Two injured fighting fire

Four-alarm blaze strikes building site

FORT WORTH (AP) — Two firefighters suffered minor injuries Tuesday as they battled a four-alarm blaze at a parking garage under construction in Fort Worth.

One firefighter suffered a slight leg injury when he was hit by a fire hose and another collapsed because of heat exhaustion. Both were treated and released from a Fort Worth hospital.

Don Peacock, deputy fire marshall, said fire collapsed a portion of the parking garage roof and burned building materials stored on the first and fourth floors of an

adjacent Western Co. of North America office building that was still under construction.

He estimated the damage would be at least \$100,000, but he said the amount may reach five times that figure if the concrete in the garage has to be replaced.

It took firefighters, who had some difficulty with the water supply at the construction site, less than an hour and a half to bring the blaze under control. Peacock said authorities did not know the cause of the blaze that apparently started after workers had left the site.

City leaders tind census totals difficult to accept

WASHINGTON (AP) - The changing lifestyle of Americans is providing a jolt to many community leaders as they review the first, unofficial figures from the 1980 census.

Over the past decade more and more Americans have begun living alone or as couples with few or no children, a sharp contrast to the "baby boom" years which saw the fastest growth in the nation's his-

This change means that even though cities may have more homes and apartments - more households - than a decade ago, they still may be facing a shrunken population. And

for northern and eastern cities that trend is added to migration patterns that saw Americans moving out of those areas and into the southern and

western "sunbelt."

These changes have come home with sudden impact in recent weeks as "preliminary unofficial" census figures were sent to most of the country's 39,000 communities. And the outcry has been sizable from officials who depend on census figures to determine the money they can get through revenue sharing and dozens of other federal programs.

All but five of the 409 local census

offices across the nation have com-Odessa's growth rate slower than Midland's

ODESSA — Odessa's population was pegged at 85,842 - a 9.5 percent growth rate which lags Midland's by 2.3 percent — this week after the U.S. Bureau of the Census released its 1980 preliminary head-count results to city and county officials.

While the Midland-Odessa area shows a moderate influx of people, Big Spring registered a 15 percent drop - from 28,735 to 24,208.

Midland's 1980 population was computed at 66,998, which is an 11.8 percent increase over the 1970 count of

Midland Mayor G. Thane Akins estimated the city population between 73,000 and 75,000. Rural Midland reflected 10,702 people, though officials suspect the actual population is more like 12,000. The countywide count was

Meanwhile, Odessa City Manager Kerry Sweatt was taking a "guarded" look at his city's population, as

reported by the bureau. Odessa officials, like those in Midland, are scrutinizing the bureau's report before waging written protests.

Odessa's metropolitan population had been projected at 105,000 by the Odessa Chamber of Commerce. And Odessa Mayor Bob Bryant

viewed the count as "way off base." Midland's Richard Hennessy, director of planning and community development, said that the trend across the state seems to be for a "low count" from the perspective of the

local officials. Bureau of the Census population figures are a factor in the formula which the federal government uses in awarding grants, and low counts could adversely affect funding for municipalities and counties.

The city and county governments have 10 days in which to challenge the bureau's figures and to request a pleted the first phase of followup operations and most have finished their second followups, Census Director

Vincent P. Barabba said Tuesday. The Census Bureau will announce the population of each area when that local office closes, and Barabba said that could come as soon as next week in some parts of the country.

Those first closings will be in western and mountain states, he said, singling out Idaho and Montana as areas where the work is nearly done. In other areas the work may continue

Barabba said that overall, the census is running about two to three weeks behind an "optimum target" schedule, but he is confident about meeting planned deadlines.

The intent of sending out the unofficial figures to local officials, Barabba said, is to give them a chance to challenge the bureau's count and get it corrected where errors have been

While complaints about the figures have erupted in many areas, Barabba said he hasn't encountered any problems that he doesn't think can be

He singled out Phoenix, Ariz., and Atlanta, Ga., as cities where extensive efforts have been made to help the bureau get an accurate count.

When final figures are complete, he said, the bureau expects to find that the population of the United States increased 9 percent in the last decade, the slowest growth since the Depression decade of the 1930s.

Barabba noted that in 1970 the average household in the United States included 3.1 persons, but by last year

Billy didn't influence U. S. policy on Libya, Carter tells newsmen

WASHINGTON (AP) - President Carter, launching a counteroffensive in the Billy Carter-Libyan case less, than two weeks before the Democratic National Convention, says he's anxious to appear in person before Senate investigators, possibly in nationally televised hearings.

In an effort to minimize the political fallout from the affair, Carter said he is eager to respond to Senate questions, "the sooner the better."

And just to make sure his side of the story gets out before the convention begins Aug. 11, Carter said he will send the Senate a full report early next week and then hold a news conference to answer questions about it.

Carter made a surprise appearance Tuesday in the White House press room to declare - once again, but this time on television — that his brother had no influence on policy toward Libya and that there was no interference with the Justice Department investigation of the affair.

Billy Carter has acknowledged contacting White House appointments secretary Philip J. Wise Jr. last year to inquire about eight C-130s purchased by Libya in the early 1970s, The Washington Post reported in today's editions. The newspaper quotes informed sources as saying he made the disclosure in a Jan. 17 interview with Justice Department offi-

The State Department has refused to approve export licenses for the planes, which are being stored at a Lockheed Corp. facility in Marietta,

According to one account of that session, Billy Carter refused to answer when asked whether he had tried to influence the president in the matter of the planes, the Post report-

Billy Carter also refused to say whether he had attempted to pressure

> Today is the 270th

day Americans have been held hostage in Iran

his brother on the issue through their mother, Lillian, telling investigators it was none of their business, the newspaper quoted one source as say-

White House press secretary Jody Powell said there has been no decision on whether the president would go to the Senate panel or the senators would come to Carter to hear his testimony. But he said live, televised hearings are "in no way excluded."

The special Senate committee, which is searching for a non-partisan counsel, is expected to open hearings next week.

Powell said that if the president appeared in the early hearing sessions and subsequent investigation required additional presidential testimony, "we would be reasonable about" returning to testify.

Gerald R. Ford, who testified before a House Judiciary subcommittee in 1975 to explain his post-Watergate pardon of Richard M. Nixon, is the only president to testify publicly before Congress.

Acknowledging his deteriorating political standing, the president himself was reported to have offered Tuesday to skip campaigning with some members of Congress if he might hurt their re-election chances.

In other developments Tuesday: -Sen. Birch Bayh, D-Ind., chairman of the special Senate committee, said the panel has subpoenaed documents from Charter Oil Co. relating to "Billy Carter and oil allocations from Libya."

TESCO rate deal fails to go through

AUSTIN (AP) - Texas Electric Service Co. first asked for \$123 million in rate hikes. Then, as a negotiated settlement seemed a possibility, the company said it would settle for \$64

However, the deal died Tuesday when several of the 78 North, Central and West Texas cities served by only a \$24 million hike.

Hearing Examiner Mark Zeppa of the Public Utility Commission said the hearing would begin today. He had recessed Monday and Tuesday hearings to allow negotiations to con-

Don Butler, attorney for 28 of the cities, told Zeppa early Tuesday that progress was good and a settlement

was possible.

However, a lawyer for a consumer group complained there never should have been any negotiations in the first place. Dorothy Harwood of Association of Community Organizations for Reform Now said the hearing is a necessary part of the rate-making

The negotiations ended Tuesday afternoon after Butler heard from several of his clients. He said they were not impressed with the \$64 million proposal — although it was about half what TESCO had sought.

"Even though it may be half what the company is asking for, it is not necessarily a reasonable amount," Butler said. "What the company asks is not what the company wants or expects."

The PUC staff is recommending a \$69.4 million hike.

Any settlement would have needed the approval of the three-member

Ms. Harwood said negotiations "are not part of the process. It looks like it's an already agreed-to thing."

She questioned the legality of bypassing a hearing in a rate case. Several recent cases have been set-

tled without the cumbersome hearing

Bell has said settlements are possible because the companies and the staff know how the commission has ruled in the past.

Ms. Harwood said TESCO wanted the settlement because it would allow higher rates to go into effect sooner, giving the company more time to make money off the current heat

School trustees propose 18.2 percent tax increase

By DAVID CAMPBELL

School trustees declared their intent to raise school taxes by 18.2 percent during Tuesday's school board meeting.

The new proposed rate of 89 cents per \$100 assessed valuation is expected to meet the needs of a \$33 million budget for the 1980-81 school year and add about \$200,000 to the district's reserve fund.

When broken down, 80 cents would be allocated for operations with 9 cents designated for retiring the district's bond indebtedness. And, of that 80 cents, a penny would go to help build up the reserve fund.

By law, school officials must serve notice that a public hearing is set for Aug. 19 at 5: 15 p.m. in the board room of the school's Administration Building to gather public input regarding the increase. After the hearings,

trustees will formally set the school tax rate as well as approve the 1980-81 budget at the Aug. 26 meeting.
A report by Virgil Jones Jr., city

tax assessor-collector, showed the school district's effective tax rate to be 75 cents per \$100 assessed valuation. This is the tax rate that would have brought in the same amount of revenue for the current budget of about \$28 million.

The effective tax rate of 75 cents appears to be considerably lower than the current school tax rate of \$1.26. But Midland property values were reappraised this year to represent true market values.

However, trustees raised the effective tax rate by 13 cents because of increased salaries for school personnel; bond indebtedness, including the \$3 million school bond issue for repairs and renovations; and inflation.

Therefore, a home valued at \$65,000 would pay taxes on \$48,750 with the present assessment ratio of 75 per-cent. Multiplying \$48,750 by the school tax rate of 89 cents per \$100 valuation would give a school tax bill of about

But, there was a bone of contention among trustees regarding the addition of one cent for replenishing the district's reserve fund.

They added the penny to build up the fund to pay for potential major losses to the school district and to fund operations for the first part of the school year, explained Ed Runyan, trustee president.

Also, he added that bond rating companies in New York would like to see a larger reserve fund when a school district of Midland's size applies for bond ratings.

The one-cent increase should bring . (See SCHOOL, Page 2A)

City tax hearing set for Aug.

By LANA CUNNINGHAM Staff Writer

Midland City Council set 5 p.m. Aug. 13 as the date for a special public hearing on the proposed tax rate of 45 cents per \$100 assessed valuation.

During its regular session Tuesday. in City Hall, the council approved the proposed tax rate in accordance with the state "truth in taxation" law. The effective tax rate this year would be 39 cents. But because of a 22 percent increase in the proposed budget for 1980-81, the tax rate is recommended to go up six cents, or 15.3 percent, to cover increased costs.

After a 40-minute battle over whether or not the city should provide water and sewer services to residents outside the city limits and what, if any, restrictions should be imposed, the council sent proposed policies back to a city staff committee for further

Last spring's annexation of 61/2 square miles north of Midland left a sour taste in the mouth of the City Council after a majority of the residents in that area - many using city water and sewer - protested the annexation move. Because of the prolonged confrontation with the residents, the council decided a policy would have to be effected that would make it easier if annexation comes up

In Councilman Tom Sloan's opinion, "There's no way I'd vote to give a damn drop of water to anyone outside the city limits without annexing

Council member Doris Howbert said persons already on city services 'should be willing to be annexed when the time comes, but they weren't this year."

The council bandied about ideas to annex a 31/2 square mile ring around the city, providing city services only to persons living within an approved platted subdivision, or making persons to receive the services sign a water contract with the clause that they are applying for annexation.

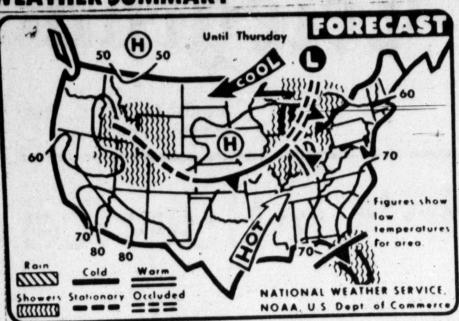

Richard Hennessy, director of plannning and community development, pointed out that an area directly west of the city and along the proposed North Route to Odessa is critical in terms of long-term growth. He surmised that area will see a spurt of growth in the future, making it feasible for the city to annex it.

And another council member remarked that anyone living only one or

Extended forecasts

Friday Through Sunday

West Texas: Chance of late afternoon and nighttime thunderstorms mainly north Friday and Saturday becoming partly cloudy Sunday. Continued very warm to hot afternoons. Highs 95 to 105 except near 110 Big Bend valleys. Lows 55 to 75 except upper 50s southwestern mountain valleys.

South Texas: Chance for daytime or evening thunder-showers each day over mid and upper coastal plains and inland over southeast Texas. No significant showers expected elsewhere. Not much day to day temperature changes. Lows in the 70s. Highs mainly near 100 but ranging from 90 on the immediate coast to 105 inland on the Rio Grande.

New Mexice: Widely scattered thundershowers, most numerous western border. Mostly fair and warm through Thursday. Highs 80s mountains, 90s lower ele-vation. Lows 40s and 50s mountains, 60s and 70s lower

Police recapture three escapees; One dead

CHARLOTTE, N.C. (AP) — Police lobbed tear gas canisters into a lakefront house early today and captured three condemned killers who had walked out of Georgia's maximum security prison. The fourth escapee was found dead, floating in a river in

the next county. FBI Agent Cecil Moses said the dead man, found in the Catawba River in Gaston County, had been identified as Troy Leon Gregg, 32, of York, S.C.

He said the cause of death had not been established. Gregg's home is only a few miles from the river site where his body was found by swimmers at about the same

time officers were arriving at the house on Lake Wylie. The capture of the three other escapees came after officials issued a nationwide alert for the prisoners, who were described as "extremely dangerous" men with "nothing to

Mecklenburg County Police Capt. Edward Brooks said the three men

No change noted in area forecast

Imagination and rain are the two things lacking in Thursday's forecast, which looks very much like Wednesday's forecast, and Tuesday's, and

Monday's In other words, the National Weather Service predicts no important changes, with fair skies tonight and partly cloudy conditions on Thursday with continued hot afternoons.

Thursday's high should near the century mark, with the overnight low in the lower 70s. Winds will be from the south, at 5-10 mph tonight and 10-15 mph on Thursday.

Tuesday's high of 97 was considerably outclassed by the record high of 105, set in 1960. The record low of 59, set in 1971, out-cooled this morning's low of 69 by 10 degrees.

Blast investigated

SAN DIEGO (AP) — Army investigators were seeking clues today in the explosion of 1,000 pounds of smuggled fireworks that killed three members of a bomb disposal unit and injured three others. The victims, including a woman

soldier, died Tuesday after the confiscated Mexican fireworks caught fire at the door of an ammunition storage bunker. The three bodies were found inside the concrete World War II

captured were taken into custody without "strong resistance" and were being held for Georgia authorities. One escapee was armed, but there

was no gunfire. There were signs that the fourth inmate had been at the house, Brooks

The four fled from the Georgia State Prison at Reidsville on Monday after sawing through the bars of their cells and more bars on a fourth-floor window. Wearing pajamas altered to resemble uniforms, the escapees passed at least two guards before they hopped into a parked car and

Two guards at the maximum security prison were relieved of their duties Tuesday pending an investigation of the escape, said warden

Charles Montgomery. Montgomery said he had no evidence of collusion in the escape: "I

prefer to believe it was neglect.' He blamed the escape on "negligence, inattentiveness, lack of training, lack of procedures and lack of conscientiousness.'

One suspended guard had told authorities after the escape that one of the convicts was still in his cell. A tower guard who saw an "officer" with a rope on the prison roof, but failed to report it, also was suspend-

Police declined to say how they learned the escapees were at the house on Lake Wylie, south of Char-

'We did receive information where these individuals were...the officers went down, and for a number of hours, tried talking to these individuals...but they got no response,"

Brooks said. At 1:20 a.m., police used tear gas

and the escapees gave up. Those arrested were Timothy W. McCorquodale, 27, of Alma, Ga.; David A. Jarrell, 25, of Greensboro, N.C.; and Johnnie L. Johnson, 26, of Logan, Utah.

Gregg had four death sentences in the deaths and robbery of two men who had given him a ride, and he was the focus of a U.S. Supreme Court. ruling upholding Georgia's death penalty law.

Ribbon-cutting ceremonies mark opening of Dillards

square-foot Dillard's department store opened today with the company's founder and chairman of the board, William T. Dillard, cutting the ribbon at 9:15 a.m. Joining him were Mayor Thane Akins, County Judge William Ahders, Chamber of Commerce President Ray Moudy, and the store's manager Bill Utterback.

Joint opening cere-monies were held at 9:15 a.m. for Dillard's and Sears, followed by a ribbon cutting at each store's entrance.

Dillard's Grand Opening Celebration will continue through Saturday, Aug. 2, with visitors invited to register for more than \$11,000 in prizes.

Dillard's is a traditional department store, emphasizing fashions and home furnishings presented in a distinctive interior decor. An atmosphere of spaciousness, warmth and intimacy is created with subdued lighting, color schemes of natural woods and earthtones and unique design innovations.

The floor plan of the new Midland store is characterized by a single, circular traffic aisle. with each display area framed by colorful cube

The new 100,000 configurations. Each de- area." partment is individually decorated presenting expressions of unifying design themes throughout the various departments.

Dillard started the chain of stores in 1938 with one small store in Nashville, Ark.; and today there are 48 stores in seven states. Six new Dillard's stores are opening in 1980, including the recent openings of major new stores in Odessa's Permian Mall, choose.

Two Americans killed, three injured in Midway collision

PEARL HARBOR, Hawaii (AP) -Two non-commissioned officers were killed and three sailors slightly injured in a collision between and the U.S. aircraft carrier Midway and a merchant ship off the southern Philippines, the Navy's Pacific Fleet headquarters announced.

Apparently nobody was hurt on the freighter, the 450-foot, 7,718-ton Cactus, registered in Panama. The Philippine Navy said it had a hole nine feet above the waterline and was being escorted to port by the U.S. Navy frigate Kirk.

A Navy spokesman said there was no damage below the waterline of the 64,000-ton, 1,002-foot-long carrier. A Navy report issued in Washington said the catwalks and deck supports on the port side were damaged, an elevator was jammed, three holes were punched in the hull plates and six planes near the elevator were

damaged "moderately."

The Midway, a conventionally powered ship and the oldest carrier in the U.S. fleet, carries about 70 air-

The collision occurred Tuesday in the strait between the Philippine island of Palawan and North Borneo, about 450 miles southwest of the big U.S. naval base at Subic Bay, in the Philippines. The Navy refused to discuss the circumstances of the collision but said it was being investigat-

U.S. military authorities in Tokyo said the two Americans killed were Petty Officer 2nd Class Daniel Francis Macey of Pittsburgh, Pa., and Petty Officer 3rd Class Christian O. Delgun of Thousand Oaks, Calif. Injuries to the other sailors were described as minor and their identities were not announced.

San Angelo not worried about water

Official says they have more than Midland

SAN ANGELO, Texas (AP) -Eight years ago, this sunbaked West Texas city was a national joke, and a cruel one at that.

It was 1972 and much of Texas lay in the clutches of a heat wave, a drought and the all too common specter of another crippling dust bowl.

As Texas heat sagas go, the 1972 episode was no rival for the current version, but the drought was a fearsome affair, especially for San Angelo, where rainfall is not common-

The Concho River had dwindled to little more than a pathetic stream and the city's lakes were masquerading as mud puddles.

One lake suffered what surely must be the ultimate indignity: it dried up, caught fire and burned. Worse still, a

pipeline to a second reservoir was completed just as it dried up.

With one lake in flames and the second barren, a national television show, Rowan and Martin's Laugh-in. dealt insult to injury. San Angelo received the show's weekly "Fickle Finger of Fate Award," a dubious distinction normally reserved for Watergate burglars, deposed presidents and the like.

"That was the low point," a longtime resident recalled one recent evening while cursing the current heat wave and companion drought.

Never again, the civic hierarchy vowed at the time.

'We made up our mind we'd never be in that shape again," said Assistant City Manager Steve Brown. "We'd never again depend solely on a surface water supply."

To that end, the city bought the underground water rights in a vast area of Menard, McCulloch and Concho counties. Nine wells were drilled and cased, and the right of way was purchased for a 56-mile pipeline.

"If our lakes ever get to a point that we're 18 months away from being out of water, then we'll go," said Brown.
"It will cost roughly \$30 million to
bring the well field into San Angelo.

We don't want to do it until we're sure we have to, and some day we will. "And when we do, we'll have enough water for 100 years in San Angelo. It's excellent quality water,

The pipeline is designed to pump 30

and once we bring it in we got it

average use here is 12 million gallons

Despite the current drought and debilitating temperatures, this city of 75,000, in semi-arid sheep and goat country, estimates its surface supply at two-and-a-half years.

"We don't have an abundance of surface water, but we still have more than most West Texas cities," said a city official, citing such sister towns as Midland, Big Spring and Swee-

'We're very fortunate that we live where we live and found what we found," said Brown, "and that we got

"Them that's got the gold does the ruling," he added with a wry smile. "We believe in the Golden Rule."

Congress told Cuba had role in Sandinista revolt

WASHINGTON (AP) - U.S. intelligence analysts operating in Central America. have told Congress that Cuba armed and advised the successful Sandinista revolution in Nicaragua, prebis supporting revolution in Guatemala and Hondu-

The rare Central Intelligence Agency and Defense Intelligence Agency testimony — heavily censored trying to unite revolutionary factions in El Salvador — was released by the House inter-American affairs and in Guatemala.

CIA analyst Randolph Pherson told the subcommittee April 16, "The perspective is that Cuba sees itself as the arsenal, the training center, the adviser and the catalyst for revolution in these areas.

"Looking from the Cuban perspective, I think El Salvador would probably be the next one to fall." he said. "In Guatemala, the military is stronger....It probably ranks in Cuba's perception as the number two target behind El Salvador....Honduras still has a long way to go. You have a very strong polarization of the right and left in that country.'

But almost all testimony on whether U.S. intelligence has specific proof that Cuba supplied arms to revolutionaries in those countries was censored out of the transcripts made public.

A subcommittee source said the analysts had good evidence that Cuba supplied arms to the Sandinistas in Nicaragua, but had no hard evidence that Cuba is arming revolutionaries in El Salvador, Guatemala or Honduras

However, intelligence analysts and State Department witnesses agreed in uncensored testimony that Cuba's longstanding training program for revolutionaries has supplied many of the guerrillas now

But in Honduras, he said, "while the potential for revolution exists, the pressure for change is not nearly as strong as in El Savador and Guatemala."

Brezhnev says detente working

Brezhnev said today there is "no retreat" from detente as symbolized by the 1975 Helsinki accords, and the key to world peace is arms reduction.

In a question-and-answer exchange on the front page of Pravda, the Communist Party newspaper. Brezhnev said "there can be high tides and low tides" in detente, but "there is every reason to compare (the accords) with a good breakwater that resists those who are undermining the mainstays of

"The main thing is to find the road to lessening the military threat, now and in the future, to Europe and consequently to the world as well," he went on. But it is impossible to solve this task without real progress in the field of limiting the arms race.'

Brezhnev's remarks, made on the occasion of the fifth anniversary of the accords, contained nothing critical of the United States. This was in contrast to an anniversary speech by President Carter Tuesday in which he said the Soviet government "has dishonored the principles" of human rights in the

The Helsinki accords were signed by 33 European nations, the United States and Canada in an effort to stabilize the economic, military and political situation in Europe. They also set forth principles of

The right signal to call is 682-6222 Midland Reporter-Telegram

201 East Illinois

MOSCOW (AP) - Soviet President Leonid I. human rights, which Carter has emphasized heavily in his relations with Moscow.

Brezhnev said the results of the Helsinki conference were unequivocally "positive."

"In conditions of the complicated international situation, the importance of the results of Helsinki is not declining but increasing," he said.

If European development is viewed "not through the prism of the present moment but in the historical perspective, we will see that there is no retreat from Helsinki," he continued.

"So detente, cooperation and security ... is the general line of our party and the Soviet state in European affairs and in world politics in general."

"I've cut fares to Washington, but I'll take it on the chin before l'Il cut service" Russell Thayer, President Braniff International

Braniff's New Low Fare to **Washington Dulles** Other low one-way fares between Midland-Odessa and: **Jacksonville** \$155.50* Miami \$171.00* Orlando \$161.00* Tampa-St. Petersburg \$156.00*

Preparing for the Fourth Annual Rhizome Sale hosted by the West Texas Iris Society are members, from left, Maria Spencer, Anne Carroll, and Mary Alice Bonnar. The sale will be from 8: 30 a.m. - 4: 30 p.m. Saturday in the yard

at 1606 N. 'I.' The rhizome are from the West Gardens in Lubbock and all are healthy, popular Iris with some being show winners. A raffle will be held for show winning rhizomes. (Staff Photo)

Psychologists say Masters' and Johnson's work flawed by errors

BERKELEY, Calif. (AP) — Two Berkeley psychologists say the work of pioneer sex researchers failure rate in their results.

William Masters and Virginia Johnson is flawed by errors and slipshod reporting.

'Masters and Johnson have gone far beyond the allowance limits of non-perfection. From reading what they write, it is impossible to tell what the results were," psychologists Bernie Zilbergeld and Michael Evans wrote in the August issue of Psychology Today.

The criticism stems from Evans' failure to duplicate some of Masters and Johnson's results in his program at the University of California's Cowell Hospital, where he was formerly director of research for sexuality counseling. Zilbergeld said that even when Evans took a

course in St. Louis from Masters and Johnson, he was not able to get precise explanations of some of the statistics published by the sex therapy center "Nobody could duplicate their claims, but it wasn't

because of something unique about their program, but something funny they were doing (with their statistics)," Zilbergeld said.

The magazine said a text of the article was sent to Masters and Johnson, but that Johnson replied, "It has always been our policy not to reply to criticism in any popular forum.

Among the psychologists' criticisms is that Masters and Johnson do not define what "success" or

The article also said Masters and Johnson do not explain how they select or reject patients for their therapy, and that they give few details about

HINTS FROM HELOISE

Peanuttier sandwich spreads

DEAR HELOISE:

I am a college student and rarely have time to read a newspaper but when I get a chance I always read your col-

your readers to send in some new peanut butter combinations for sandwiches. Well, my roommate and I have practically been living on PB this whole year, so we would like to share with you and your readers some of our discoveries.

Namely, PB and sun-flower seeds (honey optional); PB, honey and raisins (sunflower seeds optional); PB, bananas and raisins.

To get more protein from these sandwiches, drink a glass of milk with them (the colder the better). If your kids won't drink milk, mix a tablespoon of dry, powdered milk into the PB.

in this country.

CHICAGO (AP) — A collection of rubbings of English brass tomb mark-

ers is opening on the road in Illinois

this year before embarking on a na-tionwide tour, the first such showing

The exhibition, "The Monumental

Brasses of England — the Horowitz

Collection," consists of 30 rubbings of

markers made from 13th through 17th

century tombs. There are about 75

A measure of the collection's

uniqueness is that the history of each person depicted in the rubbings is detailed, through the research of col-lector and historian Mark Horowitz of

Of an estimated 40,000 to 100,000

brasses once thought to have been

existent in English churches, and

rubbings in the collection.

PB and sunflower seeds are a protein complement by themselves. so there is no need for milk. Good camping picnic idea!

Oh, I almost forgot. Recently you asked The best bread for these sandwiches is a chewy, whole grain bread. Yum! I eat these open-faced. They taste much better and are lower in calories. They are fun to eat with a fork because you get to lick the fork clean every

> This letter has to come to a screeching halt -I've suddenly got ap urge for a PB sandwich! -Blair Seibert

> No wonder! You've given us all one with your absolutely yummy PB combinations!

> Friends, you should have been in my shoes

English brass tomb markers on display

describing those out-ofthis-world, delectable, mouth-watering combinations for using peanut butter! And me on a diet!

Talk about tortures! I thank each and every one of you from the bottom of my heart. Even though I had to farm out some of the testing, the recipes were positively scrumptious, so they

You know what combination was sent in most by you readers? PB and bananas! Can't say I disagree with your taste, either. Sweet pickles and PB ran a close second.

Among other PB combos were onions, cucumber slices, dill pickles, grated carrots and raisins (u-m-m); all kinds of fruit with

mayonnaise; waffle syrup and crumbled crisp bacon — the list is and read all the letters almost endless and I've

just named a few you sent in. One interesting letter DEAR HELOISE:

was from a dear lady who was in the first grade 30 years ago. Her teacher had a lettuce patch outside the classroom and each afternoon would go out and pick some lettuce leaves.

She would wash it, and then would spread peanut butter and mayonnaise on a lettuce leaf and roll it up, crepe style, and give one to each child.

Times do change, don't they, but wouldn't kids love that today! Of course, kids big and little love PB with whatever anytime. Seems to be a national favorite, judging from the letters received.

Again, thank you! You were so kind and gracious to take the time to share your special comnew and different and I household hint to Heloise spite of myself.

aldn't resist tasting in care of this newspaper. letter but if your hint is a Now, if I can just lose that five pounds ... - Hereal goodie, she is sure to

England track athletes benefit from U.S. absence

Los Angeles Times MOSCOW--When President Carter banned America's athletes from the Moscow Olympics, it was widely believed he left the field wide open for the Russians and their wholly-owned subsidiary, East Germany.

But, for one free ticket to any of the thousands of empty seats at these Olympic track and field events, who would you guess have been the chief

beneficiaries of the Americans' absence to date?

Why, the lads from blighty, jolly old England are who. Surely you remember them, mates? The Queen's own. The stiff upper lips, the thin red line. Into the Valley of Death rode the six hundred. They're all right, Jack.

Track and field is what the Soviets call the "queen of sport," or "light athletics," the center ring in this circus. It's all very well to win with a

Solider field contract renewed

CHICAGO (AP) - A 20-year contract for the Chicago Bears to play their National Football League games at Soldier Field has been unanimously approved by the Park District board.

The board and the Bears are "in complete concert at this time," said Board President Raymond F. Simon.

Under the agreement approved Tuesday, the Bears must pay 12 percent of their annual gross gate receipts to the park distict. The team also must pay a \$1 per ticket surcharge and some \$3 million, the estimated cost for building 34 glass-enclosed luxury boxes at the lakefront stadium, which is undergoing extensive renovation.

Twenty percent of the anticipated yearly income of \$1.08 million from the boxes also will go to the park

The board also raised parking rates at Soldier Field, effective as of Fri-

The added revenue from the Bears' contract will reduce substantially the district's annual deficit, officials have said. It will remain at about \$750,000 a year, though, Simon said, until other events can be staged at Soldier

Indian Summer comes to Cleveland fans

By The Associated Press Indian summer has come to Cleve-

land in July The Cleveland Indians, hottest team in the American League, won their seventh game in a row Tuesday night as Mike Hargrove slammed two home runs and Dan Spillner and Sid Monge combined on an eight-hitter in a 7-2 trouncing of the Seattle Mari-

Monge, the Indians' 1979 bullpen ace, was ineffective during the first half of 1980. But in his last nine appearences he has yielded only one run and four hits in 162-3 innings - one hit in 22-3 innings Tuesday night - and has combined with Victor Cruz to give Cleveland a red-hot relief corps.

The victory boosted the Indians into fifth place in the American League East, less than one percentage point ahead of the sliding Boston Red Sox. who dropped a wijd 9-8 decision to the Kansas City Royals

rs!

Elsewhere, the Minnesota Twins nipped the New York Yankees 3-2, the Baltimore Orioles edged the Texas Rangers 4-3, the Milwaukee Brewers whipped the Chicago White Sox 7-1, the California Angels trimmed the Detroit Tigers 7-0 and the Oakland A's shaded the Toronto Blue Jays 6-5 in 12

Cleveland scored single runs in each of the first three innings off Seattle's Rick Honeycutt, who lost for the 10th time in 12 decisions after a 6-0 start. Bo Diaz delivered a run with a first-inning grounder, Jerry Dybzinski singled one across in the second and Hargrove hit the first of his two solo homers in the third.

After Seattle pulled to within 3-2, Monge came on with one out and runners on first and third in the seventh and eventually got out of a bases-loaded jam by striking out **Bruce Bochte**

Hargrove homered again in the bottom of the seventh and the Indians' final three runs came on RBI singles by Ron Hassey, Alan Bannister and Toby Harrah.

Royals 9, Red Sox 8 George Brett homered, singled, hit two doubles and scored the winning run with two out in the ninth inning on an error to end a wild game that included 31 hits and seven errors. Brett doubled to start the ninth against Tom Burgmeier and, after Hal McRae was walked intentionally, went to third when John Wathan

bounced into a double play. Amos Otis' grounder to Rick Burleson's left then caromed off the shortstop's

The Red Sox, who blew a 6-1 lead, tied the game in the top of the ninth on a double by Dwight Evans and Jim Dwyer's pinch single after Dave Chalk's first home run of the season had given Kansas City an 8-7 lead in the bottom of the eighth.

Twins 2, Yankees 2

Rob Wilfong's tie-breaking two-run single with two out in the bottom of the eighth produced Minnesota's victory behind Geoff Zahn's 10-hit pitching. Wilfong's hit came off Luis Tiant, who had checked the Twins on three hits until Ron Jackson and Hosken Powell singled with one out in the

Orioles 3, Rangers 2

Scott McGregor pitched eight shutout innings and Tippy Martinez put down a ninth-inning rally as Baltimore climbed to within 7½ games of the Yankees, the closest they have been since June 28. Pat Kelly singled home a run in the first inning, the Orioles added two more in the second on Rich Dauer's RBI single and a run-scoring passed ball and Gary Roenicke's eighth-inning homer made it 4-0.

Brewers 7, White Sox 1 Ben Oglivie drilled three hits, including his 25th homer and a double, and drove in three runs and Cecil Cooper added a solo home run. Meanwhile, Moose Haas posted his fourth victory without a defeat against Chicago this season, allowing four hits in seven innings

Angels 7, Tigers 0 Bobby Grich drove in six runs with a pair of homers, one a grand slam, while Fred Martinez and Andy Hassler combined to pitch a four-hitter and hand Detroit its third consecutive setback. Grich hit a two-run shot in the second inning and belted his grand slam in the fifth. Carney Lans-

ford homered for California's other

A's 6, Blue Jays 5

Rickey Henderson doubled with two out in the top of the 12th and scored the winning run on Dwayne Murphy's single. Bob Lacey picked up the victory with five innings of relief although he yielded a ninth-inning home run to Toronto's Barry Bonnell that sent the game into extra innings.

Coleman's number game pays off for Padres

By The Associated Press

Jerry Coleman plays a strange kind of numbers game - but for once the numbers added up to a win for Randy

"Jones was one-third of our offense and 108 percent of our defense," Coleman, the San Diego Manager, observed Tuesday night after the onetime ace of the Padres' staff ended a personal seven-game losing streak by scattering eight Chicago hits and beating the Cubs 3-1.

Jones, indeed, was one-third of the offense, getting one of San Diego's three hits. All three runs against Doug Capilla were unearned as the Cubs comitted four errors.

Elsewhere in the National League it was Los Angeles 10, Pittsbuegh 2; Philadelphia 9, Houston 6; Montreal 4, Cincinnati 1; New York 2, Atlanta 1, and San Francisco 4, St. Louis 1.

Jones, who struck out two batters and didn't walk any, zipped through the game in 1 hour, 59 minutes.

In the second inning, Dave Winfield's single, a walk to Gene Tenace and an error by shortstop Ivan DeJesus loaded the bases. Two runs scored when second baseman Steve Dillard misplayed a liner by Tim Flannery.

In the fourth, the Padres loaded the bases on an error by third baseman Lenny Randle and two walks, and a run scored when Ozzie Smith was hit

Dodgers 10, Pirates 2

If Jones was vital to both the offense and defense of the Padres, Burt Hooton was even more instrumental in the success of the Dodgers.

He pitched a seven-hitter for his seventh straight win and drove in four runs, three with a homer, as Los Angeles battered the Pirates.

Eight of LA's hits went for extra bases, three of them by Ron Cey, who

doubled twice and homered. Phillies 9, Astros 6

"We came back, we've got to be proud," said Phillies Manager Dallas Green. "We could have cracked several times and we didn't."

Instead, Philadelphia pulled even with Houston in the seventh inning when Mike Schmidt cracked a tworun homer, then Lonnie Smith broke the tie with an eighth-inning single and Bake McBride added a two-run single. McBride had five singles and drove in three runs for the Phils.

Expos 4, Reds 1
Rookie Bill Gullickson muffled Cincinnati with a six-hitter, striking out 10 Reds for a team high this year and personal career high.

Warren Cromartie, Andre Dawson and Gary Carter had RBI singles for Montreal.

Mets 2, Braves 1

Doug Flynn, with a triple in the second inning, and Joel Youngblood, with a single in the sixth, gave the

Mets their victory over Atlanta. Mark Bomback was the winner. He needed relief from Neil Allen, who got his 17th save although he gave up Mike Lum's RBI single in the ninth.

Giants 4, Cardinals 1 Larry Herndon drove in three runs against his former team with a triple and a single and Jack Clark picked up his league-leading 15th game-winning RBI of the season as the Giants beat St. Louis

The only Cardinal run came on a double by Ken Reitz after Ted Simmons walked in the second inning and stole his first base in two years.

coxed crew or with a duelling sword or a target pistol but the stars are the guys who run faster, jump higher or throw farther. At the close of business Saturday, the British had won exactly as many gold medals in light athletics as the Russians and one more than the Little Red Machine, the East Ger-

THIS IS embarrassing athletically and politically. You see, the British are one of the teams which hoists the Olympic flag and plays the Olympic anthem instead of its own at the victory ceremonies. The Russian television cameras, at these ceremonies, like to follow the progress of the victor's flag up the flagpole. But a monkey has his tail around this flagpole. No one in Red Square wants to follow the progress up the pole of what is, in effect, a protest flag. So, the television crews pan hysterically to the stands on these occasions where there is sure to be a doughty bunch of Britons waving a mammoth Union Jack and the grateful Soviets beam that picture out to the world.

Actually, if it weren't for the fact it's not being played, we'd probably all be jolly sick of "God Save the Queen' by now.

The British had not won an Olympic sprint since 1924 and it was the only sprint they had ever won.

So when Allan Wells won the 100 the other night, the British all but dusted off Rudyard Kipling to do justice to this. You'd have thought they'd got the Empire back.

They brought Wells into the interview room to the skirl of bagpipes accompanied by countrymen waving

bottles of stout. And terminally inter-rupted an interview of a Brazil triple jumper. It was great good fun after the somber series of interviews with Russian athletes who answer questions like R2D2 or a kid reciting "Invictus" in the parlor for the vicar.

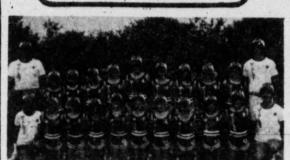

IN THE cases of Sebastian Coe and Steve Ovett, medals for Britain were expected. In the case of Daley Thompson, hoped for. But the case of Allan Wells typifies what is happening to this Olympics without Ameri-

In the first place, Allan Wells is 28 years old. At that age, you shouldn't even run for a bus. In the second place, he was a long jumper for seven years. And not a very good one. In the third place, Wells refused to use starting blocks. He ran the 100 the same way lions did. His wife is his

Still, it would be churlish to discount the accomplishment of these brave lads who, like the Khyber Rifles or the Bengal Lancers, are out here on the frontier fighting the holding action, defending civilization from the Red Menace. As usual, the Britons are muddling through. In the absence of the Americans, they are, after all, maintaining some standards like the pith helmet types of the glory years who used to dress for dinner, no matter if the Wogs were at the

They rise to the occasion, fix bayonets, set monocles and charge. There'll always be an England, subalterns and all. Churchill would be proud of the lot of them, fighting our

rs of the Division One Midland Girls Softball all-star softball team for eight-to-10 year-olds were, front row from left, Jean Sears, chaperone, D'Ann Nichols, Carrie Roach, LaQuita Ramirez, Jeannie Fort, Brenda Lenahan, Carole Campbell, Michelle Sanches, Gina Navarette, Heather Martin, Debra Roach, manager. Second row, Joe Phillips, coach, Elizabeth Ameel, Leah Burnette, Beverly Warden, Michelle Phillips, Judi Moore, Stacey Simmons, Christie Conner, Kelly Sears, Jill Beard, Danny Simmons,

Dolphins sued for sex bias

The Miami Dolphins have decided the only men they want representing them on the field are football players, and that has prompted a Miami electronics executive to sue on sex-bias charges. Glenn Welt, 32, is fighting the Dolphins over his rejection as a Dolphin Starbrite - the all-female cheering unit of the team. According to Welt, the team's female fans deserve the same stimulation during half-time shows as male fans receive. But June Taylor, the Starbrite choreographer, thinks otherwise.

"He just wouldn't fit in with the girls. He's just not built like a girl. I was not about to put him in panty hose, leotards and have him waving hankies and pompons. The Starbrites have all American girl appeal." Welt counters, "I think the Dolphins need a

man to stimulate the lady fans."

Quarterback Mike Kruczek, just acquired by Washington from Pittsburgh, may now be the Redskins' backup to Joe Theismann but he doesn't expect to remain in that spot. Kruczek, who went to high school in Washington, realizes that he comes to the Redskins as a backup quarterback "at least for this year. But that doesn't bother me. I just want to get there and learn the offense." ..

Martina Navratilova has decided to live fulltime in her 27-room mansion in Charlottesville. Va., and is selling her home Dallas ...

Former San Francisco Giant Skip James belted a tie-breaking home run, his ninth of the season, giving the Central League's Yokohama Taiyo Wahles a 5-4 victory over the Yomiuri Giants Tuesday. Roy White, former Yankee, slugged a three-run homer, his 18th of the season, for Yomiuri...

Larry Csonka has bulled for 6,737 yards in his Miami Dolphins career. Steve Howell has gained eight yards in his. But the former Baylor blocking back may get the chance to gain more as Csonka holds out for a new contract, prompting Coach Don Shula to remark that Larry "isn't in our plans this season."...

An Orange County group purchased the financially strapped California Surf of the NASL... The Chicago Bears picked up safety Randy Harrison on waivers from the Pittsburgh Steelers after safety Doug Plank stayed away from training camp for a second straight day...Syracuse University football players will be putting on their pads and jerseys in the "Al Davis Room" of the new Carrier Dome this season. Davis is the GM of the Oakland

Stock market gains

NEW YORK (AP) - The Dow Jones industrial average climbed to a new threeyear high Tuesday as the stock market chalked up its second straight gain.

The widely recognized average of 30 blue chips, coming off a 7.34 advance on Monday, rose another 6.48 to

That marked the highest close for the Dow since it stood at 936.48 on May 19, 1977. New York Stock Exchange

volume reached 44.84 million shares, against 35.33 million Monday. The market's strength

through the spring and summer has been attributed in part to hopes for an early start on a recovery from the recession which set in early this year.

Some evidence pointing in the direction of an upturn is expected Wednesday when the government makes its monthly report on the index of leading economic indica-

'Advance estimates were that the index, which is designed to detect the likely future course of the economy, would show a substantial rise for June, after registering large declines in each of the three preceding months

Against that background, stock groups sensitive to economic cycles, such as the autos and airlines, fared well. Among the autos, General Motors rose 11/4 to 51%, and Ford Motor gained 1% to 26%. Late in the day Ford reported a \$468 million loss for the second quarter.

In the airlines, Delta picked up 1 to 48%; Trans World 1% to 181/4; UAL 1/4 to 19%; U.S. Air ¼ to 14%; Eastern ¼ to 10¼, and Pan American ¼ to 5%. Pan Am led the active list on turnover of about 1.2 million shares.

The daily tally on the NYSE showed gainers outnumbering losers by about a 9-5 margin, and the exchange's composite index advanced .56 to 69.99. Nationwide turnover in

ng trades in those stocks on regional exchanges and in the over-the-counter market, came to 51.00 million shares. Standard & Poor's index of

NYSE-listed issues, includ-

400 industrials was up 1.17 at 138.68, and S&P's 500-stock composite index rose .97 to The American Stock Ex-

change market value index climbed 2.32 to 317.28.

BUSINESS MIRROR

Will there be a housing revolt

By JOHN CUNNIFF **AP Business Analyst**

NEW YORK (AP) - Here are the ingredients of an astounding national problem in the making:

-The number of new housing units needed annually over the next 10 years is nearly 1 million units more than the average number begun between 1970

-The number of starts has instead been declining. The industry averaged 1.8 million units during the 1970s. The current rate, although temporary, is down around 1 million units.

-According to the U.S. League of Savings Associations, more Americans will become age 30 in this decade than ever before in our history. Typi-

cally, ages 25 to 34 are homebuyer ages. -Prices are rising as availability diminishes. The median price of resale homes now exceeds \$61,000, or about three times the median family income. Because of demand, median prices may continue to

The result: Millions of would-be buyers cannot afford to own, and probably never will own, despite their belief that home-ownership is the birthright of all prudent, hard-working Americans. They must -The number of rentals units is shrinking, per-

haps by 2 percent a year, according to an economist with the National Association of Home Builders. Financing costs, and rent controls, are generally -Rents are rising. And, because of the housing

shortage, they are likely to rise faster than they have

The Robert A. McNeil Corp., which syndicates shares of large housing units and which is one of the nation's largest landlords, says rental costs have been "a bargain by comparison with costs of owner-

-The future? McNeil observes that "the increase in utilities has led most landlords to move to individually metered units with tenants reponsible for all utility payments." In addition, it says, the costs of taxes, insurance and maintenance will be passed on

-Families already are cutting certain routine expeditures, such as entertainment, in order to meet housing bills. And this is in spite of the fact that two incomes are often needed to support a

Homebuyers on average must budget \$550 for monthly housing expenses, up 37 percent from the median figure of \$400 two years ago, says the U.S. League of Savings Associations. Rental expenses aren't much lower.

-Housing authorities see costs exerting severe pressures on family size and lifestyle (one child, both parents working, less entertainment and travel, for

-The job-making ability of some communities is likely to be lessened by the lack of or high cost of housing. It has already occurred in some areas of California.

Livestock auction report

The Southwestern Livestock Auction Co. ran through 955 head of cattle Tuesday in a market that was \$3 to \$6 higher per hundredweight on all classes of cattle.

Overall, the market was \$5 higher than that of last

Bred cows were \$6 to \$8 higher per hundredweight, while cow-and-calf pairs were \$25 to \$50 higher per pair. Feeder steers were \$3 to \$5 higher per hundredweight, and feeder heifers were \$3.50 to \$6

Steers weighing 600 to 700 pounds were auctioned for \$72.50 to \$74 per hundredweight; 500 to 600 pounds, \$74 to \$76.50; 400 to 500 pounds, \$76 to \$79; 300 to 400 pounds, \$79 to \$82.50; under 300 pounds,

\$82.50 to \$95 per hundredweight.

Heifers weighing 600 to 700 pounds were sold for \$63.50 to \$65 per hundredweight; 500 600 pounds, \$63.50 to \$66; 400 to 500 pounds, \$66 to \$69; 300 to 400 pounds, \$68.50 to \$74.50; under 300 pounds, \$72.50

to \$85 per hundredweight. Cows utility were sold for \$46.50 to \$50.50 per hundredweight.

Canners and cutters went for \$41 to \$44.50 per nundredweight.

Bulls yield Grades No. 1 and 2 were sold for \$52.50 to \$55 per hundredweight.

Breed cows went for \$47 to \$52.50 per hundred-

Cow-and-calf pairs were auctioned for \$575 to \$675

Epoxy-Coating Plant At Ft. Collins, Colorado Now On Stream

The New Gaido-Lingle Fusion Bond Epoxy Coating Plant at Fort Collins, Colo. now has coating capabilities for 3/4" to 16" pipe with any brand of fusion-bond powder on the market today.

 Ample Storage · Ultra-modern pipe handling · Double jointing · Concrete coating (external)

For information for your outlying districts contact your favorite pipe jobber for our pricing and delivery.

· Our Coal Tar facility at Fort Collins will continue to Field Joint Materials In Stock

ADDED SERVICES:

· YG3-Polyken Tape System

11 wildcat operations announced

Eleven wildcat operations, two of them re-entry projects, have been announced in West Texas coun-

Merlin Roberts of Morton announced drillsite for his No. 1 Leona Smallwood, a 1,800-foot wildcat in Scurry County, two miles east of Ira.

The prospector is 580 feet from south and 1,151 feet from west lines of section 135, block 97, H&TC survey, abstract 2855.

It is 3/4 mile northwest of the depleted Sharon Ridge, Northeast (San Andres) field.

Meadco Properties of Midland staked No. 2-20 Cravens as a 7,800-foot wildcat 15 miles northeast of Barnhart in Irion County.

The project is 5,300 feet from north and 660 feet from west lines of section 20, block 27, H&TC survey and 1,422 feet northwest of Wolfcamp gas production in the Ela Sugg field. It is 1/2 mile southwest of one of the pool's three Canyon oil producers.

CROCKETT WILDCATS

rell (Ellenburger gas) field.

J. Cleo Thompson of Dallas will dig two wildcats in Crockett County.

No. 2 Harrell "D" is a 9,000-foot Ellenburger explorer seven miles northeast of Ozona. Location is 1,320 feet from north and east lines of section 46, block GH, GC&SF survey.

The site is one mile north of Strawn production and two miles north of 7250 Canyon gas production in the Ozona, Northeast multipay field. It also is 3 1/4 miles west of the pool's Ellenburger production, and the same distance southeast of the one-well Parker-Har-

Thompson No. 1-29 University is a 10,000-foot wildcat 11 miles west of Ozona and 1,320 feet from north and west lines of section 29, block 31, Universi-

The drillsite is 1 3/8 miles southwest of Thompson No. 1-33 University, recently completed Strawn detrital gas discovery. Operator has suggested that strike be designated the opener of the University 31 (Strawn detrital gas) field.

FISHER TESTER

Campana Petroleum Co. of Midland announced location for a 6,500-foot wildcat 11 miles west of Roby

Scheduled as No. 1 Claude Veems, it is 660 feet from north and 1,980 feet from west lines of section 36, block 3, H&TC survey. It is 5/8 mile southeast of the Strawn reopener in the Heather multipay field and one mile southeast of the Strawn reopener in the Pescador field.

northwest of Justiceburg.

GARZA WELL

Earl T. Warren of San Angelo No. 1 Bennett is a 1,400-foot wildcat in McCulloch County, 1 3/4 miles east of the Lojon (Strawn gas) field.

The location is 1.6 miles north of Fife and 660 feet from south and east lines of Christian Schlandt survey No. 1075, abstract 1254.

NOLAN RE-ENTRY

Hack Drilling Co. of Abilene will re-enter a 6,339foot dry hole five miles northeast of Hylton in Nolan County and test it as a wildcat at 5,500 feet. The project is the former Gillchrist Drilling Co.

It will be operated by Hack Drilling as No. 1-A Carl W. Moore. It was abandoned by Gillchrist in November 1955.

The location is 2,100 feet from south and 660 feet from west lines of section 218, block 64, H&TC survey. The site also is one location west of Hack No. 1 Moore, a 4,825-foot dry hole which was plugged in

RUNNELS OPERATIONS

December 1979.

LeClair Operating Co. Inc. of Abilene No. 1 L. Dietz is to be drilled as a 4,500-foot wildcat in Runnels County, 18 miles east of Winters.

Location is 467 feet from the most northerly north line and 467 feet from the most northerly east line of W. W. Gray survey No. 1. Ground elevation is 1,992.2

The site is 3/4 mile south of the two-well Henson (Jennings) field which produces at 3,468 feet, and the same distance south of the pool's 3,381-foot Cross Cut

Production Lease Service Inc. of Longview will spud its No. 1 L. A. Mallow "A," a 2,200-foot wildcat, two miles west of Talpa in Runnels County. Location is 1,350 feet from north and 2,250 feet

from east lines of section 42, TH&H survey. It is 5/8 mile north of the one-well Saxon (Canyon lime) field. The operator will attempt to reopen Serratt production.

Trojan Oil Production & Services Inc. of Irving spotted No. 1 R. W. Callison in an attempt to reopen the Rich (Gray) field of Runnels County, 10 miles

The drillsite for the 4,800-foot project is 959 feet from north and 4,696 feet from west lines of section 3, J. H. San Miguel survey No. 72.

The site is one mile north of the original opener of the field, Desert Oil Co. No. 1 S. Alexander which was completed in 1954 and recompleted in 1978 to reopen the Vanderlaan-Friedman (Gardner) field.

Trojan Oil Production & Services also will re-enter for tests as a wildcat at its No. 2 James Palmer, a former well in the Big Ed (Gardner oil) pool three miles west of Ballinger in Runnels County. The old total depth is 4,100 feet. Trojan will deepen

Location is 467 feet from northwest and 6,550 feet

from northwest lines of August Kleindecke survey

Nations's first deepwater port taking shape in Gulf

GRAND ISLE, La. (AP) - The nation's first deepwater port for supertankers — the Louisiana Offshore Oil Port — is beginning to take shape

in the Gulf of Mexico. Huge, 2,000-pound sections of the pumping platform are moving into place 19 miles south of Grand Isle, and divers are hooking up buoys where the huge supertankers will tie up — to one of the biggest chains ever

"This is the first visible part, other than the jackets sticking up out of the water. This is the first real thing as far as the offshore pumping platform," LOOP spokesman Terry D. Trovato said Monday.

The underwater structures that will anchor the platforms to the seabottom 110 feet bdlow have been up for more than half a year, waiting for the platform itself, he said.

While they sat in the Gulf of Mexico, workers on shore assembled everything else - the 46-foot buoys, the pumps, the pumping platform's five deck sections, and the two pieces of a separate three-deck platform where offshore workers will live and work controls for the pumps.

'When they're brought out, almost

all the equipment is already bolted to them. It's brought out as one giant piece," Trovato said.

The pumping platform's lower deck sections carry three pumps that will

ENERGY

work together to push 1,100 gallons of oil a minute through the 37 miles of pipeline between the platform and a salt dome in Clovelly.

The pumps will run on electricity produced by gas turbine generators on the upper deck, where meters will also measure the flow of crude. Controls will be 150 feet away, on a

smaller, three-story platform. Two of the largest derrick barges in the Gulf, able to lift 1,600 tons each, had to be used together to set three 2,000-pound sections of the bumping platform into place. The other two are lighter and can be lifted by one der-

Between the pumping platform and

the buoys are more than 11/2 miles of pipeline, ending at the 90-foot-wide bases which anchor the buoys. These bases are themselves anchored with 5-foot-wide steel piles sunk 90 feet into the seabottom.

The chains which attach the buoys to them are made of 61/2-inch steel forged into links three feet long. They have to be big to hold fast against the ocean's pull on ships that can weigh up to 700,000 tons before they're loaded with crude - ships longer than four football fields.

With the chain atttached to its bottom, the buoy is lifted from its barge and onto the water. There valves are opened to let seawater flood into a hollow lower compartment, bringing it upright and pulling it down.

When only the buoy's top 10 feet and a big "birdcage" around lights, a radar reflector and other navigation aids are above water, divers attach the chain to the base.

When the system is in use, two flexible hoses nearly one-fifth of a mile long will connect the supertanker tethered to a buoy to the pipeline at its base. Pumps on the ship will push the crude up to the platform, where the LOOP pumps will take over.

Menard, Runnels strikes complete

Gas discoveries have been completed in Menard and Runnels counties, and field wells have been potentialed in other West Texas areas.

G. C. Clark of Tyler reported a Strawn lime gas discovery with recompletion of his No. 1 J. G. Biles, former producer in the P-C, Southwest (lower Strawn oil) pool of Menard County, nine miles north of Fort

The operator reported a calculated absolute open flow potential of 2,050,-000 cubic feet of gas per day, with a gas-liquid ratio of 317,913-1. Gravity of the liquid is 67 degrees.

Completion was natural through perforations from 3,930 to 3,940 feet. Total depth is 4,041 feet and plugged back depth is 3,970 feet.

The Strawn line was topped at 3,805 feet on derrick floor elevation of 2,173

The well originally was completed in April 1975l as an oil producer through perforations from 4,004 to

Location is 467 feet from south and east lines of Aloys Russer survey No.

Tyler No. 1 Cora Petrie is a Gardner sand gas discovery in Runnels County, 12 miles southeast of Winters. It finaled for a calculated absolute

open flow of 680,000 cubic feet of gas per day, natural, through perforations from 3,818 to 3,819 feet. The Gardner sand was topped at

3,723 feet on ground elevation of 1,962 feet. Other tops include the Palo Pinto, 3,164 feet; Capps, 3,431 feet; Gardner lime, 3,723 feet, and Gray sand 3.882 feet. The discovery is 3/4 mile southeasst

of depleted Morris production in the Henson multipay field. Total depth is 4,065 feet, 4.5-inch pipe is set at 3,963 feet and plugged

back depth is 3,895 feet. Operator has suggested Petrie (Gardner) as the name of the new

Location is 1,044 feet from south and 1,000 feet from east lines of ETRR survey No. 124.

REAGAN WELLS

A pair of wells have been completed in the Barnhart (Grayburg) field of Reagan County, both by Devon Petroleum Corp. of Oilahoma City. They are 8.5 miles southeast of Big Lake. Devon No. 1 Boothe, 3/4 mile north

of other Grayburg production, completed flowing for 32 barrels of 31-gravity oil and a trace of water. with gas-oil ratio of 2,500-1. Completion was through a 12/64-

inch choke and perforations from 2,-009 to 2,224 feet. The pay was acidized with 3,000 gallons and fractured with 896 barrels of fluid. Wellsite is 1,980 feet from north and

660 feet from west lines of section 236, block 1, T&P survey.

Devon No. 1 Owens and others, one location northeast of other Grayburg production, completed for a daily pumping potential of 36 barrels of 28-gravity oil and a trace of water, with gas-oil ratio of 555-1.

Completion was through perforations from 2,127 to 2,343 feet after 3,000 gallons of acid and 913 barrels of fracture fluid. Scheduled as a wildcat, this project

drilled to 9,135 feet and 4.5-inch casing was cemented at 9,132 feet. Location is 660 feet from north and

2,310 feet from east lines of section 6, HE&WT survey, abstract 884. **UPTON WELLS**

Mobil Producing Texas & New

Mexico Inc. No. 2 TXL "T" is a new well in the Davis (Wolfcamp) field of Upton County, 33 miles north of McCamey. The second well in the field, it is 1

1/4 miles north of the other well. Operator reported a natural pumping potential of eight barrels of 42.1gravity oil and eight barrels of water,

with a gas-oil ratio of 125-1. Completion was through perforations from 9,076 to 9,973 feet. Wellsite is 2,140 feet from north

and 2,310 feet from west lines of section 17, block 41, T-5-S, T&P survey. The discovery well is Grand Banks Energy Co. No. 1 G. R. Davis Estate which was completed in August 1979.

Windham has been completed in the Amacker-Tipptt, South (Wolfcamp) field of Upton County, 14 miles north-

west of Rankin. The second well in the field, it is 3/4 mile west of the other well.

of 1,735-1.

was drilled by Wood, McShane & Thams as No. 1 Windham and plugged and abandoned at 8,544 feet. It was re-entered and deepened to 8,560 feet and 4.5-inch casing was set

Location is 660 feet from south and east lines of section 16, block 2, MK&T

MARTIN PRODUCER

RK Petroleum Corp. of Midland No. 3 Anchor, drilled as a wildcat 10 miles northwest of Lenorah in Martin County, has been completed as a well in the. Spraberry Trend Area field.

It completed for a 24-hour pumping potential of 115 barrels of 43.5-gravity oil and eight barrels of water, through perforations from 9,220 to 9,334 feet. The gas-oil ratio is 348-1, and the pay was acidized with 2,500 gallons.

Total depth is 11,030 feet, 4.5-inch casing is cemented at 11,025 feet and hole is plugged back to 9,400 feet. The pay was topped at 9,220 feet on ground elevation of 2,865 feet.

Wellsite is 6,475 feet from north and 3,300 feet from west lines of league 252, Ward County School Land sur-

North Slope petroleum increases firm's earnings

NEW YORK (AP) - Increased production from Alaska's North Slope and higher world petroleum prices helped the Atlantic Richfield Co. increase second quarter profits by 67 percent to \$434.8 million, the company reported.

Atlantic Richfield, the nation's seventh largest petroleum company, also announced a 5 cent increase in its quarterly dividend to 47.5 cents a share.

ings statements from other major oil companies last week that higher world petroleum prices continued to help them achieve profit increases despite some adverse effects from the U.S. recession. Atlantic Richfield, based in Los An-

geles, said earnings per share were \$1.75 in the latest quarter, compared with \$1.06 a share in the 1979 period. Net income for the comparison 1979 quarter was \$260.4 million.

Amoco Production Co. No. 42 Sealy-Smith Foundation is to be drilled 1/2 mile southwest of production in the Monahans, East (lower Pennsylvan-

ian) field of Winkler county. Scheduled on a 9,300-foot contract, it is 660 feet from south and east lines of section 48, block A, G&MMB&A survey and 12 miles east of Wink.

Hearing date slated

AUSTIN-Railroad Commissioner Mack Wallace, chairman of the Solar Advisory Committee of the Texas Energy and Natural Resources Advisory Council, announced a statewide public hearing next month for comments and testimony on the group's proposed recommendations to TENRAC.

The recommendations' are aimed at accelerating the use of solar and wind energy in Texas through tax, financial and other incentives and the inclusion of solar facilities on state buildins constructed in the future. The hearing will be held from 9 a.m.

to 5 p.m. Aug. 21 in Room 1-110 of the

Joe C. Thompson Center, adjacent to

the LBJ Library on the University of Texas at Austin campus. For submission of written testimony or to obtain additional information or the complete committee's recommendations, contact John Carlson, TENRAC, Conservation Division, 411 West 13th Street, Austin, Texas, 78701.

Three indicted

TUCSON, Ariz. (AP) - A federal grand jury here has indicted two Salvadorans and a Mexican on federal conspiracy and smuggling charges in connection with a desert trek that left 13 Salvadorans dead earlier this month.

'House next door' gets burglarized

A burglar apparently backed a vehicle into the driveway of a vacant house Tuesday and walked away with \$1,600 in items from the house next

Gerard W. Fischer told police that between 9 a.m. and 5 p.m. someone entered his house at 1510 Manor Court and stole a black and white television, video game, turntable, amplifier, AM-FM tuner and cassette tape deck, all valued at \$1,-Entry was through a back window, where po-

lice found the glass broken. From footprints and tire prints, police surmise the burglar had backed his vehicle into the driveway at 1508 Manor Court and loaded the stolen items into it. An accident early this morning, resulted in slight

injuries to a Midland man. Darrell Eugene Burns of 1511 S. Baird St. refused treatment at the scene of the

According to reports, Burns was northbound on Cottonflat Road approaching Carter Avenue. He tried to make a left turn on to Carter, but failed to make the corner. The car collided with a utility pole and then a parked car belonging to Stephen Benton Dean of 1300 Cottonflat.

Midland firemen Tuesday extinguished one grass fire and a car-gas meter fire.

At 11:50 p.m. firemen were alerted to the cargas meter fire. Apparently the car, belonging to Bertha Ramirez, backed over a gas meter at 1009 N. Big Spring St. and the escaping gas caught fire. The car received moderate damage in the blaze.

Firefighters were out of the station about 30 minutes for a grass fire at 1717 S. Marshall St at 4:33 p.m. The fire was on a vacant lot. There was

Drug-sniffing dog dies during escape attempt

BIG SPRING — An escape attempt proved fatal to Ace, a drug-sniffing dog for the Big Spring Police Department, when his chain became entangled in the fence surrounding his pen Tuesday morning.

According to a statement issued by Acting Police Chief Sherrill Farmer, the dog was chained to a building enclosed by a fence. Ace attempted to jump the fence when his chain became entangled, strangling him

The makeshift pen was only temporary and new pens were being prepared for the dog by his handler, Detective Jimmy Lockhart, when the accident oc-

Farmer expressed thanks to those who had contributed money for Ace's purchase, saying,"We are grateful to the 73 individuals and organizations who contributed to the fund for the dope-sniffing

According to Farmer, the dog had been involved in most of the drug raids conducted by the department since his drug-sniffing work had begun, and he had been instrumental in the location of many types of

Deep-freezing cells focus at A&M workshop

COLLEGE STATION, Texas (AP) - Deep-freezing living cells for preservation in long term storage as "livestock sperm" will be the focus for scientists from England and the United States in a workshop at

Scientists from both countries will be comparing notes Aug. 14 on deep freezing living cells for later use in artificial insemination for livestock.

Techiniques for preserving cells through freezing, developed 30 years ago, led to an artificial insemina-tion process by which 85 million cattle are bred

annually.

If applied to aquatic organisms, the same process could be used to develop frozen sperm banks at hatcheries and thereby eliminate the need for large

numbers of brood stock Texas A&M maintains an extensive collection of frozen sperm from exotic and endangered animals, and college scientists were recently involved in the artificial insemination of the U.S. National Zoo's giant panda, Ling-Ling.

Charged on Tuesday were Elias Nunez Guar- rangements for the aliens, while Preciado Navarro dado, 26, of Chalatenango, El Salvador; Mateo Preciado Navarro, 54, of Sonoita, Mexico; and Santos Elias Flores, also of El Salvador.

Each was charged with one count of conspiracy to smuggle and transport illegal aliens and seven counts of smuggling illegal aliens and aiding and abetting the transportation of illegal aliens.

Each charge carries penalties of up to five years in prison, \$2,000 in fines, or both, upon con-

Nunez Guardado and Preciado Navarro were among 14 survivors of the journey through the Organ Pipe Cactus National Monument park in Arizona

The U.S. Attorney's office said Nunez Guardado is alleged to have helped make travel arallegedly helped guide them across the Mexican bor-

The Salvadorans had separated into two groups before the border crossing and Elias Flores was arrested after he allegedly helped the smaller group cross near Yuma, Ariz., where they were caught by the U.S. Border Patrol.

Twelve Salvadorans, who survived the ordeal by drinking their own urine, deodorant and aftershave lotion, are in the custody of families in Tucson and Tempe. No charges have been brought against them, but the prosecution views them as potential material witnesses in the trial of the men accused of smuggling them.

Several survivors had said they fought "like animals" over drops of liquid before searchers found them over the July 4 weekend.

Woman gets call to haul tin cans.

By JAMES R. KING Associated Press Writer

EL PASO, Texas (AP) - Before 1971, Mildred Smith tossed empty cans into the garbage without thinking about them, like most Ameri-

Now, the sight of a discarded can arouses her, dismays her, excites her and troubles her. She picks up bags of the cans at deposit points around town, hauls them to metal dealers for cash and donates the profits to community projects.

Last year Mrs. Smith, 58, known locally as the "Tin Can Lady" hauled more than 20 tons of cans.

"I have to do this," she said. "I'm called to do this. I received a call from the Holy Spirit when I went to a seminar on the environment in 1971. I'd never hauled tin cans before. Now, it's all I do."

Today, her efforts to make recycling of garbage the law of the land in this West Texas city are closer than ever to reality. Mayor Tom Westfall and the City Council have turned to the citizens to ask them if they are willing to make drastic changes in their garbage habits and support Mrs. Smith's proposed ordinance.

It calls for residents to separate their garbage and put metal cans in one sack, paper in another and all other refuse in a third bag.

So far, the results on the citizens' feelings are inconclusive. A family that tried it for a week as an experiment said it wasn't difficult, but there wasn't room for three garbage sacks in the kitchen.

Public hearings were held this week on the plan, and Westfall has used radio announcements to make a public appeal for opinions.

Westfall is against the plan, saying it smacks of "totalitarianism" and the government should not get that involved in a person's personal garbage habits. Alderman Orlando Fonseca says the plan would burden the poor, who would have to buy more garbage sacks, and could attract aliens

"We're real close to the border. If we start separating our garbage we could have ambitious scavengers come from across the bridge in the early morning hours to pick up the cans and paper before the sanitation department could get there," he

Mrs. Smith said scavengers wouldn't take enough to make a dif-ference and as for the burden on poor people - "If a person is that poor would you tell me how he generates so much waste?

"During the war they saved cans not because there was a shortage at the time, but because they needed them to make tanks, planes and guns. I say tanks, planes and guns during the war — why not washing machines, steves and ice boxes afterward?" said the Tin Can Lady, who is also a registered nurse.

Besides saving money and conserving resources, "we could get such a closeness feeling in this community," said Mrs. Smith.

"In my own neighborhood we went door to door with flyers asking people to save their cans and paper and in one month they placed on the curb \$960 worth. Half went to the zoo and half went to the YMCA," she said.

"El Paso has had this laid back style of life for so long, but we are throwing out about \$100,000 a week." She said her proposal would put \$3 million a year back into the city's

"Take an aluminum can. It's already had all the impurities removed. You can reuse it and reuse it and reuse it until the end of time," she

Georgetown stops boiling its water

GEORGETOWN, Texas (AP) -Georgetown residents no longer have to boil their drinking water, county and state health officials said Mon-

The announcement was made to a hearing of about 500 residents.

The order to boil all drinking water came more than five weeks ago after an epidemic of diarrhea affected about 80 percent of Georgetown's 10,-000 residents. State officials said tests showed some of the city's water wells to be polluted, although the exact cause was never found.

They also have not been able to find a cause of a recent outbreak of 29 cases of hepatitis.

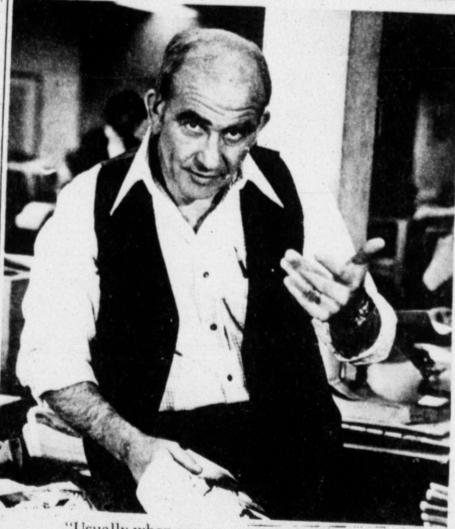

School board votes down auto tax AUSTIN, Texas (AP) - No more

automobile tax, the Austin school board voted Monday night. The city council voted earlier this

year against a personal automobile The 4-2 vote against school taxation

of personal cars reversed a May 26 decision to keep the levy which was estimated to bring in \$1.4 million in operating revenue

Tax Collector-Assessor Jack Klitgaard recommended abolishment of the school tax. He said the vote would save the average car owner \$45 and would spread the burden among other property owners at a rate of about \$14 each. He said less than 70 percent of last year's car taxes were collected because year-around registration of cars made it "extremely difficult" to

"Usually when you see me on television, I'm a newspaperman named Lou Grant. But I'd like to talk to you as Ed Asner, a citizen and a newspaper reader.

"You know, our free press is our watchdog on government. So you can know what public officials are doing-and so they know that you

"The First Amendment guarantees more than the freedom of the press. It guarantees your right to know.

"Maybe that's why the Founding Fathers put it first.'

The paper. It's good reading.
