

REPORT . . .

From Washington

By Armed Forces Press Service

President Truman has named Lieut. Gen. Nathan F. Twining as Vice Chief of Staff of the Air Force with the rank of four-star General. The President also appointed Lieut. Gen. Lauris Norstad, who has been Acting Vice Chief of Staff, as Commander in Chief of the United States Air Forces in Europe, to succeed Lieut. Gen. John K. Cannon. A third appointment named Lieut. Gen. Idwal H. Edwards, to be Deputy Chief of Staff for Operations. He has been acting in this assignment since May, 1950.

The United States Naval Academy at Annapolis, Md., recently observed its 105th anniversary. The Naval Academy occupies the unique position of being the only institution in this country established and maintained for the sole purpose of training career officers for the Naval Service. The present Academy Commandant is Vice Admiral Harry W. Hill.

"The First Forty Days," the Army's motion picture film of the first desperate weeks on the Korean battleground, is now ready for distribution. It portrays early phases of the Korean action and is a dramatic documentation of the delaying action fought. The aim of the film is to tell the American people the story of their Army in Korea. Cleared for non-profit showings and television, copies of the film, Miscellaneous No. 7761, are now available from Signal Corps libraries in each Army area.

Capt. Dauteil Takes Over As Adjutant, Replaces Lt. Ihrig

Capt. Donat F. Dauteil, formerly of the Inspector General's section, has replaced 1st Lt. Maxwell J. Ihrig as Wing Adjutant it was announced this week. Lieutenant Ihrig has been transferred to Scott AFB, Illinois.

A member of the 3500th Pilot Training Wing since January 1946, Captain Dauteil's first assignment was as a squadron adjutant and then squadron commander of the old squadron "R". He was then assigned to the Wing Instrument School until his assignment to the Inspector General's section as Air

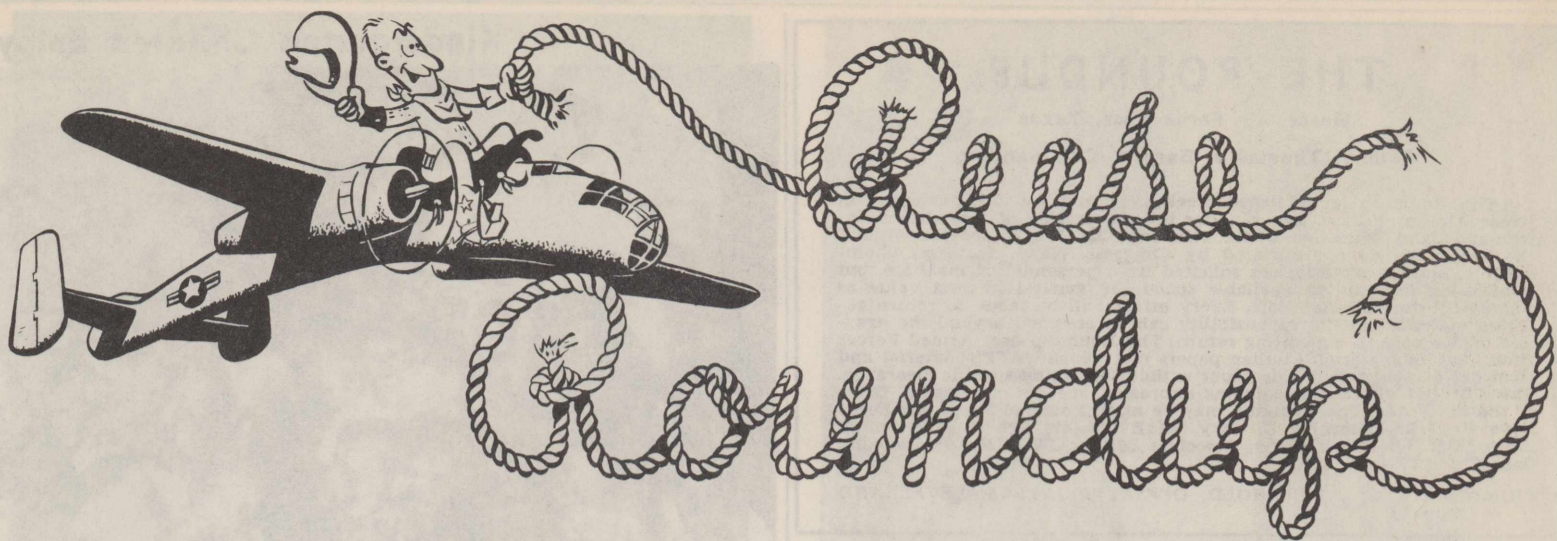

Inspector for Personnel Administration.

Captain Dauteil entered the Air Force in October 1940 as an enlisted man and was appointed as an aviation cadet in August 1942. He graduated from flying training in June 1943 at Yuma AFB, Arizona.

In January 1944 he was transferred to the ETO and flew 25 missions with the Ninth Air Force as a B-26 pilot. He was shot down on the 25th mission. Eluding capture in Occupied France for two months, he was finally captured in Paris and sent to the Buchenwald concentration camp for a nine weeks until his transfer to Stalag Luft III where he remained until his liberation in 1945 by elements of the late General George Patton's Third Army.

Captain Dauteil lives in Lubbock with his wife and three children.

Vol. II, No. 2

Reese Air Force Base, Texas

27 October, 1950

New Commander of RAFB

Col. Thomas J. Barrett, new commanding officer of Reese Air Force Base, was commanding officer of the Pilot Training Group at Nellis AFB, Nevada before coming to Reese. He replaces Col. George W. Pardy, who goes to Scott AFB, Illinois as base commander.

West Coast Bases Are Named For Officers

Plans have been announced by Air Force Headquarters to rename Spokane Air Force Base, Washington, Fairchild AFB in honor of General Muir S. Fairchild and Fairfield-Suisun Air Force Base as Travis AFB in honor of Brigadier General Robert F. Travis.

General Fairchild was AF Vice Chief of Staff at the time of his death on March 17, 1950.

First BAQ Checks Due To Families On December First

Washington — Beginning in December, first direct payments will be made to dependents of enlisted Armed Forces personnel in all pay grade eligible to receive the new emergency quarters allowances.

The payments will be for the month of November. They represent the first combined basic quarters allowance (BAQ) and allotment deductions from Servicemen's pay.

While BAQ is retroactive to Aug. 1, no allotment deductions are to be made for the month of August, September, and October. However, for those three months BAQ will be paid directly to Service personnel, who in turn are expected to provide for their dependents.

In a letter sent to Mayor Arthur R. Meehan of Spokane last week, Gen. Hoyt S. Vandenberg, AF Chief of Staff expressed great regret that formal dedication ceremonies could not be held at this time because of unsettled world conditions.

Speaking of General Fairchild, General Vandenberg said:

"His contribution to the Nation and to the Air Force through his friendly tolerance and brilliant understanding will never be fully realized. As a staff officer, as a commander, as a friend, he gave his all to the country and service he loved.

General Fairchild was commandant of the Air University at Maxwell AFB, Alabama before his assignment as Vice Chief of Staff on May 27, 1948.

Brigadier General Travis was killed in the crash of a B-29 Superfort aircraft shortly after take-off at the California base on August 5, 1950. He was commanding general of the base and of the Ninth Bomber Wing of Strategic

Colonel Barrett Assumes Command Of RAFB, Announces Program To Use Suggestions Of Personnel

Colonel Thomas J. Barrett officially assumed command of Reese Air Force Base on October 15, 1950 relieving Colonel George W. Pardy, who went to Scott Air Force Base, Illinois, it was announced recently. Colonel Pardy will be the new base commander at Scott.

The new commander came to Reese from Nellis AFB, Nevada where he had been commanding officer of the Pilot Training Group there. The birth of his daughter Linda Ann Barrett delayed him for a day in arriving at Reese.

New Hostess Now Working At Club, Came From Austin

The duties of hostess at the Service Club have been taken over by Mrs. Byrd G. Wear, formerly of Bergstrom AFB, Austin, Texas, the Personnel Services section announced this week. Mrs. Wear is replacing Miss Mary Kroh who went to Walker AFB, New Mexico some time ago.

A native of Granbury, Texas, Mrs. Wear has had ten years of social work on military installations and colleges. She was form-

I have heard some comment that "There is nothing to do around here." From my observation, I agree that there may be a lack of adequate recreational facilities, both on the base and in the city of Lubbock. But, before anything can be done we must know what kind of entertainment you want. Make your desires known by informal note (not necessarily signed) to the Personnel Services officer or dropped into one of the suggestion boxes located throughout the base. We will proceed from there and, in so far as possible, give you activities which will make your off-duty time pleasant, whether spent on the base or in the city.

A native of Kenton, Ohio, Colonel Barrett went to school at Ohio State University during the depression period. Working his way through school, he didn't have time for athletics and so he took up flying. In 1936 he went to Randolph Field, Texas as an aviation student, having won a reserve commission in 1934 after graduating from college.

One of his first assignments was with the 27th Pursuit Squadron at Selfridge Field, Michigan where he was stationed from August 1936 until May 1941 when he was assigned to Albrook Field in the Canal Zone with the 26th Fighter Command of the 6th Air Force.

As your new commander, I extend greetings to each of you. I

erly social director for the residents of Snead Hall, a dormitory on the Texas Tech campus.

Base Hobby Shops To Open Shortly

Two hobby shops will soon be added to the recreational facilities of Reese AFB, according to an announcement this week by the Personnel Services office.

All that is holding up the opening of the photographic hobby shop is the installation of plumbing in the building. This shop is to be run by Cpl. Maurice Pearrow and will be completely equipped. Included in the equipment are enlargers, contact printers, troughs for processing, driers, print washers and for those who know how to use it there is Ansco color developer.

Sgt. Jack Tooley is in charge of the woodworking hobby shop, which will have a complete line of woodworking tools and equipment. Installation of plumbing and electrical wiring is holding up the opening of the wood working hobby shop. All of this work should be completed soon.

Jeeps And Pickups Get New Paint Job

The Air Force "new look" has jumped from the new uniforms to the vehicles according to a recent announcement by the Motor Pool Officer, Capt. W. E. Carender.

Jeeps, pickups, and weapon carriers are being repainted Strata Blue, the new Air Force color for military vehicles. In addition the jeeps are being reconditioned and re-upholstered.

The Fire, Ground Safety, Follow Me, and Flying Safety Jeeps will retain their present color which is red for the Fire Jeep, yellow for the Flying Safety and Follow Me Jeeps, and white for the Ground Safety Jeep.

The motor pool itself is being reconditioned with a hard surface to park the vehicle on, and repairing the inside of the offices.

THE ROUNDUP

Reese Air Force Base, Texas

Colonel Thomas J. Barrett, Commanding

The Roundup is published weekly and for the personnel of Reese Air Force Base, Texas under the supervision of the Airman Information and Education Office, telephone 324. It is supported without the use of funds appropriated by Congress. News, features, photographic, and art material are solicited from personnel of the Base, but publication depends on available space and general interest value as judged by the editorial staff. Every effort will be made to return rejected material but no responsibility can be assumed beyond the exercise of due care in expediting return. The Roundup uses Armed Forces Press Service material. Civilian papers may reprint AFPS material and local news appearing in this paper without obtaining specific clearance. The editorial views and opinions expressed are not necessarily those of the Air Force. The Roundup may be mailed outside Reese Air Force Base. First Lt. Thornley C. Cary, AIE Officer; Sgt. Eugene Smith, Editor; Sgt. Charles H. Bobo, Associate Editor; CWO John P. Baucum, Base Photo Officer.

WHAT IS A BOY

Boys come in assorted sizes, weight, and colors. They are found everywhere—on top of, underneath, inside of, climbing on, swinging from, running around or jumping to. Mothers love them, little girls hate them, older brothers and sisters tolerate them, adults ignore them and Heaven protects them. A boy is Truth with dirt on his face, Wisdom with bubble gum in its hair and the Hope of the future with a frog in its pocket.

Boy has the appetite of a horse, the digestion of a sword swallower, the energy of a pocket-size atomic bomb, the curiosity of a cat, the lungs of a dictator, the imagination of a Paul Bunyan, the shyness of a violet, the audacity of a steel trap, the enthusiasm of a firecracker, and when he makes something he has five thumbs on each hand.

He likes ice cream, knives, saws, Christmas, comic books, the boy across the street, woods, water (in its natural habitat), large animals, Dad, trains, Saturday mornings, and fire engines. He is not much for Sunday School, company, schools, books without pictures, music lessons, neckties, barbers, girls, soap, overcoats, adults or bedtime.

Nobody else is so early to rise or so late to supper. Nobody else can cram into one pocket a rusty knife, a half-eaten apple, three feet of string, an empty Bull Durham sack, two gumdrops, six cents, a sling-shot, a chunk of unknown substance and a genuine supersonic code ring with a secret compartment.

A boy is a magical creature—you can lock him out of your workshop, but not out of your heart. You can get him out of your study, but not out of your mind. Might as well give up—he is your captor, your jailer, your boss and your master—a freckle faced, pint-sized bundle of noise. But when you come home at night with only the shattered pieces of your hopes and dreams, he can mend them with two magic words—"Hi Dad."

KADET KORRAL

Congratulations are in order for Class 50-F. After much work and many hours, the USAF's newest pilots will say goodbye to training and become full fledged members of the greatest team in the world. Good luck to them as they go their many ways over the globe.

In connection with graduation, the car dealers in and around Lubbock have been doing a thriving business this past week. The automobile population of the Cadet area has doubled.

Well, all of Class 50-G has finally soloed out in the "Baker Twobits." Somebody had to be last didn't they Harbison.

Have you noticed the safety record lately? And to think, Class 51-A has been here for six weeks already. Oh yes, I wonder what has happened to the "months" figure.

Don't be surprised if the Cadets start doing their own tailoring. There have been quite a few sewing circles organized lately. Let's see some of the work boys.

Speaking of hobbies, word gets around that Litchfield has taken up "Tic-Tat-Toe." Wha happened to the Canasta?

Oh yes, Wisconsin's only crop failure celebrated his fourth wedding anniversary last week-end.

I hear that Bruce believes in the old saying, "The early bird catches the worm." Anybody want to swap roommates?

Ries, I understand, claims that two is better than one, with certain exceptions . . . Have fun.

Blondell used Moon's car for a date last week-end and was stood up, so he went horseback riding. Was he sore.

I hear that P. T. is getting sort of rough lately, huh Bierman?

Say, have you heard the rumor that's been going around? Well, the grape vine has it that somebody in Class 50-G is trying to sell a "SUPER SIXTY" '37 Ford, cheap. The car?

Wonder why Ryan severed with the P. X. ?

Say, what's this I hear about Electronics Class including the study of Horology (look it up in the dictionary)?

Physiological training has ended. What sorrow. No more "drooling" over that big, beautiful, Cadillac.

Nickel beer night is a staggering (?) success.

Protestant Choir Elects Officers At Meeting This Week

At a recent meeting of the Protestant Chapel Choir, at the base Chapel, officers were elected and a choir organization set up, Chaplain M. R. Holt announced this week.

New officers for the choir are Mrs. Olga Cates, president; Mrs. Marcy Shanks, secretary; PFC

Ronald Johnson, librarian; and Miss Virginia Rudy, social secretary.

A meeting of all Protestant ladies of the base Chapel will be held at 1400 hours, Friday, October 27, at the Chapel for the purpose of forming a Chapel Auxiliary. All Protestant ladies are cordially invited to attend. The Chapel Nursery in the Chapel Annex will be in operation for the meeting. Refreshments will be served at the close of the meeting.

Kindergarten Children Enjoy Movies

A group of children at the RAFB Kindergarten enjoy movies shown by Chaplain (1st Lt.) Amalio E. Greco at the Kindergarten last Wednesday. The movies were of children on Okinawa and were taken by Chaplain Greco when he was stationed there. Kindergarten supervisors in the picture include (l. to r.) Mrs. Jane Heath, (Chaplain Greco), Mrs. Wilda Wood, and Mrs. Rosetta Whitfield the maid.

AACS Detachment Controls Air Traffic

Wherever Air Force planes fly, and they circle the globe, you will find detachments of AACS (Airways & Air Communications Service) personnel providing the following services:

1. Airdrome control.
2. VHF/DF and HF/DF (Very High Frequency Direction Finding Equipment and High Frequency Direction Finding Equipment).
3. GCA (Ground Controlled Approach by Radar).
4. Voice Weather Broadcast and Pilot To Forecaster Service.
5. CW Point to Point. (Operational).
6. Plan 62 Service (A communication service which gives clearances to aircraft and plots position report so that at all times Military Flight Service knows where the aircraft are.)
7. Radio Range and Beacon Service.

AACS is the outgrowth of the old communications sections of the Air Corps Detachments and was organized on November 15, 1938 with its present Commander, Brig. Gen. B. G. Smith, then a major as its first commanding officer. Today with wings, groups, squadrons, and detachments all over the world, it is possible to fly to any point on

More than 500,000 Americans were reported bitten by animals in 1948.

The first All-Star football game was played August 31, 1934, at Soldiers Field, Chicago.

the globe and maintain two-way radio contact with an AACS radio station.

At the present time AACS is a sub-command of the Military Air Transport Service which is commanded by Maj. Gen. Lawrence S. Kuter. General Smith's headquarters is in Washington, D. C.

The Reese detachment, 1900-6, is a detachment of the 1900th AACS Sq. commanded by Capt. James M. Neff, which is in turn a part of the 1803rd AACS Group under the command of Col. Jess R. Guthrie at Kelly AFB, Texas. The group is part of the 1800th AACS Wing under command of Col. Anthony G. Hunter at Tinker AFB, Oklahoma.

T/Sgt. Dan L. Dowell is head of the local detachment and under him tower men, under the supervision of S/Sgt. Ray J. Barnes operate the control tower and maintenance men under S/Sgt. Richard S. Naylor who maintains the radio equipment in the tower, teletype, and facsimile machines, used to provide weather communications.

(Editor's note: This is the first in a series of articles on the local AACS detachment.)

"Your Chapel"

ARE YOU INFLUENCED?

One of the interesting stories from the astronomical research of recent years is that concerned with the discovery of one of the planets in our solar system. It is the planet we now know by the name of Neptune. Two astrologists, named Adams and LeFerrier, studied over a period of two years the activities of the planet Uranus. According to their calculations the planet Uranus was outside of its normal course. They could find no cause for this erratic movement of Uranus, so they worked out a theory that there must be some unknown planet which was influencing Uranus and drawing it off its normal course. After these two years of study and detailed mathematical calculations, they were able to point their telescopes to a specific spot in our solar system where the object which was influencing Uranus must necessarily be. They were very happy and pleased when they discovered in this exact spot a speck of light which turned out to be our planet Neptune. It was the first planet ever to be discovered solely because of its influence on the orbit of another planet.

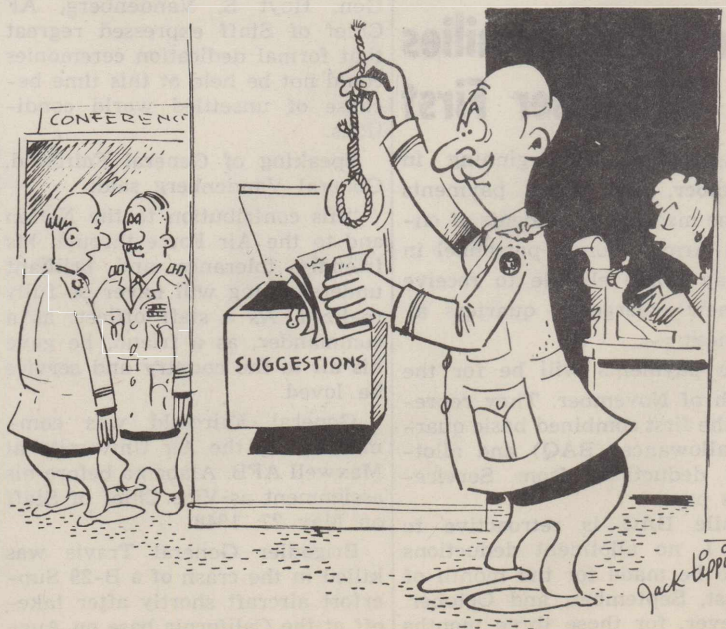

There were 2,000 years ago in our world, certain poor uneducated fishermen whose lives were changed as materially as was the orbit of this planet. The change took place in their lives because of the influence of a Man named Jesus Christ. The change was so noticeable that all their friends could explain it in no other way than to say they had "been with Jesus". A leader of the Jewish community after the death of Jesus, named Saul of Tarsus also felt the changing influence from a direct contact with Jesus, and he became instead of a great Jewish persecutor of Christians, Paul the great Apostle and missionary leader and founder of the early Christian Church.

There are many influences in the world of today and none of us can live without being influenced by those around us. It is up to us to see that our friends are of the right sort so that their influence on our lives will be all for good. Jesus can still influence men today and make of an ordinary man a great leader of men. What kind of influence would you say is shown most in your life?

MANAGEMENT THOUGHT FOR THE WEEK

Always keep the mission in front of men, and let them know how well they are accomplishing the results required.

Book Blurbs

AMERICAN DUCK, GOOSE, AND BRANT SHOOTING

By

Dr. William Bruette

In this authoritative book, it has been the purpose of the writer to combine in one volume a portrait and description of the various ducks, geese, brant and swan recognized by the wild fowler; the story of their lives, feeding habits, migrations, courtships, nestings, and rearing of their young. The methods employed in the pursuit of birds in the different sections of the country; the building of boats, blinds, decoys, retrievers and tolling dogs are described. Also presented are the principles of wing shooting, guns, ammunition, ballistics, and methods of estimating the speed, distance, and leads necessary to consummate the various shots that present themselves on the marshes and in the blinds.

The author describes a practical system for raising ducks and controlling vermin that will enable the farmer to derive a profit from his marshlands and such other information as may prove of value to sportsmen. It is the most complete, useful and entertaining volume on the subject ever published and covers the entire field of North America fowl shooting. It supercedes all books written on this subject before.

The book contains colored illustrations of sixty-three varieties of birds, ornithologically correct, by Clement B. Davis.

BASE LIBRARY HAS A COPY.

Col. Barrett —

(Continued from Page 1)

I am very much pleased with the over-all appearance of the base and glad to note that it seems to be a good, smooth-running organization. I am sure that you will cooperate with me in keeping it so.

In May 1944 he was assigned as commander of the Fighter Replacement Training Units at Perry, Florida. He was assigned at Nellis from October 1949 until the present time as commander of the Training Group.

The colonel, his wife, and their two children will reside at Reese.

Base Named —

(Continued from Page 1)

Air Command stationed there at the time of his death.

A graduate of the USMA in 1928, General Travis was commissioned a second lieutenant in the Field Artillery. He won his wings in September, 1929. During World War II he commanded the 41st Combat Wing, Eighth Air Force in the European Theater of Operations.

Dedication ceremonies will be arranged and held in the near future by the Strategic Air Command.

Service Club

FRIDAY, 28 Oct.—Open house.

Cards, records, games, and other recreational equipment may be checked out.

SATURDAY, 28 Oct.—Open house.

SUNDAY, 20 Oct.—Open house.

MONDAY, 30 Oct.—Hallowe'en

Dance for Negro airmen. 2030 hours. Plenty of eats and prizes for the best costumes.

TUESDAY, 31 Oct. — Pay day night, no scheduled activities.

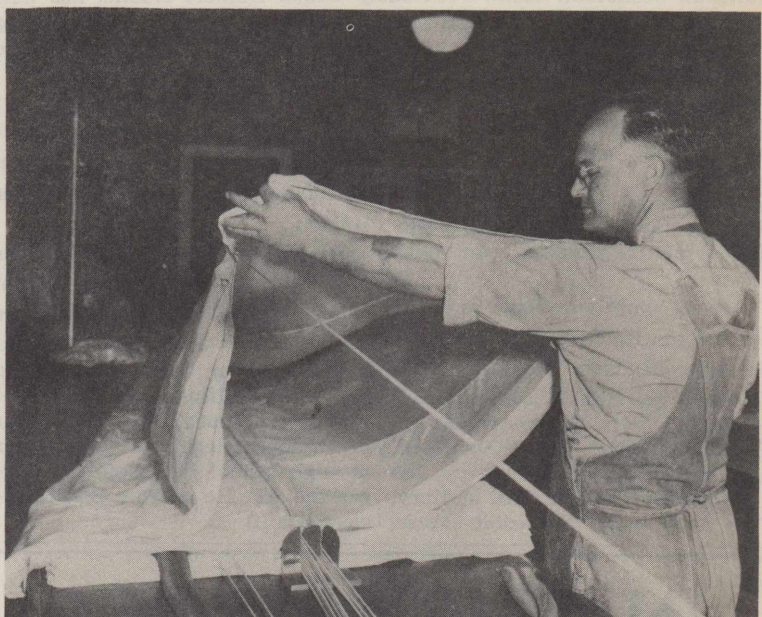

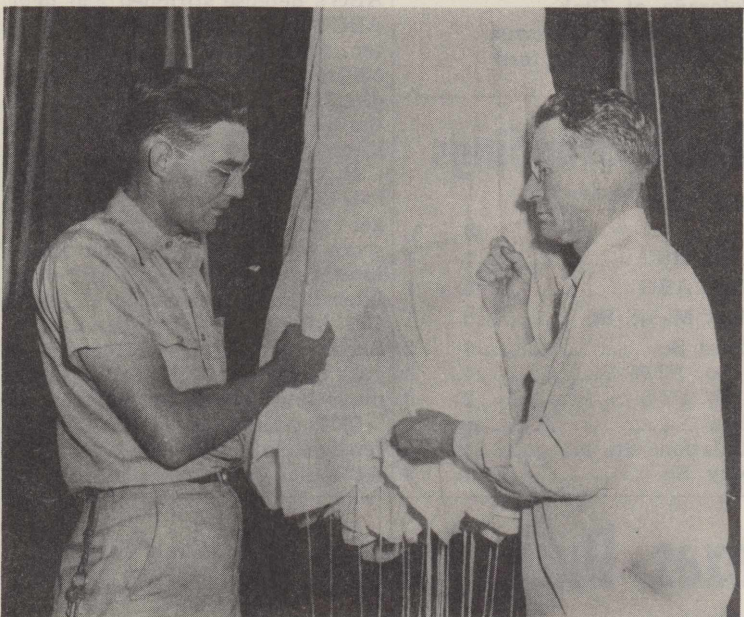

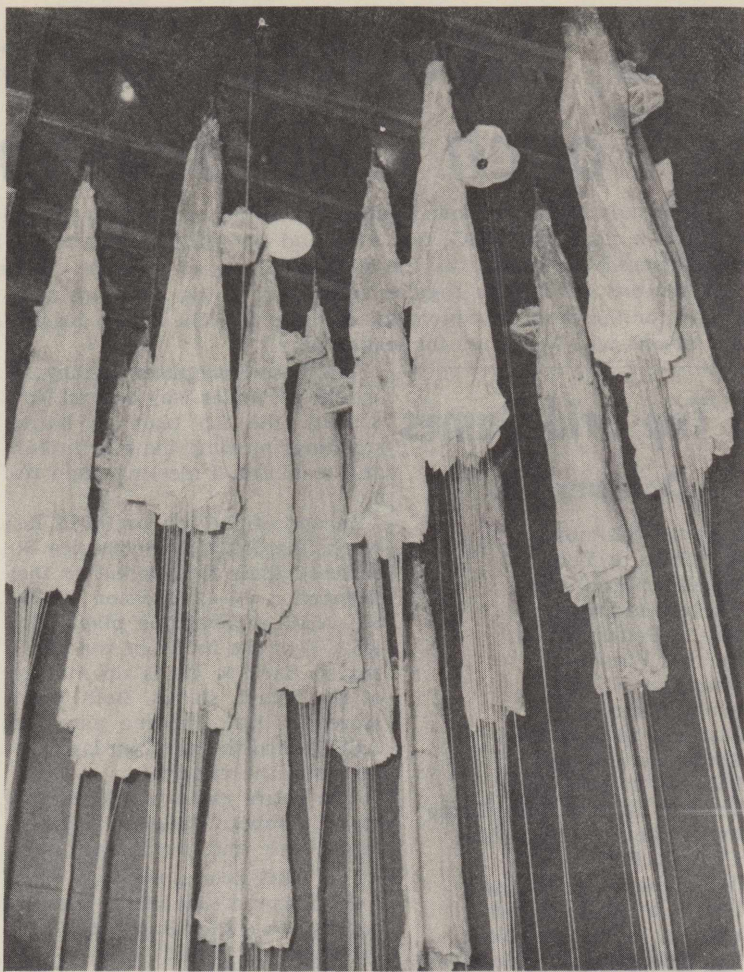

WEDNESDAY, 1 Nov. — Open house, 1630-2200.

THURSDAY, 2 Nov.—Open house.

This is your club please help us keep it clean and a pleasant place to relax in.

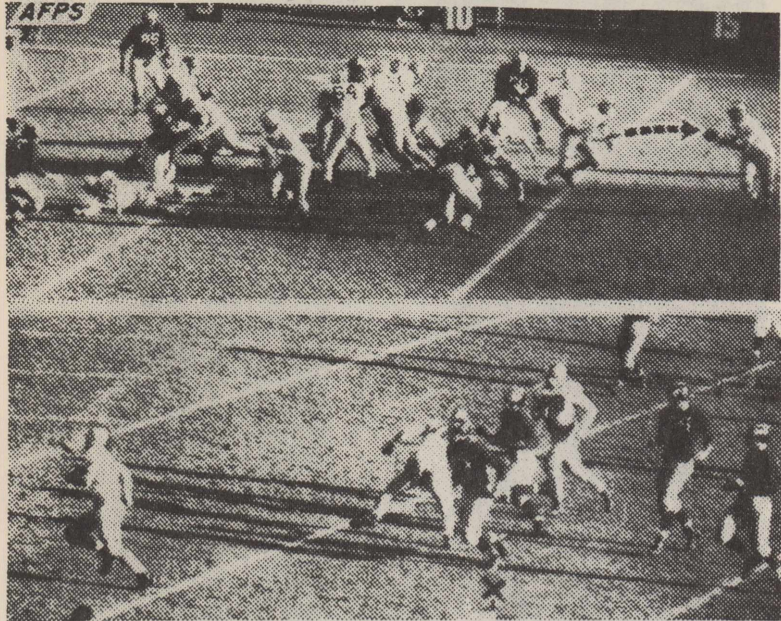

Good Conduct Medal

The Good Conduct medal was recently awarded to M/Sgt. Wilbur Finklea and S/Sgt. Jay D. Jones of the 3500th Supply Squadron and S/Sgt. Robert Neefe and to Sgt. Jewel Peake of Hq. & Hq. Sq. ABG.

Essential to the safety of the Air Force Pilot are his "wings of silk," commonly known as parachutes. The difference between a dead flier and a live one is often measured by how good his parachute is. The Reese Parachute Department is charged with the responsibility of seeing that the 'chutes are kept in the best of condition. Pictured above are the steps taken in the upkeep of them. 1. The chutes are hung up to dry and air out, eliminating wrinkles. 2. Mr. R. W. Bray, civilian employee, lowers a chute for repacking. 3. Mr. Fincher Elkins and Mr. J. D. West inspect a chute for rips and other defects. 4. Mr. J. D. Rudder folds the chute panels and in (5) he stows the lines away. 6. Mr. Rudder places the parachute in the pack.

Army On The March

Adding misery to a determined Michigan eleven, Don Pollard, Army fullback, takes a pass from quarterback Bob Blaik (top). After skirting the end Pollard is in the clear and on his way to paydirt (bottom). The cadets got off to a shaky start, but soon began clicking. Final score: Army 27, Michigan 6.

Hard Practice Started By Reese Hoop Squad

This week marked the start of light scrimmages for the Reese Rattlers basketball team. Previously Coach Delbert Adams has held the practice sessions to drills, exercises and physical conditioning. Adams emphasized that though scrimmages had started he wanted everyone interested in basketball to come on for a tryout.

It is still about a month before he will start to cut the squad, so anyone who wants to make the squad has a chance. Those interested should report to the gym Monday through Friday at 3 pm. The practice sessions run until 5 pm.

Among those who have reported out for the Rattlers is Bill Wright, William Hudson, Hugh Foster, Dale White, Bill Wilson and Bill Ballard. Others on the square are Raymond Travis, Larry Swafford, Lee Matthews, George Coslow, Joe Lopez, Ronald Lopez, Hill Mallory, Don Dunavant, Sylvester Muse,

Samuel Hart, Jock Hensen, Charles McKinney, Wayne Cox, Dalton ToTuchett, Jack Wells and Lester Horton.

Wright and Coslow are veterans of last year's Rattler squad. Wright is a guard and has eight years of semi-pro experience behind him before entering the service. He is from Milwaukee, Wis. Coslow, also a guard, played one year of junior college ball four years of high school ball before entering the AF. He is from San Francisco, Calif.

IN THE HUDDLE

By DEKE HOULGATE

One of the top defensive marks of all time was that recently chalked up by Southwestern University at the expense of Southwest Texas. The Pirates, in a 28-7 victory, held their opponents to no first downs, no yards passing and only 17 yards rushing . . . Bob Bronzan, San Jose's new coach, has introduced the kickoff huddle.

No less than nine Bradley Braves—six ends and three half-backs — were on the receiving end of completed forward passes when the Peoria team routed Adams State of Colorado, 33-0 . . . Did somebody say something about a pair of sweet ends? (Leo) Sugar and (Bernard) Flowers are playing on the wings at Purdue . . . Southern Illinois, better known as Carbondale, is without a wrestling coach, a tennis coach and a physical education instructor. But it is not as bad as it seems. The above vacancies were all left open when Russell Bush was notified to report for active duty in the Air Force.

Frank Howard is giving Yale's coach Herman Hickman a run for title of wittiest coach. "All right," he told a loafing athlete, "if you want to kill time, let's work it to death," and "Yep, we're mighty tough when the other team gets down around our alumni line."

Just before the Missouri, game, which Clemson won 34-0, Howard quoted a local farmer as saying, "That there Fa-rott (Don Faurot, Missouri's great coach) is a mighty good man. He's so good he can take his'n and beat your'n or he can take 'your'n and beat his'n."

Little Bill Cross, the 150 pound Canadian Comet full at Canyon College is playing sensation ball.

The last time we looked he was lugging a 17.7 yard average. Zeke Martin of North Texas State is out after a few passing titles. Against East Texas he passed for 237 yards.

MSG, ABG And 3501st Lead Loop As Touch Grid Season Nears End

With only some postponed games remaining to be played, the base touch football season is fast drawing to a close. Hq. MSG, Hq. ABG and the 3501st Maintenance Sq. are leading the pack, each team having suffered one defeat, as the ROUNDUP went to press. Those games which were postponed for various reasons during the regular season are being made up next week and then the top four teams will play for the base championship. If there is a tie in the league standings at the end of the season co-champions will be named for league play.

25 Top Grid Games October 28

- Army at Columbia
- Holy Cross at Yale
- Cornell at Princeton
- Maryland at Duke
- Navy at Pennsylvania
- Miami at Pittsburgh
- Indiana at Illinois
- Iowa at Ohio State
- Oklahoma at Iowa St.
- Nebraska at Kansas
- Michigan at Minnesota
- Michigan State at Notre Dame
- Northwestern at Wisconsin
- UCLA at Purdue
- Mississippi St. at Alabama
- Clemson at Wake Forest
- Kentucky at Georgia Tech
- TCU vs Mississippi (Memphis)
- William & Mary at N. Carolina
- Vanderbilt at Arkansa
- Texas A&M at Baylor
- Texas at Rice
- Colorado at Utah.
- St. Mary's at California
- Washington at Stanford

Touch Standings October 25

	W	L
Hq. Sq. MSG	7	1
Hq. Sq. ABG	6	1
3501st Maint. Sq.	5	1
Medical Sq.	3	2
Hq. Sq. PTW	4	3
Hq. Sq. PTG	2	6
Cadets	1	5
Installations Sq.	1	6
Supply Sq.	1	7

The base championship playoffs should get under way around Nov. 6, with the top team in league standings meeting the fourth team and team No. 2 meeting team No. 3.

In one of the top battle of last week, the 3501st Maintenance Sq. suffered their first defeat as they dropped a 13-12 decision to Hq. Sq. ABG in overtime play. ABG led 6-0 at the half, but the 3501st roared back to tie is up midway of the fourth stanza. Both teams scored in the overtime play, but ABG gained the most yardage giving them the victory.

The entire game was highlighted by stubborn defenses, pass interceptions and hard blocking.

ABG Scores On Pass

ABG scored first late in the second half on a Dick Bochte to Charles Jackson aerial covering 57 yards. The 3501st threatened in the first period, when a Joe Lopez to Bryson Laudenberger pass carried them to the ABG 18, but ABG's defense stiffened and held. ABG threatened in the third quarter when Bochte intercepted a 3501st pass and headed for paydirt, but a clipping penalty brought the ball out to the 3501st 35-yard line.

In the middle of the final period, Ken Wycoff found Laudenberger with an aerial and tie the score at 6-6. A little later Lopez intercepted an ABG pass and three laterals took the ball to the ABG 10. ABG's defense stiffened as Sneaky Badgette intercepted a pass to stave off the tally. A few plays later the game ended.

With each team having four offensive plays to decide the game, ABG picked up four yards in two

running plays. Then Red King hit Sneaky Badgette with a TD pass. On the fourth and final play Red ran 18 yards.

The 3501st opened their four downs with Wycoff pitching out to Lopez who passed to Laudenberger for a tally, tying the score, 12-12. Two running plays picked up nine of the necessary 18 yards and ABG battd down an aerial to win the game, 13-12.

PTW Whips PTG, 6-0

Monday's big game saw the Hq. Sq. PTW aggregation down Hq. Sq. PTG, 6-0. The score came early in the third period when Jim Fox of PTW intercepted a PTG heave and ran 86 yards to score.

Dave "Rodeo" Parker's defense-size work, in blocking PTW passes, and catching Mike Pinon's tosses made him one of the standouts of the game.

After playing through a scoreless first period, the MSGmen went ahead 6-0 in the second stanza and then scored twice more during the second half to beat PTG, 18-0, in Tuesday's game.

The first Maintenance and Supply Group score came late in the second period when Ed Pitts hit Ernest Bence with an aerial.

Pitts Sparks Team

Playing on more less even terms until the final stanza, a Pitts to Dale White aerial, covering 43 yards was good for six more points. MSG added their final score, with only a few minutes left, as Pitts passed to White, who lateraled to Hugh Foster. Foster scored, pting MSG ahead, 18-0, and the game ended a few minutes later.

Texas Duck Season Opens Nov. 3—Rules Listed

With duck season just around the corner, Reese nimrods are getting the equipment ready. Perhaps some have forgotten some of the Texas State Hunting Laws and some don't know them. Here are most of them which will apply to local hunting. Reese personnel should abide by these laws while hunting in the surrounding areas.

First, Reese personnel are eligible to obtain Resident Hunting Licenses. The regular resident license permits the sportsman to hunt anything other than deer and turkey and costs \$2.00. The Big Game License, which permits hunting of turkey and deer during season, as well as the privileges of the regular license, costs \$2.15.

The item of most interest to the sportsmen is the opening at 12 o'clock noon next Friday, Nov. 3. of the season on brant, coot, ducks and geese. The season runs through Dec. 17.

The shooting hours are: On Nov. 3 from 12 o'clock noon to one hour before sunset; all other days of the season—one half hour before sunrise to one hour before sunset.

Bag And Possesion Limits

The bag and possession limits are as follows: Coot—10 per day or in possession; Ducks—5 per day, 10 in possession, including not more than one wood duck. Exception—American and Redbreasted Mergansers 25 singly or in the aggregate per day, with no possession limit. Geese and Brant—5 in the aggregate per day or in possession, including in such limit not more than either 2 Canadian geese (or its subspecies, Hutchins or crackling goose), or 2 while-fronted geese of one of each.

The following name birds are considered game birds brant, chachalaca, doves, ducks, geese

grouse, partridge, pheasants, pigeons (wild), plover, prairie chicken, quail, shore birds of all varieties, snipe and turkey. The season isn't open on all of them.

In hunting migratory game birds baiting or live decoys are prohibited. Taking by means, aid or use of automobile or aircraft is prohibited. Only shotguns of 10 gauge or smaller may be used and repeating or auto loading guns capable of holding more than three shells including those in magazine and chamber, are allowed. Guns with over the three shell limit must be

plugged to that limit.

No Hunting From Boats

Migratory game birds may not be taken from a power driven boat or any boat under sail or two. Sinkboxes are prohibited. Waterfowl may not be taken by mains, aid or use of cattle, horses or mules.

Several restricted areas for hunting are listed. Youp can not hunt on any State or Federal refuge or preserve, nor from any enclosed private property without the permission of the owner or agent of the property.

No person over the age of 16 is allowed to hunt migratory waterfowl without a Federal stamp. This stamp is procurable at the Post Office in the surrounding communities.

IT IS UNLAWFUL TO— Hunt in State Parks under the control of the Texas State Parks Board.

Hunt for hire or hire anyone to hunt.

Hunt from an automobile, motor boat, sail boat, boat under tow or an airplane.

Hunt on a State Game Preserve. Hunt or fish on enclosed lands without the owner's consent.

Shoot any gun or firearm in or along or across any public road in the state.

Refuse to permit a game and fish warden to search your game bag or automobile.

Hunt under license of another or allow another to hunt under your license.

Hunting and fishing licenses can be obtained at county court houses, city halls and at most drug, hardware and sporting goods stores.

Watch next week's REESE ROUNDUP for more news on hunting and seasons which will open in the next few weeks.

Three year old Nelda Nicholson, daughter of M/Sgt. and Mrs. Nelson P. Nicholson, shows doves she and Sergeant Nicholson bagged on a recent hunting trip. The youngster is a regular hunting companion of her father.
