SUPPORT YOUR HOME TOWN

News of Baird PEOPLE & THINGS

By E. M.

WE HAPPENED IN the First National Bank one day last week and about the first thing we saw was a number of right pretty flower arrangements on the desks of Bob Norrell, Howard Farmer, Fred Goble and Mary Payne, and on the rail that separates the money in the tellers cages from the customers. The flowers came from the home of the Fred Gobles who always have one of the most attractive yards in town. The flowers were beautiful and the arrangements were even more so. Banker Fred disclaims any credit for the flowers. Mrs. G. has complete charge of the flower department, and if you have any doubt as to her ability, a trip by their house will dispel it.

ANOTHER TALENTED FLOWER grower is Debbie Stanley, daughter of the Bob Stanleys. Debbie loves flowers, and has nurtured a small zinnia bed through all kinds of weather and they are repaying her loving care with some pretty blooms. Understand that she has a few stalks of okra in the back yard which she guards with her life. It already has one sizable pod ready for eating, but Debbie refuses permission to cut it. She wants to keep it as evidence of her okra growing ability.

THERE ARE A number of rodeo fans that can attend this week end. The annual Coleman rodeo was to open Wednesday for a four day stand, and it is always a good one. The Ranger Jaycees are reviving the Ranger rodeo this year and have their first showing Thursday night. Both rodeos end Saturday night. Several from Baird attended the Cowboy Reunion in Stamford and a few were in Brady where they saw the Brady races.

MET UP WITH young Mr. Richard Pierson of Nacogdoches last week. The youngster celebrated his 2nd birthday Saturday with a party. He, along with his older sister, Kitty, and his Mother, Mrs. Benny Pierson, the former Madge Loper, daughter of Mr. and Mrs. J. W. Loper and a sister of Jerry Loper, are visiting relatives in Baird for a few weeks. Richard is a very friendly little boy. Understand he made quite a hit when he and Uncle Jerry visited the Golden Holiday Nursing Home recently. Kitty Pierson has joined the Baird girls track team, and Coach Howard reports that she is a valuable addition to the team.

THE BAIRD CHAMBER of Commerce is to be commended for their work in securing the new Farm to Market road for the area west of town. The work on the project was started in 1961 when the C of C was new and Randall Jackson was serving as president. The road will leave new Interstate 20 in the area of the Gilbert Hinds home and will head west and north for some 3.8 miles where it will connect with a country road a little beyond where the old Baird golf course was located. It will be the first Farm to Market road to be built which will touch Baird. Old US Highway 80 bears a FM designation, but it was not originally a farm road. The new road will open up a goodly number of new residential building sites. County Commissioner Roscoe Shelnutt was to include money for the purchase of right of way in his 1963 budget.

FISHING WAS RIGHT good on the Fourth of July, according to Bill Hunt who has charge of the market at A&P. He and the missus went down Coleman way to visit friends who lived below Hoards Creek Lake dam. Bill took along his fishing equipment and caught a number of fish, including a seven pound blue cat. Contributions Asked On Truck

Farmers and ranchers of the area were urged this week to get their contributions in on the new rural fire truck which is being readied for use during the dangerous months ahead. So far, it was reported, only 30 persons had contributed to the fund, and work is ready to begin. Next week the names of the contributors, and the amounts contributed will be published. Most of the materials needed for the building of the truck have been secured, and volunteers are ready to begin work on installation. Money is needed to pay for the material. The truck was given to the group by the Soil Conservation Service. It was pointed out that pastures and fields were rapidly drying up, and that the danger season on grass fires was getting near. Spokesmen for the fire fighters said that the truck was for the protection of all rural families in Callahan and surrounding counties, and stressed the need for financial assistance from those the truck is designed to help. Contributions can be taken or mailed to the First National Bank in Baird, the Peoples State Bank in Clyde or handed to John D. Isenhower, Bruce Williams, Ira Akers, Benton Pruet, Blondie McIntosh, James Snyder, Lewis Williams and Alton White.

Stable Conditions Reflected In The First National Bank Condition

Customer deposits in the Baird First National Bank neared the \$4 1/2 million mark, and deposits continued the trend of a steady increase a condition statement released on June 29 has revealed. The deposits totaled \$4,716,348 as of the close of business on June 28 when the banking commission issued its mid year call. A year ago customer deposit figure was \$4,702,108 and the figure was \$4,675,753 on March 18 of this year. Loans were greater on June 28 than they were a year ago, but were slightly lower than they were on March 18 of this year. President Norrell said that Baird could look to the deposit rise as an indication that the general economical condition was good and that the future was bright. Deposits were above the \$5 million mark when the oil business was at its peak. The figure dropped considerably after most of the activity was stopped, reaching the lowest figure some four years ago. Since that time the deposits have shown a steady increase as the area recovered from the oil income loss, and from the seven year drought.

We all stayed home and had a safe and sober Fourth, did you fly your flag? I know you did, I did and I though it looked prettier than it ever did. I hope it never comes that we will not be free to fly our good old United States Flag. It seems like some times it gets mighty shakey, May God help us to over come a lot of things that are a threat to our country.

We had company over the holidays, James and Sherri Carter of Lake Jackson came Wednesday and went home Sunday and the bad part was they took Lynn, the great grand baby back home with them. We had her two weeks, sure do miss her.

Mildred and Gerald Carter of Vernon came Friday, they also went home Sunday, we were glad to have all of them home. D. A. Yarbrough had dinner with us Saturday. Roma McIntyre left Sunday morning for school in Austin, so it is kinda quiet around here.

Mary Alice Everett and daughter, Alice of Hobbs, N. M., are spending the week with Mark and Ollie Dian Everett has been here two weeks.

Mr. Grady is in Hendricks memorial Hospital and has been there about ten days. We hope he soon gets able to come home. Guess better go so be good and I'll be seeing you I hope.

Corvair 700 Club Coupe

The hardest part about parking a Corvair is finding a nickel

That may be a slight overstatement, but such jauntiness comes easily when you're a Corvair owner.

And you can usually back it up—as easily as you can back up a Corvair. You'll find yourself doing that occasionally, if only to adjust the brakes—they're self-adjusting. That's all there is to it, and that's a good example of how delightfully easy Corvair is to own, drive and maintain.

But since we began by talking about driving, let's stick with that awhile. A large factor in the fun of driving a Corvair is the location of its engine in

the rear. Why the rear? It gives Corvair extra traction on any road surface. It provides a nearly flat floor for more useable interior space. Best of all, it produces steering so light, so responsive, you wonder why no other American-made car thought of it.

Corvair's engine is also air cooled, we might add, which means there's no anti-freeze or water for you to add. Ever.

All that pleasure from something so practical almost makes you think Corvair is unique among American cars. Which isn't surprising, because it is!

Visitors will be welcomed between the hours of 3 p.m. to 6 p.m.

The charcoal brick building with decorative shadow tiling is located on Oak street between the West Texas Utilities Co., and the Clyde Post Office building, with plenty of parking area on each side. Lee Thompson of Abilene is the architect, and Luther Caldwell of Abilene is contractor.

Owned by Dr. R. W. Evans, who built his first clinic in Clyde in July, 1949, the new building became a necessity when the Texas Highway Department decided to widen Highway 80 and the former clinic location was torn noted as having made the first wall paper ever made in France. Mrs. Reagan Elliott, Interior Decorator, of Weslaco and sister of Dr. Evans, designed the charming and restful interior.

Off the lobby to the left is the office of the receptionist, and Dr. Evans' private office. An efficient inter-com service goes from the receptionist desk to all treatment rooms for quick and efficient calls. It also extends to the lobby where patients waiting may be called to their respective rooms.

PEOPLE AND THINGS . . .

(Continued from Page 1)
... We will all want to go by A. V. Curtis' El Paso Natural Gas Co. service station on West Highway 80 Saturday to help him have his official opening. There will be favors for everyone.

TWO BAIRD GOLFERS did right well at the Partnership Golf Tourney at the Abilene Country Club held last week end. A. E. Dyer, Jr., and Gene Finley paired up to take second flight. Each golfer was presented a set of championship woods. Understand they did some pretty good shooting. It would be nice if someone would spearhead a drive to build a golf course to serve the golfers of Clyde and Baird. Mrs. Jerry Nisle, the former Darlene Saunders, writes from Denver that she is now receiving the Baird Star and that it is like a part of home. They are living in Denver while husband Jerry is doing a hitch there with the Air Force.

DEPOSITS CONTINUE TO climb at the Baird First National Bank, and it is a fitting tribute to Mr. Bob Norrell and his fine staff, and to the other officers and directors of the bank. Personal deposits as of June 29 were \$4,716,348 as compared with \$4,702,108 a year ago and \$4,675,573 as of March 18 of this year. The bank continues to out strip all banks in towns of similar size in the area, and leads many banks in towns two or three times the size of Baird. The First National Bank has long been known and one of the most reliable anywhere. Congratulations.

Mrs. D. B. Greenberg of Richardson spent the week end with her sister, Mrs. D. C. Rogers, Sr.

199 Farmers Sign For Conservation

A total of 199 Callahan County farmers volunteered to become partners with Uncle Sam last year in conservation work on their farms, according to J. C. Earp, Jr., of the Agricultural Stabilization and Conservation Office.

"That's the number of farms that took part in the Agricultural Conservation Program (ACP)," he said.

Reports on the 1962 ACP show that 199 farmers in this county have received \$61,861.00 in federal cost - shares for conservation work on the farm. This money has already been put into circulation in establishing con-

servatio practices on the farm. The ASC County Committee processed 1962 purchase orders totaling \$41,242.00.

"These payments are made to vendors - folks who sell fertilizers and legume seed or contractors who sell services like bulldozing, aerial spraying, chaining, earth moving, rolling chopping, treedozing and root-pulling. So, this money directly boosts our local economy," Earp said.

Mr. Earp also pointed out that the government share is only part of the total cost. The farmer also stands part of the cost, putting up cash, labor, materials or equipment.

"Next time you're out for a drive," he suggested, "look around at some of the fine conservation work being done in our county. You're a partner in these projects. You benefit from additional income in the county and from assurance that your county resources of soil, water and woodlands are being cared for and improved - which means plenty of good nutritious food and warm clothing are going to be available for us all."

Civil Service Seek Health Technicians

The U. S. Civil Service Commission has announced a new examination for Laboratory and Clinical Technicians in Health Research paying \$4,565 to \$6,875 a year. Most of these positions are with the National Institutes of Health in Bethesda, Maryland, although positions in other agencies and in other parts of the country may also be filled.

These technicians work in medical research, clinical and control laboratories and provide assistance to research scientists and other professional personnel in activities connected with the medical, biological and physical sciences.

Varying amounts of technical experience are required for each grade. Appropriate education and training may be substituted for some of the experience. Full details may be found in Announcement 307-B.

Applications will be accepted until further notice by the Board of Examiners, National Institutes of Health, Bethesda 14, Maryland. Announcements and applications may be obtain-

ed from many post offices throughout the country or from the U. S. Civil Service Commission, Washington, D. C.

Annual Teachers Workshop At ACC

ABILENE - The 9th annual Bible Teachers Workshop, with instructors from many Texas cities, will be held at Abilene Christian College, July 22-25.

Last year the workshop attracted more than 2000 persons who came to learn more about teaching the Bible within the framework of the local church.

The workshop program this year will feature Bible school departmental presentations by churches of Christ from Irving, San Angelo, Houston, Dallas, Clyde, Abilene and Midwest City, Okla.

Featured speakers will be seven ministers: Wyatt Sawyer of Dallas, Clifton Rogers of Houston, Stanley Lockhart of San Angelo, Donald Sime of Memphis, Tenn., and Frank Pack, Carl Brecheen and Holbert Rideout - all of Abilene.

In addition, there will be 21 daily classes on various phases of Bible school work.

Dr. LeMoine G. Lewis, professor of Bible at ACC, is director of the workshop.

Tecumseh Topics
By Mrs. Lillian Crawford

The cry is that we need rain, stock tanks are getting low in water. This high temperature of 95 or 97 degrees will soon burn up the grass and crops if we don't get rain soon.

Mrs. L. V. Harris has been on the sick list since Wednesday, but is up and feeling better today, Sunday.

Sorry to learn that Gene Atwood of Abilene recently suffered an heart attack.

It was good to get the news that Edgar Crawford and family were coming from Garland to visit in this area for the Fourth of July holidays. Later the news came back saying they couldn't come for Mrs. Edgar Crawford was sick. She and daughter, Carolyn were working in a large department store and all of a sudden the air conditioner went off then the trouble started when several of the lady clerks became sick and Allene was one of the number. Later Allene was feeling better and insisted that Edgar and Eddie come on, had she not done so, Eddie would have been sick. He had plans to fish, hunt and ride horses on his vacation.

Just as it happened there was another boy here about his age

visiting country folks, that being Larry Magill, Colledge, Arizona. Boys are boys and enjoy getting out and scouting around. You know the old saying goes like this. You can take the boy out of the country, but you can't take the country out of the boy. Edgar being a full grown man, but being raised in the country he also enjoyed being out with these boys.

Edgar takes a group of boys (sponsored by the Assembly of God Church, Garland) once a month on an outing of which he and the boys enjoy very much.

Edgar told this on himself, so I'll pass it on to you. He said as they drove west of Fort Worth, July 4, that he noticed a beautiful horse along near the highway and after passing he decided to turn around and take some pictures. By this time the rider and horse were going up a hill, they kept going and he followed to the hill top just to get a picture of the most beautiful horse he had ever seen. I haven't told you yet about the rider. It was a woman, but he never once spoke of the woman as being beautiful, it was always the horse. Knowing Edgar as I do, I know he is fond of horses and enjoys taking pictures with his movie camera.

Edgar showed some color films, mainly to show off his grandbaby and believe me he thinks he has the only one. We are looking forward to having his family visit us, bringing the grandbaby and a picture of the horse for proof.

that things are burning up, too. Last Thursday, July 4, Mr. and Mrs. M. C. Miller had company. Their son and wife, Mr. and Mrs. Jesse Miller and two of their little grandsons, Gary and Ricky Miller, a granddaughter and family, Mr. and Mrs. Garland Gilbreth and son, Billy, all of Stamford, and Mr. and Mrs. Jack Smith of Abilene spent the day visiting in their home.

Doward Stone of Colledge, Ariz., was making pop calls in the Dudley and Oplin communities last Tuesday. Doward is a former resident of the Dudley community, but when he tried looking up old friends in the Oplin community, he wasn't having too much luck. When he stopped to see Mr. and Mrs. Herbert Rogers, there was a note on the door that read, "gone fishing." He did find Mr. and Mrs. Ray Floyd at home though.

The descendants of the late Mr. and Mrs. W. T. Johnson met at the Oplin Community Center for their family reunion. All of the brothers and sisters were

present, except Mr. and Mrs. Lewis Johnson who had to work that day. The family was honored to have a cousin and wife, Mr. and Mrs. Lewis Arthur of San Antonio, but formerly from Alabama, with them on that day. One of the girls, Mrs. Herbert Rogers reported that there must have been forty or fifty of the family present and "food," oh there was so much good food," she said.

Mrs. Herbert Rogers handed me a note of thanks that she had received from a former Oplinite in regard to our Oplin Homecoming. It read — "Thanks to everyone who helped to make possible the wonderful reunion. I've always loved Oplin. Seems others have too. (It was signed Eula Windham Preslar.)"

Robert Windham is to enter the hospital Wednesday night of this week and will have further surgery as a precautionary measure against a malignant cyst he had removed from his chest a few weeks back.

Donation to the Oplin Cemetery fund was C. M. Moore, \$5.
