Value of the missing items was set at \$1,400, according to the Coke County Sheriff Department.

Commission takes bid with reservation

Coke County Commissioners opened two bids Friday for a project to renovate the County pools, concession stands and restrooms.

Neither bid was acceptable as presented and the commissioners took the bid of Floyd Henry, Century Pools of San Angelo on the condition that he rework it to fall within the monetary boundaries of a federal grant earmarked for the project and for expansion of the County Show Barn in Robert Lee, said County Clerk Ettie Hubbard.

The original bids called for extensive renovation of the two

recreation complexes, but extras will be cut to allow for necessary repairs. That will avoid having to add addition funds to the grant from county coffers.

Henry's bid was for \$65,870 and included renovation of the pools, concession stands and restrooms. Richard Fielder of Fielder Water & Pools, Inc. of San Angelo bid \$67,989 for a top-of-the-line renovation of the pools and did not include work on the concessions stands and restroom facilities.

In another special meeting Tuesday, the commission met to discuss applying for a Concho Valley Council of Governments

grant which has been made available that could be used to renovate the old recreation hall in the County Park in Robert Lee.

That grant, valued at \$13,333, would include a contribution by Coke County.

The commissioner decided to apply for it but 13 other counties are also in the running for it, said Mrs. Hubbard.

Aggie architect designing house with cheap utility bills

COLLEGE STATION—A Texas A&M University architect is designing a house that will be cool in summer and warm in winter with the goal of using less than \$30 a month for energy.

Raymond Reed, professor of architecture and a member of the American Institute of Architects' Task Force on Energy Conservation, is drawing up plans for the house which will eventually be built in Port Arthur as part of a project sponsored by Gulf States Utilities.

Although Reed has not completed the designs, he said the house will have a double roof that will be a shading device in the summer and a heating device in the winter.

SOIL CONSERVATION DISTRICT NEWS

John Wilkes, of the Maryneal Community which is northwest of Blackwell, has long operated ranches in the Silver and Blackwell areas. Brush, mainly mesquite and red berry juniper, had taken over the deeper, more productive soils on the place near Blackwell. Wilkes figured that he could not live with the thick brush any longer. He applied to the ASCS office in Robert Lee for a long-term agreement to provide cost-share assistance through USDA funding. Wilkes met with the SCS Range Conservationist to plan the brush control, grass reseeding and deferment needed to bring the land back into full production. The SCS will provide

technical assistance to Wilkes throughout the life of the contract. The practices planned in this contract are also a part of the conservation plan that Wilkes developed with the Coke County Soil and Water Conservation District.

Roller chopping and seeding a mixture of adapted grasses was done recently on the Joe Ash farm on his place east of Bronte. About 100 acres was replanted on an area that did not develop a stand when seeded last year. A rake was used to prepare the seedbed. A mixture of Klein-

grass, K.R. bluestem, blue panic, and sideoats grama was seeded and roller chopped. The pasture will be rested for a full growing season. This will give the seeded area an opportunity to develop an adequate stand of grass and hopefully, to produce a seed crop.

Technical assistance was furnished by the SCS assisting the Coke County Soil and Water Conservation District. Financial assistance was furnished by the ACP through a Long Term Agreement.

Services held for Mrs. Pittman

Mrs. Lillie Lee Latham Pittman, 85, died at 7:30 a.m. Sunday, April 29, 1984 in her home in Bronte.

Funeral services were held Monday at 2 p.m. at First United Methodist Church in Bronte with Howard Johnson, pastor officiating. Burial was in the Robert Lee Cemetery under the direction of Shaffer Funeral Home of Bronte.

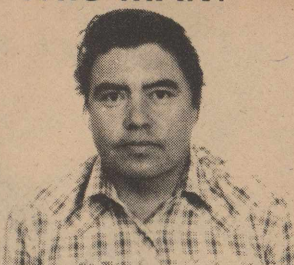

Mrs. Pittman was born October 16, 1898 in Valley View, TX., in Coke County. She attended school in Robert Lee and married Oliver Pittman April 5, 1922 in Robert Lee. They moved to Bronte in 1923. She was a housewife and a member of the Methodist Church.

Survivors include her husband, Oliver Pittman of Bronte; two sons, Archie Clayton Pittman, Wharton, TX., and Lawrence Lee Pittman, Missouri City, TX.; two daughters, Betty Sue Thomas, Bronte, and Patsy Marie Bailey, Bronte; 11 grandchildren; nine great-grandchildren. She was preceded in death by two children, Mary Louise Pruitt and Wilber Clyde Pittman and one grandchild, Angela Gayle Nelson.

Pallbearers were Denny Braswell, Royce Fancher, R.T. Caperton, C.B. Barbee, Stover Taylor, and John Paul McGuire, all of Bronte.

IMPORTANT PLEASE READ IT ALL. Saturday is election day, we hope that everyone will vote. This is one time that all people are equal. Your vote counts as much as the most powerful person in Robert Lee. Two commissioners are up for re-election who ignored the request and petition of over 200 people and closed our last county roads to Lake Spence, at the request of O.H. Ivie of CRMWD. This action was followed by CRMWD amending their rules and regulations to where we can be arrested for trespassing, if we even get out of our boats for a picnic lunch on the banks of the lake. The latest move by CRMWD to ask for an amendment to their original permit, granting them the right to build a lake near Big Spring that will catch 8000 acre feet of water per year that now flows into Lake Spence. We have seen no objection to this request, so we assume the lake will be completed. The water is to be used for mining which we believe means water flooding of oil wells, and industrial use. When this much water is stopped from entering Lake Spence, we believe two of the four boat ramps on Lake Spence will soon become dry and useless. The original permit states that the water diverted for mining must contain or exceed 500 parts per million chloride, which is salt. The amended permit contains no such requirement, making it possible for them to use fresh water. There is over 14,000 acres of land that they pay no taxes on, but lease it to ranchers when it is not under water. The taxes on this 14,000 acres must be made up by the other taxpayers of Coke County. We believe that the two remaining commissioners who helped this happen should be replaced. Please vote for Finis Harmon or Robert Wink. CITIZENS FOR BETTER GOVERNMENT Pd. Pol. Adv.

Coke history book being proofed

The final proof reading of the family stories for the Coke County Family History Book continues while some of the final printing has begun. The committee is working on General History and Divider Pages at the present time. The publication date is not known at this time, but the book should be in the hands of those who have ordered books, summer 1984. This will be a book to be treasured and read over and over again. Your chairman has read every story and expects to read the stories again many times before and after publication. The history of Coke County, much of which would have been lost otherwise, is being preserved in this multi-authored book. There

has been no other book like this one published about Coke County and its pioneers and present-day families.
