### Domestic oil prices reduced

#### Slump in demand prompts cut

NEW YORK (AP) - A slump in petroleum demand following nearly two years of spiraling prices has prompted several major U.S. oil companies to reduce for the second time this summer, the prices they post on domestic oil output.

Standard Oil Co. (Indiana), the nation's sixth-largest oil company, said it cut the price it pays independent producers or sets on its own output to \$36 a barrel, from \$38, for low-sulfur crude and to \$34 a barrel, from \$35, for poorer-quality high-sulfur oil.

No. 19 Cities Service Co., said it made similar reductions. The trade publication Petroleum Intelligence Weekly said No. 3 Texaco Inc. and No. 5 Gulf Oil Corp. also cut prices as much as \$2 per 42-gallon barrel.

The reductions took effect Monday and were applicable to oil produced in the lower 48 states. Oil companies earlier in the summer had reduced prices as much as \$1.50

The price cuts, the first set of general reductions since the 1960s, came as oil inventories in the United States and in other industrial countries swelled to record levels following a 132 percent jump in world crude oil prices since January 1979.

Oil production by the Organization of Petroleum Exporting Countries, meanwhile, has fallen to a 41/2-year low of 27 million barrels a day. OPEC provides 27 percent The oil-price spiral has been termed a major cause of a 7

percent cutback in U.S. gasoline use in the first seven months of the year. The cutback has prompted a series of wholesale gasoline price reductions by most refiners and appears to have triggered a small reduction last month in the U.S. average retail gasoline price. According to a survey by the Lundberg Letter, another

industry publication, the average price fell to \$1.231 a gallon in August from \$1.237 in July. On Wednesday, Gulf Chairman Jerry McAfee said in

Pittsburgh he believes the price of gasoline "should hold" around current levels "for the next 12 months."

But industry analysts say the weak demand is not likely to result in sharply lower retail prices because the 60 percent of U.S. crude oil production still under federal price controls is gradually rising toward world levels

under a government program. Price controls will be lifted from U.S. oil production in October 1981. According to the latest government figures available, the U.S. average crude oil price in April was \$15.46 a barrel, about half the world price. The world price of oil is around \$32 a barrel today.

Prices charged by OPEC members have not risen since

In a related item, the weekly publication Saudi Report said Wednesday that Saudi Arabia has completed negotiations for 100 percent acquisition of Arabian American Oil Co., the U.S.-owned consortium that handles nearly all Saudi oil production.

The publication cited Abdul Hadi Taher, governor of the Saudi Arabian state-owned petroleum and minerals company Petromin, as saying his government bought out the remaining 40 percent share held by the consortium of Exxon Corp., Texaco Inc., Standard Oil Co. of California and Mobil Corp. for about \$1.5 billion."

### Kids, can you name the little man?

Just what kind of name should a funny little man with a huge handle-

Children in grades 4 through 6 are participating in the United Way's "Name the Little Man" contest, designed to give the local United Way symbol a name which ties into the United Way theme, "Thanks to you, it works in Midland.'

The character was designed by a local artist last year and appeared weekly in The Midland Reporter-Telegram to symbolize that the United Way is working in Midland.

Entries in the contest must be completed and returned to teachers by

Three community volunteers and three United Way volunteers will judge the entries and announce two honorable mentions per school and one overall winner Sept. 19. The overall grand prize winner will receive a \$50 gift certificate

donated by Peyton's. The grand prize will be awarded at the kick-off celebration for this year's United Way campaign Sept. 28.

### Reagan raps Carter on his Mideast policy

By LEE BYRD **Associated Press Writer** 

Ronald Reagan says the Mideast is "approaching a flashpoint" because of weak and confused leadership by Jimmy Carter - a charge leveled only hours after the President's announcement that Israel and Egypt will resume their stalled peace talks under his mantle.

In an address Wednesday night to B'nai B'rith, the Jewish service organization, the Republican presidential nominee said Carter has sacrificed America's reputation as a trustwor! thy ally and that his conduct of foreign policy "has been marked by inconsistency and incompetence."

Reagan headed to Florida and Louisiana today in the wake of his now-famous Labor Day gaffe over the Ku Klux Klan, a remark which drew severe criticism throughout the

The Republican nominee stuck word-for-word with his prepared text Wednesday night, even to the point of ignoring the disclosure by Carter that another three-way summit is in the works with Egypt and Israel.

But when a reporter asked him about it outside a Washington hotel, Reagan declared: "I think it's great.'

Nonetheless, Reagan charged in his address that the president merely "stands by and watches" while Israel is isolated by international terrorism and U.N. resolutions designed to undercut its position. Carter gets his chance to reply in a speech to B'nai B'rith tonight.

Reagan said that the Soviet Union has made new inroads in the Mideast, and "because of the weak and confused leadership of Jimmy Carter, we are approaching a flashpoint in this tragic process.'

Carter said that his Mideast negotiator, Sol Linowitz, had informed him after his arrival in Cairo from Tel Aviv that Egyptian President Anwar Menachem Begin had agreed to resume bi-lateral talks within weeks and "they both approved a reconvening of the summit conference later this year at an appropriate time that will be convenient for all of us."

Administration officials said the new summit would occur after the Nov. 4 election

The president spent the day Wednesday courting ethnic and black voters in Philadelphia, after collecting the endorsements of the millionmember American Federation of State, County and Municipal Employees and the 250,000 member United

Transportation Union. Today, the president was virtually certain to be handed the biggest labor. prize of all - the formal nod of the 13.6-million-member AFL-CIO.

Reagan told the B'nai B'rith that ambiguities in the 1978 Camp David peace accords were responsible for bringing negotiations to a dangerous

Egypt broke off the talks a month ago after Israel declared that Jerusalem will remain its permanent capi-

'Now it (Jerusalem) exists as a shared trust," said Reagan. "The holy places of all faiths are protected and open to all . . . each is under the care and control of representatives of the respective faiths.

And then he declared: "Unlike the days prior to 1967, Jerusalem is now and will continue to be one city, undivided, with continuing free access for all. That is why I disagree with the cynical actions of the Carter Administration in pledging to preserve the status of Jerusalem in its party platform - and its undercutting Israel and Jerusalem by abstaining on a key

Reagan said that as a United States ally, Israel must remain strong.
"The interests of all the world are

served by peace and stability in the Middle East," he said. "To weaken Israel is to destabilize the Middle East and risk the peace of the world.

The former California governor's speech re-affirmed his longstanding commitment to a strong Israel. "In defending Israel's right to exist," he said, "we defend the very values upon which our nation is built."

Meanwhile, John Anderson, the independent candidate, tried to dispel reports that his campaign was floundering financially.

"The money is coming in, fear not," he told reporters in Detroit as he completed a five-day campaign swing through Wisconsin, Illinois and Michigan. "We will be able to finance this campaign."

In Philadelphia, Carter toured the city's teeming Italian market and spoke at the black Zion Baptist Church, both standard campaign

The Republican candidate has suggested that participation in the Social Security system be voluntary," Carter said. "That would destroy the system. Millions of Americans who have worked hard all their lives, who paid in their share for years, would be

And he added: "Retired Americans have not volunteered for that kind of suffering, and we are not going to ask them oo do it."

With the League of Women Voters set to decide by Sept. 10 whether to include Anderson in its first presidential debate, Anderson said he would appear alone with Reagan should Carter refuse to participate.

### Some miners still on strike in Poland

WARSAW, Poland (AP) - About 15,000 miners at three coal pits in Upper Silesia remained on strike today in local disputes after accepting a basic pact on unions and wages with Polish government negotiators, local sources said.

This communist country announced Soviet Union had further financial credit so that it can buy from the West badly needed raw materials for industry and would impose price controls to check the rising cost of living.

Earlier today, the official news agency PAP said coal miners throughout Silesia were back at work following the settlement Wednesday granting them the right to form an independent trade union and allowing other job concessions.

But the sources said the holdouts in Bytom, a city of about 100,000, were remaining off the job to underline their demand for changes in management. Mining Minister Wlodzimierz Lejczak was holding talks with the workers commission that replaced the local strike committee, the

sources said. The government tackled the economic roots of the crisis it hoped was ending with an announcement Wednesday that the State Price Committee would fix prices for meat and

wald's lawyer Craig Fowler said any

fied he "most certainly" did not give

the body to dispel rumors.

permission for exhumation.

46 other basic foods, 55 consumer items, rents and public transport fares. Heretofore, prices have been set individually by the major enterprises and service industries.

The announcement gave no indication what levels of prices would be set or how the panel would go about determining them. The biggest un answered question appeared to be whether the government would revive the subsidies which had kept the price of meat down and which it cancelled on July 1 in an attempt to improve its grave financial position.

The hike in meat prices that followed touched off strikes that built up to the communist regime's crisis worst crisis in 10 years and forced the Communist Party to promise social and political reforms never before conceded in a Soviet Bloc country. These included the right to organize free, independent trade unions, the right to strike and a relaxation of censorship.

Deputy Premier Mieczyslaw Jagielski said Poland faces "very difficult problems" in obtaining raw materials for industry and "the Soviet Union has given us an additional financial credit for purchases of raw materials in the West."

Jagielski said the loan would be used to buy materials for the chemical and steel industries as well as food supplies, but he did not specify the amount of the credit.

The Polish military paper Zolnierz Wolnosci said in a commentary the army could not remain indifferent to those who sought to weaken the unity of the nation.

"The morale and political unity of the community is one of the basic sources of strength of our military,' the paper said. "Therefore, whoever weakens that unity attacks the defensive part of the country and soldiers

cannot remain indifferent. "If the present situation in parts of our country brings anxiety, it is because a moment can come when it will bring profit to those political circles in the world which have been and are hostile to Poland.'

At the height of the crisis last weekend, 850,000 workers were reported on strike. Some 600,000 went back to work in northern and central Poland following the signing of a settlement last Sunday in the Baltic port of Gdansk.

### murder of Met violinist continued to struggle, the News said.

NEW YORK (AP) - The stagehand charged with the murder of violinist Helen Hagnes Mintiks reportedly has admitted that he tried to rape the musician and forced her at knifepoint to a sixth floor roof where she was hurled to her death, investigative sources say.

The sources, who were quoted in today's editions of the New York Daily News and New York Times, said the admissions were made on videotape shortly after Craig Stephen Crimmins was arrested last Friday.

The tape reportedly shows Crimmins, 21, answering questions put to him by detectives based on a written

statement he had given earlier. Highly placed sources told the News that a signed confession was made when Crimmins' lawyer was not pres-

ent, but that the suspect had been

read his rights. The News said that Crimmins told police that he had been drinking at a Jersey City, N.J., bar the night of the July 23rd murder before going to work at the Metropolitan Opera House where the Berlin Ballet was

performing. Crimmins then went to the basement of the opera house where he smoked marijuana for the first time, according to the newspaper. He reportedly told detectives that he encountered the violinist alone in a backstage elevator and made a pass at her, but she resisted.

Still in the elevator, Crimmins then allegedly tried to rape her but she

### Teachers' strikes plague 10 states

By The Associated Press

School officials in Rochester, N.Y., pledged to open public school classes today despite picketing by teachers in one of the 60 strikes plaguing 10 states. More than 500,000 youngsters are affected by the walkouts, the National Education Association says.

More than half of Rochester's 58 schools were closed Wednesday, the start of the school year, after most of the 2,300 teachers defied a court injunction forbidding the walkout. About 20,000 of the city's 34,000 students showed up for class, officials

The NEA reported teachers also were on strike in Pennsylvania, New Jersey, Ohio, Michigan, Illinois, Arizona, Washington, Rhode Island and

Officials in Newark, N.J., said they would open schools today as scheduled for 60,691 students in the state's largest school district, where 4,321 members of the Newark Teachers Union voted Wednesday to strike.

The teachers, following a no-contract, no-work policy, were seeking a 10 percent across-the-board salary increase. The school board had not offered any increase

Closed-door talks continued in Philadelphia between striking teachers and school officials. Classes resume Friday for some 220,000 students. The contract for 23,000 teachers and other school employees expired Monday.

Elsewhere in Pennsylvania, 12,500 teachers in 12 school districts were on strike, disrupting classes for 45,800 students.

In Columbus, Ohio, public schools opened today for 73,000 students with teachers on the job but bus drivers, maintenance and food service employees staying away. The Columbus Education Association voted Wednesday not to honor picketing by the Ohio Association of Public School Employ-

The school board was considering seeking court orders to force the strikers back to their jobs. The OAPSE wants a 14-month contract with a 95-cent-an-hour pay raise, while the board offered a two-year pact with the same raise.

Strikes in three other Ohio school districts continued

In other teacher activity: -More than 86,000 Michigan students and 4,700 teachers have been idled in 20 strikes. The Michigan Education Association said 122 school districts had no contracts, but classes were held while bargaining continued.

-Some 1,760 Illinois teachers were on strike in 12 school districts with 30,296 students affected.

-A strike by teachers in Sierra Vista, Ariz., entered its second day. About two-thirds of the 300 teachers stayed away from class on Wednesday, and about half the 5,700 students did not attend. Teachers are seeking binding arbitration for disputed contract items.

-More than 1,500 teachers remained on strike in four Washington state school districts. There were classes for the 1,500 students in Castle Rock, but nearly 29,000 others yongster were idled.

-In Rhode Island, some 15,700 students were at home because of teacher strikes in Woonsocket and Cumberland, and a walkout by janitors in North Providence that was honored by teachers.

-A one-day strike by janitors at the New Haven, Conn., public schools ended Wednesday, and in Iowa, theologians at the University of Dubuque ended a strike early Thursday after reaching a tentative agreement for a 10 percent increase in salary and

### Free pneumonia vaccine for elderly being urged

BOSTON (AP) - Dispensing free pneumonia vaccine to all Americans over 65 would make financial as well as medical sense because the cost to Medicare would largely be offset by lower doctor bills, a federal study has

A vaccine that prevents several kinds of pneumonia, the nation's fifth largest killer, has been available for three years, but federal laws prevent Medicare from covering its distribu-Medicare could provide the vaccine

at a net cost of \$5 per person, according to a federal study in today's issue of the New England Journal of Medi-The study, prepared for Congress

by the Office of Technology Assessment, urged lawmakers to give "serious consideration" to providing the vaccine to the elderly as a Medicare benefit.

The vaccine prevents pneumonia caused by 14 different varieties of pneumococcal bacteria. Those germs are responsible for 10 percent to 35 percent of all cases of pneumonia, or 5,000 to 17,000 deaths a year, experts estimate.

It would cost \$26 million, or \$5 a person, to vaccinate all those current-65 or older who would want the vaccine, according to the study, directed by Dr. Jane Sisk Willems. The cost was calculated by subtracting the amount Medicare would otherwise pay to treat elderly people who get sick with pneumonia.

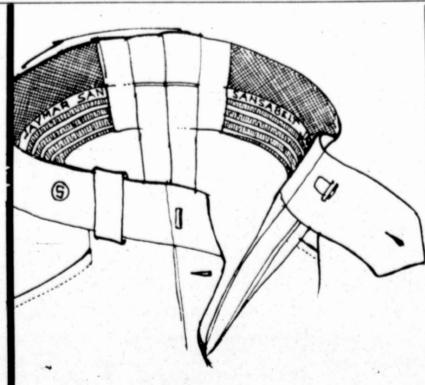

The Social Security Act now forbids Medicare payments for vaccinations, physical exams and checkups for glasses and hearing aids. But a bill due for consideration in the House late this week or next week would allow Medicare to pay for pneumonia vaccine, said Rita McGrath, a Medicare official.

The Food and Drug Administration allows the pneumonia vaccine to be used for people especially threatened the disease. Besides the elderly that includes people recovering from severe illnesses and those suffering from lung, heart and kidney disor-

In a separate study in the journal, doctors from the Center for Disease Control in Atlanta found the vaccine is far less effective for sick people than it is for the healthy.

In other studies reported by the journal:

-Doctors say hospitals should consider requiring their staffs to be immunized against German measles, a disease that can cause birth defects if mothers catch it early in pregnancy

### Nine West Texas counties gain sites for wildcat tests

Operators have announced locations for wildcat projects in Pecos, Culberson, Martin, Nolan, Runnels, Irion, Sutton, Concho and Coke coun-

#### DEEP PECOS TEST

Texaco Inc., operating from Midland, announced location for a 16,750foot gas wildcat in Pecos County, 35 miles southwest of Fort Stockton.

It is No. 1 Manzanita Unit, 660 feet from north and east lines of section 169, block 3, T\*P survey.

The prospector is 3 7/8 miles northeast of the Perry Bass (Devonian gas) pool which produces at 15,898

#### MARTIN EXPLSORER

RK Petroleum Corp. of Midland No. 2 J. E. Peugh has been spotted as an 11,400-foot wildcat in Martin County, six miles northeast of Leonorah.

Drillsite is 660 feet from north and 2,173 feet from west lines of section 13, block 35, T-2-N, T&P survey and 1/2 mile west of No. RK Petroleum No. 1 Peugh, a recently completed Mississippian oil discovery.

#### **CULBERSON WILDCAT**

Texaco Inc. No. 2 Culberson Fee "H" is to be dug as a 10,450-foot gas wildcat in Culberson County, 1,320 feet from south and east lines of section 1, block 61, T-1, T&P survey and 30 miles west of Orla.

It is 3/4 mile southeast of Texaco No. 1 Culberson Fee "H," an active

#### NOLAN LOCATIONS

Clear Fork Inc. of Abilene No. 1 Kenneth Duncan is to be dug as a 5,700-foot wildcat in Nolan County, four miles southwest of Trent.

The project is 2,200 feet from north and 1,980 feet from west lines of section 45, block 20, T&P survey and 3/8 mile northeast of Strawn production and 5/8 mile northeast of depleted Ellenburger production in the Chinquapin field.

#### JEM Petroleum Corp. of Englewood, Colo., announced loation for a 6,900-foot wildcat in Nolan County,

five miles southeast of Roscoe Scheduled as No. 1 Coyote, it is 567 feet from north and 2,640 feet from east lines of section 68, block 22, T&P

The drillsite is 2 1/2 miles northeast of the Ellenburger reopener of the Estaban multipay field. It also is 2,310 feet southeast of the field's Canyon production.

#### RUNNELS PROJECTS A pair of wildcat projects have been

announced in Runnels County. Jones Co. of Albandy No. 1-323 Weldon Miller is a 4,700-foot prospector three miles north of Winters.

The location is 660 feet from north and 467 feet from west lines of section 323, block 64, H&TC survey. Ground elevation is 1,893 feet.

The drillsite is 5/8 mile south of production in the Briley multipay

#### Mayfield Engineering Service of Tulsa announced location for a 4,500foot wildcat in Runnels County, five miles south of Rowena.

It is No. 1 H. Gulley, 467 feet from north and west lines of Jacob Schiwitz survey no. 178, abstract 426.

It is 2 1/2 miles south 0of the Rowena multipay field and sepaeated from it by depleted producers and a 4,609-foot dry hole.

#### IRION EXPLORER

Alford Petroleum Corp. of The Woodlands staked its No. 1 Ellis as a 7,200-foot wildcat in Irion County, six miles west of Mertzon. The prospector is 1,980 feet from

north and 660 feet from east Isines of section 85, block 1, H&TC survey. Ground elevation is 2,502 feet. The drillsite is one location south of

a 7,170-foot dry hole and 3/4 mile northwest of a long extension to the Sixty-Seven (Strawn) field.

#### SUTTON DRILLSITES

in Sutton County. HNG Oil Co. of Midland No. 2-35 Kelly will be dug as an 8,200-foot

It is 1,780 feet from south and 2,500 feet from east lines of section 35, TTRR survey and 3/8 mile west of Canyon gas production in the Sawyer multipay field.

Opertor will test a new zone as a wildcat and the Canyon gas pay.

American Public Energy Co. of Dallas spotted No. 1 Hull as a 6,200-foot wildcat test in Sutton County, 15 miles north of Sonora. It is 933 feet from south and west

No. 20 Midland Farms (Deep) Unit, 820 feet from south and 330 feet from east lies of section 38, block 1, University Lands survey.

### Work goes on at fire

MANSFIELD, La. (AP) - Wild well specialists moved in more equipment today for an attempt to snuff out a natural gas well burning out of control near Mansfield.

Firefighters experts from the Hous-16.1 company of Boots & Coots said they planned to use a charge of nitroglycerine Thursday to try to blow out the fire in the well, which is located in a parched forest in north Louisiana. A trench was bulldozed around the well to lessen the risk of touching off a

forest fire. "We now have everything under control in the area," Larry Oswald, general manager for C.L. Morris Drilling Co., said Tuesday. "There's

no immediate danger to the sur-

rounding area." He said equipment for the blast attempt began arriving Tuesday, a day after a surge of gas came up the hole and was ignited by a spark. Four

workers fled as the fire melted the

steel framework of the C.L. Morris drilling derrick.

Oswald estimated equipment damage at about \$450,000. Meanwhile, Mesa Oil Co. of Amaril-

lo, Texas, was trying to tame its runaway well 90 miles off the Louisiana coast. The well has been spewing quantities of gas up in flame since it blew out Aug. 25 while drillers were completing the hole at a depth of 5,700

A blowout is the most feared event in offshore work. Crewmen sometimes must leap into the sea from heights of 50 or 60 feet to avoid a fireball. In this case, the 37 crewmen got away safely before a spark touched off the gas.

A Mesa semi-submersible drilling rig has been maneuvered into position near the flaming platform and has begun a relief well that will angle into the wild well deep underground and enable drillers to choke it off with heavy mud.

#### No. 1 Elliott-Federal; 1,- elev 4,501 gl. Clements warns against GOP platform clashes

SAN ANTONIO, Texas (AP) - The Texas Republican platform should not contain any planks that would be divisive or embarrass presidential candidate Ronald Reagan, Gov. Bill

Clements has advised. The governor sent Jim Kaster, Clements' legislative liaison, to the opening meeting of the party's Temporary Platform and Resolutions Committee Tuesday to make it clear Clements does not want the convention Friday and Saturday to consider any planks on the Equal Rights Amendment or the so-called pro-life

The committee today began hearing testimony with a noon Thursday deadline for formulating the plat-

"He (Clements) is concerned that we don't get divisive things in the state platform. He (Clements) feels that we have the national platform and that that addressed the meaningful issues," Kaster said as the committee began three days of meetings to put together a state platform for the next four years.

"We know there are strong feelings held on both sides of some of the issues. He (Clements) would hope this would not be in the platform, particularly if it is counter to the national platform. Governor Reagan is coming to the state Sept. 16 and it would be very embarrassing to the governor to have to explain we in Texas did away with or voiced opposition to things that are in the national platform. That would be very difficlt and very embarrassing."

divisive by objecting that he did not want the committee to become a "rubber stamp" for a Clements plat-

Richard Sanchez, a San Antonio

member of the 20-member commit-

tee, pinned Kaster down to exactly

which issues Clements felt would be

told you to tell us is don't do anything don't think anything counter to what is already in the national platform,' right?" Sanchez objected. "I just wanted to be sure because if I'm just going to sit here and rubber stamp everything the governor wants done, I'm on a parking meter and I can just go ahead and leave and save myself a few dollars.'

Committee chairman Ray Barnhart of Pasadena and State GOP cochairman Chet Upham of Mineral Wells assured Sanchez that Clements had no intention of imposing his will on the committee and was only making recommendations as the titular head of the state party.

Earlier Sanchez won approval of a resolution to open the Tuesday meeting, originally planned as an executive session, and all other business of the committee to the news media when one reporter showed up. Kaster told the nine members of the

committee present Tuesday that Clements wanted approval of resolutions supporting initiative and referendum, electronic surveillance, budget execution power for the governor and a method whereby governors can remove appointees on a two thirds vote of the state senate. In the informal session Tuesday, the temporary committee decided on

### Betty Ford on California health care advisory panel

SACRAMENTO, Calif. (AP) -Betty Ford's battle against drinking and drug use has given her useful insight for her new position as a member of a state health care advisory committee, according to California's health director. The former first lady, who was treated for an alcohol and drug prob-

lem in 1978, will serve on a committee on hospital care for people with similar problems, Health Director Beverlee Myers said Tuesday. Mrs. Ford's secretary, Ann Cullen, said the appointment stemmed from

Mrs. Ford's interest 'in getting some

legislation passed to control how treatment is performed for the alcoholic and drug abusers." Committee members receive no salary and pay their own expenses,

Mrs. Ford and her husband, former

President Gerald Ford, live in Ran-

Stock market gains

NEW YORK (AP) — The stock market rolled up its second strong gain in a row Wednesday, responding to declining interest rates. The Dow Jones average of 30 industrials climbed 12.38 to 953.16, on top of

Tuesday's 8.19-point gain. The New York Stock Exchange composite index, up 1.43 to 72.71, and

the American Stock Exchange market value index, up 4.52 at 333.14, both reached record highs. Big Board volume accelerated to

52.37 million shares from 35.29 million the day before. Among savings and loan issues, one

of the most volatile interest rate-sensitive groups, Fidelity Financial rose 11/4 to 14 as of the 4 p.m. close in New York; Imperial Corp. of America 21/2 to 311/4, and Golden West Financial 1½ to 18½.

The daily tally on the NYSE showed

gainers outstripping losers by more than a 4-1 margin, with better than 1,350 issues in the plus column.

Standard & Poor's index of 400 industrials rose 2.12 to 142.57, and S&P's 500-stock composite index added 1.92

In the over-the-counter market, the NASDAQ composite index closed at

### Coffee prices being reduced

By The Associated Press

General Foods Corp. and Coca-Cola Co.'s Foods Division have announced they are reducing wholesale prices of ground coffee by 20 cents a pound to

Meanwhile, the Procter & Gamble Co.'s Folger's division said Wednesday it already has cut the list price on its vacuum coffee 10 cents a pound, reducing the price to \$2.98 a pound.

It also said it cut the price of instant Folger's by three cents an ounce, lowering the cost of a two-ounce jar to \$1.13. Proctor & Gamble said it reduced the price of its instant High Point decaffeinated coffee by 2.75 cents an ounce. The wholesale price changes could

be reflected in retail prices in about a month. But coffee sells below whole sale at many supermarkets, which use the beverage as a "loss leader" to attract customers or obtain discounts from roasters for large-volume pur-

General Foods said that in addition to cutting wholesale prices for regular ground coffee, it also cut prices for instant coffee by three cents an General Foods is the industry lead-

er. Proctor & Gamble is No. 2.

Frank Blod, group brand manager for the Coca-Cola division, said the price of roast and ground coffee was reduced to \$2.88 from \$3.08 a pound, a further reduction from the \$2.98 price that went into effect Friday. He attributed the price cut to "lower green coffee costs."

#### Livestock

AMARILLO, Texas (AP) — Texas Panhandie and western Oklahoma feedlot roundup. Confirmed: 7,400. Trade only moderate at best, in the panhandie area Wednesday aftensoon. Slaughter steers weak to 50 lower, limited sales heifers steady. Feedlots reported fair interest and inquiry from most buying sources. Sales on 5,000 slaughter steers and 2,400 heifers. Note: all live cattle prices based on net weight fob the feedlot after four percent shrink.

Slaughter steers: good and mostly choice 2-3, 70-85 percent choice, 1000-1300 lbs., 71.00-72.00, bulk 71.00-71.50.

Slaughter heifers: 280 head, choice 2-3, 950 lbs. at

Slaughter helfers: 280 head, choice 2-3, 950 lbs. at 59.00; good and mostly choice 2-3, 875-1000 lbs., at 68.00-68.50; 2 loads mixed good and choice 2-3, 875 lbs.,

TODAY'S ANSWER

**BUSINESS MIRROR** 

### Was there a real credit explosion?

**AP Business Analyst** 

NEW YORK (AP) - Do Americans use credit irresponsibly? Have they been overextending themselves? Or did the alleged unbridled growth of credit during the 1970s contain myth as well as fact?

The answers no longer are as clearcut as they had appeared to be when we casually spoke of the credit explosion and wondered aloud when our neighbors would be declared financially dead by the bankrucpty court.

On re-examination, some of the figures don't add up in quite the way we thought they did. And because they do not, some questions now arise about whether the country has always followed correct credit policies.

On March 14, for example, a worried Federal Reserve suddenly clamped down on consumer borrowing, and in so doing perhaps pulled the rug from beneath an economy that already was tripping and falling over itself.

The Fed move, which helped produce one of the most abrupt economic declines ever experienced, was well fortified with statistics. During the 1970s, for example, consumer instalment credit rose 207 percent, from \$101.2 billion early in 1970 to \$311.3 billion in late in 1979.

But after dissecting the figures for the AP, Professor William Dunkelberg, associate director of Purdue University's Credit Research Center, found "a somewhat different picture," which is to say a deflated picture. In real (not inflated) dollars, he points out, consumer instalment credit rose

58 percent in 10 years. In the same period, disposable income increased 20 percent, and population rose 19 percent. Considering this, and assuming a constant debt-to-income ratio during the

period, credit growth comes to 2 percent a year, "a modest figure in light of the attention policymakers have given to consumer credit." Besides, says Dunkelberg, we rely on statistical concepts that change. And

we sometimes include as credit what really are more like cash purchases, even credit cards are used. For example: In 1970, outstanding bank credit card debt was \$3.7 billion. By the end of 1979 it was \$29.2 billion and rising. Over the same period, retail credit rose to \$27.9

billion from \$13.1 billion. Big figures. But, says Dunkelberg, "over \$20 billion of this credit was probably repaid within the 30-day grace period permitted by credit card issuers." In other

words, the credit cards were used as cash.

Dunkelberg also observes that the credit burden sometimes was assumed to

be heavier than it was. But the length of loans has grown, meaning repayment terms do not represent the monthly drain of 10 years ago.

In addition, he comments, the population has become younger, and a younger population means heavier credit use because of the need to buy furniture and other items. They add to the credit statistics, but they do not

necessarily represent any change whatever in credit habits. Dunkelberg finds another peculiarity in the figures for the 1970s: Most of the credit growth appears to have been among the top 20 percent of the income distribution. The lowest 20 percent showed little change.

"All these factors generated debt statistics that overstated the increase in credit use when compared to figures based on data for consumers 10 years ago," the professor declares. "Thus, the notion of a 'credit explosion' may have, in retrospect, overstated the case." Said the professor in conclusion: "As has been true in the past, consumers

continue to show that they are quite responsible managers of their own One wonders if the same statement can be made about government borrowing, especially once all the off-budget borowing activities are exa-

### Machinists Union refuses to endorse Jimmy Carter

By TERRY KINNEY

CINCINNATI (AP) - The 800,000member International Association of Machinists and Aerospace Workers refused Wednesday to endorse President Carter for re-election, choosing to remain neutral instead.

Delegates to the union's 30th convention voted to support the Demo cratic Party's platform but not its presidential candidate The vote followed a triumphal ap-

pearance by Sen. Edward Kennedy of Massacusetts, whom the union had supported for the Democratic nomi-'We're entitled to better," Machinists President William Winpisinger

said of Carter's candidacy. He called the Democratic Party "the party of Ted Kennedy," and said he was com-fortable with the feeling that in November, union members would "vote their conscience and self-interest." Winpisinger urged the 2,700 delegates to ratify the recommendation of the union's executive council to be

neutral on the presidency, but to fully support the party's platform "as the best way to ensure re-election of a Democratic Congress."

Kennedy strode to the podium as the auditorium's sound system blared the theme from the movie "Rocky."
He was greeted by a long ovation and
many "Kennedy '84" signs.

Kennedy delivered a rousing denun-ciation of Republican presidential candidate Ronald Reagan, but gave Carter only tepid support, mentioning him by name just three times.
"President Carter has accepted the

spirit and the goals of the Democratic platform on the issue of jobs," Kennedy said.

A few minutes later he told the delegates: "Our duty in this election, as President Carter has said, is to show the Republican future for what it really is; for when the people see that future clearly, we can be confident that they will reject it over-

whelmingly." Kennedy did not ask the delegates to endorse Carter, but said he would campaign "to the best of my ability to defeat the forces of negativism, to defeat Ronald Reagan, for the election of President Carter and a Democratic Congress.'

DR. NEIL SOLOMON

### Exercise should be done safely

Dear Dr. Solomon: We seem to be reading a great deal lately about birth defects caused by radiation, environmental exposure and other hazards. How many such defects are there, and how many can be detected before a woman gives birth? - Anne. Dear Anne: More than

2,000 genetic abnormalities have been identified so far. Of these, about 500 can be detected before

Dear Dr. Solomon: My husband is an accountant and spends most of the week at a desk. On Sunday mornings, however, he goes to the Y for several games of raquetball, returning home so ex-hausted he can barely move. I tell him he's hurting himself by going from one extreme to another, but he says he needs the exercise. Isn't there a better way for an individual to keep in shape? — Mrs. A.M.

Dear Mrs. M.: The person who leads a sedentary life all week and then engages in strenuous activity to the point of exhaustion on Sundays is asking for trouble. Endurance exercises can be beneficial since they help improve the cardiovascular system, but they must be done intelligent-

In particular, three aspects of endurance exercises should be considered by anyone contemplating starting such a program - intensity, duration and frequency. Weekend athletes generally do not rate well on any of these factors.

My book, "Dr. Solomon's Health Diet and Exercise Plan," published by G.F. Putnam's Sons, devotes four chapters to exercise. You and your husband might want to review it to learn how to get started on a healthful exercise pro-

Dear Dr. Solomon: I've been trying to cut down on the number of cigarettes I smoke, but have had only partial success. Would switching to one of the new low-tar and nicotine brands be of any value? - Mrs. F.N.

Dear Mrs. N.: If you've been partially successful in kicking the cigarette habit, I suggest you try a little harder and maybe you'll have complete success. While changing to a low-tar cigarette may reduce your risk of cancer, you will

#### **Nigerian** flooding kills 240

IBADAN, Nigeria (AP) — Floods that surged through this provincial capital last weekend have killed at least 240 persons and police were continuing their search for bodies, the Nigerian News Agency re-ported Wednesday.

Police initially reported 33 persons dead in flooding caused by a 12hour rainstorm Sunday.

The news agency, quoting newspaper re-ports here, said the mortuary was "packed" in this city, the capital of Oyo province in south-

western Nigeria. State Gov. Bola Ige has ordered the demolition of buildings along the River Ogunpa, which flooded during the storm, the agency said. Officials hoped this would help re-duce the torrential flow of the river.

The victims reportedly included 29 persons killed when the house in which they all lived was

swept away. The federal govern-ment in the capital city of Lagos has ordered members of a special Committee on Natural Disasters to make an onthe-spot damage assess-

be just as susceptible to assessing the risks of heart and lung diseases. Moreover, if you plan on having children, you will remain at as great a risk from complications during pregnancy. According to Dr. Lawrence Longo, a physiologist at Loma Linda University in California, pregnant women who smoke lowtar and nicotine cigarettes have a 30 to 70 percent greater risk of spontaneous abortions and a 36 to 47 percent greater risk of prema-

ture delivery. Part of the difficulty in

smoking low-tar and nicotine cigarettes is the lack of knowledge about their long-term effects. Although tar and nicotine levels mauy be reduced, carbon monoxide levels remain unchanged. In addition, many smokers who switch to the newer brands of cigarettes tend to smoke more or to inhale more deeply.

In view of these uncertainties, the prudent person will never start smoking or, if a smoker, will try to stop.

ROCK ISLAND, Ill. (AP) — If he had it to do over, Clarence Darrow would jump at the chance to repeat he said.

the famed Scopes monkey trial. He said so, just the other day. 'Sure I would. That was the trial of the century," said Clarence Darrow, descendant and namesake of the celebrated Chicago lawyer who more than a half-century ago made history after the fact. by defending a teacher's right to

teach evolution in Tennessee. Trials of the century come around infrequently, so the younger Darrow has not yet had his chance. He has had his moments, however.

By WAYNE SLATER

Earlier this year, some fundamentalist preachers had a bill introduced in the Illinois General Assembly to require public schools to teach the biblical story of creation along with evolution. Darrow, a member of the House, prepared to lead the opposi-

"Actually, I didn't object to the

teaching of the biblical story of creation if they'd offer all the others, too,"

The preachers had only Genesis in mind and the bill died in committee. Still, the thought of a modern-day Clarence Darrow facing the foes of evolution in 1980 had folks buzzing during this year's Clarence Darrow birthday party in Chicago, an annual celebration that survives 123 years

Young Clarence was this year's keynote speaker. And he was there in Hyde Park in March to mark the anniversary of the scattering of Darrow's ashes according to his last wish.

Darrow the younger never met Darrow the elder, who died in 1938. His link is through his grandfather, a cousin of the famed lawyer.

Carrying the name likely has helped in politics, young Clarence is quick to admit, but it has had its drawbacks. Secretaries at Chicago law firms inevitably are flustered

when Clarence Darrow calls. Some don't believe him. John Marshall Law School didn't even respond a few years ago when he requested an application.

"I later learned they thought it was

a joke," he said. Darrow went to Kent College in-

stead, turning from social work to law in 1971 and to politics three years later. He has made a name for himself, battling the utilities unmercifully, championing labor, defending the poor and elderly.

Darrow stretched out his lanky frame and looked about his law office. He is a big-boned man with a firm chin, blue eyes and a thatch of dark hair curling around the ears.

As he grows older, he sees more similarities with his namesake.

'He was a lawyer and a Democrat, and he was in politics, a member of the Illinois General Assembly, in

'Sometimes somebody will say I even look like him," he said. "But we are different men and this is a different time. In no way do I have his speaking abilities or his wit."

But each has made his way to Dayton, Tenn., the older Darrow in 1925 for the trial, the younger last Christmas as a kind of pilgrimage.

"It hasn't changed a bit from the old pictures of the trial," he said. "The old courthouse is still there, the benches and chairs, all still looking the same. It was exciting just being

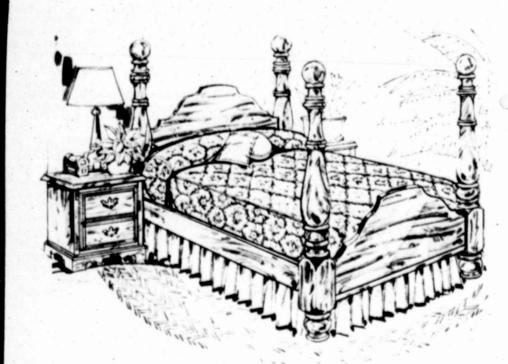

Darrow stood in the courtroom with its worn flooring and vaulted ceiling that once echoed with the oratory of the artful Darrow and the silver tongue of William Jennings Bryan.
