

# Gens. Harper, Carter, Col. Pardy Here

## Dedication, Dance As Downtown Club Welcomes Airmen

Generals and privates, elbow to elbow . . . bright lights and pretty girls . . . music, military and dance style . . . This was the opening Wednesday night of the new building housing the Lubbock Service Organization.

The just-finished club at 1311 Main was officially opened to servicemen with the cutting of a ribbon by Col. and Mrs. George W. Pardy. Colonel Pardy was formerly commanding officer of Reese with the reactivation of the base in 1949, and is now at Scott AFB, Ill.

Lt. Gen. Robert W. Harper, commanding general of the Air Training Command, accepted the club from master of ceremonies Charles Whitacre, on behalf of ATRC. He, in turn, presented it to Maj. Gen. Warren R. Carter, commanding general of Flying Training Air Force.

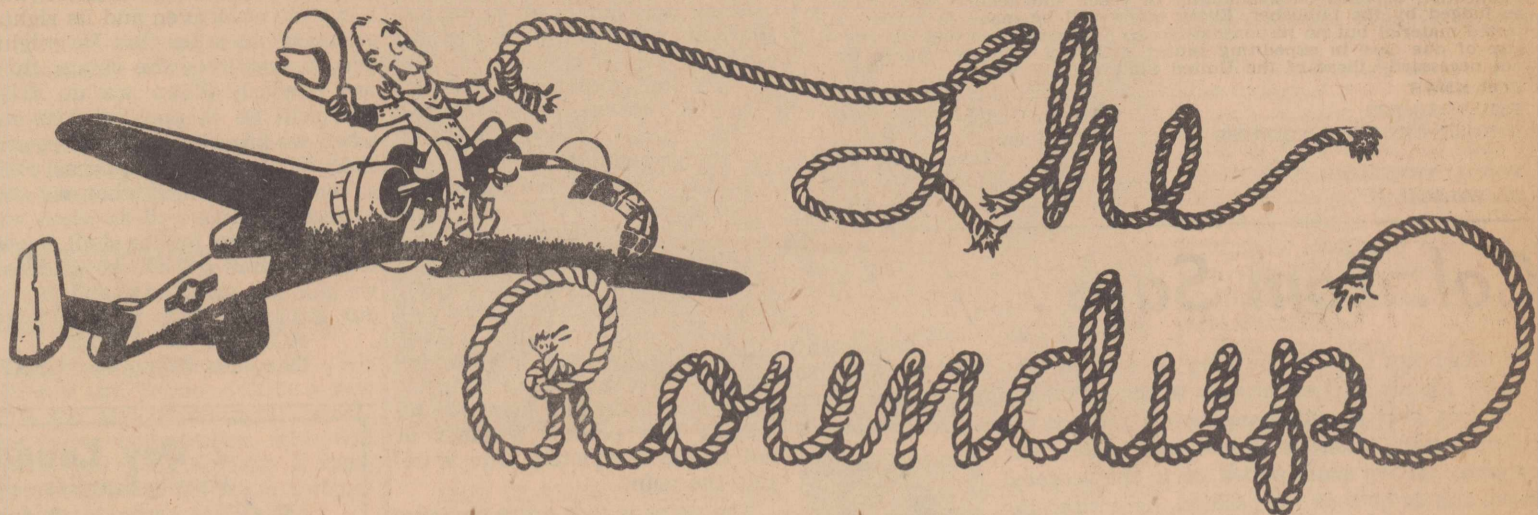

Reese's CO; Wing Commander Col. Thomas J. Barrett, then accepted the LSO for the base and presented it to an enlisted representative of local servicemen, Pfc. Bill Bell, of Wing Headquarters Squadron.

The invocation to the ceremony was given by Chaplain Maurice R. Holt.

The dedication program was broadcast from 2000 to 2030 hours by radio station KFYO, Lubbock.

Following the dedication, airmen were guests at a dance given by the LSO "Hubbettes" in their honor. The base dance orchestra furnished the music. Hostess for the evening was LSO director Leona Gelin.

The Wednesday night opening of the new downtown club marked almost ten years of LSO service to the armed forces. February, 1942, was the first month of operation for the Lubbock group, with Miss Gelin its first and only director.

## Emergency Radio Tested by MARS

### South Plains Hams, Naval Technicians Join In Field Day To Try Out Radios

In the event a rampaging flood or devastating tornado strikes Reese, it would only be a matter of minutes before help was sped to the rescue, via radio.

And the radiomen in the Lubbock area operating the emergency-powered equipment include members of Reese's Military Amateur Radio System (MARS), the Naval Reserve Training center at Texas Tech, and the South Plains Amateur Radio Club, Inc.

"Hams" in these three groups joined with 80,000 other amateur radio operators last weekend in a national test of portable equipment, so as to be prepared for any emergency.

The annual field day held at Johnson's ranch southeast of Lubbock, was sponsored by the American Radio Relay league, of which the Lubbock Club is an affiliate.

High winds and thunderstorms simulated emergency conditions Saturday night as the hams prevented power failures and antenna towers from toppling to record a total of 406 contacts with some of the 25,000 to 30,000 stations throughout the nation.

The Lubbock Radio club had the highest number of contacts 162, closely followed by Reese's

radiomen with 157. The Navy group, although working like Trojans all night, only made 87 contacts.

Captain C. W. Tripp directed Reese's activities and was assisted by Warrant Officer A. S. Williams, chief operator. Other MARS operators were 1st Lt. R. D. Smith; 1st Lt. R. C. Burgess, and S/Sgt. R. L. Brady. M/Sgt. James C. Nix, communications chief of the radio section, helped set up the equipment.

CELEBRATING the dedication and grand opening of the downtown LSO at 1311 Main St. Wednesday night were Reese airmen and Hubbettes shown relaxing in the game room during dance intermission.

### 51-D Completes Training . . .

## Foster Urges 'National Unity'

"If we do not maintain the unity of the past . . . we will not survive," Cedric Foster, Mutual Broadcasting System radio com-

mentator, told 49 graduates of class 51-D in ceremonies held Saturday morning at the base theater.

Foster held the audience with the warning that only a strong spiritual and national unity will spare the white race from extinction in the looming war between Asia and the Western hemisphere.

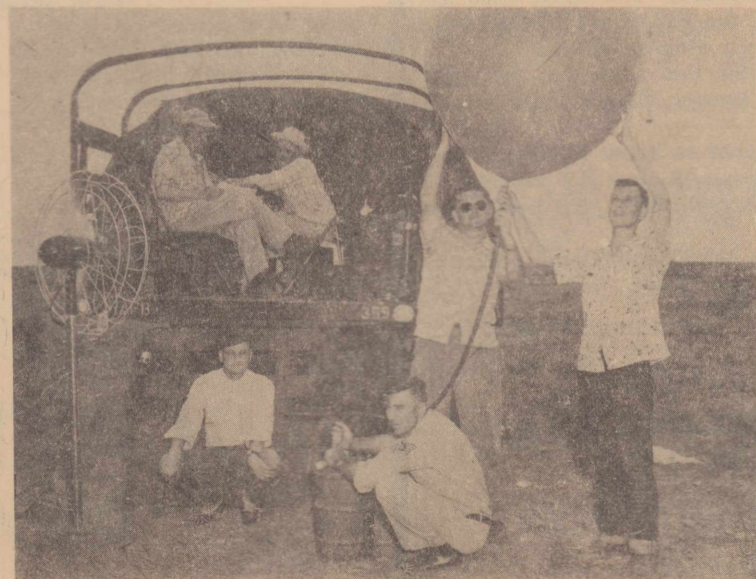

Following the introduction of the staff, Col. Cecil C. McFarland, acting wing commander, and Foster awarded silver pilot's wings to the class. The 21 aviation cadets took the oath of office as second lieutenants from Capt. Donat F. Dautuil, wing adjutant.

Cited during the ceremonies were A/C George H. Jones, Niagara Falls, N. Y., for highest academic standing; A/C Foster A. Post, Santa Monica, Calif., for military achievement, and A/C Wallace C. Ryan, Rochester, N. Y., as outstanding athlete.

A photo portrait of Rattler, cadet mascot, was presented by class 51-D to the undergrads. An honorary cadet for 26 months, Rattler has been "held over" for more training.

During the wing review on the flight line following the theater

ceremony, Cpl. Louis V. Nucci was awarded the Bronze Star for "exemplary action" in Italy in 1944. Sgt. Jack D. Solomon received the Medal For Humane Action for participation in the Berlin airlift.

MARSMEN FROM REESE fill a balloon with hydrogen as they send it aloft to support a vertical antenna at about 135 feet. 1st Lt. R. C. Burgess makes an entry into the log book while Warrant Officer A. S. Williams operates the set. S/Sgt. R. L. Brady watches Capt. C. W. Tripp and 2nd Lt. R. D. Smith fill the balloon. Kneeling, M/Sgt. J. C. Nix checks the portable hydrogen generator.

## ATRC Announces Change in Choosing Cadet Applications

Headquarters Air Training Command, Scott Air Force Base, Ill., is moving to stifle the rumors and misunderstanding that have arisen in the pool of airmen aviation cadet applicants awaiting training. Each applicant will be notified of his probable class entry and exact date of qualification sometime between 15 July and 1 August.

The old system of class selection based on scholastic achievement, which made class prediction impossible, was changed this spring. Under the new program, class selection is made in accordance with date of qualification at Training Command Headquarters.

July 1 has been set as the deadline for eligible civilian applicants to enlist and avoid Stanine Testing. After this date officials feel they will be able to accurately base their predictions on current flow of training and present ratio of civilian and enlisted candidates.

## 'Bang-up' Time For Reese With 4 July Fireworks

Fireworks! An hour-an-a-half display of 'em, too!

That'll constitute Reese evening climax to the coming Fourth of July holiday.

Sponsored jointly by the Officer's Mess, the NCO Mess and the Cadet Club, a brilliant display of aerial bombshells and ground devices will light the area at the north section of the ramp beginning at 2030 hours and lasting for one and a half hours, Capt. Robert E. Engelbretson, project officer announced this week.

All Reese personnel and their families are invited to watch the show which includes all sorts of fireworks from a powerful opening salute to a patriotic finale. The program, purchased from a commercial agency, promises to be crowded with new and novel pyrotechnic effects. Dozens of ground displays will print in fire such pictures as Old Glory, Niagara Falls, a puzzle wheel, and Aztec fountain and dozens of others. Bombshell of all patterns and varieties will constitute the aerial demonstration.

Ample parking space for automobiles will be reserved along the ramp, and Air Police will assist in parking and safeguarding the the crowd. Bleachers will be set up in the area.

Handling the display with Captain Englebretson will be 2nd Lt. Donald J. Sunderlage, S/Sgt. Charles Twiner and Sgt. William R. Ballard.

## THE ROUNDUP

The ROUNDUP is a civilian enterprise published every Friday in the interests of military and civilian personnel of Reese Air Force Base, Lubbock, Texas. Local news appearing here may be reprinted without obtaining specific clearance. News, features, photographic and art material are solicited from personnel of the Base but publication depends on availability of space and general news value as judged by the publisher. Every effort will be made to return rejected material but no responsibility can be assumed beyond the exercise of due care in expediting return. Opinions expressed herein are not necessarily those of the United States Air Force.

## Col. Tom Says . . .

The other day I heard the story of a cadet who went up with his instructor for his first experience in formation flying. Another plane was circling over a rendezvous point, and the cadet pilot set out to establish a wing position on the lead plane. The story goes that the cadet pulled up to the accepted distance and as he took his position, he noticed the other plane seemed to be continuously soaring up and down so that it was almost impossible to hold a steady position.

After a few moments of "chasing" the lead plane up and down, the cadet picked up his mike and remarked to his instructor that the lead pilot seemed to be having a hard time flying straight and level. The instructor gave his student a withering look of disgust, picked up his mike and said very slowly and deliberately: "It may interest you to know that YOU are the one who is going up and down . . . not him!"

In this case the cadet pilot was making an honest mistake, but honest or not, it's usually pretty easy to blame the other fellow when things go wrong. It's just human nature, apparently, to feel that most of the time we are 99% right and the other fellow is 99% wrong.

Some folks call it tolerance or open-mindedness. But whatever we call it, it boils down to realizing our own shortcomings and examining ourselves before we blame something on somebody else.

Somebody said: "The world is in such a mess that I'd be in favor of a second Flood, if I thought there were seven other persons worth saving!"

Let's get OUR OWN clearance before we ground the other fellow!  
 Thomas J. Barrett  
 Colonel USAF

### EMERGENCY RELIGION

Some two hundred years ago someone wrote the lines (he was probably a soldier):

"God and soldier we adore;  
 In time of danger, not before;  
 The danger passed, and all things righted,  
 God is forgotten and the soldier slighted."

Often we have heard servicemen complain that soldiers and airmen are not appreciated and treated decently by the civilian populace unless there is a war going on. Then there is nothing too good for them and they are all treated like heroes. Whether or not this is completely true is beside the point.

The point is that quite obviously God and religion are forgotten until some emergency arises which cannot be solved without divine help. It was often said during the last war that there were no atheists in fox-holes. The implication of the statement is that when men come to grips with the realities of life and death, they instinctively turn to God who is recognized as the one having power over a life and death.

Since most of us recognize the sovereignty of God "when the chips are down", why can we not be sensible enough to recognize that he is still the "Way and the Truth" for all areas of living. If we as servicemen feel that we are not appreciated rightly unless there is a war emergency. Is it not also true that God must be even more critical of us for ignoring the true Fountain of Life until the well runs dry.

Religion, as it is revealed in Holy Writ, was never intended to

be a form of "soul insurance" against the possibility of going to Hell. God has rather revealed Himself unto us that "He might be the Giver of every good and perfect gift." He has directed that we should "seek first the Kingdom of Heaven and its righteousness" in order that He might add to our lives the things that are needful. When we do this, God will be as popular with us when we are well as when we are sick; when we are happy as well as when we are sad; when we are at recreation as well as when we are at Church; for we shall know that whether we live or whether we die, we are God's, and He is our Father.

ROBERT L. JONES  
 Chaplain (Captain) USAF

51-Fox graduated from T-28's and are now concerned with flying the big bird, B-25. The planes, instructors, and crew chief start the process all over again—as they do every six weeks—to break in a new class.

The third classmen, 51-G, are bearing down on the instrument phase of T-28's; however, due to a necessary inspection of all the aircraft their flights have been grounded for a few days. Your talents may be utilized so you will gain in military training.

Many work details have been cleaning up the base for the visits by Generals Harper, Carter and Colonel Pardy. The entire base has been in on the cleaning detail; however, the Cadets are charged with cleaning a much larger section than is any other squadron.

51-G was scheduled for cross-countries this week but have not been able to accomplish any of them. Denver, San Antonio and El Paso were included in the itinerary.

Steigle, 51-G, evidently wants everyone to know when he is going to make an instrument take off so they will clear the area, for he many times gives out on VHF with "radios checked, pilot head cover removed . . .", etc.

The new class, 51-H, arrived on the base Tuesday and really reinforce the cadet detachment—number and talent.

# 2800 WAFs Needed

The USAF needs 2,800 experienced business and professional women, with college degrees, for direct commissions in the Air Force Reserve, it was announced recently by Headquarters, USAF.

In its search for qualified candidates for direct commissions as First and Second Lieutenants, the Air Force is stressing successful civilian leadership rather than prior military experience. Basically qualified, state Air Force leaders, are young women 24 to 32 years of age who have been accustomed to dealing with the public and those who have held supervisory or managerial positions. Such experience, it was pointed out, does not necessarily have to have been done for pay. It may have been performed for an organization on a voluntary basis, such as local civic clubs, the Red Cross or other organizations.

To be considered for appointment in the Air Force, all applicants must be college graduates with a baccalaureate, or higher, degree. A young woman who aspires to wear the gold or silver bars of an Air Force lieutenant need not hesitate to apply because she is married, it was pointed out, provided she has no dependents under 18 years of age.

Women accepted under this program, aimed for completion by July 1952, will be commissioned as second or first lieutenants in the Air Force Reserve, at pay equal to that of other Air Force officers. They will be initially assigned to an eight-week indoctrination course before receiving

their first permanent assignment at Air Force installations throughout the U. S. and overseas.

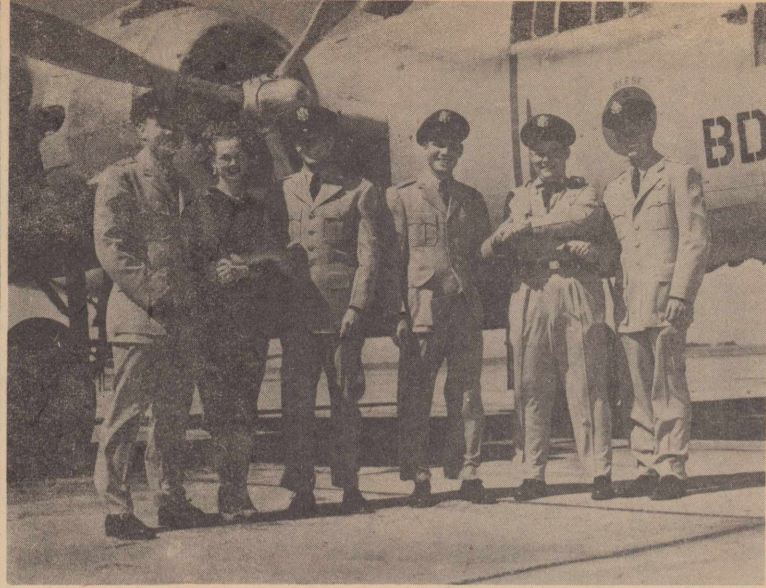

Women desiring further information may obtain it through any U. S. Army and Air Force Recruiting Station or by writing direct to WAF—Women in the Air Force—Headquarters USAF Washington 25, D. C.

## Comptroller Chief to Instruct AF ROTC

Assistant professor of Air Science and Tactics will be a new title for Maj. Irwin L. Ungerleider, wing comptroller, who will leave this week to take a four-week course in academic instruction at Maxwell, AFB, Ala.

Following the course, Major Ungerleider will leave sometime in August for Eugene, Ore., where he will serve with the AF ROTC at the University of Oregon.

Coming to Reese from Vance AFB, Okla., Major Ungerleider has served here as wing adjutant, mess secretary at the Officer's Mess, personnel services officer and wing comptroller, his present duty. He attended a comptroller staff officer's course at the Air University from Sept. to Dec. last year.

OLD CLASSMATES who won their wings together at last Saturday's graduation exercises share a "Truman handshake" with Virginia Rudy, base civilian employee, and Lt. Col. William A. Gibson, also an alumnus of Utah State Agriculture college, their alma mater. Left to right are 2nd Lt. Thomas Lyons, Miss Rudy, 2nd Lt. James W. Taylor, 2nd Lt. Lloyd L. Kennedy, Colonel Gibson and 2nd Lt. Robert N. Sorenson.

## Health and Safety Division... Talk Exposes Fire Hazards

Static electricity and petroleum products and handling in order to prevent fires, was the theme of a ground safety demonstration and

lecture by H. F. Browne, of the Health and Safety division of the U. S. Bureau of Mines last week.

The first portion of the program, which was presented at 0930 and 1300 hours last Tuesday and Wednesday, dealt with the inflammable petroleum products, gasoline, butane gas and kerosene. Browne warned against future fires by pointing out situations that have caused fires in the past.

Special care must be exercised on the flight line, Brown cautioned later in the demonstration due to the presence of static electricity. Metal parts should be grounded and bonded, he said, especially around aircraft and refueling.

Most of the equipment used was built by Browne, who has 21 years of experience in safety work. He has been with the Bureau of Mines, a Department of the Interior agency, for eight years and is one of two persons presently touring with a combustion material and static electricity display.

A PHOTO PORTRAIT of Rattler, mascot of the cadet detachment, is left to the cadet squadron by parting members of class 51-D who graduated Saturday. 2nd Lt. Robert Sorenson, Logan, Utah, makes the presentations during the ceremony.

## Nobody Injured In Monday's Crash

A pancake landing Monday night, three miles south of Hurlwood, caused no injury to the three occupants of a TB-25 which was forced down during a routine training flight.

The pilot, Lt. George H. Seaman, U. S. Navy, assigned to Reese as pilot instructor, was accompanied by 2nd Lt. John W. Best, Jr., student pilot of class 51-E and S/Sgt. James F. Clark, crew chief.

Officials stated damage to the plane was "substantial."

## Academic Director To Undergo Jet Training

Maj. Clyde M. Livingston, director of academic training, Pilot Training Group, terminated his duties here this week to undergo training in jet aircraft prior to assignment overseas.

Major Livingston will train at Nellis and Williams Air Force bases for ten weeks before reporting to Camp Stoneman, Calif.

## Pilot Sent to Alaska

Elmendorf AFB, Alaska, is the destination of 1st Lt. Dean L. Parli, Pilot Training Group, who will report to Camp Stoneman, Calif., during the latter part of July for assignment to the northern base.

## Schoolmates, 51-D Graduate, Together Again at Randolph

"Birds of a feather . . ." goes the adage.

And flocking together is getting to be a habit for four Utah lieutenants. All four graduated together from Utah State Agricultural college in Logan in the spring of 1950, and now the men are Air Force officers, having graduated with class of 51-D here last Saturday.

Following their college graduation last year, the four—James W. Taylor, Ogden; Thomas Lyons, Lloyd L. Kennedy and Robert N. Sorenson, all of Logan—enlisted in the aviation cadet program and were sent to basic flight training at Goodfellow AFB and Connally AFB. Upon completion, the four ended up at Reese together.

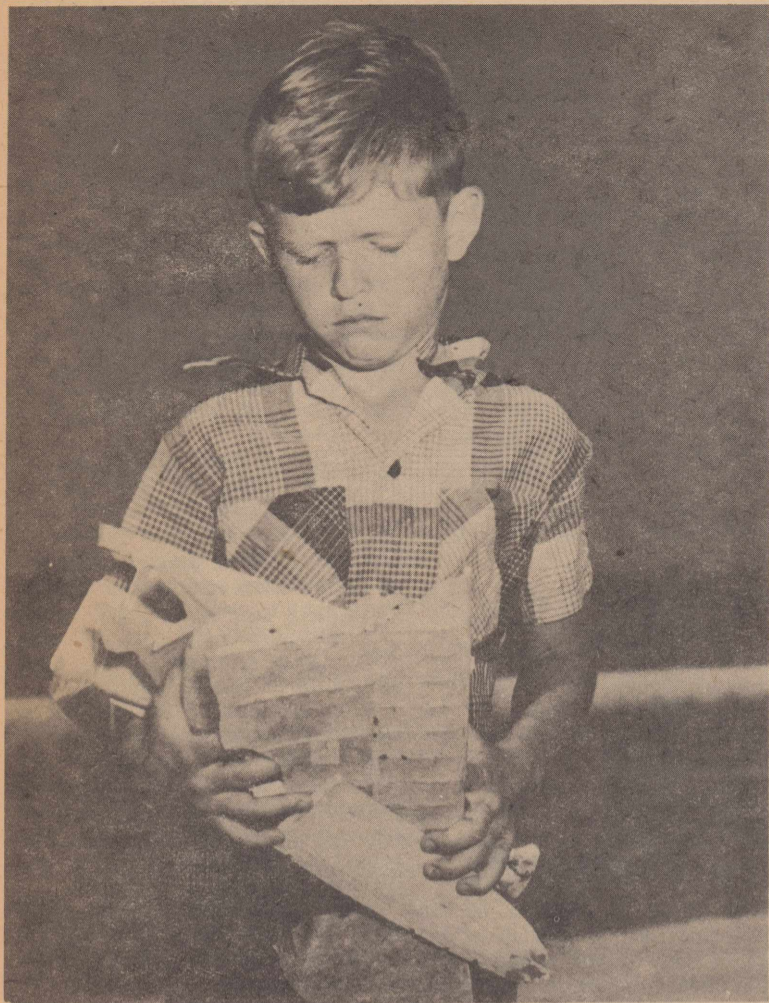

Only bachelor of the quartet is Lt. Sorenson, as the three others are married to Utah girls.

To top it all off, the group will remain together after they return from short summer leaves. They report to Randolph AFB for additional training.

After that—who knows? Perhaps the Air Force will decide to use four pilots instead of two to a bomber crew.

JUST LITTLE PIECES, that's all that's left of the gas model airplane. The unidentified lad who weeps for his fallen craft was one of a large group of contestants who vied for AMA prizes at a meet held here Sunday.

## 85 Modelists Duel Wind In AMA Contests Sunday

More than 85 model plane builders from Texas and New Mexico kept an estimated 5,000 spectators enthralled with expert flying exhibitions Sunday on the flight line during the all-day Lubbock Model plane contest.

Strong winds whipped the light craft about, with the antics pleasing the crowd. Five aircraft were missing and many destroyed, but nevertheless nearly 200 contestants gamely entered in the 14 events.

The best speed time of the day was recorded by Bill Kerr of Kress, who maneuvered his speed model around the ring at 130.38 miles per hour. Carpenter had the top free-flight time of 10:17.4 on three flights of his towline glider. Herbert Jennings of Tulia took top honors in the aerial combat event after topping three other contestants.

### NCO Wives Entertain With Buffet Supper

Fifty members and guests of the NCO Wives Club attended a buffet supper Monday night. A June wedding motif was carried out and games were played by the group.

Prizes were won by Mesdames John Burkett, Emery Conner, Charles Twiner, L. T. Wilson, Norman Howe and Clarence Shearer. Piano music for the occasion was furnished by Cpl. Benny Estes.

Twenty-two different entrants were awarded first place trophies in the 24 events, with 73 trophies being presented in all by the Lubbock Plymouth dealers who sponsored the second annual Academy of Model Aeronautics contest at Reese.

# Squadron Scribblings

...edited by Conrad

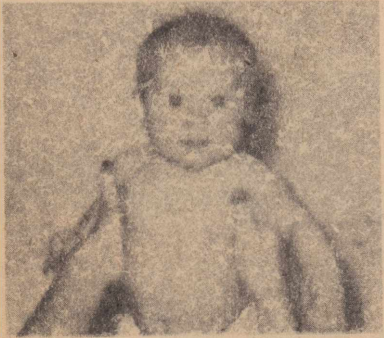

## Hq. Sq. News

By Sgt. C. W. Conrad

Our softball team is red hot! Monday it beat M & S Gp 11 to 10 in overtime to rack up three straight victories.

However, its new sparkplug Major Wendling, is being transferred to the Far East for duty with the 5th AF. Taking over as head mentor is Major Garuti. Another team member, Sgt. Teeple of publications, is leaving for James Connally AFB.

The squadron is also losing Lt. Col. Gaskin, Trng. & Ops. officer. Major Ungerleider, comptroller, is departing from Reese for his new ROTC assignment as asst. profes-

**BRIGHT-EYED** Loretta Ann, 3½ month daughter of S/Sgt. and Mrs. Keith Crnkovic, drools for her picture-taking daddy as she cuts her first teeth.

## CHORDS and DISCHORDS

By Sgt. John F. Cornell

The numerical strength of the 514th was augmented by two last Monday when Pfc. Manuel Linares, Jr., and Pvt. Ralph B. Walker, bass and piano respectively, arrived here. Sgt. Jules Zinter, having exhausted his entire repertoire of humor without getting a single chuckle in return, welcomes these two lads to the 514th with open arms and cue book.

The next two weeks will be happy ones for the airmen of our organization. It's furlough time again and even Pfc. Dad Stone smiling. He's planning a trip to Fort Wayne, Ind., to pick up a set of tubs, or so he says. Sgt. Joaquin has volunteered to remain at Reese as permanent C. Q. and in his spare time search for the score to "Laura."

## '01st Propwash...

By Pfc. Don Cianfrogna

Our squadron softball team moved into undisputed possession of first place during the past week by winning three straight games. 2nd. Lt. Wayne Whatley, a newcomer to our organization hurled all three games. In his first outing he tossed a very neat one-hitter against the powerful ABGp. In this game he was backed up by some long ball hitting by Jack Garlington and Bob Walker. Each man slammed out a home-run. The game against 02nd was a virtual rout, the score being 14-2 at the end of six innings. This game also featured some hetavy hitting by 01st. Roy Ketch-

um blasted a home-run with one on, and Joe Lopez, Eugene Alford, and Don Cianfrogna each a scape into the team by coming up with three runs in the top of the seventh, but Dalton Touchette came in to strike out the last man to put out the fire. The final score was 4-3. The teams record for the year now stands at nine wins, one loss.

In the transfer department, our squadron adjutant, 1st Lt. Reuben Rogers has been relieved of his duties, and was assigned to recruiting duty in Minneapolis, Minn. The Lt. a fishing enthusiast can't wait to try out the many fish-laden lakes in that area. Good luck, Lt. Rogers, and we hope you to haul in a few recruits for the catch many fish, but don't forget

son of air science and tactics at the U. of Oregon. T/Sgt. "Frenchie" Grenier kissed all the girls goodbye in finance as he departed for Wichita AFB. Colonel Rodieck reported back from staff school at Maxwell AFB Monday and immediately left on a vacation to fish and camp at the head of the Pecos. S/Sgt. Mobley returned from the Career Guidance school at Lowry AFB and now works in the orderly room. We also have a new supply sergeant, T/Sgt. Shaver, who transferred here from 3501st Maint. Sq.

## M&S Briefs

By S/Sgt. J. P. Johnson

Recent returnees from the Career Guidance School at Lowry Air Force Base, Denver, Colo., are S/Sgt. Joseph Mead and S/Sgt. George P. O'Brien. Sgt. Mead was class leader of his respective class with TDY for the purpose of schooling.

Departing from this station in a few days for overseas assignment to the North East Air Command was Sgt. E. A. Bence.

The interior of the squadron day room is in the process of being remodeled, and when completed will be one of the sharpest on the base.

Hq. Sq. has a potential champion pugilist in Pfc. Lee C. Hogue; ask Pfc. Richard T. Lowery about him. It seems as if they were engaged in a little close order knuckle drill, with gloves of course.

Reports received through the "grapevine" state that sometime during the month of September, Pfc. A. B. Castanon will venture down the stormy road that leads to matrimony. It has been said that "there is no life without a wife," but then again some wise old bird said "there is no life with a wife." Just kidding fella, congratulations and many happy returns of the day.

S/Sgt. Claude A. Still, Jr., recently transferred to Waco, Texas, passed through here. He states that Reese is perhaps the best base within the Air Training Command.

um blasted a home-run with one on, and Joe Lopez, Eugene Alford, and Don Cianfrogna each a scape into the team by coming up with three runs in the top of the seventh, but Dalton Touchette came in to strike out the last man to put out the fire. The final score was 4-3. The teams record for the year now stands at nine wins, one loss.

In the transfer department, our squadron adjutant, 1st Lt. Reuben Rogers has been relieved of his duties, and was assigned to recruiting duty in Minneapolis, Minn. The Lt. a fishing enthusiast can't wait to try out the many fish-laden lakes in that area. Good luck, Lt. Rogers, and we hope you to haul in a few recruits for the catch many fish, but don't forget

## Jet Schooling Slated For Maj. Wendling

Reese's Air Reserve coordinator, Maj. George V. Wendling, was released from duties here this week for the purpose of attending training in jet aircraft and gunnery

at Williams AFB and Nellis AFB. Following ten weeks of training he will be processed at Camp Stoneman, Calif., for overseas assignment.

### USAF.

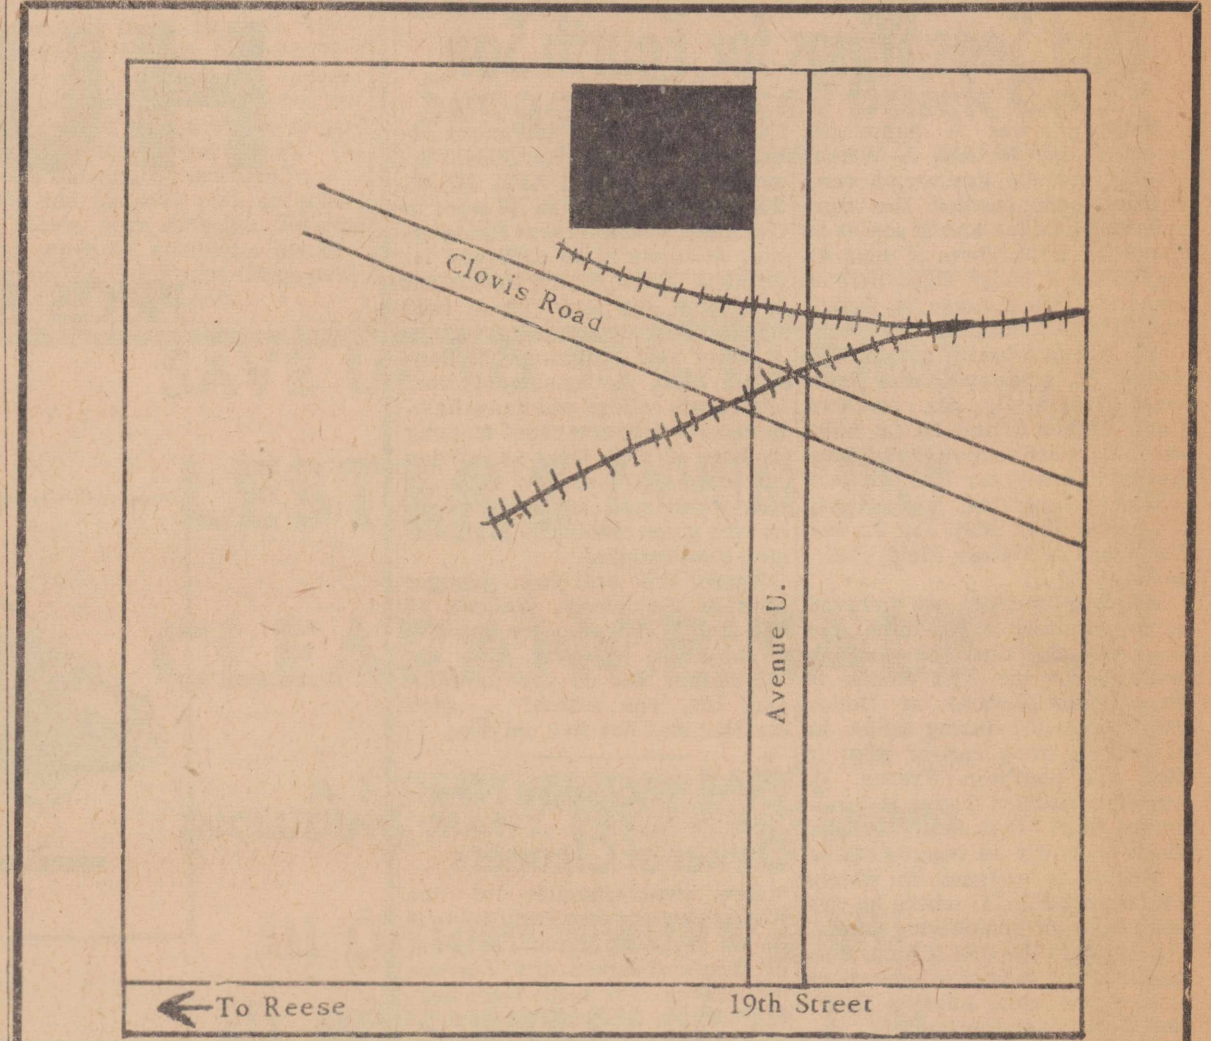

2nd Lt. Blaine H. Tanner has has now taken over as squadron adjutant. Lt. Tanner was with 1st Training Sq. completing a refresher course before being assigned here.

Just returning from Clerk Typist School in Cheyenne are Pfc. Phillip Carter, and Pfc. Richard Hannert. Pfc. Carter will take over the Mail and File department, while Pfc. Hannert will work as payroll clerk.

**FOURTH SON WINS WINGS**—Mr. J. Warren Taylor of Ogden, Utah, was a mighty proud father Saturday morning as he pinned the silver wings of an Air Force pilot on his fourth son, 2nd Lt. James W. Taylor. Taylor's wife assisted her father-in-law in the big family event. In addition to James, two of Taylor's sons graduated from flying training during the war from Lubbock Army Air Field.

**Fly-Fly Family's Fourth . . .**

**Dad Sees Wings for Fourth Son**

Saturday was a happy and eventful day for Mr. J. Warren Taylor, for the graduation ceremonies here marked the commissioning of his fourth son as an Air Force pilot. Three of them received their wings right here in Lubbock. Their home is Ogden, Utah.

Mr. Taylor's fourth son, 2nd Lt. James W., graduated from Reese with Class 51-D. His brothers, Capt. Vernon J. and 1st Lt. Lawrence C., were commissioned from Lubbock Army Air Field in July '43 and June '44, respectively. The other flier, Maj. Jay J., won his wings at Mather Field, Calif., in Nov. '41.

All four brothers are twin-engine pilots but only three are now on active duty. Lawrence is working for the OPS (Office of Price Stabilization) at Dallas. After the war, during which he served as troop carrier pilot in Italy and Southern France, he earned a masters degree in economics from Utah State College. He is currently on reserve status.

Vernon is assigned to Wright Patterson AFB, O., where he just completed an engineering course. He served in the CBI (China, Burma, & India) theater of operations during the war, piloting B-25's and B-26's over the hump.

Jay is stationed at Castle AFB,

Calif., where he is operations officer. He was a B-17 and B-29 instructor at Roswell AFB, N. M., during the war and in '46 went to Germany, where he was flying officer at Rhein Main AFB and later flew C-54's on the Berlin Air Lift. Both Jay and Vernon hold regular AF commissions.

James' next station will be Randolph AFB. He graduated from Utah State college and immediately entered aviation cadet training in June of 1950. Upon receiving his basic at Goodfellow AFB, he was transferred to Reese, where he was given Advanced Multi-engine Pilot training.

There are still two younger boys in the family, Wallace, 17 and Robert, 13, who are eager to be birdmen. However, their sister, Elaine, has no yen for military life. The reason? . . . she's married and has five children.

**O. W. McGuire New Owner of Cleaners**

New owner-operator of the Reese Cleaners and Post Tailor is O. W. McGuire, former co-owner of Bray's Cleaners and Furriers in Lubbock. The shops were purchased from the Bray brothers.

Quality work is the promise of McGuire, who has been in the cleaning business for six years and a Lubbock resident for 16. He plans to enlarge the alterations departments and continue to carry a large line of tailor-made uniforms.

## Follow the Leader... Air Police Squadron...

Following in his father's footsteps, who has been in police work at his hometown of Lawton, Okla., for the past 30 years, is Reese's provost marshal and CO of the Air Police Sq., Capt. William W. Overton.

Before entering service in March '42 as a private in the Army Air Corps he was deputy sheriff of Lawton. In July '42 he was called into the cadets and commissioned as multi-engine pilot the next year at Roswell AFB N. M. Shortly afterwards he wound up overseas piloting B-17's with the 97th Bomb Gp., of the

Capt. William W. Overton

15th AF in Africa and Italy, for which he received the Air Medal and seven oak leaf clusters.

He began his duties as an assistant provost marshal in '44 at Lockburne Army Air Field, Ohio,

and was then assigned to Chatham Field, Ga., in the same capacity.

In 1946 he was placed in charge of a rehabilitation center at McDill Field, Fla. From there he went to Hq. 3rd AF as assistant command provost marshal. Later redesignated to the Tactical Air Command, he moved with it to Langley Field, Va., where he was provost marshal.

A senior pilot, he left Langley in Oct. '48 for Fassburg AFB, Germany, where he flew C-54's on the Berlin Air Lift with the 313th Trp. Carrier Wg. Then in Aug. '49 he was transferred to Reese as povost marshal.

A married man, he resides with his wife and two children, William Jr., 4, and James A., 9-months, at 2712-A 46th St. in Lubbock.

An infectious smile and jutting crew cut readily identify the new first sergeant of the Air Police Sq., T/Sgt. Robert J. Morgan.

Although a newcomer to the Air Police Sq., since the 20th of the month, he had previously been chief personnel clerk with Hq. Sq. ABG since back at Barksdale in July of '49. Before being transferred to the wing he had been chief clerk in the 590th M & S Sq., at Ramey AFB, Puerto Rico. He entered service in Jan. '44

## 3502nd News...

By Pfc. Ernest Holfoth, Jr.

This week's good-bye and best wishes go to Capt. Richard E. Bowers, who has left us for work in training aids at Chanaute AFB.

M/Sgt Homer Pratt has also transferred from our squadron to Hq. squadron, M & S Group.

S/Sgt Huey Lawrence arrived here last week from Hq. squadron, M & S Group only to leave for the new base at Wichita, Kans.

Corps. While in training as a B-29 remote control mechanic and gunner, he was stationed at Clovis Army Air Field, N. M. Then he went overseas to the Asitic-Pacific theater, where he received an Air Medal for action at Saipan and Guam aboard the B-29, the "Dark Slide," which was the 3rd Photo Recon. Sq.

His next assignment in May '46 was at Ramey AFB, where he fell in love with Puerto Rico and his wife, who hails from Moca, Puerto Rico. He is really sold on the weather there. He says "it's a wonderful climate between 70-85 the year around. It never changes more than 5 degrees in one day and you never need an air conditioner for there's a breeze blowing all the time."

He and his wife plan on settling down near Arieicibo, Puerto Rico, when he completes his career in the Air Force. They now live at 407 College Ave.

We congratulate S/Sgt. and Mrs. George J. Brown on the birth of a baby girl, Susan, on 23 June 1951.

Best wishes go to S/Sgt Walter Popleik, our supply sergeant, who has transferred to 3501st. We also wish him a successful and prosperous new life with his marriage today to Miss Mary Belleville of Spotswood, N. J.

We are sorry to hear Sgt. William Carl Jones is in the hospital. We hope his stay will be short and he will be back with us soon.

Our softball team is fighting for a lead and showed it last Friday night by beating the Air Base Group team 14 to 7. They then

lost a heart-breaker to Installation squadron Monday night.

An addition to the squadron is Pfc. Bill Birch who came here from Keesler AFB, Miss. He hails from Charleston, W. Va., and expects to work in aircraft mechanics here. We all hope he will enjoy his stay at this station.

## Benedetto, Pruneski Cop Bowling Titles

Bowling got into the sports spotlight last Saturday and Sunday as Ronald E. Benedetto and Joseph Pruneski teamed to win the double's championship and Pruneski came back to cop the single's crown in a bowling tournament held at the base bowling alley.

Benedetto and Pruneski closed out the two day tourney with an average of 2317; second place went to Don Edwards and Lt. Thomas Glover, Jr., who had an average of 2280. Pruneski won the single's with an average of 1229 and was followed by Jerald Flemming whose average was 1211.

T/Sgt. Bo Lewis, of personnel services, disclosed this week that the bowling league has come to a close and that the base bowling alley will be closed until further notice, due to the warm weather conditions.

GET IM! . . . Crance, Perrin AFB shortstop, is called safe by plate umpire Bo Lewis in Thursday afternoon's game between Reese and Perrin. Attempting to make the put-out at home, with glove in hand, is Charles Mays, Rattler pitcher. Shown at right giving verbal encouragement is an unidentified Perrin player.

## Beat Hobbs, Drop to Seagraves; Split League Games With Perrin

It was an angry Hobbs, New Mexico Tiger that clawed its way onto the Reese Rattler diamond Sunday afternoon but went away as meek as a lamb, smarting from 21-9 defeat.

The Rattlers jumped on the Tigers early by scoring 11 runs in the first two innings and came back with seven more in the sixth and three in the eighth.

The men from Hobbs pushed across one run in each of the third, fourth and fifth innings and then had to be content with two in the sixth, one in the seventh and three in the ninth.

Jabo Richards started on the hill for Hobbs but was relieved in the third by Jackson. The Rattlers battered the Tigers for 19 hits while the winning pitcher Ernie Henkle, although hit often held Hobbs in check with 17 base knocks.

Sunday's high winds were quite a hindrance to the players in the field but proved no difficulty to pitcher Ernie Henkle and right fielder Ben D. Harvey who hit for the circuit as did Whitmore and Granville for the Tigers.

Reese	470	007	30
Hobbs	001	112	103

Seagraves independent baseball team pushed across a run in the last half of the ninth inning Tuesday night to defeat the scrappy Reese Rattlers 6-5 in a game played at Seagraves.

Tony Santonocito started on the mound for the Rattlers in a game which saw the lead change hands five times before Seagraves clinched it in the ninth. Santonocito was relieved in the third inning by Walter Sable who completed pitching chores for the evening.

Thursday and Friday the Rattlers travel to Perrin for two return games with the Pilots and return home for a probable game Sunday afternoon, that is yet to be scheduled. Next Thursday and Friday Goodfellow Air Force Base will be here for two games on the base diamond in an Inter-Service league scramble.

Reese	030	011	000
Seagraves	112	000	101

When the dust cleared on the base diamond last Friday afternoon, the Reese Rattlers had split a two-game series with the Perrin Air Force Base Pilots, winning the first Thursday 8-7 and losing the second by a 13-11 margin.

Fate chose Leo Barnes and Dale White to write a story book finish to the first game as they came through with homeruns in the bottom half of the ninth to eke out the 8-7 decision.

The Rattlers started the scoring off by punching across two runs in the second inning on a single, a sacrifice, a fielders choice and another single. They continued their scoring ways in the third to score two more on a walk, an error and a single.

The Pilots came back in the fifth inning to chalk up two tallies on a home-run, a fielders choice, a walk and a single. The Rattlers picked up one in their half of the fifth and both teams scored one in the sixth.

Four big runs trotted across the plate for the Pilots in the seventh and the score was 7-6 in favor of the men from Perrin.

Waltzing into the bottom half of the ninth, confident of a victory, they were given a sudden jolt as Barnes and White delivered their game winning blows.

Charles Mays twirled a beautiful six-hitter for the winners and chalked up 15 strike-outs. Bill Randolph gave up 11 hits to the Rattlers and absorbed the loss.

Reese	022	011	002
Perrin	000	021	400

Perrin's Pilots went wild for three big innings Friday to score 11 runs in the second game before relief Dale White could put out the fire. The Rattlers fought hard in the dying innings but the damage was done and Perrin walked away with a 13-11 victory.

Tony Santonocito started the

## Softball at End of First Round . . .

### 3501st, Stu Off at Top of Heap

3501st jumped into the lead this week in the Intramural softball tourney by racking up two straight wins. The maintenance men slaughtered 3502nd by a score of 12-2 but had to use every trick in book to eke out a 4-3 win over the former league leaders, PTGp.

Other teams who added two victories to their string were: PTW with a 12-3 win over Motor Vehicle and a close 11-10 victory over M&S. Installation squadron had trouble in both of their wins but came out on top with an 11-10 verdict over ABGp and a 2-1 victory over 3502nd.

Except for the game to be played tonight, between league leading 3501st and M&S, the Intramural tourney has completed the first round of play. 3501st is leading with a record of nine wins and one loss while PTGp fell by the

wayside, losing two games the past week. By virtue of their two wins, the Installation squadron moved all the way from sixth place into a tie with ABGp for second place, who won one and lost one.

#### DON'T BELITTLE THE WOMAN GOLFER

Some have the idea that women golf stars purr contentedly when things are lovely, but unsheath

claws and scratch when another is getting close to a prize trophy. But such is not the case. Smart girls have acquired a competitive temperament so case-hardened that

there are now very few championship matches played with claws instead of clubs.

Women know the rules and observe them better than men. Shot for shot the better women players have everything needed to win some of the bigger tournaments, and lack of power and distance in their shots is not the reason for their failing to beat men. But, for some reason, they cannot control their touch on the putting green. On the fairways, their graceful, compact swings sweep the clubhead through the ball, and they hit shots as crisply as the men experts, without mannish mannerisms to detract from their charm . . . yet on the green, the men come through with the all important "delicate touch." Once the good women golfers master the "short game," men will have greater regard for them in competitive golf circles.

there are now very few championship matches played with claws instead of clubs. Women know the rules and observe them better than men. Shot for shot the better women players have everything needed to win some of the bigger tournaments, and lack of power and distance in their shots is not the reason for their failing to beat men. "EXTENDED?"

**Splinters**  
from the sports desk

Baseball has taken over the spotlight at RAFB and the fans love it. Did I say fans? I meant the few that were holding down seats during the past week when the Rattlers split two games with the Pilots of Perrin AFB and trampled Hobbs, New Mexico.

The Rattlers have a completely rejuvenated ball club. Lieutenant Gene Hudman is the new manager and M/Sgt. Tom E. Toms has taken over the coaching reins . . . these two men are doing their utmost to bring Reese fans a fine team. Thursday afternoon the Rattlers came from behind to defeat Perrin by a score of 8-7 that was a honey of a ball game . . . and they almost turned the trick Friday afternoon, but finally lost out by the narrow margin of 13-11. Sunday, the Rattlers turned loose all their pent-up power as they did everything but "sew up the ball" mowing down Hobbs 21-9.

The Rattlers have a fine ball club . . . they have already shown

that. And on top of this they have spirit. But with all this they need support, yours and mine. Good-fellow AFB journeys to Reese the 5th and 6th for two games; let's all turn out and cheer the Rattlers.

The old "pill" seemed to have eyes Thursday afternoon as Charley Mays whiffed 15 Perrin Pilots with a brilliant display of control. Nice going Charley, keep those fast balls flying.

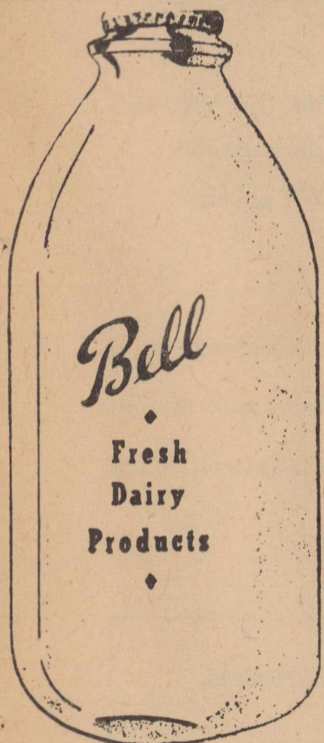

You may credit Ben Harvey with the longest reach in the Inter-Service league. He reached far and wide to smash one into right field for a home-run in a game with the Pilots last week. My what long arms you have, Grandma!

**Toms Leads Rattler Hitters With .455**

With the St. Louis Cardinals of the National league boasting of a slugger like Stan Musial and the red-hot Chicago White Sox of the American circuit singing the praises of Chico Carresquel, the Reese Rattler fans can be proud of Tom E. Toms who now leads the Rattler hit parade with an average of .445.

Toms, team coach, is not the only slugger on the Rattler nine however; Leo Barnes and John Babbitt are both over the four hundred mark. Barnes is pelting the pill at a .444 clip and Babbitt follows at .417. Ben D. Harvey trails the four hundred club with a mark of .391. Here are the comers up to Tuesday night.

Name	AB	H	BA
Toms	11	5	.455
Barnes	74	33	.444
Babbitt	24	10	.417
Harvey	92	36	.391
Bochte	112	40	.357
White	85	30	.353
Badgette	69	23	.333
McFarland	65	21	.323
Christiano	16	5	.313

**NCO Club Notes**

Well, tonight, we have our usual Bingo game and from the looks of the "pot", we should have a large turnout . . . \$325.00 . . . and it could be won by some lucky guy or gal, so . . . you had better come on out and invest a buck.—We'll have the usual dance after the Bingo game too.—By the way, we are going to have one of our old friends back on the bandstand, says he has a brand new band and can give forth with some mighty

fine music. So all you folks that like to shake a leg, come on out and see what our old friend Burl Hubbard has to offer. If you like his new band, be sure to let our secretary-treasurer know in order that he may give him some future engagements.

Saturday night, we will have our usual stomp with Sgt. Simmons and the Post Band . . . Sunday night, will be open house, also Monday night; but, Tuesday night we will have a big dance since the next day is a holiday.—Kay Carter and his band will give out with the music.

Now, here is something 'B-I-G'

**Reese Golf Course Opened Wednesday**

Fore! . . . that's a familiar cry to golfing enthusiasts and it will be heard more and more from now on, with the opening of the base golf course Wednesday.

for Wednesday night—4th of July. Four hours of fun and music by Eddie Brandt and his Hollywood Hicks. This is a comedy team of eight Guysand -a-Gal and should be worth seeing—so plan now to be out. Thursday night is open house again . . .

## Rolling Along

Mtr. Veh. Squadron

By Pfc. Walter R. Dahlgren

A proud sergeant this week is Sgt. James O. Bullard. His wife gave birth to a nine pound baby girl. The cigars were plentiful at the squadron. Congratulations and best of luck to the three of you in the future.

Our classification clerk, Pfc. Walter S. Cantrell, has returned from classification school, at Lowry AFB Denver, Colo. Pfc. Cantrell's rating for the course was superior.

First sergeant John G. Andrews is off on a six day vacation. His destination is unknown, but we know he'll have a fine time with his new home-made camp trailer.

Every outfit has its great lover, and the Motor Vehicle squadron is no exception. Our candidate for the "God's gift to the fair sex" title is Pfc. John R. Hartman who tells this reporter he wowed 'em in Kansas. Watch these Texas gals, John or you'll wind up roped and branded for life.

## Supply Sayings

By Pfc. Don Elliott

Congratulations are always going to Cpl. Louis Nucci and this time its because he was awarded the bronze star at last Saturday's graduation parade.

Former M/Sgt. Maurice E. Wallace recently regained his commission as captain. Captain Wallace is now stationed in Japan. Also in Japan is Sgt. William Pallette who recently made S/Sgt.

Combat serviceable blues are now on sale at the clothing sales store. No paper work is needed, but take along the folding stuff.

Pfc. Caleb Jarvis is spending much time in Abernathy these days. Word has it that he doesn't know if he's Floyce or Joyce.

Pfc. Fred Schleet challenges Ddunk again? No, just twins.

all base personnel to a sleeping contest. Pfc. Dominic Salerno, widely known as "fat boy" declares that big Fred is averaging 12-hours per night. Bet it wont last long with payday so close!

Comrades:

We have found the scoop that is shoveling the security poop out to the Air Force. It's all in AFB 205-1. This regulation is the nemesis of our anti-security program. In it is contained complete detailed information about security policies and why it is important to keep your mouth shut.

The American people have had this brought home to them by a hot security program. Over here we do not lean toward such soft,

capitalistic ideas. If people cannot keep their mouths shut . . . we shoot them! Of course, all the comrades don't know this until they are in front of a firing squad. They work hard for us until they get capitalistic ideas in their heads that disillusion them from our glories. Once this disillusionment is prevalent, we have to shoot them or send them to a forced labor camp for rest and re-indoctrination.

The USAF has its security program set up in the 205 series of regulations and directives. We are concerned with the damaging effect they do to our anti-security program. The info in AFR 205-1 is enough to swing a good comrade from LEFT to RIGHT.

Igor, your friendly spy.

## BOOK OF THE WEEK

A SOLDIER'S STORY  
By Omar N. Bradley

This is a command post story of the war, told by the beloved GI's general who led more combat troops than any other field commander in history. With characteristic honesty, he tells of World War II as he saw it and as he fought it. This is the way it was—this is an American soldier's story. To read this book is to understand the awful responsibilities of high command; to have renewed faith in the professional American soldier who seldom forgets that he is a human being, a leader of men, not machines. To read this book is to understand why General Omar N. Bradley, of Moberly, Mo., became this country's ranking military leader.

## Announcing The Purchase

of The

# RAFB CLEANING PLANT

And CADET TAILORS

by

O. W. McGUIRE

PURCHASE EFFECTIVE JULY 1

FORMERLY CO-OWNER OF ONE OF  
LUBBOCK'S LEADING CLEANING  
PLANTS

SAME HOURS

SAME PERSONNEL

PLUS

THE PERSONAL ATTENTION OF MR. McGUIRE to the many details that make for  
SUPERIOR CLEANING  
SERVICE
