Blackwell-Earles Vows Read In Abilene

In a simple double ring ceremony, on September 18, at 8 o'clock, Gloria Jean Blackwell became the bride of Eddie Mack Earles.

The wedding was at the home of Reverend and Mrs. Larry Curry in Abilene. Rev. Curry is a cousin of the bride and he performed the ceremony before a white mantle decorated with greenery and an arrangement of white carnations.

The bride is the daughter of Mr. and Mrs. C. E. Blackwell of Stamford, and the groom is the son of Mr. and Mrs. Mack Earles of Paint Creek. The groom's mother was the matron of honor and the groom's father was best man.

The bride wore a powder blue wool suit with a champagne feather hat and champagne shoes. Her jewelry was a single strand of pearls. She carried a white satin Bible trimmed with white lace and pearls. On the Bible lay a nosegay of white carnations.

The couple will live in their mobile home at Veda's camp. The bride was a 1960 graduate of Stamford high school and was one of the cheerleaders. The groom is a graduate of Paint Creek high school and is now employed by Louis Kuenstler, Commissioner.

Ann Elizabeth Ratliff, Lonny R. Bass Exchange Vows in Darmstadt, Germany

MRS. LONNY ROBERT BASS

Miss Ann Elizabeth Ratliff, daughter of Mr. and Mrs. Hugh C. Ratliff, exchanged wedding vows with Mr. Lonny Robert Bass, son of Mr. and Mrs. Jas. T. Bass, of Americus, Georgia, in Chapel rites on Sept. 24, 1960, in Darmstadt, Germany.

The ceremony was performed by Chaplain James Robert Barnett of Haskell, Texas, Air Force Chaplain of Darmstadt Community Chapel. Standing in for her father, the bride was given in marriage by Colonel William P. Williamson, Commander of the 6911th Radio Group Mobile. Honor attendants were Miss Annetta Clark, daughter of Master Sergeant and Mrs. Gerald Clark, and Staff Sergeant Leon E. Grenier. Mrs. Al Reveria sang "Entreat Me Not to Leave Thee" accompanied by Mrs. D. R. Buford at the Chapel organ. Ushers were Alci Dengel and A-1ci Charles Ulmer.

The bride's ballerna length gown of white Alencon lace over Peau de Soie was designed with a softly pleated skirt and sculptured neck line. Her bracelet length sleeves were fastened with small covered buttons. A pearl and sequin coronet held her veil of illusion. She carried a bouquet of white carnations centered on a white Bible given to her by her grandmother, the late Mrs. W. A. Kimbrough of Haskell.

Miss Clark's dress of turquoise Peau de Soie was fashioned with a sculptured neck and fitted cummerbund. Her bouffant skirt was waist length. Her head piece was of turquoise satin and illusion. She carried a bouquet of mixed flowers. The reception was held immediately following in the lower Chapel.

For a trip to Berchtesgarden, Germany and Salzburg, Austria, the bride wore a camel tan wool sleath with a matching waist length jacket. Her accessories were of brown lizard and her hat of pheasant feathers.

The couple will reside in Darmstadt, Germany, where Mr. Bass is stationed with the Air Force. Junior Hi P-TA Yearbooks Due October 13th

The Junior High Parent-Teacher Association will meet Thursday, Oct. 13, at 4 p. m. in the Visual Aid Room. Mrs. Joe Thigpen will be in charge of the program, and the yearbooks for 1960-61 will be presented. All parents are urged to attend.

The return of cooler weather means that fire hazards in the home will soon be on the rise. The Texas Farm and Ranch Safety Council urges every family to have an emergency plan and that every member know what to do in case of fire. Such planning can cut property damage losses and personal injuries and might save a life.

Sunshine Sewing Club Meets With Mrs. Smith

The Sunshine Sewing Club met with Mrs. Smith Tuesday evening. The living room was attractively decorated with vases of flowers and bowls of fruit.

The program began with Italia Jenks leading the group in singing. Mrs. Georgia Mae Fouts presided over the business meeting. The roll was called and a helpful hint was given, after which all officers gave their reports.

This was the regular sewing date, so everyone enjoyed the afternoon sewing. Refreshments were served to nine members. The next meeting will be with Mrs. Oase Cass.

Cub Scout Pack Needs Two More Den Mothers.

Pack 36 of Haskell Cub Scouts held their first meeting of the season Monday night of last week, when plans were made for activities during the current season.

Cubs from four Dens were present, with 10 new Cubs being listed this season and possibly more to be enrolled.

Cub Master W. N. (Dude) Mercer announced that two additional Den Mothers were needed, in order that boys desiring to enroll as Cub Scouts could be taken in.

Haskell now has four active Cub Scout Dens under the supervision of Den Mothers Mrs. W. N. Mercer, Mrs. Powell, Mrs. G. A. Smetlie and Mrs. Ruby Smith.

"We have a small group of boys in their second year of Cub Scouting who are without a Den Mother, and we hope that some interested woman will volunteer to work with these youngsters," Mercer said. He added that women did not necessarily have to have boys enrolled as Cub Scouts to qualify as Den Mothers. Women interested in working with the Cubs are asked to get in touch with the Cub Master or any Den Mother.

At Monday night's meeting, local Boy Scouts visited the Cubs and conducted a flag ceremony.

Mrs. Powell's Den 8 won the Cubby award. In addition to the visiting Scouts, 59 Cubs were present.

Pack 36 meets once each month in the Elementary School Building.

In 1958, 1 out of every 6 of the Nation's population aged 22 years or over had a bachelor's degree, compared with only 1 out of 50 in 1900, according to data published by the U. S. Labor Department's Bureau of Labor Statistics.

MAKE A MEMENTO BOARD WITH SNAPSHOTS AND SCHOOL SOUVENIRS

Poster board, plastic tape, snapshots and a few souvenirs are all you need to make a memento board. Cut an ordinary piece of poster board to the desired size and shape. Add a bright touch by trimming the edges with plastic tape in two different colors. (It's good fun and sense to choose school colors.) Select snapshots not only of school friends and scenes, but family, home, and pets as well. The actual arrangement of the pictures is largely a matter of personal taste. But it's a good idea to place them so the subject matter faces toward the center of the board. A few enlargements here and there will serve as eye-catchers. And for variety and interest, include some snapshot cutouts. All may be mounted easily enough with double-faced tape. The cellophane tape is sticky on both sides and will adhere to either paper or cloth without buckling or staining. Too, the tape can be easily removed so you can re-arrange the snapshot gallery with minimum effort. Intersperse pictures with special mementos—such as class play programs, tickets to football games, dance cards—and you'll have a memento board that's interesting, fun and a real conversation piece.

Charter Granted Cable-Vision Co.; Erection of Tower Due by Oct. 15

It was announced this week that the Secretary of State had issued a charter to the Cable-Vision Company of Haskell.

The incorporators are: C. G. Euron Sr., Haskell; Lasater Hensley, Guthrie; and J. L. Hill Jr., Stamford. Officers are: J. L. Hill Jr., president; C. G. Euron Sr., vice president; and R. C. Cobb, secretary-treasurer.

Directors in addition to the officers are: Lasater Hensley, Guthrie, Wayman Smith, Asperment, and J. R. Gleaton, Stamford.

John Darnell has been employed as manager of the Corporation's system. Mr. Darnell has spent most of his life in Haskell. The past five years he has been in the irrigation well business. Prior to this time he was an automobile and tractor dealer for about ten years. During this time, he served as public relations representative for General Motors over a tri-county area for several years. He is a member of the Masonic Lodge, Chamber of Commerce and the First Baptist Church of Haskell. Mr. and Mrs. Darnell have two

Clifton Cobb Is Given Promotion To Major

Announcement was made this week by the Eighth U. S. Army Headquarters in Fort Sam Houston of the promotion of R. C. (Clifton) Cobb of Stamford to the rank of Major in the U. S. Army Reserve.

Major Cobb is a former resident of Haskell and was loan officer for the Production Credit Association in this community. He now holds the same position with the Stamford PCA and in addition serves as assistant secretary-treasurer of the association which covers six counties.

He is married to the former Annie Bass Gilliam of Haskell. He graduated from High School in Lueders and attended Abilene Christian College prior to his entry into the armed forces in June, 1942.

Inducted into the service as a private in 1942 he served in enlisted ranks through World War II in Ireland, England, France, Luxembourg, Belgium and Germany. He received a Battlefield Commission as Second Lieutenant in February, 1944. He was separated from the armed services in 1945, and recalled during the Korean War in July, 1951. During the Korean campaign he served as motor officer for a Medical Battalion of the 40th Infantry Division where he received the Bronze Star Award for meritorious service. He was released from active duty in December of 1952 and served as Adjutant of the 375th Replacement Battalion in Haskell until its relocation in 1959. Since that time he has served as second in command of the 4253rd Replacement Group which replaced the other unit in Haskell.

His parents are Mr. and Mrs. Vaughn Cobb of the Cobb community in southeast Haskell County.

Approximately 150,000 appliance service men are employed this year. They generally receive from \$95 to \$115 for a 40-hour work week, according to the U. S. Department of Labor Statistics.

PAINT CREEK . . . COMMUNITY NEWS

BY MRS. GENE OVERTON

Wasn't homecoming fun? I don't know when we have had a nicer affair. Much credit goes to Mr. Willie Lee Medford who served as Alumni Association president these past two years, and worked and worked to make Homecoming the success it was. It was most appropriate for Willie Lee to be the first president because he attended Howard, one of the consolidated schools for most of his school days and then was in the first graduating class at Paint Creek. Now he is teaching vocational agriculture on our faculty. Credit goes to the class representatives of the classes for notifying alumni, to Mrs. Allen Isbell who had charge of registration, to Miss Billie Eosher and her homemaking girls for making the registration ribbons, to Supt. Pat Morrison for all his help, to Mr. Trussell for having the building so nice and shiny, to Mrs. Manley Sikes for the program.

Many amusing things happened. One was when we typed a registration card for Wayne Perry and we put "Guest." He informed us he was a student. He was a pupil at Ward School in 1889. To top that, one of his teachers was here, Mrs. Amanda (Post) Cannon taught at Ward in 1888, 1889 and 1890. Her son, Frank, and her daughter brought her. She was given special recognition during the program and presented a corsage. Two of her pupils were here, Mr. Perry and Kim Hisey. Two hundred seventy-four registered for Homecoming.

Mr. Medford presided and Supt. Pat Morrison welcomed former students, former teachers and guests. A program con-

sisting of a serious reading, a humorous skit by two freshman boys, Edwin Livengood and Dubble Howard, and a humorous reading, "The Football Game," by Ina Ree Bittner.

The members of each class from 1939 to 1960 were recognized. The class of 1963 had 7 present which was the largest. The classes of 1951 had no members present. Among the smaller schools, Howard had the most present.

Former teachers were Mrs. Amanda Post Cannon, Miss Frances Warden, Paint Creek; A. P. Williams, Paint Creek; Mrs. Mabel Jones Overton, Post, 1932-1935.

The person coming from the farthest distance was G. W. Gunn from San Francisco, Calif. The largest families were Mr. and Mrs. Ira Willett with five children, and Mr. and Mrs. Bill Green with five children. The youngest mother present was Nancy Earles Pieser; the youngest father was Joe Bob Earles, 1956. The student who has had a child graduate was Mrs. Ouida Treadwell Weaver, whose son, Robert Weaver, graduated in 1960. Kim Hisey was the oldest student present.

In the business meeting, Ray Perry was elected president for the 1962 Homecoming, Margaret Fischer was elected secretary; Billy Garland Middlebrooks was elected chairman of the food committee, and Willie Lee Medford was chosen chairman of the program committee.

In colorful half-time activities at the Paint Creek-O'Brien football game, Wanda Medford, a sophomore, and daughter of Mr. and Mrs. Leon Medford, was crowned Homecoming Queen. Willie Lee Medford, president

of the Ex Students Association crowned the queen and presented her with flowers.

Senior class nominee for the title was Mary Lou McClennan, daughter of Mr. and Mrs. A. B. McClennan.

Nominee from the freshman class was Marjorie Earles, and junior class nominee was Jane Earles. Both are daughters of Mr. and Mrs. Jody Earles.

Also taking part in the coronation ceremony was the high school Pep Squad.

Albert Taane, and Mr. and Mrs. Gene Overton attended the annual meeting of the California Creek Soil Conservation Service at the Ericksdale Church Monday night.

Mr. and Mrs. Hoyt Perry had all their children home for the Homecoming at Paint Creek this past weekend. Mr. and Mrs. Wayne Blackstock and daughters from San Antonio, Mr. and Mrs. Gene Perry and children from Stanton, and Don Perry from Abilene.

Mr. and Mrs. Ira Willett and children of Lubbock were guests in the community last weekend.

Mrs. Charles McBeath of Amarillo visited with the Gene Overton's Saturday evening. She is Mrs. Overton's sister. A nephew, Bill Jones, of Rule, also was a guest.

Mr. and Mrs. Francis Blake and Paul have moved their home from their farm to the Haskell-Stamford highway and are remodeling it.

Mary Ballard who has had to stay in bed for almost a month with rheumatic fever is better and hopes to be back in school soon. She is the daughter of Randy Ballard at the Anchor.

The community has several boys overseas right now. Eddie Lee Thane is in Korea. He has phoned home a time or two when he had a leave in Japan.

Jerry Welsh is also stationed in Korea. He is the son of Mr. and Mrs. Ed Welsh.

New Chrysler Newport Features Dollar-Saving Engine

For 1961 Chrysler introduces a Newport series to go with its Windsor and New Yorker models. The Newport, shown here in a two-door hardtop, is powered by a 265-horsepower engine which operates on regular-grade fuel, thus giving more miles per dollar. A full-size car with a 122-inch wheelbase, the Newport will compete in a lower price range than previous Chryslers, according to factory officials.

in Hawaii with the navy.

Others in the service are Ray Hughes who is in the submarine service and stationed at Hartford, Conn. He only has a few more months until he will be discharged and be home.

Lt. Raymond Medford, who is a career air corps pilot is stationed in North Carolina.

The FFA boys and the FFA girls will go to the State Fair in Dallas this coming Saturday. It is Rural Youth Day and they will be special guests of the Fair. Miss Billie Eosher and Mr. and Mrs. Willie Lee Medford will make the trip with them.

Mr. and Mrs. Ed Stodgill from Rising Star were weekend guests of Mrs. Stodgill's cousin, W. A. Montgomery. They also attended Homecoming activities at the school.

When I get a chance to read the registration book, I'll tell you more about who was here for homecoming.

9-Year-Old Lad Goes to Rescue Of Officials

For a while Tuesday, it looked like the courthouse would be deserted.

County officials, office personnel and custodians, all were holding their noses.

Offensive odor which filled the ground floor was traced underneath the building. But the only entry was an opening too small for a man to enter.

County Judge Jim Alvis contacted two of his little friends, Carl Taum, 9, and his 8-year-old brother, Vernell. Told of the dilemma, the boys looked the situation over and went into action.

Trailer Load of Household Goods Ruined in Blaze

Two young couples moving from Lawton, Okla., to Odessa, Texas, had a stroke of misfortune Saturday night, as they drove into Haskell.

Trailers loaded with furniture and household goods were being pulled behind two automobiles in which the two families were traveling.

As they reached the north city limits, one trailer was discovered afire. Pulling off the pavement, the trailer was unhooked and the fire department notified. In the meantime, members of the caravan were able to save a TV set and several other articles.

City Fireman Floyd Lusk quickly extinguished the blaze after his arrival, but most of the trailer's contents had been destroyed and one tire on the trailer had burned.

Driver of the car told Fireman Lusk that a cigarette carelessly thrown from the car probably was whipped into the loaded trailer, starting the fire.

During the cold, wet weather ahead, farmers and ranchmen should be on the alert for limping cattle. It could be the first signs of foot rot, advises Dr. C. M. Patterson extension veterinarian. He suggests that lots and areas around feed and water troughs be kept clean, well-drained and as dry as possible.

VOTE FOR TEXAS

RICHARD M. NIXON, candidate for President, is a Californian, but he thinks the Texas way. Richard Nixon stands for:

- A strong national economy and defense so that America will not have to apologize to Khrushchev for anything;
- A sensible farm program that will attack and solve the present problems.
- Texas retaining its tidelands, and a tax policy favorable to Texas.
- Local control of our schools.

If you will read and compare Nixon's platform to that of his opponent, you will agree that a vote for Nixon is a vote for the best interests of Texas.

Hunters Asked To Cooperate in Mail Survey

Daniel H. Janzen, director of the Bureau of Sport Fisheries and Wildlife, at Washington, D. C., today urged all waterfowl hunters who have received registrations cards with the purchase of their Federal duck stamps to cooperate with the Fish and Wildlife Service of the U. S. Department of the Interior by filling out and promptly returning the indicated portion of the form.

This year more than 1400 post offices throughout the country have been furnished with double post card forms which are handed to purchasers of duck stamps at these particular post offices.

One-half of the card is to be filled out by the hunter and returned at once to the Bureau. The other half is to be retained as a sort of scorecard on which the hunter can list the number of kinds of waterfowl which he bags during the coming season, and the number of days he hunted.

"This sample of hunters who return the cards, said Director Janzen, 'will receive questionnaires at the end of the hunting season in which they will be asked to report all their seasonal hunting success. It is highly important that all duck stamp purchasers receiving registration cards fill out and mail them promptly. Cards from everyone contacted are necessary to make our sample representative of the entire hunting population.'"

The chief purpose of the survey is to determine as accurately as possible the extent of waterfowl hunting kill for the season in order that a proper balance between the harvest of these birds and the hunting regulations may continue to be maintained.

This annual mail survey was inaugurated on a national basis during the 1952 hunting season when 150 post offices cooperated with the Service in handing out the card forms. According to Director Janzen, it was one of the most progressive steps ever taken by the Fish and Wildlife Service in the matter of estimating the annual harvest of waterfowl.

Plan Winter Pastures

Don't let this hot weather fool you. Winter is not far away, and now is the time to plan for winter pastures. Temporary pastures not only reduce the cost of wintering livestock, they help maintain growth and production. Many dairymen have reported net returns of \$25 to \$50 per acre from winter temporary pastures, says George McBee, extension pasture specialist.

Texas has had a good pasture year, but the summer grasses will be dormant during the winter months. Temporary pastures will supply the needed green grazing, and will also help with erosion control, says McBee.

The specialist advises planting at the proper time for your area, even if the seed has to be dusted in. Seed that is already in the ground when it rains will have the jump on seed that is not planted until after the rain.

Pastures, just like all other crops, need to be fertilized. A soil test is the only sure way to determine just what fertilizer is needed, and money spent for a soil test is never wasted. If the seed have to be dusted in, the fertilizer should be put down also, says McBee. Even if the winter pasture doesn't produce, the fertilizer is not wasted—it is there for the next crop.

McBee advises contacting the local county agent for additional information concerning winter pastures. County agents also have copies of L-258, "Winter Temporary Pastures."

Livestock Found To Suffer From Foot Troubles

During the cold, wet weather ahead, farmers and ranchers should be on the lookout for limping cattle. Dr. C. M. Patterson, extension veterinarian, says the limping is one of the first signs of foot rot, a livestock disease that often develops during fall and winter.

The disease, which causes a raw condition similar to "athlete's foot," can spread rapidly through a herd. Foot rot is caused by an organism which gets its start when the feet of cattle become softened and damaged in wet, muddy lots and pastures, Dr. Patterson continues.

If treatment is begun early, the problem can usually be cleared up. The veterinarian will usually have to trim away the infected tissue before he can apply medication.

Freeze Poultry For Home Use

The popular Texas Agricultural Extension Service bulletin "Freezing Poultry for Home Use" has recently been reprinted for the third time. In addition to listing the equipment needed for preparing poultry for freezing, the bulletin explains and illustrates different steps in cutting and packaging poultry for efficient and easy use.

As explained in the bulletin by F. Z. Beanblossom, poultry marketing specialist, and Roy Snyder, meats specialist, poultry used for freezing should be of high quality and prepared ready to cook. Because of this need for preparation, it is advisable to think about the every day needs of the family and special occasions before preparation of the chicken or turkey starts. Be sure the poultry is ready to be cooked regardless of the form in which it is frozen.

The recommendations given in the bulletin have proven to be reliable in insuring a quality product, but they are not necessarily the only procedures. This bulletin, B-177, may be obtained from local county extension agents.

Farmers Should Guard Against Fire Damage

What would you and your family do in case of a fire? Do you have any emergency plan? The Texas Farm and Ranch Safety Council says that if every member of the family knows what to do in case of fire, severe property damage or even loss of life may be prevented.

The Councilmen urge families to work out a simple emergency plan that is understood and even rehearsed periodically, by all members of the family. Basically, the plan should involve calling the fire department, getting the family to safety and saving animals or farm livestock.

The more isolated your place is, the more important it is to have fire-fighting equipment on hand. Such common tools as rakes, axes, shovels, a ladder and garden hoses are valuable for fighting small fires. It is also a good idea to have commercial fire extinguishers handy. Dry chemical or carbon dioxide extinguishers should be available for use on flammable liquid or electric fires, the Council says.

Another valuable fire-fighting aid is the farm pond or irrigation canals. If pumps are available, water sources such as these could mean the difference between light or heavy losses. High-pressure orchard

Graveside Rites Held Here For Electra Woman

Rites were held at the graveside in Willow Cemetery Monday afternoon for Mrs. Katherine Power, 49, of Electra, who died Saturday night at her home in that city after a long illness.

Funeral services were held at 2 p. m. Monday in the First Baptist Church in Electra, after which the body was brought here for final rites and interment.

Born August 2, 1911 in Jones County, Mrs. Power had lived in Electra for 15 years. Survivors include her husband, Roy L. Power; three daughters, Mrs. Betty Paulhemas of El Paso, Mrs. LaDell Wesner of McAdoo, Pa., and Miss Nancy Power of Electra; a son, Roy L. Power of Wichita Falls; her parents, Mr. and Mrs. J. W. Jeffreys of Electra; three brothers, A. W. and Truet Jeffreys, both of Sylvester and Tommy Jeffreys of Electra; a half-brother, Merrell Carrol of Vernon; a sister, Miss Norma Jeffreys of Electra; and seven grandchildren.

sprayers can also double as fire-fighting equipment.

Avoiding fire hazards is also a vital part of safeguarding your home from damage, the Council points out. Care should be taken in house planning and construction, in installation and use of electrical appliances, and in such everyday activities as trash disposal, use of flammable liquids, and power equipment operation.

ALL PROSPECTS...
JESUS TOLD US TO—

Jesus told us to tell you. In this scientific age, people who hear voices are regarded as candidates for a psychiatrist. But we have heard the Savior's command to reach every creature with the Good News. That's why we are having an Enlargement Campaign in our Sunday school! Not so we can boast of our big attendance. Not so we can build a bigger building or win a contest. We simply want to share the Good News with as many people as possible. We want to tell you. Why not spend an hour or so with us Sunday morning?

FIRST ASSEMBLY OF GOD
 Pastor, I. A. Burns Haskell, Texas

THE HIGH ROAD & THE LOW ROAD

The same local Republicans who are complaining that Jack Kennedy is rich and Catholic, used to vote in Democratic primaries for Allan Shivers, a rich man whose wife is a Catholic. They used to vote for William Wakeley, a rich man.

After the Democrats have won next November, these same local Republicans will be receiving canned ads from Republican headquarters, putting them in the local newspapers, and voting for either Shivers or Wakeley to take Johnson's place in the Senate.

Republicans Nixon and Eisenhower piously say, "Leave religion out of this campaign, and quit talking about it."

Local Republicans piously put anti-Catholic ads in local newspapers.

**A TYPICAL NIXON CAMPAIGN...
 PIOUSLY DIRTY!**

DOUBLE TALK

Shivers talked in Dallas and Nixon talked in New York City—on the same day—September 28, 1960.

Shivers talked AGAINST federal aid.

Nixon talked FOR federal aid—a seven point program for the big city folks.

Both talks were reported in the Abilene paper the next morning—Shivers' on Page 2-A, Nixon's on Page 12-B.

H-SU Students Represent All Areas of US

ABILENE — Students from more than 200 Texas cities and communities, 38 other states, seven foreign countries and one U. S. Possession are among the 1,600 enrollees at Hardin-Simmons University for the 1960 fall term.

More than a third of the student body is comprised of students from the Abilene area.

Every geographic area of Texas and the U. S. is represented on the Baptist university campus. Students are enrolled from El Paso in extreme West Texas, from Texarkana in East Texas, from Stratford High in the Panhandle and from Raymondville and Harlingen in the Lower Rio Grande Valley.

California, Oregon and Washington on the West Coast, Massachusetts and Connecticut in

the New England area, Georgia and Florida in the deep South and Michigan and Minnesota in the Great Lakes area have students enrolled at H-SU.

Foreign countries represented on the campus are Argentina, Canada, Hong Kong, Japan, Israel, Hungary and West Germany.

One student is enrolled who hails from Puerto Rico, a U. S. possession.

New Mexico has the largest student representation outside of Texas with 61, followed by Oklahoma with 18, California with 13, and Missouri and Colorado with 10 each.

Colorado Springs, Colo., has 16 students enrolled to take top spot for a city outside Texas with the greatest number of student body members.

Texas cities having more than 20 students as H-SU student body members include Fort Worth with 27, Dallas with 22, Merkel 20, Sweetwater 24, and Wichita Falls, 21.

Other areas of Texas having more than 10 students represented include: Stamford, 19;

GUESTS IN HOME OF J. M. LITTLEFIELDS

Mr. and Mrs. J. M. Littlefield had as visitors in their home last week, the Haskell man's niece and her husband, Mr. and Mrs. Newman Ernestberger of Dexter, Ky., and Mrs. Daisy Morgan of Huntington, Tenn. The visitors had been on an extended vacation tour through Canada, a large area of the United States, and points in Old Mexico and were returning home.

Lamesa, 18; Anson and Houston, 13 each; Hamlin, 12; Baird, El Paso, Lubbock and Snyder, 11 each, and Haskell, Roscoe, San Angelo, Vernon and Winters with 10 each.

States represented which have not been previously mentioned include Alaska, Alabama, Arizona, Arkansas, Hawaii, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maryland, Montana, Nebraska, New Jersey, Ohio, Pennsylvania, South Dakota, Tennessee, Utah, Virginia, West Virginia, Wisconsin and Wyoming.

McDonald Rites Held Friday In Oklahoma City

Funeral for W. M. (Bill) McDonald, 68, former Haskell resident, was held Friday, Sept. 30 at 2 p. m. in the chapel of Hahn-Cook Funeral Home in Oklahoma City, Okla., and burial was in that city.

Mr. McDonald, head of the orthopedic appliance department at Children's Memorial Hospital, died Sept. 27 at the family home. He was a brother of Mrs. A. J. Josselet of this city and owned and operated a shoe repair business here for a number of years before moving his family to Oklahoma City in 1929.

A specialist in braces for crippled children, he had been an employee of the Oklahoma City hospital 13 years. Known as "Daddy Mac" to the children he treated, he had attended numerous national seminars

on braces and was responsible for several improvements in braces that have been accepted throughout the country by the profession.

McDonald was a pioneer in orthopedic appliance work in Oklahoma and was recently certified as a professional orthotist. He worked with orthopedic devices about 20 years before he began work at the hospital. He had been head of the orthopedic appliance department for over 10 years.

In recognition of his contribution to relief of crippled children, plans have been announced for establishing a memorial chapel in the Oklahoma City hospital in his honor.

He was born in Bell County, Texas. He was a member of the First Methodist Church.

Surviving are his wife, Minnie, of the home; two sons, Jeff D., of Washington, D. C., and Lt. Col. G. A. of Dayton, Ohio; and two sisters, Mrs. W. H. Morris of Tishomingo, Okla., and Mrs. A. J. Josselet of Haskell.

Sleek Impala One of 20 New Chevrolets

Designers have applied smooth, graceful lines to the '61 Chevrolet Impala, Bel Air and Biscayne passenger car lines. Wings on the rear deck have been smoothed into the body. Roof lines, as noted in the Impala Sport Sedan (above) are freshly contoured and are separately styled for each model. Overall body design features gently sloping lines. Rear trunk deck lid now opens flush with top of bumper affording easier loading and unloading. Fuel tank has been repositioned for greater safety. The Impala Sport Sedan is one of 20 body styles in the standard Chevrolet line.

All Hunters Must Possess Tags for Deer

If you hunt deer you must have deer tags, even though you are entitled to exemption. This is the warning of the fiscal director of the Game and Fish Commission, whose job it is to provide hunting and fishing licenses.

For persons entitled to an exemption, the license is required only if you hunt deer or turkey. The exempt license is not required for other types of game.

The following are exempt from buying a hunting license: If you hunt entirely within your own county (except for deer or turkey); if you are over 65 or under 17 years of age. If you qualify for hunting without a

license under you do not need tags. It is illegal to tag a deer if it is killed. Just as soon as you have the tag, it should be attached to the deer. If a buck, where doe's are securely wrapped or fastened with wire. And the tag so it will not be handling the icehouse while in transit. The deer tag is transferable and not of the shooter.

Mail Volume In Nation Reaches All-Time High

New all-time high in the nation's mail volume was reached during fiscal year 1960 ended June 30, continuing a steady upward trend at a rate which even exceeds the population growth, according to advance information from the Annual Report of the Post Office Department which has been made available to Postmaster Harold Spain.

Although subject to last minute revisions, the year's total has been estimated at 63.6 billion pieces of mail which includes about one billion pieces of parcel post. It was stated that this would mean an increase of nearly 25 per cent over the corresponding figures for 1953 when the annual volume was 50.9 billion pieces.

During this same period, it was pointed out, the revenue of the Department also has shown an impressive gain with an increase from \$2,091,714,000 in fiscal year 1953 to \$3,276,800,000 for fiscal year 1960.

Here in Haskell, receipts of the post office climbed from \$35,742 in 1953 to \$48,637 last year.

"There is not much we can do about how much mail we

have to handle from day to day or how many people are making use of the Postal Service," Postmaster Spain stated, "but the whole department keeps busy in devising ways and means for doing the job not only more efficiently but more economically."

The Great Wall of China, completed after centuries of labor by millions of workers, stood 20 to 30 feet high, was 25 feet thick at its base, and stretched for 1,400 miles—the equivalent of half across the United States.

Welcome—

to the NEW Republican Party of Texas
The Young Guard of Democracy

The NEW Republican Party of Texas believes in the principles of Thomas Jefferson, Andrew Jackson and Woodrow Wilson now abandoned by the leaders of the Democratic Party. The Democratic Party has buried those principles in its efforts to please the various and well organized pressure groups and others to whom those principles mean little or nothing.

We address this message to the rank and file of Texans who bear the brunt of all give-away programs through their tax load—the forgotten people of America and Texas, those who own a home, a business, a bond, a share of stock, a savings account, a pension—an earned share in America's future—and who would like to conserve what they own or hope to own.

In leaving the Democratic Party to vote the Texas way—as the majority of Texans voted in 1952 and again in 1956—Democrats are not deserting the party of Jefferson, Jackson and Wilson. The principles on which the Democratic Party was founded are still on the label

but the Democratic donkey of old is now a horse of a different color.

The time has come for Texans to see the two parties as they are today—not as they were 50 years ago.

The Republican Party embodies those principles upon which this country was built and on which Texans fought for and won independence—self reliance, individual initiative, limitation of governmental power, government which makes it possible for most citizens to do most for themselves—and then assists those who cannot provide the basic necessities for themselves.

Republican candidates need not apologize for their party's platform nor hide its intent from Texans as Texas Democratic leaders have attempted.

We, the Republicans of Texas, with your help will preserve the principles of sound, responsible and enduring government in America and Texas. We ask your help in electing Nixon and Lodge and in establishing a long-past-due two party system of government in Texas.

In proof of the above The State Democratic Convention in Dallas neither endorsed its candidates nor approved the platform. You are free to vote for Nixon-Lodge.

If you would like to help, complete and mail the attached coupon and we'll tell you how.

P.S. A small contribution toward good government would also be helpful. We need the money. The Kennedys are coming.

FRIDAY! THE GREATEST

SIXTY-ONE DOLLAR CHEVROLET

Here's the car that reads you loud and clear—the new-size, you-size '61 Chevrolet. We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees, and elbows the undisputed right of way. And the new easy-chair seats are as much as 14% higher—just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, head room has been upped as much as 2 inches, and there's more leg room, too—front and rear). Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.

There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10 1/2 inches lower.

INTRODUCING THE '61 CHEVY BISCAYNE 6

the lowest priced full-sized Chevy with big-car comfort at small-car prices!

Chevy's new '61 Biscaynes—6 or V8—give you a full measure of Chevrolet quality, roominess and proved performance—yet they're priced down with many cars that give you a lot less! Now you can have economy and comfort, too!

IMPALA 4-DOOR SPORT SEDAN—Impalas that bring you a new measure from the most elegant Chevis of all.

NOMAD 9-PASSENGER STATION WAGON—have a choice of six Chevrolet wagons, cave-sized cargo opening nearly 5 feet deep.

BEL AIR 2-DOOR SEDAN, like all '61 brings you Body by Fisher newness—more leg room.

Farsighted Seniors Have Money On Hand for Annual Class Trip

The 1960 Senior Class of Haskell High School has set a mark for all graduating classes of the future. Where most seniors spend their spare time working on money-raising projects for the traditional senior class trip, HHS seniors can relax in their final year with the knowledge that money for the class trip is already in the till.

This accomplishment, and a sketch of those responsible is told by Jim Koethe, staff writer, in the Wichita Falls Record-News Sept. 29. Featured with the story was a picture of Suzanne Lane and J. D. Stocks, Seniors, and W. P. McCollum, principal of High School.

The Wichita Falls newsman's story follows:

Merchants in this West Texas town will get a "break" this year.

Haskell High School seniors won't be trying to raise funds for their senior trip.

"Suzanne Lane, junior president last year, worked the kids so hard that we made a lot of money we need," said Stocks.

It'll probably be the first time in history seniors won't be selling articles for their trip.

Girl Stays Busy

"All we have to do is put on our senior play and minstrel," smiled Stocks.

"That's why the kids didn't elect Suzanne president this year," he laughed. "She just worked them hard last year."

But, insists Suzanne, Stocks should be president of the class anyway. "I have so many other things to do," she says, "and anyway, I can still advise J. D."

The 17-year-old daughter of Mr. and Mrs. R. A. Lane has something scheduled just about every hour of the day.

She Writes Column

She's a member of the Quill and Scroll Society, an honorary

Journalism society, the Owl Club, a Sunday School teacher, National Honor Society member, and was an alternate last year to Bluebonnet Girls State.

Along with that, Suzanne is drum majorette of the high school band, a job she has held the past two years. She worked on the school yearbook and is a member of the Spanish Club and the "Nine Teens," singing organization.

She spends Saturdays in Abilene taking music lessons, many evenings singing with her group for local meetings and in her spare time, helps her mother in the Lane-Felker Dress Shop here. She also writes a column for the school paper and The Haskell Free Press.

Boy Helps Father

Stocks, who was sergeant-at-arms of his junior class and was selected junior class favorite, also has a fairly busy day.

Besides being class president, he is captain in the band and spends many hours helping his father keep several trucks rolling.

"I like mechanics and help work on the engines," he says. He hopes to major either in music or mechanics in college.

Stocks attend Lone Star Boys State during the summer, where he was elected to the high-way commission.

Both students still work closely in government of the senior class, although Suzanne is not an officer.

The language of West Africa is Hausa, which is spoken by about 15 million people.

In the early days of Bermuda the offense of Sabbath-breaking, drew a penalty of two days in prison and a fine of 10 pounds of tobacco.

Oven Control Is New Feature of Gas Ranges

A gas oven which keeps food warm without continued cooking is one of many automatic features available on most new gas ranges.

The new control makes the oven an "oven-with-a-brain." This name was picked because the oven control closely parallels the popular surface burner control, "burner-with-a-brain," in accurate, automatic temperature control.

Gas ranges with the new oven control are available now. Special prices and liberal trade-in allowances on used ranges are being offered through November during a special campaign called "Range Round Up." The campaign is being conducted by gas range dealers and Lone Star Gas Company.

For the first time in cooking history, accurate temperature control down to 140 degrees is possible, an exclusive gas feature. Tests show this is the ideal temperature for keeping food warm without continued cooking. Your dinner can be delayed for several hours, then served without losing its original flavor and appearance.

With the new oven controls a roast cooked medium-rare will still be medium-rare several hours later. It can even be carved, arranged on a delicate china platter, returned to the 140 degree oven, and still be pink and tender when served.

The oven is a boon to users of frozen foods. A 7-pound turkey, for example, can be completely thawed in 2 1/2 hours, rather than the usual 28 hours in a refrigerator or 14 hours at room temperature.

"The oven-with-a-brain" also will accept the higher temperature settings of 500 degrees plus which are necessary for quality baking results. Now you can set it and forget it—sure that everything is under control.

1961 Corvair Rampside is inclined to save work

With an exclusive hinged side-loading ramp, the Chevrolet Corvair 95 light-duty truck offers economical operation, low loading height, easy handling and large cargo space for its size. It is powered by the rear-mounted 80-hp. air-cooled Corvair engine for low operating costs. On a 95-inch wheelbase, it has a loading height of 14 inches at the side gate and 26.5 inches at the rear.

May Obtain Proof Of Age From Census Bureau

Last year, 10,613 residents of Texas turned to the U. S. Bureau of the Census for help in proving they were born. These persons were among an estimated 30 million United States residents who are without proof of age or birth. The historical records of the Census Bureau provide the only source of this information for most of these 30 million people.

Proof of age or birth is needed today to collect social security and other retirement benefits. It is needed to obtain passports. It is needed to qualify for jobs carrying certain age or citizenship requirements. It is needed for some forms of insurance.

Since 1920, the Census Bureau has provided more than three and one-half million persons with copies of their Census records on age, place of birth, citizenship, or kinship. Persons seeking such records of facts about themselves should write to the Personal Census Service Branch, Bureau of the Census, Pittsburg, Kansas, for a Census Records Search Application Form. A fee of \$3.00 is charged for a search of not more than two censuses for one person and for one copy of the information found. Additional copies cost \$1.00 each. An expedited search costs \$4.00. Expedited searches are usually completed within a few days while the routine search may take up to 30 days, depending upon the backlog of requests and the ease or difficulty in locating the information.

The personal information in the records of the 1900 and later

Censuses is confidential by law and may be furnished only upon the written request of the person to whom it relates or, for a proper purpose, a legal representative such as guardian or administrator of an estate. Information regarding a child who has not reached legal age may be obtained upon the written request of either parent.

HOW ON WORTH! CHEVROLET

NEW '61 CHEVY CORVAIR More space... more spunk and wagons, too!

The newest car in America: the CORVAIR 700 LAKE-WOOD 4-DOOR STATION WAGON.

CORVAIR 700 CLUB COUPE. Like all coupes and sedans, it has a longer range fuel tank.

CORVAIR 700 4-DOOR SEDAN. Provisions for heating ducts are built right into its body by Fisher.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

Here's the new Chevy Corvair for '61 with a complete line of complete thrift cars.

To start with, every Corvair has a budget-pleasing price tag. And Corvair goes on from there to save you even more. With extra miles per gallon... quicker-than-ever cold-start warmup so you start saving sooner... a new extra-cost optional heater that warms everyone evenly. Riding along with this extra economy: more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more usable trunk space).

And our new wagons? You'll love them—think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to have to see—it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.

Spare tire is in the rear in coupes and sedans—leaving more luggage space up front.

Now in production—the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

LOOK WHAT DODGE HAS DONE FOR COMPACTS

The name, Lancer: one hardtop; one 2-door sedan; two 4-door sedans; two wagons. What kind of cars are they? This kind: two feet shorter; many pounds leaner; a couple of hundred dollars less in cost than usual automobiles. Lancer welcomes a family of six lavishly. Has plenty of trunk. Its fully-unitized body is very quiet, very tough. Lancer is also mannerly. It corners decisively, takes a well scarred road with aplomb. Parks obediently. More reasons to buy? Read on. The interiors are rich, but simple: Shed soil, wear well, feel good. The engine is highly spirited, but extremely light on regular gasoline. One more thing, Lancer is built by Dodge. Our name is on it. This means Lancer will stay nice and shiny. How so? The body is rustproofed by an exclusive Chrysler Corporation process. Enough talk. Meet Lancer at your Dodge Dealer. Now.

BY VERN SANFORD

No angler likes to admit that he didn't catch a fish on any of his fish hunting expeditions. In fact, no person likes to admit that he didn't do anything he set out to do, or that he should have done, or that he even wanted to do.

Sorta reminds me of the minister who announced that his sermon for the morning would be about liars. He asked how many had read the 69th chapter of Matthew. A great many number of hands went up.

"You're the ones I want to especially direct this sermon to," he said. "The 69th chapter of Matthew."

Studies made by Heddon's

research experts reveal that no angler likes to admit that he was skunked, blanked, or white-washed. Yet it happens not once but often.

In fact, Heddon's survey shows that top-notch fishermen catch fish two-plus trips out of five. The other two-plus trips they get nothing but the enjoyment of being outdoors and "away from it all."

Of course, that's worthwhile in itself. But every fisherman goes fishing to catch fish. And to varying degrees he is disappointed when he catches none.

Actually the only man who never gets skunked is the one who never fishes. And if he does fish and says that he's never come home empty-handed, chances are he is one of those who swears he read the 69th chapter of Matthew.

Fortunately for mankind—a fellow remembers pleasures and successes more than he does unhappiness and defeat. Most every fisherman recalls the times when he makes the big catches and promptly forgets the trips when he draws the blanks.

Who was it who said "Hope springs eternally . . ." Well, spring or fall, the fisherman's hopes never dim. He's a determined cuss. More power to him!

Worms Woo Bass Talked to Bill Norton the other day and he was telling me that 90 percent of the fish are caught by 10 per cent of the fishermen. Bill's one of those fishermen who ought to know, because he has fished for 40 years.

Besides that, he is manager of Sportsman's Products, Inc., a Marion, Ind. firm that makes plastic worms.

Bill told me of some very interesting facts and I'd like to pass some of them on to you, to add to your own repertoire of tricks.

First, if you doubt the popularity of the plastic worm, just listen to this. His firm, so far this year, has sold almost five million. That's a lot of worms! In fact, Bill says it's a world record.

You and I know that fishermen don't buy lures, over and over again, unless they catch fish on them. So it's pretty evident from Bill's remarks that the artificial worm has turned out to be a mighty popular bait

with the fisherman. Hotter than hot is the way Bill describes them. And he sure has the figures to prove it. Latest product is their blue blue, floating plastic worm. It doesn't have a hook in it. To use it, Bill suggests that you mount a 2-0 weedless hook in the head of the worm. Then add a No. 7 split shot about 24 inches up the line.

Fish up and down the slopes, deep cliffs, and both sides of points as well as top of the ridge when you're fishing a point.

Now that he has told you where to do it—here's how to do it.

Drag the weight along the bottom so that the floating worm is suspended a foot or two above the bottom. Fish it slow. As the weight bounces along the bottom, or among the rocks or other underwater objects, it disturbs the sand or silt, thus attracting the fish.

For best results reel in three or four times slowly, then twist or bounce the weight lightly, just enough to attract attention. Repeat that procedure until retrieved. Allow two and one-half minutes to retrieve 60 feet. Then cast out again.

If you want to get some good action, Bill suggests that you tie a loose knot in the tail of the worm. Then cast out and follow the procedure outlined above. As the lure is retrieved the knot will untie itself. The water action will cause the worm to unkink. When it does, the worm will jump. This gives the worm added action.

Well, that's the trick we hadn't heard about. How about you?

VOTE DRY OCTOBER 11TH

Sponsored by Haskell County Civic Righteousness Council

Voters Will Ballot on Four Amendments to Constitution

Voters in the general election Nov. 8, in addition to balloting on public officials from president to constable, will also decide four proposed amendments to the Constitution of Texas.

A brief digest of the four proposed as follows:

NUMBER ONE ON THE BALLOT (HJR 39)—Authorizes the Legislature to create hospital districts co-extensive with

Lamar County, Hidalgo County, and County Commissioners Precinct No. 4 of Comanche County, and sets forth certain powers, duties and limitations.

NUMBER TWO ON THE BALLOT (SJR 6)—Increases the maximum permissible interest rate on bonds hereafter issued by the Veterans' Land Board to three and one-half per cent.

NUMBER THREE ON THE BALLOT (HJR 3)—This bill is what is known as the "Annual Salary Bill" for legislators. It provides for an annual salary of not to exceed \$4,800 for each legislator, and per diem allowance of not to exceed \$12 a day for the first 120 days of each regular session and for 30 days of each special session as maximum compensation for members of the legislature. Also it limits the regular session to 140 days.

NUMBER FOUR ON THE BALLOT (HJR 6)—Authorize the Legislature to classify loans and lenders, license and regulate lenders, define interest, fix maximum rates of interest, and provide for a maximum rate of interest of ten per cent per annum in the absence of legislation setting maximum rates of interest; provides that the rate of interest shall not exceed six per cent per annum in contracts where no interest rate is agreed upon; provides for the right of appeal and trial de novo in the event of cancellation of or refusal to grant any permit.

Stop for School Bus Required By Law

Thousands of children are now trooping back to school throughout Texas. Many of them will be transported by buses. Most people are careful when approaching a school bus which may be standing beside the road or school to pick up school children or to allow them to alight. However, we have already had some very bad accidents this year because a child or motorist, or both, were careless at that very time.

Most Texans are aware of the law which requires a driver to come to a complete stop when overtaking from the rear a school bus which has stopped to receive or discharge school children. After stopping immediately behind the bus, he is allowed by law to proceed past same at a speed "which is prudent, not exceeding ten miles per hour, and with caution for the safety of such children."

What many persons do not realize is that the very same rule applies when "meeting" a stopped school bus. While everyone is interested in protecting our children, unthinking violators of this simple safety rule greatly outnumber those who comply. Failure to follow the law in this case can lead to fines up to \$200.00 even when no accident occurs. Following an accident in which some child is injured or killed, the penalties are naturally much more serious.

Although the above rule does not always apply when passing a stopped school bus in a business or residential district of a town, the necessity for extreme caution even in those locations is obvious.

When it comes to overtaking and passing moving vehicles, exercise of ordinary common sense will generally keep a driver within the law. For instance, when passing a car it is only common sense to proceed on past it a safe distance before cutting back to the right side of the highway. Also, any driver would realize the danger of increasing the speed while another is attempting to pass him.

In the same category is the prohibition against passing on the right under most ordinary conditions. Of course, you may legally pass on the right in a few specific instances, such as when the vehicle is overtaken in making or about to make a left turn, or upon a one-way street with two or more lanes, or upon a four lane highway.

However, our traffic laws state that even when passing on the right is allowed, it shall be done only under conditions permitting such movement in safety. And, in no event should such passing be accomplished by driving off the pavement or main-traveled portion of the roadway.

Familiar to all are the no passing zones designated by dash lines placed to one side of the center stripe on our highways. Not so well known are the restrictions against cross-

Cotton Root Rot Kills Shade Trees, Shrubs

By F. W. Martin, County Agent

Cotton root rot is one of the most common plant diseases in Texas. Except for the Panhandle and High Plains the disease generally is found throughout the state. It is very common in heavy, alkaline soils. The disease first occurs in south-

Texas during the last of May, and has spread to north Texas by July. About 80 per cent of the wild and cultivated plants are susceptible in varying degrees.

Small shrubs and trees die suddenly after the first symptoms of wilting. Large shrubs and trees may die more slowly. The bark of affected roots is decayed and brownish. Woolly, buff or brownish, fungal strands are on the surface of the damaged roots.

The whole root system decays. Bark is rooted off the hard wood of the root. Roots slip out with comparatively less pulling effort.

Under moist conditions, with or without affected plants, mats sometimes appear on the soil surface. These mats are 2 to 12 inches in diameter, at first snow-white and cottony; later they appear tan and powdery.

The disease fungus generally invades new areas by continued slow growth through the soil from plant to plant. It may live in the soil for many years. The disease fungus is often found as deep in the soil as roots pen-

trate. The disease is controlled by the growth of resistant or immune trees and shrubs. Certain cultural practices may help prevent the disease from occurring more often.

For additional information ask your county agent for a copy of L-390, "Cotton Root Rot."

Early Bermuda settlers called the island chain "Virginia" to show their close connection with the affairs of the Virginia colony.

BEEF PER ACRE.

With the end of the growing season approaching us, it is time we take stock of our grazing resources, according to J. C. Yearly, Jr., Work Unit Conservationist, Haskell, Texas Soil Conservation Service. The Great Plains Conservation Program through the cooperation with the California Creek and Wichita-Brazos Soil Conservation District is a program that will assist you in developing the needs of your farm or ranch to better care for your livestock. Don't over graze during the winter months and leave your pastures and ranges bare to be ravaged by the spring winds. Take the advice of the OLD RANCHER for more beef and more grass.

433 Pay Fines For Fishing Without Permit

Wardens will begin another crackdown on persons who fail to buy their hunting and fishing licenses, according to the director of law enforcement of the Game and Fish Commission. New licenses were required after Sept. 1. Last month 433 persons paid fines for failure to have fishing licenses, according to the monthly report of law enforcement division. There were 546 arrests for the month, with fines and costs amounting to \$9,075.42. Five persons paid fines for

"telephoning" for fish. This is the illegal use of electrical devices in shocking fish.

Licenses were revoked on a dozen violators, including those who "telephoned" the fish. Others who killed deer out of season also got their licenses revoked.

"There is little excuse for a person to get caught without a hunting or fishing license," the director said. "Everyone knows such a license is required. They think they can get caught."

Safety Director Emphasizes Need Of Safe Driving

Safe driving must be made a personal habit of every motorist if the slaughter on America's highways is to be curbed, Joe L. Smetana, Safety Director of the Texas Farm Bureau Safety Department, declared Tuesday as he spoke prior to conducting driving tests at Haskell High School.

"Excessive speed is the greatest single cause of automobile accidents," Smetana said. In the demonstration which followed, he pointed out the conditions under which even 20, 30 or 40 miles per hour can be excessive, and Smetana added:

"When drivers know the true facts and base their driving on those facts, highway accidents will drop sharply."

Students and teachers took part in the tests which were conducted in a specially equipped car. The test driver was signalled to stop by an electrically controlled detonator. As the shell was fired, the street was marked with yellow paint. A second bullet was fired as brakes were applied and a third after the car came to a complete stop.

Distances between the spots were carefully measured to determine in feet and inches how far the car traveled before the driver applied the brakes, or the reaction distance, and how far it traveled after the brakes were applied.

Smetana emphasized the fact that a driver who observes the speed laws carefully is not a safe driver if he neglects many other items such as proper signalling for turns, approaching an intersection in the proper lane for a turn, the proper way to turn around, and many other things which he demonstrated in the test car.

The safety demonstration which was brought to Haskell under the sponsorship of the Haskell County Farm Bureau is part of a long range program of traffic safety now being conducted by the Texas Farm Bureau Safety Department.

WEEKEND VISITORS IN JIM MCKENNON HOME

Jimmy D. and Donald Ray Harris were weekend visitors in the home of their aunt and uncle, Mr. and Mrs. Jim McKennon of Munday. They also visited relatives in Haskell, while their parents, Mr. and Mrs. Larkin of near Abilene were in Monterrey, Old Mexico, on a business trip.

Artists Invited To Exhibit Work In Abilene Show

The West Texas Art Association will hold its Seventh Annual meeting at the YMCA, North 9th and Orange, in Abilene, Oct. 15.

Art work will be received from 8:30 to 10 a. m. The exhibit will be judged by Raymond T. Entenmann, director of the Fort Worth Art Center. Mr. Entenmann will discuss "Southwestern Art and Its Relationship to Current Trends" at the luncheon at 12 noon.

WTAA is open to any artist in this area interested in participating. The purpose is to acquaint the artists and the public with art production of West Texas.

Works should be original, independent of instructor or class supervision, of recent execution and not exhibited before in WTAA. Work must be delivered to host city before 10 a. m. day of meeting. Two entries in any medium may be shown by each artist. Dues of WTAA are \$2.00 per year.

Those interested in attending the exhibit, luncheon and the lecture by Mr. Entenmann and not entering works of art, will be charged an admittance fee of \$1.00. Price of lunch will be \$1.50. Dues and reservations for lunch should be sent to Mrs. C. A. McFadden 942 Santos, Abilene, Texas.

Art works winning citations will be sent to Laguna Gloria in Austin for the Annual Summer Citation Day. Art works winning Circuit Citation Awards will travel to various West Texas towns.

West Texas Art Association is interested in all artists.

Fred H. Ray Jr. Named Officer By Vets Group

Fred H. Ray, Veterans Service Officer for Haskell County, was elected director of the Veterans County Service Officers Association of Texas at the annual meeting of the organization held in Lubbock recently.

The association is composed of Veterans Service Officers employed in such capacity by various counties within the State of Texas. Frank Speer of Liberty, Texas, is president of the state organization.

Enhanced '61 Valiant Adds New Models

Valiant offers a more complete line of body styles for 1961 in the low-price, compact car class, in anticipation of even greater buyer demand for the most economical American-built cars. In addition to the four-door sedan and the suburban in two different series, there is now a two-door sedan in the V-100 series and a two-door hardtop in the V-200 series.

The 1961 Valiant has been improved in many ways for operating economy, durability, performance and smoothness of ride. In external appearance, it continues to accent the beauty of line and proportion which won wide acclaim when the car first appeared last year. Valiant offers air conditioning for the first time as a dealer-installed option.

CARD OF THANKS

We wish to express our heartfelt appreciation to friends, neighbors, and everyone for their many acts of kindness during the illness and death of our loved one. We are sincerely grateful to the doctors, to those who brought food to our home, for your comforting words, your prayers, and beautiful floral offerings. May God bless you in our prayer.—Mrs. T. F. Rainey and children. 40c

Dad! give your boy an "oil well" mechanical toy—only \$2.00

This is one of the most remarkable new mechanical toys of the year—so strong and easy to work that a three-year old can play with it... so interesting to operate that it appeals to boys in their early teens.

Secure an "oil well" coupon from your neighbor under the Humble sign. Mail it with \$2.00 to the address indicated. Within a week or two, your boy will have his "oil well" and you'll have a happy little "oil man" in your home.
