Two NCO's Move To Master, Two To Tech

Commendation Medals Given 3 Reese Men

Commendation medals for meritorious service to the Air Force were presented Wednesday to Lt. Col. Casimir J. Myslinski, Maj. M. L. Hooper, and TSgt. T. C. Grice, Jr., in ceremonies at Reese Air Force Base.

Col. L. C. Hess, base commander, made the presentations and Lt. Col. John W. Arnette, wing adjutant, read citations during the wing review held in connection with graduation of Class 61-D.

Col. Myslinski was decorated for service as director of physical education from June, 1957, to July, 1960, at the Air Force Academy.

"As one of the early leaders in the development of the Academy curriculum, Lt. Col. Myslinski developed the four-year program of physical education for Air Force cadets," the citation said.

"His outstanding physical fitness and bearing and his inspirational leadership in the early days of the Academy, enabled him to become an outstanding personality in this new Academy."

Maj. Hooper was honored for supply service at Ladd AFB, Alaska.

He "was responsible for elimination from base supply large quantities of excess electronic material not required by the Air Force," his citation read. "He was also responsible for providing all scientific and research material and equipment required to activate Ice Island Charlie."

Sgt. Grice was NCOIC in charge of the personal affairs division of a bombardment wing at a Royal Air Force Station in England.

"Through initiative and knowledge of all aspects of personal affairs, Sgt. Grice was instrumental in the organization, establishment and effective functioning of the office," his commendation stated. "He improvised, recruited and instructed volunteers for the Family Services Volunteer Group. Through his efforts the group became an agency capable of independent, sustained action, providing invaluable service to the families of all personnel."

Mobile Minuteman Missile Unit Formed

The 4062nd Strategic Missile Wing, the Air Force's first mobile Minuteman missile unit, is scheduled to be activated at Hill AFB, near Ogden, Utah, during December. Personnel assigned to the wing will operate Minuteman equipped trains over the nation's rail network.

Force Quality 'Never Better'

The overall physical, mental and moral quality of the nation's defense forces has never been better, and the future outlook is brighter, a Department of Defense study discloses.

In 1959, the number of men excused from duty due to illness was 11.5 per thousand. The figure is slightly lower than 1957, 1.5 points lower than 1958.

Hospitalization dropped from 10.2 per thousand in 1957 to 9.4 in 1959.

The general high quality of men entering service, it was said, is such that very little conditioning is needed to bring the men to a satisfactory level of endurance and stamina.

The report also said there is "a definite trend in the direction of greater percentages seeking military service," and only the Army needs to turn to Selective Service for inductees.

DOD-wise AWOL's have dropped between 25 per cent in 1957 and 1959. In the Air Force the drop is about 30 per cent for the past year.

An Air Force study of over 1,000 airmen in basic training showed that 42 per cent were willing to volunteer for a six-year tour which would oblige them to serve in remote and isolated areas, stated the DOD report.

GRADUATE — Maj. John J. Garrett, left, commander of the Wing Headquarters Squadron section, presents a diploma from the ECI course on basic personnel principles to MSgt. Harry J. Fain, wing administrative inspector. The sergeant has completed ECI courses on leadership and personnel management, intelligence fundamentals and administrative officer. He currently is enrolled in the personnel specialist course.

Professionalism, Pioneer Spirit Urged For Graduates

Professionalism in pioneering Air Force history of the future must be an attribute of graduates in Class 61-D, Charles A. Guy, editor of The Lubbock Avalanche-Journal, stressed in his Wednesday graduation address to the class on completion of its training at Reese.

The speaker traced the history of military aviation, stating that men of foresight pioneered every development.

"There are far more men and planes at Reese AFB today than there were in the Air Corps at the end of World War I," Mr. Guy commented.

"There is still need for pioneering. If you graduates do not have the pioneering spirit, then you had better get out of service as fast as you can. There is more progress ahead than behind you. Ahead of each of you lies pioneering activity for every aircraft now on the drawing board."

He also emphasized that for years to come there is a bright future for the pilot.

"Remember," the speaker said, "that the future depends on you and all like you. There is no room for you if you cannot go up."

Mr. Guy also said that the time for "thrill pilots" is past and the nation and Air Force needed dedicated men.

"You must have the professional spirit," he added. "The nation has a large investment in you and you must pay dividends as intelligent and able individuals. You must maintain sound judgment,

know your business, and increase your knowledge.

"The air arm is increasingly important and we must remain an arsenal for peace."

He said each foreign assignment for graduates brings opportunity to each man to be "an architect for peace." He also stressed that understanding of customs, history and life of each foreign land where the pilot is stationed is a necessity if the United States is to hold its place in the world peace situation.

Second Lt. William E. Jones, former airman from Pleasant Valley, N. Y., received the Daughters of American Colonists Award as Outstanding Graduate of Class 61-D in Air Training Command.

He also was awarded the Commander's Trophy as highest ranking student during Reese training and was one of seven Distinguished Graduates.

Other Distinguished Cadets receiving letters of recognition from Lt. Gen. James E. Briggs, ATC commander, were 2nd Lts. Robert E. Jones, Fort Worth, former radar operator on Okinawa; Theodore J. Conrad, former Texas Tech student from Nazareth, Texas; Larry E. Chappel, Seattle, Wash.; Mark H. Ashton, Air National Guardsman of Salt Lake City; Malcolm G. Simpler, Jr., former mechanical engineering student of North Carolina State College; and Ira D. States, Air National Guardsman of San Jose, Calif.

Academy Hospital Officially Opened

The new hospital at the Air Force Academy was officially opened Nov. 21 but formal dedication ceremonies will take place at a later date, Academy officials announced.

Still under construction is the chapel.

Exceptionally Well Qualified Sergeant Here Elevated By ATC

Four Reese NCO's moved to higher rank Thursday as promotions to master and technical sergeant became effective.

Elevated to master sergeant were Harold D. Wright, NCOIC of the flight surgeon's office, and J. W. Reid, NCOIC of special projects for the M&S Group. Reid was promoted on orders of Air Training Command as exceptionally well qualified in a frozen field. ATC promoted 10 per cent of eligibles in frozen fields.

Promoted to technical sergeant were Eugene J. A. Bowling, NCOIC of the work scheduling section of M&S Group, and Richard A. Wolfe, in charge of fire protection at the auxiliary field, a Civil Engineering Group assignee.

Sgt. Wright, assigned here since August, 1957, has been in service 12 years. He spent two and a half years in Japan with a troop carrier wing and holds several decorations.

Sgt. Reid, assigned here since October, 1959, has 15 years of service and served two tours in Germany and one in Alaska. He also holds several decorations, including the Humane Acts Medal for his part in the Berlin Airlift. He secured his high school diploma through GED.

Sgt. Bowling has nine years of service and spent four years in England. He came here from Manston, England, four years ago.

Sgt. Wolfe, here 18 months, has 12 years of service, including tours in Germany and Korea. He came here from Weisbaden, Germany.

Nineteen Get Pro Pay Here; One Goes P-2

Nineteen Reese airmen Thursday were assigned proficiency pay and hereafter will receive \$30 per month more money. SMSgt. Novie L. Hammac, air electronics technician, advanced to P-2 status and is receiving \$60 a month proficiency pay.

Placed in P-1 status were TSgt. William R. Heldreth, TSgt. Ernest R. VanWart, TSgt. John D. West, SSgt. John F. Marquess, Jr., SSgt. James J. Nooney, SSgt. Roy R. Smith, SSgt. Norman B. Snider, A1C William D. Austin, A1C Donald D. Binderup, A1C Tommy E. Follis, A1C Richard A. Turberville, A1C William A. Weaver and SMSgt. Leason Dale, all in the synthetic trainer section.

Also in the same status are SSgt. Jimmy T. Avery, hospital laboratory technician; A1C Robert W. Carswell, air electronics; and MSgt. Edward C. Houghton, SSgt. Thomas Stewart, Jr., and A1C William C. Sanderlin, machine accounting section.

Ex-Engineer Commands Cadets

Aviation Cadet Hugh A. Langford, former test engineer for an aircraft corporation, has been selected as commander of the Aviation Cadet Group at Reese and will supervise cadet affairs until his graduation in January. He holds the rank of cadet colonel.

The new commander, from St. Louis, is a former high school athlete and a former civil engineering student of the Missouri School of Mines and Metallurgy.

Assisting him as group executive officer with the rank of cadet lieutenant colonel, is Cadet James F. Fischer of Montgomery, Minn. He is a high school football letterman and a former biology major in St. Louis University and St. Thomas College.

Four cadets have been given the rank of cadet major. Cadet Vincent J. Kelly of Buffalo, N. Y., is group operations and training officer. A high school graduate, he has been in service almost six years.

Cadet Robert P. McIntire of Mansfield, Ohio, is group adjutant. He was a member of the National Honor Society and president of the freshman and senior classes in Mansfield High school.

Squadron commanders, also with ranks of majors, are Cadets Frank N. Assaf II, of Jacksonville, Fla., and Myron E. Paddock of Elkhorn, Miss. Cadet Assaf is a former Marine and a high school graduate. He participated in athletics and student government in high school. Cadet Paddock is a former all-around athlete and former student of the University of Wisconsin.

Commander Starts Duty In '00th PTS

Lt. Col. Casimir J. Myslinski this week assumed command of the 3500th Pilot Training Squadron. He succeeds Maj. DeMay H. White, who became group operations and training officer.

The colonel was All-American center in 1943 as a member of the West Point football team. He also lettered in wrestling at the Academy. He came to Reese in August, following 3 years as director of physical education at the Air Force Academy. He has been in service 19 years.

Maj. White, in service 18 years, was group operations and training officer at Goodfellow AFB before coming to Reese in January, 1959. He was squadron operations officer and commander here prior to moving to his new duty. He is a former aircraft inspector for an aviation corporation in Missouri.

Gym Manager Given Honor

A1C Glenn B. Whitsett, in charge of the base gymnasium the past 18 months, has been selected as Airman of the Month. He received a letter of recognition and a \$25 savings bond.

Airman Whitsett was recommended by Air Base Group for bringing improvement in the intramural athletic program, as an outstanding athlete, for water safety instruction, and for work in the NCO Academy. He also was named Athlete of the Year.

Also nominated for the Airman of the Month award was A2C Earl W. Niemeyer, organizational supply specialist in the M&S Group. He was recommended on the basis of improving supply procedures and for ECI study.

From The COMMANDER'S DESK

By Col. L. C. Hess, Base Commander

The 1960 ATC Christmas Holiday Policies were recently distributed to each unit on the Base. This holiday season will afford many of us an opportunity to take leave and enjoy the Christmas Season with families and loved ones.

For those who do not take leave it also affords a wonderful opportunity to correct the many small discrepancies that have a tendency to creep into each office. Correction of these small details now will prevent them from becoming major discrepancies later.

If you plan to take leave, enjoy a safe happy holiday. If you plan to remain on the base, take advantage of the wonderful opportunity to accomplish a lot of work and put your office or section in tip top shape for the coming New Year.

Deterrence Means . . .

Every Air Force member should understand what is meant by the word "deterrence." So should every American, because survival almost certainly depends upon how our Nation goes about developing a true deterrent to war. In explaining the much misunderstood word, Gen. Thomas D. White, Air Force Chief of Staff, emphasized that military forces which could not prevail in a war could not be relied upon to deter a war. The following excerpts are quoted directly from his speech.

"Effective deterrence," he said, "includes the possession of military forces to deter war and, should war occur, the military strength to prevail. The ability to prevail is what provides a real and effective deterrence."

"The concept of deterrence, as interpreted by some, is merely the possession of military strength which could inflict severe and perhaps indiscriminate punishment upon an enemy. Apparently, they disregard the need for military strength sufficient to defeat him," General White said. "They seem to feel that a suitable deterrent can be contained in military strength which is sufficient only to hurt an enemy generally, while leaving his weapons largely untouched and free to destroy us. This approach to national security is diametrically opposed to man's experience throughout all military history and I cannot agree with it."

"If deterrence fails and a nation must fight, it wants, and must have the strength to win. Power that cannot prevail will not deter."

"Should we depend upon minimum deterrence we will, among other things strip this country of any political, diplomatic or military initiative."

This Is A Worthy Fable

"Way out in the old, old West, a couple of ranchers named Nick and Sam kept having troubles over cattle, water rights and homesteaders. This led to harsh words and preparation for the inevitable gun fight.

"Nick provided himself with two big .45 calibre pistols with hollow nosed bullets. He planned to tip-toe up behind Sam and let him have it in the back with a little risk to himself as possible.

"Sam was aware of the situation so he began carrying a .38 calibre revolver. He started to practice fast draws since he felt it dishonorable to draw first. He practiced on his marksmanship so that he would be able to shoot the guns out of Nick's hand without hurting him too badly. He also wanted to make sure that none of the neighbors would be hurt by ricocheting bullets.

"Sam even went further in his plans. He arranged for a doctor to rush out and bind up Nick's wounds, give him a quick sedative and take him to the town hospital. Since Nick would be laid up for a little while, Sam would send around some money, food, clothing and medicine for the wounded man's wife and children.

"Nick had only one plan in mind. After he shot Sam in the back he was going to bury him."

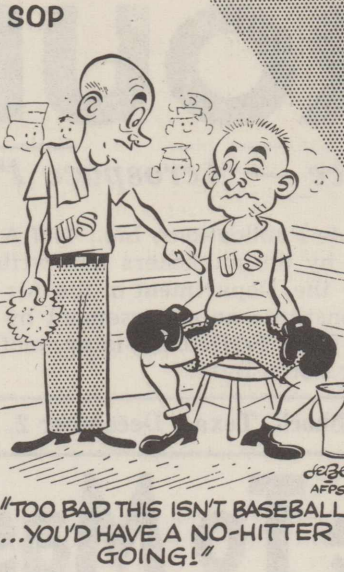

This fable is a variation of a story that has been going the rounds on the situation between the Soviet Union and the United States. Nikita Khrushchev indeed has stated, "We will bury you!" Uncle Sam, of course, has other ideas. Some readers may consider Sam's preparations and his humaneness as a sign of softness. But it is a cinch that he isn't going to let anyone sneak up behind him and blow a hole in his back.

It is a proven fact that vapors from one quart of gasoline can cause an explosion equivalent to 85 sticks of dynamite.

Of the 12,000 people killed in fires in the United States during 1959, there were 2,100 children.

"I only regret that I have but one life to lose for my country," said Capt. Nathan Hale in the spirit of the Code of Conduct.

Better drivers establish a set of rigid driving standards for themselves and follow them.

Good Wife Most Precious, States Bible's Proverbs

By Chaplain James D. Taylor
 "A good wife who can find? She is far more precious than jewels." So reads the 10th verse of the 31st chapter of Proverbs.

A man's wife can make him or break him, and especially is this true as far as it concerns the Air Force. To know what a good wife should do, read the 31st Chapter of Proverbs beginning with the 10th verse.

In the Air Force a man with a good wife can count many blessings.

A wife that will encourage a man to do his best and will make it a pleasure for him to be at home is indeed a jewel. Where can a man tell his troubles if he has a wife who is not sympathetic? He will crack if he cannot find someone who will listen to his troubles. A smile and encouragement from a wife as a man leaves his home will do wonders to help a man at his work the entire day. It is a blessing to us that have wives that are help-mates instead of help-me-mates.

When a man has troubles and knows that his wife will help him instead of condemning, he is fortunate.

A man can work at almost any type of work if he knows that his wife and family are backing him. Too many wives decide what their husband should do for his life's work instead of letting him make up his own mind. I have seen many men fail in their life's work simply because their wives wanted them to do something they had not desired to do. A man needs to consider his wife's desires, but needs also to do the things in life he feels he should be doing according to God's will.

Chapel Schedule

CATHOLIC:
 Mass: Sunday, 9 a. m. and 12:15 p.m. Tuesday through Friday at 12 noon; Saturday at 8:30 a.m. and 7 p.m.

Confessions: Sunday, 8:30 a.m. and 12 a.m.; Saturday, 8:30 a.m. and 7 p. m.

PROTESTANT:
 Sunday School: Sunday, 9:30 a. m., for all ages.

Worship Service: Sunday, 11 a.m., Chaplain Jerry L. Rice in charge.

Protestant Youth of the Chapel: Sunday, 4.30 p.m., Base Chapel.
 Choir Rehearsal: Thursday, 7:30 p.m.

JEWISH:

All Jewish personnel are invited to attend services at the Congregation Shaareth Israel, 1706 23rd Street, Lubbock. Services begin at 8 p. m. each Friday evening.

LATTER DAY SAINTS:
 All LDS personnel are invited to attend services at the LDS Chapel, 306 N. Avenue T. Sunday School 9 a.m.; Sacrament Meeting 5 p.m. Sundays. For information or transportation, call Capt. L. B. Tangren, Duty 423, Home 8-3842.

The Bench and Gavel

(From the Staff Judge Advocate's Office)

Most of us in the Air Force are familiar with Article 31 of the Uniform Code of Military Justice. Not only does it protect an accused from having to make incriminating or degrading statements about himself — it authorizes him to remain completely mute throughout the questioning. This protection arises out of the old American principles of encouraging humane treatment of suspects (after all, they may be completely innocent), and promoting more efficient police work. Thus, incriminating words must come voluntarily or not at all. Police may not relax their efforts to thoroughly investigate offenses by coercing confessions through threats.

In March, 1959, the Court of Military Appeals upheld a conviction and stiff sentence of an Army private based upon his intentional falsifications contained in a sworn statement given to a Criminal Investigation Detachment agent during a pre-trial investigation.

The court said:

"No investigator can compel any witness—particularly one suspected of an offense—to give sworn testimony but . . . to let down the bars and permit anyone in the armed services to falsify under oath without fear of any criminal sanction would be injurious to military jurisprudence.

"For the foregoing reasons, we hold that false statement by a suspect under oath to an investigator, constitutes the offense of false swearing."

The right to refuse to answer does not carry with it the right to falsify. A man is free to refuse to answer, or to refuse to take an oath to tell the truth when he is suspected. But, he is never free to tell the truth, elect to answer incriminating questions, and then knowingly to tell untruths. Oath breaking is serious and punishable severe. The crime of perjury is punishable by a Dishonorable Discharge and five years of confinement at hard labor. The lesser crime of false swearing carries maximum punishment of a Dishonorable Discharge and two years of confinement. When you certify or take an oath that certain statements are true, be sure that you make every effort to tell the truth.

Let There Be Fresh Air

With cold weather at hand there is a tendency to keep all the heat possible in all the rooms of the home and place of work. But such action frequently leads to bad effects on health, and possible death.

All heating units need air — fresh air. More and more efforts are made to vent all heating equipment and to provide needed oxygen without withdrawing it from rooms. But sometimes this is impossible.

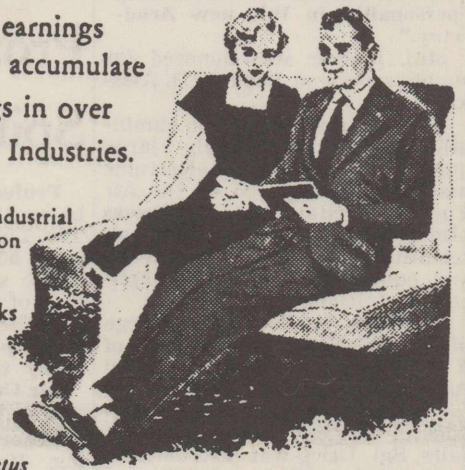

Thus, if heaters are not vented windows should be left slightly open to provide the oxygen which permits fires to burn.

This year, as in the past, precautions should be taken to provide heater flames with plenty of oxygen. Heating will be better and chances of illness or death will be lessened.

This winter's death rate need not include any Reese people. Particularly needless will be loss of anyone because they fail to open a window or so.

MONTHLY INVESTMENT

Base Averts Holiday Hurts

The Reese AFB Thanksgiving holiday weekend was unmarred by accident, reported Joe Lopez, ground safety director. It was the second holiday weekend in "Operation Homesafe" without accident. The operation will continue through the Christmas-New Year period.

"The base has experienced a wonderful record for holiday periods, with very few accidents during vacations in 11 years of operation," said Lopez. "The record shows that special effort and alertness on the part of us all has averted accidents. Safety thinking every day will further extend our record to a year-round high one."

Matches should be kept out of the hands of small children and irresponsible persons. A concentrated effort should be made to store matches where they cannot be found by these people.

I will accept neither parole nor special favors from the enemy. (From Code of Conduct No. 3).

DEPOSIT — Mrs. Louise Purcell, left, clerk and cashier of the Reese Credit Union, accepts a check from Mrs. Audrey Camp, representing Lodge 1810 of the American Federation of Government Employees. The lodge, representing 86 civilian workers on the base, voted to deposit its reserve funds in the Credit Union. Mrs. Camp works in the parachute shop.

Questions On Nuclear Weapons Cleared

What is a nuclear weapon, how do they "work," and above all, how safe are they to have around?

These three questions have occupied the collective mind of the civilized world since the atomic age burst upon the world over 15 years ago.

The answers are still known to only a comparatively few people.

In the December edition of "The Airman," "Nuclear Weapons

are Safe" by SMSgt. Edison T. Blair, is a clear, level-headed discussion of nuclear weapons and how they function. The issue is scheduled for distribution at Reese in mid-December.

Accompanying the article are drawings that erase much of the fog, shrouding such words as neutron, proton, uranium 235, critical mass, and many other terms of the atomic age.

Elsewhere in the magazine is an article on medicare which gathers together into one neat package the several new developments in this important program. A handy chart, printed on one page, summarizes the program. This is one for families to read together; the chart, something to be cut out and saved for reference.

The flying side of the Air Force is covered in three articles and a double page center spread of drawings of early and odd aircraft. SAC's flying command post is described in an article by that name, how 21 C-119s were delivered to the Indian Air Force is told in "They Cirled the Globe," and humorous flying anecdotes are strung together in a two-pager, "Perils and Plights of Pilots."

In "Aerospace Defense of North America," Gen. Laurence S. Kuter, Commander in Chief, NORAD shows how the Air Force and Army and Navy units are woven into an intricate defense net. He provides a look into the not too distant future: "We are increasingly dependent upon electronic devices for computations, analyses and perhaps, tactical decisions." Will the "robots" take over?

All military members, and especially parents wrestling with the problems of how to provide higher education for their children, should find "Education for All" not only informative, but reassuring.

Four Receive Williams Duty

Four Reese flying training officers are being reassigned to Williams AFB, Ariz., to assist in the Consolidated Pilot Training Program there. Williams became a pilot training base on Sept. 1.

Reporting to Williams on Jan. 9 will be Capt. Adrain J. McDonald and 1st Lieutenants Patrick F. Durning, Charles D. Burns and Ralph D. Erwin.

The captain, a flight commander, came to Reese in August, 1957. He has 12 years of service, including 2 years on Okinawa and 2 years on Formosa. On Formosa he was a member of the MAAG combat air command advisory team.

Lt. Burns came to Reese in September, 1957, from Vance AFB. He is a graduate of Michigan State University.

Lt. Durning came here in March, 1958, from Bryan AFB. He is a former chemistry major at New York University.

Lt. Erwin arrived here in April, 1958, from Bryan AFB. He is an education graduate of Washburn University in Kansas.

Several other Reese instructor pilots are expected to be reassigned to Williams AFB, also.

Major Back 'Home' In Visiting Base

Maj. L. B. Jackson returned "home" this week as head of the Air Training Command Standardization Board visiting Reese AFB.

Back in September, 1949, MSgt. L. B. Jackson came to the base as first sergeant of the cadre from Barksdale AFB which arrived to prepare for reactivation of the base. He remained until May, 1951, and then was recalled as an officer. He went as a captain to Williams AFB as jet instructor. He became a major in 1958 and has been serving as a Standardization officer in primary and basic pilot training.

Maj. Jackson, as enlisted man and officer, has served in various capacities, including paratroop duty.

HOUSE COMPLETED FOR YOUR INSPECTION

More proficient training of pilot training students has been made possible in the Reese physiological training section through renovation of facilities. Altitude chamber mechanics from Hill AFB have completed revamping of

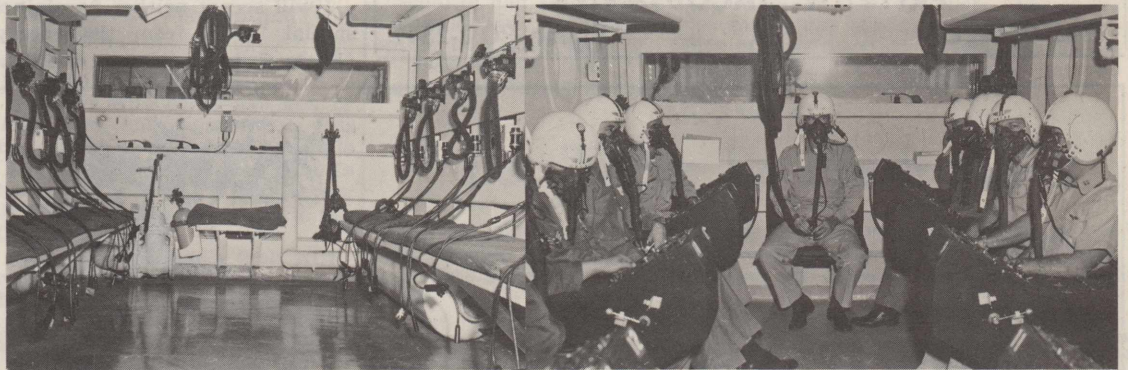

facilities to permit better teaching and study of each student.

Accompanying pictures show before-and-after effects of the reconstruction.

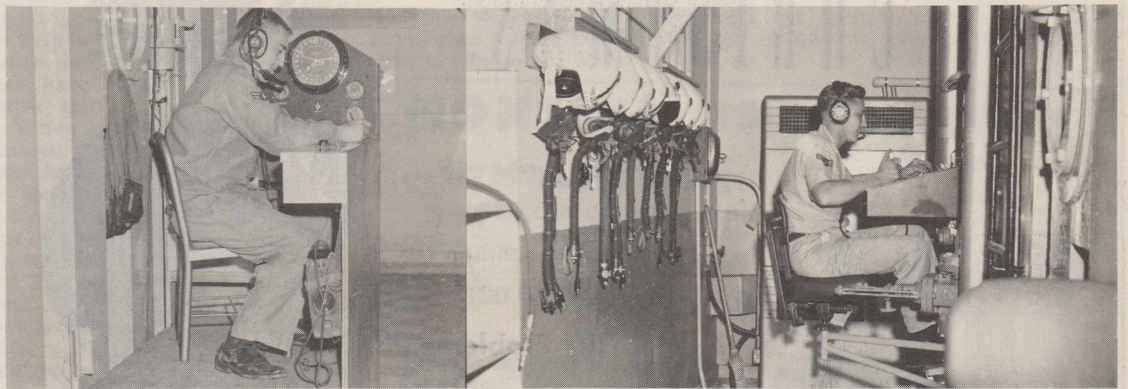

LECTURE FACILITIES — On the left Fred Algire, altitude chamber mechanic, shows SSgt. Roger Horton, chamber operator, how equipment of the lecture area will be

changed. On the right, Airman Horton and A1C Hugh Craft use the rebuilt area as students take the simulated flight inside.

EASIER FLIGHT — On the left is shown a view of the altitude chamber formerly in use, with equipment not easily accessible.

To the right are shown chamber training assignees posing in new equipment near easily accessible tabulators.

ADDED — A2C Rex McLennan, left, operates the newly installed reactions recorder, a most modern unit, which has been added to the altitude chamber to minutely show the simulated flight of each student, reactions at all altitudes, and just exactly where difficulty might occur —

and why. To the right, A2C Thomas Kean, lock operator, sits ready to lower pressures should any student encounter difficulty at simulated height. The airman can "bring down" a student quickly or slowly, as the occasion dictates.

"Nuts," said Brig. Gen. McAuliffe, in the spirit of the Code of Conduct, when his surrender was demanded at Bastogne. If I am captured I will continue to resist by all means available. (From Code of Conduct No. 3).

About 150 line items are processed daily by Materiel Control through the expediting system.

ATC rosters list 122,558 airmen, 20,115 officers and 27,594 in ATC at the end of FY 60.

The Reese weather station obtains 44 weather maps daily by way of the facsimile machine.

Woman's Chatter

By Mrs. William Roth
 The final drumstick of the Thanksgiving turkey has been eaten and Christmas parties and other activities are upon us.
 The Officers Wives Club Christmas tea will be held at 2:30 p.m. on Dec. 21, featuring a holiday fashion show. No reservations are required.

The Teen Club Christmas Formal, chaperoned by CWO and Mrs. Weldon Faulkner, will start the school vacation on Dec. 14 at the Mathis Service Club.

Members of the Sodality of Our Lady will attend 9 a.m. mass and communion this Sunday, followed by a breakfast at the NCO Club and a meeting to elect new officers. There is no charge for the breakfast and all new and interested women are invited to attend.

The Dust Devilettes are reminded to attend the 9:30 a.m. meeting at the Officers' Club on Dec. 5.

Game Day will begin at 1 p.m. on Dec. 8 for all bridge and canasta players.

Trips and visits occupied many Reesites during the Thanksgiving weekend.

Mrs. Roscoe Woodruff, Jr., and children spent five days in San Antonio, where they joined Col. Woodruff and his parents, Maj. Gen. and Mrs. R. B. Woodruff, for Thanksgiving. The colonel is attending Basic Instructor School at Randolph AFB until Jan. 15.

Col. and Mrs. L. C. Hess are making plans for their daughter, Susan, who will arrive home for the Christmas holidays on Dec. 16. Miss Hess is a sophomore in UCLA and will return to college Jan. 1.

Col. and Mrs. William A. Martin returned this week from a two week visit with relatives in Roanoke, Va.

Recent houseguests in the home of Maj. and Mrs. Richard Conn were her brother and wife, Mr. and Mrs. Howard Black of San Antonio, Mr. and Mrs. John Britt of San Angelo and Mr. and Mrs. Morris Hulsey of Austin visited the Conns over Thanksgiving.

Maj. and Mrs. James D. Taylor and family spent the holidays with their families in Tipton, Okla.

Capt. and Mrs. John R. Ellis, Jr., and family returned this week from a 10-day holiday with relatives in Phoenix, Ariz.

The 3500th Pilot Training Squadron officers and wives celebrated the holidays by attending a spaghetti supper at the Officers' Club on Nov. 25. Special guest was Capt. John Johnson, now attending the University of Arizona. Other guests included the parents of Capt. Alfred Miller, 1st Lt. Ronald Tingley and 2nd Lt. William Brandt.

Mrs. Glenn O'Bannon was honored with a baby shower Wednesday night in the home of Mrs. Robert K. Brackett. Hostesses were Mrs. Brackett, Mrs. Elwin Kirby and Mrs. Thomas Manjak.

Mrs. Richard Bono was honored at a farewell coffee on Nov. 23 given by Mmes. Wesley Fowler and Roger Shaw in the Fowler home.

Capt. and Mrs. William McAllister hosted a farewell dessert-bridge for Captain and Mrs. Bono. Capt. Bono has joined the new T-38 program at Edwards AFB.

It's A...

BOY:

David Leslie, to Capt. and Mrs. Billy D. Brown, Nov. 12.

Russell Clayton, to SSgt. and Mrs. Harold F. Raines, Nov. 12.

Thomas Wesley, Jr., to A1C and Mrs. Thomas W. Webb, Nov. 13.

Curtis Wayne, to A1C and Mrs. Robert H. Johnson, Nov. 14.

Terry Ray, to A1C and Mrs. Elvis M. Patterson, Nov. 17.

GIRL:

Patricia Lynn, to A2C and Mrs. Alex A. Arguello, Nov. 13.

Karen June, to SSgt. and Mrs. Ernest C. Kineman, Nov. 16.

Marcia Lynn, to A1C and Mrs. John P. Chandler, Nov. 16.

Mushell Rebecca, to SSgt. and Mrs. Charles Y. Bishop, Nov. 19.

Doreen Grace, to Capt. and Mrs. Wallace D. Girling, Nov. 20.

Margaret Ann, to A1C and Mrs. James W. Hendrickson, Nov. 21.

Jacqueline Denise, to AB and Mrs. Willie P. White, Nov. 19.

'00th PTS News

By Capt. William Roth

The 3500th Pilot Training Squadron had a change of commanders Monday. Lt. Col. Casimir Myslinski took command. Prior to coming to Reese, he was stationed at the Air Force Academy in charge of the intramural program.

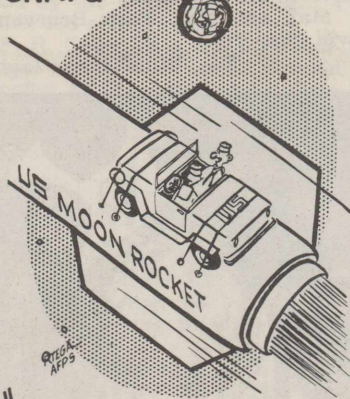

Maj. DeMay White, former commander, is the new group operations and training officer.

Capt. "Tony" Gekakis, Capt. Richard Bono, Capt. Adrain McDonald and 1st Lt. Pat Durning, all leaving for new duty, were given a farewell toast at the squadron party at the Officers' Club last Friday night.

Col. L. C. Hess, Col. James D. C. Robinson, Lt. Col. Charles W. Sawyer and Capt. J. D. Johnson, the squadron's former assistant operations officer, were guests. Capt. Joseph Meeceji "honchoed" the party, which was so successful dues may be abolished.

Major White presented trophies to winners and runners-up in the squadron tournaments, including: 1st Lt. Joe Roberts, championship flight golf winner; 1st Lt. Roger Engebretson, Flight A; Capt. Daniel Johnson, Flight B; 2nd Lt. William Brandt, low net; and Capt. Lou Ferguson, low gross; Capt. Vern Pointon, Flight A bowling; 1st Lt. Paul McClure, Flight C; Capt. Johnson, high series; and Capt. William Bryan, high game.

SNAFU

"I TOLD YOU THAT WASN'T THE RAMP TO THE MOTOR POOL."

GOING UP — The picture to the left shows Capt. William A. Staub, physiological training director, ready to be shot 25 feet in the simulated ejection seat added to his section. All students will get the ejection test to see how they react. Ready to fire the 20-mm cartridge is MSgt. Robert Thompson, while Airman Horton stands by to slowly lower the captain after flight.

CHRISTMAS WRAP Lay-A-Way Now For Christmas REG. \$1.98 **\$1.00**

MIGHTIEST ENGINE—The X-15 air space vehicle sits at Edwards AFB, Calif., after the successful initial test of its new 57,000-pound thrust liquid rocket engine. The new XLR-99 engine is the mightiest aircraft engine ever built. It is capable of producing more than a half-million horsepower. Yet the engine weighs little more than a 300-hp automobile engine and is small enough to fit into the space of a large household freezer.

Training Facilities For Missile Start

The Department of the Air Force has announced release of \$1,360,000 for construction of SM-80 Minuteman Ballistic Missile training facilities at Chanute AFB.

Although training facilities are not expected to be completed until early 1962, actual training will begin late next year. ATC training officials expect to have about 1,000 students in simultaneous training on 30 Minuteman courses when the operation reaches its maximum training peak.

Some equipment at Chanute will be identical to that used in the "hardened" launch sites and the mobile units programmed for use by SAC.

Pay Line Needed By Visiting Medics

Members of two widely separated Military Air Transport Service units encountered an unexpected double pay-off as they marched through the pay line in October.

Awaiting members of units from McGuire AFB, N. J., and Hickam AFB, Hawaii, was a contingent of medics which proceeded to up-date "shot" records on the spot. Get the point?

Club Activities

Officers' Club

The Bob Lamont Orchestra will play dance music Saturday at the Officers' Club. Sunday's special dinner is scheduled from 11:30 a.m. to 2 p.m.

NCO Club

All club members are invited to dance to "Smitty and His Tornadoes" Friday from 9:15 p.m. to 1:15 a.m., at the NCO Club.

Special games will be held from 7:30 to 9 p.m. Popular dance music will be played by Bobby Dunn and his band Saturday.

Mathis Service Club

TODAY: Pool and Ping Pong tournament, 6:30 p.m.; table games, 1 to 11 p.m.

SATURDAY: U-Cook-It-Time, 4 p.m.; Special Games, 8 p.m.; Date and Dance, 9:30 p.m.; Pool and Ping Pong tournament, 2 p.m.

SUNDAY: Bible study classes, (teens and adults) 9:30 a.m.; open house, 1-10 p.m.

MONDAY: Slimnastics, 10 a.m.; Special games, 8 p.m.; Chess Club, 6:30 p.m.

TUESDAY: Bridge session, 7:30 p.m.; Table games, 1-10 p.m.

WEDNESDAY: Slimnastics, 10 a.m.; Pinochle tournament, 6:30 p.m.; Airmen's Wives Club, 7:30 p.m.

THURSDAY: "Blue Mist" dance, with Sammy Incardona and his dance band. (Dance sponsored by the 3500th PTW Hq. Sq.)

Teen Club

The Teen Club will have an open house, Saturday from 7 to 10 p.m. Dancing, table games, Ping Pong and TV will be available to all teenagers.

Maj. and Mrs. Foch Benevent will chaperone.

Variety Of New Aerospace Volumes Recommended For Air Force Reading

A variety of new books dealing with aerospace power and the USAF have been made available to Reese people through the base library and base exchange.

The library has on its shelves ready to loan, several volumes which are highly recommended through the USAF Book Program. Any book, in hard and paper back, can be ordered through the BX.

In the library are: THE MANNED MISSILE, the complete story of the new B-70 weapon system.

HELLBIRDS, the story of B-29's in combat.

THE AIR FORCE YEARBOOK, covering each major command, its leaders and mission.

THE HURRICANE STORY, the story of a single-seater fighter which helped win the Battle of Britain.

COUNTDOWN, the story of

Cape Canaveral and rocketry.

THE AUSTRONAUTS, the story of Project Mercury.

KNOWN BUT TO GOD, the story of three unknown soldiers in World War II.

THE WAR, a concise history of World War II.

DETERRENT OR DEFENSE, a professional analysis of our current strategic position.

Also recommended and available on order through the BX are:

DICK BONG, ace of aces. FLYING SAUCERS and the USAF.

FIRST OF THE SPACEMEN, Iven C. Kincheloe.

ALWAYS ANOTHER DAWN, the story of Scott Crossfield, rocket test pilot.

SEVEN INTO SPACE, the story of Project Mercury.

Many other volumes also are suggested and ready for sale.

Quartet Playing In Minor Sports

Four Reese people left yesterday for Sheppard AFB to begin Minor Sports competition in the ATC Northern District tournament.

They are TSgt. R. L. Walker of the '02nd squadron, A1C Glen Whitsett of ABG, A2C George Tubbs and A3C Bennie Gray, both from M&S.

Sergeant Walker was the winner in badminton singles and also the winner in handball, singles competition. Forming partners in badminton doubles, playoffs will be Airman Whitsett and Sgt. Walker. Tubbs will play ping pong singles and will form partners with Airman Gray to play doubles.

Golf Notes

By KEN McGUIRE
The Intramural Golf standings after six weeks of play are, '02nd in the top position with 27½ points; PTW in the second slot with 26 points; AP's in third with 19 points.

In the last week's play Civil Engineers beat Hospital 5 to 2; the AP's took Weather, 5-2; '02nd defeated ABG, 4-2; 3500th PTS beat 3505th, 3½ to 2½; and PTW took PTG with 5-1.

The best ball tournament, held last Saturday, was considered a success and was accompanied by fine weather.

A two-way tie resulted between the teams of Maj. John Garrett and MSgt. S. B. Pope, and of Maj. Dick Condrick and Maj. Bob Brackett. Both teams shot a best ball of 62. There also was a three-way tie for third and fourth place, the teams of MSgt. James Sheppard and TSgt. Montgomery; Maj. Harold Byrne and 1st Lt. Clarence Doane; 1st Lt. Keith Krause and 1st Lt. Alex Milligan, all coming in with a score of 63.

Due to high winds, there was no activity in the mixed couples play on Sunday.

This Sunday there will be a tournament planned by Dottie McCall. Immediately after the tournament, a turkey supper will be served in the clubhouse. Those interested in attending should

call Dottie McCall.

A golf tournament for the male swingers is planned for Saturday. The tournament will be for 18 holes and low net scores. Entry fee is \$1; prizes will be given in golf merchandise. All interested persons can register at the clubhouse.

Bowling Results

Intramural League
Aviation Cadet Philip B. Davis of the '00th Pilot Training Squadron took the high individual game in the Intramural Bowling League with a score of 231. MSgt. Carlton Wilshere of ABG took high individual series by toppling 609 pins.

ABG Keglers spotlighted this past week of bowling by taking both high team game and high team series.

Holding the top spot in the Intramural League is ABG with 35-13. PTW jumped to the second slot with 31-17, Commissary holds third with 30½-17½. The '05th squadron has 29-19 record for fourth place. Three teams, MTD, Hosp., and Civil Engineers are all tied for fifth place with 28-20.

Officers League
The M&S Cripples and PTG Spoilers were tied for first place in the Officers Bowling League, each with 28 wins, 12 losses after Wednesday night's activities. The Flight 9 Hustlers held third spot on a 26-10 record.

The Flight 4 Dust Devils rolled the 2,380 high game, trailed by 2,352 by the Whiz Kids. Flight 4 rolled 586 and 561 high games.

F. R. Geier hit a 586 high individual series, with 1st Lt. Ronald Tingley at 561. Second Lt. Robert Guinn rolled the 211 high game, Geier 202.

Basketball...

M&S holds the top slot in Intramural Basketball standings with 8 wins and no losses. The Civil Engineering team has a 6-3 record.

Three squadrons have a 5-3 record, they are ABG, Students (team 1), and '00 PTS. The '01st PTS has a 6-2 record.

SUGGESTORS—Lt. Col. Victor C. Correll, left, commander of the Civil Engineering Group, presents awards to suggestors of management improvements on the base. Left to right are SSgt. Amando Esquivel, who proposed a better method to thaw frozen pipes, Robert Donnell, whose suggestion on unit removable racks was approved, and SSgt. Lloyd Carver, whose proposal saves time and permits faster aircraft maintenance.

Suggestions Get Recognition

Two NCO's and a civilian have been given improvement awards for suggestions to benefit Reese operation.

A letter of appreciation and three-day pass went to SSgt. Lloyd A. Carver for a proposal on an outside speaker for flight line dispatch vehicles. The improved method saves time and permits faster aircraft maintenance.

SSgt. Amando T. Esquivel also received a letter of appreciation and pass for a suggestion on thawing frozen water pipes. The suggestion improves safety practices, improves morale and affords an annual saving of \$290 in equipment and material here.

A \$10 award went to Robert Donnell for a proposal on aeration unit removable racks. An annual saving of \$160 in material is given the base.

Contracts Made For Modifications

Contracts for modification of two buildings used in the pilot training program have been let by Reese Air Force Base, Col. L. C. Hess, base commander, announced.

The High Plains Building Company of Lubbock has the contract for modifying, soundproofing, installing mechanical air conditioning and heating equipment in the large hangar, T-82. Six of 26 firms solicited offered bids.

The Medlock Company of Lubbock was successful bidder for performing similar work on the maintenance control wing of the Maintenance and Supply Group headquarters building, T-61. Notification also was sent 26 firms and 4 offered bids.

Flying Club Naming New Officers Soon

The annual election of officers to serve on the council of the Reese AFB Aero Club for the next calendar year will be held at the regular monthly meeting at 7:30 p.m., Tuesday, Dec. 13.

All members are being urged to attend this important meeting, and all interested Reese AFB military personnel and dependents are invited. In addition to the election of officers, two amendments to the constitution will be put to a vote of the general membership: the addition of a maintenance officer as a member of the club council, and the disposi-

tion of assets of the club in the event of dissolution.

The nomination committee, appointed by the president at the November meeting, has recommended the nomination of the following slate of officers: president, Lt. Col. Dwain Rockie; vice-president, SMSgt. Rodney O.

Bills; secretary, A2C Louis A. Scariot; treasurer, 2nd Lt. Darrell B. Couch; operations officer, 1st Lt. Carl H. Hoffman; and member-at-large, 1st Lt. Elmer L. Simmons, Jr. Further nominations will be accepted from the floor at the election meeting, Dec. 13.

'Fastest' Joins Medical Center

Col. John P. Stapp, called the "fastest man on the ground," has joined the ATC Aerospace Medical Center at Brooks AFB. He is special assistant for Aerospace Medicine in the center's advanced studies group.

A senior flight surgeon, Col. Stapp received wide acclaim when he acted as his own subject in rocket sled tests. During these tests he traveled at speeds up to 632 mph and braked to a stop in 1.4 seconds. In the sudden stop, he experienced "G" forces equal to 40 times his own weight.

Among his research achievements, Col. Stapp has conducted high altitude unpressurized flight tests of a liquid oxygen breathing system; studies on the effect of windblast — including a flight in an F-89 jet with the canopy removed.

ECI Adds Repair, Education Courses

The Extension Course Institute has activated two new courses, Aircraft Control and Warning Radar Equipment Repairman and Education Technician.

The repairman course in two volumes covers heavy radar equipment associated with a search system and carries about 60 hours and 20 points.

The nine-volume education course covers theory and application on duties of the education technician. It covers 177 hours and carries 39 points.

Information on the courses may be obtained from the base education officer, phone 437.

Airman May Earn \$10,000 Annually

An enlisted man earning \$10,000 a year in the Air Force?

Theoretically, the Pay Act of 1958 shows: \$440 base pay for E-9 (CMSgt.) with over 22 years service, \$150 P-3 pro-pay (authorized but not paid yet to anyone), \$105 flying pay, \$96.90 quarters allowance, \$77.10 rations at the rate of \$2.57 per day, and \$22.50 overseas pay. That's \$891.50 a month or \$10,698 a year — all cash and not including medical care, retirement benefits, etc.

Telecast Features Activities Of ATC

Air Training Command was the subject of a special San Antonio telecast Nov. 13.

Titled "Aerospace - San Antonio," the story was told by Lt. Gen. James E. Briggs, ATC commander, Col. Willis L. Helmantoler, chief of ATC's information office, and Walter N. Corrigan, president of the San Antonio chamber of commerce.

The program was designed to give viewers an insight into the complexities of the command's mission beginning with recruiting high quality youth from throughout the nation.

OPEN EVENINGS

The BX is remaining open until 9 p. m. each Wednesday until Christmas, with a special family dinner offered in the cafeteria. Santa Claus is moving about the area to talk to children. Families are invited to bring cameras, if they desire.
