Mosquito control encouraged

Bronte residents and property owners are encouraged to keep their properties mowed to help with the control of mosquitoes. Residents are also asked to help by mowing their alleys and right-of-ways when possible. City personnel have limited time in which to do mowing.

Spraying for mosquitoes is done when conditions are favorable. By keeping weeds and grasses mowed, spraying is more effective. Residents should also make sure there is no standing water in outdoor containers that would provide a breeding place for

mosquitoes.

Weeds and grasses harbor not only mosquitoes and other insects, but also provide a hiding place for snakes. Residents are reminded to be cautious when working in tall grass and weeds.

Cemetery workday scheduled

Members of the Hayrick Masonic Lodge and Hayrick Lodge Cemetery Association will start working at 7:00 am Saturday, June 22, at the Robert Lee Cemetery. Many graves have sunken. All interested persons are invited to work.

RLISD welcomes new board member

The Robert Lee ISD Board of Trustees held its regular monthly board meeting on Tuesday, June 4 at 7 pm in the high school library. At the top of the agenda was the swearing in of newly appointed trustee Ron Hill. Mr. Hill was appointed to fill a vacancy for a one-year unexpired term. He will have to stand for election next May. Mr. Hill has lived in Robert Lee since 1994 and is Vice-President of Pioneer Gas Pipeline Company with offices in San Angelo.

The board also approved Food Service meal prices for next year. The only change in previous year prices was an increase in adult lunches from \$2.00 to \$2.25 as recommended by the Child Nutrition Division of the Texas Education Agency. Supt. Weldon Koepf also reported other results of a Child Nutrition Program audit conducted by TEA in April. He also reported that attempts to implement a Food Purchasing Coop for area schools could help bring down food service costs in the future.

Board members also reviewed the final draft of a Community Networking Grant Application that will be submitted to the Texas Technology Infrastructure Fund Board by June 7. If approved the grant would provide improved computer and Internet access to citizens of the Robert Lee community.

Robert Lee ISD Technology Coordinator Jerry Horn will administer the grant as a partnership between RLISD, Coke County, Coke County Library, Robert Lee Care Center, and the City of Robert Lee. The grant would provide a networked computer center at the location of each of the partner entities where local residents could access the Internet. Computer classes would also be taught at the school which would be open to community residents. Supt. Koepf explained that receiving the grant would require the school to provide 10% in matching funds over the three fiscal years that the grant would be operational.

Trustees also reviewed a report of Elementary Library Services provided during the 2001-2002 school year. They also heard a report from Superintendent-elect Lindsey Wallace on progress on the search for a new athletic director. Before adjourning, the

board scheduled a special meeting on June 12 for the purpose of filling the position.

Laundry basics for the college bound

Doing your laundry for the first time? What gets washed with what? Too late to call home? You're the only one in the laundry room?

Hang on, help is here. You can take care of your clothes and save money by practicing good clothing management in your home, dorm or neighborhood laundry. Although the latest in washers, dryers and laundry products make cleaning easier, for good results, follow these basic procedures:

*Remove stains as soon as possible. Spots and stains are easier to remove if they are treated quickly. To remove a stain, use a blotting motion, do not rub the stain. Retreat stains that are not completely gone. Do not dry stained clothes in the dryer or the stains may become permanent. Bleach also helps to remove stains and improve cleaning power. Follow garment care instructions and bleach label directions for proper use. If there is any doubt, test the garment for colorfastness in an inconspicuous area.

*Read the care labels and follow instructions. Following the manufacturer's recommended instructions can mean the difference between a garment that lasts and one that can be ruined easily. Read the care labels in your garments. They contain care procedures recommended by the clothing manufacturer.

*Sort clothes before washing. Separate whites from colors and light colors from dark. Separate sturdy cottons from delicate and permanent press items. Separate lint-givers, such as sweatshirts, from lint-grabbers, such as corduroy and permanent press items. Finally, separate heavily soiled items from lightly soiled ones. As you separate clothes into loads, empty pockets and shake out cuffs. Close zippers and hooks. Repair any holes or tears so they don't grow in the wash. Pretreat stains, collars and cuffs.

*Follow the instructions on laundry products. Many choices of laundry products are available today. Follow the manufacturer's instructions for amounts to use. Soaps are designed for light, gentle washing. Detergents work to remove a variety of soil amounts. Granular detergents work well on mud and clay soils. Liquid detergents are usually effective in removing grease and oil stains. Fabric softener reduces static cling, minimizes wrinkling and softens clothes. Rinse-added softener goes into the final rinse. Dryer-added softener sheets go in the dryer at the beginning of the cycle.

*Avoid overloading. The wash may get finished faster but it

won't be nearly as clean. For best results, items must circulate freely.

*Water temperature is an important factor in cleaning performance. For best results, use warm water (90-110 degrees F), for most loads, use hot water (130 degrees F and above) for whites and heavily soiled items, and cold water (80 degrees F or colder) for lightly soiled or brightly colored items.

*Choose a drying cycle that fits the care label instructions. Generally if clothes can be washed together they can be dried together. Shake the damp items to loosen them before putting them in the dryer. Set controls for "regular" if most of the load is made up of all-cotton fabric, or "permanent press" if the load contains man-made fibers or permanent press fabrics.

To avoid the unnecessary wrinkling, remove items from the dryer as soon as it shuts off. Do not overload the dryer. Keep lint filter clean. Air drying is recommended for some garments.

If you expect your clothes to last, you must take care of them. The appearance of clothing can be ruined during any of the steps outlined above. However, if you take time to care for and clean your clothes properly, you will save money.

What is a Father?

Submitted by Jan Yanez

This poem is dedicated to all FATHERS.

A Father is someone who is forced to endure child birth without anesthesia.

Fathers usually growl when they feel good, and laugh very loud when they are scared to death.

A Father never feels entirely worthy of the worship he sees in his children's eyes,

But he keeps trying to be the hero his daughter thinks he is ... and the man his son believes him to be.

Sometimes Fathers go to war. They don't want to, but as always they know that war is part of their most important jobs in life ...which is to make the world a better place for their children than it has been for them.

Fathers are men who give daughters away to men who aren't nearly good enough...so they can have children who are smarter than anyone else.

Fathers fight dragons almost daily. They hurry away from the breakfast table, off to the arena which is sometimes called an office or workshop. There they tackle the obstacles that stand in their way...schedules, hard work and occasionally, the boss. They never quite win the fight but they never give up.

I don't know where Fathers go after life, but I have an idea that A Father doesn't just sit there on a cloud waiting for the girl he's loved and the children she bore. He will be busy there, too, repairing the stairs, oiling the gates, improving the streets, smoothing the way.

HAPPY FATHER'S DAY TO ALL FATHERS!!
