these two men meet in the center of the ring.

LOCAL MAN TO MAKE APPEARANCE IN RING

Russell Riley, formerly of Muleshoe, will make an appearance in the local ring sometime within the near future.

Riley is now wrestling back in the east and it is reported that he now holds several titles back there. He is a brother of Claude Riley who resides in Muleshoe at the present time and is in the irrigation supply business.

A spokesman for the JayCees, who are sponsoring the local bouts here in Muleshoe stated, "We hope to have the house running over when Russell makes his first appearance in the ring in his home town."

FISH WERE BITING

Lee Pool and sons, Buddy and Roger, Loyd Roberts, of Muleshoe, and Harvey Pool and son, Lowell, of Loveland, found the fish hungry and ready to bite, catching quite a few in Conchas Lake, near Tucumcari.

Muleshoe Tangles With Anton There Sunday Afternoon

After taking the top spot away from the Anton nine last weekend the Muleshoe nine will travel to the Anton nine's home field for what is expected to be one of the hottest games of the season in Capitol League play.

The Muleshoe lads went out on top of the heap last weekend by defeating the Springlake nine while the Anton team, who has held the lead ever since the beginning of the season, were being defeated in a close contest by the Sudan crew by a score of 2 to 1.

A win by the local team over the Anton nine will put them another notch ahead of the field, but a defeat at the hands of the Anton nine could mean that they would lose their lead in the league play without much of a chance to ever regain the lead even if they won all of their remaining games.

The Anton nine of course will be ready to regain the top position and will give the local boys a battle all the way.

Anton defeated the local nine the first time they met back early in the season, but they handed the Sudan crew two straight defeats just before the Sudan crew jumped on Anton.

That may mean that the local boys have improved considerably in the past several weeks and that they may hold a slight edge

LOST TO PORTALES
The American Legion Junior baseball team lost a game to the Portales Juniors last Friday by the close score of 12 to 10. The two teams met again at Portales Wednesday afternoon.

over the Anton nine. However the slight edge that the Muleshoe team may hold is a very slim one if any at all.

A large crowd of local fans is expected to follow the local boys to Anton for the game there Sunday afternoon.

Land Prices Drop Cent

COLLEGE STATION, June 14.—Land prices have recently dropped a cent since last year, according to a comparison of the period between 1943 and 1944. Extension farm agent specialist of Texas A. & M. College, says that today's land prices in Texas are still 96 percent above those of 10 to 14 years ago. After ten years of steady climbing, farm and ranch land prices in the entire nation appear to have passed a postwar peak.

(Offices At Hospital)

RETURN TO WASHINGTON

Mr. and Mrs. Myron Bayless and little daughter, Myra Sue, left Saturday to return to their home in Richland, Wash., after a visit of several days here with relatives. He is a son of Mr. and Mrs. Roy Bayless. His younger brother, Roy Jr., returned to Washington with them for a visit.

BACK FROM ILLINOIS

Mrs. M. F. Green, Bill, Bob and Jim have just returned from a three weeks visit with her parents, Mr. and Mrs. C. M. Harrelson, in Benton Ill.

Declines in prices of farm products in recent months was probably the major factor affecting the level of land prices. This downward drift began little less than a year ago in August, and has had quite an influence on prospective land buyers.

Since the land values have risen slower than the net farm income since 1940, there's a good chance that land price declines will lag behind commodity price drops. If farm costs remain extremely high and limits the net return to operators, the land value drop may increase in rate, Bates says.

Even though government price supports are active on many farm products and livestock, the net farm income is expected to continue downward. High fixed costs become more of a burden as the net profits are trimmed.

Therefore, buyers should attempt to keep land payments down to a manageable size to prevent hardship or possible loss of equity in lands recently acquired, Bates concludes.

Appreciation Day Is Saturday

Bring New Life To Faded Casuals Of Last Summer via The Dye-Bath

The magic of the dye-bath can give your faded wearables of last summer another season's use, as well as new color beauty, and it doesn't matter if they're made of synthetic fibers, such as rayon, or of natural fibers like cotton and linen, according to the Tintex Home Economics Bureau. An all-fabric dye, in a choice of 50 colors, is now available for the purpose.

However, if your slacks, blouses, shorts and other outdoor wearables have become unevenly faded, as is often the case, or if you want to change to an entirely different color, the bureau recommends the use of color remover first. Neither the all-fabric dye nor the color remover, made by the same manufacturer, require boiling. Each is only a dime a package. You can have gloves to match every ensemble in your wardrobe by the same tinting process. If they're white or light-colored, you need but dye, the bureau points out. If they're dark, and you're changing to a new color, use color remover first.

Types Of Farm Grain Storage Are Discussed

COLLEGE STATION, June 14.—The lack of adequate storage for the bumper grain crop that is now beginning to move in the state is causing much concern. This, coupled with the drop in price, has brought the producer face to face with a real problem but fast action may yet save the day. It isn't too late to provide much on-the-farm storage and at the same time qualify for a government loan on the crop says, W. S. Allen, extension agricultural engineer-buildings of Texas A. & M. College.

According to Allen, 500-bushel capacity grain storage bins or granaries can be built for about 50 cents per bushel of storage capacity and 1,000-bushel bins for about 40 cents per bushel capacity. These construction costs can be further reduced through the use of materials that may be available around the farm, adds Allen. Due to the high cost of materials, it may be advisable in some localities to buy prefabricated bins or granaries. Allen says such structures in some instances are selling from 28 to 31 cents per bushel capacity.

Whether you build or buy prefabricated bins will depend on the local situation, he says. If you need a blueprint for building on-the-farm storage, go see your local county agent. Through him plans are available for many types and sizes of grain storage structures.

When you get the plan, says Allen, get a local estimate on the cost of construction and then compare this figure with what a prefabricated building would cost. Then take your choice. It is well to keep in mind, continues Allen, other uses that can be made of such structures after the grain is taken out and plan them for such.

THE MULESHOE JOURNAL, Thursday, June 16, 1949

Grain storage structures, concludes Allen, should be well built so they'll last for many years. And, too, one of the qualifications for a government loan is that the grain be stored in bins or granaries where it will not be subject to damage from moisture, insects, rodents or from other causes.

Health Department Endorses Spraying

AUSTIN, June 14.—During the last several summers, considerable enthusiasm was shown by various local organizations such as Chambers of Commerce, many Civic organizations, and others in the arranging of a fly eradication program. Dr. Geo. W. Cox, State Health Officer, says that for taking interest in this work, the responsible parties are to be commended.

However, without year-round community sanitation the ultimate result, which is so important has not always been too successful; in some areas this has given rise to rumors that flies are DDT resistant.

Music Lessons
If your child is in the second grade or above, now is a good time to start them in piano.
Geo. L. Moore
Gen. Delivery
Muleshoe, Texas

"The Texas State Department of Health heartily endorses a fly spraying program, provided it includes a general clean-up program carried out during the entire year", Dr. Cox said. "For example, why spray a garbage heap that not only invites but actually breeds flies when it should have been removed. Why spray the city dump when it really should be covered. I fear the unplanned spraying program is similar to the application of perfume or toilet water to overcome B.O. or the application of powder to cover dirt."

In a well-planned fly control program, Dr. Cox declared, all places where flies gather, such as dumps, rubbish piles, garbage piles, decaying vegetation should be cleaned up by hauling away and burying. Proper garbage and rubbish containers with fly tight covers should be demanded from all. All buildings should be screened. Then, secure a sprayer outfit, preferably with one or more hoses each manned by a skilled operator to spray the areas where flies and other insects will light. It does little good to spray the center of the street, the ball diamond, or the sidewalks. Spray the surfaces where insects light or breed.

A residual spray remains active until the DDT washes off or is covered with grease, dirt or soot. This usually lasts four to six weeks. After that, a second spray is recommended provided the item of clean-up is still being carried out.

ADVANTAGES that help the BUSY FARMER

The new COBEY FARM WAGON has the kind of construction that really saves you time, money, and labor.

Note angle of spindle in yoke—this special automotive design prevents "whipping" at fast speeds. All bushings oil-impregnated bronze—require no lubrication. Wheel hubs, steering knuckles, and axle yokes equipped with automotive roller bearings. Note the sturdiness of the whole assembly—built for hard use and long service.

This sketch shows the right front and left rear wheels going over obstructions. This flexible construction enables the understructure to absorb field irregularities and road ruts. Note that all parts are formed into one integral unit with the load being distributed to all four wheels.

The Hi-Tensile Steel used in the COBEY WAGON is much stronger than ordinary steel. The combining of this new material with advanced engineering design has produced an exceptionally sturdy unit without the heaviness in weight that would ordinarily be necessary. The result is unusual ease of handling.

There are many other features which we will be glad to explain fully and show you.

STAKE RACK It takes just a few minutes to convert the COBEY Flat Platform Wagon into a 42" Stake Rack Body. Rugged side and end stake sections lock securely to platform and interlock with each other.

Popular Couple Married In Beautiful Evening Ceremony Here Monday

Rev. C. A. Long Performed Ceremony; Reception Is Held In Fellowship Hall

Miss Pat Bennett, daughter of Mrs. J. E. Evetts, of Portales, N. M., and granddaughter of Mr. and Mrs. Henry Hanover of Muleshoe, with whom the bride has made her home and Mr. Johnny Glasscock of Muleshoe, was read Monday, June 13, at 8 o'clock in the evening at the First Baptist Church with Rev. C. A. Long of Abilene, uncle of the bride officiating in the beautiful and impressive double ring ceremony.

The church was lighted by tapers and decorated with an arch of greenery clustered with floats of picardy gladiolus. Bouquets of picardy gladiolus and yellow peonies were placed on white columns on either side of the arch, white candelabra and white tapers, palms and other greenery formed the background for the ceremony.

A program of wedding music was offered by Mrs. Elaine Dameron, organist, at the close of which "Stardust" the favorite melody of the young couple was played. Mrs. Pat Bobo, soloist, sang "I Love You" and "The Lord's Prayer". The traditional wedding marches processional and recessional were used.

Entering on the arm of her grandfather, the bride wore a wedding gown of white slipper satin, the bodice fashioned with chantilly lace, fastened with small covered buttons down the back and long fitted sleeves, button trimmed ending in points at the wrists. The full skirt was draped in the front over lace and ended in a long sweeping train edged with matching lace. The bridal veil of double nylon tulle, was edged in a wide band of chantilly lace and held in place by tiny rose buds matching her bridal bouquet of white ophelia roses tied with a bow of nylon net. Completing her costume she wore a single strand of pearls, a gift from the groom. She had the traditional something old and borrowed in an old hand made lace trimmed handkerchief, belonging to a friend. The date of the penny in her shoes was as near to the date of her wedding as was possible to obtain.

Miss Arlene Bennett of Abilene, maid of honor wore green summer taffeta made with matching fitted bodice and full skirt with matching net stole fastened at the low neckline with a tiny pinocchio rose bud and baby breath. Bridesmaids were Miss Gwyneth Bigham of Muleshoe, who wore pink taffeta with a matching fitted bodice and full skirt with matching net stole fastened at the low neckline with a tiny pinocchio rose bud and baby breath. Bridesmaids were Miss Gwyneth Bigham of Muleshoe, who wore pink taffeta with a matching fitted bodice and full skirt with matching net stole fastened at the low neckline with a tiny pinocchio rose bud and baby breath.

Bridesmaids were Miss Gwyneth Bigham of Muleshoe, who wore pink taffeta with a matching fitted bodice and full skirt with matching net stole fastened at the low neckline with a tiny pinocchio rose bud and baby breath.

The groom's gifts to his attendants were shirt studs with matching cuff links. Immediately following the ceremony a reception was held in the Fellowship Hall. The table was covered with a lace table cloth and centered with a four tier wedding cake of white, topped with a tiny bride and groom, flanked by triple candle holders of crystal with a cupid placed at the end of the table holding a garland of roses to the cake and crystal punch bowl.

Mrs. B. Z. Beaty presided at the guest book.

Assisting in the hospitalities were Mrs. Tye Young, Miss Elizabeth Harden, Mrs. Woody Glasscock, Mrs. T. L. Glasscock, Mrs. Baker Johnson of Goodland, and Mrs. Robert Sanders of Maple.

For traveling the bride chose a brown gabardine suit with palm-ino accessories.

The couple choose as their wedding trip, the route through Colorado, to the West Coast. On their return they will be at home north of Muleshoe, where Mr. Glasscock has an irrigated farm.

Mrs. Glasscock attended W.T.S.C. at Canyon and at the time of her marriage was employed at the West Texas Gas Co.

Mr. Glasscock attended Johnnie Glasscock at Stephenville before his induction into the army where served about two years.

The Watson H. D. Club met in the home of Mrs. Jim Henderson on Sunday, June 11. Mrs. Dave St. Clair gave talk on how to do your work make it easier and how to more shelves in a cabinet also demonstration on how to set table.

Members present were: Mesdames Dave St. Clair, Neal Smith, C. Day, C. A. Petree and the hostess, Mrs. Jim Henderson. Refreshments of cake and grape were served by the hostess. Hostess gift was given again Mrs. Petree.

Detroit is the only team in the league which never has been in last place.

Pre-Nuptial Shower Honors Pat Bennett

Miss Pat Bennett, bride elect of Johnny Glasscock, was honored, Friday evening with a lovely miscellaneous shower and tea in the home of Mr. and Mrs. Jesse Osborn, with Mesdames, Robert L. Jones, Irvin St. Clair, W. M. Pool II, and Misses Norma Osborn, Gwyneth Bigham as hostesses.

Mrs. W. M. Pool II, greeted the guests and presided at the bride's book.

The serving table was covered with a lace cloth, with sweetpeas beautifully arranged as a wedding ring, centering the table, flanked by lighted white tapes in crystal holders.

Miss Osborn, and Mrs. Lowell Irving St. Clair presided at the punch bowl.

Miss Gwyneth Bigham furnished piano selections during the evening.

The gifts were on display in the other entertaining room, which was decorated with lovely cut flowers.

Many guests called during the evening.

Mrs. Wilma Austin Is Club Hostess

The West Camp Pollyanna H. D. Club met Wednesday June 8, in the home of Mrs. Wilma Austin.

"I find that sitting down to do a large part of my ironing helps me a great deal," said Mae Busbice when she answered roll call with something on "How I Learned To Do A Job Easier."

A short business session was conducted by president Louise Busbice.

Mrs. Corrington gave us a very helpful demonstration on "Bed Making". First a club member unmade and made the bed, then Mrs. Corrington made the bed beginning at one corner and completing all the steps as she went along, so that when she had reached the opposite corner on the other side the bed was finished and she had only gone once around the bed.

Cakes and cookies were served to the following members: Mesdames Naomi Austin, Mae Busbice, Louise Busbice, Pat Akin, Sylvia Couch, Vola Dutton, Bonnie Williams, Beulah Williams, the hostess, Wilma Austin, our new member, Jean Utley, two visitors, Miss Willa Faye Akin and Marilyn Austin and Mrs. Marie Corrington, our agent.

The material for our gloves has arrived.

Our next meeting will be Wednesday, June 22, with Olene Watts.

Half Century Club Met In Panter Home

The following club members met with Mrs. Panter June 9, Paul, Kistler, Burkhead, Mardis, Julian, White, Jones, Spence, Welch, Gibbith, Lewis, Farrell Duke, Willman, Ingram, Hall and the hostess.

All played games and had a nice time. It was decided to go on a picnic to McKinzie Park, June 23rd, so all bring a full basket, as the bus was not available. We will go in cars and will meet at the corner of the Muleshoe Motor Co.

Society News

THE MULESHOE JOURNAL, Thursday, June 16, 1949

MRS. JOHNNY GLASSCOCK

Mrs. Wyer Hostess To Service Guild

The Wesleyan Service Guild met with Mrs. Harold Wyer, Friday evening June 10.

Mrs. Curtis Spivey, president was in charge of the meeting.

Guild was opened with a prayer by Bro. Craft.

Mrs. Craft gave the devotional, "The Building of a Christian Home."

Mrs. Case, Vice-president, had charge of the program as an introductory to the program, each member was asked to tell where she met her husband. Mrs. Case then introduced the speaker Bro. Craft, who brought a wonderful talk on love, marriage and the building of the right kind of a home.

The next meeting will be June 27, a pledge service at a place to be announced later.

Angel food cake, ice cream topped with strawberries was served to Rev. T. G. Craft and Harold Wyer, visitors, Mesdames Jimmy Green, Jim Burkhead, Curtis Spivey, T. G. Craft, James Case, H. A. Phillips, Delma McCarty, Miss Elizabeth Harden and the hostess.

GUESTS IN WEST HOME

Mr. and Mrs. John W. West have had as guests in their home his aunt, Mrs. Maude Crockett, Kingsport, Tenn.; his mother, Mrs. Ella V. West, Frederick, Okla.; and Mr. and Mrs. Harry Luder and daughters, Joyce and Kathie, friends of the family from Waldo, Kans.

(Ford) with Mrs. Rockey at 8:30 a.m. All express thanks to Mrs. Panter, Sec.

Enochs Club Met With Mrs. Bryant

The Enochs H. D. club met in the home of Mrs. Belton Bryant June 9. This was an all day meeting for the purpose of quilting. Two quilts were quilted. Twelve members and two visitors were present.

At 2:30 the house was called to order and the club opened with a song "Beautiful Texas."

The roll call was answered by each member on "A Way I Have Found To Make My Work Easier."

The minutes were read by the secretary.

Some literature was passed to each member on "Simplification of Homework" and "Have You a Professional Attitude Toward Your Job As A Homemaker." Nearly all members were guilty of these habits, and thought this literature might be of great help to mend their ways. Also some recipes of the "Master Mix" were passed out. These are very good recipes and will be used by several members.

A very interesting lesson was illustrated on table setting.

The president read a few notes on "How To Make Your Work Easier." Also she had two handy shelves she had made for the cabinet and these were put in the cabinet and illustrated.

Mrs. C. G. Seagler brought some handy kitchen tools and passed around for the members to see. One was a spice holder to fasten on the cabinet door. The other was a vegetable chopper.

A training school will be held in the home of Mrs. Marie Corrington on June 24, for the purpose of "Making Leather Gloves", and an all day meeting is to be held and each one going is asked to bring sandwiches.

The club wishes to thank everyone who helped in cleaning of the Cemetery. There were ten ladies who came and helped.

Those present at the quilting and club meeting were: Mesdames J. W. Parsons, Milton Parsons, John Vandevanter, C. W. Vanlandingham, C. G. Seagler, Ray Seagler, O. H. Grusendorf, T. A. Thomas, J. R. Autry, Dona Autry, E. N. McCall, R. P. McCall, Tommy Bryant, and the hostess, Mrs. Belton Bryant.

A good lunch was served, and was enjoyed by all.

Mrs. Dulin Club Hostess June 8

The Pleasant Valley Sunshine club met Wednesday June 8, at the Pleasant Valley school house with Mrs. Jimmie Dulin as hostess with ten members present.

The president, Mrs. Jack Epps, had charge of the business meeting. The club voted to have a picnic supper Sunday evening, June 13, in honor of Father's Day.

Mrs. J. E. Dulin gave a report on the bake sale recently held by the club.

The meeting was turned over to the program committee and a number of games were enjoyed, after which a refreshments were served to the members by the hostess, Mrs. Jimmie Dulin.

At a previous meeting of the club which was held on June 2, there were eight members present. The next meeting will be the fourth Wednesday of June in the home of Mrs. Harold Allison.

Dynamite Is Magic Worker on Farmland Must Be Carefully Used to Prevent Harm

Dynamite is the Paul Bunyan of the modern farm. Like the make-believe, giant lumberman who could uproot trees and do other remarkable things, explosives, properly and carefully used, can perform scores of labor-saving tasks about the farm, according to P. S. Eldred, manager of the explosives and powder divisions, Olin Industries, East Alton, Ill.

Farmers today are finding they can save much labor and time in digging ditches, blasting out stumps, making post holes, cleaning out water holes and even planting trees by the use of explosives, Eldred says.

"But caution is the watchword," he warns. Like fire, dynamite is an excellent servant and a terrible master. When the farmer uses it with full knowledge of the great labor-saving work it can do, as well as the fearful damage, he has a giant farm hand who can almost perform miracles."

Each is a problem in itself. The farmer must study the type of stump, whether it has roots that run along just under the ground, or has great tap roots. Then he must carefully plan how to blast out that stump with dynamite. Again "caution" is the watchword. If not sure, the farmer should consult an explosives expert. But the typical way to blast a stump is to place the dynamite as near as possible under the center mass, or under the largest roots. If there are two large roots, it may be necessary to plant the explosive under both.

Figure 1 shows the proper way of loading to remove an evenly rooted stump. The charge is under the center of the stump.

Sometimes there are stumps with central downward roots, called tap roots. In such a case, as shown in Figure 2, the charge is placed down alongside the tap root on the side that will bring it as near as possible to the center of the stump.

Another great labor-saving task

can be performed with dynamite. That is the digging of ditches. Dynamite can be easily carried through the woods, swamps and other country impassable to horses or machines and, once there, can quickly do more work than dozens of laborers or several machines.

Figure 3 shows the dynamite planted stick by stick at regular intervals so that whole sections are blown out at the same time. In this way, the earth does not fall back into a part of the ditch already dug. One of the advantages of digging ditches with dynamite is that there are no "spoil banks."

Figure 1

Stumps are a bugbear to farmers. Each is a problem in itself. The farmer must study the type of stump, whether it has roots that run along just under the ground, or has great tap roots. Then he must carefully plan how to blast out that stump with dynamite. Again "caution" is the watchword. If not sure, the farmer should consult an explosives expert. But the typical way to blast a stump is to place the dynamite as near as possible under the center mass, or under the largest roots. If there are two large roots, it may be necessary to plant the explosive under both.

LOCAL STUDENTS ENROLLED AT HARDIN-SIMMONS

ABILENE (Spl.)—Two students from Muleshoe are enrolled in Hardin-Simmons University for the first summer term. Classes will continue through July 9. The second term will begin July 12. Enrollment has reached an all time high of 1165 students.

The students are Anna Hart McGraw and Norman Zachry.

Mrs. McGraw is doing graduate work at the University. She is a member of Players club and Alpha Psi Omega, national dramatic fraternity. She is the daughter of Mr. and Mrs. E. R. Hart.

Zachry, a freshman, is the son of Mr. and Mrs. Tom Zachry.

S-SGT. ANDREW WELCH WAS A VISITOR HERE

Staff Sgt. Ance C. Welch is in the city over the weekend visiting his wife, Mrs. Welch, and their two months old son, Danny. Guests also were her parents, Mr. and Mrs. A. F. Ashford.

Sgt. Welch was stationed at Clovis Air base, Clovis, N. M., until April when he was transferred to Biggs Air Force Base, El Paso, where he is NCOIC and chief radio operator of the air-ground communication.

Mrs. Welch will join him about the first of July when housing will be available.

COMMISSIONERS TO SIT AS EQUALIZATION BOARD

Members of the Bailey County commissioners court took the oath as members of the county board of equalization and will sit for the first time next Monday. They will then begin their preliminary consideration of the property tax rolls which are being prepared by the county tax collector-assessor.

RETURNS FROM HOMECOMING

Mrs. H. A. Douglass, Sr., returned from Muleshoe, Monday evening from Comanche where she attended the homecoming celebration over the weekend. She was accompanied by Mrs. Lena Rollins formerly of Muleshoe, now residing in Amherst, where she is supervisor of nurses at the Amherst hospital. Mrs. Douglass and Mrs. Rollins were former school mates in Comanche.

DR. PUTMAN ATTENDED OPTOMETRY MEETING
Dr. B. R. Putman of Muleshoe attended a dinner meeting of the South Plains Optometric Society which was held at the Levelland Country Club Tuesday evening June 7.

Dr. C. M. Neel of Lubbock gave a review of Dr. Murroughs talk in which he stated that the prime factor in Visual Skills Training is to teach coordination between the two eyes in the act of seeing. Dr. J. W. Kimball of Floydada gave Visual Skills Training techniques and conditions which bring about the need of Visual Skills Training. Dr. Glenn S. Burk of Lubbock centered his talk around actual technique and demonstration of the Lang Instrument which is one of the instruments used in Visual Skills Training.

HERE FROM DALLAS
Allen Holland, of Dallas, was here Saturday for a brief visit with his parents, Mr. and Mrs. Ernest Holland. His wife was in Plainview at the bedside of her father, who has been under treatment in a hospital.

ELECTRICIAN
DAVE COULTER

HOW TO SHOOT A RIFLE
By ARTHUR E. COOK
National and Olympic Rifle Champion

A bullet never travels in a straight line. As soon as it leaves the gun muzzle, gravity begins to pull it toward the ground. Therefore, at longer distances, the bullet is likely to fall short of the target unless (1) you deliberately aim high, or (2) you adjust your sights to compensate for the drop of the bullet.

The same thing applies to horizontal (or sideways) movement of the bullet due to wind while shooting outdoors. Particularly with small caliber bullets, wind is capable of blowing the bullet inches off course. Again it is necessary to compensate for this action.

If your rifle is equipped with an adjustable rear sight you need only to determine the amount of adjustment needed and the direction, and then turn the adjustment knobs the necessary amount. There is one basic rule to follow: **MOVE THE REAR SIGHT IN THE SAME DIRECTION YOU WANT TO MOVE YOUR SHOTS.**

Don't try sight adjustment until you have learned to put all your shots in a tight little group on the target. Then, if the group is not in the center you can correct the rifle's point of impact by adjusting the sights. Remember that a rifle is only as good as its sights—put the best ones you can afford on your gun.

(This instruction based on the booklet, "HOW TO SHOOT A RIFLE," published by The National Rifle Association, Washington, D. C.)

Know your gun and ammunition!

So this is HOUSEKEEPING
BY GIBBY STOUT

Frankly, I'm getting downright tired of the old joke about a bride not being able to balance a check-book. They try to make us out a bunch of below-average 6th graders. The real trick that takes some pretty smart figuring is to balance ever-changing fashions against the limited newlywed budget—or any budget for that matter!

Take, for instance, this business of spring and summer changeovers. The beautiful, sheer, dark hose we guarded with our lives all winter—O.U.T.; fashion says lighter hosiery tones are now in vogue. Dark-colored gloves O.U.T. And chances are that last summer's casuals look about ready for the scrap heap after sun-fading and laundering.

Excuse me while I adjust my nalo—I've found one sure-fire saving for reconversion time. In two words, dye it! Once the idea takes hold there's no limit to what you can do in sprucing up a bedraggled wardrobe. Hose to dark or odd stockings sitting forlornly in the drawer? Get 10-cent packages of color remover and stocking dye in any of six light tones and your hosiery question is solved with little outlay and amazing ease. Tintex home economics advisors point out that fast-acting-type color remover and stocking dyes need no boiling so the sheerest hosiery may be dyed with safety.

And here you are, Madam, a matching pair of gloves for every ensemble in your warm-weather wardrobe! Any of 50 colors in all-fabric dye will work marvels with white or light-colored gloves. Tintex, spotted, or dark gloves simply need the old color partially sken out then re-dyed to any shade you desire.

Down the line with last year's shorts, blouses, slacks, skirts and what have you, you may tintex to your heart's and purse's delight! All-fabric dyes work on anything from cotton to celanese and nylon.

The only problem left is how to get the male of the species to give us credit for adding up to a "Bark Avenue look on a bargain basement allowance!"

BULA CHURCH HOST TO WORKERS CONFERENCE

A West Plains Baptist Association Workers Conference will be held with the Bula Baptist Church Friday, June 24. The service will begin at 10 a.m. with a song service under direction of E. A. Bartles. Devotional will be led by D. C. Lindly. Rev. A. W. Blaine will speak at 10:30 on "Christ Puts Men Into the Ministry". I Tim.

"The Glorious Gospel of the Blessed God", will be the text for a talk by Wayne Perry. Special music will be by Dorothy Rosemary Leverett and Rev. Lee Hemphill will bring a message from II Timothy at 11:35. Lunch will be served by the host church. The executive board meeting will be held in the Methodist church, W.M.U. meeting in the Baptist church. Bruce Giles will bring a message whose theme will be "The Church the Pillow and ground of truth", I Tim.

Fighting Flies by the Factory-Full

PITTSBURGH, PA.—Dressed to kill in her own conception of work clothes (pedal pushers and sport shirt), Shirley Cullon demonstrates the newest scientific weapon for wholesale attack on insects. Using electrically-compressed air, the power sprayer she wields treats 250,000 cu. ft. against flying insects in less than half an hour. Developed by Gulf Oil research, it adapts the principle originated by the aerosol bomb to large-scale use in food industries. Its mist is non-toxic to humans, imparting no odor and leaving no residue.

From where I sit ... by Joe Marsh

Don't Fence Yourself In

Every spring, Handy Peterson and Easy Roberts patch up the stone wall that separates their farms. They walk along talking—Easy on one side, Handy on the other—picking up the fallen stones and putting them back.

Afterwards, over a friendly glass of beer, Easy says, "You know, wall-mending is a nice neighborly custom, but we really don't need that wall. We keep it up just because it happens to be there."

"Yes," says Handy, "a lot of walls and fences and boundaries keep on separating people for no good reason. Maybe we'd all be better off if some of them were torn down, instead of kept standing."

From where I sit, Handy said a mouthful. Take the "walls of intolerance" that people build up against each other. I like a temperate glass of beer now and then, you may prefer buttermilk—but that's no reason for me to criticize you, or you, me. Let's live and let-live together—making more friends and fewer "walls."

A Change is in Order...

Change to OIL-PLATING!

Safer! ... In your engine, Conoco Nth oil won't break down under heavy loads. It stands up under high temperatures and long hauls. Conoco Nth is sturdy as an ox!

Ready To Go! ... because an added ingredient in Conoco Nth attaches lubricant right to the metal. It won't all drain down—even overnight... your engine is actually OIL-PLATED!

Hoards Power! ... because another exclusive additive in Conoco Nth fights power-robbing carbon and sludge. Keep that hushed power with Conoco Nth.

Low Running Costs! ... because an engine OIL-PLATED with Conoco Nth lasts and lasts. You save on repair bills. You buy less oil between drains.

Oil-Plate today at your Conoco Mileage Merchant's!

Copyright 1949, Continental Oil Company

Just how high is
"HIGH COMPRESSION"
 ?

White sidewall tires, as illustrated, available at extra cost.

WHEN the talk turns to cars and car engines these days, that's a topic you hear much about.

So it's fairly interesting to note that, even back before the war, Buick engines like this one were touring the testing grounds with compressions as high as 10 to 1.

Even later than that this same big Buick power plant has been filling our engineers' notebooks with data on 8 to 1 compression ratios.

What has come out of this? Two or three interesting points.

First of all, that this big Buick Fireball valve-in-head straight-eight already has a compression ratio that

gets as much out of present fuels as any engine on the market.

Next, that these ratios can readily be stepped up to fit higher octane gasolines as they become available.

And probably most important of all, that high compression is only one measurement of a good engine.

There's the fundamental matter of engine efficiency—power output per cubic inch of displacement, engineers call it. On that score, Buick stands where it always has—just about tops in its field!

Which means, in very simple words—better go see for yourself.

The fun you get from your car—the pleasure and satisfaction it gives you—are best measured in just one place—behind the wheel.

So we invite you to see your Buick dealer for a firsthand test of Buick. Take it in your own two hands and find out how good it feels, how full of get-up-and-go.

It won't take long to make it pretty clear that the place to get your order in is the place where you get Buick power.

Progress Club Met In Maltby Home

Progress Home Demonstration Club met in the home of Mrs. G. T. Maltby May 31.

The meeting was opened by singing America.

The president had charge of the business meeting. All committees gave good reports.

A package has been sent to the adopted Holland family.

Mrs. Corrington gave a very interesting demonstration on the correct way to make a bed.

Delicious refreshments of cake and punch were served to ten members and three visitors.

WAD RAIN SUNDAY
Calvin Brock, who resides 4 miles east and 1 mile north of Lazbuddy, about 23 miles northeast of Muleshoe, reports a rain and hail fell at his place, beginning about sunset Sunday. He said his young cotton suffered considerable

Needmore Women's Club Met Tuesday

Mrs. Zeffa Shafer was hostess for the Needmore Womens Club Tuesday, June 14. Those present were mesdames: Pauline Chappell, Opal Dreadin, Helen Schmitz, Janie Lou Moraw, Janie Garth, Margie Barker, Virginia McKenzie, and a new member, Mrs. Fiddle Shafer, was hooked into joining.

Mrs. Mary Moore has visited our club the last two meetings, she drove all the way from Amarillo. (Don't we have a very interesting club?)

We had exchange gifts again, some very pretty aprons, dish towels etc. were brought. We voted to drop this type of entertainment for awhile.

We worked a little at this meeting. Rainfall was about .75 inch, he estimated. This is his first year to farm in this territory, the family having moved here from the Salt River Valley of Arizona.

ing, we covered a chair for our hostess, at least Janie Garth and Janie Moraw covered the chair while the rest of us gave much needed advice.

Our president appointed an entertainment committee of one, Mrs. Helen Schmitz was the victim. We also decided to give hostess gifts. We talked about initiating Mrs. Fiddle Shafer, our new member, but decided that just joining the club would be punishment enough.

Oh yes, we had refreshments too and they were delicious. We were all pleasantly surprised, we certainly hadn't expected a thing.

Mrs. Zeffa Shafer received her Birthday gift and Mrs. Virginia McKenzie received her Birthday and anniversary gift.

Games were played and gifts were given to the lucky winners. A real good time was had by all. Our next meeting will be at Mrs. Opal Dreadins Tuesday the 28.

VISITOR FROM DALLAS
Allen Holland, son of E. E. Holland visited here over the weekend with his father and Mrs. Holland.

MARRIAGE LICENSES
The following marriage licenses have been issued during June in the office of County Clerk M. G. Bass:

Marvin Bennie Porter and Jimmie Mae Wollard.

James R. Harris and Rosemary Healy.

Lewis Neal and Faye Warren. John Garland Glasscock and Audrey Fae Bennett.

L. C. Meeks and Mildred Marie Martin.

VISITING IN WENNER HOME
Pfc. Gilbert Wenner of Fort Lewis, Washington, and Ralph Wenner of San Diego, Calif., are visiting their parents here, Mr. and Mrs. F. L. Wenner.

CARD OF THANKS
We wish to express our sincere thanks and appreciation to the many friends and neighbors for the kind deeds, words of sympathy and the beautiful floral offering extended to us during our recent bereavement in the loss of our husband, father, son and brother.

Mrs. A. N. Arnn and family, Mrs. J. W. Arnn and family, J. G. Arnn and family, C. L. Baisden and family, Mrs. Nettie Tomson.

JAYCEES TO BANQUET HERE MONDAY NIGHT
A ladies night banquet for installation of officers of the Muleshoe Junior Chamber of Commerce is scheduled for the coming Monday night, June 20. Speakers are to be two well known Lubbock men.

The banquet will be at Fellowship Hall. Plates will be \$1.50 each and each JayCee is entitled to invite one other couple, preferably someone from the rural areas.

FISH AT MOUNTAINAIR
Mr. and Mrs. Herb Covin and Mr. and Mrs. Earl Ladd and sons finished over the weekend at Mountainair, N. M. They had cabins in the tourist court of Dick Blackshear, long time Muleshoe resident, former employee of the Southwestern Public Service Company here.

VISITS PARENTS HERE
Archie B. Pool, instructor of Vocational Metal Arts in Amarillo Senior High School, is attending college at A. & M. for six weeks. Mrs. Pool is visiting her parents, Mr. and Mrs. J. W. Haney while Mr. Pool is in school.

MOVE HERE FROM FLORIDA
Mr. and Mrs. H. C. Ludwig, of Tampa, Fla., are moving to Muleshoe to be near their daughter, Mrs. Johnny Sooter, who has been ill. They have a nice new home on the Sooter farm, west of Muleshoe. The Ludwicks had resided at Tampa since 1920.

DELEGATES TO ASSEMBLY
Joyce Gwyn and Bill Thomason, Muleshoe, were delegates to the annual summer assembly of the Northwest Texas Methodist youth fellowship, conducted June 6-11 on the campus of McMurry College, Abilene.

JIM JOHNSON ON TRACK TEAM AT NORTHWESTERN
Jim Johnson, Muleshoe boy who burned up the track in high school competition in the quarter mile run, is a member of this year's track team at Northwestern University, Evanston, Ill., according to a release from school authorities.

Johnson, who is a son of Mr. and Mrs. Fred Johnson of Muleshoe was awarded a freshman numeral, which corresponds to letters awarded upper classmen members of the squad.

GUESTS IN BARNETT HOME
Miss Joy McKnight of Hale Center, was a guest over the weekend in the home of Mr. and Mrs. C. A. Barnett.

VETERANS ONLY 100% HOME LOANS

WANTED—To Buy: A furnished house or furnished apartment, preferably in Lubbock, Texas. Write: Muleshoe Journal, Box 1, Muleshoe, Texas.

ON GEOLOGY TRIP
Raymond Bass, son of Mr. and Mrs. M. G. Bass is on a six weeks geology trip, with a class from Texas Tech, in the mountains near Las Vegas, N. M.

McKENZIE PARK, LUBBOCK
Mr. and Mrs. Olin Jennings, and her father Mr. Wood, and Mr. and Mrs. R. L. Fields, and daughter Doris Ann, were in Lubbock, Sunday where Mrs. Jennings and Mrs. Fields attending market and then had a picnic lunch and outing in the park.

VISITS IN TEXICO
Miss Polly Tapp spent Saturday night and Sunday in Texico.

VISITED DAUGHTER
Mrs. L. D. Taylor spent several days in Post, visiting her daughter, Mr. and Mrs. Cecil Osborn, Jr.

VISIT IN TAYLOR HOME
Visitors in the home of Mr. and Mrs. L. D. Taylor were Mrs. Taylor's niece and nephew, of Antelope.

CLOSE SATURDAY P. M.
The Bailey County courthouse will be closed at noon on Saturdays beginning June 18, according to announcement of the county judge's office. The rule will be in effect until October 1.

HOME FROM ANDREWS
Mr. and Mrs. Pat Bulloch have returned to Muleshoe, to make their home. Mr. Bulloch was in charge of the St. Clair store in Andrews.

HAVE NEW DAUGHTER
Mr. and Mrs. H. D. King are parents of a baby girl, born June 11, in Green Hospital & Clinic. She has been named Jeannie Dell.

HERE FROM HEREFORD
Mr. and Mrs. Ernest Kerr and little daughter, Pamela Ruth, were here Sunday to visit with Mrs. Kerr's parents, Mr. and Mrs. E. O. Baker.

VISIT IN LIPAN
Mrs. Herman Haberer, and her father and mother, Mr. and Mrs. Henry Angeley, attended the homecoming celebration in Lipan, and Mrs. Haberer gave the response address to the welcoming address.

MADE TRIP TO COLORADO
Mr. and Mrs. W. M. Pool Jr., visited over the weekend in Ordway, Colo., with their daughter, Mrs. David Jones, Mr. Jones and their children. The Pool's son, Carroll, who had been visiting his sister and family came back with them.

TO AMARILLO
Mr. and Mrs. Murrel Brown and little daughter, Kay, were in Amarillo Sunday for a visit with her parents. They had to have a trip to try out their new Plymouth.

FROM HOT SPRINGS, N. M.
Bobby Boles of Hot Springs, N. M., spent the weekend here with his sister, Mrs. C. W. Weeks and family, and visited other friends. He formerly lived here.

RETURN FROM VACATION
Mr. and Mrs. Hoyt Morgan and children returned Friday night from a visit in Arlington, with his parents, Mr. and Mrs. Edd. Morgan and they also visited his brother G. H. Morgan in Greenville.

GUESTS IN YOUNG HOME
Mr. and Mrs. Johnny Barlow and daughter of Cliff, N. M. returned to their home Saturday after spending several days in the home of Mr. and Mrs. W. E. Young.

PLANNED BY FOURTH ARMY SALUTE TO RED CROSS
"A Salute to the Red Cross" will be staged by air Friday, June 17, at 9:45 p. m. over station WOAI, San Antonio, 1200 on the dial. Parents, relatives, and friends of Fourth Army personnel will be especially interested in hearing this broadcast, it is believed. A Fort Sam Houston officer will give a five minute talk on functions of the Red Cross and the Fourth Army Band will play special Red Cross musical selections including "The Angel of Mercy."

AFTER 55 YEARS
Mrs. S. E. Carson has returned to her home in El Paso after visiting here with the families of her uncles, D. J. and George Harris, whom she had not seen in 55 years.

The Congressman's wife set up in bed, a startled look on her face. "Jim," she whispered, "there's a robber in the house."

"Impossible," was her husband's sleepy reply. "In the Senate, yes, but in the house, never."

ATTEND REUNION
Mrs. Irvin St. Clair and Mrs. Pat Bulloch returned Tuesday from Lipan, where they attended the family reunion of the T. D. Stell family and the homecoming celebration in Lipan. There were about sixty-five members of the family present for the occasion.

The average rural school is open 142 days in the year.

James Hargreaves in 1767 invented the spinning machine and called it a jenny.
