# Nazi Troops Sent To Quell Guerrillas Panhandle-South Plains Fair To Open Monday Morning

Prospects Bright Senate Approval If Weather Clears Of Neutrality

Preparations Virtually Complete For Opening; Attendance, May Set Record

## By H. I. KIEFER Avalanche-Journal Staff Writer

DROSPECTS for the fair are as bright as the brilliant sunshine which returned to Lubbock and the South Plains Saturday after full week of damp and dreary weather

This was the consensus of Homer D Grant, president, and other officials of the fair association last night as they announced that preparations are virtually complete for the opening Monday of the 8th annual Panhandle-South Plains fair. It will continue through next Saturday night.

Preparations for the fair have been made in the expectation that

ulty appointments, authorized in-GERMAN mechanized division A of 12,000 men aided by the president of the board formerly lege stadium and the return of German air force was reliably rereturnable fees to volunteers and ported moving toward Belgrade selectees inducted into military in former Yugoslavia today to combat guerrilla bands taking part service, and considered steps to in a loosely-connected but wide provide additional facilities for the military division and the band, The directors opened bids on a and for aeronautical training in the Axis rulers of the European continent raging from Norway to

Greece, Support for conquered peoples A resolution was adopted view fighting Axis authorities by terrorism, sabotage and guerrilla warfare came from King Haakon VII, king of Norway in exile in London, who signed a decree providing the feath penalty for

up guerrilla bands which mop have been operating on a wide scale. The German air force already was said to have bombed Leskovac and Nishumka.

Greeks Add To Trouble Rebellious Greeks added to the uble of the occupying authori ties, A dispatch from Sofia, capital of the Axis partner Bulgaria, reported that bands of Greeks who had invaded the Bulgarian-occupied drama district of eastern Macedonia a week ago had been annihilated

The Greeks crossed from Greek territory armod manineguns and tried to rouse the Greek inhabitants of several Drama localities to join them in revolt.

It was disclosed that a bomb explosion Tuesday in the head-quarters of the Belgian Rexist (Fascist) movement in Brussels killed a secretary, Jean Oedekerke Political foes of the Rexists were blamed. Seven more persons were ex-cuted in Prague Saturday for reasonable activity, it was announced in Berlin Wonders About Meets Berlin wondered whether Adolf Hitler had been conferring on the rebellious situation in the Czech protectorate of Bohemia and Moravia with the strong man he

## Wide Red River Is On Rampage

(By The Associated Press) The wide Red river, with Texas on one bank and Oklahoma on the other, rose to 20 feet Saturday night under the pressure of the heaviest October rains in 36 years.

North of Denison near the giant \$54,000,000 dam now abuilding the river was still rising. A timber trestle at the site of the dam was washed out Friday highl in the first heavy crush of water.

Government engineers said they expected 22 to 23 feet of water in the river bed by Sunday morning.

Two Thousand Homeless Westward at Wichita Falls about member of a prominent pioneer 2.000 persons were homeless from family of West Texas, died in the effects of flood waters which West Texas hospital about 7:45 swept out of Wichita river into o'clock Saturday morning after ill. about 100 blocks of that city. The health which had been prolonged

waters were receding Saturday through several years. night. One thousand were receiving aid from the Red Cross, and city officials, estimated another 1,000 had been forced from their homes and were shifting for themselves. Food, bedding, clothing and

shelter were being provided by the Red Cross and other organizations. Among the refugees were 38 babies from seven days to one year old, receiving attention at an emergency center.

Cave-ins appearing in Lake Wichita dam, seven miles south of Wichita Falls, were hurriedly shored up by workmen to end a new threat which appeared Saturday morning

#### Killed In Storm

At Dallas the Trinity river was up to 15.3 feet because of rains the last week, but was still 13 feet under flood stage. The river was falling Saturday night. At Abilene in West Texas an-

other flood marooned a score of

# All-Out Construction Efforts Under Way On Air School After Delay By Rains

## Job Said 30 Per Cent Completed

### By BILL CLARK Avalanche-Journal Staff Writer

With announcement that their task is 30 per cent complete, general contractors at the advanced twin-engine aviation training school near Hurlwood, 10 miles west of Lubbock, revealed Saturday that all-out construction efforts are under way. Approximately 1,500 structural

workers are now being employed. They are working on 100 buildings various stages of erection, on grading and filling and on run-

To Get Credit For Rain More than 200 buildings must be completed before end of the 120day period stipulated for construcn in the contract, said W. G McMillan, one of the general contractors. He added that the contractors will expect to receive credit for rainy periods in which work was impossible. Contract calls for completion by Dec. 24. Contractors on the project are McMillan, W. S. Moss, both of Lubbock, C. S. Lambie of Ama rillo, all general contractors; Holland Page of Austin, excavation and runways; R. K. Landreth of As An Expert Sees It-Longview, plumbing; and Broome Electric company, Amarillo, electrical work.

Contract Price \$3,973,365 They were awarded the work a a contract price of \$3,973,365.

The 200 buildings in the completed school will include the folowing: 64 barracks, 21 operations buildings, 16 day rooms, 15 administration buildings, 12 supply rooms, 7 officers' quarters, 6 warerouses, 4 link trainer buildings, angar shops, 2 post exchanges, 2 asoline storage units, 2 recrerushed eastward through those scene were available. ation buildings, 2 paint and dope buildings, officers club, fire station, 151-bed hospital, motor reshop, telephone and telegraph unit, theater, parachute uilding, chapels, guard house, utility shop, commissary, incera-

tor and radio unit. The buildings under way include barracks, supply units, the post miles or more, unbroken, from In- fold in the same period. And it exchanges, the telegraph and telephone unit, warehouses, the the- tier in the western desert. ater, hospital and recreation buildings. Some of the buildings have been roofed, others are being framed, but virtually none has reached the stage of completion, rican desert, providing events on McMillan said.

**On Friday Night** 

Lubbock's Westerners, out of the select class of undefeated and unfootball league but still unscored on after their 0-0 tie with Vernor Friday night, Monday will turn their attention to developing a scoring punch for their forthcom ing game with Breckenridge.

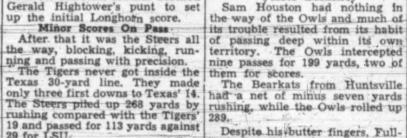

The Westerners will meet the Buckaroos of District 10-AA Friday night at Tech Stadium. It'll be their last test of a pre-conference nature before plunging into the play-for-keeps battling at Borger following week end. the

**Bucs Are Rough Team** 

While the Black and Gold elev en is playing Breckenridge; three other teams of the district will be engaged in non-league battles, with Plainview idle.

Amarillo's Sandies seek 18th consecutive victory against Austin of El Paso. Pampa d There wasn't a sustained drive fends its unbeaten record against Bowie, also of El Paso, and Borger a 70-yard passing play, with plays Tahoka of District 5-A. All are home games for the District phomore

Joe Andreico, who ran 65 yards 1-AA teams with the help of beautiful blocking. Breckenridge rates as the tough

Westfall, Kuzma Lead Michigan To Triumph

ANN ARBOR, Mich., Oct. 4 (P)-

On December 3, which is a Wednesday, the Red Raiders are going to play the army team of Camp Croft, at Spartanburg, South Carolina. . That will be some four days after the Red Raiders have played the Wake Forest Deacons at Charlotte, just little bit north of South Carolina.

Bright Spot Grid Teams

By Collier Parris

W. L. Stangel, chairman of the Texas Tech athletic ncil, said last night that the council had accepted terms and conditions of the game, which will be played on the Wake Forrest trip. Camp Croft officers had approached. Texas Tech with an attractive proposition, and Athletic Director Morley Jennings recommended the deal to the

athletic council at a meeting last Wednesday. Earlier announcement had come by mail from the and Webster, Brivey, Moser, Zapalac Texas A. and I-Jensen and Arnold. public relations office of Camp Croft.

CAMP Croft had made overtures, or at his office (4472) today or

first through the Lubbock early tomorrow. If as many as 25 Chamber of Commerce, for the persons wish to make the round JAVELINAS game. The financial offer made by trip, he'll get a chartered Pullman the camp, and accepted by Texas and give the same rates that apply Tech, will just about pay for the to the football player car. But

40-0. Following hard upon its rout of Boston college a week ago, Tulane's Green Wave, apparently certain to be a major factor in the Southeastern conference race, had no trouble with Auburn's Plains-men and won, 32-0. Dippy Evans scored all three touchdowns for Notre Dame as the Irish stopped Bo McMillin's Indiana outfit, 19-6.

Fordham Downs Mustangs

Alabama, picked by many to run 1-2-3 in the Southeastern con-ference, never could get going. against Mississippi State's green eleven and Tell 14-0. Alabama's line was badly outplayed and that spelled the essential difference. Georgetown, which had whipped Mississippi in an upset a week ago, was in turn spilled in sensational fashion by Virginia Tech, 3-0. Roger McClure's field goal in the third quarter meant victory to Tech, which had absorbed a terrific trouncing from Kentucky in its last start. Wisconsin, rated well up in early season forecasts, took a frightful 28-7 beating from Mar-

Lobo Aerial Attack Clicks For 16-14 Win From Miners

ALBUQUERQUE, N. M., Oct. 4 (P)-A clicking aerial attack and deception overcame power tonight as New Mexico university defeated the Texas Miners, 16 to 14, for their second straight Bor-

der conference victory. The score see-sawed until the last few minutes of plan, keep-

ing nearly 6,000 fans on their feet.

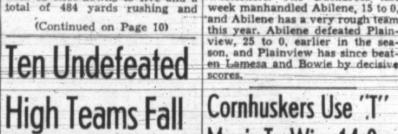

Out-passing the aerial-minded Texanc, who resorted to ground plays for much of their yardage, the Lobos timed their shuffle hift formations to near perfection to score in the third and fourth riods after ringing up alsafety in the first. The El Paso collegians, with Quarterback Owen Price spark-

g the attack, pushed over touchdowns in the second and third quarters, barely missing a field goal attempt in the latter part of the fourth.

The statistics were all Fordham, est opposition of the season for with 12 first downs to five and a Westerners. The Buckaroos last total of 484 yards rushing and (Continued on Page 10)

Lubbock, Texas, Sunday, October 5, 1941

THE LUBBOCK AVALANCHE-JOURNAL-PAGE NINE

Yanks Halt Dodgers, 2-1, For Second Series Win

CHEER up! Many authorities agree that the continued wet weather has not done as much damage as some of us think. A week of sunshine will put us back on top and that needed sunshine is coming up. Business and crops will be so good that we will wonder why we could have been so down-I feel this so strongly that, effective Monday, I will give a 24-hour guarantee forone week on all wash jobs we do at BILL DEAN'S. One day without rain would, indeed, be a novel experience for Lubbock, residents. We have not had the damaging floods experienced by many other towns. So, Heads up! It's gonna stop

raining. \_B\_D\_

GLUM were the faces of many of the paying guests at the Jarrett-West Drug and Eating Emporium after, the Westerner game Friday night. Some smartalec had announced the final score at Oklahoma City to be A. & M. 18, Tech After the correct score came in general rejoicing was heard on every hand. Olen Stewart threatened to whip the gent who put out the false report.

-----B---D--

NOW is the time to prepare for cold weather that is bound to come. Your car needs careful preparation for the winter. You will need anti-freeze, of course. First of all, however, you will want your radiator flushed and cleaned and the radiator hose and connections checked. Your battery connections, also, should be inspected and cleaned. Your heater and thermostat should be put in good operating condition. All these important details will be attended to at BILL DEAN'S. Don't delay until freezing, weather sweeps in upon us and it is impossible to give your car the individual attention that it needs. Avoid the rush-see BILL DEAN this week.

#### -----B----D-----

OOTBALL question for this week: Team A's punt is blocked behind the line, and is recovered and then fumbled by Team B. A player of Team A intercepts the fumbled ball and throws a foreward pass from a point five yards behind the line. What is the

#### ruling?\_\_\_\_ \_\_\_\_B\_\_D\_\_\_\_

'EVEN a tombstone will say good things about a man when he is dead," says Fred. the flat buster.

\_\_\_\_B\_\_\_D\_\_ TT has been a long time since football teams have played here under the conditions that existed at Tech field Friday night. It is small wonder that there was so much fumbling. Despite the fact that they didn't score, the Westerner attack was potent and it's defense entirely adequate. So far as can be seen, at this time, we do not have too much to fear from any other district one rival. T UBBOCK baseball fans must A have felt a common bond with the Brooklyn fans last Wednesday. Late in the game with the Dodgers trailing the Yanks by one run and a man on first with no outs, the Dodgers did not bunt. Manager Dorocher's statement after the signal, touched a familiar cord game, that the batter missed the signal, touched a familiar cord among local fans.

 PAR – agraphs (Continued From Page 9)

of soft, resilient turf is rapidly covering the windblown fairways, and it is the aim of club officials to be able to "play them as they ie" next season. . . .

The necessary practice of imroving the lie of the ball in the has contributed more to holding back the progress of golf in West Texas than any other one thing, with the possible exception of the old sand putting surfaces, and as more courses get to water ing fairways you will see a de-cided improvement in the play of West Texas stars.

This improvement, together with the greatly added enjoyment of rank and file of the players. will someday make Lubbock and West Texas the golfing leaders of the South on a per capita basis.

Several years ago you could find people all around you who would laugh at you with much gusto when you men-tioned grass greens in West Texas. They were sure that it just couldn't be done. Grass just wouldn't grow through all the sandstorms and dry weather . . . but now we have the finest grass greens in the South, bar none . . . and if you don't believe me, just ask some of the boys who have been around the country lately .... \*

Just a couple of years ago the

cities Saturday, he added 13 to 0. A change in the convention GEORGE RICHARDS and WILLARD HEDGES, Olton. Richards, the steady, heady quarterback of the defending north 5-A related champs, scored two touchdowns, Hedges another on a 65-yard run as the Mustangs won their first. conference victory, 21-7 from remained unbeaten. JOE RUSHING, Floydada, was a Whirlwind in fact as well as name as the Floyd county eleven lost a heartbreaking 12-7 decision to Crowell. He intercepted a pars to set up a touchdown, scoring it mself on a series of line crashes,

and played terrific ball defensively against the 9-A favorites.

Importers in India are insisting that American ladies' handbags bear the name of the country where they were made. same was true regarding turfed

fairways, and the wise boys were prone to scoff at the idea of covering a golf course with turf from, tee to green. Many of those who

were skeptical, your reporter among them, but we now know that all this sand needs is waterand plenty of it-it will grow anything that is possible to grow in our climate.

. . . In addition to the great improvement in the local courses, the South Plains has seen two first class grass green courses spring up in the smaller cities.

The Elmcrest golf club of Plainview and the Santa Fe golf club of Siaton are fine examples of what can be done with a little determination and foresight. Both have fine greens, and both are well

filled most every afternoon. The next phase of golf progress ill be centralization, with a center in each territory supplying the facilities for all the players, as centralization has produced our large cities, so will it produce our large clubs. The folks in the surrounding districts are rapidly realizing that it is much easier to drive upward of 30 or 40 miles to a good, well kept course than it is to struggle trying to maintain hard baked, sand green layouts

, and Lubbock will be ready to take care of them as they come.

### Carl Rountree Of Lamesa Named President Bar Association Of 106th Judicial District Bar Association **Meeting Held**

CARL ROUNTREE

50.000 Ordered

HAT IN NEW YORK

Ten Miles Of Rulers

<sup>1</sup>Special To The Avalanche-Journal) TAHOKA, Oct. 4.—Carl Roun-tree, prominent Lamesa attorney and former member of the Texas Legislature, has been named presi-dent of the recently organized 106th Judicial District Bar association

The group, composed of attor-neys from Dawson, Lynn, Terry, Gaines, Yoakum and Garza counties, also endorsed Rountree as director of the state bar associa-tion from 19th congressional district.

#### Smith Vice President

Truett Smith of Tahoka, former district attorney, was elected vice president and Joe S. Moss of Post was named secretary-treasurer. Directors, in addition to the offis-cers, will be Burton G. Hackney of Brownfield; C. H. Cain of Ta-hoka, Alton B. Freeman of Seminole, Tom L. Price of Post, Karl Cayton of Lamesa and a represen-tative from Yoakum county, Formation, of the association followed a rules interpretation meeting at which Judge Louis B

Reed presided. Served Chicken Barbecue

Chicken barbecue was served at the residence of Mr. and Mrs. Smith here

Scattered Over Two

Smith here. Other attorneys attending were Vernon D. Aycock, R. D. Kilgore, J. E. Garland, V. O. Key and Stansell Clement of Lamesa; Joe J. McGowan, W. W. Price, L. C. Heath and H. B. Virgil Crawford of Brownfield; H. M. Hooper, P. G. Stamford and R. P. Moreland of Yoakum county; Calloway **States Boost Fair** Ten miles of one-foot rulers of Yoakum county; Calloway Huffaker, B. P. Maddox and Rol-New Mexico in advance of the opening of the 28th annual Panhandle-South Plains fair. Homer D: Grant, president of

Singers, Dancers And Opera Company On 1941-42 Texas Tech Artists Course

## First Number Is Set For Oct. 13

CINGERS, dancers and an opera ompany will appear on the 1941-42 artist course of Texas Technological college, which will open Oct. 13 with a joint recital by John Carter, tenor, and Enva Gonzalez, soprano, it was an-nounced by R. A. Mills, chairman of the artist course committee. Carmalita Maracci 'will appear' classic, Spanish and American dances Nov. 24, assisted by her own group of dancers. She has a "Chocolate Soldier," with part in Nelson Eddy, motion picture to be released Nov. 1.

Rise Stevens, mezzo soprano of the Metropolitan Opera association, will present the first number on the spring semester program, singing in Lubbock on March 25.

**Opera Set For April** The final number of the season, to be given April 20, will be Mo-zart's "The Marriage of Figare," an opera. It will be presented in English by a group of eight ar-

The Oct. 13th program will be given at 8 p. m. in Senior High chool auditorium. Carter, tenor of the Metropolitan opera and concert and radio star, is an American, born in New York City. He first came to public notice as winner of the Metropolitan opera auditions of the air, and soon afterward was heard in a series of broadcasts substituting for Nelson Eddy. Next. came his entry into the concert field. His introductory Chicago concert was sung before 130,000 persons in Grant park, and he was eld over for a repeat performance, the first time a soloist has bee nthus honored in the history of the Grant park concerts.

His Metropolitan opera debut was in the romantic role of Des Grieuz in "Manon." The New York Post printed this impression: "Carter should go far. He has a lyric enor voice that is very easy to listen to; he is young, and he is goodlooking. What more could one want?

Making Her First Tour Miss Gonzalez, who is to appear in joint recital with the tenor, the made her debut in the leading role of Puccini's opera with the Chicago Civic Opera company. she is making her first country-vide tour.

The young Philippine soprano been thus honored in the history York Times as an "artist to her fingertips."

The second artist course number Nov. 24 also promises an evening of entertainment from one ecomplished in her art. Carmalita Maracci made her debut in New York Dec. 31, 1939, and on that occasion John Martin wrote in the New York Times, "Not in a decade has there been such an exciting debut." The program she will present here will be full of variety and the costumes will be

# New Oldsmobiles Are On Display

The amazing ability of the auto models each year that overshadow all previous efforts in beauty, performance and value is evident in the new Oldsmobile line for, 1942, new on display in the showroom of Western Olds company, 1301 Avenue H.

Named the "B-44" because it i better looking, better lasting and better built, than any previous Oldsmobile in the company's 44year history, the new Oldsmobile comes as a distinct surprise to that section of the public which had anticipated little or no change in the 1942 models. For even with government priorities, and Olds mobile's intensive concentration on such defense activities as quan tity production of shells for field guns and howitzers, landing gear rgings for bombers and automa cannon for fighting planes, Oldsmobile has infroduced five brand new series of automobiles

The Oldsmobile "B-44" line in-cludes two Sixes and three Eights, with a total of 15 body types. overing an even broader price range than in previous years. The Oldsmobile "Sixty", in the low-price field, is available in two series-a Six and an Eight. the popular price bracket, Olds medium, price range, the "Ninety- health officer. horsepower straight-eight engine.

The biggest rodeo ever attempted in this section of Texas will be the No. 1 attraction at the Panhandle-South Plains fair this week. Not until late this afternoon will there be possibility of knowing how many competitors there will be, nor how many of them.

Top Flight Stars Expected But officials of the fair associ-ation gave assurance last night that the number will be as large as can be handled, and that they will include some of the nation's toppest flight rodeo stars.

contenders have / until 6 o'clock this afternoon to register and pay their entry fees-and it seems a characteristic of most of them that they delay their register-ing as late as they can! However, many of those who will compete toubtless will not come to Lubbock until today

Registrations are to be received here is a concerned by the concerned in the chamber of commerce on the second floor of the city hall, of ficials announced. They empha-sized that 6 p. m. will be the "absolute deadline."

# 'World's Biggest Carnival' Due In Lubbock This Afternoon To Play Fair

## **Special Train To Bring Shows**

Offices

BY WILLIAM B. NAYLOR The largest carnival show train that has ever pulled into Lubbock will arrive from Amarillo late this afternoon from a week at the Tri-State fair at Amarillo.

After playing many large state fairs in the middle-west the Beckmann and Gerety shows, which are Texas-owned, scheduled only three dates in Texas: Last week at Amarillo, the coming week at the Panhandle-South Plain's fair, and early in November at the South Texas fair in Beaumont. Follow ing the engagement in Lubbock the show train will be loaded and make the long jump to Shreveport, La., to play the big Louisiana State fair.

700 With Shows Over 700 people will be here with the Beckmann and Gerety shows. Now the largest show on the road, Beckmann and Gerety have this year a number of shows that have never toured with a big carnival before. Four shows were booked by B. S. Gerety immedjately after the New York world's fair closed last year.

These headline attractions are the "Zorima Gardens" with Zori-ma, queen of the nudist colony at the fair. The Zorima show played over 4,000,000 paid admissions in New York and she was probably the most photographed wo-man in the country. Her pictures appeared in practically all the picture magazines as well as the London and Paris newspapers.

Midget Village, another big money-getter in New York, is also Successful business men ther board of directors are Baker coming here with Beckmann and oughly familiar with the wishes the following th Gerety shows These clever peo- and needs of the people of the ple are entertainers of exceptional territory the Panhandle-South class and include James Vance Plains Fair serves are at the helm Swift the "senator from Indiana," of the fair association this year. and the smallest man.in America to register in the draft.

"FIRST In Lubbock-FIRST On The South Plans"

Miss Billye Catharine Levens Becomes Bride Of William L. Coker

## Service Read On Saturday At Church

THE First Presbyterian church was the scene Saturday evenng for the wedding of Miss Billye atharine Levens, daughter Mr. and Mrs. Jess Christopher Levens of 2208 Seventeenth street, and Willifam Lawrence Coker, foster son of Mr. and Mrs. G. P. Kuykendall of 2201 Sixteenth street. Dr. Jack M. Lewis read the service.

Mrs. R. C. Douglas, jr., played an organ prelude.

Pedestal baskets filled with white flowers were outlined against a background of gleaming white tapers standing in pedestal candelabra that were placed in -shape at the altar. White tapers ighted the aisles.

Bride Wears Nut Brown

The bride wore a nut brown suit with dark brown squirrel fur trim, a squirrel hat and she carried a matching muff. Pinned to her muff was an exquisite bridal bouquet of orchids and bouvardia. Mr. Levens gave his daughter in marriage

Miss Mary Catherine Booth of Searcy, Ark, maid of honor, wore a blue costume suit with brown fur trim and brown accessories; and carried a rosegay of white gladioli,

Roger Kuykendall served as best man. Ushers were David Weaver;

Fred Underwood, Leete Jackson

#### **Reception At Residence**

Following the ceremony a reception was held at the home of the bride's parents. The bride's table was centered with an arrangement of lilies and the buffet was decorated with white gladioli and small chrysanthemums. At one end of the table was a huge wedding cake topped with an aroor of orange blossoms and wedding bells and the tea service was at the other end.

Assisting in serving were Mesdames Joe Bowman, H. B. Prickett and Misses Jacqueline Davis, Margery Hills and Sara Daviss

When the bride left on her wedding trip she pinned her or-chids to her shoulder. The couple will be at home in a new residence at 2003 Thirtieth street.

Friday Coffee Given

By GRACE HALSELL Of The Woman's Staff "Lubbock—The Brightest Spot in Texas" and the Women's build-

ing on the grounds of the Panhan-dle-South Plains fair-the busiest spot in Lubbock. Such was the appearance it gave on Friday afternoon and Saturday morning as displays and judging were completed in five departments. Womn were busy working with textiles, culinary, home demonstration and 4-H club work, plants and cut flowers, art, relics, antiques and curios. Announcement was made Sat-

urday morning of the winners in the textile department and 4-H club displays. Other winners will. be announced the first of next week

Miss Delia Wilkinson, director of the Women's department of the fair, announced Friday afternoon that most exhibits were in, that judging was nearing completion and that displays were about ready for inspection. Assistants in the women's de-partment are Mesdames Ford

Benham, M. C. Overton, Clark M. Mullican, W. W. Rix, W. O. Ste-vens, R. A. Mills and J. T. Hutch-

Mrs. J. H. Hankins, superintendent of the textile department, announced winners in this division on Saturday morning. Mrs. J. H. Barnett is assistant superintendent of this department. Exhibits were entered under the general textile division, knitting, crochet, quilts, spreads and comforts, rugs, plain sewing, fancy sewing, old ladies' work, infants' class, novelties and handicrafts. Bread and cakes will be judged tomorrow and entries will be received until 1 o'člock. Mrs. Elmo Wall is superintendent of the culinary department assisted by Mrs. O. R. Copeland. All profes-

sionals are barred from con peting for premiums. No article will be received with the name of the exhibitor on it. An exhibito cannot enter more than one ar-ticle under any one lot number

Divisions in this departmen are bread, cakes, canned fruit and vegetables, pickles, preserve and jellies and candies,

Nutrition for "Defense of Peace" is the theme of the education exhibit sponsored by women's home demonstration clubs in 17 counties and arranged by the exhibit committee of the 17 councils in the district.

It will include nutrition: preservation and storage of food; pressure cooker and water baths and what loods to use with those two methods of canning; well canned ood stored on shelves; drying

equipment and dried foods, showg the simplest, most economica vay of drying foods; frozen foods and information concerning freezing foods; root vegetables, carrots,

## Dramatic "Belle Starr" Is Lindsey's Technicolor Hit Hollywood On Palace Has "The" This Week's Smiling Ghost" Film Menu The Loose...

#### Here Are The Latest Looksees Around The Lights Of Filmdom

BY PAUL HARRISON NEA Service Staff Correspondent HOLLYWOOD, Oct. 4.—Benind the screen: Lots of ridiculous, ture technicolor attraction at the H OLLYWOOD, Oct. 4.—Behind the screen: Lots of ridiculous, Malaproprian remarks are attrib-uted to Samuel Goldwyn, but the ones of pure Goldwyn coinage generally include a deft bit of logic or a terse opinion that is wonderfully expressive. His "Inwonderfully expressive. His "In- Starr, the dashing querilla leader clude me out!" probably is redaily in executive confernces all over town.

During a long, tiresome conference about the middle of last week, Goldwyn strolled to a window, regarded the pleasant aunal weather and sighed: "What a marvelous day to spend Sun-

And in another conference, he declared: "What the movies need is more love stories with romantic interest.

If that sounds silly, consider the string of love stories now devoting themselves to multiple amours. First there was "Tom, Dick and Harry," with Ginger Rogers imag-First there was "Tom, Dick and Harry," with Ginger Rogers imag-ining herself in three separate ro-mances. Then came "Lydia," re-counting the four loves of Merle Oberon. And Tyrone Power now is launched on a sequence of four love affairs—one every two reels love affairs one every two reels turns away from Major Crail, a nora" "Son of Fury." His gals are --in "Son of Fury." His gals are young Federal officer who loves Elsa Lanchester, Virginia Gilmore, her, and falls madly in love with Gene Tierney and Cobina Wright,

feature. Anyway, there are three alive. readucers who also are about to Comedy-Thriller At Palace chapter saga of the adventures' of Beavers. "Tails of Manhattan."

# In The Dust," At Broadway **Gene Autry To Ride At Lyric**

CREER GARSON and Walter G Pidgeon are co-starred in the picture "Blossoms In The Dust," now showing at the Broadway theater, which was inspired by the life of Edna Gladney, a woman who has placed more than 2,000 babies in harmy homes babies in happy homes

Besides departing from the usual Hollywood formula for drama, the film, photographed in Technicolor, shies away from the ordinary brilliant tones formerly used and for the first time uses color as a means of furthering the plot.

**Picture Is Tender Romance** Miss Garson and Pidgeon have an opportunity as Edna and Sam Gladney to depict one of the screen's tenderest romances, and their work in establishing a home for unwanted youngsters brings the problems and struggles of the pioneer workers in the field of child welfare to the screen for the first time. Today Mrs. Gladney is the superintendent of the Texas Children's Home and Aid Society at Fort Worth.

Featured in the supporting cast are Felix Bressart, Marsha Hunt, Fay Holden, Samuel S. Hinds, Kathleen Howard and others.

The story traces the life of a beautiful and vibrant girl from the time of her meeting with an ous Texan to their marriage. Mellowed by a life which sees her through the loss of both her husband and her child, she devotes the remaining years to finding homes and a proper environment for thousands of homeless waifs.

#### Western At Lyric

Today's program at the Lyric theater is topped by a Gene Autry western, "Under Fiesta Stars." With Autry in the picture are Carol Hughes, Smiley Burnette, Frank Darien and Joseph Strauch,

The plot finds Autry and Miss Hughes inheriting some ranch and mine property. Miss Hughes, out for quick dough, places her in-terests in the hands of a couple of slickers who, in order to get their commission; resort to dirty work aplenty. But Autry proves, too smart, too fast and he knows. the right people.

T

JEAN ARTHUR is noted in Hollywood for her romantic comedy but her encounter as Miss Jones with his satanic majesty in The Deyil And Miss Jones, starting today at the Tech theater, is a fairy tale, spun in ultra-modern tempo and sprinkled with a sauce of sociological signifi-

It is far from the dour docu-ment its title might indicate but, rather, a brightly concocted comedy which abdroitly tempers with a multitude of laughs whatever preachment its script imparts. Charles Coburn hops home with the Thespian honors in the piece. He Becomes Spy

An industrial prince, purported-ly the richest man in the world, he decides to go among his employes incognito as a commoner to determine those responsible for unrest and agitation. A depart-ment store is selected for his adventure. How he is transformed from a spy to saviour through the kindness, consideration and love of his fellow workers furnishes the plot.

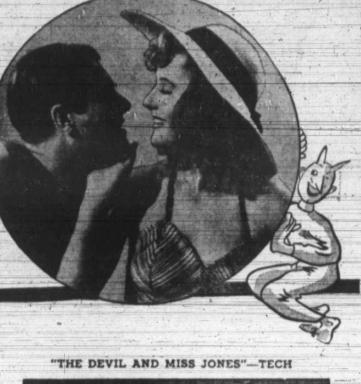

Others of the cast include Rob-ert Cummings, Edmund Gwenn, Spring Byington, S. Z. Sakall and Walter Kingsford,

A double portion of entertain-ment is offered at the Arcadia today with "Spawn Of The North"

and "Model Wife." Drama Of Alaska "Spawn Of The North," is a ro-hust drama of America's last frontier, the salmon fishing waters of Alaska. It stars George Raft, Henry Fonda and Dorothy Lamour with other leading roles taken by Akim Tamiroff, John Barrymore, Louise Platt and Lynne Overman

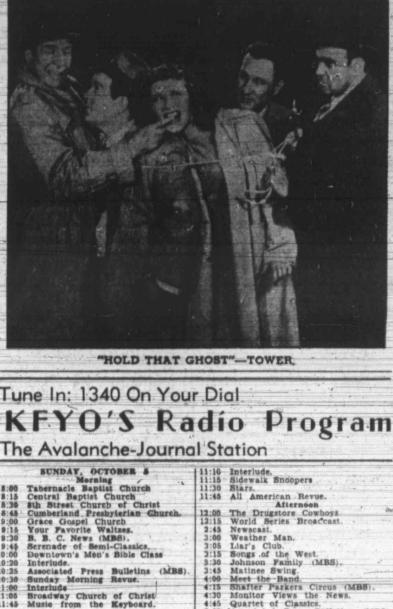

The picture is a story of the war between trap-site owners and fish pirates. There's action ga-lore for those who like their entertainment in the raw, with a softening garnish of romance for

son of Lucile Watson, department store manager, becomes interested Blondell, an employe and M secretly the wife of Powell, who man carefully in order to hold her job, she goes out with him. In the meantime Powell is fired and then is when trouble really

"Foreign Correspondent" is of fered as the suspense spiced at-traction for Midway theater patrons today, Monday and Tues day.

An absorbing story of newspa-per life, international conniving and war, "Foreign Correspondent presents Joel McCrea and Laraine Day in an up-to-the-minute pho-toplay of superb entertainment. Plot Holds Interest

Others in the attractive cast include Herbert Marshall, George Sanders, Albert Basserman and Robert Benchley.

Blessed by Alfred, Hitchcock's direction, there is about this one licture a constant tremor of excitement. It courses all through the unfoldment of the tingling plot of a disappearing Dutch diplomat, a German spy ring working under a peace front and of how McCrea, with assistance, traces the in-volvements into the open. The love strain is supplied by Miss-Day, but the outstanding performance comes from Basserman, famed German actor, as the dip-

lomat. Boasting a high tempo and flag-waving ending which audiences cheer, "Foreign Correspondent" modern war to the wide open ocean battles involving a transleft in light. # Lubbock Again Welcomes Area To The Fair; Dewey's USO Is Facing Troubles

### **Bigger, Better Show Seen** Attractions Outstanding

FOR the 28th time, it will become Lubbock's pleasure and privilege during the coming week to be the scene of and the host at the annual Panhandle-South Plains fair.

The annual exposition has become one of the oldest institutions on the South Plains, which still are young in terms of development. Without question, the fair is the most largely attended event held each year in this section of the Southwest.

To say here that the fair of the coming. week holds every promise of being "the best and biggest ever" merely is to repeat. that which is said in advance of almost every such exposition - in Lubbock and elsewhere. However the fact that this, over a long span of years, has been the most successful regional fair financially in the United States is the most convincing evidence possible that it has been a great fair-that the fair of each passing year actually has surpassed its predecessors. People would not be spending their time and money for return visits year after year if they were not satisfied. And it is obvious that a person who visits one fair is going to be harder to satisfy, will become more discerning, will look with a more critical eye, when he returns to the next one.

If ever there has been a Panhandle-South Plains fair of which the statement can be made truthfully and accurately that it is to be, "the best and biggest ever," then it can be made of that which begins Monday and continues through next Saturday night. The carnival midway, for example, will require more than twice as much space as ever has been given over to that purpose before. The rodeo which is to be the grandstand attraction each of the six nights is the most ambitious undertaking of its kind in the history of the South Plains. Most of the exhibits will set new records in . quality and quantity. The outlook is most mcouraging, weather permitting, that at tendance records will be broken.

It looks, in short, like a fair which i going to be worth traveling far to see. It looks like one where the time and money .C. times over in the fun, thrills and constructive benefits that will be supplied.

It is a real opportunity for the many, many thousands of visitors who are sure to WASHINGTON. Oct. 4 -- If you visit the fair-and whom the Avalanche-Journal is most happy to join in inviting and send it into Miss Mary I. and welcoming to Lubbock.

## Politics Rears Ugly Head (The National Whirligia)

WASHINGTON By Ray Tucker By Ray Tucker WINNER: Thomas E. Dewey, who aims to run for the New York Governorship in 1942 and for the Presidency in 1944, will not get those U.S.O. community centers built unless he cracks down on the White House and the War Department. Tom has told Washington friends that he is loath to make an issue over housing U.S.O. because he doesn't want to transform the question of soldier morale into a partisan matter.

But Mr. Dewey's friends suspect that politics already has been injected into the selection of sites in numerous instances. Local politicians with land or buildings on their hands have tried to palm them off on Mr. Dewey. Numerous communities are demanding that the U.S.O. quarters be constructed in such a way that after the war they can serve as community centers. The call is for brick and steel and other materials which are subject to

Mr. McNutt, also the Army and Navy, want oden structures which can be thrown up overhight and forn down after the emergency. But Mrs. Roosevelt sides with the social welfare workers who want permanent and expensive buildings. Prob-ably she will win her point.

DEAD: Washington apparently has placed on the shelf its most effective weapon for controlling strikes in national defense industries. It appears that the Administration is afraid to antagonize organized labor. Here is the inside story:

When workers at the North American Aviation plant walked out early in June, stalling construction of British and American planes, Draft Director -Hershey, by direction of the White House, instructed his California officials to reclassify the strikers on a "work or fight" basis. Hershey's wire pointed out that the strike was sabotaging soldiers earning only \$21 at the front. Even more than the Regular Army's occupation of North American's plant, the Hershey "work or fight" order-broke that strike, The men went back into the factory rather than risk being drafted into the Army.

Brigadier General Hershey eventually broadened his ultimatum to affect all draft directors. Wherever and whenever a labor dispute affecting a national defense contract occurred, the General's boys were supposed to suppress disorder by resort to the "work or fight" alternative. But the White House, which helped to frame the June 13th order, will not permit fts use as a means of breaking strikes. It is a dead letter!

**PROPHECY:** The war and national defense will crimp and cramp the Republicans in both the 1942 and 1944 elections, provided the conflict lasts that hue, in which for the first time long. The exile of ex-Governor Vanderbilt of Rhode Island to the Canal Zone, as a result of conniance between the President and Democratic Senator Green of Rhode Island, underscores the politico-military story. Mr. Vanderbilt was sent to Panama at the request of the Senator, who feared that the former chief executive might beat him next year

Hundreds of eminent Republicans have signed ip with the armed forces during the past few years. nder Army-Navy-Marine' regulations, they caniot contribute a penny to the Republican campaign chest in the coming Congressional and Presidential elections. But the Administration will have almost one hundred billion dollars' worth of patronage, consisting of defense contracts, agricultural payments, Social Security, etc.

There is no reason to doubt that the he was allowed to come home for Lastly, the book has charm. is happening throughout the country, from regional metropolises down to crossroads hamlets. ing.

When the new excise taxes went into effect, to raise additional billions for national defense, only a few of the biggest and most alert dealers had any real idea how they are to work. The average mexchant and most of his customers were completely at To a considerable extent they still are, al-in gradually trial and error is bringing a semblance of comprehension.

Some of the imposts are laid against manufac turers, and are to be either absorbed, or added to e wholesale costs, or covered by a compromise between these extremes. Others are assessed upon retailers, and may be deducted from their profile or levied against customers or split up, as the storekeepers see it. In some instances it is permissible for the tax to be labeled specifically, while in others. this is expressly forbidden. . . .

QUESTIONS: The extent and nature of general ignorance about the new taxes was demonstrated by the pre-October buying spree. The public started out to stock up on goods which would be affect- 15 Fabulous

ed. But having only the haziest notion which commodities these were, customers spread all over the 16 The sun. fee is the favorite drink with iced lot and picked up hoards of items which could 17 Lukewarm. equally well have waited. 18 Mongrel.

New York stores attribute some of this promiscuity to fear of inflation. They argue that when 21 Establist housewives and their husbands went shopping to beat the new taxes, they combined pleasure with 22 Fervid. business by picking up also things on which scarc-23 Lieutenant ity price rises might be expected. There has been much talk about turning cash and savings into con-24 A pool cvrete possessions, which in case of monetary infla--25 Grain. tion could either be used or liquidated at the new 27 Relative money values. Merchants believe that once the tax program precipitated a buying splurge, consumers acted on the precautionary impulse which theretofore had been only an idea.

But there is unquestionable confusion about the 34 Something technicalities of the excises. For example, on three items on which the retailer collects-furs, jewelry and cosmetics-few yet know for certain what constituted a "sale" for tax avoidance purposes. An article bought, paid for and either taken or delivered before midnight of September 30 obviously escaped. But what of one bought and paid for, but not removed from the store? What of one bought and delivered, charged to a regular account but not paid for? What of a firm order, with deposit, for an item which was not taken only because it was not available on the retailer's shelves?

WRONG? Imposts collectible by manufacturers, which make up most of the new taxes, are not applicable to goods on the shelves of stores. Most. merchants tried to stock up as much as possible in advance. On those supplies the consumer will share in the saving. But here new uncertainties are troubling both seller and buyer,

What of sporting goods, to take a typical example, which were ordered by a hunter or a camera fiend? The retailer was sold out. He accepted his customer's order, against shipments already overdue from factories or against requisitions which he placed immediately with his jobber of with the maker, in advance of October 1. But the plants were loaded with defense work and pressed with civilian needs. By October 1 the gun or the camera had not been completed, and therefore had not started on its circuitous way to the ultimate user. Must the manufacturer saise the price, so that the public has to pay the tax in spite of all attempts at forehandedness

These aren't all the problems which are causing trouble, but they are typical. Some dealers decide in favor of the customer, and will find themselves the mess sergeant a cash credit "Henry feels that he'd rather borrow the money from stuck either with a profit-destroying tax or with you, Father, than go to the bank, because you wouldn't Others take no chances, and will have a big load of the possibility of a Treasury charge of evasion. In this way the quartermaster want the bank to know your son-in-law needed money." ill will on their hands if they prove to be wrong.

(By The Associated Press) OKLAHQMA CITY, Oct. 4. — Reford Bond, chairman of the Oklahoma corporation commisannounced today it would lodge "vigoroùs protests against a \$114,500,000 naviga-tion and flood control project on The Trinity river in Texas, con-tending it would give "Texas shippers rates so low as to be ruinous to Oklahoma trade." Bond said the commission would fight the project, which the War lepartment endorsed, at hearings Wednesday and Thursday of the rivers and harbors committee of

Congress in Washington Shippers At Disadvantage Gov. Leon C. Phillips has at-tacked the project and charged Oklahoma had been "taken for a ride like nobody ever saw." "Even now Oklahoma shippers

are at a distinct disadvantage because of discriminatory freight rates," Bond asserted in a pre-pared statement. "And canalization of the Trinity river would aggravate the situation." The project, for which the War

department recommended a \$15,-000,000 starting authorization. would include a barge channel from the Gulf to Dallas and Fort

### Challenges Spending Bond challenged spending mil-

ions for non-defense projects in view of the national emergency and asserted that "if the government is going to spend the public money for such projects, then the logical expenditure would be for development of the Verdigris river in northeastern. Oklahoma from Catoosa to the Arkansas river and thence to the Mississippi." He said it would serve a much greater section of the nation at no

more cost. Opening of the Galveston to

Houston seaway cost Dallas mer-chants a large portion of distri-bution, the chairman said, contending a large project would per-mit Dallas and Fort Worth merchants to recoup their losses by taking from Oklahoma merchants.

Oklahoma To Suffer "No portion of the advantages of the Trinity river can accrue to Oklahoma," Bond asserted simply means that the methods of doing business will change; and that portion of Oklahoma lying 60 miles south of Oklahoma City, Tulsa and Muskogee, will become tributary to the Dallas-Fort Worth trade territory and that farmers in Oklahoma will be required to shrink their sale prices in order to absorb the higher freight charges applicable on their pro-ducts to consuming markets than will be applicable on products of Texas in the vicinity of the Trin-

Bond said he had urged all conressmen to vote against "a propo-ition so detrimental to Okla-

Tower.

Hits At Texan, Cactus "Hold That Ghost" is backgrounded within a long-abandoned and supposedly haunted road-Opening in a night club, house. where Lewis and his band and the Andrews Sisters supply the entertainment, the vehicle moves speedily to a gas station, where Abbott and Costello accidentally become entangled with a gangster, inheriting the deserted inn when he is slain by police. With ghosts serving as their stooges, Abbott and Costello are said to make the sky the limit for their

laugh-provoking antics Those zany Mark Brothers, ap-

pearing in what has been adver-tised as their last Hollywood proaction together, return to theater row today—to be seen at the Tex-an in "The Big Store." The picture continues through Tuesday.

Starring the Marxes, Tony Mar-n and Virginia Grey, the ribtickler presents the brothers as store detectives who are attempting to unravel a murder plot and the same time gain possession of the store.

Another double feature high-lights the Cactus menu. Carole mbard and Robert Montgomery hold the laughable leads in "Mr. and Mrs. Smith," another one of those sophisticated comedies, and one of the twin bills. The other, "Out of the Fog," stars Ida Lupino, John Garfield, Thomas Mitchell and Eddie Albert in top notch character performances.

al

But even greater, expansion than has taken place during the past year is scheduled before the Panhandle-South Plains fair of 1942. This information was supplied

by W. G. Newton, manager. During the next year, he reported, the number of farm homes served with electricity through the cooperative will be increased from the present 1,500 to approximately 1,800

New Building Planned Approximately 200 miles - of lines will be added to the 665 miles which are now in service Most important of all, it is expected that within the near future, headquarters for the cooperative will be removed from their present downtown location at 1107 Ave nue G to the new building to be erected on the Plainview highvay near the northern edge of the city limits.

Compared with other expense anticipation.

To Be "Community Center" It is to be a good deal more most

purchased from the city of Lub-bock, and it is to serve as a sort It is of community center for mem-hers of the cooperative when they state, is operated and maintained during each season number in the and their families visit Lubbock, Provision likewise will be made parks board. in the building or on the premises for demonstrations of various

It is not at all improbable that Texas, written in the years to come, the official records have been kept, and a large several barbecue pits for having build be given credit entered the autor of visitors who have Yet during those years when for having brought greater changes entered the gates, of Mackenzie and a large picnic shelter in the standard of living than al- state park has been larger than in most any other agency.

Before the cooperative came in-to existence about five years ago, farms in this area with electric-ity were few. Now they number the period from June 1 to Oct. 1. Available there are tennis courts, the period from June 1 to Oct. 1. Available there are tennis courts, the period from June 1 to Oct. 1. Until the past year, gate counts ity were few. Larger Use of Electric Energy on the Panhandle-South Plains is Contributing to the Growth of This

Great Section!

**ELECTRICITY** Our Greatest Servant

Did you ever stop to count the many blessings electricity brings you? There's light for living, reading, working; power that gets your work done quickly . . . ironing, washing, cooking—even when you go outside your home, electricity is working for you in electricity, stores, movies. Electricity is Man's greatest servant—and his least expensive. Electrical service has steadily decreased in cost through the years, yet steadily increased in usefulness. Everyone can live electrically now and enjoy life more.

61 Vocations In Sight WACO, Oct. 4 .--- If dreams are this year's student body to 61 vocations, a questionnaire revealed today.

More students plan to enter educational and business fields than any other scope of activity. Three undred and eighteen girls and 47 boys have teaching as their aim, and 198 boys and 181 girls will enter business and commercial fields.

The ministry will get 197 boys, the law 111 boys and nine girls, and medicine 175 boys and 54 girls. Still undecided are 198 girls and 131 boys.

Our nation's tremendous and ever-growing Defense Program needs more than steel and iron more than planes and tanks and ships and guns. It needs food-food to keep strong our boys in training-the men who are building our defense materials-the people of civilian America and the freedom-loving peoples in other

lands. You producers have been asked by Uncle Sam to increase your production of poultry, eggs, milk and cream to the utmost. And you can do it with the complete confidence that we will help you dispose of all you produce at a good cash price.

We offer a daily cash market for your everyday, as well as your increased, production. We pay cash for your whole milk, cream, eggs, and poultry. We also pay cash for your turkeys, hides, etc. We can take all you can produce which we will process for use of the people of America and of other countries who are resisting aggression. Now is the time to increase your production to the limit-with complete assur-

ance that the daily cash market we offer will absorb all you can produce.

Lubbock, Texas, Sunday, October 5, 1941

THE LUBBOCK AVALANCHE-JOURNAL-PAGE NINE

## Six South Plains Counties Among First 26 Cotton-Producing Counties In State

## Lubbock Second In Allotments

Northwest Texas is rapidly be coming a leading cotton producing 'area of Texas with six counties placing among the first 26 counties in the state in acreage allotments under the 1941 program of the Agricultural Adjustment administration, according to official acreage figures.

Four other West Texas coun-ties also place in the high 26.

Lubbock ranks second in acreage; Lynn, eighth; Lamb, 11th; Dawson, 16th; Hockley, 17th and Terry, 23rd. Jones ranks ninth; Runnels, 18th; Haskell, 21st and Fisher, 22nd.

In recent years these counties have placed high in the first 25 counties in production, although not always in the same order in which they rank in acreage. -

## Mail Carriers Are Kept Busy

Lubbock's 19 city mail carriers walk a fraction under 11 miles per day each, to deliver an aver-age of 840 letters and 322 papers and magazines, with a total mail weight averaging 123 pounds.

These figures were obtained by Walter Clark, foreman of the local work room, during his annual inspection last fall of all the city routes, according to Postmaster Amos Howard.

Hundreds Of Boxes On the six rural routes out of Lubbock postoffice there are approximately 1.380 boxes. In several of the boxes on each route. more than one family receives mail, so that it is estimated there are several hundred more families

than boxes who are actually served on these routes.

Each year, generally in October and November, the postmaster or the carrier foreman, makes an aninspection of each route. He number of pieces of mail delivered, weight of the mail, and other statistical information.

Record Of Average Day No inspections are made on Mondays or Saturdays; no inspections are made following a holiday, or on the first and second day of the month. This is done because the postoffice department wants an average day's work, and mail is heavier than normal on days following a holiday, and on the first and second day of the month because of the delivery of

monthly statements. Another annual inspection will be made this month. Because of he increase in business at the postoffice, Postmaster Howard anticipates a decided increase in a

summary of inspections. Lubbock's postoffice now has 80 persons employed, including the postmaster and custodial service. When the new building was occupied, approximately nine years ago, there were 37 employes.

Employes Are Listed Employes today include: the stmaster and three supervisors, M. M. Brown, assistant postmaster; John R. Green, superintend-ent of mail and Clark, foreman; 23 regular carriers, 29 clerks, nine substitutes, two special delivery carriers, six rural carriers, and

seven on the custodial force. In 1932 there were two super-visors, 14 clerks, nine carriers, six rural carriers, three substitutes, a special delivery carrier and a custodian.

Summary of the last annual inspection gives the following: eight carriers ride 68 miles daily on the city bus to get to and from their routes; 19 city carriers walk 208 miles daily, deliver 15,967 letters, 6,723 papers and magazines, weighing an average of 2,337 pounds.

Trucks Are Used Three government trucks travel an average of 11.5 miles daily, delivering 628 parcels. One of the trucks, however, devotes an av-erage of seven hours a day to collections of mail and to relaying of mail from the postoffice to storage boxes on the 19 routes. The 19 city carriers deliver mail on business and residential routes, with the other carriers using trucks.

Nearly one-third the watches imported into South Africa last year were from the United States. day in shirtsleeves

PAGE TEN-THE LUBBOCK AVALANCHE-JOURNAL Lubbock, Texas, Sunday, October 5, 1941 Dial 4343 For The Avalanche-Journal Offices Planting Time Finds Area With Abundance Of Moisture, Volunteer Crop This Year's Crop Silkworms Learn American Way, Spinning Silk In Alabama RE-LAX ...

Wheat planting time is here for Texas farmers, particularly North-west Texas, and, with an abundance of moisture and a good crop of volunteer wheat to wrestle with, farmers have the problem of getting the crop in and also harvesting cotton and sorghums.

September rains played havon with wheat, following those in May and particularly June, which upset the hopes and aims of wheat oducers for a huge crop, a near ecord. Condition on June 1 for the South Plains indicated tween 15,000,000 and 20,000,000 largest since 1937. A nonth later, the crop was less than half the expected one 30 days before, as dashing rains beat down stalks so badly that much of the acreage could not be harvested.

Came rains during harvest, and the job, instead of being completed in an average of three weeks, was extended into late August. In fact only in recent weeks has threshing been finished. Old fashioned binders were dug out of fence corners and used for the first time in a decade; threshers, where found, were reconditioned, while those farmers with combines, used them to thresh out the

Fields that had greatly reduced yields later found when summer rains started volunteer wheat to germinating the volunteer wheat had to be turned under two and three times to kill it out. This has delayed planting and it is only now getting well under way.

#### Early Pasturage Seen

However, the underground moisture is there, and top soil moisture to bring up the crop, so that there should be plenty of early pasture. Continued fall rains will probably result in excessive wheat during

## **One-Variety Cotton Groups Increasing In Area; 104,100 Acres In 23 Units**

## Four Counties Have Programs

fices

p

Several thousand cotton pro-ducers in four counties, Hale, Floyd, Briscoe and Swisher, are in 23 one-variety groups that will gin more than 104100 acres of cotton one variety program sponsored by the surplus marketing administration of the USDA.

Paymaster cotton, developed by Joe W. Jennings is the choice of all but a few farmers in two groups. Jennings was with Anderson, Clayton & Co. when he began the breeding a decade or more ago. Today it is known as Paymaster-Jennings.

Hale County Leads In two gins a total of 394 acres of another approved type of cotton are to be ginned; there are 103,-796.9 acres for the Paymaster-Jen-

nings variety. Hale county has the largest acreage, 50,162.3 acres of Paymaster-Jennings and 394 of the other variety; Floyd county has 47,948 acres; Swisher, 3,296 and Briscoe, acres; Swishe 2,390.6 acres.

Hale county gins, and acreag are: Plainview Coop., 4,065; George W. Blackwell, Hale Center, 3.038.9; J. J. Caudle, Hale Center, 8,587; Halfway, 8,053.4; J. J. Caudle, Abernathy, 12,694.3; Starnes, Cotton Center, 1,358.5, and 382 of other variety; Hale Center Coop., 13,325.2; Whitfill, Plainview, 40 and 12 of the other variety.

Floyd Groups Given Floyd county gins and acreage are W. T. Rankin, Lockney, 2,041; Patterson, Lockney, 6.829; J. E. Newton, Daugherty, 2,559; McCoy, Floydada, 4,520; Lakeview, Floydada, 2,627; Scott, Floydada, 1,820; South Plains, 2,501; V. E. Spears, 2,927; Lockney gin, 4,896; Farmers Coop. Floydada, 4,680; Davis, Floydada, 7,003; Aiken, Aiken, 5.545. -

Swisher county, Swisher Coop gin, 3,296 Briscoe county, Silverton gin 2.390

Paymaster-Jennings cotton has been developed over long periods. It can be grown both under dry land and irrigation conditions. Hohenberg & Co., of Dallas, has been selected to handle the marketing to the textile trade, direct. Spinners have purchased the cotton from gins in previous years. All cotton will be classed Lubbock by the Agricultural Marketing service district office, at Texas Technological college in the textile engineering building, L. O. Buchanan is head of the service. The crop is late this year, and tobably it will be the middle of the month before samples begin to arrive in Lubbock.

TEXAS YAMA GIRLS DIG FOR BRITISH-What a dish for Allies abroad when the British receive this carload of East Texas Yams, plowed, crated and packed by the most pulchritudinous Yama girls of Gilmer, Texas. The yams are a generous donation from the East Texas Yamboree which will be held in Gilmer October 22nd through the 25th.

## **Fairyland Trip** At Small Cost

(By The Associated Press) CHICAGO, Oct. 4." - People vhose income dictates a modes existence are setting a glimpse o living in the grand manner since the University of Chicago ac quired Mill Road Gardens.

The university has put down the welcome mat at the \$3,500,000 estate 30 miles north of the city, near fashionable Lake Forest. Gates which once were closed to all but select visitors have been pened to anyone who wants to

pay the price equivalent of a movie ticket. The 416-acre estate, a horticul-turist's fairyland, was donated to the university by Albert D. Lasker, former chairman of the board of Lord & Thomas advertising agency and once chairman of the

U. S. Shipping board. Estate's Future Undecided Lasker stipulated that the uni-

versity hold the property for two years while it determines whether the estate can be put to an educational use. Thereafter the un versity may dispose of the estate as it sees fit. No decision has been announced.

For three weeks in September and October the gates will be open for a Chrysanthemum show, featuring acres of hardy strains developed under the direction of the university botany department. The estate is centered by a 50room French provincial manor house surrounded by 92 acres of formal grounds and gardens. half million dollars worth of furnishings, most of them antiques, ffill the structure.

just two fundamentals to baton twirling, says talented Betty Atkinson, one of the country's better drum majorettes. One is the finger twirl, used by the old cane manipulators in vaudeville, and the other the two-handed moulinet. The moulinet is purely wrist The changing of hands, which requires greater skill, is taken up after the wrist motion is mastered. Then come the tricks-Figure 8, butterfly, around the neck, under the leg, pitch and toss. In these pictures, Betty, who both skates and twirls a baton in "It Happens On Ice," uses her 36-inch, 18-ounce baton to show the hand action. She holds the baton an inch and a half above center balance

than 30,000 people

Lubbock has held and strength-

ened its position during 1941 as

one of the most important con-

vention and gathering centers of

Texas

The second annual convention of the Permian Basin association drew an estimated attendant st standards esof 1,000, and the annual Russell Morrison Beauty show approxiederal and state mately the same number.

Attendance at the convention of the Texas federation of Busi-ness and Professional Women's clubs was placed at approximately 800, while three separate district or regional gatherings of the

American Legion attracted total attendances of nearly 1,500. Outof-town registrations for the annual spring market of Western Wholesale Market association to-

taled nearly 1,000. As pointed out by officials of the chamber of commerce, the meetings have added very sub- bra. stantially to the business revenue

that the city has received. Indications now are tist, Lubbock will continue in its

position as a conventions conter. Several important meetings already are scheduled for the near or relatively near future The convention of the Texas Sheep and Goat Raisers associ-ation is set for Oct. 23-25, inclu-

sive. Those of major nature awarded to Lubbock for 1942 include the following

Movie Cartoon Trade Turns To New Colors NEW YORK, Oct. 4. U.P.- American ingenuity is capitalizing world turmoil in a comparatively tiny but widely known phase o industry-the movie cartoon ness.

Color is an essential commodity n this work and the ingredients for better paints formerly were imported from all parts of the world. Today when the finest gums from Arabia and sepia, for example from a sac of the cuttlefish in the depths of the heavily mined Medterranean, no longer can be imported in quantities, if at all, synthetic bases are being used m and more.

An entire feature - length cartoon, "Mr. Bug Goes to Town," was screened here privately for home office executives of Paramount, which will distribute this picture among American exhibitors during the winter. Dave Fleischer, producer of the picture, which used more than a milli drawings and nearly eight tons of paint while it was in production in the Fleischer studios, Miami, recently, credited the unusual definition of the characters and consistently true and clear graduations of color, of which there are more than 4,000, to the inventiveless of his paint mixing depart ment

- Synthetic colors, according to Jack Lunnon, one-time color expert for Rolls Royce, and now color authority at the Fleischer studio, can be "controlled" to the very scintilla of a shade. Original ingredients tend to vary in quality e can tracts be located so that one batch of paint may be lighter or darker than the other although the same formula was used for both. The synthetic colors which he has compounded also have less tendency to, chip and flake off and have geater resistance to heat, which is all important in motion picture work.

> Square Dance 'Callers' Have Big Following

THE LUBBOCK AVALANCHE-JOURNAL-PAGE SEVEN

Twenty-seven years ago the first edition of the Panhandle - South Plains fair opened its gates to the people of this great plains territory. It was a great occasion, but little did its directors realize that it was destined to become the institution that it is today. A fair that on its 28th anniversary tells of the wonderful progress this territory has made in these few short years. Many changes have been made, new buildings built, better attractions added to make the 28th edition of our fair the best ever.

Down through the years, these three institutions have matched stride for stride in the progress of Lubbock and this great South Plains territory, with the continued betterment of our community, ever in mind, our officers are always at your service to discuss your problems, both personally and commercially, always ready to render whatever assistance possible. Proud of their part in "The Brightest Spot In Texas."

So, it is with pride that we welcome you again to the Panhandle-South Plains fair in Lub-

bock October oth through October 11th.

## Home Talent Plus Multiple Personality Is KFYO's Record Over South Plainsc

## ubbock Station One Of Finest **Equipped Over Entire Nation**

Adding a new twist with a flips of the wrist, the "voice of the blains"-Radio Station KFYO oasts a multiple personality.

To describe a radio station as mething with personality may considered exaggeration to a egree, but such is the case when ubbockites and South, Plainsmen ne 1340 on their dials

In other words, KFYO is more han just a voice that fills the 'exas air waves, as a look behind. the scenes reveals:

Highly Departmentalized Perhaps as highly departmental-ized as any business — and radio is one of America's booming busisses today - in the city, Station KFYO may look to the outsider something like a college hodge-podge. Not so, Those people have well defined tasks, jobs that must be done and on time. One just doesn't say "wait a minute" into a microphone.

The man who "pulls the switchs," of course, is none other than Judge" DeWitt Landis, manager the station

## Lubbock Population Figures Reveal Startling Growth In Past Three Decades

## **Census Figures** Are Reviewed

For revealing facts about Lublock's population, go to the censu aker

The latest census figures reveal tartling facts about Lubbock's i-mpressive growth in its

comparatively brief history test ing urban area are indicated by **SPOT IN TEXAS** its age groups. At the last of-ficial census 12,614 persons in the corporate limits were under 19 ears of age. That is 39.6 per cent. Next largest age group was the 30 to 44-year-old group, which numbered 7,008, or 22 per cent. The age group between the two largest, ages 20 to 29, was a close ird with 6,944, or 21.8 per cent. Therefore 83.4 per cent of Lubock's entire populat 4 years of age

bers 2,994, or 9.4 per cent. The group 54 and over numbers. 2 per cent

Official Records Given Colored household help is more eadily available in Lubbock than lsewhere in the surrounding area. A total of 9.3 per cent of the total pulation here is colored, as compared with a total colored popuation of only 2.9 per cent for the entire South Plains.

Unimpeachable evidence the town's rapid growth is contained in the official census records of the past. Here they are, pared, with the figures for the outh Plains area:

	Lubbock	S. Plains
1910	1.938	29,392
1920	4.051	56.974
1930	20.520	162,606
1940	31,853	190,674
Lubbo	ck's growth, a	is the figures

dicate, has been ahead of the general South Plains growth. Population of Lubbock in 1940, Land In Gaines Sold

as indicated by the official rec-ords, was 31,853. The population of greater Lubbock, including Texas Technological students an the bordering residential sections was 39,099.

**Give Attention To Tastes** In view of the influences of mopictures upon children. schools, parents, civic groups and others should give greater attention to the movie tastes of youth in the opinion of Mrs. Savage. In her recommendations at conclusion of the thesis, she wrote that, "Since the statistics in the foregoing tables show that the screen is increasingly furnishing patterns of children's play, pat-terns of dress, patterns of speech, patterns of behavior and patterns. of attitudes, the Lubbock clementary schools can no longer afford to ignore this vital factor

Urges Course Of Study= course of study in mot appreciation should be de veloped for the Lubbock elementary schools on the level of boys girls from the fifth through and the seventh grades," she recom-

"This course of study should be designed to develop good taste in the choice of movies and enable the youth to shop wisely for their pictures

Teaching of motion picture appreciation, she believes, could integrated with the teaching of the language, arts, which include reading, literature and language

Extensive Survey Made, Practices and preferences of 98 children in the sixth grade in three Lubbock schools were studied in an extensive survey made by Mrs. Savage last school term and compiled during the summer. The students ranged in age from 10 to 16, the majority being 11 and 12 years old. They were members of families of below average, average and above average economic status. Forty-five were boys and 53 were girls. The students indicated the boy and girl go to the movies principally "for entertainment," while the second and third reasons in importance are "to learn about places and things" and "to get

stirring pictures.

Lubbock, Texas, Sunday, October 5, 1941 Vitamins Are Okay In Their Place But Lubbock Still Proud

Of Its Magnificent High School Building

Over a thousand students will go back to school Monday to a building that has the appearance of one that is practically new. In reality, they will enter a school that began its 11th year in Septembe

With the title of the finest structure of its kind in the South-west, Lubbock Senior High school was started in the spring of 1930. finished in the spring of 1931 and the graduating class of 1931 held the first commencement exercises in the new building. That first class to be graduated numbered 228 and exercises were held May 13 when 1,516 seats, were filled, 400 people stood throughout the service and many others, were turned away.

An account of that first pro-gram in the Senior High building states: "George R. Bean, former county judge and former member of the board of education, delivered the address in which he gave a brief summary of the city school growth." The speaker paid tribute to E. R. Haynes, J. K. Wester and M. M. Dupre, former superintendents and to M. H. Duncan, presen superintendent; the statement read. Presentation of diplomas was made by Dr. J. T. Hutchinson, president of the board of trustees who at that time was finishing his 22nd year in that capacity. The first classes held in the \$650,000 building were begun in the fall of 1931. The board of ed-

ucation serving at that time was composed of Dr. Hutchinson, president, S. C. Wilson, vice president, C. E. Maedgen, secretary and W. B. Atkins and R. F. Bayless. A. C. Jackson was business manager and M. H. Duncan, superintendent. Architects were Peters Strange and Bradshaw and D. N

WASHINGTON, Oct. 4. - That big V stands for "vittles"-not vitamins-in John J. Soldier's life. The people who direct the care and feeding of the U. S. Army definitely are vitamin-minded but the soldiers themselves aren't get ting that way.

New trainees and veterans alike have unhesitating appreciation for roast beef or stewed chicken and dumplings. They attack a moun of mashed potatoes and gravy. with magnificent elan and the way they polish off banana cream pie is as impressive a gastrono blitz as you would ever hope to see. But they leave it strictly to the Army's food specialists to worry about nutrition values.

**Biggest Problem Is Monotony** The Army ration, with its 39 component items ranging from 10 ounces of beef to sugar and syrup and scores of substitute foods, is figured to supply 5,000 calories a day for each soldier. From 4,500 to 4,800 calories are rated sufficient for a stonecutter.

Miss Mary I. Barber, food con sultant to the Army, says that while nutrition is a primary con-sideration, it isn't a particular problem because the ration coniins a more than adequate allotment of vitamins," minerals and other health-building elements. "Our immediate concern is to

avoid meal monotony by providing a variety of tasty, well-bal-

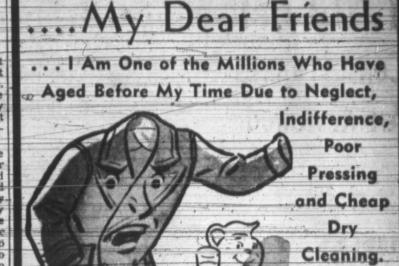

anced meals," she reports. <u>The Army cook book already</u> has 331 recipes, some 90 of these for cooking meat. Shy on variety and mysteriously heavy on vinegar was the army ration back in 1776: A pound and a half of beef, 18 ounces of flour or bread, salt and a gallon of vinegar. Some researchers think vinegar might have been spruce beer.

in Lubbock at the present time. In other words, if that sum had stretching around the bole of a been spent on office buildings, it would have constructed 19 1-2 buildings the size of the Lubbock National Bank building. Or, dis-counting, the sliding scale of expense in building skyscrapers, it hadn't heard the place is for sale. would have constructed a building the length and width of the Lub-

But 19 1-2 Lubbock National buildings would look strange in Lubbock, as would a 160-story sky- thought scraper. So just take a look at the average home in Lubbock.

#### Average Cost \$2,714

Lubbock's average home constructed in the last five years was there: tage costing \$2,714. It was built on glance at the numerous trees, and a 50-foot lot.

It has five rooms and a bath with a garage attached, or four ms and a bath, garage separate. It is of frame or asbestos construction, with perhaps a little brick trimming, with a wood shin- tall, distinctively slender trees he gle or asphalt composition shingle roof.

It may or may not have venetian blinds. It has a floor furnace, in-laid linoleum, oak floors, inexpensive but modern light fixtures, white or ivory woodwork, a builtse or china clo

\$35,000 Permit Listed It may or may not have a fireprobably without even a chimney There's a concrete driveway and sidewalk, a wooden fence, two hydrants, one in front and one in back, and probably a servant's oom or laundry room in connecon with the garage. Wallplugs ge one to a r That's a typical Lubbock home. The extremes on one side - resicosting \$150, \$300 and \$400 are balanced on the other side residences costing \$10,000, \$15.-00 or near the largest figure shown on building permits in re-cent years, \$35,000. Often in resiice work - especially large residences - the total cost is not on the building permit.

Figures Released Figures for 1940 were compiled by Building Inspector Jim Reid to show the number of homes in man ran up to B. E. Needles, Chinese elms stand."

price class constructed during the year. The figures in the following table reveal that more homes costing \$2,000 to \$4,000 were istructed and that they had the largest combined valuation. Homes under \$2,000 were built in large numbers but contributed less to the total valuation. Homes above \$7,500 were fewer in number but contributed a substantial figure to Here's the table:

	NUMBER	VALU-
COST	BUILT	ATION
Under \$1,000	115	\$ 41,330
\$1.000- 2,000	29	41,130
2,000- 3,000	197	502,111
3,000- 4,000	194	648,025
4,000- 5,000	66	286,863
3,000- 7,500	48	275,722
7.500-10,000	2	16,823
Over 10,000	4	62,823
Apt. Houses	5	146,100
Total	223	\$1 925 000

It's interesting to note how the average cost of residences has varied in the past four years. The avrage of the four years 1937-40 (that \$2,714 given above) apparently differs from year to year, de-pending on local business conditions, the specific amount available through the Federal Housing authority and other factors. In 1937 the average cost was \$2.542; in 1938 it was \$2.361; in 1939 it rose to \$3,049; in 1940 it sank slightly to \$2,939.

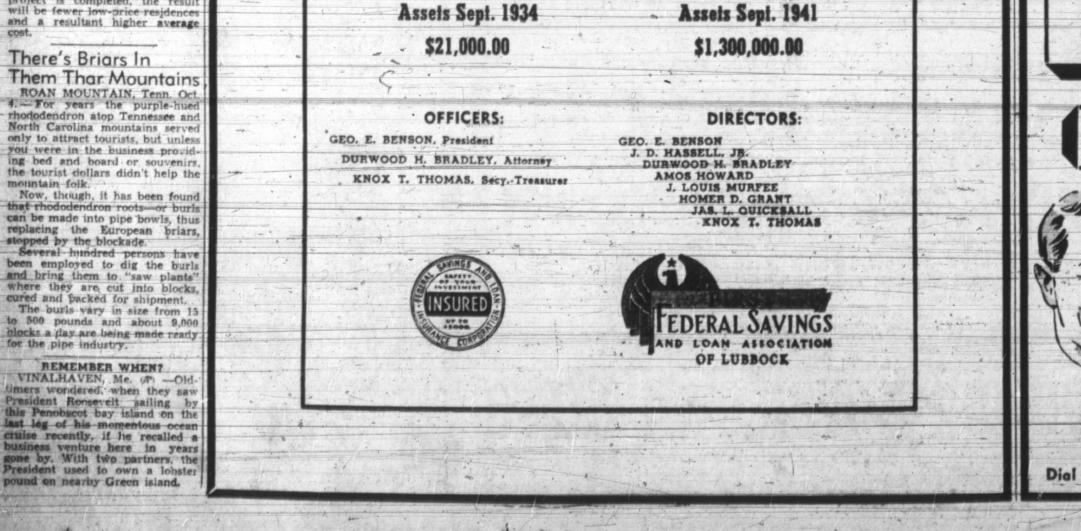

In 1941, in the face of rising prices, chances are that the aver-age cost will increase over any figure of the past few years. In 1942, if the housing and slum clearance project is completed, the result will be fewer low-price residences and a resultant higher average
