Ed Brasher Dies In Farm Accident

Ed Brasher, 46-year old brother-in-law of Jodie Reesing, and a prominent Tulia businessman, farmer and civic leader, was killed about 4:00 p. m. Saturday in a tractor accident on his farm eight miles south of Tulia.

Brasher was hooking up a plow to a tractor, and apparently reached up to engage the hand clutch of the tractor while standing behind the vehicle. The tractor lurched backward, crushing Brasher. The Tulia man apparently died almost instantly.

In 1960 Brasher was named the outstanding citizen of the year by the Tulia Chamber of Commerce. He was active in civic and farm organizations.

He was a part owner of the Tulia Farm Equipment Co. and held interests in the Houston Elevator Co. of Tulia. He was past director of the Tulia Chamber of Commerce, and was on the board of stewards of the First Methodist Church.

Funeral services were held Monday in the First Methodist Church in Tulia.

Survivors are his wife, two daughters, Mrs. Gerald Schulte of Tulia and Miss Judy Brasher, a student in Texas Technological College; a son, Troy Brasher of Tulia; three brothers, Curtis Brasher of Tulia, Virgil Brasher of Lockney, and Verus Brasher of Petersburg; three sisters, Mrs. Hubert Viertel of Cranfills Gap, Mrs. Walter Hunt of Cotobata, Philippine Islands and Mrs. John Fraley of Corpus Christi, and his parents, Mr. and Mrs. Alford Brasher of Petersburg.

College Choir Visits Stratford

Dr. Floyd D. Golden

The Great Chicago Fire occurred in 1871, leaving homeless all but about 7,000 of a population of 77,000.

Miss Ann Caraway and her room mate, Miss Carol Lewis of Carlsbad, New Mexico, students in Lubbock Christian College in Lubbock, spent Friday night in the home of Miss Caraway's parents, Mr. and Mrs. H. H. Caraway. The young ladies are members of the 59 member A Cappella Chorus of the college.

The chorus sang in Dumas Friday night. Mr. and Mrs. Caraway and Mary Frances, and Mr. and Mrs. Dick Farris attended the concert and visited in the home of Mr. and Mrs. A. G. Everett who moved to Dumas recently. Misses Caraway and Lewis continued, with the chorus, on to Colorado, where they enjoyed the sights enroute, and presented concerts in Denver, Colorado Springs and La Junta, returning to Stratford for lunch Tuesday. Miss Caraway notified her mother that she was having lunch in a local cafe, so they enjoyed another brief visit at the cafe.

Artists Show Oil Paintings At Higgins

A group of local artist entered pictures in the Art Exhibit held Sunday near Higgins. The exhibit is an annual affair, being held the first Sunday in May since 1957, so that artists over the Tri-State area may get together and view the work done by others, and visit.

CARD OF THANKS

I want to thank all loved ones and friends who visited me in the hospital and brought flowers and gifts, and for the cards, gifts and flowers since I have been home. Your visits, cards and food have been appreciated very much. May God be with all of you.

Mrs. Lewie Brannan

The group enjoyed a basket lunch at noon, and welcomed the public, who were invited to view the works of art, from 3:00 to 5:00 p. m.

Those from Stratford attending were Mr. and Mrs. Newton Crabtree, Mrs. Charles Durr, Mrs. Homer Blake, Mr. and Mrs. Kenneth Kendrick and Osa Kay, Mrs. Frank Ross, Mr. and Mrs. R. J. Hill and children, Mrs. Dorothy Hastings of Dumas accompanied some of the Stratford artists.

Paintings were entered by artists from Oklahoma, Kansas and Texas.

First National Stubble Mulching Contest Announced

To add emphasis to the widely recognized and valuable cultural practice of stubble mulching, a national contest — the first — has been announced. It will be held in Wichita Falls July 26-28.

According to Jack Barton, extension soil and water conservation specialist and one of the instigators of the contest, stubble mulching is a practice, when properly carried out, greatly reduces both wind and water erosion. It is a year-round method of managing plant residues on cropland, says Barton. Harvesting, seedbed preparation, planting and cultivating are all done so as to have adequate residue or stubble from the previous crop on top of the soil until after the next crop is seeded.

Barton adds that keeping the stubble or mulch on the soil surface cuts down possible damage from wind erosion and helps keep rain where it falls. Run-off is less because the soil is in condition to take in water faster and should there be runoff, the mulch will slow the water and reduce erosion. Too, he says the decaying stubble will add valuable organic matter to the soil.

The primary objective of the contest is to stimulate interest and wider use of stubble mulching and support the programs of local soil conservation districts, advises Barton. He adds that any person 18 years of age or older on January 1, 1961, owning, operating or residing on a farm and whose principal income is from farming is eligible. Competition is open to the nation with cash and other awards provided by the sponsor.

Barton said local county agents have copies of the rules

Browns Write Of Mission In Arizona

Rev. and Mrs. J. O. Brown write of their work at the Casa Blanca Indian Mission near Chandler, Arizona.

Rev. Brown was the former pastor of the Assembly of God Church of Stratford.

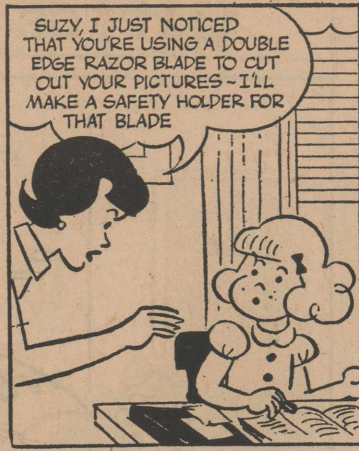

This has been a very interesting month getting acquainted with the people and their ways.

We are in the process of building a parsonage for Sister McCorkle, the other missionary here. We think we told most of you, she was living in one of the Indians sandwich houses. But the new Tribal Governor found an old Tribal Law which forbade any white man living in the Indian's houses. But we feel that it was the hand of God because the parsonage needed to be built.

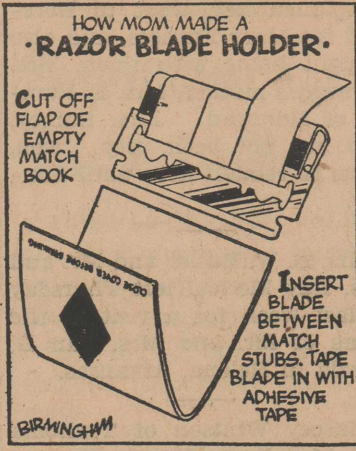

We had a very busy week end Easter. We cooked all day Saturday preparing the lunch to serve Sunday. We arose early Sunday morning and started the bus route to pick up the people at 5:00 o'clock for the sunrise service. We went to the Japanese mountain, where the Japanese prison camp was erected during World War II. As the sun arose it found us worshipping and praising God because He did come forth victorious over death and the grave to give us this wonderful salvation. There high on the mountain we felt so close to God. We thank him so much for his goodness. We came back to the church for Sunday School. Some of the people wandered off after church. I think because of pride because they did not have anything to bring for lunch and because they ate so timid. But for the ones that stayed, it was worth all of the work to see them eat.

It is so hard to believe that in a land of so much, there are people that have so little. Once a month a few are able to receive some surplus food. We run the route with the bus and

THE HANDY FAMILY

BY LLOYD BIRMINGHAM

pick up the people and carry them to Sacaton, (the tribal headquarters) to get these. Last month they got corn meal, flour, rice and dried milk. There were three long lines waiting. Some that were in the rear of the line were afraid the provisions would all be gone before their turn came. I heard some of them sadly say "There is no lard this month." I would like to have gotten some pictures of this, but knowing how proud these people are, I would not ask just yet.

We usually give several cans of milk a week to mothers with small babies. They will come to the mission and say "I don't have any milk for my babies. How our hearts go out to these people.

Pray that God will make a way for all the christian men to find work so they will be able to care for their families.

The day usually begins very early here on the reservation. There are men to take to work, people to carry to the hospital and sometimes children miss their bus and ask us to carry them to school. There is wood and water to haul for those that have no transportation.

Many hours are spent waiting on those we carry to the hospital as there are many waiting to see the doctor. But we are learning to take advantage of this by making our hospital calls, jail calls, and other calls in that vicinity.

Pray that God will give us a Holy Ghost revival especially among our young people. We have four classes in Sunday School now. But some of the young people are timid about coming in to their class, never having had a class by themselves before, and had rather stand outside and watch the teachers as they teach the little ones.

During many of our services we have drunks come in and try to hinder our service and at these times it is hard to hold the attention of the young people. But we know God is able to save even these that try to

hinder. Pray much for our work here, as your support is greatly needed for us to carry on this work of God, and will be appreciated.

The bus has been a great blessing to us here, but it costs us about \$50.00 a month to operate it. If any of you feel that you could help us with this it would be a great blessing to us and the Indian people. We feel that the bus has helped us to have a growth in our Sunday School and church services. Our attendance has been up every month we have been here.

State Capital Highlights

(By Vern Sanford)

From here on the Legislature must make every minute count if it is to wind up essential business before the regular session ends on May 29.

Despite the dwindling time, filibusters, postponements and disagreements have slowed progress on tax-raising and other "must" legislation.

The House-passed 2 per cent sales tax faces two ultimatums. Gov. Price Daniel said he could not allow it to become law unless the total money-raising program puts more of the tax burden on business and less on individuals. Sen. Henry B. Gonzalez of San Antonio said he would filibuster against the sales tax if it came up in the Senate.

State Comptroller Robert S. Calvert estimated the House sales tax bill would raise in excess of \$150,000,000 a year. This is higher than other estimates and would provide enough or nearly enough to meet estimated revenue needs. Calvert, by law, has the final and official say-so on tax yield estimates.

Governor Daniel's veto threat chilled earlier optimism about

BUILDING!
LET'S MOVE ON MATILDA!

You shut the door on damage to your grain when you store it in a permanent, versatile Timberib building. At the same time you get post-free space which permits mechanized grain handling.

When not used for grain storage, your Timberib building is ideal for machine storage, loafing barn, or utility building. And the cost? It's the lowest of any comparable building—

The Building Qualifies for the New 95% Storage Facility Loan, and will pay for itself within two years.

Please send me more information on a foot by foot building holding bushels of grain.

Please tear out and return.

Mrs. Brown Entertains Study Club

The Prospectus Study Club met Friday in the home of Mrs. Baskin Brown with Mrs. Bill Pendleton as co-hostess. Since several of the members had attended the state convention of Federated Clubs in Midland last week, the members were asked to wear the typical club woman's "convention hat." Many

unusual and unconventional hats were seen. Mrs. C. C. Plunk, Mrs. W. L. Pendleton and Mrs. E. R. Bell modeled the typical club woman's wardrobe. This was enjoyed immensely by the others. A report of the convention was given by Mesdames H. H. Caraway, Jim Taylor, W. L. Pendleton, E. R. Bell and C. C. Plunk. The club was especially proud of Miss Shelia Donelson, who won first prize in the Vogue junior sewing contest. The program was given by Mrs. Bill Allen and Mrs. R. M. Buckles whose subjects were Africa and China. They were

Size up the BIG WAGON!

The new TRAVELALL® by INTERNATIONAL is stylishly low in height, big and roomy inside. With all 3 seats in, it carries 9 big people. With seats adjusted, 6 and big loads, or 3 and giant loads. V-8 power is standard. Some models offer torsion-bar front suspension and box-section frame.

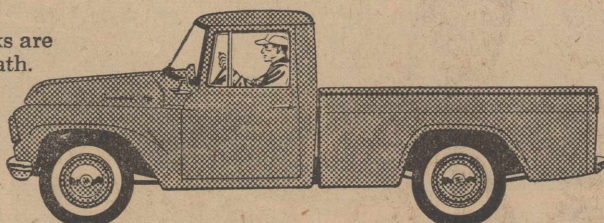

MEET THE SCOUT!

Made for work — and plenty of it — with a dash of fun thrown in. Carries 3 people up front. All-steel body hauls man-size loads of cargo. INTERNATIONAL 4-cylinder Comanche engine saves on gas and oil. Optional all-wheel drive provides traction anywhere. The Scout strips for action in minutes — doors, windshield and top come off. The Scout converts to a town delivery with an optional steel Travel-Top complete with side, rear windows, and lift gate.

PICK OUT A PICKUP!

INTERNATIONAL'S new light-duty trucks are different inside, outside and underneath. Plenty of head room, yet stylishly lower in overall height. Extra ground clearance, too — because mufflers and gas tanks do not hang down below frame level. INTERNATIONAL V-8 power is standard. Some models offer torsion-bar front suspension and box-section frame.

Secretary Of Agriculture Comments On Soil Stewardship

Soil Stewardship Week, observed annually and sponsored by the National Association of Soil Conservation Districts in cooperation with church groups, is scheduled for May 7-14. The observance is aimed primarily at pointing up the importance of good soil stewardship to the economic well-being of the United States today and in the future.

Commenting last week on the observance, Secretary of Agri-

culture Orville L. Freeman said, "Soil stewardship, as applied to passing our productive land on to future generations in as good or better condition than we received it, cannot be over emphasized when one is aware of the demands from home and abroad that will be placed on our land in the future. As we think of President Kennedy's Food for Peace program, relief for distressed areas in our

homeland, and the expected increase in population, we in the Department of Agriculture, as well as the farmer and ranchman, become only too aware of the importance of the land to the future well-being of the nation.

"It is fitting that a week should be set aside emphasizing man's responsibility as a steward of the land. We who live in a Nation of plenty need to pause and reflect on our fortunate state. We need to renew our awareness of the permanence of the land as compared to the short time we may devote to the husbandry of it."

The Secretary urges citizens everywhere to join with the local soil conservation districts and churches in this special observance.

ate's. Committee's task of striking a balance between the two is expected to take three weeks.

Senate members of this important committee are Senators Ray Roberts of McKinney, A. M. Aikin Jr. of Paris, Crawford Martin of Hillsboro, Grady Hazlewood of Amarillo and Wardlow Lane of Center.

House members are Representatives James Cotton of Weatherford, Bill Hollowell of Grand Saline, B. H. Dewey of Bryan, J. W. Buchanan of Dumas and Malcolm McGregor of El Paso.

Teacher Pay Pushed
Advocates of higher teacher salaries are pushing to get their

bill in position for quick final action once the money-raising and general appropriations measures are out of the way.

House Appropriations Committee approved and sent to the floor a bill that would provide the full \$800 a year salary increase sought by teachers.

Goal is to get a pay raise bill passed in both houses, then send it to a conference committee to work out differences. Then at the strategic moment, it would be ready for final adoption by both houses.

Training Methods Scored

House members are pressing for speedy action for a measure that would require less emphasis on "how" and more emphasis on "what" in public school teacher training.

Rep. Henry C. Grover of Houston, a teacher on leave, is sponsor of the bill that would reduce required education (teacher method) courses from 24 semester hours to 12 for junior and senior high teachers. For grade school teachers the maximum would be reduced from a possible 60 to 24 semester hours.

One supporter observed that the late Albert Einstein would not have been eligible to teach mathematics in a Texas high school. House voted to instruct the Education Committee to report on the bill immediately.

Ranchmen Warned Of Spread Of Poisonous Range Plant

Ranchmen in the western half of Texas are advised to be on the alert for a plant invader that is spreading — threadleaf or wooly groundsel. G. O. Hoffman, extension range specialist, says the gray-green, yellow flowered plant is now about 18 inches tall and the flowers are too mature to use chemicals for control as the seed would mature after the chemical application.

The plant is a member of the senecio family and is especially toxic to cattle. The senecios contain an alkaloid poison which usually causes abnormal births in cattle and possibly

some abortions, according to Hoffman. He adds that cattle which are grazing senecios usually have yellow on their noses. He suggests they be moved to a pasture which is free of the plants. Heifers with their first calves usually are the heaviest grazers of senecios.

Since it is too late to use chemicals for controlling the plants, Hoffman suggests that if the infestation is light, a sharp-shooter shovel or a grubbing hoe be used to dig up the plants. They should be hauled immediately from the pasture, stacked and burned to kill the seed. If the plants are dug and left on the pasture, cattle will graze them when they begin to dry and the seed may also be scattered by the wind.

Hofman emphasizes the need for digging the plants immediately to stop the spread of this range invader.

LAFF OF THE WEEK

"By the way, whatever happened to that other fellow who used to be in your act?"

Two Firms Burglarized

Two Stratford business firms were burglarized Wednesday night of last week. Watches, cigarette lighters, bracelets, cigarettes, candy and coins from the cigarette machine and record player were taken from the Queen 'O' Creme. Coins in the change box at the E-Z Automatic Laundry were removed.

Correction

Due to an error in the honor roll copy turned in to the Star last week, Mrs. Smith's eighth grade was listed as the seventh grade and Mr. Hanes' seventh grade was listed as the eighth grade. Some of the eighth grade students complained immediately that they didn't appreciate being "demoted".

the same size. Pressure to force agreement on a re-districting bill will be very strong since, if the Legislature fails to act, a non-Legislative Board will take over.

Gloomy Reports
While lawmakers struggled to find new taxes, the news about present taxes was bad all over.

State Treasurer Jesse James reported that Texans apparently are not smoking and drinking like they used to, causing a million dollar slump in tobacco and liquor taxes in April. Revenue dropped from \$8,889,855 in March to \$7,362,176 in April. Motor fuel tax revenue was also off, according to State Highway Engineer DeWitt Greer. A 3 1/2 per cent drop during the past eight months cost the state \$3,000,000.

Meanwhile, in the Third Court of Civil Appeals, the state lost in an effort to collect a state sales tax on component parts of radio sets, such as hi-fi tuners. Court said the law is

Joint Concert At PAMC

Panhandle A. & M. College at Goodwell presented a joint concert of the band and A Cappella Choir this evening.

May 2, 3 and 4, "The King and I" was presented by the speech and music departments of P. A. M. C. Some of the youth of Stratford were in all of these programs, and several from here attended.

APPRECIATION

I would like to thank my neighbors, friends and relatives for all the kindnesses shown to me and my family while I was in the hospital. For all the cards, flowers and visitors, I am deeply grateful. These kind deeds will not be forgotten.

Loan Dispute Flares

Words were hot, but the issues unclear, as Senate committee hearings on a small loan bill stretched out.

Critics of the House-passed bill fell into at least two factions: (1) those who felt the interest rates (up to 40 per cent on the smallest loans) were too high and (2) those who felt over-all charges should be higher for loans of \$100 and less.

Meanwhile, Atty. Gen. Will Wilson issued a statement blasting "powerful out-of-state loan sharks" trying to "bottle up" regulation. Senate Committee invited him to appear and discuss the matter with them.

More Neatniks Needed

Amid its \$7,000,000 a year job of gathering up mountains of litter from public roadsides, the Texas Highway Department issued a plea to Texas motorists.

Pleasant don't use the highway as a trash can, said the Department; be a "neatnik" and save on state costs.

Most of the litterbugs, says the Department, are home grown, not out-of-state visitors.

Action And Reaction

After thousands of college students took a long, riotous weekend in Galveston, the Senate called on the Higher Education Commission to look into why the students weren't at their books.

In the opposite wing of the Capitol, the House passed two measures concerning the Gulf Coast area.

One would authorize the state to turn over 88.5 miles of Padre Island to the federal government for national park development. Other is a proposed constitutional amendment that would give city and county governments authority to regulate traffic and sanitation on adjacent state-owned beaches.

A state agency, such as the Highway Department, would be authorized to set flexible speed limits, according to road conditions, under another proposal for constitutional change given House approval.

House also passed a proposed constitutional amendment removing the present \$47,000,000 a year ceiling on state welfare spending. Change would allow Legislature to appropriate for welfare as needed, up to the amount that would be matched federally.

Sixteen-year-olds accused of very serious crimes would be tried as adults rather than in juvenile court under a House-passed bill. Present minimum age for adult handling is 17 for boys, and 18 for girls.

Running for one state office while holding another would be barred under a proposed conti-

tutional amendment given preliminary House approval.

All proposed amendments

have to be approved by the people in the 1962 general election before becoming effective.

1961 Feed Grain Program Permits Planting Adjustments

Rules about adjusting "excess" acreages of corn and grain sorghum under the 1961 feed grain program will be the same as under the regular allotment programs for the so-called "basic" crops, according to R. C. Buckles, chairman of the County Agricultural Stabilization and Conservation Committee.

This means that a farmer who intends to cooperate with the feed grain program but who unintentionally plants more acres of corn or grain sorghum in 1961 than are permitted for

his farm as a "cooperating" farm will have an opportunity to plow up the extra acres in order to meet program requirements. In such cases, however, there will be a deadline for making such adjustments in the planted acreage. (The farmer must pay the cost of measuring the adjusted acreage).

In estimating the total planted acreage, the chairman points out, any acreage planted to field corn to be used for silage or to grain sorghum to be

The setting for the banquet conveyed attractively the "underwater" theme with aqua-blue background walls and ceiling. At the entrance, bubbles floated above antique-white sea-netting which highlighted a sign-post that read "Welcome to Paradise of the Deep." Inside, life-like cut-outs depicting sea life adorned the walls and water lilies were glimpsed overhead. Coral reef and seaweed were arranged around the room and added a realistic touch. Eye-catching and arranged beautifully was the program area, which had a backdrop of pastel coral and seaweed. Antique netting draped effectively, offset the program area and formed a frame for an old-fashioned gilt "treasure chest" filled with treasure.

aqua and white and held favors of treasure chests filled with nuts and mints for each guest. The dinner which consisted of "Captain's Choice, Sea Gull Supreme, White Caps, Coral Reef, Fresh Ocean Seaweed, Mermaid's Delight, Ocean Rolls, Neptune's Favorite and Sea Foam" was attractively served by servers in red, white and blue costumes fashioned "navy" style.

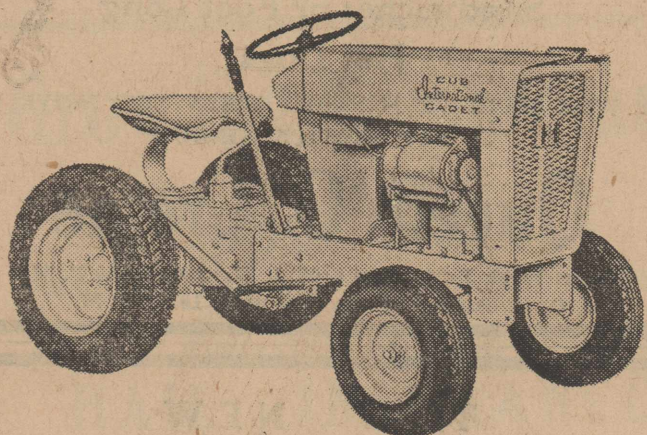

Doug McBryde was master of ceremonies. Rev. Raymond T. Dyess gave the invocation. Joe Elms, junior class president, gave the welcome, and Gary Dettle, senior class president, made the response. The senior class history was read by Jimmy Gore and the Senior Class Will was read by Beverly Baker.

An entertaining and delightful program was called "Neptune's Court" was presented by members of the Sophomore Class. Mike Peterson dressed as a clam-digger, pantomimed "Sea Cruise." A piano selection, "Shrimp Boats," was given by Jack Morgan. An enchanting dance by the sea was done by Sea Sirens, Charlene Wisdom, Lorelei Harding, Joyce Scott, Louise Stone and Yvonne Gamble, with the aid of Muscle Men from the Beach, Pat Donelson, Jack Standefer and Scott Whorton. The dancers were

dressed in old-fashioned swim suits. To close the program, Linda Plunk, dressed in a metallic mermaid costume, sang "Red Sails in the Sunset." Rev. Raymond T. Dyess pronounced the

benediction. From 9:00 until 12:00 the guests danced to the music of Swing Kings from Pampa and sea foam punch and cookies were served.

used for silage will be counted as a part of the total corn or grain sorghum acreage on a farm in 1961. Such acreage was likewise counted in determining the farm's base acreage under the program.

Mr. Buckles reminded farmers that the signup of growers who intend to take part in the 1961 feed grain program now is under way in the County ASC office. If they have not already done so, corn and grain sorghum producers who intend to participate should file their intention immediately.

May 31 is the last day corn and grain sorghum producers may file applications to take part in the 1961 feed grain program.

(By Jean Anne Ross)

This week in art we made mothers' day cards for our mothers. We painted a rose on the outside of them and made envelopes for them. Then we wrote a note inside. Our mothers liked them very well.

In history, we have been studying about World War I, and World War II. It's very interesting.

Some of us made posters about "It Happened in May". There are many things that have happened in May, like Mothers' Day began in 1914, Dewey won the battle of Manila
