NATIONAL GUARD

McDermott Post is very anxious to organize a National Guard Company in Floydada. The Chamber of Commerce is on record as favoring the project, at the solicitation of the Legion boys. And the young men of the town may do well to think a little about the matter before they say "no" to the suggestion that they join it. Men who have had experience in matters of the kind declare that in addition to offering training that is invaluable to any man which is the first consideration, a National Guard Company offers many advantages that may be seen readily. For instance, it adds a sizeable payroll to the town's annual income. And it takes up the slack in the number of idle hours in the week with a night or two of each week for an hour's drill practice.

We suggest that if a young man asks you about joining this company in the near future you do not discourage him. You are not getting him into war, if war should come, any quicker than if he were not a member of the guard. The Selective Service, demonstrated during the World War will see to that. If there were anything wrong with the idea of organizing a National Guard Company in Floydada there wouldn't be a dozen towns in West Texas which already have one company now seeking to get the company that is Floydada's opportunity. It takes a minimum of sixty men and the young fellow you discourage might be the sixtieth.

MARCH 18th

The property taxpayer resident within the limits of the City of Floydada, who doesn't cast a vote one way or the other in the sewer bond election on March 18th, ought to be ashamed of himself. So much ashamed that, regardless of the outcome, he should not have anything to say if the outcome does not suit him.

The Hesperian is very strongly in favor of the sewer and waterworks bonds totalling \$60,000. We are somewhat abashed by the fact that the citizenship have waited as long as they have already before installing a sewer system.

A sewer system will increase the tax rate some. But the value of the improvement will be far greater than its cost. And we can't expect to have things worth while that do not cost money.

The city council have spent a whole lot of time studying plans and figuring on costs. They have been exceedingly careful not to overlook any contingencies. The system when completed, will serve the town adequately, as at present built up. Additions and extensions can be made as the development requires, and the cost in taxes will be reduced as the number of users of the service grows.

We can't believe that any other than a big majority for the bonds will be rolled up. But we want to remind those who are for the sewer system to be built this year to keep the date—March 18th—in mind.

A sewer system is an absolute need in Floydada. And it will be common sense to create the debt to pay for it.

TOURIST CAMP GROUNDS

Reports from over the state indicate that many towns and cities are planning new and attractive tourist camp grounds for the use of autoists this coming season. Not the least among these, by any means, is the one to be prepared by the citizens of Lockney, who, through their chamber of commerce plan to have an excellent camp ground with all the conveniences, including supervision.

Preparation for the better class of tourists has come to mean that first class facilities must be obtainable at a tourist camp ground and supervision of the grounds twenty-four hours of the day. At unsupervised grounds the road hog and the road louse take charge and the tourist for whom you prepared the accommodations drives on by. He couldn't get a look in at the camp grounds even if he desired.

Another thing about camp grounds,

The kind of tourist you want to stop won't mind paying a reasonable price for the accommodations he gets that might be termed "extras". If he really wants to rough it he can stop out in the country by the side of the road, as many of them do. Desiring a little more accommodation without the necessity of changing from his travel clothes the tourist does not mind paying reasonably for the coal oil and the shower bath and a little for police protection that he expects. The road hog does not feel like paying and happily he would drive on by.

Potter County boasts a new County Hospital that is approaching completion. Deaf Smith County has recently voted a bond issue for the purpose and other counties all over Texas have done or are doing the same. Fortunate is Floyd County that hospitalization for its people is provided for through private enterprise rather than through a political provision. Floydada physicians and surgeons, too, are going right ahead with their improvements of equipment for the treatment of patients. The sale of a few thousand dollars worth of good notes made the new Sanitarium in Floydada possible. The plan, now that it has been worked, looks much better than a county or city-owned hospital which might or might not prove a success according as the right kind of management obtained. Improvements or betterments of facilities of local physicians for treating patients in Floydada mentioned above include a new bed side x-ray machine which will be installed soon in the offices of Dr. W. M. Houghton and Dr. C. M. Thacker, a much-needed thing. Smith & Smith and Dr. I. W. Hicks have also received recently one of the new nitro-oxygen machines for anesthesia which have come into use in clinics and hospitals in recent years. This should come, properly, in the news columns, we admit, but we can't help mentioning it in this connection to indicate that the medical fraternity in Floydada are not unmindful of the duty they owe the people of one of the biggest and best trade territories in all of west Texas, and that the people in this territory are getting something by simply paying their doctor bills that other people in some instances are not getting except by paying some more taxes as well as their doctor bills.

All work and no play makes Jack a dull boy, the saw-maker said years ago. Repetition of this adage is occasioned by the action of the Young Men's Tennis Club in preparing new courts for their use this summer in the long days to enjoy themselves while they keep their bodies fit as well. Probably the most commendable or most noteworthy thing about the plans of the young business men is that they are building courts that are not calculated to be an eyesore after the first rain. They are building a court that will not only furnish themselves amusement but a court that the citizenship will not mind to have occupying vacant lots. Little things like that go a long way toward maintaining a high morale in the community. An attractive ground has cost some more money than just an ordinary screen wire tacked on some uprights but a little paint and a little time spent in doing

the thing right has meant the difference between an eyesore and a thing of which the club can be proud. Its about that way in everything for that matter—just the difference between slipshod ways and painstaking ways.

About the first time we remember seeing it this way. Cotton, until some 90 per cent of it was out of the hands of the grower, just kept going up in price, and along in February when the grower had mostly unloaded, the price began to slump. We aren't sure who is taking up the "slack" between the high prices paid the producer and the present prices. One thing sure, somebody is doing it, and the farmer has reaped the reward. We conclude that through means of hedges the mills have also saved their hides because cotton goods have not shown a very material advance at retail this year over last. It lies between the exporter and the speculator as to who took the loss, our guess being that both are losing some money. Being unable to agree with anybody about anything altogether The Hesperian ventures to take issue with the man who curses the speculator under all conditions, and give the speculator credit for making many thousands of dollars this year for Floyd County cotton raisers.

The cotton acreage in Floyd County this year will be a hundred thousand acres, conservative estimators put it, and if the yield is fair, a twenty or thirty thousand bale crop may be anticipated. It appears that the migration of the negroes from Dixie and the work of the boll weevil in the same section, and as far west as the black land belt in Texas is going to assure at least a fairly good price for cotton this season. An unasked for bit of advice we hand out here, to the effect that our people should not make expenses this spring and summer in the expectation of a thirty-cent crop. If such a good thing materializes again this year so much the more profit. But 30-cent cotton although it is approximately what cotton should sell at, is out of line with the other products which come from the farms, of those men in other sections whose competitors we are,—out of line with wheat, corn, hogs, cattle. Being hopeful need not mean we should not also be careful.

Tree planting week having come and gone and something over five hundred new trees having been transplanted to the soil in Floydada it is up to the owners of the property on which the trees were planted to see that they get good attention. Dead trees do not add anything to the appearance of your property. Live trees add immeasurably. Give your new trees attention.

We conclude from reading an article in some newspaper or other that a ginner in Amarillo is getting "up town" and is building a "bungalow gin." He avers that the gin will be as attractive as anybody's residence. We even conclude, after hearing about it,

Get your seats for
"Where the North Begins"
Floydada Drug Company

Old Folks' Ailments

"I began taking Black-Draught over fifty years ago and my experience with it stretches over a good long time," says Mr. Joe A. Blackmore, a Civil War veteran and former Virginian, who is now a prominent citizen of Floyd, Texas. "It is the best laxative I know of for old people. . . . A good many years ago, in Virginia, I used to get bilious and I found that

Theford's BLACK-DRAUGHT
was the best and quickest relief I could get. Since I came to Texas I have these bilious attacks every now and then—a man will get bilious anywhere, you know—and I find that a little Black-Draught soon straightens me out. After a few doses, in little or no time I'm all right again." Theford's Black-Draught is a purely vegetable liver medicine, used in America for over eighty years. It acts on the stomach, liver and bowels in a gentle, natural way, assisting digestion and relieving constipation. Sold everywhere. E-102

that he must be planning to locate his gin on Restriction Avenue. The primary purpose of a gin is to separate the lint from the seed of cotton, and the dirt from both. This is done by saws and suction. The purpose of the gin is thus seen to be an elemental one. An utility building, built along elemental lines, we should think would be a little more in keeping with the business.

Local estimators give the acreage in oats in Floyd County this year as exceeding the acreage for any year in the past five by 8 or 10 to 1. The weather between this time and the harvest will have largely to do with the outcome of the oat crop. But there are a few good farmers in Floyd Co. who maintain that oats, year in and year out, is one of the county's most profitable crops. This being true, and granted a fair season this spring, there ought to be a record-breaking crop.

SAND HILL NEWS

Sand Hill, March 10.—Elder Mullins filled his appointment here Sunday morning at 11 o'clock.

Singing was held yesterday afternoon in the auditorium. A large crowd was present and the singing was excellent.

The Floydada Senior Girls played our girls in a game of basketball Friday evening. The score was 25 to 14 in favor of Floydada.

The measles seem to be taking a new hold in our community. Oliver Holmes and Allie Fay Gravette are reported to have the disease.

The regular Sunday night singing was held at Mr. Webb's last night.

We are glad to announce that we have a new pupil in school, Miss Alma Smith.

Charley Mills happened to a very serious accident Sunday night, when he overturned his motorcycle. He was rendered unconscious for a time but is expected to recover soon.

Miss Glenna Smith visited Saturday and Sunday in Canyon, with her sister, Ailee, who is attending school there.

Guy Hanna is visiting his uncle, A. R. Hanna. He is expecting to stay awhile and work.

Ott Walden and wife are visiting relatives near Ada, Okla.

See
"WHERE THE
NORTH BEGINS"

To cure constiveness the medicine must be more than a purgative. It must contain tonic, alterative and cathartic properties.
Tutt's Pills
possess these qualities, and speedily restore to the bowels their natural function.

Messrs. Collins, Chatham, Manning and Hanna spent Saturday interviewing gin men at Ralls, Lorenzo and Abernathy in an effort to interest someone in building a gin at Sand Hill. They received some good encouragement and we believe we are going to secure a gin for our 1924 crop.

S. D. Mills and wife, accompanied by Bessie Horton, visited in Olton the early part of last week.

The sale at Mr. Jeter's last Friday was attended by a large crowd.

CARD OF THANKS

We are deeply grateful for the sympathy and many thoughtful kindnesses of friends and neighbors following the death of our father, and take this means of expressing our heartfelt appreciation.

The Children of John A. Kidd.

10 BALES COTTON BURNED

Ten bales of cotton were destroyed in a fire at the cotton yard, discovered Saturday morning at 5:30 by Agent J. M. Hughes of the Santa Fe, and a crew of men who were enroute to the stockpens to load cattle, and turned in the alarm.

The ten bales were afire when discovered. They were isolated on the yard and a watch put on by the fire

department to save further spread of the flames.

J. F. Smith, of Lexington, Okla., has been here the past few days on a visit with his brother, W. W. Smith, and family.

**When and Where to Plant Trees
and Shrubbery on Home Grounds**

(From the Southern Nurseryman)
Every home should be tied to the
earth by means of shrubbery, trees,
flowers and grass. The house itself
is only the background of the picture.
To complete the painting and make
the picture a real one, the proper
planting of the ground is just as nec-
essary as paint is to artists when
putting it on a canvas.

A home cannot be beautiful unless
the grounds are improved with trees,
shrubbery, flowers and grass. It mat-
ters not how expensive and elaborate
ly the house is built, other things are
necessary in order to make it a beau-
tiful place.

Those who plant trees and shrub-
bery and beautify their home grounds
are public benefactors, because such
beauty cannot be hid from the public,
but is open and free for anyone to
view as often as they may wish. For
that reason, persons who plant trees
and shrubbery and change the home
from a bare unattractive place to one
of beauty is in every sense of the
word, a public benefactor.

**Shrubbery Remakes Appearance of a
Home**

More and more of our people are
realizing that the making of money
is not the sole object in life. As im-
portant as it is, there is no use of one
making it the sole object. Let it play
its part, but don't let it crowd out all
the other finer things of life, such as
the appreciation of beauty. Beauti-
ful home grounds is something that
all of us may have, whether rich or
poor, or have small or large grounds,
because it does not take a large
amount of money for enough trees and
shrubbery to remake the appearance
of the home.

Every person who improves his
home grounds with trees, shrubbery,
flowers and grass influences others to
do likewise. There is something about
it that is catching. When a neighbor
sees his friend better the appearance
of his home by properly planting the
grounds, it automatically creates a de-
sire on his part to improve his own
grounds. It is like the snowball that
is started down the hill, the farther
it goes the bigger it gets. Therefore
let those who improve and plant the
home grounds do the best job possi-
ble, not only for the sake of his own
place but for the effect it will have
on others doing this kind of work.

Plant Close to House Foundation
Shrubbery should be, as a general
rule, planted up close to the founda-
tion of the house, particularly in front
and around the two sides. By plant-
ing it next to the foundation it has the
effect of tying the house to the
ground, giving the house the appear-
ance of being a part of the picture,
rather than something stuck on it.
Never plant shrubbery in straight
lines. Put it in masses or clumps and

in irregular shapes. Try to approach
nature's method of planting as nearly
as possible. Straight lines of shrub-
bery cannot best serve the purpose of
beautifying the grounds and therefore
should never be planted in this way.

Neither should individual specimens
of shrubbery be planted about the
grounds. Remember that it should al-
ways be in masses. Neither should it
be planted in the middle of the
grounds, but up next to the foundation
of the building, near the border of the
lawn, in the angles created by the
walks and driveways, and near trees.
These general principles should be
kept in mind in locating shrubbery on
the home grounds, because one can
make the place appear rather odd by
improperly locating the shrubbery.

Leave Space in Front of House Open.
As a general rule trees should not
be planted directly in front of the
house but to either side and in the
rear. If the grounds are large, the
trees should be planted in groups,
rather than singly. Of course they
should not be planted too close to-
gether, as sufficient room should be
allowed for their complete develop-
ment. Under no condition should the
trees be planted in straight lines. This
gives a stiff, unnatural effect that is
not beautiful or pleasing to the eye.

The rose beds and flower beds have
no place on the front lawn. Leave
this space open, in order that a good
view may be had from the front of the
house. Also the front of the yard
should be largely free from trees and
shrubbery so as to give the grass
every chance possible for developing
a smooth lawn. Roses should be part
of the plantings on every home place,
but they should be either to the side
or to the rear, and never in front.
This is true of other flowers, such as
canna beds, rows of peonies, dahlias,
etc. This is the general principle with
reference to location of flowers that
should always be kept in mind, be-
cause the appearance of the place can
be very easily ruined by putting them
in front.

Make a Start Now

By keeping these simple rules in
mind, one can easily draw up some
plans for the planting of the home
grounds that will be effective and
pleasing. Expert advice along this
line may be secured from the State
Agricultural Colleges, Experiment
Stations and Nurserymen. Make the
needed and by drawing up the plans,
indicating where each tree, shrub, and
flower bed will be located. Set them
before spring opens up.

If the lawn has not already been
made, break the ground, make it rich
with stable manure and commercial
fertilizer and rake it over until it is
smooth and in a fine seed bed condi-
tion. Then plant Bermuda grass roots
which will give a good lawn during
the summer. Next fall sow rye grass
on top of the bermuda and this will
give green grass during the winter.
Before planting shrubbery or trees,
the ground should be thoroughly
broken and pulverized and enriched.
This is especially important for the
foundation planting up next to the
house. A good plan is to spade up 12
to 16 inches deep with a spading fork.
When trees and shrubbery are set
mulch with a heavy coating of stable
manure. This will both supply plant
food and conserve moisture.

CARD OF THANKS

We wish to thank sincerely every-
one of Lakeview Community who so
kindly assisted us during the recent
illness and death of our dear mother
and grandmother, Mrs. Margaret
Byrd.

Service and Satisfaction

These are the two requisites to steady advancement
in this or any other community, and these two things are
kept steadily in view at this store:

To keep our stock at all times complete with the best
obtainable merchandise.

To sell at a price which neither robs ourselves or our
customer.

To remember that the customer is always right.

To wait on you courteously and promptly.

To sell you what you want—not what we happen to
have or what we think is just as good.

These are the things that make up service, and if
they are consistently lived up to, your satisfaction is as-
sured. We believe that if you will come to us for any-
thing in our line you will get both Service and Satisfac-
tion. In fact we guarantee that you will, and we will ap-
preciate your business wholeheartedly.

FLOYDADA, TEXAS

**SAYS CO-OPERATION WILL
REVOLUTIONIZE FARMING**

Amarillo, Texas, March 10.—Co-
operative marketing is destined to
revolutionize the farming industry
and make the growing of all agricul-
tural commodities profitable, is the
belief of Judge L. Gough, president of
the Texas Wheat Growers' associa-
tion who represented 3,600 farmers at
a recent co-operative conference at
Washington. Delegates representing
many products and nearly half a mil-
lion American farmers were present
at the meeting.

"Tobacco is 90 percent signed up
co-operatively and the tobacco dollar
is worth 225 percent of what it was
before the growers organized. Com-
modities that are well organized have
been showing a profit to the co-op
members. When wheat is well or-
ganized, that is, when the majority of
the crop is controlled by the growers

themselves, wheat farming then will
be profitable," Judge Gough declared.

**BAPTIST PASTOR AT
WHITE DEER IN MEETING**

J. Pat Horton, pastor of the First
Baptist Church of Floydada, is in
White Deer this week where he is
conducting a meeting for the Baptist
Church.

REVIVAL MEETING AT FIRST BAPTIST CHURCH

A revival meeting will begin at the First Baptist Church the first Sunday in April. W. A. Boen, pastor of the First Baptist Church of Lubbock, Texas, will do the preaching. All Baptists are duty bound to be much in prayer for the meeting, and all Christians are cordially invited to take part in the meeting.

We are looking forward to a great spiritual awakening for the town and an ingathering of lost souls. The singing will be in charge of an experienced evangelistic song leader.

Let's give the Lord a chance with us.

FIRST BAPTIST CHURCH
J. Pat Horton, Pastor.

PEARCE'S MOTHER DEAD

T. R. Pearce has been at Crowell since Sunday, following receipt of the news of his mother's death there Sunday morning.

Mr. Pearce is expected home this mid-week.

FORD SALES FOR 5 MONTHS SHOWS BIG FIGURES

Ford sales for the last three months of 1923 and the first two and one-third months of 1924, made by the Barker Bros. Agency here, run up into big figures as indicated by the agency's sales records. The total number of new vehicles sold is 99. Of these 70 were touring cars, 10 roadsters, 12 coupes, 2 sedans and 5 trucks.

DEFECTIVE FLUE FIRE

A defective brick flue caused a blaze at the Woods Dairy Saturday morning, but only a small damage resulted, as it was found before gaining headway.

The fire caught wall paper close to a brick flue, sparks setting it. Mr. Woods was in the dwelling and saw the blaze start. It was extinguished in a very brief time.

1,100 STUDENTS TO BE TRAINED AT FT. SILL C. M. T. C.

Fort Sam Houston, Texas,—The Commanding General has announced that Brig. Gen. George L. R. Irwin will command the Citizens' Military Training Camp to be held at Fort Sill, Oklahoma, August 1st to 31st. This camp will train 1100 students in Infantry and Field Artillery and in other branches if sufficient applications warrant.

Applications will be received from all young men of good character between the ages of 17 and 24 and should be sent to the C. M. T. C. Officer Fort Sam Houston, Texas, who will furnish all desired information.

The Fort Sill camp will be one of the largest camps to be held in the country and the training will be complete in every respect, regular army officers and troops being detailed to assist in the work.

The Government will pay transportation and other necessary expenses of students.

Athletics and sports will feature the camp to be held at Fort Sill.

SHIPLEY SHIPS STEERS

D. D. Shipley shipped out four loads of steers Saturday. Three cars went to the Kansas City market and one car to an Illinois destination.

SON OF A. W. HANCOCK DEAD

Mr. Brown was in Floydada on business the first of this week. His new shop has been in operation for several days.

NEW PLANT MANAGER FOR BELL FLOYDADA EXCHANGE

A. A. Bailey, recently of Plainview, has succeeded E. L. Curb as plant manager for the Floydada Exchange of Southwestern Bell Telephone Company, taking over the local work Monday of this week.

E. L. Curb, who has been with the local exchange for the past 18 months, transfers to the Lubbock Exchange plant department. He has been one of the most efficient plant men ever assigned to this exchange, patrons of the company declare.

INSTALL NEW LIGHTS

New lighting fixtures have been installed by the Clark-Wood Dry Goods Company this week, a set of the Brascolite fixtures having been installed.

NOTICE OF ELECTION

The State of Texas, City of Floydada, County of Floyd. WHEREAS, the City Council of the City of Floydada, Texas, deems it advisable to issue the bonds of said City,

for the purposes hereinafter mentioned; therefore,

BE IT ORDERED by the City Council of the City of Floydada, Texas, that an election be held on the 18th day of March, 1924, which is not less than thirty days from the date of this order, at which election the following propositions shall be submitted:

PROPOSITION NUMBER ONE

Shall the City Council of the City of Floydada, Texas, be authorized to issue the bonds of the City of Floydada, in the sum of TEN THOUSAND DOLLARS (\$10,000.00) to become due and payable serially within any given number of years, not to exceed forty years, within the discretion of the City Council, and bearing interest at the rate of SIX PER CENTUM (6 per cent) per annum, payable semi-annually, for the purpose of the Extension of waterworks, and to levy a tax sufficient to pay the interest on said bonds and create a sinking fund sufficient to redeem them at maturity, under authority of the Constitution and Laws of the State of Texas, particularly Chapter 1, Title 18, Revised Statutes, 1911, and Chapter 9, of the General Laws passed by the Thirty-seventh Legislature, at its Regular Session in 1921.

PROPOSITION NUMBER TWO

Shall the City Council of the City of Floydada, Texas, be authorized to issue the bonds of the City of Floydada, in the sum of FIFTY THOUSAND DOLLARS (\$50,000.00), to become due and payable serially within any given number of years, not to exceed forty years, within the discretion of the City Council, and bearing interest at the rate of SIX PER CENTUM (6 per centum) per annum, payable semi-annually, for the purpose of the construction of sewers, and to levy a tax sufficient to pay the interest on said bonds and create a sinking fund sufficient to redeem them at maturity, under authority of the Constitution and Laws of the State of Texas, particularly Chapter 1, Title 18, Revised Statutes, 1911, and Chapter 9, of the General Laws passed by the Thirty-seventh Legislature, at its Regular Session in 1921.

The said election shall be held at The City Hall, in the City of Floydada, Texas, and the following named persons are hereby appointed managers of said election, to wit:

A. D. White, Presiding Judge; W. L. Boerner, Assistant Judge, R. E. Fry, Clerk; and J. G. Wood Clerk.

A COPY OF THIS ORDER, signed by the Mayor of the City of Floydada, Texas, and attested by the City Secretary, shall serve as a proper NOTICE OF SAID ELECTION.

The Mayor is authorized and directed to cause notices of the election to be posted at three public places in the City of Floydada, one of which shall be at The City Hall (the place herein designated for holding said election) for at least THIRTY DAYS prior to the date of said election. The Mayor is further authorized

and directed to have said notice of election published in the Hesperian, which is a newspaper of general circulation in the City of Floydada, and which notice shall be published once each week for five weeks, the date of the first publication being not less than thirty days prior to the date of the election.

F. P. HENRY, Mayor, City of Floydada, Texas. ATTEST: BURL BEDFORD, City Secretary.
