

# NEW DEFENSES ARE SHAKEN

## House Committee Okays \$5,985,000,000 For War Effort

**NEW YORK**—If the Rev. Dr. Carl E. Herford, pastor of Lubbock's First Baptist church, had been with The Plainsman and the Little Women last Sunday morning he would have doubtless been surprised.

If our good friend, Rev. Jeff Welch, of the Central Baptist church, had been along, he probably would have gasped, and Rev. Ben Johnson, of the Tabernacle church, had been on hand he would have jumped a foot high.

You see, we went to morning services at Riverside church—one of the richest and greatest churches in all the world—and it wasn't at all like Baptist services in Texas.

Riverside church is located at One Hundred Twenty-second street and Riverside drive, almost directly across from Grant's tomb and overlooking the broad sweep of the Hudson river and Hoboken, over on the Jersey side.

It is known as "the Rockefeller church," because devout Baptist John D. Rockefeller the First, and the present John D. are its greatest patrons.

They won't tell you how much this gorgeous building cost, that being a secret although we don't know why.

But the tower is 28 stories high and rises 400 feet above the sidewalk; its famed 72-bell carillon—a gift of the Rockefellers—is the finest known to man—its marvelous architecture and beautiful symbolism makes it one of the world's truly great church buildings.

### Prices Break \$1.50 A Bale Following Federal Forecast Cotton Crop Estimated At 11,061,000 Bales

**WASHINGTON, Oct. 8.**—The agriculture department estimated today that this year's cotton crop is 11,061,000 bales of 500 pounds gross weight, based on the Oct. 1 condition which was 64 per cent of a normal.

The department reported the indicated yield of lint cotton to be 234.2 pounds to the acre and the area for harvest, 22,633,000 acres.

A month ago 10,710,000 bales were forecast on the basis of the Sept. 1 condition of 65 per cent of a normal, which indicated a yield of 226.8 pounds to the acre.

Production was 12,366,000 bales last year, when the Oct. 1 condition was 72 per cent of a normal, the acre yield 252.5 pounds, the area harvested 23,861,000 acres.

Average cotton production over the 10 years, 1930-39, was 13,246,000 bales, the Oct. 1 average crop condition 64 per cent of a normal; the acre yield 205.4 pounds; and the average area harvested, 31,122,000 acres.

The census bureau reported that cotton of this year's growth ginned to Oct. 1 to include 101,179 round bales, two years ago.

Details of the agriculture department's estimates, by states, showing the acreage remaining for harvest, the Oct. 1 condition, the indicated yield and the indicated production, include:

Arkansas 2,038,000; 74-355 and 1,510,000; Louisiana 1,052,000; 45-153 and 335,000; Oklahoma 1,825,000; 72-209; and 710,000; Texas 7,922,000; 64-170 and 2,800,000; New Mexico 118,000; 79-467 and 115,000.

NEW YORK, Oct. 8. (AP)—Cotton futures broke sharply today after the federal crop estimate placed the crop at 11,061,000 bales, 651,000 bales larger than some speculative figures made earlier in the week.

Prices broke \$1.50 a bale following the federal forecast. Cotton futures broke sharply today after the federal crop estimate placed the crop at 11,061,000 bales, 651,000 bales larger than some speculative figures made earlier in the week.

**TEXAN RESCUED**—George Hopkins, San Antonio parachutist, grins in relief as he walks away from the 1,280-foot Devil's Tower in Wyoming in which he was isolated for almost a week. Skilled climbers brought him down Monday night. He landed by parachute atop the strange rock formation last Wednesday.

### Nazis Advance Just 125 Miles From Capital

#### Reds Admit Grave Crisis; Germans Fight As Beasts

**(By The Associated Press)**  
The German army has pushed to within 125 miles of Moscow and has thoroughly shaken the outer defenses of the Soviet capital, a German military spokesman said today.

"Not detached raiding groups which forget far ahead, but a solid German front is within 125 miles of Moscow," the spokesman asserted.

The high command said Moscow's defenses had been breached in the great new German offensive and several Soviet armies encircled and threatened with destruction.

Like "Mad Beasts" Soviet dispatches said the Red army was holding grimly against the fury of the tank and dive bomber offensive by which the Germans seek to reach the capital before winter.

The army newspaper Red Star declared the Nazi onset—hitting hard and at high cost—won some initial advantage in wedges near Vyazma and Bryansk but there was no sign that a major breakthrough had occurred.

Red Star said the Germans launched the central front push "with the fury of a mad beast" and were "straining all efforts regardless of losses."

Soviets Still Confident The paper called upon Marshal Semeon Timoshenko's army to stand its ground despite bombing and tank attacks. It declared Russian artillery, mined tank traps and the Red army's own tanks would blunt the Nazi thrust.

A single Russian infantry division was said to have destroyed more than 300 German tanks with improvised flamethrowers—explosive bottles of gasoline.

4,000 Said Killed Russian military dispatches also reported that on the northern front 4,000 German and Finnish troops had been killed and many more captured in an 18-day battle along a river identified only as "L."

Nazi military dispatches said the entire south wing of the Soviet army had been broken by a German drive which has already engulfed Ossiipenko and Mariupol, on the sea of Azov, and is threatening the Don river port of Rostov, gateway to the rich Caucasian oil fields.

German battle flags were reported within 100 miles of Rostov (Turn to Page 6, Column 5, Please)

VOL. 18, NO. 23 LUBBOCK, TEXAS, "The Hub Of The Plains", WEDNESDAY, OCTOBER 8, 1941

### KIDS THROING FAIR

**School Buses Arrive Early With Visitors**  
Hundreds Are On Hand; Record For Lubbock Day Set

**BY H. I. KIEFER**  
Journal Staff Writer  
Despite early morning fog and cloudy skies, arrivals were early at the Panhandle-South Plains fair today for the first of the two Children's days of the 28th annual exposition.

The second Children's day will occur Thursday. Lubbock city schools recessed at noon today for the first day.

**Close City Bus First**  
The first of nearly 100 school buses expected today pulled into the grounds at about 9 o'clock from the Close City school located 16 miles east of Post. The 37 children aboard were in charge of R. B. Durham, the driver.

The weather caused fair association occur Thursday. Lubbock city schools recessed at noon today for the first day.

**Jap Press Asks Axis To End Russian War**  
TOKYO, Oct. 8. (AP)—Dome in a special article, today urged the Axis powers to terminate the war with Soviet Russia to conserve German resources in manpower and equipment for an all-out assault on Great Britain.

The news agency warned that if the war with Russia is extended over a long period the Axis powers may be faced with a dearth of materials because, it said, they are a union of "have-nots."

Britain and America, on the other hand, the agency declared, may become stronger because they represent a union of "haves."

**"Marriage" Of Woman, Posing As Man, To Young Girl Bared**  
LOS ANGELES, Oct. 8. (AP)—Francis Orlando, 31, confessed to police today that after posing as a man for 15 years she married an 18-year-old Sacramento girl last Labor day.

She was arrested at a film studio where she was employed as a carpenter under the name of "Richard Orlando." Her arrest "for investigation" was requested by Sacramento police who said Elizabeth Nanz disappeared from her home there Sept. 1 and was believed to have eloped with the carpenter.

She voluntarily confessed the hoax as police questioned her preliminary to a routine physical examination.

In a husky voice which might have passed as a man's, she told of her courtship of Miss Nanz, their marriage and their trip to Los Angeles where she found the studio job.

"We eloped from Sacramento and were married with a license and everything, in Minden, Nev., on Labor day," she said.

### Man Who Fired The Shot That Killed Oklahoma Warden In Bloody Break To Face Death

**(By The Associated Press)**  
McALESTER, Oct. 8.—Convict Hiram Prather was convicted today of murdering Warden Jess Dunn during a bloody prison break August 10 and sentenced to death.

A district court jury reached the verdict after deliberating 8 hours and 10 minutes.

The state convicted Prather, one of four convicts who seized Dunn as a hostage, was the man who fired the shot that killed the warden.

His three convict pals in the break were fatally wounded by Deputy Sheriff Bill Alexander, who trapped them in a dead end street as they fled the prison in a commandeered automobile.

They were Claude Beavers, 39, serving life for murder of a guard during a 23-man break in 1934; Roy McGee, 36, serving 15 years for armed robbery; and Bill Anderson, serving 27 years for armed robbery.

Tab Ford, 52, a former deputy who accompanied Alexander on the chase, also was slain.

Prather, 34, was serving life for murder in McClain county.

**Four Persons Found Dead**  
EL PASO, Oct. 8.—A family of four was found dead of monoxide poisoning in an El Paso home today.

Police believed the victims were asphyxiated three days ago. They were identified as Mr. and Mrs. David Klein, about 70, and two children, Isaac, 56, and Florence, 45.

A gas meter reader discovered the bodies. A gas stove still was burning.

The mother's body was seated in a living room chair. The father and the son and daughter were sprawled on the kitchen floor.

Death was believed accidental. (Turn to Page 6, Column 1, Please)

**Man Literally Backs Into This Accident**  
PHILADELPHIA, Oct. 8.—(AP)—Survivor's Assistant Fred Tarnpell followed his boss' instructions and carefully he wound up in a hospital.

While Tarnpell held a stake, the surveyor sighted through his instrument and motioned him back—back—back—until Tarnpell fell over a 12-foot wall into a stream.

**Students Fined For Fair Disturbance**  
Five students of Texas Technological college were fined \$1 each for disturbance growing out of their alleged threats to enter Panhandle-South Plains fairgrounds without payment of admittance charges, police said this morning.

The episode, police said, happened Tuesday night. The youths, oldest of whom was 20, were said to have sworn at officials charged with keeping out any who declined to pay gate fees.

Ed Jones of 908 Third street reported a burglary of his residence. One dollar in money and a woman's watch were removed from a purse, Jones said.

Church lawns figured in the news. A group of boys gathered on one and addressed passing women with scurrilous and obscene remarks. At another a drunk was found "passed out." The drunk was arrested, but the boys had gone when officials arrived.

A man set officials on the trail of his missing daughter, who was suspected of having left home to marry a Slaton boy.

**Roosevelt To Make Request Tomorrow**  
Congress To Be Asked To Permit Arming Of U. S. Vessels; Quick Action Planned

**(By The Associated Press)**  
WASHINGTON, Oct. 8.—Legislative leaders reported today they had agreed that neutrality legislation to be introduced in the House tomorrow—following a message from President Roosevelt—would be confined to permitting American merchant ships to carry arms.

Those who attended a White House conference said it was agreed that such legislation could be sent through the House before the end of next week.

It was said reliably, however, that the president, Secretary of State Hull and Harry L. Hopkins, the lease-lend chief, still were hopeful that Congress eventually would also amend the existing law to lift the present prohibition against American ships traveling to belligerent ports or designated combat areas.

Hopkins, who had been reported taking the lead in an effort to have the law revised to permit the arming of ships and to allow them to travel anywhere, was said to have expressed disappointment at the decision reached at today's conference.

One of those who attended the meeting told reporters that if the legislation providing for arming ships went through the House by a substantial majority it was possible that the Senate foreign relations committee would consider broadening the measure to eliminate the restrictions on ship movements.

Chairman Connally (D-Tex.) of the committee said he would support such a measure.

**TCU Students Protest Ouster From Seats For Aggie Contest**  
FORT WORTH, Oct. 8.—West Texas hospitality is a fine thing, but there's such a thing as carrying it too far, students of Texas Christian university said today as they prepared to fight an edict that ousted them from their traditional east-stands seats for the TCU-Texas A. & M. football game here Oct. 18.

With 5,000 Aggie visitors expected for the game, TCU officials decided to give the visiting school the east stands and shift students of the host school to seats on the west side between the three and 20 yard lines.

The announcement was followed by a mass protest meeting attended by students and six faculty members. All but one of the faculty representatives were said to have sided with the students. Another meeting was scheduled for late today.

Students said they would "welcome" Aggies. But they didn't feel so chivalrous.

(Turn to Page 6, Column 6, Please)

**STANWYCK NEGLECTS TO PULL PUNCH**—Barbara Stanwyck, left, went into hysterics after landing a hard right to the jaw of actress Kathleen Howard and fracturing the latter's jaw. The punch, delivered during the filming of a picture, was entirely a miscalculation and sent Miss Howard to the hospital.

### Clemency Refused Pair Facing Death

#### Appeals Court Also Refuses Rehearing In Kidnaping Case From Port Arthur

**(By The United Press)**  
AUSTIN, Oct. 8.—Death penalties for Richard Robinson, convicted of rape in Harris county, and for Emiliano Benavides, convicted of Taylor in Schleicher county, were left in effect by decisions of the court of criminal appeals here today.

The court also refused a motion for rehearing of the case of W. C. Welch who was given a 15-year sentence in Jefferson county on a charge of kidnaping Irwin Mingle.

**Attacked White Woman**  
Robinson is a negro. He was charged with an attack on a white woman on Aug. 8, 1940, and his death penalty conviction was affirmed today.

Benavides was refused a rehearing. The court of criminal appeals previously had affirmed his death penalty for killing Henry Calcoete on Sept. 5, 1940, when Calcoete's mother, wife and baby also were slain.

The Welch case had attracted much interest. Mingle, son of Fred Mingle of Port Arthur, was kidnaped Dec. 8, 1939, and \$15,000 ransom asked for him. In refusing the rehearing today the court said that the father had identified Welch in his testimony.

**Leap From Car Fatal For Oklahoma Woman**  
WICHITA FALLS, Oct. 8.—Mrs. F. F. Taylor, 57, of Ott, Okla., yesterday became frightened and jumped from a moving automobile that was on fire.

Severely injured, she died in a hospital here early today, 14 hours after the accident which occurred six miles east of Wichita Falls.

A leaky gas line "ignited" the motor of the car that was driven by her husband.

### Huge Fund For Lend-Lease In Solons' Hands

#### Germany's Defeat Not Yet Assured, Congress Warned

**(By The Associated Press)**  
WASHINGTON, Oct. 8.—The House appropriations committee approved a \$5,985,000,000 lend-lease appropriation today with the statement that production of munitions has not yet reached the point where defeat of Axis powers was assured.

The committee reported to Congress that almost all of the huge new fund could be obligated by next March 1 and that delivery of material could be completed not later than June 30, 1943.

**First Picture Presented**  
And then, with publication of voluminous hearings on the appropriation, the members presented the first, overall picture of the lend-lease program which began with a \$7,000,000,000 appropriation last spring.

They asserted that production necessarily was slow at first; that there had been no abuse in utilizing the dollars; that the new fund was imperatively necessary.

"Munitions superiority must be achieved to insure the defeat of the Axis," the committee report said. "Production in the countries opposed to the Axis has not reached the point at this time to achieve this."

**Must Push Production**  
"The battle of production must intensify and increase until the torrent of war supplies pouring from this country and the aided nations completely overwhelms the productive efforts of the Axis."

"Our first line of defense lies in the lend-lease operations." The big fund was included in an omnibus bill which carried a total of \$6,159,416,229, representing a cut of \$5,054,545 in budget bureau appropriations for items.

**Students Fined For Fair Disturbance**  
Five students of Texas Technological college were fined \$1 each for disturbance growing out of their alleged threats to enter Panhandle-South Plains fairgrounds without payment of admittance charges, police said this morning.

The episode, police said, happened Tuesday night. The youths, oldest of whom was 20, were said to have sworn at officials charged with keeping out any who declined to pay gate fees.

# Judging Results From Panhandle-South Plains Fair Announced

## Future Farmers Take Honors; Boy Scout Winners Revealed

Along the judging front Tuesday at the Panhandle-South Plains fair...

Tierra Blanca farms of Canyon, owned by the McSpadden brothers of Amarillo, topped highest honors. It was announced, in the Poland-China division...

Lucky Boy, the senior champion boar, won the grand championship over another Sierra Blanca boar, while Fair Queen, junior sow, won the grand championship in the female class over another Tierra Blanca sow.

Douglas P. Founds, superintendent, made announcement of the selections of F. J. Dahlberg, the judge from A. and M. college. A good crowd, particularly of F. F. A. boys, witnessed the selections. R. E. Prewitt, secretary of the Panhandle Swine Breeders' association, was clerk.

Poland-China male division results were: Aged boar, Lucky Boy, Tierra Blanca farm, first; J. M. Henderson and Son, Hereford, second. Senior yearling boar, Solid Foundation, Henderson, first.

Junior yearling boar, The Banker, Henderson, first. Senior boar pig, Lucky Seven, Tierra Blanca, first; Tierra Blanca, second. Junior boar pig, Market Mixer, Tierra Blanca, first; Henderson, second.

Female division: Aged sow, Lucky Lady, third, Tierra Blanca, first; Leroy Weems, Lubbock, second. Senior yearling sow, Fair Maid, Tierra Blanca, first; Henderson, second.

Junior yearling sow, Fair Queen, Tierra Blanca, first; Tierra Blanca, second; Henderson, third. Junior sow pig, Market Lad, Tierra Blanca, first; Henderson, second; Tierra Blanca, third.

Senior champion boar, Lucky Boy, aged boar, Tierra Blanca. Junior champion boar, Lucky Second, senior boar pig, Tierra Blanca. Grand champion, Lucky Boy, Tierra Blanca.

Senior champion sow, Fair Queen, junior sow, Tierra Blanca. Junior champion sow, Lucky Miss, senior sow pig, Tierra Blanca. Grand champion sow, Fair Queen, Tierra Blanca.

Aged herd, Tierra Blanca, first, second. Breeder's young herd, Tierra Blanca, first, second; Henderson, third. Get M. sire, Tierra Blanca, first, second; Henderson, third.

Produce of dam, Tierra Blanca, second; Henderson, third. Ribbons Also Given: Grand prize-winners in the cub division were pack 3, sponsored by the Gleaners class of First Baptist church, A. A. Marchant, cubmaster, 45; and pack 10, sponsored by Junior High school, J. O. Kuykendall, cubmaster, \$2.50.

Troop 5 won the trophy offered to Lubbock scout troops and troop 28, sponsored by Falls Rotary club, won the cup offered to out-of-town troops. Bert Graham, scoutmaster of Troop 33, Troop 39 of Sudan, with E. Hamilton the scoutmaster, placed second. Troop 28, sponsored by Slaton Rotary club, won the trophy last year, did not compete.

Individual ribbons were won by the following scouts, all from Lubbock: Cub Leaders Named: Archery—Brac Briggers, Maurice Hood and Howard Lanford; model airplanes—Paul Stevens, C. E. Wallace and Charles Neff; Indian lore—Lanford, Fred Beasley and Fred McDonald; leathercraft—Bigger, Lanford and Jimmy Williams; neckerchief slides—Bigger; woodcarving—Bates Witt, Billy Ross and Maurice Green; and woodwork—Billy Adair and Howard Schmidt.

Ribbon winners among cubs were, in the order listed: Scrapbooks—John R. Duncan, Jr., Parker Stewart and Marilyn Smith, Jr.; soap carving—Tommy Cone and Billy Carter; beadwork—Carter; miscellaneous collections—Edward Strickland, Bob Schmidt and Dick Schmidt; leathercraft—Richard Allen and DeWitt Long.

Colton Cablet, was represented by four boys, said R. L. Stone, vocational agriculture teacher. They were, Oscar Allen, Earl Beach, Weldon Minchew and Bobbie Sgesser. The Lubbock High school group included V. C. Bozeman, Edwin Earl McWilliams, Jack Comel and Leroy Weems.

F. I. Dahlberg of Texas A. & M. college judged the animals. In short talks to the boys he discussed breeding and type, show methods and feeding.

Winners Listed: Harper announced winners as follows:

Duroc-Jersey, senior sow pig, Bozeman, Lubbock, third place; Junior sow pig, Charles Treadwell, Shallowwater, second place. Poland-China, junior sow pig, McWilliams, Lubbock, first place. Hampshire, senior sow pig, second, Minchew, Cotton Center, third; Beard, Cotton Center, third; junior sow pig, Comel, Lubbock, first.

Chester White, senior sow pig, Harold Heath, Hale Center, first; Johnston Bros, Floydada, second, third; John Bryan, Hale Center, fourth; junior sow pig, Johnston Bros, first, second, Heath, third. Fat pig, 180 to 246 pounds, Minchew, first; Johnston Bros, second, third. Sow and sucking pigs, Johnston Bros, first; Sgesser, second; Weems, third; Beach, fourth.

Scout Troop No. 5 Cops Grand Prize: Boy Scout troop No. 5, sponsored by First Christian church, repeated its victory of last year by winning the first grand prize of \$10 in the scout department.

Judges were K. N. Clapp, Sam A. Henry, Sr., and Roy Lynch. Second prize, \$7.50, was awarded to troop 8, sponsored by Allen Bros. post of the American Legion with Frank Runkles as scoutmaster. Troop 9, sponsored by First Baptist church, with F. P. Smith the scoutmaster, won third prize of \$5.

Ribbons Also Given: Grand prize-winners in the cub division were pack 3, sponsored by the Gleaners class of First Baptist church, A. A. Marchant, cubmaster, 45; and pack 10, sponsored by Junior High school, J. O. Kuykendall, cubmaster, \$2.50.

Troop 5 won the trophy offered to Lubbock scout troops and troop 28, sponsored by Falls Rotary club, won the cup offered to out-of-town troops. Bert Graham, scoutmaster of Troop 33, Troop 39 of Sudan, with E. Hamilton the scoutmaster, placed second. Troop 28, sponsored by Slaton Rotary club, won the trophy last year, did not compete.

### Pioneer Attorney Of Oklahoma Is Dead

DENVER, Oct. 8 (Special)—Festus Caruthers, 81, a member of the first graduation class of Texas A. and M. college, pioneer Oklahoma attorney and half-brother of Charles Quinby of 1316 Avenue O in Lubbock, died Tuesday after surgery.

A native of Corsicana, Texas, Caruthers studied law in Dallas after graduating from the Texas college in 1885, and in 1891 was admitted to the Oklahoma territorial bar.

He practiced law in Oklahoma City for a time and was a member of the original board of regents of Oklahoma A. & M. college. He was district judge at Perry, Okla., for

### New Scout Troop Is Organized At Olton

OLTON, Oct. 8 (Special)—New Boy Scout troop No. 130 has been organized under sponsorship of the Lions club here.

Truitt Sides is scoutmaster and Frank Cummings is assistant. Members of the troop committee are G. H. Bley, I. B. Holt, Elmo Bell, Roy Akeman and Winston Wofford. Scouts are Lonnie Bell, Jack Ed Cummings, Robert Dennis, Marvin Holland, I. B. Holt, Jr., Dickie Knight, Corky Norman and Eugene Gray.

Several years and later became chief clerk in the government land office at Oklahoma City.

### WAKE UP YOUR LIVER BILE

Without Calomel—And You'll Jump Out of Bed in the Morning! Rise to Go

The liver should purify 2 pints of bile juice into your bowels every day. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. There are blocks up your stomach. You get constipated. You feel sour, sunk and the world looks pink.

It takes those good, old Carter's Little Liver Pills to get these 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Take as directed. Effective in making bile flow freely. Ask for Carter's Little Liver Pills, 16¢ and 51¢.

## Brief Bits Of News

### Scout Court Postponed

A court of honor for negro Boy Scouts in Lubbock, scheduled for Thursday night in Dunbar high school, has been postponed until next week, according to Oscar Lee, commissioner.

### Man Housekeeper Is Best In Community

PATCH GROVE, Wis., Oct. 8 (AP)—Charles Tornowski has been putting Patch Grove housewives to shame for the past four years. He has the reputation of "turning out" the whitest wash in town—makes cakes which are a delight to the best of home cooks, and is the king-pin at all local fish fries.

### Daughter Born

A daughter weighing 5 pounds 14 ounces was born Tuesday afternoon in West Texas hospital to Mr. and Mrs. J. M. Teague, Jr., of Brownfield. The father operates an automobile agency.

### Adams Parents

Mr. and Mrs. John Adams of Anton are parents of a daughter weighing 7 pounds 2 ounces born Tuesday night in West Texas hospital. The father is a farmer.

### Daughter Born

A 7-pound 2-ounce daughter named Suzanne was born Tuesday night in End, Okla., to Mr. and Mrs. Eugene Alderson. Mrs. Alderson is the former Miss Linda Chappell of Dallas. The parents are graduates of and woodcraft—Duncan, George Young and Marvin Wilson.

## RESIGNS POST

### LITTLEFIELD

J. S. Hilliard, who has been secretary of the Littlefield National Farm Loan association for 11 years, has resigned, effective Jan. 1, 1942. C. O. Stone, former cashier of the Littlefield National bank and now with the Federal Land bank at Houston as area supervisor, succeeds him. Ill health was given as the reason for the resignation and Mr. Hilliard will devote his time to his farming interests.

### Housewives

Housewives are envious of Tornowski's snow white washing. His secret is a cistern of soft rain water instead of the usual hard water of this community, plus thorough boiling of the clothes from the washing machine.

### Tornowski

Tornowski quit his job as a painter when his mother died four years ago, and went to work as housekeeper for his father and brother.

### When his ability

When his ability at a wood-burning cook stove first was noticed about a women's church group asked him to contribute a cake to a church supper. It never reached the supper tables. Women workers "sampled" the cake to the last crumb. Another contribution by

# United States Army Forces Expand Field Training In Philippines

## Reserve Units Are Called Up

By RODOLFO L. NAZARENO  
United Press Staff Writer

MANILA, Oct. 8.—The incorporation of thousands of Philippine army reservists into U. S. army forces in the Far East under command of Lieut. Gen. Douglas MacArthur is progressing smoothly.

Ten Philippine army reserve regiments, numbering more than 20,000 men, have been mustered into the U. S. army. These 10 regiments did not include the army air corps, which was the first Commonwealth military unit to join the U. S. forces.

In his executive order placing all the organized military forces of the government of the Commonwealth of the Philippines in the service of the armed forces of the United States, President Roosevelt said these forces would remain in such service "for the period of the existing emergency."

More Await Call

Reliable sources said the number of reservists to be called next may exceed the number already mustered. It was understood Philippine army authorities already have called to active duty the officers and non-commissioned officers who would be the immediate superiors of the reservists to be summoned.

It was reported that MacArthur would also place under his command three Philippine constabulary (national police) regiments, consisting of about 4,000 men, for provost guard duties in case of an emergency. The constabulary has an authorized strength of 10,000 men.

The response to President Roosevelt's order among the Filipino reserve soldiers has been most enthusiastic. Thousands, in addition to those already called, have expressed eagerness to join the army.

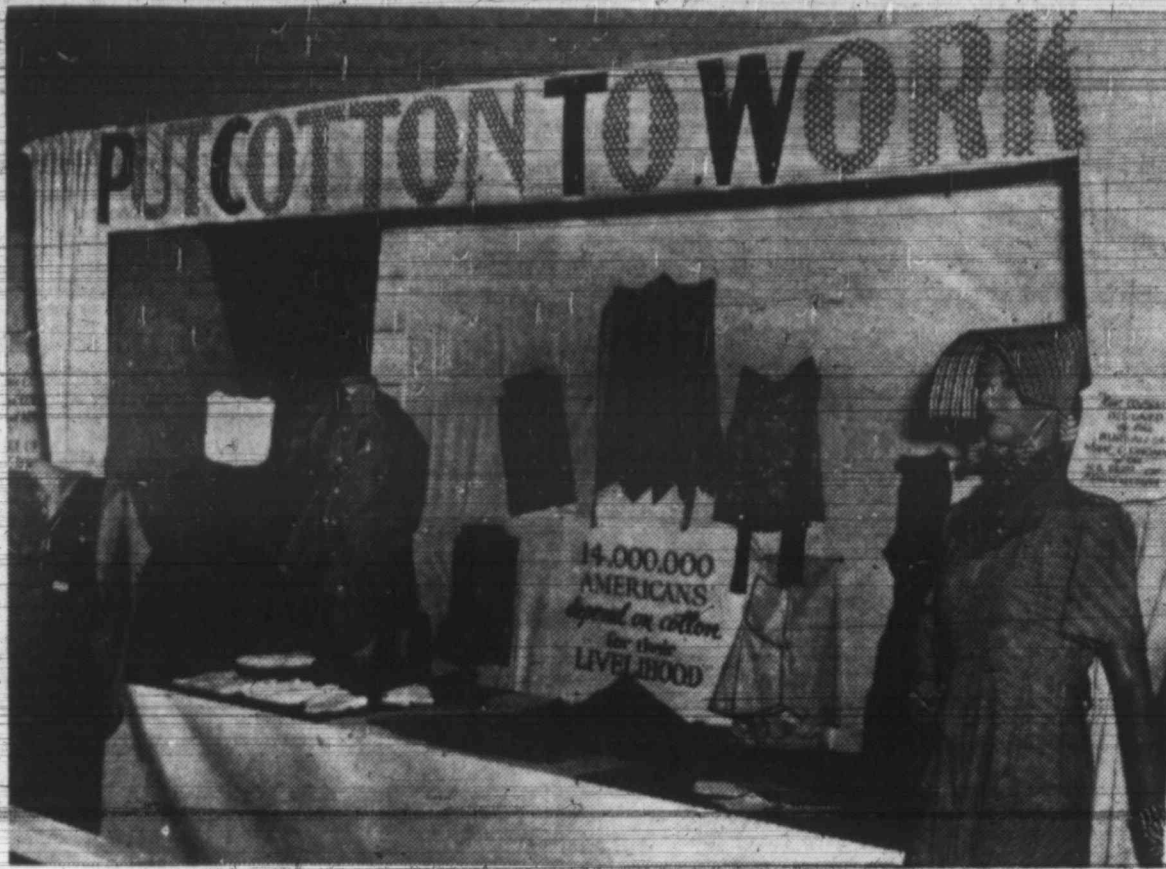

The 10 Philippine reserve regiments already under MacArthur are undergoing intensive training in modern warfare, with American officers as instructors. The traditionally somnolent archipelago, from northern Luzon to southern Mindanao, now bristles with army camps and training cadres.

Sectional maneuvers are being held all over the islands. Sham battles have been staged in connection with the problem of Manila's defense.

Ten Districts Created

Sixty-five military training centers have been established in the 10 military districts of the Philippines. These districts have been divided into three military corps areas to expedite training. Two of the areas are under command of U. S. brigadier-generals; the third is commanded by a colonel.

It was understood the training program was being carried out with the utmost speed and efficiency because Maj. Gen. George Grunert, commander of the U. S.

ONE OF THE EDUCATIONAL EXHIBITS—This year's Panhandle-South Plains fair has a large number of educational exhibits of interest to South Plains citizens. The picture above shows one featuring cotton. It is in the women's building and was prepared by the county home demonstration clubs.

army's Philippine Department, had months ago prepared department officers for just such a task as they are tackling.

Coincident with the intensification of army training, military instruction for reserve officers training corps units in colleges and universities has been expanded.

The enthusiastic response of Filipino soldiers to President Roosevelt's order has been hailed as evidence of the Filipinos' determination to fight alongside the United States if necessary. In the words of Maj. Gen. Jonathan Wainwright, commander of the Philippine division, "If war comes your country and my country will stand side by side."

Italy now has over 720,000 workshops run by craftsmen.

## Expansion Program For Co-Op Planned

Bids will be opened Thursday in connection with a first portion of a \$250,000 expansion program planned for South Plains Electric Cooperative, Inc., W. G. Newton, manager, announced Tuesday.

The project for which bids are to be opened is to involve the construction of approximately 140 miles of additional power lines in Lubbock, Hale, Hockley, Lynn and Crosby counties, Newton announced. Estimated cost is approximately \$95,000, to be financed with a recent \$50,000 allocation for that purpose and out of unused funds for previous projects.

The lines to be constructed, Newton said, are to be of "fill-in" type, and are expected to extend electrical service to approximately 300 additional farm families. The South Plains cooperative now serves more than 1,500 such families.

Bids are to be received until 10 a. m. Thursday in the cooperative headquarters, 1107 Avenue G, Newton announced. The actual opening probably will be in some more spacious place — most likely the courthouse, he said.

WALLACE RESIGNS

PLAINVIEW — J. B. Wallace, for more than a decade manager of the Plainview Grain exchange, has resigned. He is succeeded by G. G. Griffin of Amarillo, connected with the exchange there and son of C. W. Griffin, Fort Worth, federal grain inspector.

## Location For Test Staked

Location was staked Tuesday for a 5,500-foot test in northeastern Hockley county 15 miles northeast of production in the Slaughter field, to continue a spectacular surge in South Plains wildcatting activity.

The new operation is Anderson-Prichard Oil corporation, Oklahoma City, and American Drilling corporation, Hobbs, N. M., No. 1 W. L. Ellwood estate, and it is 467 feet out of the northwest corner of section 15, block A, R. M. Thompson survey.

American Drilling corporation owns a half interest in the well and will start drilling with rotary on or before Oct. 20. The firm also has 880 acres, checkerboarded, surrounding the test. Anderson-Prichard holds leases on approximately 3,000 acres.

Past 900 Feet

Deal for the No. 1 Ellwood was instigated by Bruce McKague, Midland oilman, who received from Honolulu Oil corporation a farm out on eight half-section tracts, McKague, with Ray R. Rhodes, also of Midland, turned the deal to Anderson-Prichard, retaining some leases in the block. Anderson-Prichard purchased from the Yellow House Land company labors 17, 20, 21, 22 and 23, league 728, Capitol land, Abner Taylor survey. The firm also acquired from D. C. Reed, Austin, labors 1, 8, 9, 13, 18 and 25, league 736, same survey. Magnolia, Skelly and Devonian bought spreads of acreage subject to the well.

A short south outpost to the Terry county portion of the Slaughter field has been staked by Mabee Oil and Gas company as No. 1 M. E. Jacobson, 440 feet out of the northeast corner of the southeast quarter of section 6, block D-11, John H. Gibson survey. It is 1,860 feet south of the record producer in Terry, George P. Livermore, Inc., Lubbock, No. 4 Jacobson, a 2,219 barrel oiler.

Shut Down For Repairs

Likins and Hall, Midland, No. 1 Dr. E. H. Jones, scheduled 7,200-foot deep Permian test in extreme northeast Gaines county, is shut down for repairs to engine, bottomed at 1,425 feet in red beds.

miles northeast of Lubbock, is drilling past 900 feet in red beds.

Last reports from Harrison and associates No. 1 W. G. Nahn estate, Lubbock county's first producer, stated it was being cleaned out 25 feet off bottom, with daily yield on swab of 50 barrels of oil and six barrels of salt water. Total depth of the discovery well is 5,002 feet in time. It is three and one-quarter miles northeast of Lubbock on the highway to Idaho.

Yokum Gets Wildcat

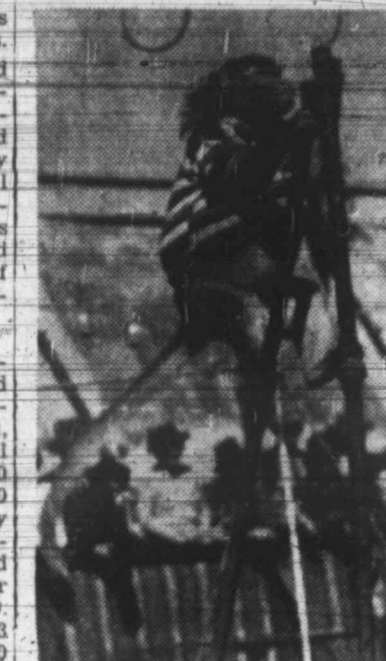

Western States Gasoline Corporation No. 11-B Mallet Land and Cattle company, in the Hockley sector of the Slaughter field, flowed 1,374.48 barrels of oil daily upon completion at 5,040 feet after acidization with 12,000 gallons. In the Cochran county part of the field, Atlantic Refining company No. 24 H. T. Boyd was good for 1,155.04 a day after 10,000 gallons of acid at 5,050 feet. Also in Cochran, Magnolia No. 13 Mrs. F. L. Woodley flowed 745.29 a day after 10,500 gallons at 4,380 feet.

A wildcat in eastern Yoakum county, Honolulu No. 1-13 L. H. Wright, is reported to have shown first oil staining at 5,230 feet, where coring was commenced. First core had not yet been pulled.

FOR THE KIDDIES—One of the most popular places on the Beckmann and Gerety midway at the Panhandle-South Plains fair ground is the Hollywood monkey circus where 20 monkeys go through their antics. The picture above shows one of the monkeys walking around on six-foot stilts.

Ray A. Albaugh, Lamesa, and Richmond Drilling company, Midland, No. 1 J. J. Handley, northwestern Dawson county prospect which showed streaks of oil and porous lime in cores from 4,923 to 77 feet total depth, remained shut down for orders pending decision of operators to run casing, tube drillstem test or test with tubing and packer.

In Crosby county Cathlam and Waggoner No. 1 Ed M. Whalen maier, wildcat 20 miles southwest

Masonic Service Is Staged Last Night

South Plains Scottish Rite club conducted a Feast of Tabernacles service Tuesday night in Lubbock hotel, and approximately 50 Masons attended.

Brownfield had the largest out-of-town delegation at the dinner. Talks were made by R. L. Durham, Carl Svendsen, DeWitt Landis, A. V. Weaver, Jr., Dr. J. T. Hutchinson, Neil H. Wright, O. J. Sexton, and E. A. Tipton of Lubbock and W. R. McDuffie of Brownfield.

R. S. Rodgers, president of the club, was toastmaster.

## Masonic Service Is Staged Last Night

When constipation brings on acid indigestion, stomach upset, bloating, dizzy spells, gas, coated tongue, sour taste, bad breath, your stomach is probably "crying the blues" because your bowels don't move. It calls for Laxative-Senna to pull the trigger on those lazy bowels, combined with Syrup Pepsin for perfect ease to your stomach in taking. For years, many doctors have given pepsin preparations in their prescriptions to make medicine more agreeable to a touchy stomach. So be sure your laxative contains Syrup Pepsin. Insist on Dr. Caldwell's Laxative-Senna combined with Syrup Pepsin. See how wonderfully the Laxative-Senna wakes up lazy nerves and muscles in your intestines to bring welcome relief from constipation. And the good old Syrup Pepsin makes this laxative so comfortable and easy on your stomach. Even finicky children love the taste of this pleasant family laxative. Buy Dr. Caldwell's Laxative-Senna at your druggist today. Try one Laxative-Senna combined with Syrup Pepsin for ease to your stomach, too.

of Crosbyton, is drilling past 2,280 feet in San Andres lime topped at 2,117 feet. Elevation is 2,655 feet.

## Pull the Trigger on Lazy Bowels, with Ease for Stomach, too

## WHAT'S ALL THIS ABOUT MOTOR OIL WEARING thicker?

6 cars driven to Death in the Death Valley desert—to settle today's bad puzzlers for you. Know the answers—and Save.

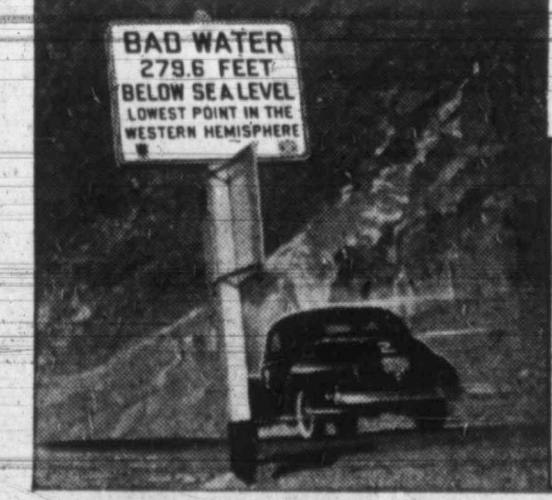

Not long back you'd never heard of muddy sludge, sticky varnish and other troublesome "goo" coming from motor oils. But today you're even told of oils thickening up like a mess of paint in an open can, when your worst worry used to be oils wearing too thin!

You're puzzled if you're not a technical man, and can only judge by how long your oil and engine last. Therefore you can appreciate first of all having the Certified Mileage Record from the

### Daring Death Valley Destruction Test of CONOCO Nth MOTOR OIL

This oil went "up against the blaze" in Death Valley—where heat hits record highs (official). Here Conoco Nth faced 5 other representative big-name oils, in a Certified Test to the death.

6 identical new stock cars were first turned inside out to check uniformity. Then each got one strict 5-quart fill of some one oil... locked in by the Referee.

BAD WATER 279.6 FEET BELOW SEA LEVEL LOWEST POINT IN THE WESTERN HEMISPHERE

And each held the same 57-mile pace, over the same desert, without one added drop, till its oil hit bottom and the engine "went out like a light!"

Conoco Nth motor oil lasted 13,398 miles on one 5-quart fill, outlasting one "rival" by 8,268 miles. And even the runner-up in the test was outlasted 5,683 miles by Conoco Nth. This is all Officially Certified, yet anything so remarkable demands explanation.

### New oil Economy aid... Man-made

Man-made or synthetic betterment of motor oils has long been the keystone of Conoco success. For example, the celebrated Germ Processed oil patent on the use of a synthetic with magnet-like action has made it possible to give engines OIL-PLATING. This lasting form of lubricant can't all quickly drain down—but must stay plated up throughout the engine... on guard against wear in advance!—while you use Conoco Nth oil.

Now in addition to OIL-PLATING, assured by Conoco Nth oil, it brings the newest synthetic life-giver, called "Thialkene inhibitor." This inhibits or checks the rapid breakdown of the ex-

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

H. M. Jellinec  
Consulting Engineer, who during Academic year is Professor of Automotive Engineering, Purdue University

tremely refined oil demanded for present day motoring. That's why Conoco Nth oil didn't quickly burn-up dead-end "goo" in Death Valley, but outlasted 5 high-rated brands—by 74% up to 161%. And even though you cannot think of exceeding the oil-change periods specified for your car and driving conditions, it's great to think of skipping many a stop for a quart. Read about that right on your own engine gauge-stick. You'll see... just change today to Conoco Nth at Your Mileage/Merchant's Conoco station. It's a popular-priced, Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

# Capitol High Jinks And Higher Finance Have Missouri All Agog

## Probe Ordered After Charges

BY JAMES E. HELBERT  
NEA Service Staff Writer  
JEFFERSON CITY, Mo., Oct. 8—Hard-boiled Circuit Judge Sam C. Blair has assembled a grand jury here in the Missouri capital to determine what on-again, off-again, beer-busting, capering in capitol halls and the raising of big piles of folding money has to do with the legislative process in an American commonwealth.

Specifically, Blair has helped send Tom Pennington to prison, Gov. Forrest C. Donnell and the people who speak as loudly and loudly as the legislature gave the citizens their money's worth or whether some nimble-fingered lawmakers got the money.

Missouri's muddy politics has made riotous reading since the Benton boys shot it out with Andy Jackson, down through the Civil war-James boys days and on to collapse of the Pennington empire. But the out-of-bounds play of the 1941 legislature may match all these and send promoters of pure politics hotfooting it to the Beens-Showed state.

Charges Are Hurdled  
There was lots of talk going around and it all wasn't loose by a long shot.

It really began to look like the business the night that Charles M. Hay, who speaks as loudly and effectively as the U. S. S. North Carolina, invited the legislators to sit on the capitol steps and listen to the story of their erring brethren. As Missouri mule drivers put it, he set the hair on em.

Hay, a civic and political leader for years, was paid a legitimate fee of \$10,000 to shepherd a St. Louis teachers retirement bill through the legislative hills, but it failed to pass, Hay charged, because he refused to grease any fat palms. Then most one lawbreaker who promised Hay a punch in the nose, but Hay roared with an account of skulduggery is supposedly high places that would have shamed Boss Tweed.

Hay's outburst encouraged others to come forward with amazing tales of attempted loot, and each says he will go before the grand jury to put the finger on lawmakers who can't see the merits or faults of legislation unless it is framed in \$100 bills.

Stories Are Bared  
One by one various lobbyists, legislative representatives and "contact men" told all this:

Efforts were made to collect \$13,000 from assessment insurance companies to defeat a bill affecting their business. Automobile dealers raised \$5,000 to push passage of a measure. Jukebox owners raised \$14,000 to defeat a bill prohibiting their machines in taverns. One lobbyist charged \$25,000 changed hands to defeat a burial association bill. Ludwick Graves, utility lawyer, was told to see certain legislators with purse in hand if he wanted anti-utility bills killed. A marrying justice of the peace was told \$2,000 would finish off a bill that would finish off his business. County superintendents of schools assessed themselves \$3,000 to support a bill to raise their salaries. A state senator was quoted as saying it would be worth \$1,000 to an appointee of Governor Donnell's to be confirmed by the senate, and this senator through "senatorial cour-

THE GOVERNOR'S COMIN' LOOK OUT COME SEVEN!

tesy" could have blocked the confirmation; later he said he meant it as a joke, but it was no joke to the appointee.

The little deal dripping with the most gray, however, would have nicked interested parties coming and going. It provided that no person could be created for 48 hours after death, and that coroners should receive \$10 for each body examined before cremation. Naturally the coroners wanted the bill and crematory owners opposed it, thus giving angle-shooting lawmakers a chance to take from both sides.

Cleaning Up State House  
With these and other exposures, St. Louis and Kansas City newspapers jumped in, called it the most corrupt and downright orneriest legislature in the history of this or any state.

There was so much talk of setting the law on lawmakers who looked on the currency when it was long and green that Governor Donnell, Judge Blair, Attorney General Roy McKittick, and Carl Wynore, prosecuting attorney of the county in which the capitol is located, came out with the grand jury plan.

Blair, youngest circuit judge in the state, is a tough-minded fighter who believes legislators have no more right to steal than anyone else. He knows what he's about for, as assistant U. S. district attorney, he helped prepare and present the cases which did in Pennington and other Kansas City political crooks.

Revelry Reigns Supreme  
Donnell had special reason to favor a clean-up, for it was this same legislature which tried unsuccessfully for three months to keep him from being inaugurated. This talk of fine-handed felony was bad enough, but what really started the folks back home voicing all over the place were the tales of revelry by morning, noon and night in the beautiful capitol.

Many offices were equipped with bars from which flowed various joy juices at all hours. Capitol janitors couldn't get the cobwebs off statues of Lewis and Clark, they were so busy rolling out the beer barrels and carting quarts around the halls.

Had Capital Time  
A big poker or crap game was in full blast much of the time in

BY ADRIAN — For dining in graciousness Greer Garson displays an Adrian original which is a film-fore-runner of those fashions he will soon create for American women everywhere. The black crepe molds the body, is slit at the hemline. Rich gold beading, emphasizing the deep armholes, is deftly repeated at the cuffs.

## Vernon Funeral To Be Held Thursday

Funeral services will be read at 2:30 o'clock Thursday afternoon in Lubbock for W. A. Vernon, 87, resident of Lubbock until two years ago. He died Tuesday night in a Wichita Falls hospital.

Services will be at Sanders chapel and burial will be in Lubbock cemetery.

He is survived by three sons, C. R. Vernon of Tahoka, Ben Vernon of Lubbock, and Hubert Vernon of Amherst; four daughters, Mrs. Minnie Harp of Norman, Okla., Mrs. Willie Giles of Post, Mrs. Agnes Motheral of Abernathy, and Mrs. Pearl Fry of Los Angeles, Calif.; and a sister, Mrs. M. S. Acuff of Lubbock.

## GETS COMMISSION

ABERNATHY — Raymond N. Parsons, son of Mr. and Mrs. Roy Parsons of Abernathy and a former student at Texas Technological college, was one of 141 men to graduate from an advanced training school of the army at Fort Stockton recently. He was commissioned in the air corps as a second lieutenant in the reserve. The school has had six classes to graduate, with a total of 778 students.

## Double Help for WOMEN!

What do you do when headache, nervousness, cramp-like pain, lack of energy and appetite, or some other form of periodic, functional distress begins to make you miserable? Why not do as thousands of women and take CARDUI?

There are two ways to take it. First: To help relieve periodic pain and discomfort, start three days before "your time" and follow directions. Second: To assist in building energy, strength, through increased flow of gastric juice which helps appetite and digestion, take it by directions as a tonic. Women who use it both ways seem to be CARDUI's most enthusiastic boosters.

THANKS FOR THE CARTON OF CAMELS, DAD. THEY WERE THE ARMY MAN'S SMOKE IN YOUR DAY, TOO, WEREN'T THEY?

YOU BET THEY WERE. AND I'D STILL WALK A MILE FOR A CAMEL!

Actual sales records in Post Exchanges and Canteens show Camels are the favorite with men in the Army, Navy, Marines, and Coast Guard.

THE SMOKE OF SLOWER-BURNING CAMELS CONTAINS 28% LESS NICOTINE than the average of the 4 other largest-selling cigarettes tested—less than any of them—according to independent scientific tests of the smoke itself!

CAMEL — THE CIGARETTE OF COSTLIER TOBACCOS

There is no Bottleneck in Brains

BUICK BUILDS FOR DEFENSE

Our equipment, building Pratt & Whitney valve-in-head aircraft engines for defense use.

A word about the calibre of the distinguished new automobiles that Buick now brings to market for 1942

Two thoughts stood solemn sentinel throughout all the planning of our 1942 cars.

The first was:—in their materials these cars must not trespass on the current needs of national defense.

The second was:—in their quality and performance they must not be an "ersatz" product.

If you think this leaves only a cramped and stifling byway for engineering to advance in, remember that difficulties are sometimes the spur that real ability needs.

Our new cars, it seems to us, superbly prove this. But we neither expect nor ask you to take our word for it.

The real way to know what they are, and how marvelously they perform, is to breeze them down a country road or tool them through clotted traffic.

The sure way to gauge their mettle and their inmost goodness is to plump them squarely into the stiffest task your imagination can supply.

There are great gifts undefeatedly at work in the industry of this nation and the not least of them is good old-fashioned American ingenuity.

We have of course no corner on that here at Buick. But the first mile you drive one of these magnificent automobiles will

make you say that we certainly have our share.

So come try the gorgeous new cars that we not only say pace the pack for 1942 but are bold enough to believe set an all-time high in all-round automotive excellence.

They will make you glad—nay, proud—all over again that you're living in America—and now!

No other car has ALL THIS FOR YOU IN 'FORTY-TWO

# Texas' Community Chest Campaigns Are In Full Swing Over State

## Larger Cities Boost Quotas

**BY BRACK CURRY**  
Associated Press Staff Writer

Texas cities are asking increased Community Chest subscriptions this year—the result of rising food costs and substantial population increases.

The response will determine the difference between hope and despair for thousands, as hospitals, clinics, children's homes, character and recreational agencies, consultation bureaus, goodwill industries, boys' camps and other welfare agencies look to Community Chest givers for maintenance during the year.

**Houston's Goal \$963,403**  
Houston's is one of the first of the large chest campaigns to get under way. Scheduled October 9-11, the goal is \$963,403.

The Beaumont Community Chest, which seeks \$111,418.98 in its current drive closing October 8, asks for only a small increase over last year for its 11 member agencies.

Despite a population increase attributed to defense activities, Beaumont's goal exceeds the quota for last year by only \$100.

Upped by approximately \$25,000, largely caused by rising food costs, San Antonio's Community Chest has a goal of \$345,439 for its second annual campaign. Subscriptions for last year totaled \$325,522, an over-subscription of the first campaign goal of \$320,000.

**Amarillo Plans Drive**  
Amarillo Chest officials report that a record total of 800 volunteer workers and chairmen will participate in the drive October 16-28 to obtain \$60,000. Serving 11 member agencies, the Chest obtained \$55,000 last year.

Including of three new agencies this year has increased Galveston's goal by approximately \$13,000. The budget of \$83,594 includes \$5,000 for the United Service Organization, \$2,000 for the Galveston recreation council and \$3,000 for the school lunch fund—these being the three new agencies.

With 18 chest agencies, Galveston obtained \$71,250 last year and has raised its quota during the last two years.

**Dallas Pushes Campaign**  
Maintaining 11 agencies in health, welfare and youth service, the Community Chest of Corpus Christi has a campaign goal of \$85,000 for its October 20-27 drive. The campaign organization is seeking a higher goal this year because of the huge population increase brought about by defense activities.

Last year the Corpus Christi Chest collected \$61,000.

Mustering the biggest army ever assembled for a Community Chest campaign, Dallas is undertaking to raise \$754,000 for the support of 36 health and welfare agencies. Austin's Chest drive October 8-15 seeks \$69,144, about \$3,000 more than was subscribed last year.

**Generous Responses Expected**  
Chest officials are employing a motion picture illustrating the activities of the 10 agencies served.

Port Arthur is asking \$66,926 for a fine Community Chest. Agency officials, this year, compared with pledges last year of \$59,000. Dates for the drive are October 8-18.

Howard L. Crow, Chest drive director, predicts that a vast, excellent Port Arthur business will bring a generous response to the annual appeal.

Representing an increase of \$10,000 over the 1942 budget, Wichita Falls Chest drive for \$68,000, now under way, will provide for nine agencies under the 1942 budget.

**Other Plans Announced**  
The increase was made necessary by new defense workers resulting from establishment of Sheppard field and by construction of new buildings for the Boys Club and YWCA, requiring additional maintenance and operation funds, officials reported.

TexasKann will set its quota for the Nov. 4-5-6 drive this month. Last year's quota was \$35,000, all of which was pledged. The organization is expecting this year's quota to be substantially larger because of the two defense plants located near the city.

San Angelo's drive this month will be for a goal of \$29,412.50 for service to three organizations—Community service, Salvation Army and King's Daughters. Last year \$23,000 was raised.

Murray Of Falahill

## It May Be A Dog's Life For Fala, FDR's Pet, But Black Scotty Is In Spotlight

**BY ELEANOR RAGSDALE**  
NEA Service Staff Writer

WASHINGTON, Oct. 8.—His whole name is Murray of Falahill—Fala for short.

He shares adventures and valets with the president of the United States. But for a that he's named but a wee bit of a black Scotty, named for a bold, Scottish ancestor, way back on President Roosevelt's family tree, known as Murray the Outlaw of Falahill.

Comes daybreak into the President's bedroom at the White House or Hyde Park or through the porthole of a ship's cabin and there's Fala curled on the rug, peering out from under his shaggy brows to see if "The Chief" is as any good-clansman would call him—is awake for morning greetings.

**Constant Companion**  
For this lively little dog who popped into the limelight a few

weeks ago when he sat in on the Roosevelt-Churchill sea-parley right at his chief's feet, is the constant companion of the President at his office or on trips. His shaggy ears have listened to executive conferences—and state secrets—without a betraying twitch.

In fact, close observers believe they note that at times Fala himself, after months of association with national and international big-wigs, now takes on a bit of the solemn dignity of a statesman.

**No Sissy Stuff**  
Fala has a special fenced-in compound of the executive offices where he can stretch his legs and get a breath of air when the going inside gets too tiresome or tense. For longer runs he usually goes on a leash or under the watchful eye of a secret service guard or his special pal, dignified Prettyman, the president's color-

## Forest Towers Call To Tourist Climbers

ROSCOMMON, Mich., Oct. 8. (AP)—More than 27,500 persons climbed Michigan's 72 lower peninsula forest warden towers during 1940, according to state conservation department figures—and surprisingly, 35 per cent of the persons who made the breath-taking climbs were women.

Visitors whose names were recorded in guest books in the towers were from 40 states, Alaska, Hawaii, Puerto Rico, Canada, Cuba, Egypt, Germany, Argentine, Portugal and England, conservation department records show.

**BUY MULESHOE BUSINESS**  
MULESHOE—H. O. Bigham and Otha Smith of Littlefield have purchased the Muleshoe bakery from Mr. and Mrs. Earl Gilmer. They are now in charge.

Prettyman, too, sees that Fala is brushed and bathed as befits a White House princeling. But fortunately he doesn't try any of that sissy stuff like eau de cologne or plaid waist-coats. Not that Fala doesn't have a wardrobe. He might have given "Bundles for Britain" some stiff competition, judging by the number of sweaters and jackets that have been knitted for him. But, quite frankly, he never wears 'em.

Fala gets just one meal a day—fresh meat and vegetables all mixed up, and given to him each evening by the President's own hand. Maybe he gets a dog biscuit or two during the day when he runs through his simple bag of tricks, shaking hands, begging, speaking or jumping as high as his Scotty legs will let him. But ever since he was given to the president by a Dutchess county friend, "The Chief" has been particularly fond of him and has taken care that no over-indulgent stuffing shall endanger the health of his faithful pal.

## NEURITIS

**RELIEVE PAIN IN FEW MINUTES**  
To relieve torturing pain of Rheumatism, Neuritis, Neuralgia or Lumbago in a few minutes, get NURITO, the splendid formula, sold by thousands. Dependable—no opiates, does the work quickly. Most relieve great pain, in your satisfaction, in few minutes or your money back. Don't suffer. Ask your druggist today for NURITO, on this guarantee.

**WINDOW FOR PLASTER CAST**—Dr. Fred Waknitz and assistant demonstrate in New York the use of new "window," a transparent plastic device enabling doctors to observe wounds through a plaster cast. Idea was developed in Britain to aid in treatment of complicated bomb wounds.

## All Laxatives can't be Leaders!

For many long years this has been one of the top-selling laxatives all over the Southwest. Your drug dealer will verify that!

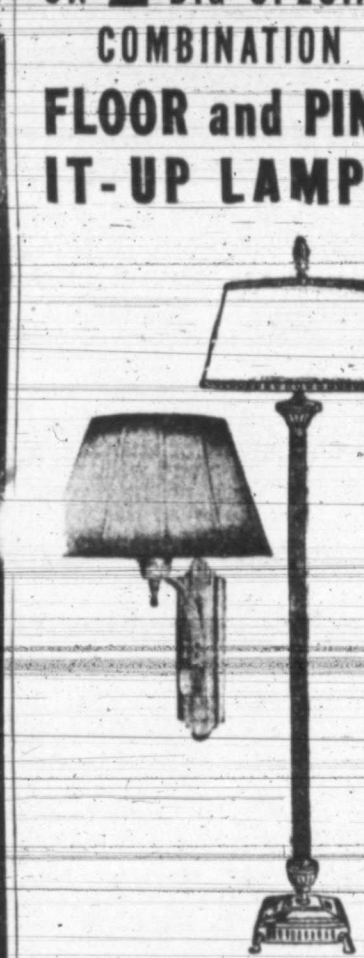

The reasons? If constipation has you lousy, uncomfortable, take some BLACK-DRAUGHT tonight by the simple directions and see if it doesn't give you gentle, thorough, satisfying relief.

BLACK-DRAUGHT is made from purely vegetable ingredients. One of them is a tonic-laxative that helps to tone lax intestinal muscles. You get 25 to 40 doses in the familiar yellow box for 25c. Look for it and get the genuine, time-tested BLACK-DRAUGHT.

*While they last!*

## Another Chapter Is Written For Home

WILMINGTON, Del., Oct. 8. (AP)—Workmen are clearing away several years of overgrowth and debris from the little white, clapboard lodge that was once the summer home of Upton Sinclair.

The woodland house was built by Sinclair in 1911 in Arden, Del., a small, single-tax village six miles from Wilmington.

The two-story cottage was built with the money Sinclair obtained from his novel, "Love's Pilgrimage" which was finished during his stay at Arden. A few months later, domestic troubles and a clash with Delaware's Blue Laws over Sunday tennis caused the novelist to sell his home.

For 13 years the Sinclair homestead was an inn operated by Mary Bruce who recognized the

charm of its huge open fireplaces and natural stained walls. Recently it was bought by Samuel L. Harrison, landscape gardener. The house will be renovated.

### Some Lines On The Lions

THE PUBLICITY BLURBS in behalf of Loyola university of the West are considerably brighter this year than has been the case for the past four or five seasons.

"A football moon hangs over Loyola. You can see it in the evening when the wind sweeps Del Ray and Boss Man Brill leads in his charges from scrimmage."

Hubert Bechtol, lanky pass-catching end star, was inserted into the first combination, replacing Wes Hamilton at left end.

The second stringers and the regulars had a battle of it for quite a while yesterday, winding up the last stiff practice of the week.

Howard Pain To Regulars Amos Howard, the hard-hitting blocking back for the reserves, was a particular pain in the neck to the regulars.

Defensive maneuvers will come in for a large share of attention in today's workout, along with some polishing-up work on new plays introduced to the squad this week.

Retirement regulations said he was through in 1933 but he went over to the coast and started all over again, bringing honors to the College of Pacific.

SMU Heavy Favorite Southern Methodist will be a heavy favorite but Stags never got that reputation as a "giant-killer" by twiddling his thumbs.

## Longhorns To Face Sooners

SWC Teams Facing Formidable Foes

BY RICHARD G. BALDWIN United Press Sports Writer DALLAS, Oct. 8.—One question at least—mightily important to the oil and cattle country—will be answered this week: What sort of football team has Texas got?

Only nice things have been said so far about Texas, which has won twice. The baldish Bible, wearing a sky-grin of satisfaction—these days, will present a balanced team such as Texas has not had for years.

As yet, he has not had to open his bag of tricks. Texas swamped Colorado 34-6, and last Saturday ran wild against Louisiana State, 34-0.

The Lions won but three games last season, defeating Redlands, Whittier and Pacific, but only nine men were lost from the entire squad, and 19 lettermen are back this season.

Located in the Del Rey sector, far out on the edge of Los Angeles, Loyola is strictly men's school, enrolling 720 students this year.

Reviewing other facts about Tech's opponent this week: Located in the Del Rey sector, far out on the edge of Los Angeles, Loyola is strictly men's school, enrolling 720 students this year.

Of nine games on the Lion schedule this season, all but one were booked at Gilmore. The Santa Clara game was played last Sunday on the latter's coast.

Tech and Loyola have played each other four times, starting in 1934 when Loyola won, 12-7. The Lions won in 1935, 15 to 0, and in 1936 the Lions won, 26 to 7.

IT IS GOOD to have the Sam Wests back home after another baseball season—a Washington season that was just about as drab for Samuel Filmore and Gracie as the Hubber season was here.

They came home yesterday.

They came home yesterday.

They came home yesterday.

They came home yesterday.

They came home yesterday.

They came home yesterday.

## They Came Through With Surprise Wins—Russo, Bonham Are Acclaimed As "Forgotten Heroes" Of '41 Series; Pitching Was Superb

BY GAYLE TALBOT Associated Press Sports Writer NEW YORK, Oct. 8.—Joe Gordon, the Yankees' great second baseman, was having his right arm pumped practically off at the champion's victory celebration the night of the fifth and deciding World series game.

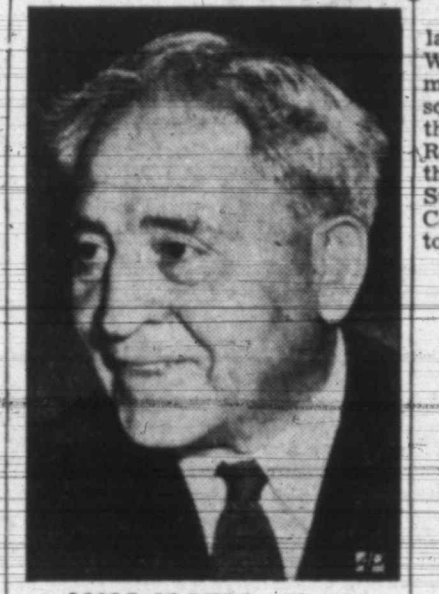

His coat off and his tie loosened, Gordon could only grin happily as the invited guests congratulated him on his spectacular play against the Dodgers and his selection as the official series hero.

Paul Kirchell, chief scout of the Yankees, the man who passes final judgment on promising players dug up from a thousand diamonds over the country, was braced solidly out on the floor, sipping the rewards of victory and accepting a few congratulations, himself.

Looking back on the five-game series, there was a lot in what Kirchell said. Gordon with his .500 batting average, his seven walks, his slick fielding and his home-run that jarred the Dodgers at the outset of the classic, undoubtedly supplied the Yankees' sustained punch. But what if either Russo or Bonham, owners of inconspicuous records for the regular sea-

son, were asked, patently not expecting an answer, "Here were a couple fellows we didn't know what they would do. Russo had a bad stomach and Ernie had a bad back. Neither had been in a World series before. And all they did was pitch a couple four-hitters and win games we had to have."

There was a shocked silence for a moment while Paul's words were digested thoroughly. He noticed

AMOS ALONZO STAGG

## Texas Honors Mr. Football

TYLER, Oct. 8.—They're building a football game around one man Saturday—and what a man!

When 15,000 jam their way into the stadium to watch Southern Methodist battle little College of Pacific as many will turn out to see Amos Alonzo Stagg in action as will come primarily for the gridiron festivities.

Stagg, who through a half century of coaching has become Mr. Football himself, started back in the gay nineties at Springfield college. Then for 41 years he was the grand old man of the mid-way at Chicago.

Retirement regulations said he was through in 1933 but he went over to the coast and started all over again, bringing honors to the College of Pacific.

Saturday a Stagg-coached team plays in Texas for the first time. It will be in the seventh annual Rose festival game.

The dean of American football goes against the dean of the South-west conference—S.M.U.'s Matty Bell who is the oldest coach in point of service in the major circuit down here.

Southern Methodist will be a heavy favorite but Stags never got that reputation as a "giant-killer" by twiddling his thumbs. His teams have worried titans of Pacific coast football.

Neither S.M.U. nor Pacific have scouted each other but the coaches have exchanged basic formations.

And rest assured Stagg's plays will be as modern as they come, scheduled for 4:10 o'clock Sunday afternoon.

The players making the trip—Center: Edwin Irons, Garland Head and Billy Hale. Guards—Doyle Caraway, Loyce Baillio, Pat Farris, Will Albright and Jimmy Jay. Tackles—Jack Shanks, Warren Cudd, Albert Williams and Newman Ledbetter. Ends—Clarence Tillery, Robert Duncan, Bing Blingham, Loyce Baillio, Pat Farris, Will Albright and Jimmy Jay. Halfbacks—Roger Smith, J. R. Callahan, Peter Blanda, Don Austin, Maxey McKnight and Thayne Amont. Fullbacks—Charlie Dvoracek, Tom Douglas and Glenn Love. Quarterbacks—Tyus Bain and Byron Mayfield.

Panhandle Boasts Its Share Of Gridiron Greats In Texas Football

Amarillo Again In Limelight

By BILL FREEMAN... AMARILLO, Oct. 8.—Maybe it isn't strictly cricket, but up here in the Panhandle the babies teeth on state and conference football championship trophies.

GRANDPA AT 33—Passing out cigars, Frank Alessandro, 33, of Rochester, claims to be youngest grandfather in New York state, since the birth of Samuel Fasano, Jr., Aug. 16. The boy was baptized Sept. 14, just before mother's 16th birthday.

New District-1 Members... Schoolboy districts in the last year or so have tended to expand. District 1 is slated to take in Brownfield and Phillips by the first of the year since both are Class A schools and enrollment is nearing the 500 mark.

West Texas State Teachers college at Canyon entered the Border conference this season. The Panhandle's favorite, Canyon, enjoys capacity crowds of 4,500 at practically every home game.

Good In College, Too... As for the panhandle themselves, just look at the record. Connie Sparks, Panhandle, was all-Southwest conference fullback for TCU in '38. Moose Hartman, Pampa, made all-Southwest for Blue last year.

Texas Faces Test... generally is favored to win the Southwest conference title and finish high for national honors.

Trophy At Stake... Oklahoma will be decided underdog. The Sooners whipped a strong Oklahoma Aggie eleven, 19 to 0, in their opener, and last Saturday beat their own freshmen, 46 to 7.

Four other intersectional and one conference game are on tap this Saturday—Rice meeting Tulane at Houston, Texas Christian taking on Indiana at Bloomington, Texas A. & M. playing New York University at New York, Southern Methodist meeting College of the Pacific at Tyler, and Baylor playing Arkansas at Waco.

Of these games, the Rice-Tulane contest should develop the most fireworks. Tulane, with victories over Boston college and Auburn by substantial margins, looks tops in the South. Rice, which trounced Sam Houston 42-0 in an opener Saturday, is admittedly the "sleeper" team of the Southwest conference.

Texas Christian-Indiana appears a toss-up, with any edge going to the Texans. The Texas Aggies shouldn't have too much trouble with N.Y.U.

Battered Southern Methodist, still licking its wounds from the Fordham melee, should coast to victory over Arizona Stagg's College of the Pacific eleven.

It should be Baylor all the way over Arkansas in the conference clash.

Loyola Lions Warned Tech's Backs Speedy... LOS ANGELES, Oct. 8 (AP)—Texas Tech's Red Raiders should blow through Los Angeles' Loyola Lions like a whirlwind, take it from Billy Byrne, who scouted them in their 34-0 triumph over Abilene Christian and 16-6 victory over Oklahoma Aggies.

Byrne reports Tech has about 10 backs who go so fast most linemen haven't a chance to tag them. Fullback Charley Doracko, weight 190, his like a bullet. He's almost unstoppable. And Don Austin, the little right half, will go by you while you're blinking your eyes.

Not only that, Red Amontett, offensive star in Tech's 19-0 triumph over Loyola in 1940, has been dropped among the reserves.

So Coach Marty Brill is concentrating on defense in preparation for the Raiders' visit Friday night.

Of the 920 passenger automobiles received in Texas during the first six months of this year 814 were American, five British and one Swedish.

Cottonseed cake is being used as fuel in Brazil.

Family Costs Are Compiled... WASHINGTON, Oct. 8.—The National Resources Planning board today made public the most complete analysis of American family spending and savings ever compiled.

Based on the 1935-36 year, the report showed that approximately \$48,000,000,000 in income was divided among the nation's 20,400,000 families—an average per family income of \$1,622.

Other Figures Given... The annual cost of food accounted for 29 per cent of the per family figure, averaging \$467 a year, or \$22.7 a person a week.

Checks Received—One hundred and eleven cotton parity checks, amounting to \$11,700.85, have been received at the county Agricultural Adjustment administration office.

Mail Out Cards—Cotton marketing cards for 1941 are now being mailed to farmers-producers, said Walter Y. Wells, secretary of the Agricultural Adjustment administration.

At Home—Miss Opal McElhannon, Avalanche-Journal news reporter, is ill with tonsillitis at her home, 2310 Nineteenth street.

Doctor's Condition Is Said Very Grave... Condition this afternoon of Dr. Earl H. Turner, 33, of Pampa, was considered "very grave," Lubbock friends had been informed by telephone.

Garza Navy Recruits Are Visitors In City... Merle Lee Spence of route 1 Post, and Alvin Lee Smith of Brownfield, who have completed their training period in the U. S. navy, and who are on a 10-day leave, visited the navy recruiting office in the basement of the federal building this morning.

Other Teams... LUBBOCK HIGH SCHOOL COVADNANDS... Head Coach: Lester Greig. The season's schedule:

Nov. 14—Lamesa at Midland. Nov. 21—Colorado City at Lamesa.

Family Costs Are Compiled

WASHINGTON, Oct. 8.—The National Resources Planning board today made public the most complete analysis of American family spending and savings ever compiled.

Based on the 1935-36 year, the report showed that approximately \$48,000,000,000 in income was divided among the nation's 20,400,000 families—an average per family income of \$1,622.

Other Figures Given... The annual cost of food accounted for 29 per cent of the per family figure, averaging \$467 a year, or \$22.7 a person a week.

Checks Received—One hundred and eleven cotton parity checks, amounting to \$11,700.85, have been received at the county Agricultural Adjustment administration office.

Mail Out Cards—Cotton marketing cards for 1941 are now being mailed to farmers-producers, said Walter Y. Wells, secretary of the Agricultural Adjustment administration.

At Home—Miss Opal McElhannon, Avalanche-Journal news reporter, is ill with tonsillitis at her home, 2310 Nineteenth street.

Doctor's Condition Is Said Very Grave... Condition this afternoon of Dr. Earl H. Turner, 33, of Pampa, was considered "very grave," Lubbock friends had been informed by telephone.

Garza Navy Recruits Are Visitors In City... Merle Lee Spence of route 1 Post, and Alvin Lee Smith of Brownfield, who have completed their training period in the U. S. navy, and who are on a 10-day leave, visited the navy recruiting office in the basement of the federal building this morning.

Note resemblance to Hitler of man at right, startled as he sees camera.

Cut In Farm Budget Seen

WASHINGTON, Oct. 8.—With farm products bringing the highest prices since 1930 and still advancing, agriculture department officials said today that the administration should be in a position to make a sizable cut in its budget for 1942 crop benefit payments.

Indications were that the cut might exceed \$200,000,000, or more than one-fourth of the cost of the present benefit program.

Far Above Estimate... Agricultural prices are nearly 45 per cent higher than a year ago.

An income of this size would be the largest since 1920 and \$2,000,000,000 above the estimate for this year.

Congress appropriated about \$706,000,000 for farm benefit payments for 1941 crops, including \$500,000,000 for cooperation with soil conservation programs, \$48,000,000 for cooperation with the sugar production and marketing control program, and \$212,000,000 for parity payments.

Farm officials said that the president's new budget to be placed before Congress in January probably would ask for the same amount for soil conservation, but a reduction of at least \$100,000,000 in parity payments.

Greatly improved prices for cotton may make it possible, officials said, to drop parity payments for this crop. The department has set aside \$88,300,000 for such payments on the 1941 crop at a rate of 2.75 cents a pound. Cotton now is bringing slightly more than parity prices.

Garza Navy Recruits Are Visitors In City... Merle Lee Spence of route 1 Post, and Alvin Lee Smith of Brownfield, who have completed their training period in the U. S. navy, and who are on a 10-day leave, visited the navy recruiting office in the basement of the federal building this morning.

Flying low over a hon country in Rhodesia, pilot E. Spencer landed his plane, shot one of the beasts, loaded it into his machine and flew home.

Texas Technological college in 1931: He attended University of Texas medical school at Galveston and served his internship in Lubbock sanitarium. He and Mrs. Turner resided in Pampa approximately three years.

Uncle Sam Cornering Market On Pretty Girls; 'Vanities' Chief Wants Priority Number

DALLAS, Oct. 8.—Show producer Earl Carroll said today that the portals "through which pass the most beautiful women in the world" will have to be padlocked unless he can get a priority number on pretty girls.

He telegraphed Donald Nelson, supply priorities chief, that the defense program has created so many jobs for women that the show business faces a shortage of beauties.

The problem hindered the casting of his "Vanities" at the Texas State Fair.

"How about one of those priority numbers," he wired. "I'll give you a couple of good ones in exchange."

Man Finds "It Ain't So" What They Say About Lubbock Being Easy Place To Set Up A Profitable Bootlegging Business

One of 10 persons charged Tuesday with illegal traffic in intoxicants feels he was grouped of \$1 by a liquor control board inspector.

En route to the police station where they were "mugged" and fingerprinted, two of those charged were overheard to say:

"They told me in other places it was easy to set up bootlegging in Lubbock—and I get caught the first time I try making a sale!"

"That's nothing," the other said. "You remember that guy who was a dollar short and I let him have a pint, anyway? It turns out he was one of them liquor board men!"

Bonds Total \$15,000... Bonds totalling more than \$15,000 were set for the 10 arrested on twice that number of complaints charging violation of state liquor laws.

Judge G. V. Pardue of county court set bonds ranging from one of \$250 to as many as four of \$1,000 each. J. L. Pipes, about 32, felt the heaviest such blow with the four of \$1,000 each, in addition to one of \$500, another of \$750.

Dewey Heath had executed bail of \$500 Tuesday night. Others charged and sizes of bonds were: J. B. Fowler, \$500 and two of \$1,000 each; R. M. Hand, \$500 and \$1,000; Norma Parks, \$250, \$500 and \$1,000; Juanita Pipes, \$1,000, \$250, \$500 and \$1,000; Lewis Tanner, \$500; Sam Harle, \$500. Ralph H. Roberts, 33, similarly charged, was in jail and Forrest Tanner had not been reported arrested.

Another complaint charging liquor law violation was filed this morning against Hand.

Britain's famed Lawrence of Arabia was rejected for front line duty in the First World War because of a large centrally located heater.

MUCH WHEAT SHIPPED... ABERNATHY—Approximately 100 cars of wheat from the 1941 crop have been shipped so far this season. Many farmers have their wheat crop stored on their farms.

"Not a Cold Spot in the house since you put in those Clow Gasteam Radiators."

"and this steam heating system needed no costly furnace or boiler."

YOU TOO can get the benefits of complete uniform steam heat with Gasteam Radiators in YOUR home.

Rich Cargoes Sent England

WASHINGTON, Oct. 8.—The United States shipped Great Britain in the first seven months of 1941 almost twice as many combat planes as the British lost in defending the British Isles in 1940.

From January to July, inclusive, of this year American manufacturers delivered to British air forces throughout the world more than \$244,000 worth of airplanes, engines and equipment, he said.

Misconception Cited... Joutet said that there seems to be a "misconception" in the public mind that the only equipment sent abroad is that financed by lend-lease funds.

Such conditions, he said, may prevail at a later date, but not for some time to come because the vast majority of shipments this year were on original British contracts, some of which run until 1943.

President Roosevelt's recent lend-lease report to Congress showed that only \$6,016,145 worth of aeronautical equipment, including accessories, had been sent to Britain under the act up to August 31.

German Agent Under Arrest

NEW YORK, Oct. 8.—George Sylvester Viereck, admitted German propagandist, was arrested today by agents of the Federal Bureau of Investigation on indictment returned in Washington charging him with withholding information in his state department registration as agent of a foreign power.

Viereck, author and editor, listed in Who's Who as being born in Munich, Germany, emigrated to the United States in 1895 at the age of 11.

A spokesman of the FBI said Viereck would be arraigned probably this afternoon.

Viereck in former days was an admirer of William-Hale Thompson, an English-chick hating mayor of Chicago.

He is credited with having predicted the sinking of the Lusitania four days before that passenger ship went down in the North Atlantic—an event many persons believe was the direct cause of the United States entering the World war I.

White Sox Again Cop Chicago City Series

CHICAGO, Oct. 8 (AP)—The White Sox held sway over the Cubs and Chicago baseball today for the seventh consecutive season.

Five Cub errors and a four-hit performance by Thornton Lee, Sox ace, gave the American leaguer a 3-1 victory last night and the city series in four straight games.

None of the runs were earned and Claude Passeau, Cub catcher, was touched for only six hits.

It was the 16th victory for the Sox in 23 city series with the Cubs since 1903. The Cubs have won six and one was a tie.

BUY REGISTERED BULLS... MATADOR—Two groups have purchased a registered Jersey bull through Farm Security administration, at Whiteflat, H. A. Armstrong, F. M. Casey, Howell Garrison, F. M. Lyon, and C. J. Morris and L. L. Lyon were in one group and at Floom, G. W. Blackshear, L. E. Martin and R. M. Morris composed another. The bulls came from the Tierra Blanca farms of Canyon.

THE PLAINSMAN Says: (Continued From Page One) of the pastor, who is probably the most widely known of Protestant divines, was a noted Baptist, Rev. Dr. Edwin McNeill Poter, pastor of Euclid Avenue Baptist church in Cleveland. He packed a memorable sermon into 27 minutes, which is seven minutes longer than the average metropolitan sermon. Mettulous, with fine diction and very little motion, the Cleveland exhibited intimate knowledge of sports and politics and his address altogether made a very fine, well thought out sermon.

It is a great honor for a "hinterlander" to be invited to pinch hit for the great Dr. Poter and Dr. Poter was equal to the occasion.

As we made our way out of the church we looked around over the audience. In the several thousand was a sprinkling of negroes; at least four Chinese; a Hindu and one gentleman who unmistakably was more than slightly Jewish.

For all we know, there were Catholics and Budists, too—not to overlook a couple of Presbyterians from Texas.

Whether you are a Baptist, or not; whether you are an active churchman, or not, never come to New York without visiting Riverside church.

The quality of its religion probably isn't any better than that of a little white, box church in a Texas rural community. Some might argue that it isn't as good.

But the physical aspects of the church, as well as the carefully arranged program, are almost stunning in their grandeur.

Riverside's building is to American churches what the Empire State building is to American skyscrapers.

No one with the opportunity of visiting there should pass it by.

New York is a place where: You get onto a subway train 100 feet underground and get off of it on an elevated platform 100 feet over the street.

You can ride 69 miles for a nickel-but have to pay a dime for a midtown cuppa coffee.

At 8 o'clock Sunday morning you trudge past a dozen open bars and a dozen closed restaurants in order to get something to eat.

There is a municipal court solely for the handling of cases affecting the city's 17,000 taxicabs.

Moving advertising signs are called to the public's attention through advertisements in the newspapers—in the amusement section!

Where 800 policemen are assigned to patrol one baseball game or one prize fight.

Where you hear every dialect known to man—including the Scandinavian.

PROBABLY it is because there are so many people here they get on each other's nerves.

But whatever is the reason, this is the worst place imaginable for verbal abuse and repartee.

The talent of "getting somebody told" is certainly well and carefully cultivated in New York.

Motorists bowl out truck drivers and cab drivers and the latter answer in kind.

When a person comes in late to a ball game and is edging into his inside seat, a dozen people in the rows behind will howl: "Sit down! Sit down, ya bum!"

And the baldheaded gink who fails to take off his hat in the chill air of an outdoor prize fight immediately becomes the target for all sorts of abuse.

Secret Voyage

BY JOSEPH L. CHADWICK (Copyright, 1941, For The Journal)

YESTERDAY Jim Mallory collided with Mary Larsen after listening to Eric Forbes and a stranger plotting to send Mary to New York. Mary has a silver cigarette case in her hand but refuses to show it to Jim. As Jim reaches for the case and Mary struggles to keep it, Eric Forbes enters and tells Jim to apologize. The next day in the pool, Mary tells Jim the cigarette case belongs to Bert Halloran, first mate of the Sonora, and Forbes told her Mallory got it when he went below to look the ship over. Jim sees that Mary was in love with Halloran and is about to answer when Jeffery Hammond comes along and suggests they talk over the deal. After Jim leaves, Lois Hammond warns Mary to remember she is only an employer and to keep away from Jim.

WILLING TO PAY CHAPTER VII Monday morning Jim Mallory returned to the company's base and got things moving. He wanted to sail Wednesday. He was in a hurry, his haste due to the knowledge that others besides himself were interested in the Sonora.

He had the diving equipment moved aboard the Aurora, his chief boat, and put Curly Bates below the check over the Diesels. Blacksheep, the big Cayman, was to provision the ship.

The Aurora was 110 feet of boat; 20 years ago she had been a pleasure yacht, then had fallen into a period of disrepair. During the late twenties she had been a rum-runner, and during the depression a fishing craft. Jim Mallory had bought her for a song four years ago, after she had run hard around near Key West. There would have to be hands hired to man the crew, and Jim was being careful about that. He sought men he knew and could trust.

Jeffery Hammond came to the landing Tuesday afternoon, boarded the Aurora, looked about in his worried way and asked a lot of questions about the diving gear. Explaining, Jim saw that Hammond listened with scant attention. The man seemed burdened with trouble.

He said, just before going ashore to his car, "Radio me when you've completed the preliminary work, Mallory, and I'll send the carrier to take the ore aboard."

"I'll keep in touch with you, of course."

"I may take a cruise on my yacht later on, and see how the job is progressing. Lois wants to come out and see how divers work."

"I'll be glad to see you both, sir."

Hammond stood frowning for a moment, and Jim had the impression that there was something on his mind which he wanted to say. But he merely nodded then, and went ashore.

Later that afternoon, Mary Larsen came aboard. Jim was up to the chart room, busy laying out a course, when she appeared in the doorway. He was surprised, then suspicious, but somehow he was pleased.

"And you're going?" she asked. "I don't know yet." She gave him an oblique glance, then looked away. "His offer is rather attractive. He wants me to be his private secretary. It's a good job, more money, and Mr. Forbes is rather attractive—don't you think?"

Jim said, "Does it matter what I think?" He was surprised by her gruffness. This made him sore. Forbes was putting one over on her, and she was falling for him.

"What was another of your reasons for coming here?"

"Sunday you promised to tell me if you had found Bert Halloran's cigarette case when you went down to the Sonora. You didn't get around to it. Will you tell me now?"

"Why should I bother? You wouldn't believe me."

"Maybe I wouldn't at that." She walked about the room, stopped and looked at the charts. Jim watched her. He saw the smile on her lips and, paradoxically, uneasiness in her eyes.

"Listen, is it in your mind that if I didn't drop that cigarette case the man who did was Bert Halloran?"

She didn't answer, but she turned her face fully from him. "You told me he was the Sonora's first mate, and the mate along with the captain was lost when the Sonora went down."

"Then someone else got the case off the ship if you're telling the truth."

"Not necessarily. The thing could have come into another man's hands in a number of ways. One of the crew might have stolen it. Halloran may have lost it to someone in a poker game."

"You may be right," Mary said, turning to him. "Bert did like to play poker." She walked past him toward the door, halted there and faced him again. "Well, goodbye, Spike. Knowing you was pleasant, if not much fun."

Hold Everything!

"You guys can just quit that sulking—I'm not going to buy you a football!"

Today's Journal Editorial ...

AN OUNCE OF PREVENTION NOW The possibilities seem almost non-existent that aircraft warning posts like the 13 that have been organized in Lubbock county will ever be called upon to perform the specific service for which they are formed. It is entirely beyond the capacity of most of us even to imagine that the time might come when our lives will depend upon the prompt warning that bomb and gun-laden enemy aircraft are headed in this direction.

Even so, precautions are not to be taken lightly. The time to prepare for the eventualities that might happen are before they happen. No reasonable person who is aware of what has happened in other parts of the world will blind himself to the possibility—remote possibility, perhaps—that they also could happen here. Furthermore, all of us must recognize that if such disaster should ever befall this nation, then of all places in this portion of the Southwest, Lubbock would almost certainly be the first target.

If we should wait until those things actually begin happening, it will be too late to prepare for them. The lives of people who otherwise would have been saved would be the price of procrastination. So, remote and improbable though the danger may be, it is impossible to start too soon in making such preparations for them as can be made.

close but he did not touch her. "I haven't much money now," he said, "but I will have some soon. I'm not as tough as I seem, but I am steadfast. Does that interest you?"

"It all depends on your purpose in coming."

"I have several. One is, I wanted to tell you how right you were about Eric Forbes. He is trying to get me back to the New York office. He's going back tomorrow, by plane, and he expects me to accompany him."

"And you're going?"

"I don't know yet." She gave him an oblique glance, then looked away. "His offer is rather attractive. He wants me to be his private secretary. It's a good job, more money, and Mr. Forbes is rather attractive—don't you think?"

ON BROADWAY (Copyright, 1941, for The Journal)

Notes of An Innocent Bystander THE First Nights: The hit famine came to an end Wednesday night when George Abbott delivered a gladsome musical, "Best Foot Forward." It is packed with talented younglings, including Rosemary Lane, Maureen Cannon and Gil Stratton, Jr. The girls are all junior misses, and there's hardly a beard among the males. They have joyous songs to sing, and you can't help repeat his little enthusiasm: "A honey for your money" . . . The other George's—all-trades, meaning Kaufman, struck out on his first producing try. His vehicle was "Mr. Big."

This farce tells about the murder of an actor at the end of the first performance. The show died the same way. The Sun's Mr. Lockridge figured Juggler Kaufman threw "more into the air than he could catch coming down" . . . "Ghost for Sale" got the week's first rebuff. It was vetoed locally as having outlived its funniness. . . . "Ah, Wilderness" was revived Thursday night with Harry Carey as the wise editor . . . Most of the critics shook hands with it again warmly.

The Magic Lanterns: The cinema gets a pretty good report card. "Hold Back the Dawn" is a large afternoon for the signing set. Charles Boyer plays put, and take with two hearts. . . . Olivia de Havilland's and Paulette Goddard's (who is a heel with a tender side. The yarn about how he marries his way past the immigration gate, is skillfully told. . . . Things are milder in "It Started with Eve," but all off'y nice. Deanna Durbin is the same likable lass, and Chas. Laughton is the funny-man-of-the occasion. . . . Tom Harmon runs and kicks a gamut full in "Harmon of Michigan." Football looks like cute from previous films.

The answer is one of the mysteries of the Washington Part of the trouble comes from an inability to decide just what should be charged against a service where legitimate news leaves off propaganda or education begins.

The Story Tellers: Runyon makes a monkey out of the fiction rules in "Broadway Incident," his entertaining piece in Cosmopolitan. His hero is a drama critic, who is definitely a contradiction in terms. . . . Garbo is news for the funniest reason. She used to collar space on being a mysterious recluse, out of the world. Now Life blows her to lots of pages because she's a simple friendly girl like you. . . . Paul Gallico's word-halo for Lou Gehrig in the Nov. Cosmopolitan creeps into your heart like a smile from a baby. . . . Writes Kyle Crichton in the Oct. 4th Collier's: "When ecstatic cries of 'dahling greet a Hollywood actress entering Cairo's, she knows that her last picture has been a success' . . . Or her first marriage has been a failure."

THE Front Pages: President Roosevelt, who has taken many a lashing from the press, saluted National Newspaper Week with a message to publishers to guard the press' freedom. In short, he urges it to hang on. . . . Right to slam him. . . . Royal Corson, celebrating half a century with the H-Trib, also said something worth remembering about press freedom. "Opinions," he said, "are a critic's capital, and he is useless if he cannot find freedom of expression for them."

Heady unarmist invention for national defense, called "red hot" by army spokesmen, was skipped by the studio reporters. Not nonsensical enough to qualify as news in Hollywood. . . . Virginia Gayda, a typewriter that talks like Mussolini, urges the Pant dates to fake news to keep the people's spirit up. According to dispatches from Italy, the Italian people would prefer to have him fake up a few plates of spaghetti.

Freewriter Ribbons: F. E. Freeman: Is the Atlantic Ocean verboten for boat-people? . . . Kin Hubbard: There ought to be some way to beat celery so it wouldn't sound

"Forward!"

How Much Is Government Spending On Its Information? Information Services' Costs A Mystery

BY PETER EDSON Journal Washington Correspondent

WASHINGTON, Oct. 8 — How much is the federal government spending for its services of information—referred to by its opponents as "administration propaganda"—and defended by the voters, themselves as educational work to inform the good citizens of the country what their government is doing to improve their lot?

The answer is one of the mysteries of the Washington Part of the trouble comes from an inability to decide just what should be charged against a service where legitimate news leaves off propaganda or education begins.

The Bureau of the Budget, which should know the answers to all such questions, has made several surveys to determine what the services of information cost the taxpayers. The bureau has a standard, mimeographed form which it sends to all government agencies, asking them to report in detail the number of persons, their salaries, the other amounts expended for information or publicity.

These reports come back, but when the figures in them are checked against departmental requests for appropriations from Congress, and against reports which individual bureaus have made elsewhere or which several economy-minded congressmen have smoked-out, the figures just don't jibe. Instead, they give actual expenses for publicity or information services are concealed, or they are justified as expenses required by law, and red herrings are dragged across the trail in the approved technique of all commercial agents hired to make things look good for the boss. In some instances, the information services are so well covered up they are not even mentioned in appropriation hearings.

Congressman Robert F. Jones of Illinois, youngest Republican on the House Appropriations Committee, got interested in this subject and has tried to smoke out some of the facts on these expenditures. But he has had a good many barriers put in his way.

Jones got a tabulation of the budget estimates of expenditures for information and publicity for the fiscal year ending June 30, 1941, covering the 10 cabinet departments of the government and 16 principal independent agencies. The total reported was \$2,416,343. No small sum, but it doesn't begin to cover the story.

For instance, the first item of this Budget Bureau tabulation is Department of Agriculture . . . \$698,168.

AGRICULTURE ADDITION SECRETARY OF Agriculture Claude R. Wickard, in a letter to Representative Jones dated May 15, 1941, reported that "the cost for all personal service devoted to the preparation of materials for the press, radio, motion pictures and exhibits, including only those employees who work directly on these materials and not typists, stenographic help, etc. for 290 employees amounts to \$519,792 annually; other expenses are \$236,362."

The total of these two sums is \$746,154, or \$48,066 more than the report to the Budget Bureau. That's only a beginning. On top of the \$746,174 there was a

printing appropriation for the year of \$1,660,435. Add those figures and you get a total of \$2,383,613, which is only \$32,730 less than the total reported to the Budget Bureau by all 26 departments.

Now, it can probably be called unfair to make this comparison, for the Department of Agriculture expenses for information and publicity rank among the three or four highest in the government, and it is not cricket to charge all of that \$1,660,000 printing bill against the service of information. For instance, it takes a million dollars worth of forms to run the department a year.

When the Department of Agriculture boys get to bragging about what they've done in any given year, they don't hesitate to spread it on thick. In fact, when the report from the Department of Agriculture director of information was submitted for the year 1940, the printing and binding expenses were listed as not \$1,660,000, but \$1,995,721. That was for 23,813,344 publications and periodicals and 8,583,400 lists of farm ers' bulletins and leaflets, distributed free in response to specific requests. There were 2,876 posters, charts and all department jobs. And 267,424 photographic prints.

Solution Of Yesterday's Puzzle

Table with crossword puzzle grid and solution words.

Committee, got interested in this subject and has tried to smoke out some of the facts on these expenditures. But he has had a good many barriers put in his way.

Jones got a tabulation of the budget estimates of expenditures for information and publicity for the fiscal year ending June 30, 1941, covering the 10 cabinet departments of the government and 16 principal independent agencies.

AGRICULTURE ADDITION SECRETARY OF Agriculture Claude R. Wickard, in a letter to Representative Jones dated May 15, 1941, reported that "the cost for all personal service devoted to the preparation of materials for the press, radio, motion pictures and exhibits, including only those employees who work directly on these materials and not typists, stenographic help, etc. for 290 employees amounts to \$519,792 annually; other expenses are \$236,362."

The total of these two sums is \$746,154, or \$48,066 more than the report to the Budget Bureau. That's only a beginning. On top of the \$746,174 there was a

printing appropriation for the year of \$1,660,435. Add those figures and you get a total of \$2,383,613, which is only \$32,730 less than the total reported to the Budget Bureau by all 26 departments.

Now, it can probably be called unfair to make this comparison, for the Department of Agriculture expenses for information and publicity rank among the three or four highest in the government, and it is not cricket to charge all of that \$1,660,000 printing bill against the service of information. For instance, it takes a million dollars worth of forms to run the department a year.

When the Department of Agriculture boys get to bragging about what they've done in any given year, they don't hesitate to spread it on thick. In fact, when the report from the Department of Agriculture director of information was submitted for the year 1940, the printing and binding expenses were listed as not \$1,660,000, but \$1,995,721. That was for 23,813,344 publications and periodicals and 8,583,400 lists of farm ers' bulletins and leaflets, distributed free in response to specific requests. There were 2,876 posters, charts and all department jobs. And 267,424 photographic prints.

From the duplicating department (Continued on Comic Page)

### VENTAHOOD KITCHEN VENTILATOR

It's new!  
It's Beautiful!  
It Pays for itself.

### ON DISPLAY!

This wonderful Kitchen Ventilator keeps the kitchen cool. It has an electric fan to force the heat and cooking odors out of the kitchen.

It pays for itself in many ways. It keeps the wall paper in the kitchen clean and bright, and also protects the house from cooking odors. Every home should have one. For just one wall paper job to remove greasy shadows on walls will more than justify the first cost.

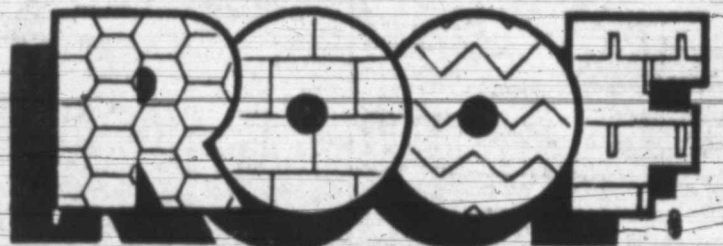

Easy to keep clean. Porcelain finish adds beauty to the kitchen.

Continued From Editorial Page  
ment were issued 151,329,975 pages of material which went to 603,789 customers on 1031 mailing lists. At the end of the year there were 19,800,573 copies of publications on hand, waiting for someone to ask for them.

**POWERFUL COST OF PROPAGANDA**  
It would be unfair to multiply these totals by 10, or by 16, or by 26—the number of federal departments and agencies for which Congressman Jones was able to get figures on publicity expenses—to make an estimate of the total government expenses for information, education, propaganda, or whatever you want to call it. But from these figures it can be seen that the government departments aren't as frank and honest about this business as they should be.

Generally speaking," wrote Harold D. Smith, director of the Budget, to Congressman Jones, "there is no segregation in the accounting, budgetary, or appropriating procedures of the federal government of publications, publicity or news material as specific objects of purposes of expenditure. As a consequence, it would be a practical impossibility to prepare a compilation of the actual costs under these heads over a period of years."

**NEXT: How many information specialists?**

For the first time since biblical times, a tax on income has been introduced in Palestine, and companies are charged a flat rate of 10 per cent annually.

# Hitler Making Supreme Effort Against Russians

## Enemy Claimed Near Collapse

By DEWITT MACKENZIE  
Journal War Analyst

The great German drive against the fiercely resisting Russians is Hitler's supreme effort to administer the coup de grace to an enemy which he claims is on the verge of collapse, and thereby avoid the dire results of waging war across the blizzard-swept plains of Muscovy in the winter which is almost on him.

### Might Bring In Japs

It might bring Japan into the war against the Soviet. Failure means that in order to defend himself from the east through the winter he must expend strength which he should be flinging against England. It means that spring will find the Reich ground between two great stones—Britain and Russia—with their allies—thereby giving an incalculable lift to the Allied cause.

### Both Operations Vital

Both these operations are vital, but the Nazis are directing greater weight at the center, for strategic reasons. The immediate objective of the drive against Moscow is the destruction of the Red man-power under Marshal Timoshenko. Success would throw the route to the capital wide open and, what is even more important, would jeopardize the Russian armies in the northern and southern sectors by

Plowing en masse is just one of the large-scale production methods used on industrialized grain farms.

## Wheat Growing On Mass Scale Is Stepped Up To Fine Point

BY JOHN M. BRUNER  
Associated Press Staff Writer

HARDIN, Mont., Oct. 8.—Thomas D. Campbell has made wheat farming into a huge industrial project that brings big town mass production methods out into the endless grain fields of rural Montana.

Campbell, a graduate mechanical engineer, believes that what agriculture needs in general to prepare it for the future is a big dose of industrialized efficiency. He has applied the theory effectively to his own vast holdings.

This season he completed his 23rd harvest, with his farm equipment operating on an around-the-clock basis.

Campbell this year seeded and harvested approximately 300,000 bushels of wheat on 15,000 acres. This, he says, is the largest single wheat project in the western hemisphere.

### Perform "Lightning Harvest"

Besides his Montana wheat holdings he is associated with John J. Raskob in operating a New Mexico project of several hundred thousand acres.

Campbell's farms are completely mechanized for a "lightning harvest."

Fifteen tractor-drawn combines cut 20-foot swaths through fields of golden brown wheat. Other tractors draw a string of wagons to strategic point where the combines, which thresh as they reap, unload. Trucks of 10 and 12-ton capacity haul the wheat to storage granaries.

### An Acre A Minute

"We have about the same number of field bosses per crew as a factory would have foremen. When anything goes wrong we have the men spotted to take care of it."

A truck moves about the field keeping the tractors supplied with gasoline, oil and water. We keep fire-fighting equipment on the job. Under ideal conditions, with the tractors moving at their normal speed of two and a half miles

an hour, we can harvest an acre a minute.

Campbell was the son of a farmer and his early ambition was to reduce the drudgery of farm work. He studied mechanical engineering at the University of North Dakota and later Cornell University.

### Chicken Yard Boasts Its Opera Characters

FAIRFIELD, Conn., Oct. 8. (AP)—A barnyard Valhalla inhabited by feathered Valkyrie, Rhine Maidens and a cock named Wotan resulted from Mrs. Beeman J. Peet's love of Wagnerian operas.

When six hens and a rooster were given her, Mrs. Peet kept them as pets, naming them after characters in her favorite operas. The rooster became Wotan, the No. 1 man in Wagner's "Ring" cycle. Three of the hens were named after Rhine Maidens, Wogunda, Wellgunda and Flosshilde, and the remaining three were given the names of three Valkyrie, although clipped wings left them unable to swoop Valkyrie-like over the chicken yard.

Wotan learned to respond to his name, but the whole thing confused Wogunda, Wellgunda and Flosshilde. "It is possible they would prefer a pleasant dust bath to anything that has to do with being a watersprite, anyway," Mrs. Peet observed.

"As for the three Valkyrie," she added, "they don't really look as though they had ever heard of Valhalla."

Mrs. Peet explained she always was fond of Wagnerian music. Her two favorite operas are "Tristan and Isolde" and "Gotterdammerung."

Marie Antoinette once sponsored a ship headress to commemorate a French naval victory.

**OFFICES MOVED**  
MULESHOE—Blackwater Valley Soil conservation district offices have been moved to the new Gulf building across the street from the Muleshoe Motor Co. From five to seven field men and office men comprise the force, with A. B. Chapman, formerly of Littlefield as conservationist in charge.

American wheat flour received into the Philippines last year weighed over 166,000,000 pounds.

Seen a number of things 85 per cent of the visitors know nothing about, except through hearsay. There's one of those old-fashioned organs that grandmother used to play to entertain grandfather on a rainy Sunday afternoon. Up on the side is an old-fashioned kerose-jump, lighted however by an electric globe; a home made cradle, a sewing machine that was probably hauled from the north in a covered wagon, a table and a few other things. The display is billed as evidence of about 1900. But some of the things antedate that year by a generation or two.

Seen and Heard—City women "so interested" in livestock, particularly the cattle exhibition.

Judge A. B. Chapman of Floydada discussing dual purpose cattle with Barrister L. A. Howard, the breeder, with Dub Benson, a plain barrister, also taking part. The NYA exhibit, showing furniture made by students of that group... Flag decorations down town... The lack of dust so far this year is noted by those who frequently attend... Visitors from Illinois surprised at seeing trees down here... Exhibitors clipping the hair of their prize cattle before going before the judge.

Out of state license tags attract a little attention, unless the colors are the same as Texas this year. Noted have been tags from Missouri, Louisiana, Illinois, California, Ohio and Colorado, New Mexico and Oklahoma.

The hospital, just south of the livestock building, gets an occasional visitor besides a doctor or white-robed nurses. The three funeral homes keep an ambulance parked in front of the building.

National defense gets a lot of attention. The Wichita Falls Engineering Co. of Wichita Falls, operator of an aviation school, has a big booth in the merchant's building and another from four or five to a dozen or more young men stand around to ask questions, get literature, etc.

West Texas Museum has a booth in the merchant's building where on display may be

## Sidelights At Plains Fair

Carl Johnson, son of S. T. Johnson of Floydada, and a high school student this year for the first time, is the proudest exhibitor on the grounds. He has a 750-pound registered Chester White sow that farrowed 16 pigs last Saturday night in a truck between Amarillo and Lubbock. She was being brought to the fair from the Tri-State fair in Amarillo.

E. K. Hufstetler is missing the fair this year, being on a bear hunt, but his exhibit is getting along without him.

E. K. and Minnie Harris have farm machinery exhibits, tractors, etc. They get a lot of callers. One of the stunts is an ensilage cutting machine that attracts wide attention because of the huge grain crop.

Out of state license tags attract a little attention, unless the colors are the same as Texas this year. Noted have been tags from Missouri, Louisiana, Illinois, California, Ohio and Colorado, New Mexico and Oklahoma.

The hospital, just south of the livestock building, gets an occasional visitor besides a doctor or white-robed nurses. The three funeral homes keep an ambulance parked in front of the building.

National defense gets a lot of attention. The Wichita Falls Engineering Co. of Wichita Falls, operator of an aviation school, has a big booth in the merchant's building and another from four or five to a dozen or more young men stand around to ask questions, get literature, etc.
