

Investing of Wheat Crop Underway in County

The 1959 wheat harvest in Haskell County is well underway. A full two-thirds of the normal harvest of wheat from the county was brought in Tuesday, May 19, by E. Robinson, who harvested 60 bushels per acre in the field adjoining the town of Haskell. The content of the grain averaged 13.20 percent moisture and was valued at \$1.75 per bushel.

Johnny Grand, manager of the Calvin Mill, reported that the grain averaging 13.20 percent moisture was also under way. Grand reported that the yield was 18 to 20 bushels per acre and that the load testing was 13.20 percent moisture. He estimated that this year's crop is one-third above last year's.

W. W. Martin, manager of the Haskell Mill, reported that he harvested in the county.

Abilene Editor Guest Speaker At Rotary Club

An interesting review of the world's largest newsgathering agency, the Associated Press, was given members of the Rotary Club and guests at the regular meeting and luncheon Thursday in the Highway Drive In.

The speaker was Ed Wiseman, managing editor of the Abilene Reporter-News.

An informed citizenry makes our nation great, and because the Associated Press impartially records and disseminates news of happenings throughout the world, it is one of the most important institutions in the free world, the speaker declared.

The Associated Press was formed by six newspapers in New York in 1848 as a cooperative newsgathering agency. Although it has a budget of \$32 million for the current year, the Associated Press has no stockholders, and distributes no dividends, the speaker pointed out.

"The Associated Press has but one function, objective reporting of the news as it happens throughout the world, regardless of political or governmental pressure," the speaker declared.

The Associated Press has some 1,700 member newspapers and the 7,500 AP staff employees file more than five million words daily in recounting news happenings. In addition the AP operates radio and wire photo services which serve 370 newspapers in the U. S.

Out-of-town guests at the meeting and luncheon were Rotarian J. E. McDavid of Stamford and Bill Thomas of Austin, engineer with the Railroad Commission.

Tax Valuation Speaker's Topic At Lions Club

The work of equalizing valuations for tax purposes, now underway in Haskell County, was the subject of an interesting talk by Lee Bennett of Ft. Worth at the regular noon meeting and luncheon of the Lions Club Tuesday at the Highway Drive In.

Dennett, a representative of the firm of Pritchard & Abbott, Fort Worth valuation engineers, is in charge of the project currently under way here.

He explained that resident city property valuation is based on sales over a period of several years. The value of farm land is established on the basis of production over a period of time, he stated.

The speaker emphasized that after the initial valuation is set up, Board of Equalization meetings will be scheduled at which time property owners may appear to discuss any change they consider equitable in connection with their property.

A rustic fence carried many familiar cattle brands of early days in this area.

In charge of arranging the headquarters building and museum, and serving as hostesses for the Old Settlers and the day's program was a group composed of Mmes. Tommie Hawkins, C. L. Lewis, J. F. Cadenhead, Tanny Squyres, Al C. Williams, Henry Withers, Miss Beryle Boone, and others.

Another Successful Roundup

Another successful Rice Springs Roundup went into the record books at week's end, marking an example of community cooperation in a civic project which benefits in some manner, not only every business enterprise in Haskell, but the individual citizen as well.

Success of the annual event is not measured solely by the financial standard. Other factors, including the building of better relations with neighboring communities and out-of-town visitors who come here for the occasion, are involved. The impressions these visitors carry away with them, the welcome they received and the treatment accorded them, can mean a great deal to Haskell and its future.

In conversation with a number of out-of-town visitors, many of them remarked on the friendliness of Haskell people, the welcome atmosphere and courteous attitude found when they visited in local stores.

If impressions like these can be left with all strangers who visit Haskell, the occasion of their visit—in this case the Rice Springs Roundup—can be counted a success in the fullest sense of the word.

A major share of credit for the success of the annual Roundup goes naturally to the sponsors, the Haskell County Sheriff's Posse. Also due a share of credit is the large number of civic-minded citizens, both men and women, who gave generously of their time and means in making the program possible.

Hope Springs Eternal

Legislators are again asking the people for a pay raise—this time a more modest amount.

A proposed constitutional amendment, approved on the last day of the regular session, would give lawmakers an annual salary of \$4,800. In addition, they would get \$12 a day expense money for a 120-day session every other year.

At present, both senators and representatives get \$25 a day for a 120-day session plus \$25 a day for each called session. It's a minimum total of \$3,000 for two years when there are no special sessions. Under the new proposal, the minimum for two years would be \$11,040. People will vote on this plan at the general election in November, 1960.

Liberty Came First To Them

(The Houston Chronicle)

The craze for security which today expresses itself in widespread willingness to barter away freedom for security recalls the entirely different attitude of the first colonists on these shores.

More than half the Pilgrims died during their first winter at Plymouth Rock. The Mayflower remained at anchor in the harbor for several months. The survivors could have given up the struggle and returned to the physical security of England. But when the Mayflower sailed, not a colonist took the easy way out.

"It is not with us," wrote one of them, William Brewster, "as with men whom small things can discourage or small discouragements cause to wish themselves home again."

To men who put freedom first as the one great good in life, the hardships they suffered—disease, exposure, the necessity of building such shelters as they could amidst bitter cold, and the danger of attack by the natives were all "small things."

If we have half as much regard for it as they had, our liberty is assured. If we put security first as a greater good than freedom, our liberty can be lost.

The young people were pleasantly entertained at the home of T. J. Wilbourn Tuesday night.

Roy Davidson of Olney, former resident in the Rochester and Rule country around the 20's, was recalling incidents of 35 and 40 years ago while here for Old Settlers Day during the Roundup.

Roy remembered back in 1924, a short time before he went to Henderson to work for an oil company, he was in Haskell with the notion of buying a car.

He was talking the deal over with one of our local dealers, who later got into a little jam with the finance people and went out of business as a result.

The dealer was a likable fellow, sociable (especially with a bottle) and a willingness to battle with anyone, anytime. The dealer invited Roy up to his house, and broke out a case of Canadian Club, just to be sociable while they talked over the car deal.

Roy was enjoying the hospitality, but knowing he had to drive back home, was sipping cautiously. The dealer well call Newt, was a free-wheeling elbow bender, and soon forgot the car sale as he devoted his interest to lowering the level in the quart of Canadian Club.

Roy decided it was time to leave, and his host drove him back to town. In a mellow and pleasant mood, he assured Roy that when he got ready for his car, Ol' Newt would give him the best deal he could find anywhere.

Then, as Roy prepared to leave, Newt remarked: "Wish you could stay in town a while longer, because I think I'll go down on the square and whip the Sheriff."

Roy couldn't stay for that event, and paid little attention to the remark. Back in Haskell sometime later, he learned Newt had found the sheriff but the fist cuffs didn't come off. The "law" locked him up for a cooling period, Roy was told.

To the average rodeo spectator, the judges, timekeepers and other officials in the judges stand right over the bucking and roping chutes literally have themselves a ball, occupying the choicest seats.

But to the men up there running the show it's a different picture, and a terrific headache at times, as District Attorney Royce Adkins can now testify.

The DA always willing to help in any civic enterprise, volunteered to work in the judge's stand. And in this case, "work" is an understatement—they had to slave.

Due to the exceedingly large number of ropers, overtime sessions were necessary after the regular night program. Thursday night wasn't so bad. They got home shortly after midnight.

Friday night was different, and it wasn't until 3:15 a. m. Saturday when the last calf was roped and tied down. Then the final night, Saturday, another overtime session was necessary in order to complete the finals.

Working right along with the DA in sleeping chores were Loyd Feemster, Garland Orr, Ray Overton Jr., Myron Beard, Dude Montgomery, Rodeo Secretary Wanda Stephens and Announcer Jack Johnson of Floydada.

The Sheriff's Posse, sponsors of the Roundup, must possess some sort of rain-making power, or else the weatherman takes pleasure in trying to drown out the Roundup, mud-dying up the arena and soaking contestants, spectators and posse members in the process.

Dr. Krick, if he's still in the weather control business, might pay the Posse a tidy sum for their rain-making formula. Beginning with first Roundup, rain—and we do mean rain—has fallen during the three-day show, or immediately preceding. There's always been enough to put a damper on one or more programs and cut attendance almost to the vanishing point.

This year, Roundup sponsors had a brilliant idea. They'd change the name of the riding club, thereby confusing the weatherman and getting him mixed up on his rain signals.

So, the Saddle Tramps discarded their original monicker and moved up into a more respectable name circle as the Haskell County Sheriff's Posse.

Then, as an added precaution, they embraced an astute business principle, and took out rain insurance on this year's show, specifying the hours from 5 to 9 p. m. during each day of the Roundup, boxing in Mr. Weatherman so to speak.

There was one small slip-up though. The policy should have read 5 to 9 a. m.

Just to prove that you don't outsmart the weatherman, J. Fluvius opened up around 4:30 a. m. Friday and by 9 a. m. one and one-quarter inches of rain had covered this section.

It can be recorded, however, that the show went ahead on schedule, with attendance and interest equaling or exceeding any past Roundup event.

Eventually, we predict the Posse and the weatherman will develop friendlier relations, with the rain coming a little earlier in the spring planting season, leaving a spot of fair weather for the Roundup program.

The weather jinx at this particular time of year has also worked against the West Texas Utilities Company.

Last year, on the opening night of the Roundup, lightning struck near a sub-station at the WTU Paint Creek power plant, causing thousands of dollars worth of damage and disrupting service for a time.

This year, during Friday morning's hard rain, lightning struck one of the WTU primary circuits in East Haskell, blacking out one section of town and causing heavy damage to transmission lines.

The most striking phenomenon, however, was the brilliant electrical display for several seconds, when the high voltage lines were broken. The resultant intense flash lighting up the whole country, rivaling the sun in brilliancy.

The flash was noticed as far away as Sheppard Air Force Base in Wichita Falls, and Dyess AFB in Abilene.

At the Abilene base, observers immediately called the State Highway Patrol and it was several minutes before the brilliant display could be explained.

Sagerton News

BY MRS. DELBERT LEFEVRE

Mr. and Mrs. T. J. Wilson of Abilene visited with Mr. and Mrs. Albert Stremmel and Mr. and Mrs. August Stremmel Sunday.

Mrs. Minnie Koch and son of Lugers were guests in the August Angerman home Sunday.

Mr. and Mrs. Werner Tichelman accompanied Mrs. Shatto to as far as Austin last week end. They visited with relatives there, and Mrs. Shatto went on to Alto Loma where she picked up Rev. Shatto, who came back to Sagerton with them. Rev. Shatto is the former pastor of St. Paul's Lutheran Church. Mrs. Shatto taught in the Old Glory high school, and now that the term is ended, she will join her husband. Their daughter Sarah, graduated from the Old Glory school.

Mrs. Emil Kainer and Mrs. Bertha Lamert, who has been visiting here from San Angelo, went to Houston Friday of last week to visit with Mr. and Mrs. Roland Rinn and family there.

Frank Kainer of Stamford who was recently released from the Stamford Hospital, after undergoing surgery, was a guest of Mr. and Mrs. August Stremmel last week.

Diane Monse, daughter of Mr. and Mrs. Jack Monse, was honored on her birthday Wednesday, May 13, at the home of her parents. The birthday cake, holding five candles, was served to Mr. and Mrs. Adolph Helm, Mr. and Mrs. Leo Monse, Mr. and Mrs. Norvell Lehrmann, Ricky, Randy and Norva Jane, Miss Jeanette Helm, George Mullins of Stamford, Mr. and Mrs. Edwin Stremmel, Linda and Larry, and Henry Hagemeier. The sixth, seventh and eighth grade students of the Sagerton School, accompanied by their teacher, Miss Irene Stewart, and Mr. and Mrs. W. A. Bell, visited points of interests in

Austin and San Antonio last weekend.

Mr. and Mrs. Ben Hess, accompanied by Mrs. John L. Brooks and Judy, and Miss Buelah Mae Summers, visited in Spur Sunday with Mrs. Ciota Engleman.

Mr. and Mrs. Walter Kretschmer of Haskell were guests in the Buford Letz home Sunday.

Alvin Ulmer and Mr. and Mrs. Leonard Ulmer of Stamford visited in Big Spring Saturday with Mr. Ulmer's uncle, who is a patient in a hospital there.

Mr. and Mrs. Joe Clark, accompanied by Mr. and Mrs. Carl Hertel, visited with Janice Hertel in the Scottish Rite Hospital in Dallas Sunday. She is reported to be doing fine after her operation, and is looking forward to coming home in a couple of weeks. She will have to spend most of the summer in bed, because she will not be allowed to move about much. Her operation was unnecessary so that she would overcome the effects of polio.

Everyone is again reminded of the Sagerton School Homecoming to be held Sunday, May 31. All residents of this community are asked to bring potato salad and slaw, if their last names start with an "A" through "M," and those with last names starting with letters in the balance of the alphabet are asked that they bring cakes and pies. The food committee asks that you please cut your cakes and pies at home to eliminate some of the work of those who serve the meal. The meat will be provided by money received from donations from people in the community and surrounding towns and communities, and places will be provided at the registration desks for any other contributions anyone might want to give to help out with the expenses.

Mrs. Johnny Spitzer has been spending much time with her mother, Mrs. Freeman of Rule, who had surgery at the Haskell Hospital last week.

"Gigi" Hailed As One Of Year's Top Movies

"Gigi," new M-G-M musical romance, with songs by Alan Jay Lerner and Frederick Loewe, the hit composers of Broadway's "My Fair Lady," is hailed as one of the year's outstanding movie attractions.

An Arthur Freed production in CinemaScope and color, the picture stars Leslie Caron, Maurice Chevalier and Louis Jourdan, with Hermione Gingold, Eva Gabor, Jacques Bergerac and Isabel Jeans in co-starring roles.

The story of "Gigi" deals with an impressionable young girl brought up in Paris at the turn of the century and taught the "facts of life" by her grandmother and an aunt, both of whom have lived a rich and full life without benefit of matrimony. Their attempts to persuade the independent-minded Gigi that champagne and jewels are more important than love backfire when the gawky young girl blossoms into glamorous woman. And when the most eligible man in Paris falls under her spell, Gigi is able to prove that love can triumph over all.

"Gigi" casts Leslie Caron in her first motion picture role in two years. She recently scored a hit in London in the stage version of the Colette novel.

Chevy pickup pulls through "bottomless" pastures to keep stock fed!

'At the Hall Bros. Dairy Farm, Montgomery, Ala., they say this 4-wheel drive Chevy will go anywhere to keep stock fed—even through hub-deep muck that makes it a fight all the way. And yet after a full year of it—no mechanical trouble of any kind!

That Chevy pickup may not win any beauty awards (till it's cleaned up). But it's sure walking off with the top prize for dependability. And that's standard Chevrolet procedure. Put a Chevy truck to work and it keeps

on working until you say quit. Not before. We aren't claiming that every Chevrolet truck is turning out to be a miracle-worker and averaging 100,000 miles before a valve job. (Even though some are going 150,000!) You're sure to find, however, that you can't buy more truck dependability at any price. And that's borne out by the fact that more truck owners put their faith, and their payloads, in Chevrolets than in any other make. Take your load and schedule figures to your Chevrolet dealer. He'll specify the best way to handle both and save in the bargain.

No job's too tough for a Chevrolet truck!

Now's the time—see your local authorized Chevrolet dealer for a real truck buy!

Treasure Trove Banquet Marks Installation Of Study Club Officers

An elaborate fanfare of music, song and gilt decor heralded the gala unveiling of the precious jewel "Privilege" which unlocked the chest of treasures assembled by members of the Progressive Study Club during their Treasure Hunt for Gerontology. Scene of the festivities was the banquet room of the Highway Drive Inn where members and guests were entertained at the Treasure Trove Banquet prepared under the direction of the Social Committee, Mrs. W. O. Holden, chairman.

Arranged on the banquet tables were gold treasure chests from which spilled "jewels and golden coins" and each place was marked by miniature golden chests.

Those present were welcomed by Mrs. Wilda Medford, director, who quoted from Robert Browning as she invited: "Grow old along with me. The best is yet to be... The last of life for which the first was made."

Mrs. Al Williams furnished the accompaniment for a quartet composed of Barbara Rexrode, Mary Frances Gibson, Donna Brown and Rhonda Turner who sang "Always," "Give Us This Day" and "End of the Road."

Mrs. Bailey Toliver, club president, gave a resume of the club year, listing outstanding projects and contributions for the year. Tribute was paid to Mrs. R. W. Herren for her work as Study Course chairman and the excellent quality of these programs; to Mrs. Wilda Medford for her efforts as Finance chairman; to Mrs. Don Nanny for her outstanding leadership of Haskell's Welcome Committee; and to Mrs. W. A welcome was extended by Mrs. R. W. Herren to the new members, Mrs. Hubert Bell, Mrs. Steve Stephens and Mrs. R. R. King. Mrs. Herren told of the purpose of Federated Clubs and gave a brief history of the Progressive Study Club.

Mrs. Hubert Watson, Stamford, stressed the need for cooperation of all clubs at local, district, state and national levels. Following this, Mrs. Herren explained "A Collect for Club Women" and led the members as she repeated The Collect.

Continuing the jewel theme, Mrs. E. L. Martin of Stamford conducted the installation of officers for the year 1959-60. As each officer was named, she placed a jewel in a crown, resulting in a lovely jeweled crown resting on a velvet pillow which was placed before the club members.

Mrs. C. M. Conner Gives Program for H-D Club

The Josslet Home Demonstration Club met Tuesday May 12, in the home of Mrs. W. C. Norton.

Mrs. Paul Cothron, vice president, called the meeting to order and members repeated The Lord's Prayer.

Roll call was answered with My Favorite Flower.

Mrs. Marvin Walters led the singing with Mrs. Carl Bailey at the piano.

Mrs. Chas. M. Conner gave the program on Flower Arrangement, and made two different types of arrangements. When using a tall container, measure the stems of the flower three times the height of the container. She said containers used were most important in making beautiful arrangements. Also consider the texture of the flowers and let one color predominate.

When planting your flowers keep your living room in mind and plant colors that will harmonize.

Mrs. Conner answered the ladies' question on how to arrange different types of flowers from their gardens.

Do not be a copier in arranging flowers. Use your own imagination and create your masterpiece.

Those attending the meeting were Mrs. Conner, Miss Barbara McAnelly, Mmes. Ray Cothron, Mrs. Laton Robertson, T. M. Howeth, J. L. Toller, W. C. Norton, M. L. Walters, Paul Cothron, C. A. Thomas, Carl Bailey, J. P. Perrin and the hostess, Mrs. Norton.

WTU Magazine Is Rated Tops In National Class

The Electric Times, employees' monthly magazine edited by Jimmie Martin of the Public Service Department of the West Texas Utilities Co., was named first place winner in the 1959 Better Copy Contest, sponsored by the Public Utilities Advertising Association.

Cal Young, WTU president, announced today that WTU again has won outstanding honors in the field of advertising but in a new category. The company has won several first awards in this contest in recent years in advertising and window displays, but this is the first time to win honors in the magazine category. The awards were made May 9 at the annual PUA convention in Dallas.

The Electric Times is one of the pioneers in the employee magazine field and is now in its thirty-second year of publication. Jimmie Martin has served as publication editor for the past 14 years.

This is the second national honor to be awarded to the Electric Times in recent years. In 1951 the magazine was awarded the Freedom Foundation Medal for editorials and feature articles promoting a better understanding of the American Way of Life. One was awarded the company, a second to Martin.

More than 2,000 entries were received in this year's Better Copy Contest, which is the 36th annual contest conducted by the association and the oldest continuous advertising competition. The Electric Times was awarded first place in the top category which includes employee publications of all privately managed electric utilities companies with 100,000 or more customers.

The contest included newspaper advertisements, magazines, employee newspapers, direct mail, publications, display, posters, billboards, annual reports, radio and television, and motion pictures.

County 4H Club Boys Buy Meat Type Duroc Boar

County Agent F. W. Martin has just returned from Warner, Okla., where he purchased a boar for the Sears Swine Program of Haskell County 4-H Clubs.

The boar was purchased from Connor's Agricultural College at Warner. The animal is a son of Super Smooth, who is a son of Super Charm 2 which is certified meat sire No. 10. Super Charm 2 is the boar Henry DeKam of Chandler, Minn., has made such a good record with, Martin stated. Super Smooth is out of certified meat type litter. Super Charm 2 is the only Duroc boar to have two certified meat type sons, Martin added.

This boar pig is a full brother to the open gilt that sold Feb. 28 this year in the Southwestern Duroc Congress in Stillwater, Okla., to Burbanks Student Farm in San Antonio for \$350 to make it the highest selling animal in the sale. Haskell County 4-H Club boys also bought a gilt which is a litter mate to this boar.

It is the aim of 4-H Club boys in Haskell County to improve Durocs as fast as possible and bring them to more meat and less lard, Martin explained. This program has been underway in the county for the past four years and much progress has been made. "The Club boys are always looking for ways to improve the breed," Martin said.

IMPORTANT NOTICE TO ALL OWNERS OF DOGS

Every year from 6,000 to 10,000 dogs in the United States have rabies. The bite of a rabid dog can pass this terrible disease to children and adults. Once symptoms of rabies develop, the disease is fatal. After the bite of a rabid animal, vaccination of the person bitten is resorted to in an effort to prevent the development of the disease. This vaccination is known as the "Pasteur Treatment" and it requires daily injections of at least 14 days. These daily injections, although necessary, are annoying and painful and there is the possibility of serious reactions.

Dog owners should vaccinate their dogs for three reasons: (1) To protect your family and friends against rabies. (2) To protect your pet—your dog—from rabies. Your dog is a devoted and respected member of your family in health and in sickness and is entitled to your protection from this disease. (3) To play your part in obtaining health protection for your entire community. If all dog owners keep their dogs immunized through vaccination, rabies will no longer be a problem.

A move is under way to eliminate stray or unwanted dogs in Haskell and the City authorities ask your full cooperation. If your dog has not been vaccinated and does not carry a City registration tag, bring your dog to the City Hall Fire Station, Wednesday, May 27th, between the hours of 9:00 a. m. and 1:00 p. m. Dr. David Ballard of Stamford will be there at that time to give the rabies vaccination. Please bring your dog on leash and keep him under your control at all times.

Warden's Efforts To Nab Eagle Killer Has Fast Start, Disappointing Ending

LON PATE

The alligator that raised so much Cain when the lake went dry was a piker.

For this reporter's money, our district Game Warden can raise more Cain and create more commotion than the alligator ever dreamed of doing, when the Warden shines up that badge and starts out after an "eagle killer."

Now in case you didn't know (and we didn't until last week) Ol' Eagle Protector evidently considers a person who kills an eagle as the No. 1 Public Enemy, a character to be tracked down and summarily dealt with. Everybody knows that, he assures you.

Furthermore, Mr. Average Citizen, when you hear of someone killing an eagle and you're a mite curious about the particular species, don't—we repeat DON'T—write the Game and Fish Commission at Austin for information. Get in touch with Ol' EP, he's the man to see. Everybody knows that. (We didn't, but we're learning.)

But back to the story. The untimely demise of the particular eagle involved came some six weeks ago and was considered something of a feat by admiring friends of the marksman who brought the big bird down.

Not everybody kills an eagle hereabouts these days, so being a newspaper reporter, we checked with the man, verified that he'd shot the big bird, then wrote a newspaper story to that effect.

Weeks later, Ol' EP gets the news—goes into action, and does he investigate or DOES he investigate. In the finest tradition of the Northwest Mounted, the tracking down of this heartless eagle killer was instigated in a stern and determined manner. You just don't get by with this eagle killing business, not with Ol' EP around.

And since this is no ordinary deal, a Federal game warden is brought in, and tracking down the eagle killer begins.

First stop Ol' EP makes is the newspaper office, where he demands to know if this guy who killed the eagle dragged the bird around, showing off and bragging about his kill? Then he makes it clear to a startled reporter that inquiries about any eagle killed around here should be made to Ol' EP and not to the Commission at Austin.

Next, at the courthouse, a deputy sheriff is rebuked for not reporting this eagle killing business, as Ol' EP warms up his investigation.

A few more inquiries in a

similarly discreet manner, and Ol' EP has the eagle killer located. The fact that the man was attending a gin stockholders meeting just goes to prove that you're liable to snare an eagle killer in the most unexpected places.

Then a trip to Abilene, accompanied by the marksman, and the two wardens view the feathered remains of the defunct eagle at the shop of a taxidermist.

It turns out that the late departed fowl is a Mexican eagle, the species that sheep men used to pay a bounty on because of the bird's habit of feasting on lambs.

Fate thereby dealt Ol' EP a cruel blow, since there's no violation in killing a Mexican eagle. All that investigative skill for naught—love's labor lost, you might say.

Now just because this well-executed "investigation" was a bloop, don't get the idea that Ol' EP will relax his vigilance against eagle killers for one minute.

Wherever you see him, he'll be on the alert for this Public Enemy No. 1. Even around the lake, where most men center their attention on those swimsuit beauties or nifty shorts-clad jobs, Ol' EP may look 'em over, too, but his roving eyes will be searching out potential eagle killers.

Every little eaglet for miles around can now sleep serenely in its nest, secure in the knowledge that Ol' EP is on the job, ready to pounce on any eagle killer who dares show his head.

And if the powers that be ever start passing out medals to eagle killer catchers, we have a nomination for EKC Medal No. 1—with Mesquite Leaf Cluster.

SALUTATIONS TO OUR HIGH SCHOOL GRADUATES

We are rejoicing with you in your accomplishments. We know that this is a just reward for your labors. We know that you have learned many things to help you lead a more useful and happy life.

We want to whisper a secret to you, and to all Youth everywhere: You are not only of more value than all other possessions, you are the basis and foundations for all other values.

There could be no civilization without you. You are the "Alpha and Omega" of all of God's plan and purpose for man. "Ye are the salt of the earth", "You are the light of the world."

We would like to have serious counsel with you. You are the Architects and builders of your own lives. You will supply the leaders and the workmen for your generation. We have confidence that you will do it well. We bid you: Learn to excel, not only others, but your own self. It is of much importance that you can do a better job than "Sarah or James" but it is of far more excellence that each day and each repeated task finds you more accomplished and more efficient than you were yesterday.

There is no unplanned progress. You can go forward only with a fixed purpose. You can drift downward aimlessly.

"Daniel purposed in his heart that he would not defile himself." Daniel defied every fear and challenged every foe and arose victorious with signal honors to himself and his God. The world holds abundant joy for you if your purpose is to bring joy to the world.

MR. & MRS. J. M. CRAWFORD

P.S. David charged his son, Solomon, saying, "I go the way of all the earth; be thou strong therefore, and show thyself a man."

Enroll Now For Kindergarten

Kindergarten is the first year of your child's school life, he comes not to learn the 3 R's but rather to build habits and share experiences which will help him learn the skills when he is old enough to do so.

He learns to get along with other children and with his teacher.

He will improve in physical co-ordination.

He will learn to work and play in a group and to wait his turn.

He will learn to follow simple and reasonable directions, to share common property, and to tell about his experiences before a group.

Your child will learn how to look at books, to love them, and to realize that printed words convey meaning.

He will be introduced to self-expression through singing, speaking, drawing and painting.

Kindergarten is an adventure for your child—both exciting and helpful.

To be eligible for Kindergarten during the 1959-1960 term, a child must be 5 years old on or before September 1, 1959.
