Harrison hired as deputy

Coke County has gained an experienced law officer with the recent hiring of Mike Harrison, 41, as a deputy sheriff. Formerly of Odessa, he brings 18 1/2 years experience to the county department. Harrison served 6 years with the Odessa Police Department and over 12 years with the Ector County Sheriff's office. Included with that stint was one year as chief juvenile officer which he said was a real "eyeopener". Harrison has attended a

number of schools during his service in law enforcement, including his graduation from the F B I Academy in 1981. An Odessa native, he was a 1966 graduate of Odessa High School.

At the present time, the new deputy, his wife, Judy and their children are living at Oak Creek but plan to move to Bronte right away. Chad, 16, and Lonna, 12 are attending Bronte schools and are enjoying it. Harrison said racial unrest in Odessa schools has spread to the elementary classes and he feels the children will benefit from a small school and community.

Family hobbies are hunting and fishing which put the Harrisons in a good spot, near Oak Creek, and Spence, and plenty of deer and turkey.

Medicaid limits: refining House Bill 72 so it can operate as intended; a **NO** vote for Constitutional Amendment #3 to keep the teacher pension funds from being used as a start-up loan for new private businesses; retirees role in using their time and energies for community services; and many other matters that concern our teachers and citizens.

GOVERNOR DUKAKIS CLAIMS CREDIT FOR A MASSACHUSETTS MIRACLE

The facts closely examined present a quite different picture.

- Elected governor in 1974 after promising not to raise taxes.
- Six months after taking office he pushed through a \$500 million tax increase.
- Sales tax raised from 3% to 5%.
- Income tax on interest and dividends raised from 9% to 10%.
- A "temporary" 7.5% surtax imposed on personal income.
- A 10% surtax placed on corporate income taxes and on bank and trust and utilities companies.
- Taxes on gasoline, cigarettes, and alcoholic beverages raised.

By the time Dukakis was rejected by his own party for a second term, Mass. was commonly referred to as Taxachusetts.

He consistently opposed tax cuts. He opposed (while King was governor) the tax-cut initiative, proposition 2 1/2.

Nevertheless, the people of Mass. passed it overwhelmingly.

The economic upturn in Mass. is usually dated from the passage of the tax-cut initiative, proposition 2 1/2, rather than being credited to Gov. Dukakis' policies.

When Dukakis took office in 1975, Mass. ranked 22nd in the nation in tax burden.

By the end of his term, only four states had higher tax burdens.

Dukakis boasts that he has cut taxes five times in the last four years.

According to Jack Flood, the Democratic head of the Mass. House Taxation Committee, "All of these tax cuts were proposed by our committee, except the unemployment insurance cuts, which were mandated by surpluses."

conditions of FSLIC -- with the full faith and credit of the Federal Government."

If any depositor carries more than \$100,000, by the combining of these associations, the FSLIC grants a grace period of six months, or up to the first maturity date, for the depositor to work out satisfactory arrangements.

Myers stated, "We are standing by, ready and eager, to answer every question. We invite everyone to call us or drop by and see us at any time."

"At Olney Savings and Loan, we never forget that each of our customers chooses us. Every time we get the opportunity to conduct a business transaction it's one more opportunity for us to get to show our customer how much we want his business and how much we appreciate it," Myers commented.

Olney Savings and Loan will specialize in checking, savings, and lending for Central and West Texas, serving our customers and each one of our communities with a full range of financial services. We are certainly proud to be a Family Financial Center," he concluded.

Steers come up short against W. Valley

by Bill Burns
Robert Lee played well, but came up short on the score board. The RL defense played particularly well as they allowed only 240 total yards to a team that has been averaging well over 400 yds. per game.

There are still 3 teams in district for RL to play, and they are all supposed to be good, but I say they had better watch the Steers, or they might just get beat.

1st Quarter
The first 5 minutes was Water Valley all the way. WV received the kick and drove for

5 first downs and their first touchdown. After that drive, the Steers started playing some of the best defense that I've seen all year. The quarter ended with WV ahead by 7 pts.

2nd Quarter
The ball exchanged hands several times but the only threat to score was made by the Steers as Jon Rogers came up with a 52 yard pass reception that took the ball to the WV 17 yard line. However, the Steers could not score and the quarter came to an end.....WV 7- RL 0.

3rd Quarter
The ball continued to change hands. RL out-played the Wildcats as they got 3 first downs and WV didn't get any. There were no real threats by either team for a score.

4th Quarter
RL started with 2 quick 1st downs but from there the Steer defense again got the call to stop the powerful offense of WV. The Steers had met the challenge from 5 minutes into the game until now, and again they met the challenge. They played well, but WV slipped through for a score with :34 seconds left in the game. Final score, WV 13 - RL 0.

Bill Grigg & Lenny Jackson both recovered WV fumbles and Warren Brasher intercepted a pass during the contest.

The Steers will host the Irion County Hornets on Friday, Oct. 28, at home at 8 pm. Come see these Fightin' Steers!

Jr. Hi defeats W. Valley

by Coach Lane Jackson
The Robert Lee Jr. High set the tone in their game against Water Valley early in the game. John Fluhmann went 33 yards on Robert Lee's 3rd play from scrimmage for a touchdown. The 2 point conversion was good by Scot Millican.

At this point, our defense seemed complacent and un-aggressive. We were unable to stop their bread and butter play (the option). Their blocking scheme was different than expected and it took some time for us to adjust.

As the first quarter ended, it found the score tied 8 to 8. Early in the second quarter, Scot Millican went around left end for 10 yds. for a TD. The score capped off a time-consuming drive. After a crucial defensive stand, RLJH stopped the Wildcats on forth down at the RLJH 14 yd. line

with 6 seconds on the clock Blake Pitcock went around right end for an 86 yd. dash, which made the score 26 to 8 at half-time after the conversion run by Jason Benton. Water Valley scored in the third quarter. However, RLJH kept it out of reach on an 80 yd. drive that ended with Danny Jackson scoring from 5 yds. out. The game ended with the Dogies on top 30-14.

I was extremely happy with our offensive line keeping a blitzing Water Valley defense out of our offensive back field. Dant Hughes, Dane Smith, Jason Bower, Jeremy Morehead, and Brent Jameson did a great job protecting our quarterback and picking up the WV linebackers.

We were delighted with the win. Our next game is with Irion County. Oct. 27, at Merton.

Thanks for your support!

Shower held for Skinner

Rebecca Ann Skinner, along with her mother, Mrs. Brenda Skinner, was honored with a baby shower in the home of Debbie McCabe, Monday evening. Held in the McCabe ranch home on the Divide, pink was the order of the day. Pink bows decorated the gates, many of the gifts featured shades of pink, and guests were served strawberry punch and cookies.

Special guests at the shower were Rebecca Ann's grandmothers, Geanette Skinner and Dean Royall, both of Robert Lee.

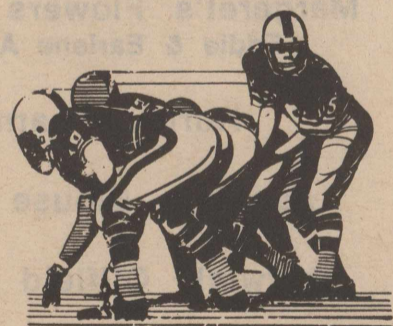

Linda Boone, Leta Caston, Wanda Oleksiuk, Leigh Ann Stephens, Debbie McCabe, Joan Davis, Kelly Millican, Gayle Shandley, Jo Nell Blair,

and Melisa Boone were hostesses for the shower.

Some teens have poor food habits

While most teens know what constitutes a healthy diet, some still tend to make food choices that may lead to a lifetime of poor eating habits, according to Dr. Mary Kinney Sweeten, Extension nutrition specialist. A recent Gallup poll of 375 teens from 12 to 17 years of age disclosed that 87 percent of those surveyed said they put "a lot" or "some" effort into a healthy diet, but many made poor snack food choices as well as luncheon food choices.

AARP to assist elderly with tax help

As the 1989 tax season approaches the American Association of Retired Persons (AARP) is accepting applications of persons interested in assisting the elderly with their income tax.

Nationally, over 1.5 million persons were helped last season through Tax-Aide Program co-sponsored by the Internal Revenue Service. In Texas almost 64,000 persons were assisted, including many shut-ins, a 50% increase from the previous year.

Volunteers of all ages can perform this important service and AARP membership is not required. Training will be provided. Volunteers usually work four hours per week providing free income tax help to older adults in sites such as libraries, churches and senior centers.

With more than 29 million members, AARP is the nation's largest organization of Americans 50 and older. It is a nonprofit, nonpartisan organization which offers a wide range of membership benefits, legislative representation at the federal and state levels, and educational and community service

programs carried out through a national network of volunteers and local chapters. The Association also offers a variety of educational and advocacy programs for older workers, who make up one-third of

AARP's membership.

Shorthorns fall to powerhouse Rochelle

A Long Way for Nothing (Shorthorns fall to Powerhouse Rochelle) by Vera Littleoff

Don't let it be said that the Bronte Shorthorns lack determination, they've got a lot of it, but they just can't seem to find any points to put on the scoreboard.

We won't elaborate on the play by play descriptions of each quarter, however, we would like to mention a few highlights of the game.

As usual, Jason Cooper was doing his best in catching passes and was in on many blocks.

Good ol' Gary Bilbrey can hit hard enough to cause fumbles and is always going for the one with the ball. He's doing a fine job both defensively and offensively.

Jay Parker is always using his head, most of the time by putting it into those big boys who run with the ball.

And can Jacob Golson run? You had better believe it. He passed everyone and tackled a Rochelle Hornet just short of his goal, resulting in getting the wind knocked out of him. He can also punt pretty good when he's not rushed too fast.

Jason Blaylock has a lot of drive when he gets the call to carry the ball. Defensively, he is in on tackles and recovering fumbles. Offensively, he knows how to find those holes in defensive lines. He rushed for about 20 hard yards during the game.

Chris Knight is a darn good runner if he can ever get started up-field.

There is a new-comer who started late in the season for the Shorthorns. Rudy Sanchez. Now this kid is due the spirit stick for the game. He returned kick-offs, rushed the quarter-back, made good blocks for his running backs.

He even picked up a fumble and was on his way for a touchdown when the refs. let him know he couldn't do that in this league. Keep up the drive, Rudy.

We can't mention everyone on the team, but each individual was not giving up even though the score was a little lop-sided. We'll bet that Justin Lampier will never forget intercepting a pass and running for 12 yards even though he and his teammates lost to Rochelle 28 to 0.

This game is past - let's go get Santa Anna!

Oglesby hosts Sorosis

Four Sorosis Club ladies presented an interesting and educational program at their regular meeting held Thursday evening, Oct. 20 in the Bronte home of Pat Oglesby. "Wives of '88 Presidential and Vice-Presidential Candidates" were reviewed by Peggy Hembree - Kitty Dukakis; Norma Gentry - Barbara Bush; Ann Hamilton - "B. A. " Bentsen; and Mary Glenn - Marilyn Quayle. Two polls

were taken following the program and were compared with Ladies Home Journal's national poll.

Diane Luckett was welcomed as a new club member.

A dessert plate was served to Virginia Boecking, Jean Fancher, Gentry, Mary Frances Glenn, Mary Glenn, Hamilton, Hembree, Bobbie Lee, Betty Lee, Dorthey Pruitt, and Luckett by the hostess.

"He wants to disarm the people in his state except for the military and the police."
 George Bush, Longview, Texas, Aug. 26

This statement is a lie.

It's the latest in a series of Republican lies.
 We think you should know the facts.

FACT: Governor Michael Dukakis and Senator Lloyd Bentsen strongly support a citizen's right to keep and bear arms. They believe law-abiding Americans should be able to use firearms for protecting their homes and businesses, hunting and target shooting, and collecting. Our Government must respect those rights.

FACT: Governor Dukakis believes that our nation's gun laws should help law enforcement officials fight crime and keep guns out of the hands of criminals. He will not interfere with private ownership of weapons by responsible citizens.

FACT: The Dukakis/Bentsen ticket has been endorsed by the International Union of Police Associations, the International Brotherhood of Police Officers, the Southern States Police Benevolent Associations and the Combined Law Enforcement Associations of Texas, among other groups.

FACT: Like President Reagan and the nation's major law enforcement groups, Governor Dukakis supports legislation requiring people who want to buy guns to wait seven days—so that police can determine whether the person has a criminal record or is mentally dangerous. **Despite overwhelming police support for this bill, George Bush opposes it.**

FACT: The number of Massachusetts gun owners has tripled since Mike Dukakis became Governor, and grown by almost 50 percent in the last five years. There are 1.7 million handguns, shot-guns and rifles in a state with 4.3 million people over age 18.

FACT: In 1968, then-Congressman George Bush voted for Federal gun control. After the bill passed, Bush said he thought "much more" needed to be done to curb purchases of firearms.

FACT: George Bush supported deep cuts in aid to state and local police and personally blocked a law that would have banned plastic guns used by terrorists and drug dealers.

FACT: Mike Dukakis is tough on crime. Under his leadership, crime has dropped 13 percent in the past five years—while it has continued to climb in the rest of the nation. The homicide rate is the lowest of any industrial state, about half the national average.

"The Republican charges on gun control are an insult to Texans' intelligence. Look at the facts before you vote on November 8th."

— Gib Lewis, Speaker, Texas House

The Dukakis/Bentsen Team Strong Leaders for a Strong America.

George Bush knows he has to lie to win this election.

Mike Dukakis wants you to know the truth.

He's pledged to protect our country and our flag.

Mike Dukakis. A patriot for President.

Similar experiences told

Houston--James Vanover and Patsy Lee frequently share similar stories about their bouts with cancer of the larynx because they feel so fortunate not to have lost their voices.

Preservation of their normal speech--after having parts of their voiceboxes removed--is the result of conservative surgery combined with radiation therapy performed at The University of Texas M. D. Anderson Cancer Center.

"We are now able to offer voice-saving therapy to almost 70 percent of the patients referred to us. For some patients with early cancers of the larynx, radiation alone can cure them and no surgery is necessary," noted Dr. Helmut Goepfert, chairman of M. D. Anderson's Department of Head and Neck Surgery.

Both Vanover and Lee admit they were not too surprised to develop cancer since both had smoked cigarettes for many years and were aware of the potential health hazards. Lee described herself as "a moderate to heavy smoker, while Vanover said he smoked "two packs a day for 34 years" and also chewed tobacco.

"Like most people, I took talking for granted all those years, commented Lee, who enjoys greeting customers in the family's furniture upholstery business and occasionally works part-time in a busy Houston restaurant.

Vanover was a heavy construction worker until injured in a cave-in four years ago. Now he is an active church volunteer and coordinates Sunday School classes in Porter, a Houston suburb. "I'm very lucky that my voice was spared," then grinned as he quipped, "but my wife probably would rather I didn't talk quite so much."

Their first symptoms--sore throats, coughs and raspy voices--prompted both patients to seek medical attention, Lee in the spring of 1984 and Vanover in late 1986. Because they were diagnosed with fairly small tumors, each was able to have a partial laryngectomy followed by six weeks of radiation.

"Any patient with a persistent sore throat and lingering voice changes should see a doctor as soon as possible. We know that more than 90 percent of our patients have smoked, so it is imperative that smokers be alert to these first symptoms. When the cancers are small and detected in an early stage, it is theoretically possible to do voice-saving treatments for almost all of them," Dr Goepfert explained.

In addition to cancers of the larynx, which now affect an

estimated 12,200 Americans annually, tobacco use is linked to causing other oral cavity cancers, including tumors of the pharynx, mouth, tongue, and lip. Dr. Goepfert stressed that an early diagnosis for these types also gives the majority of patients a better chance for conservative treatments.

Vanover, who also had a tumor removed from a lymph node in his neck, said he feels "really good" about the outcome so far and spends a lot of time talking with adolescents and teenagers about the dangers of smoking.

Lee, who like Vanover has four grandchildren, also urges others not to start smoking to seek help in kicking the habit. "I used to think I couldn't quit, but learning that I had cancer was a terrific motivator," she said.

Pumpkin boom

It's boom time in the Texas pumpkin patch and although the crop may be small, it offers just what consumers need for carving, fall decorations or eating, said Dr. Roland Roberts, Extension vegetable specialist at Lubbock. The crop, grown mostly in the South Plains area, is producing excellent quality pumpkins with good yields.

Thornless berry

Gardeners can now grow blackberries without the fear of getting jabbed or scratched. Thornless blackberries have become a reality through field studies by the Texas Agricultural Experiment Station and Texas Agricultural Extension Service, reports Dr John Lipe, Extension horticulturist.
