State drought woes mount Despite isolated rains, dry spell nears record proportions

Year has been second-driest since 1971; firefighters brace for potential disaster.

Staff and Wire Reports

What little rain some residents had Saturday didn't amount to much. Although today holds a chance for rain, it's a slim one

Midland has had .09 inches of rain this year. The average amount of rainfall for the year so far is 1.32 inches. With half the month gone, March has had .01 inches of rain. The average for March is .30 inches.

This year has been the second-driest year to date since 1971. That year, only .01 inches of rain fell before April 15, according to the National Weather Service.

This year may break that record, with forecasters' throughout the night in extinguishing scattered and iso-30-day outlook calling for more of the same and little chance of rain. Dry conditions will continue, sending local firefighters scrambling to cover more grass fires. The Midland Fire Department already has seen an increase in activity and dry conditions are making for

a potential disaster, Fire Chief James Roberts said. A mesquite-fueled brush fire on Midland's east side near Fairground Road, Cuthbert Avenue and Front

Street late Saturday afternoon burned many acres. A draw, like a dry gulch, and a lessening of the wind

saved many houses from being attacked by the flames, which were fought by Midland firefighters. However, the encroaching fire did burn fences and destroyed a corral near Fairgrounds Road.

Midland firefighters were to monitor the burned area

lated fires and "hot spots" by spraying water and spreading dirt and sand over the fires. Both hot spots and isolated fires blackened acreage.

Since Jan. 1, the Dallas-Fort Worth area has recorded just 1.32 inches of rain. The average rainfall from Jan. 1 through March 15 is 5.32 inches.

That shortage officially qualifies as a drought, which forecasters define as anything less than 75 percent of the average

Even possible thunderstorms over the weekend won't be enough to help homeowners' parched, brown lawns or farmers and ranchers whose living depends on adequate rain.

'Four inches overnight isn't going to catch us up

Massacre reduces Dunblane to silent, painful procession, numb conversation

By Shawn Pogatchnik

Associated Press

DUNBLANE, Scotland - All of Dunblane has been reduced to silent processions and numb conversation, beside the banks of flowers, outside the post office, inside the laundromat, at the 13th-century cathedral that is the town's main landmark and the focus of its

Baffling outbreak

A middle-aged woman. A 2-year-old boy. They were not neighbors. They did not attend the same church services or drink from the same faucets. They had no mutual acquaintances and no physical contact. They had one thing in common, and it killed them./11A

St. Pat's parade

NEW YORK - Sinn Fein leader Gerry Adams' presence among the shamrocks and bagpipes at Saturday's St. Patrick's Day Parade put a serious spin on the annual celebration of all things Irish. It was Adams' first-ever visit to the nation's oldest and largest St. Patrick's celebration, and the Irishman was greeted like a native son as he marched up Fifth Avenue past crowds that stood 10-deep on the Manhattan sidewalks./12A

Mothers who give up children for adoption suffer in shadows By Tonie Miller-Uzzel

Staff writer

ourning for a lost child is expected after a death, but grieving for a child placed for adoption is often done in the shadows with no one really understanding the loss.

"Death and adoption are a lot alike. At least with death it's final, but you can never put closure on placing a child up for adoption," said 41-year-old Rhonda Roosa.

Birth Ms. Roosa has gone through the ordeal of mothers' an unplanned pregnancy with the ultimate support decision to put that baby up for adoption. group/4A She has no other children, other than her firstborn.

"He's my only one," she said.

At age 18 she was still in high school, no job, no car and suddenly pregnant by a man who left her.

Her father died when she was 11 and her mother struggled to make ends meet, living Please see SUFFER/4A

Rubbing elbows with stars Resident recalls days as celebrities' tennis pro

By Mella McEwen

Staff Writer

America said goodbye to a beloved comic, George Burns, last week. In 1974 the country had said goodbye to Burns' close friend, comedian Jack Benny.

For 2 1/2 years, beginning in 1965, a Midland man had a front row seat to the antics of Burns, Benny and their friends, such as Milton Berle and Ed Wynn. "Whenever Mr. Burns would come to

the club, the first thing you'd see would be this, cigar," said Gary Pierce, head tennis pro at Ranchland Hills Country

Club since 1985. "He always had this glint in his eye and you'd wonder what trick he was going to play on what member."

Of Benny, Pierce said that if you saw his television show on Sunday night and liked it, he would buy your breakfast.

Pierce would see Burns and Benny frequently when he served as first assistant tennis pro at the famous Hillcrest Country Club in Beverly Hills, Calif. The two comics would join friends to play bridge or golf at Hillcrest. "I think they practiced their routines

Land sale edict: Yeltsin opens way to longed-for era

TULA, Russia (NYT) — The wheels of democracy were moving about as fast as molasses at the monthly session of the Tula Land Reform Committee.

There was a lot of talk about tractor repair and tax laws. There were farmers wondering about when to plant the spring grain, and whether the government was going to give them any money to do

Then they got to the item that **Russia has been waiting for** - in vain - for centuries.

'Let's discuss the decree that will change your lives," said Aleksandr Ignatenko, director of the **Center for Agricultural Reform in** this Russian farming center about 100 miles south of Moscow. "Who wants to buy or sell their land?"

At that point the place erupted. There were questions about collateral, mortgages and property rights. A lawyer discussed the importance of depreciation, and people started talking about the value of accountants and the meaning of deeds.

It was the type of meeting that until last week would have had about as much relevance for the average Russian as a national forum on computer piracy.

But eager to give millions of Russian peasants a personal reason to embrace reform and reject communism in the presidential election in June, President Boris Yeltsin has issued a decree that permits people to buy and sell land for the first time since the Bolshevik Revolution of 1917.

It is hard to envision an act that could have a more dramatic effect on the Russian economy or on the psyche of the people.

With a single pen stroke Yeltsin has opened the country's biggest and most valuable market to the type of voter who long ago tired of his leadership. Unlike industrial privatization, which has been

689-8338

This is why we had the revolution. We have been promised the land forever and nobody has ever let us have it. Now its ours and nobody is ever going to take it back.' Andrei Velin

Russian farmer

viewed widely by poor people as a new system of legalized theft for the ruling elites, this type of land reform means that every peasant who rents a garden plot now owns

"This is why we had the revolution," said Andrei Velin, a farmer here, and one of Russia's 12 million full-time agricultural workers who can suddenly now sell, lease, rent or buy land.

'We have been promised the land forever and nobody has ever let us have it. Now its ours and nobody is ever going to take it back.

Of course, nothing in Russia is quite that simple. Communists bitterly oppose the measure because they believe it will open the land to "speculation" and "plundering" - code for sale to foreigners, which the law explicitly prohibits. The measure also prohibits the sale of any urban land. But five years after the collapse

of the Soviet Union, the decree permits the millions of people who live on farms that used to be run by the state to sell their shares at will. And it goes further.

Most Russians have a plot of land not far from where they live that they use for growing vegetables. Those plots, some of them quite large, will now belong to the

people who use them.

A program so vast will require a lot of support, and there are many Communists in positions of regional leadership who will try their hardest to keep it from succeeding.

"What he has done is outrageous," said Nikolai Kharitonov, a leader of the pro-Communist Agrarian faction in parliament. 'He has taken one of the most important issues in Russian life and just decided that nobody but him should have a say in how it is resolved. We are not opposed to the regulated sale of land. But there has to be logic and reason. You can't just turn the farmlands of Russia into real estate.

That sentiment is widely held here, even now, because in Russia land has rarely been treated like other commodities. That is one reason that neither the previous nor current parliaments have ever produced a land code.

Love finds way for soldiers in Bosnia

By George Esper

Associated Press

TUZLA, Bosnia-Herzegovina -"Love will find a way," says Kristin Reisenweber.

For her and Kevin Smith it was on a pontoon bridge across the Sava River, over which American peacekeepers crossed into Bosnia.

The two U.S. Army lieutenants were married there on Valentine's Day.

"We just decided to do it and not let this deployment stop what we had planned," said Kevin, 30, of Spokane, Wash.

'We decided to do something that was fun and crazy," added Kristin, 24, of Washington, D.C. "First we thought it was impossible, and it was just a joke amongst all of us.'

Kristin and Kevin, who met 16 months ago in the mess hall at a training camp in Germany where they are based, had planned to marry this spring after returning to the United States.

But Bosnia changed all that. Both were deployed to separate bases about two hours apart - she initially to Camp Harmon on the Croatian side of the river and he to U.S. headquarters near Tuzla.

Kevin is a supply and maintenance officer. Kristin, a 1993 West Point graduate, is a personnel officer. She has since been transferred to a base near Tuzla, 15 miles away from Kevin.

They looked into the Army reg-ulations and found they could be married on the bridge. The Army accommodated them.

"We thought it would be real hip to get married here because why let this stop the way two people feel for each other," Kristin said. "It tends to bring out the good side. So we decided why not. You've got to

admit it makes for a pretty inter-esting scrapbook."

Traffic was stopped during the eight-minute ceremony performed by a military chaplain. The bride and groom wore standard camou-flage fatigues, helmets and flak jackets that the Army requires when soldiers are outside.

They exchanged simple gold wedding bands and passed through an honor guard of rifle-men. Friends threw rice. They were toasted at a reception at Camp Harmon with coffee (alcohol is banned on Army installations here). An Army cook prepared the wedding cake.

Maj. Kathryn Gaylord, an Army psychiatric nurse based in Fort Carson, Colo., had wanted to get married for a long time to Allen Smith, a county engineer in Denver, 80 miles away. Both are 47. She was scheduled to leave for duty in Bosnia on Dec. 27. He came down one day to go to a fam-

ily support meeting with her. "I thought that night he was going to stay down in Colorado Springs with me," Kathryn said. "And he said, no, he had work to do, and so he was going back to work. I was disappointed

"So the next day, I went to Dennight that I don't want to lose you.' So I said, 'Well, isn't it time?' And he said, 'Yes.'''

They were married twice, first on Dec. 7 — the anniversary of Pearl Harbor - in Littleton, Colo. They chose that date because they met at Pearl Harbor six years ago when Kathryn was stationed in Hawaii and he was there for Naval **Reserve duty**.

"We married ourselves," she

said. "We just went and filled out the paperwork in the courthouse. They said, 'Who's going to do the ceremony?' And we said, 'We just want to marry each other.' You can do that legally in Colorado."

Five days later, they were mar-ried in an Army chapel at Fort. Carson. The first sergeant gave Kathryn away and the battalion chaplain performed the ceremony. It was too short notice for their families to be there.

Capt. Lenny Esposito, a pleasant man of 40 years, is an Army reservist from Brooklyn working in the Joint Information Bureau at U.S. headquarters near Tuzla.

In civilian life, he is a New York City police detective who helps protect dignitaries. Right before he came over to Bosnia, he was assigned to guard the wife of the mayor.

On Christmas Eve, Lenny, who is divorced, was at Fort Dix in New Jersey with his reserve unit preparing for deployment to Bosnia.

A woman he had met at a dance club a year earlier, Elaine DeVita, came from New York to spend the holiday with him. She is direc-tor of business travel for the Doral Hotel in Manhattan.

Lenny told her he had been selected to give the commander's message of the day and asked her to join him.

"I have an important message and I'd like you all to witness it,' he told his 150 fellow soldiers gathered in the mess hall.

Then he got on one knee, and took out a box with an engagement ring in it.

The troops applauded. "Well, yes, or no?" he asked.

"Yes," she said.

because a lot of it would be runoff," Chandler said. "If we are going to ask for one (rain), let's have a slow, soaking one that will last over four or five days.

Forecasters have a theory for the current arid condition: Too few sunspots and a troublemaking Pacific current off South America.

The sunspot phenomenon which occurs every 22 years - and the "La Nina" current could combine to create a drought rivaling the Dust Bowl in the 1930s and the catastrophic three-year dry spell of the '50s

"There is a proven correlation between the sunspot cycle and dryness in the Central Plains area," said Patrick Eynon, a meteorologist with WeatherData, a private forecasting service based in Wichita, Kan. "And we have found that the cooling of the South American waters affects our weather patterns here in North America.

Sunspots change their polarity every 11 years, a phenomenon known as the "Hale Cycle." The end of the complete cycle every 22 years seems to bring dry weather, Evnon said.

Scientists can't explain it, but some say the change might affect the way sunlight heats the Earth.

NATION Heavy rain fell over the Mississippi Valley on Saturday, with severe thunderstorms plaguing Alabama and Georgia. The northern Plains weathered bitter cold and dangerously high winds.

Scattered rain or snow showers ranged from the central and southern Rockies to northwestern Wisconsin. Light rain and snow fell at higher elevations in the mountains of Washington state.

Sections of the Northeast also got snow or rain.

SUFFER: 'Death and adoption are a lot alike'

(From 1A)

on Social Security and watching children in her home.

When she became pregnant, she and her mother decided it would be best for the child to be placed for adopted.

They moved to Fort Worth and stayed with relatives. Her child, a boy, was placed through the Edna Gladney Home. Through Gladney, she was able to keep up with the child through age 3, then she lost touch.

"I wanted him to know that was the hardest decision I have ever had to make in my life. There are sacrifices in a lot of ways. It is a sacrifice for the birth mother because she is doing something for the child. She couldn't do it for herself.

"Even though you don't want to let him go, it is the most loving thing you could do," she said. "You never forget that child. The first few years I cried every year on his birthday ... it doesn't go away."

She later learned her son's name is Lee. She found him this past year around Thanksgiving.

"It has been great; he has very generous parents," Ms. Roosa said.

SHE WROTE A letter to his parents who told her he had graduated from Southern Methodist Uni-

versity and was living overseas. When I called him the first thing he said was 'cool'," she said. "My experience has been very positive both with the parents and him.

She has talked to him at least three different times; one time talking for three hours straight, she said

He called her on her birthday, she said with tears welling up in her eyes.

She located the birth father a year ago, just to make sure he had known about the pregnancy. She discovered he did

"Lee bears no ill will towards us, maybe because he grew up in a great home," she said.

Ms. Roosa said she believes the reaction of the child depends upon how the parents tell the child he is adopted.

The family that adopted my son was very loving and there was an extra sense of tenderness," she said.

When she began her search, the Gladney office here in Midland linked her up with the adoption registry. In the registry the child must be 21 before he or she can register, she said.

'IT'S A SCARY thing for both. You are afraid of getting the door slammed in your face. But, I wanted to know if he was alive and OK. The more you get the more you want," she said.

Ms. Roosa never saw her baby until he was a man an e still has yet to meet him in person.

Birth mothers form support group

By Tonie Miller-Uzzel Staff writer

Adopted children and adults often have support offered to them to deal with their situations. But, many times, another group of people are suffering the effects of their actions - the birth moth-

The Birthmothers Support Group formed recently by birth mothers who relinquished their children for adoption.

Some of these adoptions took place more than 30 years ago and some are very recent.

The idea behind the group is to allow birth mothers in the area the opportunity to get to know each other while sharing feelings about their placement decisions with others who will immediately understand what they are going through.

The group offers the chance to reflect on milestones in each person's life and how they feel on special occasions such as Mother's Day, holidays and the birthday of the child. "Mainly, we will lend a listen-

ing ear," according to the group's

brochure, everything said in the group is confidential and all respect each person's right to

range from first learning of the pregnancy throughout the preg-

His parents sent her several photos showing the highlights of Lee's life.

When I got the pictures, I just couldn't believe something so perfect could come from me. I didn't want to see him (after the birth) because I was afraid I couldn't give him away," she said.

MS. ROOSA TOLD her husband, John, about the baby she had put up for adoption before they were married.

"For so many years there was such a stigma to being a birth mother, it takes a lot of courage to tell someone," she said.

Roosa admired that honesty and said the revelation made no difference to him.

'For her to tell me one of her innermost secrets I knew she was going to always be honest with me. I never had any feelings about her giving the child away," Roosa said.

When she turned 40, Ms. Roosa decided it was time to speak up and let people know about her decision made more than 20 years ago.

There are others. Jane is a name created for a 35nancy and birth as well as saying goodbye to the baby, dealing with the decision and the search and possible reunion.

The group is not a search resource, although they may have advice on what to do in a search.

Among members of the group are not only birth mothers, but adopted adults and adoptive parents who provide their reactions and feedback to the members.

Visitors and new members to the group should expect some change in their lives as a result of the group experience, according to group information.

Feelings or thoughts you may have suppressed may be brought out. It is not often easy to look objectively at yourself and change can be difficult. Be patient and expect to discover positive aspects as well as negative

Don't expect the group to change your life overnight. Change and growth may be slow, but can occur if you remain open and honest," according to the group.

The meetings are informal and members will offer resources to aid the healing process. Those who would prefer may use only first names.

Meetings are 7 p.m. every other Wednesday. For more information on the location, call Rhonda at 686-1964 in Midland or Diana at 363-8841 in Odessa.

Jane gave up a child for adoption 10 years ago. She was divorced with children already.

"I couldn't feed the kids I had," she said.

After she placed the child, she remarried and became pregnant again. That baby she was able to keep.

SHE WENT THROUGH a private adoption and the child's parents keep her informed on his progress.

He is a good, strong, healthy boy and he loves kitty cats," she said. She still has the baby mittens, shirt and blanket from the hospital when he was born.

She has been in counseling to deal with the adoption and the Birthmothers Support Group has helped her, too.

The compassion we have for each other is great because we know how it feels," Jane said. "It means so much more because they know exactly the loss you feel.

Having two children already, Jane know all the milestones and joys she would be missing with this baby.

think of ways to keep him," Jane said.

said. "I could see what having no father was doing to my two kids and it wasn't fair to them or to the new baby.

Ms. Roosa said most of the birth mothers she has talked to placed their children because of financial reasons.

"Even if they don't want to," she said

"THERE ARE A LOT of stereotypes, but we chose life and we made sure the baby was as healthy as possible to give at least a good start at life," Ms. Roosa said.

Alicia McInturff, 15, is an adopted child. She agreed with Ms. Roosa.

"Because I was adopted, I had two mommies who loved me ... she loved me so much she gave me life," she said.

In the support group, not only can birth mothers share feelings they have in common, but they also get viewpoints of adopted adults and adoptive parents, too, for their input and problems.

"We talk to all sides of the adoptive triangle from the adoptive parent, the child and the birth parent, she said. "The more we know about each side the easier it is to make things a little smoother for everyone all around."

But, more than anything, they listen to one another.

"WE KNOW THE PAIN and the things you run into ... there is a main bond of having placed a child," Ms. Roosa said.

Jane said as a result of her circumstances, her self-confidence was low. Ms. Roosa said she and other birth mothers had trouble developing relationships with men. Much of that is due to what they believe is the public perception.

"The public perception is that we're uncaring to give away our babies. That hurts my self-worth," Jane said.

Mostly, these birth mothers just want to know their child in some way

"We're not trying to take away that adopted child," Ms. Roosa said.

"We know our place. We know we're not their parents. We just want to be a small part of their lives, to be friends," Jane said. "We want them to know we have never forgotten them and we have always loved them."

Ms. McInturff understands the other end of the equation. She has met her birth mother and they have become friends.

As an adopted child, she doesn't want to replace her mother with her birth mother either.

"My (birth) mom could never by. "My whole pregnancy I tried to care for me the way she (adopted mother) could," Ms. McInturff

members are expected to confidentiality.

Topics the group discusses

brochure. According to the group's

alley generated numerous showers and thunders ning, hail and wind gusting above 55 mph in hardest-hit areas.

In just a few hours Saturday morning Siloam Spring, Ark., received nearly one-half of an inch of rainfall. Cape Girardeau, Mo., got two-thirds of an inch by early afternoon.

Possible flooding from the thunderstorms was feared in northern Georgia, the Carolinas, Kentucky and Virginia as the storms spread across the South. Worst-hit areas faced the possibility of up to 2 inches of rainfall and hailstones up to 3 inches in diameter.

High winds, cold temperatures and some thunderstorms dominated the Dakotas, Montana, northern Nebraska and western Minnesota, where wind gusts topped out at 55 mph at Glendive, Mont.

An offshore flow produced dry conditions and above normal temperatures along the California coast.

The Associated Press contributed to this report.

STARS: Tennis pro recalls his days with celebrities

(From 1A)

on each other," Pierce said with a smile.

He recalled a story about Burns and Benny, one he didn't witness but that happened while he was employed there. One summer day, the temperature in Los Angeles hit 105 and Bur.is and Benny, who were playing golf, removed their shirts and were fined by the club. The next day, according to Pierce, the temperature reached 107. Burns and Benny, who were again playing golf, were again fined. They had kept their shirts on but removed their pants.

The Battle Creek, Mich., native arrived in Los Angeles in 1961, finding work as an aquatics director at the Beverly Hills YMCA. He met Carl Earns, then head tennis pro at the Beverly Hills Tennis Club. After serving in the U.S. Army — where he played tennis — Pierce was hired by Earns to work at Hillcrest.

"When I arrived, it was a shocker. I was being exposed to an element of people I'd never been exposed to before," Pierce said, recalling how he once put on a coat and tie in order to walk through the club and see Frank Sinatra and Elizabeth Taylor.

Of going to the celebrity's home to give lessons, he said, "I really tried to watch my Ps and Qs because I was scared to death.

Still, Hillcrest was a place, he said, for the celebrities to relax, get away from the cameras and fans and where everyone was treated equally.

One of his first students was actress Jean Simmons, whom he described as a wonderful, caring person and excellent student. It was at her house that he met such actors as Rod Steiger, Donald O'Connor and Gene Kelly.

Other students included the daughter of Edie Adams and Ernie Kovacs, Dean Martin's daughter Deanna, Debbie Reynolds' son Todd Fisher, actor Mike Connors of "Mannix" fame, Dinah Shore and the grandchildren of Supreme Court Chief Justice Earl Warren.

He also taught Peter Douglas, son of actor Kirk. After almost 30 years, Pierce still sounds awed at the way Douglas welcomed him into his home and, as a thank you, would send him and Peter to Dodgers and Rams games. He called Douglas a family man, very concerned about his children.

It took some time, he said, but he learned to relax around the celebrities, many of whom he had seen in the movies or on television.

"But I also saw a side of them that showed me they were concerned about everything you and I are concerned about."

Except for working at Kellogg Cereal while in Battle Creek, Pierce has never worked outside of tennis, and he said he owed Earns, who was a Top 10 player in the 1930s and 1940s, "everything."

Of his memories of Hillcrest, Pierce said, "these are memories I will cherish all my life.

"I am very grateful. I've been very lucky."

MASSACRE: Numb with pain, Dunblane mourns

gone quite silent, too. Everyone's hurting inside.

Tom Hamilton's last act of madness did more than murder 16 kindergartners and their teacher before taking his own life.

Hamilton's bullets marked the map of Dunblane like a shotgun blast, bringing grief to a home on almost every street and con-fronting its 9,000-odd residents with a loss beyond explanation. Some consider the damage - to families, friends and their communal innocence - irreparable.

'This is a big family town. The victims were neighbors of a huge number of people. In that sense the wider spread of victims is hard to imagine," says Philip Gregory, who has lived in this prosperous village for 35 years. He sent his three children through the primary school.

Some of the kids are saying, 'I don't have to go back to school, do I, Mummy?' They're scared of the place. And I have an unhappy feeling that Dunblane will attract ghouls, people who come because of the horror we're now associat-

of the horror we're now associat-ed with," Gregory says. Gregory found out Friday that an old friend, a childhood neighbor of his wife's, lost a grandchild to the gunman. Many of the deaths have rippled in the same way through networks of kinships and friendships.

Dobbin waves across the lane to Robert Ross, grandfather of one of

na Ross

'I walked with her every day to that school, every day right up to the last," Ross says to Dobbin. On Wednesday, he gave her two Life Savers mints. Now he holds a third mint in his palm — the one he had planned to give the pretty blond girl Wednesday after class.

Joanna's parents — Pamela, a banker, and Ken, an electrician remain in their George Street home, a few doors down from another the home of another victim, 6-year-old Brett McKinnon.

They'll never understand. I'll never understand," Ross says, staring vacantly at the road. A neighbor passing by with her own small girl in tow offers her hand, then an embrace and peck on the cheek.

Some see the attack as a consequence of a society made brutal and callous by media violence.

"The children of today need support, and they face indifference, now blind hatred," says Dawn Smith, 23, a nursery school assis-tant who had cared for five of the

dead children. "They were all beautiful wee things. Some of the youngest at the school who survived thought the gunfire came from Power Rangers or Ninja Turtles or super-heroes. They didn't know until the end how black the real world can be "

Others cast the killings in apocalyptic terms

This could happen anywhere er be the same. "It's a place peo-

you live," says Alison Downie, who had returned to her childhood town just last month "because of all the good memories.

"I believe in God and the Bible, and where it says the end of the world is nigh. If you read your Book of Revelation, what happened here starts to make sense.

Downie, who attended the school n the 1980s, now works in Dunblane's brand-new supermarket, with the "parent with child" parking spaces up front. Psychologists came to counsel the supermarket

staff Friday. Before Wednesday's massacre, Downie says, the worst thing that ever happened in Dunblane was a car break-in. Now it is the scene of Britain's worst mass murder in modern history, made all the more reprehensible by the youth of its victims.

'Adults can defend themselves somewhat. These innocent wee wains, I can just imagine them facing the mad gunman, raising their hands up and crying in terror," says Helen Norris, the mother of a -year-old boy who traveled from he nearby town of Cumbernauld to offer flowers and her son's teddy bear.

Norris has done this before. In 1993 she delivered flowers and her son's previous teddy bear to Liverpool when a 2-year-old boy, Jamie Bulger, was kidnapped and beaten to death by two 10-year-old

wnie says Dunbla ne will nev ple came to get away from the aggression of other places," she says. "Now the town is scarred forever."

Gregory, however, thinks Dunblane could even find itself a stronger community years down the road.

Israel seeks U.S. aid to build high-tech barrier to separate it from West Bank

Israel is seeking equipment from the United States to fight terrorism, only part is actually for the identification and interception of potential terrorists. The bulk is intended for a controversial project to build a high-tech barrier to separate Israel from the West Bank, which the Israelis have largely turned over to the Palestinians.

During his 22-hour visit to Israel last week, President Clinton pledged \$100 million in anti-terrorist training and equipment, including advanced bomb-detection scanners and sniffers, X-ray systems, bomb-handling robots and heat and radar sensors. But he said nothing about the proposed barrier.

The separation plan was origi-nally prepared at the request of Yitzhak Rabin, then the prime minister, after a suicide bombing Jan. 22, 1995. After the recent spate of bomb attacks, which took more than 60 lives, the plan was revived by Prime Minister Shimon Peres, who took office after Rabin was assassinated last November.

The project, whose details are now being completed by police, essentially envisions sealing off the 1967 demarcation line between Israel and the West Bank with high-tech equipment, using fencing only in the most remote or heavily populated areas.

Crossing would be allowed only at 8 to 10 points along the 124-mile divide, and existing roads and paths would be blocked.

On March 4, after a bombing in Tel Aviv, Peres announced separation as one of several tough measures against terrorism. Almost immediately, the army sent bulldozers to block some roads between Israel and the West

JERUSALEM (NYT) - While Bank, and posted tanks with night slipping in or out, or even smugvision capacity along remote stretches of the divide.

But the government reportedly had trouble coming up with the necessary money for the hightech portion of the plan. So when Clinton offered help after the bombings, Israel asked for aid in setting up the barrier.

Israeli and U.S. officials say Internal Security Minister Moshe Shahal, who was instructed to design the separation plan, prepared a list for the Americans that included advanced radar for ground observation, night vision instruments, light armored personnel carriers and two helicopters. Israeli reports said the equipment was valued at \$110 million.

The Jerusalem Post said that officials of the State Department's Office of Anti-terrorism Assistance had toured the proposed line to see firsthand what was needed, and that Israel was likely to get much of what it wanted.

From its inception, the plan has had many critics, not least Peres. Though he publicly endorsed it after the recent wave of bombings, he is said to hold privately that the idea runs counter to the Israeli-Palestinian agreements.

Opponents have argued that no barrier would be impregnable, noting that illegal migrants from Mexico continue infiltrating into the United States despite the latest in border equipment. The Israel-West Bank line has many stretches where Israelis and Palestinians live virtually side by side, and Israeli ideology would preclude dividing Jerusalem, leaving many Arabs free to move back and forth. A fence has already been built around the Gaza Strip, but it has Haim Ramon and Yossi E not prevented Palestinians from minister without portfolio.

Standard Hand and are bereford the

gling stolen cars across. The Palestinian who exploded a bomb and himself in Tel Aviv on March 4 was smuggled in by an Israeli Arab at a time of high alert.

The patchwork of Israeli settlements in the West Bank makes separation all the more compli-cated, and the Israeli Treasury has argued that maintaining the border and the checkpoints will be costly.

Palestinian political leaders also have assailed separation, as they do the closings imposed on their territories after every crisis. They complain that Israel designs and imposes such security measures without any regard for the impact on Palestinians, thinking only of its own interests.

'This is a stupid idea,'' said Jibril Rajoub, the Palestinian chief of the Preventive Security Service in the West Bank. "How can the Israelis and Palestinians live as neighbors if they want to start with separation? I think separation is an expression of the feelings of enmity and hatred. No one can do

But the idea has become increasingly popular among Israelis, especially since they have found that peace treaties with the Palestinians have not stopped terror attacks.

A poll taken immediately after the bombing in Tel Aviv found that 85 percent of Israelis queried were in support of a complete and unlimited separation. In addition, the plan is said to have growing support in Peres' Labor Party, including that of influential Cabinet members like Foreign Minister Ehud Barak, Interior Minister Haim Ramon and Yossi Belin, a

VATICAN CITY (AP) - With Easter approaching, a recuperat-ing Pope John Paul II has pared down his schedule to the minimum, postponing a trip to central Italy and limiting public greetings to appearances at his apartment window.

Speculation about the severity and nature of the pope's latest ill-ness was fueled by the changes announced Saturday. The heavy schedule of Easter-related Masses and events, which have become a test of stamina for the once vigorous pontiff, begins in just two weeks

The papal spokesman, Joaquin Navarro, insisted the 75-year-old pontiff is recovering. But the Vatican has refused to clarify the pope's condition, saying only he suffered a "feverish syndrome of digestive nature."

The pope came down with fever of about 100 degrees Tuesday night. His temperature was reported normal on Friday.

He is clearly improving," Navarro said.

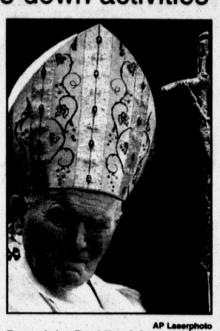

Attention will be riveted on today's beatification of two Italian missionaries. John Paul - who was last seen in public March 10 – may make a brief appearance at the ceremony in St. Peter's Basilica, Navarro said.

But the Vatican's secretary of state, Cardinal Angelo Sodano, was asked to celebrate the Sunday Mass. The pope also does not plan his usual Sunday address to pilgrims

His scheduled for the week also

has been trimmed. A trip to the Tuscan town of Siena, scheduled for Tuesday when the Church marks Workers' Day, was moved to March 30 — the day before Palm Sunday and the beginning of the week of events culminating in Easter.

The general audience the pope holds every Wednesday, almost without fail, has been called off for the second consecutive week. Navarro said the pontiff plans only to greet pilgrims from his

a a state of the second s

Pope John Paul II celebrates Mass at New York's Central Park in this file photo. The papal spokesman, Joaquin Navarro, says the 75-year-old pontiff is recovering.

then, before a worldwide television audience, cut short his holiday greetings. The Vatican blamed it on influenza and food poisoning.

Last year, the pope for the first time allowed others to help him carry a cross in the Good Friday procession around the Colosseum. John Paul bore the light wooden cross for three of the 14 stations recalling Christ's suffering before crucifixion.

The Vatican said others also will help him carry the cross dur-ing this year's procession. John Paul underwent surgery in

July 1992 for removal of what the Vatican said was a benign bowel tumor. In April 1994, he broke his right leg when he slipped in his bathroom, an injury that forced him to delay a trip to the United States and undergo hip replacement surgery.

The pope's next foreign trip is a one-day visit to Tunisia on April 14.

Clinton's '97 budget: Election-year blueprint for economic security

dent Clinton fleshes out a \$1.64 tril-lion budget for 1997 on Tuesday with a plan for girding America's economy that he hopes will under-pin his re-election bid against likely Republican nominee Bob Dole.

Hewing to an outline he introduced six weeks ago to meet a legal deadline, Clinton will detail his recipe of tax cuts for families, savings from Medicare and other benefit programs, plus increases for education, the environment and high technology. The final product: A political document that he will argue charts the best path for raising Americans' living stan-dards by balancing the budget by 2002 and bolstering key programs.

One administration official said White House concern over economic security was unrelated to the "boomlet of interest" the issue received during the GOP presidential nomination fight. In fact, in his fiscal 1996 budget 13 months ago, Clinton discussed the problems of falling incomes, low job creation rates and stagnant living standards - all on the first page.

"You'll once again see economic security and living standards as a major theme," said the admin-istration official, who spoke on condition of anonymity.

To The

Family & Friends

of

TOMMY JOHN

RAINS

WASHINGTON (AP) - Presi- of what government should look like, do and cost. One of those visions involves \$99 billion tax cuts, about half what Republicans

proposed. Clinton hopes to outflank the GOP by portraying himself as tight-fistedly eliminating the deficit and shrinking government. Simultaneously, he plans to woo his Democratic base, claiming he accomplishes those goals more gently than Republicans while protecting programs for children, struggling families and other vulnerable people.

Administration and congressional officials say Clinton will unwrap no major surprises and will closely track his February outline and the offers he made during the failed budget talks with Republicans. His blueprint comes as the administration and Congress struggle in overtime to finance dozens of agencies for fiscal 1996, which began last Oct. 1.

The administration official said new details will include:

billion from this year's department budget, which remains incomplete;

\$7 billion for the Environmental Protection Agency, up by an expected \$300 million from the EPA's unfinished 1996 budget;

A reduction of 31,000 more jobs from the federal work force, bringing to 245,000 the positions the Clinton administration has erased since 1993.

The president's plan will be con-trasted with a rival spending plan to be produced by Dole, the Senate majority leader from Kansas, and other congressional Republicans. As during the budget negotiations, Republicans will propose eliminating the deficit by 2002 with bigger tax cuts and more savings from Medicare, Medicaid and domestic programs than Clinton wants. It's a package that returns more money to families and makes needed, more serious cuts in government, they say.

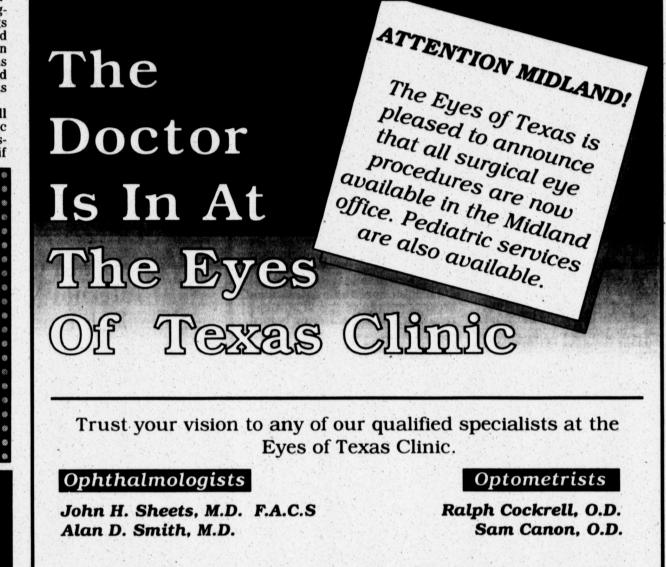

And once again, the GOP will apply the conservative economic ■ \$25.6 billion for the Education Department, up a projected \$1.5 sional Budget Office to measure if

We'll be very scrupulous in looking at it," warned Senate Budget Committee Chairman Pete Domenici, R-N.M.

Clinton's blueprint will have limited influence on the 1997 budget that emerges from the GOP-controlled Congress later this year. Its proposals for many initiatives are likely to be ignored or, perhaps, become the starting point for negotiations

"It might provide some comic relief for the Congress," said Rep. John Boehner, R-Ohio, a member of the House GOP leadership.

KAMAL N. TOLIA, M.D. A Woman Physician for Women

Researchers: Sugar's bad reputation is bad rap

By Paul Recer Associated Press

WASHINGTON - Sugar has a reputation as an evil food that causes diabetes, obesity, mood swings and other bad health effects. But Duke University researchers say that is all a myth.

It's fat - not sugar - that is the bad guy, says Richard Surwit, research director of the Stedman Nutrition Center at Duke. Sugar got its unsavory reputation, he said, from associating with fat. Surwit said that research using

laboratory mice and human beings with controlled diets shows that sugar has no more effect on weight gain than any other form of carbohydrate calories and that it does not trigger diabetes, nor affect the personality.

Nor does sugar cause depression, hyperactivity, anxiety, or affect the ability to concentrate, he said.

The digestive system, Surwit said, breaks down carbohydrate elements in grains, pasta, bread and cereals into forms of sugar. Pure, white sucrose found in the ordinary sugar bowl is the same thing, so far as the body is concerned, he says.

"Sugar is just a carbohydrate like all others," he said. "It is healthful and should be regarded like all other carbohydrates. There's no difference metabolically.'

Once sugar is in the digestive tract, said Surwit, enzymes break it down "in the same manner as they break down complex carbohydrates, such as pasta and grains.'

Other experts, however, said it is too early to accept the sweeping conclusions proposed by Surwit.

"Sugar has been known as a bad food and it may not be as bad as we thought it was," said Sachiko St. Jeor, director of nutrition studies at the University of Nevada School of Medicine. "But it needs further research.

She said Surwit's studies were too limited to extrapolate to the general public.

"These findings have yet to be confirmed," she said. Studies that last longer and involve more people are needed.

In the studies presented Saturday at the 4th International Congress of Behavioral Medicine, Surwit and his colleagues reported on testing of sugar diets on both laboratory mice and on people.

Surwit said in their first experi-nent, colonies of mice were fed a grains. Only artificial sweetener ment, colonies of mice were fed a fatty, sweet diet that was essentially cookie dough.

"The animals all got fat and diabetic," he said.

Then the researchers fed groups of mice four different diets: high sugar-high fat; high sugar-low fat; low sugar-low fat and low sugar-high fat.

Only those receiving the high fat diets, he said, developed diabetes and obesity, or showed personaliy changes. Sugar was not the villain, said Surwit. It was the fat.

The Duke researchers then carried the idea into humans.

Forty-two overweight women, divided into two groups, were fed low-fat diets of exactly the same caloric content for six weeks. For one group, 43 percent of the calories came from sugar. The other group was fed no added sugar, but instead got calories from

was used for the second group. Both groups throughout the

experiment underwent frequent physical and emotional tests aimed at detecting small changes. At the end of the experiment, there was virtually no difference between the groups, said Surwit. There was an average of 10 pounds in weight loss among all the women. Healthy changes in blood pressure, body fat ratios, stress hormone levels and blood lipids was the same for both groups. Tests showed no increase in anxiety, depression, or feelings of hunger for either group.

Conclusion: "Sugar has an undeserved reputation," Surwit said. St. Jeor and other experts, however, suggest that this conclusion may be premature and they urge more and longer-term experiments.

Many states fail to meet mandates on child welfare DOCTOR'S WEIGHT CONTROL CENTER

By Robert Pair

N.Y. Times News Service

WASHINGTON - At least 21 states are under court supervision because they failed to take proper care of children who had been abused or neglected, and many of them have flouted their obligations even after promising in legal settlements to protect the constitutional rights of foster children, court records show

Judges across the country have found what Judge Thomas F. Hogan of U.S. District Court here describes as "outrageous deficiencies" in child protection services.

Court records paint what another judge, in Illinois, describes as "a 'bleak and Dickensian picture.'

Child welfare officials in many states, swamped with work, are slow to investigate reports of child abuse and neglect. They often place children in unsafe or overcrowded foster homes and provide them inadequate medical care. They afford few of the social services needed to keep families together or reunify them. And they are delinquent in finding adoptive parents for children languishing in foster care.

Surveys by the federal Department of Health and Human Services show that the annual number of abused or neglected children has more than doubled in the last decade, to 2.9 million from 1.4 million. The annual number seriously injured by abuse, the department says, has quadrupled, to 572,000 from 143,000.

"CHILDREN ARE being hurt more often and more seriously,' said Donna E. Shalala, the secretary of health and human services.

A federal advisory committee said recently that abuse and neglect were the leading cause of

ment, in view of the abysmal conlawsuits

reasons for the increase in child almost every state.' abuse and neglect.

AMONG THEM are the crack epidemic and an increase in economic hardship resulting from the failure of welfare benefits and the minimum wage to keep pace with inflation.

Indeed, many states are now cutting cash assistance, and as a result, she said, some families cannot afford necessities like shelter, fuel and warm clothing for their children, so that accusations of child neglect will probably increase.

Even states like Utah, which might seem far removed from the drug abuse and violence of big cities like New York and Chicago, have been targets of class-action lawsuits charging that they failed to care for children beaten or sexually abused by their parents.

Utah Solicitor General Carol Clawson said "there were clearly problems" when the state was sued in 1994 by the National Center for Youth Law, a nonprofit law firm. Gov. Michael O. Leavitt agreed to settle the case six months after it was filed in U.S. **District Court**.

Under the settlement, he promised improvements in virtually every aspect of child welfare services. But an independent panel established under the agreement said last month that the state was flouting 53 of its 92 commitments, and lawyers for the plaintiffs said they would soon return to court to demand enforcement of the consent decree.

LEAVITT, WHO has been in the forefront of Republican governors urging Congress to entrust the states with more responsibility, acknowledged that Utah had not fully complied with the decree. 'The litigation has become a hindrance to our ability to fix the sys-

State responses to the lawsuits vary widely. Some officials are cooperative and constructive, seeing the lawsuits as an opportunity to make improvements and press state legislators for more money. Other states are slow to change

and reluctant even to disclose the data needed to assess their performance.

Jerome G. Miller, a courtappointed receiver given authority over the child welfare system here in Washington, said he had been frustrated at every turn by the "bureaucratic intransigence" of city employees.

The nation's capital is in the midst of a budget crisis, but Hogan, overseeing a vast child welfare case here, said that was no excuse because the city had failed t. make the "minimal effort" needed to obtain large amounts of federal money for abused and neglected children.

IN NEW York City and state, child welfare agencies are operating under at least five court orders and consent decrees. In December, after years of piecemeal litigation, advocates for abused and neglected children filed a comprehensive lawsuit asserting that the city agency was in crisis and should be taken over by a court-appointed receiver.

In a separate lawsuit in January, the government charged that New York City and State officials had fraudulently obtained 10 of millions of federal dollars by falsely reporting that services were delivered to housands of foster children.Connecticut's child welfare system is also operating under a consent decree. In New Jersey, Winnie Comfort, a spokeswoman for the state Department of Human Ser-

vices, said there had been no lawsuits challenging the system of protective services for children.

Lawyers for foster children have been remarkably successful in establishing the children's legal rights, even though the victories do not always produce immediate improvements in the quality of care

Children removed from the homes of their biological parents are deemed to be in state custody, whether they live in state institutions or with foster parents. Federal courts have repeatedly ruled that such children are protected by the 14th Amendment,, which says that no state shall "deprive any person of life, liberty or property without due process of law.

COURTS OFTEN compare the rights of foster children to those of prison inmates and adults committed to mental hospitals against their will. Thus, federal judges have ruled that foster children have a right to be protected against physical harm and psychological abuse, just as they have constitutional rights to food, shelter and medical care.

But courts have found countless violations of these rights. In the Washington case, a child identified as LaShawn A. told a child psychiatrist that her foster mother had beaten her. When the doctor asked who loved her, she replied, 'No one." When he asked who hated her, she said her foster mother.

Another child, Kevin E., has been in the custody of the District of Columbia for 11 years, with no plan for adoption or psychiatric care. "He told the hospital staff that he hated himself," Hogan found, "and he climbed into a trash can and asked to be thrown away.'

Rare meningitis strain in Missouri draws CDC attention

By Karen Testa

Associated Press

JOPLIN, Mo. - A middle-aged woman. A 2-year-old boy. They were not neighbors. They did not attend the same church services or drink from the same faucets. They had no mutual acquaintances and no physical contact.

They had one thing in common, and it killed them.

Both died of a rare strain of bacterial meningitis that has been detected six times in three counties in southwestern Missouri - and nowhere else in the country

The strain that caused the epi demic is deemed so unusual that the Centers for Disease Control and Prevention in Atlanta is sending a federal researcher to begin an in-depth study Monday.

'This is a strain that we haven't detected as being associated with clusters of illness," said Dr. Bradley Perkins of the CDC. "We feel like it's important to go down and characterize the cases as carefully as possible.

The four people who survived the illness — three grade school-age children and one young adult - are vital to the study. They have no obvious links to each other or to the two victims who died, but the CDC hopes to learn more about risk factors by interviewing them and their families.

The health department declined to release the names of the survivors or the dead, citing confidentiality laws.

Outbreaks of meningitis are not unusual. In fact, cases of viral meningitis are so common that health officials don't require notification. They are rarely fatal.

Bacterial meningitis occurs less frequently but progresses more rapidly and is more often fatal. The CDC expects one case per 100,000

people each year; more than that s considered an epidemic. The Joplin area had 11 bacterial cases among 130,000 people in 1995.

Meningitis symptoms include high fever, severe headache, lethargy, vomiting, a rash and neck stiffness. The disease is spread through kissing, sharing utensils or by being exposed to the nasal or oral secretions of an infected person, such as caused by sneezing or coughing.

Most of the bacteria that cause meningitis are classified as serogroup B or C. Group C clusters occur frequently - two broke out just last month in Dixon, Ill., and Okaloosa County, Fla. - but they cause less concern because vaccines can prevent broader outbreaks.

Serogroup B clusters, however, are rare, and there is no prevention.

And that's why all the concern in Missouri.

The Missouri meningitis belongs to a serogroup B strain of Neisseria, one of the fastest-working bacteria. Victims can go from flulike symptoms to death in just six hours

'It's frightening as rapidly as those things go because people can deteriorate right in front of you." said Dr. Jim Pyron, emergency room chief at Freeman West Hospital in Joplin, where several patients were treated. "There's very few things that can kill you as fast as that.

Before Missouri, the last Bstrain outbreak in the United States was in Oregon, in 1993, when a Neisseria strain identified as enzyme type-5 made its American debut. It has since caused scores of cases, with three deaths this year alone. Before reaching U.S. shores, enzyme type-5 menin-

gitis had caused outbreaks in Europe, Cuba and South America. In Oregon studies similar to the

one planned for Missouri, the CDC found that tobacco smoke that irritated the throat seemed to increase the risk for either falling sick or carrying the Neisseria bacterium, Perkins said.

The Missouri outbreaks began last year when 14 cases were reported in Jasper, McDonald and Newton counties. Eleven of them were bacterial, and four were fatal. Six of the 11 bacterial cases were from serogroup B - from an enzyme type never before seen: (It has since been designated enzyme type-566.)

Dan Pekarek, director of the Joplin Health Department, said the meningitis cases frustrated him because they cannot be tracked like other illnesses, such as salmonella or hepatitis A.

With this, there's no nice little linkage. There's no line between the cases," Pekarek said.

As with many bacterial sicknesses spread by contact and body secretions, young people are the most susceptible.

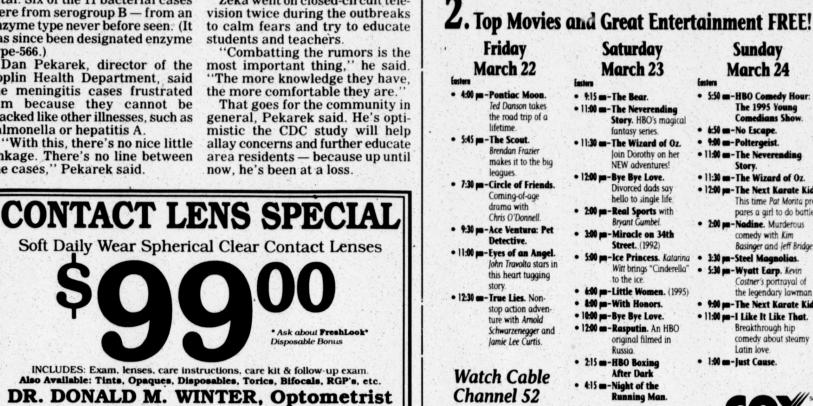

Joplin High School Principal Keith Zeka said the 42-year-old woman who died in December had a sophomore daughter at the school. Two other students were younger sisters of a college student who died of a C-group infection in April. Rumors flew for months and student made anxious trips to the school nurse.

Zeka went on closed-circuit television twice during the outbreaks to calm fears and try to educate students and teachers.

'Combatting the rumors is the most important thing," he said. "The more knowledge they have, the more comfortable they are."

That goes for the community in general, Pekarek said. He's optimistic the CDC study will help allay concerns and further educate area residents - because up until now, he's been at a loss.

St. Patrick's Day Sinn Fein leader adds serious touch to shamrocks, bagpipes

NEW YORK (AP) - Sinn Fein with the United Irish Counties crowd: "What a wonderful and leader Gerry Adams' presence among the shamrocks and bagpipes at Saturday's St. Patrick's Day Parade put a serious spin on the annual celebration of all things Irish.

"This parade appropriately is dedicated to peace, and that's what we have to be attempting to achieve," Adams said after attending Mass at St. Patrick's Cathedral. "We have to get the peace process restored with all speed.

It was Adams' first-ever visit to the nation's oldest and largest St. Patrick's celebration, and the -Irishman was greeted like a native son as he marched up Fifth Avenue past crowds that stood 10deep on the Manhattan sidewalks.

Irish flags flapped in the cold breeze as tens of thousands of spectators braved chilly 42-degree temperatures to cheer Adams. Earlier, members of the Irish Gay and Lesbian Organization were arrested for protesting their annual exclusion from the parade.

Adams, wearing a gray suit with a green tie and a green ribbon on his lapel, flashed thumbs up to the appreciative crowd as he walked

Association. The head of the political wing of the outlawed Irish Republican Army was accompanied by U.S. Rep. Peter King, R-N.Y., a vocal advocate of a united Ireland.

"Get the job done, Jerry!" shouted Jim Connolly, 50, as his 12year-old daughter Courtney cheered. Adams applauded the crowd in return as they shouted his name and waved enthusiastically.

Adams was greeted outside the cathedral by Cardinal John O'Connor, who had earlier quoted Pope John Paul II in urging a peaceful solution to the centuries-old struggle for peace in Ireland.

With Adams seated about 20 rows from the altar, O'Connor used the homily at his traditional pre-parade Mass to read portions of a 1979 speech delivered by the pontiff in Northern Ireland.

"I urge you in politics to have the courage to face up to your responsibility, to lead in the cause of peace," O'Connor said.

Adams, who listened intently, joined the rest of the congregation in cheering the cardinal.

O'Connor also delivered a oneliner of his own after surveying the

extraordinary site - 4,000 Irishmen in relative peace.

Later, Adams made a point of crossing the aisle to receive communion from the cardinal. The pair had met privately last year in New York.

The IRA broke a 17-month cease-fire on Feb. 9 with a bomb that killed two people in London. All-party talks about Northern Ireland are scheduled for June, and the Clinton administration is pressuring Adams to engineer another cease-fire before then.

But there was room for more than partisan politics along the 235th parade route.

The most popular item at this year's parade: a green-and-white version of the Cat in the Hat's stovepipe chapeau.

The most surprising item: the diamond engagement ring in police Officer Ed Lewis' pocket. He dropped to one knee, pulled

He dropped to one knee, pulled out the ring and popped the ques-tion to girlfriend Eileen Breslin after breaking ranks from his fellow marching officers. Breslin, 25, burst into tears before saying ves.

Juveniles learn about prison

State officals hope to influence youngsters with hard work, prison life

By Ed Todd Staff Writer

LAMESA — "Lock 'em up!'' A jarring, slamming noise punctured the roaring cacophony in the prison.

It is hardly a place to call home, to hang out, or even to visit unless you want a reason to become averse to prison life. Being there only briefly will do it.

And there are many: The noise, the hoots, the sameness, the 4 o'clock breakfasts, the institutional food, the ubiquitous cotton-white prison uniforms, the petty routines, the "badattitude" atmosphere that got most of the 1,342 inmates in the prison here in the first place. The humiliation of being locked up and losing your privacy, the likelihood of "pretty boys' being "gang-banged" by fellow inmates, and, most distressful, losing your freedom.

On Saturday, 28 troubled youngsters from juvenile-detention centers in Midland and Lamesa were given a rare and memorable gift: a tour of the Preston E. Smith Unit of the Texas Department of Criminal Justice's Institutional Division.

The gift, compliments of Warden James Black, is designed to show firsthand the reality of what likely will happen to the teen-age boys and girls when they become adults if they nourish their "bad attitude" and pursue crime for entertainment or a way of life.

The Midland boys and girls, who took the 55-mile trip from Culver Youth Home in northeast Midland to the Lamesa prison were escorted in their recruit-like, out-of-step ambling march into the 26-acre prison compound.

Lack of rain wilts Texas' wheat crop

Deaths/2B

FORT WORTH (AP) - Wheat, the state's fourth-largest cash crop, is withering under a months-long Texas drought and other unusual weather including temperature extremes.

Some farmers estimate the wheat crop yield could be cut in half or more after wide areas of Texas have been left with less than 75 percent of their average rainfall.

"The question now is how bad is the disaster going to be," said Stephen Amosson, a regional economist for the **Texas Agricultural Extension Service in** Amarillo

Preliminary forecasts show that the wheat crop has already sustained sizeable losses, with more damage expected if adequate rainfall does not develop.

A founding director of the Texas Wheat Production Board in Amarillo, W.R. Moore Jr., said the harvest this year is likely to plunge 50 to 60 percent below the annual average of about 100 million bushels in recent years.

Moore has been a grain and cotton farmer for over 50 years in the Munday

fraud and money laundering for col-lecting a 15-cent-per-gallon diesel fuel tax and sending it to offshore bank accounts

Lawrence Salvatore "Sal" lorizzo, dubbed by prosecutors "the godfa-ther of the diesel fuel tax-evasion scheme," was convicted Thursday in a scam resembling one that landed him in the witness protection program 15 years ago./3B

Perot backers

area of west Texas

Wheat in Tarrant County has begun to die on about 10,000 planted acres, said John South, county agricultural extension agent.

'In my heart, I've given up on it," Jack Cosper, a Crowley area rancher, told the Fort Worth Star-Telegram.

Cosper, who normally grazes 100 to 125 beef cattle and yearling calves on 75 acres of wheat, said little of the grain has grown this year for grazing and no growth is expected for hay.

Typically, Texas ranks fourth or fifth among wheat-producing states but sometimes falls to seventh. Winter wheat in the Lone Star State generated from \$226 to \$411 million in annual revenues during the 1990s

A cool front's passage through the state Saturday carried little hope for long-term relief from the dry, windy conditions that have also triggered grass fires around the state.

The Texas Agricultural Statistics Service's survey of field conditions early this month showed wheat at 40 percent of normal, down from 64 percent last year.

Seniors' kitchen needs more support

By Gary Shanks Staff Writer

Big hearts and deep pockets are needed to help fill the stomachs of a growing number of Midland seniors

Kitchen facilities at Community and Senior Services of Midland, Inc., are currently running at near capacity, providing about 160,000 meals per year to seniors around the city.

Volunteers at the kitchen provide about 675 meals per day for the Midland Meals on Wheels program and for the Midland Senior Center, Southeast Senior Center and Casa de Amigos.

The number of meals needed is growing rapidly each year, however, and a larger kitchen is needed, explained Connie Glover, CSS executive

director.

CSS board members have approved a capital expansion project of the agency's Fuhrman Center at 3301 Sinclair Ave.

The expansion project includes the construction of a new 2,500 square-foot commercial kitchen in a new, free-standing building along the southeast corner of the Fuhrman Center property adjacent to Midkiff.

More kitchen equipment will need to be purchased for the new building and an expansion of the parking and driveway area will be needed, Ms. Glover said.

A swimming pool behind the main offices will be filled in and the pool house converted into stor-

GARY OTT \$1,000 tip should have made quite an impression

tip. Yeah, that's what he did. Signed his

What a neat guy. Well, not really. He now wants the money back, but the waitress, a 37-year-old woman by the name of Ruth Bullis, has basically said, "Are you nuts?" Besides, she added, "The cash is long gone. I

Way to go, Ruth. Spend it before he comes to his sens-

Still, I must admit I feel a certain sympathy for the man. After all, haven't we all done something REAL-LY stupid and then later regretted our actions? Of course we have. Especially men. For some reason we are much more inclined to do stupid things and later regret them.

And more times than not, the dumb act involves money and was performed in hopes of impressing a woman. So the fact that a man would tip a female waitress \$1,000 is not totally surprising, especially since it happened in a bar and as we all know booze can make a man particularly vulnerable to foolish acts of generosity

Although Ms. Bullis insists that the gentleman was not at all tipsy at the time of the tip, I find that hard to believe. Sober men simple do not tip \$1,000 for a \$3.95

drink, no matter how much they want to impress a woman.

- Ten dollars? Sure. Twenty dollars? Perhaps.
- Fifty dollars? Doubtful.
- One thousand dollars? Absolutely not.

I mean, it just doesn't happen. That's not to say sober men are particularly smart, mind you. No indeed. They are still quite capable of performing incredible feats of stupidity, but generally those acts are more or less harmless to the pocketbook.

But you put five or six gin and tonics in a guy, place him in close proximity to an attractive female and give him a credit card, and that goofy little twit is liable to sign away his life savings.

He becomes Mr. Charming, and part of that new per-sonality requires him to flash big bucks.

Volunteers at the kitchen provide about 675 meals per day for the Midland Meals on Wheels program and for the Midland Senior Center, Southeast Senior Center and Casa de Amigos.

The number of meals needed is growing rapidly each year, however, and a larger kitchen is needed, explained Connie Glover, CSS executive director.

CSS board members have approved a capital expansion project of the agency's Fuhrman Center at 3301 Sinclair Ave.

The expansion project includes the construction of a new 2,500 square-foot commercial kitchen in a new, free-standing building along the southeast corner of the Fuhrman Center property adjacent to Midkiff.

More kitchen equipment will need to be purchased for the new building and an expansion of the parking and driveway area will be needed, Ms. Glover said.

A swimming pool behind the main offices will be filled in and the pool house converted into stor-

GARY OTT \$1,000 tip should have made quite an impression

OK, let's see if I have this straight. According to the newspaper story that appeared this

past Thursday, some guy in Lake Oswego, Ore., ordered a \$3.95 gin and tonic and then expressed his appreci-ation by leaving his waitress a \$1,000

tip. Yeah, that's what he did. Signed his name on the American Express receipt and everything. One THOUSAND dollars.

What a neat guy. Well, not really. He now wants the money back, but the waitress, a 37-year-old woman by the name of Ruth Bullis, has basically said, "Are you nuts?" Besides, she added, "The cash is long gone. I mont it the day I got it "

spent it the day I got it."

Way to go, Ruth. Spend it before he comes to his sens-

Still, I must admit I feel a certain sympathy for the man. After all, haven't we all done something REAL-LY stupid and then later regretted our actions? Of course we have. Especially men. For some reason we are much more inclined to do stupid things and later regret them.

And more times than not, the dumb act involves mon-ey and was performed in hopes of impressing a woman. So the fact that a man would tip a female waitress \$1,000 is not totally surprising, especially since it happened in a bar and as we all know booze can make a man particularly vulnerable to foolish acts of generosity.

Although Ms. Bullis insists that the gentleman was not at all tipsy at the time of the tip, I find that hard to believe. Sober men simple do not tip \$1,000 for a \$3.95

drink, no matter how much they want to impress a woman.

Ten dollars? Sure.

- **Twenty dollars? Perhaps**
- Fifty dollars? Doubtful.
- One thousand dollars? Absolutely not.

I mean, it just doesn't happen. That's not to say sober men are particularly smart, mind you. No indeed. They are still quite capable of performing incredible feats of stupidity, but generally those acts are more or less harmless to the pocketbook.

But you put five or six gin and tonics in a guy, place him in close proximity to an attractive female and give him a credit card, and that goofy little twit is liable to sign away his life savings.

He becomes Mr. Charming, and part of that new per-sonality requires him to flash big bucks.

POLICE REPORTS

Store robbery

Jeffrey Nettles was arrested on charges of robbing the **Friends Convenience Store at** 610 Andrews Hwy around 4 a.m. Saturday, police said. Nettles is suspected of entering the store and telling the clerk to give him money. The clerk said the suspect had his hand inside his jacket as if to conceal a weapon. After the clerk gave the suspect the money, he left on foot. Police chased him and arrested him at 2500 W. Michigan. The money was returned to the store

Nettles is charged with aggravated robbery, evading arrest and possession of drug paraphernalia. It is unknown if Nettles was carrying a weapon, police said.

Vandalism: Windows of a barn were broken at 3905 S. County Road 1210, reported Roy Dairy at 2: 46 p.m.

Anyone having information concerning these crimes should call the Police Department at 685-7108, the Sheriff's Office at 688-1228 or Midland Crime Stop-

CROP: Wheat crop needs rain

(From 1B)

The crop forecasting service said more than 60 percent of the wheat was in poor to very poor condition, with 31 percent rating fair and 8 percent good.

Officials said losses of potential wheat sales will top \$100 million in

area farmer, said nonirrigated

(From 1B)

So he does. And sometimes he gets a little carried away.

That's why you will occasionally read a news article about some poor sap in Oregon leaving a \$1,000 tip.

That's also why men who are enjoying a few drinks in mixed company should not be allowed to have credit cards in their wallets. The temptation to use them for showing off purposes is simply too great to resist.

Plains John Spearman Sr., a Pampa

Texas' leading wheat growing

area, which comprises the 41 coun-

ties of the Panhandle and South

wheat could be a disaster if soaking rains do not come within three weeks.

OTT: Big tipper changes his mind

says: "Cash only. You'll thank us in the morning. But the real problem with cred-

it cards is that at the end of the month you receive your bill.

And so does your nosy wife. She examines it and says, "Honey, do you want to explain this ,000 American Express bill?"

'Yeah, well, uh," you eloquently reply, "that must be a misprint." She arches an eyebrow and says,

"I beg your pardon? "Misprint. They've obviously put the decimal point in the wrong

DEATHS

Derick Lee

Services for Derick Lee, 6, are to be at 1 p.m., March 18, at Calvary Assembly Church with Rev. Gayle **Reeves and Rev. Bob Porterfield** officiating. Burial will be at Resthaven

Memorial Park. Arrangements are under the direction of Ellis Funeral Home. Lee died Friday, March 15, at his Midland residence. He was born Feb. 16, 1990.

He attended kindergarten at Rusk Elemen-

tary School and Calvary Assembly of God and First Church of the Nazarene.

He is survived by his parents, Byron and Rosalie Chappell of Lubbock; a brother, Mike Chappell of Lubbock; and a sister, Candace Chappell-Ferguson of Irving.

Memorials may be made to Hos-pice of Lubbock, 4314 S. Loop 289, Lubbock, Texas, 79413 and M.D. Anderson Cancer Research Center.

H.B. Hatch

BIG SPRING — Services for H.B. Hatch, 80, of Big Spring, are to be at 10 a.m. Monday, March 18, at Mt. Olive Memorial Park with Rev. Pat Ray officiating. Arrangements are under the direction of Nalley-Pickle & Welch Funeral Home

Hatch died Saturday, March 16, in a local hospital.

He was born Feb. 29, 1916, in Big Spring.

He was a veteran of the U.S. Army. He was a lifetime resident of Howard County. He was a farmer and a journeyman plumber. He retired in 1977. He was a member of Praireview Baptist Church.

Survivors include his wife, Ruth Hatch of Big Spring; one son, Kenneth Hatch of Houston; one brother, Dick Hatch of Aransas Pass; and one sister, Helen Johnson of San Antonio.

Memorials can be made to the American Heart Association, Howard County Division, P.O. Box 1223, Big Spring 79720.

KITCHEN: Seniors need your support

(From 1B)

age space as part of a larger remodeling project at the center.

The current kitchen space will be converted into office space to relieve crowding at the center, Ms. "We've really Glover said. reached our capacity, office space wise," she said.

Almost 60 percent of CSS funding comes from government sources, federal, state and local. United Way provides eight percent, six percent comes from volunteer inkind services, 11 percent from other various other sources and about 13 percent from private sources such as individuals, corporations and foundations.

being launched to raise the money necessary to keep CSS services available for Midland's growing older population.

Many CSS programs, such as Meals on Wheels, support the independence of older people living on their own.

Providing services that allow seniors to live independently has proven to be the most cost-effecve way to address the needs of the elderly, Ms. Glover explained.

In the absence of such services, many Midland seniors would find

works to improve the quality of life for these citizens by providing continuing services that support independence, self-sufficiency, vitality and dignity, Ms. Glover said.

CSS coordinates the efforts of large numbers of volunteer workers to provide its many services. In the nutrition program alone, more than 1,200 volunteers served last year. "It takes a lot of volunteers," she said:

In addition to the nutrition proect, CSS helps place low-cost housing and helps maintain the housing through its Homebound Services, which include such programs as daily phone calls and grocery shopping trips.

Midlanders. The organization resources and programs for senior citizens in the 17-county Permian Basin area.

> The Retired and Senior Volunteer Program (RSVP), benefits the entire community by organizing thousands of service hours by senior volunteers. These volunteers serve in many capacities such as boys and girls clubs, Girl Scouts and Need to Read.

Last year more than 400 home

visits were made by health care

providers with Visiting Nurse Ser-

vices - part of CSS's home health

Indeed, responsible bar owners should require all men entering their establishments, especially those also catering to good-looking women, to drop all credit cards in a bucket at the door. They would then be returned as the men leave.

They could even post a sign that

place other eyebrow shoots The upward.

"Hey," you snap. "That's my sto-ry and I'm sticking to it."

Good luck.

Gary Ott is managing editor of the Reporter-Telegram.

For the capital upgrades, however, CSS will have to turn to local private sources to help raise the almost \$400,000 needed. A fund-raising campaign is

own and likely would end up in nursing centers.

Some of our people are just a meal away from a nursing home," she said.

Over the last decade, CSS has become the primary provider of supportive services for elderly

The Senior Help Line has been established to provide information about services, community

care services In addition, seminars about the physical, social and psychological aspects of aging are offered to seniors and care givers periodically throughout the year.

To help with the fund drive or to volunteer at CSS, call 689-6693.

JUVENILES: Youngsters learn hardships of life spent on crime

(From 1B)

prison-gray uniform and black boots. Shirttails in. Sit down. No talking.

Like the inmates, the guards, too, were without smiles. The locked-up inmates, still awaiting their hour or so outdoor under the sunshine, held that no-where-to-go smile-less look.

A couple of guards jingled when they walked. They were wearing spurs and were among the horseback guards who, at mid-day, would be riding around the youngsters when other inmates showed them how to hoe in the prison's 550acre cotton farm.

"If you haven't figured it out yet, this ain't a (juvenile) detention center," Black told the youths. "Most of you have a bad attitude,"

REMAIN ANONYMOUS * CASH REWARDS

MIDLAND

CRIME STOPPERS

them into their current association

"I don't want you here," Black said in his sure pacing and firm tone that spoke of control and the certainty of cause and effect: Criminal acts will land you in prison

He passed around a set of prison whites - a sample of the uniform worn by the inmates.

The warden didn't preach. He ust laid out some realities.

"You've got to realize that you are in control of your own future. And Black, a tall, robust, 32year-old fellow who grew up in East Texas, admitted that "I've done it. I've been there" in the crime realm. But a difference between he and the inmates is that

Quit Smoking

In 7-days! Doctor recommended All natural product

915-563-2083 1-800-540-2083

which, he suggested, is what got he, like many others, "made a choice to change.

The prison program is "not a joke, not a game," Black said.

Of the inmates, including four facing the seated youngsters who were resting on the gymnasium floor, Black said, "I'm their momma. I'm their daddy. I'm every-thing to them." They are in prison in Black's hope of goading them into developing positive attitudes and in learning discipline and skills and their high-school diplomas.

To the youngsters, Black said: "You are in control. You control whether or not you get into trouble.

Who you run with will greatly determine your future.'

One at a time, the four inmates, Bryan, 25, Gustavio, 24, Mike, 21, and Lesley, 30, told their stories: dealing in and taking drugs, committing burglaries and robberies, stealing.

Bryan's father was a drug addict. "My old man shot dope. And so did the son. "When I was 15, my old man shot a needle in my arm. I thought it was cool then. He doesn't now.

"I could have changed." Bryan admonished the youths to

take care of your business your-

self." He told the boys and girls that cigarette smoking can lead to smoking marijuana and the use of hard-core drugs.

"It hurts me on the inside to see all of you," Bryan said. "I see a lot of young faces, a lot of pretty boys." And he allowed that "gang-

banging ... ain't cool." On the outside, Gustavio was a professional pianist and music teacher who also played several wind instruments.

"I tried it (marijuana) because most of my friends smoked it." Gustavio said in outlining his drug habits. "All I wanted to do was par-

JUVENILES: Young offenders work hard to come to terms with laws of the land

(From 2B)

away (in prison), that's it."

The 21-year-old inmate, Mike, told how his use of drugs ravaged his life.

"Drugs have been my biggest problem," he said. "I accepted it; I thought it was all right. I stole, (started) skipping school, going out and getting cocaine, acid, speed. At 16, I started selling drugs. I got careless out there.

Black, the warden, reminded the youngsters that "the mind is a very powerful tool" that can be used as a positive force to build character or in negative ways to destroy lives and futures.

"I want you to think about how you can change your way of thinking," said Black, who assured them that they would not like prison life.

"I'll give you three meals a day plus a place to sleep. And that's about it.

Black told of prison fights, of a

hurting "big guy" who cried and, coached by inmates, hoed in rience being "locked up." "Momma, Momma, I'm going to unison or tried to. "Do not talk to any inmates" die," of screaming heads being shoved into toilets, of an inmate who scaled a fence only to be shot by a sharpshooter, of prison dogs trained to hunt and snarl escapees, of "small" fellows who may wind up "belonging to somebody else."

"You are going to do what they want you to do, or you are going to end up a basket case" in those 5foot-by-9-foot two-man cells.

"We have had a couple of stab-bings and a couple of riots," Black said. "No killings."

But there is much work, sometimes "busy work," but work nonetheless in the compound and on the farm.

The youths, who, fitted with work boots, were marched outside the compound and to the farm.

They were outfitted with heavy hoes and grubbing hoes.

Armed with their hoes standing almost shoulder-to-shoulder, the 28 youngsters lifted high their hoes

"One, two, three, front step." "One, two, three, back step."

Over and over, again and again, the youths raised their hoes, drew them down, and broke dirt.

Hold 'em up. Pick 'em up, yelled a guard on horseback. "We ain't got all day. Everybody is doing to hit the ground at the same time, rocking on it."

"One, two, three, rock on it. One, two, three, rock on it.'

to their detention centers in Midland and Lamesa, all but one - a girl — ate prison chow in their allotted 20 minutes. The guards told them where to sit and eat.

Next, the youngsters were herd-ed into a two-level, 42-cell module for 84 inmates in those escapeproof cells with steel bars and abbreviated windows.

Two-by-two, the youths were guided up the steel stairs to expe-

your way up," ordered a guard. From their own cells, the "Cut out the noise," ordered a guard. The noise level dropped but tled, laughed and yelled in such

disharmony that the only thing cer-"Do not talk to any inmates on tain was the noise of human restlessness and cacophony

quickly picked up.

"Lock 'em up," roared the guard. The steel door was slammed and locked.

Former Midlander promoted to Waco city attorney

From Staff Reports

Former Midlander Art Pertile III has been named Waco city attorney.

Born in Midland, Pertile graduated from Lee High School in 1979. While in high school, he played basketball and was captain of the track team. He received the Shell Oil Century III Leadership Award and was listed in International Youth of Achievement.

He is the son of Eula Pertile of Midland and

Arthur Pertile of Odessa.

He is married to Renita D. King.

Pertile began his career as assistant city attorney in Waco. In 1990, he moved to Houston where he became an assistant district attorney for Harris County. In 1993, he became as assistant city attorney in Houston and last year he returned to Waco where he became first city attorney, a position he held until his promotion to city attorney.

Pertile received a Bachelor of Arts degree in

Midland Park Mall 520-2617 social science from McMurry College in Abilene in 1983. He was an All-American in track and was named to Who's Who in American Universities and Colleges. He also was listed among Outstanding Young Men of America. He received an Outstanding Youth of Abilene award from the Abilene Optimist Club.

In 1986, Pertile received a law degree from the University of Texas at Austin, where he received the University of Texas Law School Student Bar Association's community service award.

IN MEMORY OF JIP

DON'T TELL ME THAT YOU UNDERSTAND, DON'T TELL ME THAT YOU KNOW. DON'T ELL ME THAT I WILL SURVIVE, HOW I WILL SURELY GROW.

DON'T TELL ME THIS IS JUST A TEST, THAT I AM TRULY BLESSED. THAT I AM CHOSEN FOR THIS TASK, APART FROM ALL THE REST.

DON'T COME AT ME WITH ANSWERS, THAT CAN ONLY COME FROM ME. DON'T TELL ME HOW MY GRIEF WILL PASS, THAT I WILL SOON BE FREE.

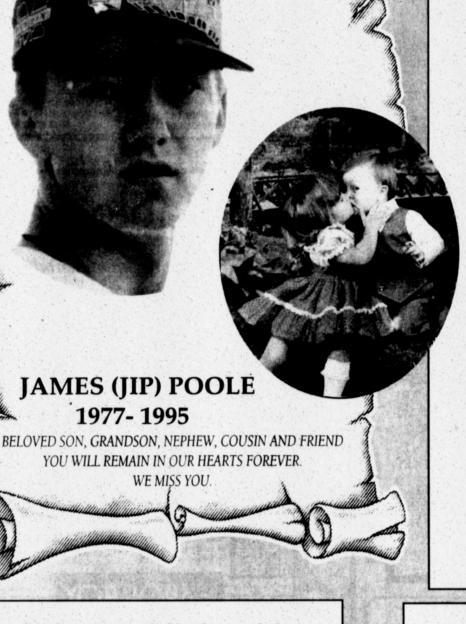

DON'T STAND IN PIOUS JUDGEMENT, OF THE BONDS I MUST UNTIE. DON'T TELL ME HOW TO SUFFER, AND DON'T TELL ME HOW TO CRY.

MY LIFE IS FILLED WITH SELFISHNESS, MY PAIN IS ALL I SEE. BUT I NEED YOU, I NEED YOUR LOVE, UNCONDITIONALLY.

ACCEPT ME IN MY UPS AND DOWNS, I NEED SOMEONE TO SHARE. JUST HOLD MY HAND AND LET ME CRY, AND SAY, "MY FRIEND, I CARE."

I'M RIGHT HERE

- 3 years old -- wandering from her sight while playing, his mother calls --The answer comes: It's all right; I'm right here.
- 7 years old -- late coming home from a friend's house, his mother calls--The answer comes: It's all right; I'm right here.
- 10 years old -- his first 10 speed bike disappears down the road, his father calls --The answer comes: It all right; I'm right here.
- 13 years old -- teenage problems, hurt and angry yet knowing he can count on his family, he calls --The answer comes: It's all right; I'm right here.

As I sit here surrounded by the people I know My mind drifts back to the place we would go

A future we wish for on a far away star A passion you gave me I kept in my heart.

You were taken away on a darken night

To a majestic place where all is right

If I don't say good-bye my heart won't

I listen to our old tunes and stare at the

And wonder why we never got to say

You could be moments or years away

When we meet again someday ...

After all this time it's hard to let go

Heaven looks light years away

know.

moon

good-bye

❤❤TOWARD THE END OF MY SUMMER MY WORLD CRUMBLED INTO A MILLION PIECES. JULY 27 WAS JIPS' BIRTHDAY; HE JUST TURNED 18 YEARS OLD. WE USED TO GO OUT FOR A LONG TIME BUT DECIDED THAT WE NEEDED OUR TIME TO BE WITH OUR FRIENDS AND TO BE TEENAGERS FOR A WHILE. WE WERE EACH OTHERS FIRST "TRUE LOVE". LIKE EVERY COUPLE IN LOVE WE HAD PLANS FOR THE FUTURE. BUT AT 2:00 A.M. ON JULY 28, JIP WAS STABBED. HIS FRIEND RUSHED HIM TO THE **EMERGENCY ROOM BUT AT 3:38** A.M., THEY PRONOUNCED HIM DEAD. WHEN I GOT THE CALL I WAS AT THE HOSPITAL IN THE BLINK OF AN EYE. WHEN I WALKED IN THE WAITING ROOM WITH ALL OF HIS FRIENDS AND FAMILY, REALITY HIT ME LIKE A TON OF BRICKS. I COULDN'T BELIEVE IT ACTUALLY HAPPENED. ESPECIALLY TO THE GREATEST GUY I'VE EVER KNOWN. HE WAS A FRIEND TO ALL; KICKERS, PREPS, THUGS, SNOBS, AND EVERYTHING IN BETWEEN. IT IS NOW SEPTEMBER 8 AND I STILL FEEL LIKE HE'S JUST ON VACATION. I STILL EXPECT TO BE HEARING HIS VOICE ANY DAY NOW. I MISS HIM SO MUCH!!! EVERY DAY MY HEART **GROWS A LITTLE HEAVIER. I** GUESS I STILL DON'T WANT TO FACE REALITY. IF ONLY GOD WOULD GIVE HIM A SECOND CHANCE.

AMANDA NIXON

PENNIE

THERE COMES A TIME WHEN GOD COMES TO CALL OUR CHILDREN, ALTHOUGH IT SEEMS NOT FAIR, THEY ARE ONLY GIVEN TO US TO GUIDE AND TO LOVE, AND YOU

PAGE 6B

16 years old -- his first real love, his first real fight, crying she calls --The answer comes: It's all right; I'm right here.

17 years old -- knowing he's always there for them for anything, a friend in need calls --The answer comes: It's all right; I'm right here.

18 years old --tragedy strikes him down, in our pain and grief we turn our eyes to heaven, and we call --The answer comes: It's all right; I'm right here.

Though only our memories now remain, we close our eyes, see his face, cry our tears and when we call his name--The answer comes: It's all right; I'm right here.

Connie Hollaway

WE WOULD LIKE **TO THANK EVERYONE FOR** ALL THAT YOU'VE DONE FOR OUR FAMILY. WE TRIED TO THANK **EVERYONE** INDIVIDUALLY **BUT I'M SURE WE MISSED A LOT OF PEOPLE. FROM** THE TIME IMMEDIATELY **AFTER JIPS' MURDER UP UNTIL TODAY, THERE** HAS BEEN SUCH AN OUTPOURING **OF LOVE AND** SUPPORT FROM FRIENDS, FAMILY, AND EVEN STRANGERS. WE HAVE NEW FRIENDS NOW, WHAT A HORRIBLE WAY TO FIND YOU, BUT THANKS TO ALL OF YOU ALSO.

WE ALSO WOULD LIKE TO SAY A SPECIAL THANKS TO EVERYONE AT THE DISTRICT **ATTORNEY'S OFFICE. YOU HELPED MAKE A VERY DIFFICULT** TIME JUST A LITTLE EASIER. JIP WAS **EVERYTHING TO** SONNY AND ME, **OUR ONLY CHILD.** FOR THOSE OF YOU WHO KNEW **OUR SON YOU KNEW WHAT A** SPECIAL PERSON **HE WAS AND FOR THOSE OF YOU** WHO NEVER MET JIP, WE'RE SORRY **YOU'LL NEVER** GET THE CHANCE. **I BELIEVE EVERY** PARENT WILL FEEL A SMALL PORTION OF OUR PAIN AS YOU

READ THIS. WE KNOW AS PARENTS THAT **OUR CHILDREN DO** MANY THINGS WE DON'T APPROVE **OF. WE ALSO KNOW THAT OUR** CHILDREN FIGHT. **IT'S BEEN GOING ON FOR MANY** YEARS AND WILL **CONTINUE TO GO ON. WE ALSO** KNOW THAT OUR **KIDS DON'T EXPECT TO EVER** DIE IN A FIGHT. MINE DID. IT **COULD HAPPEN** TO ANYONE. WE WERE AN ORDINARY FAMILY AND NOW WE ARE MISSING A **VERY IMPORTANT** PART OF OUR FAMILY. JIP HAD JUST **TURNED 18. JUST BEGINNING HIS**

LIFE. HE HAD SO MANY PLANS FOR THE FUTURE, ALL TAKEN AWAY FROM HIM SO QUICKLY. THESE POEMS AND LETTERS ARE JUST A FEW THAT WERE GIVEN TO **US AND WE WOULD LIKE TO** SHARE THEM WITH YOU. ONE LAST WORD, TALK TO YOUR **KIDS. LOVE THEM** AND DON'T TAKE FOR GRANTED THAT THEY WILL **ALWAYS BE WITH** YOU. SONNY AND I HAVE LOST THE MOST IMPORTANT PERSON IN OUR LIVES AND **WOULD DO OR GIVE ANYTHING** TO HAVE HIM BACK.

GAVE ALL THAT TO JIP. IT STILL DOESN'T SEEM REAL. WE LOVED JIP WITH ALL OUR HEARTS AND HE WILL ALWAYS BE IN OUR DEEPEST MEMORY.

HEATHER

"JIP"

I DIDN'T GET TO SAY GOOD-BYE, BUT DEEP INSIDE YOU KNOW.

I NEVER SAID "I LOVE YOU, JIP" BUT I TRIED TO LET IT SHOW.

FROM THE TIME WE WERE SMALL AND UP UNTIL NOW, I REMEMBER ALL THAT WE'VE SHARED.

YOU TRIED TO BE TOUGH, AND SOMETIMES PLAYED ROUGH, BUT STILL I KNEW YOU CARED.

NOW ONCE AGAIN I TRAVEL FAR TO LAY A SOUL TO REST. REMINISCE ON ALL THE TIMES, BUT OUR TIME WAS THE BEST.

I KNOW IN DREAMS I'LL SEE YOUR FACE, AND LONG TO HEAR YOUR VOICE

I REALIZE NOW YOU HAD TO LEAVE US, THE LORD HAS MADE HIS CHOICE.

HEAVEN HAS CALLED YOUR NAME COUSIN, AND YOU CANNOT LEAVE IT WAITING.

MEMORIES WILL NEVER DIE, BUT THE PAIN IS SLOWLY FADING.

LAST BUT NOT LEAST JIP, I NEED YOU TO KNOW THAT WE'LL THINK OF YOU EVERY DAY,

WE'LL YEARN FOR THE TIME THAT WE SEE YOU AGAIN, FOR IT IS ONLY A LIFETIME AWAY.

> I LOVE YOU JIP DAWN

WE

and a

LOVE

YOU

I'm gone now but please don't cry

I will always be watching from the sky

I'm taking this time to say good-bye.

Gone in body, but keep my memory alive

My tomorrow is gone but our yesterday is

who care. Saying good-bye and not knowing

still there framed in the minds of those

what to say, loving you all in your own

special way. It must be hard to get past the

pain, I know there are tears falling like rain.

Make it through the night, there will be

a brighter day, for in the hands of GOD

Dedicated in LOVING MEMORY of

James (JIP) Poole

Susana Arguello

July 27, 1977-- July 28, 1995

is now where I lay.

My own Angel

God game me an Angel, but I never knew till now,

What his purpose was on Earth, Who he'd touch, and how. I think back on the many times my son would make me mad. Over something that seems so silly now, but at the time seemed really bad. His impish eyes would laugh at me, over little things we'd share. And his questioning face would turn to me When life seemed so unfair. His voice, his smile, his touch and more are planted in my mind. And there they'll grow from this day on with my heart they enter twine. I ask myself sometimes now, what would Jip say or do? The answers come so quickly, I know, he's with me, it's true. No one can take him completely, I feel him every day. He guides me, and helps me when I cannot find my way. Yes, God gave me an Angel, to hold for just a while. And I know I'll hold him once again

when I walk the final mile.

I'll see you then Jip. I Love You

SURE I'VE GONE TO A FUNERAL BEFORE; MOST PEOPLE HAVE. BUT THIS ONE WAS DIFFERENT. HE WAS ONE OF US. HE WAS NOT A GRANDPARENT OR A SICK, OLD PERSON WHO WAS SUPPOSED TO DIE. HE WAS JUST A REGULAR TEENAGER OUT TO LIVE LIFE TO THE FULLEST -- TO GET THE MOST OUT OF IT AS POSSIBLE. BUT ONE NIGHT IT WENT TOO FAR.

JUST "GETTING KICKS" BECAME A LIFE AND DEATH SITUATION AND IN ONE INSTANT LIVES WERE CHANGED AND EVEN SHATTERED.

THE MORNING OF OUR FRIEND'S FUNERAL DAWNED BRIGHT AND CLEAR BUT AS THE DAY PROGRESSED IT SOON FELT THAT IT WAS NOT GOING TO STAY THAT WAY. IT BECAME HUMID AND THE SKY BEGAN TO CLOUD UP, SOMEHOW SIGNALING IT KNEW WHAT WE WERE GOING THROUGH.

THE FUNERAL HOME AS A MIXTURE OF THE QUIET CRYING OF FRIENDS AND THE POLITE GREETINGS SPOKEN AT A TIME WHEN WORDS SEEMED IN APPROPRIATE.

WE SIGNED THE REGISTER AND MADE OUR WAY TO THE CHAPEL. THE GREETER HANDED US A LITTLE PIECE OF PAPER WITH THE WORDS "IN LOVING MEMORY" WRITTEN ON THE FRONT. INSIDE WAS A QUOTE FROM THOREAU, AND HIS ØBITUARY. AS I LOOKED UP, THERE AT EVERYDAY WHO HAVE FRIENDS AND FAMILIES AND THEY GOT THROUGH IT SOMEHOW. THE FIRST TIME I HEARD OF HIS DEATH I JUST COULD NOT BELIEVE IT. "IT WAS ALL A DREAM," I KEPT TELLING MYSELF.

BUT I HAD NOT EVEN THOUGHT OF WHAT HIS PARENTS MUST HAVE BEEN GOING THROUGH. THE REAL TRAGEDY OF THE SITUATION HIT ME AS I SAT THERE WAITING FOR THE FUNERAL TO START. THE ORGANIST BEGAN HER PRELUDE AND THE FAMILY STARTED TO ENTER. THE LAST TO COME IN WERE HIS IMMEDIATE FAMILY. AND THE MEMORY OF WHAT I SAW AND HEARD THAT DAY WILL BE IN MY HEAD FOR QUITE A WHILE.

EVEN IF I HAD NOT KNOWN WHO HIS MOTHER WAS, I WOULD HAVE KNOWN WHEN SHE ENTERED. SHE WAS A BARELY ABLE TO WALK AND WAS SUPPORTED BY HER BOYFRIEND. THE SOUND OF HER HEART-WRENCHING SOBS WERE ENOUGH TO MAKE EVEN THE TOUGHEST MAN CRY.

AS I SAT THERE, TEARS BEGINNING TO STREAM DOWN MY EYES ONCE AGAIN, I FELT AN OVERWHELMING EMPATHY FOR THOSE WHO WERE CLOSES TO HIM. THAT DAY WE ALL HAD A COMMON BOND. WE GATHERED STRENGTH FROM IT. EVERY ONE WAS THERE

TO MOURN THE LOSS OF A LOVED ONE, AN

HE DIED THE NIGHT OF HIS BIRTHDAY,

AGE-OLD TRADITION THAT SOMEHOW GAVE US

MY FINAL WORDS TO JIP...

I took a detour as I drove today Out to a cross not too far away. I stopped and I stared as minutes passed by I watched and I waited, then started to cry. On top of the cross, "JIP" mounted in green That was always your color, the most beautiful I've seen.

And just Christmas day, I sat at your grave It's hard to believe, but I have to be brave. Inside of the headstone, "PC" mounted in gold. One lasting impression, all daring and bold. A small Christmas tree linked J.I.P. Tears fell again.

You should be here with me. And there by your grave, lay one single rose Five words came to sight, and my teardrops-they froze.

"BELOVED SON AND SPECIAL FRIEND..."

Your friendship <u>was</u> special, and true to the end. Jip, now that you're there, as you walk through the clouds,

Just know, beloved son, that you've made us all proud.

And as time passed by, you'll always be near... Right here in my heart, year after year.

ALWAYS AND FOREVER JAMES IRVIN POOLE....

LOVE, DAWN

IT RAINED TODAY AS THE HEAVENS FELT YOUR PAIN & LOSS YOUR PAIN IS GREAT AND MAY SEEM

NEVER ENDING BUT JUST AS GOD SENDS THE

RAINBOW AT RAINS END

HE GAVE YOU A LOVING FAMILY AND FRIENDS TO SHARE YOUR CROSS

THO TODAY YOU BELIEVE YOUR WORLD HAS STOPPED TOO

YOU CAN'T EVEN BEGIN TO UNDERSTAND THE REASONS WHY

IT'S HARD ENOUGH TO BELIEVE IT'S REALLY HAPPENING

BUT EACH DAY WILL BRING A HEALING TOUCH TO YOU

TO FACE THE TOMORROW WITHOUT HIM IS SOMETHING YOU CAN'T DO

'IT'S NOT FAIR, IT WAS TOO SOON, HE WAS TOO YOUNG, IT WASN'T ENOUGH, I SHOULD HAVE GONE FIRST

YES, ALL THESE MIGHT HAVE ONCE

BEEN TRUE BUT THESE CHOICES ARE NOT ALWAYS

THE FRONT OF THE CHAPEL, WAS MY FRIEND'S COFFIN. AND SITTING BESIDE IT WAS A PICTURE-- A PORTRAIT OF A SMILING, FLIRTATIOUS BOY FULL OF LIFE. IT WAS ALMOST IMPOSSIBLE FOR MY HEART TO ACCEPT THE FACT THAT THE YOUNG MAN IN THE PICTURE LAY LIFELESS AND STILL INSIDE THAT COLD, WOODEN COFFIN.

WE TOOK OUR SEATS BEHIND OTHER FRIENDS OF HIS WHO HAD COME TO PAY THEIR RESPECTS. AS I SAT THERE, I REALIZED THAT I HAD NOT TRULY COME TO TERMS WITH THIS TRAGEDY. WHAT DID IT MEAN? DID IT REALLY AFFECT ME AND MY FRIENDS AS MUCH AS I THOUGHT IT DID? I MEAN, SURE, I KNEW HIM AND WE WERE ALL FRIENDS, BUT PEOPLE DIE

SIBLE FOR MY HEART TOWHICH WAS EVEN A MORE SOBERINGCT THAT THE YOUNG MAN IN
Y LIFELESS AND STILL INSIDEREMINDER OF THE FACT THAT NO ONE IS SAFEODEN COFFIN.FROM DEATH. WE ARE ALL MORTAL, AND WE
SOMETIMES THINK WE ARE IMMUNE TO WHATR SEATS BEHIND OTHER
WHO HAD COME TO PAY THEIRSO WHEN YOU START TO DO SOMETHING

IR SO WHEN YOU START TO DO SOMETHING THAT ALL YOUR FRIENDS THINK IS SO COOL, REMEMBER THAT YOU CAN GET HURT AND YOU CAN DIE. NOBODY LIVES FOREVER. NOT EVEN A FRIEND.

A LINK WITH THE PAST.

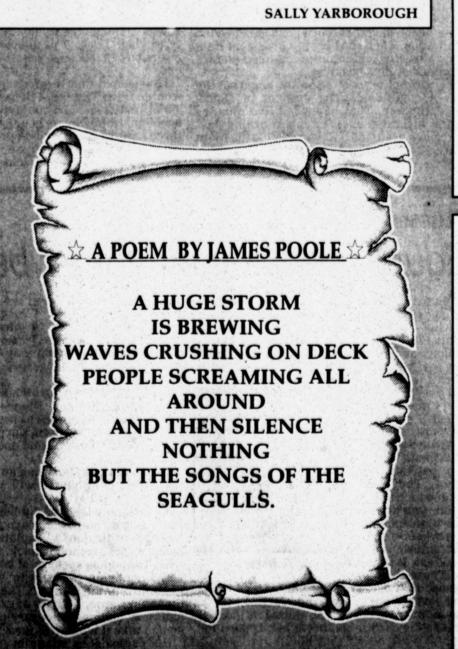

If I could be there with you today, you know what I'd say? Neither do I but give me just a minute and I will think of something great! You ready? Me either <u>I forgot</u>. Okay I'm ready this time <u>I promise</u>. These are just a few of the words you heard me say almost every day. But the three most important words to me I heard every day were <u>I Love</u> You!!!

You know that you spoiled me don't you. That was really great I loved it! The three little words that we shared every day were always with me and are still there today!

Look Mom & Dad everything is so beautiful! Just look all around you and I know you will see what I share with both of you this beauty through my eyes.

I'm sending you a very small piece of Heaven today! The flowers are so beautiful I just had to send a few and these Mom and Dad I want you to have! All of our friends helped me to do this and they did a great job. Along with these flowers I am also sending to you all of our family & friends! They were always there for me just as you were, so I've invited each and every one of them to join us today. I wanted them all to be there for you and help you through your pain and sorrow, To show you that I loved you in each and every way.

I loved you yesterday, today & tomorrow and knew of this great love from you!

OURS TO MAKE

JUST AS WE GIVE THEM LIFE, THEY SEEM TO SEPARATE

WITH THE FIRST WORD, THE FIRST STEPS THEY TAKE

SO YOU CAN NEVER TELL WHEN A LOVED ONES JOURNEY WILL END

ONLY IF THEY WALKED WITH FAMILY AND FRIENDS

ONLY IF THEY WALKED WITH PRIDE AND DIGNITY

THESE ARE THE THINGS THAT HELP YOUR HEART TO MEND

BECAUSE OTHERS LOVE AND NEED YOU TOO NO MATTER THE PAIN YOU CANNOT JUST LAY DOWN AND GIVE UP SO REACH FOR THE RAINBOW AND ACCEPT THE PROMISES IT BRINGS AS YOU KEEP HIM AND HIS MEMORY ALIVE INSIDE OF YOU

KAY

IN REMEMBRANCE OF JIP

WE SORROW NOT AS OTHERS

IN THE SORROWS OF THE PRESENT, AND THE SHADOWS OF THE PAST, I AM HONORED TO HAVE KNOWN HIM, WHO HAS BREATHED HIS EARTHLY LAST. NOT FOR ALL THE JOYS OF THIS LIFE, WOULD I TRADE THIS BLESSED PAIN, WHICH IS EVIDENCE I LOVED HIM, AND MY SOUL DID THEREBY GAIN. FOR HE TOUCHED NOT ONLY MY LIFE, BUT MORE LIVES THAN WE CAN KNOW, AS HIS LOVE AND FAITH IN JESUS, PLANTED SEEDS AND HELPED THEM GROW. WE ARE MANY WHO HAVE LOVED AND WHOSE LIVES **HIS** LIFE HAS BLESSED, SEEDS HE'S SOWN WILL KEEP ON GROWING, ALTHOUGH HE HAS STOPPED TO REST.

Deregulation goal can help industry

arole have won the day. Now, she says, Republican nomination Texas has 90,000 wells for a full term on the that make less than Texas Railroad Commission, but it was deregulation on the chairman's mind when she spoke to the Permian Basin Petroleum Association recently to make a case for a plan she expects to present to the full commission soon.

And what Rylander said seemed to make a lot of sense.

That plan for partial deregulation, she said, potentially could save the oil industry \$40 million a year in reduced regulatory compliance costs through fewer tests on wells, reduced paperwork, elimination of meaningless production limitations and the like.

Rylander's argument is simple. When she testified before the Committee on Resources in the U.S. House in February, she pointed out that regulatory mechanisms in Texas were designed to protect wells from each other when those

Keeton wells could make over a Rylander may just thousand barrels of oil a three barrels a day and the protections are no longer needed nor sensible.

When regulation is not serving industry nor society, it makes no sense to keep those regulations in place. They impede and can actually get in the way of efficient operation.

The chairman's argument struck a chord with many in this region who have battled senseless and discriminatory regulations for years.

With that in mind, there's not much doubt that she'll be able to find more than a few supporters in the Permian Basin who know exactly where she's coming from when she argues for partial deregulation as a way of freeing the oil industry from senseless and costly regulation.

JACK ANDERSON Multilingual ballots are rarely requested

ASHINGTON — The Republican more than \$130 for every multilingual ballot cast. dates" might affect the way millions

of Americans vote in the next election. One of the little-noticed byproducts of the landmark Voting Rights Act of 1965 was a requirement that states and localities with large numbers of non-native English speakers provide election ballots and materials in foreign languages

Like many congressional initiatives, however, this one provided no money to pay for the ballots. That part is left up to local officials. In all, there are some 375 districts across the country where voters can vote on ballots printed in foreign languages.

While localities get stuck with the tab, the reality is that very few

voters request their ballots in a foreign language. The framers of the Voting Rights Act failed to realize that most immigrants who take the time and energy to become U.S. citizens are fluent in English. In fact, citizenship tests require proficiency in English for all but the oldest applicants.

In recent years, this has produced some astonishing results. Election officials in Alameda County, Calif., for example, reported to Rep. Toby Roth, R-Wis., that they spent nearly \$100,000 to produce ballots in Spanish and Chinese for the entire county. Yet only 900 foreign language ballots were distributed. In other words, the county spent more than \$100 for every multilingual ballot that was actually used.

In Los Angeles, city officials spent \$125,000 for ballots to be printed in six languages, including Chinese, Japanese, Spanish and Tagalog. But only 927 people in that sprawling metropolis asked for ballots in a language other than English. As a result, Los Angeles officials spent

The problem is even worse in small com-munities. Long Beach, Calif., for example, spent \$1,026 on foreign-language voting materials but received only 22 requests. Many lawmakers believe ballots are only the

tip of the problem. Roth, an outspoken isolationist who's retiring at the end of the year, claims that bilingual education and other initiatives are draining up to \$8 billion per year from U.S. taxpayers. A bill he's introduced would end bilingual education and require that all citizenship ceremonies be conducted in Eng-lish. It would also put an end to ballot mandates like the one in Los Angeles.

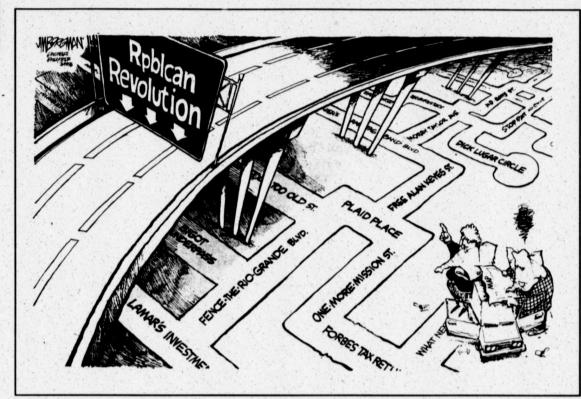

'America is breaking into linguistic

groups," Roth complained to our associate Jan Moller. "We have people from every corner of the world, yet we are one nation because we've had English as our common glue. And that's breaking up today.'

So far, the bill has 94 cosponsors - including House Speaker Newt Gingrich and Senate Majority Leader Bob Dole - and Roth believes it will be brought to a vote before the end of the vear.

The answer to this is simple. Allow localities a choice of whether to print foreign-language ballots - but don't make it a federal mandate.

Jack Anderson's and Michael Binstein's column is distributed by United Feature Syndicate.

GEORGE WILL Maybe woman from Time should choose solution

ASHINGTON—Mari Maseng Will is my wife and a glutton for punishment. Please: proof of that gluttony is not

Will

that she married me, but the fact that for a year now, and for a third time, she has been involved in the communications operation of a Dole presidential campaign.

Were I feeling as mordant as Dole often

does, I might say that

being, as Mari was

much communicating.

Week with David Brinkley." Dole was a guest and I had asked him to step outside so I could solve a problem, which was that ABC officials felt, reasonably, that I should inform viewers that I was married to someone who until then had been working for him without a title.

What should she be called?" I asked. Said he, "I call her my messenger." Said I, waspish-ly (or perhaps Doleishly): "I thought the can-didate was the messenger." Anyway, that Sunday, and on several subsequent Sundays when it seemed pertinent, I said I was, so to speak, in bed with Dole's communications director.

ethicists still unhinged by the danger posed to propriety by a journalist being married to a political person, remember: Anyone whose spouse works for a candidate has an interest in that candidate losing as swiftly as possible. Dole won the nomination about as swiftly as

possible, which is almost as good. Mari originally wanted just to help orchestrate his announcement tour last year, but then lingered and wrote, among other things, his Hollywood speech, and then decided that after two losses

Anderson

ANOTHER VIEW Congress should aid repayment of loans

The federal government long ago abandoned William Shakespeare's suggestion in "Hamlet" 'Neither a borrower, nor a lender be" - but taxpayers have every right to expect that various agencies and programs collect on all loans made from the public coffer. Unfortunately, those collections are losing ground.

Reductions in the federal work force and other "efficiencies' have resulted in too few people to monitor and collect outstanding loans to farmers, businesses, students and even foreign governments. At last count, according to a recent report in The New York Times, debtors owe the government more than \$126 billion, up from \$100 billion two years ago. Delinquencies were up between 1994 and 1995 from \$40.5 billion to \$47 billion.

Without strict enforcement of collections, too many borrowers simply take the money and run. Yet not only are the enforcement

On this date:

75 or so agencies that make loans and loan guarantees lack effective central accounting procedures to protect public money.

Legislation proposed in the House would grant agencies strengthened administrative controls; allow some agencies to use private collection agents; and let agencies keep more of the money they recover to improve future collections

As a national policy, federal loans and guarantees have provided enormous benefits to individuals and businesses unable to tap traditional credit sources. Sound lending practices, however, include mechanisms that ensure full repayment to the treasury. Rather than pursuing false economies of ill-advised staff reductions, Congress should strengthen those mechanisms, not weaken them further.

this time, communications director of the Dole campaign is akin to being pitching coach of the Minnesota Twins: The Twins do not have much pitching and Dole does not do

Mari is now leaving that position, having ranks becoming thinner, but the been in it longer than she intended to be, and having responsibilities more crucial to the Republic. (More about David Maseng Will anon.) So this is a suitable moment for me to unburden myself about the sensitivities of some

journalists as they pertain to relations between spouses. Mari was Dole's press secretary in his 1980 quest for the Republican nomination. She had the same job in 1987-88, until Bush clinched the nomination. Then she became President Reagan's director of communications, before

founding her own business. She was not present when she acquired the title of communications director of Dole's 1996 campaign. That happened five minutes before air time one Sunday morning last March in a cramped hallway outside the room where guests wait before appearing on "This

This fact, which has been acknowledged in this column, and reported in newspapers and newsmagazines and on television, has nevertheless troubled the sleep of some journalistic ethicists, such as the woman from Time magazine who called the Washington Post Writers Group, which syndicates this column, to lecture it about my "conflict of interest."

How she knew my "interest" is unclear. Pre-sumably she knew intuitively that, because Mari worked for Dole, I was uncritically ardent for his success. Dole, having read what I have written about him, could cheerfully (well, with what passes for cheerfulness in him) have disabused her and other fretful ethicists of that worry.

By the way, my only discernible influence on Dole has been to express in a column a sentiment he then took to heart, and to repeating. It was: "Dole must make a virtue of necessity, saying: Look, if people want as president a version of a talk show host, they already have one.'

I suggested that the Writers Group tell the woman from Time that there were three possible solutions: Mari could quit her career, I could quit mine, or we could get divorced. All three seemed somewhat disproportionate, but perhaps Time should choose.

For future reference, and for journalistic Post Writers Group.

with him it might be nice to win the nomination. He has won, so now, although Mari will continue to consult with her friend the candidate (unlike many operatives in contemporary campaigns, she really knows and likes her candidate), she returns to her private-sector business, and to being communications director for . David, age 3.

One recent noontime when Mari was crashing on some campaign project—I forget what: probably putting together some remarks for the candidate to mangle or ignore-I was deputed to pick up David from preschool. There he and I had a conversation normal in substance but notable in style.

Most 3-year-olds, this experienced father of four thinks, would have combined their favorite word (the first person singular pronoun. "I") with their most frequently used verb ("want") to express their fondest desire with stark, Hemingwayesque directness: "I want to go to McDonalds." Instead, David, whose oblique style is more Henry James than Hemingway, said: "Were you thinking we should go to McDonalds?"

Syntactically sophisticated and slightly sly, David does not need a communications director. However, he will find other employments for his mother.

George Will's column is distributed by Washington

Education for young may be downright dangerous luto may not be a planet. Can you believe

it? Is everything we learned in school a lie?

This Pluto business is the last straw in the duplicity and uselessness of education. Now I have to deal with Plutonic revisionism, and I haven't even recov-

ered yet from the discovery that you should not eat a good breakfast

RUSSELL BAKER

'Always eat a good breakfast." That's what they taught us in school. They said it was good for us. Well, you know it, I

know it, we all know it: They were wrong. We now know a good breakfast is bad for you. Those eggs sunny

side up, that crisp bacon, the butter-soaked toast covered with jelly - bad for you.

So now we always eat a bad breakfast because they say a bad breakfast is good for you.

And remember the milk? Remember paying the milk money and having the milk served right there in the classroom? What kind of milk was it?

Was it skim milk? Was it low-fat milk? Hah! ou know it wasn't. It was milk with all the evil left in.

And they said it was good for you. Good for you! It was clogging your arteries and has-

tening your trip to the grave. And they said, 'It's good for you.'

And they called that an education!

The older you get the clearer it becomes that education for the young may be not only useless, but downright dangerous. Look at this Pluto thing.

I have a writer friend who is working on a book titled "Plumed Plunderers From the Planet Pluto." It is about a horde of feathered Plutonians who land on Earth with plans to hijack a Las Vegas casino and take it back to Pluto.

I know, I know, but you can never tell what the book-buying public will spring for these days.

Anyhow, my friend's publisher is furious. If Pluto's not a planet, he says, the entire book becomes ridiculously implausible. The pubisher wants his money back.

My friend has spent it, of course, so he proposes changing the title to "Satanic Satyrs From Insatiable Saturn." The plot would stay much the same, with an aggressive bunch of half-man, half-goat aliens trying to steal a casi-no and take it back to Saturn.

His publisher is adamant. "Saturn sounds like an automobile commercial." He demands his money back. As a Pluto man from my cradle, I hate the

idea of seeing it expelled from the society of cer-tified planets. Being a victim of education, I have become accustomed to the nine-planet who needs any further evidence that every-Times News Service.

thing learned when young was wrong? The list of revisions is too long for this tiny space, and not all the misinformation that had to be corrected came from the schoolhouse.

It was advertising, probably the country's most powerful educational force, that taught us cigarettes were good for "the T-zone," which was composed of the mouth, throat and bronchia, according to a diagram accompanying the ad.

It was school that taught us Columbus had proved the world was round, though the Egyptians had known it from antiquity. We are still having trouble accepting the truths that Columbus was not the first European to reach America and that he certainly did not "discover" it.

Many people become as irked as I do about the incessant need to keep up with today's wisdom by abandoning or revising yesterday's. And of course today's wisdom will just as inevitably have to be abandoned or revised as the future bears down upon us.

You can bet the world has not faced the last revision of knowledge about Pluto, or about what constitutes a good breakfast. The revis-ing of what we think of as knowledge goes on forever, and always has.

The truth about knowledge seems to be that its truth is only a sometime thing, that what we accept as truth this year will have to be abandoned or revised as the world turns.

LETTERS

Readers' views on: 'Celebrations' curriculum

Ignorance is foundation of bias, intolerance

"All I know is what I read in the papers." So said Will Rogers. So from what I read it seems that, reduced to its simplest terms, 'Celebrations" means the teaching of and learning about other people's races, cultures and religions.

If that is so then it would seem that those opposed are suffering from xenophobia, the same disorder that afflicted the government of Russia under Joseph Stalin.

I am not a teacher nor do I have a child in school, so perhaps this letter is a case of fools rushing in where angels fear to tread. I do hold two permanent teacher's certifi-cates issued the last year I believe such permanency was granted. I do not think basic pedagogical techniques have changed much but perhaps the superstructure has.

It seems to me that the opposition to the learning of other people's cultures gives birth to worldly ignorance, and ignorance is the foundation of bias, bigotry and intolerance. (Should we banish the student foreign-exchange program?) But progress and enlightenment no matter. There will always be "ag'inners.

> Lowell E. Branum Midland

If founding fathers' beliefs die, so does our country

Regarding the recent controversy over the Midland Independent School District (MISD) social studies curriculum "Celebrations," I only want to know the follow-

ing? Will it improve the student's ability to read?

Will it improve the student's ability to write?

Will it improve the MISD "TAAS" scores?

Will it improve the student's understanding of how great America is?

Will it improve the student's understanding of how wonderful Texas is? Will it teach the students more about the

history of America and Texas?

Will it teach students to be better Texas and American citizens (NOT world citizens) ?

Will it trivialize any beliefs that are taught at home?

-Will it teach the students the difference between a republic and a democracy?

Will it teach the students the importance of the U.S. Constitution?

Will it teach the students about America's founding fathers?

From what I've heard, "Celebrations" does not deal with any of the above! And, I comprises - it is a waste of time. Our school board trustees should get off their arrogant horses and actually look at what we are teaching our children.

Our founding fathers knew America's greatness would be destroyed if we forgot what they had in mind for America, that's why they got so intimately involved in public education. They knew if their beliefs died, America would also die.

Please don't sit idly by and allow that to happen!

> E. W. Barnett Sr. Midland

American history can't be traded for multiculturalism

It is with great sadness that I read Chris Presley's letter regarding "Celebrations." His viewpoint, I feel, is prevalent in the liberal community.

However, Presley's letter makes my argument for me. He proposes to study multiculturalism instead of some history. This is precisely the problem. To study other cultures can be enlightening. But to study China or Africa instead of Patrick Henry or any other figure in American History is becoming the tradeoff many of us are not willing to make.

My family is part Cherokee and I feel it is important for racial harmony. But we are all Americans first. As Americans, we all come from different backgrounds and races and what unites us is the common belief in freedom and individual liberty.

We should never have a tradeoff between American History and multiculturalism under the false premise of unity. Instead, read the Gettysburg Address as Lincoln wrote, "Our fathers brought forth on this continent a new nation conceived in liberty and dedicated to the proposition that all men are created equal." What promotes unity more than those words?

> **David A. Sparks** Midland

Midlanders need to see curriculum themselves

In response to the Reporter-Telegram's lengthy editorial, I suggest all Midland citizens go to their neighborhood elementary school library (or to Midland Independent School District (MISD) Administration Office) and ask to see the new MISD social studies curriculum "Celebrations." See for yourselves what this curriculum is all about.

need to know the type of material that is being taught to such impressionable, young minds. MISD is taking advantage of a prime opportunity to concrete in philosophies of the "liberal" educrats.

It is shameful that the majority of school board trustees never read this new curriculum before voting to approve it. Because trustees have such blind faith in the MISD administration, I also suggest the Midland community pressure the school board to employ only administrators who actually, sincerely care about teaching the core basics to our young children (Wow - what an original idea - teaching children reading, writing, spelling, math, science and history!). Let's get rid of the administrators who only get excited about the newest, latest "cutting edge," faddish, psychological, social programs.

> **Patricia Kern** Midland

Curriculum should promote needed tools

There have been many questions raised concerning the "Celebrations" curriculum. The question to be asked is simply, can we afford the time to be spent on any curriculum that does not directly promote the needed tools to make it in the working world? If you are satisfied with being behind every other industrialized country in basic education (except English, in which Japan is gaining on us), then I suppose teaching the "Celebrations" curriculum is justified. I disagree! If a person wants to learn an extra curriculum, try the library. Our education system is obligated to prepare our youth to be productive citizens. It is not an exaggeration when we are told that there are high school graduates who can barely read and write. Can you imagine what their mathematics skills are

Teachers should encourage students to spend extra time reading and learning all that arouses their interest. Spur them to question and reason.

Finally, in answer to a question raised by one of the letters, yes, the world would be better off knowing about Patrick Henry. The world is lacking those kinds of people. Patrick Henry was a man of virtuous convictions and principles. He was unwavering in his belief of liberty and was courageous enough to stand up and proclaim such.

Common sense should be the litmus test of education.

Glen Bufler

Readers' views on: Kaufman

Kaufman shows how poor loser acts

Mike Kaufman demonstrated how a poor loser acts. He kept right on politicking even after Sheriff Gary Painter was the acknowledged winner. All of his high priced ads, "strange" allegations of wrongdoing, and the "kiss of death" Reporter-Telegram endorsement were all rejected by the voters.

Other losers congratulate their opponents but not one word of a praising nature was attributed to Kaufman regarding Sheriff Painter's victory. That tells you a little more about the wisdom of Kaufman's rejection by Midland County voters.

> W.H. "Hank" Kirk Midland

People of Midland were smart to re-elect Painter

I was born and raised in Midland and I am so glad to see the people of Midland were smart enough to re-elect Gary Painter for sheriff. instead of going with the mon ey people of Midland and voting for an incompetent candidate. We need a sheriff like Painter and a city staff that will support him to protect this county and not be so miserly with our tax money so they can give themselves a raise. I didn't spend two years in Vietnam for them to cut off our Veterans Office that is needed in my hometown. They do not seem to care what all veterans have done for them. Now it's their time to help US.

> John D. Bourke Midland

PAGE 9B

Midlanders chose to reject Kaufman, tactics

How could Mike Kaufman think he could win an election for sheriff running such a sleazy campaign? I was appalled at how much mud was slung by Kaufman and the level at which he stooped to get his name in the news, beginning with the multiple page insert in the Reporter-Telegram kicking off his campaign. I do not know either of the candidates personally nor am I a particular fan of Gary Painter; however, I do know that Kaufman showed no class in his campaign and I, as a proud citizen of Midland, do not want that type of character as an elected official of Midland County. Apparently many others felt the same way and chose to reject Kaufman and his tactics at the polls.

> Julie K. Montgomery Midland

Our policy on letters

The Reporter-Telegram recognizes the "Letters to the Editor" format as an important forum for citizen opinion and encourages participation of all readers. To that end, we have set as few rules as possible. However, we must have some, and they are:

Letters must be signed and include a street address and daytime phone number for verification. Letters not including this information will not be considered for publication

They should be no more than 350 words in length. While some lengthy letters are published, we reserve the right to edit when necessary due to space limitations. The briefer the letter, the better its chance of publica

writer can be published:

Letters will be edited for length. taste and legal reasons and are accepted only on that basis. Letters which are difficult to reduce in length will be returned to the writer to be edited before being re-submitted

We do not publish 'open' letters. copies of letters sent to others or multiple signatures.

Because we cannot research and verify all information in letters, by publishing them we neither imply nor guarantee the accuracy of information stated by writers.

The community and especially parents

GUEST COLUMN

Texas natural gas industry meets needs

AUSTIN - Many Texans spent the early days of February inside warm homes insulated from the arctic blast that gripped most of Texas.

What a difference 13 years can make.

In December 1983, freezing temperatures held the Texas natural gas industry near the brink of disaster for nine days.

The big chill first hit around Dec. 18, 1983. By Christmas Day, the cold blast had frozen virtually the entire state. Natural gas pipelines throughout Texas scrambled to deliver gas. A Railroad Commission of Texas (RRC) report stated that "By Christmas day, only human needs were receiving natural gas." By the next day, however, the situation had begun to improve. According to the RRC report, "Statewide appeals for voluntary conservation measures seemed to have taken hold, and the cold weather was ceasing." Disaster was skirted, but narrowly. This event called many to question the reliability of natural gas supplies. How could new homes and industries be built using natural gas if natural gas wouldn't be there when it was needed the most?

Industry responded to this challenge, building new storage capacity to meet peak demand. The federal government took bold steps to deregulate the price of gas, creating a free market system that allowed industry to better respond to increased demand.

Recently, Mother Nature again attempted to freeze people in the dark. Thirteen years after a near disaster, the

Texas natural gas industry met the challenge. During the cold snap early in February, the National Weather Service reported the aver-age statewide high temperature dropped from 38 on Janu-ary 30 and didn't rise above 29 until Feb. 5. The statewide average low temperature in Texas on those six days between Jan. 30 and Feb. 5 was 23, 18, 21, 20, 14, and 8 respec-

Texas Railroad Commissioner Barry Williamson is the former director of the Office of Policy, Planning and Analysis at the U.S.

Department of Energy and the former director of the Minerals Management Service at the U.S. Department of Interior. He currently serves as first vice chairman of the Interstate Oil and Gas Compact Commission.

tively.

The increased heating demand contributed to an approximate 73 percent surge in natural gas deliveries by Texas gas utilities, with some more than doubling their daily output. On Feb. 2, 1996, Energas, that serves Midland, said it successfully delivered more than one and one-half times its "normal" daily volume of natural gas.

The entire Texas natural gas industry performed flawlessly during this period. Natural gas was sent to roughly 3 million households in Texas without disruption. No curtailments service that is temporarily halted - of residential customers by Texas gas utilities were reported to the RRC. The situation was similar throughout the country. Additionally, Texas met obligations to deliver natural gas to Chicago and the northeastern U.S. in the midst of their freezing weather and blizzards before and after the Texas cold snap.

Whether it be the need for natural gas or the need for electricity that is generated by natural gas, our comfort and, at times, our survival rely greatly on this fuel. Central heat needs to be turned up. Space heaters need to be plugged in. Electric blankets need to be turned on. But freez-ing temperatures like those in February presented a challenge to our natural gas industry like a full moon on a Friday night does to a big city emergency room.

The Texas natural gas industry deserves our thanks for the excellent work it accomplished during the record-breaking freezing temperatures and for its commitment to Texans who rely on this homegrown and environmentally friendly fuel. This proven reliability - in stark contrast to the situation 13 years ago — will help expand the future markets for Texas natural gas.

And if this stellar performance wasn't enough excitement for one month, another success story in the state's natural gas history was written on Feb. 21 and 22. More than 450 natural gas industry leaders met in Houston for the RRC's Gas Forum, the first-ever statewide "summit" that brought producers, service providers, financial analysts and policy-makers together to plan for the future of the Texas natural gas industry

Historically, Texas has been the oil capital of the world. But we also are a giant when it comes to natural gas. Today in Texas, natural gas is oil's peer.

Texas ranks among the world's leading gas producers, surpassed only by Russia and the remainder of the United States. In fact, Texas produces about one-quarter of all the gas in America. The state also sits on an awesome supply of nat-ural gas reserves. Our proven reserves total one-quarter of all the natural gas in America. Combined with what has yet to be discovered, Texas sits on enough natural gas to last us half a century

Future cold snaps should not present a problem to Texas if performance this February was any indicator. Thanks is due to the employees of the more than 7,000 companies in Texas engaged in the explo-ration, production or transmis-sion of natural gas.

Association had made great contributions

I would like to thank the Permian Basin Petroleum Association for their generous sponsorship of several area teachers to the National Energy Education Devel-opment (NEED) Conference last summer. The PBPA provided plane tickets and a \$600 registration fee that included lodging the meals for the weeklong conference. They also have provided materials for use in teaching the Project NEED lessons. Our 4th-, 5th- and 6th-grade science students have greatly benefited from the lessons our teachers were able to bring back and share with our school community

The Permian Basin Petroleum Association members have made a great contribution to the students at St. Ann's as well as many other area schools.

> Barbara D. Ransbottom principal St. Ann's School

South Elementary deserves accolades

It is so refreshing to see articles about something "right" with Midland Independent School District (MISD). Because I have been

WHOM TO WRITE

Following is a list of the names and addresses of various state and federal officials Midlanders may wish to contact from time-totime:

PRESIDENT: Bill Clinton (D), The President, The White House, 1600 Pennsylvania Ave., Washington, D.C. 20500 or call (202) 456-1414, Fax (202) 456-2461.

Senator: Kay Bailey Hutchison (R), The Senate, Washington, D.C. 20510 or call (202) 224-5922, Fax (202) 224-0776; or write to Kay Bai-ley Hutchison, 500 Chesnut, Suite 1570, Abilene, Texas 79602 or call (915) 676-2839. E-mail, Sena-tor@Hutchison.Senate.Gov

Senator: Phil Gramm (R), 370 Russell Bldg., Washington, D.C. 20510 or call (202) 224-2934, Fax (202) 228-2856.

SPEAKER OF THE HOUSE:

associated with several school districts in several cities both within and out of the state of Texas I see the problems within our district but also the many positive aspects of our public school system.

South Elementary, which was featured in Sunday's paper, definitely deserves accolades. As a recent graduate from UTPB who completed student teaching at South Elementary, I can attest to the many initiatives going on at that school. Ms. Hoffacker has done an excellent job in assembling a highly qualified staff of teachers who truly care about

each of their students. The teachers, support staff and administration all work together as a team. There is a sense of purpose and enthusiasm at the school that is contagious. Although changes often take time, when you have this much going for you, coupled with a cooperative attitude from students and parents, you certainly have all the ingredients for success.

RELIGION IN BRIEF

(Continued from 4B)

.m. with classes for all ages.

The Rev. Glenn Kramer continues his class "The Use of the Means of Grace: a statement on the practice of word and sacrament" each Sunday during the education hour. For more information call 694-1373.

Luncheon series

The Lenten Luncheon Series at First Presbyterian Church, 800 W. Texas Ave., continues Wednesday with soprano Janet Menzie.

The series will continue each Wednesday during Lent with half-hour concerts scheduled from 12:05 to 12: 35 p.m. and lunch served in Lynn Hall at half-hour before and after each concert. The concerts are free and open to the public. Lunch is \$4. Child care is available with advance reservations.

The final concert in this series features the Chap Singers from Midland College March 27.

Soup dinner

Holy Trinity Episcopal Church is hosting Lenten Soup Dinners Wednesday evenings through Lent. Special guest speaker is Dr. Jim May.

Dinner will be served from 5: 30 to 6: 15 p.m. May will speak from 6: 15 to 7: 15 p.m. for the cost call Mary Collier, 683-4702. All session will be held in the parish hall.

Remaining subjects are "Instilling Courage," March 20; "Developing Responsibility," March 27; and "Winning Cooperation," April 3.

Midweek worship service

First United Methodist Church, Main Street at Illinois Avenue, is offering midweek worship services at noon Wednesdays in the Glass Memorial Chapel. This week's service will be led by the Rev. Mark Alexander, associate pastor at First UMC. The final service March 27 will be led by the Rev. Lane Boyd, senior pastor at First UMC.

The services, which begin at 12:05 p.m., will be fol-lowed by a light lunch for \$4 per person. The public is invited to attend.

Wednesday supper

St. Nicholas' Episcopal Church, 2900 Princeton Ave., is offering Wednesday evening Lenten Soup Suppers and Programs.

The soup and bread, prepared by various small groups within the church, is \$1 per bowl and serving begins at 6 p.m. The program begins at 6: 30 p.m. with special activities offered for children and study hall for those with homework.

This year's series is entitled "The Deanery Con-nection" and speakers are being drawn from the Episcopal clergy resident in the Permian Basin. This week the Rev. Leslie Gregory, a non-parochial priest who lives in Crane, will speak on "Praying the Hymnal."

The final Lenten program will be March 27. In addition to its regular Sunday morning worship services at 8 and 10: 30 a.m. and 5: 30 p.m., there will be a 5: 30 p.m. service of Holy Eucharist & Healing each Thursday.

Rev. Lynn Bauman to direct Lenten workshop

From Staff Reports

The Rev. Lynn Bauman will direct the Lenten workshop, "The Journey Inward," Friday through March 24 at the Episcopal Church of the Holy Trinity, 1400 W. Illinois Ave.

Bauman, an Anglican priest and professor of the Anglican School of

for Holy Trinity's Parish retreats for the past two years at Laity Lodge.

The schedule is 7 to 9 p.m. Fri-day, 9 a.m. to 3 p.m. Saturday, March 23, and 10 a.m. Sunday. Bauman will be the guest speaker

A nursery will be available. Although the workshop is free, registration is requested in the church office, 683-4207. Space is limited. For more information call Beverly Lawson, 684-7605.

WE WANTED TO ADD ON A NURSERY. SO WHILE I DELIVERED THE BABY, **TEXAS COMMERCE** DELIVERED THE LOAN.

66

"The day before I was supposed to sign the papers on our home improvement loan. I ended up having my baby. I called my banker, Laura Gonzalez, to tell her I wouldn't be able to come to the bank, and she offered to bring the papers to me." Just another example of the special service we call Star Treatment. MIDLAND REPORTER-TELEGRAM, SUNDAY, MARCH 17, 1996

Midland Genealogical Society hosts annual spring seminar Saturday

From Staff Reports

The Midland Genealogical Society will hold its annual spring seminar from 8 a.m. to 4:45 p.m. Saturday in the Fellowship Hall of First Presbyterian Church, 800 W. Texas Ave.

A pancake breakfast will take place from 7-8 a.m.

The cost is \$25 at the door on the day of the seminar and the cost includes both breakfast and a sack lunch. Anyone interested in genealogy is invited to attend.

There will be six speakers this year presenting different programs.

 Judy Riffel of Baton Rouge, La., will speak on genealogical research at the Louisiana State Archives, Louisiana courthouse research and Louisiana church records. She has been doing genealogy for 20 years and has been a professional genealogist for the past 10 years.

She is a financial analyst with **Cajun Electric Power Cooperative**

in Baton Rouge. She currently is Ohio Genealogical Society and the treasurer in Le Comite des Kentucky Genealogical Society. Archives de la Louisiane (French for the Committee for the Louisiana State Archives) and also is editor of that society's jour-nal, le Raconteur. She has authored and/or edited several genealogy and history books. Dr. Frank R. Levstik of Lex-

ington, Ky., will speak on genealogical research in Kentucky and Ohio. Since 1985 he has been employed with the Kentucky Department for Libraries & Archives and is currently an archives and records regional administrator. From 1976 to 1982 he was the state archivist for Ohio. Then he directed the United States **Newspaper History Project at the** University of Kentucky. He authored Kentucky's Histor-

ical Records Needs Assessment Report and has been speaker for several historical and genealogical organizations, including the National Genealogical Society,

His research interests include the Civil War, Afro-American history and local government.

John and Barbara Wylie of Garland work as a team and will present a 90-minute program, Using Computers in Genealogy,' including genealogy management software, "live" on-line access to the Internet and CD-ROM demonstrations. They will use an overlay that allows all to see the comput-er display. They also will review the GENTECH96, a conference that was held in January in Plano which explored the advances in technology. Mr. and Mrs. Wylie are experi-

enced lecturers and operate the John Wylie Consulting business. They are active genealogical volunteers and are members of the Association of Genealogists. They also are involved in many organizations and special projects.

JUVENILES: Offenders learn to obey laws

Continued (from 3B)

Back in the gymnasium, the 30year-old inmate, Lesley, who was adjudged a habitual criminal, told the youngsters: "I hope you don't become (like) myself." Lesley, who started stealing ice

cream and ended up on dope and committing robbery, is to be released from prison in 2016.

"You know how we like to be 'bad,' " Lesley said of his heyday on the streets. "Anything with a plug on it, I sold it to the drug deal-ers." After awhile, "My life was nothing. I was ready to go, any-

In prison, Lesley has earned his high-school diploma. And apparently he has developed a positive, upbeat attitude" in preparing for his renewed life once he is out of prison

"It is really easy to get in prison," Black, the warden, told the youngsters and reminded them of the "stupid things" things people do to get into prison.

And while they are in prison, inmates "ought to have a book with them in trying hard to get an education," said Black, who told the youngsters that he is available to

help them. "I'm here and never too busy for you."

Black wished the youngsters well — Godspeed — and "this time, I want you to get yourself out (of Culver Youth Home in Midland and into a worthwhile life)

Black turned to a troubled teenager

"What got you here?" the warden asked.

The judge did," the youth replied.

Who?

"I did," confessed the youth. "Thank you."

Perot backers' solidarity in question for elections

captured the Republican presidential nomination but he still has a ways to go toward earning the support of Ross Perot's notoriously independent followers, polls reflect.

While the final cast of characters - and political parties - figuring in the November general election has yet to be set, Perot's backers are sure to play a prominent role.

"They are the critical swing bloc — the wealthier, better-educated, younger of the Perot voters, actually," said Republican pollster Frank Luntz, who

WASHINGTON (AP) - Sen. Bob Dole has all but advised Perot during the Texan's 1992 independent campaign.

Echoed Russ Verney, national coordinator of Perot's Reform Party: "This is going to be the swing

Exit polls from the season's Republican contests, from the first-in-the nation Iowa caucus on Feb. 12 through this week's seven-state "Super Tuesday" primary slate, suggest the Perot vote has fragmented, at least temporarily.

The people are still out there," said Dee Zuber, a Columbus, Ohio housewife who was Perot backer.

Assistant district attorney seeks death penalty in 'thrill-killer' trial

DALLAS (AP) — A paroled murderer Greg Davis has said. ho prosecutors accuse of a 1995 series of hrill killings faces trial this month in the Monday in one of the slayings - the July eaths, including five on just one bloody Sunday.

Law officers believe Juan Rodriguez while he was on a pay phone. havez' spree included 12 slayings, most during street robberies between March and July of last year.

But in other deaths, Chavez was motiated by "just the thrill of killing," Dalas County Assistant District Attorney my evidence," he said.

Chavez, 27, is scheduled to stand trial 2 robbery and fatal shooting of Jose Morales. The 39-year-old was attacked

Davis said he is ready to call more than 100 witnesses and submit more than 200 items of evidence that will convict Chavez and send him to death row.

"I've very confident in my case and in state's evidence."

But Chavez' attorneys contend that the Michael Martinez and Luis Canales, 20, in evidence points to two other men, one of whom admitted participating in the killings. Police arrested the two last summer and later released them, but pursued multiple capital murder charges against Chavez.

"He's not guilty as charged," said Fred Tinsley, one of three defense attorneys, "and we plan to vigorously contest the

Law officers released 22-year-old

October, after three months in jail. Detectives have said they had no physical evidence to connect Martinez and Canales to the killings.

Martinez told The Dallas Morning News a day after his arrest that police investigators had coerced his confession by threatening him and his girlfriend.

After detectives said they had disproved some information in the confession, charges were dismissed against the

But defense attorneys contend they can show the statement implicates the two men.

"They gave a confession and that confession had details that they couldn't have known unless they did it themselves or were right next to the guy that did it," said defense attorney Alfredo Campos.

The men have received subpoenas to testify.

Aman answers Rebel prayers

Midland Lee sophomore hits first home run at newly-built Lee Softball Complex to break open game in 5-1 win over Cooper, which moves the Lady Rebels into first place in 4-5A.

By Terry Williamson Sports Editor

With one swing of the bat Saturday afternoon Midland Lee sophomore Jennifer Aman put her name in the Lee softball history book and the Lady Rebels back in first place in the District 4-5A softball race.

Aman hit a two-run homer in the fourth inning to break open a tight 1-1 game as Lee went on to take a 5-1 victory over Abilene Cooper at the Lee Soft-ball Complex in a battle of league lead-

It was Cooper's first district loss of the season as the Lady Cougars fell to 4-1 in loop play while Lee climbed to 5-1 with its fifth consecutive district win after losing its loop opener to Midland High.

Aman's shot was also a taste of history since it was the first ball hit out of the new Lee softball field, a blast that cleared the eight-foot fence in left at the 205-foot mark off Cooper pitcher Beth Hurley into a gusty cross wind.

"I didn't realize that it was the first home run here," Aman said. "All I want-ed to do was get the ball in play. I couldn't believe that it went over the fence, and I'm sure no one else could believe it either. It's the first varsity homer I've ever hit."

Feammate Crystal Smith, who hurled

Rodman ejected

EAST RUTHERFORD, N.J. -Dennis Rodman was ejected in the first quarter of the Chicago Bulls' game against New Jersey Saturday night, and he appeared to head-butt an official before storming off the court. The golden-haired Rodman was tossed with 1:31 left in the quar-ter after picking up bis accord tooth ter after picking up his second tech-nical foul.

Before he left the court, Rodman went face-to-face and possibly fore-head to forehead with referee Ted Bernhardt. Rodman then ripped off his Bulls jersey, threw it to the court and pushed over a cooler near the Nets bench before running to the locker room. The incident took place with Bod Thom, the NBA's vice with Rod Thom, the incident took place with Rod Thom, the NBA's vice president of operations and dean of discipline, watching from the stands. Thom said the league will investi-gate the incident, probably today. Rodman, who had picked up his first patients for the standard state.

Tragedy leaves family with feelings of disbelief

By Stewart Doreen

Sports Writer

hen life is unfair, it is expected — and you go to accept. on. When life becomes cruel, it is much harder

That fact hit home in Midland and for the family of Midland High girls soccer player Shelby Berry when her brother, Tyler, died in a one-vehicle accident on September 22, 1995, outside Abilene in nearby Anson. Since last fall's tragedy, there has been the feeling of disbelief that borderlines on denial. The accident was at the tail end of events for the Barry family in August Tales of events for the

Berry family. In August, Tyler went off to Hardin-Sim-mons University for his first year away from home, made the varsity soccer team and had just turned 19. In Midland, Shelby was entering her first year at

Midland High, looking forward to becoming a member of the MHS soccer team, gearing toward her 16th birth-

day. "I didn't believe it," said Shelby. "My first thought was this was the wrong person. It took me a long time to believe it was happening."

Shelby's parents, Gaylan and Carolyn, keep trying to find that silver lining in every dark cloud.

"It is good to know where he is," said Carolyn Berry, Tyler and Shelby's mother. "We are just trying to get over the pain and realization of it."

Shelby's relationship with her brother was probably like most. The pair had their usual disputes. Shelby was the younger sibling, willing to believe anything older brother would tell her. She calls it being, "easy to pick on.'

Rebels win first soccer playoff, 3-0

By Stewart Doreen

Sports Writer

ABILENE - After a four year absence from playoff competition, the Midland Lee boys soccer team decided not to waste any time on its way to its first-ever playoff win.

The Rebels made their mark right off the bat in a 3-0 bi-district win over Brownwood here Saturday at the Lee Athletic Complex.

"I am proud of all the guys," said John McCulloch. "If our key players make the plays and our defense stays strong, we should go a long way, or at least win our bracket.'

Midland Lee (14-4) for the season will get a bye in the area round and face the winner of the Stephenville (champion of District 6) and Wichi-

Cooper hands MHS 4-5A loss

By Sean Wallace

Sports Writer The fifth inning came back to haunt Midland High once again.

Abilene Cooper sent 10 men to the plate, scored five runs in the inning and went on to

Saturday in a District 4-5A baseball game at Christensen Stadium.

The Bulldogs (11-6 overall, 0-2 in 4-5A) lost their second straight district game after allowing a five-run fifth. Cooper (10-7, 1-1), which lost its dis-trict opener to Abilene High, evens its district mark with the win.

Cooper starter Christian Allen (3-3, 1-0) went four innings to pick up the victory, getting relief help from Chad Forman and Chris Seamster. Joseph Hudson (1-2, 0-1) took the loss for MidPAGE 2C

Burke, Boros tied for lead at Bay Hill Invite

MAXE

The Associated Press

ORLANDO, Fla. — A soft course and a still day led to a lot of low numbers Saturday in the third round of the Bay Hill Invi-

tational, in which Guy Boros shot a 6-under-par 66 for a share of the lead with Patrick

Burke. Boros finished strong for the second straight He round. birdied four the last five holes, including an outstanding 7iron from thick rough on No. 18 to

within 2 feet. him to 10-

tational with Guy Boros. under 206 and into a tie with Burke, a coleader after the second round

who shot a 69. They don't have much breath-

ing room. Jeff Maggert was another stroke back at 207. Larry Nel-son, a former U.S. Open and two-time PGA champion, heads a group at 8-under 208. Eight players were at 209, including Tom Watson, Nick Faldo and Davis Love III.

The reason for the bunched field is that no one has been able to put together great rounds on consecutive days.

"That's the way it is at a great course like Bay Hill," said Nelson, whose 67 could be a sign that he's ready to put his worst year in 22 seasons on tour behind him.

LPGA Ping-Welch's

TUCSON, Ariz. - Danielle Ammaccapane didn't realize what Cathy Johnston-Forbe was doing to the Randolph Park North course on Saturday. Ammaccapane countered the

Golf Roundup

challenge anyway by shooting a 6-under-par 66 to open a two-stroke in the Ping-Welch's

Championship. With three birdies in the last four holes of the third round Ammaccapane reached under 204. Johnston-Forbes had a 65 with

12-

a twobogey, nineround birdie that included five birdies on the last six holes. She was second at 206. Two shots

separated Patrick Burke, at 10-under par, is Johnston-That got tied for the lead of the Bay Hill Invi- Forbes from second-round co-leader Pat-

ty Sheehan, Dale Eggeling and Liselotte Neumann, who eagled the last hole.

Toshiba Senior Classic

NEWPORT BEACH, Calif. -Jim Colbert, continuing his bogey-free golf, carded a 6under-par 65 to take a five-shot lead Saturday in the second round of the \$1 million Toshiba Senior PGA Classic.

Lee Trevino's birdie at the 18th hole gave him a 1-under-par 70 and a share of second place with defending champion George Archer. Trevino and Archer, who shot a 3-under-par 68, stand at 138.

Hale Irwin's 68 pulled him into an eight-way tie for fourth,

another shot back Colbert carded six birdies. In

two round he has nine. 'I'm playing pretty well,"

Colbert said. "And I expect to play well tomorrow. It's a great old golf course, but you have to drive the ball straight or you can lose some shots to the field.'

MIDLAND REPORTER-TELEGRAM, SUNDAY, MARCH 17, 1996

Astros crush LA; Angel staff gets no-no

The Associated Press

KISSIMMEE, Fla. - Mike Simms went 4-for-4 with two doubles, a homer and three RBIs and Houston scored five runs in the seventh to beat Los Angeles 10-4 Saturday in exhibition baseball action.

Darryl Kile pitched his best game of the spring to pick up the victory, allowing one run and three hits in five innings. Tom Candiotti took the loss. Raul Mondesi homered in the first inning for the Dodgers. Astro second baseman Craig Biggio hit a two-run homer in the bottom of the inning.

Tigers 5, Reds 3

LAKELAND, Fla. - Omar Olivares may have earned himself the No. 5 spot in Detroit's rotation with five solid innings in the Tigers' win over Cincinnati, which suffered its fourth serious injury this spring.

Reds outfielder Eric Anthony landed hard on his right shoulder while making a catch. Anthony, who bats and throws left anded, remained on the ground for several minutes after catching Chris Gomez's fly ball to right in the sixth.

He left the game and got an ice pack on the shoulder. He was expected to have X-rays and an examination later Saturday.

Travis Fryman and John Flaherty both hit two-run homers for the Tigers.

Phillies (ss) 6, Cardinals 3

ST. PETERSBURG, Fla. -Benito Santiago homered and drove in two runs as a Philadelphia Phillies split squad beat the St. Louis Cardinals 6-3 Saturday.

Santiago hit his second home run of the spring off Gregg Olson in the fifth inning and had an RBI single off Cardinals starter Tom Urbani in the third. Gregg Jefferies and Mark Whiten added RBI singles in the first off Urbani.

Royals 10, Indians (ss) 3

WINTER HAVEN, Fla. - Tim Belcher gave up one hit in five scoreless innings as the Kansas City Royals beat a Cleveland Indians split squad.

Belcher, who will be the fourth starter in the Royals' rotation, yielded only a double by Wayne Kirby leading off the fourth inning. Joe Vitiello and Les Norman homered for the Royals. Manny Ramirez hit his fourth of the

Atlanta's Jeff Blauser safely gets back to first base as Baltimore's Billy Ripken waits for the pickoff throw during the Braves' come-from-behind ninth-inning victory over the Orioles.

five innings and Ray Durham homered for the White Sox.

walked two and allowed one run to improve to 3-0 this spring. Boston starter Aaron Sele allowed four runs and six hits.

final spot in Boston's rotation, pitched four innings of one-hit ball, striking out seven and walk-

White Sox 4 (ss), Phillies 3 (ss) SARASOTA, Fla. -- Closer Roberto Hernandez pitched two scoreless innings in a rare start for the White Sox. Hernandez, who started three games for Chicago in 1991, had pitched only five exhibition innings this spring and needed some extra work. Trailing 3-2 in the eighth, the White Sox rallied for two runs on Harold Baines' home run and Ozzie Guillen's RBI single.

TAMPA, Fla. – Andy Pettitte had his best performance of the

and walked none.

homered over the right-field wall in the fourth. He doubled home Wade Boggs in the sixth for New York's other run.

Pirates 8, Blue Jays 6 BRADENTON, Fla. — Jeff King hit a two-run homer in the ninth

inning — his fourth homer this spring and second in two days - to rally the Pirates.

King's shot came off Bill Risley. who came on in the ninth and gave up'two runs and two hits. King went 3-for-5 to raise his spring average to .484 with 11 RBIs.

Braves 7, Orioles 4

WEST PALM BEACH, Fla. -Mike Mordecai's three-run homer, his second ninth-inning home run in two days, lifted the Braves before a record crowd of 8,272 at Municipal Stadium.

Atlanta's Ron Wright had tied it at 4-4 in the seventh inning with a first pitch, three-run homer off Jesse Orosco. Mordecai, who capped an 8-5 Braves victory over Montreal with a solo shot on Friday, came to the plate in the ninth with two outs and hit the first pitch from Armando Benitez (0-1) over the left-field wall.

Angels 15, Giants 0 SCOTTSDALE, Ariz. — Five California pitchers combined on a no-hitter for the Angels.

The only San Francisco player to get on base was Shawon Dunston, who struck out leading off the third but reached first on a wild

SEE BILL WILLIAMS for EVERY DAY LOW

Exhibition Baseball

pitch. The Giants struck out 11 times overall.

"I've never seen a no-hitter in spring training," said Giants man-ager Dusty Baker. "It would have been a perfect game if Shawon hadn't struck out." Shawn Boskie struck out six

while pitching the first four innings. Julio Valera pitched the fifth and sixth for California. Todd Frohwirth, Ken Edenfield and Mark Eichhorn each pitched an inning

Twins 4, Expos 3, 10 innings FORT MYERS, Fla. - Ron Coomer delivered an RBI single in the 10th inning for the Twins. Jeff Reboulet opened the 10th

with a single, and pinch runner Matt Lawton took second on an errant pick-off attempt. He went to third on a groundout, setting the stage for Coomer

Oakland 10, Cubs 4

MESA, Ariz. - Pedro Munoz homered twice and Oakland hit five homers off Chicago starter Kevin Foster.

Foster, who allowed a majorleague leading 32 homers last season, gave up five homers in threeplus innings. In the third inning, three out of four A's homered.

Munoz went 3-for-3, scored twice and had three RBIs. Geronimo Berroa, Brent Gates and Ernie Young also homered for the A's. **Rockies 5, Mariners 4**

TUCSON, Ariz. - Jason Bates hit an RBI single in the ninth inning for the Rockies, who had blown a 4-0 lead.

Seattle trailed 4-0, but rallied with a four-run eighth inning off Bruce Ruffin. Greg Pirkl's two-run homer capped the inning.

Padres 9, Brewers 8, 10 innings PEORIA, Ariz. - Chris Gwynn went 3-for-4 and singled in the ame-winning run in the 10th inning.

The Brewers scored four runs in the ninth inning, the final two coming in on Jose Valentin's single, to take an 8-7 lead. Mets 6, Marlins 2

VIERA, Fla. - Lance Johnson homered and drove in three runs for the Mets. Johnson joined the Mets as a free agent in the off-season after spending eight seasons with the Chicago White Sox.

Jackie Autry, angry at Anaheim, may try to move Angels

ANAHEIM, Calif. (AP) - Jackie Autry is angry the Walt Disney thing is put to bed. I understand that with the city of Anaheim and is considering moving they're trying to resurrect this or at least keep this trying to move the California Angels after the team's lease expires following the 2001 season.

Her husband, Gene, has owned the Angels since they joined the American League as an expansion team in 1961.

The Autrys had a deal to sell 25 percent in the team

on the table. Anything's possible, but I don't think that they'll ask for an extension of the deadline." When the sale was approved by baseball owners on

Jan. 18, Disney established a deadline of 60 days to finalize it, making next Monday the deadline.

Jackie Autry has also said a search is underway for

spring for the Indians. White Sox (ss) 4, Red Sox 2 FORT MYERS, Fla. — Alex Fernandez allowed three hits in

Tim Raines, who missed five days with a strained pectoral muscle, went 3-for-3 with a walk. Martinez, batting just .194 this spring,

which trol of the team, but Disney said Wednesday it was abandoning the transaction because it couldn't reach an agreement with the city of Anaheim on renovation of Anaheim Stadium and other issues.

Jackie Autry placed most of the blame on city officials and reiterated Friday the Angels might be moved after the stadium lease expires.

One possibility is Inglewood. Hollywood Park chairman'R.D. Hubbard has expressed interest in building the team a baseball-only stadium in Inglewood.

"I'm serious about this if we don't sell the team," Jackie Autry said Friday about a possible move. "We're going to have to explore all of our options.

"I really shouldn't even be discussing this until after heim.

ner buyer. commissioner Peter Ueber roth is one possibility.

Anaheim spokesman Bret Colson said Friday the city remains committed to trying to upgrade Anaheim Stadium for the benefit of the Angels, "whoever the ownership might be, whether it is the Autrys or somebody else who may purchase them at a future date."

'At the present time, we're continuing to try and resolve those issues related to the renovation and upgrade of Anaheim Stadium because they are concerns to us as the owners of the facility," Colson said. We remain hopeful we can address some of the concerns raised by Jackie Autry, and it is our hope that we can satisfy some of the issues that she has with regards to fielding a competitive team in Ana-

Baerga success makes new demands on time

WINTER HAVEN, Fla. (AP) -Back home in Puerto Rico, Carlos Baerga no longer is just a baseball player. He's an industry.

The success of the Cleveland Indians in '1995 put so many demands on Baerga's time during the offseason, he had to hire people to sort them all out.

"What I did this year was, I opened an office in Puerto Rico," said Baerga, who is spending the weekend on the island with some of his teammates, playing two exhibition games against the Florida Marlins.

"Everything I have to do with schools and kids, all that stuff, they make a call to my office, and they set the schedule," Baerga said. "But I need to rest, too. I don't want to do all this stuff and not think about baseball.'

It wasn't long ago that the Indi-ans could spend their free time in relative peace. Their trip to the World Series last fall changed all that.

"When you're in front of everybody in the world on TV, people see the Cleveland Indians have a new life, new fans, the new ballpark," Baerga said. "I think people like the way we play. We have so much fun. They love it.

No one appreciates the Indians' turnaround more than Baerga, who at age 27 is starting his seventh season in the major

He was a member of the team that lost a franchise-record 105 games just five years ago, and he was an integral part of the rebuilding plan that finally began paying off in 1994. The Indians were in line for a wild-card spot in the playoffs when that season was cut short by a strike.

The pivotal moment, Baerga said, came on opening day in 1994, when the Indians won their first game ever at Jacobs Field 4-3 in 11 innings, after Seattle's Randy Johnson had held them without a

hit through the first seven innings. "It was super, the first day that we won that game against Seat-tle," Baerga said. "It was like a

new life for us. It was like, we can do it now.

Baerga is one of the the best offensive second basemen in the game. Last year, he hit .314 - his fourth straight year above .310 with 15 home runs and 90 RBIs.

At some point next month, he likely will get his 29th hit of the season, which will also be the 1,000th of his career. In spite of having the past two seasons shortened by a strike, he has set a pace over the last five seasons that would get him to one of baseball's great

milestones, 3,000 hits, 12 years from now. Baerga, a switch-hitter, is the

kind of guy who could do it, although he understands fully the magnitude of the task.

'It's going to be hard," he said. 'You have to play almost 20 years. I hope I can stay healthy. I don't know how those guys did it, played 20 years in a row, 21, 22, 23. It's hard. Rain. Hot weather. You don't feel good. But I want to do it. I want to be like Eddie Murray and get 3,000 hits."

NCAA WOMEN'S TOURNEY Viglione 3s lead Texas to victory

Associated Press

LAWRENCE, Kan. Danielle Viglione hit seven of eight 3-pointers, triggering runs of 18-0 in the first half and 16-0 in the second as Texas beat Southwest Missouri State 73-55 Saturday in the first round of the NCAA women's tournament East Regional.

Richelle Winn hit a field goal for Southwest Missouri State at the 13: 38 mark and chopped the Texas lead to 48-42, but the Lady Bears did not have another field goal until 3:03, a drought of 10 minutes, 35 seconds.

Viglione, who led the Southwest Conference co-champions with 25 points, made consecutive 3-pointers to launch Texas' firsthalf run, then hit two more in succession early in the secondhalf spree that put the game away

Viglione, a 5-foot-10 junior averaging 13.4 points a game, was 9-for-13 from the field.

The Lady Bears (25-5), the No. 12 seed, never recovered from the first-half run which started with Southwest Missouri State holding a 2-point lead. After Viglione's two 3-pointers, Angie Jo Ogletree hit a short jumper shot and then stole a pass and drove in for a layup. The run ended when Angela Jackson and Erica Routt each hit soft jump shots to put the fifth-seeded Longhorns on top 26-10.

Southwest Missouri State answered with a 10-2 run of its own, with Jessie McVay hitting a 3-pointer and two short buckets. The closest the Lady Bears could get was 33-29 when Jamie Bartlett made a 3-pointer.

Kim Lummus hit a 3-pointer for Texas and Routt added two field goals as the first half ended with Texas on top 40-32.

Routt wound up with 14 points for Texas while Angie Jo Ogletree had 11.

Southwest Missouri State, the Missouri Valley Conference champion, were led by McVay's 20 points. Roshonda Reed had 10

In other action, the Southeastern Conference's fast start in the men's NCAA tournament hasn't carried over to the women.

men's teams improved to 8-0 in pointers for Ohio State (21-12).

'We wanted it to be physical,' said Florida coach Carol Ross. 'We felt like that if the game was allowed to be played that way, we would have an advan-

tage. The rougher the better." "Val has a tradition of breaking a finger and then scoring a lot of points the next day," said San Francisco coach Bill Nepfel. "She'll enter Monday night's game with another broken finger. We'll take care of that in practice tomorrow.

Mimi Olson and Angela Drake combined for 17 points during a 25-10 spurt early in the second half as Toledo (25-5) finished off Ole Miss.

Drake, limited to two points in the first half, scored nine in a run that gave the Rockets a 51-37 lead with 8:47 to play. Olson hit two 3-pointers and a long 2pointer in 2 1/2 minutes as Toledo took command.

'Once we started hitting our shots, it opened up the floor,' said Drake, who was 1-for-6 at halftime. She finished 8-for-17 with 18 points.

Olson, who had 20 points, said the victory should help gain some respect for the unheralded Mid-American Conference. We're a good team and we went out and showed people that the MAC is as good as the EC," she said.

Also going down Saturday was No. 22 Oregon State, the sixth-seeded team in the Midwest Regional, which fell to 11th-seeded Stephen F. Austin 67-65

In other games, Ohio State beat Memphis 97-75 and Texas beat Southwest Missouri 73-55 in the East Regional; and Michigan State beat Massachusetts 60-57 in the Mideast Regional.

The tournament's four top seeds — top-ranked Louisiana Tech, defending champion Connecticut, Tennessee and Stanford — played later Saturday. SF Austin 67, Oregon St. 65

Kristen Armour hit two crucial 3-pointers in the final three minutes as Stephen F. Austin (26-3) won with long-range shooting. Katrina Price made a season-high five 3-pointers and had 26 points.

Ohio St. 97, Memphis 75 Katie Smith scored 26 points On a Saturday, when SEC and Marcie Alberts hit five 3-

MIDLAND REPORTER-TELEGRAM, SUNDAY, MARCH 17, 1996

Tyson stops Bruno in third round

LAS VEGAS (AP) - Iron Mike for the 34-year-old Bruno. Tyson got a piece of his undisputed heavyweight championship back Saturday night by stopping Frank Bruno in the third round before a roaring crowd of more than 16,000 at the MGM Grand Garden.

Five-thousand British fans had "Bruno! roared Bruno! Bruno! "before the opening bell. But Tyson quickly silenced them as he dominated the defending WBC champion from Britain.

'It's my time," Bruno had said. But from the opening seconds, it was Tyson's time and when it was over, he threw up his arms and fell to his knees

The end came with Bruno sitting on the lower strand of ropes after a tremendous Tyson barrage. Referee Mills Lane called a halt at 50 seconds of the third round.

"I'm a ferocious fighter," Tyson said before the match, and while he was often wild in only his third bout of a comeback that started last Aug. 19, he was too much tiger

Bruno had said he didn't think Tyson was nearly the same fighter he met Feb. 28, 1989 when Tyson was the undisputed champion. But in that fight, Bruno had rocked Tyson and put up a good scrap until being overwhelmed in the fifth round. Saturday night, Bruno hardly landed any effective punch-es and was in trouble almost from the outset.

Tyson landed a right to the head followed by a left-right to the head late in the first round, and Bruno was cut over the left eye.

In the second round, Tyson shook Bruno with a hook and then a right hook. He wobbled him again with a three-punch combo just before the bell. Bruno was penalized a point by Lane for continuing to hold.

Because he knew he was going to get knocked out," Tyson said. The end came in the third round when the 220-pound Tyson wobbled the 247-pound Bruno with a left hook to the head. Tyson followed he won by a decision over Oliver

with an 11-punch barrage and McCall last Sept. 2. landed eight of them. Bruno sank against the ropes, with the ropes holding him up. Lane didn't bother to count and

merely reached down to remove Bruno's mouthpiece.

At the end, Tyson went to Bruno and put his arms around him.

A question about Tyson before the fight was how much ring rust he might have because his first two comeback fights after a four-year layoff had lasted only a little more than three rounds.

He might still be ring rusty, but there's no question about his hand speed or his power. And it seemed that he had some of the fire that propelled him to the undisputed championship in 1987

"I hit like a mule," the 29-year-old Tyson said. "I just wanted to throw a bunch a punches. I just wanted to bring him down."

'I'm fine. I'm a little brokenhearted," said Bruno, who was making the first defense of the title

"I was just trying to use my weight against him, to lean on him, but he was just too fast. He got away from me," Bruno said.

It was Tyson's first champi-onship fight since he lost the undisputed title on a 10th-round knockout to Buster Douglas on Feb. 11, 1990. He fought four times after that fight but then had to serve a 3-year prison term after being convicted for rape. He was released from prison last March

The plan was to have Tyson fight four non-title fights before making a title challenge. But he was unhappy about the criticism of his 89-second win over Pete McNeeley and his third-round knockout of Buster Mathis Jr. so he told promoter Don King to get him a title shot.

Saturday night, he made Bruno look inept before apacked house in the 16,723-seat MGM Grand arena.

Spurs win ninth-straight by whipping Atlanta 119-92

Associated Press

SAN ANTONIO - Sean Elliott led six San Antonio players in double figures with 24 points, and the Spurs rolled to their ninth straight victory, 119-92 over the Atlanta Hawks on Saturday night.

The Spurs, who have won 14 of 16 games, also got 19 points from David Robinson and 17 from Avery Johnson. Charles Smith scored 14, Vinny Del Negro 13 and Will Perdue had all of his 12 in the first half.

Atlanta was led by Stacey Augmon and Grant Long with 14 points apiece, while Christian Laettner and Sean Rooks had 12.

Leading 61-54 at halftime, San Antonio broke the game open by outscoring the Hawks 30-17 in the third quarter, keyed by a 14-0 run NBA Roundup

that extended a 71-62 lead to 85-62 with 4: 37 left in the period. Heat 121, Rockets 97

HOUSTON – Tim Hardaway had 28 points and 15 assists and Walt Williams scored 27 points, including five 3-pointers leading Miami to a victory over Houston.

who tied the game three times in the third quarter, but were blown out by a 26-8 run that gave the Heat an 18-point lead by the opening

minute of the final period. Chucky Brown, who scored 15 points, pulled Houston even at 69-69 with a 7-footer at the 7:04 mark

gained control after that. Bulls 97, Nets 93

EAST RUTHERFORD, N.J. -Michael Jordan overcame the absence of Scottie Pippen and ejection of Dennis Rodman, getting 37 points and 16 rebounds to lead Chicago over New Jersey.

Steve Kerr hit two big 3-pointers, Bill Wennington made two jumpers and Jordan made four free throws down the stretch as the Bulls (57-7) continued their assault on the NBA's best regular-season mark -69-13 by the Lakers in 1971-72.

Knicks 94, 76ers 88

NEW YORK - New York reversed its only loss under Jeff Van Gundy by defeating Philadelphia for their third victory in a row. The Sixers had defeated New York eight days earlier, on the day

Van Gundy replaced Don Nelson as coach. That victory gave Philadelphia a better record than Vancouver, erasing the title of 'NBA's worst team.

It looked like the Sixers might pull off another unlikely victory, but New York went ahead with a 10-2 run midway through the fourth quarter and led by at least three points thereafter.

Jazz 120, Bullets 115 OT LANDOVER, Md. — Gheorghe Muresan had 28 points and 15 rebounds, and Washington outscored Utah 10-0 over the final 1:59 of overtime for the win.

It was the Bullets' first win over Utah in their last seven tries, and second in their past 18. It also was their first home victory against the Jazz since Nov. 21 1992.

in the third quarter, but Miami

Hakeem Olajuwon had 26 points and 12 rebounds for the Rockets,

NCAA play, the league had No. 16 Florida and No. 24 Mississippi knocked out in the first round of the women's tournament.

San Francisco, seeded 12th in the Mideast Regional, surprised fifth-seeded Florida 68-61 and Toledo, 10th in the East Regional, eliminated seventh-seeded Ole Miss 65-53.

Valerie Gillon, playing despite a broken finger, fought through Florida's physical defense for 28 points for the Lady Dons (23-7).

Alberts finished with 15 points for Ohio State. LaTonya Johnson led Memphis (20-11) with 23 points

Michigan St. 60, Massachusetts 57

Jamie Wesley scored 17 points, and Cheri Euler had six of her eight points in overtime for Michigan State (18-10). Octavia Thomas scored 21 points to lead UMass (20-10) in a game that was close most of the way and tied 49-49 at the end of regulation.

Tech faces Notre Dame

N.Y. Times News Service

LUBBOCK, Texas - As if facing Notre Dame's duo of Beth Morgan and Katryna Gaither isn't enough, Texas Tech also must contend with an additional obstacle in its secondround game of the women's NCAA Tournament Midwest Regional.

Playing the Fighting Irish on St. Patrick's Day.

That will be the task for No.4 seed Texas Tech (26-4), which plays 12th-seeded Notre Dame at 7:30 tonight at Lubbock Municipal Coliseum.

"We joked about wearing green uniforms, but (apparel supplier) Champion could not make them in two days," Irish coach Muffet McGraw said. "A little bit of extra luck for the Irish on St. Patrick's Day? Somebody's going to be looking over our shoulders.

Notre Dame (23-7) will take any luck it can get tonight against the Lady Raiders, who played what coach Marsha Sharp called the team's "best 20 minutes of the year'' in the sec-ond half of Friday's first-round game against Portland. In that half, Tech shot 57.1 percent from the field and had only four turnovers as it ran away from

the Pilots, 78-61. The Irish, who upset No.5 seed Purdue, limited the Boilermakers to 31.5 percent shooting and contained Purdue's strong inside game with a 2-3 matchup zone. Since Lady Raiders center Michi Atkins also gives Notre Dame a mismatch disadvantage in the post, McGraw said the Irish plan to play both zone and their more

favored man-to-man defense. "If they're in a matchup (zone), you have to move the basketball and not be afraid to take a perimeter shot," Sharp said. "I think it'll be important that our guards are ready to pull the trigger.'

Morgan, a 6-foot forward, and Gaither, a 6-3 center, have provided more than half of Notre Dame's scoring this season, combining to average 40 points in the Irish's patient, half-court offense. Morgan scored 16 points against Purdue but made only three of 14 shots from the field.

"We probably have to look for her to have her hands on the basketball more than she did" in

Friday's game, Sharp said. A victory would advance the Lady Raiders to their fifth consecutive Sweet 16 appearance in the NCAA Tournament.

NCAA MEN'S BASKETBALL TOURNAMENT Hogs prove doubters wrong

The Associated Press

PROVIDENCE, R.I. rebuilding year for Arkansas is way ahead of schedule.

The Razorbacks, decimated by losses of key players before and during the season, got strong per-formances from four freshman Saturday to beat Marquette 65-56 and reach their fourth straight NCAA regional semifinal.

Arkansas (20-12) plays Thursday in Atlanta against top-ranked Massachusetts, which beat Stanford 79-74 earlier Saturday.

Fourth-seeded Marquette (23-8) raced to a 25-15 lead after 12 minutes. But the Golden Eagles let the game slip away as they shot poorly against an aggressive defense that had been Arkansas' hallmark when it won the NCAA title in 1994 and was runner-up to UCLA last year.

Marquette sank a season-low 27 percent of its shots, making only 15-of-56. It was even worse in the second half, when the Golden Eagles were 6-for-29 and went without a field goal for the last 8:59 except for Aaron Hutchins' meaningless 3-pointer at the buzzer.

The Razorbacks, seeded 12th in the region, finished the half with a 16-8 run that cut the lead to 33-31. And they began the second half with a 16-7 surge that put them ahead 47-40.

Marquette rallied to go in front 48-47 on Zack McCall's 3-pointer with 8:59 left. But it never led again. With Arkansas leading 53-52, Pat Bradley's 3-pointer with 4:13 remaining began a 12-point run that made the score 65-52 with 18 seconds remaining.

Arkansas' freshman leaders were Bradley with 12 points, **Derek Hood and Marlin Towns** with 11 each and Kareem Reid with six points, nine assists and three steals. Hood added 13

East Regional

rebounds. Junior Darnell Robinson had 10 points and 11 rebounds. The Golden Eagles were led by

Hutchins with 20 points and Anthony Pieper with 13. When the season began, Arkansas knew it would be without 10 players from last season, including Corliss Williamson and Scotty Thurman. It didn't know it

would lose its top scorer, Jesse Pate, and top rebounder, Sunday Adebayo, two-thirds of the way into the season because of eligibility problems.

Massachusetts 79, Stanford 74 PROVIDENCE, R.I. — Top-ranked Massachusetts needed the whole 40 minutes this time.

The Minutemen, who had stormed away in the second half for a first-round NCAA tournament victory, held off Stanford in the second round, not putting this one away until the final 30 seconds.

The win advanced Massachusetts (33-1) to the East Regional semifinals Thursday in Atlanta against the winner of the game between fourth-seeded Marquette and 12th-seeded Arkansas.

Although All-American center Marcus Camby was saddled with foul trouble, the Minutemen turned a 33-31 halftime lead into a 66-53 lead with 7:06 to play as the frontline finally established itself against the smaller but stronger ardinal (20-9).

Unlike the first-round blowout of Central Florida, where Massachusetts pulled away from a fourpoint halftime lead to a 92-70 victory, Stanford had other ideas.

In last year's second round of the tournament, Massachusetts beat Stanford 75-53 and it looked like that could be about the margin again.

AP Laserphoto Arkansas' Kareem Reid drives and shoots over Marquette's Anthony Piper during the Razorbacks' 65-56 win in the East Region Saturday.

Utes nip Cyclones; Kentucky whips Hokies

The Associated Press

DALLAS — Michael Doleac scored a career-high 23 points and Andre Miller hit a 3-pointer and two free throws in the last minute Saturday as Utah beat Iowa State 73-67 Saturday in the second round of the NCAA Midwest Regional.

Utah held on down the stretch without star Keith Van Horn, who fouled out with 6:05 left. Van Horn, a second-team All-American who missed Utah's first-round win over Canisius with the flu, had only 11

points for Iowa State (24-9). Kelvin NCAA Midwest Regional. Cato added 11 points, while Kenny Pratt had 10 points and 12

rebounds. Van Horn didn't score a basket until midway through the first half, but finished the half with nine points. A layup by Miller just before the halftime buzzer tied the game at 37.

Kentucky 84, Virginia Tech 60 day, and top seed Kentucky used an acrobatic second-half run to pull

The Wildcats (30-2) advanced to the round of 16, where they will play No. 4 seed Utah on Thursday in Minneapolis. Utah beat Iowa State 73-67 earlier Saturday.

Ninth-seeded Virginia Tech (23-6) did a good job against Kentucky's pressure, but the Hokies were undone by 39 percent shooting. Ace Custis scored eight points, five below his team-leading average, and Shawn Good had five on shooting. Good scored 25 in 2-01away from Virginia Tech and win the Hokies' first-round victory

Purdue doesn't escape this time

The Associated Press

ALBUQUERQUE, N.M. This time, there was no reprieve for Purdue.

No. 8 Georgia (21-9) parlayed the shot-blocking and scoring of senior Terrell Bell and topseeded Purdue's icy first-half shooting touch into an 76-69 win Saturday in the second round of the West Regional.

The 6-foot-10 Bell had 15 points, blocked seven shots and made a shambles of Purdue's inside offense. His final block of a slam dunk attempt by Purdue's Justin Jennings with 1:19 left and Georgia up 70-64 ended the Boilermakers' hopes. Georgia coach Tubby Smith

said Bell is the type of big man who can take a team a long way in the tournament.

'He's young as far as basketball is concerned. He's just starting to learn how to play offensively, but defensively, he's as good as anyone," Smith said. "Going to Denver (site of the West semifinals), it gives me a lot of confidence that I can keep him in late-game situations.

Georgia forward Carlos Strong said the Bulldogs' defense fed off Bell.

Terrell blocked lots of shots and even the ones he didn't block, he altered," Strong said. Purdue, which escaped becoming the first top-seeded

team in tournament history to lose to a No. 16 by edging Western Carolina 73-71 in Thursday's first round, shot itself out of the tournament during a nine-minute stretch of the first half

And unlike its first-round survival, when Western Carolina missed two shots in the final seconds, the Boilermakers (26-6) got no closer than five points in the second half.

Strong scored 17 points and Shandon Anderson 15 for Georgia. Chad Austin led Purdue

guided the Bulldogs to their first NCAA tournament since 1991. The Boilermakers led 24-20 with 11:31 left in the first half after hitting nine of their first 13

shots, then went scoreless for 6 1/2 minutes and without a field goal for almost nine minutes. Syracuse 69, Drexel 58 ALBUQUERQUE, N.M. -

Syracuse's big-game experi-ence and a dominating front line proved too much for the Drexel Dragons. The small Philadelphia engi-

neering school gave Big East giant Syracuse all it could handle for much of their secondround NCAA tournament game, but the Orangemen came through.

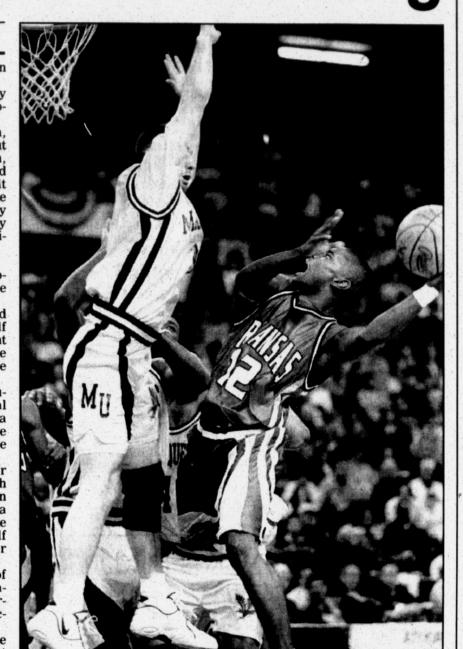

Syracuse (26-8) advanced to the West Regional in Denver next weekend against eighthseeded Georgia, which upset the region's top seed, Purdue.

The Orangemen relied on a towering front line of John Wallace, Otis Hill and Todd Burgan to keep the smaller Dragons in check. Wallace scored 12 of his 18 points in the second half, when he played with three fouls. Hill added 16 points and Lazarus Sims had nine of his 12 in the second half.

Malik Rose, Drexel's tubaplaying star, held his own in rebounding against the taller Wallace, but Syracuse's defense limited him to five shots in the game's opening 35 minutes.

Rose finished with 11 points and 15 rebounds to move past Virginia's Ralph Sampson into second place on the NCAA's career rebounding list.

points and two rebounds. Doleac, a sophomore whose preDedric Willoughby scored 26 84-60 in the second round of the over Wisconsin-Green Bay.

UConn rips Eastern Michigan; Mississippi State ends Princeton run

The Associated Press

INDIANAPOLIS (AP) - Eastern Michigan was hot at the start, but Connecticut was hotter at the end.

Doron Sheffer matched his career high with 27 points and All-American Ray Allen had 25 points and 10 rebounds as the top-seeded Huskies overcame a 13-point deficit to beat Eastern Michigan 95-81 Saturday in the second round of the Southeast Regional.

The victory gave the Huskies (32-2) a school record for victories in a season and sent them to the regional semifinals in Lexington. Ky., next Friday night against the Princeton-Mississippi State winner. Last year, Connecticut lost to eventual champion UCLA in the West Regional final.

Brian Tolbert scored 36 points for Eastern Michigan (25-6), which beat Duke in the first round.

Connecticut struggled early and never led until the closing minutes of the first half. It took the Huskies that long to overcome the torrid early shooting by the Eagles, who hit 13 of their first 18 shots and led 32-19 midway through the opening period.

But with Allen and Sheffer going against the smaller Eastern Michigan guards, the Huskies gradually fought back. They closed within 48-47 at halftime, hit five of their first six shots in the second half and took the lead for good on a 3-point play by Rudy Johnson.

Three straight baskets by Shef-fer made it 66-58 with 14 minutes to

ier made it 66-58 with 14 minutes to go, and the final score was the biggest margin. Mississippi St. 63, Princeton 41 INDIANAPOLIS — Time final-ly ran out for Princeton coach Pete Carril.

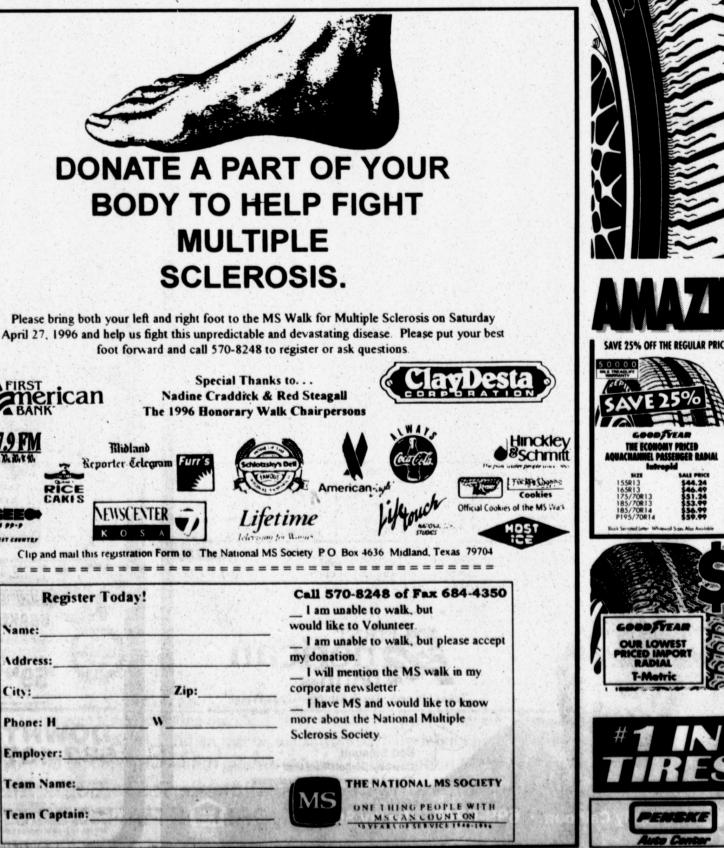

Erick Dampier scored 20 points as Mississippi State beat sentimental favorite Princeton. The loss sent Carril into retirement after 30 years as a college coach and ended Princeton's surprising run in the Southeast Regional, which began Thursday with an upset over defending national champion UCLA.

Like he has for the past three decades, the rumpled coach suf-fered on the sidelines, sometimes pleading, often yelling, always grimacing. But it wasn't enough as Dampier and the Bulldogs con-trolled the game from the start. As the game ended, Carril took off his glasses and wiped his eyes. The Mississippi State players

that he would retire at the end of make a run, Dampier, Dontae' Southeast Regional the season.

Princeton scored just three times in the first 10 minutes as Mississippi State built a 16-7 lead. Any time Princeton seemed ready to

Jones and Darryl Wilson were there to stop it with a dunk or a 3pointer. The Bulldogs led 31-20 at the half.

LOCAL SPORTS

Rebels fall to Eagles

ABILENE - Midland Lee loaded the bases in the seventh inning but could not score the tying run as Abilene High survived to take a 5-4 win over the **Rebels Saturday in a District 4-5A** baseball game.

Justin Reece (1-2, 1-0) pitched 3 1/3 innings of relief to pick up the win for Abilene High (11-4, 2-0), which took over sole possession of first place in the district. Lee, the defending district champions, fall to 9-9-1 overall and 1-1 in district.

Mike Gonzales (1-2, 0-1) allowed five hits and two runs over three innings to take the loss for the Rebels.

baseman Nick Second Benavidez was hit by a pitch by **AHS reliever John Dallies to start** the seventh for the Rebels and moved to third on a double by Britt Harper.

Dallies then hit left fielder Matt Withrow to load the bases when a muffed squeeze play turned the inning around for the Eagles. Pinch-hitter Bo Garrison popped out to Dallies for the first out and then Gonzales missed the pitch on attempt to score Benavidez from third. Gonzales then struck out on the next pitch to end the game and earn Dallies his first save of the season

The loss overshadowed a good day at the plate for Harper, who was 3-4 with a two-run homer. His two-run shot in the third gave the Rebels a short 3-2 lead before the

Eagles tied the game in the bottom half of the inning. Abilene took the lead for good in

the fifth on an RBI single by Brad Cowling and sacrifice fly by Jeff Byrd, who drove in totals of three runs.

The Rebels cut it to 5-4 in the sixth with a two-out rally. Justin Ham doubled, went to third on a flyout by David Smith and scored on a single by Mark Holly but Lee could not sustain the momentum. Dallies came in and got Dusty Crowe to pop out to shortstop on the first pitch for the third out.

Lee took a 1-0 lead in the second when Randy Forman scored on a triple by Smith, his first of the vear

MHS softball tied for second

ABILENE — The Midland High softball team picked just the right time to beat Abilene High.

The Lady Bulldogs took a 4-1 victory over AHS here Saturday to climb into a second place tie with Abilene Cooper, a 5-1 loser to Midland Lee Saturday. Both teams stand at 4-1 in the District 4-5A softball race.

Katrina Kelley went the distance to pick up the win while the Lady Bulldogs scored all four of their runs in the third inning. It is the second win in a row for MHS when one offensive inning was all it took. Last Tuesday, MHS scored seven runs in one inning for a 7-0 win over Odessa High. Julie Williams walked with the bases loaded for MHS' first run. Jamee Stennett followed with the key blow, a two-run double and another run came in on a grounder by Jeni Neatherlin.

MHS will host San Angelo at 4:30 p.m. Tuesday at the Bill Williams Softball Complex to finish the first half and can finish in a tie for first place with a win. San Angelo (1-4) has been run-ruled in its last three 4-5A outings, including a 13-2 loss to Odessa Permian Saturday.

Maury aces

Jim Maury had a hole-in-one Saturday at Green Tree Country Club, acing the No. 3 North hole at 167 yards with a five-iron. He was playing with Jim Tasker.

Mustangs take consolation

ABILENE - Midland Christian won consolation honors in the Abilene Christian Schools baseball tournament Saturday, beating Northwest Academy of Houston 15-9.

The Mustangs, 2-4 for the year, got homers from Carey Patteson and Alex Awtry, the first two of the year. Chris Patteson and Jeff Sigler each got three hits. Awtry, 1-0, got the win.

On Thursday, the Mustangs lost to Clyde, 14-9. Carey Patteson, 1-1, took the loss as Awtry (triple) and Colby (double) each had two hits

On Friday, MC fell to Haskel 14-9. Lee, 0-2, took the loss. Carey

p.m. Monday at Christensen Stadium in their next outing.

MHS JV vields 30 runs

Abilene Cooper's junior varsity baseball team got only 19 hits off the Midland High JV Saturday at Zachery Field, but scored 30 times in a 30-11 victory.

Cooper led 10-1 after just two innings and then tacked on 13 runs in the fourth. The game went just five innings. MHS' Ross Nobles had a double and triple in the game and Lee Martin had two hits.

MHS is now 8-3 on the season and will play at Odessa Permian at 4 p.m. Monday.

AHS rallies over Lee JV

ABILENE - The Midland Lee junior varsity baseball team blew a 10-0 lead to fall to the Abilene High junior varsity 11-10 here Saturday.

AHS scored eight runs in the bottom of the seventh on just two hits to win the game.

John Purves had a triple and double for Lee while Blake Moravcik and Bryan Shores each tripled. David Lopez added a double

Lee, now 4-4 for the year, will host Odessa High at 4 p.m. Monday at Ernie Johnson Field.

SWIM: Stroman wins second-straight 200 IM title, takes third in free 25000 MILE

(From 1C)

The third place beat the Lee girls 15th-place finish of last year's meet by 12 places. About 2,500 people watched the competition at the Jamail Texas Swimming Center on the University of Texas campus.

'I was like, 'Amber, look at us.'" Stroman said in reaction to her team's lead early in the 400 relay. Neither coach Ted Carson nor any of the Lee swimmers knew at the time that they could win the meet with a victory in the final event. The Lady Rebel foursome finished less than four seconds slower than 400-relay champion Temple.

"I'm just delighted. I really don't know what to say because so much has transpired to get here," Carson said. "They're all just outstanding. I'm just so glad we're coming here and we're competitive. It's not just going to Austin to swim prelims.

The Lady Rebels improved their place from preliminaries in four of their seven events. They held the

land. It's got to help our sport and show it's a viable activity and we can produce some real athletes."

Today, no athletes in Midland are more "real" than the Lee Quad Squad.

lead over Allen and Westlake for much of the meet, never falling further back than third after Stroman's win in the 200 individual medley put them in ahead of the field.

Lee improved a sixth in the medley relay preliminaries to a fourth to begin the meet.

"I think on both relays we really surprised ourselves with best times," said Stroman, a senior swimming her last meet for Lee. "We've never placed at state in a relay since I've been here.

The Lady Rebels' lead in the 400 relay particularly came as a surprise because they had come into the meet with only the 14th-best time in the event.

Yesterday surprised us because we thought we would get dead last because none of us are freestylers." Stroman said. "We didn't think we'd be able to do that (well) again today and we did."

Goodwin, a sophomore, was fifth in her first individual event, the 50 freestyle. She entered the meet with the best region qualifying time in both the 50 free and the 100 backstroke. She had her best individual swim of the meet place-wise with a second in the backstroke.

"I think the 100 back let her show everybody what she was capable of doing," Stroman said.

Stroman did not repeat her 1995 win in the 500 freestyle. But she swam faster than last year, proving a better field, not her performance, made for the third place.

"Some people would see that (third) as a negative, but she swam so much faster than last year (4:56.21 compared to 5:00.65)," Carson said.

Said Stroman: "I was real proud of both of my swims. In the 500 free I just wished I could have outtouched that girl to get second.'

The Lee senior, who swam in the Olympic Trials the week before last, was 8/10 of a second behind second place San Antonio Churchill's Sarah Doyle.

Carnett also swam her last meet for Lee, leaving Goodwin and the junior Sanchez, among others, to continue the Lady Rebel tradition next year.

"I hate losing them (Carnett and Stroman)," Carson said. "But I know their careers will go on. They are going to go on and be very productive college swimmers." Stroman ends her Lee tenure on

a high note.

"I'm happy where I ended it," Stroman said. "I don't think we could have ended on a better note. I'm ready to move on.

Carson believes having the third-best girls swimming team in the state can only improve Midland swimming.

"I think it means we're on the right track," Carson said. "It's got to add credibility to what we're doing in the community and MidFDIC

Refinancing makes sense...

Next time you're making your mortgage payment, wouldn't it be nice to write that check for a hundred dollars less! That's what some folks do after refinancing with First American Bank. And others even save thousands by shortening their loan term.

t doesn't matter whether you bought your home ten years ago or just a year ago, if your mortgage rate is 1% higher than today's low rate, it's time to call First American and talk about refinancing.

> If you missed the opportunity to refinance when mortgage rates were low before, don't pass up this second chance. And, if you have an adjustable rate, now is the time to lock into a low fixed rate mortgage. In some instances, you can even include your closing costs in your loan amount.

	EXA	MPLE	N. CAN	
Loan Amount	\$100,000	\$100,000	\$100,000	\$100,000
Interest Rate	9.5%	8.5%	7.5%	6.5%
Loan Term	30 Years	30 Years	30 Years	30 Years
Principal & Interest	\$840.86	\$768.92	\$699.22	\$632.07

Call the mortgage specialists at First American today. In just a few minutes, they can compare your rate to the current low rate and see if refinancing makes sense for you.

and could save you hundreds of dollars!

MIDLAND REPORTER-TELEGRAM, SUNDAY, MARCH 17, 1996

Graf wins Evert, Chang in Champions final

The Associated Press

INDIAN WELLS, Calif. + Steffi Graf, playing her first tournament in four months, came from behind in two tiebreakers Saturday to beat Conchita Martinez on a sweltering afternoon and win the State Farm Evert Cup.

Graf, who had bone spurs removed from her left foot on Dec. 15, took a 7-6 (7-5), 7-6 (7-5) victory over Martinez as temperatures topped 110 degrees courtside.

A young ball boy fainted about 30

Tennis Roundup

minutes into the match, but he was fine after being taken out of the heat.

In the men's Newsweek Champions Cup, also played this week at the Hyatt Grand Champions resort. Michael Chang and Paul Haarhuis won their matches Saturday to move into Sunday's finals.

Chang, at No. 5 the highest seed left in the tournament, defeated Marcelo Rios 7-6 (8-6), 6-3.

Haarhuis, who made it to the Herck of Belgium 7-6 (7-5), 6-3 to semis with a victory over Pete become the first Danish finalist semis with a victory over Pete Sampras, beat Goran Ivanisevic 6-2, 7-6 (8-6)

Chang, No. 5 in the world, faces giant-killer in the final. Haarhuis, who was half the world's No. 1 doubles team two years ago but ranks only 68th in singles now, has beaten three top-10 players - Thomas Enquist, Sampras and Ivanisevic - this week

Carlsen, Pioline Reach Final COPENHAGEN, Denmark Kenneth Carlsen beat Johan van

ever in the Copenhagen Open. Carlsen, seeded seventh in the

ATP indoor tournament, will meet Cedric Pioline in Sunday's final. Pioline, the third-seed from France, defeated Tim Henman of Britain 6-3, 3-6, 6-1 in the other semifinal.

The hard-serving Dane will be playing his second ATP singles final. He lost the first in the 1992 Queensland Open in Brisbane, Australia, to another Frenchman, Guillaume Raoux.

BERRY: Soccer family tries to cope with tragedy

(From 1C)

She recalls the time Tyler told her that she was adopted and that he went on for days about it. There were the not-so-uncommon periods when she was looking forward to the day Tyler was off to college. All those things changed.

"A couple years ago I couldn't wait for him to get out of the house," said Shelby. "Months before Tyler was to leave for college, we became closer, and that is the stuff I will remember the most.

The Common Denominator

The common denominator between the siblings was soccer and not just that both played the sport. The game was a way of connecting and maybe even communicating. When all else failed, they could always go up to Windlands Park and kick the ball around. Sometimes it just meant going to each other's games and supporting each other.

We did it a lot," said Shelby. "He used to come to a lot of my games and would tell me what I was doing wrong."

When talking about soccer, Midland High has to come to the forefront. Shelby wears the No. 20 varsity jersey that Tyler wore all three years of his varsity career. That number was retired by the MHS boys team at the beginning of the season. Soccer was one of many things that Tyler did well.

Like big brother, Shelby made the varsity in her sophomore season. That was the goal from day one. In Tyler's stay at MHS, his team won two district titles and had one state Final Four appearance. Shelby's team has already won a district title, making the playoffs for the first time in the program's history. Success on the MHS soccer fields is becoming synonymous with the Berry name and Tyler laid the foundation for it.

"I wanted to play-like him," said Shelby. "I hoped I would make varsity because he did when he was a sophomore. I was really confident because my brother played and he was good. I don't do everything he did. The main thing is soccer.'

The Future

Tyler Berry, shown in this photo while on the Hardin-Simmons soccer team, lived and played by the motto "You're always a winner even if you lose, when you do your best."

one get over a tragedy like this. People just try to go on.

Shelby is not only playing soccer but is also an active member of the choir. She also writes from time to time, including a poem that was read at his funeral. Shelby had written anoth-There is not a book written to really help any- er poem for her brother before he went to school

and but this one was special in its obvious way. "There are so many things that remind me of him," said Shelby. "There is not a minute when I don't think of him. This poem took three days to write. Whenever something like this happens, it is like an inspiration.

Shelby has turned 16 and is driving. That is one of the many changes she wishes her brother could see

Having no brothers or sisters also became a realization.

That is why it is so hard," said Shelby There are no others to fall back on.

"He never came home to see how things had changed. He didn't get to see me turn 16 and get a car. He never thought I would be mature enough to drive. He thought I would always be a person to haul around.

For the family, the feeling that the events of Sept. 22 did not happen still comes around. There are daily reminders like Tyler's framed MHS jersey and his last soccer ball. His letter jacket, decorated with the many honors he earned at MHS, and his high school graduation pictures also bring back memories.

"I catch myself thinking he is still here," said Carolyn. "We were just adjusting to the fact he was away at school.

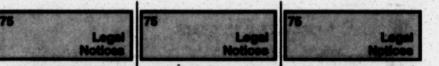

"It (soccer) reminds us of him. It was a common denominator. Hopefully, after school, we can start healing. We know he had a good and full life. He lived life to the fullest every

Tyler's friends still come by the house from time to time and the Berry's say that means a lot to them. Shelby says there were many things that drew so many to her brother.

They come by to see how we are doing," said Shelby. "His sense of humor is probably why he had so many friends.

For Shelby, there isn't one thing she would change about the time the two spent together. There will be the many things to remember, whether it was taking road trips or watching soccer games together.

"I don't regret anything because we were so close," said Shelby. "I think of all the good times that we had. I think of all the memories.

Protect your rights! "Render" your taxable property by April 15th.

A "rendition" is a report to the appraisal district that lists all the taxable property you owned or controlled on January 1st of this year. The rendition form is available at your local appraisal district office ... or you may draft a similar form.

Who must file a rendition?

You must file a rendition if you own tangible personal property that is used to produce income-such as the inventory and equipment used by a business.

Are there any advantages to you?

The advantages of filing a rendition are:

- You give your opinion of your property's value. If the appraisal district believes the value is higher, it must notify you in writing of the higher value and explain how you can protest that value to the appraisal review board.
- -You record your correct mailing address so your tax bills will go to the right address. If your bill is mailed to the wrong address, the law still holds you responsible for paying your taxes on time or paying extra charges for late payments.
- You can also file a "report of decreased value" to notify the appraisal district of significant depreciation of the value of your property in 1995. The district will look at your property before assigning a value in 1996.

What's the deadline?

The last day for filing 1996 renditions is Monday, April 15. Call your appraisal district for the last date the rendition may be postmarked, if mailing. You can get an extra 15 days if you ask for it in writing by the April 15 deadline.

Where do you file?

File renditions with your local appraisal district at:

Midland Central Appraisal District

4631 Andrews Highway Midland, Texas 79703 (915) 699-4991

For more information stop by your appraisal district and pick up

never really faced any danger. "We are used to playing twice a Brownwood also had some clutch week. Once we get past that game scores in the 34th and 35th minutes by Gabby Hildago and Lee's lead-keep the Lions within three. Diaz we will move right along."

A variety of homestead

moment he could."

Wichita Falls High team wins the area game, the sectional game with Lee will be Friday at 4 p.m. at the Midland Lee Soccer Field.

Brownwood (4-14-2) found out early that there was a better team on the field as Midland Lee forced the issue and put the Rebels on the board. After taking the ball from a Lion defender, Sergio Arrieta fired in Lee's first goal in the first minute of the game. Arrieta's straight corner shot from the top of the penalty box was his seventh goal of the season. It also set the tone for what would be coming Brownwood's way

"I had confidence from the start," said Arrieta. "Our plan was to control the ball and we controlled and capitalized. We are going to take it all, especially since we are playing on our home

land High, allowing two runs to the

two batters he faced in the fifth.

ing scorer Troy Henry, respectively. Both goals were products of the difference in talent between the two schools. That advantage was one Lee hoped to and did exploit.

"We wanted to go at them early and get as many goals as we could," said McCulloch, whose team had target practice on the Lions' net for the first 20 minutes. "We were working the ball really well. Our halfbacks and fullbacks controlled the game.

If there was one minor worry for the Rebels, that might be why they didn't score more goals. The Rebels held a 26-6 advantage but just didn't get the ball into the back of the net to make the game into a real rout.

The teams played the second half pretty evenly although Lee

Hudson, in relief of Dunlavy,

then walked in a run to give Coop-

er a 4-3 lead. The Cougars' final

run came on another walk after

singles.

was not in the goal in the first half. Of course, falling into a lull against a team that didn't win one game in a weak district can hapa worry but his team will have to

"They (The Lions) just were not as strong as we hoped," said Lee midfielder Adrian Castresana. "Their team is really aggressive and we started to play boom ball and play their game.

The win, the first post-season win, is one the Rebels will take in their return to playoff action. The Rebels have not been to the playoffs in four years and the team likes its chances, but they just wish those games would come around more often.

"We needed a game really bad because we had been waiting to play someone," said McCulloch.

McCulloch also knows the rest of the playoff schedule will have teams much more talented than Brownwood, That, however, is not

raise its level of play. We will have to step up our play," said McCulloch. "They are going to have to get focused on the next game."

The players concur.

"I'm hoping to go to state," said Castresana. "We started something, and hopefully, we'll end it on a good note.

exemptions could lower your property taxes!

A homestead exemption lowers the property taxes on your home by lowering its taxable value. If your home is valued at \$50,000 and you receive a \$5,000 homestead exemption, your home will be taxed as if it were worth \$45,000.

Who qualifies for an exemption?

Anyone who owned a home on January 1st (and used it as their primary residence on that date) is entitled to a \$5,000 homestead exemption to lower their school taxes this year ... and it doesn't matter if your home is a house, condominium or mobile home. (Counties, cities and special taxing districts may also offer homestead exemptions.)

Are other exemptions available?

If you're disabled-or if you're 65 years old or older-you are entitled to an additional \$10,000 school tax exemption on your home. And if you qualify for the over-65 exemption, you're also entitled to a permanent, locked-in "ceiling" on the school property taxes on your home. (The ceiling does not apply to county or city property taxes, and those entities may offer other exemptions.) The over-65 homeowner's exemptions and school tax ceiling transfers to the surviving spouse, if the spouse is 55 years of age or older at the time of death and lives in and owns the home.

Do I have to apply each year?

No. If you had a homestead exemption on your home in 1995, you won't need to reapply for 1996 unless your chief appraiser requires it. However, if you haven't received an exemption on your present home-or if you've moved to a new home-you'll need to file for an exemption for 1996. And if you turned 65 or became disabled during 1995, you need to file for the additional exemptions.

When and where should I file?

File applications by April 30 at your appraisal district office. If you need more time, contact us at:

> **Midland Central Appraisal District** 4631 Andrews Highway Midland, Texas 79703 (915) 699-4991

ties.

struck.

good. That's the only place today you could hit it with the way the wind was blowing and get it out. We'll take that one.

Smith was dominant on the mound, retiring Cooper in order in five of the seven innings she worked. Cooper got its only run in the fourth when Lauren Wallace doubled in Traci Perez, who had earlier singled. That was to be the only two hits allowed by Smith, who never allowed another runner

to get past first base. Lee took a 1-0 lead in the second when Jessica Garcia hit a two-out

single to score Smith. Aman broke the game open in the fourth with her two-run shot and the Lady **Rebels added two insurance runs** in the bottom of the sixth when Lee scored both runs on a rare two RBI sacrifice fly by Adrian Nobles. The sac fly easily scored Aman from third, but Garcia scored from second base on the fly with some heads up running.

Lee out-hit the Lady Coogs by an 8-2 margin. Garcia and Susanna Reed both had doubles in the ame. Garcia and Smith each had two hits in the contest.

The bottom line, however, is

that Lee is back in first place, a position where the Lady Rebels should feel comfortable. Lee won the first District 4-5A softball race last season in undefeated fashion. "This is where we need to be,"

Smith said. "We did it last year and we need to keep the tradition going.

"This feels really good," Young said. "We've been playing well for a while now. We lost that first district game, but we have come back with five in a row. The worst we can finish the first half now is with a tie.

Lee is open Tuesday when the

first half comes to a close, but will start second half play Saturday when they get a chance to redeem themselves for that loss to Midland High in a 4 p.m. game at the Bill Williams Softball Complex.

Lee also ripped Cooper, 8-1, in the junior varsity outing to climb to 9-6 for the season. Ceresa Mays went the distance to get the win and had three hits in the game.

Texas law allows farmers, ranchers and timber growers to pay property taxes based upon the "production value" of their land rather than on its market value. This "productivity appraisal" means qualified land is taxed based on its ability to produce crops, livestock or timber-not on its value on the real estate market. And it can mean substantial property tax savings.

When is the application deadline?

If your land has never had a productivity appraisal or you are a new owner, you must apply to your local appraisal district by April 30 to take advantage of this benefit on your 1996 property taxes. You may get up to 60 extra days if you have a good reason and ask for it by April 30. If you miss this deadline, you may still be able to apply, but you will pay a penalty. Check with your appraisal district office.

Do you need to reapply annually?

If your land already receives agricultural or timber productivity appraisal, you normally don't need to reapply unless the chief appraiser requires you to do so. If a new application is required, the appraisal district will notify you by mail.

Section D Midland Reporter-Telegram Sunday, March 17, 1996

With three bedrooms and three bathrooms, coupled with large living spaces, there is plenty of space for family and visitor alike. The front room, for example, opens out onto the courtyard, dining room and kitchen and is impressively proportioned with a central fireplace flanked by bookshelves as

its main focal point.

The main conduit of the property is the wide hall that follows the turns of the courtyard. Like the rest of the house's main traffic areas it is neatly tiled for convenience and is also wide enough (as are the doorways) for a wheelchair.

The kitchen also offers easy-to-

care-for floors and surfaces as well as originally an designed central island which features a double sink, power points and a breakfast bar. A dining area overlooking the courtwalk-in yard, pantry, half bath and huge utility room complete the kitchen suite.

The master suite exhibits many of the same themes that are found throughout the house: A light decor, masses of space, a skylight in the bathroom and separate facilities

for 'him and her' complete the picture.

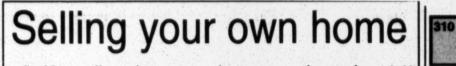

For more information about this property which is listed at \$144,000, either attend the open house which is scheduled for 1-5 p.m. this afternoon, or call the listing agent, Dennis Rambo of First Texas Real Estate at 684-3890.

self?

"Of course you could," said Kay Sutton, owner of Kay Sutton, Realtors. "Whether you should, or will want to, however, is whole different matter

Homeowners attempt-ing to sell their homes without the help of a professional generally do so to save the commission which fee. may, or may

not, pay off. Sutton Prospective buyers commonly submit lower offers know-

ing the seller does not have to pay a commission.

Before attempting to sell your home alone, ask yourself these questions:

· Do you have sufficient knowledge to sell your own home? For example, do you know about market conditions and recent sales of similar homes in the area?

· Are you prepared to pay for months of advertising and be available to field calls?

· Are you informed about Federal Housing Administration, **Department of Veterans Affairs**, PMI and other financing methods

· Do you have a network of contacts to produce potential buyers?

· Are you able to screen unqualified prospects - people who are just curious?

Are you comfortable inviting

The best time to check into zon-

ing is before you start your busi-

ness. However, even if you have

your letterhead and business

cards ready to go, or are already

operating out of your home, experts recommend that you find

Businesses in the home:

What you need to know

Could you sell your home your- in strangers who stop by at 9:00 p.m. because they saw your sign?

· Are you available to show your home seven days a week? Buyers will expect you to be available at their convenience, not yours

 Do you have good negotiating skills? Will you be comfortable haggling face to face over the price?

 Will you be ready to reveal known defects in your home, and do you know what you are required, by law, to reveal?

· Can you write a binding contract? Do you have the forms readily available? Do you have a lawyer to advise you on essential terms that must be in the contract?

Canyou close a sale?

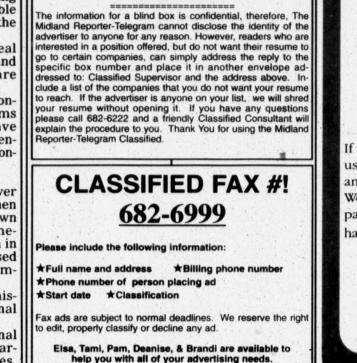

• If you can confidently answer yes to all of these questions, then you could probably sell your own home. However, most home-owners recognize the wisdom in working with a trained, licensed professional to handle the complex details of a home sale.

mistakes can be costly - mistakes a real estate professional can easily avoided.

Mrs. Sutton poses one final question for homeowners marketing their own homes, "Whether you are an accountant or a Zoologist - or anything in between - do you think it is reasonable for someone with no training or expertise to do your job?

Contact a local Realtor for all of your real estate needs.

This story was submitted by Kay Sutton, owner of Kay Sutton, Realtors.

EDUCATION

Education in Brief/4E Making the Grade/2E

Henderson Elementary School students (above) watch news-papers come off the press at the Reporter-Telegram. The newspaper section contains the ad they designed to pro-mote hand-painted pots they are selling at ivy Cottage. Henderson students (right) join Leadership Midland members Leadership Midland members in cutting the ribbon for their business in front of the "Kids in Commerce" display. Stu-dents (left to right) Sharia Crisp, Chad Harris and Ansley Watson cut the ribbon. Wendy Wilkerson (far paints a clay pot.

By Myra Lee Salcedo

Staff Writer

and a boot up into business world

Kids get/a

oing into business is a tough enough task without taking on the project with three classrooms of 65 fourth graders.

"It's enough to make you fire one of your friends," said one fourth-grade student from Henderson Elementary School, who hid, giggling, behind a friend rather than give his name. Despite discovering that people in the workplace don't get to chose their co-workers, students learned about starting a business, designing a product, and marketing wares, thanks to the encouragement and sponsorship of a local business owner and operator, Gena Linebarger.

After seeing the interest her own grade school children (a first grade student, 6, at Henderson, and a fifth grade student, 11) had in the retail business, Ms. Linebarger, the owner and operator of Ivy Cottage gift shop, said it sparked her interest to offer a way for more children to experience the workplace.

"My kids enjoy doing things in retail. They decide colors of merchandise I order," Ms. Linebarger said. "They help to unbox items and price them. I thought: 'Why not take this one step further

After clearing the idea with the Henderson school principal, Ms. Linebarger worked with Midland Independent School District's Partners in Education program to smooth over the process of the business working in partnership with the school.

and let other children have the opportunity to work with a retail business?' "

The business owner then offered store shelf space

for the students' product, a newspaper ad and per-sonal business savvy to the young entrepreneurs. But organizing the business and designing the product was the job of the fourth-graders. The students named their company Kids in Commerce "KICs" and came up with the logo of a cowboy boot (to further emphasis "kicks") and they decided to sell hand-painted clay flower pots.

"First, we gave the students tests (in a job application process) to determine what they were good at," said Henderson teacher Donna Patrick. "Some

were good at math, so we put them in the accounting department to determine the cost of the product (as well as selling and marketing the product) Some students were better painters, so they are painting the pots." Fourth-grade pupil

Please see STUDENTS/2E

MAKING THE GRADE

Tekeira Strambler of Midland and a student at Signal Peak Campus of Central Arizona College, has been named to Signal Peak's honors list, honoring her academic achievement for the Fall 1995 Semester.

Trinity School state champions in 1995 Texas Association of Private and Parochial Schools (TAPPS) academic competitions, took the first step in defending its title by claiming the winner's trophy in the academic component of the 1996 TAPPS District 1 academic, art, and music competition. The contest was conducted recently at Waylaid Baptist University in Plainview. Trinity students amassed 140 points in winning the academic title for the second consecutive year. Runner-up Notre Dame of Wichita Falls earned 86 points.

More than seven hundred representing twelve schools took part in the district contest. Individuals who finished fourth or higher in academic events are eligible to compete in the state meet in Austin on March 29 and 30.

Trinity students who finished at sixth place or higher in academic competition include Amber Baluch, fourth (advanced mathematics), sixth (persuasive speaking); Blaine Boman, first (computer), fifth (science); Matthew Dickman, second (number sense); Patrick Durham, second (advanced mathematics), second (poetry); Tarfia Faizullah, first (spelling), fifth (poetry); Michael Gensert, third (mathematics); Jessica Harvey, third (ready writing), sixth (spelling); Kelly Hoose, fifth (prose); Brent Morgan, third (history); Duncan Robertson, fifth (computer); Sharmila Singh, first (mathematics), second (science); Mark Villanueva, sixth(Spanish); Eric Watkins, first (science), second (computer): Kirk Whitehead, sixth (history); Laura Wilson, fifth (duet act-Chris Wright-Timko, ing); fifth (duet acting)

Trinity finished in third place in the art component of the team competition.

Trinity students who finished at sixth place or higher in art competition include: Matt Brown, second (computer-aided design); Kathryn Chandler, third (black and white photography); Kristi Clardy, sixth (mixed media); Will Crump, second (sculpture); Jody Duff, fourth (pottery); Joel Freeman, sixth (computer aided design); Tarfia Faizuliah, fifth (graphic design); Ron O'Neal. first (pottery); Duncan Robertson, first (graphic design); Sarah Stasney, first (black and white drawing); Amy Suckarieh, first (black and white photography); Kathy Villanueva, sixth (opaque painting); Eric Watkins, first (computer-aided design); Laura Wilson, sixth (pottery); Emily Wright-Timko, first (sculpture); Meredith Younger, second and third (pottery). Trinity finished in third place in the music component of the team competition. Individuals and ensembles who finished third or higher in music competition are eligible to compete in the TAPPS. state meet in Austin on March 29 and 30. Trinity's Double Quartet took second place in the sacred music category and second place in the pop music category. Members of the group are Sara Billingsley, Patrick Durham, Kelly Hoose, Erika Rougeaux, Michael Salgado, Daniel Scott, Erika Tannich, and T.C. Turner.

Fuller, Cassie Johnson, Sarah Koss, Brian McHenry, Kristi Nash, Estela Nunez, Cary Patteson, Austin Peeler, Jodi Phillips, Emily Row, Tavarrah Russell, Mike Sawyer, Mindi Sheppard, Bethany Spradlin and Angel Ward. The MCS academic team took fifth place overall at the meet. Coaches are Rhonda Sawyer, Jeannie Lalk, and Kirk Macon. Ten schools competed.

The top four in each event advance to state competition in Austin the last of this month. Thirty-two MCS students participated in 13 events and placed in nine.

The yearbook, advised by Sue Awtry, took first place; science, Hilary Evitt, sixth, Calculator ations, Emily Hilburn first Appli and Joanna Porter fifth; Advanced math, Hilary Evitt, fifth and Emily Row, sixth; Mathematics, Marissa Taylor, fourth and Rhiannon Patton, fifth; Prose, April Blair, second; History, Mike Sawyer, third; Poetry, Jerod Foster, sixth and Spelling, Marta Fenter, fifth.

The MCS Mustang Band placed fourth in its division, with Lucas McLane and Kristina Temple making state as soloists. Alan Nesbitt is the director of the MCS band program.

The Texas Music Educators **Region VI UIL Solo and Ensemble** contest was held recently at **Odessa College. Students from** Midland High School, Lee High School, Lee Freshman and Midland Freshman participated in MARC Centers this event. The following students received a Superior (I) rating: From Midland High School, singing a Class I Solo, Dixie Doss, Ryan Douglas, Curtis Joiner, Joseph Millsap, Richard Vasquez, and Sandy Wilson. Elizabeth Boyd received an Excellent (II) rating in this category. Ensembles in this category included Ensemble #1 - Derek Grismore, Curtis Jointer, Mark Vester, Clay Zachery; Ensemble #2 - Ryan Douglas, Joseph Millsap, Preston Willis and Zach Young; Ensemble #3 - Kris **Ridgley**, **Richard Vasquez**, Amy Williams, Sandy Wilson, Tracy Wynne. All three ensembles made a Superior (I) rating. Participants who sang in the Class II Division and received Superior (I) ratings included: Rene Brigman, Nona Davis, Sara Guenthner, Jessica Ham, Brenna Hautzenroeder, Jay Nelson, Amy Ransbottom, Chris **Ridgeley**, Leslie Simon, Cara Ward and Tracy Wynn. In this category the following students received an Excellent (II) rating: Traci Dillard and Mark Vester. The following students received a Superior (I) rating in Class III Solo Division: Josh Brown, Karen Guethner, Erica Jones, Brandi Land, Angie Von

exemplified by the individual work done by these students.

Erica Hillman of Midland, a nursing major, has been named to the Dean's List for Fall 1995 at Biola University, California.

Heather Brown, daughter of Keith and Shauna Brown and a senior at Midland High School has been named Junior

Lion of the Week Midland Downtown Lions Club.

She is active in band, National Honor Society, **Texas Scholars**, has received the **Optimis** Award for Band, All-Area Band for Brown two years and

State Solo and Ensemble for four years.

Miss Brown plans to attend **Oklahoma Baptist University and** major in elementary education.

Rebecca Buchanan, daughter of Phillip and Shari Buchanan and a senior at Lee High School has been named Junior Lion of the Week by Midland Downtown Lions Club.

She is active in Senior Girls, Texas Scholars, National Honor Society, PALS, First Baptist Church, Christmas in April, Trin-Towers,

Manor Park, and Teen Court. She has received **Outstanding Stu**dent Award, Perfect Attendance Award, Presidential Academic Fit-Award, ness **Carr** Academic

Henderson Elementary School fourth-grade "advertising team" Benny Tarango (left clockwise), Chris Wilson, Patrick Hunter and Sean Barber design a newspaper ad to promote their product in the "Kids in Commerce" program.

STUDENTS: Business helps children

(From 1E)

Megan Owens, worked painstakingly one afternoon drawing future pot designs. "I'm working on designs for a scrapbook cover for our project, and a pot design for Mother's Day," she said, noting the KIC project "is more fun than school usually is because you learn stuff without having a whole bunch of homework." Even better, Megan said the students were collaborating on how to spend company profits for school supplies or equipment. "I suggested a vending machine for the library," she said.

HENDERSON TEACHER Brandi Segovia, said students have selected two main patterns for their pots — an Easter pattern and one with a spring design. Aside from holding plants, Ms. Segovia said suggestions for the pots included using them as "pencil holders, for potpourri, and candles.'

Fourth-grade language arts Teacher Vicki Brasher said the project was invaluable for teaching youngsters that there are realworld applications for things they learn in school.

"This gives students a chance to see why they have to learn certain skills in school. You always hear: 'Why do we have to do math? Why

With fourth-grade students Tom LaBombaro, Samatha Harris, Renee Elkins and Raul Bustamante snapping their fingers to keep the beat, fellow student Daniel Skelton performed the rap, which included the lines "Ivy Cottage is the place to be, We make the best pot-ter-y.'

Well, there is our radio ad," one teacher shouted admist applause. Rather than having students vote on their favorite ad, designed by several ad teams, the teachers decided to include aspects of all of the ads into one.

Students soon flocked to the Reporter-Telegram to visit with an advertising representative, approve the final ad design, and watch the press print up the section of the paper that contained their colorful "Kids in Commerce"ad. Their final field trip was to Ivy Cottage, where civic leaders, including representatives of Leadership Midland assisted the students in a formal ribbon cutting ceremony with three students holding the Midland Chamber of Commerce's oversize scis-SOLS

The students' product was displayed on shelves in the store, and once the formal business ceremony was over, several youngsters breathed a sign of relief.

'I went through five (disposable) cameras," said student Sharla Crisp. She served as the company photographer, docu-

However, many students allowed they came into the project expecting it would be "a piece of cake."

Ms. Linebarger herself had predicted that the project "would give students a healthy respect for the retail business.

"I wanted students to see what it feels like to own their own business and do all of the work," she said. "I hope it gives them respect for property or products they see on shelves in stores. Seeing what is involved in selling products should give them respect for the product and the business owner.'

WHAT NOBODY predicted was the success of the business, leading to additional lessons on supply and demand. Students sold 20 of their 22 pots on display the first day they were offered for sale, at \$4.95 per pot, Ms. Linebarger said. "We have also taken orders for 19 more," she added.

"Every child involved in this project has benefitted," said Pat Garcia, coordinator of MISD's Partners in Education program.

"We hope more businesses step forward to participate in the program on whatever level they can. Our hats are off to Ivy Cottage for undertaking this project," Ms. Garcia said

MS. LINEBARGER said the project "went well. The kids did an excellent job. This gives them an

In addition, Durham and Hoose also finished fourth place in vocal solo competition, as did Laura Wilson in piano competition.

MIDLAND CHRISTIAN School was successful in academic and music competition in its TAPPS district meet at Wayland Baptist University in Plainview Monday

and Tuesday. The MCS high school choir placed second in the pop show/vocal choir competition. The second place finish sends the choir on to state TAPPS Contest April 12 and 13 in Seguin. Abigail Johnson is the director. Choir members are Tiffany Benson, April Brown, Seth Denson, Alisha Dunavant, April

Pagoler, Autumn Smith, and Julie Tervwren.

Lee High School students who sang Class I Solos and received a Superior (I) rating include: Matthew Parker, Kelly Singletary, Starla Hyatt, Jeff Larson, Dawn Haines, Jana Smith, Kimberly Gould, Rick Kempel, Kim Holleman, Jeremy McPeak, Jason Gray, Shelby Wilson, Forest Elliott, Thomas Tucker, Nichole King, Stephanie Winn, Erin Stanton, Caitlin Pause, Laran Snyder and Tracy Green. The Abell Medium Ensemble also made a Superior in this category. Erin Stanton received a Superior for a Class I Piano Solo. Veronica Robertson, Jeremy Gengler and Tonya Eustace received an Excellent (II) rating for their Class I Solos. In Class II, the following students received a Superior (I) rating: Trey Atwater, Mary Hooper, Rachel Conn, Susan Brumley, Shannon Lauzon, Tyler Bushman, Ryan Smith, Shay Hammontree, Harmony Hargrove and Angie Aldrin. In Class II, an Excellent (II) rating was received by Amy Aduddell, Rebekkah Kniffen, and Karen Moore. The following Lee Freshman students received a Superior (I) rating for Class III Solos: Stephanie Biernbaum, Ryan Livingston, Lauren Weaver. The Atwater Medium Ensemble from Lee Freshman received an Excellent (II) rating for their **Class I Ensemble. The Midland** Independent School District has an

Society. He is a National Merit Scholarship semifinalist, academic letterman and received Most Outstanding Student in Honors English Award.

Lea plans to attend a four-year university and major in English to pursue a career in writing or the legal profession.

Rebecca Harper, daughter of Eleanor and Steve Harper and a student at Midland High School has been named Student Guest of the Week by Mid-

land Rotary Club. She is active in varsity girls Student golf, Council, National Honor Society, First Bap-S Church/youth group, Drug Free Youth In

Texas, Habitat for Humanity,

Midland Symphony and Texas Scholars. She has received National History and Government Award, National English Merit Award, is a three-year academic letterman, honor graduate and has been named to Who's Who Among American High School Students.

Harper

Miss Harper plans to attend Texas A&M University.

Group attacks anti-discrimination plan

excellent Choral Department as

Alice Dembner

NY Times Service

An organization of professors formed to defend Western traditions renewed its attack Tuesday on affirmative action policies at the University of Massachusetts' Amherst campus, arguing Tuesday that the policies discriminate against white males and hurt minority students who are brought in without proper qualifications.

The Massachusetts Association of Scholars, in a 54-page follow-up to a 1994 report, called on UMass to abandon its goal of expanding minority enrollment to 20 percent of the freshman class. It also urged an end to a 10-year-old program that encourages hiring of women and minorities. And it questioned whether UMass is recruiting out-of-state minority students to the exclusion of Massachusetts residents.

"We are interested in improving education within the state," said the report's author, Gary C. Brae of the ways to do that

would be to get rid of this admissions quota and minority set-aside program at the state's flagship university and treat people as individuals.

UMass-Amherst chancellor David K. Scott challenged Brasor's "narrow focus on race" and defended the campus' practices as important to serving the state's diverse population. He said a goal, not a quota, of 20 percent minority freshmen was set in 1992, based on the philosophy that "the class should reflect the diversity of seniors graduating from the high schools.

Last fall, minorities made up 17 percent of UMass freshmen, roughly equivalent to the percentage graduating from Massachusetts high schools. Scott said the campus was satisfied with that record, but would continue recruit-ment efforts. He denied Brasor's suggestions that the university is seeking minority students from other states to fill a "quota."

The association's latest report

follows a November 1994 position paper that alleged UMass' policies were worsening racial tension on campus. The report argues that "the admissions process ... is being perverted" and notes that the average combined SAT scores of entering minority students are about 100 points lower than those of white students and that minority students drop out at a higher rate.

However, the report fails to note that both statistics hold true for minorities at predominantly white colleges and universities across the nation. Black students' average scores on SATs nationally are about 160 points below the overall average. And only about one-third of blacks in colleges nationwide earn bachelor's degrees within six years, while about 56 percent of white students do.

Scott said the university admissions process focuses on many factors in addition to SAT scores in particular, on students' ability to succeed.

do we have to color in the lines?" she said. Now, students have learned that accountants inept in math can sink a business, and messily painted pots aren't likely to sell. "Every student will have been exposed to the different aspects of the entire process of operating a business," Ms. Patrick said. "By the time we have the ribbon cutting, they will have seen the whole process."

Students worked in teams to draw up ads. One enterprising group wrote a rap song to go along with their newspaper advertisement. They "pitched" their ad to the entire "company" one afternoon.

MIDLAND COLLEGE NEWS

Page 3E

BRIEFLY Election filing deadline

Election filing deadline set

March 20 is the deadline for filing for the Midland College Board

of Trustees election May 4, 1996. Positions seven, eight and nine are open. Applications will be available March 18-20 in room 139 in the MC Administration Building.

Filing forms should be returned to Doris Muehlbrad, room 139, in the Administration Building by 5 p.m. March 20.

The drawing for Placement of the Ballot will be 10 a.m., March 21 in the Gibson Board Room in the Administration Building.

Board meeting scheduled

The Midland College Board of Trustees will meet in regular session 4 p.m., Tuesday, March 19 in the Gibson Board Room in the Administration Building.

Flex-entry reading class

Students who want to improve their understanding of textbooks, read faster and earn three hours of credit in seven weeks can sign up for a special flex-entry class, **Reading 0393.** The class will be March 18-May 3.

The goal of the class is to learn to read more efficiently and is aimed at those who want to improve TASP scores, improve their vocabulary, or those who just need help keeping up with class reading assignments.

For more information about the class and how to register, call 685-4867.

Nonprofit Center offers class

The Nonprofit Center at Midland College will offer "Commitment to Community: Building Better Boards." The class will be 7-9:30 p.m., Thursday, March 21. Course fee is \$29.

Also offered will be "Concepts of Creative Planning," 7-9:30 p.m., Thursday, March 28. Course fee is \$29. For information about these classes, call 685-6479.

Faculty takes time to assess skills, strengths

Sylvia Brown (above) adjusts the hat of Associate Vice President of Instruction Deana Lusk as they prepare for the Midland College Vocational-Technical faculty's all-day, off-campus retreat. This is the third year for the retreat, which Lusk calls "a fun day with a serious purpose." Topics for the workshop included building communication skills and workplace relationships. Presenters were Psychologists Dr. Katherine Wortz and Dr. Jim May; also presenting were Gavin Frantz, staff development officer for Texas Instruments and Molly Poehlein, trainer and wellness professional for Texas Instruments. (Right) Lydia McCauley, computer Instructor, and Stan Middleton, respiratory therapy instructor, participate in some stress reduction exercises.

Continuing Education

Classes provide insight into writing for children, problems of aging

Writing for Children

From learning to write for children, to learning the latest computer software, to learning about the myths and realities of aging, the Midland College Continuing Education Department has a number of interesting and informative course com-

Myths and Realities of Aging

Anyone involved in caring for the elderly should note a workshop, Myths and Realities of Aging, offered through the Health Sciences Continuing Education Department and set for Thursday, March 28.

Computer Classes

A number of computer courses also begin this week for anyone interested in upgrading or learning new computer skills.

Courses include MS Excel, MS orks, Quicken, Wordperfect 6.0, MS

MC site of hearing on workforce development

Midland College will be the site of a public hearing on "The State Plan for Vocational and Applied Technology Education: Strengthening the Plan for the Future."

The hearing is sponsored by the Texas Council on Workforce and Economic Competitiveness (TCWEC). The 21member TCWEC committee has representatives from across the state including Midland College President David Daniel.

The committee is charged with making recommendations to the State Board of Education and making reports to the governor, the business community, and the general public on the following:

-the state plan for workforce development

-the adequacy or inadequacy of state action in implementing the plan

-policies the state should pursue to strengthen vocational education programs.

"The significance of the hearings is that we are changing the way Texas deals with workforce development," Deena Lusk, associate vice-president of instruction, said.

"Texas is consolidating and coordinating training, education and service programs under a local workforce development board approach and converting to the use of block grants on a regional level, so it is important that local educators understand the issues," she said.

To help committee members make recommendations, a series of public hearings have been scheduled across the state.

The public hearing at Midland College will be 1:30-4:30 p.m., Monday, March 18 in the Roadrunner Room of the Scharbauer Student Center.

Everyone, particularly those involved with secondary career and technology

education, is invited to attend the hearing. Topics will include the Perkins State Plan. Integration of Academic and

Plan, Integration of Academic and Vocational and Applied Technology

McCormick exhibit continues

The MC McCormick Gallery features the work of San Angelo artist Peggy Dooley. The show, Now & Then—A Sampling from 1968-1995, will be exhibited through March 20.

San Antonio artist Danville Chadbourne's work, Recent Work In Painting & Sculpture, will be on exhibit March 25-April 18. A reception for the artist will be noon-1:30 p.m., Monday, March 25.

McCormick Gallery hours are 8 a.m.-10 p.m., Monday-Thursday, 8 a.m.-5 p.m., Friday, 9 a.m.-5 p.m. Saturday and 1-5 p.m. Sunday.

This page is produced by Midland College

ing up in the next few weeks. San Angelo writer Nancy Robinson Masters will be back in Midland to teach a writing workshop "Writing for Chil-

dren." The one-day session, Saturday, March 23, (not March 30 as listed in last week's page) gives writers the skills and methods required to get their children's stories and other children's material published.

Masters has sold more than 3,000 articles and stories and says the children's writing field is the best opportunity for new writers to explore.

Come prepared to write. Free critiques will be given along with the latest marketing opportunities. The class is 9 a.m.-3:30 p.m., and the course fee is \$25. The seminar is sponsored by Midland College and Adult and Protective Services' Advisory Board and is sponsored by a grant from Westwood Medical Center.

Keynote speaker is Dr. C. Bruce Davis, gerontologist in residence and director of the Pruett Gerontology Center at Abilene Christian University. He will speak on "Elderly at Risk," Suicide and Depression in Older Adults and "Myths of Aging."

"Anticipatory Socialization & Adaptations for Aging," will be addressed by Robyn Ott, owner of Parkway Counseling & Consultation. She specializes in women's issues and gerontology and teaches Gerontology and Case Management certification courses at Midland College.

Course fee is \$35 and includes refreshments, lunch from Murray and the Frenchman and CEU credits. Pre-registration is required by March 25. Excel II, MS Word, Computer and You for Grandparents and Windows 95. Course fees for all classes are \$74.

The courses are offered Mondays and Wednesday, March 20-April 24 or Tuesdays and Thursday, March 21-April 25.

Bridge II class begins

"Bridge II" will be 7-9 p.m., Tuesdays, April 2-May 21. Course fee is \$54.

For information about Defensive Driving courses, call 685-4518 or 560-2400, ext. 2806.

For information about Continuing Education courses, call 685-4518.

Education, Programs that Meet the Demands of the Workplace and Labor Market, School-to-Work Transition, Funding Priorities and At-Risk Youth Programs.

...

For students who want to travel and earn Government credit at the same time, Midland College is offering a trip to Washington, D.C. during the Spring Interim, May 13-30. The cost of the trip is \$655 in addition to normal tuition and fees for the class. The courses are open to any college student. The deadline for registration is March 29.

The trip will cover course requirements for Government 2302 or 2304. For more information, call 685-4739 or 685-4640.

Elise Coombes is public relations director for Midland College.

MIDLAND REPORTER-TELEGRAM, FRIDAY, MARCH 17.

EDUCATION IN BRIEF

MIDLAND HISPANIC Chamber of Commerce Educational **Development** Foundation is accepting scholarship applications for the summer of and fall of 1996, and the 1997 spring semesters. Scholarships are open to individuals residing in Midland County and who are seeking to advance their educational skills.

Applications may be obtained at area high schools, including Greenwood High School, Midland **College and the Midland Hispanic** Chamber of Commerce. Application deadline is March 31. For more information call 682-2960.

MISD BANDS will present their 28th annual Chili Supper and Music Festival 11 a.m.-5: 30 p.m. Saturday in the Lee High School cafeteria and auditorium, 3500 Neely. Cost of the meal - chili, dessert and drink - is \$5 with carryout available. Tickets may be purchased in advance from any band or orchestra student in the junior high, freshman or high school programs. Tickets will also

be available at the door. Entertainment will be offered at the event. Performances will begin at 11 a.m. Proceeds from the event will benefit instrumental programs in Midland public

...

schools.

L.A.C.E., Ladies Auxiliary for Christian Education, parent-teacher organization of Midland Christian School will meet at 7:30 p.m. Monday in the library. Tim and Susan McKinney will

talk on "Beauty Inside and Out."

ALBUQUERQUE - AS part of its Apples for the Students program, Furr's Supermarkets, Inc. introduced the Apple Learning Tree Award - a contest that awards the school with the highest per capita dollar amount in collected receipts a \$10,000 learning center, tailored to the school's specifications. Only receipts dated between September 13, 1995 and March 25 will be accepted towards the Apple Learning Tree Award. "The participating schools have

been working hard throughout the year in an effort to win the Apple Learning Tree Award," said Buz Doyle, Furr's president and chief operating officer. "With only a matter of days remaining, we encourage each community to take advantage of this opportunity. By working together to collect Furr's receipts, communities invest in their children's education.'

Currently in the lead for the Apple Learning Tree Award is Pathway Primary School in N.M., with an average Tijeras, receipt-collection-total-per-student of \$2,216.96

Now in its sixth year, the program has awarded more than \$1.6 million in computers, printers, software and other educational tools to hundreds of schools in New Mexico and West Texas. Throughout the school year, students, parents, teachers, and community volunteers are encouraged to collect cash register receipts from Furr's stores in their communities. These receipts are then turned into

the respective school's Apples coordinator so they can be tallied and exchanged for educational equipment.

More than 600 schools throughout New Mexico and West Texas are participating in this year's program. Receipts must be turned into Becky Kenny, Furr's Apples coordinator, by April 12. For more information call (800)-658-2720.

CAREER CENTER, Ector County ISD, 300 E. 29th St. will host "Inviting School Success" by William W. Purkey of the University of North Carolina at Greensboro. Greensboro will be the keynote speaker for the Third Annual Region 18 Middle School Conference. The meeting will be hosted jointly by Region 18 Texas Mentor Middle Schools, Crockett Junior High School of Ector ISD and Abell Jr. High of Midland ISD, Region 18 Education Service Center and Region 18 Middle School Association.

The program is targeted to teacher of the 5th through 10th

grades Registration is from 8:00-8:30 a.m. and the workshop is sched-

uled from 8: 30-3: 00 p.m. Registration fee is \$10 (by Monday) and includes lunch. On-site registration is \$12.

THE TECH PREP TEXAS 1996 state conference is scheduled for March 27 -29 at the Austin Convention Center. This year's conference theme, Outside-the Box Solutions, refers to the challenge of designing technical preparation for high-tech, high-skill, high-wage occupation.

Keynote presenters at the threeday event include State Comptroller John Sharp; the Honorable Irma Rangel, chair of the Texas House of Representatives' Committee on Higher Education; and David Cole, president of South-western Bell Telephone Company's Texas Division.

Pre-conference workshops begin at 9 a.m., Wednesday. The opening general session begins at 6 p.m. the same day with Representative

EDUCATION POLICY

The Midland Reporter-Telegram publishes information on upcoming school-related events in the Education in Brief section and announces high school and college academic achievements in the Making the Grade section.

All articles are edited to Associated Press style and deadline for any articles is Monday at noon to be published in the following Sunday education section. Items will be published on a first-come-first-serve basis as space allows.

The Making the Grade section honors local students and former area students attending universities. Head-and-shoulder photographs may be submitted with articles for Making the Grade honorees.

Band and cheerleader competition results are published as they are received. Photos are published of All-State students and cheerleaders winning sweepstakes trophies, or state or national awards.

High school end-of-year award night honorees, junior high school honor roll lists, High School National Honor Society inductees, and Duke Talent Identification honorees are provided to the newspaper from local schools. Duke Talent honorees and Who's Who Among American High School students are published twice a year as a group, and are not published individually.

MISD Announces junior high honor rolls

MISD has announced the junior Hardin, Autumn Hicks, high honor roll for the

fourth six weeks. Following are the names of schools and students:

with A Wee Bit O' Gree

Have You Heard?/2F Weddings/5F Engagements/6F

By Linda Anderson Staff Writer

Today is St. Patrick's Day, the day when "everybody is Irish!", according to an old saying. And since Ireland is known as the Emerald Isle — and St. Patrick's symbol is the shamrock — everything is coming up green today in the Irish saints honor. (Wonder what St. Paddy would say to the drinking of green beer, also in his honor, as a favorite American St. Patrick's Day tradition?)

Information from a St. Patrick's day website, A Wee Big O' Fun (http://www.nando.net/toys/ stpaddy/stpaddy.html); says that the day is celebrated in honor of St. Patrick (born in 373 A.D. or so), who'is credited as being "the missionary who converted the Irish to Christianity." Actually, the information goes on, St. Paddy is said to have been born Maewyn Succat in either Scotland (in the town of Dumbarton or thereabouts) or Roman Britain, and took the name Patrick, or Patricus, when he was ordained a priest. with a green style all your own.

How about listening to the music of Green Day? Or, if that's not to your liking, there's always Barbra Streisand singing "Evergreen."

YOU COULD PUT your green thumb to work by planting a garden, or spend some greenbacks buying flowers from a greenhouse.

Visit — via books, video or the Internet — such far-away places as Bowling Green, Ky., Green Acres, Fla., or even Greenland — or maybe cruise the deep green ocean with Greenpeace. Or, you could visit San Antonio where the river at the famed River Walk is dyed green in honor of the day.

Dine on a banquet of fried green tomatoes, green enchiladas, green beans or salad (made, of course, with greens) and wash it down with green tea.

Read Dr. Suess' "Green Eggs and Ham" to your children — or to yourself — just for fun. Or watch the Rev. Jesse Jackson reading that classic on an old episode of Saturday Night Live.

After an adventurous life — kidnapped by pirates at age 16, sold into slavery for six years, worked as a shepherd, escaped to France, became a priest and then a bishop — Patrick arrived, at about age 60, in Ireland where he set about converting the natives. Using the shamrock to explain the Father, Son and Holy Spirit helped him accomplish this task.

He also is credited with driving all the snakes out of Ireland, which, the information said, might have been a legend demonstrating that "the snake was a revered pagan symbol, and perhaps this was a figurative tale alluding to the fact that he drove paganism out of Ireland."

MAYBE IT'S BECAUSE St. Patrick's Day comes in March, when winter has been a long time leaving and everyone is hungry to see a little bit of green — even if it's just in decorations — but no other holiday is quite as linked to a single color as St. Patrick's Day.

Green is definitely the color for the day.

But let's be realistic here — not everyone looks good in green. What if green isn't your color and you still want to celebrate with St. Patrick and all the Irish?

You can still be festive

Other books to read on St. Patrick's Day include "How Green Was My Valley," "Green Dolphin Street" and "Anne of Green Gables."

WATCH SCIENCE fiction movies that star "little green men." (Note to Trekkers: Spock wasn't little, nor was he especially green. But then, he wasn't from Ireland.) Or maybe check out "Soylent Green," a truly strange movie with a wonderful cast — no green actors here.

Reruns of the 1966-67 television series "Green Hornet" may be playing this weekend — check listings for the FX channel. The show started Van Williams in the title role, and the late great Bruce Lee as his sidekick, Kato. Or "Darling," you could sing the theme song for the television series "Green Acres."

People in Wisconsin can cheer their favorite team, the Green Bay Packers, even if it isn't football season.

In the words of that great American philosopher, Kermit the Frog: "It's not easy, being green." But with a little imagination you can celebrate a green St. Patrick's Day with style.

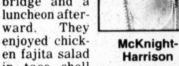

Besides, you can always wear a sharrock on your lapel.

HAVE YOU HEARD? **MWC** sponsors Super Play Day as a fund-raising event

By Marilyn McKnight Harrison

The Midland Woman's Club continued this year's series of Festive Fund-raisers last Monday at the clubhouse in

Hogan Park. Super Play Day was by attended approximately 60 women, who gathered in the morning for bridge and a luncheon afterward. They

in taco shell bowls, tostados and salsa, and for dessert, lime parfait, cookies and pralines.

Edna (Mrs. Russell) Sexton used leprechaun figures and green balloons on the tables to create a festive atmosphere.

Among the winners of door prizes provided by Curry's, Expressions and Ivy Cottage were Dean (Mrs. O.G.) Lanier, Sue (Mrs. John) Norris, Nelda (Mrs. Charlie) Timberlake and Mary (Mrs. James G.) Chauncey.

An added attraction at the event was the current art exhibit, which features spring flowers. It will be on display through the rest of March.

IN A PRE-OBSERVANCE of St. Patrick's Day, Knights of Columbus Council No. 3071 held a recent dance at the American Legion Hall.

Members and guests enjoyed an Irish dinner, featuring corned beef and cabbage and cakes decorated with shamrocks. Music for dancing was provided by a DJ from Stella Productions:

Among the party-goers were the event's chairman Chris Willis and his wife, Ann; co-chairman Jim Bucci and his wife, Monica: John

and Terri Coignet, Vic and Joanna Munding, Keith and Margie Barlow, Joe and Doris Belden, and **David and Sharon Harris.**

A RECENT BREAKFAST at the Golden Corral Restaurant reunited a group of Midland National Bank Exes and set the stage for more meetings to follow.

Forty-two persons attended and answered roll call with news of others who live in Midland, and tribute was paid to those who are deceased

Twelve callers worked with Bess Baker (the Baker's Dozen) to notify former employees of the meeting. She urges all exes of MNB, now Norwest Bank, to call and get on the register for the next breakfast in September.

TWO MIDLANDERS WERE inducted Friday into local Greek social organizations at Austin College at Sherman.

They are Joseph Jordan, son of Linda and Michael Jordan, who is a member of Drake, and Jordan Mendez, son of Connie and Dr. J.E. Mendez, who has affiliated with Chi Delta Eta.

BELATED CONGRATULA-TIONS to Karen Nash, who was crowned Lubbock Christian University's Homecoming Queen Feb.

A junior elementary education major, Karen is the daughter of Midlanders Carol and Colquitt Nash. Last year, she served as the Homecoming attendant from the sophomore class.

Karen has been active on the LCU campus as a member of Kappa Phi Kappa women's social club, Meistersinger Chorus and Student Senate. In addition, she has been named to the Dean's List.

hole and plop in a plant. You'd as soon plan your funeral

as map out your garden plot. You avoid the fancy plants at the nursery in favor of cheaper native species that grow like weeds.

You'd rather not mow the lawn more than once a year, if that often

And you have better things to do with your weekend than apply fertilizer.

You may just be a "white trash" gardener.

And the envy of busy people everywhere who may not know how you do it.

Until now white trash gardening has been passed on in the family by word of mouth and has been a mystery to outsiders.

But now Rufus Thibeaudeux Firefly is telling city slickers and Yankees alike the secrets of "white trash gardening." He's come out with a book titled exactly that.

It's a 40-50-10 mixture of kneeslapping comedy, down-to-earth gardening advice and hilarious Southern philosophy

"White Trash Gardening" (Taylor Publishing, \$14.95) is the brainchild of Austin comic book publisher Mike Benton, an Arkansas native who claims fourth-cousin kinship to everyone in that state.

It is a real how-to book written in the voice of fictional Rufus T. Firefly, a middle-age redneck who grew up in a family of 11 sharing one outdoor toilet and three quilted beds.

He reckons that no gardening chore oughtta take any longer to finish than a six-pack.

That's a six pack of Dr Pepper for those Waco folk," Benton hastens to explain.

In the book's pages, Firefly promises the hardest work you'll ever do as a white trash gardener, except for digging, is "explaining to your neighbors why your yard looks like hell."

"Between all the jokes there are some good things - like really solid growing information," explains Max Legan, publicist for Taylor Publishing Co. which has just released the book.

While the roots - pardon the pun - of white trash gardening go back generations, the appeal is very contemporary.

After all, Benton said, who has time these days to mess with a lawn all weekend long? His methods are more relaxed and laid back

"The main thing with white trash gardening is that if there's work involved how can I get out of e work," the author says

Ditto, spending money. Growing rass is about equal to spreading ollar bills over your front yard, ays Benton. The care and feeding

cover is a junked '64 Chevy Impala in the front yard.

Besides splitting your sides laughing with this book, you're liable to actually learn a few things

White trash gardening is a rural Southern tradition dating back to before the Civil War, Benton said

People living in tarpaper shacks, just getting by, found out the tricks of growing food and herbs. They ended up having lush flowers and gardens on their land along with the weeds.

They had no time, no money and no ambition to make a fancy garden, so it never got written up in books," Benton explained.

Explaining these methods is Firefly, who patiently explains gardening to people like his aunt who once wanted to know if a plant was annual, perennial or bisexual.

His advice on growing shrubs? Get 'em tall enough, they'll hide the peeling paint on your clapboard house or the rust on your trailer.

He also believes cheap is chic. He swears he hasn't spent \$10 on his garden since he started it.

If you don't want to dig up the vard yourself. Firefly has several devious suggestions. Such as convincing the neighborhood kids that your backyard is an Indian burial ground. Say you'll let them have all the arrowheads they can dig up, he advises.

If you want to make the job easier on yourself, he has some forreal advice using black plastic and clear plastic. In fall or late spring, kill the grass in your future garden site by laying black plastic garbage bags or black plastic drop cloths on the ground and weighting them down with rocks. In three or four weeks, this smothers the weeds. Then take off the black cover, wet the ground and cover with clear plastic. Seal tightly with boards to keep the air out. This lets the sun through and sterilizes the soil. Let it set for six weeks before starting to garden. Firefly promises this method will kill off plant viruses, fungi, insect eggs, grub worms and nematodes while attracting good bacteria and earthworms once the plastic is removed.

Need mulch? If you don't want to soak yesterday's newspaper in his special mash recipe, try used aluminum foil. Simply take strips of foil, punch holes in it and let the plants grow through the foil.

Such garden advice works. For pretty much everyone.

'You don't have to be "white of course, to garden white trash.' trash style, any more than you have to be Irish to drink Irish whiskey or Indian to wear moc-casins," Benton said. "Anybody can do it."

Or give foods a not-so-traditional twist with a wee bit of green from mild jalapeno sauce. And try

a potato pizza. Growing up in big cities exposed **Beverly Handley to Irish traditions** - the parades, singing, rip-roaring good times and lots of green beer. Handley chose her favorite food, corned beef and cabbage, for birthday dinners. It's still her choice.

A St. Patrick's Day bow tie contest, entered by her engineering student brother, gave Handley the first childhood memory of the holiday. She made his tie from green tissue paper, flowers, shamrocks and glitter. He won.

The Irish connection for Drucilla McCormick of Harlingen, who bakes Irish soda bread, came through her cousins. They married Irish Catholics.

As an elementary school principal in Rock Island, Ill., she put a rock, green paper shamrock and sign outside her office on St. Patrick's Day.

Students read: You cannot come in the office unless you kiss the Blarney Stone. First reactions were giggles. "All the kids loved it,"

McCormick said.

When Mary Wade's mother, a native of Ireland, brought out warm Irish soda bread, she brought out the butter. Margarine would ruin it, she said.

Wade and her husband, Mercedes residents, have been to County Cork, Ireland, several times to visit relatives.

One evening at a dinner-andshow cabaret, the master of ceremonies announced visitors from other countries and mentioned the ades from Brownsville, Texas.

Across the 'oom sat a Connecticut priest formerly of Brownsville. It was meant to be, he said, on learning it was their third attempt, and his, to find a cabaret without reservations.

'Irish people are very social peo-Wade said.

Betty Murray and her Irish husband, the late Menton J. Murray, always wore green on St. Pat rick's Day. One year, they ordered green sweaters with shamrocks from Ireland for the holiday. The day turned out hot, but they wore their Irish sweaters anyway.

St. Patrick's Day falls during Lent, and Murray remembers the late 1930s when the Knights of **Columbus Council in Harlingen** gave dispensation to celebrate. At the dances, everything was green, including the punch.

We had green teeth for a few days," Mu ray said. and pseudo Irish Irish w brogues a used couples at the dances. "We celebrated more in those days." cup minced green onions

Preheat over to 425 degrees. In large bowl combine flour, baking powder and salt. With pastry blender or two knives, cut in butter to resemble coarse crumbs. In medium bowl beat eggs, milk and jalapeno sauce. Add the milk mixture to the dry ingredients to combine. Stir in green onions.

Lightly butter a baking sheet. On lightly floured surface with lightly floured hands, pat dough to'zinch thickness. With 3-inch shamrock or round cookie cutter, cut dough. Reuse scraps. Place scones on prepared cookie sheet. Bake 12 minutes or until golden. Remove from cookie sheet. Serve warm or cool completely to serve later. Makes 12 scones

- From Tabasco

LEEK AND POTATO SOUP cup butter or margarine 2 large leeks, chopped 4 all-purpose potatoes, peeled and diced

cups chicken broth tablespoon jalapeno sauce teaspoon salt

Sour cream or yogurt **Snipped chives for garnish**

In 3-quart saucepan over medium heat, melt butter or margarine; add leeks. Cook for about 5 minutes until tender-crisp. Add potatoes; cook 5 minutes longer, stirring constantly. Add chicken broth, jalapeno sauce and salt; over high heat, heat to boiling. Reduce heat to low; cover and simmer for 15 minutes or until potatoes are tender.

In food processor or blender, puree soup in batches. To serve, garnish each serving with a dollop of sour cream or yogurt and top with chives. Makes 6 servings.

- From Tabasco

FRESH SALAD TRIO 1 head dark green lettuce 1 head radicchio (red lettuce) cup sugar snap peas 3 tablespoons mayonnaise teaspoon honey 1 teaspoon sesame seeds Salt and pepper to taste

Wash, dry and hand tear both heads of lettuce. Rinse and pat dry sugar snap peas. In a large bowl, toss together trio and set aside. In a small bowl, combine other ingredients. Pour dressing over trio; toss. Serves 6

- From Melissa's

PEPPER-APRICOT GLAZED CORNED BEEF

2% to 3% pound corned beef brisket Water Glaze: cup apricot preserves tablespoon red wine vinegar clove garlic, minced teaspoon coarse-grind black pep-

Place corned beef brisket in

3-4 inches from heat. Broil 2-3 minutes or until brisket is glazed. Carve brisket diagonally across the grain into thin slices. Serves 6. From Fleischmann's RapidRise Yeast, National Cattlemen's Beef Association, Wisconsin Potato & Vegetable Growers Association

IRISH WHEATEN BREAD This yeast-raised version of the traditional Irish brown soda bread does not require kneading. l cup all-purpose flour 2 tablespoons sugar package RapidRise yeast teaspoon salt teaspoon baking soda cup buttermilk

+ cup water

3 tablespoons butter or margarine 2 to 2'2 cups whole wheat flour

In large bowl, combine all-purpose flour, sugar, undissolved yeast, salt and baking soda. Heat buttermilk, water and butter until very warm (120-130 degrees); mixture will curdle. Stir liquids into dry ingredients.

Stir in enough whole wheat flour to make stiff dough. Remove dough to floured surface; form into smooth 5-inch ball, adding additional whole wheat flour if needed. Place in greased 9-inch pie pan. Cover: let rise in warm, draft-free place until doubled in size, about 30 to 60 minutes

With sharp knife, make 1/2-inch deep cross on top of dough. Bake at 375 degrees. for 35-40 minutes or until done. Remove from pan and cool on wire rack. Makes 1 loaf.

- From Fleischmann's RapidRise Yeast, National Cattlemen's Beet Association, Wisconsin Potato & Vegetable Growers Association

COLCANNON-STYLE POTATOES

3 tablespoons butter 1^{1/2} cups chopped onions 1 cup shredded cabbage 1 cup shredded carrots 2 pounds russet, white or red pota toes, peeled, cut into 2-inch chunks 3 large cloves garlic, minced 1% teaspoons salt, divided cup milk, warmed teaspoon pepper

In large nonstick skillet, heat butter over medium heat until hot. Add onions, cabbage and carrots; cook 20-25 minutes or until onion is very soft and lightly browned, stirring occasionally. Meanwhile in large saucepan,

combine potatoes, garlic and teaspoon salt; cover with water. Bring to a boil; reduce until potatoes are tender; drain.

Mash potatoes until almost smooth, using potato masher or electric mixer. Add milk, pepper and remaining teaspoon salt; stir in vegetables. Serves 6.

From Fleischmann's RapidRise Yeast. National Cattlemen's Beef

the center of each potato. In a large skillet, melt the butter over moderate heat. Add the club soda, salt and pepper. Add the baby red potatoes in a single layer. Reduce the heat to low, cover tightly and cook until the potatoes are tender. about 20 minutes.

If any liquid remains in the pan, increase the heat to high and cook uncovered for 1-2 minutes, shaking the pan, until only a coating of butter remains. Toss the potatoes to coat and serve hot. Serves 6. - From Melissa's.

ST. PAT'S POTATO PIZZA

2 medium onions, thinly sliced 2 tablespoons vegetable oil, divid-

ed 1 teaspoon dried thyme (leaves) 2 medium red potatoes, sliced's -

inch thick

Ground pepper

3 to 3'2 cups all-purpose flour 1 package RapidRise yeast

teaspoon salt 1 cup very warm water (120-130 degrees)

1'2 to 2 cups (6-8 ounces) shredded Swiss cheese

4 ounces corned beef, sliced '-inch thick and cut into strips

2 tablespoons grated Parmesan cheese

In large skillet, cook onions in 1 tablespoon oil over medium heat, stirring occasionally, until soft. Reduce heat to low. Sprinkle thyme over onions and layer with potatoes. Cover and cook until potatoes are tender, about 10 minutes. Remove from heat. Season with pepper, if desired; reserve.

In large bowl, combine 2 cups flour, undissolved yeast and salt. Stir water and remaining 1 tablespoon oil into dry ingredients. Stir in enough remaining flour to make soft dough. Knead on lightly floured surface until smooth and elastic, about 4-6 minutes. Cover; let rest on floured surface 10 minutes.

Punch dough down. Form dough into smooth ball. Roll or pat dough to 15-inch round. Place on greased 14-inch pizza pan or baking sheet. Turn up edge and pinch to form -inch rim. Layer half of Swiss cheese and reserved potato mixture on dough. Bake at 400 degrees for 15 minutes on lowest oven rack.

Top with corned beef, remaining half of Swiss cheese, and Parmesan cheese. Return to oven and bake for 5-10 minutes, until cheese melts. Makes 1 pizza.

- From Fleischmann's RapidRise Yeast, National Cattlemen's Beef Association, Wisconsin Potato & Vegetable Growers Association

AROUND town

Midland High School will host the 68th annual CATOICO Coronation 7 p.m. March 23 in the school's auditorium. A dance at Midland Center will follow at 10 p.m. The public is invited to attend the coronation and talent entertainment provided by 11 acts. This year's coronation marks

the first year men have been voted by the student body as a part of the court.

For more information, contact Susan Webb, MISD communications specialist, at 689-1008...

...MIDLAND NEED to Read is an adult literacy organization designed to provide one-to-one tutoring for adults with low level reading skills. A daytime training session for volunteers will be 9 a.m.-3:30 p.m. March 28 at Mid-land College. For more information about becoming a volunteer, call 685-4572...

...HOSPICE OF Midland will have a volunteer training course each Tuesday and Thursday morning and evening in April. Morning classes will be 9 a.m.-noon. Evening classes are from 7-9 p.m., which repeat the morning sessions. Training is at Hospice House, 911 West Texas. Parking is available in the lot east of Hospice House

There is no obligation to become a Hospice volunteer and there is no charge for the course.

For more information, or to register, call 682-2855...

SEEDS FOR THOUGHT Landscape can be soothing retreat - with planning ule for help with your landscape plan and the extremely

By Deborah Benge Frost

Is it time to add on? Is your house getting a little crowded? Are your kids growing making your seem as if it is shrinking

Well, if adding on isn't in your immediate future, you can still expand your liv-ing space without building.

How?

Extend your living spaces to the outdoors. You can create wonderful "living" spaces in your landscape through proper lanning, plant selection and planting. Sound simple?

It is, especially if you take advantage of the Home Landscape School series offered 7 p.m. March 18, 19, 25, & 26, at

Benge Frost the Confederate Air Force Museum. This

is one of the very best educational programs offered by the Texas Agricultural Extension Service. It has become increasingly popular. In fact, people are on waiting lists in many parts of Texas due to increased demand.

The program is popular for several reasons. First of all, it is good, sound, practical information that can be put into practice right away. It meets a need that probably 90 percent of all landscapes need ... help. The information is presented clearly and is supported with an extensive packet of landscape information.

Second, the program addresses not only the landscape, but also the house itself, giving you tips on how to improve the overall look of the house and landscape.

Other reasons for this program's popularity is the optional, 20 minute, individual consultation you can sched-

affordable fee. A big bonus is the amount of practical information taught.

You will learn what the very best ground covers, vines, shrubs and trees for the area are. You will be instructed on the best planting, establishing and maintaining techniques for landscapes. You'll discover how the trim color of your house, shutters, down spouts, garage door and front door treatments can be improved to give you a better overall appearance.

And of course you'll learn landscape design principles for the front yard, backyard and accent corners.

There are many benefits to having a well planned, planted and maintained landscape. The value of the property goes up. Neighbors tend to follow suit, so sometimes the entire neighborhood looks better. Well-planned landscapes can reduce heating and cooling expenses. Properly planned landscapes can buffer city noises, filter dust and pollution and provide privacy and comfort. A well-planned landscape can give you a wonderful place to entertain, dine, relax and play. Good designs help lower maintenance demands --less trimming, edging, shearing, watering, weeding, mowing and pruning are involved.

Many topics will help save you labor, time and money. Learn

How to design and implement a new landscaped bed

Where trees should or should not be planted

How to locate patios and accent corners

your friends and family.

Now that February has turned

into March, that Christmas puppy

He jumps on guests, grabs the kid's sandwiches and tugs on a

leash. His unruliness is starting to

concern you. He spends most of his

time in the back yard, away from

is starting to get a little bigger.

How to correct hardscaping mistakes and make your home and landscape more accessible. The lists goes on.

Who is this program for?

Anyone who would like to create a good landscape. Whether you are putting in a new landscape, updating an existing one or working with a professional, this school can help you achieve your desired results.

Here's a quiz to help you decide whether or not the Home Landscape School is for you.

When you go out into your back yard, do you feel ...?

a) Like you've been sent to a prison camp?b) Like you've been sent to a labor camp

- c) Like you've gone on a vacation?

Your landscape can be designed and developed into your own quite, special retreat. You can go on a vacation and never leave the yard because you've created your own speial resort.

Need or want to take this Home Landscape School? If so, take action today:

You must call or go by the Midland or Ector County Extension offices to preregister. Phone numbers are 687-1351 or 687-1351. Seating and materials are limited. The first class in a series of four starts 7 p.m. Monday night at the Confederate Air Force Museum. Cost of the school is \$30.00 per household, which covers the cost of the landscape kit, landscape books and many other materials.

The choice is yours.

Aging Christmas puppy needs

training, socialization to fit in

Walk out into a searing, desolate prison camp or into a green, quite, soothing retreat. Landscape planning and implementation can make the difference.

Deborah Benge Frost is the extension horticulture agent for the Texas Agricultural Extension Service in Midland and Ector Counties.

If this goes on, he is going to have a new home before summer. Your enough that the animal is safe with your kids — your dog will be forced to associate with your chilpup is an unsocialized beast. Socialization is the process of dren's friends. To get an idea of teaching a dog to live in human how to socialize your dog, here are society. some tips that may be useful.

Though dogs are naturally social animals, they do not automatically know how to live with us. Many behaviors that would help them survive in the wild are of little use in our households

Urinating on the kitchen table leg or snapping at an overactive youngster are examples of natural behaviors that are totally unacceptable in human society. Proper socialization is aimed at preparing a dog to live in the company of

meets, street fairs, busy parking lots and parks are good places to while most people realize the socialize your puppy. Make sure need for obedience training, many your pup is fully vaccinated and each basic poli Many owners tolerate playful biting and snapping that can easily lead to accidental aggression. Teaching a puppy to sit on your lap may seem pleasant while the puppy weighs 10 pounds. When the adult animal is more than 50 pounds, you may regret the decision. A simple solution is to only allow the dog in your lap by request - from the first day you bring your puppy home.

hough dogs are naturally social animals, they do not automatically know how to live with us.

> - Gary Wilkes. animal behavior specialist, columnist and author

your dog must be good with Take your dog to places where strangers and other dogs. If you abrupt noises are common. Shoothave small children, it is not good ing ranges, construction areas and sporting events can provide levels of noise that exceed everyday life.

Make a special point of introducing your dog to the sights, sounds and smells associated with children. If your dog is not good with kids, you will be very limited in finding places to take your dog in public. Leaving your dog at home will be the easiest, but worst solution to the problem.

Purchasing a dog is much easier than keeping one. In addition to providing food, water and medical attention, socializing a pet is a required part of ownership. Early conditioning is the easiest and most efficient type. Waiting until your adult dog tries to bite someone only makes the behavior hard-

er to control. ask your veterinarian for ways to

What to get the couple who has everything

By Alison Leigh Cowan N.Y. Times News Service

NEW YORK - As my family snoozed peacefully last Sunday morning, I bolted out of bed.

Forget about how many days were left to holiday shop. Only five were left till The Wedding. And it wasn't even mine.

Lt. Gov. Betsy McCaughey and Wilbur L. Ross Jr., the investment banker, were finally getting hitched on Thursday at St. Bartholomew's Church on Park Avenue. I had written about the bridegroom, and that apparently made me one of the couple's 600 nearest and dearest friends. Who knew?

Trouble was, I had no idea what to get the lovebirds. And I began to worry about not cutting it as a wedding guest. Sure, I have lots of experience buying wedding pre-sents for countless cousins who have exchanged vows in faux chateaus on Long Island and mirrored banquet halls in Brooklyn. But what does a lieutenant governor want, anyway, short of being governor?

Betsy is 47 and a divorced mother of three. Wilbur is 58 but has been known to shave a few years off his age. What's more, he's rather well-to-do - or was, until his divorce from Judith, the mother of his two children. So surely he and his beloved have already accumulated teapots and potato peel-

I briefly considered sending a make-your-own needlepoint pillow with a flag motif. After all, the bride could end up being known casually as Betsy Ross. Too obvious. I decide.

Better to stick with something the bride has her heart set on. She has registered at Bloomingdale's and Tiffany's. So off I go, Bloomie's first. At the wedding registry, I punch in the couple's names and a computer spits out their wish list.

The formal china on the list is Haviland's Vieux Paris pattern, inspired by 18th-century French apestries. Last month, the bride told an Albany reporter accompa-nying her to a housewares empo-rium that Haviland was too practical - though she did

leave herself some wiggle room by be safe, I dash downstairs and pick the list means "the bride really adding "for everyday use." In fact, the dishes would play nicely at the starchiest political fund-raiser. But at \$250 for a five-piece setting, Vieux Paris is a bit dear for me

FOR A CASUAL mix-and-match look, the couple have chosen Block's Manchester Gold design. The chargers - large plain white dishes with gold wreathlike borders - are \$45 each. Still, I am dismayed to learn that the set is not dishwasher safe.

I glide past the Steuben niche. where a budget-busting \$645 vase, perfect for long-stemmed roses, beckons. I likewise decide to forgo the \$25 bud vase by Ralph Lauren that the couple thoughtfully included for those whose budgetary pressures rival New York City's. Still, it is worth thinking about because the vase is in a pre-wrapped gift box.

I nix a \$165 silver-plated bowl. At that price, I'd want sterling. I ask to see two plated wine coasters by Christofle, \$120 and \$165, just to see whether I, too, should have such an essential, to catch Burgundy drips.

Upstairs in bedding, I finally spy something promising: all-cotton white lace sheets made by Cannon Royal Family. The pattern is called, what else? Coronation.

Perfect. Luckily for their friends, the Second Couple, who are on the prowl for a family-size apartment, for now must make do with the bride's queen-size fourposter. Even so, at \$100 for a queen-size sheet, the price is not exactly competitive with Bed, Bath and Beyond's. But the sheet is on sale, for \$79.99.

I grab a flat queen. Then, just to

up a bud-vase-to-go (on sale for \$20) and a charger (\$45). The allwhite wrap is complimentary. Phew! I was looking to spend somewhere south of \$150. I figure I can return items if I find something better.

I head up 57th Street toward Tiffany's to see "the good stuff," as my mother, the veteran shopper, would say. The store does not disappoint. The silver is the real thing. What's more, Tiffany's has taken the trouble to note how many of each item the couple "want" and how many they "have" — meaning, friends have already purchased.

Skimming the list, I note that some well-wisher has already beat me to the \$850 Princess Astrid elephant box. If you must ask, it's a porcelain coffee-table confection with elephant heads in place of handles. But the \$945 Corail Chinois elephant box is up for grabs. Can't have too many elephant boxes, my mother always said. (Actually, she said you can't have too many fish forks, but I'm getting ahead of myself.)

THE SALESWOMAN becomes very helpful, demonstrating the many things you can do with the box, like take the lid off. I pass and ask to see the \$2,575 footed silver tray, the priciest item on either list. Since it is rather plain, I ask why it costs so much. It is very heavy, I'm told. I take the saleswoman's word for it. But for that money, I figure the tray should do more than sit there. It should tap dance for the guests.

I am close to giving up when another saleswoman clues me in that an asterisk after an item on

wants it.

That settles it. I march purposefully over to the highly asterisked silverware section, where the couple has registered for \$12,320 worth of English King, an ornate 1885 pattern on view at Blair House.

A five-piece place setting goes for \$530, though you can buy the pieces individually. My ordeal is not yet over, however, since the pattern has seven different types of knives, six spoons and six forks, not counting serving pieces.

Why so many? I, for one, never realized that it just won't do to use the same spoon for bouillon, cream soup, non-cream soup, espresso, hot tea and iced tea. Oddly, while the bride and groom were seeking 12 of everything else, they had registered for only one iced-tea spoon, an \$80 splurge. I become protective: What would happen if the newlyweds decided to drink iced tea at the same time? Would a second spoon be an unwelcome breach of togetherness?

I'm beginning to sweat. Remem-bering my mother's advice, I try to buy a fish fork. It's out of stock. buy a fish knife instead. The bill is \$90

Then I ask for a card for my gift. What to write? Perhaps something about how love conquers all, even the challenges of life in a fishbowl.

HILL-KOLSTAD

Sherry Lynn Hill of Midland and Mark Roy Kolstad of Avon, Minn., are planning to be married 5 p.m. June 22 at Memorial Christian Church in Midland. The brideto-be is the daughter of Mr. and Mrs. Bob Frank Hill of Midland. Parents of the future bridegroom are Mr. and Mrs. Roger Kolstad of Avon.

Miss Hill is a 1989 graduate of Lee High School and a 1994 graduate of Angelo State University, where she earned a bachelor of arts degree in elementary education. She is a fourth grade teacher with Midland Independent School District. Her fiance is a 1988 graduate of Holdingford High School, and a 1994 graduate of St. Cloud State University, where he earned a bachelor of science degree in Spanish and elementary educa-tion. He is a fifth grade bilingual teacher with Ector County Independent School District.

SIKES-CORDER

Elizabeth Anne Sikes and Nolan Paul Corder, both of Abilene, are planning a June 15 wedding at Logsdon Chapel on Hardin-Simmons University campus in Abilene. The bride-elect is the daughter of Mr. and Mrs. Richard Sikes of Iraan. The future bridegroom is the son of Mr. and Mrs. Nolan Corder of Rankin.

Miss Sikes is a 1993 graduate of Iraan High School and is a student at Hardin-Simmons University, scheduled to graduate in May 1997 with

a bachelor of business administration degree. She is employed with Hardin-Simmons. Her fiance graduated from Rankin High School in 1992. He also is a student at Hardin-Simmons, where he is scheduled to graduate in December with a bachelor of arts degree in communication. He is employed with the U.S. Postal Service.

Sherry Lynn Hill and Mark Roy Kolstad

Feeling at home is easy in Ireland — rent a house

By Walter V. Robinson

Associated Press

ALLINADEE, Ireland - In the rolling hills south of Cork, not far from the cliffs that protect Ireland's southern coast from the ceaseless battering of the Atlantic, there's nothing flat to be found on the landscape, save, perhaps, for a pint of Guinness left unattended for an hour or so.

So it came as no surprise to discover, when we moved into the 19thcentury, ivy-covered former Anglican parsonage we had rented for an August week, that the lawn tennis court in the side yard sloped from back to front.

But who journeys to Ireland for the tennis? Not us, for sure. We came for a first-time, firsthand look at the country and its people. And moving in with them, so to speak, provided us a glimpse of Ireland that rarely can be found from a hotel room.

In this quaint village - with two churches and two pubs an even match for two of Ireland's passions — we moved back in time, into a three-bedroom Georgian home furnished with 19th-century antiques, sitting on 2 acres of gardens, and just a 15-minute drive from Kinsale, the scenic port town that has become the gourmet capital of Ireland.

After a week in County Cork, which we used as a base to explore southern and central Ireland, we moved on to County Clare on Ireland's west coast. There, we took up residence in another special home, Fortville House, a 240-year-old, recently restored farmhouse on 103 acres of land we shared with its longer-term tenants - 107 head of cattle.

It was a spectacular setting, with views for miles over Clare's green hills; the remnants of a 7th-century earthen fort just 50 yards out the back door; and a doting owner, Tom McNamara, who came by daily to light us a peat fire and entertain us with local lore in as delightful a -brogue as we heard during our trip.

Renting homes abroad takes some planning, involves some risk-taking and, at first blush, seems like an expensive proposition. But for my wife, Barbara Wojtklewicz; our daughter, Jess; my sister and brother-in-law, Jane and John O'Connor; and their daughters, Lauren and Meaghan, it turned out to be a bargain.

The parsonage in Cork, called Glebe House, is a bit pricey - \$2,795 for the week — though three decent hotel rooms for a week would have cost more. And the experience of living in Ballinadee's most impressive home was well worth the cost. For \$3,494 a week, the Glebe House rental also includes a beautifully redesigned two-bedroom apartment over an adjacent garage.

Tom McNamara's four-bedroom farmhouse, on the other hand, is a bargain - \$971 for a week, including peat and Tom's ministrations. And McNamara's idea of giving directions is to lead his tenants to their destination.

From the farmhouse, we traveled northward to the beautiful port city of Galway. We toured the coastline, including the spectacular Cliffs of Moher. We visited an Irish national shrine — Yeats' home, with its Norman turret. We even took a day trip by train to Dublin. And my broth-er-in-law and I played a round of golf — badly — at Lahinch, the windswept oceanside course that is often described as the St. Andrews of Ireland.

OILD IRELAND hands might wonder why we chose to stay near the coast south of Cork, and near the coast west of Ennis in County Clare, instead of renting a house in County Kerry, which many Americans consider the most beautiful part of Ireland. The answer is simple: We booked late, in June, and Kerry summer rentals were long gone by then.

The Kerry and Dingle peninsulas in Ireland's Southwest may have the country's most spectacular scenery. But Cork's south-facing coast and the Clare and Galway coastlines are themselves breathtaking and make the coastal vistas in places like Maine and Oregon look boring by comparison. And in summer, traffic jams are not uncommon around the Ring of Kerry, so popular is Kerry with American tourists.

Though we booked late, we did our homework. Renting a home overseas requires some thought, a lot of planning and some family question-and-answer sessions.

Did we want a hotel with all its amenities, including room service? But of course. Who wouldn't? Could we afford the best of hotels in Ireland, and their amenities? No. Did we, then, want to pursue the bedand-breakfast route? We looked at that option, since it appears that every third home in Ireland doubles as a B&B.

But for people who don't want to pack and move every night or two, and in a country small enough that a home rental makes many day trips possible, staying put for a week at a time made a lot of sense to us.

We still took most of our meals out, save for breakfast - often, but not often enough, warm scones from nearby bakeries. And though the notion of great Irish food might seem oxymoronic to many - one adage has it that the food is bad because the Irish are more interested in what comes out of their mouths than what goes in - we dined very well in Ennis, and exceptionally well in Kinsale. And at modest cost.

For instance, at Max's, one of a dozen first-class restaurants in Kin-

sale, we dined one night on a delicious chicken and red pepper soup, a second course of fried mussels with herbs and an entree of spinach pasta with salmon and dill, washed down with a modest white Burgundy wine, all for about \$20 a person.

How did we fall into such great properties? We relied on a Boston firm, "Castles, Cottages & Flats Ltd.," which in turn contracts with Elegant Ireland, a Dublin firm that scours the Irish countryside for the best rentals. As the name of the Boston firm suggests, there is a variety of properties available, to understate the issue somewhat:

But if, for instance, you are planning a family reunion, and have sib-lings with children, why not rent a castle? Many people do. For instance, there is Kiltegan Castle, south of Dublin in County Wicklow, a 13-bedroom, 19th-century castle on 450 acres. It will accommodate 25 guests for less than \$35,000 a week. Splitting the cost won't compete with a B&B. But B&Bs don't have servants, nor pheasant and duck hunting and flyfishing on Kiltegan's grounds.

Small families will find some modest properties that rent for less than \$800 a week in-season, and in surprisingly good locations. It's difficult to rent anything in Ireland that doesn't come with a view.

Glebe Country House, in Ballinadee, the former home of the Anglican bishop for that area, was more to our liking. At the far end of the grounds was the church itself, and in between was a beautiful garden.

The home has three lovely bedrooms, each with its own bath. Downstairs, it has a small kitchen, and three formal rooms - a dining room, a large parlor and a sitting room with doors opening onto a private garden in the back. To be sure, it was not perfect: The house was fashionably shabby in spots, with some threadbare carpet, the parlor in need of repapering and some visible marks from water leakage.

OVERALL, THOUGH, the home was lovely, and so was our stay. We ranged far and wide, to Cork, Ireland's second largest city; often to Kinsale; north to historic sites in Thurles and Kilkenny; west along the south coast to Skibbereen and Bantry Bay; and to Killarney and the Gap of Dunloe. We ranged so far afield that one evening we found ourselves facing a three-hour drive back.

McNamara's farmhouse, though more rustic, was as big a hit with our two traveling families. Fifteen minutes from the lovely town of Ennis, the county seat for County Clare, it is off a narrow country lane, and high atop a hill. The farmhouse has been in McNamara's family for seven generations. Three years ago, he built a home for his family not far away, and had the farmhouse completely restored for rental.

Less than 30 minutes from Ireland's west coast, the farmhouse is ideally located for touring. But, like the parsonage, it was as much a home to enjoy as a launching site for excursions. The view was unyielding in almost every direction over Clare's lush

green hills, made all the more green by summer showers that one day produced a double rainbow. And indoors, at no extra charge, we were lucky to have Tom McNamara telling tales in a room warmed by the pungent odor from a glowing peat fire.

PERMIAN BASIN

DECLAWING.

RABIES.

FLEAS.

For best selection, don't wait until June to book your trip. In mid-Winter and early Spring, there are many more rental homes to choose from.

Castles, Cottages & Flats Ltd., at 7 Faneuil Hall Marketplace, Boston, MA, 02109 (phone 617-742-6030; 800-742-6030), has full-color brochures and price lists for Irish homes and estates. They also represent agencies with listings in Scotland, Wales and England, as well as Italy, France and Spain.

Early planning can also translate into lower airfares: Aer Lingus, which flies non-stop Boston to Shannon in under five hours, rewards summer travelers with lower fares when they book and pay for their tickets early.

AT WIT'S END Sometimes it feels good to be bad

By Erma Bombeck

I guess you could say I was a strict mother. I wouldn't allow football games where the dog was

passed in midair for a first down. I limited my children's water intake after 8 p.m. to misting their tongues. I didn't allow dirty talk in my house like "driver's permit" or "steaks."

Bombeck But the day the last one left home, all the rules changed.

I give myself a manicure bal ancing a bottle of Jungle Red polish on the arm of the yellow chair in the living room. It is rather adventurous.

I leave clothes in the washer overnight and have to wash them again to get rid of the smell.

One day last week I was at the ironing board singing a duet of "New York, New York" with Liza Minnelli. Just as I raised my iron in the air to go into the big finish, "If I can make it there, I'd make it anywhere ..." one of my sons

appeared at the door. "Why are you sneaking up on me?" I shouted. "Sneaking! You can hear that stereo three blocks away. Do you want to go deaf?"

"It's meant to be played loud." He turned it down. "Is that a Christmas tablecloth?"

"I'm a little behind in the iron-

ing." "You always told us to finish one job before we started another

This from a kid who can't remember his own phone number. When he left, I reflected on what I had become. He was right. I was turned into my children. I take phone messages and don't write them down. I run the car to "E" and never tell anyone. Just before dinner, I raid the refrigerator and

ruin my meal. I take food into the living room, open windows when the furnace is on, and take the TV listings into the bathroom and leave them there. I need a mother.

On the other hand, I had a mother who had more rules than a condo in a retirement community. If you kiss a dog, you'll die. If you

Interactive video games hook players

By Carol Rust

Hearst News Service

HOUSTON — The yellow glow of beer lamps casts a jaundiced pall over the faces at the bar, all staring intently at the television screen in front of them.

Before each is a machine that resembles an early electronic calculator, much larger than **OVER and OVER.** the slim, hand-held models of today.

As a question pops onto the television screen, players at the bar full of seeming accountants lean forward, their fingers positioned over answer buttons on the clunky calculator contraptions.

A newcomer strolls in, puts his hand on the shoulder of one of the people and asks, "Who's winning?" Just for the record, he was not inquiring about the Houston Rockets, who were stomping opponents on another TV screen at the bar.

Folks at Al's Sports Bar & Grill were focused on the next question on the other TV screen: Goldie Hawn starred in all of these films " More and more, bar-goers here and except ... across the country are staring transfixed at television screens with questions and answers on subjects ranging from rain forests and racy films of the '50s to Renaissance writers and religious shrines.

'It's addicting," says Steve Johnson, who plays regularly at one Houston bar. "And it's educational - it's not the same pinball game over and over.

In the trivia games, a question appears on the screen, followed by five possible answers. The score starts at 1,000 and decreases each second while three rather corny clues appear, allowing players to change responses according to the clues. The quicker the player chooses the correct answer, the more points he or she gets. If, after the 20-second answer period, he's got it wrong, he loses 250 points.

"If you were visiting the famous Casbah, where would you be? "India "Pakistan "Zanzibar "Morocco "Algeria" As players ponder the answers, the clues start.

'Don't pack it up "Not at the bar "Call him Al" A brief statement about the answer follows. The Casbah is a 16th-century fortress in the Muslim quarter of Algiers.

The trivia and sports interactive games are offered through National Trivia Network, which draws around 12 million players each

t's addicting. And it's educational - it's not the same pinball game

> - Steve Johnson regular player at a Houston bar

month to its various satellite-fed trivia contests at subscribing "hospitality centers," an NTN euphemism for bars, hotels and restaurants. The games are broadcast seven days a week, 24 hours a day.

In Houston, where NTN first appeared three years ago, about 60 establishments have the games. Many offer the answer boxes, called Playmakers, for free. Other bars charge \$2 or \$3 a night to rent a Playmaker. About 3,000 businesses in North America offer NTN

"It's a big draw," says Al Roemerhauser, who has 20 playing boxes for his 40-seat bar, Al's, and is considering getting 10 more. "People who might not normally go to a bar come and play all night.

And, of course, if they sit at a bar, they're going to order drinks and possibly food.

Across town at Savage's, a cheer goes up for papal power. Papal power? That was the cor-rect answer to: "The diminution of (BLANK) was essential to the Renaissance movement." Those who chose "nationalism" or "the spice trade" groaned briefly, then sat forward, waiting for the next question.

NTN outlets participate in weekly trivia tournaments, in which bars compete against oth-er bars throughout the United States and Canada.

Individual players can see how they stack up against other players in the bar — and against everyone else who is playing at that moment in North America. The leaders' names, locations and scores appear regularly on the TV screens

NTN is also available in Australia and South Africa and is poised for installation in the United Kingdom. Differences in time zones, however, prevent bars in those locations from competing with those in North America.

Players can win trips to Paris or Madrid by excelling at the travel and geography game, Passport, or trips to the Super Bowl, Kentucky Derby or the NCAA Final Four through sports interactive games.

Recently, NTN became available on the Internet through America Online.

And the 14-year-old company, based in Carlsbad, Calif., has been working with Hasbro, the maker of the board game Trivial Pursuit, to develop a computerized version of the game that will be available in the next few months.

"It has just taken off," says NTN President Dan Downs. "We never could have predicted

In 1984, NTN developed its first game, QB1, an interactive football game in which players score points by correctly predicting plays in televised games. During the 1985 Super Bowl, they tested it in three sports bars nationwide one in Beverly Hills, Calif., one in San Francisco and one in Miami.

The game was such a success that NTN acquired the rights to broadcast game data from the National Football League and marketed QB1 nationwide by 1987

In addition to QB1, NTN has interactive basketball, hockey and baseball and boxing games. Players can place simulated bets on horses in the Kentucky Derby while it airs on television or gain points by predicting which movies, actors and actresses will win top honors on Oscars night.

The broad array of games attracts a diverse following. While adults dine at restaurants, their children punch answers into boxes at the bar. A bar-goer may sip a single glass of iced tea all night while playing against beer-swilling counterparts.

Downs recently received a good-natured complaint from an NTN player in Nebraska who said he was quitting his regular bar and searching for another.

The reason? An 86-year-old woman who "has never forgotten a single thing in her life,' Downs says, started playing there and none of the younger players can beat her.

But what will she answer when asked, Which duet's biggest hit was "Love Will Keep Us Together"? And does she know what nutrition theory Horace Fletcher promoted several decades ago? If she chews each mouthful of food 32 times before swallowing, she probably does

DEAR ABBY St. Patrick's legend may contain a bit of blarney

By Abigail Van Buren

DEAR READERS: A Happy St. Patrick's Day to all you proud Irish-men and Irish women — and Irish children, too.

I confess I didn't know very much about Saint Patrick, after whom this special day is named, so I did a little research and came up with some interesting and rather astonishing facts.

St. Patrick was not Irish - he was a Roman, and his name was Patricius Magonus. (His father was Calpurnius, a tax collector, and his mother was English.) The family lived in Britain in the fifth century.

Their district was raided by pirates when Patricius was 16, and he was part of a group taken to Ireland and sold into slavery. He spent the next six years working as a swineherd, praying for freedom, and finally escaped.

Van Buren

During his captivity, he had developed a love of Ire-

land and its people. He went on to become a priest, then a bishop, and returned to do missionary work there. He is credited with converting the Irish from paganism to Christianity. According to legend, Patrick drove the snakes of Ireland into the sea, and used a green shamrock to explain the Trinity (Father, Son and Holy Ghost) to the Irish. Centuries later, the first St. Patrick's Day celebration in the United

States was held in 1737 in Boston, which had the largest Irish population in the United States.

Today, more than 100 cities across the nation celebrate St. Patricks Day with parades, songfests, food and drink. The Chicago River in Chicago is dyed green by Midwestern leprechauns.

Irish-Americans celebrate St. Patrick's Day by wearing shamrocks, or something else green. I have a large green shamrock-shaped pin on which is printed "KISS ME -- I'M IRISH," because, as the saying goes, 'On St. Patrick's Day, EVERYONE is a little bit Irish.'

DEAR ABBY: I'm writing about the lady who's on AFDC, who has noticed that "many jobs require people to speak Spanish," and who cannot find a job.

My question is: What is she doing with her 40 hours a week now, to make her more employable in the workplace tomorrow? Is she learning Spanish? Is she honing her grammar-spelling-typing-math skills? While she's playing bingo, is she getting to know people there who might have children in business who are currently hiring? Is she revisiting the places where she applied for work so they can get to know her and know that she's still available? Or, in between job interviews, is she sitting around watching TV

Fresno has a wonderful library system where, for free, she can check out books and tapes on just about every subject. I've seen language tapes in thrift stores for 50 cents and textbooks for a quarter. California has an excellent community college system, with special programs for poverty-level people.

My question for any welfare recipient is, "What steps are you tak-ing to get off welfare?" — ONE WHO LEARNED TO BE A GO-GET-TER, SUSANVILLE, CALIF.

DEAR GO-GETTER: A good question. Thank you for a letter that could be a lifeline to those struggling to get out of the unemployment pool

I have been informed that most community colleges have programs similar to those in California.

To order "How to Write Letters for All Occasions," send a businesssized, self-addressed envelope, plus check or money order for \$3.95 (\$4.50 in Canada) to: Dear Abby, Letter Booklet, P.O. Box 447, Mount Morris, Ill. 61054-0447. (Postage is included.)

Abigail Van Buren's column is distributed by Universal Press Syndicate.

Above, Amy Mills plays the landowner or Queen, and Ashley McWilliams plays Snow White in the Pickwick Players presentation of a westen version of the classic fairy tale "Snow White and the Seven Dwarfs," which takes Midland Community Theatre's stage at 2:30 p.m., March 30. At right is Snow White and the dwarfs: from left, Michaele Cerf as Bud, Justin Tate as Gus, Ashley McWilliams as Snow White, Morgan Merritt as Jake, Torrey Washington Jr. as Bubba, and Tori Wade as Slapout. At bottom right, the landowner looks into her talking mirror.

now White and the Seven Dwarfs" ride onto the Midland Community Theatre stage 2:30 p.m. March 30 when the Pickwick Players present a western version of the classic fairy tale.

"It's the typical fairy tale that I have

thus she's introduced to the Westerners and teaches them Spanish," Ms. Goodwin said. "So by the end they speak Spanish, but they don't start off speaking Spanish." Cast members include Amy Mills, the queen; Marcus Nunn, the prince; Grant Butkus, the Huntsman; and Ryan Britt, Morgan Merritt, Justin Tate, Michaele Cerf, David Curtis, Torrey Washington and Tori Wade as the dwarfs. In addition, the production has not-sotypical Snow White characters including her maids of honor — Laurel Rhodes, Amy Willey, Stephanie Biernbaum, Becky James, Melissa Leeper, Sara Williams and Alexis Lane; a court manager, Clark Hodge; and the queen's friend, Hexy, Jilann Cook. The Pickwicks, members of MCT's youth performing troupe, are enjoying the bilingual aspect of the production, Ms. Goodwin, said. "The kids are having a blast with the show." Ms. Goodwin hopes the idea of a dual language approach won't "scare peop'. I have selected certain words and expressions, and they are repeated in English and Spanish or they are gestured, so it's very easily understood."

placed in the West," said Tracy Goodwin, MCT's educational theater director. "It's like the Battle of the Alamo where the dwarfs are cowboys and all the other characters are Spaniards. So, it's a bilingual production."

This version of Snow White includes the standard characters — as well as a few new ones — with a twist. "I am setting it on a ranch so the wicked queen is not really a queen, she's the landowner," Ms. Goodwin said. "The court jester is the ranch foreman. The huntsman is a ranch hand.

"Then, there's the person who keeps the queen, or landowner, beautiful. Her name is Ruthy. Ruthy's the one who gives the queen the mirror, but that's all going to be done through sound."

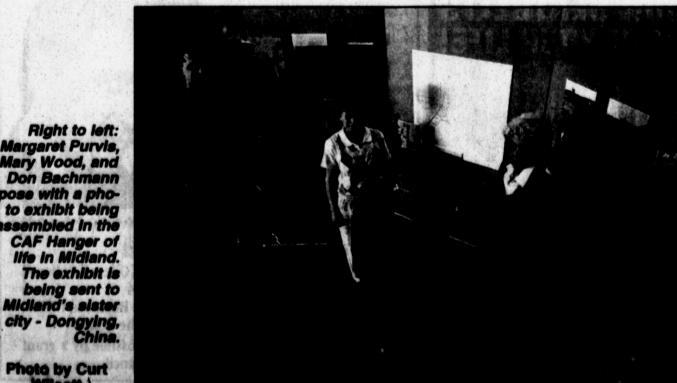

In this adaptation, the landowner has sent Snow White away to boarding school. "It's just an excuse to get rid of her," Ms. Goodwin said.

Snow White, who is being played by Ashley McWilliams, lives with the "cowboys;"

Midland lifestyles exhibit to hang in China

long-term cultural exchange project between Midland and Dongying, China, moves closer to completion Thursday when the Midland-Dongying Sister City Association presents the city of Midland with an exhibit designed to hang permanently in Dongying, China.

"In October of 1993, our counterparts in Dongying suggested that the two cities develop permanent cultural exhibits to exchange," said attorney Barry Beck, who has been involved with the association since its inception close to a decade ago.

"Their thinking was that most citi-

zens of the two cities would never have the chance to travel to the other to visit and meet people in their sister city personally."

The preview, which is open to the public, begins 7 p.m. Thursday at the Confederate Air Force hangar at Midland International Airport.

"Sixteen Midlanders have spent about 15 months putting this together, and we wanted to have a preview of the exhibit before we sent it to China," said Margaret Purvis, chairman of the committee that designed and completed the exhibit. "Frances Stapp is the Please see EXHLBIT/3G

ENTERTAINMENT IN BRIEF

Open show set

Gallery 1114 is hosting its 10th annual Open Show March 30 through April 21.

The show is open to everyone in the West Texas area and all entries will be exhibited. Each year the show draws a range of entries from hand-crafted technology to poetry to drawings, paintings and photography.

Work to be included in the exhibit must be brought to Gallery 1114, 1114 N. Big Spring St., between 1 and 5 p.m. Thursday and March 24. There is a \$5 fee per entry. A best of Show prize of \$49.95 and honorable mentions will be awarded at the opening.

All wall art must have finished edges and be wired for hanging. For more information call 685-9944

Regular gallery hours are 1 to 5 p.m. Thursday through Sunday. To schedule a group tour call Olivia Hill, 1-915-368-7400, or Travis Beckham, 682-4969, Gallery 1114 is cooperative for modern and contemporary art.

Talent search set

The Arts Assembly of Midland is conducting a talent search for the 13th annual Celebration of the Arts May 18-19.

Musicians, singers, dancers, speciality acts and other entertainers will perform continually on four stages during the two-day festival in downtown Midland.

COA is a regional festival that spotlights all the arts in the Permian Basin. Soloists as well as representatives of choirs, bands, dance schools and other groups are invited to apply.

Special entertainers during the festival will be Jerry Jeff Walker, classical guitarist Susan Grisanti and "Friends in High Places," a couple from New York that dances on stilts.

More than 70 visual artists from Texas, New Mexico, Colorado, Arizona, Oklahoma and Indiana have been chosen to display, sell and give demonstrations of their techniques

The children's activity tent has arts, crafts and games. A wide variety of food booths benefit local non-profit organizations.

Performers from all over the Southwest are invited to be a part of COA. For information call Patty Loftis, 699-1343, before April 15, or contact the Arts Assembly, P.O. Box 3494, Midland, Texas 79701, or call 687-1149.

Concert presented

The Midland-Odessa Symphony with music director Robert Hunt and mezzo soprano Virginia tled "Viennese Masters" at 8 p.m. Saturday at Lee High School Auditorium, 3500 Neely Ave. The program will begin with the "Consecration of the House' Overture by Beethoven followed by Mahler's Songs of a Wayfarer" featuring Ms. Dupuy. Brahms Second Symphony will complete the program. Ms. Dupuy has appeared at Lin-coln Center with the American Symphony Orchestra and performed around the country with orchestras including both the Pittsburgh and Dallas symphonies. The program is sponsored by Dr. and Mrs. Michael Miller, Dr. and Mrs. Bart Mayron, Drs. Terry and Elvira Burns, Dr. and Mrs. Roberto Spencer and Mr. and Mrs. David Morrow Admission will be \$10 for adults, \$9 for seniors, \$5 for students and free to music students. Tickets will be available at the door or may be purchased in advance with a Visa or MasterCard by calling 563-0921. A pre-concert reception and lec-ture will be held from 6 to 7 p.m. at the Plaza Club. Hunt will make a brief presentation and complimentary wine and cheese will be served. Please call the Plaza Club,

688-3100, for reservations.

Bluegrass played

ODESSA — Laurie Lewis and The Grant Street Band will present a bluegrass concert beginning at 7 p.m. March 24 at the Globe Theatre.

Ms. Lewis is a singwriter and bluegrass singer and fiddler. The concert is a fund raiser for

KOCV-FM Tickets will be on sale at the door beginning at 5:30 p.m. on the day of the concert, or they may be purchased in advance at the OC business office Monday through Friday. Admission is \$10 for adults.

The concert is a production of KOCV-FM and the Odessa Cultural Council.

Programs planned

The Smithsonian Institution will present programs on American car culture, Western photography, the solar system, at the Permian Basin Petroleum Museum Friday through March 24.

The ticketed series is presented by The Smithsonian Associates. Permian Basin Petroleum Muse-

um and the Plaza Inn. Nearly 3,000 of the more than 2.3 million Smithsonian members live

in the Midland area. The Smithsonian Associates visits 10 cities each year to acquaint members and the general public with Smithsonian research and the national collections.

For a schedule call the Petroleum Museum, 683-4403.

Smithsonian members and members of the Permian Basin Petroleum Museum may purchase tickets for \$5. General admission is \$6.

Art program set

Registration is under way for an art program for pre-schoolers at the Museum of the Southwest, 1705 W. Missouri Ave. Three sessions of four classes are being offered with the first session starting Tuesday.

Classes are available on Tuesday, Wednesday or Thursday with a limit of 20 children in each class. **Tuesday and Thursday classes** meet from 10 a.m. to noon. Wednesday classes meet from 12:45 to 2:45 p.m.

Stephanie Fender is teaching the classes which will acquaint the students with the basic principles of art - color, texture, shape and form

Fees are \$35 for museum members and \$40 for non-members. Supplies are included in the fee. To register call the museum, 683-2882 or 570-7770, or Ms. Fender, 685-3469.

Public viewing hours are 10 a.m.

children are asked to audition from 5 to 7 p.m. and adults beginning at 7: 30 p.m. Those wishing to be considered for either a child's part or the adult ensemble need to plan on attending both auditions.

The production dates are May 3-19 with a possible holdover the following weekend. Rehearsals will be held week nights beginning at 7 p.m. If at all possible, the Playhouse plans to rehearse children earlier so they may leave earlier.

The auditions are open to anyone. No previous experience or training is necessary. Scripts are available for check-out with a \$25 deposit. For more information call Christopher Olsen, director, at the Playhouse, 1-915-362-2329, Monday through Friday between noon and 6 p.m.

Event scheduled

ODESSA - The 47th annual Desert Squadron Fly-In Breakfast and Afternoon Event is set for March 30, at Schlemeyer Field.

No admission will be charged. The event includes World War II aircraft, military vehicles and other World War II artifacts.

Sponsored by the Desert Squadron West Texas Wing, Confederate Air Force.

Jackson to perform

ODESSA - Country music star Alan Jackson is to perform 7 p.m. April 12 at Ector County Coliseum. Also performing will be Wade Hayes and Emilio.

Tickets, priced at \$21.50 plus service charge, may be purchased in **Odessa at Endless Horizons and** Comm West: in Midland at Midland Sound; in Big Spring at Sound Decision; and in Pecos at Dan's Music and Video.

Spring Fling set

Miss Cayce's Christmas Store, Midland Drive at Wadley Avenue, is to have a Spring Fling, set for Friday through March 30.

The event includes a series of classes and workshops open to the public and free of charge, but available only by pre-registration. Interested parties need to call Miss Cayce's, 689-7192, to sign up.

Demonstrations will be conducted by design experts, Dept. 56 Village classes on how best to display Village collections, a workshop on how to create a "mountain" for a Dept. 56 Village display and how to decorate bookcases and shelves with florals and greenery.

Miss Cayce's will be open for purchases of spring floral wreaths and arrangements as well as Dept. 56 Villages and accessories. Hours are 10 a.m. to 6 p.m. Monday through Saturday and 1 to 5 p.m. Sunday March 22-30. After the

More briefs/4G

Midlander Jeff Monette, a lyric baritone, will present his senior voice recital at 3: 30 p.m. today at St. Ann's Catholic Church.

This recital, in addition to a senior recital at Hemmle Hall, **Texas Tech University**, Lubbock, will fulfill his graduation requirements from Tech. Monette plans to pursue a career as a professional singer.

The program will include selections from Handel's "Messiah," including "The Trumpet Shall Sound," accompanied by Shari Santorelli on piano. Selections from the Dichter Liebe, composed by Schumann, which consists of 16 separate pieces with piano accompaniment, also will be presented.

During the program, Monette will be joined by fellow Tech students, Brandon Bohannon of Lubbock and Chris Dickerson of Abi-

He is the son of Mr. and Mrs. Tom Brahaney and grandson of Mr. and Mrs. S.T. Miller. He plans to continue studying, performing, traveling in Europe and auditioning as opportunities arise.

The public is invited to attend the free performance.

Reception set

Midland Arts Association will open the MAA Art Gallery with a to 6 p.m. reception today

The gallery is located in the Executone Building, 112 S. Loraine St., across from the Hilton. Local artists will exhibit and sell various art mediums from oils and watercolors to sculpture and ceramics.

The arts organization has exist-. ed since December 1963 when it held its first meeting with 31 charter members. The organization now has more than 200 members living in the Permian Basin.

The purpose of the MAA is to encourage a community of interest between professional and lay people in all forms of art and to encourage the advancement of fine arts in Midland by increasing possibilities for art experience through exhibitions, concerts, demonstrations, etc.

Gallery hours will be 10 a.m. to p.m. Tuesday and noon to 4 p.m. Thursday through Saturday. call the business office, 685-5050, for more information.

Exhibit planned

Midland Arts Association and Midland American Bank are exhibiting Mary Tucci's oils and watercolors this month.

In addition to her membership in the MAA, she is a member of the Palette Club.

West Texas has been her home

Exhibition set **ODESSA** — The Presidential

Museum, 622 N. Lee St., brings to West Texas an exhibition called Seven Presidents: The Art of Oliphant" through April 27.

The exhibition is locally supported by a grant from the Odessa American.

Currently on display through May 25 at The Presidential Museum, 622 N. Lee, is the exhibition, "Black Soldiers of the 19th Century Army.

Spanning seven administrations from Lyndon Johnson to Bill Clinton - "Seven Presidents" surveys the course of three decades in the history of this country.

No admission is charged. Donations are appreciated. Regular hours are 10 a.m. to 5 p.m. Tuesday through Saturday. For more information call 1-915-332-7123.

Concert scheduled

ODESSA — Juan Gabriel presents his 25th Anniversary Concert at 8 p.m. March 29 at Ector County Coliseum.

Tickets, priced at \$20, \$30 and \$40, may be purchased in Odessa, Lechuga Video, Endless Horizons and Comm West; in Midland, Midland Sound; in Pecos, Dan's Music & Video; and in Big Spring, Sound Decision. They may be charged by credit card by calling 1-800-462-7979

The Odessa show is produced by Resendez & Associates.

Series continues

The Lenten Luncheon Series at First Presbyterian Church, 800 W. Texas Ave., continues Wednesday with soprano Janet Menzie.

Ms. Menzie received her bachelor of arts degree, magna cum laude, with a major in music, from Central College, Pella, Iowa. She earned a master of music in vocal arts degree at the University of Southern California.

She also was a member and featured soloist with the University of Southern California Chamber Singers. The 22-member choir performed internationally, including the inaugural concert of the Choral Federation of New Zealand in 1985 and recording for the Australian Broadcasting Commission. In addition, the group recorded the promotional music for the 1984 Olympics in Los Angeles.

While a student at USC, Ms Menzie was a frequent soloist with choirs and orchestras in the greater Los Angeles area.

She directed the youth choir at St. Peters by the Sea Presbyterian Church in Palos Verdes, Calif.

where she met and married her husband. They have three daughters, ages 6, 4 and 3.

Ms. Menzie is teaching Kindermusik and voice as a member of the faculty of The Fine Arts School at First Presbyterian Church. She also serves as music teacher for First Presbyterian Church's preschool and maintains a voice and piano studio in her home.

Wednesday's program will include four German Lieder by Hugo Wolf, "Alleluia" from "Exulate Jubilate" by Mozart, "I Hate Music!," a cycle of five Kid Songs for Soprano by Leonard Bernstein and four songs from the cycle, "Cuatro Madrigales Amatorios" by Joaquin Rodrigo.

The luncheon series concludes March 27 with the Chap Singers from Midland College.

The half-hour concerts are scheduled from 12:05 to 12:35 p.m. and lunch served in Lynn Hall a half-hour before and after each concert. The concerts are free and open to the public. Lunch is \$4. Child care is available with advance reservations.

Performance set

ODESSA — Bush and special guests Goo Goo Dolls are to perform at Ector County Coliseum March 26

Beaver Productions brings both acts to Lubbock's Fair Park Coliseum Sunday, March 24.

For ticket information or to order by phone call 1-800-462-7979.

Paintings displayed

Charlotte Seay is exhibiting 27 of her watercolor and mixed-media paintings in the Cole Gallery, 2000 W. Wadley Ave., at Midland Community Theatre through March 23.

Her painting, "Rainbow Light," was selected as the first poster for the annual Cameron Park Zoological and botanical Society Zoobilee in Waco in 1995. The Midland **Opera Theatre selected her paint**ing, "Aqua Mirabilis," for its current poster, invitations and programs. In addition, she is one of 20 Southwestern artists invited to exhibit at the Corpus Christi Art Center for the Corpus Christi Cotil-

lion Club's la Merienda in March. She is the current president of Midland Arts Association, a Purple Sage Brush Signature member of the Texas Watercolor Society and will be the 1997 chairman of the National Watercolor Exhibition of the Texas Watercolor Society to be held at the Museum of the Southwest here.

HAPPY BIRTHDAY! IN THE emotional undercurrents before they

HOROSCOPE

NEXT YEAR OF YOUR LIFE: Go out of your way to help other people; the rewards will be enormous! Although a romantic summer lies ahead, September could find you restless and in need of a change. Plan a vacation far from home. Spending time alone pondering your future could prove invaluable. A raise or promotion is likely when a long-term project is completed in late fall. Romance highlights end-ofyear celebrations. A sudden career change is possible as 1997 gets underway.

CELEBRITIES BORN ON THIS DAY: singer Nat King Cole, actress Lesley-Anne Down, ballet legend Rudolf Nureyev, actress Mercedes McCambridge.

ARIES (March 21-April 19): Feelings run deep today. Think twice before bringing up controversial subjects. A romantic partner's plans determine what you do today. Be flexible.

TAURUS (April 20-May 20): An uplifting sermon or book is inspiring. Spending time with family members allows you to patch up strained relationships. Deal with any become a raging torrent.

SUNDAY, MARCH 17, 1996

GEMINI (May 21-June 20): You can negotiate from a position of strength when dealing with a sibling. Someone wants to play a larger role in your affairs. Welcome suggestions if this person does not try to run your life.

CANCER (June 21-July 22): Progress results when you deal in a positive manner with relatives or inlaws. Compromise! Your guardian angel saves you from making a mistake.

LEO (July 23-Aug. 22): Attending a social function puts you in the right place at the right time. An attractive newcomer seeks you out. Exchange phone numbers if interested, but recognize that you are dealing with an unknown quantity.

VIRGO (Aug. 23-Sept. 22): Troubled teens may be acting up. Keep your temper in check. Extenuating circumstances could explain their behavior. A rumor is probably unfounded; ignore it.

LIBRA (Sept. 23-Oct. 22): A youngster who has problems needs more one-on-one companionship. Reading child development books helps sharpen your parenting skills. Be realistic about family finances.

Help put a rumor to rest by refusing to repeat it. Today's newspaper provides good job leads. For quicker results, fax your resume. Someone who meets you for the first time feels an instant kinship.

SCORPIO (Oct. 23-Nov. 21):

SAGITTARIUS (Nov. 22-Dec. 21): Answer the bigger question that family members pose. You need to lay your cards on the table where romance is concerned. Your mate may not share your warm feelings for someone.

CAPRICORN (Dec. 22-Jan. 19): Avoid talking shop at a social gathering lest others think you a bore. Focus on family needs. Dressing up and going to a restaurant with your loved ones should be fun. A relative needs a favor.

AQUARIUS (Jan. 20-Feb. 18): Good things will come your way if you are patient. A "sacrifice" will not be as difficult as it sounds. Parents need TLC, too. Offer encouragement. A busy week lies ahead.

PISCES (Feb. 19-March 20): Family ties are strengthened by a reunion. Bring out the photo albums and listen to the music of your youth. A phone call brings welcome news. Gather any tax records your accountant may need.

your advantage. An opponent might give you credit for an expert play and suffer the consequences. But there are times when notoriety may be a better ally. North-South were playing five-

card majors with forcing no trump responses. If opener does not have a six-card major or four-card minor to show, the rebid must be in a three-

card minor. North's three clubs was to play, but South ignored partner and persisted with three no trump. East's double was more from pique than by any sense of conviction that the contract could be defeated.

East-West were known to be excellent defenders who were always ready to take a gamble. The spade lead was taken with dummy's jack and a low club was led to the jack. Since it was obvious that it would be futile to win the king. West ducked smoothly. Back came another club, and again West followed low.

Declarer was at the crossroads. East was certainly a good enough player to duck the first club holding K x. But West was equally capable of refusing to take the king holding sometimes having the reputation king of clubs to double three no a good player can work to trump. So dummy's ace of clubs was

played, and five club tricks withered on the vine. Declarer scrambled the obvious six tricks for down three. Had South taken a club finesse, there would have been at least 11 tricks there for the taking.

PUZZLE ANSWER

preview party chairman - a one-woman committee that put the whole party together.' Cost for the preview party is

(From 1G)

\$17.50 a person. The exhibit will be on display Friday. Admission is free Friday with the coupon from the **Reporter-Telegram.**

The exhibit will be packed Sat-urday for mailing. "Highland Artificial Lift Systems is shipping this to China, which is absolutely wonderful, because that is a large, large expense,"

Mrs. Purvis said. The exhibit's focus is Midland lifestyles.

We decided that since China's history is so ancient, what they were mostly curious about Midland had to do with our current lifestyles," Mrs. Purvis said. 'We've noticed that the delegations are particularly interested in the ranching aspects of our culture. So, after a lot of discussion, we decided that we would do four current lifestyles in Midland." The lifestyles featured are

those of the rancher, the oilman, the student and the working woman. The city itself also will be featured

'All of this is told in photo-

graphic display with some arti-facts," Mrs. Purvis said. "I think the design is unique. It started out to be like a star - the Texas star.

EXHIBIT: Midland to share art with China

A lifestyle is portrayed "between the points of the star. On the inside of the star, we have the past, present and future of Midland.

The lifestyle photographs are black and white; the photographs illustrating Midland are in color.

"The lighting in the room where this is going to be on dis-play in China has lots and lots of natural light," Mrs. Purvis said. "Each black and white photograph is being put on archival paper and then wrapped in a protective, clear covering to protect it from sunlight. ... Inside the star will be lit with artificial light ... (and will have a) a lot of

color photographs," she said. Mrs. Purvis credits Tami O'Bannion and Ron Aday, both of the CAF, and Dan Buckley of Midland College with making the plans a reality. "Without them, this exhibit would not have been possible."

Midland will receive the exhibition from Dongying, China, this summer. That exhibit which will be dedicated when the Dongying delegation visits Mid-land this autumn — will be housed in space provided by the city of Midland.

In China, the Midland exhibit will be housed in the Bureau of **Education. Most of the viewers** will be students, but it will be open to other groups that want to see it, she said.

The formal presentation of the Midland exhibit to the city of Dongying is set for June 22, the 10th anniversary of the founding of the sister-city relationship.

Midland Mayor Bobby Burns will present the exhibit as a gift to the people of Dongying. A del-egation of Midlanders will accompany the mayor and visit other parts of China. Those wanting more information on the trip may call Beck at 684-5782.

"The neat thing about this exhibit is that it represents the cooperation of private business, the non-profit section and governmental entities," Mrs. Purvis said. "We've had Midland College, MISD, the Petroleum Museum, the Museum of the Southwest, Midland Community Theatre, the CAF and individuals from the private sector. We've got these three groups coming together, working together on a project."

The purpose of the exhibit, Mrs. Purvis said, "is to further understanding between our two cities and promote peace.

PAGE 4G

MIDLAND REPORTER-TELEGRAM, SUNDAY, MARCH 17, 1996

PLAY: Pickwicks to do 'Snow White'

(From 1G)

musical version, it does includes several dance numbers - a Mexican Hat Dance and a cha-cha. "It has a little bit of music and dance, and they are really enjoying that.'

In addition, the Pickwicks are building the set, which was designed by Paul Fiorella, and assembling their costumes, designed by Denise Larson.

"The set is being constructed so that we can do the show here then break it down, put it in the truck, and take it to Corpus, said Ms. Goodwin.

The play will be performed by the 22-member Pickwick cast at the Texas Non-Profit Theat. Conference being held in Corpus Christi April 4-7. Those groups interested in performing applied to do so. Ms. Goodwin said. "Two groups were invited to perform.

We were one of them (the other is a youth troupe from Forth Worth).

Excitement about the opportunity is running high among the cast, Ms. Goodwin said. "Some of these kids have never been on a plane, never been to a beach. never been out of town, so it's a great honor for us to get to do this.

The trip's not free. The cost is close to \$400 a student. The cast plus three crew members are going

To raise funds, the Pickwicks are planning a special showing of "Snow White" at 8 p.m. March 29. The 8 p.m. performance will be preceded by a 7 p.m. Mexican **Fiesta that includes Mexican** food and a mariachi band. Tickets are \$10 for food and the show.

"We're also selling cheesecake during 'Bye, Bye Birdie,' and we'll probably do another fundraiser," Ms. Goodwin said.

The Pickwicks will present the show to students in the Midland Independent School District March 29, April 1 and 3.

For reservations to either public performance call the theater's box office, 682-4111. Tickets to the 2:30 p.m. March 30 show are \$5.

The bilingual slant is not new to Ms. Goodwin. "I've done one before - not this one. It was so rewarding. Such a cultural experience for everyone. Even though it's a simplistic story, to take it and do this, to me, is more challenging and interesting for those who are in it and those who observe it. And you have to challenge children."

The ending remains true to its fairy tale roots, Ms. Goodwin said. "Everybody lives happily ever after. Except for the queen, who loses her looks.'

ENTERTAINMENT IN BRIEF

Reunion scheduled

The 1996 Spirit Wind Choir will host a reunion weekend here June 14-16.

The alumni will rehearse with the 1996 choir June 14 and June 15 and then will participate in the 8:30 and 10: 50 a.m. services Juen 16. A social event is planned for

June 15. Bert W. Bostic, choir director, is in need of addresses of the former members of Spirit Wind, Those with this type of information are asked to mail or fax the information to Bert W. Bostic, St. Luke's United Methodist Church, 3011 W. Kansas Ave., Midland, Texas 79701. The fax number is 1-915-694-9608

Contest planned

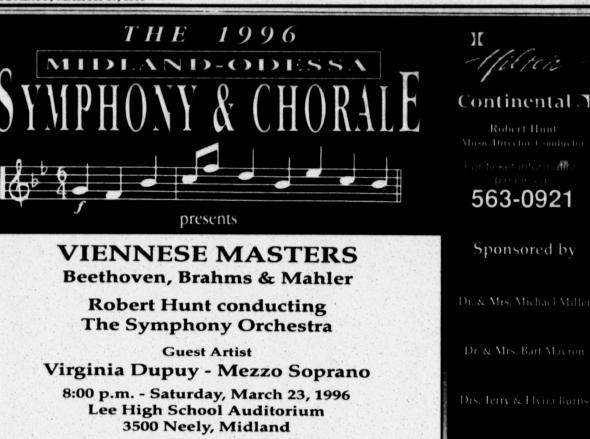

soring a short story contest and invite entries of original stories written for children. Entry deadline is April 1.

Stories need to be for children ages 4 through 13 and be no more than 1,000 words in length. Presentation may be in any form such as fairy tale, fable, ghost, western, in verse or prose, or combined in any form for concert style story telling such as with music or drama, pantomime or puppets. If the story is for a particular age level, the age should be indicated.

Prizes including first \$100, second \$75 and third \$25, will be awarded for first, second and honorable mention. The winning sto-ries will be read by members of the Storytelling Guild in concert in April.

The contest is an effort to widen public awareness of creative arts, in particular the age-old tradition

Entries need to be mailed to Story Contest, P.O. Box 11161, Midland, Texas 79702. For more information call 699-7820.

Pipeline extension

LAKEWOOD, Co. - Prompted by enthusiastic industry response to K N Interstate's (KNI) initial Pony Express Pipeline Open Season announcement, the company is considering the construction of an 85-mile pipeline extension and the development of other service opportunities. The Rockport Pipeline would be an extension of the Pony Express Pipeline and would run from Sterling to Rockport, Colorado. KNI is also evaluating the cost and opportunities associated with connecting to natural gas distributors in the Kansas City area by the fourth quarter of 1997. K N is purchasing the Pony Express Pipeline from Amoco and is in the

IPAA publicizes dangers of oil imports

Petroleum associations try to make public aware of true costs of crude imports.

PUBLIC AWARENESS PROGRAM

By Mella McEwen Staff Writer

Oil futures rose above the \$21 level this week, boosted by reports that the nation's crude oil stockpile had fallen to a 19-year low, a time when the Organization of Petroleum Exporting Countries virtually doubled oil prices.

In the 1970s, when an Arabian oil embargo caused a severe energy crisis in America, the country was importing 14 to 15 percent of its oil, pointed out U.S. Rep. Larry Combest, whose district includes parts of the Permian Basin. Today, he added, the nation is importing over half its oil supplies

It is almost unfathomable to comprehend what it would be like if our imports were cut off today," he said.

The Independent Petroleum Association of America hopes to make the country comprehend the risks of heavy dependence on imports, especially this year, the fifth anniversary of the end of the Persian Gulf War.

"One reason we went to war in the first place was access to cheap petroleum," observed Jeff Eshelman, a spokesman for the IPAA. "The crutch this uses has risen even further since then, to record levels. We're asking Americans, we're asking our leaders to take a look at this issue, become aware of it and find solutions, get off the crutch of foreign oil and depend more on the domestic oil and gas industry.'

The association has signed up con-gressmen to make one-minute speeches on the floor of the House of **Representatives every day in March** as part of its efforts to increase awareness of the issue.

U.S. Rep. Henry Bonilla, who represents part of West Texas along with

A row of pumpjacks sit idle along Highway 349 south of Mid- to warn of the dangers of America's rising dependence on land. The Independent Petroleum Association of America and foreign oil imports and the need to support domestic oil proarea Congressmen have begun a public awareness campaign

Combest and U.S. Rep. Lamar Smith, said he has been a longtime supporter of the IPAA and its efforts.

He was the first of the three area representatives to address the House on foreign imports this month. Combest and Smith are scheduled for later in the month.

"I'm well received by others that support free enterprise and understand the energy business," he said. "Unfortunately, I'm not received well

> The Permian Basin's three U.S. Representa

duction.

by the Clinton administration and those who look at the energy industry as an enemy. I speak until I'm blue in the face about all the new jobs we could create if we were more sensitive to the needs of the energy industry. Why send jobs overseas for exploration when we have so much we could tap into here at home and create American jobs. Especially with the new environmental precautions energy companies take, there's no excuse for not opening a lot more exploration.

While there has been tremendous response from representatives of oil producing states such as Texas, uisiana. Oklahoma. New Mex Illinois and California - both Republi-can and Democrat, Eshelman said it has been a harder sell among non-oilpatch states. "They don't think of the implications of foreign oil going into their gas

tank. The people living in Maine or Connecticut or New York might not think about the oil coming from the Persian Gulf or elsewhere. They forget about the national security implications that along with energy issues. That's the goal of this campaign, to

get people talking about it, to create a

public policy debate." Bob Kiker, executive vice president of the Permian Basin Petroleum Association, applauded the program.

"I think it's very timely, and it makes sense to have Congress do it rather than people from inside the industry. If we get our legislators to support us, it carries more clout. Now we need to get more people outside the industry to speak out for us, so it won't look industry-driven. He added that are additional public outreach and education programs being

process of converting it from a crude oil transporter to a natural gas carri-

The crude brought to the surface by this pumpjack gets more valuable.

Prices rise

Crude futures jumped above \$21 this past week, fueled by reports that the nation's stockpile of crude had fallen to levels not seen since 1977.

Traders shrugged off reports of a gain in stocks the previous week, saying supplies remained tight. Some traders had bet the United Nations and Iraq would reach an agreement on allowing Iraq to sell sell up to \$2 billion in oil before the expiration of the April contract. But reports indicate the U.N. and Iraq may need a third round of talks before Iraq is allowed to sell any crude on world markets. The two began a second round of negotia-

tions this past week. The tight supplies have forced refin-ers to scramble to snap oil in order to produce gasoline for the upcoming summer driving season, helping keep prices firm.

Late in the week, West Texas Inter-mediate for April delivery closed at \$21.16 a barrel, a three-and-a-half

year high. Please see PRICE GRAPH/8H

OSHA seminar

The ta reserves for each quarter from 1989 through 1995 as well as the ity.

Low gas prices weaken reserve values

Fourth quarter brought lower activity, move towards gas-oil reserve balance.

By Mella McEwen

Staff Writer

After rising for the first nine months of 1995, domestic reserve values declined in the fourth quarter, to a median value of \$4.22 per barrel of oil equivalent from the third quarter's \$4.27

Donna McClure, managing director of Strevig, Miller & Co., which conducts the quarterly study, attributed the decline to an unusual decline in activity in the fourth quarter. She also attributed the low level of

activity - 50 transactions in the quarter, down 7 percent from the 54 transactions seen in the previous quarter.

"The low level of activity is due to the fact a number of transactions didn't get closed for one reason or other; some will be completed in the first quarter. Too, there weren't any big deals done in the fourth quarter. I think we may be seeing a lull, but I don't think we're seeing the end of acquisition activity. We're at a point in time where the larger independents are trying to get packages put together and we'll probably see quite a few of those over this year. The majors over the past few years have divested quite a bit but didn't do a whole lot in the quarter," she commented. According to McClure, majors were

involved in 28 transactions as sellers in 1995 with a total value of \$1 billion, but were buyers in eight transactions totaling \$65 million.

That's very lopsided even though we've heard talk that the majors were coming back and looking at strategic areas in the domestic market. We'll probably see more activity on the buy side from the majors; it takes time for them to get their strategies and criteria together, know what they want to do and where they want to do it.'

Another development seen in 1995 was a decline in gas-dominated deals. While they comprised 60.8 percent of the number of transactions and 67.7 percent of reserves traded, those figures were down

Fina, Shell join forces for CO2 flood

Venture includes swapping working interest for CO2 supplies.

By Mella McEwen

Staff Writer

Fina Inc. and Shell Western **Exploration & Production Inc. this** week unveiled plans to implement a CO2 flood project in the West Bra-haney Unit in Yoakum County, operated by Fina.

Implementing a new CO2 flood project may not be unusual in the Permian Basin, but what will catch the attention of operators throughout the region is the arrangement

between the two companies. Fina has agreed to give Shell a 7 percent working interest in the field in return for CO2 at a reduced price

Shell will provide carbon dioxide from its McElmo Dome source field in southwestern Colorado via pipeline to its Allred Station in Denver City. A six-inch 8.5-mile lateral pipeline is currently under con-struction from Denver City to the West Brahaney Unit near Plains.

"I believe this may be the start of a trend in how CO2 is sold in the Permian Basin," said Chuck Fox, chief engineer, CO2 marketing with Shell. "When you have a royalty interest, you don't have any obligations. When you have a working interest, you have to put in capital. This is really a statement by Shell that we believe in this project and is one way we helped sell Fina on our technical work, that we were willing to back it up with our own

money." Ed Nash, general manager with Fina's Midland office, said the deci-sion to proceed with the project was "to take advantage of all the improve-ments made in installing CO2 floods in a more cost-effective manner and the cost reductions in automation costs available to the industry today. We'll be doing this step-by-step to

Please see FLOOD/4H

VALUES: Oil trades brought higher prices

from 1994 levels. In the fourth quarter, gas-dominated transactions comprised 46.4 percent of the total number, down from 72.5 percent in the third quarter and accounted for 70.4 percent of total reserves involved.

"When you look at oil-dominated versus gas-dominated transactions, for the entire year we saw the prices for natural gas-dominated deals lower than oil-dominated deals on a 6:1 basis," said McClure. "That hadn't been the case in the last two years. There were more natural gas reserves traded than oil reserves, but the transactions that had greater than 50 percent oil as reserves commanded a higher price."

She explained that gas reserves brought lower prices because of the prices between the two commodities.

"We still haven't seen, as we keep forecasting every year, a gas price increase, and everyone expects oil prices to stay level. Gas prices haven't increased as we thought they would and companies are trying to be more cautious about purchasing gas reserves because they're not seeing the prices they thought they would."

She added that the industry is moving toward a balanced mark between gas and oil-dominated deals, with gas-dominated deals being slightly higher. "I think we'll really hone in on that 50-50 mark and stay there awhile," she predicted.

The aggregate value of the fourth quarter transactions was \$844 million, representing 125 MMBOEs, down 43 percent from \$1.45 billion and 323 MMBOEs in the third quarter.

For the entire year, the median price was \$4.20 per barrel, down 5 percent from \$4.40 in 1994. The number of transactions rose slightly to 232 from 226 in 1994 and the aggregate value was \$4.45 billion, up over 30 percent from \$3.4 billion in 1994.

Said McClure: "I don't see much change in prices. We've been hovering between \$4 and \$4.50 for the last three or four years and I think we will continue in that range. Commodity prices will be one factor in values; a lot has to do with the type of packages out there. If there are quality packages that are very strategic to the buyer, he may be willing to pay a higher price."

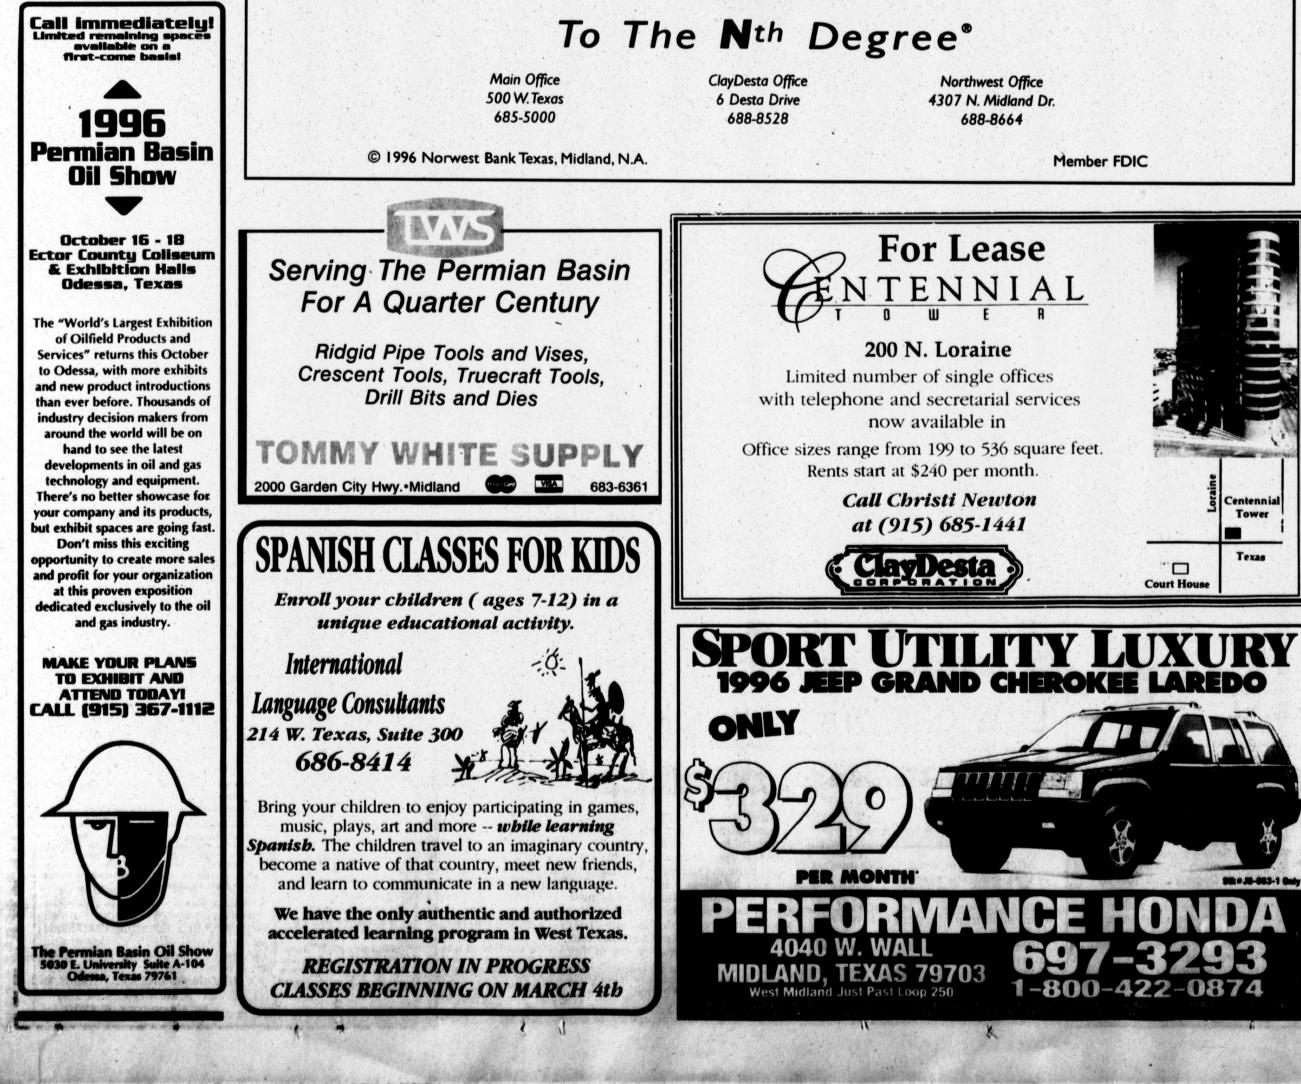

Our banker sees opportunities the way we do. And he responds. ⁹⁹

Will Porter Mike Bogart Perry & Perry, Inc.

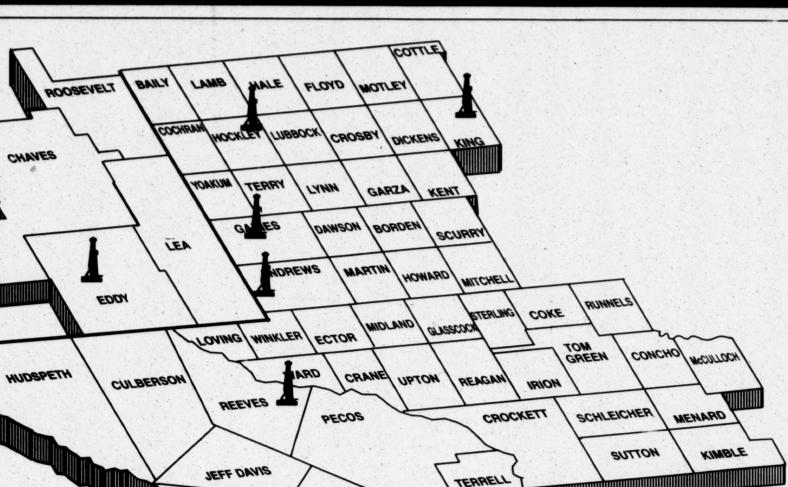

Experienced landmen, Will Porter and Mike Bogart, along with a staff of dedicated employees, provide petroleum land services through Perry & Perry, Inc. Perry & Perry's special talents have earned them the confidence and trust of a clientele of successful petroleum explorers and producers throughout Texas and the Southwest.

To serve their clients well, Perry & Perry, Inc. needs a banker who knows oil and gas, and can respond to the fast-paced changes and challenges of today's petroleum business. Their banker is Norwest Midland. With years of experience in oil and gas lending, and an expert staff of petroleum engineers and technical professionals, Norwest is Midland's first team in energy banking. Call the first team at 688-8587. We respond.

ACTIVITY HIGHLIGHTS

The rigs on the map above show counties in which significant drilling activity has taken place, as reported in the Activity Highlights below.

BREWSTER

Gaines reentry nets Devonian oil discovery

Staff Reports

Gaines County has gained a Devonian discovery, four miles southwest of the nearest Devonian production in the Seminole West field, 12 miles east of Seminole.

BLAIR EXPLORATION INC. acquired the No. 1 Shelton "404" wellbore from TMBR/Sharp Drilling, who kicked off the wellbore as a sidetrack and finaled it to pump 110 barrels of 36 gravity crude and 20 barrels of water. The well produced from open hole interval 10,910 to 10,974 ft., which had been acidized with 500 gallons of 15 percent NeFe acid.

Total depth was 10,974 ft. with 5 1/2 inch casing set at 10,910 ft.

of 625 psi. The well flowed from perforations 6,632 to 6,701 ft., which had been acidized with 2,500 gallons of 15 percent HCL and fractured with 9,400 gallons of gel and 19,000 lbs. 16/30 sand.

PRESIDIO

Scheduled as a 7,000 ft. prospect, the well was drilled to 6,950 ft. and plugged back to 6,753 ft. with 5 1/2 inch casing set at 6.854 ft.

The well topped the Delaware Limestone at 5,027 ft., Bell Canyon at 5,053 and Cherry Canyon at 5,893 ft. on ground elevation of 2,635 ft. Location is 1,750 ft. from north and 1,980 ft. from west lines of Section 17, Block C-5, PSL survey, Abst. 5482.

The well topped the Wichita Hockley field gets

The field was opened in January with completion of MYD Inc.'s No. 1 AP, tested to flow 600 barrels of 40 gravity crude and 300 Mcfd from perforations 9,626 to 9,638 ft.

Eddy well pumps 1,650 barres crude

MARATHON OIL CO. has completed a prolific Upper Pennsylvanian producer in the Dagger Draw South field of Eddy County. N.M., 10 miles west of Lakewood. On potential test, the No. 26 North Indian Basin Unit pumped 1,650 barrels of 40.7 gravity crude, 5,242 Mcfd and 1,168 barrels of water from perforations 7,710 to 7.780 ft. The interval was acidized

Andres interval 4,615 to 5,465 ft. The interval was acidized with 15,000 gallons of 20 percent acid. Permitted as a 4,795 ft. test, the well was drilled to 5,465 ft. with seven inch casing set at 4,615 ft.

The well topped the San Andres at 4,600 ft. on kelly bushing elevation of 2,902 ft. Surface location is 760 ft. from

south and 1,020 ft. from east lines of Section 30, Block 39, T-2-N, T&P survey, Abst. 297. Bottom location is 464 ft. south and 579 ft. from west of surface location.

Southwest extender tested in King field

MEETINGS

IADC chapter to host State Rep. Craddick

State Rep. Tom Craddick will be the guest speaker at Tuesday's meting of the Permian Basin chapter, International Association of Drilling Contractors. The meeting will be at the Petroleum Club beginning with social hour at 5: 30 p.m.

Cost is \$20 and reservations can be made by calling 684-4423 or 550-2353

Basin Landmen's association sets meeting

The Permian Basin Landmen Association will meet Tuesday at Price's Barbecue, 700 E. Texas, beginning at 5:30 p.m.

Division order analysts host Midland lawyer

The Permian Basin Association, Division Order Analysts, will meet Wednesday at the Ranchland Hills Country Club beginning at 11: 45 a.m. Midland attorney Michael Stoltz will speak on "Pooling in the State of Texas.

In addition, nominations will be taken for 1996-1997 board members. Positions are for president, vice president, secretary, treasurer, membership chairman and publicity chairman. Members will be voting at the April meeting with officers presented in May

Reservations should be made by Tuesday afternoon by calling 682-5241. Cost is \$10 per person.

Geoquest IESX users to see new module

The Geoquest IESX User Group will meet Thursday at Schlumberger, 3300 N. A Street, Building 4, Suite 200, beginning at 4 p.m. There will be a demonstration of the new Synthetics application mod-

Information is available by calling 683-4277.

GRI official to speak to Basin well loggers

Robert Sigfried will be the guest speaker at Thursday's meeting of the Permian Basin Well Logging Society. The meeting will be at the Petroleum Club beginning at 11: 30 a.m. Sigfried, manager of the Formation Evaluation Team at the Gas

Research Institute, will speak on "Cased Hole Logging Technology Developments at the GRI." He will update status of projects within the program, a partnership with a number of service companies.

Cost is \$12 for members, \$14 for non-members. Reservations should be made by Tuesday by calling 684-0700.

WTGS hosts monthly evening meeting

The West Texas Geological Society will meet Thursday at the Sta-bles Art Gallery, Museum of the Southwest beginning at 6:30 p.m. Dr. Dale Curry, Midland Gem and Minerals Society, will speak on

"The Fascinating World of Gems and Minerals."

BULLDOG

SPECIALTIES, INC.

Cost is \$11.50 per person and reservations should be made by calling 683-1573 by 4 p.m. Tuesday.

PAGE 3H

Albany at 7.668 It., Lower Mississippian at 10,049 and Devonian at 10,785 ft. on ground elevation of 3.460 ft.

Surface location is 2,114 ft. from south and 170 ft. from east lines of Section 404, Block O, CCSD&RGNG survey, Abst. 730. Bottom location is 2,502 ft. from north and 646 ft. from surface location.

TMBR/Sharp had drilled the well as an 11,250 ft. test, abandoning it in November 1995 at 11,085 ft.

Undesignated pool opened in Reeves

GREAT WESTERN DRILLING CO. has opened an undesignated pool in the Worsham East field of Reeves County, 17 miles east of Pecos.

On potential test, the No. 1 Patterson State flowed 23 barrels of 38.5 gravity crude, 484 Mcfd and 199 barrels of water on a 16/64 inch choke with flowing tubing pressure survey, Abst. 64.

second producer

The Paulson-Rand (Canyon) field of Hockley County has gained its second producer and a southwest extension to the discovery well, 7.5 miles south-southeast of Anton.

PETROLEUM CORP. MW potentialed the No. 1 Klattenhoff to flow 551 barrels of 40.2 gravity crude and 210 Mcfd from perforations 9,646 to 9,651 ft. The well flowed on a 12/64 inch choke with flowing tubing pressure of 520 psi. The producing interval was acidized with 1,533 gallons of 15 percent HCL acid.

Permitted as a 10,500 ft. explorer, the well was drilled to 10,100 ft... where seven inch casing was set,

and plugged back to 9,905 ft. The well topped the Canyon at 9,644 ft. and Strawn at 10,002 ft. on elevation of 3,426 ft.

Location is 2.163 ft. from south and 660 ft. from west lines of Section 51, Block A, R.M. Thompson

with 8,750 gallons of 15 percent HCL acid.

Drilled to 8,050 ft., the well was plugged back to 7,954 ft. with seven inch casing set at 8,045 ft.

Formation tops, on kelly bushing elevation of 3,744 ft., include the Queen at surface. San Andres at 497 ft., Glorieta at 2,064, Bone Spring at 3,400, Base Leonard at 5,447, Wolfcamp Shale at 5,800, and Upper Pennsylvanian at 7,412 ft. Location is 2,310 ft. from north and 660 ft. from west lines of Section 2, T21s, R23e.

Texaco completes horizontal producer

A horizontal producer has been completed in the Andrews County portion of the Mabee field, 21 miles southeast of Andrews.

TEXACO EXPLORATION & PRODUCTION INC. completed the No. 652 Mabee Unit to pump 357 barrel of crude, 20 Mcfd and 116 barrels of water from open San

DICKENS COUNTY

The Wild Hog field of King Coun ty gained a new Bunger Sandstone producer, extending the field southwest, eight miles northeast of Guthrie BURNETT OIL CO. INC. poten-

tialed the No. 7 AWM to flow 137 barrels of 36.1 gravity crude and 9.6 Mcfd on a 13/64 inch choke with flowing tubing pressure of 100 psi. The well flowed from perforations 4,028 to 4,068 ft., with no treatment reported.

Drilled as a 4,500 ft. prospect, the well reached total depth of 4,450 ft. and was plugged back to 4,200 ft. with 5 1/2 inch casing set at 4,431 ft.

Formation tops, on kelly bushing elevation of 1,792 ft., include the Base Coleman Junction at 2,644 ft. Base Dothan Limestone at 2,904 Bunger Limestone at 3,840, Bunger Sandstone at 4,028 and Canyon Reef at 4,300 ft.

Location is 2,350 ft. from north and 1,157 ft. from east lines of Section 12, Block 2, Samuel Lazarus survey, Abst. 564.

GAINES COUNTY CATES #1

FLOOD: First phase expected by year-end

(From 1H)

PAGE 4H

allow cash flow to pay for the expansion.

The project includes drilling five infill and three replacement wells to create eight patterns, each including one CO2 injection well. Also included are the design and construction of CO2 pipeline and injection facilities and improvements to existing equipment.

Phase one of the project is expected to be completed by year end and Nash said that evaluation of additional phases will be made as the first phase proceeds, with a decision on a possible phase two coming as early as the third or

fourth quarter of this year. Ulti- that Fina has such good records." mately, Fina expects to recover approximately three million barrels of additional oil reserves.

Fox of Shell stated that Shell's technical evaluation of the West Brahaney confirmed technical work already done by Fina.

"This is the first time we took a customer's data and did a complete technical study of their field. From the time we got their data to the time we reported back to them, it took two months. Over the past few years we've developed techniques for handling large amounts of data quickly and we were able to employ those techniques at West Brahaney. It also helped about 100 feet thick.

Nash of Fina said that his company will probably be starting two additional CO2 floods in the Permian Basin this year, in addition to the West Brahaney.

The 4,920-acre West Brahaney Unit is part of the Brahaney Field, discovered in 1945. Fina acquired interest in the Unit in 1992 and is the current operator. Production, which presently exceeds 11 million barrels of oil, is from the Permian San Andres Formation at a depth of about 5,300 feet. The producing interval is composed of two Dolomite porosity intervals, the Chambliss and the Brahaney, each

Get control of your oil and gas accounting with OGAS

These days, the bottom line is the boss. You have to know where every dollar comes from and where it goes. That's not always

or Your Informat

ur Informat

easy OGAS, the Petroleum Information Management System, streamlines the whole accounting

Total contents

New OGAS feature reduces pumping costs

Most pumpers spend between two and four hours daily preparing reports which then go through data entry at the office. This takes many productive hours with many opportunities for human error.

It would save many man-hours if a computer could collect the readings, apply them to the right database, and print reports.

OGAS's new Automated Production Package from Midland Southwest Software does just that. It allows pumpers to input readings into a handheld computer, whose data is then uploaded to the office via modem.

Midland Southwest Software attaches a special button memory to each well, tank, Lact unit or gas meter. This button memory holds the location code (where it is located) and the last two days of readings, previously input by the pumper.

Field personnel carry a handheld computer that interfaces with the button via a wand. The button downloads its location code and the previous readings data. The pumper then inputs the current readings, which the handheld then transfers to the button.

At the end of the day, the pumper dials up the office computer and downloads the data from his handheld. No more long hours doing the figuring and trying to read handwriting.

Also, there's no more data entry at the office; it's all there from the handheld. Office personnel can then generate reports as normal through OGAS.

Loss of readings is unlikely; the buttons will retain several days' worth of data, even if the handheld itself crashes. The buttons are engineered to withstand the temperature extremes and

highly corrosive gases at well sites. The handhelds have easy to read displays and large keys which can be operated by gloved hands.

Now, with all this data entry time reduced, you can catch up on those projects you've been putting off. Your pumpers can handle more wells more efficiently, reducing pumping costs.

process, saving data entry time and getting you critical reports quickly.

OGAS is a completely integrated accounting program from Midland Southwest Software, whose development began 17 years ago. The program has been used by hundreds of clients, whose input has been invaluable in making it as easy to use and as comprehensive as it is today.

Its two main advantages, according to Software-Sales and Marketing Manager Steve Pruitt, are its user-friendliness and the company's customer service.

You make each entry once and the program plugs the number everywhere it needs to be," he said.

After installing OGAS on your system (they can support a vari-ety of types), they offer complete training and support services. But with the extensive array of online, context-sensitive help menus, many users need little help from the company.

OGAS's wide range of reports renders it a valuable tool for both managers and support personnel.

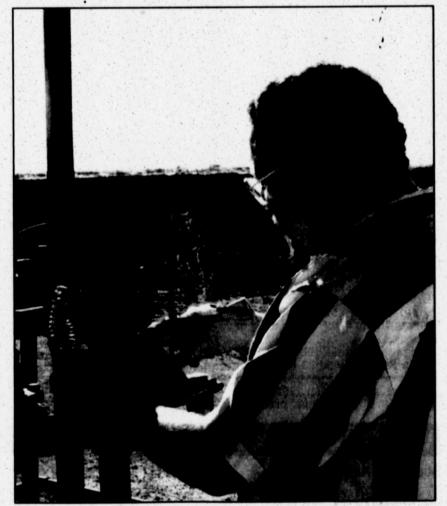

"You make each entry once and the program plugs the number everywhere it needs to be," Steve Pruitt

Midland Southwest Software

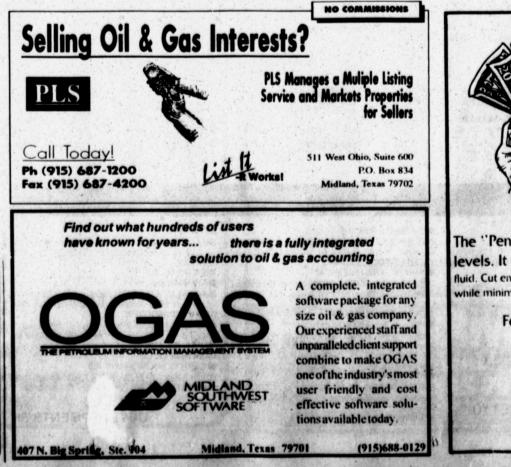

The base system includes: integrated general ledger, accounts payable, JIB, revenue distribution, authorization for expenditure, well expense, revenue history and laser generated checks and forms. There is also an extensive list of additional, fully integrated modules to fit other needs. It can be a tremendous chal-

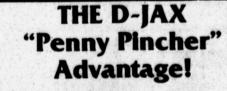

lenge to track the flow of oil, gas and money. OGAS makes the money part much more efficient.

OGAS is marketed by Midland Southwest Software. For more information, call 688-0170.

OGAS's new Automated Production Package allows pumpers to input daily readings into a handheld computer. This data is then uploaded into the office computer, saving hours of manual figuring and data entry.

The inexpensive "PennyPincher" Pump-off Control will: Greatly reduce your lifting cost on marginal wells. Increase the economic life of stripper wells.

The "PennyPincher" takes advantage of changing fluid entry levels. It will also: Reduce rod parts and tubing leaks caused by Pounding fluid. Cut energy costs by not operating a partially filled pump. Maximize production while minimizing costs.

> For the "PennyPincher" advantage, contact: **D-Jax Corporation** Drawer 1073 Midland, TX 79702 (915) 683-5710 1-800-446-3529

AWARENESS: Legislators hope to help industry

(From1H)

planned.

"I do think, over the years, the petroleum industry has been lax in that area. That's why the PBPA has made such a strong effort with the local NEED - National Energy Education Development program. We need to start educa-tion in elementary school. The industry is playing catch-up in telling our story. But we're work-

ing on it." While he applauded such leg-islative incentives as the natural gas cooperative bill and efforts to address royalty fairness on public lands and efforts to protect tax incentives such as depletion allowance and intangible drilling costs, Kiker said he is pessimistic anything can be accomplished during an election year.

Eshelman agreed that, in the 13 months since President Clinton accepted a U.S. Department of **Commerce report calling imports** a threat to national security, little action has been taken. But, in that year, legislation has been passed

allowing exports of Alaskan North streamlined paperwork burden on of these efforts to reduce regula-Slope oil and royalty relief for royalties on public lands, requiring tions are not aimed specifically at deepwater drilling in the Gulf of Mexico and for heavy oil drilling in California, measures that have spurred drilling and boosted production in those areas.

Rep. Smith said that when Clinton accepted the Commerce report, "he felt the pain of the oil and gas industry but offered no plans to end that pain.

Smith noted that the nation's dependency on foreign oil costs \$60 billion annually and makes up a substantial part of the trade deficit, and that 85,000 jobs have been lost since 1991

"Public servants must do more than feel pain. They msut end pain. Lower taxes, reduce regulation, lower the burden of government on our oil and gas industry. As we approach the next century. we must once again make a domestic oil and gas industry a priority," Smith stated.

Eshelman called for additional action, including increased access to public lands, a simplified and

cost-benefit analysis on proposed new regulations and restructuring the Alternative Minimum Tax. Negotiations are underway to alter the Oil Pollution Act of 1990, which requires offshore operators to come up with \$150 million in insurance coverage before they can drill, lowering that amount to a more appropriate \$35 million.

While IDCs and depletion allowance has come under attack by some as "corporate welfare," Combest said he expected those tax incentives to remain intact.

"In fact, over the years, Republicans have liked the idea of increasing tax benefits for both IDCs and exploration and production. Those, and the burdensome overregulation imposed by a government under both Republicans and Democrats, have to be confronted. We have tried and will continue to try to deregulate the industry to get some of these bur-dens off its back," he added.

He emphasized that while many

Schlumberger

tions are not aimed specifically at the energy industry, it will benefit from such efforts. And efforts to reduce regulations by the Environmental Protection Agency and **Occupational Safety and Health** Administration will specifically help the industry, he added.

Like Combest, Bonilla is a co-sponsor of Smith's bill allowing creation of natural gas cooperatives by smaller producers to market their natural gas production. And like Combest, he said is working to ease regulatory burdens on the industry

"I'm working to get the EPA to be more understanding and work with producers rather than serving as a Gestapo against the industry In the energy industry, everyone is an environmentalist, everyone wants to preserve the environment. The EPA has been more of a burden than anything else in stopping exploration. That falls under the umbrella of seeking regulatory relief so we can allow more exploration."

Shopping for Accounting Software?

PAGE SH

WolfePak is a true PC based (i.e., programmed specifically for PC applications) modular accounting system. WolfePak is completely integrated and performs equally well under Windows or DOS operating systems. This software can be run as a single station or is fully networkable on Windows 95 or 3.11 or LANtastic/Novell.

WolfePak Financial Accounting software is fast, user friendly and very flexible. In other words, WolfePak does not control you, you control it! Purchase price includes up to 18 hr. of in-house training. Initial installation and follow-up software support is provided locally by Dalton, DeFrance & Assoc., Inc.

General Accounting modules: G/L, A/P, Quick Check, A/R, Payroll, 1099's, General Purpose Invoicing & Inventory, Consolidations.

Oil & Gas modules available: JIB, Rev. Distribution, Investor Check Stub, CDEX, O&G Production Reporting.

Union Pacific and Amoco form venture to drill Austin Chalk

FORT WORTH - Union Pacific Resources Group Inc. and Amoco-Corp. have reached agreement to jointly explore for and produce hydrocarbons from the Austin Chalk formation in Central Louisiana

The targeted area will be above Amoco's Tuscaloosa reservoirs in Point Coupee, Livingston, West Feliciana and East and West Baton Rouge Parishes, Louisiana. Under this agreement, UPR and Amoco will have a 50 percent working interest and UPR will be the operator.

"This agreement combines Amoco's extensive three dimensional (3D) seismic coverage and land position in the area with UPR's unparalleled experience with horizontal drilling," said George Lindahl III, executive vice president of Operations for UPR. These combined strengths are critical for economic success due to the structural complexity of the area and historically difficult drilling challenges.

This agreement covers an area encompassing approximately 400,000 acres under which Amoco currently has 75,000 acres under lease and owns approximately 220 square miles of 3D seismic data.

NAMEDROPPING

BARRY L. KEITH has joined Allstate Services Environmental's Midland office.

He has an extensive background in the environmental industry as well as the oil and gas industry and mining operations.

THOMAS C. LARSON has joined the Midland office of Geraghty & Miller Inc.

He has 12 years experience as a petroleum geologist and over three years experience as an environmental scientist with expertise in hydrogeological assessments of soil and groundwater; asbestos, lead and radon surveys and Phase I/II environmental property evaluations.

EUGENE F. "BUD" REID of Vortex Petroleum in Santa Barbara, Calif. will assume the presidency of the 32,000-member American Association of Petroleum Geologists on July 1. He has served the past year as president-elect on the association's executive committee.

His career began in California with Thomas J. Fitzgerald Inc., Shell Oil Corp. and Gene Reid Drilling prior to working for Occidental petroleum Corp. from 1959 to 1971. He then became an independent geologist and was a co-founder of Sunburst Exploration, located in Bakersfield and Santa Barbara. He sold that company in 1993 and formed Vortex Petroleum.

Santa Fe Energy Resources has promoted GERALD CARMAN to treasurer. He will be responsible for managing the company's cash resources as well as its debt compliance and project financing.

He joined Santa Fe Energy in 1991 as supervisor, tax compliance, subsequently promoted to manager of tax planning then manager of corporate planning.

Retired Conoco/Du Pont executive CONSTANTINE S. "DINO" NICANDROS has been elected to the board of directors of Mitchell Energy & Development Corp.

Two new members have been named to the board of directors of Petrolite Corp

JERRY B. DAVIS is retired president and chief executive officer of

Otis Engineering Corp., a subsidiary of The Halliburton Co. DR. BRIAN M. RUSHTON of Bethlehem, Pa. is immediate past president of the American Chemical Society.

The officers of Offshore Energy Center have been reelected to serve another year.

MIKE M. CONE, chairman of Tri-C Resources Inc., was reelected chairman of the board; LESTER D. MALLORY JR., president and chief executive of Serengeti International, vice chairman; DILLARD S. HAMMETT, director, Energy Services Co. Inc., vice chairman/operations; HOMER H. HERSHEY, senior vice president, production, Mitchell Energy & Development Corp., vice chairman, finance; JAMES L. PAYNE, chairman and chief executive, Santa Fe Energy Resources Inc., vice chairman/educational outreach; and KEN R. LeSUER, president and chief executive, Halliburton Energy Services, secretary

Marathon successfully completes three-well program in deep Gulf

HOUSTON — Marathon Oil Co. announced that a three-well appraisal program on the Viosca Knoll Block 786 discovery in the deepwater Gulf of Mexico has confirmed a hydrocarbon accumulation estimated to be in the range of 80 to 100 million barrels of oil equivalent. The discovery is located in 1,750 feet of water 130 miles southeast of New Orleans.

Marathon and Texaco Exploration and Production Inc., the 2 well was directionally drilled to operator, each own a 50 percent 11,554 feet measured depth with a working interest in this 5,760-acre bottom hole location 0.6 miles block. Both companies have northeast of the No. 1 discovery formed an inter-disciplinary. well. inter-company project team to 2 well was drilled to 14,050 feet facilitate, development. The Texaco/Marathon team is

expected to award contracts for

preliminary design work during

the next few weeks. Selection of the

final development concept is antic-

ipated this summer with first pro-

duction to begin in late 1998 or ear-

which has an interest in 42 deep-

water leases, has currently identified 18 leads and prospects to pursue and has plans to drill six deepwater wildcat wells in 1996. The Viosca Knoll Block 786 No.

l discovery well was completed in August 1995, and tested at a daily rate of 7,700 barrels of oil and 4.4 million cubic feet of gas. Since that time, Texaco has

drilled three delineation wells: The Viosca Knoll Block 786 No.

ly 1999.

measured depth with a bottom hole location 1.1 miles southwest of the discovery well.

A down-dip sidetrack of the No.

The No. 3 well was directionally drilled to 16,695 feet measured depth with a bottom hole location 2.0 miles southwest of the discovery well.

Three of the four wells on the prospect have been suspended and will be reentered and completed early in the development phase of the project. This will allow for early production while the remainder of the development program is underway.

Shelf.

. . . .

MIDLAND - Parallel Petrole-

um Corp. announced the comple-

tion of a major discovery well in the Downdip Expanded Yegua

trend, the Cox & Perkins Johnnie

Mae G.U. No. 1, located in Whar-

ton County, Texas, approximately

60 miles southwest of Houston. It

is the ninth consecutive Yegua

discovery well drilled in the last 12

The well flowed 2.1 million cubic

feet (mmcf) of natural gas and 293 barrels of condensate per day

(bcpd) on a 10/64-inch choke with

flowing tubing pressure of 6,167

pounds per square inch (psi) and

final shut-in pressure of 6,452 psi.

Test production was from selective

perforations at 9,568 to 9,653 feet.

The Johnnie Mae G.U. No. 1,

scheduled to come on line later this

month, is expected to produce

commercially at significantly

higher rates than it tested. Stabi-

lized production flow is expected to

be 5 to 6 mmcfpd of gas and 600 to

percent working interest (16 per-

cent net revenue interest) in the

well. Privately held Cox & Perkins

Exploration, Inc., Houston, is

operator of the project and owns a

40 percent working interest. Other

working interest owners are DDD

Petroleum Co., with its joint ven-ture partners Oryx NW Shelf Aus-

tralia Energy Pty Ltd and Yukong

Ltd., have been offered an offshore

exploration permit over Area

AC95-1 located in the Timor Sea

region of Australia's North West

covers an area of 3,241 square kilo-

meters, is located to the southwest

of the recent Corallina and Lami-

naria oil discoveries and north of

the currently producing Jabiru and Challis oil fields. The permit

is also 130 kilometers west of

ZOCA 91-13 which contains the

giant Bayu gas/condensate field in

which Parker & Parsley has a

22.5% interest. Water depths

across the permit range between

80 and 500 meters and is located

The exploration permit, which

Parallel Petroleum owns a 20

PAGE 7H

Energy, Inc., a wholly owned sub-

sidiary of Seitel, Inc. (NYSE:

SEI), 20 percent; Tenneco Ven-

tures, 10 percent, with individuals

owning the remaining 10 percent.

surveys covering approximately

96,000 acres in Jackson and Whar-

ton Counties onshore the Texas

Gulf Coast, Parallel has partic-

ipated in 24 discovery wells out of

30 drilled over the last 12 months.

The Company currently has 10

wells producing from Yegua sands

and 14 from the Frio formation.

Aggregate gross production from

the 23 wells is approximately 45

million cubic feet of gas and 1,900

barrels of condensate per day.

Production net to Parallel is

approximately 6.7 million cubic

feet of gas and 325 barrels of con-

Parallel, said that drilling has

commenced on another Yegua

prospect, another one is scheduled

to spud during the next month, and

additional Yegua leads-both

exploration wells and develop-

ment offsets-are likely to be

drilled later this year. Mr. Oldham

also said that up to 12 additional

wells in the Frio formation are

expected to be drilled during the

The permit will be awarded to

Parker & Parsley and its joint ven-

ture partners for an initial six year

term, and will commit the joint

venture to a guaranteed minimum

work program for the first three

years of four exploration wells

and 2,000 kilometers of 2D seismic

Parker & Parsley Petroleum

Company is one of the largest

public independent oil and gas

exploration and production com-

panies in the United States. Park-

er & Parsley's oil and gas proper-

ties are located in the United

States principally in the Permian

Basin of West Texas, the onshore

Gulf Coast region of South Texas

and Louisiana, the Mid-Continent

region, and internationally, in

TransTex Pipeline Company, a wholly-owned subsidiary of ONEOK Inc. K N will have 100 percent control through ownership and lease of the entire Red River intrastate pipeline.

The 372-mile intrastate pipeline extends from Hemphill County. Texas, near the Oklahoma state line in Hemphill County, Texas, to WAHA in Pecos County. Texas. The acquisition of the remaining Texas markets.

Red River Pipeline L.P. from tion of K.N's Buffalo Wallow and Westar Pipeline systems.

The Red River Pipeline is strategically located between the Buffalo Wallow and WAHA hubs and accesses K N's WesTex Storage facility in Gaines County, Texas. Ownership of the Red River Pipèline will increase K N's ability to provide full-service transportation, marketing and storage services to mid-continent and West

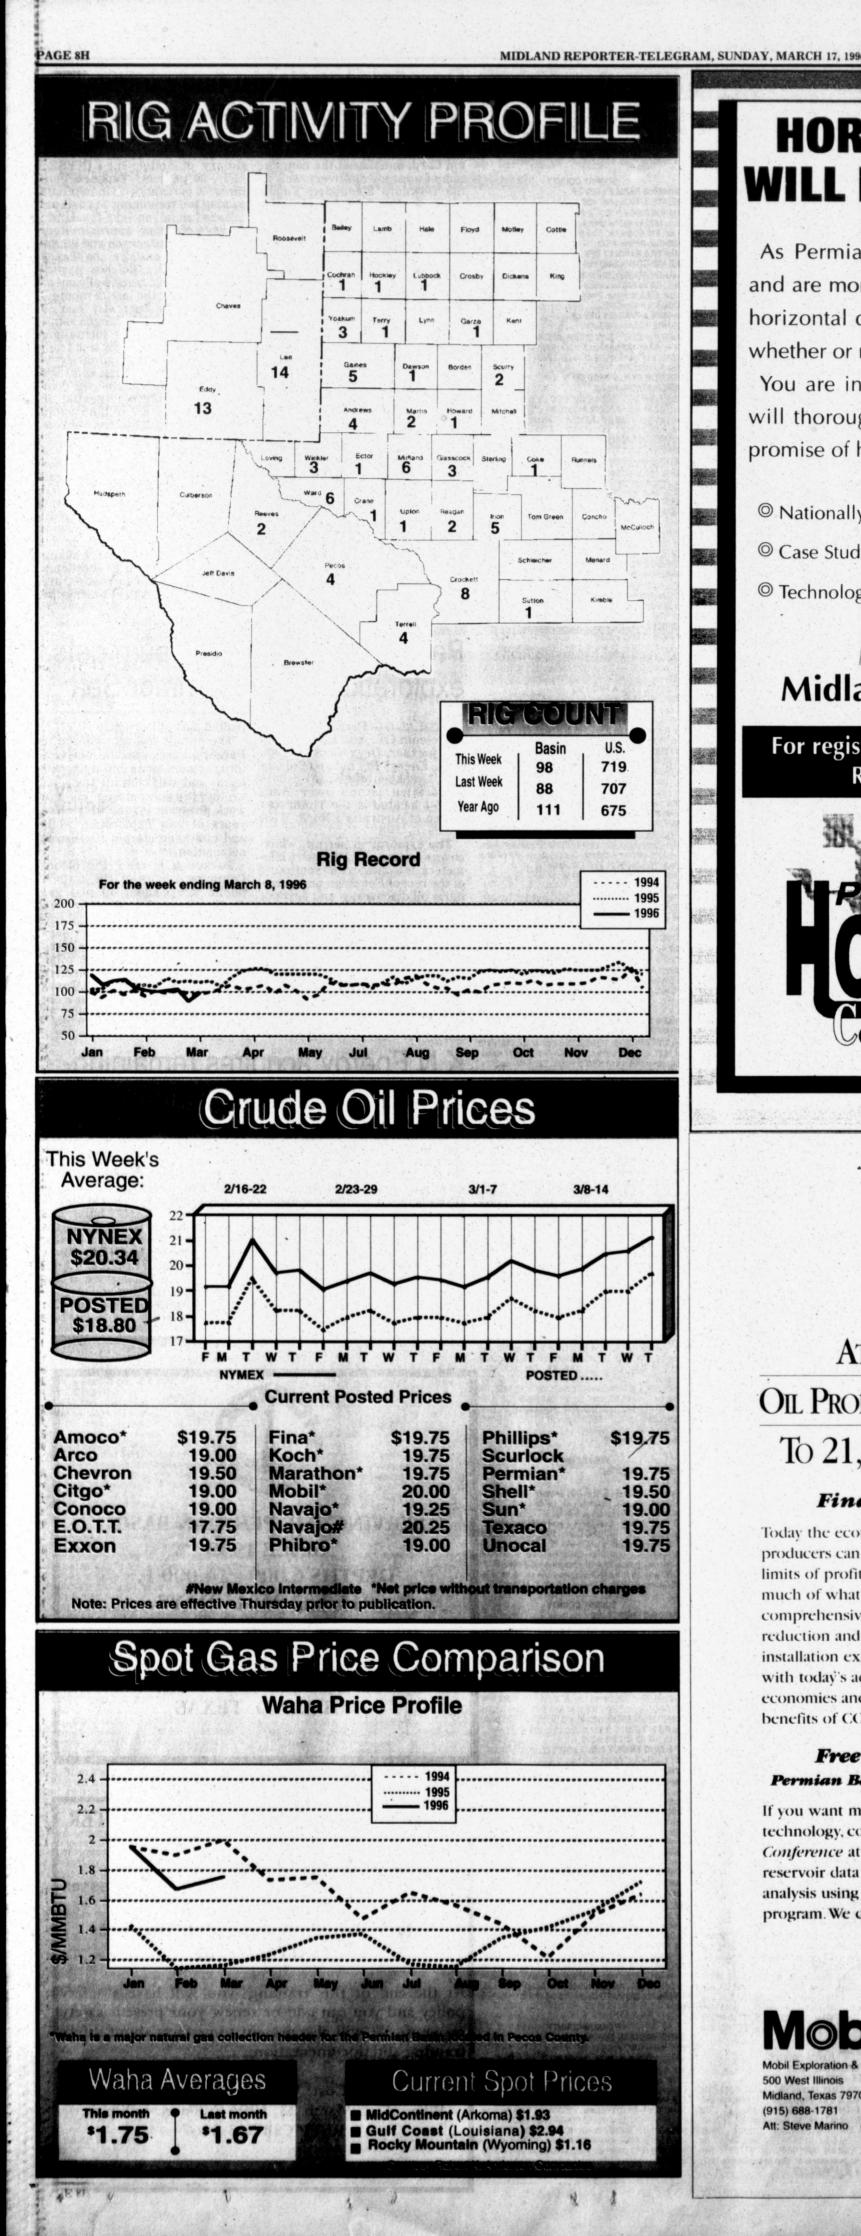

Safety Program for Small Business **OSHA** Grant

At the end of this training, you will have a safety policy and you can add or renew your present safety program. We will also present some facts about safety training and documentation.

Cost: \$2500 Per Person When: Sat., March 23, 1996 8:00a.m.-5:00p.m. **RSVP Call 563-3067**

11900 West I-20 East

Odessa, Tx. 79765

HORIZONTAL DRILLING WILL MAKE A DIFFERENCE

As Permian Basin reservoirs become more mature, and are more fully defined by new seismic technology, horizontal drilling will inevitably make a difference in whether or not some reservoirs remain commercial. You are invited to attend a two day conference that will thoroughly explore the technology, potential and promise of horizontal drilling for the Permian Basin.

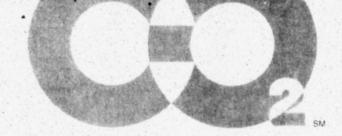

Nationally Recognized Speakers © Case Studies [©] Technology Exhibits

[©] Reservoir Operations © Economic Profiles ^O Training Sessions

April 30 - May 1 Midland Center, Midland, TX.

For registration and exhibitor information call Renee Pickard (915) 687-9004

AT MOBIL'S SALT CREEK UNIT, **OIL PRODUCTION WENT FROM 9,000 BPD** TO 21,000 BPD IN LESS THAN A YEAR.

Find out what CO₂ can do for you

Today the economics of CO₃ recovery have improved to the point that producers can consider CO, floods in fields already worked beyond the limits of profitable water flooding. We know, because we developed much of what helps make CO, flooding so affordable today comprehensive reservoir characterization and analysis software, risk reduction and management programs, cost/benefit analysis, design and installation expertise, and creative financing and payment plans. Along with today's advanced technologies and software, new equipment economies and lower CO₂ prices have brought the extraordinary benefits of CO, EOR within reach.

Free preliminary reservoir analysis, Permian Basin Oil & Gas Recovery Conference, Booth 27/28

If you want more detailed information on the latest CO₂ flood technology, come to the Permian Basin Oil & Gas Recovery Conference at the Midland Center, March 27-29. Bring along your reservoir data on disk, and we'll give you a free preliminary reservoir analysis using our newest, most accurate and advanced screening program. We can discuss the feasibility of your next project.
