

Girls Win District Title; Elks In 2nd Place Cattlemen Hear Progress Plans

Stratford Elkettes won the championship of district 1-A Tuesday night by defeating Gruver 55 to 50 in a close game. White Deer girls had been in a dead heat with the Elkettes for several games, but fell before the Gruver girls in a game Friday night. In nosing out Gruver, the Elkettes held their record of winning nine of the ten conference games while White Deer girls had lost two of the ten games.

The district champions expect to play the champions of district 2-A on a neutral court on either February 26 or 27 in the first game of the regional tournament. At present it appears that either Clarendon or Canadian may claim the district 2-A championship. Little is known of the strength of the Canadian team. Clarendon has the reputation of having the tallest team in the Texas Panhandle but little is known of their speed.

The Elkettes have won 27 of the 30 games they have played during the season.

Stratford Elks came in second in district 1-A by running wild over Gruver 68 to 38. During the conference play they won six and lost four games. They have played 27 games this year and have won 19. White Deer finished their conference games to win the district championship by winning all ten games.

Stratford Elkettes trailed behind Gruver at the end of the first quarter. They had gained a three point lead at the half, and increased it to five points at the end of the third quarter.

Donna Boner was high point forward for the Elkettes in the final game. She was supported in the scoring plays by Joyce Scott and Charlotte Eller. Shelia Donelson, Billie Robbins and Elaine Cummings, turned in outstanding performances as guards. Charlene Wisdom and Carolyn Wright, substituting guards, held the Gruver forwards under control during the last minutes of play when they were working under pressure.

Gary Garoutte was high point man for the Elks in their game with Gruver. He scored 19 points, playing his last game with the Elks as a senior.

Jack Standefer and Pat Donelson, guards, and Dan Newman, center, earned honorable mention for playing an outstanding game.

T. V. Weaver Dies In Fort Worth Hospital

Troy V. Weaver, 62, an agronomist with the Soil Conservation Service in Stratford in 1936 and 1937, died in a Fort Worth hospital January 24, it was learned by friends here this week. Weaver was ill for only a few days before his passing.

Weaver had operated the T. V. Weaver Real Estate and Insurance business in Fort Worth for the last 20 years.

He was a native of Eastland County. Weaver had affiliated memberships with the Masonic Lodge of Comanche, Mosiah Temple Shrine, United Commercial Travelers of America, and Matthews Memorial Methodist Church.

Survivors include his wife; two daughters, Mrs. C. W. LeDoux and Mrs. C. W. Dowdy of Fort Worth; his mother, Mrs. E. L. Weaver of Fort Worth; three brothers, C. L. Weaver of Fort Worth, Club Weaver and Woodrow Weaver of Levelland; a sister, Mrs. J. D. Worley of Farmington, New Mexico; and seven grandchildren. Funeral services were held in

Harry Schultz Candidate For District Judge

Harry Schultz announces his candidacy for re-election to the office of District Judge of the 69th Judicial District subject to the action of the Democratic primary election Saturday, May 5. In announcing his candidacy and asking the voters of the district for their consideration in the coming election, Schultz made the following statement.

"To The People Of The 69th Judicial District:

I am grateful to you for the privilege of serving you as District Judge. I hope that my services have been sufficiently satisfactory to merit your vote for my re-election. In trying to merit your confidence I have given unceasing attention to the following matters:

Case Load: Although the case load in this District is heavier than that of any other Court outside of the cities in this State, I have kept the dockets current. That is, all cases have been disposed of as rapidly as the legal procedures permit.

Pre-Trial Procedures: Contributing greatly to rapid disposition of cases has been my purposefulness in using pre-trial procedures in civil jury cases. By these procedures every effort is made (far in advance of the dates set for trial) to stream-line the cases. This results also in saving much of the time of jurors sitting in the trial of those cases. Much jury expense, time and inconvenience of jurors is also eliminated by keeping in touch with cases set for trial and if something unforeseen occurs to delay trial of the cases, then the jury panel is notified not to report.

Good Appellate Record: The pre-trial procedures have also aided greatly in getting cases tried correctly and in accordance with the requirements of law; thus avoiding reversals by Appellate Courts. Among the dozens of cases tried by juries and appealed, only one civil and two criminal cases had to be tried again because of reversal by the Appellate Courts.

Adult Rehabilitation Work: After a recent session of the Legislature passed legislation authorizing it, I succeeded in getting the counties to employ a full time district adult probation officer. Now most of the first offenders are being rehabilitated in their own homes without being committed to the penitentiary. While they are being rehabilitated under the supervision of the probation officer they are working and supporting themselves and families. At this time there are about 115 such cases.

Increasingly effective work is being done toward rehabilitating alcoholics who violated the law.

Child Welfare: With the indispensable help of the members of the County Child Welfare Boards outstanding work has been done in a great many cases in protecting the rights and welfare of children of broken homes and dependent and neglected children.

All of which is to say I've done my best. I hope that my efforts merit your vote and support for my re-election to this office."

The girl friend asked him if he liked moving pictures; then invited him to help clean out the attic.

Owens & Brumley Funeral Chapel and burial was made in Laurel Land in Fort Worth.

Stratford Elkettes clinched the district 1-A girls basketball championship here Tuesday night, defeating Gruver 55 to 50. They expect to meet either Clarendon or Canadian in the first game of the regional tournament.

Pictured above is the Elkettes first team composed of Charlotte Eller, Joyce Scott, Billie Robbins, Elaine Cummings, Donna Boner and Shelia Donelson.

Charlene Wisdom and Carolyn Wright, substitute guards, not pictured, held the Gruver forwards at bay during the last part of the game with Gruver.

H. S. Hawkins Succumbs To Heart Attack

Funeral services for H. S. Hawkins, 79-year old senior resident of the Texas and Oklahoma panhandles, were conducted Friday at 2:30 p. m. in the First Methodist Church in Texhoma by Rev. J. H. New, pastor of the First Baptist Church, assisted by Rev. Mitchell Lowery, pastor of the church.

H. S. Hawkins died Tuesday of last week in Memorial Hospital in Guymon following a heart attack. He was ill for two and a half days. Hawkins' death, February 6, 1962, was preceded by the death of his wife February 6, 1961.

Mr. and Mrs. Hawkins had made their homes in the Panhandles of Texas and Oklahoma since 1917.

Mr. Hawkins was engaged in farming most of his life. He operated the Chevrolet and Allis-Chalmers agency in Texhoma for a few years. For a number of years he served on the Sherman County A.S.C. Committee, retiring from public life in 1948.

H. S. Hawkins is survived by one son, Clifton R. Hawkins of Texhoma, three grandchildren and six great grandchildren.

(By Walter Rogers)
The Sugar Trust

Signs are appearing daily indicating that the sugar trust has not been asleep. It was thwarted three years in a row in its attempt to gain a long-term extension of the Sugar Act. It was forced on each of these occasions to resort to scare tactics and "emergency" talk and unfair procedure tactics in order to obtain short-term extensions to further hide the complete truth from the American people. They do not want the Sugar Act or the sugar problem debated openly on the Floor of Congress. They know that the American people and the American farmer have been hoodwinked and that if all the facts are made available and are understood by the people of this country, their heyday is at an end.

They are a powerful group, with control of several hundreds of millions of dollars annually, out of which they reap huge profits. By virtue of the power associated with these tremendous sums, they have been able to retain a law that requires the importation from foreign sources of approximately 45 percent of the sugar demand in this country. This means that approximately 5,000,000 tons of sugar are imported into this country each year. At a value of five cents a pound, this would mean an overall transaction of approximately \$500 million. This half-billion dollar business is handled through approximately 12 refineries and it is generally assumed that the ownership of these refineries is by a lesser number than 12. This will give you some idea of the small, compact group that has a throttle-hold on the sugar needs of this country. All of the sugar, with a very minute exception, must be channeled through these refineries because it is raw sugar and could not be imported into this country if it had already been refined. Hence, these refineries are guaranteed a refining process business of half a billion dollars worth of sugar each year. The next question is, where does the sugar come from? Not from American farmers, either in the continental United States or any of our possessions or other States. It comes from foreign countries under the provisions of the law. It is this law that the sugar trust does not want amended.

Up until about two years ago, Cuba furnished this country three million tons of sugar of a value of approximately \$300 million. When Cuba went Communist, we stopped purchasing sugar from Cuba, or thought we did. At that time it was the hope of the American farmer, who had long clamored for the right to grow more sugar beets, that he would be allowed to produce some of this sugar allotment that we had taken away from the Communist country. However, he failed to reckon with the half-billion dollar sugar trust. These fellows had not been asleep. They immediately went to work and procured the extension of the Sugar Act through the Congress without debate in the House of

Representatives. (Continued on Page 6)

A good representative group of Sherman County cattlemen attended the brucellosis meeting Tuesday and heard a progress report on the brucellosis program in Texas by Dr. Zirkle.

Dr. Zirkle has charge of all brucellosis field work in West Texas. He reported rapid expansion of brucellosis free areas in West Texas. Five crews are busy keeping up with the demand for testing cattle under this program in his area.

Local livestock men expressed interest and asked many questions about the advantages and disadvantages of Sherman County becoming a modified brucellosis free area. Dr. Zirkle said he thought it was a good livestock program and that livestock men would find less restriction in movement of cattle if the county was certified as a modified brucellosis free area. Also he did not think inspectors would find many cattle infected with brucellosis in this county.

He pointed to restrictions of free movement of cattle in an unclean county compared to a clean county and said more restrictions would be placed on movement of cattle in unclean areas June 1. He explained that sales rings in Texas mark cattle with colored paint to designate origin of cattle. If cattle came from unclean areas green colored paint was used. This practice affects the sale price of cattle and tended to restrict freedom of movement. Federal laws affect interstate movement of cattle in unclean areas and cattlemen can expect stricter enforcement he said.

The brucellosis program and other problems affecting the cattle industry locally and what cattlemen want done about them are being considered in some adjoining Panhandle Counties currently, E. Goule stated. He also gave a progress report to the group on Southwest Animal Health Research Foundation in Texas.

Modern gas appliances pay dividends in better living!

A GAS AIR-CONDITIONER
Automatic year-round gas air conditioning offers a new standard in comfort for your entire home. Blissfully cool in Summer... cosy and warm in Winter with no stuffiness and no dampness no matter what the weather. And gas air conditioning is so quiet, so clean and so economical. There's nothing like it.

A GAS WATER HEATER
Millions of families have proved there is nothing to match the performance of an automatic gas water heater. Plenty of hot water is one of the "musts" of modern living... and gas provides it whether your home has one bath or four. With gas, you not only get more hot water faster; you get it more economically too.

A GAS REFRIGERATOR
Revolutionary new gas refrigerators with "built-in" styling provide greater cooling and freezer storage in more compact space. Automatic ice cube maker does away with trays and messy filling. And gas refrigerators are quiet (a tiny flame does the work)... dependable (a 10-year warranty)... and economical, too.

GAS HOME HEATING
Automatic home heating with gas is more popular than any other kind in the country today. Gas heat is so clean, so safe, so economical... and just plain comfortable that wherever it is available, people prefer it. And you get the fresh, circulated air the modern home should have.

GRACIOUS GAS LIGHTS
A new fashion in modern living is gas lighting for entrances, lawns, patios and pools. The soft glow of contemporary or traditional gas lights lends graciousness to every home. So many families have found gas lighting delightful that there are more outdoor gas lights in America today than when gas was the major source of illumination.

A GAS CLOTHES DRYER
The gentle warmth of automatically controlled gas has replaced the sun for drying the clothes of modern families. It makes your clothes so bright and fluffy, so clean smelling... and it costs so much less to use. There is no greater convenience than an automatic gas dryer. It banishes drudgery at the touch of a dial.

AN AUTOMATIC GAS RANGE
For today's "gourmet" cooking and convenient housekeeping, there's nothing like a new automatic gas range. You get such pleasant advantages... radiant steak broiling on both sides at once, automatic temperature-controlled top burners, and ovens that "hold" the roast 'til you're ready. All in a world of colors with both built-in and "free-standing" styles.

Lunts Named P-TA Family Of The Year

Mr. and Mrs. Wesley Lunt and their twin sons were named "family of the year" by the Sunray P-TA this week. Like their parents, 10-year old fifth graders, Harry and Gary, are natives of the North Plains.

Besides the family's participation in P-TA work, all are active in the First Baptist Church and the Boy Scouts. Lunt is a member of the Sunray Lions Club and the school board. He is president of the Band Boosters organization, and a member-at-large of the Moore District Boy Scout Council. He is also a 32nd degree Mason, a Shriner and a member of the Eastern Star.

Mrs. Lunt is president of the 20th Century Study Club and a member of the Eastern Star.

The Lunts have a farm in the southeastern edge of Sherman County.

LETTERS To The Editor

Dear Editor: Why should the proprietor of a theater show movies that play to an empty house?

Last week end "St. Francis of Assisi", rated top flight family entertainment by Parent's Magazine, was featured at our lo-

girls ventured out in shorts as the winter sunshine bathed the high plains with summer weather.

Wednesday morning a slow mist began picking up momentum at 8:30 a. m.

Wheat is growing rapidly in the first extended period of warm weather that has visited the plains since freezing weather began earlier in the winter.

Throughout the nation, temperatures generally were mild Monday with the exception of the northeastern portion of the nation, with New England, New York and the Great Lakes region reporting minimum temperatures around zero.

In the far west, California was getting a respite from the deluge of rain inundation the Los Angeles area had experienced for several days. Rains were expected to be over for at least two days and maybe more.

In the Tri-State area, minimum temperatures included Amarillo 47, Lubbock 47, Pampa 55, and Perryton 46.

This is not an isolated case. In our community good movies often receive poor attendance, while shows featuring crime and violence are well attended.

If we hope to have better movies and cleaner literature in our community we must support it with our dollars and cents, not with talk alone. The only way the merchants have to evaluate our interest is the cash register. Our slightest action is of more value than the largest intention.

The next time a good, clean movie is shown, take your whole family. It's up to you.

Newton Norman Minow is chairman of the Federal Communications Commission. He is 36 years old, and a most efficient man. He is interested in the influence our TV shows are having on our young people. He doesn't want censorship or control, but feels that our broadcasters have an obligation to use the medium to elevate, inform and uplift as well as entertain the public.

Are you as a parent concerned? Or maybe you haven't given it much thought. Have you ever considered the influence it does have on all our lives? Try sitting in front of a television set all day (for just one day). What do you suppose you'd end up with, information, entertainment or just plain boredom. In most cases the latter is true. Our television shows have not improved with age, and if we as parents don't take an interest, who will. Do you ever tell the children they can't watch a certain program? Some employ brutality in excess of that necessary to the story line, or purely for shock purposes. Then there are those with a low moral ton which are occasionally or consistently in conflict with Christian standards of morality and decency. Watch some of the shows your children watch, and you're sure to recognize them.

What can we do about getting better television? Try writing a letter to Walt Disney or other producers that do put on an outstanding program. It takes only a few minutes, and they would appreciate a word of praise, just as we do in our daily efforts. They are serving their (Continued on page 4)

"My washing is dried inside, out of the cold... electrically,"

says Mrs. Jimmy

Sterling, SEAGRAVES, TEXAS

Mrs. Sterling appreciates drying her clothes inside, out of the weather, and with Carla, age 2½, and the baby, Bliss, barely 8 months old, Mrs. Sterling really enjoys the time her electric clothes dryer saves her. She comments, too, on the feeling of her electrically-dried clothes, "Towels are so fluffy and diapers are so soft." You'll agree with Mrs. Sterling when you get your electric clothes dryer.

State Capital Highlights

(By Vern Sanford)

Candidates flooded this capital city as the filing deadline arrived. Politicians came to town to pay filing fees for state offices at both the state democratic headquarters and the republican camp.

Thousand dollar fees were paid in many ways: One thousand one-dollar bills, one hundred ten-dollar bills, and varied contributions from friends of the candidates.

A former athlete brought a handful of ex-football stars along, to show that he had a sporting chance.

There were very few surprises at the State Democratic Committee. Gubernatorial candidates John Connally, Marshall Formby, Will Wilson and Maj. Gen. Edwin A. Walker had paid before the deadline; Don Yarborough was expected, and everyone knew Gov. Price Daniel would show up after his TV announcement.

Austin Attorney Bob Looney arrived at the last minute to join Tom James, Tom Reavley, Waggoner Carr, W. T. McDonald and Les Procter in the attorney general's race.

Keith Wheatley, 27-year old Stamford oil operator, decided to oppose Railroad Commissioner Ben Ramsey in the May primary.

Both Looney and Wheatley filed without paying, but plunked down their \$1,000 fees by the February 8 deadline.

Joe R. Pool, Dallas attorney, Charles H. Stevenson Jr. of Nueces County and rancher Phil Willis of Kaufman County, made the same sort of financial transaction as candidates for congressman-at-large.

Cards of Thanks

APPECIATION

I would like to say "Thanks" to everyone for the cards, flowers and visits while I was in the hospital and since I have been home. They were sincerely appreciated.

Mrs. Owen E. Hudson

CARD OF THANKS

I would like to use this means of saying "Thank You" to the kind and thoughtful friends and neighbors who did so many nice things for my folks, Mr. and Mrs. A. L. Sutton, during mother's illness and convalescence. In this world of selfishness it is nice to know there are still people who follow the Christian teaching of "Love thy neighbor." Many sincere and grateful thanks to you all.

Helen Forester, Hayward, California

CARD OF THANKS

I want to thank all of my friends for the cards, flowers

W. Hervey and Mitchell County District Judge Eldon Mahon forfeited their right to run for congressman-at-large when they failed to follow filing with payment of filing fees.

Indicative of the expected turnover in both House and Senate is the democratic line-up for lieutenant governor. Speaker of the House James A. Turman, Senators Preston Smith, Jarrard Secrest and Robert Baker, all are abandoning present posts to seek the state's second highest position. Gene Smith of Fort Worth is the only non-legislative candidate for lieutenant governor.

Republicans Rally

"Rebirth of the republican party in Texas" has been widely discussed. It was quite evident when filing time was over that considerable progress had been made. If the party wasn't

reborn it certainly was revitalized.

Breckenridge oilman J. Cox, former democratic candidate for governor who announced for the GOP months ago, two opponents at the county level. One was Amarillo rancher-publisher Roy Whittenb who polled 185,926 votes when he opposed Ralph Yarborough in the U. S. Senate in 1958.

Other was Harry Diehl, House factory representative, who was one of the 71 who ran for Landon Johnson's senate seat in 1958.

The republican line-up for house and senate seats is impressive. Fourteen republicans are campaigning for 10 of the senate seats. And 74 republicans have filed for 70 of the representative offices.

This is the Ford Fairlane's new Challenger "260" V-8.

There's no other V-8 like it. It's the latest in a series of Ford V-8 triumphs that started back in 1932 when Ford introduced the world's first popular-priced V-8. Today—30 years and 30 million V-8's later—the Challenger "260" adds new fuel to the hottest performance record in V-8 history. It gives you all the time-tested toughness of iron—with a lightness and compactness iron never had before. A muscular 164 hp, this new Challenger "260" V-8 is all snap, sparkle and smoothness. It runs on regular, yet gives you better gas mileage than any standard-size 6-cylinder car. Price it and you're in for a surprise—a Fairlane V-8 carries a smaller price tag than some compact Sixes. And, of course, a Fairlane gives you big-car room and fine-car quality you'll find in no other car anywhere near Fairlane's amazing low price. There's never been a buy like Fairlane because there's never been a car like Fairlane; that's why this all-new car from Ford is now out-selling every other "new-size" car!

FAIRLANE 500 . . . Right size . . . Right price . . . Right between compacts and big cars

"Our Family Checking Account Is The Best Tax Record We Ever Had!"

"Two years ago we were just sick about our income tax. We knew we had more deductions, but we couldn't prove them. We had either lost some receipts, or just neglected to get them. So we paid more tax than we should have.

"So last year we decided to open a checking account with the friendly people of The First State Bank of Stratford. And are we glad! Our cancelled checks are just like receipts, and our tax this year was a lot less because we could prove every deduction.

"We have only one regret, we should have opened a checking account at The First State Bank sooner."

Buckles And Browder Elected As Co-Op Chiefs

R. C. Buckles was re-elected president of the Rita Blanca Electric Cooperative and XIT Rural Telephone Cooperative at joint meetings of the two co-ops Wednesday of last week. More than 300 attended the gathering at Lake Rita Blanca Park Coliseum in Dalhart.

Luther Browder was re-elected secretary-treasurer, and a member of the board of directors.

It is hoped, said R. L. Elliott Jr., manager of the co-ops, that the Kerrick Exchange, to serve most of Sherman County and Northeast Dallam County, can be put into service in about 90 days.

Cub Scouts To Receive Awards Feb. 24

Eligible Cub Scouts who are accompanied by their parents will receive their awards at the annual blue and gold banquet given in their honor at the County Exhibit Building on Saturday, February 24. The February pack meeting will be held at this time.

Joe Nesbitt of Dalhart will be the guest speaker. R. C. Buckles will serve as toastmaster.

Gamma Xi Initiates New Members

Three new members were initiated into Gamma Xi Chapter of Delta Kappa Gamma Society

International when members met in Sunray High School Saturday afternoon for their February meeting.

Initiates were Mrs. Mildred Chiles, Mrs. Billie Denman, and Mrs. Bonnie Airhart. Their escorts were Miss Sylvania Dennis, Mrs. Vera Tuck and Mrs. Julia VanBebber. The initiatory service was conducted before a table bearing the chapter insignia, red candles in gold candlesticks, and an arrangement of red roses.

Those conducting the service were Mrs. Eula Vick, president, Mrs. Marie Reynolds, Mrs. Lois Bassett, and Mrs. Frances Holden. Mrs. Mildred Bosler played piano selections for the service. To finance the annual scholarship award by the chapter, a white elephant sale was held.

Miss Lucile Hughes conducted a study on the Delta Kappa Gamma constitution, and Miss Jewell Foster gave information on pending changes to be made in the regulations of the society.

Mrs. Vick presided during the business session with Mrs. Anna Elliott substituting as secretary. The next meeting date is 2:30 p. m. March 3, in Stratford high school. At that time the program highlight will be a chapter birthday celebration.

Gamma Xi members attending were from Dalhart, Hartley, Dumas and Stratford.

Members from Stratford attending were Mrs. Lorraine Mehner and Mrs. Charles Cameron.

• To The People

Representatives, and without hearings before Committees, as is the proper procedure. This extension included a term which denied to the American farmer the right to produce as much as one pound of the sugar that had formerly been purchased from Cuba. It did not even give the President of the United States the right to authorize the American farmer to produce any of that sugar, because in each instance where this sugar was referred to in the Act, the authorization to purchase contained the term "from other foreign countries" or "from any foreign country." The use of the word "foreign" successfully blocked the American farmer from participating in the market of the American consumer to any further extent than he had participated prior to the discontinuance of purchases from Cuba.

A small but vigorous minority group of Congressmen who know and understand this situation have fought bitterly to obtain fair treatment for the American farmer and for the American consumer. If the American farmer were allowed to produce in this country one-third of the amount of sugar formerly purchased from Cuba, it would enable 400,000 acres of land now being used for growing surplus crops to be used for growing sugar beets; it would help to

stop the outflow of American dollars; it would invigorate the agricultural communities in a number of areas throughout the United States; it would make it possible to build at least ten additional sugar processing plants in this country at a cost of around \$12 to \$18 million each. This latter would help measurably in solving the unemployment problem not only in the factory areas but in the rural areas where these plants would be located.

It must also be remembered that this would all be possible, yet we would still be able to import 35 percent of our sugar needs from these other countries; countries which heretofore have furnished us less than 15 percent of our sugar needs.

The big question in the minds of those who have studied this matter is why the sugar trust is so determined to deny the American farmer the right to grow sugar that is sold on the

American market, even in a limited amount; yet they are willing that the sugar allotment formerly held by Cuba can be handed over to countries like Mexico and Brazil, who vigorously fought the United States in the move to oust Castro from the Organization of American States, and to such countries as British Guiana, headed by one Cheddi Jagan. It will be remembered that this Cheddi Jagan and his wife have been linked on numerous occasions in the press with Communism, both in this hemisphere and elsewhere. A large part of this could be transhipped Cuban sugar. The whole matter appears to me to be a case of material greed that could do as much damage to this country as any other one factor.

I can assure you that the small band which has fought so long and so hard is not going to give up, and that the battle will continue without cessation.
