back franchise taxes plus interest. NAACP attorneys filed immediate notice of appeal. Water Bill Flibustered. A water storage buying proposal was down, and maybe out, after a 13-hour "discussion" by Sen. Otis Lock of Lufkin.

Enough Said. Senate apparently wants no more long talks on the segregation bills. First such bill to come up brought on a record-breaking 36-hour filibuster. But the second one showed through in a minute after a vote to shut off the debate.

Better Pay Approved. If voters consent, future legislators may avoid some of the financial pinch many complain of now. Senate approved a House constitutional amendment providing for annual sessions and more pay. But it upped the House-suggested salary of \$4,800 to \$7,500 a year.

School Law Study. A searching examination of Texas school problems, such as preceded the Gilmer-Aikin laws, has been proposed. Resolutions introduced in both

House and Senate said many districts are unable to provide teachers and buildings to keep up with the rapid increase in pupils. A 24-member committee to study the needs and report to the 1938 session was recommended.

Committee would be made up of six appointees of the governor, six by the Board of Education and six by the lieutenant governor and speaker of the House.

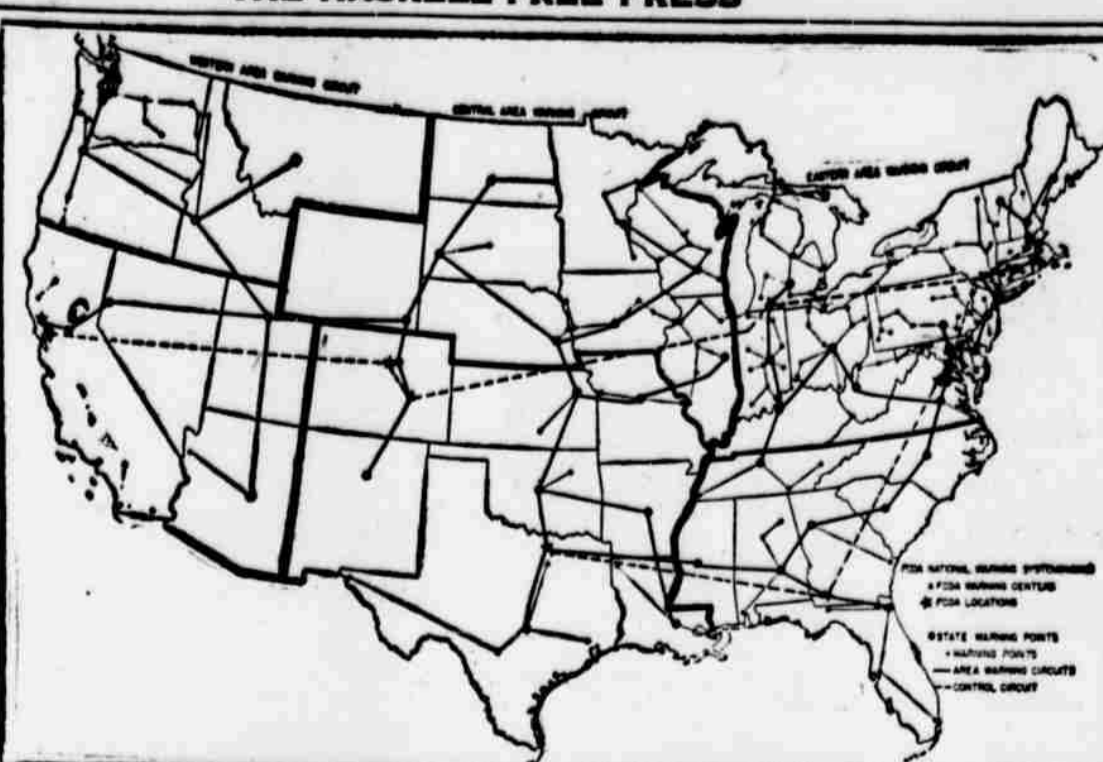

SHORT SNORTS—Texas will have 205 new lawyers after the Supreme Court holds swearing-in ceremonies May 18 for those who passed the spring bar examination. Fishing may cost more as a result of a House-passed bill raising the fishing license from \$1.65 to \$2.15.

Fish for Stocking Farm Ponds, Tanks Now Available

The long-dry tanks and ponds of Texas farms and ranches—most of which are now filled with water from recent rains—can be restocked with game fish. Senators Ralph Yarborough and Lyndon Johnson have announced.

The two Texas senators said they had been informed by the U. S. Fish and Wildlife Service that "fish for restocking are available and orders can be filled without delay."

Today the submarine serves as a guided missile platform, early warning station, killer of surface and subsurface vessels, scout, coastal raider, troop transport, supply ship, minelayer and seaplane tender.

NATIONAL WARNING System, including some 28,000 miles of wire, is shown with its intricate connections to 200 civil defense warning points across the nation. The new network may be used to sound a single national attack alarm from the Federal Civil Defense Administration's National Warning Center at Colorado Springs, or if necessary, from similar warning centers at Stewart Air Force Base, N. Y., or Hamilton Air Force Base, Calif.

Heavy April Rainfall Over Texas Cause Deaths and Property Losses

Following repetitive rainstorms that drenched most of Texas, excessive flooding on nearly all streams throughout the area east of the Pecos River to the Sabine River claimed a reported 17 lives, destroyed several hundred homes, and caused evacuations of large areas comprising lowlands and areas of inadequate drainage.

This summary was contained in the monthly report of the Board of Water Engineers, Austin. Damages to residential, municipal, industrial and agricultural properties, have been high, but this great amount of runoff improved the storage in most of the reservoirs in the State.

Measured rises of 0.9 to 5.7 feet occurred in selected observations wells located in Uvalde, Atascosa, Bexar, Travis, and Harris Counties. Despite the rises, record April lows were set in areas in Harris and Uvalde Counties. Declines in water level occurred in the observation wells

Ranchers Face Job Of Restoring Pasture Grass

Usable storage in major surface reservoirs increased from 49 to 82 per cent of conservation capacity during the month to afford many cities within, what in some cases are record-high volumes of surface water supply, because new lakes were filled for their first time.

Precipitation. Texas rainfall for April followed the same drought breaking trend of earlier months of 1937. Most agricultural areas of the state had above normal rainfall, according to the survey completed May 8 by the State Climatologist, U. S. Weather Bureau of Austin.

Almost all of the American gas industry's growth has been financed by the public through purchase of debt securities and equity, according to the American Gas Association.

Ranchers Face Job Of Restoring Pasture Grass

Ranchers of the California Creek and Wichita Brazos Soil Conservation Districts are confronted with the problem of restoring grass cover to their pastures. These pastures have been severely damaged by drought. Proper use of rangeland is the one practice on which the ultimate success of all other range practices depends.

The primary objectives of a range management program are (1) to establish and maintain an adequate ground cover that will prevent excessive loss of water and soil by runoff; (2) to provide a good quality of year-round forage that will insure better condition of livestock and minimize the amount of supplemental feed; and (3) to distribute grazing uniformly over the range to prevent the development of "sore spots."

Proper use represents a stocking rate, grazing system, and a class of livestock that will produce the greatest total volume of forage, and livestock gain, on a continuous basis. Forage plants make their living by manufacturing their food in green leaves. A part of the plant food, in addition to feeding man and beast, is necessary to the plant to produce more leafage and vigorous roots which will enable the plant to maintain itself while feeding others.

plant to the extent that it cannot resist adverse weather conditions. Proper use is achieved by keeping livestock in balance with the forage produced. Naturally, there are problems that confront the rancher in obtaining proper use from year to year.

Rangeland is limited in production if moisture is lost to run-off and evaporation. Even with very moist rains there is a limited moisture penetration on bare, hard-land range sites and drought quickly returns. If winter and spring rains come, we sometimes get a build-up of annual weeds and other weedy vegetation on our bare lands.

It takes leaves to grow roots to produce more leaves. Grass is the rancher's crop. Without proper use of grass we can expect crop failures.

In 1936, there were 390 persons killed in the U. S. crossing at intersection with signal. Twenty were killed on safety isles.

By MRS. DELBERT LEFEVRE

Guests in the home of Mr. and Mrs. Emil Kainer Sunday for Mother's Day were Mr. and Mrs. Emil Kainer Jr., and daughter of Paducah; Mr. and Mrs. William Barnett of Stamford, Mr. and Mrs. J. D. Kupat of Rule; Mrs. Bill Bradshaw and family of Anson, and Mr. and Mrs. Herbert J. Kainer of this place.

Twelve members of the Zion Lutheran Ladies Aid of Sagerton attended the LWML Zone rally at Brownwood Tuesday, May 7. There were 65 members and 6 pastors present from 8 congregations.

Mrs. E. R. Rathgeber from Vernon, a former pastor's wife of Sagerton, gave a very interesting commentary along with 200 colored slides taken on a European tour the Rathgeber family took in the fall of 1955. The commentary was entitled "Life of Women in Europe."

New members elected on the executive board are: president, Miss Lillian Neinst of Sagerton; vice president, Mrs. Ernest Phillips; secretary-treasurer, Mrs. Edward Reich, and pastoral advisor, Pastor Geo. Fehl.

Approximately 150 guests were present at the 12th annual group meeting of the Northwest Texas Group of Women's Missionary Federation held at St. Paul's Lutheran Church Friday, May 10. They represented churches from Haskell, Stamford, Wilson, San Angelo, Winters, Roscoe, Sweetwater, Abilene, O'ney, Wichita Falls, Lockney, Littlefield, Levelland, Odessa, Amarillo, Slaton, and Sagerton.

Mrs. Edward Marshall of San Antonio, editor of the juniors department of the "Outlook" and Mrs. Fred Elchert of Austin were the guest speakers.

The eighth grade graduating class was honored with banquet Friday evening May 10 at the school. The theme of the banquet was Candlelight. Candles and roses were used for decoration. Jimmy New was the toastmaster and gave the welcome. Billy Sellers gave the response. The Message of the Candles was given by Jana

Uimer, Bennie Mueller, Joy Nierdieck, Linda Stremmel, Bob Clark, Linda LeFevre and Sherry Counts.

The rose corsages, which were used as table decorations were given to the mothers who served the banquet.

Airman Jerry Welsh Taking Basic At Lackland AFB

Airman Jerry Wayne Welsh, 21, son of Mr. and Mrs. E. E. Welsh, Rt. 3, Haskell, is completing the first phase of his basic military training at the "Gateway to the Air Force," Lackland Air Force Base, San Antonio.

Upon completion of this training, he will be assigned to an Air Force technical training course or an advanced basic training course leading to a specialized Air Force job.

While at Lackland the new enlistee undergoes the transition from civilian to airman through a program which includes processing, aptitude, testing, physical conditioning, survival and weapons training, and classroom studies ranging from citizenship to military customs and courtesies.

Like the USAF Office Candidate and Pre-Flight Schools, also located at Lackland, basic military training lays the groundwork for either an on-the-job assignment or vocational schooling in line with capability of the individual.

Before entering the Air Force, young Welsh was a freshman student in Hardin-Simmons University and he and his wife were living in that city.

CARD OF THANKS

NEWS OF INTEREST WOMEN

Christian Church Missionary Society Meets May 13

The Missionary Society of the Christian Church met May 13 in the home of Mrs. George Fouts, with Mrs. Lynn Pace, Jr., presiding over the business session in the absence of the president.

Mrs. J. M. Glass opened the meeting with prayer and Mrs. Guy Harris sang a solo, "We've a Story to Tell the Nation," with Mrs. Lynn Pace, Jr., as accompanist.

Mrs. James Crawford was director of the TV Missionary program and gave a devotional based on Mark 16:15-16 and Luke 24:46-49. She said the still novel and fascinating medium of television now affords the New Testament churches with a golden opportunity of presenting the gospel to the millions in the world and that television is a God-given medium, created not simply through the cleverness and ingenuity of man, but provided through the goodness and generosity of a loving Heavenly Father, who desires that it be used to proclaim the saving gospel of His Son to the masses.

Mrs. Crawford showed a film of the "Vernon's" of Christian TV Missions, appearing over the station KOAM-TV, Channel 7, Pittsburgh, Kansas.

Charles Goodwin assisted as projector operator.

A delicious tea plate was served by the hostess to Mesdames J. M. Glass, Tommie Hawkins, J. E. Zimmerman, P. T. Baxter, Lynn Pace, Jr., James Crawford, W. A. Duncan, Courtney Hunt, D. P. Ratliff, C. O. Holt, R. F. Pitman, Guy Harris, and Miss Beryle Boone, and Charles Goodwin.

Josset HD Club Meets in Home of Mrs. McFarlin

The Josset Home Demonstration Club met Tuesday afternoon May 14 in the home of Mrs. J. W. McFarlin.

The president, Mrs. Marvin Walters, called the meeting to order and the group sang "Ever Onward." Mrs. Paul Cothron gave a reading on "Mother."

Mrs. C. A. Thomas gave the invocation and Mrs. Martin Rueffer was in charge of recreation.

Mrs. Laton Robertson gave the Council Delegate report.

Miss Wanda Greenhill, County H-D Agent, gave a most interesting program on Living Room Accessories. Miss Greenhill used pictures and a slide projector showing living room arrangements and uses of accessories.

The club members surprised Mrs. J. P. Perrin with a pink and blue shower.

Refreshments of pink and blue angel squares and pink punch were served to Miss Greenhill, Mesdames J. L. Toliver, Jr., J. L. Toliver, Sr., T. M. Howeth, Louise Merchant, Jack Merchant, Paul Cothron, C. A. Thomas, Martin Rueffer, Carl Bailey, Laton Robertson, J. P. Perrin, Marvin Walters and the hostess, Mrs. McFarlin.

Next meeting will be May 28 at 3 p. m. in the home of Louise Merchant.

Haskell County Churches to Observe Civic Righteousness Day May 19th

The churches of Haskell and Haskell County in cooperation with the Texas Alcohol Narcotic Education Inc., of Dallas, will observe Sunday, May 19, as Civic Righteousness Field Day by presenting guest speakers for the organization in their pulpits.

TANE, as the organization is often called for short, is a non-sectarian organization with Dr. J. Howard Williams, president of the Southwestern Baptist Seminary of Fort Worth, as the state president, and Dr. Harold G. Cooke, president of McMurry College, Abilene, as chairman of the 120-member board of directors. Twenty denominations are represented on the board. Dr. Albert F. Tucker, the executive secretary, is a Methodist minister.

Representatives of this organization spoke in 2,684 Texas churches last year, and specially trained workers have spoken in at least one high school in every

county in Texas to a total of 1,200,000 Texas high school students. Guest speakers for Haskell county churches on Sunday, May 19, are listed as follows:

Haskell—Assembly of God, Jesse Waldrop; First Baptist, Glenn Bales.

Rochester—First Methodist, C. B. Prewitt; Church of God, 10 a. m., C. B. Prewitt; Foursquare, 10 a. m., Henry Sims; First Baptist, 11 a. m., Henry Sims.

Weinert—Foursquare Gospel, 10:30 a. m., Robert Bales.

Paint Creek, Baptist—James Jackson.

Rule—Sweet Home Baptist, Carlton Butler, 10 a. m.; First Baptist, 11 a. m., Carlton Butler.

O'Brien—Zion Baptist Mission, Willard Kern.

The Tane organization reports that the wet-dry map of Texas at the present indicates that 144 of the 254 counties in Texas are totally dry, 81 partly dry, and

that there are only 29 counties in Texas totally wet where all types of alcoholic beverages can be legally sold. Three counties and five precincts voted dry for the first time in 1956 putting 366,000 more Texas people under local option rule than a year ago. Not 1 foot of Texas territory has been changed from dry to wet in local option elections during the past three years.

World's Second Largest Circus Coming Tuesday

The color and excitement of the big top will come to Haskell May 21 when Al G. Kelly & Miller Bros. wild animal circus will make a one day stand here.

Billed as the world's 2nd largest wild animal circus, the Al G. Kelly & Miller Bros. Circus will present two performances at 2 p. m. and 8 p. m. at the Rice Springs rodeo grounds.

This will mark the first appearance of a big circus here in many years and undoubtedly the first one to bring such an outstanding and unusual animals as the giraffes, hippopotamus and rhinoceros. In addition a herd of 21 elephants will be shown besides more than 200 other wild animals.

One full hour is given prior to each performance to visit the world's largest menagerie. The average circus that visits this

community has never carried or boasted of exhibiting a herd of giraffes. Al G. Kelly & Miller Bros. is the only American circus now exhibiting giraffes and only seven zoological institutions in the nation have them as an attraction.

This free circus, now exceeded in size only by Ringling Bros., Barnum & Bailey show is also featuring Col. Tim McCoy, famous western movie and TV star in person.

A free treat will be provided for circus fans when the animals are fed at 9 a. m. at the rodeo grounds.

Weekends are the most dangerous time to be on U. S. highways. In 1956, more than 56 per cent of all fatalities occurred on Friday, Saturdays and Sundays.

During 1956, there were 2,200 more highway traffic fatalities than in the previous year.

Nearly 28 per cent of U. S. drives involved in fatalities in 1956 were under 25 years of age. More than 52,000 Americans were injured in car-bicycle mishaps in 1956.

OUT ON A LIMB
 By CHARLENE WHITE

Just about the proudest fisherman in town is Walter Viars Felker, 8 year old son of Mr. and Mrs. Viars Felker. Walter Viars took his old man fishing not long ago; probably against his better judgment, but when you're only 8 you can't do much with this handicap. However, even with this handicap Walter Viars managed to bring in the catch of the day. A three pound bass is probably being mourned by the other denizens of Lake Stamford right now. This fine specimen is now resting comfortably in the Felker home freezer whilst father and son try to reach a compromise on the touchy problem—Should a fella's first big fish be mounted?

The most pampered horses in America reside right here in our fair city. Sonny Matthews' mount refused to drink Haskell water so the high school cowboy had to load him up and take him seven miles to the Matthews home just to get him a drink. Then there's the boss. His horses have their own perfumed horse liniment. Probably called "A Night With Gene Aubrey" or maybe "Corral No. 5." So it's a bum joke, but we tried.

It's a toss-up as to who was the star attraction at Thursday night's rodeo—Stanley Purrh falling off a horse or the Texas Jackrabbit that ran out into the arena. The rabbit ran out to the middle of the arena and settled himself down for an entertaining evening watching the lunatics fenced in the grandstands. His laughter was interrupted when he turned to see a calf bearing down on him and followed by a cow-poke on horseback. I don't know about Stanley but I bet when that bunny got out of the arena he had a nervous breakdown.

The answer to last week's riddle is the whale that swallowed Jonah. Feel Silly? So do I.

Visitors in the R. R. McCall and Roy Foster home for the weekend were Mr. and Mrs. Rufus Warren of Weatherford and Mrs. Bill Warren of Ft. Worth.

Junior-Senior Banquet
An old fashioned garden was the setting for the "Moonlight and Roses" banquet given by the Rule Junior Class to honor seniors last Friday night at the school cafeteria.

Table decorations carried out the same theme, using the senior class colors of scarlet and silver, and their class flower, the scarlet rose.

David Garlington, senior sponsor, gave the invocation. David Springs, junior president, welcomed the seniors. The senior president, Winston Ulmer, gave the response. Lavelle Baugh sang "Moonlight and Roses." The Joy Notes, composed of Jan Ousley, Jackie Estes, Fern Ross and Audrey Smith sang "In a Garden of Old Fashioned Roses," and "Blue Moon."

Jimmy Hamilton and Davene Jones gave the junior class prophecy and Ann Henry read the senior will. The banquet ended with the singing of the school song. Twenty-nine seniors, 21 juniors and 14 faculty members

attended. The sophomore girls served the meal.

Cattle Rally After Last Week's Dip At Ft. Worth

By TED GOULDY

Fort Worth—Trade was active and prices were fully steady to 25 to 50 cents higher at Fort Worth Monday. Trade was spotty, with all sales not reflecting the advances, but the tone of the trade was much better throughout.

Dressed meat trade reports reflected continued stable outlets for the red meat, and stocker and feeder demand continued to expand.

Comparative prices: Slaughter steers and yearlings of good and choice grades \$19 to \$22.50, high choice quotable to \$24, and a load of steers weighing 1,160 from Durward Lewter of Lubbock sold at that figure last week in the closing session. Medium and low grade butchers were sold from \$12 to \$18. Fat cows \$12 to \$14, and canners and cutters brought \$8.50 to \$12. Bulls drew \$10 to \$15.50.

Good and choice fat calves sold from \$18.50 to \$22, and medium and lower grades \$12 to \$18. Stocker calves and yearlings \$18 to \$22.

HOME FOR MOTHER'S DAY

Scotty Heiber, who is employed in the accounting department of Ford Motor Company in Dallas, spent Saturday and Sunday in the home of his parents, Mr. and Mrs. M. E. Heiber.

Mrs. May Larned returned Thursday from an extended visit in San Antonio and Granbury. She visited in the home of her son, Lieut. Jack Larned and Mrs. Larned in San Antonio; and with her sister, Mrs. Annie Tittle and a brother, Ben Allison and Mrs. Allison in Granbury.

Congratulations! Haskell County Grads

Paint Creek . . . Community News

MRS. GENE OVERTON

Perhaps we should get our county agent, F. W. Martin out here and get him to teach us how to raise rice. I've seen pictures of Chinese farmers in their rice fields and they are ankle deep in water. That is how some of the grain fields look at Paint Creek. Several farmers have had to break terraces to drain their fields.

One or two mothers who are tired of cleaning mud out of the house say they are ready to yell "calf rope," but the men folks say there is no such thing as too much rain as long as it falls slowly. These flash floods in some parts of the state are something else, though. Where do you suppose that dust storm came from Tuesday afternoon? I didn't suppose there was any place dry enough for the dust to blow.

The Vacation Bible School at the Methodist Church will begin Monday, May 27 at the church. Teachers will be: Beginners, Mrs. Allen Isbell and Mrs. Roy Overton; Primary, Mrs. Howard Montgomery and Mrs. Ray Perry; and Intermediates, Mrs. Gene Overton.

Recent visitors in the Harvey Terrell home were their children Rev. Edwin Lee Terrell, Fort Worth; Mr. and Mrs. Lester Seth and children of Abilene and Mr. and Mrs. A. A. Howard of Texline. Mr. Howard is a former vocational agriculture teacher at Paint Creek, and he has been elected to teach voc. ag. in San Angelo next year. He will have 123 boys in his classes there.

Mr. and Mrs. Howard Montgomery and Carolyn Livengood spent last weekend in College Station as guests of their son's family. Mr. and Mrs. John C. Montgomery and son John Paul. There a special review on the campus on Mother's Day honoring the mothers of the cadets, and Mrs. Montgomery has attended them every year since her son has been in A&M. Their grandson, John Paul returned home with them for a visit until they return for the graduation.

Mr. and Mrs. Earl Bishop of Floydada spent Friday and Saturday with his sister, Mrs. J. E. Kuenstler. They fished at the lake while they were here.

Guests in the home of Mr. and Mrs. Vernay Howard and Vern last Friday and Saturday were Mrs. Howard's brother, Mr. and Mrs. Clyde Davis of Crosbyton, and her sister's family, Mr. and Mrs. Nelson Crouch and son of Lorenzo.

W. C. Taylor, whose wife teaches our 5th and 6th grade work has returned home from the Veterans Hospital in Big Spring where he was a clinical patient several weeks. He will return for further check-ups and some dental surgery later.

Mr. and Mrs. Glen Sandefur and children spent Mother's Day weekend with their parents, Mr. and Mrs. Louie Kuenstler and Roddy, and Mrs. Pat Sandefur of Stamford.

Mr. and Mrs. Boyd Cathey and Elizabeth from Grand Prairie were here over the weekend visiting her parents, Mr. and Mrs. W. A. Montgomery. And that reminds me, have you ever seen a century plant bloom? I think it is a century plant. Its name is maguar, and it looks sort of cactusy. Anyway, Gomery has one, and about a week ago the big old bloom started to grow out of the center of that plant, and it literally has grown up by leaps and bounds. The bloom stalk is almost five feet tall now, and only started a week ago. To prove it to her son-in-law, Gomery had him mark a place on the stem of the bloom, one morning, and that evening his mark had moved about an inch and a half up from the leaf he used as a marker. It is amazing. We neighbors are all anxious for it to start opening.

Mr. and Mrs. Durward Livengood and children spent Mother's Day in Kaufman with his mother, Mrs. Beatrice Livengood.

Mr. and Mrs. Eric Bergstrom, Joy and Arvie were in Abilene Saturday where Arvie took the entrance exams to the University of Texas.

William Haynes, Waller and William Overton attended the Chisholm Trail Council Order of the Arrow meeting at Camp Tonkawa last Friday night. All three boys were taken into the Brotherhood which is the second step in the Scout honor campers fraternity. The creek which goes through Camp Tonkawa, and carries the spillway away from Lake Abilene began to rise, so the boys left just before it flooded. Many of the O. A. members were marooned in camp over the weekend. The Paint Creek boys came on to Abilene and spent the night in the Scout office before coming home Saturday morning.

Vaughn Cox from Fort Worth and his sister, Helen Jean from NTEC at Denton, spent last week end with their parents, Mr. and Mrs. W. S. Cox.

The Paint Creek Methodist Church lost its oldest member in the death of Grandpa Dee Tidwell last Saturday morning in the Hendrick Memorial Hospital in Abilene. He lived here for many years with his children. I remember several years ago when he had a grandson, James Tidwell, on the football team. He would come to ball games and sit all wrapped up in blankets in the car till James went in the game. Then his children or grandchildren would help him to the sidelines where he watched the game all while James played, and then return to the car. He was such a sweet old fellow, and such a pretty old man with his trim white mustache and his white hair. We all join in sympathy for his many children, and especially for our neighbors Mrs. Garland Calloway, and Mrs. Maggie Larned and their families.

Last Friday Pat Morrison took three of his basketball girls to Cisco Junior College to try out for the athletic scholarships that are offered there to girl players. Neita Walton, Cynthia Russell and Sue Shaw tried out.

Our program Friday night honoring the teachers of our school was such a nice affair, and we all enjoyed seeing them so honored. The speaker was an exceptional one, too. Charlene White covered the program, so read about it somewhere else in the paper, but we hope this will in some way show our wonderful faculty how very proud of them we are, and how we appreciate what they do for our boys and girls.

Mr. and Mrs. Lonnie Bounds from Abilene were here over the weekend and attended the funeral of her grandfather, D. J. Tidwell.

Lee Bohannon is in the hospital in Stamford. While backing his car out of a parking space in Stamford, he was run into by another car and his back was injured.

Mr. and Mrs. G. R. Welsh had as their Mother's Day guests, their daughter and family from Fort Worth, Mr. and Mrs. G. R. Morgan, Dianne and Glen. Mrs. Welsh also had a commendation and a picture of Jerry from Jerry's commanding officer at the Air Base in San Antonio. I thought that was real nice of that officer. Jerry is through with his basic training, and will be assigned to further schooling this week.

Mr. and Mrs. Albin Hokanson had a letter from Jimmy Ned last week saying he had been promoted to Pfc. and was now working in the supply office as a clerk. He likes his job, and makes \$15 more than he did. It was most appropriate for Jimmy Ned to wait till he went to Germany to have the German measles, too. He has been out of the hospital about two weeks.

Crockett Is New Early-Maturing Wheat for Texas

By F. W. Martin, County Agent

Crockett is a new variety of hard red winter wheat, developed by the Texas Agricultural Experiment Station and U. S. Department of Agriculture. It is an early maturing variety, has high test weight and produces high yields of grain of approved quality. While not immune to rusts, it has greater disease resistance than most commercial varieties now available. Crockett resulted from efforts over the past 15 years to combine both high disease resistance and good quality into a variety which has the early maturity of Wichita.

Crockett has an enviable yield record and test weight in Texas and regional trials during the past 6 years. It exceeded the yield of Wichita and other varieties in most tests, averaging nearly 2 bushels more per acre than Wichita on the High Plains, 3.2 bushels more per acre on the Rolling Plains and 4.1 bushels more per acre in the North-Central Texas area. Its average test weight was equal to that of Wichita.

Crockett is very similar to Wichita in general appearance. It is a bearded wheat having white chaff with black stripes similar to other blackhull type wheats. These black stripes do not develop under some conditions. The variety is slightly taller than Wichita and Triumph but is shorter than Comanche and Westar. Crockett produces kernels very similar to Comanche and they are somewhat longer and smoother than Wichita.

Crockett is 4 to 6 days later in heading than Early Blackhull and 1 to 3 days later in ripening. It is also slightly taller than Early Blackhull. Except for Quannah, Crockett has greater resistance to rusts than any hard winter wheat variety now available. While races of rust are known which will attack Crockett, and will undoubtedly increase as the Crockett acreage increases, it has better resistance than present early varieties such as Wichita.

Crockett produces a grain of high quality for milling purposes. While approaching Comanche in quality, it probably is not quite equal to this variety which is considered the standard for comparison. It is superior to Wichita in quality, and was developed to replace early maturing varieties such as Wichita and not later-maturing varieties such as Comanche.

Some seed of this variety is now being grown in Haskell County by Bill King of Weinert and V. W. Meadors, Jr., of Haskell.

Lutheran W.M.F. Group Meeting Held in Sagerton

Approximately 150 delegates, visitors and pastors met at St. Paul's Lutheran Church in Sagerton Friday, May 10 for the Northwest Texas Group meeting of the Women's Missionary Federation of the American Lutheran Church. Thirteen members and Pastor Robert C. Berry attended from Haskell.

Mrs. J. E. Marshall of San Antonio was the guest speaker for the morning. Mrs. Marshall is editor of the junior section of the Women's Missionary Outlook, the monthly magazine put out by WMF offices in Columbus, Ohio. Under the topic "Count Your Blessings Junior Size," Mrs. Marshall spoke on work among young children in the church.

During the afternoon session Mrs. Fred Eichert, president of the Texas District of the WMF reported on the progress of the organization on a national and district level.

During the business session it was announced that the Northwest Group has 100% participation in WMF work. This means that every ALC church in this area has a local society.

Officers elected to serve the Group for the next two years are: Mrs. A. C. Meir of Amarillo, president; Mrs. Ellis Ueckert of Winters, vice president; Mrs. Herbert Vahlenkamp of Sagerton, secretary; and Mrs. Hugo Hildebrand of Lubbock, treasurer.

Crockett Is New Early-Maturing Wheat for Texas

By F. W. Martin, County Agent

Crockett is a new variety of hard red winter wheat, developed by the Texas Agricultural Experiment Station and U. S. Department of Agriculture. It is an early maturing variety, has high test weight and produces high yields of grain of approved quality. While not immune to rusts, it has greater disease resistance than most commercial varieties now available. Crockett resulted from efforts over the past 15 years to combine both high disease resistance and good quality into a variety which has the early maturity of Wichita.

Crockett has an enviable yield record and test weight in Texas and regional trials during the past 6 years. It exceeded the yield of Wichita and other varieties in most tests, averaging nearly 2 bushels more per acre than Wichita on the High Plains, 3.2 bushels more per acre on the Rolling Plains and 4.1 bushels more per acre in the North-Central Texas area. Court ---

(Continued from Page 1) had to miss church, prayer service and Training Union because we couldn't get over the roads," Fischer said. Hines, who drives a school bus, said he had to pass up that section of his route, and Casey declared that it was impossible to get over some of the roads. "We're willing to help any way we can to fix the roads," Fischer said. "Either by driving a truck a day or two, or whatever else we can do." Casey offered to donate gravel and caliche on his place, as did Fischer, if that would help.

Commissioner Francis Blake of Precinct 4 explained to the men that purchase of the new equipment he was asking for would make it possible to get roads in their section and in other parts of the precinct, in better shape. Fischer, as spokesman for the group, told Commissioner Blake and the Court they were not criticizing but were calling attention to the needs of their section. Purchase of the equipment for Precinct 4 was authorized by a vote of three Commissioners, Blake, Leon Newton and Louie Kuenstler. Commissioner Claude Ashley of Prec. 1 dissented, expressing the view that the purchase would create too much indebtedness for Prec. 4. Discussion of the proposed purchase of equipment resulted in several sharp exchanges between the two Commissioners after Ashley had asked Blake "How much does Prec. 4 owe now?" Replying, Blake said that "the precinct was in debt \$30,000 when I took over, and all the equipment was in bad shape. I've had to buy a lot of equipment, but by the end of my term the precinct will only owe \$10,000, including the new machinery."

Pointing out that the purchase would increase total indebtedness of Prec. 4 to around \$42,500, Ashley said: "I wouldn't run my precinct that way." Blake retorted, "That's right, you don't run your precinct like I do mine, because you're not interested in the people out in the country and the town people keep you in office. I can't stay in town all the time." Blake added, "I have to get out over my precinct and the people tell me what they need," he declared.

Motion to authorize the purchase was made by Commissioner Newton of Prec. 2, who said, "This will give Commissioner Blake the equipment he needs, and he needs all that he has now." The motion was seconded by Commissioner Kuenstler of Prec. 3.

Herd of 21 African and Asiatic Elephants With Circus Coming Here May 21

Pictured above are three members of the Al G. Kelly & Miller Bros. herd of 21 elephants coming to Haskell on Tuesday, May 21, for afternoon and night performances on the Saddle Tramps rodeo grounds. At the upper left is "Jumbo the 2nd," towering "Two-Storeyed Mastodon" a species of the African elephant. In the center is "Tena" an unusually intelligent Indian elephant. To the lower left is "Congo" a pygmy African elephant recently captured in the dark depths of the Ituri Forest, and acquired by Dorsey Miller, one of the supervisors of America's 2nd largest circus who is justly termed by contemporary showmen, the "Wild Animal King." Mr. Miller has spared no effort or expense in assembling specimens of the largest of all land animals, scouring the last frontiers of the globe, in search of representatives to appear in Miller Bros. grand congress of pachydermic phenomena. The average circus or zoo is satisfied to present a few Burmese elephants in a short routine of stereotype mediocre tricks, not so with Al G. Kelly and Miller Bros. In the 5 Continent menagerie carried by the world's second largest circus, can be seen elephants from India, Indo China, Siam, Malaya, Ceylon and Borneo, as well as from Africa, and rarest of all the pygmy elephant from the heart of the Belgian Congo—the latter though comparatively small as elephants go, is a fully matured adult, and this tiny "tusker" is beyond question the most outstanding zoological exhibit brought to the Western Hemisphere in the past half a century.

Water District Directors Named At Weinert

Three directors of the Haskell County Water Supply District were elected by Weinert voters last week. Newly-elected directors are R. J. Rainey, Bill King and Glenn Caddell. The election was held in the Weinert community center, with E. C. Lowe as presiding judge. Clerks were Mrs. W. B. Guess and Mrs. G. C. Newsom. At a meeting of the water district's board of directors following the election, R. J. Rainey was named president, Eddie Sanders, vice president, and R. N. Mathison, secretary and treasurer. Retiring president of the board is R. C. Liles.

SERVICE CLEANERS - LAUNDRY HALLIE 6 TIMES CLEANER BILL 6 YEARS AHEAD

Paint Creek Teachers, Trustees, and Employees Honored at Program Friday

By CHARLENE WHITE

"This program is in recognition of the fact that service is not bought with money—it only comes with a sincere desire to serve," stated R. E. Kennedy, WTU, Public Relations Director at a special appreciation program in the Paint Creek School Friday.

Kennedy was the principal speaker at the program honoring 13 teachers, school board members and employees of the Paint Creek School who had five or more years service with the school.

From a stage decorated with greenery and pink and white hydrangea plants, M. E. Overton, school board president presented the pearl and ruby set; service pins to the candidates stating, "We parents don't for a minute think we alone are responsible for the wonderful progress our children have made. It is the teachers and the people with whom they come in daily contact at school who have much to do with the molding and shaping of their lives."

Received the living gold pins set with a ruby to commemorate 10 years service were: Mary Owens, elementary teacher; Lilla Heflin, instructor; Frank Sims, school board member; Bertha Hager, lunchroom helper and bus driver; and Mrs. Stella Trice, school nurse. Pins set with a pearl for five years service were awarded to: Dan McRae, Superintendent of Schools; J. C. O'Neal, coach and school principal; Besa Smithey, instructor; Olga Taylor, instructor; Irene Ballard, elementary school principal; Tony Earles, lunchroom worker; H. P. Morrison, instructor, and Mack Earles, custodian.

Certificates of merit were presented to 23 high school pep squad members by R. E. Medford, school board secretary. Receiving certificates were Judy Earles, Cynthia Russell, Martha Stephens, Clara Fischer, Carolyn Cook, Sue Watson, Delores Pus-tejovsky, Nelita Walton, Barbara Grand, Marlene Watts, Linda Medford, Roberta Jones, Judy Calloway, Sue Shaw, Joan Marr, Mina Griffin, Sandy Earles, Delores Thane, Linda Grand, Selda Calloway, Joyce Shanafelt, Peggy Howell and Margaret Fischer. Entertainment was provided the audience of well over 100 persons by the high school girl's choir. Fred Selby, Jr. high school student sang a solo and was joined by Judy Earles and Alvis Early for a trio. The group was accompanied by Mrs. M. E. Overton.

Visiting Parents Mr. and Mrs. Dan Oates and sons, Daniel Mack Jr., and Latham, of Dallas, are visiting in the home of Mr. and Mrs. Hill Oates.
