Elmer Norman, wearing a hearing headphone set, talks to newsmen.

\$4.5 milllion won't change his lifestyle

By PAUL SIMON **Associated Press Writer**

POMONA, Calif. (AP) — Elmer Norman doesn't deny he wants the \$4.5 million awarded him in a landmark lawsuit against an insurance company, but the 72-year-old retiree doesn't believe it will change his

Besides, Norman said at a news conference Wednesday, the Colonial Penn Franklin Insurance Co. is likely to appeal the award by a Pomona Superior Court jury, and whatever money he eventually realizes will be

"I've been waiting five to six years to get this suit heard in court," said Norman, nearly deaf and also blind in one eye. "I would not be surprised if it took another five years for the appeals. At my age, the chances are I will never see one cent.

"In other words, my eyes aren't glued on the pot of gold." The insurance fraud suit was launched in 1976 after Colonial Penn initially refused to pay a \$48 charge for a hearing examination for Norman, a retired apartment manager now living in Azusa. The action charged that the insurance company fraudulently switched Norman's health insurance policy in 1974 to one providing 40 percent less coverage, despite claiming that the change would result in "substantial improve-

ment" in coverage Norman's lawyer, William Shernoff of Claremont, presented evidence that Colonial Penn planned to reduce its claims payment by \$4.5 million a year by curbing its coverage to the 2.5 million members of the American Association of Retired Persons participating in the group program.

Norman said he filed the suit to help find a good insurance policy for the elderly, especially those who like himself suffer from chronic illness. "I don't know all the details," he said, "but it seems as though Colonial Penn was able to use the name of the American Association of Retired Persons as a form of camouflage to give themselves a good name."

Colonial Penn has come under fire from consumer advocates who claim the company preys on the elderly through its exclusive contract to provide insurance for members of AARP.

The company said it plans to appeal Tuesday's verdict, which included \$70,000 in compensatory damages.

'We are shocked and disappointed by the verdict," said Daniel Crough, senior vice president and corporate counsel for the Colonial Penn Group, the parent company of the insurance business.

Crough said Colonial Penn had been losing money on its out-of-hospital coverage and told AARP that instead of increasing premiums it would

Shernoff, however, said that the company was making a profit on the five other health policies it offered.

Norman said that if he did end up with lots of money from Tuesday's Superior Court award, he would donate much of it to consumer protection agencies, which preceded him in his battle against Colonial Penn.

U.S. must do more to free hostages, Iran says

By The Associated Press

DAY 383

The speaker of Iran's Parliament says the United States must do more to get the 52 American hostages in Iran released, but Washington hopes for a different response from the Iranian government. "In principle,

the U.S. government has accepted all the conditions," Hashemi Rafsanjani told a news conference in Algiers Wednesday. "But it claims it will take time to implement its acceptance of the con-

"We have agreed to release the hostages on condition that the U.S. government implements the conditions. Acceptance in principle is not enough

"When the conditions are accepted, the hostages can be freed. It all depends on the American government showing its sincerity and coopera-

He added that the Algerian ambassadors to Iran and the United States are in Tehran and "are cooperating with Iranian experts in considering the American reply and discussing Iran's final decision.'

Secretary of State Edmund S. Muskie declined to comment on Rafsanjani's remarks, telling reporters in Washington the Carter administration had "no reason to believe this is an official response.

"It is our understanding that the executive branch of the government is still considering our proposals," Muskie said, "and until we have some indication there is an official response, it is not particularly useful to try to comment or interpret this kind of statement."

A European diplomat in Algiers said Rafsanjani "at first sight" appeared to be rejecting the partial American acceptance of Iran's condifor an abrupt decision to release the hostages, a kind of face-saving," he added.

Today was the 52 Americans' 383rd day in captivity.

President-elect Ronald Reagan's chief foreign policy adviser, Richard V. Allen, told ABC-TV's "Nightline" program that the hostage crisis will be discussed Friday by Reagan's interim foreign policy advisory board, which includes former President Gerald Ford and Sen. Henry Jackson, D-Wash.

"It is true that plans are being made. Options are being studied. It wouldn't serve any particular purpose for me to go into details now .

tions. But "it could be a smokescreen for an abrunt decision to release Muskie pleased with Iran's attitude

WASHINGTON (AP) — Secretary of State Edmund S. Muskie said today Iran is taking a positive approach to U.S. proposals for release of the 52 American hostages and "that attitude is welcomed."

"I think the way in which the Iranians have handled our proposals is positive," Muskie told reporters after a breakfast meeting with visiting West German Foreign Minister Hans-Dietrich Genscher.

But he said he has not received a response from Iran to the U.S. proposals transmitted last week through Algerian intermediaries. Depending on Iran's reply, Muskie said he was ready to send a top-level negotiating team back to Algiers.

Reports from Tehran quoted Prime Minister Mohammad Ali Rajai as saying the Carter administration had agreed in principle to the four conditions set by the Majlis on Nov. 2 for freeing the Americans.

These are a pledge of non-interference in Iran's affairs, unblocking of more than \$8 billion in Iranian assets, cancellation of all claims against Iran and return of the wealth of the late Shah Mohammad Reza

campaign boss likely CIA head

WASHINGTON (AP) — As infighting over prized Cabinet posts builds, Ronald Reagan will begin filling his administration's top jobs this weekend, and his friend and campaign manager, William Casey, is likely to be picked to head the CIA, sources close to the presidential transition say.

Sources said Casey, 67, who had some World War II experience in intelligence, faced virtually no opposition as CIA director, although stiff competition continued for many other Cabinet-level jobs.

Reagan, meeting with President Carter today for the first time since the election, plans to return Friday to California, where he is expected to begin making final choices for his Cabinet. The selections, however, are not expected to be announced for several days.

Transition sources said William French Smith, Reagan's 63-year-old personal lawyer, remained the clear favorite to become attorney general, and William Simon was considered likely to return to his old

job as treasury secretary.

Smith, Casey and Simon are leading figures in Reagan's "kitchen cabinet," 19 senior advisers who drafted the list of top Cabinet candidates. Sources said that while those three positions

seemed fairly firm, the rest of the Cabinet selections still appeared fluid, with competing candidates and pressure groups jockeying for position. Several aides close to the transition also noted that

the list of candidates still could change and that Reagan might not follow it strictly.

Casey, former chairman of the Securities and Exchange Commission in the Nixon administration, is one of Reagan's closest political friends and took over the presidential campaign after former manager John Sears was fired last winter.

Casey worked during World War II for the Office of Strategic Services, a forerunner of the CIA. Although one source said he didn't think "anyone would challenge Casey" for the CIA post because of his close relationship with Reagan, most other Cabinet candidates lacked that clear an advantage.

Sources said the struggle over who will head the State Department was primarily between Gen. Alexander Haig, former NATO commander and President Richard M. Nixon's last chief of staff, and former Treasury Secretary George Shultz. Haig is backed by more hard-line elements within the Reagan camp while Shultz is considered more of a

Sen. John Tower, R-Texas, remained a prime contender for defense secretary, sources said. But one source said that choice "was not as solid as some of the others," while another source said Tower "was in the pack" of candidates.

Reagan met with Tower on Capitol Hill on Wednesday, but Tower refused comment on their talk.

Other names mentioned for the Pentagon job included Haig, former Treasury Secretary John Connally and Texas Gov. William Clements.

President-elect Ronald Reagan talks with Chief Justice Warren Burger during Reagan's visit to the Supreme Court Wednesday. From the left, Burger, Justices John Paul Stevens and Harry Blackmun, and Reagan. (AP Laserphoto)

Hospital reports record revenues

Income exceeds \$1 million for month of October

By SUE FAHLGREN Staff Writer

Midland Memorial Hospital's finance committee reported record revenues of more than \$1 million from patients for the month of October at the board of trustees monthly meeting Wednesday.

According to Robert Abernethy, assistant administrator of finance, the hospital's patient revenue for October hit \$1,452,141,000 — the highest revenue generated in a single month in the history of the hospital.

"A key factor (in the increased revenue) has been the increased census," Abernethy said.

Hospital Administrator Ray Branson told the board members, "At this point, I'd say (the increase) is attributable to the influx of new doctors in this area." He said the increase in physicians servicing Midlanders was resulting in "a continual increase in occupancy.'

Branson added that if the hospital could hire more registered nurses, additional rooms on recently renovated wings could be opened for even more occupancy.

Abernethy said the average number of inpatients a day for October was 147.3, compared to a budgeted 127.6 patients a day. The increased patient revenue al-

lowed the hospital to have an excess from operations for the month of \$84,-370, compared to a budgeted excess of \$20,657, leaving a favorable variance in the figures of \$63,713 above budget

However, Abernethy reported, when the monthly equipment depreciation expense is figured, the excess becomes a deficit of \$9,380 compared to an expected deficit of \$73,093 for the first month of the 1980-81 fiscal year.

The figures even seemed confusing to board members.

Trustee Gene Abbott told Abernethy he did not understand how the hospital could have such a large revenue month and still end up with a deficit after depreciation is figured in. "I for one have never had a finger on whether we're running a tight ship here," Abbott said.

Operations Committee Chairman and Trustee Roy Campbell answered Abbott, saying, "I feel that progress is being made. . . we're taking them

Branson echoed Campbell, saying, "I believe we have a handle on where the money problems are now."

In addition, Abernethy reported the hiring of two additional men to help him in the financial end of the hospi tal's operation: a comptroller and a materials manager. The comptroller. Dale Miller, is a Texas Tech graduate in finance and came to Midland from a hospital in Atlanta, Ga., where he was also involved in finances. The materials manager, Carson Collins, is from Lake City, Fla., where he served in the same capacity, but he has not arrived in Midland yet.

Indigent care patient costs for October were \$21,709; while bad debt write

U.S. is fooling itself on global oil supplies, grim Senate report says

WASHINGTON (AP) — In a grim report on global oil supplies, the Senate Energy Committee said today the United States is fooling itself it it believes reduced oil imports will insulate the nation from the hardships and possible conflicts resulting from the

continuing energy shortage. The committee, reporting on a year-long investigation into the international implications of the energy shortage, said the U.S. focus on reducing imports ignores the fact that energy self-sufficiency "is highly unlikely within this century, let alone

within the next 10 years. The committee said the stress on long-term energy independence has led the United States to neglect the urgent need to stockpile oil — for both civilian and military needs — to prepare the nation for likely supply dis-

Lack of such stockpiles could throw the United States into a panicked world market in a severe disruption, the report said. And the political deals that would be made in such a market - and are being made now by some consuming nations - could threaten the Western Alliance.

"Unless the industrialized countries rapidly develop a common approach to dealing with oil supply stringencies, more intensive competition among the consuming nations could drive ever-deepening divisions among the allied countries, creating new openings to be exploited by potential adversaries and increasing the danger of violent conflict in the Middle East," the report said.

It also said that producing nations have turned oil into a powerful politi-

United States, France, Germany, Italy, Japan and Brazil to trade advanced weapon systems and certain technologies which have military applications to the Middle East," the report said. It added that, "As competition for

oil becomes more divisive and extends deeply into the political sphere, the strains on the free-world alliance are likely to become severe. Such strains will affect all the industrialized countries whether or not they are 'energy independent.'"

The energy status of the Soviet Union also bodes ill for the United States, the committee said, because the Soviets can be expected to seek increased Mideast influence.

"By gaining greater influence over the Middle East producers, the Soviets can obtain leverage over Western Europe, the United States and

the braining of the second sec

"Because the Soviets are not likely to possess the hard currency to buy oil on the world market, they might attempt to secure it through political manipulation, intimidation or use of

"By exploiting local unrest, giving aid to dissident groups, using diplomatic pressure and supporting revolutionary movements sympathetic to Moscow, the Soviets can substantially expand their influence in the region without having to take overt action."

Another problem with the Soviets, the committee said, is the growing Western European reliance on Soviet natural gas. It noted that France. Italy and West Germany already depend on the Soviets for 15 percent to 20 percent of their gas. Germany has felt obliged to announce it will not allow its dependence a exceed 30 percent.

"To the extent that the USSR is able to increase its gas exports to Western Europe, it can strengthen its economic influence over the West and constrain Western Europe's ability to ioin the United States in cooperating on political, economic and even military matters," the sturdy said.

The Commerce Department last week approved a proposed sale by the Caterpillar Tractor Co. of Peoria, Ill., of 200 pipelaying machines to the Soviet Union.

The Soviets hope to use the equipment to build a natural gas pipeline from Siberia to Western Europe.

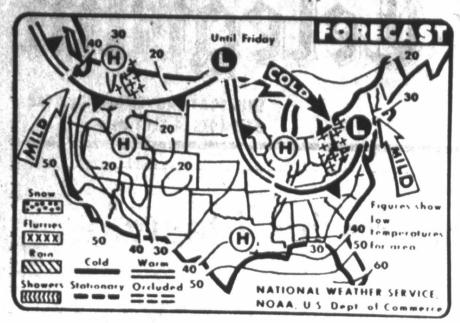

The committee report concluded that the United States "must recognize that the energy problem is not only a long-term issue, but that it is an immediate concern. And we must recognize that the energy problem has many international aspects."

The committee recommended that the United States begin building a Domestic Petroleum Reserve by filling its defense reserve as quickly as possible and by encouraging private stockpiles.

"Although the government should discourage hoarding during a crisis, it should promote, rather than interfere with, private sector efforts to build stocks in anticipation of a sudden shortfall," the report said.

The committee noted that the nation's defense reserve has only about a 20-day supply of oil and has had only sporadic deposits because of the opposition of producing nations. The Senate earlier this week voted to direct the administration to begin filling the reserve at a rate of 300,000 barrels a day, and the report en-dorsed a 'significantly higher rate' than at present.

NEATHER SUMMARY

Sunny, mild weather is expected for most of the country. Colder weather is forecast from Minnesota to New England. Snow flurries are forecast for the northern Rockies and for West Virginia, western Pennsylvania and Ohio. (AP Laserphoto Map)

Extended forecasts

Warm, sunny days forecast

Warmer and sunny days are expected for the beginning of the week-

The National Weather Service has predicted tonight's low to be in the upper 20s, but Friday's high should climb into the upper 50s.

Winds tonight and Friday are ex-pected to be light and variable. Wednesday's high of 43 degrees was

far from breaking the 1950 record high of 83 degrees. This morning's low of 26 degrees came close to breaking the 1937 record low of 23

The weather elsewhere

No precipitation was recorded at the National Weather Service, leaving the monthly total at .40 inch and the yearly amount at 16.23 inches.

Area towns this morning were reporting clear skies, cold temperatures and a small amount of snow still on the ground from last weekend's

Port Arthur neighborhood flooded with gasoline

PORT ARTHUR, Texas (AP) — Hundreds of people in this coastal refinery city were barred from their omes again today because a break in a gasoline pipeline flooded their neighborhood with thousands of gal-lons of highly explosive fuel, police

Police and firemen sealed off the new, mainly middle-class developnent when the break was discovered Tuesday night, and residents were llowed to return to their homes only ong enough to pick up their clothes after workers were unable to repair the line Wednesday.

Almost 29,000 gallons of unfinished asoline poured from the break in the ine, collecting in ankle-deep pools in backyards, filling storm sewers with 8 to 8 inches of the volatile liquid, and forcing 240 families from their

Police Sgt. Roosevelt Benable said gas and electricity had been cut off in the neighborhood.

He said the fuel was no longer leaking from the break, but that there were still dangerous accumulations of

fumes from the saturated earth.
Workers from Independent Refining Corp. of Winnie, which owns the line, began working on the pipe Wednesday morning. About 20 feet of line will have to be replaced, the

company said.

Ken Tillinger, chief engineer at the Winnie plant, said the break was caused by a malfunction in the interlock system, which is supposed to shut the line automatically when pressure in the pipe is too high.

Pressure build-up in the pipeline blew it out, Tillinger said. He said about 700 barrels - 28,900 gallons escaped from the pipeline.

Firefighters used vacuum machines to suck the gasoline out of the ground and flushed the soil with

"Everything's under control," Assistant Fire Chief Louis Miller said Wednesday. "The leaking was stopped last night. Now it's a matter of getting the gas out of the ground and cleaning up the ditches.

"It filters through the earth like a capillary action and you have a lot of fumes and vapors," Miller said. He said he did not know when residents would be allowed to return to

The Red Cross center "has been open since 4 a.m. and we were informed at that time the situation had become dangerous," said Red Cross spokesman James Carter. "There is a danger of an explosion due to the fact that the wind is not blowing away the

Police spokesman Alfred Gillen said officers were "setting up roadblocks and keeping traffic out of the area." which covered about 10

The evacuation was ordered about 7 p.m. Tuesday when the gasoline began seeping into the new development of apartments and \$100,000 to

Cancer Society spreads go cold turkey' message

By The Associated Press The American Cancer Society was spreading an appropriate pre-Thanksgiving message to smokers throughout the country today - "go

cold turkey.'

Programs across the nation - undertaken as part of the Society's 24hour Great American Smokeout used variations of the "cold turkey" theme to get cigarette smokers to give up the habit, at least for one

Little Rock, Ark., for instance, was to be the scene of a drawing for a frozen turkey for those who participated in the Smokeout.

A "costumed cold turkey" drummed up support for the day's fast from nicotine in Cleveland by handing out lapel buttons and pledge cards Wednesday.

In Cincinnati, the Cancer Society planned to have an open coffin at Fountain Square in the downtown area, where smokers were to toss their cigarettes. The first 100 to do so were to get a free cold turkey sandwich from a nearby shop.

And in Colorado, a supermarket chain donated the traditional Thanksgiving dish as a drawing prize for state employees giving up smoking for more than 24 hours

The Cancer Society believes that as many as 30 percent of America's 54 million smokers will attempt to kick the habit today.

This year's national chairman for the Smokeout is singer Natalie Cole, who has tried unsuccessfully in the past to give up smoking and will try again today.

The Great American Smokeout was launched by the publisher of a Monticello, Minn., weekly newspaper in 1974. Lynn Smith, a 60-year-old reformed smoker, has watched the event grow to a nationwide effort since his first "D-Day," or "Don't

DEATHS

R.J. Eason

R.J. Eason, 66, of 805 S. Dallas St., died Tuesday in a Midland hospital after a brief illness.

Services were to be at 2 p.m. today in the Newnie W. Ellis Funeral Home chapel with the Rev. Ross Payne of Cottonflat Baptist Church officiating. Burial was to be in Fairview Cemetery under the direction of Ellis Fu-

Eason was born Oct. 27, 1914, in Midland, where he was raised. He entered the service during World War II and served in Asha. After his discharge in 1945, he was employed by Earnest Neill for 25 years. In 1970 he went to work for Martin Neill until September 1979. He was a member of the Baptist Church and the VFW.

Survivors include his wife, Colleen Eason of Midland; three sons, Val Eason of Temple, Rick Eason of Carbon and Curtis Eason of Midland; five daughters, Peggy Redford of Yardley, Pa., Nora Anderson of Carbon, Lil McClenny of Duncan, Okla., and Pat Heffron and Joann Smedley, both of Midland; 19 grandc hildren and several nieces and nephe ws.

Leonard Gibson, 77, of Stanton will be at 2 p.m. Saturday in the Newberry Chapel in Childress with burial in Childress Cemetery'. Local arrangements are being handled by Thomas Funeral Home of Midland.

Gibson died Sunday in a Stanton hospital.

ard, where he lived most of his life. He had lived in Stanton for the past year. He was a member of the First Baptist Church in Childress.

Loretta Grigory and Patt Betts, both of Midland; a brother, Woodrow Gibson of California; a sister, Mae Ivey of Pampa; eight grandc hildren and a great-grandchild.

'Midge' Hagar

LUBBOCK - Services for Willie "Midge" Hagar, 74, of Lubbock, mother of Joyce Cherry of Midland, were to be at 10 a.m. today in Faith Assembly of God Church here.

Graveside services were to be at 4 p.m. today in Girard Cemetery at Girard directed by Franklin-Bartley

Funeral Home Mrs. Hagar died Monday in a Lubbock hospital.

She had lived in Lubock seven years. Mrs. Hagar had lived in Kent and Dickens counties for most of her life. She was a member of the First Assembly of God Church in Jayton. She was married to Cly de Hagar Jan. 6, 1923, in Clairmont.

Opal McKinight

Opal McKnight, 81, 2800 W. Illinois Ave., died today after a lengthy ill-

Memorial services were to be at 4 p.m. today in Glass Memorial Chapel of First United Methodist Church with Dr. Charles Lutrick, senior pastor, officiating.

Funeral arrangements are pending with Newnie W. Ellis Funeral Home.

Kevin Biddle

Graveside services for Kevin Dwight Biddle, infant son of Mr. and Mrs. Roy Dwight Biddle of Big Spring, were to be at 1 p.m. today in Fairview Cemetery directed by Newnie W. Ellis Funeral Home.

Kevin died Tuesday in a Big Spring hospital. He was born Oct. 19, 1980, in Big

Spring.

Survivors include his parents; his grandparents, Mr. and Mrs. Roy Biddle of Bg Spring and Mrs. William B. Phelps of Hope, Ark.; his greatgrandparents, Floyd Biddle of Big Spring and Mr. and Mrs. M.I. Collinsworth of Artesia, N.M., Mrs. H.A.

Kaplan says Klan activity is stepping up in Canada

OTTAWA (AP) — Solicitor-General Robert Kaplan says the Ku Klux Klan is stepping up its activity in Canada, and he is considering whether to place the white supremacist group under Royal Canadian Mounted Police surveillance.

Phelps of Midland, and Mr. and Mrs. E.S. Wills of Hope, Ark.; and several aunts and uncles.

Maria C. Ortega

SAN ANGELO — Rosary for Maria C. Ortega, 74, of San Angelo, mother of Fransisca Villanueva and sister of Elisa Enriquez, both of Midland, will be recited at 8:30 p.m. today in Gutierrez Funeral Home chapel in San Angelo. Mass will be said at 10 a.m. Friday in Sacred Heart Catholic Church with the Rev. Fred Nawerskas officiating. Burial will follow in Calvary Cemetery in San Angelo.

Mrs. Ortega died Tuesday in a San Angelo hospital after a brief illness.

Born Sept. 19, 1906, in Del Rio, she moved to San Angelo in 1959.

Other survivors include a daughter, two sons, two brothers, 24 grand-children and 17 great-grandchildren.

Ida R. Cook

HOBBS, N.M. - Services for Ida Robinson Cook, 77, of Hobbs, N.M., aunt of Richard Robinson of Midland, were Wednesday in Easterling-Wilson Funeral chapel with burial in Sunset Memorial Gardens.

Mrs. Cook died Monday in a Hobbs, N.M., hospital.

She was born Dec. 29, 1902, in Petrolia. Mrs. Cook was a housewife and a member of the Presbyterian Church.

She moved to Hobbs from Tulsa, Okla., three years ago.

Other survivors include her daughter, a sister, a brother, two grandchildren and two great-grandchildren.

'Ray' Stewart

LAMESA — Services for M.R. "Ray" Stewart, 87, of Lamesa will be at 2 p.m. Friday in First Baptist Church with the Rev. Milo Arbuckle, pastor of Alamo Heights Baptist Church in Midland, officiating, assisted by Dr. C.H. Murphy, pastor of First Baptist Church in Lamesa.

Burial will be in Lamesa Memorial Park directed by Branon Funeral

He died Tuesday in a Lamesa hospital following an illness.

Stewart was born Dec. 24, 1892, in Edith in Coke County. He was mar-ried to May Idella Smith in June 1922, in Coke County. She died March 6, 1975. He moved to Dawson County in 1955 after completing 20 years service with the U.S. Forest Service in the Tonto and Prescott National Forests

in Arizona. He was a Baptist. Survivors include a daughter, Alva Saufley of Phoenix, Ariz.; two sons, Donald R. Stewart of Lamesa and Harvey J. Stewart of Arlington; a sister, Daisy Duncan of Big Lake; 11 grandchildren and four great-grand-

AcCamey, Plains tilt to feature high-octane offenses

By MIKE CRUVER R-T Sports Writer

g. DIAL 682-6222

on

. 22 tmas

riday night's (7:30) Class AA bi-district clash ween the McCamey Badgers and the Plains Cows will feature a high-octane offense meeting unyielding defense.

We are real proud to be in the playoffs for the cond year in a row; it's good for our program., said cCamey second-year mentor Larry Nabors. Last ason the Badgers went 8-1-1 and lost in a bi-district ash to Seagraves. This season the Badgers adnced to the playoffs by going 8-2 and winning istrict 6-AA

PLAINS FIRST-year coach George Black was just happy, saying, "Our kids worked hard, we didn't eve much depth so we had to stay healthy." Plains on the District 5-AA crown with a 7-2-1 mark. By nning, the Cowboys snapped Seagraves' playoff pearances at seven straight years.

Black noted, "We will have to move the ball and ay tough defense. Defense is what got us here." ght he is. Plains gave up only 60 points in 10

games. The Cowboys were real tough in district Ernest Velasquez can get the job done. For the games, allowing only 12 points to six opponents.

ON THE other side of the pigskin is a McCamey squad, who averaged 30.1 points per game. And if they can get their running and option game together, the Badgers could be a handful for the Cowboy

Badger right halfback Ben Ferguson, a slippery 170-pound senior, rolled up 1,281 yards rushing, averaging 8.3 yards a crack. Ferguson racked up 12 touchdowns on the seaon. Helping out in the backfield is B.J. Terry, 155-pound senior, who averaged nine yards a tote and gained 1,034 yards with 11 TDs. Defenses can't forget fullback Mike Hanks and his 409 yards and four TDs.

NABORS said, "We expect a tough game, they (Plains) are bigger then we are but perhaps we are quicker." Nabors added, "We may have to throw the ball a little more. During the district race we didn't have to pass but Friday night we may fill the

If the Badger go to the air, senior quarterback

season Velasquez has throw 81 times, complet-

for sure who lead the team." Black noted that no one in his backfield, quarterback James McElroy, tailback Mike Cheatham, fullback David Huerta and flanker Dextor Baker or Wade Gass, should be taken lightly and they can hurt you in many different

MCCAMEY'S losses this season were to Rankin. 17-13, and Seagraves, 31-24. Plains lost to New Deal. 14-10 (when its top two quarterbacks were hurt) and to Bovina, 20-15.

What's the key? Said Black, "Adjust, play our game, don't make a lot of mistakes, we can't afford to beat ourselves." McCamey's Nabors said almost exactly the same, "Don't beat ourselves. We can't make a lot of mistakes.'

There you have it. Come 10 p.m. Friday, one of these team will have made one too many mistakes. MCCAMEY OFFENSE

season Velasquez has throw 81 times, completed 31 for 537 yards and six touchdowns.

Asked about his offense, Black stated, "We are a balanced team in rushing and scoring and I can't say

THURSDAY, NOVEMBER 20, 1980

Martin landslide manager pick

AP Sports Writer

Billy Martin, the firebrand of the Oakland A's, who led an almost anonymous team to a remarkable secondplace finish, was named American League Manager of the Year for the third time by The Associated Press

Martin was an overwhelming choice in the balloting by a nationwide panel of sports writers and broadcasters, receiving 400 1/2 votes to 108 for runner-up Jim Frey, who took the Kansas City Royals to the American League pennant in his first year on the job

Dick Howser, who succeeded the combative Martin as manager of the New York Yankees and won the East Division title in his rookie year, finished third with 201/2. Earl Weaver of the Baltimore Orioles was fourth with

Martin did an amazing job with the A's, taking a team which finished in last place, 34 games behind first place in 1979, to contention in 1980. Using virtually the same club which had lost 108 games the year before, Martin

with an 83-79 mark, 14 games behind the Royals in the West Division race. The 29-game improvement was one of

the best any team has ever enjoyed. The A's are the fifth American League club Martin has managed, following stints at Minnesota, Detroit, Texas, and New York twice. He has been named AP Manager of the Year twice before, in 1974 when he led Texas to a second place finish in the West, and in 1976 when he won the pennant with the Yankees.

Martin went to Oakland just before spring training and was the main gate attraction for the A's in the early part of the season.

He was available after being fired by the Yankees following a fight in Bloomington, Minn. hotel with a marshmallow salesman last October. That was the latest in a string of off-the-field battles for the manager who carried on a celebated running feud with owner George Steinbrenner during his two terms with the Yan-

Perhaps his most famous war with Steinbrenner came in 1978 when he called both the Yankee owner and superstar right fielder Reggie Jackson liars. "One's a born liar, the other's convicted," the manager said, referring to Steinbrenner's conviction for illegal political campaign contributions. Within days, he was gone, replaced by Bob Lemon. Then, just as suddenly, Steinbrenner announced that Martin would return as Yankee manager in 1980, whith Lemon becoming general manager

That scenario never developed Lemon took the Yanks to the 1978 world championship and was named AP Manager of the Year. But when the team got off slowly in 1979, Steinbrenner brought Martin back for a second term. The club staggered to a fourth place finish - the lowest any Martin-led club has ever finished and after the bar room fight, Steinbrenner fired the manager.

But three months later, he was back again, leading the A's to one of the most amazing form reversals in recent baseball history.

Bill Virdon of the Houston Astros was named National League manager of the year earlier this week.

Billy Martin ...manager of year

Pardee headed back to A&M?

One thing and another while wondering who, besides Notre Dame, Bear Bryant has never been able

Latest rumor has Jack Pardee going from the Washington Redskins back to Texas A&M to succeed Tom Wilson as head coach

TCU wobbled under a deluge of criticism for firing public address announcer Bob Barry for revealing the score of the SMU's victory over Texas a few weeks back. TCU at the time was giving Baylor more than it wanted, but once the Bears heard what was happening in Austin, they took charge at Fort

Worth. Angry fans accused TCU of trying to blame an innocent PA man for ineptness of an inferior program. There was one voice of protest, who agreed the PA man should have been fired, even if it was at the wrong time for the wrong reasons. The critic asserted that the PA man should have been canned a tion. long time ago as a public service...Just didn't like the sound of his voice..

the Owls would be happy if just one out of every four replacing the burned out west side lights. After that, of them found their way to Rice Stadium for the who knows. Baylor game last Saturday.

others play in bowl games.

This year, Tech could finish with victories over and Arkansas, which won't be that easy.

Game each June, a new lighting system was losing an early season game to the Seminoles... installed to TV specifications and it gave Jones

Unhappily, they've stopped making the lights that was gone. were used and last summer Tech officials had to scour the land digging up replacements for the gest coach of all time, has never beaten Colorado, WHEN RICE SID Bill Whitmore heard that there now-outmoded lamps. They concentrated on the east Oklahoma State, Santa Clara or William and

It has been a long season for Colorado, but one of Texas Tech finds itself in the same spot it was in a the few bright spots has been Bobby Humble, the couple of years ago when the Raiders finished with a former Midland Lee athlete, who is rated the rush, but because of a poor start wound up watching Buffs' best defensive player. He had 22 tackles

against LSU and 19 against Nebraska. AFTER that rematch in the Orange Bowl against four of the five SWC teams who will be appearing in Oklahoma a couple of years back, one wonders how bowls, yet once again will be uninvited. Of course, the Cornhuskers might react to a similar replay Tech would have to finish with wins over Houston against Florida State in the Orange Bowl. There's one big difference. The Huskers won against Oklahoma in the regular season game and then was SEVERAL years ago when Texas Tech agreed to buried in the rematch. This time, Nebraska will have play host to the now defunct Coaches All-America the "make amends" incentive on its side after

Would you believe that Bryant, the second winnin-

were 210,000 Baptists living in Houston, he indicated side standards and next year will concentrate on Mary? Earl finally complains about late hits

BY BRUCE LOWITT

NEW YORK (AP) — Earl Campbell finally complained Wednesday about the late hits he has taken during his brief National Football League career — and labeled Chicago's Doug Plank as one of the worst offenders.

"The Chicago Bears do it worse than anybody," the Houston Oilers' league-leading running back said in a telephone interview. He also mentioned New England as another prime example of a late-hitting team.

And when pressed to name any individuals on those teams who do more late-hitting than other players, Campbell replied without hesitation: 'Both of their weak safeties."

They're Plank and Tim Fox of the

It was a tackle by Plank in the third period of last Sunday's 10-6 Houston victory which knocked Campbell out of the game for one series with a bruised calf muscle.

Even more interestingly, Camp-

bell's complaint came one day after Plank was in New York, appealing a \$2,000 fine assessed by NFL Commissionner Pete Rozelle for a spearing violation against Tampa Bay tight end Jimmie Giles earlier this year.

"I don't want to sound like a crybaby, because I know if a guy doesn't catch hold of me and make sure I'm down, I'm gonna get loose from him,' said Campbell. "I know I'm not gonna stop until I know a guy's got me down — but every now and then I'll be down and I'll feel somebody else coming. I don't think that's fair at all.

"I didn't say anything to the guy who hit me," Campbell went on, "but I told the ref, 'I wish you'd watch that No.46 or whatever.' I said. 'Man, please give me a chance. That's all I

Plank wears No.46.

just a dream."

"I think teams have been getting into more of the late-hit stuff this year, which I wish the refs would pay closer attention to. I've been getting hit more after the whistle this year.

May Outland winner

PITTSBURGH (AP) - Mark May has become the University of Pittsburgh's first player to win the Outland Trophy as college football's outstanding interior lineman.

The Outland winner wasn't scheduled to be announced by the Football Writers Association of America until Saturday night.

But the Pittsburgh Post-Gazzete made the disclosure in today's editions in a copyrighted story by sports writer Marino Parascenzo. A Pitt spokesman confirmed the report. "I'm ecstatic," responded the 6-

foot-6, 280-pound May. "It's something that I can give back to the university because they have given me so much. Now, future Pitt

lineman know that the Outland is not

May has not allowed his man to sack the Pittsburgh quarterback since his sophomore season. And he is nicknamed "May Day" because he is the blocker Pitt calls upon in those distressing third-and-short running situ-

As a pass-blocker, the mammoth

"But this is not a one-man show," May said. "It's a team effort all the way, and I'll be honored to accept it on behalf of my team. I'm also very happy for my parents."

May, who will receive the award at a dinner in Seattle in February, was a high school standout in Oneonta. N.Y., and he has been a starter at Pitt since he was a freshman.

JIM MURRAY

So good, he's not allowed in

Los Angeles Times

Everybody wants to be something, whether it's President of the U.S. or lead tenor at the Met. Some people want to be first-string quarterback, or just a heavyweight contender.

Me, I always wanted to be barred from a casino. I could just see myself, patch over one eye, red-lined black silk cape, white tie, a man of mystery, aloof, contemptuous. The Man Who Broke The Bank At Monte Carlo. A guy who could do anything with a pack of cards, a pair of dice, a wheel. A tango dancer, the scourge of the crouplers, a man with numbered accounts in Swiss banks, the most-feared player on three continents. Every police force in the world has my picture, from Interpol to the French Surete. The greatest backgammon player who ever lived. A master at baccarat.

WELL, I met the man who is living out my fantasy the other day. Half-Japanese, half-Austrian, Ken Uston cannot call for cards in any blackjack game in the world unless he wears a false beard or poses as a cowboy from Texas. Actually, he's from New York by way of San Francisco, and he learned odds at, of all places, Harvard and Yale. You're supposed to learn Chaucer at those institutions, nt when to say "hit me." I mean, Nick the Greek never made Skull and Bones, but Ken Uston learned the laws of probability of blackjack at Harvard Business School while the rest of his classmates were wasting their time on the Dow Jones.

He went to work on the Pacific Stock Exchange after graduating but one day a bunch of computer analysts enlisted him in a scheme to break the blackjack dealers of Vegas. They didn't exactly do it, but Uston suddenly found he could make a month's salary on a turn of a card and he put away his pin-striped suit and subscription to the Wall Street Journal forever.

NOW, IN the rest of life, a "counter" can be something you sell pie-a-la-mode or unlisted securities over. In a casino, it's a dirty name. A "counter" is a guy who keeps track of all the cards played out of the shoe at the blackjack table. When he bets, he knows what cards are coming up. He knows when to stand and when to take a hit. He knows what the dealer's got. He destroys the house edge.

You don't beat the house going one-on-one. You have go into a zone. You put together a "team." Not to cheat, mind you, just to count the cards. Ideally, a "team" should be made up of guys who

look like morticians on a holiday. But Nevada has ways of spotting counters even if they look out of place without a coffin between them. Ken Uston began to get barred from casinos from one end of the Vegas Strip to the other.

IN RENO, they did even worse than that. A casino goon broke his cheekbone and almost put his eye out one night. Uston was posing as a big lose from Texas at the time, but the hotel pit bosses got suspicious when he began doubling-down on sure winners. He is, of course, suing. He's also suing the casino in Atlantic City which

barred him and his teammates after a big \$145,000 score. He also got knocked down by a passing car in the snow there, but it may have been an accident. Casinos do not like the image of being open only to

Three counties gain discoveries

Operators have reported potential tests on discoveries in Crockett, Coke and Tom Green counties.

CROCKETT OPENER

J. Cleo Thompson of Dallas No. 2-26 University "E" has been completed as a Queen gas discovery in Crockett County, 10 miles west of Ozona.

The well finaled for a calculated absolute open flow of 120,000 cubic feet of gas per day, from open hole at 1,089 feet, where 7-inch casing is set, and total depth of 1,170

The project topped the Seven Rivers at 1,000 feet and the Queen at 1,120 feet. Ground elevation is 2,487 feet. Wellsite is 467 feet from north and 925 feet from east lines of section 26, block 31, University Lands survey. The operator has requested the field be named University 31 (Queen gas).

The well is 5/8 mile north of tkhe depleted Massie (San Andres) field.

COKE DISCOVERY

I. J. Wolfson of Wichita Fallas No. 1 Ruth Spencer has been completed as an Ellenburger oil discovery in Coke County, five miles north of Bronte.

On 24-hour potential test it flowed 40 barrels of 45-gravity oil, no water, with a gas-oil ratio of 313-1. Completion was through a 12/64-inch choke and perforations from 5,712 to 5,734 feet after 500 gallons of

The following tops were called on ground elevation of 1,923 feet: Goen, 5,404 feet, and Ellenburger, 5,710

Toral depth is 5,734 feet and 4½-inch casing is set at Location is 330 feet from south and west lines of

section 364, block 1-A, H&TC survey.

A dual discovery has been completed in Tom Green County by P. C. Engineering, Inc., No. 1 Chambers

The project originally was staked by Seagul International Exploration Inc. of Houston.

From the Strawn, the well was finaled for a calculated absolute open flow potential of 423,700 cubic feet of gas per day, through perforations from 4,314 to 4,330 feet after a 3,500-gallon acid treatment.

From the Cross Cut, it finaled for a calculated absolute open flow potential of 79,080 cubic feet of gas per day, through perforations from 3,850 to 3,864 feet. The zone was acidized with 6,000 gallons.

The following tops were called on kelly bushing elevation of 2,129 feet: Canyon, 2,480 feet; Strawn, 4,310 feet; Cross Cut, 3,812 feet; and Palo Pinto, 3,645 feet. Total depth is 4,600 feet and the plugged back depth is

Location is 660 feet from north and west lines of secton 19, Indianola Railroad survey, abstract 7841 and 10 miles southeast of Vancourt.

The dual well is 1 % miles northeast of the Rust, South (Strawn) field.

The American multipay field gained its second Spraberry "B" oil producer with completion of Anderson Petroleum, Inc., of Ozona No. 1-56 John Mitchell Estate

The well, six miles southeast of the field's only other well, fianled for a daily flow of three barrels of 41.4-gravityoil and no water, with a gas-oil ratio of

Completion was through a 1/4-inch choke and perforations from 3,359 to 3,385 feet after 1,975 gallons of acid and a 40,000-gallon fracture job.

The project, scheduled as an outpost to the Ozona (Canyon gas) field, is 660 feet from north and 1,250 feet

from east lines of section 56, block MM, T&StL survey and 30 miles southwest of Ozona.

Monsanto Co. No. 2 Fisher has been added as a well to the Shafter Lake (San Andres) field of Andrews County, nine miles north of Andrews.

The operator reported a 24-hour pumping potential of 127 barrels of 26.4-gravity oil and 300 barrels of water, with a gas-oil ratio of 701-1.

Completion was through perforations from 4,703 to 4,629 feet after a 5,000-gallon acid treatment and a 30,000-gallon fracture job.

Scheduled as a wildcat, the well was drilled to 7,200 feet and 5½-inch casing was set on bottom. Plugged back depth is 5,700 feet. Wellsite is 1,980 feet from north and east lines of

PECOS PRODUCER

section 3, block A-36, psl survey.

Texas Oil & Gas Corp. of Midland No. 4 Girvin has been completed as the second Wolfcamp oil producer in the Chenot multipay field of Pecos County, 10 miles southwest of Girvin.

The well, 31/2 miles northeast of the pool's other Wolfcamp producer, finaled for a daily flow of 22 barrels of 32.1-gravity oil and five barrels of water, with a gas-oil ratio of 7.736-1.

Completion was through a 3/4-inch choke and perforations from 4,221 to 4,483 feet after 4,000 gallons of

Total depth is 4,800 feet, 4½-inch pipe is set on bottom, and hole is plugged back to 4.739 feet. Wellsite is 1,860 feet from south and 467 feet from east lines of section 62, block 11, H7GN survey.

YOAKUM OILER

Hilliard Oil & Gas, Inc., of Midland No. 1-B Webb has been completed in the Brahaney (Devonian) field of Yoakum County, four miles southwest of Plains. It completed for a daily pumping potential of 30

barrels of 36-gravity oil and 268 barrels of water, through one foot of perforations at 11,490 feet. The pay was acidized with 1,150 gallons.

The gas-oil ratio is too small to measure. Total depth is 11,570 feet, 51/2-inch casing is set at 11,560 feet and hole is plugged back to 11,533 feet.

Location is 467 feet from north and 1,787 feet from east lines of section 543, block D, J. H. Gibson survey.

Big Four Oil & Gas Co. of Lubbock No. 1 C. R. Keeney has been comleted as the fourth Queen sand well in the Mozelle multipay field of Schleicher County, one mile west of Eldorado

On 24-hour potential test it pumped 24 barrels of 38-gravity oil and no water, through perforations from 2,222 to 2,231 feet after a 6,000-gallon acid treatment. The well, 1/2 mile south of the closest other Queen

producer, is 467 feet from north and west lines of section 77, block A, HE&WT survey.

STONEWALL AREA

The Gloria Gay (Caddo) field of Stonewall County gained its fifth well with completion of Rust Oil Corp. of Fort Worth No. 1 L. Fisher.

Operator repoted a daily pumping potneitla of 15 barrels of 38-gravity oil and one barrel of water, through perforations from 6,214 to 6,228 feet. The pay was treated with 5,000 gallons of acid.

Scheduled as a project in the Onyx (Ellenburger) field, it is 660 feet from north and 2,400 feet from west lines of section 210, block D, H&TC survey and three miles north of Swenson.

The well is five miles west of other Gloria Gay (Caddo) production.

two wildcats

Southland Royalty Co. of Midland and C&K Petroleum Co., Inc., also of Midland, announced locations for wildcats in Chaves County, N.M.

Southland Royalty Co. will drill No. 1-22 Hagerman West as a 7,300-foot wildcat two miles south of Hagerman and 1,980 feet from south and west

lines of section 22-14s-26e. It is one mile northwest of an 8,369foot dry hole and six miles northwest of Morrow gas production in the Buffalo Valley field.

C&K Petroleum No. 1 White Draw Unit will be dug as a 5,500-foot wildcat 22 miles northwest of Boaz in Chaves County

Location is 1980 feet from north and east lines of seftion 14-3s-27e and 1/2 mile northeast of a 6,913-foot dry

It also is 12 miles northeast of an

unnamed Abo gas field. LEA WELL

Doyle Hartman of Midland No. 2 State "UTP" has been completed in the Rhodes (Yates) field of Lea County, N.M., eight miles south of Jal.

Operator reported a daily flowing potential of 80 barrels of 35-gravity oil and 33 barrels of water, with a gas-oil ratio of 3.975-1.

Completion was through a 12/64inch choke and perforations from 2.-990 to 3,171 feet. Location is 2,310 feet from north

and 2,310 feet from east lines of section 28-26s-37e. Gas opener

MINNEAPOLIS, Minn. - Apache Corp. announced a natural gas discovery well in Beckham County, Okla., approximately four miles southwest of Elk City. It is the first producing well drilled on behalf of its 1980-I Oil

and Gas Program. The Mikles No. 1-10 flowed at a rate of 4.8 million cubic feet of gas per day through a 16/64-inch choke.

Five West Texas counties gain sites for wildcat tests

Wildcat operations have been staked in Ward, Yoakum, Scurry, Nolan, and Runnels County, and an attempt will be made to reopen a field in Hale County.

Several West Texas areas have drawn projects in field areas.

WARD WILDCATS

HNG Oil Co. of Midland announced locations for a pair of gas wildcats in Ward County.

No. 1-17-21 University will be drilled 660 feet from north and 1,980 feet from west lines of section 21, block 17, University Lands survey and three miles west of Pyote.

Scheduled to 7,000 feet, it is 1/2 mile east of the Caprito (Atoka oil) pool.

HNG Oil No. 1-18-41 University will

be drilled as a 7,000-foot gas wildcat 15 miles northwest of Pyote. Drillsite is 1,980 feet from north and east lines of section 41, block 18,

University Lands survey. The site is 21/2 miles south of the discovery well of the Meridian, South (Wolfcamp) field which produxces at 15.667 feet.

YOAKUM PROSPECTOR Texland-Rector & Schumacher of Wichita Falls No. 1 Jay Sanders has been staked as a 5,400-foot wildcat in Yoakum County, 13 miles west of

It is 660 north and 1,780 feet from west lines of section 536, block D, John H. Gibson survey. The drillsite is adjacent to the discovery well of the depleted Tamara

Ground elevation is 2,751 feet.

(San Andres) field.

SCURRY EXPLORER Davis Oil Co. of Houston spotted No. 1 Mattie Mae Wilson as a 7,900-foot wildcat in Scurry County, 12 miles

northeast of Snyder Drillsite is 1,320 feet from north and 1,500 feet from west lines of section

263, block 2, H&TC survey. It is 11/2 miles northeast of the Tonto, Northeast (Cisco) field and 3/8 mile south of a 7,274-foot dry hole. There are several other dry holes in

the area. Ground elevation is 2,311 feet.

NOLAN TESTER Chalmers Operating Co. of Abilene will drill No. 1 Pierce as a 7,100-foot wildcat three miles south of Sweetwater in Nolan County.

Location is 660 feet from north and 1,980 feet from east lines of setion 10, block X, T&P survey. It is 21/4 miles northeast of the de-

and separated from it by a 6,885-foot dry hole. The site also is two miles southeast of the depleted Lake Trammell, East (Ellenburger) field and separated from it by a 7,060-foot Ellenburger

pleted Featherstone (Strawn oil) pool

RUNNELS LOCATIONS A pair of wildcats have been spotted in Runnels County. Sumik Drilling Inc. of Denton staked No. 1 Treadaway and others

Unit as a 5,000-foot wildcat at the southeast edge of Miles. Location is 258 feet from north and 299 feet from west lines of WCRR

survey No. 135, abstract 534. U.S. Energy Inc. of Dallas No. 1 James H. Black is a new 4,425-foot wildcat in Runnels County, eight

miles northeast of Winters. Location is 964 feet from south and 2,550 feet from east lines of T. J. Ford survey No. 318, abstract 698. Ground

elevation is 1,928 feet.

HALE RE-ENTRY Staley Operating Co. of Midland will red-enter the discovery well of the Petersburg field and and clean out to 6,900 feet in an attempt to reopen

The project, No. 1 E. L. Fisher, is 1,215 feet from south and 660 feert from west lines of section 5, block C-L, EL&RR survey. The old total depth is 6.992 feet.

Crystal Oil reports strike

SHREVEPORT, La. - Crystal Oil Co. announced an oil discovery at its No. 1 Hunter on its wholly-owned leases in the Arkana Field, Bossier Parish, La.

It flowed 518 barrels per day of 44-gravity crude through 1/4-inch choke at 1,000 pounds pressure plus 480,000 cubic feet of gas from Cotton Valley "D" sand perforations at 8,671 to 8,702 feet.

Meyer, Moritz & Co., Inc.

800 GIHLS TOWER WEST 915-683-1814 JERRY I. MORITZ, PRES. LARRY JOHNSON, Sales

Test site is five miles northwest of Petersburg.

WARD FIELD TEST

The four-well Wickett, North (Pennsylvanian) field of Ward County gained a new project with the staking of Gulf Oil Corp. no. 1115

Hutchings Stock Association. Scheduled to 9,600 feet, it is 660 feet from north and 1,980 feet from west lines of section 3, block F, G&MMB&A survey and 31/2 miles northeast of Wickett.

ANDREWS RE-ENTRY Dorchester Exploration, Inc., of Midland No. 1 Olson Brown is a reentry project in Andrews County, 10 miles west of Andrews.

The oerator will attempt to complete from the Ellenburger zone in the Block A-41 multipay field. The field has four producers from that pay. The project, originally completed

from the Connell, will be deepened to Location is 1,850 feet from south 2,120 feet from west lines of section 21, block A-41, psl survey.

MIDLAND PROJECT Mobil Producing Texas and New Mexico, Inc., has added Strawn to the prospective producing zones in its No. 8 Reynolds-Parks, eight miles southeast of Odessa in the Virey multipay

field of Midland County. The project is 1,980 feet from north 2.080 feet from west lines of section 26, block 41, T-3-S, T&P survey.

Permits have been granted to com-

pelte in the Dora Roberts (Devonian)

and the Virey (upper Wolfcamp).

CRANE AMENDMENT Gulf Oil Corp. No. 1151 W. N. Waddell and others, originally staked as a Running W (Tubb) project in Crane County, has been amended to complete in the Sa Angelo pay.

That zone will be tested at 4,515

Location is 660 feet from south and east lines of section 14, block B-27, psl

five miles northeast of Gail.

tests through the Ellenburger.

BORDEN LOCATION Harvey E. Yates Co. of Roswell, N.M., No. 1-24 Key will be drilled as an 8,700-foot project in the Rafter Cross, South (Strawn, Wolfcamp and Ellenburger) field of Borden County,

The contract depth will allow for

Locationis 1,980 feet from north and 660 feet from west lines of section 24, block 30. T-5-N, T&P survey. Ground

elevation is 2,440 feet. COKE RE-ENTRY P. C. Engineering, Inc., of San Angelo will deepen to 6,100 feet and attempt completion as the second well in the Green Mountain (Canyon

reef oil) pool of Coke County, 10 miles southwest of Robert Lee. The deepening will be at the former WES-TEX Driling Co. of Abilene No. 1 Finnell Smith, a 5,990-foot failure.

Location is 1,667 feet from north and 2,182 feet from east lines of section 233, block 2, H&TC survey.

It was abandoned in August.

Ground elevation is 2,009 feet. The site is one location northeast of

the field's only producer. CROCKETT PROJECT Alford Petroleum Corp. of The Woodlands announced location for a

4.800-foot project in Crockett County, 25 miles southwest of Ozona. It is No. 1-80-74 Hudspeth, 660 feet from north and 467 feet from west lines of section 74, block O, GH&SA

survey, abstrct 4662. It is 1/2 mile northeast of one of the MIDLAND ATHLETIC CLUB Membership Information
