Letter to the Editor

Dear Editor:

Amid the holiday hustle and bustle, let us remember our four emergency organizations and those people who volunteer their services.

All four - the East Coke County EMS, East Coke County Fire Department, West Coke County EMS, and West Coke County Fire Department - are in great need of financial assistance.

The WCC-EMS has received a matching grant of \$3780 from the Texas Department of Health for a Jaws of Life that will be used throughout the county. BUT it is a matching grant, and the same amount has to be funded by the WCC-EMS within the next few months or the grant is lost.

The WCC Fire Department does not have the funds to complete the building to house the vehicles.

We are sure that both services in Bronte have as great a need for your consideration.

We hope that as each of you wrap your gifts, send your cards and plan your holiday meals, you will think about these services and join us in sending a Christmas donation in any amount to one or all. Then, as a New Year's Resolution, make plans to assist in time and with donations.

Self Certification for pesticide applicators begins

In a continuing effort to cut unnecessary paper work and save taxpayers' dollars, licensed pesticide applicators will be responsible beginning January 1 for maintaining their own records of continuing education units through a self-certification process.

"Self-certification means that individual Texas pesticide applicators - instead of the Texas Department of Agriculture - will now keep track of the continuing education courses they complete, just like attorneys, nurses, accountants and many other

professionals already do," Agriculture Commissioner Rick Perry said. "Most pesticide applicators already maintain their own education records, and after January 1 TDA will no longer duplicate these efforts by also keeping records for each individual.

"However, the department will randomly audit records year-round to ensure that individuals have course certificates for classes taken."

Under the new system, TDA will continue to issue license renewal forms, and on these forms, applicators will be asked to list their continuing education units. Applicators should keep certificates of completion, which are distributed after attendance at TDA-accredited courses.

In Texas, individuals who use pesticides classified as restricted or state-limited use must be licensed or certified as commercial, non-commercial or private applicators. Commercial and non-commercial applicators must renew their licenses by completing five hours of continuing education units every year. Private applicators must renew their license or certificate by completing 15 hours of continuing education units every five years.

Bronte schools receive awards

Bronte schools celebrated

Bronte school administrators (l. to r.) Terry Myers, elementary principal; Charlie Uselton, interim superintendent; and Scott Turner, high school principal, exhibit awards presented recently to the elementary and high school by Region XV Service Center.

with a Texas Successful Schools Awards Ceremony on Thursday, December 7. Local businesses, parents, students, and teachers all participated in the event with presentations made by Region XV Education Service Center.

Mr. Don Ickles, Mrs. Susan DeFrank, and Mrs. Patti Davis were presenters from Region XV. They presented Bronte High School with a Recognized successful schools award, indicating that Bronte High School is rated among the top 15 percent of schools in the state.

Bronte Elementary was presented with an Exemplary successful schools award, indicating that Bronte Elementary is rated among the top 4 percent of schools in the state! Of 6,229 campuses in the state of Texas, only 255 received an Exemplary rating.

The entire Bronte School District received a Recognized successful schools award. Of 1,045 school districts statewide, only 151 received Recognized or Exemplary status.

Relating this to a local re-

gional level, only 8 districts in our region received Recognized status, as did Bronte ISD, and only 35 campuses in our region received Recognized status as did Bronte High School. Finally, only 4 campuses in our region received the Exemplary status received by Bronte Elementary.
