Strike talks resume after concessions by Polish government

GDANSK, Poland (AP) - The Polish strikers resumed negotiations with the government today after the Communist regime made another concession and restored telephone communications with the Baltic strike area. There was no immediate word on the outcome of the latest

while, the government-controlled Central Council of Trade Unions began meeting in Warsaw, and informed sources said trade union boss Jan Szydlak, already fired from the Politburo, was certain to be stripped of his union job amid possible sweeping changes in the trade union structure.

The sources, who requested anonymity, said they believed the 40member presidium of the Trade Union Council would be sharply curtailed and include many new members considered more acceptable by the strikers.

The government changed its stand on communications from Gdansk Monday after the strikers refused to continue negotiations until there was full telephone service. They shouted, "No! No! No!" when asked by their leader if they would drop that demand.

The announcement that the government had agreed to resumption of service was made by Lech Badkowski, a spokesman for the Inter-Factory Strike Committee, who said the concession paved the way for the resumption of talks.

Anna Walentinovic, a strike leader, said a call from Gdansk to Warsaw went through in about five minutes. Leszek Walesa, head of the com-

mittee which represents some 150,000 striking workers in the Baltic industrial region, said the strikers might reciprocate by eliminating some of their remaining demands. "The basic thing is to fulfill our

demand for free trade unionism. So perhaps some, but only some, of the demands can be dropped," he said, without elaborating.

However, he told the strikers who have been occupying the giant Lenin Shipyards in Gdansk since Aug. 14: We are not waiting for small achievements but for big ones. We stay here for five years if need be."

The regime also agreed to broadcast the first 20 minutes of each negotiating session, and Gdansk Radio played a tape from the central committee's first meeting on Saturday with First Deputy Premier MieczysAfter that session, Jagielski said

the regime would consider relaxing some aspects of censorship but rejected the strikers' demand for an increase in the average monthly wage from \$170 to \$237.

The strike began in reaction to rising meat prices resulting from the government's decision to abandon subsidies to keep meat prices down on July 1. As the walkout expanded, the central strike committee expanded its demands to include social and political reforms, including free trade unions, an end to censorship and the release of political prisoners.

On Sunday, Communist Party chief Edward Gierek said the workers would be allowed to choose their own union officials in secret, democratic elections, with no limit on the number of candidates. But the strike leaders said that did not go far enough and the strike would continue.

Gierek also fired Premier Edward Babiuch and eight other top officials and promised new economic and production plans. It was the most sweeping purge since the 1970 Gdansk price riots toppled party chief Wladyslaw Gomulka and left 50 dead.

In an apparent reflection of concern over the strike in Poland, Czechoslovakia's Communist Party told factory managements to pay closer attention to workers' grievances and "react to them in time."

The party paper, Rude Pravo, said the party's authority depends "on the sensitive everyday approach of Communists to the comments made by people, on their ability not only to listen to these comments but also to be able to deal with them.'

The Soviet news agency Tass accused the West of a "slanderous propaganda campaign" against Polish communism that amounted to an attempt "to crudely and unpardonably interfere in the internal affairs of a sovereign socialist state." Some 40,-000 troops from the Soviet Union and the other Warsaw Pact countries are holding maneuvers next month in East Germany, 60 miles from Po-

Polish 'events' purely internal, Soviets say

MOSCOW (AP) - A Soviet Foreign Ministry spokesman said today the "events" taking place in Poland are "purely an internal affair" of that

Responding to requests by foreign correspondents for a statement on Moscow's policy toward Poland, the spokesman said:

"At the present time, as before, Soviet-Polish relations are characterized by full mutual understanding and cooperation in all fields. As for the events taking place in Poland, they are purely an internal affair of that state." He did not elaborate.

The Soviet news media have taken a highly cautious approach to the situation in Poland, where tens of thousands of workers have gone on strike to demand more money, their own trade unions independent of the communist government and other economic and social reforms.

Soviet press accounts have been confined largely to reprinting official Polish speeches and communiques.

There has been no public indication that Moscow plans to intervene in the Polish crisis, as it did in the Hungarian uprising of 1956 and in Czechoslovakia in 1968 to end the liberalization program of the communist regime

On Monday, the Soviet news agency Tass charged that a "slanderous propaganda campaign" over Poland by Western countries amounted to an attempt by them to "crudely and unpardonably interfere in the internal affairs of a sovereign socialist state.'

Soviet newspapers have reprinted parts of an important speech by Polish leader Edward Gierek on Sunday night but excluded some of his promon ireedom

Versions of the speech published in the Communist Party daily Pravda and other papers all lacked a paragraph reported earlier by Tass on its service for non-Soviet subscribers. The Tass paragraph missing from Soviet papers quoted Gierek as promising "fully democratic and secret" trade union elections.

One newspaper, the large-circulation daily Sovetskaya Rossiya, also dropped from the Tass account Gierek's comment that workers' interests must always be the main goal of trade unions.

The newspaper accounts of Gierek's speech also ignored his references to major changes in Polish government policy and in the national leadership. Soviet newspapers previously published, however, formally worded Polish communiques on the government changes.

Two youth-oriented dailles today printed nothing about the Polish crisis. Western analysts here believe Soviet caution in reporting Polish developments reflects Kremlin concern over the effect of such news on Soviet

County OKs 1981 spending plan Budget 17 percent over last year's

their child is attending.

By ED TODD Staff Writer

The Midland County commissioners got no feedback from the public Monday, when they unanimously approved the county's \$6.68 million budget for 1981.

The budget represents a 17 percent overall increase over 1980's budget of \$5.69 million and reflects a 12 percent pay raise for the county's approximately 250 employees. "Anybody have any comment?" asked County Judge Bill Ahders.

'Ms. Wallace, you?" he asked of radio newswoman Cathy Wallace. Nothing still. "Anyone at all?" the judge asked

again of the sparse showing of the "Anyone have any comments, dis-

cussion?" again asked the judge. "Any of the commissioners?" 'This is almost as exciting as the

tax hearing," commented Commissioner Durward Wright.

The commissioners then moved to another item on the agenga: setting the tax rate at 95 cents per \$100 valuation, based on 32 percent of the fair market value. The rate duplicates that of the current tax year. Finally, someone - Laurence Lee

from the public spoke up. "Sometimes the static tax rate doesn't mean there's no increase in taxes," said Lee.

"Absolutely no increase, from top to bottom" on real property taxes,

assured the judge. Property valuations, except for new businesses, new residences and for improvements, are unchanged from a year ago. Mineral valuations, however, increased substantially.

After the commissioners had carried out the bulk of their business, Wright recognized Lee. 'Mr. Lee," he said, "We appreciate

your being our public today. "Folks are either apathetic or else they agree with what we are doing."

-Appointed Louis W. "Willie" Stumberg to succeed Travis Harney as the Midland County agriculture extension agent. Stumberg will work with County Agent Charlie Green. Stumberg, who currently is assigned to Coleman County by the Texas Agricultural Extension Service, replaces Harney, who returned to his hometown of Wolfforth, near Lubbock, to teach school.

-Listened while Bill Shaner, past president of board of directors of Meals-on-Wheels, thanked the commissioners' court for funding the program in 1981 with \$11,700. "I want to thank you for continuing your support of Meals-on-Wheels," he said.

-Approved the 1979 delinquent tax

-Approved discounts for early payment of county taxes: 3 percent discount if paid in October, 2 percent discount if paid in November and 1 percent if paid in December. In January, the net amount is due. After that, a penalty is exacted.

Man dies here of injuries received in cycle accident

A 19-year-old Corsicana man, injured early Saturday morning in a car-motorcycle accident in Midland, died Monday night of injuries received in the accident.

According to reports, Stephen Squires of Corsicana was injured when his motorcycle collided with a vehicle, driven by Mark W. Vincent of 3001 N. Midland Drive, in the 3200 block of West Wadley Avenue. The accident occurred at 2: 20 a.m.

Police said Squires and Vincent were both westbound on Wadley, approaching the intersection of Whitney Drive. The intersection was wet from water run-off.

The two vehicles collided as Squires was attempting to change lanes. The motorcycle was knocked onto its side. It struck a curb and slid 131 feet along and on top of the curb, coming to rest in the right lane. At the point of impact, Squires was thrown from the motorcycle, landing on the hood of the car. He then rolled off the right side of the hood, landing 49 feet from im-

The car left 40 feet of skid marks after impact, officers said.

Squires was taken to Midland Memorial with head injuries and was listed in critical condition Saturday night.

Unemployment rate lowest in the state

Midland's unemployment rate in July dropped to 3.6 percent, giving it the lowest rate in the state, according to a spokesman with the Texas Employment Commission.

And the commission reported filling 1,226 job openings in July, setting a record for a 30-day period.

The civilian labor force for Midland County jumped to an all-time high of 50,150 in July. This represents a monthly increase of 1.1 percent and a yearly growth of 7.4 percent, said the TEC spokesman.

Of this number, 1,820 were unemployed, down from the 2,450, or 4.9 percent, reported in June. Total employment was 48,330, which represents a 2.5 percent increase from June

and a 7.7 percent jump for the year. **
In July 1979, Midland reported 1,810 persons unemployed and 44,870 working for an unemployment rate of 3.9

The statewide unemployment rate is 5.6 percent; the national rate is 7.9

agricultural wage and salary employment in the county rose to 42,250 in July. This is an 8.6 percent increase over the same period a year ago. The manufacturing sector reported a net gain of 20 jobs due to an

increase in new orders. Non-manufacturing showed a net gain of 230 over the previous month. Advances in employment also were recorded by mining, transportation, trade, finance and government. Con-

struction employment declined

slightly as some sub-contractors were

between jobs. The TEC office here reported placing applicants in hard-to-fill positions, such as civil engineer, computer operator, retail store manager, laboratory technician, arc welder, combination welder, electrician and plumber. Current openings are in the areas of oil and gas drafter, manager trainee, clerk typist, sales representative, secretary, cook, machinist and

Wright suggested. I hope it is the latter." In other business, the commission-Endorsements in the name of Jesus Christ condemned

FORT WORTH (AP) — Endorsement of political candidates in the name of Jesus Christ constitutes a "serious abuse of both religion and people," three local ministers say.

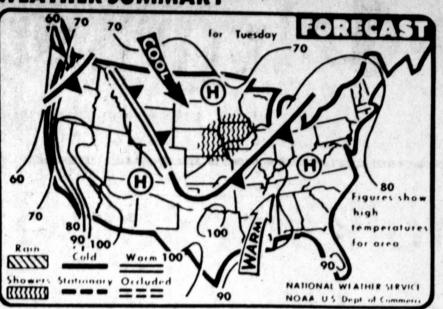

While rot mentioning any group by name, the three directed their criticism at conservative preachers who have urged Christians to become politically involved through such forums as the National Public Affairs Briefing last week in Dallas. Republican presidential nominee Ronald Reagan, the only candidate to speak, was given an implied endorsement there by Hurst television evangelist James

The three, who said they met with about 20 ministers before calling a press conference Monday, were joined in the audience by several clergymen, including Rabbi Robert Schur of Beth-El Congregation.

"The impression is being given that in a political contest, God can be on one side," said the Rev. Albert Pennybacker, senior minister for University Christian Church.

Extended forecasts

South Texas: Continued hot with a chance of mainly afternoon and early evening thundershowers. Highs will range from mid 90s to near 102 southwest. Lows will remain in the 70s except for upper 60s in the hill, country.

Border states forecasts

Oklahoma: Clear to partly cloudy and hot through Wednesday with widely scattered thunderstorms north-west. Highs near 90 Panhandle to 102 south. Lows low 60s Panhandle to mid 70s east.

New Mexico: Fair and warmer northwest, partly cloudy with widely scattered thundershowers east and south through tonight. Fair statewide Wednesday, Highs upper 70s to mid 80s mountains, mid 80s to mid 90s elsewhere. Lows 40s to low 50s mountains, 60s else-

Clear skies, temperature in mid-90s forecast for first day of school term

Clear skies for the first day of school are in Wednesday's forecast. The National Weather Service has predicted Wednesday's high should

be in the mid-90s while tonight's low should be in the upper 60s. Monday's high of 96 degrees was bearable for many Midlanders but it

did not break the 1936 high of 103 degrees. Last night's low was a comfortable 68 degrees yet it was two degrees above the 1966 record low of Southerly winds at 5-10 mph should continue through tonight and Wednes-

Rainfall totals for the month remain at .93 inch and for the year at

Truck damaged in caliche pit blaze

Two caliche pits caught fire Monday and early today, damaging a fire truck in one of the blazes.

At 11:38 p.m. Monday, the Sheriff's Department reported a fire at Interstate Highway 20 and State Highway 158. When firemen arrived they found trash smoldering in a caliche pit.

At 2:57 a.m., firemen were called back out to I-20 and FM 715. On arrival, they discovered trash burning in a caliche pit. Fire Department officials suspect the fire was set. While extinguishing the blaze, the wire to an electrical hose reel was burned.

In addition, firefighters were called to a fence fire at 504 S. Weatherford St. at 2:16 p.m. Monday and a car fire at 5:45 p.m. at 401 Holmsey St. Three people were transported by CFD ambulance.

Bond set for 19-year-old Odessan

ODESSA - A \$50,000 bond was set for a 19-year-old Odessa man charged with murder Monday by Justice of the Peace Jimmy Harris. Herman Ramirez of 902 Vine St. in Odessa was formally charged Monday in connection with the murder of 19-year-old Freddie Orona on Aug. 9. Orona was pronounced dead at an Odessa hospital following a gunshot

wound to his left temple. According to police, Orona was attending a party at Ramirez's house when the two stepped out into an alley behind the house. A shot was heard around midnight and Orona was found slumped in the alley by his cousin. Orona was rushed to the hospital where he died at 1:30 a.m.

No motive has been established, police said. And the type of gun used is still under investigation.

Assault on officer charges expected

STANTON - A 27-year-old Dallas man was expected to be charged today in Stanton in connection with an attempted assault on a police officer, according to Stanton police.

Officer Woody Howell stopped a man believed to be hitchhiking through the city on Highway 80 Monday around 9 or 10 p.m., Stanton Officer Jerry Register The man allegedly pulled a hunting knife on Howell and threatened him,

Register said. Neither the officer nor the suspect was hurt, Register said. Charges against the man in Stanton City Jail were expected to be filed and bond set in Stanton Municipal Court early today by Justice of Peace Ken-

Clements, Connally begin tour

Austin Bureau

AUSTIN - Gov. Bill Clements and former Gov. John Connally Wednesday will begin a 23-city "Roundup for Reagan-Bush" tour, which will include a stop in Big Spring. Clements, Connally and their wives

will attend a 9 a.m. rally Sept. 23 in

They will also attend a town meeting and lunch at noon Sept. 10 in Fort Stockton.

The tour will begin with a rally at Bull Barn in Hereford at 10 a.m. Wednesday and conclude in Brackettville Sept. 24.

The tour is designed to identify as many Reagan-Bush supporters as possible, make sure they are registered before the Oct. 3 deadline and encourage them to go to the polls on

Alaska debating statehood status

By The Associated Press

Just 21 years after winning a hardfought statehood battle, Alaskans were going to the polls today to decide whether their relationship with Uncle

Sam has been a success. Meanwhile, voters in Alaska and two other states were casting their ballots in senatorial and congressio-

Sen. Herman Talmadge, D-Ga., who was formally denounced by the Senate last year for financial misconduct, was in his first runoff election, seeking his party's endorsement for re-election. In Oklahoma, 11 Democrats and five Republicans were seeking nominations to fill the vacancy created by the retirement of Sen. Henry Bellmon, a Republican.

In Alaska, Sen. Mike Gravel faced two challengers in the Democratic primary. Democrats were also selecting a candidate to face the state's only congressman, Republican Rep. Don Young, in November.

The referendum proposal being decided in the Land of the Midnight Sun calls on the governor to form an 11-member Alaska Statehood Commission to study "alternative forms of association possible between the United States and the people of Alas-

Among the alternatives would be a return to terrritory status. Alaska was a territory before becoming a state in 1959.

Another possibility was secession from the union, but there appared to be few backers for that plan. And a third proposal was for the state to demand that the federal government give up some of its authority over its vast holdings of land in Alaska.

Republican presidential nominee Ronald Reagan, right, takes a question from reporters during a news conference in Los Angeles Monday. He and his running mate, George Bush, in trying to clarify their views on China policy, said they would end "petty practices" of the Carter administration in pretending the U.S. maintains no official ties with Taiwan. Reagan backs away from issue of Taiwan, courts Teamster vote

LOS ANGELES (AP) - Ronald Reagan hopes he has stilled the uproar over his policy toward Taiwan by backing away from his earlier calls to establish an official U.S. government

liaison office on the island nation. The Republican presidential nominee said Monday he does not advocate granting formal government status to the private institute that represents U.S. interests on Taiwan. But he said the U.S. relationship with Taiwan, in effect, already has official status.

Today Reagan flies to Ohio to seek the support of Teamsters union leaders in Columbus where he is scheduled to speak Wednesday. A day later Reagan and his wife will travel to Washington and move into a northern Virginia home that they have leased for the balance of the cam-

With his running mate George Bush

by his side at a news conference, Reagan sought to patch over the apparent contradiction between his earlier Taiwan statements and Bush's attempts to reassure leaders in Peking last week. The official New China News Agency labeled Bush's trip a failure and said his assurances were canceled out by Reagan's repeated remarks.

Reagan told reporters that President Carter should have insisted in normalization talks with China that a liaison office be established in Taiwan when the United States switched its recognition to Peking on Jan. 1, 1979 under the Taiwan Relations Act.

"But that is behind us now," Reagan declared. "My present concern is afeguard the interests of the Unit ed States and to enforce the law of the

Asked whether the U.S. office on Taiwan should be an "official liaison office of the United States government," as he had proposed, Reagan replied: "No, it would be what the Taiwan Relations Act says it is; that's the law of the land.'

He said he misstated his opinion if he ever said the American institute on Taiwan was unacceptable in its present status and should have an official

standing. Trying to turn the issue against Carter, Reagan declared the president had "gone out of his way to humiliate our friends on Taiwan" and had imposed restrictions not required by the Taiwan relations law.

He said that as president he would eliminate "petty practices," such as restrictions that require U.S. and Taiwanese officials to conduct their business in cafes and hotels instead of in their offices.

The controversy over Reagan's policy has been simmering since May 17 when he declared: "I see no reason why, with an embassy in Peking, we couldn't now have an official liaison office in Taiwan, the same as we had in Peking before the change occurred. I would make it an official liaison

mental relation." In Peking today, U.S. Ambassador Leonard Woodcock released a statement saying that while Reagan's statements have not harmed U.S.-Chinese relations, the Republican nominee's desire for closer ties to Taiwan threatens America's standing in the world.

"To endanger the carefully crafted relationship between the People's Republic of China and the United States. which is progressing so well and to our mutual benefit, is to run the risk of gravely weakening the American international position at a dangerous time," Woodcock contended.

Politics: Land of disenchantment

Associated Press Writer

John B. Anderson, the unhappy Republican, has signed on an equally disenchanted Democrat as a running mate, but he still may be left a lonely bystander when it comes to the presidential debates of 1980.

Anderson capped days of speculation by naming former Gov. Patrick J. Lucey of Wisconsin to the No. 2 spot on his independent ticket Monday. Lucey, once President Carter's ambassador to Mexico and then a campaign leader for Sen. Edward M. Kennedy, declared that he remains a dedicated Democrat, but "Jimmy Carter has no chance at all" to win

Kennedy, after meeting the president at the White House, saw things differently. He said Carter's odds are "increasingly better every day," and he publicly embraced the administration's economic policy, once the target of his severest criticism, as having been improved to the point that he views it as "a step forward."

In Los Angeles, Republican nominee Ronald Reagan and running mate George Bush took pains to clarify their policy toward China and Taiwan, insisting that the flap over their contradictory remarks in recent days resulted more from semantics than substance. Reagan, moreover. charged that Carter, not him, had been hypocritical on the issue.

But Reagan and Carter appeared headed toward a meeting of minds on at least one score, namely that of restricting any White House debates to themselves. The president has made it clear all along he would prefer to meet Reagan alone, and Carter campaigners say they are eager for as many as six debates.

Reagan said Monday he would prefer just two debates, one on foreign policy and the other on domestic issues. But, in any case, both sides confirmed they planned to discuss today the possibility of one-to-one confrontations, possibly outside the proposed format planned by the League of Women Voters. The league wants three debates, starting Sept. 18 in Baltimore, and has indicated it would invite Anderson as the third participant if he achieves a 15 percent showing in the national polls by Sept.

Anderson, a Republican congress-men from Illinois for 20 years, has fallen below that mark lately but hoped his selection of Lucey would give him the spurt needed to enter a prime-time television showdown with Carter and Reagan.

Lucey, in Washington, declared Anderson has a real chance to win. "I Anderson's campaign has made tre-At the same time, said Lucey, "I

am a Democrat today, I was a Democrat yesterday...and I expect to be a Democrat on Nov. 5," the day after Kennedy said he talked with Carter

about the president's new economic blueprint, to be announced later this week, and sees it as a major improvement over previous administration positions. The president still "does not go as far as I would go" toward stimulation of new jobs, said Kennedy, but the plan is superior to the "unacceptable" approach of Rea-

Kennedy declared also he would 'campaign and campaign actively for the president."

The Massachusetts senator took the occasion as well to call Reagan's "two-China" stance an issue which "raises serious questions in the minds of the American people about the competancy of a Reagan administra-

But Reagan, in Los Angeles, said his call for an "official" U.S. link with-Taiwan was designed to end what he termed the hypocritical claim of the Carter administration that no such relationship exists.

China long ago made a disruption of formal U.S.-Taiwan ties a condition for its own diplomatic relations with America. When full diplomacy was finally exchanged a year ago, the United States dropped its embassy in Taiwan and established, instead, a private foundation to handle American interests. The foundation is funded by the U.S. government and staffed by State Department employes on leave.

Bush assured the Chinese leadership that Reagan would not disturb that fragile setup, but Reagan himself

people protesting a police officer's shooting of a black teen-ager pelted a police station and a fire 690 Detroit police

officers 'out sick' DETROIT (AP) - A wave of "blue flu" has spread through police ranks as officers called in sick to

protest 690 impending layoffs.

Ninety officers phoned in sick during Monday's first two shifts, down slightly from the more than 100 who reported sick on both Friday and Saturday. On Sunday, 73 officers failed to show up for work. The layoff notices, issued last week by the city, are slated to take effect Sept. 5.

period from midnight Sunday to 4 p.m. Mon-day was three times the normal rate for an entire Ziegler has been assigned to a desk job p

However, Bannon said sick calls are tapering off because "we've served notice that we're not going to

put up with it." He said the department was unable to respond to 700 calls for emergency service over the weekend because of a manpower shortage. That was far more than the average 450 calls that go unanswered on a normal weekend, he said.

Bannon said the problem over the weekend was aggravated by a rash of phony telephone calls to the department's 911 emergency number.

The department is investigating whether there was a connection between the calls and officers who have received layoff notices. "We don't know who's

marched on the police station in protest of the death of 17-year-old William Green

City Managing Director W. Wilson Goode, a black, tried to address the crowd but was driven into the station by flying rocks and bottles, police said. Many of the station's windows were broken during the disturbance, police said, and a number of police cars were damaged along with the fire truck.

Seven police officers and a firefighter were injured before the crowd dispersed three hours after the inci-dent began, according to police spokesman Don Fair. He said seven people, including one juvenile, were arrested on charges of riot and simple and aggravated assault.

The demonstration was called to protest the Sunday shooting of Green by Officer John Ziegler, a 17-year veteran of the department.

Green was shot after a stolen car he was driving James Bannon, executive deputy chief of the crashed into a tree during a police chase, officials department, said the absentee rate for the 16-hour said. Police have said Ziegler's gun went off acci-

making the calls," Bannon said Monday. Bannon said the department had "several options prepared" in case of a blue flu epidemic. Units have been juggled to cover possible gaps in service and precinct commanders have been told to notify officers calling in sick that they won't be paid without medical documentation, he added. Officers usually aren't required to provide proof from a physician to take a paid sick day. Detroit had a \$70 million deficit in the fiscal year ending June 30. Mayor Coleman Young has said the deficit this year could reach \$100 million without drastic budget cuts that included the police layoffs. Gasoline prices show decline ELOTE, Self-service stations in Midland listed regular gas HOUSTON - A report by the Texas Division of the at 113.1 cents a gallon while unleaded was selling for 117 cents. The state averages were 113.6 for regular and 118.6 for unleaded. The AAA survey showed that the average price of at self-service pumps fall below the state average. Stock market loses

NEW YORK (AP) - Stock prices edged lower today amid reports of lower auto sales and larger federal budget deficits.

The big domestic automakers said mid-August sales were 36 percent lower than a year ago, but the rate was somewhat better than in early August and some analysts saw signs of a slow recovery in sales. Major auto stocks were lower. With President Carter ex-

pected later in the week to propose some new spending to fight the recession, the government reported a July budget deficit of \$15.06 billion, raising the total for the first ten months of the fiscal year to \$58.72 billion, Both figures are up substantially

from last year. The Dow Jones average of 30 industrials fell 1.96 to

Declines outnumbered advances by a 3-2 margin on the New York Stock Ex-

Big Board volume totaled 35.40 million shares, against 58.21 million in the previous session The NYSE's composite

index fell .44 to 72.03. At the American Stock Exchange, the market value index was down .67 at 331.48. Both the NYSE and the Amex indexes had been at record highs.

Livestock

AMARILLO, Texas (AP) — Texas Panhandle and western Oklahoma feedlot roundup. Confirmed: 700.

Trade very slow in the Panhandle area Monday. Not enough slaughter steers or heifers to test trade. Feedlots reported fair interest and inquiry from most buying sources. Sales on 400 slaughter steers and 300 heifers. Note: All live cattle prices based on net weights fob the feedlot after 4 percent shrink.

Slaughter steers: mixed good and choice 2-3, 975-1075 lb. 70.00-71.00.
Slaughter heifers: pen good and mostly

Slaughter heifers: pen good and mostly choice 2-3, 900 lb. 68.00; load mixed good and choice 2-3, 875 lbs., 67.00.

Plutonium spill contaminates lab employee

CHICAGO (AP) - A spill in the U.S. Energy Department's New Brunswick Laboratory near here has contaminated an employee with a small amount of plutonium, department officials have disclosed. The worker's automobile and apartment in Boling-

brook, Ill., also were contaminated by the radioactive substance, department officials said Monday. Brian J. Quirke, a spokesman for the department's Chicago operations and regional office, said the federal Privacy Act prohibited disclosure of the

employee's name or address. Quirke said the contamination was discovered Monday during routine monitoring at the laboratory, which is owned and operated by the department on the site of Argonne National Laboratory.

A small spill of plutionium Friday in a controlled radioactive material handling area within the NBL was believed to be the source of the contamination, the department said. The incident is under investigation, officials added. The contamination to the employee was external

and did not cause serious radiation exposure, according to the department's news release, which added that there was no evidence of any contamination that could prove hazardous to the public. Plutonium is hazardous only when ingested in

large quantities, energy officials said. Quirke said the entire amount involved was not enough to cause harm even if it had been swallowed.

The employee's apartment and car were being decontaminated Monday. The employee's condition was not announced.

NBL is a nuclear materials measurement facility designed to conduct extremely accurate measurements on plutonium and uranium.

Power plant's price continues to rise

DETROIT (AP) — The pricetag on Detroit Edison Co.'s Fermi 2 nuclear power plant has grown to \$1.8 billion - six times the original estimate - and company officials say the tab could go even higher.

Michigan's largest electric utility also said Monday that the plant, under construction near Monroe, about 20 miles south of Detroit, won't be finished until November 1983, more than nine years behind The \$1.8 billion estimate is \$500 million more than the figure used most recently by the utility. When the

company unveiled plans for Fermi in 1966, it said it expected the project to cost \$300 million. The facility, originally expected to be operating by

April 1974, is 75 percent complete. Edison customers will begin paying higher rates

for Fermi 2 when the plant begins generating electricity, said Charles Heidel, the company's executive vice president for operations. Costs and construction time have increased primarily because of added safety systems required by

the Nuclear Regulatory Commission, Edison Chairman William Meese said. The NRC imposed stricter standards for atomic plants under construction after the March 1979 acci-

dent at Three Mile Island. High interest rates on money Edison borrowed for construction also boosted the cost, Meese said.

The price could increase further since projections 'will continue to be reviewed and refined," he

New York's water leads in taste tests

NEW YORK (AP) - It doesn't flow from an isolated spring, it doesn't come in fancy bottles, and it carries no price tag. But in a test of the world's drinking waters, New York City tap water couldn't be topped. In a survey by Consumer Reports, outlined in its

September issue, 37 types of water - from the United States, Canada, West Germany, France and Italy - were tested. Only New York's water and two bottled varieties were rated excellent. Deep Rock Artesian-Fresh Drinking Water from

Los Angeles and Mountain Valley Water from Hot Springs, Ark., were found to be of "similiar superb quality" as New York's own. Perrier, probably the best-known bottled water in

the survey, was rated "good" - behind the three 'excellent" waters and four "very good" samples. Water samples were tested under strictly controlled conditions by a group of sensory consultants, according to the magazine, which is published by the non-profit Consumers Union.

The consultants said New York tap water, which comes from reservoirs in the Catskill mountains, was "everything an excellent water should be." The experts said an excellent water should be free of sediment and color, have no aroma, but should have a flavor that slightly stimulates the taste buds. Above all, they said, an excellent water should be refreshing. The survey found several other bottled waters to

be either bitter, salty or soapy and said one even smelled of manure New York City Mayor Edward I. Koch said he was

not surprised at the results.

Like a massive work of modern art, layers of drilling casing, much of it owned by Exxon Co., U.S.A., create an interesting pattern of gray and black dots and lines that form a stairway to the clouds. The Exxon casing is stored in Houston, at Green's Bayou Terminal, Inc., and eventually will end up at drilling sites throughout the Gulf Coast region. The company is in the midst of its biggest drilling program ever - about 1,000 wells in 1980 at a total cost of \$1 billion.

Aminoil restructures onshore district

HOUSTON - Aminoil USA, Inc. has restructured its onshore Gulf Coast exploration district, as part of its plans to increase oil and gas activity in Texas and Louisiana.

The onshore Gulf Coast exploration district, which was formerly headquartered in Houston, will now also operate out of a new office in La-

The Houston office will have geographic resposibility for the portion of the onshore Gulf Coast which extends from the Sabine River on the Texas/Louisiana border to the Rio Grande River on the Texas/Mexico border, said Elsworth Tonn, Aminoil's manager of exploration.

He said the district exploration office opening in Lafayette will cover the Gulf Coast area east of the Sabine

Tonn added, "This new organization will enable us to better handle our

increasing exploration activity along the coast of Texas and Louisiana, which is one of the most prolific oil and gas areas in the United State." He continued, "Establishing an exploration office in Lafayette will also

enable Aminoil to undertake a concentrated exploration effort in Louisiana. In addition to being the second largest oil and gas producing state in the country, Louisiana is also the site of new major oil and gas disco-Aminoil, a subsidiary of R.J. Reyn-

olds Industries, Inc., recently announced that it was increasing its commitments to exploration and production during the remainder of this

year by more than \$44 million. The company announced that the

new Lafayette office will be under the supervision of Wayne G. Lampshire, who has been promoted to district exploration manager.

James M. Grubb has been promoted to district exploration manager for the Houston onshore exploration of-

Lampshire joined Aminoil in 1977 as a district development geologist. He was promoted to manager of development geology in the Louisiana Gulf Coast division in 1979.

Grubb joined one of Aminoil's predecessor companies in 1974 as a geologist. He was named district geologist in 1976, and became division geologist the following year. He was promoted to senior staff explorationist earlier this year.

Students should order their texts promptly, so as to have them by the first class session. Send orders to Petroleum Extension Service, Drawer S, University Station, Austin, Texas 78712. Total cost is \$6.30 for

Injunction filed against four in roofing-paving scheme

Four men who allegedly have violated fair-trade practices in a roofing-and-paving operation in Midland may be ordered to quit their method of operation, adopt lawful practices or go out of business if Judge Vann Culp orders a temporary injunction in a hearing at 4 p.m. Thursday in the 318th District Court here.

Culp on Aug. 20 approved a temporary restraining order, effective for 10 days, to put the practices in limbo. The court action was ordered

at the request of Texas Attorney General Mark White.

The attorney general is alleging that the four men have been engaged in "unlawful" and "deceptive trade practices" and thus violated the Texas Consumer Protection Act while doing business as Longwear Roofing

and D. Mesker Asphalt Paving.

The petition alleges that the defendants, John Costello, Danial (Daniel) "Danny" Thomas Mesker, Thomas Payne and John "Nikki" Marks, engineered a "common scheme" consisting of at least 12 violations of the Consumer Protection Act.

THE FOUR are accused of misrepresenting the quality, workmanship, effectiveness and guarantee of their material and workmanship and, in

effect, of doing shoddy work in a fly-by-night scheme.

The men's business and residential address was listed as Overnight Space No. 5 at the Pecan Grove Mobile Home Park east of Midland.

The attorney general also is asking the court to order the foursome to make restitution in cases where materials and workmanship fell short of what was represented to the consumers by the men or their agents.

The attorney general, in a petition filed on his behalf by Assistant Attorney General John Steven Dwyre of Lubbock, is alleging that the defen-

dants' deception acts included:

—Making solicitations at homes of propective customers without informing them of their consumers' rights under state and federal law regarding home solicitations and without advising consumers of the three-day concellation notice.

-Representing that the work and materials were guaranteed when "in truth and in fact, the defendants intended to leave the area without providing the consumer with means to have guaranty work performed."

-REPRESENTING that the work and materials are guaranteed but not having the resources to back the guarantees.

-Representing to do guaranteed work but without providing address and telephone number where complaints could be lodged Representing that equipment for applying coating material applies

high pressure when the pressure is "much lower. Representing that work will be accomplished in a workmanlike manner, when defendants over-sprayed, sprayed automobiles, eaves, walls,

shrubs, curbs and stopping chalks. -Representing that sealant "will seal or re-vitalize the asphalt or fill cracks when, in truth and in fact, it doesn't fill cracks or seal or re-vitalize the asphalt.

-Representing that the product will dry in two to three hours or 21/2 hours "when the product will not dry for days."

-Representing, but having no proof, that the product will last eight years, will seal the roof, will water-proof the roof, will cut down on energy

extend the life of the roof or asphalt driveway or parking lot by several

-Representing, but having no proof, that the coating material will

costs by insulating the roof, will dry in two to three hours.

-Representing that the coating process will increase the value of the property when the value is not increased.

-Representing that the coating process will beautify the property when the property of the consumer "is not enhanced."

THE TEMPORARY restraining order now in effect requires that the four men suspend their operation unless they can in every detail correct the flaws and misrepresentations and can demonstrate proof of their claims via an independent testing agency or laboratory.

The defendants also are ordered not to destroy or transfer any records, books, documents and are prohibited from spending any of the money taken in through their alleged scheme.

The petition does not state for how long the alleged unlawful practices have been going on, who filed complaints with the attorney general, how much work has been done in the Midland area and the amount of billing or where Costello, Mesker, Payne or Marks have operated outside of Midland. Dwyre could not be reaching for comment.

The investigation is being conducted through the attorney general's Consumer Protection and Antitrust Division, which is headed up by Assistant Attorney General David Bragg.

DEATHS

Donie Hull

STANTON - Services for Donie Virginia Robinson Hull, 88, of Courtney, were to be at 3 p.m. today at the First Baptist Church of Stanton with the Rev. Ed Carson officiating, as-sisted by the Rev. Bill Trwin, pastor of the Courtney Baptist Church. Burial was to be in Salem Cemetery in **Howard County directed by Gilbreath** Funeral Home of Stanton.

She died Monday at Martin County Hospital in Stanton after a lengthy

She was born Dec. 20, 1891, in Bosque County and had been a resident of Courtney for 58 years. She was a member of the Courtney Baptist Church. She was married to Elmer Lee Hull March 11, 1909, at Salem. He died Dec. 17, 1937.

Survivors include two sons, Willie "Bill" Hull and Leslie Carol Hull, both of Stanton; four daughters, Bertha Iona Stewart, Lena Oleta Reynolds, both of Stanton, Loreta

Dutch moving embassy

THE HAGUE, Netherlands (AP) — The Netherlands will move its embassy in Israel from Jerusalem to Tel Aviv, the government announced today.

The cabinet decision, taken Monday night, complied with a U.N. Security Council vote Wednesday requiring the embassies to relocate.

The government statement said the formal annexation of Jerusalem by Israel was an obstacle in the path to settlement of the Arab-Israeli conflict, but it also deplored pressure brought to bear on the Netherlands to move its embassy.

Arab nations have threatened economic sanctions - including an oil embargo — against nations that maintain diplomatic missions in Jerusalem. Arab envoys have been relaying these views to Dutch officials.

The cabinet decision to relocate the embassy came just five weeks after Foreign Minister Christoph van der Klaauw said, "The embassy stays in Jerusa-

But then the Israeli Knesset, or Parliament, formally declared Jerusalem the country's "eternal and indivisible capital." The eastern Arab section was occupied by Israel in the 1967 Mideast war.

Arab and Islamic countries immediately issued strong demands to Holland and a dozen Latin American countries to move their embassies out of West Jeru-

When you've arrived Meadowpark Where is Meadowpark?

never left the embassy.

Meadowpark, a project of Citizens Savings & Loan Association, will be a Planned Unit Development of attractive patio home and townhome clusters. Meadowpark will consist of up to 200 attached and detached patio homes and attached townhomes on nearly 60 acres in north Midland. The development is inside the city of Midland and receives all municipal services, including police and fire protection, and water and sewer services. Meadowpark Owners'

Association

Common recreation facilities and park areas are managed by the Meadowpark Owners' Association. Purchasing or building a patio home on your own lot automatically makes you a member of the Meadowpark Owners' Association. The Association provides management and maintenance of the common park areas, playgrounds, tennis courts, and swimming pool with deck area. Homeowners are assessed a monthly maintenance fee.

A low density development.

The cluster arrangement of Meadowpark restricts traffic flow on residential streets. On-street parking is prohibited, so that streets become areas for family activities.

Patio Homes and

Townhomes Lot sizes in Meadowpark accomodate patio homes ranging in size from

1,576 square feet, up to a

square feet livable. A total of 17 floor plans are available in one and two story designs, or a buyer may employ his own architect/builder. As a Meadowpark home-

owner, you own the lot on which your home is located, all of the improvements on the lot, and an interest in the common areas and facilities.

offer two or more enclosed patios, affording a relaxed, suburban lifestyle. General landscaping includes attractive entrances off of FM 868 (proposed Loop 250) and North "A" Street, berms for noise and visual barriers, trees, ground cover and grass. Clusters of live oaks and red oaks will be

used at various

selected Meadowpark locations. Meadowpark @

Street and FM 868 (proposed Loop 250). Nearby are newly developing shopping centers and a regional mall, Midland College, schools and Midland Air Park. Country clubs are close by as well.

Each Meadowpark residence

is designed as an energy effi-

cient home and will meet

Texas Electric Service Com-

pany's strict "E-OK" rating.

Patio homes and townhomes

start in the low eighties and

range up to \$150,000. Of

AT WIT'S END

Hot weather makes her mean

By ERMA BOMBECK

My husband and I were sitting around the table after dinner the other night when he broke the silence by asking, "What's your feeling about blowing up Jack-in-the-Box?"

I slammed down my coffee cup and shouted, "Can't we have one meal in this house without pressure? That's not a decision to make in a day. A person needs time to think about something that important. Give me a

Now, for those of you reading this column in the cool pines of the mountains where the air is fresh and a little fire takes the chill off the house in the evenings you will understand a word of this piece.

But those in the South deserts, the plains of Texas, the East and the Midwest in temperatures that exceed 105 degrees will marvel at my self-

Excessive cold weather isn't plea ant. It makes you move faster, seek crowds for warmth and actually creates a camaraderie of discomfort.

But people in hot weather are sure they have been singled out by God for (a) not tithing, (b) not tipping, (c) not missing their children at camp. For their punishment they have been sentenced to Solar Hell.

Hot weather makes you mean. If everyone doesn't get into the car at precisely the same instant . . . four doors slamming as one . . . it will set

If you answer the door and the people say hello and introduces themselves before entering, you want to grab them by the throat and drag

them in. If the weatherman gives the temperatures from around the country and doesn't mention your bedroom, you want to smash in the set.

I don't want people telling me to remember this next winter.

I don't want people making jokes about my potholder mitts that I wear to touch the steering wheel and turn the ignition.

I don't want friendly tips on how to keep cool by putting a cucumber over each eye or running my wrists under cold water. When I'm hot, just let me wallow in

self-pity, be irritable, and occasionally vent my anger on a stranger with dry underarms. ("You call yourself an American!")
As I crawled into bed, I said to my

DEAR ABBY

Wear and tear hard on family's genes

By ABIGAIL VAN BUREN

DEAR ABBY: In your answer to KNOWS TOO MUCH, who resented the tell-it-all aunt who had compiled the family history, exposing all the skeletons in the closet, you supported the aunt with, "Facts are facts!"

Come on, Abby. My family learned

the hard way. Our family history was written around 1910 and contained all the "facts." That wonderful record, dating back to the 1700s, was so factual that it was "lost" for 70 years because a few grandmas gave birth a few months early.

I am now rewriting and updating

our genealogical records, but omitting some current details. Those facts can be sealed in a safety deposit box to be opened 50 years after my death. In a few generations, an illegitimate baby, a suicide, a family feud, a prison record, etc. will be understood as human experiences. Right now, they may be regarded by by some as an embarrassment. When those "facts" are revealed, I hope I hope I will not be regarded as a brittle old uncle who placed accuracy and truth above sensitive human emotions. Far too many valuable family historical facts have been lost because at the time they were considered embar-rassing.—FAMILY HISTORIAN

DEAR HISTORIAN: You're right. While facts are indeed facts, keeping them buried until all the "horse thieves" are dead seems reasonable

DEAR ABBY: Is it considered good

manners, upon being invited to a party, to ask, "who else are you hav-

This has happened to me several times, and I am always annoyed but don't know quite how to handle it, so I

go ahead and recite the guest list. When I extend an invitation I always give the details, such as what kind of party it will be, approximately how many are invited, etc., but I don't think I should have to tell who else will be there. What is your opinion?-

DEAR L.A.: It's NOT good man-ners to ask who else will be there. And you're right, you are not obligated to recite the guest list.

DEAR ABBY: Recently a local physician collapsed and died while jogging. He had no identification on his person, which caused much anguish to his family.

Your concern for people prompted me to ask you to please tell your readers who run and jog to carry identification with them. Thank you.—ROSEMARY SMALL, PRESIDENT, COUNTY MEDICAL AUX.,

SPOKANE, WASH. DEAR ROSEMARY: Your request is reasonable and could benefit many. Consider it done.

(Do you have questions about sex, love, drugs and the pain of grow-ing up? Get Abby's new booklet: "What Every Teen-Ager Ought to Know." Send \$2 and a long, stamped (28 cents) self-addressed envelope to: Abby, Teen Booklet, 132 Lasky Drive, Beverly Hills, Calif. 90212.)

Court rules man can sue doctor for mental distress

SAN FRANCISCO (AP) - A doctor may be sued when a misdiagnosis results in emotional or mental distress not connected with physical injuries, the California Supereme Court ruled Monday.

The case involved a San Mateo County man whose wife was misdiagnosed as having syphilis — an action which ultimately led to the couple's divorce, the man claimed.

The 5-2 decision by Justice Stanley Mosk also held that individuals also may sue for loss of companionship in such cases.

Prior to the ruling, negligent con-duct could not result in recovery of damages for emotional distress unaccompanied by physical injury. But a plaintiff suffering shock to the neryous system or other physical harm due to negligence was entitled to recover damages for any physical harm and emotional distress.

The court reversed the dismissal of a lawsuit filed by Stephen Molien on July 27, 1977, against a Kaiser Foundation hospital and Dr. Thomas Kil-

bridge, and sent it back for trial. Molien had alleged that on Dec. 8, 1976, the physician negligently mis-diagnosed his wife, then instructed her to have her husband tested for syphilis, subjected her to unnecessary doses of penicillin and caused her to suffer physical injury in addi-tion to shock and injury to her ner-

vous system. He further claimed that the erroneous diagnosis resulted in his wife becoming suspicious he was engaging in extramarital sexual activities and that tension and hostility which arose between them caused the breakup of their marriage.

GOREN BRIDGE

the hand.

He cashed only the ace and queen of trumps, and his foresight was rewarded when East sluffed a high club on the second trump. Now declarer started to run the diamonds. West ruffed the third diamond and shifted to a club, but declarer was in control. He put up the queen and captured East's king with the ace. A trump to the king drew the last trump and declarer was in dummy to cash the two long diamonds, on which he discarded his

club losers. The defense was not particularly inspired. If East shifts to a low club at trick three, declarer is placed in the hot seat. He might decide to go up with the ace of clubs

and rely on being able to draw the trumps, in which case he will go down. It is a sound principle of defensive play to put declarer to a guess before he finds out the bad news-in this case, the 4-1 trump split.

Your play to the first trick could decide the fate of the contract! A writer once remarked: "There's no such thing as a blind opening lead, only deaf opening leaders!" Learn to find the winning attack with Charles Goren's "Opening Leads." For your copy, send \$1.85 to "Goren-Leads," c/o this newspaper, P.O. Box 259, Norwood, N.J. 07648.
