To Whom It May Concern:

OUR BEAUTIFUL POOL IS COLD! No one seems too concerned except the ladies exercise group.

There are approximately 20 men of all ages, mainly between 60 and 80 years of age, who benefit greatly from the pool. This is the only exercise many can do without injury to their joints. It is recommended by many of their doctors.

The heater at the pool has been off for the past week. There is no sun to warm the water, and it gets colder everyday.

Anyone who is interested in one of the major assets of this community is asked to do what you can to improve this situation.

AND most of all going for the many scholarships that are offered. In Ft. Worth there were the prettythe sorta-and the ones not so-but they knew why there were there. They had pride in the area they represented.

For the last several years the Miss Stratford Scholarship Board has gone out above and beyond-to entice young ladies in High School to participate. A refusal-with no excuse. There is a need for more girls in this category 10, 11 and 12th grade girls to come forth and for the little ones that would be in the Little Miss ages 4, 5 year olds. talent-just sportswearinterview and evening wear. You have until Friday to gather up your friends, go to the Stratford Grain, pick up an entry form and make this a fun, exciting experience with the possibility of a scholarship for your efforts. Who knows down the road you just might be MISS TEXAS! Arian did not conceive of the idea two years ago and look where she is today. The Miss America Scholarship franchise are looking for down to earth young ladies that are well informed and would represent the state they are from; as well as the United States.

Mike Huereca To Be **Inducted Into Engineering Technology Academy**

Mike Huereca, son of David and Benita Huereca of Stratford, has been notified of his induction into the Texas Tech University's Engineering Technology Academy. He was informed by Mr. Eddie Barron, Chief Operation Officer of Utility Engineering Inc. in Amarillo, Texas. Mr. Barron is chairman of the Texas Tech Industrial Advisory Board.

Mike Huereca is a 1969 Graduate of Stratford High School. He graduated from Texas Tech in 1973 and has worked as a controls and instrument engineer for the past 21 years.

Mike will be inducted in the academy during homecoming activities at Texas Tech University this fall. He will be awarded a plaque. Names of members of the academy will be on display on a Plaque of honor in the department lobby.

Mike was selected because of his outstanding achievements at work, within the profession, and in the community. The purpose of the academy is to recognize graduates who have made a significant contribution to the profession and therefore have brought credit to the department. Also to provide role models for current students and inspire them to achieve success in their chosen field.

Mike will be a charter member. Only a maximum of three members will be added each year. Candidates must have been graduated for 10 years and have used their engineering technology education to reach their current status.

Mike has received numerous citations and honors in his professional career. As a captain in the U.S. Army, Corps of Engineers at Fort Hood, he was named an outstanding engineer and outstanding officer. He received a Mayor's Proclamation for outstanding leadership and (NAPS)—A recent survey of 11 contributions as chairman of the major cities around the world building code of appeals for the revealed that prices for many popu- City of Carrollton which is a lar items are lowest in Hong Kong. suburb of Dallas.
