

Cubing machines operating on the 2500 acres of alfalfa owned by Jim Paul and Paul Conditt in the west part of the county.

Farm manager for Paul Conditt, Hegireo Urias, is watching over the automatic dump as it finishes dumping the cubed alfalfa into the 40 foot trailer truck. Cubes will be taken immediately to feed lots in Hale Center, Cotton Center and Midland, Texas.

Paul Conditt is shown with one of his employees, Claude Wilemon, after a trailer truck had been loaded out with approximately 40,000 pounds of cubes. Note the great expanse of hay field in the background. Sheep are grazed on the alfalfa land during the winter months.

The Seminole Area Chamber of Commerce has employed a new manager. He is 26-year-old Billy Charles Faircloth from Graham, Texas. He and his wife, Gay, have a three-year-old daughter, Charlotte.

He received a BBA Degree from Hardin Simmons University in January 1968. He was employed as Distributive Education teacher-coordinator in Graham High School two years before accepting the position here. Prior to this he was employed as a teller at the American Bank and Trust Dallas, Texas; as a teller at the First State Bank, Abilene, Texas; a student geologist at Lone Star Producing Co., Abilene, Texas and as Management and Control Analyst at General Dynamics Corporation, Ft. Worth, Texas before moving to Graham, Texas.

He holds membership in the Graham Chamber of Commerce, Rotary International, Texas State Teachers Association, American Vocational Association, Texas Association of Distributive Education Teachers and National Association of Distributive Education Teachers.

He is a six footer and weighs 170 pounds. His hobbies include hunting, golfing, fishing and reading.

## EDITORIAL

If you have not signed a self administered loyalty pledge, please do so. It is a blessing, an honor and a privilege to live in the United States of America. It is indeed an honor to loyally support the President, the Governor, the Mayor, the Police Department, and all other officials in their actions designed to quell violence, promote peace and bring about the freedom, concord and unity for which our nation was founded and which stands as a bulwark in a world threatened by oppression.

If you have not signed one if you will call this newspaper one will be forwarded to you. Only 212 have been sent to Mayor C. O. Wright. A lot of these have the family signature on them which would mean a good many more, but surely there are more than 212 families in Seminole that are interested enough in good government, the police force and other authorities to want them to know that they are 100% American. Total cost—only 6¢.

## NEW MANAGER - C OF C

## 2500 ACRES OF HAY

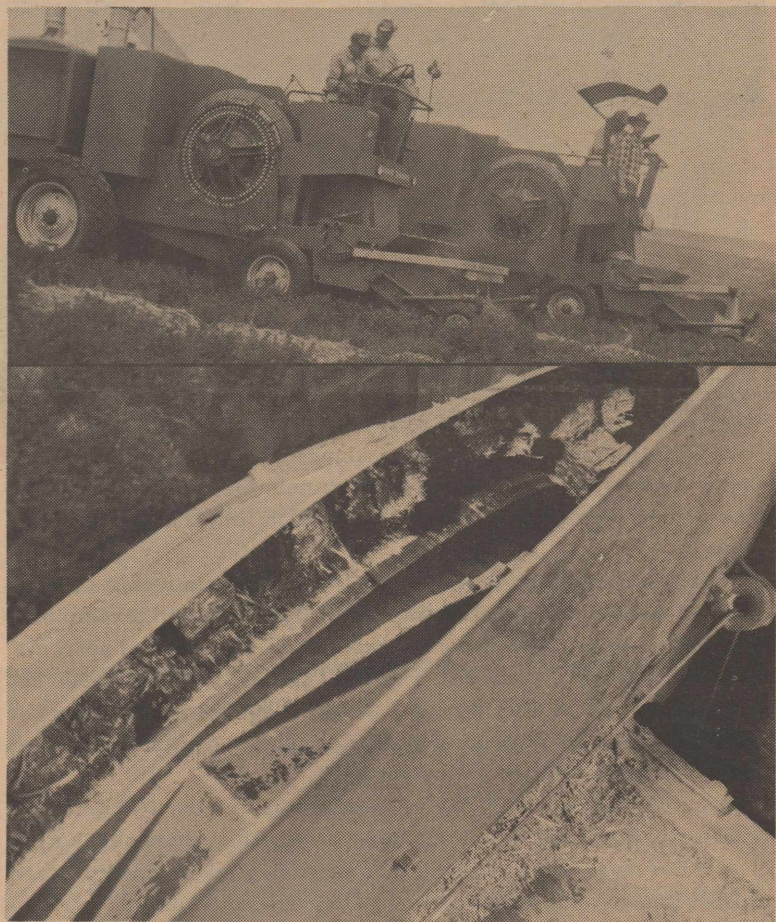

Billy Charles Faircloth, right, the new manager of the Chamber of Commerce, receives a wish you well from the departed manager, Earl Bartley, who was visiting in Seminole Tuesday.

## Potatoes - Lots Of Acres

The several thousand acres of potatoes in Gaines County have potatoes from very small to near baseball size at the present time. Prospects look good. The two shown here are about 2½ inches in diameter. Look carefully and you can see a five gallon grease bucket in the upper right hand corner, behind the potato plant. The plants themselves are about 2 feet high. Harvest will begin between the 4th and the 10th of July.

The 66 dies in this huge press wheel that produce the cubed alfalfa cost \$2500 per set. (Thank goodness they last a long time.) The upper picture shows the die wheel as the machines are going down the field. The lower picture shows the cubes as they push out of the dies and fall into the elevator that transfers them to the truck on the Paul Conditt and Jim Paul farm.

On the farm what can you do with five machines that cost near \$200,000.00? "One thing," says Paul Conditt and Jim Paul, who own the five, "you've got to keep them working."

The five new machines are self propelled John Deere Cubers that operate on farm land 15 miles west and 4 miles south of Seminole. Marvin Hays and Harvey Gatewood are other owners of like machines. Each machine is capable of cubing five tons of alfalfa hay per hour. The machines work something like this. After alfalfa has been cut, crimped and field cured to 10 to 12% moisture it is ready to be cubed. As the Cuber picks up the windrow, spray nozzles moisten the hay. This water releases a natural adhesive on the surface of legume plants to make a "glue" which, along with high pressure, securely bonds cubes. Water flow from the 1000-gallon tank can be easily and quickly adjusted to match ground speed and compensate for varying moisture content of the crop. A reel, auger, and two sets of feed rolls condense the material and deliver it to the cutterhead. A cylinder cutterhead chops and thoroughly mixes the hay and water. Two spiral knives with extremely hard tungsten-carbide cutting edges slice the crop to an average length of 1 3/8 inches. The cubes measure 1¼ inch with an average length of about 1½ inches.

The next question: Where in the world could anyone find enough material for five machines that could cube up to 10,000 pounds each per hour? Twenty-five tons is a lot of anything.

cont. on page 2

# Farm hand

Three cubing machines on the Paul Conditt farm are shown as they travel down the field. The three operators shown are Raymond Carrasco, on the left, Rensendo Rodriguez, and Tony Salazar, along with farm manager, Hegireo Urias and a truck driver, Pete Condarco.

## CUBING FROM PAGE 1

It's also a lot of cow feed. Alfalfa hay is grown on land owned by Conditt and Paul on 19 quarter sections of land plus leased land. The hay is grown under Valley overhead irrigation systems that travel automatically under water pressure, circling approximately 130 to 140 acres each. The cost on these is \$16,000 to \$18,000 each, but that is another story.

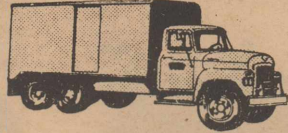

The men spend from \$8.00 to \$12.00 per acre in fertilizer, with most of that being phosphorus and the balance nitrogen (example 11-48-0). The two men expect to produce 15,000 tons this year. At \$32.00 a ton that's about half a million dollars. "We've loaded as many as five truck loads per day, weighing 40,000 pounds, plus two bob-tail loads. We have run 360,000 pounds per day through the three machines on this side of the operation."

The seven trailers (carrying upwards of 40,000 pounds) plus two smaller trucks, have false bottoms in them. They simply back up over a conveyor belt to unload. The unloading takes approximately thirty minutes. The cubed alfalfa pellets are delivered to Hale Center, Cotton Center and Midland, Texas to cattle feed lots. Sometimes a truck can make two loads a day, but usually only one. Men growing alfalfa state that they will cut their crops five times and average about seven tons per acre for the year.

The crop lays on the ground a few days after it's cut, drying out. The machines run and irrigation is started immediately, putting on 2½ to 3 inches every seven days. Twelve to fourteen feet swathers are used to cut and windrow the hay, running it through a crimper, making ready for the monster machines. With a pickup attachment the machine is fed. The cubes are elevated into a trailer pulled behind the machine that holds upwards of 19 to 20 ton. The trailers then are hydraulically dumped into waiting trucks. It takes sixteen employees to operate the Conditt farm, where three machines work, plus men driving the trucks. The operation is diversified. Besides eleven ¼ sections in the Paul Conditt operation, there's 600 acres in cotton, 130 acres in potatoes, 130 in green beans, 85 in peanuts and 500 acres in wheat. The balance is in milo. It's quite an operation, but the automatic cubing machine is fast putting the hay baler out of business. Trucks are loaded automatically and unloaded automatically. The feed is fed to the cattle automatically. As progress marches on farmers in Gaines County are trying to keep step. Paul Conditt, Jim Paul and others have made giant strides.

**FORGIVE ME  
WHEN I WHINE**

— — — AUTHOR UNKNOWN

Today upon a bus, I saw  
A lovely maid with golden  
hair;  
I envied her - she seemed so  
gay -  
And Oh, I wished I were so  
fair.  
When suddenly she rose to leave,  
I saw her hobble down the  
aisle;  
She had one foot and wore a  
crutch,  
But as she passed, a smile.  
Oh, God, forgive me when I  
whine;  
I have two feet - the world  
is mine.

And when I stopped to buy some  
sweets,  
The lad who served me had  
such charm.  
He seemed to radiate good cheer  
His manner was so kind and  
warm.  
I said, "It's nice to deal with  
you,  
Such courtesy I seldom find."  
He turned and said, "O, thank  
you, sir!"  
And then I saw that he was  
blind.  
Oh, God, forgive me when I  
whine;  
I have two eyes - the world  
is mine.

And when walking down the  
street  
I saw a child with eyes of  
blue.  
He stood and watched the others  
play;  
It seemed he knew not what  
to do.  
I stopped a moment, then I  
said;  
"Why don't you join the others,  
Dear?"  
He looked ahead without a word,  
And then I knew; he could not  
hear.  
Oh, God, forgive me when I  
whine;  
I have two ears - the world  
is mine.

With feet to take me where I'd  
go,  
With eyes to see the sunset's  
glow,  
With ears to hear what I would  
know:  
Oh, God, forgive me when I  
would whine!  
I'm blessed indeed. The world  
is mine.

mitted by Mrs. R. M. Lewis.)

**? Did You Know**

... that it required 50 minutes of factory labor to buy a pound of round steak 40 years ago, and that it takes only 24 minutes today? The U. S. government rancher is using a modern miracle.

Well, I just returned from another marriage. and it's a good thing we were not late. The singing, the preaching and the praying took only 7½ minutes. Well, you might say that's not bad, the couple didn't remember what they were saying anyway. But, at the cost of marriages today, I think something ought to be done to regulate and strike a happy medium. This little bride was pretty. She had three attendants and a flower girl. The groom had a like amount and can you imagine - just 7½ minutes! And then there's another thing - what is the groom suppose to pay the preacher? Cleveland Rix from Navasoto, Texas, my last bachelor friend to get married, years ago called a preacher in Houston and asked him what he charged and he was told that the state allowed him \$2.50 then, so I paid him fifty cents (as best man) to make it \$3.00. And then there was the marriage I went to last year that last 1½ hours. Now that's ridiculous because everybody goes and looks back over their shoulder to see the bride come in, thinking maybe she won't arrive. If a preacher got paid \$20.00 for 7½ minutes think what it would cost to get 1½ hours worth. That would be \$240.00 an hour. So you can see the need of some regulations being made. In 7½ minutes you just can't hardly get the tears going. I like to remember

I like to remember the couple whose daughter was getting married and the mother was crying. The daughter was crying and the father was sitting there patting his foot. Then there's the story of the couple years ago that knocked on the preacher's door late one cold winter night and wanted to get married. The fires were all out and the preacher said, "Okay, slide your license under the door. Mary, is that you?" "Yes," came the reply. The preacher then said "I now pronounce you man and wife." I don't recall whether there was any money slid under the door or not for this price wedding. Then there's my uncle that went with a friend to get his marriage license and, on the spur of the moment, told the clerk, "Just give me a set of them, too." How would you like a marriage proposal with license in hand? Then there was the preacher that was told by the groom "I forgot to bring any money." "That's all right, young man," he was told, "I never send in the license till I'm paid." The money was in hand by early morning. How about that one of Bobby Phillips? He married this couple in Snyder, Texas. Evidently it didn't take. He married them again after coming to Seminole and I think it's a shame he took money the second time. I tell you there ought to be some regulations about these marryings. I wanted to ask L. A. Harper what he got for that one Friday night, but being easily embarrassed I didn't do it. But that boy oughta paid him a good price because he put into her vows that she promised not only to honor but to obey. This oughta demand a good rate.

It's that time of the year. Mr. and Mrs. J. E. Woodard stood up again Sunday after fifty years and went through their vows again. But it's like someone said, "When you get married you're either fixed up or messed up." And for all of the June brides, I hope it's a lifetime of happiness. It was that way with the Woodards. (Suggestions welcomed only if favorable.)

## NOTICE

A group of interested citizens met Monday night at the Gold Room of Seminole State Bank and discussed a medical trust fund in the amount of \$10,000.00 to be set up as a lending agency to help medical students, so that Seminole and Gaines County can have doctors in the future.

In making the announcement Dwayne Herman said (1) we will need to set up trustees. (2) This will not be a gift. This will be a loan, to be paid when the doctor begins practice. (3) Bill Curry offered his services concerning legal work. (4) Your help is needed.

Richard Watts, Jameil Aryain and Dwayne Herman were appointed by the group to set up the trust.

Rev. McKinley Oats of the True Light Baptist Church holds two trophies given by the St. Paul District Association of Sunday School and B. T. U. Congress for best attendance and the best conduct of their young people.

Mr. and Mrs. Bob Price of Lubbock visited their son, Mr. Dan R. Price over the week end.

You can give people a lot of things but one thing that's always been given to me that I appreciate is a pencil. One man I know always burned me up because I gave him a pencil one time with my name on it and he immediately scraped it off and said he didn't like them like that. Another fellow I gave a pencil to hung it up on a string with a jillion others.

When I give somebody a pencil I want them to use it and when someone gives me one I want to use it. Phillips 66 gives good pencils. They're the kind you can put a filler in and use them again and again. Also Seminole State Bank gives good pencils.

A lot of people just throw them away when the cartridge runs out of ink and do not think enough of the pencil to spend a dime on it.

Where do all these pencils come from, anyway? Arco Pipe and Supply, Brownfield and Seminole. I don't know who brought that pencil in. Here's another one - "We plow deep while other people sleep" - K. O. Hendricks Deep Plowing, Plains, Texas, and one from Business Forms, Inc, Lubbock, Texas and one that the letters don't show up much, but it's from businesses in O'Donnell, Wolforth and Lubbock, Texas and has a peculiar shape. Here's a good one - from Oswald's Pharmacy with a 1969 football schedule on it. Huh, I hadn't noticed that before. One from Bob Clark, Southwestern Life, is felt tipped. That's a good deal.

Then there's one that has the Dallas Cowboys on it, given away by Piggly Wiggly. How's this one from Woodstock, made in U. S. A. #732. Here's a felt tip that just says Sheffield Color Coater and one from the underground cable. The cable runs across the farm and there's a man in Lamesa, Rex L. Petty with American Telephone & Telegraph Company, that says call him collect if ever anyone disturbs the cable. Here's one from River Falls State Bank in River Falls, Wisconsin. (I wonder if they're still died in the wool Republicans.)

Oh, I like a good pencil and I buy fillers for them. I'll tell you someone that gives good pencils and I don't have one right now - I lost mine - Bonner Lease Service. Here's one from Gaines County Farm Supply, Production Credit Association and O K Gas. That's O K and thirty for now.

### City Council

Ten members of the Chamber of Commerce met with the City Council Monday night to discuss the possibility of the City participating in the financial burden of the Chamber's expense. Glen Cavitt, president of the Chamber of Commerce, spoke for the following people: Brom Marchbanks, George Cristy, Bob Clark, Judy Treadaway, Jack Bonner, Robert Jones, Jim Davis, Don Cates and Gene Hawkins.

It was pointed out that a new manager had been employed by the chamber and that approximately \$6000.00 a year was needed by the Seminole Area Chamber of Commerce to do the following things:

1. Pay a chamber manager enough salary to encourage him to stay on for a number of years and do a good job.
2. To have enough money for travel to check on new industry and encourage businesses to move to Seminole.
3. To help the chamber better serve the complete area.

Question by Karl Don Hughes - Is there any other place that the chamber can get the needed funds? Answer - No, we have a better percentage of membership than most of our size towns. We get more per year for membership than most (\$37.50 for individuals and \$75.00 for businesses).

Question by the mayor: Do you have any outlying members? Yes, about 25 farmers, 7 gins and others.

Can the county share in this expense? Answer: We met with them today. We hope they can.

In a statement by Alton Freeman, city attorney, he said, "We can check with the municipal league of attorneys to see if this is feasible. Also I'm sure the county attorney will check with the attorney general. Seminole is a general law city and not a chartered city."

The mayor and several council members voiced their concern in wanting a good chamber and their concern for it doing a better job. The chamber members left with the assurance that the city would check into same and consider possibilities.

2. C. A. Tubbs, engineer, was present and recommended the acceptance of all paving units completed.
3. The highway department submitted a recommendation to round off the Enco corner at Main and Ave. A., starting 20 feet north and 20 feet west, on a 44 foot radius, removing approximately 9 feet so truckers would not interfere with other traffic lanes when turning.
4. Also the highway department asked that the two lights be synchronized so that progress to the north and south would not be hindered.
5. Amerada Hess advised that the oil well drilled at S. W. 6th St. was being used totally for a water injection well.

In this day and age when so many insecticides are used and seeds are poisoned before planting, accidents are unavoidable. Some farmer, not thinking, left this pile of treated cotton seed on the side of the road where it fell off and burst. This cow had enjoyed a good meal, but in all probability, will not be around long to enjoy it.

#### THE ANTIQUITIES CODE OF TEXAS

AUSTIN--CONTRARY TO A RECENT NATIONAL NEWS SERVICE STORY, THE ANTIQUITIES CODE OF TEXAS IS NOT SPOILING THE FUN OF AMATEUR TREASURE HUNTERS, COLLECTORS AND BEACHCOMBERS.

THE WRATH OF SCORES OF HOBBYISTS WAS AROUSED WHEN A NEWS STORY IN EARLY FEBRUARY MISTAKENLY IMPLIED THAT THE ANTIQUITIES COMMITTEE PLANNED TO REGULATE ALL SUCH ACTIVITIES WHEN CONDUCTED ON PRIVATE LAND.

DR. FRED WENDROF, CHAIRMAN OF THE ANTIQUITIES COMMITTEE, ISSUED A CLARIFYING STATEMENT MARCH 17, IN WHICH HE SAID, "INFORMAL COLLECTING INVOLVING NO EXCAVATION DOES RELATIVELY LITTLE DAMAGE TO OUR ARCHEOLOGICAL AND HISTORICAL RESOURCES. THUS, TO PROHIBIT IT WOULD BE AN UNNECESSARY INFRINGEMENT ON A POPULAR ACTIVITY. IN ADDITION, A REGULATION OF THIS TYPE WOULD PROBABLY BE UNENFORCEABLE.

"WE NEED A BROAD BASE OF PUBLIC SUPPORT AND CONFIDENCE IF WE ARE TO BE SUCCESSFUL IN OUR PRIMARY GOAL TO PROTECT THE FAST-DWINDLING HISTORICAL RESOURCES OF THE STATE FROM NEEDLESS LOSS. I BELIEVE THAT THE MAIN SOURCE FOR THIS SUPPORT LIES WITH THE COLLECTORS AND AMATEURS, MANY OF WHOM ARE ALREADY WELL AWARE OF THE NEED FOR PERSERVATION."

HE EMPHASIZED, HOWEVER, THAT THE ANTIQUITIES CODE REGULATES ALL TYPES OF EXCAVATION OR DIGGING ON STATE PROPERTY AND ON PROPERTY OWNED BY POLITICAL SUBDIVISIONS OF THE STATE.

IT ALSO REGULATES SUCH ACTIVITIES ON PRIVATE LANDS WHICH HAVE BEEN DECLARED STATE ARCHEOLOGICAL LANDMARKS, BUT AT PRESENT NONE HAVE BEEN SO DESIGNATED.

PERSONS WHO WISH TO EXCAVATE ON STATE OR PUBLIC LAND SHOULD APPLY FOR A PERMIT TO THE ANTIQUITIES COMMITTEE, P.O. BOX 12276, AUSTIN, TEXAS 78711.

NOTE FROM REPRESENTATIVE E. L. SHORT:  
I SUPPORTED THIS BILL IN THE SPECIAL SESSION LAST YEAR AND IT WAS NOT INTENDED TO PERVENT AMATEURS FROM HUNTING ARROWHEADS, ETC.

# LOOP NEWS

BY EDITH ARMSTRONG

The annual Gaines County Dress Revue will be held this Thursday, June 11, at 2 o'clock at the Loop Community Building. Everyone is invited and there will be no admission charge to see these girls model the dresses they have made this year. These garments are a big accomplishment for most of these girls and it would be very encouraging for them and their leaders to have a big audience for this show.

Rev. and Mrs. Newman have returned from their trip to Denver where they attended the Southern Baptist Convention. Visiting in their home this week are their grandchildren, Cindy and Bruce Newman from Clovis.

Mrs. Guy Walker attended church and visited with her mother, Mrs. Stella Chitwood, on Sunday.

Mr. and Mrs. Filbert Halbrooks, along with their children and grandchildren, attended the Halbrooks reunion in Midland Sunday. Mr. and Mrs. Johnny Halbrooks from Lubbock came down for the weekend with his parents, then on to the reunion with them also. Their daughter, Veronyka, stayed to spend the week with her grandparents.

The annual Hand Reunion was held at Loop Community Building Sunday with reports that they enjoyed a lot of good food and fun. Those attending were Mr. and Mrs. Eric Hand, Mr. and Mrs. Red Hand, Mr. and Mrs. William Hand and family, Mr. and Mrs. Herbert Newton, all of Loop; Mr. and Mrs. Bill Cunningham and boys of El Paso; Mr. and Mrs. Johnny Hand of Lubbock; Mr. and Mrs. Ralph Hand and daughters, Mr. and Mrs. R. C. Hand and son, Mr. and Mrs. Bob Dycus and son, all of Carlsbad; Mr. and Mrs. Ruben Mills of Seagraves, Mr. and Mrs. Jerald Hand and daughter of Artesia; Mr. John Mills, Mr. and Mrs. Burton Tate, Rev. and Mrs. Newman and Ricky Mills of Loop; and Mike Fleming of Levelland, One son, Mr. and Mrs. Berwin Hand and one daughter, Mr. and Mrs. Ed Pate, all of Carlsbad did not get to attend this year.

Bill and Helen Cunningham and boys, Mike, Ernie, and Bobby, came for the reunion and will remain this week to visit the folks here.

Visitors for several days with the L. L. McNews were Mr. and Mrs. W. O. Kinder and Mr. and Mrs. Kenneth Kinder and Kimmie.

Kella Burnett of Hobbs is visiting this week with her aunt, Mrs. Keith McConal and family, and grandparents, Mr. and Mrs. Tom Hunt.

Jimmy Don Walker from Denver City is visiting with his grandmother, Mrs. Stella Chitwood,

Mr. and Mrs. Robert Slaughter visited several days with Mrs.

Alice Bradshaw in Hobbs.

Mrs. Vester Smith, along with Brenda, Timmy and Dane, have gone to Camp Medina for a week of Bible study and camp activities. They were accompanied by Mrs. Elzora Davis of Midland.

Mr. and Mrs. Larry Roberts

and Todd of Little Rock, Arkansas, are visiting this week. He is holding a four day gospel meeting at the Southside Church of Christ in Brownfield. Mrs. Roberts is the former Quay Hunt of this community.

Mr. and Mrs. Kenneth Burnett of Hobbs visited with her parents, Mr. and Mrs. Tom Hunt. Also Tommy was home on Sunday. Jackie Hunt returned from Viet Nam on Saturday and visited here Sunday. After his furlough is over, he will be stationed here in the States at Alabama.

Mr. and Mrs. Jim Woodard, Valorie, Deena and little Jimmy went to Dallas to vacation at Six Flags.

Mr. and Mrs. Jimmy Caughron of Lubbock visited over the weekend with his parents, Mr. and Mrs. Paul Caughron and family.

A fellowship was held at the Jim Woodard home after services Sunday night.

Punch, pie, cookies and coffee were served. About sixty people from the Loop Church of Christ attended.

Gail McConal spent the weekend in Lubbock with friends. Gail is now employed as a secretary at the carbon plant west of Seagraves.

Mrs. Geneva Brandenburg is in the Seagraves Hospital.

Mrs. Doss Hunt entered the Methodist Hospital in Lubbock Sunday for test and observation.

Howard Brooks is in the Seagraves Hospital.

Kenneth Hamilton received a broken ankle when he fell from a trailer. He is hospitalized in Seagraves.

Louie Hamilton's nephew from Lubbock was visiting here and accidentally shot himself but seems to be mending very well.

Renee Foshee is confined at home with the mumps. Let this be a reminder for everyone who hasn't to go and get their mumps shot.

Mrs. Louie Hamilton had surgery in Temple last week. She is doing very well but will be confined to the hospital there awhile yet.

Mr. Robert Slaughter will go to Seagraves hospital Monday for tests and observation.

Mr. Troy Teague is improving and able to leave the hospital for the weekend and return back to the hospital on Monday.

Mr. Don Faulkenberry and Miss Susan Wayne were united in marriage Saturday, June 6th, at 7 p.m. in the First Baptist Church in El Paso. After honeymooning in Paris, France and Switzerland, they will be at home in Dallas where he is engaged in real estate and she is an airline hostess.

Attending the wedding from this area were Mr. and Mrs. Alton Faulkenberry, Mr. and Mrs. Dean Faulkenberry and Joel, Mr. and Mrs. Travis Bagley, Randy Floyd,

Terry Hicks, Mrs. W. C. Faulkenberry and Mrs. W. C. Osborn of Canyon.

Vacation Bible School is going in full force this week at Ashmore Baptist Church with 46 attending the first service. New members are expected the following days. Mrs. Keith Young is director of the school, assisted by Mrs. Tommy Hord.

Rev. Thompson received a very painful injury to his thumb

when he caught it in the electric saw. He was treated and released at the Brownfield hospital.

Mr. and Mrs. Edgar Burton and family spent a few days in the home of the Rev. and Mrs. Thompson recently.

Little Stacy Halbrooks attended church at Ashmore Baptist Sunday. Of course, she brought along her grandparents, with whom she was visiting, Mr. and Mrs. H. T. Todd.

The school annuals are here at the high school building. See Mr. Hamilton about picking them up there.

The farmers are all still busy replanting their cotton and grain. The hail, wind, and sand destroyed a large percent of the crops in this area. Almost everything that was up was destroyed or battered too bad to leave. The newly planted seed was mostly washed in on, to where it won't come up.

If you have any Loop News, please call me at 3881. My number is listed wrong in the new directory.

## CORRECTIONS ON LAST WEEK'S APPRAISALS ARTICLE

Southwestern Appraisal Company, Inc. is in the process of sending out the new appraisals on personal property, houses, farms and ranch land. If any of your property was valued at \$100 the County proposes to use 16% of this value for tax purposes.

Property	100%	16%	County Tax \$1 per \$100	State Tax \$.37 per \$100	School Tax \$2 per \$100
\$ 100		\$ 16	\$ .16	\$.06	\$.32
1000		160	1.60	.60	3.20
10000		1600	16.00	6.00	32.00
Equalization Tax	Paving Tax	\$100 valuation would = \$ .66			
County - wide	County	\$1000 valuation would = \$ 6.60			
40¢ per \$100	30¢ per \$100	\$10000 valuation would = \$ 66.00			
\$.07	\$.05				
.70	.50				
7.00	5.00				

B. C. Norton, commissioner, advised the News that besides the county tax, state tax and the school tax, that 40¢ per 100 should have been added for a county equalization tax and 30¢ should have been added for county paving tax. This would be 70¢ per 100 added to the present tax schedule. (We hang our heads in shame.)

This does not include city tax. Also the school board has not set a tax rate. The above chart figured \$2 per \$100 of the value used for tax purposes. In figuring your approximate tax use the value given as set by the appraisal company, multiply by 16%, then that total by the \$1 per \$100 county tax, the \$.37 per \$100 state tax and the \$2 per \$100 (will probably be changed) school tax, plus the additional 70¢ paving and equalization tax.
