

Aqua Villa Ready By May

U. S. Air Force — Aerospace Power for Peace

THE ROUNDUP

The ROUNDUP is an unofficial newspaper published weekly in the interest of personnel at Reese Air Force Base of Air Training Command. It is published by Craftsman Printers, Inc., a private concern, which is in no way connected with the Department of the Air Force. Publisher's mailing address: P. O. Box 263, Lubbock, Texas. Opinions expressed by publishers and writers are their own and are not to be considered an official expression by the Department of the Air Force. The appearance of advertisements in this publication does not constitute an endorsement by the Department of the Air Force of the products or services advertised.

Volume XIV

Lubbock, Texas Friday April 5, 1963

Number 13

AQUA VILLA—The Reese Aqua Villa is seen from the parking lot overlooking Buffalo Springs Lake on the south shore.

Summer Weather Brings Increased Sports Activity

A flurry of activity in the sports arena may be seen as a result of the sudden surge of summer weather.

Participants are being sought for the following events: the ATC Archery Tournament, weightlifting, Intramural Softball League, summer golf, trampoline, fencing, and the treathlon.

Those interested in participating and not just spectating should contact the base gym for further information.

Letters of intent to enter the Intramural Softball League must be in to the base gym by April 26; entry letters for summer golf must be in by May 7.

Sergeant Goes To Supergrade Rank

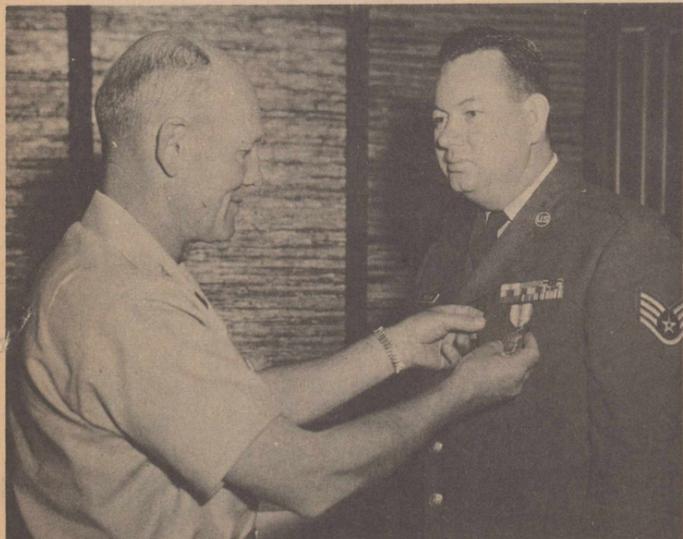

The Air Force Communications Service detachment at Reese this week has a new senior master sergeant.

MSGt. Allen E. Hall, Ground Control Approach supervisor, received notice of promotion to the E-8 grade in time to don his new stripes Monday. He came to Reese Jan. 30 from duty at Sembach, Germany. He's been in service

about 20 years, assigned to traffic control.

OFFICER ASSIGNED

Second Lt. Denis J. Vineys, who recently completed officer training at Lackland AFB, has begun duty in the administrative section of the M&S Group. He is a graduate of the University of California.

COMMENDED — SSgt. Jonnie L. Nolan, right, is presented with an Air Force Commendation Medal for meritorious service as NCOIC of the Department Schools Supply Section of the 19th Tactical Reconnaissance Wing while he was stationed in the United Kingdom from May 30, 1960, to Jan. 6, 1963. Colonel James A. Gunn III, wing commander, makes the presentation at staff meeting.

During the hours of 11 p.m. to 7 a.m., because of the shortage of operators the emergency number for the fire department is 855-4444.

AF To Study Infrared Beam For Voice Use

Washington (AFPS)—Two-way voice communication between aircraft over a beam of infrared light will be evaluated in May by the Air Force Systems Command (AFSC).

The invisible infrared light beams that carry the voice are very narrow, making the system difficult to jam, intercept or even detect, according to AFSC researchers. Messages can be picked up only by special instruments directly lined up with the transmitter and beam.

To operate the system, both aircraft must have their units turned on and scanning. The person wishing to transmit a message presses a button triggering a beacon signal. When the second aircraft picks up this signal with its search receiver, it locks on and activates its own beacon.

When the infrared link is established between the two, the search beacons shut off automatically and voice communications can then begin at infrared frequencies.

Power requirements for the systems are extremely low, the Air Force said. A lamp about the size of a flashlight bulb furnishes the invisible infrared light beam.

Evaluation tests will be carried out at AFSC's Aeronautical Systems Division, Wright-Patterson AFB, Ohio, and are expected to take about six months.

Work In Progress; More Volunteers Needed On Job

Major progress in preparing Aqua Villa at Buffalo Lakes for opening around May 1 was reported this week, with additional weekend volunteer workers needed. Workers will be taken to the lake and returned. Persons willing to aid may notify the Personnel Services office.

Volunteers and other workers have completed a majority of the parking lot for automobiles on a hill overlooking the Villa and materials for constructing steps to the lake level were taken to the area this week.

The lounge building has been completed for several weeks and landscaping is almost completed. Additional dirt for the lawn areas was being moved in and shrubs, trees and flowers have been planted.

Materials for eliminating possible lake wash on the shore were also being moved to the lake and a concrete slope for use in removing boats from the water into the boathouse is planned for the immediate future.

Floating Docks for the boats are being built and roadways to the Aqua Villa area are being improved.

Twenty volunteers were scheduled for Saturday, with considerable work expected. A principal project will be start of construction of the trail and steps to the parking area. Plans call for steps over the steepest areas and a winding trail in other spots. Additional weekend work is planned for the lawn around the recreation building and concrete is expected to be poured on the patio.

The recreation building contains a large room, with a snack-bar and equipment storage area at one end. Furniture will be placed in the remainder of the room.

Adjacent to the lounge is a large boat storage area in which

5 of the 6 boats available for Reese use will be stored when not on the water. Life preservers will be hung, boats will be placed on stands and an area for storing motors and working on them will be provided.

The pre-fabricated steel structure has insulated walls and ceiling and a large air cooler is being installed.

Colonel James A. Gunn III, wing commander, and members of his staff visited the area Wednesday to inspect some details of work to be done. All expressed pleasure at progress.

Formal ceremonies opening the recreational area are being planned and all Reese military personnel and their families will be able to use the area for recreation when all work is completed. Boats, fishing equipment and other items will be available for use.

Aqua Villa is located along the upper lake shore to the left of the middle bridge crossing the lake near the main boathouses and public recreation area. The parking area is easily accessible and heavy use of the area set aside for Reese people is expected.

Opening of Aqua Villa will terminate planning and work extending over more than two years.

Vaccine May Erase Polio

WIESBADEN, Germany (AFNS) — Maj. Gen. Oliver K. Niess, Air Force surgeon general, said that the Sabin (oral) polio vaccine could well sound the death knell of the disease.

During an interview with German newsmen, the Air Force medical chief said, "medical science has about wiped out the disease. Perhaps there might be some refinements but the oral vaccine seems to be the answer."

General Niess said the incidence of polio in the service, already reduced 80 per cent by Salk injected vaccine will be completely eliminated by the Sabin oral vaccine.

He urged all servicemen to give their willing cooperation to make sure that every member of the service and their families receive this vital protection from polio.

The vaccine is presently being administered by the Air Force and the other military services.

At the same time that he was praising Sabin vaccine General Niess also pointed to a personnel problem the service is anticipating among its medical ranks.

"The Air Force" he said, "faces a loss of some 1,300 doctors during the next few months. This loss, however, should not put too large a crimp in the service provided by the Air Force Medical Corps."

NEW BOATS FOR REESE—TSgt Hayward C. Moore and A1C John L. Lowder Jr. inspect the new boats, water skis and fishing equipment that will go the the new Aqua Villa.

Research Aids In Emergencies

WASHINGTON (AFNS) — Potential emergency landing areas for aircraft may now be located from the air by a novel method of measuring soil hardness.

The Air Force Cambridge Research Laboratories have developed a rocket projectile called a penetrometer which upon impact can measure the weight that the soil will bear.

Use of penetrometers can result in considerable time saving in locating areas which can be used as emergency landing fields by fully loaded jet aircraft, AFCRL said.

The tropical worsted, lightweight, shade 84, summer service uniform is mandatory for all Air Force military personnel beginning May 1.

T-37 pilots in the training group standardization board practiced 352 spins in the month of March.

Aid To Moroccans Featured In Film

Air Force rescue missions for aid to homeless families in the Moroccan storms are featured in the Air Force News Review being shown this month at all commander's calls.

The Air War College seminar course is described by Gen. Maxwell Taylor in another sequence, while also pictured are climate tests being given to an airman and his wife the MATS commander telling of a milestone of the air evacuation squadron, and General Norstead being honored at White House ceremonies.

An All-Air Force crew also launches the Titan II at Patrick AFB, Fla., in other scenes.

Most commander's calls here also are including a movie on seat belts.

Air Force Marks Low Accident Rate

WASHINGTON (AFNS) — The Air Force achieved a new low in the number of accidents during calendar 1962, records released by the Directorate of Aerospace Safety, Norton AFB, Calif., revealed.

In announcing the new mark, the Air Force said that major accidents during 1962 numbered 381, compared to 432 during the previous year. The major accident rate for the year was 5.7 per 100,000 flying hours, compared to 6.3 for the year before.

The Air Force said there were approximately 15,000 operational aircraft in the inventory at the end of 1962. These vehicles flew some 6,660,000 hours.

In the breakdown of the accident figures by commands, the report showed that eight major commands had exceeded their 1961 marks.

Commander's Comments . . .

By COL. JAMES A. GUNN III
Wing Commander

Time and again, our personnel have been complimented by inspectors and visitors on their fine personal appearance. This, of course, is a general compliment, aimed at the overall organization. But there is no doubt that we reflect our professionalism and attitude by the manner in which we wear the uniform.

In this regard, I think it well for us to remember that May 1 is the date when we must have the Shade 84 light-weight blue uniform in possession. Sales of these uniforms are going well, and indications are that everyone will be outfitted by the deadline date. This, of course, is as it should be.

When buying a uniform, a person can assure that his appearance will be enhanced if he makes sure that he gets a proper fit at the time of purchase. An ill fitting uniform, no matter how clean and spotless, still detracts from a persons appearance and gives a bad impression.

Appearance-wise, I feel we are maintaining a fine overall standing and know that we will continue to keep it that way.

Congratulations

Congratulations are in order for Mrs. Helen K. Fuller, creator of the scrapbook that won third place in the 1962 ATC Library Publicity Contest. As a result of her work the Reese library will receive \$100 in prize money and have a chance at winning more in the John Cotton Dana Publicity Awards Contest and the Air Force-wide publicity contest.

This is not the first time Reese has benefitted from her enterprise. As base librarian, Mrs. Fuller has a lengthy list of similar accomplishments which include an ATC record of two wins in the Air Force-wide Library Publicity Contest.

This remarkable woman has five letters of commendation, each from a different general. In 1952 and 1953 she won the Air Force-wide John Cotton Dana Publicity award. In 1955 and 1956 she won the Sustained Superior Performance Award and in 1962 she won a suggestion certificate.

Mrs. Fuller is now actively engaged in preparations for national library week. If her past history is any indication of her capabilities, the personnel at Reese may expect an exceptional program.

Air Force Curbing On Base Soliciting

WASHINGTON (AFNS) — The Air Force said the recently announced directive regulating the flow of insurance literature on Air Force installations and its curb of insurance solicitation at bases is not aimed at most companies or their agents.

The intended purpose of the directive, the Air Force said, is to discourage the flooding of bases with all types of literature, posters and application blanks from the "so-called" non-profit organizations.

These come from companies, which hint military affiliation in some cases, and from others, which, while non-profit because of the nature of their organization, sell insurance to service personnel and distribute huge amounts of literature as part of their selling program.

Many of these companies or associations, the Air Force said, either employ Air Force officers or enlisted personnel as agents or use names of retired persons on literature in an attempt to induce subscribers.

"The Minuteman is a weapon system predicated upon high reliability, great capability for survival after enemy attack, maximum simplicity, decreased reaction time, and greatly improved cost effectiveness."—Maj. Gen. Ben I. Funk, commander, Ballistic Missile Center.

Parson-to-Person

By Chaplain Neil F. Daley
As virtue binds the energies of man into one mighty unit, it also binds men together into the unit we call Society. It is the cement holding the bricks of Society together, harmonizing, regulating, controlling all the external means by which alone men can communicate.

There is no other means of hlding men together except that of force; and where the mailed fist is the symbol and explanation of Social unity, there is not a society of men but of slaves.

It is justice alone that makes society possible; every attack on justice is an attack on society, every society banded upon injustice has the seeds of its own dissolution within itself. It must cease to exist or its subjects must cease to be men. For without justice there is no human society, there is no conformity to the rules of reason, no travelling along the road of reason to the goal of reason, the goal of humanity.

goal of reason, the goal of humanity.

Virtue is the great integrator. Only by it can man live with himself; only by it can he find life with his fellows; and only by it can he live with God.

MITO Speed Vital Element

WASHINGTON (AFNS) — In the event of war, America's future and victory itself might well depend upon how quickly the Air Force's Strategic Air Command fleet of retaliatory bombers and their refueling tankers can get off the ground.

Preparing for any eventuality, SAC combat crews are being trained to respond quickly and effectively to provide this country with a potent strike capability.

The program is called "minimum interval takeoff" (MITO) and as the name implies, is designed to launch the maximum number of aircraft in the shortest possible time.

No SAC crew is certified combat qualified until MITO proficiency is acquired. Conversely, no crew may participate in MITO until it has demonstrated combat readiness in all other respects.

With MITO, Air Force officials say that a major portion of its retaliatory bomber force and tankers will survive, regardless of the severity of an enemy's initial attack.

Airman Of Year Hall Of Fame Opens At Lackland To Honor Outstanding

A new United States Air Force tradition has been installed at Air Training Command's Lackland AFB, Texas., when the "Outstanding Airmen of the Year Hall of Fame" was opened to public view.

The Hall of Fame was established as a part of Lackland's Traditions and History Museum. Photographs of the 20 USAF command winners of 1962 Airmen of the Year honors are displayed in this initial exhibition of the Air Force's most outstanding airmen.

Maj. Gen. W. K. Martin, Director of Information, Office of the Secretary of the Air Force, who originated the idea for the Hall of Fame, said its purpose "... is to create a continuing recognition for Air Force's outstanding airmen of the year and to convey to newly enlisted personnel the pride and recognition the Air Force feels toward its outstanding airmen and noncommissioned officers."

As the Air Force commands select their outstanding airmen each year, photographs of the new winners will be placed in the open display, and biographies and photographs of the previous honorees will be permanently recorded in a large leather book that accompanies the display.

Captains Assigned

Captain Joseph W. Spencer, once stationed with the Air Force liaison organization in Morocco, reported to Reese this week for duty as staff judge advocate. Also arriving to serve on the staff was Capt. Rutherford R. Friday, former practicing attorney in Dallas, N.C.

Captain Spencer came to Reese from the 2nd Bomb Wing at Hunter AFB, Ga., where he was staff judge advocate. He was in Morocco as assistant staff judge advocate from 1958 to 1961.

The captain, who served in World War II, is a native of West Virginia, a graduate of law school at Duke University in Durham, N.C., and a member of the Ohio Bar Association.

Captain Friday came to Reese from the Air Reserve Records Center in Denver. He is a graduate of Wake Forest College and has a law degree from Emory University in Atlanta, Ga. He entered service in February.

Club Activities

NCO WIVES CLUB

Reese NCO Wives Style Show, at the NCO Club, Saturday night, was termed a huge success by all. A total of 14 models paraded down the ramp with Mrs. Adeline Miller as narrator. Assisting the women onto the ramp were SSgt Floyd Hargis and A1C Robert Cole. Music was furnished by 2nd Lt Vernon Hogdon.

PROTESTANT WOMEN

The Protestant Women of the Chapel will install their newly elected officers for the coming six months at their regular monthly salad luncheon April 9th at 1 p.m. Officers to be installed are: President, Mrs. Kermit Kuhns; First vice-president, Mrs. Don Morris; Second vice-president, Mrs. Wayne Stork; Third vice-president, Mrs. Glen Gowen; secretary & treasurer, Mrs. Robert Goldsberry; and

circle chairman Mrs. Donald Garrett.

All Protestant ladies are cordially invited. Free nursery service is furnished at the base nursery and reservations for the luncheon are not necessary.

Mrs. Fuller the Base Librarian will be the guest speaker at the luncheon held in the Chapel Annex. Members are ask to bring an old family Bible or any very old religious book that might be of interest to the group.

MATHIS SERVICE CLUB

The deadline is drawing nearer for entertaining the base photography contest and exhibit. Entries must be submitted to the Service Club by Monday April 8. Exhibit and judging will be Tuesday, April 9, between 7 and 9 p.m. Winning entries will be forwarded to the ATC Contest, to be held in April. ATC winners will be awarded cash prizes.

The 1963 base level ATC talent contest is scheduled for 7:30 p.m. Thursday, April 25, in the base theater. Mrs. B. J. Wright, service club director, urged all military personnel interested in competing to contact the Service Club immediately so that rehearsal times may be scheduled.

Categories of competition are: vocal group, vocal solo, musical instrument, group instrumental, solo western, or country style solo, novelty act, specialty act, and master of ceremonies.

The Service Club dance, Thursday, will feature music by "The Ravens." Dress will be casual and dancing will begin at 8:30

YOUTH CLUB

An arts and crafts exhibit is scheduled for 2 p.m. Saturday at the Youth Club. Cash awards will be given. Adult art class paintings also will be on display.

Tryouts for the Junior Olympics will be held Sunday. A bus will leave the Youth Club at 1:10 p.m. for the Texas Tech track for competition.

A joint meeting of the Cub Scouts, Air Explorers, Little League and Pony League members and their parents will be at 7 p.m. Monday in the Youth Club. Business will be discussed and a Little League film is to be shown. Refreshments will be served.

Reese children will be taken to Mackenzie Park on April 11, to witness a dog obedience demonstration by dogs of the Lubbock police department, directed by Sgt. A. R. Mason of the department. The bus will leave the Youth club at 4 p.m.

MODEL — A chapel length, chantilly lace wedding gown was among numerous dresses modeled at the NCO Wives Club style show last Saturday night. It is worn by Carolyn Hargis.

Talent Contest Rules Announced

WASHINGTON (AFNS) — The 1963 Air Force Worldwide Talent Contest will be held June 3-8, 1963, at Edwards AFB, Calif. Rules and other information have already been mailed to major air commands.

Twelve categories are included in this year's contest: vocal groups; solo vocalist in popular, semi-classic or classical music; instrumental group; instrumental solo; vocal or instrumental West-

ern, country, ballad, or folk group; novelty act; dancing; solo or group specialty act; and master of ceremonies.

Library Gets Kits

New language record kits arrived at the Reese library in response to linguistic interest among Air Force members and dependents. The kits cover French, Russian, Spanish, German and Italian. Each kit has two 12-inch, long-playing records, and alphabetical phrase index and a conversation manual, according to Mrs. Kelen K. Fuller, librarian.

Veteran Officer At Reese Retired

Richard J. Condrick, commander of the Air Base Group headquarters squadron, retired this week from service, awarded the rank of lieutenant colonel. He came here April 1, 1958, from duty as commander of the 336th Fighter Day Squadron in Okinawa. He spent 21 years in service.

The colonel, who plans to live in Hawaii, was operations officer and commander of the 3501st Pilot Training Squadron, wing director of safety and Air Base Group headquarters squadron commander here.

Lieutenant Colonel Condrick spent five and half years in the Asiatic Pacific Theater, Korea and Okinawa. He won several decorations, including the Distinguished Service Cross, Air Medal with five clusters, and United Nations Medal. He was a World War II fighter pilot and flew 101 combat missions in Korea.

Special Easter Services To Be Held In Base Chapel

A sunrise service at 6:30 a.m. for Protestants and an Easter vigil service and midnight Mass for Catholics will be included in the Reese Easter services, Chaplain James D. Taylor has announced.

All services this year will be in the Chapel, the chaplain said, Chaplain Wayne Stork will be in charge of the sunrise service and Chaplain Taylor will be in charge of the 10 a.m. and 11 a.m. services.

Catholic Easter services will start at 11 a.m. on Holy Saturday, followed by midnight Mass. Easter Masses will be at 9 a.m. and 12:15 p.m., with Chaplain (Capt.) Neil Daley saying Mass.

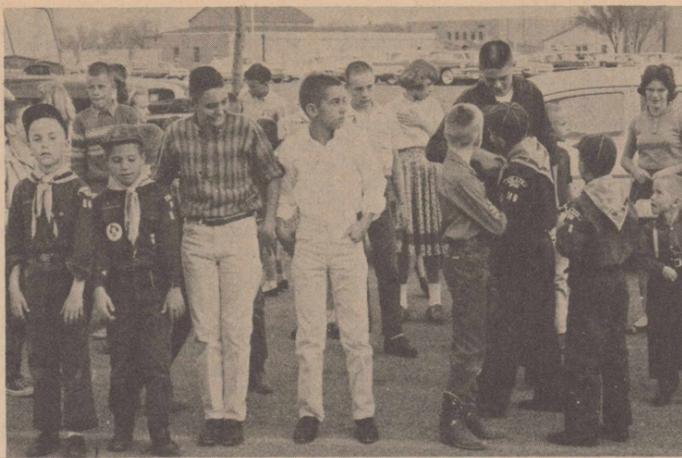

Easter Sunday also will mark a change in Sunday School schedule. Sunday School will be at 9:30 a.m., instead of 9:45. General Protestant worship services will be at 10 and 11 a.m. for the sum-

mer schedule.

The change is being made, the chaplain said, to encourage parents to bring their children with them to the Chapel service, and to place them in the Sunday School which will be operating simultaneously.

BASEBALL

The Reese baseball team will hold its first practice at 9:30 a.m. Saturday on the base softball diamond. All interested candidates are invited to report. The team is being managed by AIC H. J. Sargent.

SCOUTS SCAMPER — Reese Cub Scout Pack 548 played "Good Samaritan" last weekend as they hosted members of the Lubbock Children's Home at the South Plains Council Scouting Circus at Municipal Coliseum. Above, some of the guests get acquainted with the Cubs. Below, the boys prepre to push their entry—an antique vintage auto in the circus.

Scouts Host 34 Orphans

Thirty-four orphans of the Lubbock Children's Home were guests of Reese Cub Scout Pack 548 at the South Plains Scouting Circus in the Lubbock Municipal Coliseum on Friday, March 29.

The Reese Cubs participated in the annual Scouting Circus on both Friday and Saturday nights. They appeared in the grand entry, a serpentine march with about 3,500 other scouts, and in the event "Things That Go."

SSgt Louis M. Wakefield directed the Friday night activities. TSgt Sidney F. Lockhart assisted him and directed the Saturday night activities. SSgt Walter J. Kelly arranged the invitation, tickets, and transportation for the Pack's guests from the Lubbock Children's Home.

Enthusiasm For Aero Club Help To Rease Sergeant

By 2nd Lt. Michael Halpern
Who's afraid of the big bad flying bug? certainly not SSgt. Bobby Steele of the Manpower Validation Team, Reese AFB. Few non-rated personnel have taken better advantage of the ample opportunities to fly than he. Through his training in aircraft maintenance and work in Aero Clubs, Sergeant Steele has

enough qualifications to be considered by the Army for a direct appointment as a warrant officer pilot. The appointment will not be handed to him on a silver platter. It has taken 900 hours of flying time in more than 30 different types of craft to get Sergeant Steele where he is. In 1958 Sergeant Steele started flying

through the Aero Club at Webb AFB. Since then he has earned a private pilot's license, a commercial rating, an instrument rating and a basic and advanced ground instructor's rating.

In September, 1961, Sergeant Steele came to Reese. From December of that year to December of the next he was vice president of the Reese Aero Club. In January he started conducting ground school for the club and is now training officer. Along with these duties the sergeant has given close to 500 hours of instruction over the past year and has graduated and licensed 14 students since June.

The most outstanding result of his instruction, and the one of which he is most proud, is the fact that not one of the pilots he has licensed has had an accident.

Another result of the sergeant's enthusiasm is a flying family. Reba, his wife, and their children, James Lee and Shirley Ann, have all been through ground school. Mrs. Steele flies and their son is taking instruction. Their last vacation was a busman's holiday; a flight down to Sergeant Steele's home town of Welch, W. Va., and then up to Salem, N. J. to visit his folks, who recently moved there.

"That's the way we travel," said the sergeant. "It's cheapest, fastest, coolest, safest and most fun."

Sergeant Steele isn't exaggerating. In January he flew to Dallas for the Cotton Bowl and since then has made side trips all over the state. He says that flights from the Reese Aero Club have flown to just about every state in the nation and down into Mexico.

"When you fly, your entire concept of distance changes and direction becomes six dimensional instead of just north, south, east

and west. A weekend trip is not limited by a path of asphalt running in and out of congested areas for which you must decrease speed and change direction."

When asked how he became interested in flying the sergeant replied that as long as he can remember he's had the interest. But the real determination to get off the ground dates back to the time he was a tank commander with the 1st Marine Division in Korea.

"We used to get air support; I'd look up and see those birds going by and I wanted to be right up there with them. But you can't put wings on a tank."

(AFNS) — The speed of jet aircraft frequently results in the plane encountering a particular weather front several times during round trip flights.

INSTRUCTOR—SSgt. Bobby Steele, who soon hopes to be an Army warrant officer pilot, gives instrument instruction to one of his students, Nancy Rosson. Recently Mrs. Rosson's Aero Club training paid off when she had a tough test of her flying ability. On a solo cross-country, unexpected high winds blew her off course and she became lost. She finally spotted a runway and landed in a 40-knot cross-wind and dust storm.
