FOR THE MEN--Bell System Clothes, Monarch Shirts, Neckwear, Hats, Etc.

If you will pay us a visit we can interest you.

YOURS FOR TRADE,

D. EGGER & SON

"HAVE IT FOR LESS"

HASKELL, TEXAS.

FIDDLERS' ATTENTION!

The Haskell Stet Fair committee has decided to have a fiddlers contest during the fair and request that all fiddlers who will take part in the contest notify the committee, or some member of it, personally or by letter within the next week or ten days. Competent judges will be appointed to pass on the playing, and a good cash prize will be awarded to the winner, and the proceeds after paying the prizes will go into the fair fund. On a former occasion there was some disorder caused by misguided persons who seemed to think that the contest was a free for all frolic, but no out need be deterred from taking part in or attending the contest this time as the committee has the positive assurance of the officers that proper order and decorum will be maintained.

S. W. Kerr, a prominent business man of Hurricane, Wis., says: "Your cough medicine, Hart's Honey and Horehound, is a good seller and seems to give excellent satisfaction." Hart's Honey and Horehound contains no opium or other stupefying drugs and is the best medicine in existence today for Croup and Whooping Cough, and the only safe one to give small children. 25c, 50c and \$1.00 bottles sold at Terrell's drug store.

EXPECTATIONS SURPASSED.

We learn through the management of the Tyler Commercial College of Tyler, Texas, that they have been very agreeably surprised at the enormous enrollment they have enjoyed during the month of September. More than 100 new students were added to their already large attendance. We also understand that their correspondence indicates even a larger enrollment this month than last. They are expecting to enroll more than 1200 students this year, which we understand, is more than double the number ever enrolled by any other southern commercial college. We are fortunate in having located so near

to us the most extensively patronized, the most widely known business and commercial college in the entire South, and one of the largest in the United States.

Wounds, Bruises and Burns.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on the same principle. It is an antiseptic, and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale at Terrell's drug store.

GIN NOT IN TRUST.

I have been informed that an impression has gone out among the people in some way that my gin has been sold to, or has joined the cotton seed oil trust. I wish to inform all who feel an interest in the matter that there is no foundation for any such report and that it is wholly untrue.

I here state emphatically that no corporation, firm or person other than myself owns a dollar's interest in my ginning plants either at Haskell or Rule.

I solicit your ginning patronage and promise you a square deal.

Respectfully,
W. T. McDANIEL.

39-4t

Torments of Tetter and Eczema Allayed.

The intense itching characteristic of eczema, tetter and like skin diseases is instantly allayed by applying Chamberlain's Salve and many severe cases have been permanently cured by its use. For sale at Terrell's drug

COMMERCIALISM IN PRAYER.

Unconsciously He Would It Up as He Would a Business Letter.

One middle-aged member of the First Congregational church of Buffalo has been steeped for a quarter of a century in the strenuous commerce of the Queen city. He believes in carrying business principles into all that he does, into religion as well as amusement.

On Wednesday evening he attended a Christian Endeavor meeting. His mind was still permeated with innumerable letters that he had written or received during the day. Most of them began somewhat after this fashion: "Gentlemen: Yours of the 5th inst. at hand. In reply we beg to state—"

"Sir: We regret delay in shipment of your order of recent date—"

Thinking of such things he was called upon for a prayer. He rambled on in the old-fashioned stereotyped style to such a length that some of the good Endeavorers who were impatient to get home began to think anything but Christian thoughts of him. Their impatience gave way to astonishment, however, says the New York Times, when, after appealing to the Lord to help the poor and oppressed, our friend concluded: "Thanking you for past favors and assuring you of our patronage in the future, we remain yours truly Amen."

Rev. Lorance of Abilene preached at the Presbyterian church Tuesday night.

Mrs. Ella Findly of Celina is visiting the family of Mr. A. C. Lewis.

Smuggling Chinese.

Customs officers and secret-service agents of the United States have learned that the Chinese who are being smuggled across the Niagara river from Canada are being brought into the country by an organized gang. The smugglers are said to have headquarters in several large cities of this country and Canada, including Montreal, Toronto, New York, Chicago, San Francisco and Boston. Smugglers at Boston, Chicago, San Francisco and New York find employment for the new comers, and also find witnesses, when necessary, to prove that the clients are in the United States legally and not contrary to law. The fee charged is \$200.

Talking at a Long Distance.

Eighteen miles is said to be the longest distance on record at which a man's voice has been heard. This occurred in the Grand canyon of the Colorado, where one man shouting the name "Bob" at one end, his voice was plainly heard at the other end, which is eighteen miles away. Dr. Young records that at Gibraltar the human voice has been heard at a distance of ten miles.

FLOUR, Big "M" FLOUR The Best on Earth.

ALL ABOARD. Many a well-meant, well planned attempt at bread making is wrecked on the shoals of poor flour. Good bread is not hard to make. Half the voyage is over when you get good flour. You can never reach the shore with poor flour. Big "M" Flour carries you to good bread without failure. Whiter, stronger, sharper flour cannot be made. It's a pretty poor cook that can't save money and delight the family with our flour.

OCCUPATION OF CUBA.

Americans To Occupy Cuba Indefinitely.

Washington, Oct. 1.—American troops are now moving toward Cuba. Mobilization of the force will be at Newport News, Va., for the most part, although a part of the first expeditionary force to Cuba will be sent from New York and Tampa, Fla.

Advises received at the departments of the military establishment of the Government today indicate that all is quiet in Cuba, and that the insurgents intend to lay down their arms. The probability is that United States forces in the island will be landed only as a precautionary measure, no trouble of a serious kind being anticipated; but, in accordance with instructions from President Roosevelt, hurried preparations are being made for the sending of an expeditionary force of the army to Cuba.

The first American troops will be landed at Havana next Saturday. Meantime the marines and bluejackets from the American fleet in Cuban waters will protect American interests and support Secretary Taft, the provisional Governor of Cuba, in the preservation of order and the protection of life and property.

How long intervention may continue it is impossible to foretell. The nature of the intervention and the preparations for it indicate a supervision of Cuban affairs on the part of the American Government for an indefinite period.

It will be a full week before the forces of the army can be landed in Cuba. The first detail of troops will leave New York on Wednesday aboard the army transport Sumner. They will arrive at Havana on Saturday afternoon next. It will probably be several days later before all the troops of the first expeditionary force of the army will be able to reach Cuba.

STORM LOSSES.

Victims Number Over a Hundred Great Property Losses.

Mobile, Alabama, October 1.—The number of casualties in the great storm is slowly increasing as messages are received from places heretofore inaccessible. The total of the known dead is seventy-nine, and a possibility of 102, by the reports which reached Mobile during the night and early today. Four bodies have been found at Coden, and it is estimated that twenty-three lives have been lost from the oyster fleet around Cedar Point.

This last estimate is not known to be accurate, and is probably somewhat exaggerated for the reason that it includes among the dead every man aboard a fishing boat who has not been heard of since the storm. It is known boats on which these men were have been driven ashore and it is entirely possible that some of the crews managed to reach the shore. It does not seem likely that the dead roll will amount in this vicinity to more than 125.

It is now believed that the loss to the lumber interests alone by the storm will aggregate \$10,000,000. It is almost impossible for any person who has not been through the storm-swept district to comprehend the extent to which the country has been swept of pine lumber. Tens of thousands of trees of the finest quality have been blown down from the points on the shore to places 100 miles in the interior.

New Orleans: Six more deaths were added to the list of drowned in the Mississippi Sound region. Captain George Culver, his wife and four boatmen, who were on an island in Grand Bay when the hurricane began, have been given up for lost. Every building on this island was washed into the bay, leaving the place almost completely barren. Search has been pressed for three days without finding any trace of Captain Culver or his employees.

Peanut Planters' Profit.

Terrell: Rev. C. J. Washmon, a farmer living south of Terrell a few miles reports that about 1,000 bushels of peanuts have been grown in that community this season. The yield is averaging forty bushels per acre and is selling readily at 75c per bushel. Threshing will begin next week. Recent rains have damaged the peanut hay, which is considered fine for stock.

Pension Flood Tide Past.

Washington: The net decrease in the pension roll of the United States for the fiscal year ending June 30 amounted to 12,470, the largest decrease ever known in the history of the country. These facts are brought out in the annual report of Commissioner of Pensions Warner. In the report the Commissioner expresses the opinion that there will be a still more marked decrease during the present year.

BAILEY TO THE DEFENSE.

Senator Bailey Tells His Hearers His Side of the Case.

Greenville, Tex., Oct. 2.—Senator Bailey delivered here yesterday afternoon a speech intended as a formal and explicit reply to all the charges which have been made against him in various quarters. At Gainesville last Saturday he made a short address upon the same subject, but, as he stated then, that address was intended merely as a notification to his friends and neighbors that an assault had been made upon his reputation. He said then that he would not insult the intelligence of his hearers by making a reply to the charges. "That reply," he continued, "I shall reserve for other times and places."

Yesterday he took up the charges one by one and made an emphatic denial of each. He quoted from the records of the Legislature and from various other sources of information to substantiate his statements. After the speech a meeting was held, at which resolutions were adopted expressing confidence in him.

Senator Bailey spoke in the court room of the Hunt County court house. The place was packed. Among those present were many ladies. Standing at the Judge's bench, he held the attention of all for about two hours. He was introduced by State Senator B. F. Looney, who took advantage of the occasion to give assurances of his loyalty and to denounce those who were criticizing the Senator.

TO SUE THE RAILROADS.

Attorney General to Get Busy Against Violators.

Washington: Attorney General Moody has directed that suits be brought against a large number of railroad companies to recover penalties for violation of the safety appliance law through failure to keep their equipment in the proper condition. The total number of violations is 181. Among the suits filed are the following: Fort Worth and Denver Railway Company, International and Great Northern Railway Company, western division of Texas, Kansas City Southern Railway Company district of Kansas, St. Louis, Iron Mountain and Southern Railway Company, eastern district of Arkansas, St. Louis, Iron Mountain and Southern Railway Company, western division of Arkansas.

Fire at Caldwell.

Caldwell: The most disastrous fire that has ever occurred here swept this town Monday morning, the losses being as follows: Clyde Clark's blacksmith shop, loss \$1,800; John Houston's residence, loss \$1,500; Presbyterian Church, loss \$1,800; J. F. Cobb's residence, loss \$500; Neal Cromartie's residence, loss \$3,000; J. J. Marich's residence and photograph gallery, loss \$3,500; Jesse Harris' undertaking department and old stable, with three cars out in it, loss \$6,000.

The first train over the recently completed Orient road was run into Arapahoe, I. T., during the last week. Train service will be established at once with Kansas City.

Crane-Bailey Debate at Houston.

Dallas: General M. M. Crane, of this city, who has accepted the invitation to meet J. W. Bailey in debate in Houston states that he will not be able to make more than two or three speeches in the premises owing to his professional engagements. It is reported that General Crane and Senator Bailey may be asked to debate in Dallas some time this month. Both men may be given an invitation in the near future.

Cotton Jumps 60 Points.

New Orleans: Because of the reports of another tropical hurricane as nearing Yucatan cotton jumped nearly 60 points or \$3 a bale Monday. Amidst wild excitement about the ring, a whirlwind advance was witnessed and once the professionals sustained severe loss. The opening was exactly 30 points higher for December and within an hour after trading had begun that month had advanced 41 points to 9.35c.

The business men have been joined by the city council in a movement to secure a commission form of government for Waco. The matter is to be presented to the people, and will be an interesting contest.

The monthly statement of the public debt shows that at the close of business Sept. 29, 1906, the debt less cash in the treasury amounted to \$954,246,193, which is a decrease for the month of \$16,122,199.

During the excitement attendant upon the circus at Fort Worth Saturday, the city prisoners made their escape from the unguarded cataboe.

Mineral Wells business men and innkeepers are carrying on a campaign advertising that place as a winter resort.

A project is on foot among Eastern capitalists looking to the formation of a bank deposit insurance company which will insure depositors against loss through failure or mismanagement.

MOBILE STORM STRICKEN.

LOSS IS INESTIMABLE. Life and Property a Sacrifice to Wind's Fury.

Bay Minette, Ala., Sept. 29.—At least fifty lives are lost and \$3,000,000 damage has resulted from a tornado that struck Mobile Wednesday night and devastated the business section of that city.

Five river boats were sunk at their wharves, the business section, a quarter mile wide and extending the whole length of the city, is inundated.

The city Thursday night is in darkness. Military guards the streets, with orders to shoot to kill.

Pillaging is reported in business sections and one negro was caught and beaten nearly to death.

Many buildings were razed, and many river steamers turned turtle but the crews escaped.

The revenue cutter Alert is reported lost and many surrounding towns are devastated.

Mobile, via Meridian, Miss., Sept. 29, 3:20 p. m.—Mobile has been visited by one of the worst storms ever experienced by this city. While the velocity of the wind did not exceed that of 1893 it lasted longer and was much more destructive. A conservative estimate of the loss is made at \$3,000,000 and fully 5,000 houses have been affected in various ways. Every church in the city has also suffered, although Christ Church and St. Francis Street Baptist Church suffered more than any of the others. The damage to Christ Church is estimated at \$10,000; St. Francis Street Baptist Church at \$10,000.

Mobile's shipping suffered more than anything else. Many of her river boats now are beached or sunk, all complete wrecks. Her docks and those of private parties and corporations are fearfully torn up.

The revenue cutter Alert has gone down in Mobile River. She was rammed by some unknown vessel and sank immediately. Her crew is believed to have escaped.

The city was put under martial law at dark and no person allowed to enter the wholesale business district. The city authorities were quick to act therefore no disturbances of any kind resulted.

The loss of life, so far as known at present, is one negro baby killed by falling walls and two negro men drowned in the flood. The depth of the water in the wholesale business district, which includes the entire business section from Royal street to the river, was seven feet.

Words cannot fully describe the storm. During the hours between 6 p. m. Thursday and noon Friday trees fell, roofs crashed in by the hundreds. Through the streets, carried by a terrific wind, was hurled thousands of pieces of slate and tin roofing, corvices, shingles and in fact, all kinds of debris. The railroads have started wreckers out to clean up and repair their tracks. Many people were seriously injured by the flying slate and tin.

Well Known Newspaper Man Drowned. Corpus Christi: James S. Henderson, editor of the Crony, of this city, and formerly poet of the Texas Press Association, was drowned Thursday night while in bathing with a party of young ladies. Several of the party went beyond their depth and were unable to swim back. Whether right because he was unable to reach any of the ladies who could not swim or heart failure attacked him is not known, but before help could reach him, he was too near death to be reclaimed. One of the young ladies narrowly escaped and was rescued by a Mexican who threw a net to her.

Crane Would Meet Bailey.

Houston: Hon. H. F. Ring has received in response to the petition of citizens to Hon. M. M. Crane asking him to meet Senator Joe Bailey in joint debate, a favorable reply, but not to meet him Saturday night, on account of the insufficiency of the time to make proper preparation. It means, of course, that he is willing to meet him later, and that it is now up to Mr. Bailey to make good.

Sole Support of Mother.

Temple: Ernest Wilson, the young section hand who was so badly injured by being struck by a Missouri, Kansas and Texas passenger train several days ago, succumbed to his injuries. Post-mortem examination revealed that the man had received a blow on the back of the head that had fractured the skull and there was a deep wound extending into the brain. Deceased was the sole support of a widowed mother.

From the "Hog Centre."

Sherman: Grayson County swine breeders will have in the aggregate one of the largest displays of fine hogs at the State Fair they have ever shown. A gentleman who is to have a herd there says that there will be more than a hundred in all the Grayson County exhibits. Several exhibitors will also visit the Grayson County Fair at Denison, which precedes the State Fair and the San Antonio Fair, which follows it.

LOSS MOUNTS TO MILLIONS.

Tropical Storm Sweeps the Gulf Coast Country.

Pensacola, Fla., Sept. 28.—The worst sea storm and hurricane that the Gulf Coast has experienced since the village of Pensacola, on Santa Rosa Island, was swept away 170 years ago, began Wednesday night and is still raging. Every house in the city has suffered damage, and many roofs are blown off. Telegraph and telephone and electric light wires are in a tangle, the water front is strewn with wreckage for miles on either side of the city, and vessels are piled on the wharves, or where the wharves were, in utter ruin. Big iron steamers and many larger sailing ships are now lying high up in the city where the tide never has been known to reach before, and every wharf for miles around has been swept away or damaged beyond repair. It is reported that many lives between the navy yard have been lost, but no definite details can be obtained. Many of the houses in that section are under from 5 to 10 feet of water, and many women have been taken from the second story windows and carried to safety in boats. The electric power was shut off at 1 o'clock Thursday morning. At this hour the Western Union has men hard at work trying to clear wires, and this dispatch, with other telegraphic matter, is being carried to Flomaton, Ala., but the Western Union manager who makes the trip by train to ascertain the exact extent of damage done. It is feared that great havoc and loss of life will be shown when reports from the entire section along the coast can be gathered. The estimated damage is \$2,000,000.

Louisville, Ky.: The tropical hurricane which for the last forty-eight hours has been churning the waters of the Gulf of Mexico and doing much damage and far inland was yesterday evening whipping through Northern Alabama in a northeasterly direction at a velocity but slightly less than recorded in New Orleans during the day. Reports received by the Associated Press do not indicate any loss of life, but the damage to property is enormous in the territory touched by the storm.

All wire communication is seriously disarranged and in some instances resulted in cutting off cities completely. Mobile, Ala., has not been heard from in nearly twenty-four hours.

Three Killed on Wabash.

Danville, Ill.: Passenger train No. 8 of the Wabash road, running from Kansas City to Buffalo, N. Y., and known as the "Buffalo Mail," due here at 4:52 a. m., ran into an open switch west of Catlin, Ill., and crashed into a section of a freight train. All of the coaches except the diner were turned over and burned. Three persons are known to have been killed and several others are missing. Thirty-seven are injured.

Wholesale Food Condemnation.

Chicago: Two car loads of storage chicken and over ten car loads of meat were condemned by Chief Food Inspector Murray, also fifteen carcasses of diseased cattle and four calves. He notified the authorities at New York so that they can catch the shipment at its destination.

A prominent rice planter of Matagorda County, states that the rice crop this year will be one of the largest and best ever raised in the State. He says that two-thirds of the crop has already been cut and threshing will begin shortly.

A syndicate has been formed for the purpose of erecting a four-story modern hotel in the city of Mexico on the corner of the Paseo and Bucarell streets. Plans have been drawn for a structure that will cost about \$1,250,000.

Wednesday morning fire destroyed the general merchandise store of Smith & Watkins at Cornhill, a small town in Williamson County. Another building was destroyed. The loss is about \$10,000; insurance small.

Wichita Falls and Northwestern Railway Company has been chartered with a capital stock of \$20,000, for the purpose of building a railway from Wichita Falls to the line of Comanche County, Oklahoma, a distance of about twenty miles.

"Ten cents per pound for cotton" is the slogan of the Mississippi branch of the Southern Cotton Association, which convened in semi-annual session in Jackson, with an immense delegation last Wednesday.

W. T. Kennedy, father of Mayor Kennedy, of Denison, is dead. He was a noted pioneer, aged seventy-four years. He was born in Missouri, and this summer climbed Pike's Peak, Colorado. The Denver papers had much to say of the feat.

Henry Alexander, a negro, employed at the McCabe and Steen machine shop at Mexia, while handling a revolver, let it fall, when it exploded, striking him in the throat, the ball coming out at the back of his head. He lived but a short while.

EVENTS OF EVERYWHERE.

The fifty-fifth annual session of the grand encampment, Independent Order of Odd Fellows of Texas, will be held in Tyler Oct. 8-9.

Announcement is made of the death of La Tosca, a famous racing mare, at General Sanford's Hurricane farm at Amsterdam, N. Y.

The block elevator owned by C. H. Carleton, burned at Quanah a few nights since, containing about 1,000 bushels of grain. Loss about \$4,000, partially covered by insurance.

Railroad building on the Trinity and Brazos Valley Railroad north of Teague on the Dallas extension is now under headway. Day laborers are being offered \$2 per day.

There are several varieties of meamen, but the meanest is the one who changes his mind after promising to do a favor.

Charles G. Kline, an Evanston, Ill., coal merchant, using a shotgun as a weapon, mortally wounded his wife as she lay in bed. Then he placed the muzzle of the gun against his side and killed himself instantly.

While making up a bed, Mary Johnston, who lived in Corsicana, was fatally wounded by a pistol falling from the bed and one chamber exploding. She died in a few hours.

The Wichita Falls and Northwestern is being built by local capital, but it probable that it will connect with the Rock Island and form a direct line to Lawton. Work will commence on the line within sixty days.

There were 157 Louisiana State banks at the close of business September 4. Total resources and liabilities are \$89,197,254.18; deposits bearing interest over \$20,000,000 and those not bearing interest exceed \$30,000,000; capital stock paid in is nearly \$14,000,000.

It doesn't pay to cry over spilled milk, nor to crow over it, either.

To be as attractive and as pleasing as possible is a quite laudable ambition; and every woman, be she naturally plain or pretty, should make the most of such points of attractiveness as she possesses, cultivate each charm assiduously and by every legitimate means seek to enhance it.—Exchange.

It is astonishing, though, how far a good complexion will carry a girl. I verily believe that nine out of every ten men are more attracted by a really good complexion and a healthy color than by fine eyes or pretty hair, or even a good figure—which is another valuable asset for a girl to possess.—"Ambrosia" in The World.

Petitions are being circulated in all signatures of qualified voters and call upon the Commissioners' Court to order an election to determine whether or not intoxicating liquors may be sold in the county.

The Farmers' Union has begun the erection of a cotton warehouse just west of the Texas Central depot at Carbon. The size of the warehouse will be 100x112 feet.

"Ten cents per pound for cotton" is the slogan of the Mississippi branch of the Southern Cotton Association, which convened in semi-annual session in Jackson, with an immense delegation last Wednesday.

During the dinner hour at the Oxford Cafe at Muskogee, Nancy Meenan, aged 20, killed herself by drinking carbolic acid. The girl formerly lived in St. Louis.

It is announced that the Texas Fuller's Earth Company will within a few days begin the erection of a plant on the site of their deposits in Washington County, the initial cost of which will be in the neighborhood of \$20,000.

Announcement was made then an Eastern company will build a \$250,000 cotton mill, using 25,000 spindles and 600 employees, on a tract of land near Lawton, Okla. Work will begin at once.

Mart Barnett, a Dallas young man, while out hunting, crawled through a wire fence, and in doing so caught the trigger of his gun and was shot in the arm, from which he bled to death before aid could be rendered.

The Hopkins County Fruit and Truck Shippers' Association shipped from Sulphur Springs this season 47 cars of Irish potatoes, 12 cars of peaches; amount paid to growers, \$13,986.

The State Federation of Labor in its closing session flatly refused to endorse the nomination of Hearst for Governor of New York and a resolution congratulating him upon securing the nomination was speedily voted down.

New York Democrats Nominate the Journalist.

Buffalo, N. Y., Sept. 27, 2:25 a. m.—William Randolph Hearst alternately eulogized and vituperated in scathing terms upon the floor of the convention and was early this morning nominated for Governor on the first ballot by the Democrats of New York, after an all-night session.

The nomination came after a day spent in fruitless attempts by his opponents, and even some of his unpledged supporters, to find a stronger candidate. The Hearst men, however, captured the organization and put their man in, despite the fact of William Travers Jerome's threat to take the stump against him and despite the fact that Mr. Hearst was more bitterly assailed on the floor than any other successful candidate in the history of New York politics. The vote stood:

Hearst 309, Sulzer 124, Dix 17; necessary to choose 226.

The ticket: Governor—William R. Hearst. Lieutenant Governor—Lewis F. Schanter.

Secretary of State—John Whalen. Controller—Martin M. Glynn. Attorney General—W. S. Jackson. Treasurer—Julius Hauser. The convention adjourned at 2:20 a. m.

Jerome says that if the Republicans nominate a decent man for Governor he will go on the stump and plead for the defeat of Hearst.

JERKED TO JOLIET.

Stensland Trial Unusually Precipitous One.

Chicago, Ill., Sept. 27.—Paul O. Stensland, to whose self-confessed embezzlement of \$100,000 was due chiefly the collapse of the Milwaukee Avenue Bank, was given an indeterminate sentence in the penitentiary within three hours after his arrival in Chicago Wednesday from the East, and before another three hours had elapsed he had begun service of the sentence at Joliet. Stensland pleaded guilty on two indictments on the charge of embezzlement and the other violation of the State banking laws. A fine of \$125 was imposed on the latter charge which was based upon the acceptance of \$60 in deposits after the bank was insolvent. The sentences, which will operate concurrently, are from one to five and one to ten years, making the longest term the prisoner will be compelled to serve ten years.

New York Republican Nominees.

Saratoga, N. Y., Sept. 26.—Chas. E. Hughes was nominated for Governor by the Republican State Convention today by acclamation. The platform endorses the administration of President Roosevelt and Governor Higgins and deprecates mob violence. Lieutenant George Bruce was renominated. On motion one ballot was cast for renomination of John F. O'Brien for Secretary of State; Lewis for Comptroller; J. G. Wallenmeir for State Treasurer and H. A. Banalayne for State Engineer and Surveyor.

Want Cotton Pickers.

Georgetown: There never was such a demand for cotton pickers in Williamson County as at present. Practically there are 50,000 bales of cotton now open in the fields. The staple is the best ever grown here. A negro near Taylor picked 807 pounds in one day and it is common report for pickers to get 600 and 700 pounds. There is need for 2,000 pickers for the next thirty or forty days.

Frank Diggs, fifteen years old, and Miss Lucy Patton, thirteen years old, of Postum, Mo., eloped from that place and went to Tulsa, L. T., Saturday and were married.

George Bell, who had lived in Strawn twenty years, shot himself through the brain with a pistol and died instantly. He was 55 years old.

A score or more of bodies were discovered under the ruins of a house in San Francisco Monday, which had been destroyed during the earthquake.

Sowell's Body Found.

Van Horn: The remains of George O. Sowell, who has been missing for several days from his ranch forty miles north of here, were found by a searching party in high grass in a truck patch at his home Wednesday. Death was caused by his horse stepping into a prairie dog hole and falling. His saddle horse with saddle on was found in an adjoining range two days previously.

Frank Jordan, a negro dock worker 33 years of age, was killed at Galveston by being caught between two freight cars in the Southern Pacific yards.

Jim Jeffries, who retired from the prize ring eighteen months ago, it is said, is again ready to enter the fist arena.

Many of the big ranches in the Howard County, tributary to Big Springs, are being cut up into farms and are being purchased. The price of land is advancing.

The Policeman—Yes, He's On My Beat All Right, But He'll Have to Grow Some Before It Would Seem Right to Use the Stick.

ULTIMATUM EDITORS PROTESTING

ISSUED TO CUBANS BY TAFT AND BACON CAUSED A CHANGE. CALL LATEST RULING OF COMMERCE COMMISSION UNFAIR. RAILROAD ADS ARE BARRED

IN NAME OF ROOSEVELT

It Was, Unless Cubans Consented to Fair Arbitration, There Would Be Temporary Military Occupation.

Havana, Sept. 27.—The government party has abandoned its basic contention that it is impossible to treat for peace with armed rebels, and proposed to negotiate directly with a committee of its opponents. It is agreed to leave all points upon which understanding is not reached to the final arbitration of Secretaries Taft and Bacon.

Wednesday night Secretary Taft made the following statement for publication: "My impression is that we are much nearer a solution of the trouble tonight than we were last night."

It was announced also that the negotiations to be opened between the committees representing the opposing parties would be without reference to the terms previously proposed. The time and place for the first meeting is to be determined by Secretary Taft.

Roosevelt's Ultimatum. It is beyond question that both parties were brought to a more tractable frame of mind by the verbal ultimatum issued by Taft and Bacon, in the name of President Roosevelt, that unless they consent to a fair arbitration, the United States must compel the same by a temporary military occupation. Such an occupation, it was declared, would not mean American sovereignty. It would continue only until new elections had been held, the new government firmly established and order restored.

Within an hour of the receipt of this ultimatum the moderate assembly agreed, at the end of a stormy session, to the suggestion of treating with the liberals. The conservative moderates threatened the disruption of the party unless the radicals consented to treat with the American commission, and this also is believed to have had an important bearing upon the moderate decision.

It is understood that President Palma does not intend to withdraw his resignation, but it is predicted that congress will table it indefinitely.

HID \$960 IN CHEST. Now Illinoisan Who Has no Faith in Banks Seeks Thief.

Bloomington, Ill., Sept. 25.—Having no faith in banks, Charles Laudett, a second-hand goods dealer of this city, hid \$960, largely in gold, in a tool chest in an outbuilding. He found that a thief had discovered his hoard and carried it away, leaving no clue.

Missourian Elopers. Omaha, Neb., Sept. 23.—Herman Gibson, of Kansas City, was arrested by detectives of that city in Omaha and taken back to Kansas City to face a bride-to-be, whom it is alleged, he had deserted only a few minutes before the ceremony was to have been performed.

Delaware Town Fire Swept. Wilmington, Del., Sept. 25.—The entire town of Townsend, Del., is being swept by fire. The large hotel, two department stores and a dozen or more residences are now in ashes. Assistance has been sent from here.

W. R. HEARST

NEW YORK DEMOCRATS CHOOSE HIM AS THEIR GUBERNATORIAL CANDIDATE.

CONVENTION EXCITING

The Republicans, at Saratoga, Nominating Charles E. Hughes, for Governor, by Acclamation—Jerome Bolts Hearst.

B'alo, N. Y., Sept. 27.—William Randolph Hearst was nominated for governor by the democratic state convention at a few minutes after 1 o'clock Thursday morning.

The nomination came on the first ballot, the vote being: Hearst, 309; Sulzer, 124; Dix, 17. Necessary to choose, 226.

The convention was the most turbulent that has been held by the party in this state for years. The fore part of the night was given up to speech-making and nominating addresses.

Tammany delegates held a caucus and resolved to vote as a unit, empowering Chairman Murphy to cast the vote. Tammany's vote went to Hearst.

Some of the speeches were very denunciatory of Mr. Hearst, State Senator Paines referring to him as a "driver of men with brutal lash," and declared that "the party was to be sold out body and soul."

Mr. Cochrane said: "I support Mr. Hearst because, as a democrat, I cannot help it. It is not because I have any personal liking for the man, or that I am his friend."

Cullings from the Platform. Republican high protection is denounced also graft in political and industrial life. "We hold that the cure for these abuses is not in socialism, which by enormously extending the powers of government, must aggravate them, but in democracy, which, by excluding government from any interference whatever with private industry, must cure them."

"It is the duty of government to ascertain the actual cost of operating all public service corporations and to fix from time to time reasonable rates for the service they perform."

"If entrusted with the administration of the state government, we promise that there shall be an impartial and public investigation of every department of the state."

THE REPUBLICANS.

Hughes Nominated for Governor by Acclamation.

Saratoga, N. Y., Sept. 27.—Charles E. Hughes was nominated for governor by acclamation at the Republican state convention Wednesday.

Temporary Chairman Driscoll called the convention to order a little after the appointed time. State Senator W. A. Armstrong of Rochester was unanimously elected permanent chairman, and on assuming the gavel spoke at considerable length on the respective records of the Democratic and Republican parties in the administration of state and national affairs.

WORST STORM FOR 170 YEARS

Damage in Pensacola Will Amount to Three Million Dollars.

Pensacola, Fla., Sept. 28.—The worst sea storm and hurricane that the gulf coast has experienced since the village of Pensacola, on San Rose Island, was swept away, 170 years ago, began Wednesday night. It is reported that many lives between the city and the navy yard have been lost. It is known that many of the houses in that section are under from five to ten feet of water, and many persons have been taken from second-story windows and carried safely to boats.

The estimated property damage is three million dollars. Every house in Pensacola has suffered damage, and the roofs of many were blown off. Telephone and electric light wires are among the mass.

The water front is strewn with wreckage for miles on either side of the city, and vessels are piled on the wharves, or where the wharves once were, in utter ruin. Big iron steamers and many lighter sailing vessels are lying high and dry up in the city where the tide has never before been known to reach. Every wharf for miles around has been swept away or is damaged beyond repair.

On the Philippine Commission.

Washington, Sept. 23.—President Roosevelt has appointed H. Morgan Shuster as a member of the Philippine commission, to fill one of the vacancies caused by the resignation of Gov. Gen. Wright and Gov. Gen. Ide. As a member of the Philippine commission, Mr. Shuster will receive a salary of \$5,000 per annum, and \$10,000 per annum additional as secretary of one of the departments of the Philippine government.

Stensland Is Sorting Brooms.

Joliet, Ill., Sept. 28.—Paul O. Stensland, the Chicago bank convict, was assigned to cell 22, in the east wing of the penitentiary, and was put to work in the sorting room of the broom factory, where he will labor by the side of John A. Linn, the former clerk of the superior court of Chicago, under sentence for embezzlement.

SCIENCE AND INVENTION.

A QUADRICENTENARIAN.

Story of a Tortoise Whose Age Was Probably Nearly 400 Years.

A living creature that has trod the earth, however sluggishly, since the days of the Spanish Armada is an object of no common degree of interest. Such a creature has just passed away peacefully in London, in the person of Drake, a venerable tortoise of the Zoological Gardens, supposed to be nearly four hundred years old. Mr. V. Forbin, who contributes a short

Drake, the London Tortoise, Possibly 400 Years Old.

obituary with portrait to Paris La Nature, and which was translated for the Literary Digest, notes that it is quite proper to be somewhat indefinite on the subject of Drake's exact age. He says:

"There is nothing to prove, in fact, that the Testuda abingdoni that gave up the ghost the other day had really attained so abnormal an age. All that we may say certainly on this delicate subject is as follows:—"

The tortoise was captured in the Galapagos Islands toward the end of the eighteenth century. At this time the scanty inhabitants of this wild archipelago regarded him as a bi-centenarian, relying on a date cut into his shell with a knife, which, though half effaced, appeared to begin with a 16. From this it was inferred that he had been first captured in the seventeenth century by some of the hardy English or French pirates who were then disputing the passage of the Spanish galleons between Mexico and the Philippines, and who made the Galapagos their rendezvous. One of these filibusters, in a vein of piousness, or perhaps to furnish data for the benefit of future naturalists, may have cut on the prisoner's back the date of his capture, and then set him at liberty. Perhaps he even added his name, which has been obliterated by the growth of the shell.

"From this vague date undoubtedly comes the name of the tortoise, 'Drake,' from the famous chief of the buccaneers, Sir Francis Drake, the illustrious and sanguinary sea-rover of the New World.

"The tortoise was not brought to England till 85 years ago. After several changes of ownership, he finally found comfortable quarters for his old age in an enclosure of the garden at Regent's park."

CLOTHES PIN.

Just the Right Shape to Hold the Clothes Firmly.

The old-style clothes pin has been in use for a long time, and has proven so satisfactory that a change would seem undesirable. Nevertheless, an improvement has been made by two North Carolina inventors, as will readily be seen by referring to the illustration. These clothes pin are made of galvanized iron to prevent rusting and injury to the clothes and are bent to form double jaws. These jaws pro-

Cannot Slip Off.

vide a strong clamp, when joins the clothes securely to the line, without possibility of tearing or injuring them. The old-style clothes pins have a tendency to spring away from the line unless they are forced very hard against the line, which often tears garments of fine texture. It will be obvious that there is no danger of this happening with the clothes pin shown here.

Use Magnesia.

Rub magnesia on soiled spots and dainty light colored goods. Put plenty on both sides, and when wanted for use again brush well and the spots will be gone.

Popular British Names.

Out of every 100,000 girls and boys in England and Wales, 6,820 are called Mary and 6,590 William.

SELF-LOCKING RAILWAY SPIKE

Device by Which the Loosening of the Rail is Made Impossible.

A railway spike that cannot work loose is now manufactured at Seattle, Wash. Says the Railway and Engineering Review, in a brief descriptive note:

"It consists of an ordinary spike with a curved shoulder at the back about the middle of the spike in length, and a key or lock

to hold the spike from working up out of the tie. The wedge-shaped lock is a thin, tapering piece of iron. When the spike is driven into the tie it leaves a slight channel alongside of it, into which this wedge is driven, following the channel until it strikes the shoulder of the spike, when it immediately turns out and enters the wood along the line of least resistance—which is with the grain—sometimes turning upward a little if the wood is soft. It then becomes practically impossible to draw the spike without first drawing the wedge. If for any reason it is desired to pull the spike, the wedge itself, being thin, is easily drawn from the top, although it cannot be pushed up by the spike. After the wedge is drawn the spike can easily be removed, and what is of great advantage, can be replaced in the same hole and locked with the wedge as securely as before. As the ties become old and the spike becomes loose, a tap of the hammer on the wedge will set it up tight against the rail again. The Atchison, Topeka & Santa Fe railway recently had a number of them made at its shops and put into its track for a test. We understand that more than a million of these have already been ordered."

NEW SIGNAL LIGHT.

Marine Torch Which Will Burn in the Water.

A marine torch or signal light, that bursts into a brilliant flame the instant it touches water, is a recent invention. These signal lights can be used in many ways. One method is to attach one to a life buoy; the mo-

Light Attached to a Life Buoy.

ment the life preserver strikes the water the light gives out a bright flame, showing its location not only to the person overboard, but marking the spot for the crew, who put back in a small boat. As the average passenger steamer cannot be stopped in much less than a mile when under full headway, the importance of the light in finding the spot is evident. The signal burns with 300 candlepower for a full hour. These lights are already in use in the American navy.

Another type is the projectile which is fired from a gun and will carry as an ordinary shell will go. These lights can be set to burn as they leave the gun, or not until the strike the water, where they will float and burn from one to two hours.

TRIBUTE TO AMERICA.

Liberal Aid Given to Science Elicits Comment from Abroad.

American generosity to science received hearty recognition at the annual meeting of that notable body, the British Association for the Advancement of Science, at York. The president, Edwin Ray Lankester, in his address gave a highly interesting review of the progress made by science, particularly within the last 25 years, which he said would stand out forever for the achievements in this line, especially with regard to the discovery of new chemical elements possessing astounding properties. He paid tribute to the work of astronomers, including the splendid accomplishments of Prof. Pickering, of Harvard university, and then alluded to the liberal assistance given to science by wealthy Americans, specifying the gifts of great telescopes and other equipment as indicating the interest taken by our millionaires in such work. He added: "In the United States this is not infrequent, while in this country it is rare. The gentleman is correct. There is no other land, remarks the Troy Times, in which money is so lavishly paid out by rich men in behalf of education and philanthropy as in the United States.

Machinery to Roll Glass.

An invention for drawing molten glass out of the furnaces and rolling it mechanically has been sold to a syndicate of plate-glass manufacturers for \$592,000. The inventor is a Belgian, Mr. Fourcault, and the purchasers of his patent rights are German, French, Belgian and Bohemian manufacturers. Only high-priced manual labor has been able to do the work heretofore.

The Haskell Free Press.

VOLUME XXI.

HASKELL, HASKELL COUNTY, TEXAS, SATURDAY MORNING OCTOBER 6, 1906.

NUMBER 40

HASKELL COUNTY TEXAS.

ARE YOU A RENTER? Come to Haskell County where you get a farm of 80 to 160 acres on relinquishment of a few hundred dollars; a farm that will grow splendid corn, cotton, maize, kaffir corn, oats, wheat, alfalfa and all other products raised in East Texas, close to town, school and church.

ARE YOU A LAND OWNER? Come to Haskell County for an investment. Where the crops will more than pay for the land and a raise in value is certain. Our land is between the Wichita Valley and Orient railroads where water is plentiful of fine quality and is obtained from wells from 20 to 50 feet deep. New towns have sprung up with wide awake business men, schools, churches, telephones and all the conveniences of oldest settled communities. Below we give you a description of the famous ranch we have just bought and are offering in tracts to suit the buyer:

THE FAMOUS POST RANCH: This magnificent body of land was never before offered for sale in small tracts and the owner would never agree to have it cut into small farms. To make it to the interest of the homeseekers and also to the town of Haskell and community, we decided to buy the ranch, and are now offering it for sale in tracts of 80 acres, 160 acres and 320 acres to suit the purchasers, and never before in Haskell County was offered such liberal terms on land in small tracts as we are making on this property. Men of small means can soon pay for a good home on such easy terms.

Read the Following Particulars:

This ranch is located two miles, a little south of west, from the city of Haskell, the county seat of Haskell county, and extends five miles from the court house, between Haskell and Sagerton, a new town on the Orient Railroad, and in a thickly settled neighborhood. This land is rich valley land, not over 100 acres broken, out of the 2750 acres. Fine mesquite timber. There are 75 acres in cultivation; a 2 room house; 1 well and windmill; 16 miles of fencing. The nature of the soil is black, chocolate and red, with a clay subsoil.

Prices are from \$15 to \$20 an acre,

according to location and size of tracts. Terms, one-third cash balance in ten yearly payments "on or before" notes, with 8 per cent interest.

REMEMBER

That a "fortune knocks but once at every man's door,"

and now is the time to investigate this opportunity to get a home, close to our thriving and progressive county seat. The town of Haskell, has a large and handsome stone school building; cost \$16,000.00, teaches 11 grades; four churches; two good gins; two national banks; local and long distance telephone system; two weekly newspapers, and it is one of the fastest growing town in West Texas.

The Farmers' Union are now building a large warehouse to store their cotton for better prices. There are large stores in every line of business. When you come to Haskell you will be surprised

to find such a thickly settled country and all the people satisfied. Our aim is to treat all people right, and our motto is "TELL BOTH SIDES," good and bad.

We are here to stay, and our firm consist of

**J. L. ROBERTSON,
G. T. McCULLOH,**

who have been in Haskell County several years.

J. J. STEIN,

formerly of Bell County, Texas, where he was manager of the Bell County Land Agency for several years; he was born and reared in Austin County, Texas.

H. O. SCHULZ,

a young attorney just from Brenham, Washington County.

We own property here and believe in getting this country settled up by good, substantial men. We believe that the droughts are leaving us as a result of getting the land under cultivation, as has been the case in South and Central Texas Counties. We had too much rain this season, and expect to get sufficient every year to make better crop than in East Texas where they are often drowned out.

We call your special attention to Haskell County. Before you buy come and investigate our lands.

Besides our special proposition set forth above we have about sixty improved places of all sizes, to suit any buyer, and prices range from \$15.00 to \$25.00 an acre. These lands will advance in price continually.

This is a most healthful country for both man and livestock of all kinds. It has abundance of advantages over other western counties. When you come we will make it to your interest and assure you satisfaction.

We suggest that several prospectors come together and write us in advance so that we can have our traveling agent, J. J. STEIN to meet you and secure for you the homeseekers' rate on the railroad.

For any further information write us and we will take pleasure in supplying it to the best of our ability.

YOURS FOR A HOME,

WEST TEXAS DEVELOPMENT COMPANY,
Haskell, Texas.

THE STREET FAIR.

A good showing at the Street Fair this fall may be worth a great deal to Haskell county. It is the intention of the managers to secure excursions on the Wichita Valley and Denver railroads from as far east as Fort Worth and on the Texas Central from Waco. Cotton picking will be pretty well over in the sections from which these excursions will bring people by the first week in November and it is very likely that scores, probably two or three hundred farmers and others, will take advantage of the low rates to come out and see what our country is doing. This prospect should be enough to cause every man in the county who cares a snap of his finger for the settlement and development of this country to bestir himself in the interest of the fair, both as an exhibitor and a helper in every way possible. Every farmer who has a good specimen of any product of his field, orchard or garden, or fine hogs, cattle or horses should make a sacrifice of time and other business, if necessary, and bring it to the fair. Besides the benefits to be gained from making a good showing to our visitors there should be a commendable pride and honor in taking the premiums for best products, regardless of their value, and there is no gainsaying the fact by any intelligent person that there is much information and benefit to be derived by farmers and stockraisers from these meetings at fairs and interchange of ideas and experiences. It is up to the people to make the fair a success or failure.

A Young Mother at 70.

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters, which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs. W. L. Gilpatrick, of Danforth, Me. Greatest restorative medicine on the globe. Sets Stomach, Liver and Kidneys right, purifies the blood, and cures Malaria, Biliousness and Weakness. Wonderful nerve tonic. Price 50c. Guaranteed by Terrell's drug store.

EPWORTH LEAGUE PROGRAM.

Leader—Mr. Cahill.
Subject of lesson—"Our Duties to Those of our Own Household."
Opening song.
Scripture lesson; Ephesians 3:14-19.
Prayer. Song.
Bible references.
Paper—"Our Home Influence."—Mrs. Henry Alexander.
Song.
Selections 1 and 2—Mr. Brewer.
Selections 3 and 4—Miss Ferrell.
Quartet. Question box.
Offering. Announcements.
Song. Benediction.

Danger From The Plague.

There's grave danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo. Walls of Forest City, Me., writes: It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them. It prevents Pneumonia, cures LaGrippe, gives wonderful relief in Asthma and Hay Fever, and makes weak lungs strong enough to ward off Consumption, Coughs and colds. 50c and \$1.00. Guaranteed by Terrell's drug store. Trial bottle free.

CHURCH CONFERENCE.

At the Methodist church on next Sunday morning. All members of the church are urged to attend. Quarterly conference on Friday night, the 12th.

J. H. CHAMBLISS.

Blood Poisoning

results from chronic constipation, which is quickly cured by Dr. King's New Life Pills. They remove all poisonous germs from the system impart vigor; cure sour stomach, nausea, headache, dizziness and colic, without griping or discomfort. 25c. Guaranteed by C. L. Terrell, druggist.

GONE HOME.

Bro. "Bob" McCulloch was called home the 29th of Sept. at 3 o'clock. He was confined to his bed nine weeks prior to the summons to come up higher, but he had been in failing

health a long time. Bro. McCulloch was ready to go, as he had given his heart and life to Jesus years ago, and had lived a faithful life. He is not dead, but sleeps in Jesus. He leaves a wife and seven children and a host of friends and relatives to mourn his home going. To all these I would say "Sorrow not as those who have no hope," for after a while we can go to the "home over there" and be with Bro. McCulloch and all the redeemed of God.

A large crowd gathered at the cemetery, where services were conducted by the writer assisted by Rev. Chambliss. After which the Masons took charge of the body and laid it to rest with Masonic honors. May the Father's benedictions rest upon the bereaved family. J. H. SHEPARD.

A Most Worthy Article.

When an article has been on the market for years and gains friends every year, it is safe to call this medicine a worthy one. Such is Ballard's Horehound Syrup. It positively cures coughs and all Pulmonary diseases. One of the best known merchants in Mobile, Ala., says: "For five years my family has not been troubled with winter coughs. We owe this to Ballard's Horehound Syrup. I know it has saved my children from many sick spells."

Mr. D. S. Wells of Guatemala, Central America, father of our townsman, Mr. Wm. Wells, surprised his son, who did not know that he was in this country, by walking into his place of business Wednesday. Mr. Wells has been in Guatemala for several years and he says it has a very fine climate and if he had a few American neighbors he would be content to reside there the rest of his life. Mr. Wells was acquainted with Mr. George Mason, formerly of Haskell, who has been in Honduras, which adjoins Guatemala, several years.

LETTER TO

**HUNT & GRISSOM
Haskell, Texas.**

Dear Sirs: Now, may be, you can't get the goods; if you can your fortune is made.

Cotton cloth—they call it muslin in some parts—at about the usual price per yard, but wider, twice as wide as some, and better, wears better, keeps white and whole a surprising time in all sorts of wear.

You could sell that cloth for hundreds of miles; there'd be no limit.

A yard goes further; one buys less often. It always looks right till well worn-out. No customer buys so much of it, but think of the number of customers!

May be you can't get it in cloth, but you can in paint: Devoo. Devoo is as if it were wider; a gallon goes further; you buy less gallons; you pay for less gallons; you pay for painting less gallons—as if one paid less for making a garment of that wide cloth—and it keeps its fresh look and sheds water till you have forgotten how old it is.

It isn't true in cloth, but it is in paint: the less you pay the better it is; for the goodness of paint is reckoned by gallons; less gallons, more goodness. Goodness in paint is strength. The stronger a paint, the less gallons it takes for a job and the longer it wears. Yours truly,

F. W. Devoo & Co.
New York.

Sold by McNeill and Smith.

A \$40,000 LAND DEAL.

The West Texas Development Co. of Haskell has purchased the H. S. Post ranch lying southwest of town and will at once subdivide the land and put it on the market in tracts to suit purchasers. This is a step in the right direction as it opens up quite a fine body of land to settlement and will locate a number of families in territory immediately tributary to our town. The men composing this company, to wit: J. L. Robertson, G. T. McCulloch, H. O. Schulz and J. J. Stein, are experienced and reliable land men and are doing good work for this section as well as for the people who they induce to come here.

COUNTY FARMERS' UNION.

Next Meeting Dec. 7 and 8th, at Cook Springs.

To the FREE PRESS:

At the meeting of the Farmers' Union held at Howard last week Howard and Cook Springs were put in nomination for the next meeting place. Some of the Howard brethren in order to secure the last two days meeting in their community had held out to the members the promise of a treat to fish, but the fish failed to put in an appearance, and Bro. Berry in advocating Cook Springs' claims for the next meeting promised fish and honey and said that if it frosted before it came off he would add possum and sweet taters to the bill of fare. This proposition captured the brethren and landed the next meeting at Cook Springs—Dec. 7 and 8th.

COM. ON PUBLICATION.

WE HAVE IT FOR LESS

**GOODS OF HIGH MERIT
SOLD AND BACKED UP.**

CRIMPY MORNINGS

**WE HAVE THE LARGEST
STOCK WITH THE
SMALLEST PRICES.**

are here. It is time to consider fall and winter buying with more earnestness. You realize as a buyer that when stocks are complete you have a better selection, better sizes, a greater variety of trimmings to design from and many are the other causes why those who can

Should Take Advantage and Buy Early.

It is useless for us to say that you can come every day in the year and find heavy goods. There is a time for all things. Now is the time for Blankets, Comforts, Cloaks, Jackets, Heavy Clothing, Underwear, Lap Robes and all such other Winter Goods.

JUST ARRIVED—200 Ladies and Misses Jackets. A special sample line which we are offering to you at prices not to exceed one-half their real value.

We are showing this season the swiftest line of Ladies Skirts ever shown in this or surrounding Counties before.

We can assure you we have the correct prices on Blankets, Comforts, etc. New patterns in matings to show—the prices right on them too.

Men's Shoes—the matchless line from \$1.50 to \$5.00

Shoes for ladies in all sizes from 1 to 8, in all the new shapes and all widths. When you view this line you will notice the superior finish and grade to those of other makes.

BELL SYSTEM

Clothes are clothes made just right. We want you to see this line. The special features which our buyer had added to the making is a part of which goes to make this the strongest line of clothing shown in the city and is what puts the line at the top notch. New hats for fall. A big line of J. B. Stetson's. Our line of boots is second to none.

We have all the Articles for Men, Women and Children that it takes to Complete the Dress.

We claim to be outfitters for men and women from infancy to old age and we can show you a line of goods to back up our claims. In fact, we have all the interesting features that go to make this store a safe place for the father, mother or child to trade. With that eagerness for saving on purchases which all should consider, how can you buy without seeking a stock so complete in its details, with savings in price that has already made our store the talk of Haskell and surrounding counties.

D. EGGER & SON,

"HAVE IT FOR LESS"

HASKELL, TEXAS.

COLLEGE OF INDUSTRIAL ARTS.

In a recent prospectus issued by the Texas College of Industrial Arts, a state institution located at Denton, the aims and doctrine of the college as set forth are heartily endorsed by the FREE PRESS. We quote as follows:

In America we stand face to face with the problem of providing a higher education for the people, which will afford culture and practical preparation for the common duties of life at the same time. The privileges and responsibilities being placed before women by a progressive and enlightened age are ever increasing and demand specific preparation. More and more the demand for specialization by both sexes is being emphasized.

The professions are being overstocked, we must prepare our people for higher living in the home, in the field, in the office, in the industries of the times. With this necessity comes a loud and emphatic call for our schools

to cultivate the executive quality in our young women as well as in our young men, and to prepare them for immediate, well-directed action in the practical affairs of life.

Our State college for young women, known as the College of Industrial Arts, was established to meet these increasing demands of our times. It offers a broad range of subjects and courses of study, and provides a great field of opportunity for women to make thorough preparation for the most progressive living. Its courses give culture of the highest order, scholarship of the most efficient kind, and industrial training of the most modern and practical type. Its doctrine is that study and intellectual culture are enhanced by experience; that manual work and literary work each give vitality and momentum to the other; that the successful accomplishment of practical, concrete work is a desirable, and even fundamental expression of the best intellectual discipline; and that it is a function of schools to teach students to do as well as think. The motto of the college is, "We learn to do by doing."

All women need the kind of training offered here, whether they are ambitious to be leaders among women, to be independent as workers, to direct the home, or to render philanthropic social service to the race. Whether they are to occupy parlor or dining room, kitchen or library, the training offered here is invaluable, as it contributes to all-round womanhood.

Fall term opened September 25.

Mr. W. A. Brown of the St. Louis Mercantile Co. was in Haskell Wednesday.

Mr. and Mrs. F. G. Alexander returned Wednesday from a visit of about a fortnight at Mineral Wells.

Mrs. Wright's handsome hotel building is nearing completion.

Mr. Jim Logan of the Wild Horse prairie country was in town Wednesday. He said the worms damaged cotton some in that locality but had let up in time to allow the farmers to get some cotton, from which we infer that the damage was not very great.

Insure your house against FIRE with O. E. Patterson.

Miss Annie Brauham has accepted a position in the millinery department at Alexander Mercantile Company's store.

Mr. S. J. Hamilton of the east side sold cotton in Haskell Tuesday.

Rev. E. C. Ely of Belton, who is travelling in the interest of Baylor University, was in Haskell Wednesday.

See Patterson about Fire and Tornado insurance.

Mr. F. W. Park and family of Borden county, formerly citizens of this county, who have been visiting relatives here, returned home this week. Mr. Park has been a subscriber to the FREE PRESS for about fifteen years and called in before leaving and cashed up for another year. Mr. Park says the prairie country is developing rapidly as a farming country. He says that he has 160 acres in cotton on a place that is as fine as anybody's cotton.

Mr. W. B. Braulston of Waco, pres. of the Haskell Lumber Co., and Mr. Chas. Brexington of Stamford, were here Tuesday.

Locals and Personals.

See Patterson about Fire Insurance.

Screen wire at McNeill & Smith's.

Mr. W. H. Day has moved into his new residence.

Mrs. R. J. Clanton of Dallas is visiting her brother, Mr. Wm. Wells.

Gold filled bracelets, latest styles, at Terrell's.

Circular molded stone for curbing wells, at Sherrill's stone yard.

See O. E. Patterson before you buy or sell land.

Mr. John Gossett of Knox county visited in Haskell this week.

Your choice of cigars at Terrell's.

It's getting common now to see numbers of cotton wagons on the streets daily, and business is waking up.

Mr. Clem Threadgill and Miss Lillie May Davis, daughter of Mr. and Mrs. R. R. Davis, were married on last Sunday afternoon at the Christian parsonage, Elder J. H. Shepard officiating. These worthy young people have friends in and near Haskell whom the FREE PRESS is pleased to join in congratulations and best wishes for their future happiness and prosperity.

See Patterson about a Fire Insurance policy.

Judge O. E. Oates has had the wooden building moved off his lots on the west side of the squares and will begin at once the erection of two concrete stone buildings, which will fill up the gap between the Robertson and Whitman buildings.

An epidemic of some sort broke out among the town dogs Tuesday night and spotted dogs, woolly dogs, black dogs, blue dogs and "yaller" dogs succumbed to it.

Dr. Burnside of Wichita Falls, chief surgeon of the Wichita Valley Railroad, was in Haskell Thursday and appointed Dr. E. E. Gilbert as local surgeon at this place.

TO COTTON GROWERS.

I have thoroughly overhauled my gin, among other things having sent three of my saw cylinders to the factory and had them worked over, which makes my plant practically as good as new. I am now doing first-class work and paying Stamford prices for seed.

I propose to give every one who comes to my gin my personal attention, and will appreciate patronage very much.

I thank you for past custom and hope to do business with you this season. Respectfully,

F. SANDERS,
Haskell, Texas.

Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED
Health Fully Restored and the Joy of Life Regained.

When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the BLUES, it is a sad picture. It is usually this way: She has been feeling "out of sorts"

for some time; head has ached and back also; has slept poorly, been quite nervous, and nearly fainted once or twice; head dizzy, and heart beats very fast; then that bearing-down feeling, and during her periods she is exceedingly despondent. Nothing pleases her. Her doctor says: "Cheer up; you have dyspepsia; you will be all right soon."

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, everlasting BLUES.

Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Mrs. Rosa Adams, of 819 12th Street, Louisville, Ky., niece of the late General Roger Hanson, C.S.A. She writes:

"Dear Mrs. Pinkham: I cannot tell you with pen and ink what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered with female troubles, extreme lassitude, 'the blues,' nervousness and that all-gone feeling. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it not only cured my female derangement, but it has restored me to perfect health and strength. The buoyancy of my younger days has returned, and I do not suffer any longer with depression, as I did before. I consider Lydia E. Pinkham's Vegetable Compound a boon to sick and suffering women."

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

Fifty Years a Publisher.
Frederick Hess, of San Francisco, proprietor of the California Democrat, has been celebrating his golden jubilee as a publisher. In September, 1856, being then 18 years old, he purchased the paper named and has been running it ever since. That he still has great confidence in the future of San Francisco is shown by the fact that although he lost his entire plant at the time of the fire he immediately reestablished himself.

Demand is Spreading.
Please send me by express two dozen Hunt's Lightning Oil—25c size. Could not keep house without it.
G. H. Jones,
Lenawee Junction, Mich., Sept. 10, 1906.

WHO PAID FOR THE DRINKS?
Endless Chain Operated by Thirsty Men on the Mexican Border.

"Now, here is the best yarn of the lot and a good puzzle for the Sunday papers to print," said the man with the alkali in his whiskers, when he had settled down in the hotel lobby after a long day on the rubberneck wagon.

"Several years ago American silver coin in Mexico was at that time and still is in the states; it passed at half its face value. Drinks in El Paso and in Juarez, the Mexican town across the line, were a bit apiece or 12 1/2 cents, as you easterners would say.

"In those palmy days a citizen of El Paso could go into a drinking emporium and buy a drink, paying for it with an American quarter. The bartender would hand him back a Mexican quarter, which was, of course, worth 12 1/2 cents in Texas.

"Then with this Mexican quarter in his hand the citizen could cross the bridge to Juarez and there buy another drink, laying his Mexican quarter on the bar.

"If the Greater barkeep should give him in change an American quarter worth 12 1/2 cents in Mexico the joyous citizen could return to Uncle Sam's back yard and repeat the process.

"Now, the question is: Who paid for those drinks?"—N. Y. Sun.

The Iron Man on the Crossing

"It got on my nerves, I will admit," said Mr. Stoggy, "and also it irritated me personally to have the man in the auto just honk! honk! at me as he came rushing for the crossing, putting it up to me to bustle to get out of his way; it made me nervous to have to jump like that, and it irritated me to have anybody treat me with such utter and complete contempt.

"Moreover, as I understand it, the pedestrian has the right of way on a crossing, and it is the vehicle that should give way to him, not he to the vehicle. But here were men who were depriving me of my should be inalienable rights absolutely, and not only so, but doing this with the utmost rudeness and ill manners, giving no more thought or consideration to me than they would to a squeaking pig crossing their course, not considering me as a person at all, but simply honk honking to me to get out of the way, to skip, jump, skidoo.

"It really was disturbing, and this so wrought upon me that it came to seem that it would be wholly right to employ any means in retaliation.

"I have a friend, an ingenious and resourceful friend, who makes it his business to build working models for inventors from plans, or rude models submitted, or, as he sometimes does, simply from ideas; and not infrequently he supplies missing links; he breathes the breath of life into machines that without his help would never have moved. He is the inventor's friend, this friend of mine and to him I went with an idea, with full confidence that he could bring it into being—which he did.

"The idea was for a mechanically actuated iron man which could be made to move along over a street crossing, and this idea he wrought out with entire success. He made the figure that of a man of only ordinary stature, but of decidedly portly build, that of a man who would naturally walk with his feet somewhat apart—that is to give the figure a broad and stable base on the ground—and would walk slowly.

"We propped up the floor of my friend's laboratory from underneath and tried the figure there and it worked perfectly. How much the iron man weighed I don't know, because we never weighed it; but it must have been 17 tons, at least.

"Running through that part of the town in which I dwell is a broad avenue much frequented by automobiles, and on this avenue there is one particular crossing, customarily taken by me, from which often, to escape destruction, I have been compelled to jump and flee. Near the close of one bright summer's day we brought the iron man, suitably clad, along and stood him up at one end of this crossing and faced him right and set him going slowly over.

"Of course there was a chance that he would miss all the autos or that the autos would all miss him, and then it would have been all for nothing, for we couldn't stay there and repeat indefinitely. It didn't turn out so, however, though the figure was half way over before anything happened. Then something did happen.

"Coming bounding down the avenue there was a bright red runabout, with a battleship sized horn, now honk, honking for the fat man on the crossing to skip, skip along, and keeping coming full tilt straight at him, never doubting that he would jump in time. But this man wasn't a jumper, and the next instant the little red auto was upon him, with results amazing.

"The fat man wasn't smashed, destroyed, annihilated by the collision; he wasn't even upset by it, but the little red auto with the big horn, coming at him fair and square, and spilling out the two men that had been in it, as it rose, rode up his side when it hit him, and fell over back from him a wreck.

"I guess there was something doing there, don't you think, and—and what a tribute, this, to the skill and solid workmanship of my friend the builder—the shock didn't even disarrange the machinery of the iron man who, as the red auto went to smash, walked steadily on, quite calm and undisturbed.

"A greater shock was to come for the iron man, one under which he did go down at last; though even as he lay fallen he wrought dire destruction on the big machine that bowled him over.

"This was a giant automobile that was coming booming down the avenue a little to the right of the little red auto and not very far behind it, with its horn hoarsely hooting; and while yet the iron man had advanced scarcely ten feet further in his calm, unflinching progress this giant machine was upon him with an irresistible shock, and down he went; but as the great auto shot on forward over his prostrate form his hand feet and hands and elbows caught in and seemed to loosen up every part of its machinery, for as it still shot forward it dropped, along, carburetors and commutators, and spark plugs and cranks, and cylinders and tanks, a line of automobile junk stretching scattering for a block, to where the bare body of the machine finally rested, with its dazed owner staring back wildly.

"Not much to be joyful over, this, you say? Perhaps so; still, it soothes me some."—N. Y. Sun.

He Who Runs May Read.
The way some women wear their complexions they must think every body else wears smoked glasses.—N. Y. Press.

CURED OF GRAVEL.

Not a Single Stone Has Formed Since Using Doan's Kidney Pills.

J. D. Daughtrey, music publisher, of Suffolk, Va., says: "During two or three years that I had kidney trouble I passed about 2 1/2 pounds of gravel and sandy sediment in the urine. I haven't passed a stone since using Doan's Kidney Pills, however, and that was three years ago. I used to suffer the most acute agony during a gravel attack, and had the other usual symptoms of kidney trouble—lassitude, headache, pain in the back, urinary disorders, rheumatic pain, etc. I have a box containing 14 gravel stones that I passed, but that is not one-quarter of the whole number. I consider Doan's Kidney Pills a fine kidney tonic."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

The Port of Hong-Kong.
Hong-Kong is one of the most active shipping ports in the world, but it is not a market. It is a convenient point for the transfer of cargoes from or intended for the different parts of China, Japan, Korea, the Philippine Islands, Siam and other parts of the east, but it is a small island, with a limited population, who produce nothing and consume comparatively little but handle a great deal of trade in transit.

SORES FROM HEAD TO FOOT.
Covered with Crusted Scaly Eczema When One Month Old—Cured by Cuticura at Expense of \$4.50.

"When I was one month old I was taken with eczema. After being under the treatment of two doctors for one month, and no improvement, my mother was advised by a druggist to try Cuticura Soap and Ointment. I was one crust of sores from head to foot. My mother could brush the scales off my body; and my finger and toe nails fell. After using six cakes of Cuticura Soap and about as much Cuticura Ointment I was completely cured. I am now seventeen years old, and my skin has not a scar. I am still finding wonders in Cuticura; after washing a fever blister two days it was completely gone. Your Cuticura friend, Miss Eola Glascock, Marksville, La., Oct. 27, 1905."

Scorpions Cause Disaster.
Scorpions were to a great extent responsible for the recent bursting of the Kam-lapuram tank in India.

There had been very heavy rains, but when an attempt was made to preserve the bank of the tank scorpions issued from crevices in the earth-work in such numbers that the attempt had to be abandoned. Over 30 laborers were stung.—Shanghai Mercury.

Never Fails.
There is one remedy, and only one I have found, to cure without fail such troubles in my family as Eczema, Ringworm, and all others of an itching character. That remedy is Hunt's Cure. We always use it and it never fails.
W. M. Christian,
Rutherford, Tenn.

Poacher Had Nerve.
Robert Jones, a Liverpool surgeon, tells of a patient who was an old poacher and who, while under the influence of cocaine during an operation upon the bones of a leg, regaled the surgeon with tales of his poaching exploits.

Quality Counts First

Price (Nickel) \$6.00

H. & R. Hammerless Revolvers

These weapons that can always be depended on, no matter how suddenly they may be called upon. Simplicity of construction, perfect safety, absolute reliability in action and superior accuracy are the qualities which characterize them. With proper care they last a life time. Cannot be over excited by pulling the trigger, insuring against accidental discharge. Rigid inspection before leaving the factory insures against flaws or defects of any kind. This independent testing stop. The accurate shell-ejecting device makes reloading easy. Doesn't become hot by low price into buying a cheap and inferior revolver, when you can buy an H. & R. Hammerless Revolver, 22 or 24 caliber, 5 shot, 3 inch barrel, nickel-plated, for \$6.00. Made also with a 2 and 4 inch barrels.

HARRINGTON & RICHARDSON ARMS CO., 402 Park Ave., Worcester, Mass.

THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers; those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

Genuine—Syrup of Figs

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c. per bottle. One size only.

"IF YOU DON'T GET WELL, I WILL GIVE YOU BACK YOUR MONEY"

THIS IS WHAT YOUR DRUGGIST TELLS YOU WHEN HE SELLS YOU

OXIDINE

HE DOES THIS BECAUSE HE KNOWS

IT WILL CURE CHILLS AND FEVERS

IT IS MADE IN TWO FORMS—REGULAR AND TASTELESS

(Sweet, children like it). Ask for either one. They are both guaranteed to cure Chills and Fevers. Sold by all druggists. It is the Chill Tonic that contains no poison.

Read the following analysis made by the state chemist who analyzed three bottles of Oxidine sent to him by the Secretary of the State Pharmaceutical Association (The Texas Retail Druggists Association):

Nothing to Fear.

Mothers need have no hesitancy in continuing to give Chamberlain's

Cough Remedy to their little ones, as it contains absolutely nothing injurious. This remedy is not only perfect-safe to give small children, but is a medicine of great worth and merit. It has a world wide reputation for its cures of coughs, colds and croup and can always be relied upon. For sale at Terrell's drug store.

Commissioner W. S. Fouts of the south side was in town Tuesday and said that the worms had damaged the cotton in his neighborhood considerable.

Lest We forget—Baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial.

Irregular bowel movements breed disease in the body. You should purify and regulate the bowels by using Prickly Ash Bitters. It is mildly cathartic and strengthens the stomach, liver and kidneys. C. E. Terrell, special agent.

Notice of Stockholders' Meeting.

Notice is hereby given that a special meeting of the stockholders of the Wichita Valley Railroad Company has been called to convene at the general office of said Company in the town of Seymour, Baylor County, Texas, at 8:30 o'clock p. m. on Monday, the 26th day of November, 1906, which meeting is called for the purpose of considering and authorizing the execution and delivery of the First Mortgage Bonds of said Company in an amount not exceeding \$30,000 per mile of completed standard gauge railroad at any time owned by said Company, said bonds to be payable in gold coin at a time not exceeding thirty years from their date, and to bear interest of 6 per cent per annum payable semi-annually; and for the purpose of authorizing the making, execution and delivery of a First Mortgage on the corporate property and franchises of said Company to secure the payment of the principal and interest of said bonds; and for the purpose of authorizing and sanctioning the issue and disposition of its First Mortgage Bonds aforesaid; and for the purpose of ratifying and approving the minutes of the proceedings of a directors meeting of this Company held on June 26th, 1906, the minutes of an adjourned meeting of said Board held on the same date, and the minutes of the proceedings of a stockholders' meeting held on the same date.

This, September 11th, 1906.

W. E. KAUFMAN, Secretary,
Wichita Valley Railroad Company.

WEAK, WEARY WOMEN.

Learn the Cause of Daily Woes and End Them.

When the back aches and throbs, When housework is torture, When night brings no rest nor sleep, When urinary disorders set in, Women's lot is a weary one. There is a way to escape these woes. Doan's Kidney Pills cure such ills.

Mrs. E. F. Brown, residing at 318 Sonora St., El Paso, Texas, says: "The aching pains in my back which were brought on by kidney troubles, and the bearing down gripping pains in the loins were so heavy and severe at times that I felt continually used up and played out. I was so lame and sore at times across my kidneys that I could not stir without suffering twinges and could not straighten up at all if I bent over. I used different remedies until a friend advised me to try Doan's Kidney Pills which she had used for a similar trouble with marked benefit, so I got a box. I am glad I did, for they helped me from the first, and one box completely cured me of the trouble."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.
