two nominees. Bush, who spent his youth in Mas-sachusetts and Connecticut and was educated in the Northeast, is a key element in that strategy.

Accepting the presidential nomination he had sought for 12 years, Reagan expressed his strategy with a speech that called on Americans to cross party lines "to build a new consensus with all those across the land who share a community of values embodied in these words: family, work, neighborhood, peace and freedom.

A moment later, Reagan opened his eyes, jerked his head upright and said, "God bless America." The delegates erupted into a tumultuous demonstration

Reagan, Bush and their families stood on the podium waving to the joyful throng. Joining the 1980 Republican ticket on the podium was former President Gerald R. Ford and his wife, Betty.

All day Wednesday, even through the balloting that gave him the presidential nomination, Reagan had sought a way to convince Ford to take the vice presidential nomination and when the negotiations failed settled on Bush as his choice and made a dramatic midnight appearance before the convention to announce it.

Ford said in a broadcast interview early today that he and Reagan had "almost made it" in their negotiations to make him th

the night before. It was a happy show staged by a party confident it had named a strong ticket and buoyed by polls showing Reagan with a substantial lead over President Carter.

Bush, Reagan's former rival and now running mate, warned Republicans that "though Jimmy Carter has in the past four years been a failed president, he is a formidable campaigner who can be expected to use the power of his office to suit his own political ends...

"Remember only that political victories are won by hard dedicated work - and that in this crucial election year, the stakes for America and the free world are too great to allow ourselves to become complacent."

Attempting to tie down loose ends of potential dissent, Reagan and his campaign managers agreed to give Sen. Jesse Helms of North Carolina, an arch conservative unhappy with the choice of Bush, a chance to ad-

Decrease may be \$1 a barrel

NEW YORK (AP) - Iran was reported today to have cut the price of six grades of crude oil by as much as \$1 a barrel, making it the first Organization of Petroleum Exporting Countries member to announce a reduction since an escalation of world oil prices began 11/2 years

The industry newsletter Petroleum Intelligence Weekly said it had been notified of the cuts by the National Iranian Oil Co.

The reduction was attributed by industry sources to the growing surplus of oil on world markets - a result of a more than doubling of petroleum prices since the Iranian revolution at the end of 1978 and the onset of a recession in the United States and other industrial nations.

The cut was not expected to trigger a round of OPEC oil-price reductions because Iran for several months has been pricing its oil as much as \$7 per 42-gallon barrel above comparable grades sold by other OPEC members.

According to Petroleum Intelligence Weekly, Iran reduced its Ferreidon grade of oil to \$33.57 a barrel from \$34.07, while its Ardeshire grade dropped \$1 to \$32.37. The oils still sell for \$1 a barrel above similar grades from other producers, however.

The U.S. Energy Department estimates the world price of oil at \$31.97 a barrel, 3 cents under the maximum price OPEC has set for its base grade.

Saudi Arabia, OPEC's largest member, sells its oil for \$28. The Saudi oil traditionally has been the benchmark on which other cartel prices are set, but Saudi Arabia has been underselling Iran and other OPEC members since spring.

The policy has been seen as a move to unify the chaotic OPEC price schedule as world oil markets cool, and there has been widespread speculation that the Saudis might raise their price nearer the official cartel base in coming weeks.

The oil involved in the Iranian price reductions comes from offshore wells and historically has accounted for as much as 20 pecent of Iranian oil output. But firm data have been lacking in the disarray following the country's revolution and sharp cutback in petroleum production.

Iran has maintained its oil exports are 1 million barrels a day - 20 percent of its pre-revolution level - but other reports have put Iranian exports at 700,000 barrels daily, up from 500,000 two months ago.

Midland's water supply holding up, despite heat

By SUSAN BAKER Staff Writer

Although many other Texas cities are facing problems meeting water supply demands because of the continuing heat wave, Midland is apparently handling the situation well despite a record-breaking daily water consumption rate.

Most of the major water-supplying reservoirs in Texas are in fairly good shape, according to a statement by Dr. Herbert Grubb, director of the planning and development division of the Texas Department of Water Resources.

coat of

ditional

S

FF

However, many major cities are having trouble meeting water demands because of a lack of adequeate pumping capacity rather than a water shortage, he said. Smaller cities and suburban areas also are having difficulty because many do not have dependable reservoirs or receive ground water from shallow aquifers that are not being recharged because of the dry spell.

Neither problem applies to Midland, though, which receives its summer water supply both from reservoirs and two ample city-owned well fields.

"We're running at a record pace, far above what we're used to experiencing this time of year," said John Lowe, city director of utilities. Midland consumers are using about 31 million gallons of water a day, some 5 million gallons higher on the average than the normal consumption rate.

"We're not having any trouble

keeping up with the demand. though," Lowe said. The city's contract with the Colorado River Municipal Water District provides 11 million gallons daily from Lake Spence near Robert Lee and Lake Thomas near Snyder, and the remainder of the demand is supplied by the two well fields.

The Paul Davis field, located 26 miles north of Midland on the Lamesa highway, provides about 19 million

Boston attorney Jeffrey Denner said that unsuccessful suits filed in Washington and Philadelpia were based on narrow grounds, but that his suit challenges registration on the basis of age and sex discrimination. Arguments on the suit were scheduled for today.

Reyes told the Washington news conference Thursday that a "mandatory draft or any type of compulsory national service strikes at the very heart of individual liberty."

He speculated that as many as 250, 000 to 500,000 young men will refuse to register. Those figures, he said, are based on the experience of the Vietnam era.

Reagan closed his acceptance speech by urging the delegates to 'begin our crusade with a moment of silence." With that, he bowed his head, his eyes closed. The hall fell

'We'll whip them all over' — Carter

HOLLYWOOD, Fla. (AP) - President Carter, throwing his hardest punches yet in the early rounds of the fall political slugfest, says Republicans offer narrow vision and simplistic solutions, and "We will whip the Republicans all over our great nation" in November.

Campaigning in Florida even before the final gavel had fallen at the Republican National Convention in Detroit, Carter lost no opportunity to take both subtle and direct jabs at newly crowned GOP presidential nominee Ronald Reagan.

And even with his own expected renomination still subject to the Democratic National Convention in New York next month, Carter challenged Reagan to a series of debates. The challenger quickly accepted.

In an appearance here and in Jacksonville before returning to the White House late Thursday night, the president mentioned Reagan by name just once - while calling the former California governor's tax cut proposal inflationary. At the same time, however, Carter all but promised a tax reduction program of his own next year.

Carter said the GOP is a party that opposes Social Security, the minimum wage, Medicare; the party that brought us the disgrace of Watergate.

By contrast, he said, Democrats represent "compassion and courage" and don't try to avoid controver issues. And, borrowing from t tional Republican themes, Ca stressed his own commitment to fense, "peace through strength,' his opposition to a "free lunch" those able to work.

The president said the GOP w party "with a narrow vision, w leaders are inclined to shoot from hip, a party that will be defeate November if Democrats in an ho way present their record to American people."

The president's "shoot from hip" comment and another refer to the political risks Carter too supporting the Panama Canal ties both seemed aimed at Real who opposed the treaties and has accused of using figures without p er attribution.

The president arrived here Sapelo Island, Ga., where he spent the week fishing and relax tial candidate and might have succeeded if they'd had more time.

"We had a number of very, very constructive meetings but the reasons I think are understandable and it just wouldn't fit," Ford said in the interview with the Mutual Broadcasting System.

Thursday's final session of the convention had none of the high drama of

ples.' Sen. Bob Dole of Kansas placed Bush's name in nomination and told the delegates "this is not a time to stress our differences; this is a time to stress agreement.'

And one of the earliest references in Reagan's acceptance speech was directed at supporters of the Equal Rights Amendment, many of them bitterly disappointed by the candidate's opposition to the amendment and to the decision of the platform committee to drop party support for

"As president I will establish a liaison with the 50 governors to encourage them to eliminate, wherever it exists, discrimination against women," said the candidate.

In addition to its appeal to a new coalition, Reagan's speech was a restatement of familiar campaign positions and attacks on President Carter and a government he called "overgrown and overweight."

"I will not stand by and watch this great country destroy itself under mediocre leadership that drifts from one crisis to the next, eroding our national will and purpose," said Reagan.

He restated his pledge "to impose an immediate and thorough freeze on federal hiring" as his first act as president.

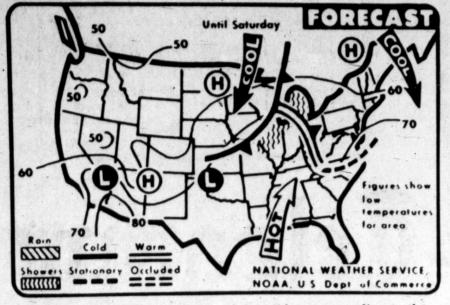

"We are taxing ourselves into economic exhaustion and stagnation" he said and went on to call for enactment of the across-the-board tax cuts that he has made a keystone of his economic program.

Reagan political aides involved in planning the campaign in the major industrial states of the Northeast and Midwest appeared delighted with the choice of Bush for second spot on the ticket.

Anderson wins victory on ballot

THE MIDLAND REPORTER-TELEGRAM, FRI., JULY 18, 1980

COLUMBUS, Ohio (AP) - U.S. Rep. John B. Anderson, R-Ill., has notched another victory in his drive for a nationwide independent presidential bid on the Nov. 4 ballot.

U.S. District Judge Robert M. Duncan ruled Thursday that an Ohio election law is unconstitutional because it fixes the filing deadline for independent candidates at 75 days before a primary. He said it discriminates against independent candidates because major party candidates are not nominated until late in the summer. Duncan ordered Secretary of State

Anthony J. Celebrezze Jr., Ohio's chief election officer, to accept Anderson's petitions for a place on the ballot. If Anderson meets other qualifications, Duncan said the candidate's name should be on the ballot for the election.

Celebrezze and Anderson were out of the country and unavailable for comment. Anderson is in London, ending an 11-day visit to leaders of several foreign nations. Celebrezze, a Democrat, is traveling in the west African nation of Senegal with Vice President Walter Mondale.

Celebrezze was named defendant in the suit, which Anderson filed after being rejected May 16 for a ballot position.

Anderson announced last April that he would withdraw from the Republi-09 81 cm 1 63 clr 5 71 15 cdy 2 60 cdy 83 62 69 cdy 76 53 clr 83 66 02 cd 78 48 cd 89 76 01 c 104 77 c 93 64 92 70 101 79 110 82 106 74 0' 88 65 93 68 104 81 84 78 can race and become an independent candidate. It was already too late for him to try for a spot as an independent on the Ohio ballot because of the state's filing deadline of March 20.

It was the second recent boost to Anderson's candidacy. A New Mexico court ruled in his favor last week, and he is now on the ballot in eight states. The others are Kansas, West Virginia, Massachusetts, New Jersey, North Carolina and Utah. He has suits pending in Maine, Maryland and Ken-

Unidentified youths are handcuffed and arrested

MIAMI (AP) - Driving rain brought quiet to the streets of Liberty City for the first time in three days, as police enforced a curfew and 400 National Guardsmen stood by as a "precautionary measure."

County officials declared a "state of emergency" at a two-square-mile area around Dade County's largest low-income, public housing project. They ordered a temporary ban on sales and public displays of firearms, on sales of gasoline other than that put directly into fuel tanks and on carrying alcoholic beverages in pub-

a.m. curfew. The National Guardsmen, called up by Gov. Bob Graham as a "precautionary measure," spent the night in Dade County armories. Graham also put 50 Florida Highway Patrol troopers on alert.

By 4 a.m., 29 arrests had been made within the sealed-off area, mostly for curfew violations, said police spokesman Tom Banks. Several people also were charged with carrying concealed weapons. All of those arrested were black, Banks added.

"Otherwise, it's very, very quiet. In fact, we're sending some units back to their regular districts," he said.

Early Thursday, eight black youths were arrested and charged with armed robbery after a school bus was commandeered.

At least 35 persons have been hospitalized with injuries stemming from the disturbances, which occurred in the same area as three days of racial rioting in May that took 18 lives. But police believe the latest disturbances can be traced to young black hoodlums and are not necessarily motivated by racial concerns.

Robert Dempsey, acting director of the Dade Public Safety Department, said the curfew would be in effect at least through Saturday night.

During a campaign stop in Hollywood, just outside Miami, President Carter urged residents of Liberty City to help police keep order and said this is "certainly no time for violence."

robbery suspects. "I feel that the individuals causing the trouble know that we're probably out in strong force tonight and are going to enforce the law," said patrolman Fred Stedtler. "I think the men are tired, but spirits are up now.'

Two women were wounded in separate shootings early Thursday and blacks and whites alike were victimized by random snipings and stonings overnight. A community day care center and health clinic were vandalized and ransacked.

In the school bus incident, the eight youths were arrested when three Metro officers stopped the bus after noticing something wrong on it. No one was hurt.

MMH directors approve ambulatory surgery plan

By SUE FAHLGREN Staff Writer

Midland Memorial Hospital Board of Directors officially approved the ambulatory surgery program, scheduled to begin as early as next week but not officially until Aug. 1, Thursday at its monthly board meeting.

The new program will allow patients to have "same day," or one-day surgeries at the hospital.

"The same day surgery concept has a great deal of advantages to us as well as the patient," acting operations administrator Bob, Bash explained to the board. "We can reduce the cost - with a little planning and scheduling."

Bash said such things as lab work, X-rays and other preparations for the surgery could be done on an outpatient-type basis the day before surgery. Forms and admission papers could also be done in advance.

Two other advantages to the new program, Bash explained, would be the hospital could "schedule and staff the unit for 12 hours instead of 24." and it could "delay some admissions when the hospital was completely full.'

Water supply in Midland holding up

(Continued from Page 1A)

ing the summer, the well provides about five million gallons daily.

Demand on the wells is much lower in the winter, with the CRMWD providing 6½ percent more water than in the summer. "It's like a bell curve," Lowe said. "Water consumption is just naturally lower in the winter and very high in the summer. The wells keep us in balance."

The well fields are in no danger of going dry, even with present consumption rates, he said. Only about a quarter of the available supply has been depleted in the Paul Davis field.

"It's just like any other mining operation — if you use them (the wells) hard enough long enough, you're going to pump all the water out," Lowe said. However, no problems are anticipated for this summer or even next summer, and the city has not made any conservation plans or requests for rationing, he said.

"We think this unit offers some real advantages to the patients," Bash said.

Board president E.H. Magruder echoed Bash, saying, "If we can cut the cost to the patient, that's what we want to do.

However, Bash said, "I assume the major constraint we'll have will be the operating room scheduling (in advance).

In other board news, Robert Abernethy, administrative assistant of finances, reported some headway was being made in determining why certain areas of the hospital were reporting large monthly deficts from the budget.

Board member Thomas Ingram said he thought it was important that the hospital find out what was happening to the budget. "We're losing money and we don't know why," Ingram said. "I think all these people out on the street are going to wonder why we're losing their money for them

Briefly, Abernethy explained thatthe hospital's new computer system, installed less than a year ago, has increased itemization of the budget. Several items, which had not previously been included in the budget, are now being itemized.

For instance, this month the finance committee found it had not been allowing for some \$24,000 a month for prostheses and sutures for the surgery department.

"We're looking at every depart-ment," Abernethy said later. "We're not really picking on surgery." He called the problem "bad budgeting." which he said "maybe reflects on me, not on them."

Abernethy said because orthopedic surgery "has grown significantly" and items such as false limbs need to be purchased in advance of need, expense figures for these items do not reflect increased use or abuse of funds.

"When you get right down to it," Abernethy said, "we have just blown our budget." And, he said, he expected the hospital will "still have problems" with the budget next fiscal year as it is still in the "conversion stage" to the new computer system.

The increased itemization will become an assest later, he said, and should be greatly reflected in the 1982 budget.

In other matters, the board approved the purchase of a new patient monitor, a mass film viewing machine, an operations table, a C-arm intensifier, a monitor difibrellator and a van for the blood bank.

The steep decline in quarters.

year. Moreover, signs of industrial lag continue with production at the nation's factories expected to continue declining for several more months. The Commerce De-

partment reported that before adjustment for inflation, the nation's output from April through June stood at an annual rate just exceeding \$2.52 trillion, slightly above record reading of 62 set the first quarter level.

Cigarette blamed for Thursday fire

Saturday.

in 1955.

A burning cigarette is thought to have been the cause of a grassfire at 4:30 p.m. Thursday off Interstate 20, between Lamesa Road and F.M. 715, according to Central Fire Department reports. No other damage was reported.

In another grassfire on I-20 near Garden City Highway, firefighters dispensed 75 gallons of water about 8:15 a.m. to extinguish the blaze.

Before 5 p.m., firefighters were called to 101 S. Dallas Ave, where a man was welding and apparently got too close to an oxygen tank. The oxygen/acetelyene fire was extinguish with water in 18 minutes.

A car fire in the 600 block of E. Florida just before 9 p.m. was already out by the time firefighters arrived at the scene, CFD reports indicate. The fire in the 1977 Chevrolet, believed to be the result of cleaning fluid on a hot motor, left some damage to the car's wiring.

In other news, firefighters put out a dumpster fire in the 2800 block of Moss Avenue shortly after 11 p.m. and made six medical runs resulting in the transport of victims to Midland Memorial Hospital emergency room.

when the gross national product fell at an annual rate of 9.1 percent in the first quarter of 1975.

Miners resist coup in Bolivia Koberts Lopper Pot

LA PAZ, Bolivia (AP) - The military chiefs who overthrew Bolivia's civilian government to block election of a leftist president sent tanks and troops to the tin-mining region today to confront armed workers challenging the latest coup.

Radio stations controlled by the miners' union said military forces were moving toward the Huanuni and Siglo Veinte districts 180 miles south of La Paz, where 5,000 miners with submachine guns blocked roads with trucks and dynamite charges.

"WE ARE GOING TO RESIST the coup until the ultimate consequences," a broadcast said after troops and paramilitary forces escorted interim President Lidia Gueiler and 17 aides from the government palace Thursday and drove them away in army vehicles.

"It is my duty to avoid painful days for my people...God save Bolivia," Mrs. Gueiler wrote in her resignation letter, a junta spokeswoman said in a televised broadcast early today. An unconfirmed report said Mrs. Gueiler-was deported to Chile or

THE NEW RULING JUNTA of three armed service commanders, announcing it had accepted Mrs. Gueiler's resignation, declared last month's presidential and congressional election fraudulent, annulled the outcome of the vote and pledged a purge of leftists in political parties and labor unions.

It ordered a dusk-to-dawn curfew, arrested hundreds of persons, surrounded foreign embassies to keep its opponents from taking asylum and deployed tanks and armored personnel carriers throughout La Paz to combat students and other civilians who built barricades and waved placards reading "Death to the Fascist Coupmakers" and "Long Live the Bolivian Labor Federa-

WITNESSES SAID THE FEDERATION'S leader, Gualberto Vera, was killed and Socialist Party chief Marcelo Quiroga Santa Cruz wounded when armed civilians supporting the coup stormed the union headquarters to break up a meeting that called for a general strike to protest the takeover. The coup had been widely predicted since leftist former Presi-

dent Hernan Siles Zuazo led the field in the presidential election last month. He and former President Victor Paz Estenssoro, who ran second, were both reported in hiding.

It was Bolivia's 189th coup in 155 years of independence and the latest setback to an effort backed by the U.S. government to restore democratic civilian rule after the fall of a seven-year military dictatorship in 1978. Thursday night, the Carter administration cut off military aid and said it would commit no new economic assistance to the Bolivian junta.

A COUP BY ARMY COL. ALBERTO Natusch last November met such civilian resistance that the military had to back down after a bloody 16 days in which more than 200 people were killed. A temporary civilian government was formed by Mrs. Gueiler, who was then president of Congress.

She insisted on new elections and stuck to the commitment despite pressure from the armed forces to postpone them. In the balloting June 29, Siles Zuazo got 34 percent of the vote but needed a majority for election. The new Congress was to decide the winner on Aug. 6, and it was expected to elect Siles Zuazo.

over government offices in Trinidad, 300 miles north of La Paz, and urged the high command to take over the government and nullify the results of the presidential election. The takeover spread to Santa Cruz, Bolvia's second city

several La Paz radio stations, and about 20 of them entered the presidential palace and seized Mrs. Gueiler and her aides.

The military radio station announced formation of a junta made up of the heads of the three armed forces: Gen. Luis Garcia Meza of the army, Gen. Waldo Bernal Pereira of the air force and Adm. Ramiro Tarrazas. It said they would decide which one of them would be president.

solidify the strong American-Japanese ties formed by his predecessor, Masayoshi Ohira, who died June 12 of a heart attack.

Suzuki said the selection of Masayoshi Ito, former chief cabinet secretary and close aide to Ohira, as foreign minister was "a concrete demonstration" of this policy.

As for pressure from the Carter administration to boost defense spending, Suzuki told reporters "It is only natural that we make an effort to improve military equipment.

The new prime minister said he was "not overly concerned" about repercussions from Japan's heavy automobile exports to the United States, a practice that has generated serious tensions in bilateral relations because of its impact on the ailing American auto industry.

Japanese auto makers' expressed willingness to consider building manufacturing plants in the United States or to set up agreements with American companies.

Suzuki said U.S. demands that the Nippon Telegraph and Telephone Public Corp. open up equipment contracts to American bidders was, however, "a government problem that must be dealt with." Japan had promised to settle that controversy before the end of the year, he said, but "there is no reason to wait that long. The issue should be solved as soon as possible."

TOKYO (AP) — Prime Minister Zenko Suzuki said today that relations with the United States are "pivotal" to Japan and that he will try to keep them close by improving Japanese defense forces and

resolving trade frictions as quickly as possible. Relations with China were also good, but those with the Soviet Union had deteriorated and were

"not warm," Suzuki said in his first news conference since being chosen prime minister Thursday by

DEATHS Neal McDonald

SAN ANGELO - Graveside serices for Neal Evans McDonald, 72, of San Angelo and formerly of Lamesa, will be at 9 a.m. Saturday in Fair-mount Cemetery with Odell Kirby and Paul Shero, ministers of Colorado and Jackson Street Church of Christ, officiating. Arrangements are being handled by Robert Massie Funeral

He died Thursday in a San'Angelo ospital.

McDonald was born Feb. 19, 1908, in Lamesa. He had been a resident of San Angelo for 42 years and was owner and operator of Neal McDonald Insurance Agency. He was a gradu-ate of The University of Texas and a charter member of the Optimist Club, honored as Optimist of the Year in 1953. He was a member of the Colorado and Jackson Street Church of Christ.

Survivors include his wife, two sisters and three brothers.

Wesley Edwards

COLORADO CITY - Services for Wesley Allen Edwards, 66, of Colorado City and formerly of Midland, were Tuesday in Kiker-Seale Funeral Chapel here, with the Rev. Bob Man-ning of the First Baptist Church of Westbrook officiating. Burial was in Fairview Cemetery in Midland.

He died Monday in a Colorado City hospital following a long illness.

Edwards was born March 19, 1914 in Merkle, and was married to Arlie Ware in 1946 in Midland. She died in 1970. He was married to Irene Read June 26, 1976 in Westbrook.

He had been a member of the Midland Fire Department for 21 years, and a bus driver in Midland for five years, moving from Midland to Colorado City in 1976. He was a member of the Methodist Church and was a World War II veteran.

Survivors include his wife; six daughters, Laura Brady and Lou Jones, both of Midland, Sue Dilbeck of Odessa, Jeanette Duffer of Big Spring, Claudine Riffie of Forsan, and Christine Ware of Westbrook; a sister, Lucille Moore of Midland; a brother, Jay Edwards of Midland; and 13 grandchildren.

Board delays action on center president

What started out to be routine approval of constitutional resolutions during a Wednesday board meeting for the Permian Basin Center for Battered Women and Their Children ended with tabling a resolution to remove board president Sue Ste-

Board member Ralph Noyes, an attorney with West Texas Legal Services, presented the resolution which listed various accusations against Mrs. Ste-Mrs. Stephens responded to the accusations by saying "The accusations are quite ridiculous. I have not done any of these things and it is up to this board to make a decision. Board treasurer Chris Valdez voiced her support f Stephens, saying, "I haven't been a board memer very long and I was a volunteer before that. During the time we have been in this new shelter, I aven't seen you all here," she said to the other oard members. At that point, acting chairman Ruby Freeman, hom Stephens asked prior to the meeting to act as hairman, announced the resolution had been tabled and would be voted on at the 7:30 p.m. meeting Vednesday.

Lyle Galbraith

Lyle L. Galbraith, 68, of 2104 Culver St., died Wednesday in his home.

Services were to be today at 2 p.m. in the First Christian Church with the Rev. Steve Church officiating. Burial was to be in Resthaven Memorial Park under the direction of Newnie W. Ellis Funeral Home.

Pallbearers were to be Joe Cleary, Fred Sides, Jim Sadler, John Scott Alcorn, Melvin McEwen and Richard L. Robinson.

Honorary pallbearers were to be Jack James, Val C. Collier, P.M. Broach of San Antonio, Charlie Palmer, Glenn Riley, Bill Masterson of Odessa, Chester Deveny of Denver City and Walter Tucker of San Anto-

Augusta Spillman

Services for Augusta Spillman, 76, 1622 E. Oak Ave., will be at 11 a.m. Saturday in Zion Hills Baptist Church in Marlin. Burial will be in Falls County Cemetery in Marlin directed by Paul Funeral Home. Local arrangements were handled by Roscoe V. Jackson Mortuary.

Mrs. Spillman died Monday in a doctor's office while under a physician's care.

She was born Sept. 4, 1903, in Marlin. Mrs. Spillman was a Midland resident for 20 years. She was a housewife and a member of Mount Rose Baptist Church. Survivors include a son, Robert

Moore of Midland, eight grandchildren and 13 great-grandchildren.

Xetta Buffington

Services for Xetta Buffington, 80, of 4412 W. Cuthbert Ave., were at 2 p.m. Thursday in the Westside Church of Christ with Owen Cosgrove officiating. Burial was in Fairview Cemetery directed by Newnie W. Ellis Funeral Home.

Mrs. Buffington died Tuesday in a Midland hospital following an extended illness.

Pallbearers were Bill Campbell, David Campbell, Steve Campbell, John Campbell and James Campbell

Justice, Energy departments say oil firms innocent in gas shortage

WASHINGTON (AP) - Last summer's long and sweltering lines at service stations weren't the result of any conspiracy by oil companies to force up the price of gasoline, two government agencies report.

Instead, they say, the gas shortages that left Americans fuming in sometimes blocks-long lines at the pumps came about because of a combination of other factors, including loss of oil from revolution-torn Iran, bad weather that hurt U.S. production and Energy Department regulations that control allocation of fuel.

The dual reports from the Justice and Energy departments were prepared on order of President Carter, who asked for the probes of oil company actions in the wake of the summer shortages.

The Justice Department said it found no violations of federal antitrust laws and no further investigation was needed. However, the Energy Department said one reason for the shortage was that some oil companies diverted — legally — oil that might have been refined for gasoline into the petrochemical industry.

The Energy Department said that for some refiners. "the shift towards petrochemicals may have been motivated by profit considerations ... since the petrochemicals industry is willing to pay more ... than the gasoline consumer." It added that "it may also be significant that some of the large oil companies also own petrochemical companies.

The Justice Department said it found gasoline supplies during the first nine months of 1979 averaged about 463,000 barrels a day less than predicted. It said about 62 percent of the shortage was caused by reduced imports, 22 percent by reduced refinery yields of gasoline and 16 percent by reduced U.S. crude oil production

The Justice Department said the Iranian oil cutback was largely responsible and that its investigators found no reason to believe that oil companies diverted oil to other countries or slowed the movement of tankers toward U.S. ports. It also cited possible inaccuracies in original production forecasts and "the impact of regulatory uncertainty on drilling activities."

Canada gives go-ahead on gas line

Pierre Elliott Trudeau's government has given the go-ahead for construction of the 450-mile Canadian section of a pipeline that eventually will carry natural gas on a 3,600-mile journey from fields at Alaska's Prudhoe Bay to markets in the lower 48 American states. The decision, announced Thursday

in the House of Commons, means

OTTAWA (AP) - Prime Minister natural gas from Canadian fields in Alberta is likely to start flowing to U.S. markets by early next year, some four years before the target date for completion of the entire \$20 billion project, billed as the largest civil engineering feat ever undertak-

> Construction on the Canadian section of the line, with an estimated price tag of \$8 billion, is expected to

begin next month. Work on the U.S. portions of the line reportedly has been stalled by delays in the U.S. regulatory process.

"I do not believe there can be any doubt that our national interest lies in proceeding with this important undertaking at the earliest possible date," said Sen. Bud Olson, the Liberal Party minister responsible for construction of the pipeline.

State allowable holds at 100 percent

AUSTIN, Texas (AP) — The Texas Railroad Commission today set a 100 percent oil production factor for August. As usual an 86 percent allowable rate was set on the East Texas Field to prevent possible waste.

The production factor has been at 100 percent in most of the state every month except three since April 1972. Nominations by major purchasers of Texas crude oil for August totaled 2,620,890 barrels a day, a decrease of 9,346 barrels daily from July.

Commission Chairman John Poerner said crude and petroleum imports into the United States averaged 6,458,000 barrels a day for the four weeks ending July 4, a decrease of 1,421,000 barrels a day from the same period of 1979.

Here are the nominations by major buyers for August, in barrels per day, with any change from July in perentheses: Amoco 242,500 (up 2,500)

By JOHN CUNNIFF AP Business Analyst

NEW YORK (AP) — While politicians promise to get the country moving again, the present reality for America's millions is the recognition that progress has all but stopped in many areas of their life.

Economic progress, at least. Incomes aren't growing enough to make much difference. Millions are shut out of the housing markets. Debt limits have been reached. Living standards have been forced lower.

Moreover, say some of those who poll consumer feelings, the repeated failure of the nation to do very much about its problems has eroded confidence, the very confidence needed to get things done.

It now takes \$20,187 pre-tax income for a family of four to equal in buying power the \$10,000 income of 1970, the Conference Board reports. And \$3,408 of that is in federal income and Social Security taxes.

Nevertheless, there seems to be a common perception that government is failing to fulfill its part of the bargain, and among those who complain are recipients of greatly increased Social Security benefits.

A sense of insecurity seems to prevail about the Social Security system. The threat of eventual if not immediate collapse is the theme of repeated commentaries in the media and among pension consultants.

If, asks one of them, the Social Security system were operated like a private pension plan, how much would have to be in its fund to pay all benefits earned to date by currently employed and retired people?

The correct answer, according to Hay Associates, a consulting group, is \$3.75 trillion, an amount equal to 60 percent of the net worth of U.S. households, or almost fives times the national debt.

In contrast, it points out, the system's actual reserves total just \$30 billion. It operates on a pay-as-you-go plan, in which dollars coming in are simply paid out - rather than being invested for growth.

The country's inability to do much about another central problem, that of inflation, has clearly discouraged millions of people, as documented in surveys of consumer intentions and of actual buying patterns.

Despite their daily experience with it, inflation is still very much a mystery to both professional and amateur observers. And if you don't understand it, how can you solve it?

Most consumers, for example, seem to believe that food prices are at the top of the inflation list when, in fact, such items as potatoes, eggs, milk, chicken and white bread have risen much less than the CPI. It seems likely also that most people would put

rents, gasoline prices and the price tags of automobiles high on the inflation list. But a University of Chicago professor claims that all have been falling. Apartment rents, says Prof. Roger C. Kormendi,

are actually lower than they were in 1948, and have been declining since 1964.

On what basis? They're lower when related to other prices in the same period. Or, alternatively, when measured by the number of hours one must work to pay the rent.

On these bases, Kormendi insists that gasoline prices in 1977 were lower than in 1947, and he says that relative car prices have been dropping fast since a post-war high in the years 1958 and 1959.

Whatever, the net impact is to make some people feel that they and their institutions are going nowhere, except perhaps into reverse. If, after a decade of dealing with crises in personal, institutional and governmental budgets, the problems aren't even fully understood, it isn't any mystery why so many sense a lack of progress.

FORT WORTH, Texas (AP) — Cattle: estimated receipts 3,000 compared with 1,784 last week and 2,023 last year. Com-pared with last week, slaughter cows 2,00-4,00 lower. Slaughter buils 1,00 lower in short supply. Feeder steers fully 4,00 lower, however finding broad outlets. Steer calves 4,00-6,00 lower, instances 8,00 lower on fieshy calves. Feeder heifers 2,00-5,00 lower, full downturn on late rounds. De-mand moderate, trading fairly active. Run includes around 18-20 slaughter cows and buils, balance mostly feeders. Slaughter cows: utility 2-3, 37,00-42,00; cutter 35,00-40,00, few early sales up to 42,00. 42.00. Slaughter bulls: yield grade 1-2, 1250-1850 Staughter outils: yield grade 1-2, 1230-1830 Ib. 51.00-54.00. Feeder steers: Medium frame 1: 300-400 lbs., 75.00-81.00; 400-500 lbs., 70.00-77.00; 500-600 lbs., 69.00-73.50; 600-700 lbs., 61.00-65.50. Large frame 1: 300-400 lbs., 73.00-82.00; 400-500 lbs., 69.00-73.50; 500-600 lbs., 65.00-71.25; 600-850 lbs., 61.00-66.00. Small frame 1: 400-500 lbs., 70.00-75.60. Marine guilty in pigpen incident

NEW RIVER AIR STATION, N.C. (AP) - A Camp Geiger marine private has been sentenced to 30 days hard labor and a reduction in rank for refusing to seach for military silverware at a pig farm.

A five-man military jury deliberated for only 30 minutes Wednesday before finding Marine Pfc. Scott Duncan, 18, guilty and ordering him confined at nearby Camp Lejeune. The jury also reduced Duncan's rank from private first class to private, and ordered his pay cut by \$291 a month for four months

The conviction will automatically be appealed to Maj. Anthony Zinni, the convening authority for the court-martial and Duncan's commanding officer. Zinni could reduce the sentence, but there was no indication Wednesday when he would make a decision.

An appeal also may go to the Naval staff judge advocate.

Earlier Wednesday, the jury found Duncan guilty of willful disobedience in the case. But it found him innocent of a second charge of disrepect to a commissioned officer, which stemmed from the pig farm incident. He was found guilty of an unrelated charge of using provoking language and obscene gestures. The charges stem from a Marine contract with an

Onslow County pig farmer, William Kearney, who buys leftover food from the Camp Geiger mess hall and feeds it to his pigs.

Men assigned to mess-hall duty traditionally have been required to go to the pig farm to check the food for discarded military silverware. Duncan, saying the practice was unhealthy, refused to go.

The Marine Corps has stopped the practice since the incident.

A second marine, Pfc. Dana Gidney, 20, of Buffalo, N.Y., also faces charges in the June 10 incident.
