# Tribe Downed By Bucks 20-14

**INDIAN OF THE WEEK** goes to Tim Pringle, No. 11, who so far this season has done a fine job steering the Indian offense as a quarterback, and has been a defensive standout in all three games. Pringle is pictured closing in on 200-pound back Billy Roberson, just prior to a crashing one-on-one tackle that stopped him in his tracks. (Photo by Don Comedy)

**By: DON COMEDY**  
The Haskell Indians were defeated 20-14 last Friday night by the Breckenridge Buckaroos in what was probably the best showing of the year for the Tribe.  
Of the five TD's scored during the game, four came about as the result of one big play, fumble recoveries, penalties, or a long run. The Bucks managed the only evenly executed scoring drive midway through the fourth period, marching 66 yards in 13 plays.  
Things looked good for the Tribe fans when after receiving the opening kick-off the Tribe marched to within the 10. Key plays in the drive were a 23-yard run by Randy Ivy and a 15 yard gain by Robin Colbert. Ivy's run came on a fourth and 11 situation when a bad snap made the punt impossible and resulted in the 23 yard gain. Charles Alexander, Tim Pringle and Ivy each tried from within the 10 and Pringle also tried to pass for the TD, but the Bucks managed a flawless goal line stand and gave their offense its first chance. On the Bucks' second offensive play, the pigskin was shaken loose from Randy Fuller and Tim Pringle recovered on the two. Two plays later Charles Alexander dove over the goal line for the only TD in the first half. James McCoy's kick was good and the Indians had a 7-0 lead.  
Neither team managed to move the football throughout the remainder of the first half. Both the second and third quarters were grueling defensive battles. The entire Indian defense looked good and on almost every play it seemed that Billy Holmes, Ricky Decker, Raymond Redella, and Tim Pringle were either in on the play or charging to the place of action.  
The second key play of the game came on the first play of the second half when James Dean carried the kick-off 87 yards to put the Bucks on the scoreboard. PAT failed.  
The next and final score for the Tribe came as a result of two key plays. The first was a fumble recovery by James McCoy. The second was a 28 yard catch made by Robin Colbert. Colbert jumped in an attempt to catch the Tim Pringle pass which was delayed when a Buck defender deflected it. Colbert landed on his back in the end zone and made the catch with one hand from that position. McCoy's kick was good.  
The Indians then began a finely executed scoring drive which covered 66 yards in 13 plays. The run for two points tied the score at 14-14. After only four plays the Indians were forced to punt the ball back to the Bucks who began a race with the clock. The drive started on the Breckenridge 26 with just over three minutes left to play. Two and one half minutes and a pass interference call in the end zone the Bucks finalized the scoring at 20-14.  
Individually for the Tribe, Ivy had 78 yards, Alexander had 36, Colbert had 20, and Pringle had 11.  
The Indians next three games will be played on the home field, Olney, Clyde and Anson.

# Pirates Down L-A

The Paint Creek Pirates brought home the loot Thursday night when they downed Leuders-Avooca by a 66-30 score in fast, six-man football at Paint Creek.

Phillip Cockrell racked up 6 touchdowns for the Pirates; Danny Brueggeman added three more, and Ralph Robertson made one TD. Robby Peiser

kicked three times to add six more points to the score.

"The boys all played good ball," said coach Bill King. Shaw did a good job in the quarterback slot; the defense including Richard Gonzales, Lynn Brueggeman and Mark Sealy did an excellent job, and Delbert Dodd was good on offense.

Paint Creek made 21 first downs, compared to 8 for L-A, and made 10 penetrations to their 8. The Pirates gained 379 yards rushing and 44 yards passing.

Paint Creek will play McCauley at Paint Creek Friday night and all the fans are invited to attend.

**Senate Completes Fiscal Biennium With A Surplus**

AUSTIN—Lieut. Governor Bill Hobby announced today that the Texas Senate ended its fiscal biennium with a \$770,520 surplus.

More than a quarter million dollars of this savings was the result of employee cutbacks and new economies in preparing and printing the Senate Journal, Hobby said.

Much of the remainder of the surplus came from remodeling projects and repair work which were postponed. Hobby complimented Senator Jack Hightower, chairman of the Senate Administration Committee, and Charles Schnabel, Secretary of the Senate, for their work in achieving these savings.

"With government costs rising everywhere, it is refreshing to see such efficiency and economy," Hobby said.

**SBA Contributes To Loan Activity**

Philip J. O'Jibway, District Director of the Lubbock District Office of the SBA, announced that the Lubbock District Office contributed to the business loan activity during this same period wherein they authorized 803 loans for a total dollar volume of \$52,819,000.

The Abilene area of the Lubbock District had a very large percentage increase in loan activity for a total of 99 loans with a dollar volume of \$5,175,100.

Ninety-eight percent of these loans were funded by the West Texas banks and savings and loan associations. Currently 91 percent of the financial institutions in the Lubbock SBA District, which is made up of 81 West Texas counties, are participating in SBA loans.

with those who would take our place militarily and economically. Take the case of our defense preparedness, which is now under debate in the Congress. It is a good question to ask why peace costs more than war, and the answer has been given—we can't afford war any more.

In this fiscal year of 1974, which began last July 1, military spending is projected to be \$79 billion, the highest dollar figure since World War II, which totaled \$79.9 billion. It is a staggering sum of money and one which troubles many

Americans who are also told by the President that we are entering a period of "general relaxation of world tensions."

The thought is that, with Vietnam behind us and with increasing American relaxation toward the Soviet Union and communist China, the defense budget should be declining. It is difficult to accept the Pentagon's assurance that the proposed defense budget is austere.

Be that as it may, in terms of real dollars, that is, considering inflation, the \$79 billion is 28.4 percent of the total Fed-

eral outlay and 6 percent of the national income. Actually, these are the lowest proportions since the last pre-Vietnam defense budget in 1964.

Many factors contribute to the cost of our security. The new B-1 bomber, when built, will cost more than \$50 million each. The price of other military hardware has risen like a rocket. More than 56 percent of the Defense Dept. appropriation goes for salaries, housing allowances, medical care and other benefits to our military personnel has been decreased. On top of all this, our military

faces the extensive task of rebuilding the stockpiles of arms and ammunition that were depleted in our Nation's longest war in Southeast Asia.

Along with all considerations we must never forget that if we are not able to defend ourselves, neither economic well being nor political liberty is possible. We have sometimes spent too much and, at other times, too little. At the end of both World War I and World War II our Nation reduced defense spending and national resolve which contributed to the more recent wars and prolong-

ed their duration. How much we can afford for national survival is answered by responding to these questions:

Have the aspirations of the communist world changed where we are concerned?

Are the communists continuing to amass the means to destroy us?

And finally, can America declare that we can not afford to defend ourselves? The total answer is simply that with the best we can do, the price is not too high if it means survival.

Mrs. Bill Gann visited last week in Mineral Wells with Mr. and Mrs. T. A. Camp.

Eleven ladies of First Baptist Church met in the home of Mrs. C. A. Jackson Sept. 29 to organize a new Sunday School class. They named it the Martha Class, and it begins Oct. 7 at 9:45 a. m. They invite everyone who wishes, to come.

## Sagerton . .

(Week of September 27)

Showers fell in the area again last weekend, but not a great deal of rain. Farmers are making preparations to defoliate their cotton, working on tractors and cotton strippers, and the gin is getting ready for the cotton season, and everyone is hoping for an early cotton harvest time this year; earlier than last year, anyway.

The Regional Red Cross Bloodmobile is coming to Rule at the First Baptist Church basement on October 4, from 11:30 till 4:00. This is for our part of Haskell County, and all residents are asked to participate, if possible. The Red Cross Blood Bank is located in Wichita Falls, and serves all the local hospitals in our area. For more information you may contact Mrs. A. D. May in Rule, who is the local chairwoman. All are eligible between the ages of 18 and 65, and many women can give if their husbands cannot. Seventy pints are needed on October 4.

Our Sagerton 4-H girls brought home three blue ribbons from the Haskell County Fair. Jill LeFevre received blue ribbons on both her sour cream cookies and chocolate fudge, and Martha Kittley received a blue ribbon for her corn sticks, and a third place with her drop cookies. The L.O.C. H. D. Club placed third in their educational exhibit on "Markings on Pattern Envelopes." Patsy Bivins got a first place with her pickledokra, and a third place with her dill pickles.

Mrs. Maurine Phieffer of Lawton, Okla., and her daughter, Darlene Phieffer of Oklahoma City, visited with Mr. and Mrs. Fred Kupatt, Kris and Kraig, last Thursday on their way home from a trip to New Mexico.

Mr. and Mrs. Arnold Laughlin and son of Chilton visited with Mrs. G. A. Leach last week on their way to New Mexico and Arizona.

Mrs. Cliff LeFevre hosted a meeting of the Stitch and Chatter Club at her home Wednesday of last week. The following ladies enjoyed the afternoon and refreshments: Mrs. John Clark, Mrs. M. Y. Benton, Mrs. R. N. Sheid, Mrs. Will Stegemöller, and Mrs. J. W. Threet, and the hostess.

Mrs. D. A. Ulmer of Hamlin, who recently underwent surgery at Hendricks Memorial Hospital in Abilene, was released from the hospital last week and is recuperating in the home of Mr. and Mrs. Alvin Ulmer. She is doing just fine.

We lost another one of our old-timers this week. Mrs. Alma Niennast passed away Monday at Teakwood Manor in Stamford after a long illness. Our sincere sympathy is extended to her children, Lillian of Sagerton, Mrs. Lorene Hemphill of New York, Auda Vee of Hamlin, and LaVerne Stanhope and Loretta Connally of Stamford.

Several of the men of the A.L.C.M. of Faith Lutheran Church attended a Fall Rally at Wilson, Texas Sunday afternoon.

Dr. Bray, missionary to Japan for many years, will be at the Sagerton Methodist Church to speak Friday evening at 6 o'clock. A sandwich supper will be served at the church at 5:00 p. m.

Mrs. John L. Brooks, Sagerton Postmistress, attended the U. S. National Convention of the District League of Postmasters in Dallas, last week.

Everyone in the community should remember the Soil Conservation meeting at the Sagerton Community Center Oct. 2, at 8:00 p. m. J. C. Yeary will present a slide presentation on minimum tillage operations and Jim Boykin will discuss herbicides and their use in minimum tillage. These things should be of interest to all farmers and landowners.

## GOD'S FIVE

### MINUTES

**GATHERED GOLD**

There is a lovely poem about an old man building a bridge over a stream. When questioned as to the wisdom of such a project at his age, he answered, "There's a boy coming after me; I'm building this bridge for him."

But someone said, "That's as out-dated as '33 Skidoo,' for the road the old folks walk is not being traveled by the young. Bridges erected by ever so conscientious parents are standing in lonely wildernesses as far as the coming generation is concerned."

Maybe so; maybe not. My own estimation of the situation is that what may seem to be neglect is due to the fact that the "coming generation" is further down the road than the old folks realize. They've crossed rivers where some people are still standing and talking about a bridge.

Being on this earth longer does not necessarily mean that we are in a superior position "wisdom-wise." Our youth have already crossed the rivers of race relations, atomic warfare, and even the threat of Communism.

But here is a truth that needs to be learned and re-learned at every age: Spiritual values never go out of style, and man never outgrows his need of God.

No matter what the world tries to make our young people believe, they must be led to believe in the God of Abraham, Isaac and Jacob. Old truths like this are new landing pads for space-age youngsters.

that she is now qualified to train other supervisors, as well as sewing women.

She will begin reviewing the job application forms that have been turned in to the Industrial Foundation this week, and from these applications will contact the women who qualify for the first training school program.

The first training will begin October 22, at the American Legion building, which will henceforth be called the Herman-Marcus Training Plant. The women who qualify to begin training will be contacted by Mrs. Perry as soon as possible.

All women who filed application forms should contact Amelia Perry at the Chamber of Commerce office, phone 864-2477, as soon as possible, so that she can schedule a time for your testing.

Testing has been scheduled

"IT'S NOT ALL ON PAPER ANYMORE, BUT BECOMING A REALITY." H. T. Wilkinson, HHS principal, (L to R), Claude Lester, plant manager of Herman Marcus of Haskell, Amelia Perry, plant supervisor (who is wearing a beautiful dress she made while training for her position in Monahans), Bob Beauchamp, secretary of HIF, and Royce Adkins, HIF president, take a break at the Herman Marcus Training school site, as they review the progress of the installation of machinery there. (By Don Comedy)

for October 15 and 16, when a representative of the Texas Employment Commission will be here for the tests. The women will be tested probably at the HM Training Plant, but will be told definitely where to go when they are contacted by Mrs. Perry.

Although 40 women to train at the machines, and from two to four to train as supervisors, are planned at this time, the training school will operate continuously, until a full quota of trained workers are available at all times for the plant.

Many of the machines and much of the equipment already has arrived at the Training Plant, and the rest is expected to be here this week, to be set up there to begin the training. To complete the school, an applicant must finish 80 hours of training.

When the HM plant opens, tentatively on Dec. 15, these machines will be moved out to the plant site at that time. But

the training program, co-sponsored by the Texas Employment Commission and the Haskell Independent School, will continue in operation at the plant. In this way, a continual supply of trained workers will be available until the plant hits its quota on production and workers.

"We expect to employ one hundred or more people," said Mr. Claude Lester in an interview with the Free Press Friday, "which should be approximately a \$32,000.00 payroll per month for Haskell. This will be done as soon as possible, as they finish the 80-hour training course set up for them."

Fred Hoekstra, vice president of HM in charge of production, plans to be in Haskell soon for a plant inspection and a pre-school inspection.

So, after many months of planning and expectations, Haskell's new Herman Marcus, Inc. plant is soon to become a reality here.

a loved one... a subscriber who's first baby celebrates his first birthday... or a senior citizen with a special feat for life... all these are what make our newspaper.

er-12 is National News-Week, and that may not be a great deal to you, but it's pretty special to us.

Special because, while most people in our community can select one club to work in, or one charitable drive to concentrate on... from Rotary to a woman's club... to Boy Scouts and Little League or the Bloodmobile, we must work closely with EVERY organization, every club, every drive, and every effort of our community, to promote and help them as much as possible.

because it lets us ask the question, "How would it be if you had no county paper to read this week? Would you know what's on in your home county?"

Other people do it with their time—we do it with the news space of our newspaper. Our time is spent in covering a half-dozen other events, while a drive is going on that might be our special choice, were we fortunate enough to have that choice.

Special because we must try to handle sticky news stories that need to be published, so as not to hurt innocent bystanders, or families, as it were. We are a community newspaper, and everyone in our community is important to us... not just the merchants and business people, not just friends or people we know personally, but everyone who is involved in any way in our community life.

We do them all. Then, there are few who only notice the mistakes—and everyone makes mistakes—and pointing them out is not the same as bringing them to our attention.

We cannot possibly cover everything personally—we work with a short staff most of the time because responsible, professional news people are hard to find that want to live in communities our size. But, if we do not attend an event, we try very hard to get that news story from reliable sources, so that your newspaper can serve your town responsibly, and fairly.

But we do it also because we believe that professional commitment alone is not enough. For America's newspapers, large and small, and for America's thousands of newspaper people, ours is a personal commitment of both work and service.

No, we won't always please everyone. But we will use National Newspaper Week 1973 to renew and re-emphasize our commitment to our community, and our hometown.

### Statement From Post Office Dept. Heard At City Council Meeting

Haskell Postmaster Sam Rosser met with Haskell City Council Tuesday evening, at their request, to hear a few of the complaints about postal service that Councilmen have heard from Haskell citizens.

Postmaster Rosser stood before the Council and read a prepared statement that is quoted as follows:

"In 1971 the United States Post Office Dept. became the United States Postal Service. This new organization is operated by a Board of Directors very similar to a private corporation. This organization was created by the Congress and charged with the responsibility of becoming self-sufficient in a certain number of years. We are supposed to reach the break even point in 1978. Since the re-organization, the Directors and managers throughout the Postal Service have been working toward cutting expenses, without curtailing any essential services, and without any personnel lay-offs. In Haskell last fiscal year our postal revenues were \$81,000 our postal salaries were

roughly \$115,000. This figure does not include any expenses other than salaries. The Sunday Star Route trip was canceled because it was not serving enough people to be termed an essential service. We had fewer than 100 customers who received a Sunday newspaper in their box. The Sunday papers are available from other sources. Newspapers are handled at a loss to the Postal Service. The mail collection boxes around the square were picked up because they were serving too few people for too much cost. It would be real nice if we could put one in front of every business.

Just like everyone else, inflation has taken its toll on the Postal Service. It will be necessary to raise postal rates in order to bring costs and revenue closer together. The Postal Service expects to overcome their deficit mostly by mechanization and improved methods, but it is a slow process to get enough machines and facilities to do the job. We are discontinuing some small offices (Avoca and

### Time To Plan For Homecoming Nov. 9 and 10

Haskell High School Homecoming is just around the corner... especially if you are an ex who enjoys homecoming activities, and looks forward to them.

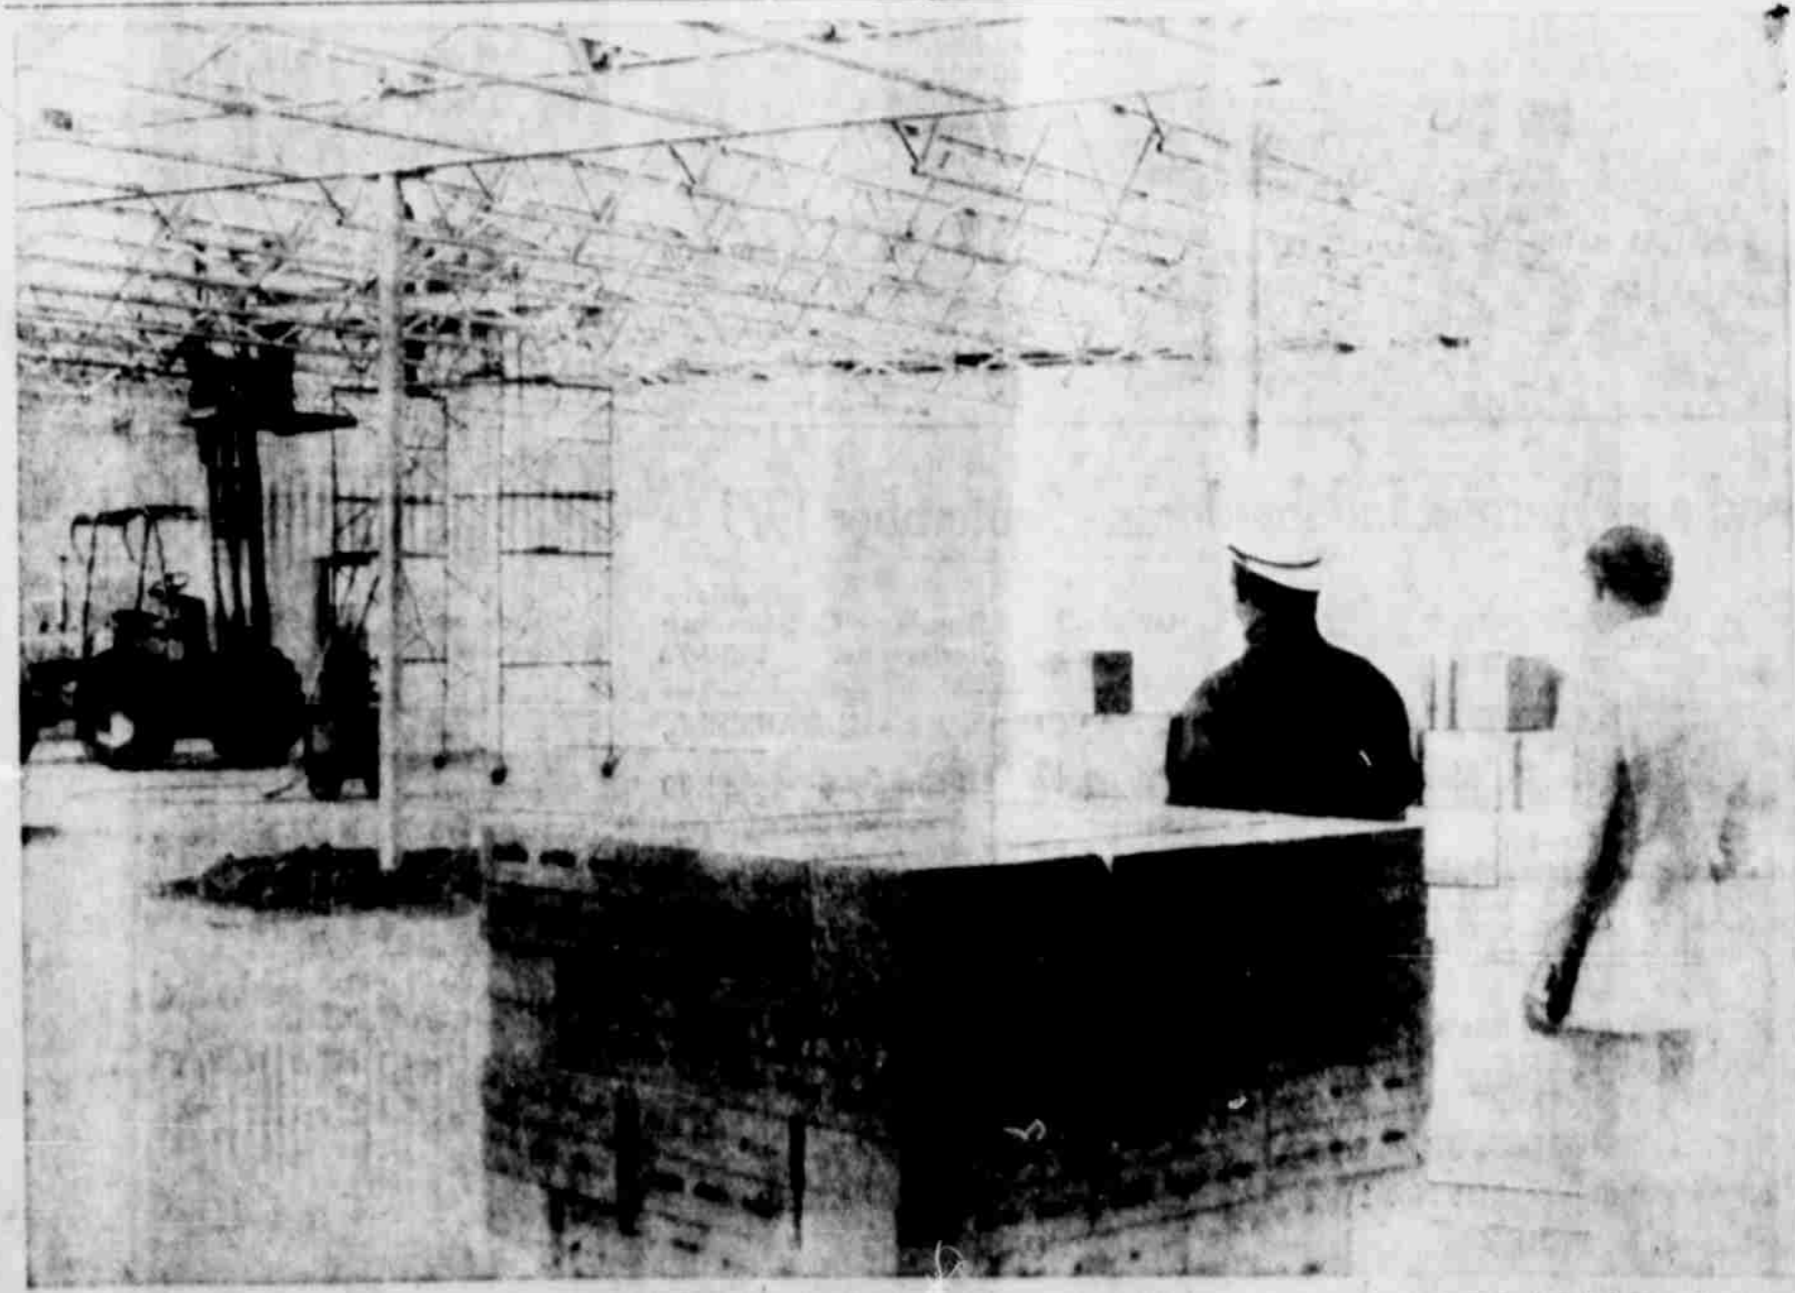

The big weekend is set for November 9 and 10, and that's less than a month away. It gives each ex-student and ex-teacher plenty of time to contact old classmates, or people they know who would want to attend the activities. And it gives all those here in Haskell the time to plan for and invite houseguests for that weekend.

R. C. Couch Jr., president of the Association this year, and Artie May Burkett, secretary, and other association members are working at this time, getting speakers and making plans for the entertainment and programs.

The homecoming will coincide with the annual Haskell vs. Stamford football game Friday night, Nov. 9, and will go through the weekend.

All ex-students and ex-teachers are invited to make plans now to be in Haskell Nov. 9 and 10, for this year's Homecoming activities.

If you have old class pictures of bygone years of Haskell High, we would appreciate your loaning them to the Free Press for publication in publicizing the event. They can be returned to you intact, the same day you bring them in.

"THINGS SEEM TO BE GOING WELL" was consensus of opinion of Royce Adkins, left, president of Haskell Industrial Foundation, and Claude Lester, plant manager, as they take a good look at the progress of construction at the new Herman Marcus industrial plant site. The building should be finished by Dec. 1, and a training school for its employees will begin Oct. 22. (Photo by Don Comedy)

## Cubs Blank Indians 21-0

**By DON COMEDY**  
The Olney Cubs defeated a sluggish Haskell Indian team 21-0 last Friday night to give the Cubs a 2-2 record for the 1973 gridiron season. Four games into the season the Indians have beaten Eastland, 31-12 and Seymour, 32-29, and fell to Breckenridge 29-14, and Olney 21-0.

The entire first quarter proved to be a defensive battle and an offensive ordeal for the Tribe. On two possessions the Indians managed only 16 yards total offense.

The Cubs began the first scoring drive of the game in the closing minutes of the first period and 2:10 in the second quarter crossed the goal line after a 68 yard drive.

The Tribe offense showed a faint spark of life midway through the second period when they marched 42 yards to the Olney 9 only to have a pass intercepted on the goal line and returned 100 yards for the second Cub score of the night.

The Indian offense seemed sluggish through the night and weren't able to sustain any sort

of drive. The defense seemed to function fairly well but were overpowered by a larger and stronger Cub offense.

Offensively for the Tribe, Randy Ivy gained 10 yards. Jim Pippin rushed for 26, and Charles Alexander had 6.

## Bullock Hits Campaign Trail

Bob Bullock, former Secretary of State, and now a candidate for State Comptroller, campaigned in Haskell last week and visited in the office of the Haskell Free Press. Bullock, 44, is the first Democratic candidate to announce for state office.

Born in Hillsboro, Bullock received his bachelors degree from Texas Tech in 1955 and earned his law degree in 1958 from Baylor Law School.

He served two terms as a member of the Texas House of Representatives, Chief of the Anti-Trust and Consumer Protection Division of the Attorney General's Office and Chief Legal Counsel for the Governor.

Most noteworthy, however, was Bullock's tenure as Secretary of State of Texas. There, he worked hard to clean up campaign financing in Texas and developed a fair and economical elections system.

During his tour, Bullock said, Texas taxpayers are losing \$82,500,000 in tax dollars each year because some retailers are pocketing the state and local sales taxes they collect instead of reporting it to the Comptroller.

"Frankly, I think it is ridiculous to talk of taxing food and medicine when 10 percent of the sales taxes now being paid by our citizens is not being recovered by the State."

"As Comptroller, I will work to see that the taxes we now pay, are not lost to some unscrupulous retailer because of faulty collection procedures by the State."

Bullock, a veteran of the Korean Conflict, resides in Austin with his wife and two children.
