

Frantic Mother Finds Son In Home Freezer

Ernie Ellison, 3-year old son of Mr. and Mrs. Don Ellison, narrowly escaped suffocation in a home freezer Monday at the country home of his parents in the southeast part of the county. Mrs. Ellison discovered her son in the empty home freezer on the back porch of their home after a continued search of the premises.

Ernie Ellison had told his mother he was going outside to play for a while. In a few minutes his mother heard him call her and started searching for him. Occasionally she could hear his call but he never answered when she called him.

After checking the stock water tanks, the ground near the cess pool, and every other place she could think of which might develop a situation to endanger the child, Mrs. Ellison returned to her back porch. She heard the muffled cry of her son from the upright home freezer on the porch.

Mrs. Ellison immediately rescued her son from the freezer and has had the door secured by a rope.

The freezer had been emptied soon after the wind and snow storm March 24 when REA lines were broken down.

Other rural residents who have emptied their home freezers during the interruption of electric service, may find it advisable to secure the doors to the storage units in such a manner as to prevent children from gaining access to them.

Kathy Sneed Wins County Sewing Award

Kathy Sneed

Kathy Sneed won the 1962 county sewing contest sponsored by the Prospectus Study Club and the Vogue Sewing Service held Sunday afternoon in Fellowship Hall of the First Methodist Church. The attractive high school freshman is the daughter of Mr. and Mrs. Horace Sneed.

The tea in honor of the contestants was given from 3:00 until 4:00 p. m. by the Prospectus Study Club.

A lovely rainbow provided the background for the style show, arching over the modeling stage. A hat bar with beautiful spring hats was located at the end of the rainbow. The tea table laid with a yellow cloth and overcloth of yellow net, carried out the rainbow theme. Tall silver candelabra displaying candles of rainbow hues decorated the serving table along with a large satin bow of green which extended to the table edge. Spring blossoms encircled the punch bowl and the base of the candelabra. Past Presidents Mesdames Jim Taylor and C. C. Plunk served punch and coffee following the style show.

Mrs. E. R. Bell, president of the Prospectus Study Club, welcomed the guests, and explained the Vogue contest. She introduced the judges for the style show who were: Rene Rice, associated with Blackburn Bros. of Amarillo, Marie Coventry, Dumas Junior High Homemaking teacher, and Maxine Pieratt, also of Dumas.

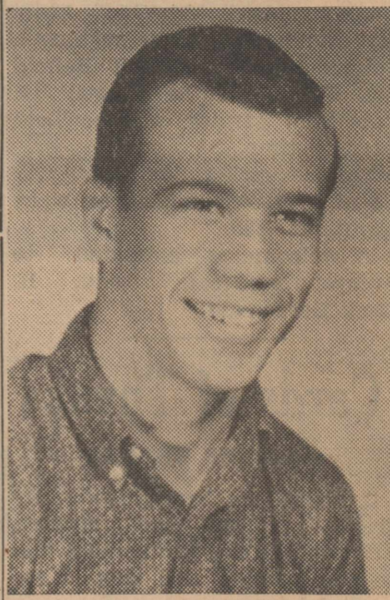

Mrs. H. H. Caraway, chairman of the Vogue Pattern contest, served as narrator with the background music being played by Mrs. Kenneth Kendrick, pianist. Mrs. Caraway introduced Shelia Donelson as the first contestant. Shelia, modeling a hair style created by Ruby Neal of Ruby's Beauty Shop, wore a beige suit fashioned of raw silk tweed. The jacket was concealed with a high-waisted fit and was topped with a face-framing Peter Pan collar and two large self-fabric buttons for closing. The sleeveless blouse was of natural color silk pongee. The jacket was lined with the same silk pongee. For a touch of color, Shelia chose a bright red, rough straw hat with a rolled brim. Her gloves, shoes and bag were bone-colored.

Jeanett Bardwell was introduced as the second contestant. Jeanette modeled a hair style by Barbara Lavake of Alma Lee's Beauty Shop. She chose to make and model a coat of houndstooth checked wool in beige and coffee-cream. The coat featured a standoffish neckline with a three-button closing. Vertical slash pockets, elbow-length sleeves, and a soft fullness in the back enhanced the coat. The coat was lined with the same beige silk as her sheath dress. For her accessories, Jeanette chose a circlet beige hat with beige and brown bag and shoes. One change of accessories is permitted in the Vogue contest, so Jeanette chose to change

Morgan also plays lead saxophone in the high school stage band.

Fred Smith, director of bands at Brownfield High School, judged the saxophone solos.

The youthful musician is the son of Mr. and Mrs. E. J. Masie.

Council Accepts New Additions To Stratford

The Elk addition to Stratford, composed of acreage belonging to C. C. Plunk and Van B. Boston, was accepted by the City Council at its meeting Thursday night of last week. There are 36 lots 70 feet in width in the Plunk land and Boston believed that he had a larger number of lots although his map was not available for a count Monday.

To Re-Number Houses

A motion made by E. R. Bell to number the houses in Stratford in a systematic manner was adopted by the council. The plans call for the number of houses according to the front door entrance of the lot on which the house is built. Twenty lot numbers would be assessed to each block with the north and south division being made at the Rock Island railroad. To prevent confusion, the east and west boundary would be set at the Santa Fe railroad.

Stratford Lions are considering the proposition of sponsoring the sale of new house numbers when the systematic numbering of the city is completed.

Angela Teague Wins French Horn Solo Honor

Angela Teague

Angela Teague, 17-year old Stratford senior, was awarded a Division I rating for her rendition of "Elegie" by Rolf Scheurer in the University Interscholastic League Instrument Solo Contest held recently on the campus of Amarillo College. A division I rating is interpreted as a superior performance.

Angela Teague plays the French horn and has played in the first chair position of the horn section of the senior band for the last two years. She will perform with the Tri-State Band in Enid, Oklahoma at the Tri-State Music Festival later this spring. This will be her third performance with the Tri-State band.

Richard Tolley, brass instructor at Texas Tech, judged the French horn solos.

Miss Teague plays the piano with the high school stage band and accompanies the high school girls chorus. She plans to enter West Texas State College at Canyon this summer as a music major.

Angela Teague is the daughter of Mrs. Pauline Teague and the late Clarence Teague.

Republicans To Hold County Primary

Sherman County Republicans will hold their first primary election in the history of the county Saturday, May 5. The polls for all four precincts will be open in the Sherman County Exhibit Building in Stratford, it was announced this week by Mrs. Ed Hill, republican county chairman.

The republican primary is being held as a token election to qualify Republican nominees for a place on the ballot in the general election in November.

E. R. Bell has been named judge of the Republican County Primary election.

Culling unprofitable dairy cows is always good business. Now is an especially good time, points out Texas extension dairy specialists, because the market for cull cows is favorable and the surplus milk season is just ahead.

Seven citizens are candidates for the two vacancies on the Stratford Independent School District School Board to be filled in an election Saturday.

Paul J. Chesmer, Fannie C. Crabtree, Walter Lasley, William C. Martin Jr., Walter D. Vincent, Edward Brannan and Richard M. Buckles are candidates.

The polls will be open in the school building in Stratford from 8:00 a. m. until 7:00 p. m.

B. L. Smith and Kenneth Kendrick are the retiring members of the school board.

Two trustees are to be elected for three year terms of office in the election.

The election is unusual in that many of the candidates have been conducting active person-to-person campaigns, soliciting the support of the voters in the coming election. It is the attitude of these candidates that if the office is worth holding, it is worth working for.

A major part of the voting strength of the independent school district is likely to be cast in the election. The general public is interpreting the interest in the school trustees election as a healthy sign in the interest of better local government.

I. E. Edwards is an unopposed candidate on the Texhoma Independent School District Trustee election ballot.

LETTERS To The Editor

Editor Stratford Star Dear Sir:

It is not a hard thing in this day and time to find something that we disagree with that our elected officials have done, nor is it hard to find the time to let them know about this disagreement. We do sometimes forget, or overlook the good things they did, and the fact that our thanks are in order. No where is this more noticeable, I think, than locally.

For those who not so long ago complained of muddy streets, have you thanked the mayor and city councilmen for the part they played in getting the streets paved? For those who might have complained about the pet situation, have you thanked them for making rabies shots available locally, and cheap?

Also, I think this applies to our school board. They received the same pay as our city officials — nothing. When we think about the things they do, or don't do, that stir criticism, I think we should consider a couple of other things. Have you compared, recently, our school plant with that of other towns of the same classification? Have you compared our school evaluation of last fall against a school of any other classification?

I would like to thank the Mayor and Councilmen of Stratford for the fine job I think they have done over the past year, and also the officers and members of the school board. If we continue to be as quick to commend as to criticize, we will continue to have what I feel is the finest local government anywhere.

Yours very truly

CHANGING PICTURE

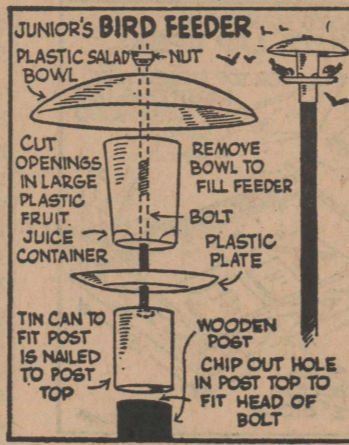

The mountaineer found a small mirror, the first he'd ever seen. He looked into it and said with surprise: "By cracker, it's a pitcher of my old pappy". Sentimentally, he hid the mirror under the bed. His wife saw him hiding it, and when he left the house, she took the mirror, looked into it, and snorted: "So that's the old hag he's been chasing".

They are slicing ham so thin nowadays that it has only one side.

(By Benny R. Biddy) "Freedom Academy", does this sound familiar to any of you? From all reports I gather this Freedom Academy is a term that hasn't been given much publicity.

I quote the following from a bill in the 87th Congress, first session, February 9, 1961. S-822, "To create the Freedom Commission and the Freedom Academy".

"To create the Freedom Commission and the Freedom Academy to research and develop an integrated, operational science to win the non-military part of the global struggle between freedom and communism and to train government personnel, private citizens, and foreign students in this science".

This bill was introduced on the part of Mr. Mundt, Mr. Douglas, Mrs. Case of New Jersey. (Continued on Page 5)

I Challenge

(Continued from Page 4)

sey, Mr. Dodd, Mr. Smathers, Mr. Goldwater, Mr. Proxmire, Mr. Fong, Mr. Butler, Mr. Hickenlooper, Mr. Miller, and Mr. Keating.

I have read about this proposed bill and personally feel that this would be a great step in the direction to combat communism. "I challenge you" to take a few minutes and write for information in regard to this bill and also express your feelings. These senators and representatives need letters to encourage them. After all they are in office to serve the wishes of each and every American.

In the February 26, 1962 edition of the U. S. News and World Report, I came across some interesting news items. (This magazine is highly recommended by the author of "A Guide to Anti-Communist Action", by Anthony T. Bouscaren.

The following items are all quotations from the U. S. News and World Report:

1. Page 6. How Canada helps keep Castro going in the first 10

months of 1961. Canada shipped 24.8 million dollars worth of goods to Cuba. This was after the U. S. embargoed trade with Cuba.

"My opinion is that a complete blockage of Cuba would be highly acceptable".

2. The way Krushchev operates — Ike's Size Up. "Now, I really think he very much wants peace in the world. He would like very much to have an assurance there was going to be no war, but this would be on his own terms, so that he would not open his society, because I am sure — he has a tremendous faith in his ability to keep control of Russia as long as it is a closed society".

These past quotations are from articles which I have read the past week and I have found very informative. I do hope that all of you are spending a few minutes a day reading some good anti-communist literature.

I would like to take a few moments to explain my reasons for these articles that I am writing. I was inspired by a good friend of mine here in Frankfurt. His name is Robert Marrs and I can truthfully say that if all people had his spirit of feelings, communism would never have a chance in our free world. He isn't a radical, but just a very energetic person who realizes the dangers of communism. Many times he has written letters to Congressmen expressing his views and feelings. You would be amazed at the response and thanks he has gotten from his work. If we only had thousands of people like this to be interested enough to write and state their opinions and beliefs. He has me interested. "I challenge you".

When I finished my article in last week's paper, I myself, had a feeling of accomplishment and hoping that maybe I had helped inspire someone as I have been inspired.

Again I want to challenge all of you to do your part in helping combat communism. In your study and planning, use good common sense and work out a program that is acceptable by all, then more power to you.

At this time I would like to call attention to an article that was published in The Stratford Star about five weeks ago. It was written by Elliott Crabtree and titled "Every Effective An-

ti-Communist should know." Elliott did not state a reference for this article and I would like to challenge him to publicly state where he got his information. He makes no reference to the U. S. nor West Germany. I can't agree with all his statements and would like to know what source he used. I would like to read it myself. "I challenge you".

The final contestant, Kathy Sneed, showed a hair style by Mildred Gore of Mille's Beauty Salon, and modeled a lime green suit of raw silk listed in the same silk print as her blouse. Her suit featured a soft collar, self-covered button closing, and a fringed tie belt. The jacket back was loosely fitted with ragland sleeves, and the skirt was slightly flared. The blouse, of aqua, white and green silk print could be worn in, or as an overblouse. A flower hat, bone-colored shoes, bag, and gloves completed her ensemble. While the guests were being served punch and coffee, the judges conferred and then announced the winner. They selected Miss Sneed as winner, with Miss Donelson placing second, and Miss Bardwell, third. Mrs. Caraway then presented

She announced that Miss Sneed would represent the Prospectus Study Club as their junior Vogue Pattern contestant at the Top of Texas convention in Shamrock on April 12. Mrs. Bell presented each of

Coloradoans Have Close Call On Highway 287

Five teenage Colorado youths in a Jeep station wagon barely escaped death in the path of a semi-trailer truck Saturday morning on U. S. Highway 287, 8 miles north of Stratford.

The driver of the station wagon drove off on a soft shoulder and lost control as the vehicle whipped back on to the pavement. The Jeep flipped on its side directly in the path of a heavily loaded truck.

The truck driver managed to veer to the side, his tires passing over only the bumper of the jeep. After temporary repairs at the Stratford Body Shop, the Denver youths continued their journey to Mineral Wells.

None of the occupants of the jeep were injured in the accident.

Ever stop to wonder where the taxpayer gets all the money the politicians take away from him?

Hair Style Means Loveliness

Any woman can look better if she has well-styled, well-groomed hair. A stylist can make the hair-do fit the woman, her face as well as her figure.

Fine hair should never be thinned; it should be cut blunt to hold its body. More pin curls are needed for fine hair than thick, so each hair does more to make the hair look full.

Coarse hair should be cut blunt, then shaped so it is molded to the head. Thinning the hair helps to mold it to the head.

HELEN'S FAVORITE:

Pecan Pralines

1 cup brown sugar, firmly packed

1/2 cup shortening

1 egg, slightly beaten

1/2 teaspoon vanilla

1 cup flour, sifted

1/2 cup broken pecan meats

Cream shortening until soft, add sugar and beat until light.

Add slightly beaten egg and vanilla. Blend in flour, fold in nutmeats. Drop onto an ungreased cookie sheet, wide apart. Bake in a slow (300° F.) oven until lightly browned.

Naturally curly hair should be cut when dry. It should be shaped while it is being cut.

Hair which has been permanently should be cut when wet, then probably cut again when the rollers are removed.

Cutting hair in layers will help to develop a natural looking wave or curl. Even if you do not have a permanent, the set will last longer with clever shaping.

Bangs can be used in the hair style if the forehead is high or the hair line is poor.

Hair should be long enough to hug the back of the neck. If the style nestles against the base of the skull, it will always be neat and natural looking.

Over 1,000 Cars Registered In Sherman County

Presenting the cars for the lively life: 3 New Lively Ones from Ford!

New Galaxie 500/XL!

Start this one and you really start something. Available with Thunderbird V-8 power up to 405 hp (coupled to a 4-speed stick shift), the XL outperforms America's most expensive cars. Standard features include all-new bucket seats with a Thunderbird-style console in between. The XL needs service only twice a year, or every 6,000 miles. Hardtop or convertible. Definitely not for pedestrian tastes!

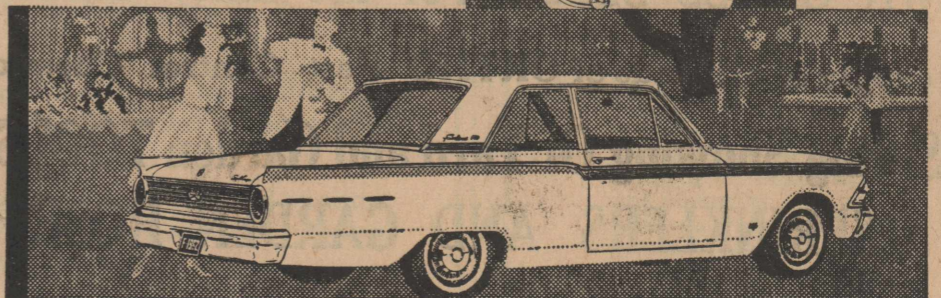

New Falcon Sports Futura!

Here's a hot new number from the compact leader. The tempo starts fast with foam-padded bucket seats and a handy console in between... hits a new high note with a stylish new Thunderbird roof (vinyl-covered if you want it)... then goes into the lively melody of an optional 170 Special Six engine. Economy with a flair is the Sports Futura idea... it's priced below many standard compacts.

New Fairlane 500 Sports Coupe!

Don't flirt with this one unless you mean it. It has foam-padded bucket seats with a console in between... and an all-new optional "260" Challenger V-8 that packs 164 hp. Fairlane's room, ride and performance are big-car in every way, but this new fine car costs less than many compacts.
