Gaines County's petroleum industry produces 40,181,646 barrels of crude oil valued at \$128,952,741 and 51,844,892 thousand cubic feet of natural gas valued at \$7,102,748 for an annual economic value of \$136,055,489.

These figures, just released by the Texas Mid-Continent Oil & Gas Association, show the county ranked 7th among state counties in oil and gas production during 1969.

Texas production which has registered an increase over each previous year during the past decade hit another all-time high in 1969 with 1,151,775,000 barrels, according to U.S. Bureau of Mines statistics. This is a production increase of 24.2% since 1960.

"Production from Gaines County helped meet this record demand," says Kenneth E. Montague, Association President. "We are now calling on it and the rest of Texas to meet an even greater demand as events in the Middle East have again forced us to dip into our declining reserves. Unfortunately, the price for Texas oil is inadequate to stimulate enough exploratory drilling to replace reserves."

Gaines County landowners and others with mineral interests received \$17,006,936 in royalty payments last year. Texas received \$5,931,826 from crude oil production taxes and \$504,295 from natural gas production taxes.

Estimated drilling expenditures totaled \$3,065,030 with \$1,928,342 of that amount spent on dry holes yielding nothing for the driller. Ira Rinehart's Yearbook showed drillers completed 17 oil wells and 26 dry holes. Nine wildcats were drilled and all were dry.

The county's oil and gas processing plants also added to the economy. The Oil and Gas Journal listed 1 carbon black plant, 2 petrochemical plants and 3 natural gasoline plants with a capacity of 108.0 million cubic feet daily.

Reports from the Texas Employment Commission show some 496 persons were directly employed by the oil and gas industry in the county with an annual payroll of \$3,527,440.

JAMES E. BRAMLETT NEW CONTRACT

James E. Bramlett, Superintendent of Seminole Public Schools, was given a new three year contract Monday night in a special called board meeting. The new contract calls for expiration June 30, 1974. It was the only item listed on the executive meeting held in the regular meeting room in the administration building. Salary was not discussed but will be taken up at the regular review of salaries in a future meeting.

TAX SUIT CONTINUED

It was reported yesterday that the new suit brought by oil companies would probably be called to trial in the early part of 1971, or after the first of this next year. This suit came about when the Atlantic-Richfield Co., Amerada division of Amerada Hess Corp., and Mobil Oil Corp., chose to further their suit in restraining county officials from taxing them unjustly on the re-evaluation of surface properties in the county.

COMMISSIONERS RECEIVE PETITIONS

The Seminole Area Chamber of Commerce has presented to the commissioners court 668 signatures requesting an election on the two propositions concerning the new hospitals. The court presented the list to the county clerk. There are approximately 4,000 registered voters in the county and 10% of the registered voters that are property owners, or 400, are necessary to petition for an election. County Judge Chester Browne speculated that it would take about one week to qualify signers of the petition.

BOOK WEEK

This little boy wandered in the library, left a book in this stack, made another choice and was leaving when the News photographer caught him. He is Lee Chappell, son of Mr. and Mrs. Claude Chappell, and chose as his new book, "Police". It's "Book Week" and he's taking full advantage of it.

"BOOK WEEK" --- Wanda Watson, librarian at F. J. Young School, is pictured with, left to right, Rita Curiel, Lori Ellison, Ricky Rodriguez, John Condit, Kathryn Watts and Burl Hicks, students from Mrs. Bobo's first grade room during "Book Week" at the F. J. Young Library.

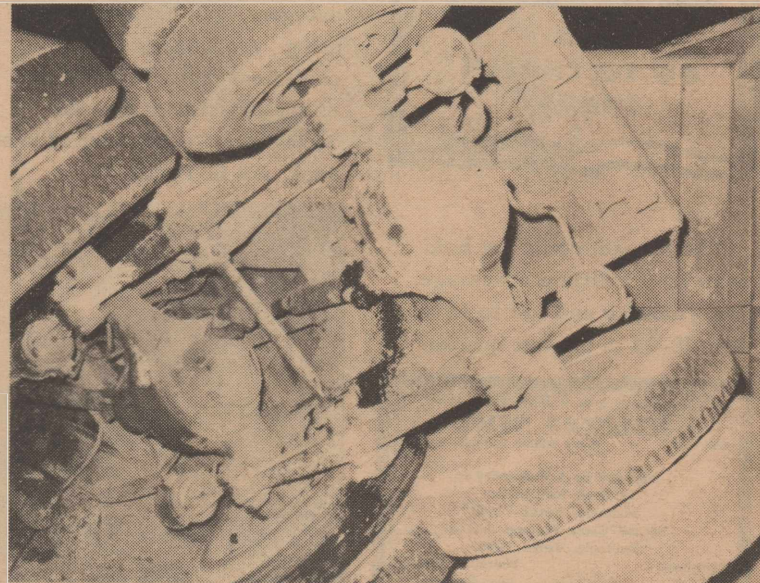

The F. J. Young library, under the direction of Wanda Watson, librarian, serves 260 students in 12 rooms, grades 1 through 5. The purpose of a library for grades 1 and 2, in which there are three rooms each, is to teach the children to read for fun and help them to discover books and their great worth. In grades 3, 4, and 5, in which there are two rooms each, the library serves as a curriculum aid for geography, history and social studies. The library has 3530 volumes, plus 18 magazines for children, 2 daily newspapers, and 6 professional magazines. Classes one and two, besides having a story hour, are taught what a library is and the taking care of books. Classes three, four and five are taught arrangement of a library, use of the card

21 DEAD

A two-decker cattle truck turned over Monday night at 11:20 p. m. when the driver evidently went to sleep. The van turned over $\frac{1}{4}$ time, also the drive wheels under the tractor. The cab itself remained upright. Ten to twelve head of cattle escaped when they were thrown through the top. Twenty-one were dead on the truck. The accident occurred 4 miles north on the Seagraves Highway. There were seventy head aboard, weighing between 450 and 500 pounds each. The driver for Pritchett and Son from Plainville, Kansas, Joseph Tribble, was uninjured.

A late report said there were 100 head on the truck, 71 in the pen, 21 dead and 8 missing.

catalog, simple research techniques and they learn the Dewey Decimal system.

Another interesting thing in the F. J. Young library are 14 paintings on display, furnished by the Art Association of Seminole. These will be changed at different intervals. Parents are urged to insist upon their children's participation in the library program and their use of the 3530 volumes. This is "BOOK WEEK". Celebrate it by reading a book, reading a book to your children and enjoying an almost forgotten pastime.

Farm hand

The Tompkins family that lived in Brownwood were rich people. Or at least all of the boys that grew up in Brownwood thought so because they were about the only family that had a servant and the servant was outstanding in her own right. We boys all called her Crazy Ader (Ada) and, as far as I know, she was the original Ader from Decatur, the County Seat of Wise, and was from the county seat of Wise.

I never was around too many dice games but the few times I was and the handler of the dice came up with his point of eight, he would sing it out: "Eighter from Decatur, the County Seat of Wise," and in Brownwood the boys shot and said "Crazy Ader from Decatur, the County Seat of Wise". I was so shocked to find out when I got grown and went through Wise County that Decatur was its county seat.

But, back to the story, Ader was working for the Tompkins. (Not their real name because they do have kinfolks living in Seminole.) And I guess she was a faithful servant and Mrs. Tompkins talked to her like she was a companion. "Ader," (Ada) she would say as she was talking about her false teeth, "I'm going to have to get me some new false teeth," as she placed her hand upon her false teeth and shook the uppers and shook the lowers. "These teeth are getting so loose I just can't wear them anymore. I'm afraid they're going to fall out." She kept on talking about the teeth and mentioned to Ada her necessity.

Finally, Ada made her plea. "Mrs. Tompkins, would you gimme your old teeth when you buy new ones?" "Why, Ada, what in the world would you do with my false teeth?" Her answer was a good one. It was a sound one. It was a reasonable one. "Oh, Mrs. Tompkins," she said, "they just fits." Mrs. Tompkins' mouth flew open, she removed the false teeth. She made her a present of them right then.

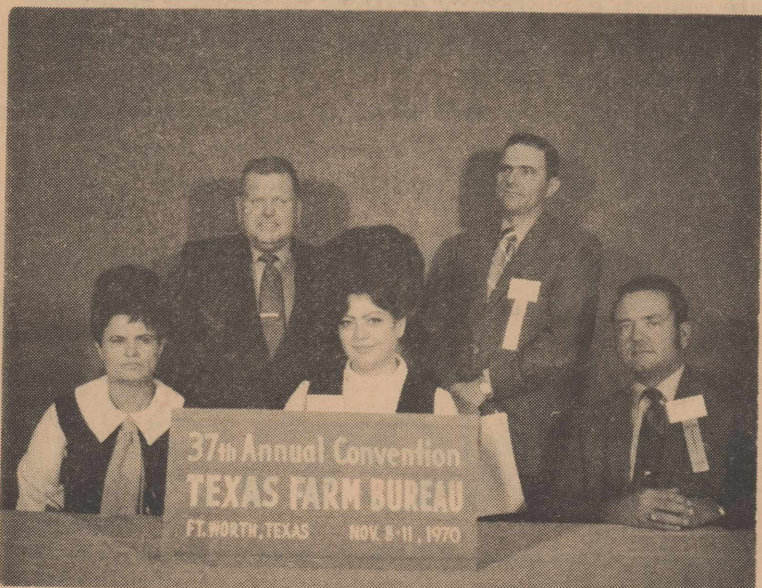

I don't know what ever happened to Adar. Decatur's still the county seat of Wise. Dice shooters are still trying to make eight and this story lives on in fond remembrance.

Big Land Deal

Last week the Seminole Farms sold equipment and tried to sell what was probably one of the larger farms in Gaines County at auction. The land consisted of 8141 acres approximately 14 miles south-west of Seminole. Of this amount approximately 6900 were irrigated, with 1200 acres dryland. Included with the land was 21 miles of Johns-Mansville high pressure underground pipe, 8" to 14".

The property had 31 irrigation wells on it and had been growing the following crops: cotton, peanuts, milo, corn, grain sorghums, soybeans, wheat, watermelons, alfalfa, rye, Spanish onions, peaches, green beans and other vegetables, plus various row crops. Also sold were various pieces of equipment and five tractors.

The allotments included 1.9 acres cotton, 1.8 acres wheat and 96 acres grain sorghum. The land also included a number of automatic Valley sprinkler systems. The successful bidder could assume the existing first mortgage indebtedness with unpaid balances totaling approximately \$1,387,000.00 said indebtedness is payable \$69,000 per year on the principal through 1973, then \$61,000 per year thereafter, plus interest each year at the rates of 7-8 3/4%. Additional principal payments are as follows: 1983 - \$27,000, 1984-\$282,500, 1986-\$12,500, 1989-\$120,00.

Firemen hurriedly unload bales of cotton on North Main when several of them caught on fire at 10:30 a. m. last Saturday. The cotton was being hauled to the compress in Lubbock.

This is what happens when a truck load of baled cotton catches on fire. These four bales were kicked off a truck last Thursday at 2:50 p. m. two miles out on the Frankel City Highway.

It's quite a surprise to walk by a truck three feet away and look up and see nothing but eyeballs and it scares you like it does the cattle. That's #673 on the right.

Seminole Study Club

Americanism and Flag Etiquette were the themes of the Study Club meeting at the club house November 11 at 4:15 p.m. The meeting opened with invocation by Mrs. Earl McClellan, followed by the pledge to the United States flag and the salute to the Texas flag. Mrs. Zelma Wells read the minutes of the last meeting. Mrs. Roy McGill conducted the business session. The clubs part in the Junior Study Clubs flea market sale November 14 was discussed, and a contribution was made on drapes for one of the day rooms at Big Spring State Hospital, where patients visit with family and friends.

Mrs. F.B. Farmer spoke on Americanism, defined as devotion to, or attachment to the United State of America. Peculiarities, customs, traits, of U.S. citizens, something in the heart - pride in America.

She reviewed, briefly, our history, from the difficulties of Columbus in preparing for his voyage, on to the moon landings of the astronauts, including the first Thanksgiving in 1620 when the new colonists joined the red man in giving thanks, and smoking the peace pipe in brotherhood and friendship. The purchase of Manhattan Island by the Dutch colonists were seeking freedom from oppressive religious practices and taxation.

Among other Americanisms touched on were Paul Revere's ride, Concord Bridge, Washington Valley Forge, Declaration of Independence, the country divided in Civil War, Lincoln's work in freeing the Negro from slavery and in restoring peace, the westward movement and development, Pictures were shown and mention made of fresh churned butter, home baked bread, apple pie, the Independence Bell, the family farm, seed catalogues in the spring, the horse and buggy, Easter hats, county fairs, home canning, old fashioned popcorn poppers, the graphophone, Model T cars, railroad stations, and cowboys. And still we strive for freedom of speech, freedom of worship, freedom from want, and freedom from fears for everybody in the world.

Mrs. H.L. Nixon reviewed the history of the American flag from its inception on July 4, 1776 as a symbol of unity for the 13 colonies, with 13 red and white stripes alternating and circle of 13 white stars on a blue field representing a new constellation names referring to the flag such as Stars and Stripes, Star Spangled Banner and Old Glory. She gave the code for displaying the flag indoors and out in a proper manner to show honor and respect to the flag, the proper civilian and military salutes and the proper way to dispose of a flag. The only time the flag is flown upside down is as a signal of distress or surrender. Flags of the United States and of Texas were displayed.

Hostesses were Mrs. R. L. Jones and Mrs. R. T. Jackson, assisted by Mrs. A. C. Ward, who poured hot spiced tea from a silver tea service. Star shaped red white and blue open face sandwiches and salted nuts were served from a white linen covered table, with star and stripe bordered napkins, and red, white and blue off center floral arrangement.

The club collect was read in closing. Members attending were Mmes. Jewell Cobb, W.H. Cravey, Ira Elkins, F.B. Farmer, Lillian Gilmer, W.D. Hart, R. T. Jackson, R. L. Jones, Russell Jones, Earl McClellan, Roy McGill, J. D. Mitchell, W.B. Munnerlyn, H. L. Nixon, J. L. Skaggs, A. C. Ward, Zelma Wells, and Charley Thompson.

People who cook with pride cook with GAS. Mrs. Alex Zotos does.

Some of the world's best cooks are found in the kitchens of America, and they give themselves every cooking advantage, like gas range cooking. Good cooks like Mrs. Zotos and nine out of 10 professional chefs agree that precise temperature control makes the difference in good cooking, and with gas you get exactly that. Gas also gives immediate response and constant temperature, so important in oven cooking.

So, give yourself every advantage and cook with gas. Remember, people who cook with pride cook with gas.

Here's one of Mrs. Zotos' favorite recipes.

CHICKEN OREGANO

Mrs. Alex Zotos, 3622 Maple, Odessa

Quarter 2 fryers. Wash and dry; and squeeze juice of one lemon over pieces. Salt, pepper and paprika chicken on both sides. In large skillet melt 1 stick butter and quickly brown chicken pieces. Place in oblong pan. In butter left in pan add 1/2 cup red wine, 1/2 can tomato paste (3 oz.), 2 cups water, 1 tablespoon celery flakes, 2 cloves garlic. Bring to boil. Pour over chicken. Sprinkle about 2 1/2 teaspoons oregano over chicken. Bake covered for one hour at 350 degrees; uncover last 10 minutes for browning.

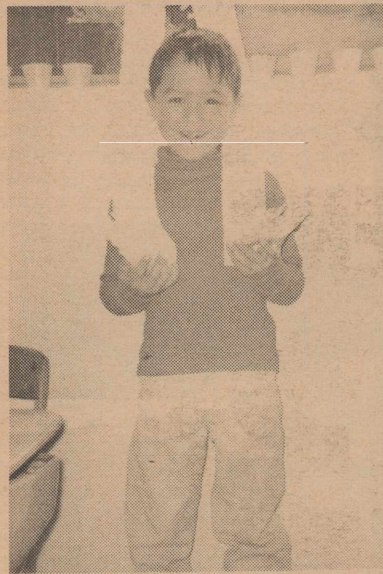

Meat and Rice Dressing

Saute 2 onions, chopped, in 1/2 stick butter, add 1 cup uncooked rice; saute together until golden. Add 1 1/2 lbs. ground round and brown. Add 1/2 teaspoon cinnamon, 1 teaspoon comino, pepper to taste, 2 1/2 teaspoons salt, add 1/3 cup sliced mushrooms, 2 1/2 cups water and 1/2 cup red wine. Cook until done about 20 minutes. When cooked toss in toasted pecans and almonds, if desired. Serve sauce from chicken over all.

GO! INDIANS, GO!

"INDIANS OF THE WEEK" - GARY DON RAY, junior letterman, and KREGG PIERSON, junior, were chosen as "Backs of the Week". Gary Don rushed for 111 yards on 22 carries for a 5 yard average, and did a good job of blocking when not carrying the ball. Kregg carried the ball 4 times for 10 yards, caught 1 pass for 15 yards, ran a kick off back 31 yards, intercepted 2 passes and ran 1 back for a 25 yard gain. WENDELL MILLER, junior letterman, was chosen as "Lineman" for his good job on offense and defense, making several big plays both ways.

The B-teamers on offense can be seen in their game against Levelland last Thursday in Seminole.

Number 82, Roger Allen, shows how it's done as he heads for one of his two touchdowns on a pass reception.

Seminole goes ahead, as the officials indicate, when Gary Don Ray, #11 on the ground, carried in for the touchdown. Number 41 is Barker, #80 is Sims and #10 is Roberts.

It was a cold, cold night. The wind was blowing. All the fans were cold. Everybody in Wig Wam Stadium was cold, except the Seminole Indians.

The Panthers had their claws pulled when the Indians scored in every quarter and won their 5th ballgame of the season 35-6. The win assured the Indians of a winning season and they would end up in sole possession of 3rd place in the district if they beat Ector next Friday night.

Roger Allen caught only 2 passes for the night, good for 36 yards, but both were good for 6 points each, off the arm of quarterback Donald Roberts. The Indians were tough on defense as they allowed only 6 first downs, gaining 23 themselves, and allowing the Panthers only 2 in the 1st half.

Other Seminole players got in on the scoring act. In the 1st period Gary Don Ray bucked across the goal line for 1 yard and a 6-0 lead. In the 2nd quarter Kregg Pierson intercepted a pass and carried from the Panthers' 40 yard line back to the 12. Frankie Calderon's number was called and he smashed in for the Indians' 2nd score. The 2 point conversion was good on a pass play when Renne Williams picked up the ball on a fake kick and scored the 2 points. The Indians scored again in the 2nd quarter on fine pass plays when they took over on a kick and drove 93 yards. With 1:20 remaining, Allen got his first touchdown. The P. A. T. was good by Roberts and the Indians led 21-0 at halftime.

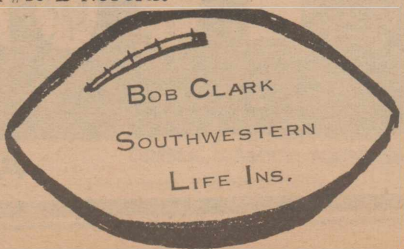

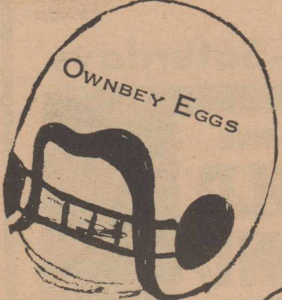

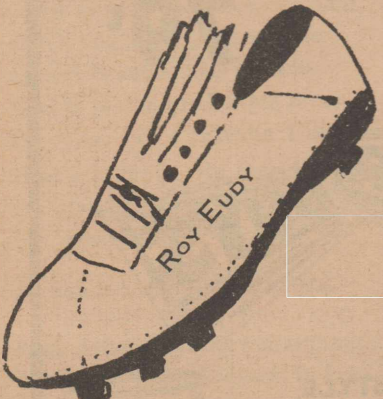

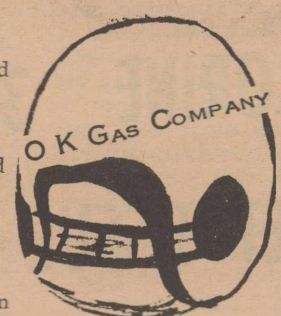

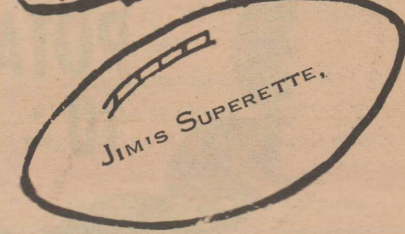

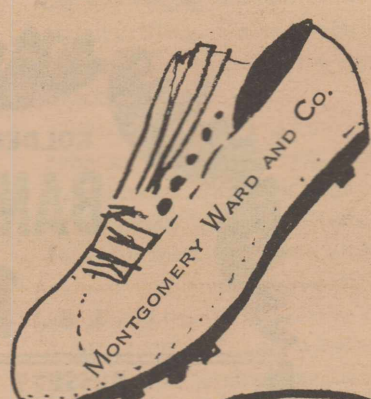

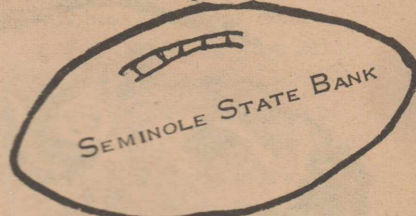

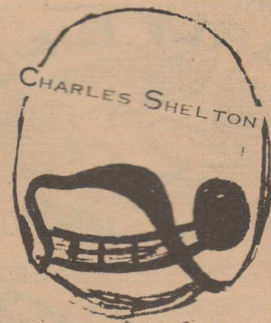

In the 3rd quarter Ft. Stockton tried an on side kick but it did not travel the required 10 yards and the combination worked again when Allen was wide open and Roberts laid the pass into him for his 2nd touchdown.

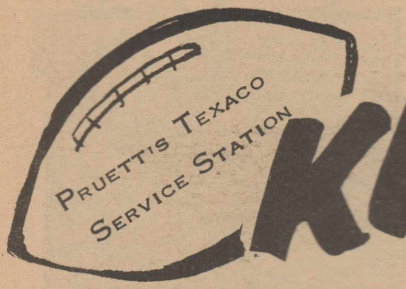

Ft. Stockton gained their only score of the ballgame in the 3rd quarter on a beautiful pass play with 4:30 left on a halfback pass to Walter Garlick, a fast end, who hauled it in and raced into the end zone.

The only score in the 4th quarter for either ball club came on the throwing arm of Roberts and a fine pass play of Sims that carried the Indians to the 3 1/2 yard line. Kregg Pierson came on, went through the line standing up and made the scoreboard read 35 for the Indians, 6 for the Panthers.

KICK-OFF TIME!

8th GRADE

7th GRADE

The followers of the 8th grade Warriors were somewhat disheartened last Thursday in Levelland after seeing the tremendous size of their opponents. After all, the brave Warriors of the Seminole 8th were undefeated. Could this be the day?

Mark Nichols kicked off for Seminole. It was high, it was long. The backs crossed once. The backs crossed again. The handoff was made. It was fumbled. Seminole recovered on the 10 yard line and the Seminole line and Frank Gutierrez set Seminole fans at ease when he rushed in for 6 points with 16 seconds gone off the clock. Score 6-0. The points failed.

It looked as if Levelland was going to keep their record intact. (They'd only had 1 touchdown scored against them during the year.) They kept charging down the field on end sweeps and cross tackles. They beat out 70 yards and used up 5 minutes and went ahead on a 2 point conversion with 2:30 left in the initial quarter.

The gang tackling of Pete Hicks, Mike Nelson, Marty Ivy, Anthony Hemphill, Mike Bell, Mark Nichols, Ray Garrett, Leland Sheets, and others began to pay off. In the 2nd quarter on a 55 yard sustained drive it was Frankie Gutierrez again with 15 yards. It was Nelson for 12 yards. It was Marty Ivy on an end around for 10 yards and the 2nd touchdown. Hicks fell back and threw to Nichols for the 2 point P. A. T. and the Warriors were ahead at halftime 14-8.

(Their coach was overheard to say at halftime - that bunch of little boys is in the dressing room right now laughing at you all for being so clumsy and scoring more points than you've had scored on you all year.)

The ballgame looked like it might be decided on the 6 point play in the very beginning but the Warriors finally put together another drive in the 4th quarter. The 58 yard drive was covered with Hicks sneaking for 5 yards on one occasion for a 1st, another fine run by Marty Ivy, another sneak for 4, another pass to Nichols for 7, Gutierrez 8 yards and Nelson 8 yards.

Myron Sims broke up Levelland's final drive when he made a fine interception with 1:40 left in the ballgame. Final score - undefeated 8th grade Warriors 20, Levelland 8.

The Seminole 7th really got their hearts into the ballgame against Levelland 8th B's last Thursday in Levelland but could not last against the heavier ball club. They finally gave up a touchdown with 4:11 to go in the 2nd period and the Levelland 8th grade B-team went on to defeat them by 24 points.

The hard luck 7th grade has not won a game all year but improved tremendously during the season. Quarterback Dee Norton's throwing has improved and especially the pass catching of David Wright. It's been a long season for the coach and the Warriors. The Warriors were behind 8-0 at the half after having been trapped behind the goal line for a 2 point safety. They moved the ball well at times. One drive failed after Arthur Crow had made a fine reception of 20 yards from the quarterback.

7th grade Warriors take the field last Thursday against Levelland.

Levelland scored in each of the three quarters and the 4th quarter to make the final reading 24-0.

**FRESHMAN TIE
LEVELLAND
24 - 24**

Last Thursday the Seminole freshmen played the Loboes and fought to a 24-24 tie. The Loboes were bigger and faster than the local boys, but this is expected from game to game. The freshmen threw 19 passes in the game and completed 7 for 128 yards. The freshmen defense played an outstanding game; over 8 guys on the team had more than 7 tackles each. In rushing yardage the fish had 187 yards.

The scoring went like this: 6-0, 6-8, 6-16, 12-16, 12-24, 18-24, 24-24. The total running and passing yardage in the game for the freshmen was 315 total yards.

The freshmen will host the Kermit Yellow Jackets here this Thursday night in their last game of the season. We would like to see you all out at the game.

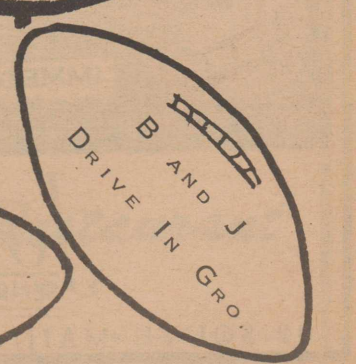

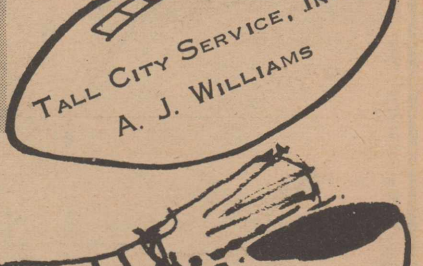

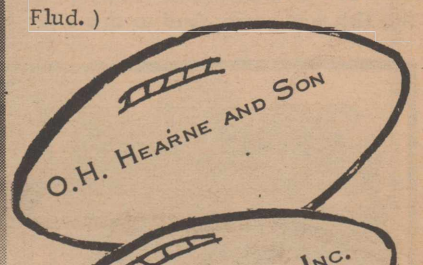

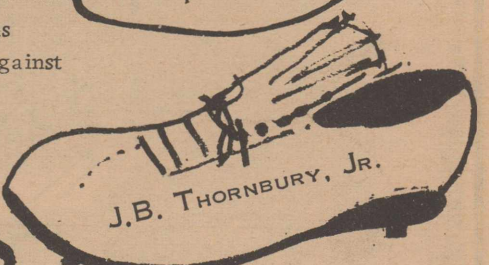

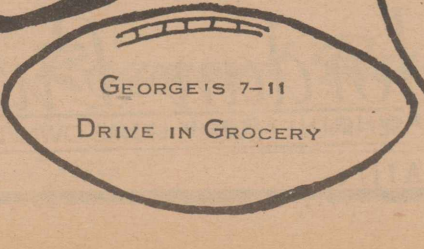

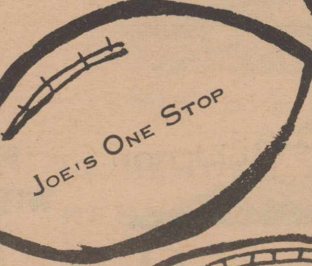

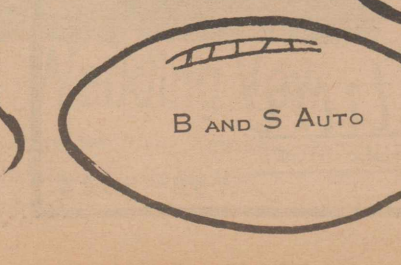

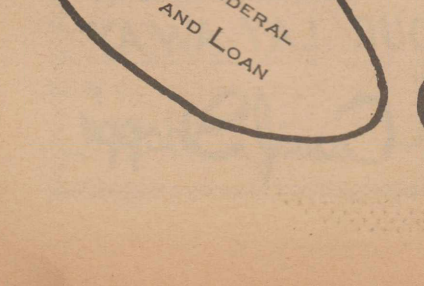

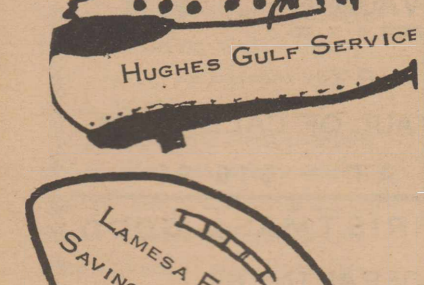

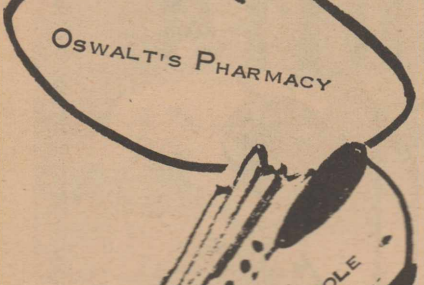

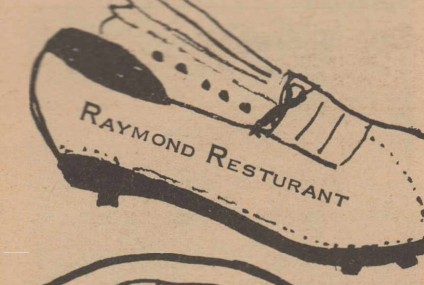

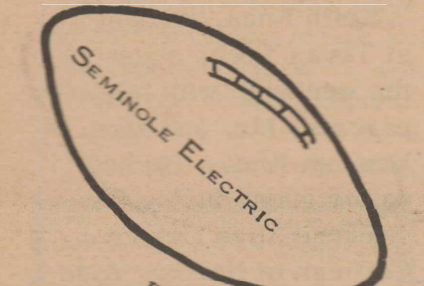

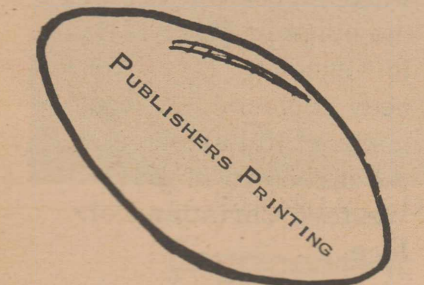

(Written by Charles Wrenn, Gary Squires and Benny George Flud.)

This is the way the scoreboard looked at the end of the half at the 8th grade game in Levelland last Thursday. They went on to win 20-8.

John Jordan, Tom Eudy, Larry McNew and other freshmen as they bear down on defense in last Thursday night's encounter against Levelland freshmen.

Not having a stringer that would hold it, he tied it to a trace chain around a tree trunk. Tired from the ordeal of landing the great fish, he retired early to get a good nights rest. He awoke the next morning to find the chain was pulled loose and the fish was gone. And to this

Editorial

Watch, watch. Please watch, especially watch if you're on the highway, for slow moving traffic. It's that time of the year when there are grain trucks on the highway, when there is an abundance of farm hands on the highway, there are slow moving tractors on the highway and combines on the highway. They're slow moving, they're wide and, unfortunately, some of them DO NOT HAVE TAIL LIGHTS. Please, Mr. Farmer, put tail lights, put clearance lights, put reflectors on the rear of your combines, your trucks, and your cotton trailers.

Last Thursday night was a beautiful moonlight night. Thank goodness the moon was out. Between Brownfield and Levelland, near an area gin, at 8:40 p. m. I almost ran under a trailer. Kenneth Selman, TDPS, and I had talked about this in the last few days. I was conscious of the time of the year and existing conditions. Yet, I almost got caught. Why didn't I see the trailer? There was no tail light. It was moving slow, no not it, they were moving slow. I passed one, I passed two, I passed three. The three trailer loads of cotton were being pulled with a farm tractor with very little lights on the front of it.

Let's help each other live. I'll be more careful. You be more careful and please, you people hauling your crop off, you be more careful. Let's all especially be careful at dusk dark. I do not want to report an accident anymore than you want to be involved in one. Your insurance company and my insurance company are getting along just fine. Let's keep it that way. The sheriff's department and the ambulance drivers had rather not be called out and the Department of Public Safety men (Highway Patrol) would rather have on their report "No Accident" than to have "Multiple, Fatal" on them.

PEANUT HARVEST NEAR COMPLETION

AS THE PEANUT HARVEST DRAWS NEAR TO COMPLETION, IT IS TIME TO REFLECT UPON OUR QUALITY IMPROVEMENT PROGRAM RELATIVE TO DETERMINING THE HIGHEST QUALITY LOAD IN EACH MARKETING LOCALITY. EACH GROWER WHO FEELS HE HAS A HIGH QUALITY LOAD SHOULD BE SURE HIS FORM MQ-94 IS ENTERED IN THE CONTEST. BUYERS ARE URGED TO MARK ALL HIGH QUALITY LOADS AS A CONTENDER AND SEE THAT THEY GET INTO THE HANDS OF THE SPONSORING ORGANIZATION. WITHOUT THE VARIOUS SPONSORING ORGANIZATIONS THROUGHOUT THE SOUTH-WEST, THIS PROGRAM COULD NOT BE CARRIED OUT. WE GREATLY APPRECIATE EACH SPONSOR AND OFFER OUR ASSISTANCE IN ANY WAY. WE FEEL THIS PROGRAM IS OF GREAT ECONOMIC IMPORTANCE TO PEANUT PRODUCERS AND MUST BE PURSUED DILIGENTLY BY EVERYONE INTERESTED TO ACCOMPLISH DESIRED RESULTS.
