Chicago Girl Saved From Self Destruction Young Blonde Attempts Suicide Four Times In Five Minutes

CHICAGO, Nov. 20 .- Betty Austin tried four times in five nutes to kill herself. She failed.

The 18-year-old blonde was standing on the edge of a loop "el" platform last night when bystanders noticed she appeared ready to jump in front of an onrushing train. They pulled her

who was waiting for the train, was attracted by the commotion. When the girl saw him start toward her, she ran to the back of the platform and attempted to fling herself over the rail to the street.

Smith ran after her and pulled her off the rail. Betty broke loose and fled down the tairs to the street with Smith in pursuit.

The girl ran across the in-tersection and threw herself in the path of a street car.

Again she was frustrated as the motorman brought the tram to a jerking halt. Smith attempted to grab her again, but the girl leaped to her feet and ran down the street. With the officer still chasing her, she threw herself in front of a taxicab. The

Feeding Test Will Be Staged At Tech

A feeding test will be conducted at Texas Technological college next week with 60 steers which have arrived, according to information given Wednesday by W. L. Stangel, professor of animal

The experiment will be conducted by Tech in cooperation with the Texas agricultural experiment station. Jamie Caviness, 1941 graduate who holds the Texas Cottonseed Crushers association fellowship in the animal husbandry department, will feed the steers, which will be weighed early next week. They will be divided into six lots according to weight averages. Feeding in the experiment will open next Wednesday. Cottonseed hulls, serghum silage and fodder will be used for fattening the steers, with varying levels of cottonseed meal.

Details Of Murder Story Are Withheld

Men Are Held As Witnesses

fices 💮

HOUSTON, Nov. 20 — Police today withheld details of a written statement by Miss Helen O'Keefe, 30, blonde secretary charged with murder in the "flaming death" of her employer, J. C. Franklin, 57, investment broker and attorney.

Marcus Burkett, 48, cafe operator, and his cook, Ira C. Latham, 38, whom police questioned for several hours in the case, were described merely as witnesses and not suspects. Burkett was released but Latham remained in jail to serve out a fine for drunken-

Held Without Bond

Miss O'Keefe, a beneficiary in Franklin's \$60,000 insurance policy, was held in jail without bond after making a written statement in which she denied, Police Chief Ray Ashworth said, that she kill-ed Franklin or had somebody disc.

Franklin's charred body was found in his burning automobile on the banks of San Jacinto river east of here on Nov. 12. Although the murder charge was filed against Miss O'Keefe, police refused to reveal how or why Franklin was slain.

Burkett, who spent last night in his home, said that he merely wished to aid police in their investigation by supplying informa-tion about Miss O'Keefe's activities before the slaying and that he had appeared voluntarily.

Sold Her A Pistol The cafe owner said that he was not well acquainted with the woman but that she had tried several months ago to "get someone to beat up Franklin." About a month ago, Burkett said, he sold-her a .32 caliber pistol.

Burkett said, "I thought I ought to tell police about it. Police Lieut. A. C. Thornton had said yesterday that Miss O'Keefe had made a verbal confession in

Progress Made In **Red Cross Drive**

denied this story.

Progress was made Wednesday in the Red Cross roll call in Lubbock county, but only about one-third of the members sought have been secured, according to George Montag, executive officer station-

He reported that 2,036 mem-ers had contributed a total of \$2,665.11. By groups, memberships were broken down as follows: Business 481; special gifts,

Activity will cease temporarily today while part of the city observes Thanksgiving. Montag requested that all workers submit final reports Friday.

Workers Needed An encouraging feature of the drive, Montag said, is the fact that 118 firms or organizations with 10 or more employes have not reported; that the Arnett-Benson addition is yet unworked; that 20 residence workers and 12 ported; and the reports are yet to come in from Texas Technological college, the Flats and outlying districts of the county.

Those groups, he added, should increase the total substantially, although the drive will certainly now being operated by a German fall far short of its 6,150-member syndicate without subsidy.

Montag reiterated the need for that area.

DAR Sponsors Open Lecture

We must believe and by our actions prove that democracy is the greatest form of government in the world or our fate will be as that of France and other European countries that have fallen, D. L. McCormack, special agent of the Dallas office, Federal Bureau of Investigation, warned a Lubbock audience Wednesday night. His talk was sponsored by the Nancy Anderson chapter of the Daughters of the American Revolution in the lounge of the Tech Women's Dormitory No. 2 and 100 persons were in attendance. Mr. McCormack traced activities

the FBI from its organization in 1908 as an investigating force for the department of justice through the gangster period to the present when agents are devoting she can cut her clothes allowance much of their time to national deconsiderably and still be a smart-special guest. fense and against espionage.

Survivors Tell Story Of Enemy Submarines Stalking Freighter

U-Boats Draw Daily Markets British Start **Nearer Canada**

EASTERN CANADIAN PORT, Nov. 20-Five seamen, only survivors from a crew of 43 from a torpedoed freighter, said today that enemy submarines had begun stalking their vessel only-30 miles off the Canadian coast.

The submarines stalked the convoy for three days before they launched a night attack, the survivors said. Escorting destroyers began dropping depth charges when the submarines were first detected. They continued it for three days, laying such a barrage that when a torpedo finally struck the doomed vessel its crew failed at first to realize it had been hit.

Attacked At Night The vessel was in a convoy bound from Canada to Great Britain, the seamen revealed. They did not disclose the nationality of

The five men who reached here pent an hour in icy water after their vessel was hit. A sixth died of exposure after he had been res-

The men said their vessel was attacked at night. They believed that the submarine which torpedoed them was one of a pack of

Thousands Of Miners Idle

refused to budge from his nocompromise position in the face of a fresh effort by President Roose-

velt to end the stoppage. The Congress of Industrial Organizations in convention at Detroit served notice it would fight any measures that would deprive labor of the right to strike. The statement approved said the CIO would prepare to meet "even greater attacks" in the future than had been made in the past in the form of restrictive legislation.

The summary said bills propose in Congress "would outlaw the right to strike and picket, would impose compulsory arbitration and would fasten the open shop permanently on America" and comret of their apprehension that mented that certain congressmen "notably those from poll tax states" - have seriously talked of execution of strikers."

Must Cover All Cases Senator Connally (D-Tex) told eporters that Congress ought to legislate in a broad form to cover all cases.

"While I hope that this strike will be settled," he said, "we've United States in seeking to colic does not insure the health complete control of those of the community for all time." Senator Bridges (R-NH) agreed with this reasoning.

"Some definite formula of curb-"The president should take such action and if he fails to do 100 miles south. that, Congress ought to act any-

There was almost universal ap-

yesterday to get the idle mines Two of the vessels which have further discussion of the one point making regular voyages at issue — the closed shop, in his storming the city, - be deferred until the they would be the last until national emergency is over, or that this question be submitted to

the mine operators agreeing in ad-

vance to abide by the result. Lewis, the field marshal of UMW's fight to win a union shop, replied that officers of the union had no authority from the membership to agree to anything save a union shop" - a system under thich all miners would have to join the union after a probationary employment period.

FDR Under Pressure Roosevelt was said to be under terrific pressure from his incerning the renewed signs of advisors to act soon, but no step was considered likely until after the CIO policy meeting Saturday. Army and navy officials, reliable sources reported, were in favor of using troops immediately, but caution is being urged by some who believe that employment of the army would only serve to

unify the miners. President Roosevelt called another White House conference for tomorrow on the threatened strike of 350,000 railroad men, members of five operating brotherhoods, They have announced they plan to walk out December 7 to enforce their demand for a 30 per cent wage increase. The president's fact - finding board has recommended a 7 1-2 per cent pay rise, which the union men rejected. The lowest paid operating personnel

now receives \$5.06 a day. About 900,000 other railroad They said he was one employes, members of 14 nonalled the fireman from the steam-lled cab. A steam-driven engine cents an hour over their current as pulling the train, which was pay range of 35 to 85 cents an hour, The president's board recommended an increase of 9 cents an hour.

Divorce Capital

(Continued From Page One)

and a woman to jail for short terms for contempt of court. To this drastic action, the divorce business reacted without delay. It dropped from an average of 14 cases filed each day to only seven cases a day

in the first half of November. Florida's pre-eminence as a quick divorce headquarters resulted from a 1935 law permitting such cases to be started by litigants who had resided in the state for only 90

From 1,497 cases in 1935, the business grew until last year 4,406 were filed in Miami courts. More than 4,100 had been started in the first 10

months of 1941. For several years, Miami's record outstripped that of the one-time divorce capital of Reno, Nev., which recently could boast little more than half the volume handled in the courts here.

Costs Assailed

WASHINGTON, Nov. 20 .- Senator Adams (D-Colo) asserted today that Congress was being asked to appropriate for war supplies "far in excess of the needs for American defense

He also declared to reporters that the military production program was being conducted with incalculable waste.

New Request Prompts Charge Adams' assertion was prompted by President Roosevelt's request, now under consideration by a House committee, for \$7,082,419,-000 additional defense funds, of which \$6,687,000,000 would go to the army.

mately \$58,500,000,000 already appropriated or authorized by Concommercial airlines during 1942 gress for defense, Adams said, ditures could relieve the financial

strain materially. Defenses Termed Adequate

Adams argued that this country already has a "lossal" military establishment which should be large enough to protect its interests. There was no danger, he contended; of attack from without, so the question resolved itself into how much money should be made available by Congress for the production of export items.

The Colorado senator is chairman of a Senate appropriations subcommittee which will consider the \$7,082,419,000 measure if it is approved by the House.

BY MORGAN M. BEATTY Associated Press Staff Writer WASHINGTON, Nov. 20-More than 400 American military fliers crashed to death in the first ten months of this year, contrasted

with 88 for 1940. That total includes army, navy, marine corps, and coast guard

In approximately the same period, the air lines of the nation flew nearly 114,000,000 miles, had four accidents and killed only 35 persons. That's one passenger fatality per 37,800,000 passenger

There is no way to get at the accident rate in the army or navy. They are not telling their hours or miles flown per accident, for fear of tipping off the Germans on our training rate. But obviously, the armed services are killing off fliers at a comparatively rapid clip.

Safety First Factor Why the difference? The primary difference is the

safety factor. With commercial pilots, safety is the first factor. It's placed first by the air lines and the govern-

In the military services, safety is no longer the No. 1 factor since those services are officially on an Thanksgiving and Christmas aid, emergency status. Skill and train-according to Mrs. R. A. Mills, ing come first. If safety were first, our fliers would not be ready to fight when and if the time

Minn, commercial plane crash, sion at arms than the combat empt from military service in Brit-Ice was forming on the wing, but flier's. de-icer. The pilot played super-sare. Thatead of plunging through

clouds that might have formed heavier ice, he flew down by instruments, circled the field according to regulations. Suddenly a blast of moist air hit the cold plane, and froze the controls stiff. More To Be Expected

In the case of army crashes, army generals readily admit that pilot failures account for close to four out of five crashes. You get the same kind of story from the navy. And, warn the services, there's going to be more and more of this kind of thing.

"But," says the army, "the number of accidents has not increased in proportion to the number of lying hours by a great deal, thus ndicating increased control over military flying.

They mean the service is expanding too fast to give every man the complete supervision our fliers were getting only two or three years ago. And yet the rapid expansion is unavoidable if we are to create powerful air forces. The

Important Schoolboy Clashes Are Holding Spotlight Over West Texas Todayo

Sandies And Pampa

In Crucial Game

The four toughest football teams in District 1-AA paired off this ence contests, and by late this afternoon fans will have a general really the toughest.

Unless upsets intervene, the Amarillo Sandies and the Lubbock Westerners will add new gridiror laurels to their records. Amarillo is expected to win its 23rd consecutive victory in a holiday game at Pampa, and thereby clinch a tie for the district title. Lubbock should handle Plainview with thus eliminating the Bulldogs from the race and leaving Lubbock in it for another week, at least.

Ace Backs Injured Both the Westerners and the Bulldogs enter the game without the services of ace backs, but each expects to be able to call the miss-

ing one into service if needed. Lubbock's Wilner Thorne is not expected to start, even though he has recovered rapidly from a back injury suffered last week. To fill the vacancy, Howard Lanford has been moved to his right half post and Bob Brewer elevated to the first string left half job.

For Plainview, Mick Mason spectacular fullback who was injured early in the season, won't be in at the beginning, although Coach Jerome Vannoy expects to call him into service if needed. Approximately 3,000 fans were expected to witness the game in Plainview's junior high school

Pampa, weakened by the loss of three squadmen on the eve of the game, isn't expected to provide too much competition for the Sandstorm. Halfback Bobby Dunham, uliback Jack Waters and Guard Bill Abernathy were suspended from the Harvester squad Tuesday for breaking training rules. Approximately 8,000 fans, many

One week from Saturday, Amarillo plays at Plainview in the season windup for the district. Pampa will play Borger at Pampa a week from today, on the second

hursday).

SEATTLE, Nov. 20 .- Washington university of St. Louis may not be going anywhere in the Missouri valley conference football race, but its versatile halfback, Wilson "Bud" Schwenk, certainly is.

So far he's the "passingest" ogridder in the nation, and if he completes just three more passes in his next two games he'll surpass Davey O'Brien's 1938 record of 93 completions, the American Football Statistical bureau re-

Georgia Ace Also Tops Schwenk has completed 91 out of 178 attempts for 1,174 yards. He's had 13 passes intercepted. His completion percentage is .511, which in itself is better than his team's won and lost percentage. The Bears have won three and

Schweiß's phenomenal passing also kept him in first place in total offense-gains rushing and passng-a spot he first acquired last week. In 264 plays he's accumulated 1,572 yards in his seven

Georgia's broken-jaw boy, Frankie Sinkwich, retained his lead as the nation's outstanding rusher, compiling 883 yards in 168

Others In Spotlight Bill Dudley of Virginia, who led the nation most of the season, is second in both total offense and rushing offense. He's rushed the Tot 1,492 yards from both rushes and passes for the Cavaliers.

Henry Stanton of Arizona is aiming at the bureau's modern five year pass-receiving mark hung up by Jim Benton of Arkansas in 1937 when he caught 47 passes for 754 yards. Stanton has caught 40 for 639 yards. Also threatening as a receiver is Red Schwenk's Washington university teammate, who's caught.

Texans Among Leaders Reflecting Schwenk's passing accuracy, three Washington university backs are listed among the nation's top 20 pass receivers, Bethere's Pofait, who caught 21 for 302 yards to rank sixth, and Turley, who's snagged 18 for 201 yards, to rank 14th. The figures: (X-Denotes one

game played, unreported.) Total offense - (Gains rushing nd passing)-Schwenk, Washing on (St. Louis) 1,572 yards; Dudley, Virginia, 1,492; Sinkwich, Georgia, 1,377; (X) Elmer Madarik, Detroit, 1,260; John Podesto, St. Mary's (California) 1,105; Derace Moser, Texas A. & M., 1,103; Owen Price, Texas Mines, 1,074; Paul Governali, Booty Payne, Clemson, 917;

Dick Weber, St. Louis, 914. Rushing offense - Sinkwich, Georgia, 883 yards; Dudley, Virginia, 753; Johnny Grigas, Holy Cross, 709: Bob Steuber, Missouri, 697; Marlin Harder, Wisconsin, 679,

Forward passing offense (ranked on completions)-Schwenk, Washington (Missouri) 91 completed of 178 for 1,174 yards; Price, Texas Mines, 76 of 167 for 776; Podesto, St. Mary's (Calif.) 59 of 131 for 978; (X) Governali, Columbia, 53 145 for 639; Angelo Bertelli, Notre Dame, 57 of 103 for 881.

Pass receiving - Stanton, Arizona, 40 caught for 639 yards; Lindow, Washington (St. Louis) 39 for 472; (X) McDonald, Tulane, 24 for 398; Harry Krouse, Penn State, 23 for 409; Marshall Spivey, Texas A. & M., 21 for 304; Pofalt, Washington (Missouri) 21 for 302; (X) Howard Keating, Detroit, 21 for 243; Milt Crain, Baylor, 21 for 123; Bill Henderson, Texas A. & M.,

Missouri Bowl Talk

(Continued From Sports Page) est in the country. Six touchowns have been scored on runs

between 60 and 90 yards. First Team Unscored On Missouri's crushing ground attack plus a first team line which has been unscored upon has aroused much bowl talk. But Faurot, whose first Big Six title in 1939 landed Missouri in the Orange bowl, this week puts aside all talk of a post season

We have had absolutely no Kansas Saturday and then if we are invited we must get permission from the Big Six conference and our faculty athletic committee. If we win I'd be willing to

News Received On Test Well

Seven completions in the Slaughter field and a report on progress in the L. C. Harrison and Tobe Foster No. 1 E. L. Steck, wildeat test two miles northeast of Lubbock, featured the oil news received here late Wednesday.

The Harrison and Foster well last was reported drilling at 5,120 feet in lime. It had been cored from 4,998 to 5,015 feet, recovering hard-lime showing nothing Operators then drilled ahead to 5025 feet with rockbit. A core from 5.025-42 feet returned lime and anhydrite bearing slight oil staining and another core, from 5,042-53 feet, was extremely hard, dry lime, 16 hours being required to cut the core.

Second Deep Producer A second producer for the Was-A second producer for the wasson deep pool of northwestern
Gaines county loomed as Amon G.
Carter No. 4-D A. L. Wasson
swabbed oil from Clear Fork,
Lower Permian, zones. It is a
south offset to Carter's No. 5-D Wasson, discovery well of the deep play. No. 4-D Wasson went originally to a total depth of 11,108 feet in Ellenburger, lower was plugged back to 7,200 feet. Five and one-half inch casing was gun-perforated at intervals from 6,400 to 7,200 feet and the well was acidized with 2,000 gallons, following which it swabbed two barrels of fluid per hour for 24 hours. Fluid was described as 73 per cent oil and 27 per cent sediment and acid water. The well then was reacidized with 4,000 gallons and swabbed five and one-half barrels of oil hourly cut only three per cent with sediment and

By PAUL MANNING NEA Service Staff Writer

LONDON, Nov. 20. - Britain's all-out battle in the air, and the extra hazards of flights through wintry's soupy flying weather, have combined to make a possible pilot shortage John Bull's No. 1

By no means do all of the casualties occur in brushes with enemy planes or with the enemies anti-aircraft guns.

With the arrival of bad flying weather, more and more crashes have occurred on home airfields as fog and rain trap pilots ferrying planes from factories and points where they are unshipped after

arriving from America. Reserves All-Important

An unusually bad siege of flying weather recently was blamed for a whole series of crashes experienced by regular combat flyers, too. Following a week's ross of 71 Royal Air Force planes during the great bombing raids which smashed Axis held areas from Norway to the heel of Italy, officials said a large number of the ships crashed solely because of weather conditions.

With such losses, a backlog of reserve pilots becomes paramount The rehabilitation of English boys injured in battle is a slow process. Slow but important-be cause these men, when nerve and er and operational aircraft, they schoolboys, messengers, youngbody wounds are healed again, need no training to fly an air-

Today's Journal Editorial . . .

A DEFENSE "BOMB" TURNS OUT A DUD We wish we could enthuse about things like the recent Boy Scout junk paper pickup in Lubbock. Ac-

tually they seem ridiculous and wasteful. Let us emphasize at once that there was nothing ridiculous in the housewives, scouts and adults who saved and collected the paper. Their's was the splendid, patriotic spirit. The fault for anything ridiculous about it rests with the defense agency, the national leadership of Boy Scouts, or whoever it was that conceived this bright idea.

Let's see what happened in Lubbock, where the pickup was somewhat typical of those planned throughout the nation. Housewives went to the trouble of saving the paper. Scores of men and boys put in an aggregate of hundreds of hours of work collecting it. Trucks were used to haul it to junk yard -using fuel and wearing equipment for which there may be a real need.

And what did the boys get? Well, they collected about 10,000 pounds of paper which may be a nice piece of business for the junk dealers.

How much money did the boys get? Well, may be \$20 to divide among all their units. Think of it \$20 for hundreds of hours of work and for the fuel and equipment that were used.

Surely there is a more useful purpose to which atriotic energy of the kind exhibited in the pickup

on the steps of the Quellerton subject.

"Pam," he said, "there's something I've got to straighten out. I to amend their last bitter quarrel. blundered like an idiot in telling you of that bet at Antoine's party. 've got to make that right.

of cartoons in newspapers . .

Only one important daily news-

paper doesn't run comic strips-The New York Times . . . The most universally popular story, "Robinson Crusoe," and the most influential American novel, "Uncle Tom's Cabin," (it is credited with fomenting the Civil war) appeared first as newspaper serials . . . The first serial in an American newspaper was Defoe's "A Religious Courtship," in a Pennsylvania gazette. It wasn't completed because the agnostic Ben Franklin took over the paper and threw it out . . . Franklin published the first newspaper cartoon in this country . . . Paul Revere was a newspaper cartoonist. So were John Barrymore and Gary Cooper.

Early U. S. newspapers took care of "syndication" themselves. They clipped freely from each other, and anything good that ap-

peared, for example, in Thomas Fleet's excellent Boston Post was sure to be republished hroughout the Colonies. Fleet, by the way, put stories told to his son by his mother-in-law, Mrs.

made her the im-mortal Mother WINCHELL Goose. But Ficet's paper printed no story of the Battles of Lexington and Concord in its next issue "The unhappy transactions of last week are so variously related that we shall not at present undertake to give any particular account thereof" . . . American newspaper features are bought by

editors all over the world. WILL ROGERS got his column started by telegraphing his ws comments free to The New brought him \$250,000 . . . Guess graduate, a Harvard lawyer, a Pu-who syndicated the first New litzer prize winner in poetry in York Rossip column? Edward Bok, later editor of Ladies' Home Journal. It was called Bab's Babble . . . Bok got into syndicate business by selling Henry Ward Beecher's sermons to papers. . King Features prints a total of 18,000,000 comic and magazine sections for newspapers each week.

Back in 1895, the editor of the Pittsburgh Press, observing the rapid circulation growth of the Hearst newspapers, asked if he could buy some of the Hearst features for The Press. That was the ginning of what is now King Features, biggest of the syndicates . . . Joseph V. Connolly, whose colleagues are celebrating his 10th anniversary as head of King Features, International News Service, International News-Photos and Central Press, and who personally oversees the production of news, features and pictures appearing in 2,-200 dailies and more thousands of weeklies, started his career as a police court rewriting and transcribing shorthand. . . . Mark Twain gained his first fame when his "Jumping Frog" story was reprinted from the New York Press by hundreds of papers.

THE first newspaper comie strip tures of the European artist, tures of the European artist, will self doesn't yet know. tists have drawn the strip during ts 50-year history . . . The Yellow Kid, first colored comic, which begot the phrase, "Yellow Journalism," was drawn for a while by George Luks, celebrated Amerimany galleries . . . Art by Percy many galleries . . Art by Percy (Skippy) Crosby, Walt Disney and concerning the dissemination of dandy by poulticing their souls spring, he announced that as soon with propaganda. Jimmy (Rocky Mason) Swinnerton also hangs in famous galleries. . . The first comic strips ran

slogan, "Remember the Maine,"

originated in a syndicated cartoor

Roberts' "Oliver Wiswell" . . .

The longest novel in history is

Adele Garrison's (real name,

Mrs. Martin White) story of

one couple's married life, call-

give up the ship." It was invented by a newspaper reporter. * * * The first popular serial writers were Horatio Alger, ir., and Mary Jane Holmes, developed by the N. Y. Sun. And, believe it or not, the 60-year-old "Lena Rivers," by Miss Holmes, last year topped sales of Hemingway's "For Whom the Bell Tolls" and

Banner With a Strange Device

It's Just A Head Running Around With Its Chicken Cut Off! "OFF" Has No Office, No Facts, No Figures

York Times, which regarded it for a while as just a publicity stunt by the actor.. The highest paid regular columnist was Brisbane, but ex-President Coolidge earned \$425,000 with his daily comments during the year he syndicated them. The higgest lumin sum arms with its chickens with the syndicated them. them ... The biggest lump sum around with its chicken out offended by a syndicate was \$325,000 The head is competent enough for General Pershing's memoirs.

Deer Trappers Making Plans

BY RICHARD M. MOREHEAD United Press Staff Writer AUSTIN, Nov. 20 (UP) - Ever wonder how to catch a grown

Experts from the Texas game, fish and oyster commission are going to trap 900 this fall to be used for re-stocking areas where the supply is low. Last year, they caught only 500.

This year the task will be doubly difficult because the deer have plenty of feed and water right in their own backyards and aren't as interested as usual in the bait (and traps) set by the state's men.

Deer this year are being captured on the federal Arkansas refuge, near Austwell, on the Gulf coast, and in Llano county, center of the deer-hunting country west of Austin.

Phil Goodrum, director of wildlife restoration for the state game commission, said that the latest type box trap has been unusually successful. It catches the nimble animals in such a way that they easily can be shipped by truck and it does not injure the deer, as old-model traps often did.

Traps Set In Clusters The restoration work is financed infly by state and federal funds Fraps are set in groups of 75 to

The first step is to win the deer's confidence by putting out its favorite food in the vicinity of the traps. Texas deer seem to prefer a mixture of mistletoe and cottonseed cake. The baiting period lasts two weeks to a month, during which the deer are lured closer and closer to the traps.

The traps are in two parts, an area enclosed on three sides by heavy wire and a plyboard box on the back side of the wire enclosure. When the deer lose their uspicion of the wire enclosure where feed is placed, the trap's triggers are set. The triggers are concealed in the floor of the enosure, to be tripped whenever a Two Triggers Released

When the deer touches the trigger, a heavy gate slams shut on the open side of the wire enclosure. This startles the deer into rushing through the opening at the opposite end, where the wooden crate is concealed. When the deer enters the crate, another door s sprung and the deer is ready for loading onto a truck for shipment to a new home. The crate is too small for the deer to move about which reduces injury to a mini-

Goodrum explained that the restoration program calls for plac-ing the deer in groups of at least on reserved ranges of 10,000 acres or more each. This year, the deer will be moved to 30 localities. in as many parts of the state Owners of the preserves agree to forbid deer hunting on their propwhy for at least five years at 10 years if the game commission

finished reading your comm and alleged poetry in regard to the University of Texas, and re-gard it as distinctly unfair and calculated to mislead the formed. In your position, should not be one of those. It is true that the university is rich in oil, but they are confined to using that money for permanent im provements, and are dependen upon appropriations to pay their professors and to pay hundreds of other items. There is never enough money for those purposes and yet the university holds the loyalty f many brilliant teaching m most of whom couldn't tell yo the name of the captain of the football team. University of Texas graduates are sought by employers more than students from any other university in the South, and no for their country club abilities nd that can be proven.

Finally, what was the score of the Texas-O. U. game this year and of the past years?

John M. Steele.

(Dear John: Thanks for your letter. When I wrote, with many a chuckle, concerning the downfall of the mighty. I anticipated numerous kickbacks not nearly so would take a full column for miles.

me to outline how the "university gang" has operated both in and out of the legislature to promote the Austin school at the expense of the other state institutions; how they have millions down there "gingerbread" while other colleges can't even get enough paint to keep their buildings looking decent. Further, I can recount to you how, since the institution of the "Bible Plan," university football recruiters have lifted—and attempted to

"signed up" by other Texas schools during the summer proceding their entrance into college. How about dropping in sometime, so we can talk over the details? I know I would enjoy a visit with you because I have admired you ever since watching your courageous and clean campaign of last summer. As to your other questions: My good friend Amon Carter has no "piece" of The Avalanche-Journal; and to save my soul I couldn't even tell you the score of the most recent Texas-Oklahoma game. Fact is. I don't pay any more attention

to the gridiron fortunes of Oklahoma than I do to those of. Slippery Rock. You're right about nearly all colleges hiring football players. However, it is my under standing that since the insti-tution of the "Bible Plan," under, which able, likeable D. X. Bible was employed for a 10-year period at \$15,000 per year-more than the president of the University of Texas had ever been paid up to that time - that Texas has had more money for football talent than any of its rivals. just as it has more money for frills and furbelows than the others have for actual educational needs. Thanks again for your letter. Cordially yours,
