Scouts are not allowed to take knives or hatchets with them to the camp.

Boy Scout uniforms will be worn on the trip Sunday.

Scoutmaster Wayne Cummings and assistant scoutmaster Bob Garoutte have made reservations for 20 boy scouts at the camp.

Bill Gamble In Fender Bending

Bill Gamble was involved in a fender bending accident Thursday morning of last week. Even he was unable to explain just how the accident occurred. "I just wasn't watching close enough," Gamble said.

Gamble drove his car from where it was parked near the alley at the family home one-half block and made a right hand turn onto Fourth Street. His car collided with a car belonging to Cleo Aduddell which was parked along the curb at the Aduddell home.

The right front fender of the Aduddell car was damaged, and one fender, the grill and radiator of the Gamble car was damaged.

Bill Gamble said he could not have been driving faster than 10 or 15 miles an hour when his car struck the Aduddell car which was in gear.

Highlights And Sidelights From Your State Capital

(By Vern Sanford)

State-owned islands along the coast, and submerged lands in inland waters, now are available for lease for industrial purposes. Leasing for industry was authorized last year by the legislature. First step in the pro-

gram was for Gov. Price Daniel to select the men to serve on a committee to advise the School Land Board on leasing procedures.

Daniel now has named J. Chrys Dougherty of Austin, an attorney, and Dr. Armstrong Price of Corpus Christi as the advisors.

Procedure is this — a person who wants to lease state land must first apply to the city government, if the land lies in a city limit, or to the county commissioners' court. They publish notices and have public hearings. If they recommend the lease the three-man School Land Board then can consider it and set the amount of rent to be paid.

First application was from Port Aransas, which wants to lease part of Mustang Island for an airport.

School Bus Bargains

Prices of school buses are falling. State Board of Control, which buys buses for all the school districts on sealed bids, found that the price of 72-passenger buses has fallen by about \$1,200 this spring.

May purchases averaged \$5,430, while the 1961 average was \$6,618. Same sort of declines were noted in prices of smaller buses.

Leases Go Up
But there was a note on higher prices, too.

For many years, the University of Texas lands in West Texas have been leased for oil and gas with only one-eighth royalty reserved for the University of Texas and Texas A. M. College, which share in the proceeds.

This year, the royalty was raised to one-sixth, and only 9 of 101 tracts offered for lease were passed over by the oil company bidders who bought them at an auction sale. Cash bonuses averaged \$38.64 an acre. This is lower than at some sales in the past. But if they find oil or gas, the University fund will get more of it due to the higher royalty fees.

Impact Still Dry
That long-expected "oasis" in West Texas will stay dry awhile longer.

It is the town of Impact, in

Laff Of The Week

"I can see you're anxious to go home, Mr. Gilbey—but the Doctor thinks you should stay until tomorrow."

the edge of bone-dry Abilene, which incorporated and voted itself wet in 1961.

Atty. Gen. Will Wilson and the City of Abilene brought suit to declare the incorporation invalid. But District Judge J. R. Black held that the incorporation had been validated by the Legislature. It was done in a validating act passed mainly by the City of Plano, which just happened to apply to Impact, also.

However, State Liquor Administrator Coke Stevenson Jr. announced that he will not grant a package store permit which has been pending for months. He'll wait to see what the higher courts say about Judge Black's ruling, since the case will be carried to the Texas Supreme Court.

So there won't be any legal liquor in Taylor County for many more months.

Textbook Storm

The special House of Representatives committee which had some stormy hearings wound up its business with an internal storm.

Rep. W. T. Dungan of McKinney held the final hearing all by himself in Dallas. Other four members boycotted the meeting, then voted to expunge it from the record.

Each member will write his own report to the House on the procedures by which textbooks are selected.

During its stormy life, the committee heard one member called a "card carrying communist" by a lady in Amarillo. He filed suit against her, and apparently the folks back home didn't believe her, because he won renomination.

Parks Folder

An attractive new folder describing for tourists the facilities and location of state parks is being made available by the State Parks Board.

A fishing scene at Lake Brownwood State Park is the colorful cover for the booklet.

Retiring Judges

The judicial retirement system was designed so judges could leave the bench for a few years to rest before their deaths.

Statistics just worked up on the operation of the system by State Auditor C. H. Cavness reveals that there are 219 district and appellate judges paying into the retirement fund, and 31 who are on retirement.

During the last state fiscal year, five retired judges died and 11 retired. Of 62 judges who have retired, 31 had died as of the date of the audit.

But the retirement system may not have succeeded in keeping judges on the bench. During the year, 10 left the bench without retiring, to go into private law practices.

Legal Rulings

Atty. Gen. Will Wilson answered a variety of questions this week.

He told Education Commissioner J. W. Edgar that it is not legal for a school district to buy gasoline and oil from a consignee who is a member of the school board, even if he got the contract as low bidder on sealed bids.

He told County Atty. John Lawhon of Denton that Jim George, who won the Democratic nomination for two justice

of the peace seats, can't hold them both, and that he vacated the office he held when he became a candidate for the other place. George's name cannot appear on the general election ballot for both jobs.

He told County Atty. Bill F. Griffin Jr. of Center that trucks owned by a farm corporation and used exclusively for hauling poultry and farm products are entitled to the half price farm license fee.

He told County Atty. Mack Wallace of Athens that members of the national guard are not exempt from ad valorem taxes levied against their property. (Continued on page 4)

OF JULY ★ 1962

Man-made accomplishments are far different on this July 4th than they were 186 years ago on our first Independence Day.

But the day still belongs to America — and Americans. For it was 186 years ago that 13 States-United took their places as the world's newest nation with a unanimous Declaration of Independence.

It was based on a simple precept — "Governments are instituted among men, deriving their just powers from the consent of the governed."

WHEW
I LIKED
FATHER'S
DAY,
BUT

"My wife gave me a new set of golf clubs, so I played 18 holes in the morning. My son gave me a new lawn mower, so I cut the grass in the afternoon. My daughter gave me a new power saw, so I fixed some odds and ends in my shop in the garage.
We then went out to dinner and to a nearby lake. Of course, I had to paddle the kids around for an hour in the old boat. The day sure cost me a lot of energy but at least it didn't cost me any money.

Good Health Necessary For Good Grades

Early this fall more than 238,000 young Texans will be entering both private and public schools for the first time.

Even though the opening of school is still some weeks away, parents are busy making preparation to insure that their

child makes a smooth adjustment to his new environment.

The child's adjustment will be more rapid and satisfactory if he starts his school life in good, sound health.

Have your family physician or local clinic give your child a complete physical examination including an eye check. His teeth should also be checked by the family dentist. If these examinations show there are ailments or defects that can and should be looked after, then follow the doctor's and dentist's advice and have them corrected.

It's likely that your child has already been immunized against certain of the childhood diseases such as diphtheria, whooping cough, and smallpox. If not, have it done immediately either by your doctor or by the local health clinic. If all immunizations have been done previously, make sure your child gets the necessary booster dose.

Insist on your child's getting regular and sufficient hours of sleep to help him enjoy school. He needs ten to twelve hours of sleep in a quiet, darkened room with an open window to build up his energy and offset his tiredness.

Proper nutrition is very important. When school starts, allow enough time for a wholesome breakfast. A good breakfast includes citrus fruit or juice, milk, whole grain cereal or bread, eggs or bacon or both. Lunch and dinner should be a leisurely meal. The new adventure of school is a pretty fast pace, but mealtime offers an opportunity for the family to pause and relax together.

Also, nearly every school district in Texas requires proof-of-age for first year students in the form of a certificate of birth.

You may obtain a copy by sending a dollar and a half plus the name of the child, the date of birth, the place of birth, and

Tackle the diet with renewed zeal if you want to look best in summer clothes, particularly beach wear which is most figure-showing this season.
