MEXICAN ARTISAN

ARTESANO MEXICANO

The Mexican people have always been and still are great artisans. Here we see one at work. Mr. Jesus Velasco makes whips of all kinds at his place at 1009 Avenue G where he also lives. Jesus is a true craftsman who makes the "best whips anywhere". For 17 years he has created them in Lubbock. He produces about 3 "chicotes" an hour. With Mr. Rodriguez who is on vacation and the two sons of Bill Henderson a huge amount of the whips have been produced in the last few years. They are sold wholesale, generally, in a number of states.

Jesús was born and lived in the state of Guerrero, Mexico until 1928 when he came to Texas. He then learned to make other things by hand and 17 years ago began to make whips. Jesus has 3 children who live here. Mexican craftsmen still exist, even in Texas.

JESUS VELASCO

Los mexicanos siempre han sido artesanos y aquí se ve uno, el Sr. Jesús Velasco que fabrica chicotes. Trabaja en su lugar en 1009 avenida G donde él vive también.

Jesús es artesano de veras que fabrica "los mejores chicotes de todo el mundo". Hace como 17 años que los crea en Lubbock. El produce tres chicotes cada hora. Con el Sr. Rodriguez que está de vacaciones, y los 2 hijos de Bill Henderson han fabricado un montón durante los últimos años. Se venden los chicotes por mayor, generalmente, en varios estados.

Jesús nació en el estado de Guerrero, México y vino a los EU en 1928. Ha vivido en Texas desde esa fecha. Aprendió hacer otras cosas aparte de las que hace 17 años se puso a hacer los latigos y chicotes. El tiene tres hijos y ellos también viven aquí.

### U.S. To Have No Claim On Moon

COLORADO SPRINGS, Colo. (AP) — Planting the American flag on the moon won't give the United States any legal claim whatsoever to the lunar territory, a space law expert said today.

"For the first time in history, planting a flag on unexplored territory, legally, means nothing because a treaty prohibits nations from claiming the moon or any other celestial body," said Brig. Gen. Martin Menter, judge advocate for the Air Force Aerospace Defense Command at nearby Ent Air Force Base.

The treaty signed by the United States and the Soviet Union,

among other nations, also prohibits weapons of mass destruction in outer space or on celestial bodies, Menter said.

Lector, has pensado en la hermosura de vivir en paz.

OUR COLABORATOR RECUPERATES

Agustín Medina de 32 Ol Baylor, longtime publisher and Editor of "Noticias" now collaborator of "La Voz" has been released from West Texas Hospital and is now recuperating at his home.

Originally from Alamo and Mission, Texas Mr. Medina came to Lubbock in 1959 to begin "Noticias" which for a long time was the only means of communication for the Mexican-Americans. His first edition came out in 1960. He was also editor of "El Valle".

"El Internacional" and other newspapers in the Valley.

"La Voz" is appreciative of Mr. Medina for having pushed us toward our own publications. We hope that he will recuperate quickly and be of service once more to his people.

#### 2 Horas Caminaron en Selene Armstrong y Aldrin

(N. de R.—Neil Armstrong y Edwin Aldrin caminaron dos horas y 14 minutos sobre la superficie lunar anoche. Poco después de las 23 horas volvieron al módulo "Aguila" y hoy a las once de la mañana hora de México dejarán la Luna para ejecutar la maniobra de reacoplamiento con la nave madre que pilota Michael Collins a 80 kilómetros de altura.

Y en la madrugada del martes, los tres apolonautas iniciarán el regreso a Tierra. Hubo cierta tensión cuando después de medianoche se cortó el contacto radial pero éste se restableció momentos después.

El módulo "Aguila" alunizó a las 14:18. Los apolonautas debían bajar a suelo lunar a las 24:30, pero pidieron permiso para hacerlo antes. NASA lo concedió y Armstrong a las 21:04 se convirtió en el primer hombre que pisó la Luna. Estuvo solo 20 minutos. Luego se le unió Aldrin.

Dejaron la bandera de su país, una placa de constancia de los deseos pacíficos de los primeros hombres en la Luna, mensajes de los Jefes de Estado —Díaz Ordaz entre ellos—, un sismógrafo y un rayo láser. Y se llevaron nueve kilos de muestras lunares.

### Studies In Mexico

Twenty-nine Tech students left the campus Tuesday to study at the University of San Luis Potosi, Mexico. Among the courses they will be taking are Spanish civilization, advanced literary analysis, Mexican drama and a course in the Spanish language and the Mexican novel.

The study program, open to students who plan to teach Spanish or enter the government service, is designed to create further appreciation and understanding of Mexican culture. The students will live in private Mexican homes. While in Mexico, the group will have the opportunity to attend the theatre, movies and concerts. Included in their plans is a field trip to Mexico City and Guadalajara where they will visit historical sites and study Mexican life in the city. The 29 students will return to Texas Aug. 19th.

NO MORE GOOFIN' OFF—Gino Ezqueda, left, 18, son of Mr. and Mrs. Bias Ezqueda, of 1507 Bates, tells Neptali DeLeon and Lupe Angulin, right, they must quit sleeping on the job and do their duty as his page boys in the one-act Spanish farce, Los Fieles Servidores, tonight at Rogers Community Center. DeLeon, 24, is the son of Mr. and Mrs. Francisco DeLeon of 2907 2nd St. and Angulin, 15, is the son of Mr. and Mrs. Nicolas Angulin of 2910 Baylor. (Staff Photo)

### TEATRO DEL BARRIO\*

## City's First Spanish Theater Group Slates Performance Of Farce Today

An 18th Century Spanish farce [Operating on money furnished by Lubbock's United Fund, director of Guadalupe Servidores unfolds] by Lubbock's United Fund, the Teatro del Barrio, theater of the poor, has performed two plays to standing-room only audiences.

First Spanish-speaking theater to stand outside its existence.

The money, about \$750, is out of a six-weeks crash program by the United Fund to

provide salaries, supplies and transportation to such a youth group, according to Barbara

DeLeon, 24, the group's president.

Under the direction of Neptali DeLeon, 24, the group performs plays in both Spanish and English and ranges in age from 14 to 18.

I doubt if we are going to, instead, we will probably ask the audience for donations and try to make it what they give us."

Todays' play will be in Spanish and will feature Gino Ezqueda, 18, son of Mr. and Mrs. Bias Ezqueda of 1507 Bates; Lupe Angulin, 15, son of Mr. and Mrs. Nicolas Angulin of 2910 Baylor; and DeLeon, 24, of 2907 2nd St.

Ola DeLeon also will perform a dance, "Sacrificio de Bronze", to Suite form "Inaria."

The nine-member troupe practices in the evening since most of them work during the day at various jobs ranging from chopping weeds in a field to pumping gas at a service station.

Until recently, their performances have centered around plays by contemporary Spanish authors. Scenery and costumes have been improvised and lines and actions have been altered to suit their particular situation.

Not long ago, according to DeLeon, they decided they wanted to write their own plays instead of doing plays by authors who are "not of our time, or place, or acquainted with the way we live."

The play, "No Choice," DeLeon said, was put together by all the members of the troupe. Although it is still in its rehearsal stage, the play is expected to be ready for performance in the next few weeks.

The theme centers around a draftee having to leave his wife and go to the army.

TEATRO DEL BARRIO

Según el grupo, ya es tiempo de que nuestra gente despierte el Barrio. Haciendo historia el barrio a creado un magnífico teatro para nuestro pueblo México-Americanano.

Con la ayuda de United Fund y bajo, la dirección de nuestro propio editor, Neptali De Leon, el teatro a tenido dos presentaciones, una en el barrio de Guadalupe y otro en el Barrio Arnett Benson.

El grupo esta compuesto de jóvenes de los barrios que se han propuesto a traer cultura y arte a nuestro pueblo. Creativos y energéticos, los jóvenes se juntan por las tardes después de sus varios trabajos, como la limpieza, gasolineras.

ESTACION ESPACIAL DE FRENSEDILLOS, Madrid, 20 (AP)—Los astronautas Armstrong y Aldrin accusaron variaciones en su frecuencia cardíaca, según han informado a la estación espacial de Fresnedillas, cerca de Madrid, que ahora se encuentra en contacto directo con el IEM. Su pulsación fue luego de 90 por minuto en Armstrong y de 80 en Aldrin.

## EDITORIAL

## LETTERS TO EDITOR

To the Editor of La Voz:

In your editorial in the July 18th issue you stated that the Office of Equal Opportunity "should undergo an intense and critical analysis". I would like to make such a critical analysis. And rather than criticizing the office here in Lubbock, my criticism will be of the federal government and the values it represents. Although I would like to confine my discussion to the Lubbock area, I don't think one can understand the failure of the Lubbock office without examining the government which created that office.

First of all I think that the office here has failed to eliminate poverty simply because the government is not interested in eliminating poverty. This does not mean that President Nixon wants children to continue to die of hunger here in Lubbock. What it does mean is that our government has many other interests which are more important to it. To illustrate this point, the government collects more in taxes from those classified as poor than it spends on its poverty program. Is that the way to eliminate poverty?

Rather than eliminating poverty, I feel that the principle value of the government is protecting certain financial interests. Thus we spend millions of dollars giving price supports to farmers who are already rich, and yet very little is done to eliminate the perpetual poverty of the farm workers. We spend billions to construct super highways to carry manufactured goods, but very little to provide new housing for those living in the barrios. Billions are spent to protect a dictatorship in Vietnam (and of course investments and markets) while soldiers with Spanish surnames continue to die. Government officials are speaking of paying arms manufacturers \$50 billion for anti-ballistic missiles, but how many of these officials have considered spending \$50 billion in eliminating poverty? Perhaps these figures show what is of importance to our government, and what is not: the poor.

What is needed is not an office, nor a dozen of them, but rather a change in the values of our society. Some examples of our present values are: In the sixties increases in salaries have been wiped out by inflation, while at the same time corporate profits have increased by 84%, that is they have almost doubled. This is what they call "business as usual". Here in Lubbock County there are land owners who receive \$35,000 a year without working while paying very low salaries. These people are called "upstanding citizens". With "business as usual" and these "upstanding citizens" I feel that poverty will be around for a long time.

What will be necessary to eliminate poverty will be a society which has a greater interest in the well being of all its citizens, and less interest in making a profit from everything. And before we have such a society I feel that it will be necessary to distribute the sources of wealth among the citizens, as Mexico has done in part with its land reform. Meanwhile, the rich will use their influence to get richer, and poverty will continue here in Lubbock County.

During the first summer session at Texas State University (Tech) a large number of teachers had the opportunity of attending an institute for those who are teaching migrant students. The institute focused on the problems of the Mexican-American migrant. About 100 teachers and 70 assistants (teachers-aides) attended the six weeks program.

The director of the institute was Dr. Katherine Evans and the faculty consisted mainly of Drs. Rebstock, Chambliss, Foerster and Bumpass. The latter is of the Department of Classical and Romance Languages and is an expert in the teaching of English as a foreign language. The other distinguished personages are from the Department of Education. They discussed with the groups various aspects of migrant teaching.

Other members of the faculty were Mrs. Perkins, Ochoa, Miss Purdie and Mr. Don Stapleton. Of the Education Service Center came Mr. Hector Zamorano, Richard Ybarra and Raymond García. There were a number of other consultants who talked on specific areas of interest.

The teachers came from many towns and cities in Texas. Some of those from here were Betty Faulkner, Gale Swann and Mary Lou de la Cerdá. A great number of other teachers from Lubbock also attended. Almost all the teachers I talked with personally agreed that the institute was a success and that they learned much from the varied activities the program provided. They made films, gave teaching demonstrations, heard speakers as well as discussed topics as small groups.

Each participant had the opportunity to visit the home of a migrant family to chat about their worries and problems.

The government, through the Educational Service Center, has spent a great amount of money in an attempt to diagnose and eliminate the problems of the migrant student, especially the Mexican American of this region.

## INSTITUTO MIGRANTE

Durante el primer semestre de este verano en Texas State University (Tech) muchos maestros y maestras tuvieron la oportunidad de presenciar un instituto para los que enseñan a los estudiantes migrantes. Focaron en los mexicano-americanos y sus problemas. Casi cien maestros y unos setenta asistentes lo presenciaron.

La directora fue la doctorada Katherine Evans y en la facultad se incluyeron los doctorados Rebstock, Chambliss, Foerster y Bumpass. Esta es del Departamento de Lenguas Extranjeras y es especialista en la enseñanza del inglés como una lengua extranjera. Los otros distinguidos son del Departamento de la Educación y ellos discutieron con los grupos la enseñanza para los migrantes.

Otros miembros de la facultad fueron las señoras Perkins, Ochoa, la Sra. Purdie, y el Sr. Stapleton. Del "Education Service Center" vinieron los Sres. Hector Zamorano, Richard Ybarra y Raymond García. Habían varios otros consejeros que chararon sobre problemas especiales.

Los maestros aparecieron de todas partes del estado. Algunos de ellos de Lubbock son las Sras. Gale Swann, Betty Faulkner y Mary Lou de la Cerdá. Varias más de Lubbock también asistieron. Casi todos dijeron que valió mucho el instituto, que aprendieron bastante por las actividades que les ofreció el instituto. Hicieron películas, demostraron como enseñar tal cosa de la ciencia, lectura o las matemáticas. Abundaban las discusiones. Discutieron como relacionarse con el migrante. ¿Cuáles son sus problemas? Hay soluciones?

Cada participante tuvo la oportunidad de visitar en el hogar de un migrante para platicar sobre su vida y problemas.

El gobierno, por el Educational Service Center, ha gastado mucha plata en resolver algunos de los impedimentos de los migrantes, especialmente de los mexicano-americanos de esta región.

## SEARCH II IN PLAINVIEW

The Search was held in St. Alices church in Plainview, Texas. There were about 71 new search and about 71 new searchers and 20 team members. The Search was held from July 18 thru 20th.

Friday consisted mainly of getting acquainted, going to confessions, assisting in a rosary and a sing-a-long. Saturday discussions were held on several questioning topics such as: Who am I? Commitment, actual grace, matrimony and

others; The talk on matrimony was given by Mr. and Mrs. Pete Veneegas, of Lubbock.

Afterwards we had a volleyball recreation on which the Priests, sisters and all searchers participated. We had a blind walk which symbolized how much lack of faith, trust and love lacked in our fellowman. Later we had a speech then we felt that our love and trust was brought out and then on the second blind walk we had faith and

we could respect the person so much that we felt secure and loved. The best part of the search was when we visited God at the Altar and we talked out loud with him. We felt at that moment that God really heard us and that he was speaking with us alone and that he was forgiving us because we were feeling real sorry inside and knew that we had been doing wrong.

By Sunday we were completely changed because we realized what true love really was and that people do care for us.

We feel one should go to find out what love really is and you find that you have things to look for in the future.

## CONVENCION DE GI FORUM

El Sr. y la Sra. Francis Flores reportan, que han pasado un tiempo muy interesante en la convención del GI Forum que tuvo lugar en San Angelo durante los días 3 al 5 de Julio de 1969. El Sr. Felix fue como representante del distrito 13 y su esposa Francis representó el GI Forum Ladies Auxiliary de Slaton. Durante el banquete el Sr. Felix fue honrado por sus diez años de servicios en la organización. Durante esta junta el distinguido Sr. Ralph Yarborough, habló tocante el progreso que ha hecho esta organización en los recientes años pasados, al mismo tiempo previendo el avanceamiento en el futuro. También fue notado de que durante la segunda guerra mundial y el conflicto Coreano, el porcentaje mayor de medallas fue otorgado al grupo Méjico-Americano. Aquí vemos que el grupo Méjico-Americano también dada grandes contribuciones durante las guerras. Durante esta junta los oficiales siguientes fueron elegidos:

Presidente del Estado...Dr. Hector P. García  
Vice-Presidente.....Eliazar Salinas  
Ex. Sec. ....El Sr. Paz  
Aux. Ch. del Estado .... La Sra. Sepulveda  
La convención del año entrante se ubicará en Brownsville, Texas. Felicitaciones a el Sr. y Sra. Flores.
