# County reinstates Burn Ban

## Fireworks restricted

Floyd County Commissioners siles with Fins" are restricted and met for their regular meeting June 9th and reinstated the burn ban

Due to high winds and dry conditions the commissioners

prohibited from being sold in Floyd County. The ban does not restrict class B or C, non-aerial, Fireworks.

grade a ranch road in the N/E part of the county.

Melissa Long and McCrae McCormick, County 4-H member, g. ve the County Ag report. Commissioners approved J.D. Re<sup>61</sup>and was out of town with 4-h vembers at competitions. Melissa has been busy giving programs to area groups including a Lockney study group and Floydada Senior Citizens group. Melissa reported the Walk Across Texas was going well with 458 Floydada students and 20 Floydada teachers walking a total of 11,986.75 miles. The

county wide Walk Across Texas will continue until June 27th.

In other 4-H happenings Long reported three youth have attended Leadership Camp at South Plains College in Levelland. Eleven 4-H'ers will participate at State Roundup. County Record Book Judging is June 26. District Record Book Judging is July 9th.

Floydada woman robbed in home

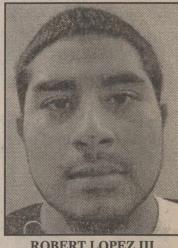

at the time gave the man \$5.00.

"We got a description from both the witnesses," said Gooch, and we started asking around town with day laborers."

According to Gooch a man fitting the description was identified within one hour and 15 minutes

"It took us longer to do the paperwork and get the warrant then it did to identify the man," said Gooch.

The next morning, June 4, police arrested Robert Lopez III, 18, of Plainview (formerly of Lockney).

lation of his probation. The next step is for his case to go before

passing forged checks at

"The same day of the robbery someone also kicked in the back door of another home about one block away," said Gooch. "There was no one home. A roll of stamps was stolen. We believe it was probably the same man."

"We've done a good job of catching the bad guys," said Gooch, "but we need help from the community too.

"When gas prices and food prices go up so do thefts and burglaries. In Lubbock they are seeing a rise in thefts of catalytic convertors. The convertors are stolen for the copper, metal, and zinc. Also holes are being punched in gas tanks to steal gas.

court reinstated the burn ban for can lift the ban at any time before the 90 days.

In a related matter commis-. sioners adopted a resolution banning "Restricted Fireworks" for the Fourth of July holiday. Only. "Skyrockets with Sticks and Mis-

raising employee travel from 35¢ a period of 90 days. If conditions a mile to 50¢ a mile when using change the commissioners court their private vehicle for county business. Also approved was an increase in meal allowance from \$20 a day to \$25 a day for meal allowance when employees traveling while on county business. Commissioners approved one.

### **Floydada Chamber of Commerce CITY WIDE GARAGE SALE** Saturday, June 21, 2008 Starting at 8:00 a.m.

You can list your Garage Sale with the chamber for \$15.00 (The fee helps with the cost of advertising locally and the surrounding counties) Come and register your garage sale with the chamber. The more listings the more successful it will be. Maps will be available at Allsup's, Floydada Friends, and Lowe's Pay N Save. For more information call 983-3434 or come by 125 East California. The deadline to enter your garage sale is Thursday, June 19th by 4:00 p.m.

# **CRP** will open for grazing after nesting season over

June 6, Michael McDonald, Executive Director of USDA's Farm Service Agency in Floyd County announced that USDA has authorized certain acreage enrolled under the Conservation Reserve Program (CRP) to be available for hay and forage after the primary nesting season ends for grass-nesting birds.

"This action will provide much needed feed and forage while maintaining the conservation benefits from the nation's premier conservation program," said McDonald. "Eligible farmers and ranchers will be able to plan for harvest of forage after the end of the primary nesting season this summer."

Prices for most field crops have advanced to record or near record levels in recent months, reflecting strong demand, tight supplies and competition for acres. The increased demand for commodities and resulting higher prices has impacted the livestock industry in particular.

More than 24 million acres of land enrolled in CRP will be eligible for this critical feed use program. USDA estimates that this

program will make available up to 18 million tons of forage worth \$1.2 billion.

"In authorizing this critical use of CRP acres for forage, USDA is also taking strong measures to preserve CRP's environbenefits," mental said McDonald.

Eligible land may not be haved or grazed until after the end of the primary nesting season

Also, some of the eligible land

or forage of the land must be reserved for wildlife and any land that is used under this authority must have a conservation plan. In many instances, the removal of some of the grass cover will increase the diversity of the stand and provide long-term benefits for wildlife. Further, the most environmentally-sensitive land enrolled in CRP will not be eligible. The land will be subject to a site inspection to ensure compliance with the conservation plan. No rental payment reduc-

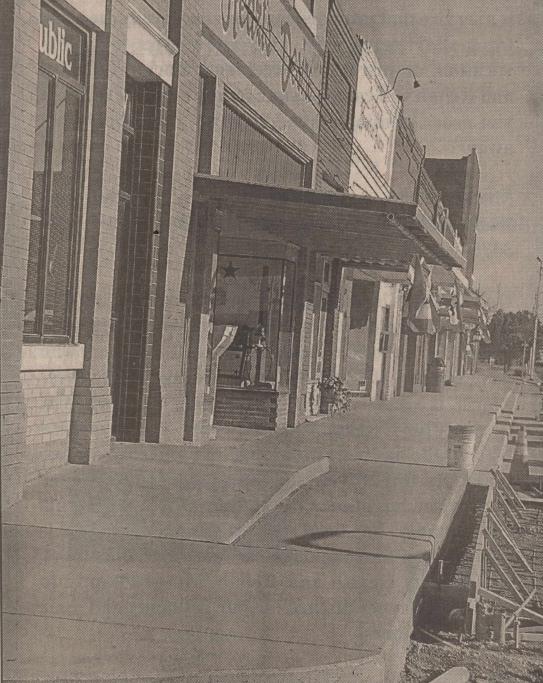

tion will be assessed on contracts being utilized for this critical use. However, a \$75 fee will be charged to process the required contract modification.

Signup for interested CRP participants began June 2, 2008, at local Farm Service Agency (FSA) offices. This modification for critical feed use is only for 2008. All forage use must be completed no later than November 10, 2008.

Under CRP, farmers and ranchers enroll eligible land in 10- to 15-year contracts with USDA's Commodity Credit Corporation (CCC). FSA administers CRP on behalf of CCC. Participants plant appropriate cover such as grasses and trees in crop fields and along streams. These plantings help prevent soil and nutrients from running into regional waterways and affecting water quality. The long-term vegetative cover also improves wildlife habitat and soil quality.

Additional details including Fact Sheets, Maps and statistics are available at http:// www.fsa.usda.gov/conservation.

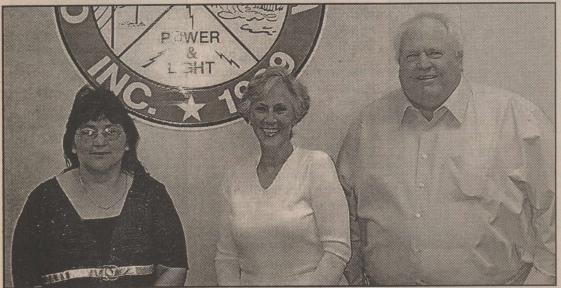

NEW SIDEWALK IN LOCKNEY--The new sidewalk on the west side of Lockney's 100 block of Main Street are nearly completed. The old sidewalks in the 200 block have now been torn up and when that block is complete work will begin on the east side across from the Post Office. **Courtesy Photo** Donations are still needed to complete the antique light posts.

IAN MCINTOSH AND BONNIE DUNLAP

# Dunlap and McIntosh

Mr. and Mrs. John Dunlap are pleased to announce the engagement and approaching marriage of their daughter, Bonnie, to Ian McIntosh. Ian is the son of Kreis McIntosh of Floydada and Kathie McIntosh of Lubbock. Bonnie is the granddaughter of Norma Marrs of Matador.

The bride-elect is a 2001 graduate of Floydada High School and received her Bachelor of Business degree in Finance and Master of Business Administration degree in Management from West Texas A&M University. She is currently Customer Service Supervisor and Training Officer for Amarillo National Bank.

The prospective bridegroom attended Floydada High School and Texas Tech University. He is a cotton and wheat producer in Floydada.

The wedding will be held August 30, 2008, in Crosbyton Church of Christ.

#### By Vera Jo Bybee

We need "RAIN". This hot wind and dirt is getting old. The farmers really need some rain. The one bad thing that rain can cause is mosquitos. Lockney just has alley spraying.

I would like to thank all the Lockney Churches for putting me on their mailing list so I will know who is ill not only in my church. A special thanks goes to my dear friends, Boyd and Gale Reay for the hand delivery every Sunday morning.

Jo Webb's daughter Ruby and husband Jimmy Wardlow of Seymour and daughter Arlene Anderson of Littlefield were here recently visiting their Mom and sister Lynda Holley both of Lockney. They came not only to see Jo and Lynda but also attended the graduation of Jo's grandson John Scott from Plainviw High School. He is the son of Randy

Saturday at the DQ and he told me he is all through with College. Now he is studying for the CPA test. Good Luck Jeremy!

## **Spirit Wind Youth Choir** begins tour

Spirit Wind 2008, the Northwest Texas United Methodist Youth Choir, will have a concert in Floydada, June 18th.

The choir begins its summer tour Thursday, June 12, 2008 at 7:00p.m. with a performance at First United Methodist Church, in Ranger, TX.

Concert venues include local Methodist churches in Abilene, Amarillo, Floydada, Friona, Haskell, Littlefield, Lubbock, Midland, Muleshoe, and Perryton.

Floydada's concert is scheduled for Wednesday, June 18th at 7:00 p.m. at First United Methodist Church, 203 West Kentucky.

A select group of 45 United Methodist senior high school youth from West Texas and Panhandle communities, Spirit Wind 2008 represents 18 conference congregations of all sizes. Under the direction of Wes Gomer, a member of the music faculty of McMurry University, Conductor of the McMurry Chanter, and organist for the Episcopal Church of the Heavenly Rest in Abilene. Spirit Wind 2008 continues in its 30th year to present concerts of sacred music representative of all styles and periods.

A love offering will be taken at the concert.

## **Buffalo Grass Chapter NSDAR**

#### **By Sherry Colston**

The Buffalo Grass Chapter NSDAR met on Tuesday May 27 for our monthly meeting at 6:00 p.m. in the Lighthouse Electric meeting room in Floydada, Texas. Presiding Regent, Debra McCarty, opened the meeting in ritualistic order.

Nancy Marble read the President General's message how to capture lost family pictures by using new resources like digital cameras, and computers. Pricilla Minter read the National Defense article about the first USO center opening in Iraq. The USO goal is to bring comfort and service to our men by providing such things as internet and email

service, games, movies and a place to relax.

For the flag minute, Violet Cooper read all the flag days including Memorial Day which reads - half staff until noon and then raised full staff. Sherry Colston talked about the importance of the Electoral College in confirming the next president for four years. Dana McCarty read about the Lakota Circle which is the circle of life from birth to death. The loop circle is togetherness with friends, family and nature.

Sherry Colston read the minutes of the previous meeting and they were approved as read. The members enjoyed our hosted by Janice Julian and Virginia Taylor.

Following the supper Margaret Berry reported that we had collected 1,100 coupons for a face value of \$1,300. Margaret read a letter from coordinators that stated over \$5 million dollars worth of coupons had been sent to bases overseas. Let us continue to support this cause.

Dana McCarty read the junior letter she received explaining the role of the junior members in NSDAR. At this time she is our only junior member.

Our Memorial program was given by Dorothy Hodges remembering our member and loved ones who have passed

annual delicious salad supper away. We lost Stella Eugenia Tilson Bethard this year. She was a past regent of the chapter. Members gave their thoughts and remembrances of Eugenia.

> Debra McCarty, regent, reminded us that we should be proud of our men and women who fought in all wars - those who came home wounded and those who did not make it home and gave their last full measure. Debra McCarty reminded us

of our executive meeting on June 11 at 2:00 p.m. at the Floyd County Historical Museum in Floydada. Our next regular meeting will be on September 23 at 6:00 p.m. at the Lighthouse Elec-

tric meeting room. The meeting adjourned at 8:30 p.m.

## **Turner awarded 2008 Gould Scholarship by ITT**

a the state of the state

**ALISON RAE TURNER** 

Alison Rae Turner, 18 year old daughter of Kelly and Melinda Turner of Lubbock, and a May 30th graduate of Monterey High School, was recently awarded the 2008 Norman J. and Anna B. Gould Scholarship by ITT. This scholarship was instituted in 1964 upon the death of Mr. Gould, former President of Goulds Pumps, Inc., who believed deeply in education.

A committee consisting of non-Goulds employees with experience in education selected the recipients of these coveted scholarships. Recipients are evaluated on a number of achievements including scholastic grades, class rank, SAT or ACT test scores and community service.

thirteen very deserving sons and daughters of Goulds IBC and R&CW employees nationwide to receive scholarships. Alison's dad, Kelly, is employed as a TTO Applications Engineer at the Lubbock plant.

Turner was considered for this scholarship because of her written essay and other activities including her membership at Second Baptist Church, Lubbock, where she participates in mission work, such as Habitat for Humanity, Backyard Missions, volunteer work at South Plains Food Bank, Mission Arlington, and Hurricane Rita Assistance.

She has had fourteen years of dance experience, was part of her high school marching band, serving as Drum Major her senior year and was a State Solo and Ensemble Qualifier for the years 2006, 2007, and 2008. Alison will be attending Texas Tech University this fall with a major in Pre-Dentistry.

Turner also was the recipient of a \$1,000 scholarship for completing 30+ college hours while in high school. She graduated Monterey High School with honors, maintaining a plus 3.50 average

She is the granddaughter of Shorty and Louise Turner and This year the committee chose Shirley Morton, all of Floydada.

JORDAN CORNELIUS won 1st Place in the International Novice Tour (INT) Wakeboard Series, May 31, in Austin at Aquaplex Lake. There were 17 divisions. Jordan competed in the Men's Novice Division against 7 other riders, from Texas and Louisiana. He has been wakeboarding for 7 years, having grown up practicing on Possum Kingdom Lake. Jordan placed 1st with 1,250 points. Novice division riders perform six specified novice tricks. After the six are completed novice riders can perform a seventh or wildcard trick. Jordan's tricks included Ollie 180's, Half Cabs, PowerSlides 360; Melon's; Toe Side 360, and the Roast Beef. He will be competing in Texas throughout the summer. The finals will be held in Bakersfield, CA. Jordan is the son of Eric and Julianne Cornelius, of Floydada.

Thursday, June 12, 2008 - The Floyd County Hesperian-Beacon-Page 5 Suarez selected to represent R. C. Andrews Elementary

ANGELA SUAREZ

Nine year old Angela Suarez was selected to represent Floydada's R. C. Andrews Elementary by the Plainview Daily Herald in their 2008 Tomorrow's Leaders section.

At school Suarez is involved in UIL Ready Writing, UIL Spelling, the Shine Team and the "A" Honor Roll.

Outside of school she also participates in the CCE Youth Class

basketball All-Star Team, Gymnastics and competitions, Softball and Cheerleading camp for 6 years.

When she graduates from high school, she plans to attend Texas Tech University and get a teaching degree.

Suarez said, "I have lived in my community all my life. Living in a small community makes it a great place to live because I am able to participate in a lot of activities. I feel that it makes me a better person because I enjoy making new friends. I like for everyone to consider me a friend. I want to help everyone I can and everyone who needs my help.

"I think it is important to be a good citizen at school and in my community because helping one another makes me feel good. Also because I want to be treated with the same respect I provide."

Angela is the daughter of Joe at Catholic Church, basketball, and Sandra Suarez of Floydada.

## Appling graduates top of class and leaves for Naval Academy

WILL APPLING

Will Appling graduated as the 2008 Valedictorian of Crosbyton High School.

He graduated with a grade point average of 99.57.

Appling is the son of Mark and Cindee Appling of Crosbyton.

He is the grandson of Walter and Mary Alice Davis of Floydada and Joe and Jean Appling of Crosbyton.

Appling will be reporting to the Naval Academy in Annapolis, Maryland July 2, 2008.

4-H LIVESTOCK JUDGING TEAM ATTENDS TEXAS TECH JUDGING CAMP--Nine Floyd County 4-H members attended a three day Livestock Judging Camp at Texas Tech University, June 1 - 3. Those attending were: (Left to Right) Tylee Williams, Senee' Foster, Segayle Foster, SyAnn Foster, Brady Ragland, Brazos Williams, McCrae McCormick, Madolyn McCormick and Taylor Orr. A total of 90 kids from across the state of Texas attended the camp. The final day consisted of a Livestock Judging Contest. Awards were only presented to the top ten. Award winners were a combination of the contest as well as scores from the entire camp. Of the ten awards, Floyd County 4-H'ers received five of them. Senee' Foster received 2nd place High Individual Overall, Segayle Foster won 4th and Tylee Williams placed 10th. Also, Brady Ragland placed 1st High Individual in Reasons. Additionally Brazos Williams received a plaque **Courtesy Photo** for Best Attitude throughout the entire camp.

## **Floyd County Texas AgriLife Extension** sponsoring Beef Cattle Summer Meetings

The Floyd County Texas AgriLife Extension Service is sponsoring a three (3) part Beef Cattle Summer Meeting series. This meeting series is for any interested producer and/or beef cattleman.

The meetings will be held throughout the summer months. Part I will be held on June 26 and will feature Beef Cattle "Herd Health". Part II is set for July 30 and will feature Beef Cattle Meal sponsor businesses are: "Feed and Nutrition" and the final Part III will highlight "Managing Native Pastures". On site tours will follow each meeting.

All meetings will be from 9 a.m. - 3 p.m. at the Floyd County Friends Unity Center (located 6 miles North on Hwy 70).

A noon meal will be provided at each meeting. CEU's will be offered for appropriate topics. 4912.

Davis Farm Supply, Floydada; Range Mineral, Tulia; Plains Federal Land Bank, Plainview and Hi Pro Feeds, Friona.

each meeting would be helpful but it is not mandatory.

For more information and for helpful RSVP please call the Floyd County Texas AgriLife community and the U.S. Depart-Extension Service at (806) 983-

## Deadline for Livestock Disaster program set

Michael McDonald, Executive Director for USDA's Farm Service Agency in Floyd County today announced June 6th that livestock producers have until July 18, 2008, to enroll in the 2005-2007 Livestock Compensation Program (LCP) and Livestock Indemnity Program (LIP).

2007, for the two programs that vides payments to eligible live-

ers who suffered eligible livestock or livestock feed losses between Jan. 1, 2005, and Dec. 30, 2007, because of a natural disas-

The LIP provides payments to eligible livestock owners and contract growers who incurred the death of livestock because of Signup began on Sept. 10, a natural disaster. The LCP pro-

provide aid to livestock produc- stock owners and cash lessees who suffered feed losses or in- number of minority and women creased feed costs because of a farmers and ranchers nominated natural disaster.

> More information about LCP and LIP is available online at: http://disaster.fsa.usda.gov. For more information on FSA programs, visit your local USDA Service Center or the agency's Website, http://www.fsa.usda.gov.

## FSA 2008 County Committee nominations start June 15th

Michael McDonald, Executive Director for USDA's Farm Service Agency in Floyd County has announced that farmer and rancher candidate nominations will begin June 15 for local Farm Service Agency (FSA) county committees. The nomination period continues through Aug. 1, 2008. Elections take place this fall.

"I encourage all producers to participate in the county committee election process by nominating candidates by the August 1 A RSVP one week prior to deadline," said McDonald. "We are counting on as much participation as possible, because county committees are an important link between the agriculture ment of Agriculture. We have seen a trend in recent years of increased nominations of minority and women producers and we hope that trend will continue."

Between 2003 and 2006, the as candidates to FSA county committees nationwide increased 35 percent. Additionally, the number of African American producers nominated as candidates tripled during the same period. To be eligible to serve on an FSA county committee, a person must participate or cooperate in a program administered by FSA, be eligible to vote in a county

committee election and reside in the local administrative area in which the person is a candidate. 6th Grade Fastest Typist -Producers may also nominate

emergency programs, commodity price support loan programs and other important agricultural issues. Committee members serve three-year terms. Nationwide, there are more than 7,800 farmers and ranchers serving on FSA county committees. Committees consist of three to five members who are elected by eligible local producers.

FSA will mail ballots to producers beginning Nov. 3. The voted ballots are due back to the local county office either via mail or in person by Dec. 1.

Newly elected committee members and alternates take office Jan. 1, 2009.

For more information on FSA County Committee nominations, contact the Floyd County office at 806-983-3763.

# **Public Notice**

# **2007 Annual Drinking Water Quality Report**

# (Consumer Confidence Report) **City of Lockney**

#### Special Notice for the ELDERLY, INFANTS, CANCER PATIENTS, people with HIV/AIDS or other immune problems:

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. The EPA/Centers for Disease Control and Prevention (CDC) guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (1-800-426-4791).

#### **Our Drinking Water Meets or Exceeds All Federal (EPA) Drinking Water Requirements**

This report is a summary of the quality of the water we provide our customers. The analysis was made by using the data from the most recent U.S. Environmental Protection Agency (EPA) required tests and is presented in the attached pages. We hope this information helps you become more knowledgeable about what's in your drinking water.

WATER SOURCES: The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals, and in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Contaminants that may be present in source water before treatment include: microbes, inorganic contaminants, pesticides, herbicides, radioactive contaminants, and organic chemical contaminants.

#### .En Español

Este informe incluye información importante sobre el agua potable. Si tiene preguntas o comentarios sobre éste informe en español, favor de llamar al tel. (36) (52 - 2355 - para hablar con una persona bilingüe en español.

#### Where do we get our drinking water?

Our drinking water is obtained from Surface and Ground water sources. It comes from the following Lake/River/Reservoir/Aquifer: MACKENZIE LAKE. TCEQ completed an assessment of our source water and results indicate that some of our sources are susceptible to certain contaminants. The sampling requirements for our water system are based on this susceptibility and previous sample data. Any detections of these contaminants will be found in this report. If we receive or purchase water from another system, their susceptibility is not included in this assessment. For more information on source water assessments and protection efforts at our system, please contact us.

#### **Inorganic Contaminants** Year or Average Level Minimum Maximum MCL MCLG Unit of Measure Contaminant Source of Contaminant Range Level Level 2006 Arsenic 6 6 6 10 0 Erosion of natural deposits; runoff ppb \* The arsenic value was effective January 23, 2006. In the event of a from orchards: runoff from glass and violation, you will be notified electronics production wastes. 2005 0.089 0.089 Barium 0.089 Discharge of drilling wastes; 2 2 ppm discharge from metal refineries; erosion of natural deposits. 2005 Chromium 1.8 1.8 1.8 100 100 ppb Discharge from steel and pulp mills; erosion of natural deposits 2007 2.11 1.52 Fluoride 2.7 Erosion of natural deposits: water 4 4 ppm \* May indicate a secondary constituent violation for fluoride additive which promotes strong teeth; discharge from fertilizer and aluminum factories. 2007 Nitrate 0.22 0.06 0.38 10 10 Runoff from fertilizer use; leaching ppm

#### ALL drinking water may contain contaminants.

When drinking water meets federal standards there may not be any health based benefits to purchasing bottled water or point of use devices. Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline (1-800-426-4791).

#### **Secondary Constituents**

Many constituents (such as calcium, sodium, or iron) which are often found in drinking water, can cause taste, color, and odor problems. The taste and odor constituents are called secondary constituents and are regulated by the State of Texas, not the EPA. These constituents are not causes for health concern. Therefore, secondaries are not required to be reported in this document but they may greatly affect the appearance and taste of your water.

#### **About The Following Pages**

The pages that follow list all of the federally regulated or monitored contaminants which have been found in your drinking water. The U.S. EPA requires water systems to test for up to 97 contaminants.

## **DEFINITIONS:**

Maximum Contaminant Level (MCL) The highest permissible level of a contaminant in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal (MCLG) The level of a contaminant in drinking water below which there is no known or expected health risk. MCLGs allow for a margin of safety.

Maximum Residual Disinfectant Level (MRDL) The highest level of disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants

**Maximum Residual Disinfectant Level Goal** (MRDLG)

The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contamination.

#### **Treatment Technique (TT)**

A required process intended to reduce the level of a contaminant in drinking water. Action Level (AL)

The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

#### ABBREVIATIONS

- NTU Nephelometric Turbidity Units MFL - million fibers per liter (a measure of
- asbestos)
- pCi/L picocuries per liter (a measure of radioactivity)
- ppm parts per million, or milligrams per liter (mg/L)
- ppb parts per billion, or micrograms per liter  $(\mu g/L)$
- ppt parts per trillion, or nanograms per liter
- ppq parts per quadrillion, or picograms per liter

"If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. This water supply is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead.'

#### Turbidity

Turbidity has no health effects. However, turbidity can interfere with disinfection and provide a medium for microbial

#### **Required Additional Health Information for Arsenic**

The maximum contaminant level (MCL) for arsenic decreased from 0.05 mg/L (50 ppb) to 0.010 mg/L (10 ppb) effective January 23, 2006. Because the highest reported arsenic level on this report is between 5 ppb and 10 ppb, the following information is required by EPA:

"While your drinking water meets EPA's standard for arsenic, it does contain low levels of arsenic. EPA's standard balances the current understanding of arsenic's possible health effects against the costs of removing arsenic from drinking water. EPA continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems."

### **MY DAD**

**By Edward Marks** 

My dad is quite a guy, And I'm proud to be his son. For he has something gold can't buy, A love as bright as the sun.

A better man I never knew, And guess I never will. Because men like him are few, And I think he's pretty swell.

Small in size but big in heart, This grand old man of mine. I just think he's pretty smart, and men like him are hard to find.

He fought life's battles with dignity and grace, And sometimes life was no fun. But always with a smiling face, Yes, I'm proud to be his son.

### THIS WEEK'S

bids.

#### **PUBLIC NOTICE**

Caprock Community Action Association, Inc. is in the process of raising rates for riders on Cap-Trans Public Transportation. The cost of fuel and the increased ridership has caused the increase and will be implemented in early July, 2008. Cap-Trans is supporting an increase of \$5.00 a one way trip locally and \$10.00 a one way trip out of area. Public Meetings will be held in each of the counties served by Cap-Trans. Time and place will be announced in advance.

#### 6-12, 6-19c

#### **SHERIFF SALE**

The Floyd County Sheriff's Office will be holding a Sheriff's Sale on June 23, 2008 at 10:00 a.m. on the front steps of the Floyd County Courthouse. The auction will include:

1. One Quarter horse; name "Calendar Chick" a grey mare that was foaled May 4, 1996.

2. Markings are as follows: star and snip, right hind coronet with partial white.

3. Sired by "Chicks Beduino" and dammed by Merridoo". Horse also holds a certificate of registration through the American Quarter Horse Association.

Sheriff's Office reserves the right to accept or reject any or all

Paul Raissez Sheriff, Floyd County by: Daniel Spain, Chief Deputy

#### **BID NOTICE**

Floydada I.S.D. is now accepting sealed bids for one (1) new 72 passenger bus.

Bids must be received in the office of the Superintendent, 226 W. California, Floydada, Texas 79235, no later than 12:00 P.M., July 8, 2008.

Bids must be sealed and marked "BUS BID". The bids will be opened at 1:00 P.M., July 8, 2008.

**BID NOTICE** 

Floydada I.S.D. is now accepting bids for one (1) new 2008

For specifications, contact Jerry Vaughn at 226 W. California or call 806-983-33498.

F.I.S.D. reserves the right to reject any and all bids.

## **KIDS AND** DOGS

Friends for Life

Children and dogs go together like peanut butter and jelly. Since dogs are often an important part of children's lives, the American Kennel Club<sup>®</sup> reminds parents to teach their children how to behave around dogs.

**CHILDREN SHOULD NEVER:** Wake up a sleeping dog

 Bother a dog while it's eating food or chewing a bone

· Pull a dog's tail or ears

• Tease a dog

And they should always ask the dog's owner for permission before approaching any unknown dog. Children who learn to treat their dogs with care and respect will be safer and more confident around their canine pals. And they'll have a friend for life. For more information about safety around dogs, visit: www.akc.org.
