

THE ROUNDUP

The ROUNDUP is an unofficial newspaper published weekly in the interest of personnel at Reese Air Force Base of Air Training Command. It is published by Craftsman Printers, Inc., a private concern, which is in no way connected with the Department of the Air Force. Publisher's mailing address: P.O. Box 263, Lubbock, Texas. Opinions expressed by publishers and writers are their own and are not to be considered an official expression by the Department of the Air Force. The appearance of advertisements in this publication does not constitute an endorsement by the Department of the Air Force of the products or services advertised.

VOLUME XIV Lubbock, Texas, Friday, August 23, 1963 NUMBER 34

LIQUID OXYGEN — A cameraman from KCBD-TV, Ralph Shelton, was on hand Tuesday morning to film the liquid oxygen demonstration given by a ground safety team from Sheppard AFB. The team detonated a liquid oxygen and hydrocarbon 'gel' inside a flight suit to demonstrate the dangerous nature of the compound.

Conference Called On Military Pay Bill Differences

A conference committee of the U. S. Senate and House of Representatives was scheduled to meet this week to attempt agreement on the military pay bill which passed each house in a different form.

Exact differences are not known, but the Senate bill, passed Aug. 7, called for basic pay increases averaging 14.4 per cent. The version passed by the House two months earlier provided for increases averaging 12.6 per cent.

A major difference, it is understood, is recomputation of retired pay for those who retired prior to June 1, 1958. In the House there was feeling to "fight tooth and nail for the House position; this is the position of equity and justice."

Freedoms Letters Urged From Reese

Reese personnel this week were urged to submit entries in the annual Freedoms Foundation letter-writing contest, expressing their views on "What Can I do for Freedom?"

Annually the Freedoms Foundation offers prizes for letters on a specific subject, with this year's theme aimed at individual contributions to freedom.

Writers should write or type their entry in 500 words or less, on one side of the paper, giving full name, rank, serial number, branch of service, unit address and home address. Letters should be mailed to Freedoms Foundation, Valley Forge, Pa.

Demonstration Emphasizes Proper Oxygen Handling

A three-man ground safety instruction team from Sheppard AFB staged two ear-shattering demonstrations of the dangers of handling liquid oxygen to a crowd of about 250 men at the end of Reese's flightline Tuesday morning. Controlled detonations of oxygen gels and hydrocarbon materials left the spectators holding their ears and at one point scurrying for cover.

The purpose of the demonstrations was to show to maintenance personnel that proper handling of the liquid oxygen used in the T-38 Talon will result in completely safe working conditions.

SMSgt. William V. Baker, NCOIC of the demonstration team, stressed that only incorrect handling of the 'LOX' made it dangerous.

The men detonated several samples of the gelatin-like compound formed by bringing liquid oxygen into contact with hydrocarbons. Sergeant Baker told the men that the fuel used in jet aircraft is a hydrocarbon compound and will gel very easily. He pointed out that the oxygen was dangerous only if it was allowed to gel and that even then danger could be avoided by leaving the gelatin alone and allowing it to evaporate.

Detonations were caused by various means, including sparks from static electricity, a lighted cigarette, and impact with metal. Sergeant Baker said that once the gel had formed, it could be detonated by merely stepping on it or applying any kind of flame.

The last detonation during the demonstration involved a round metal bar with a flat base. A 38-pound lump of iron with a hole drilled through it to fit the bar was dropped onto a very small amount of the gelatin. The impact between the two metal surfaces detonated the mixture

and blew the lump of iron over 2000 feet into the air.

Sergeant Baker explained that the detonation required only 6 ounces of JP4 jet fuel and 3 ounces of oxygen.

Missile Control Officers Sought

Eligible Reese officers were urged this week to enter the Missile Launch Control Officer Education program which has been given high priority because of need for volunteers.

A letter from Air Training Command to Col. James A. Gunn III, wing commander, pointed out that officers have greater chance of advancement and assignment to a critical career field and that men are needed in this program, especially in the undergraduate area. Budgetary limitations have curtailed all undergraduate programs and the missile control area is the only one, aside from "Operation Bootstrap," through which baccalaureate degrees may be obtained under present planning.

All applications will be expedited and given priority, it was stated.

COURSES VARIED

There are from 1,500 to 2,000 courses in operation throughout ATC at any one given time.

Three Units Hit Goal In Annual AFA Campaign

Three units of Reese — the 3500th Supply Squadron, 3500th Pilot Training Squadron and 3501st Pilot Training Squadron — have reported 100 per cent participation in the annual Air Force Aid Society financial drive here. Key workers in the units are 2nd Lt. Charles R. Galbach, Capt. James C. Lechance and Capt. Paul D. Frederickson. The supply unit was the first to reach its goal.

Maj. Raymond Sofaly, project officer, said the drive has been extended to the end of the month to permit other units to reach 100 per cent participation. Collections to start this week totaled \$1,137.75, an average of about 59 cents per person. Participation for the base as a whole is 57 per cent.

Three units, the Manpower Validation Team, 3500th Pilot Training Wing and Field Training Detachment have 80 per cent, with Capt. Leo Swatloski, TSgt. Earl Humphrey and Sgt. Charles Jones as key workers.

Other units advancing toward the 100 per cent goal, with their key workers, are: 3501st Student Squadron, Capt. Robert Jenkins, 76 per cent; Central Air Rescue Center, SSgt. William Cox, 73; 3500th Air Base Group, 2nd Lt. John Dillon, 57; 3500th USAF Hospital, 2nd Lt. George Armstrong, 48; 3500th Field Maintenance Squadron, 2nd Lt. Vernon Hogden, 40; Detachment 11, 24th Weather Squadron, MSgt. John Strack, 39; 2053rd Communications Squadron, 1st Lt. Kenneth Wickham, 34; 3500th Support Squadron, 2nd Lt. John Dillon, 32; and 3500th Organizational Maintenance Squadron, Capt. Walter Baughman, 26.

Cadets Finish Two Courses Offered Here

Special thanks for the cooperation granted by base personnel involved in the recently completed Flight Indoctrination Program and Operation Third Lieutenant were voiced this week by project officer Capt. Robert L. Jenkins, 3501st Student Squadron.

The last flight indoctrination class of 12 men from the USAF Academy graduated from their training at Reese early this month. Their performance was unanimously termed as excellent by their flying training and classroom instructors.

Operation Third Lieutenant was completed last month. Six Academy students, all of them entering upon their third year of study, were participants in the program.

Capt. Jenkins expressed particular gratitude to Capt. Walter Price, also of the 3501st Student Squadron, who was originally assigned as project officer for the Flight Indoctrination Program. Capt. Jenkins credited Capt. Price's meticulous pre-planning, coordination and arrangement of facilities as primarily responsible for the smooth operation of the program after his temporary assignment away from the base.

Both programs got underway during June. In all, 30 men making up 3 classes were graduated from the flight indoctrination training over a period of about two months. Six men underwent two weeks of training as participants in Operation Third Lieutenant.

The flight indoctrination training was designed as a voluntary course for Academy students to provide motivation and instruction in both flight skills and academic subjects.

Fifteen hours of flight in a T-37 aircraft and 40 hours of classroom instruction gave the students a taste of what to expect if they return to Reese for pilot training after graduating from the Academy.

Capt. Jenkins said that all of the men told him they would like to return to Reese and become pilots. Some even said they would like to remain here the rest of the summer.

The Third Lieutenants were assigned as assistants to officers in flying safety, maintenance and operations positions. The purpose of their stay at Reese was to teach them the practical applications of the knowledge they have already gained at the Academy. A prescribed academy course, Operation Third Lieutenant provides opportunities for cadets to receive the same sort of counseling and job training that any newly commissioned officer would undergo.

CAPTAIN McMILLAN

New Commander For Rescue Unit Starts Duty Here

Capt. Charles E. McMillan, recently returned from four years in Spain, assumed duty this week as commander of Air Rescue Detachment 31 at Reese. He has been in service eight years, half of the time overseas.

The Captain, native of Fort Worth and graduate of North Texas College at Denton, received his commission at conclusion of AFOTC. He completed pilot training and served at Everett Field, Wash., prior to going to Spain in 1959. He was stationed at Zaragoza and then moved to Torrejon Air Base, from where he came to Reese, leaving about a month ago.

Serving as a rescue pilot in Spain, Capt. McMillan participated in many missions, about half of them over land and half over water, he says.

The captain is married to the former Eddy Lou Burt of Fort Worth.

Reese, ATC Personnel Seek To Advance By Raising Education Level

An increasing number of Air Training Command personnel are raising their education levels through Air Force education programs, a report by the ATC deputy chief of staff for personnel discloses. Figures for Reese compared favorably with other bases.

The highest rate of increase for the command was apparent in the number of individuals completing correspondence courses during Fiscal Year 1963, when 13,364 Extension Course Institute and 2,142 United States Air Force Institute course completions were recorded.

This represents a 26 per cent increase, compared with the correspondence course completions recorded by ATC personnel the previous fiscal year. Reese people completed 273 ECI and USAFI courses in FY-63.

ATC enrollments in base and campus classes totaled 22,203 for FY 63, an increase of seven per cent over FY 62.

At Reese, 34 persons completed on-base classes and 290 college courses were taken at Texas Tech and South Plains College.

Base figures represented a

slight drop in on-base courses and a 14 per cent increase in college work, with the 1963 spring enrollment the highest in Reese history.

The ATC report showed an eight per cent increase in the number of college degrees earned by command personnel in FY 63, while the number of those completing required work for a high school diploma decreased. Education officials attributed this to the fact that 87 per cent of the airmen assigned to ATC already hold high school diplomas, Air Force-wide, 6 per cent of airmen

are high school graduates.

At Reese, 4 officers earned college degrees and 92 airmen completed GED tests which brought them equivalency of high school diplomas. High school graduates assigned here total 75 per cent of permanent party personnel.

College degree holders among ATC officers also better the overall Air Force figure.

The 4,923 ATC officers who hold college degrees represented 57 per cent of total officers assigned to the command. Fifty-four per cent of all officers Air

Force-wide hold college degrees. At Reese 49 per cent hold bachelor degrees and 8.6 held master or doctor's degrees. Of the 326 officers assigned another 23 per cent had completed some college work.

The FY 63 report on education levels in ATC shows that 18,744 of the 23,964 NCO's assigned to command hold high school diplomas, and 2500 have college degrees. A total of 2,599 of the NCO's assigned have college credits, but no degree. Seventy-five per cent of Reese airmen are high school graduates.

Commander's Comments . . .

By COL. JAMES A. GUNN III
Wing Commander

When it was announced a few months ago that Air Training Command had won the 1962 Daedalian Award for flying safety, we at Reese could feel secure in knowing that we had contributed substantially toward the accomplishment. Further, we realize that these achievements do not just happen; rather, they are a direct result of individual attention to duty, professionalism at every level and the proper exercising of responsibility by supervisors.

The pilot training business, more than practically any other in the Air Force, is a very specialized affair. To do the job well demands the ultimate in supervision and professionalism.

For the past year or so we have been losing many "old timers" who through experience had reached the "expert" stage in pilot training know-how. They have been replaced in many cases by people entering from other activities who are encountering a training situation for the first time. These newcomers are finding that the training of students and the demands of the job require degrees of supervision and standardization not normally known or found in tactical outfits. To become experienced in these new surroundings requires a reasonable amount of time and the wholehearted assistance of the "old heads" who have been with us for quite awhile.

Ours is a challenging job—and a worthwhile one. Every six weeks we see the product of our combined efforts through the graduation of another class. It is a demanding task, but we cannot permit anything less than perfection in providing the Air Force with quality pilots and competent officers.

Facilities Praised

A capsule statement on the Air Force mission is given by Eugene M. Zuckert, secretary of the Air Force, in stating:

"Air Force facilities, plus its skilled and dedicated people, constitute a base for aerospace research that is by far the largest, most comprehensive and capable in the Free World.

"However, the Air Force's primary responsibility is to maintain aerospace supremacy for the Nation. It is for this reason that we have developed the kind of aerospace military capability we have today—the ICBM's, the Ballistic Missile Early Warning System, the Spacetrack facilities in which we identify and monitor all man-made objects in space — plus our global aircraft operations."

Loyalty Helps Any Base

Loyalty is a characteristic most important to all employers. A person working for an individual or organization must be loyal or he cannot serve in a satisfactory manner. In fact, he is not wanted around.

Everyone is expected to be loyal to his country. Persons in uniform must be loyal to the service to which they are assigned, to their units and to their supervisors. Planning and thought go into selection of any persons given supervisory duty and each person selected deserves support without criticism.

Reese has always had loyal people. Without them few of the many honors which have come to the base would have been won. If any unit of the Air Force is to maintain its good record, troops and their families must be staunch and happy. To stay this way, it is necessary to pay little heed to criticism of persons or surroundings.

A proud base, a loyal base always has characterized Reese. Let nothing change the picture.

Special Degree Plans Given Support

WASHINGTON (AFNS) — A new Change B to AFR 34-52, governing Operation Bootstrap, outlines the conditions under which Air Force personnel may receive educational tuition assistance while pursuing special degree programs at accredited schools.

The change defines special degree programs as: independent or tutorial study, excluding correspondence courses; curriculum measured in terms rather than semester or quarter hours; com-

prehensive examinations used instead of exams for specific courses; and short resident seminars.

Applications for assistance in such training must be approved by USAF headquarters. Other tuition assistance requests are approved within major air commands. Maximum amount of assistance is 75 per cent of tuition costs or fees in lieu of tuition, not to exceed \$13.50 per semester hour or \$5 per quarter hour.

Parson-to-Person Two Much Stress On Materialism Hit By Chaplain

By Chaplain Wayne L. Stork
One of the parables most relevant to our generation is that in which Jesus pictured a man who had such an overflowing crop that he had to build extra barns to store it. When his barns were built and his crop was harvested, he went out to look upon his abundance.

But he did not say that he now would have plenty to share with his neighbor, or even that he would have enough to feed his own family. He looked at his barns and said, "Soul . . . take your ease." This was the tragedy. He was trying to get a spiritual result from a material possession, ease of soul from abundance of things.

We are not so different from the rich man of the parable. How often for us the possession of the material object has become the end rather than the means of our living. And we feel that life is complete when the material goal has been attained.

I would remind you of the blunt word Jesus had for the rich man — "Fool, this night your soul will be required of you . . ."

THURSDAY — "For Love or Money," Kirk Douglas, Mitzi Gaynor, Gig Young, mature.

Need For Weapons Mix Underscored By Vice Chief In Virginia Speech

WASHINGTON (AFNS) — Air Force Vice Chief of Staff Gen. William F. McKee has underscored the need for a balanced mix of manned and unmanned weapon systems to provide maximum deterrent power.

Speaking before a Chamber of Commerce audience in Marion, Va., Gen. McKee pointed out the advantages of the manned weapon system and how it compliments our missile force in providing a complete combat capability.

"Too often today, the revelation of the capability of our missiles which are being deployed in growing numbers, tends to create the notion that missiles are the ultimate answer to the strategic threat and that manned weapon systems are all but a thing of the past.

"Now it is certainly true that missiles afford us important strategic advances . . . (they) give us tremendous penetration power, efficiency and great utility.

"Nevertheless, it is equally clear that all that an enemy must do to make a potential missile target relatively invulnerable is to

make it move or make its location variable.

"We don't intend to let enemy forces be allowed such a sanctuary," he said, as he outlined the values of the manned systems in such a situation.

Gen. McKee added, "a mix of weapon systems — manned and unmanned — is necessary to preclude our vulnerability to a technological breakthrough by an enemy. Such a breakthrough could seriously degrade any single mode weapon system and vastly simplify the enemy's problem of defense."

DECORATED — Col. James A. Gunn III, wing commander, left, pins the Air Force Commendation Medal on SMSgt. Jack C. Darby for his outstanding service in communication here.

NCO Given AF Medal

The Air Force Commendation Medal was awarded SMSgt. Jack C. Darby at Tuesday's wing staff meeting in recognition of his outstanding service in the communications unit at Reese.

The citation accompanying the medal said the sergeant performed meritorious service from Sept. 23, 1960, to Aug. 15, 1963, while serving as NCOIC of plans and programs for the Air Force Communications System unit here, as well as serving as technical assistant and advisor to the communications-electronics officer and the wing commander.

Sgt. Darby, the citation said, used his thorough knowledge of plans and programs and "exceptional knowledge of communications center operations" to contribute to success and high standards of performance of the communications detachment and squadron. He also was praised for fine relations with departments at Reese and higher headquarters to bring timely and efficient service here.

The sergeant won several other decorations during his more than 20 years service.

Awards Presented To Every Player In Little League

Awards presentations for the just finished little league season were held Tuesday night at the NCO Club.

About 150 parents, children and Little League workers were present for the ceremonies, film and dinner.

The Dodgers were named as the first place team for the season's play. The Braves placed second and the Giants third.

The Peewee Dodgers placed first in the Peewee League and the Red Sox second.

Every boy on each team was presented an award.

Maj. Donald P. McCaffrey was named president of the Little League.

Lt. Col. Alvin J. Collins, Capt. Richard W. Kimball, and TSgt. Joseph Cummings were named vice president, secretary-treasurer, and player agent respectively.

Maj. McCaffrey said plans are being made to expand the Little League program next year. Also, team practice will begin in March so that the players will be in shape for the summer season.

About 85 boys were involved in this year's Little League and Peewee League.

USAF medical personnel at Albrook AFB, Canal Zone, are teaching a six-months course in preventive medicine to 46 representatives of six Latin American air forces.

RECRUITERS NUMEROUS

Junior Olympics Winners Honored

Awards for first and second place victories in the Junior Olympics at Reese will be awarded upward of 90 boys and girls Saturday afternoon at the Youth Center. Presentations will follow a style show which opens at 2 p.m.

Times, distances and scores in various areas of competition, including bowling, track and field events, swimming and physical fitness tests, have been sent to Air Training Command for com-

parison with results at other bases. Points will be awarded for each entry and winning results.

First place awards went to Mike Zarembo, Larry Grady, Kenneth McBride, Allen Boddie, Richard Kumpf, Perry Hamilton, Ray Zarembo, Robert McBride, Ronald Johnson, Fred Locke, Ronald McFarland, Charles Robertson, Bill Warring, John Sofaly, David Strack, Don Fitzpatrick, Lee Grote, David Foster, and Elson Robertson Jr.

Others getting first place awards were Donna Gerdt, Cesslie Darby, Cheryl Montgomery, Annette Matthews, Ann Gunn, Meri-Lyn Wright, Jean Cawvey, Gloria Nelson, Patricia Montgomery, Rochelle LeClerc, Mary Lynn Robertson, Robert Snyder, Terry Smith, Peggy Miller, Lynn Pyle, Debra Loughrey, Karen Gylov, Melesa Spencer, Mary McGuire, and Daniel Ermine.

Also receiving the same awards were Michael Kelly, Steven Patterson, James Steele, Nora Heck, Joanne Merritt, Shirley Steele and Glenda Howard.

Second place winners included Larry Grady, Ronald Matthews, Robert Mabry, LaBaron Locke, Gary Wakefield, Jerry Jones, Mike Zarembo, Donald Johnson, James Praytor, Joseph Jones, Charles Robertson, Lee Grote, David Foster, Elson Robertson Jr., Loretta Kirby, Cesslie Darby, Nora Heck, Anette Matthews, Janie Bone, Connie Hill, Jean Cawvey, Meri-Lyn Wright and Mary Lynn Robertson.

Also getting second place awards were Rochelle LeClerc, Gary Wakefield, Ray Zarembo, Robert Snyder, Peggy Miller, Ann Gunn, Patricia Montgomery, Kenneth McBride, Mike Zarembo, David Gerdt, Ronald Johnson, Fred Locke, Debra Loughrey, Kim Ruter, Lynn Pyle, Cheryl Montgomery, Karon Gylov, Mary McGuire, Michael Kelly, Timothy Kelly, Ro Friday, Jan Longwell, Steve Patterson, Van Grady, James Steele and Barry Patterson.

TRAINING LENGTHY

If one person were to attend every course offered by ATC it would take him about 380,000 hours or 244 years to graduate.

The 2,000 pound weight limitation on a shipment of personal household goods to Germany is being phased-out in Fiscal Year 1964.

Judo Work Shown To Lubbock Boys

A judo demonstration for the 400 members of the Avenue K Lubbock Boys' Club was staged early this month by two physical training instructors from the 3501st Student Squadron.

A1C Alfred Lackey, a second degree brown belt, and his supervisor William J. Webster, a first degree black belt, staged the demonstration after a request from the club's sponsors. The boys were shown the basic falls, throws and chokes involved in judo.

Webster is a former Air Force officer. He earned his degree in judo while serving as a crew member on a SAC B-47 in 1955.

Airman Lackey earned his belt while stationed at Stead AFB. He has worked with the boys' club in the past as a karate instructor.

Golf Notes . . .

The team representing Reese in the ATC Golf Tournament Sep. 3-7 at Lackland AFB was announced this week after completion of the 76-hole base tournament. The final 36 holes of the competition at Reese were played Saturday and Sunday.

The six members of the winning championship flight who will make up the open division team and their scores during the base tournament are: 1st Lt. C. J. Siegel, 292; Capt. Lou Ferguson, 293; 1st Lt. Warren Battis, 301; TSgt. Ted Tedesco, 304; 1st Lt. J. Urbanski, 307; and 1st Lt. Jerry Daley, 308.

The three men who will play on the senior division team at Lackland and their base tournament scores are: Col. J. E. Payne, 321; CWO R. L. Merritt, 334; and MSgt. A. R. Laurie, 338.

Maj. Ray Sofaly won the putting championship during the tournament, and Col. J. E. Payne was announced as the tournament's hole-in-one champ.

The other flights competing in the base tournament and the top two scorers on each were:

First flight: 1st Lt. J. W. Hertel, 283, and A1C W. D. Brown, 285.

Second flight: A3C M. T. Robinson, 300, and SFC W. T. Jones, 304.

Third flight: SSgt. C. H. George, 277, and MSgt. W. M. Mosely, 314.

Fourth flight: A1C A. R. Gibson, 297, and TSgt. J. Montgomery, 303.

RECRUITER EXPERIENCED

The average Air Force recruiter is 37 years of age, a technical sergeant with 10 years of military service, married and has three children.

Army Air Force personnel who were stationed at Bryan Field, Tex., during 1943-46 will hold their 20th anniversary reunion in Washington Aug. 22-26.

Among NCO Wives

By Diane Carlson
Joann Stoker and Anna Meehan were honored at a farewell party given by Sarah Raines. The Stokers have gone to Georgia and Mrs. Meehan has gone with her husband to a reassignment in Amarillo. Both women were presented with bracelets. Attend-

ing the farewell were Nancy Buller, Jerry Cole, Evelyn Fitzpatrick, Adeline Miller and Marilyn Skidmore.

Game night next Tuesday will be a highlight of the August NCO Wives Club program, while a beauty treatment clinic is scheduled for September, a Halloween party and potluck supper for October, a display of paint plaques for November, a Christmas party in December and the installation dinner in January.

Janie Harmon has replaced Joann Stoker on the board of governors.

SSgt. and Mrs. Alan K. Bowlby and children are vacationing in New York and New Jersey.

All NCO wives are invited to the next club meeting on Sept. 10. Visitors at the last business session were Carol Scales and Louise Lucas, while Louise Daniels is a new member.

**Women Will Hear
Of Japan Journey**

The Protestant Women of the Chapel will hear Mrs. O. W. English of Lubbock as guest speaker at the monthly salad luncheon at 1 p.m. Tuesday in the Chapel Annex.

Mrs. English will discuss her trip to Japan with her husband, Dr. O. W. English, and other Lubbock residents.

Due to the transfer of most officers of the Protestant Women, a nominating committee headed by Mrs. Robert Brown has been appointed to submit a slate of new officers for the emergency election set for the September luncheon meeting. Others on the committee are Mmes. Wayne Stork, Sidney Lockhart and Imanuel Maute.

Hostesses for the Tuesday luncheon will be Mmes. Rufus Johnston and Lockhart. Free nursery service is provided and reservations should be made at the Reese nursery. No luncheon reservations are needed. Members are asked to bring a salad for eight persons.

CLUBS

Youth Club

Pre-Teens will play miniature golf tonight, with the bus leaving the Youth Center at 7:15 p.m. Refreshments in the center will follow return at 9:30 p.m.

Junior and Senior Teens will play miniature golf Saturday night, leaving the center at 7:15 p.m. and returning at 10 p.m. for refreshments.

A Back-to-School style show will be held at the center from 2 to 4 p.m. Saturday. After the show awards will be presented first and second place winners in the Junior Olympics. Parents and children are invited.

The Reese girls' softball team lost a 27-25 game to the First Baptist girls of Lubbock on Aug. 15.

Air Explorers have returned from Monument Lake, Colo., where they spent eight days on a fishing and sightseeing trip. It rained every day. The boys were David Strack, Ken Bloom, Arthur Garcia, Tommy McDonald, Larry Jennings and Kerry Chamberlain.

Reservations must be made by Saturday for the Aug. 30 Back-to-School dinner dance for Junior and Senior Teens.

Free instructions on Morse code and electronics start at 7:30 p.m. Tuesday. Instruction will lead to ham radio licenses for children.

Youth Club membership cards expire Sept. 1. Youths are urged to get new ones before that date at the Youth Center.

ALUMNUS HONORED—Capt. Albert H. Crews Jr., right, selected as a Dyna-Soar pilot, is presented with a silver loving cup from the Reese Student Squadron in appreciation for his Air Force service and Dining-In talk on his work. Capt. Leonard Ambers, Dining-In president, made the presentation at the conclusion of Capt. Crews' Monday night talk here. The speaker is a 1952 graduate of pilot training here.

Surgeon Of ATC Joins FAA Staff

Maj. Gen. (Doctor) M. Samuel White, surgeon for Air Training Command since 1959, has been named federal air surgeon of the Federal Aviation Agency, Washington, D. C. He will move into the FAA job about Oct. 1.

Announcement of General White's selection was made jointly by FAA and the Air Force Surgeon General's Office in Washington.

In Washington, D. C., FAA Administrator N. E. Halaby said:

"We are very pleased with General White's assignment which ends a search for the best professional man qualified and available. He brings particularly

outstanding qualifications for handling the critical tasks ahead in learning more about the human element in civil aviation. Dr. White's background and experience make him uniquely suited to lead the way in this important work."

Gen. White has been a flight surgeon nearly 28 years.

**Male Chorus Seeking
Additional Candidates**

Now leading in points for the ATC Commanders Trophy, Reese is in need of men to participate in the command's group singing competition to be held sometime this fall.

An organizational meeting of interested persons was held Tuesday in the service club, but more singers are needed.

The base group will be coached and directed by 2nd Lt. V. C. Hogden who was in charge of last year's competition. The group is open to male members of the military of all ranks and ages.

ATC's total operating cost for Fiscal Year 1962 was about \$700 million.
