General rains benefit small grains

Widespread general rains over Texas last week have left farmers and ranchers elated over the growing winter weeds, small grain crops, and full stock tanks. Rainfall around the state ranged from 2-12 inches over a two-day period. Although some isolated flooding occurred and cotton harvests were halted, the moisture was extremely beneficial.

Robert Lee, Bronte, and Blackwell all received from 2-3½ inches overall while Coke County lakes reaped

big benefits from the rains. Mountain Creek Lake, Robert Lee's city water source, filled and poured over the spillway while Oak Creek Lake gained 28 inches, according to Mrs. I.B. Pate of Oak Creek. Dub Metcalf and Johnny Page, Lake Spence personnel, gauged 6/10 of a foot in an unofficial measurement of the big lake's increase. Metcalf related that Spence was not quite on the watershed of the torrential rains to the north and west but that Lake Thomas caught a 4 ft. gain.

WATER RUSHES DOWN the concrete spillway into Mountain Creek as Robert Lee's city lake filled before dawn last Friday following heavy rains northeast of town during the night.

Rodeo awards announced

The Coke County Rodeo Association held their Awards Supper Saturday, October 19 at the Bronte Community Center.

The evening opened with a business meeting and the election of officers. Tony Barrett was elected president, and Marshall Millican, vice president. He will also serve as rodeo chairman along with Kerwin Denton. Secretaries of the association will be Brendi Gentry, head secretary; Beverly Riordan, Janel Vaughn, Lynn White, Gail Golding and Mary Jane Cooper.

The group enjoyed a good meal followed by the presentation of awards to participants who had established eligibility by being in at least four Play Days out of seven. They received trophies or rosettes and a jacket in the new club colors of silver and

gray.

Winners and their total points were:

5 and under: 1. Jodie Hilliard, 118; 2. Bree Bolding, 109; 3. Brandy Denton, 79; 4. Kannon Millican, 68.

6-7: 1. Russell Vaughn, 117; 2. Julia Gentry, 114; 3. Angela White, 67.

8-9: 1. Jonathan McCutchen, 118; 2. Joni Barrett, 104; 3. Casey Thorn, 91.

10-12: 1. Teresa Vaughn, 115; 2. Melinda Gentry, 106; 3. Donya Cooper, 104; 4. Cory Thorn, 73; 5. Tim Sims, 71.

13-15: 1. Eric Hoffman, 114; 2. Terry McCutchen, 99; 3. Sandy Hilliard, 84.

16-18: 1. Pam McGinnis, 88.

A spokesman for the CCRA stated that the club had a successful year in 1985 and are looking forward to an even better year in 1986.

'Fall Back' this Sunday

On Sunday, October 27, at 2:00 a.m., Coke County will join the state and the nation in turning back the clocks one hour to end Daylight Savings Time for 1985. For those who don't elect to stay up until the appointed time, clocks can be rolled back at bedtime Saturday night.

In returning to Standard Time, daylight will come

quicker and dark will approach sooner. Confusing? That's because the Daylight Savings Time law was enacted in Washington.

The flip-flop time change was made permanent during the energy crisis a few years ago after being used first during World War I to increase wartime productivity.

Bronte Homecoming slated

Homecoming activities will be celebrated tonight in Longhorn country when ex-students, former residents and faculty members all converge on Bronte. Although not the "big" homecoming which is held every two years, tonight will be a special occasion, nonetheless, as homecoming excitement abounds.

A spirit-packed pep rally at 3:30 Friday in the school gym with BHS cheerleaders and the Longhorn Band will get everyone in the mood for an important district game

between the Longhorns and Irion County Hornets. The Longhorns stand 3-1 in district play and 5-2 for the season, and are rebounding from a narrow defeat by Eden last week. This will probably be their toughest challenge to date, and the Horns will be fired up for a win to please the Homecoming crowd.

Halftime activities will consist of performances by the Longhorn Band and the coronation of the Homecoming queen and presenta-

tion of sweethearts. Vying for the crown are Melanie Cooper, Stacy Davis and Stephanie Robbins. Escorts are Corby Kelso, Kerry Lee and Duff Kelso. Band sweetheart is Estella Puentez and band beau is Ricky Basquez. Football sweetheart is Jann Tounget, escorted by Doug Hoyt. Flower girls and crown bearers are Shelly Sims and Blake Hoyt, Wendy Johnson and Nicholas Arrott and Laura Thomas and John Johnson.

After the game, everyone is invited to stop by the school cafeteria for coffee and visiting. This will be a relaxed, informal get-together of old friends and new, and no business meeting will be held.

To conclude the festivities, a homecoming dance sponsored by the All Sports Booster Club will be held at the Bronte Community Center from 9:30 to 1:00. Music will be furnished by the band, Borderline, who will play a variety of country/western and pop tunes. The junior class will sell soft drinks, and admission price to the dance is \$5.00 per couple, or \$3.00, single.

Deer tags to be issued

Texas Parks and Wildlife Department will issue special antlerless deer tags for Coke County on Oct. 30, 31 from 8:00 a.m.-12:00 noon and 1:00 p.m.-5:00 p.m. in the County Courthouse in Robert Lee. The special tags are required for any antlerless deer harvested in this county during the upcoming hunting season.

To qualify for tags, a landowner must own or con-

trol acreage in Coke County.

After the opening of the hunting season, tags will ONLY be available through Regional Offices located in Rockport, San Angelo, Tyler, Waco and the State Office in Austin. Tags WILL NOT be issued by local department personnel.

Landowners or their agents are urged to pick up tags on the scheduled issuance dates.

MDA receives check

Town & Country Food Stores, Inc., presented a check of \$75,000 to the Muscular Dystrophy Association (MDA) from their participation in the MDA Labor Day Telethon. The West/Texas/New Mexico chain of 107 stores set a goal of \$75,000 in contributions (an average of \$700 per store), which was successfully reached. Each store participated through the summer with individual store projects, special drink promotions, and a company-wide Win-A-Bike Program. In the Win-A-Bike Program, kids in the 47 towns where stores are located could register with Town & Country to collect funds for MDA. Each person reaching \$250 or more won a BMX or 10-speed bicycle. A total of 147 bicycles were awarded. In addition, the company awarded prizes to the top nine (9) Store Managers and the top three (3) District Managers for their special fund-raising efforts.

The top three District Manager winners were: Dwight Lusk, Lubbock, Texas, raised \$12,266 and received a trip for two to Las Vegas; Tom Barger, Hobbs, N.M., raised \$9,554 and

received a trip for two to Cancun, Mexico; Rene Beddingfield, Brownfield, TX., raised \$9,084 and received a weekend trip for two to a Dallas Cowboy's game. The top nine Store Managers were: Tony Snook, Lubbock, TX, raised \$4,715 and received a trip for two to Las Vegas; Nell Kyzer, Denver City, Texas, raised \$4,473 and received a trip for two to Cancun, Mexico; Martha Shipp, Rankin, TX, raised \$3,725 and received a weekend trip for two to a Dallas Cowboy's game; 4th, 5th and 6th place Managers Brenda Nichols, Lamesa, TX; Roy Conn, Clovis, N.M.; and Darlene Torrez, Plainview, TX, will all receive VCR player-recorders; 7th, 8th, and 9th place Managers, Patti Rush, Hobbs, N.M.; Janet Harmon, Hobbs, N.M.; and Lucy Fletcher, Snyder, TX, will receive Panasonic home computers with software.

Additionally, all stores that reached their goal of \$750 will receive a plaque from Town & Country and MDA. A victory awards dinner will be held this month to recognize these stores and the prize winners.

Handling venison properly

The gamey taste of venison is often simply a result of inattentive field handling or butchering. Meat palatability is largely affected by fat, membranes, and connective tissue. Fat provides much of the flavor in any meat, but the fat in deer is very unstable and quickly turns rancid. Venison fat and membranes are found on the outside of the muscle and can be removed thoroughly with just a little attention.

Keeping meat cool prevents the connective tissue from contracting and toughening the meat. When field

dressing your deer, prop the body cavity open to help heat escape, and keep the animal as cool as possible during transport. Never carry a deer on the hood of a vehicle since heat from the engine hastens spoilage.

Stamp Club

The regular meeting of the Stamp Club will be held on Thursday evening at 7:00 p.m. at the Post Office. Members are asked to bring stamps to exchange.

Zinc available in foods

Zinc is an essential element in the diet, but not necessarily one you need to get from a pill. Zinc is available in a wide variety of foods including red meat, liver, poultry, eggs and seafood, says Texas A&M University Agricultural Extension Service nutritionist Dr. Alice Hunt. She says zinc is also found in whole grain products like whole wheat or rye bread, oatmeal and whole corn, although it's in a form that is less available to the body than the zinc contained in meat. For example, two 3/4 ounce servings of red meat,

2 slices of whole wheat bread and an egg will meet an adult's daily zinc requirement.

Cancer program set

President Reagan's recent surgery has brought the reality of colon cancer before the nation. In fact, this type has been identified as the nation's second greatest cancer killer. Education and early detection could change that.

Residents of Coke County will have an opportunity to learn the facts about colorec-

tal cancer during the Concho Valley Area Agency on Aging "Wellness is Ageless" program offered by the Tom Green County Unit of the American Cancer Society and Robert Lee Senior Center on Monday Oct. 28 at 3 to 4 p.m. in the Senior Center Building.

This informative seminar will be conducted by an

American Cancer Society Volunteer and will feature a film and group discussion.

The purpose of the program will be to provide accurate, up-to-date information concerning colorectal cancer, and to correct some of the public's misconceptions about this disease.

Colorectal cancer is cancer of the colon (large intestine) or rectum. It is second only to lung cancer. Yet colorectal cancer can be highly curable. When diagnosed at an early stage and treated promptly,

the 5 year cure can be as high as 75%.

The program hopes to reach individuals over age 50 since the risk of developing colorectal cancer increases with age. Early detection tests will be described. Men and women are equally as likely to develop colorectal cancer.

Surgery is the primary treatment for colorectal cancer, but colostomies are infrequent.

For further information on

the program, contact Neta Schnabel.

Steers fall to Sterling City

by Ronnie Baker

Another sad Friday for the Steers as they fell again to a better ball club that took advantage of every mistake. The Steers are just in for a rough season as is already obvious and they just as well gut up and take it and wait till another time. By looking at the sparsity of the crowd, they have already given up on the Steers, but that's not the way to back a bunch of kids that have been at it for this many weeks and taken this kind of punishment. But a comment to the Steers, hang in there, you know there will be another day. This is another time for a short one as there's no use rubbing salt into the wound.

The Steers will be on the road tonight against the Santa Anna Mountaineers. Game time is 7:30 p.m. The

Mountaineers are undefeated for the year and share the lead in the zone with Irion

County by virtue of a tie in the Hornet-Santa Anna game last Friday night.

Nichols receives award

Kelly Nichols, 16-year-old Robert Lee High School student, was named last week as Carrier of the Month for

the San Angelo Standard-Times. He took the job of distributing the paper for home delivery, retail outlets and newsstands in July.

Kelly strives to be courteous to everyone and works to please his customers. This attitude led to his selection for the honor, a Standard-Times spokesman said.

He is a full-time student, a member of the RLHS Stomp-in' Steer Band and serves that group as Drum Major.

Kelly lost his mother a few years ago and makes his home in Robert Lee with his grandparents, Mr. and Mrs. Ralph Blair.

Dogies, Eaglets battle to tie

The Robert Lee Dogies and the Sterling City Eaglets battled to a 0-0 tie in Sterling last Thursday night. Coach Max Anthony praised his boys' play in the game in spite of House Bill 72's no-pass, no-play rule. Some of the players were out of the game which required others to fill in and play unfamiliar positions.

The Dogies will be at home against the Bronte Shorthorns at 6:00 on Thursday, Oct. 24.

Bank to entertain ghosts and goblins

Robert Lee State Bank personnel will again entertain Trick or Treaters for Halloween during banking hours. Tuesday, October 29, has been designated as Ghost and Goblin day at the bank.

Frosh will sponsor dart throw

The 1985-86 Freshman Class of Robert Lee will sponsor the Dart Throw in the upcoming Fall Festival. The event will be held this Saturday night, Oct. 26, in the old school gym from 5-9 p.m. The group asks your support for their booth and the entire Fall Festival.

Homemakers meet

The Extension Homemakers Club met in the home of Virginia Boatright on October 18. Mrs. Boatright presented the opening exercise, which was a humorous reading entitled "The Ten Calorie Diet".

The program was given by Helen Kirkland featuring tips on walking from "The Walk Book".

Following a business meeting, refreshments were served to two visitors: Juanita Parker and Helen Kirkland and eight members: Louvenia Rees, Drexel Lee Ragsdale, Marie Arrott, Lela Parker, Betty Green, Ella Clyde Black, Annie Laura McShan and Mrs. Boatright.

Next meeting of the club is scheduled for November 1.

Mrs. Fay Roe of Robert Lee returned home from Dallas last Sunday after a 3-week stay with relatives there. She had a total knee joint replacement at Baylor Hospital and recuperated in the homes of her children, Daphne and Jim Brown of Plano and Pete and Deone Roe of Lewisville.

Mr. and Mrs. Roe also visited with her sister and husband, Mr. and Mrs. Ambers Gibson, of Dallas before returning home.

Bulldogs squeak by Horns

by Randy Cregar

The Bronte Longhorns suffered with some vital mistakes that allowed Eden to squeak by with the win Friday night. The Horns dominated the line of scrimmage outdistancing the Bulldogs 227-176 in total yards, and outside of two plays should have had a handy win.

Bronte won the toss and elected to receive the opening kickoff. Pete Puentez took the kick and returned it 50 yds. to the Eden 40 yd. line. Two carries by Corby Kelso moved the ball inside the 30 yd. line. Stephen Lee

sprinted to the Eden 16 yd. line on the next play for another 1st down and it appeared that the Horns were on their way to an early score; however, after a 2 yd. gain by C. Kelso, a penalty and three incomplete passes left the Horns empty-handed.

The Bulldogs were unable to gain a 1st down and punted to the Bronte 27 yd. line. Bronte again quickly moved the ball into Eden territory in 3 plays before a bad pitch forced the Horns back to their own 47 yd. line. The Bronte punt attempt

never got off the ground as S. Lee was tackled for a loss. This set up Eden's first score at the Bronte 36 yd. line.

Eden took 11 plays to move the ball to the Bronte 1 yd. line as the 1st quarter ended. By the way, the score clock was not functioning all evening so quarters ended without much warning. Eden scored on the 1st play of the 2nd quarter but a penalty nullified the play. The next play was also a nullified TD. However, the next play scored and was not nullified, so Eden led 6-0 with approximately 11:30 remaining in the half. The attempted kick was no good.

Todd Brooks took the ensuing kickoff 33 yds. to the Eden 48 yd. line on a fine

Math-A-Thon planned

Bronte elementary students will be participating in a Math-A-Thon October 28 thru November 8, 1985. The Math-A-Thon is a fund-raising project for St. Jude Children's Research Hospital.

Students will be working math problems in a Math-A-Thon Funbook while earning money for St. Jude's.

Parents and friends will be asked to pledge a certain amount for each math problem completed in the Funbook. Students returning \$25.00 or more will receive a

certificate and a t-shirt. Those returning \$100 or more will receive a certificate, a t-shirt, and a barrel tote bag.

St. Jude Children's Research Hospital is the largest childhood cancer research center in the world. It is non-sectarian and available to stricken children admitted by physician referral and whose diseases are under study. Math-A-Thon allows Bronte students to give less fortunate children a chance for better health.

Allbright is among the few agents selected from more than 10,000 in the company's operating territory to receive the honor. He attended a conference for Life Sales Champion agents last month

in Colorado Springs, Colo.

Signs must be registered

D.R. Watson, District Engineer of the San Angelo District of the State Department of Highways and Public Transportation, announced today that the owner of each off-premise advertising sign which was erected before September 1, 1985 along a road outside an incorporated city or town in Texas is required by recent legislation to register the sign by December 30, 1985 or remove the sign. The new law is known as House Bill 1330 and refers to an off-premise sign as a sign which advertises a service or product not principally sold on the premises where the sign is located. Mr. Watson stated that forms are available in the San Angelo District office for use in registering a sign and that a form would be sent upon request. He also said that a \$25 nonrefundable fee is required with the filing of the registration application.

Mr. Watson pointed out that there are only two exceptions to the State registration requirement. If the sign was allowed under the Highway Beautification provisions of the Texas Litter Abatement Act or if the sign is in the extraterritorial jurisdiction of a city or town which is controlling signs in such extraterritorial jurisdiction, the sign does not have

to be registered with the State.

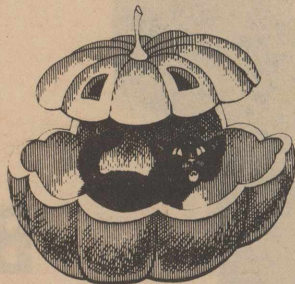

In enacting House Bill 1330, the Legislature also authorized the State Department Signs Along Rural Roads to be Registered, State Department of Highways and Public Transportation.

Clara Pate of Dallas, sister of Lois Webb visited several days in the Lester Webb home. Also a niece and husband, Mr. and Mrs. L.R. Harding of Bryan, visited with the Webbs.

Charlie and Virginia Boecking are owners of the gallery, and Mrs. Boecking's art will be displayed along with artists from Maverick, Ballinger, Blackwell, Oak Creek Lake, Robert Lee and Bronte.

There will be a special showing of the beginning water colorists' work.

A "Grab Bag" will be an interesting addition to the

show and provide an opportunity for original art at a very reasonable price.

The Tole-Decorative Art painters will offer some of their items for sale.

The frames and mats are the work of Charlie Boecking. His special frame has earned the title of "a Charlie frame". He also has other wood work in the show.

The art may be seen in the lobby of the bank and also in the Director's Room just off the lobby.

Everyone is cordially invited to view their works when in Bronte Nov. 4 through Nov. 8.

Nasal spray abuse can damage health

Nasal spray abuse can lead to serious health problems and a habit harder to break than cigarette smoking, a Baylor College of Medicine otolaryngologist warns.

Nasal decongestant sprays shrink swollen blood vessels in the nose making it easier to breathe. But the more a nasal spray is used, the more it is needed and the less effective it becomes, said Gayle Woodson, M.D., assistant professor of otolaryngology at Baylor College of Medicine.

An alternative is to take an oral decongestant. Salt-water spray will also provide minor, short-term relief of congestion, Woodson said.

There is no evidence of permanent damage caused by the abuse of nasal spray but temporary problems can occur.

"Nasal spray enters the bloodstream and can cause blood pressure to rise and increase the heart rate," she said. "For an individual with

diabetes, it can make that condition worse."

Prolonged use of nasal spray can wear out the blood vessels in the nose, making a person more susceptible to nose bleeds and sinus infections. The nose may become chronically congested and require nose spray more often.

Addiction occurs when a nasal spray is used several times a day for long periods of time, and when it is easier to breathe only after using the spray.

"It is a very subtle addiction," Woodson said. "People do not realize that they are actually making the condition worse. All they know is that they can breathe easier after using the spray.

Once addicted, the habit can be harder to break than cigarette smoking, she said.

To break the addiction, a person will have to stop using the nasal spray completely. It may take six months to one year for the nose to return to normal.

"The first two weeks are the hardest because a person will be unable to breathe normally. After the initial few days, the discomfort should begin to lessen," Woodson said.

She recommends following package directions and using nasal spray no longer than three consecutive days. Using a long-acting, 12-hour spray that contains one decongestant is better than a spray that also contains menthol, which can irritate the nose, she said.

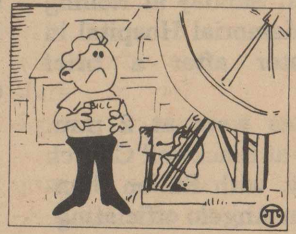

Be sure to change your air filter once a year or approximately 10,000-12,000 miles to sustain your car's performance and power.

Beware of Growing Con Games

Consumer alert: A warning is being issued to all consumers who own earth stations for TV reception, or are considering installing one in the near future. You can save yourself time and aggravation by being wary of con men in the earth station industry.

Installing a big back yard dish for "free" TV reception may not be as inexpensive as many think.

All such claims are false.

The fact is, scrambling of satellite signals is shortly going to be a reality. You'll still be able to get some of the TV signals you want — but you'll have to pay for them. A reputable earth station salesperson will tell you that.

By the way, it is illegal to intercept ABC, NBC and CBS now. When they scramble, it is unlikely home terminal owners will be able to buy those satellite signals.

Sprinkle salt on damp mud spots on your rug. Give the salt at least 15 minutes to soak up the mud, then vacuum up and away.

return. Bronte could not get the ball to move this time and S. Lee punted.

Eden was held to very little yardage and had a short punt. A mishandled pitch ended Bronte's drive as Eden recovered at their own 33 yd. line. After a penalty and a quarterback sack by Johnny Flores, a pass moved the ball back to the original line of scrimmage for Eden, but the ball popped loose and J. Flores recovered it.

Bronte then put together a 9 play 33 yd. scoring drive with S. Lee punching in from 2 yds. out. The try for two points failed and the score was knotted at 6 points apiece.

The 2nd half got underway with Puentez kicking the ball to Eden. Eden put the ball in play at their own 32 yd. line and took 8 plays to move into Horn territory. The Horns defense stiffened and pushed the Bulldogs back to the 36 yd. line and Eden punted.

Bronte took over on their own 14 yd. line. Puentez burst through for 7 yds. to the 21 yd. line, and then had the ball jarred loose with Eden recovering. Two ground plays yielded no yardage for the Bulldogs, but a 3rd down pass hit paydirt for Eden. This time Eden tried for 2 points and succeeded, so the Bulldogs led 14-6.

Bronte responded with a drive of their own; however, the drive stalled with a near TD completion between S. Lee and Puentez.

Eden took over as the 3rd quarter ended, but was forced to punt.

Bronte began at their 20 yd. line. On 1st down S. Lee fired a pass to C. Kelso - the ball bounced off his fingers and was extraordinarily fielded by Mark Adams for a 21 yd. gain. Two passes to Kelso netted 9 yds. and a 4 yd. carry by Joel Sanders gave the Horns a 1st at the Eden 46 yd. line. On the next play S. Lee dropped back to pass and threw towards Puentez, but an Eden defensive back stepped into position to what looked like a sure interception, however, the ball bounced off his hands into C. Puentez's hands who in turn sprinted for a TD. C. Kelso tossed a pass to Adams, but the ball was batted down in the Horns attempt for 2 points. The Bulldogs led 14-12 with around 8 minutes left in the game.

After Chilo Minjarez kicked the ball, Eden only had three plays before being forced to punt. Bronte took over at their own 36. The drive fell short on a 4th down as a fumble occurred and Eden recovered at their own 45.

Eden ran the ball twice and netted 4 yds. A crucial 3rd down play was coming up with less than a minute left in the game. Eden passed and nearly scored as Puentez made a saving tackle that also won him the hit of the week award at the

Horns 10 yd. line. With only about 10 seconds left in the game, Eden got greedy and attempted a pass for a score but John Morrow intercepted the ball in the endzone and gave Bronte one more 2 second shot for victory. Puentez ran what looked like an end around but stopped and threw back to a streaking S. Lee. The ball was just out of the reach of Lee and the game ended.

As Coach Sandusky told the squad, they played well enough to win except for 2 or 3 mistakes. Offensively, the Horns looked good, but just needed to punch in for scores when they have the ball down there. Defensively there were many strong performances by C. Kelso, S. Lee, Mark Hambright, Gary and Johnny Flores and Michael Teel.

The Horns will face Mertzon here Friday for the Bronte 1985 Homecoming game. The Horns are 1/2 a game behind both Mertzon

and Santa Anna, so this game will have a big impact on the post season perspectives of both teams. **Welcome back exes and come support those Horns!**

Fall Festival detailed

The Bronte Band and All Sports Booster Clubs, sponsors of the Fall Festival, invite everyone to attend this year's entertainment on Sat., Oct. 26, from 6:30 until 9:00 p.m. in the old gym.

Favorite booths from past years will again be featured-along with new ones. Parents may contribute to the success of the festival by sending all sorts of items to be sold, such as individually wrapped baked goodies (brownies, cookies, candies), canned goods, and miscellaneous items. All items may be brought to the gym right up to opening time. All persons working in booths should report to the old gym on Saturday morning at 10:00 to set up.

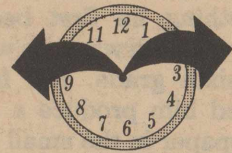

The junior and senior classes will be in charge of food booths with the juniors selling hot dogs and seniors selling homemade ice cream in many flavors and floats.

Game booths will appeal to all ages and a Spook House will offer separate rooms for the younger set, and a real chiller for braver souls.

High school students will present a short Halloween play with performances at 7:00 and 8:00. Admission is 50c with proceeds to be used for UIL one-act play materials.

Come in your favorite Halloween costume or come as you are, but don't miss this fun-filled festival.

Samuelson named publisher at Goliad

[Editor's Note:

The following article appeared in the Goliad Texas Express along with an announcement by Publisher Charlie Faupel that Samuelson would be leasing the newspaper and serving as publisher for the weekly publication.]

Eric Samuelson has written a weekly column for "The Texas Express" in Goliad since June of 1984 and next week will assume the role of publisher of the paper. He is a native Texan, now living in the Coletto Creek Area. Publishing is something he first became involved with when he was in the sixth grade. His father helped him produce a daily newspaper in the small town of Robert Lee. His first nickname was "Editor". He later studied printing at the Robert Lee Observer under the guidance of Ulmer S. Bird of Sanco.

He studied electronics at Gary Job Corps Center in San Marcos, TX. While at Gary, he was awarded the honor of "Corpsman of the Month" and set the San Marcos record for his scores on the G.E.D. Congressman Jake Pickle of Austin placed him in the Congressional Record in May of 1968.

He worked his way through college while staying with his sister in California. He was captain of the debate teams at Orange Coast College, Whittier College and San Diego State University. He won numerous awards for debate including the West Coast Lincoln-Douglas Debate Championship two years in a row. While at the University of Texas Law School, he was semi-finalist in freshman moot court and was chosen to serve on the U.T. Austin State Moot Court Team. He also was admitted to the Board of Advocates.

Since graduating from U.T. Law School in Austin in 1979, Samuelson has been active in political issues. During his final year at law school, he was involved in the successful campaign to abolish student government at U.T. Then he became President of Initiative, Texas which lobbied for enactment of meaningful initiative and referendum legislation for the people of Texas. He offered expert testimony on I & R at numerous legislative hearings. During Governor Clement's term of office, he was named "Special Aide for I & R" in the Texas House of Representatives. Legislators in Austin dubbed him "Mr. I & R".

In 1980 Samuelson sued the City of Victoria in the Supreme Court of Texas for failing to place a tax rate limit charter amendment on the ballot. In his first court appearance of his legal career he successfully won a writ of mandamus against more experienced city attor-

neys and won an award of costs for the Victoria Political Action League (P.A.L.). Shortly thereafter he was instrumental in bringing together a group of concerned taxpayers who formed the

statewide Texas Association of Concerned Taxpayers (T.A.C.T.). He helped write the "Pal Herald" newsletter. His first comic book was titled "Referendum Blues" which stated the case for the

right to petition on the state level in Texas. His later writings included the "Victoria County Line" published by Joe Conti of Victoria. The first issue concentrated on the Alamo and the second edition reviewed the Battle of San Jacinto. He has also published five editions of "The Coletto Creek Bull". These hard-to-get papers

were largely composed of material contributed by various patrons of the Coletto Creek Cafe.

He helped originate the idea of Tex-Fest as a Texas heritage celebration held the past two years. He was given

GOTTA REGISTER!

If you're a young man born on or after January 1, 1960 you are required to register with Selective Service within a month of your 18th birthday.

The registration process takes less than five minutes at the post office. You just fill out a simple form asking only for your name, date of birth, address, telephone number and Social Security number.

Registration helps keep our country prepared with a pool of names to draw from in case of a national emergency... without interfering with people's lives. When you think about it... that's not a lot to ask for a country as great as ours.

Registration. It's Quick. It's Easy. And it's the Law.

Fishing Tips

Make it a habit to hang your stringer of fish from the forward part of the boat. Then if you forget to haul it in before you crank up the motor to run to another part of the lake, the fish can't become tangled in the prop and churned into a mess of raw chowder.

When a new bass lure doesn't behave the way you think it should you can change its action by bending either the mouthpiece or the tie-on eye. But don't be in a hurry to fine-tune it. Show it to some fish first. You may find that they like it just the way it is.

Monofilament more than a year old may be performing on borrowed time, so play it safe and replace old line with fresh line every season-- or if you fish a lot, every two or three months. Fortunately, the cost is small compared with other fishing expenses.

WE INVITE YOU

If you have a "best" belt knife and are putting it up for the season, remove it from its leather sheath.

Leather holds moisture and can rust and discolor your blade. Coat your knife with light oil or a thin film of pure vaseline, then wrap in a clean rag or folded paper.

The Nose Knows.

An aromatic chemical is added to natural gas to give it a distinct odor. One that's easy to detect. It's this distinct odor and knowing what to do when you detect it that keeps gas safe.

If you're outdoors and smell gas, you should call your local Lone Star Gas office.

If you're indoors and detect faint whiffs, check to see if a pilot light has gone out or a burner valve has been left partially open. These are corrective steps you can take yourself.

If your equipment is working properly and you still smell gas, please follow these precautions:

1. Don't switch anything electrical on or off. Don't strike a match or do anything that could cause a spark.
2. Have everyone leave immediately, leaving door open to help ventilate.
3. Go to a nearby phone and call Lone Star.

Help us keep natural gas one of the safest energies available. Use your nose. Then use your head...and follow the proper precautions.

(Just a reminder: Before you do any digging, call your local Lone Star Gas office so they can inform you on pipe locations.)

Stripers hitting topwater lures

The serendipitous phenomenon of striped bass striking topwater lures is currently happening at E.V. Spence Reservoir near Robert Lee.

Billy Follis of San Angelo said the sporty fish have been feeding near the surface since mid-April, and they continue to hit topwaters during early morning and late evening along shallow flats. Follis said surface poppers have been the most effective lures.

Trolling and deep-water live bait fishing also has been good, he added, with recent good catches including a 26-pound striper taken during May.
