Tornado, Hail Cause Damage

Jurors Called For Court Week

Fifty-nine prospective jurors have been called for duty in the Young County District Court Monday at 9 a.m. Judge E. H. Griffin will preside during the week-long jury session of the court.

Those called for possible duty include:

From Newcastle: W. P. Burch, Jr., Mrs. Emma Cummings, Alvin Anderson, Mrs. Cora Weiss, and R. T. Wells, Jr.

From Olney: Jerry Christal, R. W. Rowe, L. P. Norman, H. L. Sprinkle, O. J. Ball, Will M. Hannis, Jr., Leroy Estes, G. R. Bishop, Mrs. Amon Ellis, J. E. Ford, J. Hall Stringer, and James Wilkinson.

From Loving: Mrs. W. T. Dickson and Nellie Ruth Sams.

From Jean: Mrs. J. O. Presley.

From Eliasville: Mrs. Marjorie Steadham and C. E. Mills.

From Graham: O. W. Hill, Jr., Virginia H. Or, L. M. Logan, J. B. Hoggard, Leonard Vaughn, T. M. Choate, L. G. Carnley, Mrs. R. B. Petty, Mary King, Sallie Eagan, W. E. Unkart, Dewey Manley, Betty Taylor, Frank M. Nunley, Verl W. Hart, Bobby W. King, M. Marshall, E. J. Sawyer, W. C. Howard, Mrs. O. B. Rose, H. B. Williams, R. E. L. Gowan, R. G. Hutto, Mrs. M. W. Guinn, Manning Vick, Leon Gilmore, William C. Birdwell, Mrs. Bobby L. Williams, Anna Mae Jones, E. E. Lovern, Mrs. K. D. Oates, Mrs. E. E. Remington, James F. Timms, Mrs. Alvey Fuller and L. S. Clifford.

County HD Council Meets

On April 4 the Home Demonstration Council met in the courthouse at Graham. The meeting was called to order by Mrs. H. G. Williams, council chairman. Prayer was given by Mrs. G. C. Glover. The Proffitt club led the recreation. Roll call was answered by nine clubs with a total of nine members present.

Routine business was taken care of by the council. Plans are being made for the 10 Home Demonstration clubs to set up education exhibits throughout the county. The exhibits will be prepared from educational programs presented during the year. The exhibits will be displayed in businesses for the public to see.

A report was given by the THDA delegates on the District THDA meeting in Breckenridge on March 28. Those serving as delegates were Mrs. H. G. Blanton, Mrs. Glover, and Mrs. L. G. Bills. Twenty one ladies attended the meeting from Young County.

SEA OF DEAD TURKEYS — Workmen are busy counting the dead turkeys killed by hail at a turkey farm about 10 miles east of

Stuteville and Billy Earl Gilbert. When the final count was made, about 4500 of the birds were lost.

Newcastle 4-H Wins Awards At District Meet

On March 26, the district 4-H method demonstrations were given in Wichita Falls at Midwestern University. The Newcastle Community 4-H Club had five teams represented.

Larry Williamson and Wayne Bullock presented an electric method demonstration in the senior division. They received second place and won the chance of presenting their demonstration at state in June at Texas A&M University.

Dale Bullock and Mike Williamson presented an electric method demonstration and received third place.

Dedo Wray presented an individual demonstration in Food and Nutrition. In the juniors division and won first place. Therefore winning district in the junior division.

Carla Graham and Jo Ann Williamson entered a demonstration in Food Presentation and fourth place.

Kent Graham and Mike Bullock gave a method demonstration on Forestry in the junior division and won second place.

Mrs. N. D. Graham, Mrs. A. G. Williamson, Mrs. Jimmy Wray and Mrs. John B. Bullock accompanied them to Wichita Falls.

Make For Busy Week 4-H Club Activities

Monday night, April 4, the Newcastle Community 4-H Club met in a regular meeting. The president, Wayne Bullock, called the meeting to order. The club gave the club motto and pledge. A poem was read by Carla Graham.

New business and old business was taken care of then the meeting was turned over to Bret Triplett, assistant county agent.

Railroad Body Issues Order

The Texas Railroad Commission ordered all oil and gas operators in Young County and part of Archer County Wednesday to halt by Sept. 1 the use of salt water surface pits for storage of oil field brines.

Included in the order was the portion of Archer County that comprises the Salt Creek watershed.

The commission said that seepage from the pits is causing pollution of fresh water in the area and "it threatens to become more widespread," and that pollution could be prevented by eliminating the pits.

The commission also ordered operators to remove all water from the pits and fill them.

If this is not completed by Sept. 1, the commission said, the operators' pipelines will be severed.

Triplett introduced David Hancock, who is with the Parks and Wildlife Association. He gave information on how the boys and girls could get quail and fish as 4-H projects. A date was set to examine the habitat for quail.

The Graham High School Club and their adult leaders visited this meeting. We had a very interesting and informative meeting. There were sixty five present.

At the close of the meeting each club presented Triplett with a going away gift since he will be leaving our county and going to Archer Co.

Refreshments were served and the meeting adjourned.

(Continued on back page)

Burglaries Solved, Man Arrested

Four recent area burglaries were solved late last week by G. G. Dunaway, deputy sheriff. One man was arrested and charged with two of the burglaries while no charges were made in the others.

Charged in connection with the burglaries of the Pete Davidson and Gene Lowe home located southeast of Olney was O. W. Bullock of Newcastle.

According to Dunaway the items stolen were returned in the other two cases.

Three small tornado funnels damaged three separate areas north and northwest of Olney while a destructive hail caused thousands of dollars of damage in the area to the east and northeast of the city.

The storm, accompanied by black unsettled clouds, high winds, rain and hail moved into the area Sunday afternoon.

To add to the confusion there were four fires and the whistle blew for each of them. The tornado warning whistle was blown when one of the tornado funnels was sighted on radar about 6:30 p.m.

The heaviest damage was at the Dave Harris residence just north of the city. Here, a funnel cloud lifted his garage about 25 feet in the air and then exploded it about 50 feet to the west of its original location.

A car, boat and other objects stored in the garage were not damaged or even moved as the garage was jerked out of the ground. Harris heard the wind coming and came out into a hall of a barn he is building west of the garage in time to see the wind pick up the garage and begin moving it toward him. He and his son, David, who was also in the barn laid down on the west side of the barn. The funnel struck about 6:30.

About the same time near Lake Olney two funnels dipped down. One took a portion of a roof from a storage shed at the lake and the other twisted off a high line pole about three-quarters of a mile east and south of the lake.

Hundreds of acres of wheat was destroyed by the hail and high winds east and northeast of Olney. No exact total of the lost acres has been made but it will mount up to several hundred as hail ranging in size from peas to baseball fell throughout that area.

One major loss was caused by the hail was over 4500 young turkeys, owned by Clyde Stuteville and Billy Earl Gilbert, were killed by the falling particles. A spokesman at the farm located about 10 miles east of Olney, said it hailed in the area for 30 minutes. Some 22,000 birds are being grown at the farm.

Stuteville said as he was going out to the farm after the hail, the fields were completely covered with hail. The area around the Campbell ranch located on the Shearer Road was covered with about six inches of hail.

Extensive damage was done to farm homes and barns east of town, as the hail moved east. Only light hail fell in Olney.

Damage in town was minor. The east door of the First National Bank was blown open and the glass broken out. Pieces of plywood at a new home under construction were scattered over a wide area by the wind

Every Thing

Fast recovery from illness often depends on how quickly your prescribed medicine can be made available. That is why a prescription is always a "rush order" here.

Your medicine is prepared in a matter of minutes thus enabling you to obtain its benefits sooner. Time waits for no man—and when you are ill, it can mean every thing.

GRASS WATERWAYS — The above photo shows a waterway after establishment and sodding to Coastal Bermudagrass on the W. T. Creel farm, north of Proffitt.

Grass Waterways Make Runoff Water Behave

No matter how many soil conservation practices you have on your farm, heavy rainstorms often bring more than your land can absorb. When this happens, the surplus water runs off with considerable force and causes serious erosion.

Controlling runoff water from cropland is a major problem on most farms. Terraces collect water from a large area and concentrate it in a small area where the erosion force is multiplied many times.

In many cases there are no waterways already established to grass on the farm. It can become necessary to locate the waterways and establish a grass cover before terraces are constructed.

Like other soil and water conservation measures, grassed waterways must be properly designed if they are to be successful. They must have ample capacity to handle peak runoff water to prevent damage to waterways or surrounding land.

The best locations for waterways are in the natural watercourses or depressions in the

field. Many times these depressions can easily be made into a good waterway with little or no shaping before grass is planted or sodded. Natural watercourses which are badly gullied must be filled and shaped to provide the desired capacity to confine the water and remove it from the cropland at a safe velocity.

The size of the waterway depends on the number of acres draining into it and the kind

of vegetation used. Four inches of water falling on a 60 acre field is the same as 20 feet falling on one acre. As an example, a waterway of one acre may take the runoff from a 60 acre field.

Two or more small waterways serving the same acreage have an advantage over one large waterway. They take about the same land area but will be less expensive to shape. In many cases by replacing the one large waterway with two or three small ones, a parallel terrace system can be installed.

King Ranch bluestem and bermudagrass are two grasses commonly used in this area to provide a cover in waterways. King Ranch bluestem is a bunchgrass that is more easily washed out than Bermudagrass and slower to recover from erosion. Its use should be confined to gentle slopes and slowed velocities. Coastal or common Bermudagrass forms a dense turf that is highly resistant to erosion.

Grass waterways will pay off quickly if you will only put them to work. In addition to controlling soil erosion, they can easily produce additional grazing or several tons of hay per acre as an additional bonus when properly managed.

Maintenance is a very important part of waterway management. An inspection after each heavy rain and needed repairs made as soon as possible will often save an expensive reshaping and revegetating job.

Automatic Data In Use By IRS

The automatic data processing of 1040 and 1040A returns for 1965 started on January 1, 1966 in the Internal Revenue Services Southwest Region, according to Ellis Campbell, Jr., District Director for IRS in northern Texas.

Campbell says the percentage of errors can be reduced if all taxpayers will see to it they file accurate and complete returns.

Be sure that you report your Social Security number correctly. It should be compared with your Social Security Account Card. Sometimes it is easy to transpose figures, thereby causing errors.

All taxpayers should read carefully the instructions in the returns package mailed to them and mathematical computations should be checked for accuracy.

A final check should always be made to assure that the re-

Automatic Data Processing of tax returns that accurate information be introduced into the system.

turn is properly signed. If a joint return is filed, both signatures must be shown. All data in the return must be legible.

Mrs. Olga (Bullock) Mote from San Diego, Calif., spent the Easter holidays visiting in the home of her parents Mr. and Mrs. Bob Bullock. Mr. and Mrs. Roy Mote and other relatives. While here she attended the funeral service in Mineral Wells of Miss Emily Thompson of Fort Worth who passed away in Houston. Emily will be remembered as a student in the New Castle School.

Mr. and Mrs. A. G. Williamson and Mr. and Mrs. John R. Bullock attended an adult leaders meeting at the courthouse Monday night.

"Aunt Hattie" Hill Sees Five Generations In Newcastle

By Barbara N. Ledbetter

"Aunt Hattie" Hill came to Newcastle when the coal mines were in operations and she has lived to see her great-great-grandchildren all within the short span of one-half century. To her the span of time since her arrival in 1913 sometimes seems like "only yesterday." Her vivid recollections of many, many events of the past makes her to know it has been a long, long time and "much water has passed under the bridge."

Hattie Belle Roman was born in 1889 in Wise county. Her parents were Warren Morgan "Morg" and Cynthia Catherine (Hedges) Roman. She and a sister Carrie were the only native Texans out of a family of 9 children; others having been born in Nashville, Tennessee long before the long trip to Wise County, Texas.

"Aunt" has been a sobriquet as long as she can remember. All the hundreds of kinfolk and dozens of neighborhood kids (including this writer) always called her "Aunt Hattie." It was used lovingly in conversation or yelled from the creekbottoms. She well remembers both, and in doing so, laughs and reminiscences.

When Hattie came to Young county, she had two small children, Homer L. and Vera Beatrice. Her little family settled in a little house, a typical miner's house, located in Mining Camp and then they moved to their present home in west Newcastle and Aunt Hattie lives there today. Her husband passed away in 1963.

Aunt Hattie's parents were miners and her husband came to the boomtown as a miner. Her father was engaged in the water business for many years. Newcastle's recent water problem was only minor compared to the water situation in the early days of the town. Underground water was located in east and north of the town, and water was sold by the gallon, or barrel. Families came with buckets, barrels, pans, jugs, and anything available to purchase water for family use. Water sold for 50c per barrel, and sometimes went as high as 1.00 per barrel. Water, at this price, was surely conserved and Hattie remembers many daily conversations starting and ending with "talk" about water. Just as salt was a precious commodity 100 years ago, water was a precious commodity in Newcastle at the beginning of the 20th century.

Since "Morg" was in the water business, the Roman family was cognizant of the shortage. This writer and Aunt Hattie used to sit and talk about how the folks had to bathe, wash cloths, and mop the floors with the same water, and then water the flowers with what was left. This practice would be and is foreign to Hattie's fifth generation descendants. In fact, the practice would be all but repugnant to modern day boys and girls.

Every new generation brought extra duties and care from Aunt Hattie and she never had time for a hobby unless it was classed as cooking or keeping house, which was her necessary hobby.

Husband's Family

Hattie Belle Roman married A. Luther Hill Aug. 26, 1906 who was the son of Mississippians Ruben George Ellis and Catherine (Wooten) Hill. The Wooten and Hill families were long-time pioneers of Lafayette County. Miss R. G. E. Hill had two brothers, Francis and Richard; several sisters, among them Mattie, Delilah, and Emma. Catherine (Wooten) Hill had three brothers, William, Frank and James; and sisters Susan, Mary and Betty.

Hattie's Family

There was an interesting genealogical fact about Aunt Hattie's ancestry. Her mother's maiden name was Hedges which had been shortened from the full English name Hedgecock/Hedgecock. The shortening of the surname from its full English spelling happened during the last half of the 19th century. This name brings to mind to

many scholars of Texas history of the Hedgecock War, an historical episode connected with early Texas history.

Hattie's family of sisters and brothers:

- Alice Sarah (m. Shira)
- Louisa (m. Veach)
- Katherine (m. White)
- Margaret (m. Hill)
- Cora Ann (m. Veach)
- Charlie (m. Swain)
- John Wesley (m. Weilman)
- Carrie (m. McKibben)

and Aunt Hattie, who was the youngest of the family.

One of her saddest experiences was the loss of her only son, Homer, while yet in the bloom of his life. Homer Luther Hill (1910-1937) married Alene Hardin of Michigan. Their only son, Jimmy Luther Hill Stoner, who lives in Michigan writes his grandmother often and keeps her little treasure chest full of photos of his 4 daughters.

Hattie's only daughter, Beatrice McMahon, lives in her house and cares for her in the autumn of her days. Beatrice is the mother of Vera Belle (m. Davis), Francis Irene (m. Plank), Billye Sybil (m. Wells) and mother and daughters were students of Newcastle schools.

"It is the children and grandchildren of Vera, Francis, and Billye that have been the extra dividend of a long life in Newcastle," says Aunt Hattie. She loves them everyone, and Hattie spends a lot of time talking about the activities of each of them. To have lived to see her own first generation and to see and have all the modern conveniences of this day has been an added happiness to her life.

Hattie has been a longtime Baptist. She and this writer have a private understanding about "red roses." She knows of what I say, and RED ROSES TO YOU, AUNT HATTIE, AND GOD BLESS YOU.

Archeologists Plan Zone Show, School In Olney

Zone II of the American Archeological Society will meet in Olney, April 23 and 24 to hear a number of archeological papers and to view artifacts collected in this zone.

The meeting for the zone, which encompasses the Olney area and stretches northward to Canada, is being hosted by the Young County Archeological Society. It will be held in the American Legion Building in Olney.

On Saturday, April 23, the Society will conduct a brief school with professors of archeology from several universities. About twelve papers on subjects of interest will be presented during the school.

The artifacts show, in conjunction with the school, will be held on April 24. All Indian artifacts will be welcomed at the show and many items of interest will be on display.

Mrs. Cornell Daniels, secretary of the Young County Society, commented, "Anyone who has artifacts of any type is urged to mount them on a board or in a case and bring them. The exhibits should be at the American Legion building by 9 a.m. on the 23rd."

The Coast Guard's International Ice Patrol is 52 years old this year. They have a total of 10 icebreakers.

Art, Hobby Show Set April 21

Whether you want to get a few ideas for a new hobby, or you want to evaluate the talent in the Olney area, or you merely want to see how people usefully utilize their spare time, the place to go is to the Amity Club's Art and Hobby Show, April 21.

The show will give Olney artists and craftsmen a chance to show the public their wares, and even to sell their products, if they would like. It will take place from 2 until 6 p. m. in the Olney Community Center. The late closing hour will enable Olney business men to stop by the show after work.

All types of hobbies will be on exhibit. Old fashioned hobbies, such as quilting, embroidering, tatting, knitting and sewing will be on view.

Big projects, such as refinished furniture and large items which have been decorated, will be of interest to the men, along with hobbies such as lapidary work, leather tooling and hand carving.

Paintings, of course, will be shown by many local artists, and sketches, pastels, and various types of graphics will be on display.

Some of the newest hobbies will be seen at the show. Decoupage, batik, rug hooking and crewel embroidery will be on view.

The show will offer something of interest to everyone and will be of great benefit for people who have too much leisure time on their hands.

"In this age of leisure," said Mrs. G. L. Hunt, Amity Club president, "people have turned to doing things with their hands and their talents. It is one way to satisfy an urge to create. Our show will demonstrate how talented and how ingenious people in the Olney area can be."

The show is open to the public and the admission is free. It is a silver tea, with donations appreciated, and the club will use all proceeds to further their several civic projects.

Approximately 300 landings on foreign shores have been made by Marines since the Corps was established in 1775.

District P-TA Meeting Planned

P-TA members in the Newcastle area are urged to attend the 13th annual conference of the 13th District of Texas Congress of Parents and Teachers Association to be held April 21-22 at Hirschi High School in Wichita Falls.

"Increasing Educational Opportunities" will be the theme of the conference and will be presented in a panel discussion. Mrs. Jean Harris of Aquaz Dulce, second vice-president, and Mrs. S. L. Canterbury, Jr., of Kilgore, directed by Mrs. Mary L. Walbe the state representatives at the conference.

Mrs. E. E. Wood, district president, said that all P-TA members and interested persons are welcome at the conference.

Registration will begin at 8:30 a.m., April 22 at the Lamm Baptist Church. The panel discussion will be followed by a musical program given by the Zandy Junior High School choir, directed by Mrs. Mary L. Wallace.

A banquet at 7 p.m. at Hirschi, will honor all life P-TA memberships. The ACE Chorus, under the direction of Miss Marie Hill, music teacher at Crockett School, will present the musical program.

Mrs. W. J. Danforth, past state president of the Texas Congress and a nominee for National Vice President from Region VI, will bring the key note address at the banquet.

Banquet and luncheon reservations should be mailed to Mrs. Elwood Johnston, Wichita Falls, by April 18. For those who wish to pre-register, Mrs. W. T. Zimmerman, 1110 E. Sycamore St., Wichita Falls, will accept registration fees.

TAX MAN SAM SEZ:

The Internal Revenue Service warns that no matter who fills out your federal income tax return, you alone are responsible under law for all entries and supporting documents. Protect yourself against unscrupulous or irresponsible practitioners — and against well meaning but poorly informed friends.

Following the purchase of Alaska by the U. S. from Russia in 1867, the first government vessel into the territory was the Revenue-Marine (forerunner of the Coast Guard) cutter Lincoln.

Crossing Brazos River Was Problem In Past

By D. D. Cusenbary
In the early days of Young County, crossing the Brazos River was often a problem. We are told the County contains 400 miles of Brazos River shore line.

Perhaps Young County can boast of more winding and twisting of the River than any other County it runs through, and it knew about the "Twist" long before the girls and boys thought of it.

In the eighties and nineties and early 1900's the Brazos River some times would be unfortable for as long as two or three weeks, and the choice would be, wait until the river was fordable, or swim the river which was dangerous.

Fording the river was treacherous on account of the quick sand at some of the crossings, and one crossing the river would not dare let the team stop. If the team had traveled a long distance they were usually thirsty and would want to stop in midstream to drink.

When a team would come to a stop the wagon or buggy would begin to sink in the quick sand, and an experienced driver would appear to the team to be cruel as he used his whip in a most persuasive way to urge them on.

In the early eighties J. W. Casey founder of the little village of Caseyville which was located about one and one-half mile west of Bunker, and on the East side of the Brazos River, and G. L. Aynesworth petitioned the Commissioners Court on May 29, 1882 for a license to operate a ferry across the Brazos near Caseyville, which was granted. This was good news to the citizens residing in the south part of the County.

They made bond in the amount of \$1,000.00 J. N. White and E. D. Glover were sureties on the bond. The fees were to be:

For footman	25c
For horseman	25c
For one horse	75c
For two horse team	\$1.00
For four horse team	\$1.50

For large teams (or outfits) for each additional span, yoke or wagon 50c

1st class —
Horses, mules and beef cattle per head 20c
Hogs, sheep and goats .05c

2nd class —
Stock horses, cattle and mules 10c
Hogs, sheep and goats 2 1/2c

On May 16, 1883 the license was renewed for another year. Then on May 12, 1884 the license was issued to J. N. Bellomy and was renewed each year up to and including May 9, 1893.

On May 9, 1893 the citizens of the County received the good news that the Commissioner's Court had entered into a contract with the Chicago Bridge and Iron Company, of Chicago, Illinois, for the building of three bridges across the Brazos river.

One was to be built at the "Goose Neck crossing" later known as the Bunker Bridge at a cost of \$17,444.00.

Another to be built at the "McCan Crossing" known as the McCan Bridge, at a cost of \$11,750.00.

The third bridge to be built, "below the mouth of Whiskey Creek" later known as the Newcastle Bridge, at a cost of \$13,307.42.

The Commissioners Court consisted of J. N. Timmons, County Judge, F. Herron, Commissioner of Precinct No. 1.

A. J. Baker, Commissioner Precinct No. 2.

H. D. Williams, Commissioner Precinct No. 3.

J. W. Colston, Commissioner Precinct No. 4.

Later a bridge was built across the Brazos River at the "Reynolds Crossing" now known as the Padgett Bridge.

One of the most peculiar and fortunate incidents happened at the Bunker Bridge.

Charley Burton living in Graham during the boom days was approaching the Bunker Bridge just as the North span fell in. The end of the span tilted up and hit the fore wheels of his

Mrs. Harrison Is Buried In Graham

Mrs. Willie M. Harrison, 83, a resident of Graham since 1910, died Friday morning in a Graham hospital.

The widow of the late Walter B. Harrison, she was born July 17, 1882 in Crawford, Tex., and had lived in Loving, Tex. before moving to Graham. She was a member of the First Methodist Church.

Services were held at 4 p.m. Saturday from First Methodist Church with Dr. D. L. McCree, pastor, officiating.

Burial was in Oak Grove Cemetery under the direction of Morrison Funeral Home.

Survivors include two daughters, Mrs. Eula B. Nehls of of Marshall, Tex. and Mrs. Brany Cooper of Graham, and two grandchildren.

Mrs. Glenn (Marcheta) Denny

Mrs. Denny Makes Formal Announcement

I am a candidate for the office of County Treasurer of Young County, Texas, subject to the Democratic Primary Election to be held on May 7, 1966. I want to take this opportunity to respectfully solicit your vote and influence in my campaign for such office.

I reside in Graham, Texas, at 1318 Corto, and my husband, Glenn Denny, is associated with his father, Ross Denny, as the whole sale agent for the Mobil Oil Company and as the operator of a service station in Graham. We have three boys, Steve 19 years of age who is now a student at the University of Texas, Phil is 16 years of age and is a Junior in Graham High School, and Mark is nine years of age and attends Graham Shawnee School.

I was born and reared in Young County and my father and mother, Mr. and Mrs. Hugh Casey, are long time residents of this area. I graduated from the Graham Public School System and attended John Tarleton University at Stephenville, Texas prior to my marriage.

I feel that I am qualified to fill the office which I seek as I have worked outside the home for a number of years. I did secretarial and stenographic work in the County Judge's office here in Graham. I served as a Deputy County Clerk here in Young County, and have worked as a bookkeeper and secretary at the Graham National Bank and for the past few years have worked in the office of the Graham Livestock Auction. I assure you that if I am elected I will give my full time to the County Treasurer's office and will do my very best to make an efficient as well as a grateful and a courteous public official.

I will deeply appreciate any assistance you can give me in my efforts to be the next County Treasurer of Young County, Texas.

Mrs. Glenn (Marcheta) Denny

Mr. and Mrs. Roy Smith and children of Farmersville, visited here last weekend with her parents, Mr. and Mrs. L. R. Burt.

Saul Aronson, a former prominent businessmen of Newcastle, was here Monday meeting his many oldtime friends. Saul and his mother still live near Port Nechez and reports his mother is doing fine. Saul now travels for a company.

Visitors in the home of Mrs. M. E. DeLong Sunday were Mr. and Mrs. Delbert Grimes and Marsha Jo of Graham.

'17 Club Has Texas Day Study Program

Mrs. J. C. Larimore of True was hostess to the '17 Club this past month for its annual Texas Day program. Mrs. A. B. Larimore presided over the business session.

New officers elected for the next two years are as follows: Mrs. R. H. Helm, President. Mrs. H. J. Myers, Vice-president.

Mrs. George Quisenberry, Recording & Corresponding Secretary.

Mrs. A. B. Larimore, Treasurer.

Mrs. Ollie Garvey, Parliamentarian.

Mrs. T. J. Gardner, Critic.

Mrs. V. J. Kennedy, Press Reporter.

Mrs. J. H. Watson, Federation Counselor.

Mrs. H. J. Myers presented the study program. Mrs. J. C. Larimore discussed Texas Under Six Flags from 1797 to 1817.

Mrs. J. H. Watson told about progress of our State Universities, the first one being built in 1837 as the result of a bill being incorporated for education. Texas presently has five state universities, seventeen junior colleges and some forty-two state colleges.

Mrs. Myers gave a paper on Texas First Ladies whose history begins in 1846 and a never ending existence.

A delightful buffet supper was served by the hostess to all guests present and they were as follows: Mrs. V. J. Kennedy, J. H. Watson, A. B. Larimore, J. C. Chappell, H. T. Myers, Ollie Garvey, Gertrude Remington, Delbert St. John, and J. C. Larimore.

The next meeting will be held in the home of Mrs. R. H. Helm at 12:30, April 15.

Artists Invited To Enter Graham Show

sponsoring a Sidewalk Art Show in Graham Saturday, May 7, and issues a special invitation to all artists of the Newcastle area to display their work.

Paintings will be exhibited around the square, all pictures to be in place by 9:30 a.m. as judging will start at 10. Pictures will be classed in Junior and Adult categories. There is no entrance fee. Well known professional out-of-town artists will serve as judges.

For the Junior Division five New Master Acrylic paint sets will be awarded as prizes. For adults, there will be two cash awards, with ribbons for other paintings of special merit.

SOCIAL SECURITY REP. TO VISIT GRAHAM

A representative of the Social Security Administration will be in Graham in the Old Library of the Memorial Auditorium (use Cherry Street entrance) on Thursday, April 21, from 9:30 A. M. until noon. Persons interested are invited to meet with the representative to file a claim or to obtain information or assistance concerning Social Security.

If you are 65 or older, inquire about your rights now under Medicare. The place to inquire is at your social security office. The time is now. Delay may be costly.

Mr. and Mrs. Clyde Stanton and children of Lamesa, visited here last weekend with his mother, Mrs. Lila Stanton.

Lee Casop is on the sick list this week.

Robert's Flowerland

Elbert Baptists Plan Revival

Rev. Dudley E. Bragg, pastor of Bunavista Baptist Church in Borger, Tex., will head a week-long revival meeting in the Elbert Baptist Church. The revival will begin Sunday, April 17, and will continue through April 24.
 Rev. Bragg was born in Dallas, Tex., and graduated from Quanah High School. He was a high school classmate of Rev. Bill Ritchie of the Elbert church.
 Rev. Bragg attended Hardin-Simmons University in Abilene and received a BA degree in 1952. His BD degree was granted in 1958 from the Southwestern Baptist Theological Seminary in Fort Worth.
 Rev. Bragg is married to the former Bobby Wall of Quanah and they have three children: Robert, 12, Lynnetta, 8, and Todd, 5.
 Wilburn Johnson will be in charge of providing special music for the revival services, and special nights will be featured for each service.
 Morning services will be held through the week at 10 a.m., and evening services will begin at 7:30 p.m.
 The revival services are open to everyone, and the public is invited to attend.
 Rev. Bill Ritchie is pastor of the Elbert Baptist Church.

CARD OF THANKS

I am indeed thankful for all the many kindnesses shown by the people of this community and for all the good food brought to my home in the death and funeral service of our son-in-law, Clifton Hill. Everything done was deeply appreciated.
 Mrs. Mitt Harrell

Gatski, Mrs. Cora Lowe, V. W. Reger, Earnest Beckham.
 Mrs. Myrtle Neal, Mary Jones, Mrs. A. E. Klenk, Mrs. Jimmy Garrett, J. A. Boone, Helen Portwood, Shelia Atkinson, Leslie Atkinson, Michael Atkinson, Mrs. C. E. Sogee, Lee Stout, Mrs. Ivy Hodges, Dick Daily, Ben Kieschnick, and Roy J. Wood.

NEW ARRIVALS

(Hamilton Hospital Births)
 Mr. and Mrs. Joe A. Castro of Olney are the parents of a son, Ralph Marcelino, born April 10. He weighed six pounds twelve and a quarter ounces.
 Mr. and Mrs. Lee Roy Allen, Jr. of Olney are the parents of a son, Tommy Lee, born April 7. He weighed eight pounds and three quarter ounces.
 Mr. and Mrs. Thomas Lee Harris of Seymour are the parents of a son, Thomas Keith, born April 3. He weighed five pounds fourteen and a half ounces.

Hamilton Grows Wheat Demonstration Plots

By L. M. McCarroll, County Agent
 Wheat was grown on this field last year with the ground mold boarded in preparation for the seedbed.
 Hamilton has been well pleased with Caddo for the past two years with a majority of the acres planted to this variety for 1965-66. He likes Crockett, Kaw, and Tascosa and plants some Triumph each year Seed wheat of these varieties are usually for sale.
 Hamilton is presently serving as president of the Rolling Plains Wheat Growers Association. He has served for a number of years as a member of the Young County crops Sub-Committee.
 The public is invited to visit the Wheat variety demonstration plot at any time on the Hamilton Farm.
 Mr. and Mrs. B. R. Lindley and children, Carole and Bill, of Norman, Okla. were here for Easter with her mother, Mrs. R. H. Helm. They went to Graham for dinner in the home of another daughter, Col. and Mrs. Dan B. Orr and family. Other relatives present for the occasion were Mr. and Mrs. J. Mac Helm of Athens, Tex., Mr. and Mrs. J. W. Peel of Pilot Point, Tex., Miss Ruth Ann Joiner of San Jose, Calif., and Mr. and Mrs. Bob Lindley of Iowa Park.
 Young County wheat farmers are ever trying to economically increase production through cultural practices, crop rotation, fertilizers, new varieties, etc.
 Dwight Hamilton of Olney is very much interested in wheat and has been a successful grower for many years. He believes in a Beef Cattle Wheat Combination. Having tried both the Cow-Calf combination as well as the stocker or steer route, he favors the latter.
 Wheat varieties on the Hamilton Farm, near Elbert, include 1. Caddo 2. Super Improved Triumph 3. Improved Triumph 4. Tascosa 5. Crockett and Kaw. These are being grown side by side in a demonstration in cooperation with the Extension Service and the Texas Agricultural Experiment Station. There is one round with the drill of each variety, located on the highway, and clearly marked with signs.
 A soil test of this field indicates Nitrogen to be of the medium level, Phosphorus high (202 lbs. per acre) and Potassium, very high (1056 lbs. per A.) Top dressing was applied in February at the rate of 35 lbs. of actual N (45% Urea). This plot was seeded on September 22 at the rate of 45 pounds of seed to the acre. Heavy grazing was practiced until March 10.

Soil Conservation Area Aids Local Farmers

Soil and Water Conservation are self-governed state subdivisions which are established by the people through popular vote as set forth in House Bill No. 444, Acts of the Forty-seventh Legislature of Texas in 1941. The District serves as a medium through which many individuals, groups, organizations and agencies assist and encourage landowners to carry out soil and water conservation work.

The Upper West Fork Soil and Water Conservation District is composed of Young County, southeast portion of Archer County, south portion of Clay County, southwest portion of Montague County, west portion of Wise County and all of Jack County except small portion in southwest part of Jack County. Young County, Zone 1, contains 568,320 acres.

The Board of Supervisors of this District consists of the following men: George Cunniss, Chairman, Zone 5, Decatur; J. B. Bullard, Secretary-treasurer, Zone 4, Bridgeport; A. J. Thompson, Member, Zone 3, Bowie; Ellis Henderson, Vice-Chairman Zone 2, Jacksboro; and H. R. Easterling, Member Zone 1, Graham.

Soil and Water Conservation Districts assist landowners in planning, applying and maintaining soil and water conservation measures according to needs and capabilities of the land; assist in educational and informational and information activities to create understanding of the importance and necessity of the conservation of our natural resources, especially soil and water develop annual goals and outline plans for reaching these goals for soil and water conservation work in the District; assist in making economic studies in relation to land use; initiate and assist in developing watershed protection and flood prevention projects under Public Law 566, and initiate and assist in developing Great Plains Conservation Program contracts with landowners and operators. All contracts are supported by a basic conservation plan and are reviewed, signed and approved by District Supervisors prior to their certification for funds.

To help implement these programs of conservation operations in the nation's 3,000 conservation Districts, technical assistance is furnished by the Soil Conservation Service. Federal funds appropriated to the

Soil Conservation Service are used to furnish technical assistance to meet the growing obligations in District operations.

The Soil Conservation Service assists landowners through these Districts in planning and applying a soil and water conservation program designed to enable the farmer or rancher to use and treat his land according to its needs and capabilities. Conservation measures involved may be vegetative or mechanical, the farm and ranch plan generally involves a combination of the two.

Assistance is given farmers and ranchers participating in the cost-sharing provisions of the Great Plains Conservation Program and the Agricultural Conservation Program.

Standard soil always made in surveys in cooperation with the Texas Agricultural Experiment Station are used as the primary basis for recommendations made to farmers and in watershed protection planning.

Sedimentation surveys for public reservoirs are made in limited number of instances.

Assistance in watershed protection and flood prevention is available under conditions set up by Public Law 566 of the 84th Congress and the Flood Control Act of 1944. Works of improvement may include provisions for flood prevention, municipal and industrial water supply, stream flow regulation, fish and wildlife improvement and recreation, or multiple use of flood water structures.

Conditions under which assistance of Soil Conservation Service is given to individuals generally will be whether the farmer and rancher is: a cooperator with the Soil and Water Conservation District; a participant in cost-sharing under the Agricultural Conservation Program.

Information regarding applications for assistance which the Service renders through Soil Conservation Districts may be obtained from District Supervisors or from Soil Conservation Service personnel assisting the District, located at the Young County Court House.

Mr. and Mrs. John R. Bullock and children, Wayne, Dale, Mike Brenda and Gayle were among those from Newcastle attending the funeral of Emily Thompson in Mineral Wells Saturday.

Boat Light Usage Held Most Urgent

Austin - Authorities are coordinating facilities to properly inform boat operators on proper lighting in keeping with new water safety regulations.

They are eager to definitely pattern the lighting system after orthodox methods to avoid confusion and possible tragedy.

"Our purpose," said a spokesman for the Texas Park and Wildlife Department, "is to interpret rules for the benefit of the boat operators and to help to establish maximum safety results."

"If there should be a misunderstanding and confused use of equipment all safeguards will have been nullified. For example, under the accepted code a certain light in a certain place can mean only one thing. If some boater is misled in the darkness of night, disaster might follow."

The spokesman said he had particular reference to the smaller motor boats (classes A and I) with the bright white light at the rear of the boat, located above all other parts of the boat and designed to show all around the horizon or 360 degrees, and a combined lantern in the fore part and lower than the white light aft, showing green to left or starboard and red to port, each covering 112.5 degrees, and so focused to show the light from ahead to two points aft the beam on their respective.

Specific lighting regulations for Class 2 and 3 motorboats are:

"A bright white light in the fore part of the vessel as near the stem as practicable, so constructed as to show an unbroken light over an arc of the horizon of twenty (20) points of the compass (22.5 degrees), so fixed as to throw the light ten (10) points on each side of the vessel, namely from right ahead to two (2) points abaft the beam on either side.

"On the starboard side a

green light so constructed as to show an unbroken light over an arc of the horizon of ten (10) points of the compass (112.5 degrees), so fixed as to throw the light from right ahead to two (2) points abaft the beam on the starboard side. On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of ten (10) points of the compass (112.5 degrees), so fixed as to throw light from right ahead to two (2) points abaft the beam on the port side. The said side lights shall be fitted with in-board screens or sufficient length so set as to prevent these lights from being seen across the bow.

"Every white light prescribed shall be visible of a distance of at least two (2) miles and every colored light prescribed shall be visible at a distance of at least one (1) mile."

Mr. and Mrs. Darwin Jones of Denver, Colo., were Easter holiday visitors in Newcastle. Mrs. Jones will be remembered as the former Edna Tetmeyer.

Could This Be English?

Here's a typical conversation between two fishermen. Try this little "reading" test on one of your friends. See if he can read through it without stumbling.

When two fishermen meet:

- "Hiyamae?"
- "Lobuddy."
- "Binearlong?"
- "Cuplours."
- Ketchanenny?"
- "Goddafew."
- "Kindzthey?"
- "Bassencarp."
- "Ennysizetoom?"
- "Cuplapowns."
- "Hittinhard?"
- "Sordalite."
- "Wahchoozin?"
- "Gobbowurms."
- "Fishanonaboddum?"
- "Rydonaboddum."
- "Igoddago."
- "Stubad."
- "Seeyaroun."
- "Yeahtkideezy."
- "Guluk."

Career Day Planned For NHS Students

A complete schedule of careers will be discussed during Career Day at Olney High School April 19, according to Johnny Vaughn, school counselor. Joining in will be students from Newcastle and Archer City.

Vaughn said the day's activities begin with an assembly with the keynote address being given by F. Kelly Ezzell, base education officer at Sheppard Air Force Base.

Following the assembly students will go to various classes where special guest speakers will talk about their career field. The fields to be discussed and the speakers include:

Agriculture — Ralph Moser, vocational agriculture supervisor from Stephenville.

Air Force Academy — G. C. Morlan, Academy Information Officer from Denton.

Athletics — Joe Golding, Wichita Falls public schools.

Beautician — Jack Werden, Wichita Falls.

Business Administration — Joe Pullis, North Texas State University, Denton.

College Preparation — Mrs. Carolee Hester, Midwestern University, Wichita Falls.

CPA — Don Lassiter, Olney.

Drafting — Mark DeVoe, Aero Commander, Olney.

Engineering, Bill Barnhouse, Aero Commander, Olney.

Home Economics — Mrs. Thelma Wirges, Wichita Falls.

Garment Work — Dave Harris,

Olney Manufacturing Co., Olney.
Highway Patrol — R. W. Briscoe, Department of Public Safety, Wichita Falls.

Librarian — Dr. Sarah Kennerly, North Texas State University, Denton.

Mechanics — R. E. Wesley, Jr., Olney.

Music — Floyd Graham, North Texas State University, Denton.

Nursing — Mrs. S. M. Lewis, Hamilton Hospital School of Nursing, Olney.

Physical and Speech Therapy — Mrs. Betty Wages, North Texas Rehabilitation Center, Wichita Falls.

Veterinarian — Dr. Arch Andrews, Archer City.

Welding — Harry Sprinkle, Olney.

Pemberton Rites Held Saturday

John Wesley Pemberton, 72, a retired water well driller, died at 11:30 p.m. Thursday in a Graham hospital after an apparent heart attack.

Born June 17, 1893, Pemberton came to Graham in 1948 from Bryson, Tex.

Services were held at 2 p.m. Saturday from Morrison Funeral Home with Rev. W. L. Shires of the Church of God officiating.

Burial was in Pioneer Cemetery.

Survivors include three brothers, Gordon of Arkansas, Ernest of Truth or Consequences, N.M., and Robert of Burkburnett, Tex., and a sister, Mrs. Minnie Corrican of Washington.

Rites Held For Emily Thompson

Word was received here this week that Miss Emily Thompson, a former student at Newcastle school and well known in Newcastle, passed away in Fort Worth. Her funeral was in Mineral Wells on April 7.

Miss Thompson is survived by her step-mother, Mrs. Cara Bullock Thompson of Graham and a half-brother, Joe M. Thompson.

Tucker Rites Held In Graham

A. R. Tucker, 50 died Friday in a Graham hospital of an apparent heart attack. He was a welder for Sinclair Pipeline Co. Born Feb. 1, 1916 in Wortham, Tex., he came to Graham in 1960 from Bowie. He married Juanitz Price in 1940 in Corsicana. He was a member of First Baptist Church and Wortham Masonic Lodge.

Services were held at 2 p.m. Saturday from First Baptist Church under direction of Morrison Funeral Home with Rev. Hubert Foust, pastor, officiating. Graveside services were at 2 p.m. at the Wortham Cemetery under direction of Walker Funeral Home.

Survivors include his widow; two daughters, Sandra Ann and Glenda, both of the home; his mother, Mrs. Minnie Ruth Tucker of Austin; five brothers, Dewey of Gainesville, M. K. and Billy Frank, both of Austin, Earl of Rogers, Ark., and R. L. of Fort Worth.

Mrs. O. H. McKibben of Lake Johnson, Tex., underwent major surgery at a Freeport hospital Wednesday of last week. The McKibben family were longtime residents of Newcastle and her many friends here will be glad to learn that she is doing fine.

Mrs. Jerden Davis entered an Olney hospital last Thursday afternoon as a medical patient. Rev. Davis reports that she is doing fine.

4-H . . .

(Continued from page One)

Tuesday, April 5, the subject matter leader in electricity, Mrs. A. G. Williamson arranged a tour through the Texas Electric Power plant. The group met at the gate entrance of the plant at 5:30. Mr. Jim Kuykendall, the plant supervisor, Mr. Luther Dube and Mr. Williamson took the club and adult leaders in three groups. Slides were shown of other plants similar to this plant and the territory the Graham plant supplies electricity. Then the guides showed the plant from top to bottom explaining each function and how the electricity is made. It was an informative and educational tour.

After the tour the group went to Firemans park and enjoyed a picnic supper.

Those attending were Wayne Bullock, Larry Williamson, Kent Graham, Dale Bullock, Randal Edmondson, Mike Williamson, Cynthia Edmondson, Mike Bullock, Carla Graham, Jo Ann Williamson, Brenda Bullock, Gayle Bullock, Jerry Williamson, Debbie Edmondson, Guilda Reynolds and Carol Key. Adults taking the children were Mr. and Mrs. A. G. Williamson, Mr. and Mrs. DeWitt Graham, Mr. and Mrs. John R. Bullock.

Wednesday, April 6, the club and leaders met at the home of Mr. and Mrs. A. G. Williamson. David Hancock, Parks and Wildlife worker, and Bret Triplett went with the group to tour the wildlife habitat to see if the boys and girls could qualify to receive quail as a club project. Places were visited of Kent

Graham, Wayne Bullock, Dale Bullock, Larry Williamson and Mike Williamson.

Hancock gave the group instruction on what they would need to do to improve the conditions for this project. A very interesting tour was enjoyed by the club and adults.

Aure Campbell and son, Olney, Texas has reported the sale of one registered horned Hereford bull to R. T. Wells, Jr., Newcastle, Tex.

Tornado . . .

(Continued from page One)

and at least one car was moved about a foot to the side.

Heavy rains fell in the Jean, Loving and Markley areas causing the road between Loving and Markley to close due to high water. Damaging hail also fell in these areas and on east as far as Jacksboro.

One local person returning to Olney from the east said that the Y this side of Jacksboro was white with hail.

Rainfall measured from a light sprinkle at the airport to more than three inches around Loving. Here in Olney the estimated rainfall was about a half-inch.
