In Finals for "Mrs. Texas"

Mrs. Waymond McBroom of Haskell is among 10 outstanding homemakers who will compete in Abilene Sept. 21 to determine Lone Star Gas Company's West Texas regional representative in the annual 'Mrs. Texas' contest at Dallas Nov. 2-3.

The regional finals will be held in the morning of Sept. 21 at Lone Star's Abilene district office and will conclude with a noon luncheon at which the winner will be crowned.

Mrs. McBroom, whose husband is a well-known young farmer. is the former Betty Hester, daughter of Mr. and Mrs. Ed Hester of Haskell. Mr. and Mrs. McBroom have daughters, Lisa, three two years old, and Renae, nine and one-haif months old. They live at 105 North Ave. M.

Dr. Middleton described Elliott's injuries as consisting of a severe fracture of the skull extending from the back of the head around to the right ear, another fracture in the region of the right eye where a frag-ment of bone had been forced up into the brain. Elliott also had severe internal injuries,

the doctor stated, and any of the three injuries would ordiharily be fatal. He estimated the victim had lost about eight pints of blood from internal hemorrhaging. Other State witnesses includ-

ed the victim's wife and their 19-year-old son. Mrs. Pauline Elliott, widow of the slain man, became upset and almost hys-terical Tuesday afternoon under gruelling cross examination of defense attorney L. G. Mathews. On the stand she admitted that she might have "cursed" the defendant when he threatened her husband, but had no recollection of doing so. At one point in questioning by Mathews, Mrs. Elliott almost screamed her answer, then began sobbing. As the witness continued crying, court was re-cessed until Wednesday.

Other witnesses heard in-cluded Durwood Elliott, son of the victim, Leroy Westerman, Maxine Westerman, Virgil Russell, Wayland Baugh and Mr. and Mrs. Gene Baugh, who had been with Mr. and Mrs. George Bell Elliott on the night of the fatal fight.

The group had met at the cafe in Haskell, the young people having been to a dance in Stamford. All testified as to events in the cafe leading up to the fatal incide.

Radioactive Fallout Over Texas

Radioactive fallout is under close scrutiny at Texas' two testing stations in Austin and El Paso.

Resumption of nuclear testing by the Soviet Union brough the 24-hour-a-day shift atop the State Health Department building in Austin where sampling devices, working like vacuum cleaners, pull jet streams of air through a filter to measure fall-

During the four-year nuclear test ban, radioactivity got progressively lower. Before the tests were stopped, engineers said it was 50 to 100 times higher. They expect results of Russian shots to begin showing up here within the next few days Meanwhile, Gov. Price Daniel announced a survey is being launched in Texas to make fallout shelter space available over the state, He said Col. R. Paul West of the U. S. Army Engineers at Fort Worth, who has been assigned to survey, will work in coordination with the State Civil Defense and Disaster Relief Division and local civil defense officials.

Survey is part of a national program to locate possible fallout shelter space in existing buildings, tunnels and other protected areas.

One False Step

There is a long-held fear that World War III might be set off by miscalculation-by some error of judgement on the part of an aggressor that could conceivably lead to the death of civilization as we understand it.

That danger was recently stressed by Lord Home, Britain's Foreign Secretary, Specifically, he said that a Russian false step in Berlin "could easily plunge Furope into war.

There is a chilling item in a recent issue of U. S. News and World Report. According to it. Soviet Ambassador Menshikov said, at a recent diplomatic reception: "In the final analysis, when the chips are down, the American people won't fight for Berlin.

That view-which has been held in some friendly circles, as well as unfriendly-has resulted, in part at least, from the air of indecision which has hung over Washington. Brave words have not been implemented by action. Now, however, a change seems to be taking place. It is being made clear that we will retreat no farther so far as Berlin is concerned.

There can be no doubt that this kind of resolve motivates the great majority of Americans. Let us hope that it is understood everywhere. For that kind of understanding, in this age of unbelievable weapons, offers the last best hope of avoiding 25 and who had returned home

There are still honest people

That fact was demonstrated last week when a man who lives in a town fairly distant from Haskell made a special kicker, added the extra point trip here to pay a \$24 grocery after Haskell's TD to give the bill he had owed since 1932.

The man related that a Haskell merchant, now deceased blocking the Seymour kick, had granted him credit during the depression. Unable to pay the debt before moving away he had always intended to return some day and clear up the account.

Coming back to Haskell last week, he learned the merchant who had befriended him was loes a fair job in appraising no longer living. Making inand forecasting both college quiries, he located the next of kin. After explaining the purpose of his trip, he paid the long-due account.

Now fairly prosperous and the owner of two business establishments, he recalled that in 1932 he lived five miles from Haskell. He had to walk that distance and carry the groceries needed by his family.
