Revival and Anniversary Services In Progress at Christian Church

Increased interest and attendance at each service has marked the progress of the revival and 70th anniversary services being held this week at the Christian Church. The revival will continue through June 8.

A series of evangelistic messages is being brought by R. J. Kidwell, Christian Church minister of Abilene. Assisting in the services is the local minister Guy I. Harris.

Climax of the revival and anniversary service will be June 8, when the morning message will be brought by Bertis White, a former Haskell boy who is now ministering to the Christian Church in Iraan, Texas.

At noon there will be an old-time gospel dinner, featuring the "largest cake ever seen in Haskell." The cake will be prepared by ladies of the church and will actually be of tremendous size, the ladies have announced.

At 3 p. m. Sunday there will be an old-time songfest with congregational singing, solos, duets, etc.

Also at this time, the 70-year history of the church will be read, along with letters and messages from out-of-town friends and former members who cannot be present in person.

Preaching services will continue at 8 o'clock each evening this week, and the public is invited to hear the gospel messages being brought by Evangelist Kidwell.

Abilene Minister Guest Speaker at Lions Club Meet

Abilene Minister Guest Speaker at Lions Club Meet

R. J. Kidwell, Christian Church minister of Abilene, was guest speaker at the meeting and luncheon of Haskell Lions Club Tuesday at noon in the Texas Cafe.

Lion Guy Harris, program chairman, introduced the speaker, who is bringing a series of messages at the revival and anniversary service now in progress at the Christian Church.

The Abilene minister pointed out that the American people must accept Christ or chaos if the world is to emerge from the troubled era in which it is today.

Rotarians also heard an interesting talk by Carl Anderson on the oil industry. In the club's business session, with Vice President Tom Barfield presiding, the district attendance report for April was read, listing the local Rotary Club in first place with an attendance record of 98.81 for the month.

Dinner marking the club's first anniversary will be a fish fry, to be held in the Corral Building at the Saddle Tramps rodeo grounds. The affair will be held Thursday evening, June 26 and wives of Rotarians will be special guests. Officers for the ensuing Rotary year will also be installed at the meeting.

Carl Anderson, oil field contractor and charter member of the local club, talked on oil field drilling and other phases of the industry.

Anderson began his career in the oil business as a roughneck and later a driller in the Oklahoma City oil field around 1936. He explained the various terms used in the oil drilling business, and told of the changes in the drilling and production of oil during the past 20 years. He told of some of his experiences in Kansas, Louisiana, and South Texas fields. In concluding his talk, he explained the development of water flooding in the secondary recovery of oil, pointing out that thousands of barrels of oil are being produced in the Sojourner Field through water flooding. Without flooding, this large quantity of oil would never have been recovered, Anderson explained.

A guest at the meeting and luncheon was Billy McCaulley of Haskell and visiting Rotarians were Hubert Bradshaw of Stamford and T. J. McCarty of Abilene.

Harvest of Bumper Grain Crop Under Way at Weinert

BY MILDRED GUESS

Harvesting of the bumper grain crop in the Weinert area started Friday and has proceeded almost without let-up.

Up to Tuesday morning, two grain dealers in Weinert had shipped 21 cars of grain and had 11 more cars loaded or in storage. Graham Mill & Elevator had shipped 11 cars of wheat, had loaded out four more and had five or more carloads in storage.

Kelley Grain Company had shipped 10 cars of wheat, oats and barley, and had two more cars ready to go Tuesday.

Graham Mill & Elevator's Weinert house is managed by W. B. Guess and Frank Oman, and workers are Scotty Oman, bookkeeper; Bill Guess, Clarence Searcy, and Lucas Cabrera, workers.

Kelley Grain Company is managed by Jim Kelley of Megargel, Doyle Boykin is bookkeeper, and workers are Frank Hall and Joe Draper.

Average yield of grain around Weinert is 60 bushels per acre of oats, 25 bushels of wheat an acre, and 50 bushels of barley per acre.

Trustees Employ Additional Grade School Teacher

An additional 6th Grade teacher will be added to the faculty of Haskell Elementary School for the 1958-59 term. It was announced following the regular meeting of the school board Tuesday night.

Kent Murder Case Transferred Here For Trial June 16

The murder trial of Robert A. Willis, Jr., 36, has been transferred from Kent County to Haskell for trial in 39th District Court here June 16.

Willis was arraigned in 39th District Court at Jayton last Friday on a charge of murder with malice aforethought returned by a Kent County grand jury. He entered a plea of not guilty to the charge.

Judge Ben Charlie Chapman, presiding for the arraignment, denied bond in the case and set the trial for June 16 in Haskell. Change of venue was agreed upon by State Prosecutor Royce Adkins, and the defendant's counsel, Ratliff & Ratliff, Haskell lawyers.

A special venire of 144 or more prospective jurors will be summoned for the trial here, court officials indicated.

Willis, onetime oil field roughneck, is accused in the 22 caliber rifle slaying of his father-in-law, Dewey Carr of Girard. Willis was arrested April 24 at the Carr farm about an hour after Carr's body was found near his tractor.

Willis, who has been held in the county jail here since his arrest, was indicted May 14 by a Kent County grand jury.

Rainfall During May Measured at 3.94 Inches

May rainfall in Haskell amounted to 3.94 inches, as officially recorded by the Government gauge kept by Sam Herren, and located in North Haskell.

Total precipitation for the month was well above normal May rainfall of 3.34 inches.

Displays Planned In Vacant Store Buildings

Through the cooperation of Haskell business concerns, merchandise displays are being arranged in the show windows of several unoccupied buildings in the business section this week.

The program is designed to make the appearance of the business section more attractive, and also to utilize unused space to display merchandise and goods available in Haskell stores.

The program is sponsored by the C. of C. retail trade committee. Mrs. Ramia Lee Frazier, committee chairman, said that building owners had given splendid cooperation in permitting use of vacant buildings.

Use of the display spaces will be assigned on a rotating schedule between business concerns taking part in the program.

Merchants and business concerns participating in the program include: Neely Dry Goods, Coffee Dept. Store, Fashion Fabrics, Hassen's, Perkins - Timberlake, Ghobson Grocery, Wheatley's, Heiber Jewelry, Lane-Pelzer, Service Cleanery, Perry Brothers, H. A. Matinee Slated At Texas Cowboy Reunion

It has been previously announced there would only be night performances this year at the Texas Cowboy Reunion in Stamford on July 2, 3 and 4 but plans have been made for a matinee show on the afternoon of the Fourth.

According to W. G. Swenson, president of the Texas Cowboy Reunion, Inc., a contract has been entered into and approved by the board of directors with the Longhorn Production, Inc., of Dallas whereby a full length colored movie will be made to be released through United Artists Corp. This made it necessary to have a daytime show, which has been arranged for 2 p. m. on the Fourth.

As announced earlier, the opening day parade will be at 4 p. m. on July 2 with the night performances following at 7:45 p. m. and the night shows for the 3rd and 4th will be at 8 p. m. Arrangements have been made to have the world famous Hardin-Simmons Cowboy Band furnish music and color for all the shows. The Rev. Jerry Boles will be the announcer of the rodeo events this year.

Miller Creek Project Would Solve City's Water Problem

Haskell voters will have the opportunity of taking a definite step toward securing an ample and assured supply of domestic water of the highest quality by voting June 17 to confirm Haskell's membership in the North Central Texas Municipal Water Authority — commonly termed the Miller Creek project.

Building of the Miller Creek Reservoir would provide a supply of water adequate for Haskell and six neighboring towns for at least 40 years, and allowing for a 100 per cent increase in population.

The Miller Creek project has been selected as the most feasible and economical solution to the water problems of Haskell and neighboring towns after a careful and exhaustive study of all existing and potential water sources in this area.

This study has been made over a period of the past three years by city officials of the seven towns now sponsoring the project, together with interested citizen groups, and some of the state's foremost water engineers.

City officials and engineers have gone on record in recommending the Miller Creek project as one which "will serve the best interests of Haskell, both present and future" over any other available source of domestic water in this section, either existing or potential.

For the average householder, the benefits from having a plentiful supply of soft water would mean a saving of possibly hundreds of dollars yearly. It would eliminate the use of expensive water softener services and for many families it would eliminate the purchase of bottled water for domestic consumption.

Haskell residents who have noted the increasing mineral content or "hardness" of water now being used from underground wells, need no reminder of the many benefits of soft water.

These benefits, and the fact that the Miller Creek project has been recommended by engineers and your city officials as the best and most feasible solution to Haskell's pressing water problem, should be borne in mind when voting in the June 17 election.

Another fact to be kept in mind — and an IMPORTANT fact — is that NO TAX OR BOND ISSUE is involved in the election. Any statement to the contrary is misleading and confusing.

The confirmation election is solely for the purpose of determining definitely the member towns in the water authority. When membership in the authority is confirmed by a vote of citizens in each town, separate elections will be held later in each town on the issuance of bonds, and on a water purchase contract.

The Bottom Hasn't Fallen Out

There is no point in minimizing the unemployment problem in this country. At the same time, there is an obvious danger that its magnitude can be emphasized out of perspective.

As of a late date, the Wall Street Journal points out, the unemployment amounted to about seven per cent of the total work force. By way of comparison, the figure at the worst of the depression of the 30's was 30 per cent. The lowest figure — three to four per cent — was reached during the postwar boom.

"Therefore," the Journal says, "when we attempt to appraise the present state of the economy in terms of unemployment we should remember that seven per cent out of work, while personally distressing, is mathematically excessive only when compared with the best years any economy ever had."

We hope that the seven per cent of the work force who are now unemployed will find jobs soon. Meanwhile, it will do no one any good to act as if the bottom has completely fallen out of the economic structure. It hasn't. Despite the recession, the vast majority of the American people are far better off, materially speaking, than their equivalents in any other country on this earth.

THE PERSONALITY OF A TOWN

A town must have a personality to achieve any kind of status — regional, state or national. It must show that it is an interesting place in which to live. Few people investigate local banks or post-office receipts when they are faced with a move. They find something there that makes them feel good or something that stimulates them. Sometimes an atmosphere and an attitude can be more influential than a ream of statistics.

Drive around your town and get the "feel" of it; are you proud you are a citizen of Haskell? Visit the buildings around the "square" and then give the credit for the clean "new face" on the vacant buildings to the merchants whose names and merchandise you see in the windows.

These are some of your PROGRESSIVE MERCHANTS who intend for Haskell to have a personality of which you can be proud!

Other merchants will participate in this program next month — so window-shop often — you might miss something!

JOIN THEM IN A PROGRAM TO KEEP YOUR TOWN CLEAN AND FRIENDLY!

City Fireman Floyd (Satch) Lusk, because of the nature of his work knows as a rule just what course of action to take in any emergency.

But last week's combination rainstorm-tornado had him in a puzzling dilemma—he knew what to do but couldn't do it! Highway Patrolmen and local officers who were keeping a close watch on the stormclouds advised "Satch" to sound a storm warning with the fire siren when it appeared that a tornado cloud was moving toward Haskell from the west.

Just as "Satch" started for the master switch to start the alarm, almost everyone had noted the threatening clouds and didn't need a warning to send them to storm cellars.

Telephone operators also helped out, warning as many as possible of the tornado threat. Although the operators themselves had been warned to seek places of safety they remained at their posts and maintained emergency service despite the power shut-off during the worst part of the storm.

The city fireman gets calls frequently to do a variety of jobs, ranging from opening a stuck window to rescuing pets. It's become almost a legend that when something difficult and out of the ordinary comes up, the first suggestion offered is "Call 'Satch,' he can do it."

Last week, for instance, when a stray cat managed to fall into a dry, abandoned well in the Lindsey Addition. All-night meowing of the dissatisfied cat disclosed the animal's predicament. The news of the imprisoned cat got to Chief Ray Lusk's wife, Annie Laurie, and naturally, "Satch" got the call.

This time, however "Satch" sent a detail consisting of Fireman Glenn Bartley, Jim Byrd, Tom Watson, Frank Reynolds and Chief Ray Lusk himself. With the use of a 25-foot extension ladder, the crew made the rescue of not one—but two—very angry and bedraggled cats.

Thos. B. Roberson is generally considered a very observant type of man, a fellow who notices everything. Now, his friends are saying, it could be that Tom is slipping.

At the approach of the storm last Tuesday, Tom like most all Haskell people went to the storm cellar with his family. Emerging after the blow Tom noticed a neighbor's TV antenna twisted, and limbs broken from several trees.

Quickly surveying his own TV antenna, he was relieved that it still was perfectly upright. None of his trees appeared damaged. Naturally, he considered himself a very fortunate man. That feeling grew as he later heard of damage which had occurred all over town.

Came Thursday morning, and a roofing contractor met Tom downtown. "If you haven't already given the job to someone, I'd like to figure on doing that roof repair job for you," the friend said to Tom.

"What roof?" the amazed Tom asked.

"At your home, where the chimney blow over and knocked some holes in the roof," the roofing man answered.

Tom broke for the telephone and called home, and his daughter answered. "Sara go outside and see if anything has happened to the chimney on our house," he urgently told her.

She did, something had, and the roofing man got a job.

So now, if you see Tom drooping and shaking his head occasionally, bear with him. He'll snap out of it.

Given a few more days of sunshine Haskell, figuratively speaking,

ing, will have wheat and oats "running out of its ears." Although the harvest barely got under way last week, by Sunday thousands and thousands of bushels of oats from the new crop had been dumped on the ground near the Rice Springs Rodeo arena, awaiting completion of storage.

Also, overflow receipts at one of the Market P&E elevators east of the square, had spilled into a miniature mountain of grain which extended to the edge of the pavement on South First Street.

With continued favorable weather, by the time this gets into print, Haskell will be "bustin' at the seams" with the most fabulous grain crop in its history.

Grain farmers who are becoming almost cross-eyed watching for the threat of fire on the ground and hail from the clouds, are not the only ones worrying about harvesting this year's bumper crop.

Even the Highway Department has its troubles in this respect.

Rank growth of volunteer oats in the barrow ditches along some F-M roads would, over the space of a few miles, equal a good crop on an average size farm.

This "road crop" hasn't gone unnoticed either. One enterprising owner of a modern baler took it on himself to harvest some of the crop. He was reportedly getting a yield of 100 bales to the mile when he was stopped.

Highway Department regulations prohibit cultivating or harvesting any crops inside the right-of-way boundaries, he was told.

Miss Lary Waskom Given FHA Award At Surprise Picnic

A picnic was held at Rice Springs Park in Haskell Thursday evening, May 29, with the event being planned to honor Miss Lary Waskom and to present to her a 20 year Service Award from the Department of Agriculture.

Oris R. Bruner, Area FHA Supervisor and the personnel from the Haskell office arranged the picnic in Miss Waskom's honor. Mr. Bruner, along with Wm. E. Lawson, local FHA supervisor, acted as hosts for the occasion.

The 20-year award was presented by Robert C. Pope, former FHA supervisor for Haskell County, and one of the first supervisors Miss Waskom worked under. Mr. Pope is presently employed by the Prudential Insurance Co. as reviewing appraiser for North Texas. In presenting the award Mr. Pope read a letter from Walter T. McKay, State FHA director, wherein Miss Waskom's 20 years of service was outlined. Among Miss Waskom's accomplishments was an award for Outstanding Service in 1955. At that time she received a substantial cash award along with an expensive paid trip to the National Capital where the award was presented personally by Ezra T. Benson, Secretary of Agriculture.

Most all of the personnel from FHA Area 11 were present. From Aspermont were Mr. and Mrs. F. C. Clemens. Mrs. Clemens is county office clerk for FHA, and Mr. Clemens is a Range Management specialist for the Soil Conservation Service. From Anson were Mr. and Mrs. Norris Nanny and Miss Hester Harris. Nanny is FHA supervisor in Anson, and Miss Harris is county office clerk. From Seymour were Oris R. Bruner area FHA supervisor; Mr. and Mrs. C. T. Pitman, and Mrs. Bill Pitcock. Mr. Pitman is a State game warden from Seymour; Mrs. Pitman and Mrs. Pitcock are county office clerks. From Graham were Mr. and Mrs. Herman Reeves. Mr. Reeves is County FHA supervisor in Graham. From Decatur was O. Ray Brown, County FHA supervisor, and Mrs. Zena Thompson, county office clerk. From Fort Worth was Wm. D. Boone, Federal game warden for the U. S. Department of Interior. Also attending were all the FHA employees and their families who work in the Haskell office: Mr. and Mrs. Wm. E. Lawson, Nancy and Kathy Lawson. Mr. Lawson is County FHA supervisor; Mr. and Mrs. Sam C. Ferguson and their three children. Mr. Ferguson is Assistant County Supervisor; and Mrs. Billy T. Chriezberg, county office clerk, and her daughter, Trisha.

First Methodist Fellowship Class Has Lawn Supper

Members of the Fellowship Class of the First Methodist Church enjoyed an open air supper on the back lawn at the home of Mr. and Mrs. Wilbert Klose Thursday night. Each family brought a covered dish.

The supper menu included fried chicken, buttered bread, potato salad, beans, relishes, iced drinks and ice cream.

Thirty class members and guests attended.

B&PW Discusses Pending Vote on Water District

The Haskell B&PW Club met Tuesday at 7:30 in the Texas Cafe dining room with the Membership and National Security committees in charge of the program for the evening.

The president, Leone Pearsey, conducted a business session and the state convention to be held in Dallas June 13, 14, 15, was discussed.

Report was given by a special committee for drawing up rules to be used in judging both downtown windows for which the B&PW Club awards plaques annually, and for the home-lighting and decorating contest which was held for the first time in 1957. Both events will be conducted and judged again during 1958 holiday season.

Ramla Lee Frazier, projects committee chairman, requested each member to alert others for the approaching vote to join the water district June 17 and clarify the issue by stating that this is not a home issue, but a vote to unite with neighboring towns to join a water district, which is our final chance to gain much needed water security.

Dr. Robinson, National Security Committee, introduced County Judge Alfred Turnbow who discussed Civil Defense in our immediate area. He told what is being done in regards to radio equipment and plans for an emergency siren for the near future. Judge Turnbow urged each person to be a volunteer worker for Civil Defense and to attend Disaster Conference scheduled for early fall.

Other members assisting Dr. Robinson and Clara Beard were: Estehr Helber, Winnie Sherman, Juanita King and Brucille Nelums. Frosted drinks were served to members and special guests.

Next meeting will be the final meeting of the club year, at which time written reports of all chairmen are due. Officers for 1958-59 will be installed by the District Seven Director Zaida Brown of Snyder.

In Nero's time the public slaughter house was one of the most imposing structures in Rome.

Paint Creek . . . Community News

MRS. GENE OVERTON

You have seen this silly little commercial on TV of the fat little woman with wheels for legs and the voice saying "busy-day, busy-day, busy-day?" Well, that is Paint Creek farmers for the past two weeks and if this wonderful weather holds, we hope for the next two or three weeks. Have you ever in all your life seen such beautiful grain? I never have, and I've been wheat farming with Gene Overton 22 years. It is all waist high or higher, and just golden. The stems are small and spindly, which accounts for all the falling down it has done, but there are a million of them, with full, fat little heads on top. If the fall hadn't thinned it for us, we never would have been able to cut it all, and we would probably have been just filthy rich.

This part of Paint Creek was so lucky to have had our grain just thinned by about 30 per cent. In the southeast part they had their crop harvested in one hour late one afternoon with a hail storm. Fred Shaw, Raymond Bounds, Alec McLennan and their neighbors lost their crops. The young maize was stripped, too, but it will come out again. It was just delayed a lot in its growing.

This grain cutting is going to be slow, because the grain is so tall, and so much of it is down that the combines must cut low on the ground to pick it up. That makes the combine handles so much straw that it slows up a lot. But it is so wonderful to just make grain again, and such beautiful grain at that, that tired and overworked as everyone is, I've never seen such happy farmers. Even breakdowns don't seem so disastrous this summer. We couldn't ask for drier, prettier weather for the harvest either.

Many are having to replant their cotton after the showers last week. But it still isn't too late, although most had rather have their cotton up by the first part of June if the weather will allow it.

Honoring Mr. and Mrs. Dan McRae, who are leaving the latter part of this month to begin work at Highland School, Mr. and Mrs.

W. P. Trice, Mr. and Mrs. Robt. E. Speer and Mrs. Irene Ballard hosted a party for the Paint Creek faculty and their families. Richard Selmon showed films made while he taught and was stationed in Paris, France. A gift of a table lamp and a lovely plate of sandwiches, olives, pickles, cookies and punch was served to Mrs. Mary Owens, Mrs. Lilla Heflin, Miss Bess Smithy, Richard Selmon, Willie Lee Medford, Pat Morrison, Mrs. Elbert Payne, Mr. and Mrs. Leonard Crabbe, Mr. and Mrs. Allen Isbell, Mr. and Mrs. Mac Earles, the guests of honor and the hostesses.

Mrs. Hoyt Perry underwent surgery last week in the Stamford Sanitarium. The surgery was for a vein condition, and was on only one leg. She will have further surgery later on.

Mrs. E. A. Schaake underwent surgery two weeks ago and is at home now, recuperating nicely.

We have several Paint Creekers in the hospital now, and who have just returned home. Charlotte Cook had surgery on her foot for an ingrown nail. Mrs. Jesse Cook spent several days in the Haskell Hospital with pneumonia. Dempsey Bolding had an appendectomy. Olin Houston spent several days in the hospital with pneumonia. Mrs. Mary McCown is a patient in the hospital, and Clarence Raughton is still in the hospital.

The members of the senior class and their sponsors, Willie Lee Medford and Mrs. W. C. Taylor, returned from the senior trip last Friday. They visited Laredo and went on into Old Mexico for a day or two. They visited Corpus Christi and San Antonio and places of interest en route to these cities. They all had a wonderful time, and brought back every kind of Mexican souvenir one could want. Some of them are quite good traders when it comes to "jeweling" the Mexican shop keepers.

Mr. and Mrs. Frank Sims have had more graduates this spring than most anyone around. Their youngest son, Dub, graduated with the senior class of Paint Creek. Monday they were in Lubbock where they saw their second son, Ray, receive his B. S. degree from Texas Tech. Then a week ago Friday, they went to Vernon to see their grandson Steve Sims, son of Mr. and Mrs. Frank Sims, graduate from Vernon Kindergarten. And little Steve wore a cap and gown, too. Mrs. Sims said the rental on his cap and gown was \$3—imagine that? But don't you know those little fellows looked cute graduating?

Ray is planning to continue acting as Head Herdsman for the Texas Tech cattle, and assisting the agriculture students there. He intended going right into county agent's work, but Tech made him such a good offer to stay there that he could hardly refuse it.

Honoring the graduating senior class the week before commencement, several senior mothers entertained with a progressive dinner. Mr. and Mrs. Jesse R. Cook, Mr. and Mrs. Arthur Watson, Mr. and Mrs. J. B. Marr hosted the cocktail course at the home of Mr. and Mrs. Cook. The salad course was served at the home of Mr. and Mrs. Morris Haynes with Mr. and Mrs. Sammie Griffith as joint hosts. Mrs. Paul Fischer and Mrs. Frank Sims served the main course at the Paul Fischer home, and Mr. and Mrs. Morris Hughes and Mr. and Mrs. Dempsey Bolding hosted the dessert course at the home of Mr. and Mrs. Bolding. This was one of the nicest affairs and probably the most fun for the seniors of any of their parties.

Mrs. Paul Fischer fell and broke her foot the latter part of May and now has it in a cast that reaches to her knee. This accident probably stopped more "woman power" than you'll find in five average women. Honestly, she can do more hopping around on one foot than most of us can do in a week.

She had most of Clara's graduating clothes finished when she fell, but even with a broken foot she has had the main course of the senior progressive dinner party at her home, kept several neighbor's children for them while they were away, attended all the school closing programs, and still helped keep that chicken business running like clock work. Of course the fact that she has three efficient and industrious little daughters, and a hard-working husband has helped; but Paul has had all the field work the rest of us have had. Anyway we'll all be glad when Frances is on her good two feet again. Her mother, Mrs. Annie Peiser, from Matson, spent the first week after her fall with them.

Gordon Don and Garry Lee Harris, Ina and Curtis Bittner, Margaret and Paulette Fischer have been attending Daily Vacation Bible School at the Lutheran Church in Haskell for the past two weeks.

Danny, Jeannine and Janice Isbell, Melanie and Donald Livengood, Joy Bergstrom and Melia and Riekey Perry are attending the Bible school at the First Methodist Church in Haskell this week. The Methodist Sunday School decided to join Haskell in their Bible school since we were to have so few for a school of our own.

Bobby Roberts, son of Mr. and Mrs. J. W. Roberts, has recently received his medical discharge from the army and has returned home. He has an injured back. Bobby was stationed at Ft. Bill, Okla., when he received his discharge.

Mr. and Mrs. J. H. Montgomery and Mrs. Woodrow Smith and Jeff met their daughter-in-law and daughter and children at the airport in Dallas Sunday night. Mrs. John Carlos Montgomery, Johnny Paul and April returned home

from New Jersey where Lt. Montgomery is stationed and will visit her parents and his, until he receives his orders.

Jerry Hughes, Jeff Smith, Eddie Dawson McKeever and Mike Overton are playing Pony League baseball on Stanley McKeever's team in Stamford this summer. Their first game is Tuesday, June 10th.

Danny Thane and Mike Shaw are playing on other teams.

Mrs. Manuel Guinn was a community visitor during the commencement activities when her son G. W. graduated. She visited Mr. and Mrs. Mac Earles and her parents, Mr. and Mrs. George France. On May 23 Mrs. Guinn became the bride of Mr. Self Burt of Odessa and they will make their home there.

Mack Earles took his father-in-law, Mark McCrary of Munday to Wadley, Tenn., to see his sister, Mrs. Rene Corbett who suffered a stroke. Mrs. Earles stayed in Munday with her mother while they were gone.

Mr. and Mrs. Mack Earles and Eddie had as house guests last weekend a nephew, Mr. and Mrs. Waldon Earles of Houston, and a brother Mike Earles of Shamrock, his son Bill, and his son-in-law,

whose name I don't know.

Attending the May meeting of the chicken raisers of our part of the county at Paint Creek school were Dale Middlebrooks, Paul Fischer, Tommy Ballard, Pat O'Keefe, Frank Mosler, Oren Howard, Herbert Fischer, Otto Wittens, and A. T. Ballard of Haskell, Wade Helm of Montrose, Mo., and Mr. Roberts of Tyler. The wives brought refreshments and sometimes when I have time I want to give you the cookie recipe of the cookies Mrs. Dale Middlebrooks brought. You don't have to bake them.

Pvt. Jerry Buchard of Fort Carson, Colo., has spent his after basic leave with his parents, Mr. and Mrs. Eugene Buchard.

Rudy Raughton is to play semi-pro baseball in Wyoming this summer and he left Saturday May 28 to join the team.

Mr. and Mrs. Frank Underwood have recently covered their home with grey asbestos shingles and put one of those snowy looking roofs on it. It is so attractive, and we are so pleased for them. They also did some remodeling inside with an enlarged living room, taking in the porch they did

have on the front. They redecorated, too, of course.

The Underwoods have had as their guests last week Mr. and Mrs. Paris Trimmer of Levelland and their grandson Eddie. They fished at the lake for several days.
