

# THE ROUNDUP

The ROUNDUP is an unofficial newspaper published weekly in the interest of personnel at Reese Air Force Base of Air Training Command. It is published by C. F. Boone Nationwide Publications, Inc., a private concern, which is in no way connected with the Department of the Air Force. Publisher's mailing address: P.O. Box 883 Lubbock, Texas. For information phone SH 7-1624 (night SW 9-0580). Opinions expressed by publishers and writers are their own and are not to be considered an official expression by the Department of the Air Force. The appearance of advertisements in this publication does not constitute an endorsement by the Department of the Air Force of the products or services advertised.

VOLUME XVI      2      Lubbock, Texas, Friday, April 23, 1965      NUMBER 16

**TOP GRADUATES**—Six airmen third class rated honor graduate designation in the first class to complete the airman development course at Reese. Colonel Dudley E. Faver, wing commander, presented certificates to four of the honor graduates. Left to right at A3C John K. Meaney, A3C Richard E. Maynard, A3C James D. Hultman and A3C Robert M. Stargel. Missing are A3C Eddie A. Lusk and A3C Patrick Ramsey. (See story, Page 6)

## Open House, Many Displays Mark National Library Week

Reese will join in observance of National Library Week April 25 to May 1 with special displays, and open house. All personnel are invited to visit and to take out more books for reading.

The library will be open all next week, with special displays on various phases of books available set up on both floors.

Special open houses are set for 9 to 10:30 a.m. Monday and Wednesday. Everyone attending during these hours will be given paperback books and throughout the week all visitors may register for valuable books to be given away.

Reese high officials will be on hand for the open houses.

The theme this year is, "Open Your Future—Read," and emphasis is being placed on books and magazines available for everyone.

All adults at Reese have been invited to write a theme of 200 words or less on the week's theme, with prizes awarded the best discussions offered by a man and woman. The man will receive the complete works of Shakespeare in a volume illustrated by Rockwell Kent. The woman is to get a copy of the Vogue Cookbook.

Themes by adults must be in the library by Sunday night.

Children of the fifth and sixth grades at Reese Elementary School also are competing in a theme contest on the same subject, with prizes set up for them.

The Library Week committee is

headed by Lt. Col. Theodore Lutrey.

"Reading as a necessity for progressive living in a world where information has exploded overnight," the colonel said.

"The Reese library is an organization for the classification and organization of knowledge and information, one purpose of which is to make it available to everyone when it is needed.

"During National Library Week everyone can learn more about how this is done, and how better use can be made of the informational treasure already on hand."

## Final Navigator Starts Training

(ATCPS)—The Undergraduate Navigator Training (UNT) facility at James Connally AFB will move to Mather AFB next January but one more class will undergo training in its present classrooms.

UNT Class 66-12 entered training March 12 for the 37-week course with 43 U.S. officers and one foreign student.

## Deadline Nears In Short Story Competition Here

Reese short story writers this week worked on entries for the annual Short Story Contest in hope of winning cash prizes here and in the Air Training Command competition.

The deadline for submission of stories to the base library is April 29 and any story turned in before the night of that date will be judged. All stories will be taken to Texas Tech, where members of the English Department faculty will select the winners.

The best stories from here will be forwarded to ATC for consideration with top stories from other bases.

All stories must be original and previously unpublished. Rules are available in the base library.

In the past year, Reese writers have captured several prizes in ATC competition and Mrs. Helen K. Fuller, base librarian, says she is hopeful local stories will rate among the best in command again.

## INSTRUCTOR ASSIGNED

An AFROTC graduate of Virginia Polytechnic Institute, 2nd Lt. David A. Robinson has arrived at Reese as an instructor pilot in the 3501st Pilot Training squadron. He came to Reese from a student squadron at Craig AFB.

Reese has an area of 2,862 acres.

# Colonel Mahr Named Deputy For Training

Colonel Victor M. Mahr, commander of the 3510th Pilot Training Group at Randolph Air Force Base assumed duty as deputy commander for training at Reese last Monday.

The colonel, in service since 1941, is responsible for the training of all students in the undergraduate pilot training program at Reese.

A graduate of high school in Monroe, La., he is a former student of Louisiana State University. He was commissioned in May, 1941, on conclusion of pilot training at Randolph Field and Kelly Field, both at San Antonio.

Prior to going to Randolph in 1963, Colonel Mahr commanded the U. S. Air Force instrument instructor school. Previously he was chief of aircraft requirements in headquarters of Air Defense Command, following service as director of operations for the Iceland Defense Force.

The colonel also has commanded interceptor squadrons in Panama and the United States.

On Pearl Harbor Day, Dec. 7, 1941, he was stationed with the 19th Pursuit Squadron at Wheeler Field, Hawaii, and during the war he flew in the Central Pacific as the pilot of several types of aircraft.

The colonel is married to the former Justine "Butch" Wilson of Monroe, La. They have five children: Terri, student at North Texas State University; Victor M., Jr., senior in high school at Randolph AFB; Becky, junior in the high school; Kathy, in junior high school; and Ken, pupil in the Randolph elementary school.

Colonel John D. Gorham Jr., former deputy commander for training, has assumed duty as assistant to the deputy commander for materiel.

## Lower Promotion Quota Announced

WASHINGTON (AFNS)—The Air Force plans to promote in June 27,770 airmen to the grades of airman second class through master sergeant.

The quotas by grade are: MSgt.—2,800; TSgt.—3,400; SSgt.—4,130; A1C—3,790; and A2C—13,650.

This represents the remainder of promotions authorized in fiscal year 1965. The quotas are considerably lower for all grades than previous cycles. Officials stated the Air Force normally passes out bigger portions of the programmed promotions during early cycles, thus enabling members to draw the higher pay sooner.

## money help're stationed Six Commands Get Graduates

Six major air commands of the Air Force are being assigned members of Class 65-G who are being graduated from undergraduate pilot training May 13 at Reese.

The Tactical Air Command is getting 11 of the 35 graduates, while Strategic Air Command is being sent 7.

Six graduates go to the Military Air Transport Service and five to the Air Force in Europe. Two graduates are assigned to The Air Defense Command, two to the Systems Command overseas and two are returning to their home Air National Guard units.

Members of Class 65-G will be awarded pilot wings during graduation exercises in the base theater. The class has been in training 55 weeks and completed 262 hours of flying training, as well as academic and officer training.

## DEPUTY SELECTED

HQ. ATC (ATCPS) — Colonel James A. Dusenbury has been selected for assignment as deputy chief of staff, civil engineering, ATC effective in August. Colonel Dusenbury, now assistant deputy chief of staff, civil engineering, Headquarters Air Defense Command, Ent AFB, will succeed Col. Melvin T. Edmonds.

**NASA VISITORS BRIEFED**—Two NASA officials, George Morgan, left, and Philip Hamburger, next to him, facing the camera, were briefed on undergraduate pilot training during their visit to Reese last week. Also learning of the UPT program more intimately was Jay Harris, center, night editor of the Lubbock Avalanche-Journal. In charge of the tour was Lt. Col. William H. Reese, right, commander of the 3500th Pilot Training Squadron. Here students and instructors aid in the briefing by asking questions.

## NASA Officials Outline Flight To Moon

A complete detailed plan of the nation's effort to place a man on the moon by 1970 was explained to Reese personnel last Thursday by two NASA officials. The two experts were Philip T. Hamburger, top assistant to the director of NASA's MSC, and George W. Morgan, chief of the resources management division program presentation office at MSC.

Experts in all fields are working in specific areas to make moon trips successful, Reese people were told by George Morgan. Morgan formerly was a Reese instructor pilot and assistant manpower officer.

The Saturn spacecraft will be more than 350 feet tall when it leaves the earth, he said. Its booster sections will leave at various stages along the way, with the moon journey terminating in a landing at a selected spot.

The astronauts will move from area to area in the spacecraft and will be able to maneuver the landing craft to the best area, it was stated. Two astronauts will land and each will spend six hours in study on the surface before starting the return journey. One stage of the spacecraft which has been left in space will be reunited with the section which has been landed and the return to earth will be more leisurely than the trip to the moon.

Morgan said that the last globe circling flight showed that astronauts can maneuver their craft successfully, confirming selection of a touchdown spot on the moon will be possible.

He traced the history of aerospace travel developments and explained how contracts in many parts of the country are contributing and benefitting. He showed

pictures of various NASA research and development centers, explaining what each was accomplishing in the aerospace program.

Films were shown by Philip T. Hamburger, giving highlights of the recent aerospace journey around the world of Maj. Gus Grissom of the Air Force and Lt. Comdr. John Young of the Navy, a trip in which the spacecraft was manually maneuvered by the astronauts for the first time on any world flight.

The NASA visitors made a tour of Reese facilities, Morgan especially wanted to see what changes had been made since he was assigned here 10 years ago.

The pair made several appearances in Lubbock, concluding their two-day visit with the opening Thursday night of a "Milestones In Space" show at the West Texas Museum.

# Commander's Comments . . .

By COL. DUDLEY E. FAVER  
Wing Commander

"Open Your Future—Read" is, I feel, a most appropriate slogan for National Library Week which starts Sunday. Books are the key to greater education and understanding — and vital in the life of every citizen.

It is necessary for military personnel not only must we remain continually in our community and in the Air Force conditions and the forces at work have long been an established fact. It is essential for the military to recognize the importance of productive individuals.

An arsenal of ideas, facts and figures is this true in the areas of the struggle between the two nations to meet your needs!

At the base library next week and during the observance of National Library Week why not check out a book and see how successful?

## Foreign Objects And Lives

With the T-38 coming into full use in Air Training Command, the problem of FOD (Foreign Object Damage) become increasingly critical.

Foreign objects are materials that possess the potential, because of location and composition, to enter and cause damage to a jet engine.

The J-85 engine (used in the T-38) is a tremendous advancement in the field of propulsion, but it cannot swallow so much as a gum wrapper without sustaining major damage. Each of these engines costs the Air Force approximately \$110,000, and a damaged engine can cost a human life.

This FOD problem not only concerns maintenance people, pilots, and other flight line personnel, it concerns everyone.

Debris that will cause damage can be blown onto the flight ramp from any part of the base.

Be on the alert for FOD! (ATCPS)

## ASK YOUR PERSONNEL OFFICER

Q. Is a "GI Bill" for cold war veterans a possibility?

A. Numerous bills have been introduced in each Congress since 1957 which propose education and other benefits for veterans of peacetime service.

Basically, these bills have been patterned closely after forms of assistance authorized under the "GI Bills" for certain veterans of World War II and the Korean conflict. They provide educational and vocational training assistance; vocational rehabilitation training for veterans with service connected disabilities; and guaranteed and direct loan assistance for the purchase of homes, farms, farm lands, livestock, machinery and other equipment to be used in farming operations conducted by veterans.

The Department of Defense position on these bills, which is supported by the services, has been:

1. Opposed to the provisions to

authorize educational and vocational training on the basis that such programs encourage personnel to leave military service immediately after accruing the maximum education benefits which can be gained. This results in a serious handicap to the armed forces in their efforts to attract and retain qualified personnel on a career basis.

2. Supported the provision to authorize vocational rehabilitation due to service connected disabilities.

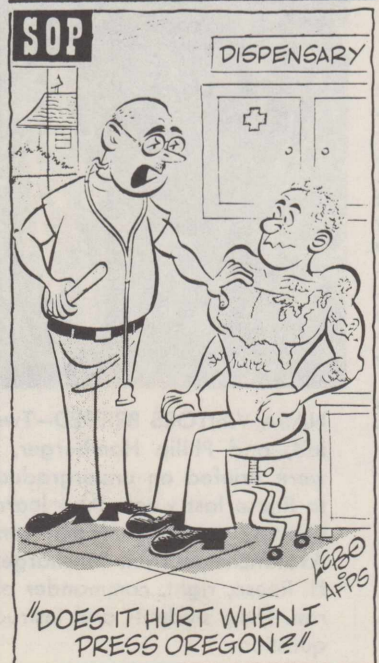

3. Deferred to the Veteran's Administration regarding certain home and farm loan assistance.

Major Congressional action on the proposals is not anticipated soon.

## CSC Broadens Aid To Retiree, Others

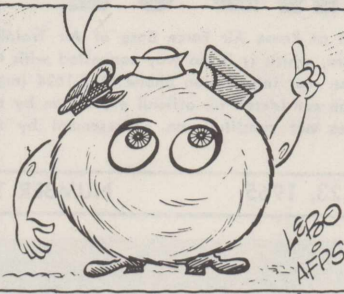

WASHINGTON (AFNS) —The Civil Service Commission has broadened its separated Career Employee Program to make it easier for employees eligible for placement assistance to find new jobs. Major change in the program provides for employees to become eligible for agency and Government-wide placement assistance before they are separated.

Reese has an elevation of 3,334 feet.

## FOOF'S SPOOFS

ONE WAY TO BE POPULAR IS TO LISTEN CLOSELY TO A LOT OF THINGS YOU ALREADY KNOW.

## Chapel Schedule

You are invited to participate in the following services of worship for the coming week. Free nursery service is available during all scheduled Chapel services.

### CATHOLIC:

Sunday Masses at 9 a.m. and 12:15 p.m. Tuesday through Saturday at noon. School of Religion classes for grammar school, 8 a.m. Saturday. Confessions: 6 p.m. and 7 p.m. Saturday; 15 minutes before each mass.

### PROTESTANT:

Sunday School at 9:45 a.m. for all ages. Worship service: Sunday at 10 and 11 a.m. Protestant Youth of the Chapel: Sunday at 4:30 p.m. in the Chapel Annex.

### JEWISH:

All Jewish personnel are invited to attend services at the Congregation Shaareth Israel, 1706 23rd Street, Lubbock. Services at 8 p.m. each Friday.

### THANKS PERSONNEL

Lavelle Bishop of the base commissary office wishes to thank Reese personnel who donated blood for transfusions required by her husband, R. G. Bishop, who has been seriously ill.

## Spring Is Here — Clean Up

Reese observes its annual Clean-Up Week, starting April 25, with a twin objective — eliminate fire hazards and make the surroundings more beautiful.

Someone once said, "Cleanliness is next to Godliness." Even in the cleanest of homes, rubbish and trash will accumulate, in spite of everything. This is particularly true in West Texas where winds are strong.

Outside our homes debris can be cleaned away during Clean-Up Week. This will help beautify. Inside the home, boxes, rags and other materials which might lead to fires can be tossed out and anchored securely for the trash man to pick up.

Yards can be raked, flowers planted and the surrounding area generally made safer and cleaner as we all join the annual observance. Flammable liquids should be removed from our homes and stored out of reach of the youngsters.

All of us know how easily our yards and homes get messed-up. All of us know how hard it is to keep surroundings beautiful.

Let us all join hands in cleaning up next week and just hope the winds die down. Whether there are strong winds or not, we can all seek to keep areas in which we live clean the year around. It is highly important that we take a long step during Clean-Up Week.

ATC's five technical training centers are responsible for primary and advanced technical training of all non-rated specialists. More than 100,000 were graduated in 1964 from one or more of the 2,000 courses conducted at these bases.

**FLIGHT OF MONTH**—A plaque designating I Flight as the flight of the month in T-38 maintenance is presented by Col. Dudley E. Faver, left center, wing commander. Accepting is TSgt. John W. Coard, flight chief, as others

in his unit look on. The award is presented for in-commission aircraft, abort rate, on-the-job training progress and aircraft and personnel appearance.

### More Military Proposals Sought

A plea for more proposals in the military suggestion program so that Reese may meet the minimum goal set by Air Training Command this fiscal year was made this week.

Officials pointed out that Reese has a goal of 277 to meet by June 30 and only 128 suggestions have been submitted. The goal is 15 per cent of military personnel participating in the program; suggestions submitted reached 7 per cent.

Each proposal is considered by the Reese incentives award committee and awards are made for each adopted suggestion.

**TALON SUPERSONIC**  
The T-38 Talon used at Reese is a supersonic basic trainer with top speed in excess of 800 m.p.h. and a ceiling of 50,000 feet.

### Sergeant, Civilian Jointly Awarded Cash For Improvement Suggestions

Management improvement suggestions submitted jointly by SSgt. John R. Zgonc and civilian Melvin E. Middleton have won for them \$42.50 in cash and brought a savings of more than \$1,000 a year to Reese.

The incentive awards committee approved the suggestions and forwarded them to Air Training Command for possible command-

wise adoption. One proposal for assembly and disassembly of the plenum assembly will save \$531 a year in manhours here and the other for voltage regulator adjustment of gas turbine compressors will save \$541.

SSgt. Kenneth Baker submitted an approved suggestion for repair of the T-37 aircraft mirror which saves \$381 in materials annually here. He was awarded \$10.

Howard E. Miller proposed aircraft row markers which improves safety. He received a suggestion certificate.

J. D. Dowdy, another civilian, suggested an argon gas purge device which saves \$500 a year in manhours here. He was awarded \$25.

#### COMMANDER REASSIGNED

HQ. ATC (ATCPS) — Colonel James F. Reed, deputy commander of Stead AFB, will replace Col. Archer E. Lackey as commander when the latter departs in July for assignment to Washington, D.C.

### Confederates Set NCO Show May 1

Chuck Harding and the Confederates will entertain again the night of May 1 at the NCO open mess. The group includes Chuck Harding, Glennis Harding, Oneda Harding, Jim Bogle and Tommy Christian.

Each member sings and plays instruments, with 16 instruments used at one time or another. Music of the Civil War, Gay Nineties and Roaring Twenties is featured. Group singing also is encouraged.

The show is from 9 p.m. to 1 a.m.

### Ride On Cowboy Trail Scheduled Through Texas

Reese personnel are invited to participate in the month-long trail ride from Lubbock to Johnson City during June. Riders in buggies, stage coaches and other vehicles will leave the Fair Park coliseum the morning of June 1 and expect to reach Johnson City by the last of the month.

Travel will be down a cowboy trail through communities marked by ranches, rodeos, street dances, farming and other features of rural life. A maximum of 22 miles will be traveled on any single day.

A kick-off dance and barbecue is scheduled for May 31 in the coliseum. The Johnson City Trail Ride association, sponsors of the event, will provide horses and saddles, food and entertainment. Each participant may take his own horse.

Non-riders may travel in buggies or stage coaches. Men and women and children 10 years old or older may join the caravan. A band will travel with the trail riders to provide music along the way and for street dances. Halts will be made for fishing.

Participants may travel one day, all the way, or for any time along the way.

Inquiries may be made at 3008 50th Street, Lubbock, or by phoning SW 5-1398.

**EASTER WINNERS**—Reese children who found special marked eggs in the annual Easter Egg hunt last Sunday were awarded bunnies. The winners, left to right, were Kenneth Riley, 2 years old, Theresa Rickey 2, Lori Morton 4, Brian Warwick 7, Marcella Zoerlein 10 and Kelly Scales 10.

## Club Activities

### Teen Club

A meeting of all members of the Reese Teen Club is scheduled for 7 p.m. Saturday in the Youth Center. All members are being urged to attend to consider several important matters to be presented.

The Teen Club officers will meet at 7 p.m. Friday to map future programs.

### NCO Open Mess

**FRIDAY** — Western night, dance to Pete Peterson, 9 p.m. to 1 a.m.

**SATURDAY** — Dance, The Royals, 9 p.m. to 1 a.m.

**SUNDAY** — Special dinners starting at 11 a.m.

**MONDAY** — Stag night, Happy Hour.

**TUESDAY** — Happy Hour.

NCO Wives Club social and cosmetic demonstration.

**WEDNESDAY** — Game night.

### Officers' Open Mess

**FRIDAY** — Dance, the Mad-Hatters, 9 p.m. to 1 a.m.

**SATURDAY** — Special dinners.

Dance, The Raiders, 9 a.m. to 1 a.m.

**SUNDAY** — Evening buffet, 6 p.m. to 9 p.m. Music by Japan's favorite, Riroko Sando.

The Officers' open mess general membership meeting is scheduled for 9 a.m., May 1, in the base theater.

## Air Force Needs More Steno Help

The Department of the Air Force in Washington has a critical need for competent stenographers and secretaries and is anxious for dependents of personnel reassigned to the area to seek employment, the Reese civilian personnel office has been advised.

The present primary need is for GS-5s who would be secretaries to branch chiefs. Vacancies in other grades also exist.

Detailed information is available in the civilian personnel office, Building T-122, Ext. 237.

### TRAINING ALTERED

Beginning in August, students at Reese and other undergraduate pilot training bases will receive 30 hours in the propeller driven T-41A, 90 hours in the T-37 primary training and 120 hours in the supersonic jet T-38.

## Pair Selected To Rendezvous Gemini In Space

WASHINGTON (AFNS)—Navy Commander Walter M. Schirra Jr. and Air Force Maj. Thomas P. Stafford were named to pilot the Gemini space capsule on a docking and rendezvous mission later this year.

Picked as backup crew were Air Force Maj. Virgil I. Grissom and Navy Lieutenant Commander John W. Young who last month circled the Earth three times in the nation's first two-man space flight.

Two more Gemini missions are scheduled before the spacecraft attempts to rendezvous in space with an unmanned satellite.

### At The Movies

**FRIDAY** — "Quo Vadis," Robert Taylor, family.

**SATURDAY** — "The Patsy," Jerry Lewis, family. Matinee—"Hey There, It's Yogi Bear," family.

**SUNDAY** — "What a Way to Go!," Shirley MacLaine, mature.

**TUESDAY - WEDNESDAY** — "The Unsinkable Molly Brown," Debbie Reynolds, family.

**THURSDAY** — "Those Calloways," Brian Keith.

## NCO Wives To Host Tea May 2 For OWC

The NCO Wives Club will hold its monthly social at 7:30 p.m. Tuesday in the NCO open mess. A cosmetic demonstration is planned, with NCO wives assisting.

The club will host the Officers Wives Club at a special tea at 3 p.m. on May 2 in the NCO open mess. A large attendance is anticipated. Hostesses will be Mrs. Nels Hogberg and Mrs. Robert Hoover.

## Girl Scout Camping Registration Opens

Registrations by mail only for Camp Rio Blanco are being accepted in the Girl Scout Council office. All registered Junior Girl Scouts (who have finished the 4th grade), Cadette Girl Scouts and Senior Girl Scouts may register for any of the six sessions.

After April 26, registrations will be taken by mail and in person at the Council office.

## Wives Asked To May 3-4 Orientation

All Reese wives are being urged to attend the Family Services Orientation program Monday, May 3, and Tuesday, May 4, in the Mathis Service Club. Registration is at 9 a.m. each day, with the orientation lasting until 11:45 a.m.

A welcome and mission briefing will be given by Col. Dudley E. Faver, wing commander. Community resources are to be outlined by Dick Moseley, assistant general manager of the Lubbock Chamber of Commerce.

Medicare is the subject of 1st Lt. George Armstrong of the base hospital.

MSgt. Toy Grice, NCOIC of personal affairs, is to discuss survivor benefits and Air Force Aid Society operations.

Transportation problems will be the subject of Capt. William Lewis, transportation officer. Jerome Water, Red Cross field director, will speak about his organization and its work.

The Family Services program at Reese will be outlined by Joyce Ruthe, coordinator.

Free nursery is available to those attending the course and refreshments will be served. Reservations are necessary.

Certificates will be presented by Lt. Col. David T. Mold, chief, personnel division, to all completing both morning sessions.

## Selection Dates Get Clarification

WASHINGTON (AFNS) — An assignment selection date covers the entire 24-hour period, the Air Force has informed the field in a message clarifying just when personnel become ineligible to decline a permanent change of station by requesting retirement or separation.

The assignment selection date runs from 12:01 a.m. through 11:59 p.m. of the calendar day that an individual's name is applied against a specific assignment, the message pointed out. For example, if a person's assignment selection date is April 30, his retirement or separation application would have to be dated no later than 11:59 p.m., April 19, in order for him to avoid the move.

## MacTorchy Sez . . .

"My mission and your mission under the Cost Reduction Program are identical — help ATC meet its Fiscal Year 1965 goal of \$28.6 million."

### RECRUITERS NEEDED

WASHINGTON (AFNS) — The Air Force is recruiting recruiters. Both male airmen and women in the Air Force recruiting specialists are needed.

CIA DIRECTOR—President Johnson has named Admiral William F. Raborn, USN (Ret), as director of the Central Intelligence Agency, replacing John A. McCone. Admiral Raborn, who retired from the Navy in 1963, was in charge of the development of the Polaris missile system.

## Youth Center Needs Displays Of Hobbies

Reese personnel with hobby displays of particular interest to children are invited to place them for limited times in the display case of the Youth Center.

Hal Green, youth director, said numerous collections of ceramics, paintings, coins, stamps and other articles are on the base and he is hopeful some will be displayed for the Teen Club members to study.

The display case is secured at all times to protect its contents.

### SIX PLANES USED

ATC uses six types of aircraft in its flying training — T-37, T-38, T-33, T-29, T-39 and T-28.

LITTLE BIRD - BIG STING—This Cessna-built YAT-37D Air Force trainer demonstrates its versatility by releasing a package of 38 2.75-inch rockets in a firepower show. The jet is the smallest in size and lowest in cost of all U. S. military jet aircraft.

### Bowling

#### Dust Bowl League

With one more contest remaining on the schedule, three teams have a chance to finish in second or third place in the Dust Bowl mixed couples bowling league. West-Hampton, with 87½ wins, has had first place cinched for several weeks, but Dina-Reiswig, with 67½ victories, Gray-Crowl with 64½ wins, and Corley-Kumpf, with 60½, have opportunity to "get in the money."

This week Marilyn Olson rolled a 176 game to lead women and Arnie Reiswig hit 234 to lead men. Gwen Hampton, 516, and John West, 587, rolled high series. West has the top average of 176 and Mrs. Olson has 171.

### Decade Of Training Recorded By Plaque

BROOKS AFB (AFNS) — A pearl-inlaid plaque bearing the names of 57 officers and men of the Air Force of the Republic of Korea commemorates 10 years of training at the USAF School of Aerospace Medicine here.

The black lacquer memento was presented the school in tribute to the outstanding work being carried on at Brooks by SAM.

The Korean medics represent only a fraction of those who come here annually for a 25-week course entitled Advanced Aerospace Medicine for Allied Medical Officers.

Thirty-eight medical personnel from 19 foreign countries are currently in the school.

#### HAS FOUR MISSIONS

ATC has four primary missions — recruiting personnel and military, technical and flying training.

### Three Fields Open To OTS Applicants

HQ. ATC (ATCPS) — Airmen applying for Officer Training School (OTS) during fiscal year 1966 will leave only three utilization fields open to them: pilot, navigator and weather.

A recent all-commands message from USAF said this limitation of airman applications for the OTS program is due to a sharp reduction in officer procurement through OTS.

### Little League Team Players Named

Reese Little league action will start early in May, featuring three teams competing in the major league and two teams in the minor league.

Players have been selected and managers and coaches have been chosen. Players selected in the draft conducted by TSgt. Richard Kumpf, player agent, include:

**DODGERS** — Clarence Ching, Phillip Scruggs, Mark Maltese, James Evans, John Smith, Andy Wynne, Mike Steele, Charles Lents, Larry Grady, Ricky Scruggs, Gerard Kimball, Bob Hernandez, James Ross, Ronnie Mather, Gary Lawson, Billy Humphrey, Chuck Wynne, Mark Henry, Ken Bailey, Dwight Jackson, Tom Johnston, Richard Kimball and Steve Cline.

**BRAVES** — Steve Avery, Roger Tramblyn, Douglas Stewart, Mike

Hampton, Robert Brinley, Dale Brinley, Robert Youngman, Kelly Scales, Todd Mold, Jeff Vanek, Don Hughes, Paul Kreter, Leslie Reagan, Larry Lloyd, Bill Gibbons, Curtis Moore, Billy Pulliam, Gary Turenne, Steve McCranie, Alan Boddie, Mike Avery, and Mike Hardy.

**RED SOX** — Barry Reese, Danny Buller, Dean Roberts, Ricky Kumpf, George Roberts, Marc Thompson, Tom English, Mike Molloy, Mike Coy, Jon Thompson, Tony Bonanno, Tommy Byrom, John Byrom, Jimmy Urcinoli, Gary Kurschinske, Charles Coy, Joey Bonanno, Jim Nooney, Jerry Smith, Jim Curry, Philip Colman and Mike Lamont.

Teams in the minor league will be composed of:

**CARDINALS** — Russell Youngman, Dana Bray, Steve Goldfein, Timmy English, Jerry Ross, Jimmy Roller, Bobby Scruggs, Ken Young, John Parker, Paul Hinman, Paul Loughrey, Mike Mommoto, Wayne Lamont, Mark Decker, Forest Hensley, Phillip Byrom, David Warwick and Brian Warwick.

**YANKEES** — Arthur Rennick, Max Clanton, Tom Swatloski, Ronald Franzen, Mike DeLauriers, Danny Flood, Rickey Humphrey, Billy Moore, Mark Molloy, Edward Ellis, James Coy, Walter Owen, Scott Henry, Randy Moore, John Keathley, Ken Buckner and Ricky Vest.

#### FEES CHANGED

A new change in greens fees has become effective at the Reese golf course. Airmen first class and below, whether single or with families, may play for 75 cents a day. Airmen of higher rank will pay \$1 a day.

# RSU CONTROLLER MUST THINK QUICKLY, RIGHT, EACH MINUTE

**FLYSAFE AWARD RESULT OF TOIL**—Captain Richard J. Scott explained that his job is "to effect a safe, orderly flow of traffic, while allowing the most training activity." The precision with which the Senior Controllers of the 3500th Pilot Training Squadron accomplished their mission resulted in winning the 1964 Flysafes Award.

## Professionalism Principal Objective Of Reese Airmen Development Course

The first airman development course conducted at Reese was concluded Tuesday morning, awarding certificates of completion to 30 airmen basics and airmen third class. Exercises in the base theater also marked opening of the second class, attended by 68 airmen.

The course, directed by Capt. Walter Haug, is aimed at developing professionals in lower grade airmen and supplements instruction received in basic training. The first classes began meeting March 16 and completed 32 hours of instruction, with a grade of 75 required for passing and the mid-term and final examinations determining the final grades. NCOs and officers served as instructors.

Objectives sought included aid in airman development for responsibility, orientation on the mission of his unit and the Air Force and motivation toward an Air Force career.

Military training subjects covered were air base facilities, managing personal affairs, customs and courtesies, responsibilities as a citizen, leadership and teamwork, radiological warfare, buddy care, ground safety, communism, heritage, code of conduct, military law, and drills and ceremonies.

Under the program the airman is being taught to be familiar with base facilities and know where he can get aid at any time. He learns how to keep his finances in order and what is required of him as a member of the Air Force, and many of the privileges he has as an American citizen.

He is told how to behave, and

work with others in elements of leadership. Knowledge is given on nuclear explosions and how to act if one occurs, how to care for wounded buddies, how to avert accidents and why, what Communism seeks to do, importance of the American fighting man and his place in history, and standards of conduct expected of each individual.

Each student is instructed on drills and ceremonies, including the objective of each drill and movement.

And he is taught that proficiency in parades, reviews, inspections and retreat ceremonies is a necessary part of military life.

Basic airmen and airmen third class in each Reese unit are being assigned to attend the development course which will be continued until they have completed the instruction and have secured passing grades.

## Enrollment In OTS Limited By Cutback

WASHINGTON (AFNS) — Applications from male airmen seeking direct entry into the Officer Training School during Fiscal Year 1966 will be accepted only from those applying for pilot, navigator and weather-officer training.

Reason for the limitation is a sharp reduction programmed in OTS output brought on by a cutback in overall officer strength.

Reese is one of eight undergraduate pilot training bases in Air Training Command.

"Number one cleared on."

The senior runway supervisory unit controller for T-37 aircraft clears another airplane on the runway, and it seems like another day has begun for Capt. Richard J. Scott. His day actually started over an hour and a half before. It started at 5 a.m. when he met with Base Operations personnel to establish the day's flying status. He had to check many things before flying could begin — primarily weather and winds.

When he arrived at the unit, Captain Scott conferred with maintenance personnel. Together they performed a check on all components to insure operational readiness.

Between 6 and 6:15 a.m. the captain briefs the junior controller, his assistant, and the two student recorders who identify and record aircraft and flying time.

"The men picked for the jobs, especially the senior controller, must meet the high requirements of intelligence and rationality and an equally high degree of coordination and motor skill. Because of his obvious need for familiarity with the aircraft and training, the controller is an instructor pilot. This enables him to get the maximum out of the training program through as many patterns as possible, within the limits of safety," Captain Scott explained.

The jobs of the senior controller are many. He must insure the safety of the patterns by keeping the pilots and students informed on weather conditions, see that accepted safety directives are followed, and set the proper spacing on take off and, more important, on touch down. With the help of everyone in the unit he watches for configuration of aircraft, and any situation which may become dangerous.

The senior controller, in his capacity as an instructor, is also responsible for grading students and qualifying them on their proficiency in the turn to final and landing.

"In the hands of the senior controller," Captain Scott said, "lies the safety of the training program. His ability to make multiple decisions when faced with many problems is the ability to save lives and equipment."

The greatest test comes during an emergency. With so many new pilots in the air, the controller must have complete control of the situation when the pilot in danger is upset and possibly unsure of himself.

"Because the controller is a pilot, the student can feel more at ease as he and the controller review emergency procedures. The controller must have the instinctive knowledge to act correctly and think about it or be scared later," comments the captain.

Captain Scott, assigned to the 3500th Pilot Training Squadron, is one of many instructor pilots performing controller duty.

## Suggestion Cash Offered By ATC

HQ. ATC (ATCPS) — Thirty-five hundred dollars in prize money will be awarded to the top idea men in ATC during the command's 1965 Military Suggestion Contest. Prizes to be awarded are: \$1,200 for first place — \$900 for second — \$750 for third — \$400 for fourth and \$250 for fifth.

To be eligible for the contest, suggestions must meet one of the following criteria:

a. Tangible savings of \$10,000 or more.

b. Intangible benefits of extraordinary value or general application.

"Extraordinary value," is "a new and unusual application of an old idea, or a new principle or invention; an improvement in health, welfare, morale, or daily operations, which is of outstanding usefulness or value; or a safety improvement which eliminates a hazard to life or faculty."

"General application" is that which is applicable to large numbers of personnel or large areas of operation within several bases

or is ATC-wide in scope or interest.

ATC will forward all suggestions which meet eligibility criteria for entry into the Annual Air Force-wide Military Suggestion Contest. Top award in the Air Force-wide contest is \$1,500.
