

# DoD announces split basing

WASHINGTON (AFNS) — A report on the proposed M-X split-basing concept has been sent to Congress, Department of Defense officials announced. Split basing is one of several systems under considera-

tion for the M-X project. Under split basing, half of the proposed M-X system — 100 missiles and 2,300 shelters — would be placed in the Great Basin area of Nevada and Utah, and the other half in the

southern high plains area of New Mexico and Texas.

The split-basing report indicates split basing would add approximately \$3.5 billion to M-X costs.

The report also states there are

no overriding advantages or disadvantages to split basing in terms of environmental and operational impacts, arms control implications or scheduled completion.

LUBBOCK, TEXAS

### 81-03 graduates 50

Fifty Reese officers will pin on the wings of an Air Force pilot this morning during graduation ceremonies for Undergraduate Pilot Training Class 81-03.

The graduation is scheduled for 10 a.m. in Simler Theater.

Guest speaker for the first graduation ceremony of 1981 is Brig. Gen. Regis F.A. Urschler, commander of the 47th Air Division, Strategic Air Command, at Fairchild AFB, Wash.

The Pittsburgh native enlisted in the Air Force upon graduation from high school and after basic training was initially assigned to Reese. In April 1954, General Urschler entered pilot training as

an aviation cadet, completing primary training at Hondo Air Base, Texas and basic training at Vance AFB, Okla. He was commissioned a second lieutenant and received his pilot wings in August 1955.

He is a command pilot with more than 11,000 flying hours, 1,500 of which he logged on combat missions.

Unlike most guest speakers at UPT graduations, General Urschler will be staying on at Reese for a few days, touring the squadron operations and getting an orientation ride in a T-38.

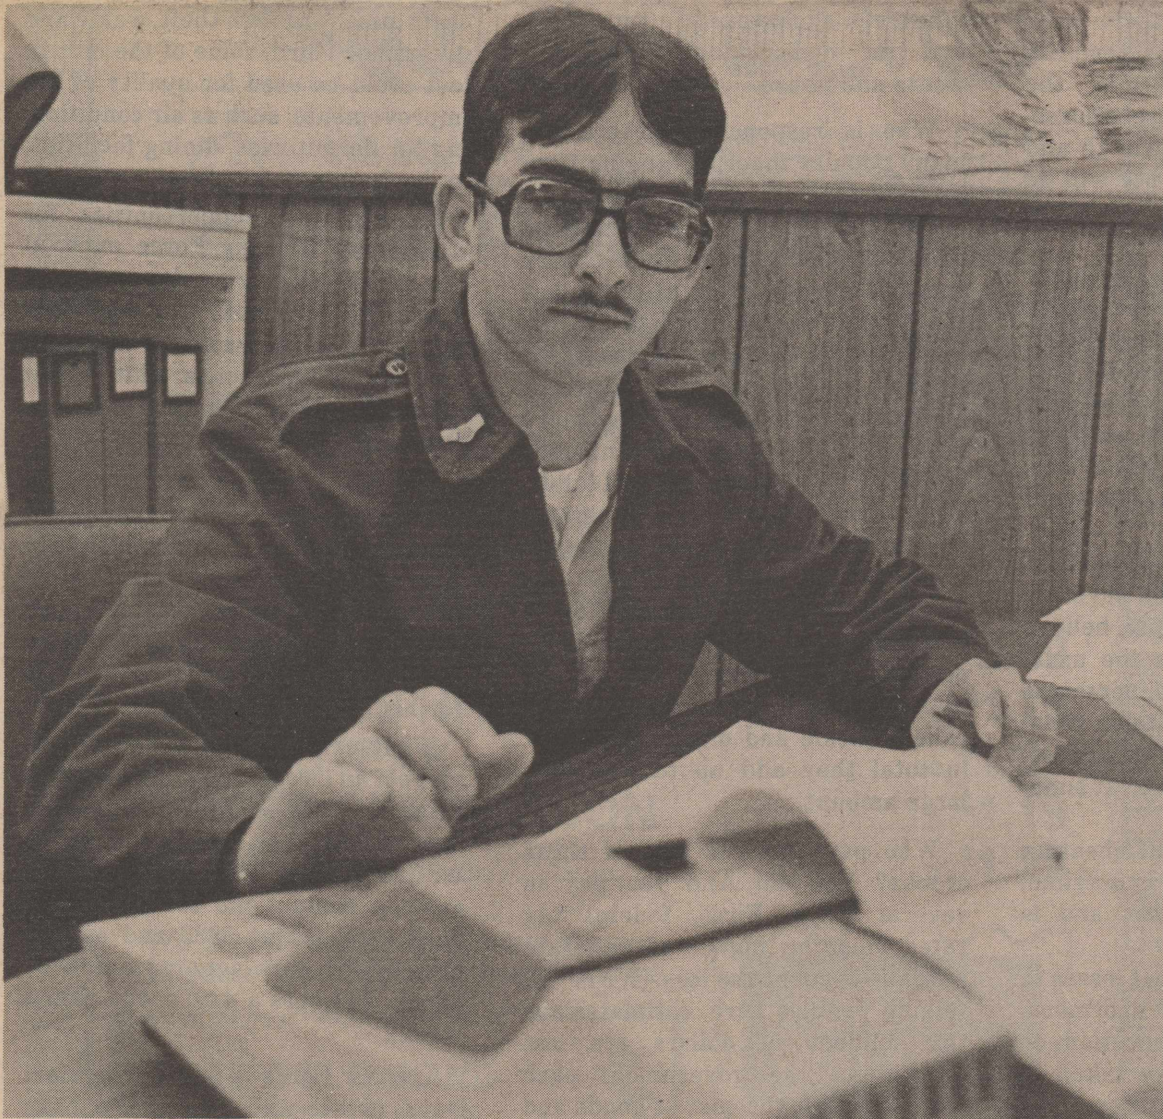

Class commanders during 81-01's training were Capt. Norman W. Goodyear and Capt. James R.

McDonald. Section leaders were Capt. Christopher B. Sinclair and Capt. Curtis L. Betebenner.

Following this morning's graduation, there will be a reception at the Officers' Club. Guests attending the graduation will be offered a special Red Carpet tour of Reese later in the day. Tonight, a dinner-dance honoring the fledgling aviators will be held at the Officers' Club. The affair begins at 6:30 p.m.

Graduates names and assignments may be found inside.

See page 10

#### Best in AF

A1C Robert Garcia, Fuels Management Branch, does some figuring in his capacity as Fuels Accountant. Airman Garcia and two other members of the Supply Squadron recently received Air Training Command level awards. All three were cited for their part in procuring the Daedalian Supply Effectiveness trophy recently. (U.S. Air Force Photo)

### Supply people net three top awards

Three Supply Squadron members were recently recognized for outstanding achievement in their respective fields when they received best in Air Training Command awards.

Garnering awards were A1C Denny L. Weston, Supply Trainee of the Year; Larry S. Schepers, Supply Manager of the Year; and A1C Robert Garcia, Fuels Trainee of the Year.

In addition to his most recent award, Airman Weston won the squadron Airman of the Year competition in 1980. In the citation to accompany the ATC award, he was cited for his "outstanding professional skill, initiative, leadership, integrity, devotion to duty and knowledge" which "resulted" in significant improvements within the Supply complex."

Airman Weston's job as a Mission Capable Section Controller entails handling supply requests to preclude aircraft grounds and possible training delays. He demonstrated his expertise in his job by developing a quick reference lateral support list which contains telephone numbers from sources all over the world. With the aid of this list, Reese has gone to the top in ATC in the amount of lateral support MICAP items received.

In addition, working with the Management Analysis Section, he developed a program that lists all MICAP incidents by national stock number and gives the number of starts, stops, total number of requisition hours, and the average order and ship time. This listing is used by MICAP personnel to identify the main problem items and allows them to take further external action to preclude future MICAP delay incidents.

Airman Weston has also excelled in off-duty pursuits, earning 14 credit hours toward a degree in Inventory Management, sponsoring a team in the Reese Christmas Classic and earning an award for submitting the most lead referrals to the Air Force Recruiter Assistance Program in the first quarter of 1980.

In the field of Supply Management, Larry Schepers proved

THE ROUNDUP is an unofficial newspaper published weekly in the interest of personnel at Reese Air Force Base of Air Training Command. It is published by Barron Publications, Inc., a private concern which is in no way connected with the department of the Air Force. Opinions expressed by publishers and writers are not

to be considered an official expression by the Department of the Air Force. The appearance of advertising, including supplements and inserts, in the publication does not constitute an endorsement by the Department of the Air Force of the products or services advertised.

# Sure Pay guarantees check

by Col. Gobel James

Deputy Commander for Resources

If there were a temporary disruption of postal service, would you be sure of receiving your paycheck on time? A positive "Yes" answer can be given to this question if the member is a participant in the Sure-Pay Program.

Sure-Pay has a lot of benefits and I encourage all Air Force members not participating in the program to consider its advantages. Sure-Pay provides you with a direct deposit on payday. It is especially advantageous if you are in a permanent-change-of-station or temporary-duty

status, since pay is deposited directly to your account at the financial organization of your choice. Sure-Pay eliminates the worry of loss or delay of pay checks through postal problems.

As of Oct. 31, 1980, more than 82 percent of the active force and 76 percent of all civilian employees receive their pay through a financial organization. The Sure-Pay Program not only pays big dividends through savings in administrative costs for the Air Force, but you will feel good knowing that when payday rolls around your money will be available, wherever you are.

Sure-Pay is the surest way! See your Military Pay Section today.

Col. Gobel James

## CARE Line

(Editors note: All information provided to the CARE Line will be held in confidence. Callers are urged to give their name and duty number so that a personal reply may be made, however, neither are mandatory. Callers are urged to use their chain of command or the office of primary responsibility to air complaints or comments if possible. If not, call the CARE Line at Ext. 3273.)

### No cash

I have SURE pay. On Reese AFB, there is no place that I can cash my check without paying a fifty-cent charge. I think this is unfair.

There are four locations on Reese AFB where checks may be cashed: the Base Exchange, the Officers' Club, the Enlisted Club, and the Lubbock National Bank. The first three can be used by military and/or club members only. The Lubbock National Bank may cash checks for all Reese personnel, but is authorized by AFR 170-7 and

the local banking agreement to levy a fee for cashing checks for non-Lubbock National Bank depositors. The fifty cent fee agreed upon is deemed a fair charge to reimburse the bank for its services, loss of funds until reimbursed by check casher's bank, and to help make up for uncollectible checks.

# AF frowns on white-collar crime

The promising careers of three Air Force members and a civilian employee were suddenly interrupted recently when they were caught cheating Uncle Sam.

A rated officer and below-the-zone major selectee had been receiving married rate BAQ for a number of years since his divorce. His protestations of "I forgot to stop it" and "honest mistake" were undercut by his annual recertifications of dependency in the years following his divorce. In addition to his Article 15, he must reimburse the USAF the amount of overpayment — and he will do it from a captain's pay.

An NCO, described as a sure bet for E-8, packaged concrete blocks and shipped them as household goods in his do-it-yourself PCS move. The inflated weight brought him several extra "bonus" dollars. It also gave him an Article 15, suspended bust and a sizeable forfeiture — several times the amount of his "bonus."

An airman, selected for the Airman Education and Commissioning Program, reported the theft of his stereo system from his dormitory room. An investigation substantiated the loss, but did not identify the thief. The airman filed a claim and was reimbursed for the loss. Investigation later revealed the airman had sold his stereo to a civilian

friend and faked the theft in a scheme to finance a new system. His official statement concerning the theft and false claim for reimbursement resulted in an Article 15 and AFM 39-12 discharge — nor will he go to college at Uncle Sam's expense.

The civilian employee, recently promoted and in line for supervisory duties, filed TDY vouchers claiming air travel and non-availability of government quarters. He was paid accordingly, but the truth was that he used his POV and stayed on base. His airline and motel receipts were false. He was fired.

White collar crime is neither less serious nor punished less severely than other offenses. Many believe that since Uncle Sam is the usual victim, or that since no person is murdered, assaulted or stolen from, that the punishment will be lighter, that is, a "slap on the wrist." It simply isn't so.

The first reason is that cheating the Air Force by fraud is a crime, white collar or otherwise, and is punishable as such.

The second reason is that losses to white collar crime are enormous. Maximum criminal prosecution or disciplinary action will be taken to punish offenders and cut down the loss.

The plain fact is that DoD loses huge amounts of money and

resources each year through fraud and its non-criminal correlaries, waste and abuse.

Who is responsible? There are many popular theories ranging from unscrupulous contractors to bureaucratic bungling and congressional porkbarrelling. Each theory contains a small grain of truth, but the largest contributors to the annual loss, by far, are dishonest Air Force members and civilian employees. Some steal, many more waste and about the same number abuse Air Force property and funds. These criminals are a small percentage of the honest, professional Air Force family, but their illegal acts disproportionately account for a huge share of the annual loss. Individual cases seldom fall in the high-dollar category. Many can be called "nickle and dime fraud," but in total they add up to one very large amount.

Who pays for the acts of these crooks? You do! And you pay in several ways. First, federal tax rates must be higher to generate revenue to cover the loss. (We're not talking pennies here, estimates are that billions of dollars are lost throughout the government each year.) Second, the cost of goods and services at commissaries, exchanges and morale, welfare and recreation facilities are increased to offset

their losses through theft, waste and diversion. Third, some of the money lost could be used for quality of life improvements, such as air conditioning for dormitories, dining facilities, or for base pay increases.

The greatest opportunities for defrauding the Air Force exist at the base level. In your day-to-day activities, if you look, you very well may see fraud, waste or abuse. If you see, or suspect, a white collar crime, and do nothing, you only hurt yourself.

Air Force Office of Special Investigation is the investigative agency for the base commander. Any allegation, or even the appearance of fraud, waste or abuse, will be examined and the facts presented to the base commander for his review and action.

What can you do? If you see or suspect an irregularity, tell someone about it. Talk to your commander, first sergeant, or supervisor; or call AFOSI at Ext. 3666. If there is no answer, contact the security police desk sergeant at 3333 and ask for the AFOSI duty agent; we will respond, 24 hours a day, seven days a week.

The Air Force is in a war against fraud, waste and abuse. We have won a few battles, but if we are to win the war, we need your vigilance and information. You can help.

THE ROUNDUP is an unofficial newspaper published in the interest of personnel at Reese AFB under contract with Barron Publications, Inc., mailing address: P.O. Box 2415, Lubbock, Texas.

# Village benefits from AFAF

As of January 1981 there were 278 residents in the Air Force Village.

In accordance with the concept that was formulated twenty years ago, the greater number of the residents are women, 174 or 62 percent. One hundred of these women (57.5 percent) are alone.

Thirty percent of the lone women require financial assistance from The Village; 89 percent need physical, medical or mobility assistance regularly.

About 83 percent of all Village residents are "limited activity" individuals. They have suffered physical loss of some kind and are not self-sufficient. The Village, in various ways, must offset their losses as friend and helper.

As the Village population increases to twice its present size in the fall of 1981, the number of individuals represented in these percentages will rise steadily. The tasks of "caring" will become greater.

The Village's financial assistance program focuses on the needs of the lone women who need help. Many gifts to The Village also are designated by the donors for specific uses in the Nursing Home for equipment and furnishings.

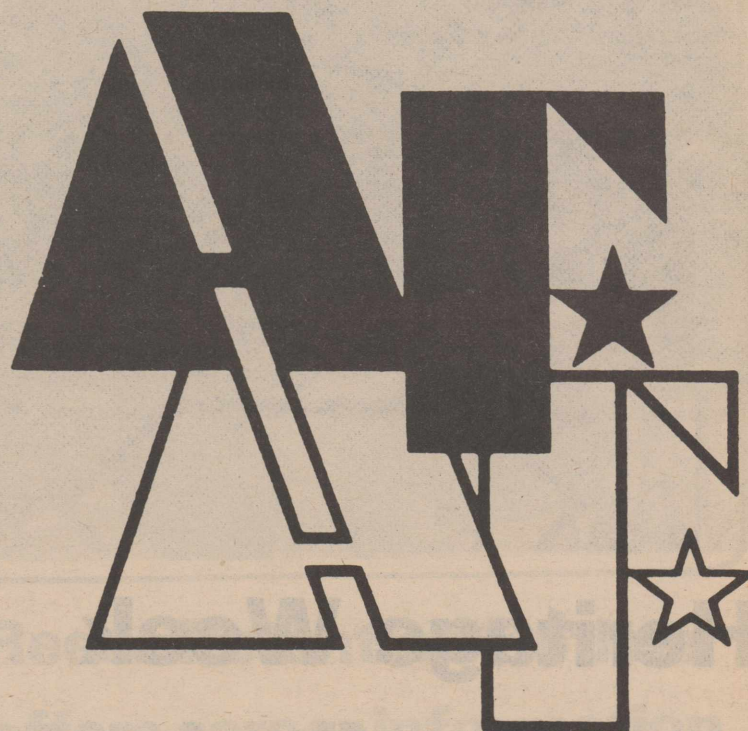

The widows who need financial aid are, in many cases, those whose husbands died on active

duty or while on retired status prior to the time that military survivor benefits programs were enacted or social security was available to them. Therefore, they frequently have only small pensions to sustain them. The Village has expended more than \$500,000 in this type of aid; . . . and the Village's administration searches constantly—within the active force and throughout the

retired community—for others who need help and qualify for its charitable program.

With the Air Force Assistance Fund scheduled to begin March 2, Reese people will have an opportunity to support the Air Force Village, Air Force Aid Society and the Enlisted Widows and Dependents Home.

To fill an allotment to aid this cause, see your unit monitor.

## Insulation saves money

Giving your hot water heater a new overcoat is another inexpensive way to save money.

It won't even be a stylish overcoat at that.

While there is some insulation in most hot water heaters, an extra coat on the outside should save you between \$10-\$20 a year.

You can buy enough regular foil-backed insulation and tape to do this job for less than \$10, or you can buy one of the hot water tank kits that many hardware stores now feature.

Do-it-yourself is cheaper, and that's what counts.

### Tight and Neat

If you buy a roll of insulation for this energy-saver, you can use the remainder of the roll to finish some of the other low-cost measures described in this series.

For the water heater project you will need enough insulation to completely encircle the tank and also to cover the top.

The standard 3½ inch insula-

tion is adequate for the job, though you may have to squeeze it a little to make it fit between the tank and any adjacent wall.

The insulation goes around the tank like gift-wrapping on a package — the shiny foil on the outside.

Since it will take two widths of insulation to cover the tank from top to bottom, you'll have to seal the horizontal seam with duct tape. Use this tape on the vertical seam where one edge of the insulation comes together with the other edge.

Last step is to cut a circle of insulation for the top and then seal that to the side insulation.

### Needed Holes

The main point is to cover all exposed surfaces of the tank, except for certain critical areas that must be left free to "breathe."

On electric water heaters, it is best not to cover the drain faucet near the bottom, the thermostat access panels, or the relief valve.

## Black Heritage

CMSgt. Norman D. Hall addresses a group at the Reese Officers' Club on "Career Potentials in the Air Force in the '80s." The luncheon and lecture was one of several Black Heritage observances held throughout the week. Black Heritage Week will wrap-up with a gospel service at the Base Chapel Sunday at 3 p.m. (U.S. Air Force Photo)

## Heritage Week reaches finale

A Greek Jamboree, all night disco and gospel services round out the Black Heritage Week observance at Reese this weekend.

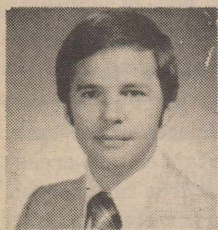

The observance, which began Sunday, is scheduled to wind up with a special banquet Sunday afternoon.

According to 1st Lt. Probyn Thompson III, Black Heritage Week project officer, the Greek Jamboree is scheduled for 8 p.m. tonight at the Windmill Enlisted Open Mess. The all night disco is set for a 10 p.m. start Saturday at the Mathis Recreation Center.

The gospel service is slated to start at 3 p.m. Sunday at the base chapel followed immediately by an observance-ending banquet at the dining hall.

Lieutenant Thompson said that the Greek Jamboree features Black fraternities demonstrating pledge routines called Steps. A \$1 admission will be charged for the all night disco. The Peace Tabernacle Choir and the Ford Memorial Choir will sing during the special gospel service.

Earlier, Reese observed Black Heritage week with activities such as a talent show, luncheon, Black films and fashion shows.

# Houston Baptist offers masters degree program

Thanks to the efforts of William A. Trafton, Education Services Officer, and the Education Office staff, a graduate program to replace the University of Colorado is now available on base.

Houston Baptist University signed a memorandum of understanding Feb. 11 for classes to begin March 6 at 2 p.m. The format is two classes every other

weekend for 10 weeks. The classes beginning March 6 will end May 2.

Course A, Economics 6351, Managerial Economics; will meet Friday from 2-6 p.m. and Saturday from 9 a.m.-1 p.m. Course B, Management 6353, Quantitative Methods; will meet Friday from 6:30-10:30 p.m. and Saturday from 1:30-5:30 p.m.

Houston Baptist University Of-

ficials will be at Reese today and Thursday for counseling and enrollment. Those interested may contact the Education Office at Ext. 3768/3469 for an appointment.

The Master of Science in Management with major in Human Resources Management is a 36 semester hour degree with no thesis and no comprehensive exams. The tuition is \$110 per semester hour.

## Financial Security

**\$100,000**

...for less than \$20 per month

During these inflationary times, it takes a considerable amount of money to support your family. The people at Anchor National Life of Los Angeles, California can provide the protection your family would need for continued support in the event of your death. And we'll do it for a modest monthly premium. For example, a male age 35 could guarantee a \$100,000 tax-free death benefit to his family for only \$18.70 per month the first year.\*

Now we can offer you an annual renewable term insurance policy\*\* with these features:

- Guaranteed Renewable to Age 100
- Guaranteed Convertible
- Flexibility
- Payment Options
- Riders

To find out more about this affordable plan to provide financial security for your family, just fill out the coupon below. We'll send you a brochure explaining this exceptional policy.

Naturally...there is no cost or obligation.

\*Standard rate. Premium subject to yearly increase.

\*\*Contract Form No. 1-04 (Rev. 9-78)

## Safety Wise

by Maj. Kenneth E. Hamlin  
Chief of Safety

Last week's showing of "Room To Live" Brought the Safety Office a tremendous positive response from the people who saw it. Several even returned for a subsequent showing with their dependents. That's absolutely great!

We agree that this film is one of the most effective seat belt presentations ever and would benefit, not only those at Reese, but everyone in the Lubbock area. Unfortunately, the film is on a short term loan from Norton AFB. We are looking into the feasibility of either buying, renting or borrowing the film for a longer period of time.

If you know of an organization that would appreciate and benefit from its showing please drop us a line and let us know. This info can be used to help us better determine which avenue of procurement would be the most beneficial and cost effective. All comments about the film and its use would be most appreciated.

**INVESTING IN DIAMONDS  
 CAN BEAT INFLATION SPIRAL!**

John W. Nelson

Caryl Ann Nelson

If you are looking for a long-term investment that can withstand inflation and still provide handsome profits, investment diamonds can be the most sparkling addition to your investment portfolio.

One of the reasons for the heightened interest in diamonds by private investors, trust funds, Keogh account managers, and institutions is their more stable nature.

Prices have not declined since 1934. This is attributed to DeBeers Consolidated Mining Ltd. of London, which controls more than 85 percent of the world supply of rough diamonds.

**YOU DON'T HAVE** to be wealthy to invest in diamonds, according to John Nelson, registered representative for International Diamond Corp. of San Rafael, Cal.

You can invest in diamonds for as little as \$300. Because of their liquidity and higher rate of appreciation, the best guys in diamonds are investment quality stones, weighing a carat or less, the top 1½ percent of the 2,000 grades marketed.

International Diamond specializes in worldwide acquisition of rare "collection series diamonds" and their subsequent sale in the United States.

**JOHN NELSON EXPLAINED THAT** investors can refer the selection on their portfolio of stones to the company computer that matches the investor's wishes and dollar amount with the available stones in inventory or, when special requests are made, the company will search the markets for the correct stone.

When a purchase is made with IDC, the customer receives a gemological laboratory certificate which guarantees the accuracy of the grade, color, clarity, cut and carat purchased and its current market value.

IDC guarantees to buy back any diamonds it sells at no less than the original purchase price.

The company will also assist you at any time in marketing any diamond you wish to sell.

**ONE OF THE APPEALING** aspects of collecting diamonds is the buyer's ability to own and control his investment in a confidential manner.

Diamonds are shipped to buyers by registered and insured mail and then usually deposited in a bank safety deposit box.

**INCREASES IN DIAMOND VALUES HAVE AVERAGED 12½ PERCENT, COMPOUNDED ANNUALLY SINCE 1905. THE PACE OF APPRECIATION ACCELERATED RAPIDLY DURING THE PAST 10 YEARS TO AVERAGE 25 TO 35 PERCENT EACH YEAR.**

**EXPERTS PREDICT A 35 TO 45 PERCENT RATE OF APPRECIATION IN THE 1980s.**

As part of its special program for investors, IDC has a diamond banking system which uses passbooks, similar to those supplied by banks.

The diamond identification, date, and value of original purchases are recorded and periodically updated to reflect increased market values and the price at which IDC will re-purchase the gemstone.

**IF YOUR IRA OR HR10 KEOUGH PLAN IS NOT KEEPING UP WITH INFLATION, YOU SHOULD ASK FOR A PROFIT COMPARISON REPORT, ABSOLUTELY FREE OF COST.**

**ASK FOR A PERSONAL INTERVIEW OR REQUEST AN INVITATION TO THE NEXT DIAMOND SEMINAR TO BE HELD IN LUBBOCK IN THE NEAR FUTURE.**

**OPEN YOUR DIAMOND BANKING ACCOUNT NOW.**

**Here's how**

Noel Windham, one of a two member team which visited Reese last week to teach club employees proper techniques in such areas as customer relations, host and hostess training, table service and the like, lectures one group of employees on sanitation and safety.

**Team trains club workers**

A traveling team of club management specialists recently visited Reese for a week-long seminar on all aspects of Enlisted and Officer Club operation.

According to Morale, Welfare and Recreation Division chief Jack Hood, "The courses were excellent, really super. It was a real eye-opener." Enlisted Club manager Ralph Monger stated, "Everybody got something good out of it. I was very pleased."

Hood said the team was highly complimentary of the participation and enthusiasm of the students in the course. Both clubs, he said, received outstanding marks in service, courtesy and efficiency.

Recognizing the need to develop more professional Officer, NCO and Airman Club staffs led Air Training Command to form the two-person traveling team.

With the formation of the traveling team, the two-fold problem of high cost and difficulty in freeing club staffs for training sessions away from their bases has been solved, according to

John Najarian, chief, ATC Open Mess Operations Branch.

By sending the team to bases, all club employees will be afforded an opportunity to participate in training sessions at a much lower training cost.

Najarian estimates it would cost \$15 per manhour of instruction for one club employee to attend a two-day seminar in a temporary duty status. "But even if the money were available," Najarian said, "the club management could let few people go because of the work load."

The cost would be substantially reduced with the team of Judae Vanden Bush and Noel Windham conducting one-week programs to more than 1,100 club employees assigned to ATC clubs.

"And with the training conducted on the base," Najarian emphasized, "employees are there to help out as the need arises."

In addition to formal training sessions, they work with employees during business hours.

Vanden Bush and Windham each have 14 years experience in military club operations.

# MWR Patriotic Coloring Contest

Morale, Welfare and Recreation here is taking advantage of National Patriotism Week (Feb. 15-21) to offer a series of contests for the family in keeping with the Year of the Family, a command program to give MWR officials an opportunity to add family-oriented programs to their current activities.

The contests open to all Reese people and their dependents include slogan contest for adults, a coloring contest for pre-schoolers, a collage contest for pre-teens

and an art contest for teenagers. Deadline for entries is Monday.

Slogans must concern Air Force recruiting or retention efforts with a patriotic theme. Prizes will be a \$50 Savings Bond for first, four theater tickets good downtown for second and two tickets for third. Entries may be turned in at the Rec Center.

Pre-schoolers who enter the contest must color in the drawing on page 14 and turn their work in at the Child Care

Center. Patriotic puzzles will be awarded to first and second place winners.

Pre-teens will be competing for free bowling time and T-shirts in the collage contest. Collages, a collection of cut-out photographs pasted on poster board, must measure 16 x 20 inches, and may be turned in at the Youth Center. First place will be awarded with two hours of free time on one lane at the Reese Lanes. The runner-up will get his choice of free T-shirts at the Arts and Crafts Center.

Teenagers will have the most difficult of the contests. A free-hand art contest in pastels, oils, watercolors, pencil sketches or anything that will go on a flat canvas or poster board will be their medium. First place winner will receive four theater tickets, with two going to the runner-up. Their entries may also be turned in at the Youth Center.

Hurry and enter before the Monday deadline.

# Cerrow takes Sturon

Lt. Col. Peter P. Cerrow, former 35th Flying Training Squadron operations officer, recently assumed command of the 64th Student Squadron.

The Astoria, N.Y. native flew tactical and interceptor aircraft prior to his arrival in Air Training Command, serving tours in both Southeast Asia and Korea. He has earned the Distinguished Flying Cross, the Air Medal with 15 oak leaf clusters, Meritorious

Lt. Col. Peter P. Cerrow

Service Medal with one oak leaf cluster, Air Force Commendation Medal with two oak leaf clusters and the Combat Readiness Medal.

Colonel Cerrow earned his bachelors in economics from the University of Notre Dame, and eventually completed his masters at the same university. He is married to the former Sandi A. Phillips of Sherman, Texas and they have two children, Michelle and Mark.

## Supply people win awards

From page one

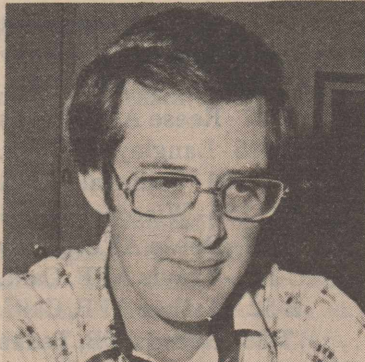

himself to be as efficient as his squadron coworker. This is born out of the lowered percentage of delinquent reparable items in his inventory; down from 18 percent to two percent. He also implemented changes in the Base Supply Customer Support Center which resulted in an increased inventory accuracy from 65 to 97.5 percent.

In addition, Schepers revised issue and turn-in procedures, conducted inventories of the support

center assets and rectified out-of-balance conditions. This significantly reduced processing delays in handling the large volume of issue requests from the Jet Engine and the Communica-

side of the Supply house, earned his award through diligently applying himself to learning his job, reaching 'proficient' status in fuels storage operations in minimum of time.

He helped to monitor the Base Energy Conservation Program by tracking the ground fuel consumption of each base organization, and on occasion, has taken full responsibility of the Fuels Accounting Section during periods of absence of the section supervisor. He was also instrumental in compiling a training package to

Larry S. Schepers

tions/Navigation Maintenance activities.

His activities off the job are also commendable. He has an Associate Degree in Management from South Plains College and is presently enrolled at Texas Tech University, working toward a Bachelor of Science degree in Business Management. He is also the noncommissioned officer in charge of a supply unit in the Army Reserve.

His numerous contributions to the Suggestion Program showed not only his dedication to efficiency, but earned him a \$100 award.

Airman Garcia, on the other

A1C Denny L. Weston

train assigned refueling unit operators on new procedures.

Airman Garcia also demonstrated his ability to other bases during support of Operation Gallant Eagle, in which he received a letter of appreciation citing demonstrated excellence.

# Board seeks applications

Those officers interested in Undergraduate Pilot Training must submit applications by March 1 in order to be considered for the next semi-annual board, convening March 30.

Applications should be sent to AFMPC/MPCRPF2. Late applications will not be considered. Reaccomplished applications from individuals previously approved for board consideration must be forwarded prior to the convening date of the board.

Applicants who currently have an approved application on file may update the remarks section (item 14) by means of a personal letter (refer to AFR 51-4, Para 15A). The application form need not be changed to reflect the applicant's current grade and organization. This information is reflected on the Officer Selection Brief obtained just prior to each board.

Changes in the qualifying test scores will be made by the per-

sonnel center upon written notification from the local CBPO. Any changes to items 18-28 will require submission of a new application.

Approximate selection quotas will be: Navigator to pilot, 25; nonrated to pilot, 100; and nonrated to navigator, 10.

Women applicants will compete with men on a "best qualified" basis.

**All parents**  
 Parents of school age children active duty, DOD and NAF, retired. The little league baseball sign-ups and registration will be held March 5 and 12 at Casey Elementary School, Wolfforth, at 7:30 p.m. Parents must attend to sign-up their children. Cost is not definite but tentative to be \$10 for one child, \$5 for each additional child. For more information contact the youth director at Ext. 3820.

**Reports of survey**  
 Effective March 1, Air Force will begin testing a revised system for Reports of Survey. The primary change in the system is that pecuniary liability will be assessed based on a single standard of negligence, the term "gross negligence" has been eliminated. Normally, liability will be limited to one month's base pay of the individual concerned.

A draft AFR 177-111 covering the new procedures has been distributed to offices having the most need for it; if you did not receive a copy, loan copies are available at the Base Publications Library and the RM office. A revised DD Form 200 will also be used during the period of the test

and will be stocked in the RM office. For more information contact Joyce Holeman at Ext. 3626 or 3627.

**Special presentation**  
 All wives and husbands of active duty Air Force members are invited to a special presentation in the Daedalian room at the Officer's club. The presentation is to familiarize spouses of Air Force career people with items that pertain to the family. Hear what people from military personnel, legal, the hospital, plus others have to say Feb. 23 and 24 at 8:30 to 11:30 a.m. and 6 to 9 p.m. each day. Refreshments will be served.

**Outstanding check ride**  
 Second Lt. Robert A. Rowe, final contact check, 81-08, section 1.

**Births**  
 Second lieutenant and Mrs. Christopher M. Kelleher announce the birth of a son weighing 6 pounds 9 ounces at 8:10 a.m. on Feb. 8; Pvt. and Mrs. Gary Gene Leatherwood announce the birth of a daughter weighing 7 pounds 6 ounces at 10:40 a.m. on Feb. 6.

**CBPO**  
 CBPO will be closed at 3 p.m. on Feb. 25 because of mandatory commander's call.

**Aerobic classes**  
 It's time for the new aerobic dance classes to start. Monday and Wednesday classes are taught by Sandy Mueller and will be offered at 9:30 a.m., 4 and 5 p.m. Cost is \$20 and meets twice weekly. Tuesday, Thursday and Saturday classes are taught by Michelle Acoba and will be offered at 7 p.m. on Tuesday and Thursday and at 1 p.m. on Saturday.

day. Cost of this class is \$25 and meets three times a week. Both classes are six weeks long. The classes will begin on March 2 and 3. All class fees must be paid by Feb. 27. For more information call Ext. 3787.

**ID cards**  
 Due to mechanical difficulties in the Bureau of Engraving and Printing and government-wide procurement problems, stocks of Air Force Active Duty ID cards are low. As a result CBPOs have been directed by AFMPC to temporarily suspend issue of Active Duty ID cards except for those people entering active duty and to replace lost, stolen, or expired cards. It is estimated that the situation will last a minimum of four to six weeks. Issue of ID cards to dependents and retired personnel is not affected.

**Dorm 320**  
 Residents of airman Dorm 320 are to be congratulated on outstanding ratings for two recent fire inspections. During the ACFRET inspection conducted in January, Dorm 320 was ranked as one of the most fire safe dormitories in the command and again in February.

**Group call**  
 Air Base Group will be experimenting with a new format for Commander's Call next week as the squadron shifts the monthly event to the Bowling Center.

Squadron officials said that unlike most squadrons, Air Base Group units are spread across the entire base and many of its members never see each other. By occasionally holding Commander's Call in places such as the Bowling Center, Group officials hope that people will stay after Commander's Call and get to know each other.

The Commander's Call for Group will begin at 3 p.m. Feb. 25.

# AF seeks bomber

WASHINGTON (AFNS) — "The 96th Congress directed the Department of Defense to vigorously pursue full-scale engineering development of a strategic multirole bomber, maximizing range, payload and ability to perform the missions of conventional bomber, cruise-missile launch platform and nuclear-weapons delivery systems in both the tactical and strategic roles," reports the Air Force Policy Letter for Commanders.

The Feb. 1 issue of the policy letter's Insight column further states, "Congress also directed an initial operational capability as soon as practicable, but no later than 1987."

The Air Force, using funds remaining from the cancelled cruise-missile carrier aircraft program and initial fiscal 81 funding from Congress, is preparing for the multirole bomber acquisition program due to begin this year.

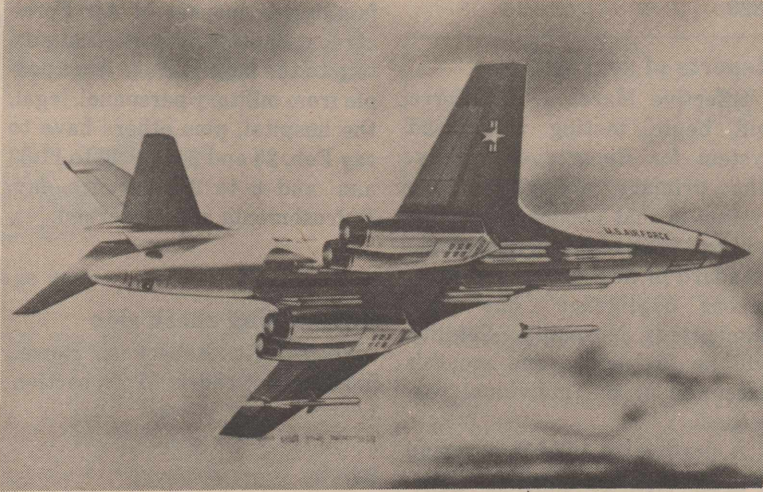

Aircraft being considered include the B-1 bomber and its derivatives, a stretched and re-engined version of the FB-111

called the FB-111B/C and an advanced-technology aircraft.

The policy letter also reports "The Air Force continues to advocate the concept of a mixed force of manned penetrating aircraft and air-launched cruise missiles, because a mixed force applies maximum stress to Soviet air defenses. To support this strategy in the near term, major modifications are planned for the B-52 force, including avionics for

cruise-missile integration.

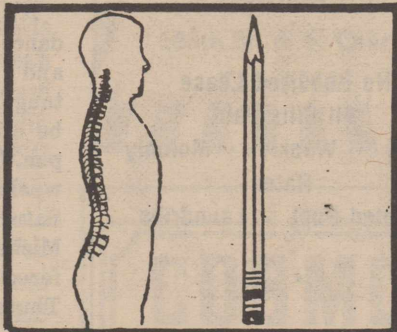

"For the future, the Air Force is defining requirements and taking the first steps to formulate a program that will lead to a replacement for the B-52s in the 1990s. Congress has focused on the issue in the fiscal 1981 Defense Authorization Act, and the Air Force expects a resolution of the issue and direction to proceed on a specific aircraft candidate this spring."

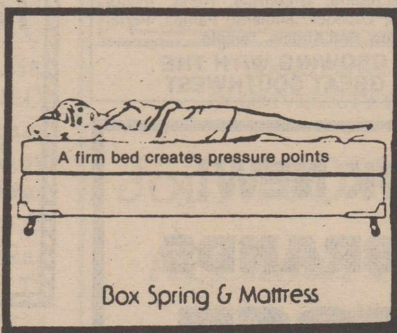

B-1

## If The Human Body Was Straight Up And Down Like A Pencil . .

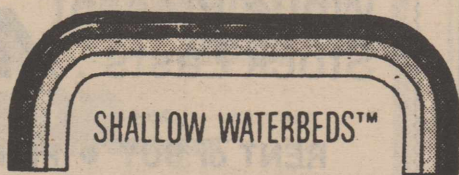

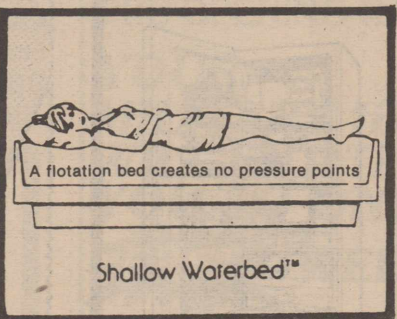

THEN YOU COULD sleep on the flat surface of a conventional box spring and mattress, and every inch of your body would have equal support. . . . .

BUT THE FACT IS — there is not a straight bone in the Human Body, and the small of your back (spine) gets virtually no support. What results is PRESSURE POINTS: cutting off blood circulation, tossing and turning, numbness in arms and legs, lower and upper back soreness. . . . .

A SHALLOW WATERBED™ conforms equally firmly to every inch of your body eliminating PRESSURE POINTS, and symptoms common with sleeping on a box spring. The results: A deep rejuvenating sleep. . . . .

# Ladies Choice

Whataburger makes a special burger for ladies. We call it the Whataburger Jr. Like our famous Whataburger, it's made with a 100% pure beef patty, your choice of the finest garden fresh lettuce, onions, tomatoes, crisp pickles, mustard or salad dressing — and served hot on a golden, toasted bun. The only difference is that it's smaller than the giant quarter-pound Whataburger, so it's less filling. Isn't that more what you had in mind?

# WHATABURGER®

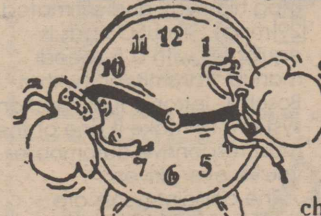

"Whataburger is what a burger should be."

## Beat the clock!

Mon. thru Fri. 5:00 to 7:00  
 Sat. & Sun. 5:00 to 7:00

When you come in to Pelican's before 7:00 o'clock and order your choice of Hawaiian Chicken, Teriyaki, Beef Kabob, 1/2 pound of Alaskan King Crab, or any of our fresh seafood the amount you pay is based on the time you came in. In other words, if you come in at 5:30 and order Hawaiian Chicken, you'll only pay \$5.30. Or if you come in at 6:45 and order Fresh Red Snapper, you'll only pay \$6.45.

The earlier you come in, the less you pay. So, why not come in tonight and enjoy a delicious dinner in the warm and casual atmosphere at Pelican's.

# PEUGEOT

TEST DRIVE THE CAR AUTOWEEK CALLED THE ONLY CAR IN ITS CLASS "THAT MAY STILL BE IN TUNE WITH THE TIMES 10 YEARS FROM TODAY."

Everything about the 505 is built for the driver. And built to last.

From the natural angle of the steering wheel, to the efficient placement of the controls.

The ride is outstanding. The handling effortless. (Power-assisted rack-and-pinion steering helps, of course. So do power-assisted 4-wheel disc brakes.)

The 505 Diesel is equipped with 4-speed manual transmission (and delivers an

impressive EPA estimated 35 mpg highway and estimated 29 mpg).\* The 505 gas is equipped with a 5-speed manual transmission (with a Bosch K-Jetronic fuel injection system) to make it one of the most responsive automobiles you've ever driven.

The appointments are superb. And the comfort is totally, impressively Peugeot (from the foam contoured seats to the European suspension system - everything is designed to

make this one of the most comfortable automobiles you've ever driven).

So see us today. And find out why Autoweek put the new 505 in a class by itself.

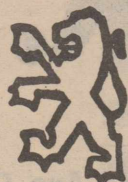

\*Peugeot 505D, manual 4-speed transmission. Remember, compare the boxed estimate to the estimated mpg of other cars. You may get different mileage depending on how fast you drive, weather conditions, trip length and condition of your car. Actual highway mileage will probably be less than the highway estimate.

**Ripping rebound** Rattler forward Christobal Stephenson rips a rebound off the glass during Sunday's 88-75 win over Holloman. Stephenson also canned 25 points. (U.S. Air Force photo)

## Reese cagers fail to hit .500 mark

Reese came within four points of evening its season record as the Rattlers split the homestand series against Holloman last weekend.

The Rattlers, 10-12 on the year, nearly reached the .500 mark against Holloman. Reese won an 88-75 decision on Sunday but came out on the short end of a 76-73 verdict Saturday. The squad will get another chance to reach the winning season mark on the road against Ft. Bliss Feb. 28 and March 1.

Christobal Stephenson continued his 20 point plus scoring spree against Holloman, garnering 21 points and 25 points in the weekend games. Terrance Wilson led all scorers Saturday with 25 and Robert Warren added 19 to Stephenson's game high effort on Sunday.

Reese rallied from a 35-33 deficit to capture the team's 10th win of the year.

# Group holds cage lead despite loss to Supply

Supply Squadron slowed Air Base Group's championship march last week by upsetting the league leader, 49-40.

Supply's win evened the series between the two intramural powers at a game each. Group won the first meeting 66-62.

Last week's pairing was tight battle through most of the first half. The score was tied at a dozen at the end of the first quarter and was knotted at 14 with five minutes to play.

That was when Group's 6 foot 7 ace went to the bench for a breather. During the final minutes of the half, Supply outscored Group nine to two. From that point on Supply was in control.

Group bounced back to cut the lead to 31-26 through three-quarters, but; Supply went 8 for 12 at the free throw line in the

final stanza while group was able to draw just three charity tosses, converting two. James Wilkerson paced Supply with 17 points.

Despite the loss, Group remains on top of the league standings. Supply is second and Field Maintenance is third. That's the way all three teams were expected to stand going into the post season tournament. Opening round action was scheduled for last night with the second round getting underway at 5:30 p.m. Monday.

Expected to make the eight-team playoff were: Group, Supply, FMS, the 54th FTS, Sturon-1, the Civil Engineers, Organizational Maintenance and the 35th FTS.

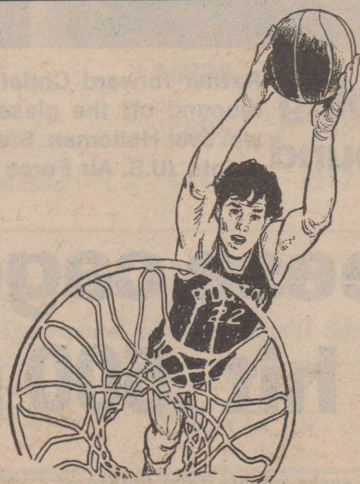

Rounding out last week's schedule, Resource Management bombed Sturon-2, 68-36; Sturon-1

beat the 35th, 43-38; CE stopped OMS, 45-32. Supply nipped FMS, 46-44 and CE downed the 35th, 50-41. Also, Group beat the Hospital, 56-44; Sturon-1 defeated the 54th, 43-35; Group shelled Sturon-1, 71-45; the 54th downed RMS, 47-44; CE stopped FMS, 54-45; and the Hospital edged OMS, 36-31.

The standings in the intramural basketball league, as of Monday, were:

Team	W	L
Group	17	2
Supply	15	3
FMS	14	5
54th	12	8
Sturon-1	10	8
CE	10	8
OMS	8	11
35th	6	13
Hospital	5	13
RMS	5	15
Sturon-2	0	19

## Special cagers

Reese's Field Maintenance Squadron basketball team will take on a select team from the Lubbock State School here Sunday to help raise money for the Special Olympics. Project officers for the event announced last week that donations will be accepted at the door for the charity game. Tipoff is scheduled for 7 p.m. in the base gym. The State School team is the defending Texas Special Olympics basketball champion.

## Soccer tourney set here

Twelve of the top men's soccer teams in the area will battle here this weekend as Reese holds the rescheduled Turkey Bowl Soccer Tournament.

The tournament, originally scheduled for November but was snowed out, will be held here Saturday and Sunday. Soccer action kicks off at 8:30 a.m. Saturday with the championship game set for 3 p.m. Sunday.

Favorites in the talent filled field are the No Names, Styng, Dynamo and Reese Rattlers. Other teams are: Huns, Infidels, Ambucs, Brownfield, Green Machine, North Town Boys, Jaycees and Hawks.

The tournament is co-sponsored by Reese and the South Plains Men's Soccer Association.

Matches will be held at the soccer field next to the Instrument Flight Training building and the field adjacent to the base Chapel.
