## County Library Book Drive Opens Saturday

Volunteer canvassers will mee Saturday morning at 9:00 drive for books for the County Library. Encyclopedias, childand reader's digests are needed for the Sherman County Li-

Eight canvassing groups made up of members of the American Legion, Beta Sigma Phi, Boy Scouts, Lions Club, and the Home Demonstration Clubs will take part in the drive.

Sponsored by the Prospectus Study Club, the canvass groups will be headed by Joyce Hart, Janet Riffe, Joyce Ann Lasley Shirley Plunk, Oline Caraway Carolyn Sadler, Doreen Engelbrecht and Pat Gunzelman.

Books and reading chairs will be collected and taken to the American Legion Hall for cataloging and sorting.

Out of town donors may take their books to the American Legion Hall Saturday or phone a member of the Prospectus Study Club for a pick-up service Questions regarding the drive may be directed to Mrs. R. M. Buckles, Mrs. Bill Riffe, Mrs. Gene Sadler or Mrs. Rene Gun-

Donors are urged to have their books ready when the canvassers call at their homes to pick up the donations.

Hazlewood Asks **Re-Election To State Senate** 

Grady Hazlewood

State Senator Grady Hazlewood announces as a candidate for re-election subject to the action of the Democratic Primary May 5. In making his announcement Hazlewood made the following statement:

"I think my voting record is the best index as to whether I should be re-elected. Anyone can make promises, but the written record is unchangeable. Merit Rating Insurance Plan

"The so-called merit rating plan must be amended where it will be a safe driving plan instead of a premium collecting plan for the casualty insurance companies. Otherwise, it should be abolished. It is time to find out whether the Board of Insurance is going to operate for the benefit of the people. If we have got to have such a plan, then this premium penalty money should be given to the cities and counties where the fines are paid in. Why should motorist who unintentionally drives 22 miles per hour in a 20 mile zone pay a \$5 fine to the city, and 12 times that amount to enrich the treasuries of these casualty insurance companies when they have not been out one man. amount of tax paid by the aver- Dyess, son of Mr. and Mrs. Rosas age family under the recently coe Dyess. enacted sales tax."

the girls of the senior class of Mother." the opportunities offered in her oranch of the service.

## AND CONFUSE STUDENTS

helping to confuse the teachers and other students at Amarillo College. The reason is simple:

the girls are twins. Norveta and Nanfreda are fraternal twins born September 10, 1942, in Stratford, Texas. The girls maintained high scholastic averages throughout their grade and high school education. Norveta had a 90+ average, and Nanfreda, an 85 average. The girls are both attending AC on Beta Sigma Phi scholarships, and Norveta has an additional scholarship from the Study Club at Stratford. Since the girls are not identical, they decided to dress differently in college, and thus make a stress on individuality. The girls both share the same vocation, that of

Norveta and Nanfreda are presently enrolled in the Northwest Texas Hospital School of Nursing. After two years at AC and Northwest, the girls will have completed their pre-nursing training. A three year training period will follow, and on its completion the twins will have achieved their degrees in nursing. A year plus nine weeks John Pilch, sponsor of the of special instruction at Texas University completes the program, and these girls will be ready to care for the sick.

The twins' favorite sport is several handkerchiefs at the basketball. They are both acmeeting of the organization tive members of the Northwest Texas Hospital (This is the team that the meeting. John Pilch read annually challenges the doctors from the book, "Printing and to a tournament. The score The this year was tied.) Score any pook explained how to get bet- points? The twins answered, 'No, we aren't forwards."

> The girls are taking 16 hours this is often a little confusing to the instructors, but that the students seem to know the difference. Nanfreda cited as an example one of their math classes. She worked two problems on the board, one as Norveta, and the other as Nanfreda. The class was amused. but Freda said she hated to make a fuss about working the problems. After all, they were

Another advantage of twinship was not discovered until the girls arrived at Northwest. The girls at NWTH are allowed a recruiting officers informed certain amount of time at the junior and senior boys of their telephone. ACCURATE

COURTEOUS

PROMPT

That's The Way Men Describe The First State Bank of Stratford

#### • They're Accurate

And there's nothing like accuracy so far as I'm concerned. The careful way in which the staff at "The First State Bank" handles my money saves me time and worry. You'll be pleased with this combination of promptness, courtesy and accuracy, too. Stop in anytime.

#### • They're Courteous

No matter what department of the bank you're in, everybody is so nice. They make you feel like you're doing them a favor by coming in. In my job courtesy is a "must", too! Maybe that's why I especially like doing my banking at "The First State Bank".

Mrs. Katie Greenwood and Dale Carmen are the one-act play sponsors.

Then there's the one about the GI returning from overseas, who remarked as he passed the Statue of Liberty: "Put your torch down, honey, I'm home".

What a man stands for isn't everything; what he falls for is also important.

Jumping to conclusions does not always end in happy landings

do work under this program are: Neil Jackson, R. O. Bolster, B. J. Wiggins, J. J. Corry, James Stedje, and Ira Oldaker. The contracts include a var-

iety of work to be done. They include range seeding, waterway shaping and seeding, diversion terrace construction, and fencing of seeded areas. The GPCP cost share on these practices vary from 50 to 80 percent. Other practices available under this program include livestock water wells and storage tubs, windbreak establishment, farm ponds, and cross fencing of

rangeland. Farmers who are interested in doing work under this program or who want more information about it should contact Vernon Bullard at the Sherman County ASCS Office or write to the Soil Conservation Service, Box 8, Spearman, Texas.

#### Jim Cameron Is Ko Sari Pledge

Jimmy Cameron

Jimmy Cameron, son of Mr and Mrs. J. J. Cameron, pledged Ko Sari, men's social club at McMurry College during the spring rush week activities at the Abilene school.

New pledges at McMurry's ten clubs will be admitted to full membership after a ten-week pledging period.

Cameron is a sophomore student, and his major course of study is church music. He is also active in the choir and

#### P. Ledbetter Hospitalized By Paralysis

Paul Ledbetter, 45-year retired army officer, and a brother of Mrs. Roy Harris, is in Letterman's General Hospital in San Francisco, California receiving treatment for a serious stroke of paralysis. He is not recovering as rapidly as relatives had hoped.

Mr. and Mrs. Roy Harris, Mr. and Mrs. Leo Ledbetter and Mrs. Cloyse Monroe of Liberal, Kansas, Bill Ledbetter of Watanga, Oklahoma, Mrs. Pauline McMullin of Okemah, Oklahoma, and James Ledbetter of Stinnett returned recently from a visit with the sick officer in San Francisco.

#### Students Visit Cactus Plant

Chemistry and physics students of Stratford High School recently toured the Phillips 66 Chemical Company's Cactus

Anhydrous ammonia, nitric acid, and ammonium nitrate are the principal products of the plant. The ammonia and ammonium nitrate are used mainly for fertilizers while the nitric acid is usually used to make ammonium nitrate.

The 460 people now employed at the Cactus Plant maintain the safest of working conditions. Safety equipment, goals, and awards are used to encourage safety. Hard hats and safety glasses are worn in many parts of the plant. The students wore hard hats on all parts of their

Ammonia is produced at the plan by a modification of the Haber process in which hydrogen and nitrogen are combined directly. This ammonia is shipped from Cactus in railroad tank cars or tank trucks. Nitric acid is produced by the Ostwald process. Ammonium nitrate is made by the combination of anhydrous ammonia and nitric acid. This solution is sprayed through a prilling tower where it crystalizes into the white prills that are used as fertilizer. It is then packaged in paper

Before touring the plant, the students were shown slides and literature to explain what they saw. Guides then pointed out and explained the various steps. The students were especially interested in the laboratories. It was a very enjoyable and educational trip for everyone.
